NEW POSTOFFICE TO BE FINEST IN CANADA

Hon. Robert Rogers Says the Toronto Building Will Equal Any on the Continent and Will Cost "Millions" — Financial Conditions Show Great Improvement.

Toronto is to have a postoffice which not only will excel every postoffice building in the Dominion, but will, when completed, rank with anything on the continent.

That the city is to have the finest building used for this purpose in the whole of Canada was the definite statement made by The World last night by Hon. Robert Rogers, minister of public works, in an interview at the King Edward Hotel.

Hon. Mr. Rogers arrived in Toronto last night from Ottawa, and as was announced previously, is to make an inspection of the Toronto harbor in company with the harbor commissioners. His visit is of even greater importance, however, and this fact was disclosed when he came out with the statement that the chief object of his being here will be to make a personal inspection of the site for Toronto's new postoffice, and that this is to be followed in short order by the calling for tenders for what is destined to be Canada's most magnificent postal building.

Location of New Building. The property on which the new building is to stand runs west from the present Adelaide street structure to Victoria street, north to Lombard street and stretches east from the present building almost to Church street, the entire space to be taken up by the new building.

It is the intention to build a wing of the new postoffice first. On the removal of the occupants of the old building to the section of the new structure one of Toronto's old landmarks will disappear, and in its place and covering the newly acquired land also will arise the great new building.

To Run into Millions. "Yes, the cost of the building will run into millions," said Mr. Rogers when questioned regarding the amount of money involved in the undertaking. "A most beautiful structure, and better than any building yet erected in your city," was the way he described what is to be Toronto's new postoffice.

Western Outlook. "When would the west fully recover from the effects of the financial stringency?" It had recovered twice as fast as the east was doing, was the minister of public works' quick response. The financial stringency was at no time felt half as badly in the west as it was in the east, he said, and with the tremendous crop now to hand the general outlook was splendid.

HUNDRED THOUSAND FOR BLACK FOXES

Owner of Prince Edward Island Farm Will Pay Spot Cash for Animals.

TACOMA, Wash., Sept. 22.—One hundred thousand dollars spot cash will be paid within a few days for ten pairs of Alaska silver black foxes raised on a farm in southeastern Alaska. The purchaser is W. B. Purdy of Boston, president of the Massachusetts Silver Black Fox Company, owners of the largest fur farm in the world, on Prince Edward Island.

One of the animals Purdy will purchase is worth nearly three times its weight in gold. This fox is a male, weighing a few ounces more than twenty pounds. It is the largest fox of its variety in captivity, the next finest specimen being on Prince Edward Island, and weighs about 15 pounds.

WESTERN GRAIN OVER THE N. T. R.

Hon. Frank Cochrane Says Government Road Will Be Able to Handle Grain This Winter.

The people can rest assured that the National Transcontinental will be able to handle the grain from the west," declared Hon. Frank Cochrane, minister of railways and canals, to The World last night.

Just back from an inspection of the National Transcontinental line, the minister of railways spoke from first-hand knowledge, and was able to give positive assurance that the carriage of wheat over the N. T. R. from the west to Cochrane, and thence by T. and N. O. and Grand Trunk to the seaports, would be an actual fact this winter.

Speaking of the condition of the roadbed, Mr. Cochrane said that he was delighted with what he had seen, and from this alone could promise that the line would be ready on time.

HERRICK CLAIMS SULZER GAINED

Does Not Concede Right of Lieutenant-Governor Glynn to Act as Governor.

ALBANY, N.Y., Sept. 21.—(Special.)—It would seem that in the rules adopted by the impeachment court and the seating of judges, of senators, challenged as hostile to Gov. Sulzer, the former executive has gained a series of advantages, rather than a set-back. Gov. Sulzer's counsel denies that the former had recognized Lieut.-Gov. Glynn as acting governor. The "advantages" claimed might be roughly enumerated as follows:

The adoption of the rules of procedure, providing that the rules of evidence of the supreme court shall be followed, was a big victory, because excluding hearsay evidence.

The challenging of the right of Senators Frawley, Warner, Rumpersperger and Sanner to sit in judgment on Mr. Sulzer, accomplished what the Sulzer counsel desired.

The seating of the three assigned members of the court of appeals, with the seven elected members, making ten judicial officers in all. This makes it necessary for the governor's Tammany foemen to recruit three more votes to expel Sulzer from office. Mr. Herrick for Sulzer, has never conceded the right of Lieut.-Gov. Glynn to act as governor of the state.

VIOLENT STORM SWEEPED HEAD OF LAKES

Rain, Sleet and Snow Raged for Three Hours in Twin Cities and the Gale Drove Vessels to Shelter—Big Steamer at Mercy of Elements.

FORT WILLIAM, Ont., Sept. 21.—(Can. Press.)—The worst storm to strike the head of the lakes for years broke on Saturday, when a fifty-mile gale, accompanied by rain and sleet, ending in snow, raged for three hours. Telephone poles were laid low, signs destroyed and trees uprooted by the wind.

On the lakes the vessels were driven to shelter and ten could be seen from the city lying in Thunder Bay. Eighteen more were reported in the shelter of Thunder Cape and more beside Isle Royale. Four ran into Jackfish Bay on the north shore. The Noronic, under construction at the drydock and destined to be the largest passenger boat on the lakes, broke from her moorings in the wind and was driven about fifty feet along the channel until she went aground on the side of the slip. There she was pulled off by tugs and towed back to her place. She was reported as being unharmed.

On account of its more exposed position, Port Arthur suffered more from the storm than did Fort William. In the hill city there were 500 telephone poles put out of commission. For two hours the street railway was without power.

In Fort William a telephone pole falling put ninety lines out of order and also interfered with the fire alarm system.

BOYS ARE HELD FOR BURGLARIES

Twelve Youths Alleged to Have Ransacked Parkdale Stores During the Past Month.

Charged with robbing at least five stores in the west end of the city, within the past few weeks, twelve boys ranging in age from thirteen to sixteen years, will appear in the juvenile court today. The lads were all taken into custody by Detective Jarvis on Saturday night, after he had worked for many days on the case. As the result of Jarvis' activity, a considerable quantity of the stolen goods was recovered.

Four of the stores entered by the boys were: Reach Sporting Goods Company, 243 Macdonnell avenue, large number of empty uniforms and balls taken; Angus Reidman's Candy Store, 125 Fern avenue, from this place the boys lifted 1100 packages of gum and four sacks of grab bags. The William Davies Co. store at Fern and Sorauen avenues, was also entered and goods taken. The store of the Tamblin Drug Company, at Queen and Macdonnell, was also broken into and articles stolen.

In investigating the case, the police discovered that the robberies evidently were the work of amateurs. Detective Jarvis noticed that certain boys seemed unusually well-equipped in the sporting line in comparison to other years when he had seen them. There also seemed to be no scarcity of gum around certain fields where the youngsters met to play.

When the Reach factory was entered, Detective Jarvis secured a real clue and on Saturday night he gathered the boys in. They were taken to the shelter, and will come up today.

MRS. MARGARET CARROLL DEAD

CARROLL, Sept. 21.—Mrs. Margaret Carroll, widow of the late Henry Carroll, M.P. for East Bruce, died today after a two weeks' illness. She leaves one son, W. D. Carroll, who is the Conservative candidate in the South Bruce by-election for the house of commons, and two daughters, Mrs. W. H. Bennett of Midland and Mrs. Wilson M. Southern of Ottawa.

WALKER BARRISTER NOMINATED

LONDON, Sept. 20.—(Can. Press.)—R. G. Fisher, barrister, of this city, was today nominated by the East Middlesex Liberals as a candidate in the by-election for the commons. There was a demand for Warden Murray, a well-known Westminister farmer, but he declined to stand.

"The Quaker Girl" Tonight. The demand for high-class musical comedy will be supplied this week at the "Princes" Theatre, where "The Quaker Girl" will be presented each evening and with the usual matinee. The engagement begins tonight.

Didn't Celebrate Triumph

OTTAWA, Sept. 21.—(Special.)—Premier Borden arrived home today from Nova Scotia. During his commensurate the second anniversary of the Conservative party to power on Sept. 21 several cities wished to honor him at the premises, but Mr. Borden declined. All the ministers excepting Doherty, Poirer and Crothers, who are absent, have been summoned for cabinet sessions during the coming week.

SUDDEN DEATHS AFTER SCANDAL

Eight Persons Killed Themselves, Fourteen Arrests Made, and Breslau is Greatly Shocked.

Special Cable to The World. Copyrighted by The Toronto World and N. Y. World. BERLIN, Sept. 21.—A dozen or more sudden deaths of prominent citizens of Breslau in the last few days have led to the discovery that at least eight of these persons killed themselves to avoid disclosures affecting their private lives. They were involved in a common scandal.

Fourteen arrests have been made, and the city is stirred by the revelations. A number of doctors and dentists, a wholesale baker, a swimming teacher and a retired police official are among those accused, and who either have committed suicide or have been taken into custody.

Seventy-five girls, some of them under fourteen, figure in the case, and it is alleged by the police that the parents of a number of the girls encouraged the festivities, which took place nightly in certain private residences. The scandal was mainly centred in the suburb of Ohlau, where the police got wind of it a few days ago. Fourteen arrests were made and a large number of persons were placed in the establishment of a detective bureau. Numerous other arrests have since been effected. The number of girls concerned is stated to be seventy-two. Among the men arrested are an officer, a retired police lieutenant, a baker, an owner of a hotel, a builder, a confecturer and the owner of the public bath.

MAYOR OF ROME AROUSES VATICAN

Anti-Catholic Utterances Branded as "Vulgar, Impious and Grotesque."

ROME, Sept. 20.—The Vatican organ, The Osservatore Romano, strongly stimulates the anti-Catholic utterances of Ernest Nathan, mayor of Rome, at the commemoration yesterday of the anniversary of the fall of the temporal power. It characterizes the speech as "vulgar, impious, perverse and grotesque," and Mayor Nathan as "a ridiculous imitation of a civic magistrate and an exotic combination of Judaism and Freemasonry."

The paper adds that Mayor Nathan is "a worthy orator to commemorate the fall of temporal power, as his words, especially abroad, will excite only hilarity and pity."

BANK ROBBERY SUSPECT HELD

Houlihan, Arrested at Detroit, Found in Possession of Bank of Montreal Bills.

DETROIT, Sept. 20.—(Can. Press.)—William, alias "Big" Houlihan, said to have a long prison record, was taken into custody here this afternoon and detained while the local authorities communicated with the Bank of Montreal concerning the \$27,000 bank robbery at New Westminster, B.C., more than a year ago. Houlihan carried \$250 in Bank of Montreal bills when taken into custody, and it is alleged that the bills answer the description of some of the money taken in the New Westminster robbery.

After several hours of investigation the police said tonight that they were convinced that the serial numbers on the bills in Houlihan's possession had been altered, and that he would be detained pending further investigation. When questioned, Houlihan is said to have refused to tell where he obtained the money or where he had been staying before the authorities took him into custody.

ITALIAN STABBED BY COMPANION AT MIMICO

Friends Quarreled Over Two Dollars and One Was So Badly Wounded That He Cannot Recover—Assailant Made Two Attempts to Escape on Way to Police Station.

Following a quarrel over two dollars at the Italian colony at Mimico railway yards yesterday morning, John Galardo (John Giovanni Galardo) received such serious stab wounds that he will die. Amelio Fucio (Emilio Fucio) was arrested a short time later by County Constable George Simpson and is held on a charge of wounding with intent. Fucio made three desperate attempts to escape from custody. At Grace Hospital early this morning only the faintest hope was held out for Galardo's recovery. In an ante-mortem statement made last night Galardo accuses Fucio of inflicting the wounds.

The stories told by Galardo and witnesses of the stabbing affair conflict. It appears that the whole trouble arose over the failure of Galardo to purchase flowers for a nurse at a local hospital with \$2 given him for this purpose by Fucio. Both men had been patients at the institution and felt grateful for the kind treatment accorded them by the attending nurse.

Some months ago Fucio had one of his legs broken at Port Credit while working on the grade gang. He was taken to the hospital, and a short time after Galardo was admitted suffering from a crushed foot, which he had sustained while watching the railway crossing at Church street, Mimico.

BRITONS LOSING LEAD IN SPORTS

Defeat of Vardon by Young American Golfer Moves British Press to Some Serious Reflection.

LONDON, Sept. 21.—(Can. Press.)—The Weekly Dispatch, in an editorial headed "Lost Championships," asks: "Is British sport to suffer a total eclipse?"

The Dispatch adds: "The last Olympic games were a heart-breaking exhibition of our athletic decadence. Now we have had the bitter reflections of reading of the defeat of the great Vardon. We cannot help feeling that American methods, thorough and perfect self-control played their part."

The Sunday Times says: "That the greatest representatives of British golf failed to win the American championship will be the cause of national regret, and not a little amazement. But all other feelings are extinguished in admiration for the wonderful feat of Gulmet, who proved himself to be one of the greatest golfers. It has ever been heretofore that British golfers regarded the American championships as something they could pick up or leave alone, as the spirit moved them. Henceforward that will not be the case."

GREATEST GENERALS WILL AID ULSTER

Sir Edward Carson Asserts Pledges Have Been Given Him.

LONDON, Sept. 20.—(Can. Press.)—Sir Edward Carson, leader of the Irish Unionists, is now engaged in reviewing the volunteers at various places in Antrim. Speaking at a demonstration at Antrim Castle today, he pointed to Gen. Sir George Richardson, who holds the post of general officer commanding the volunteers, and said: "We have our general on the platform. The radical press is exhibiting some emotion at the presence of this great general among us. I tell the government that we have more. We have the pledges of some of the greatest generals in the army that they will come over and help us keep the old flag flying when the time arrives."

KILLED BY CAR ON DUNDAS ST.

Daniel Shea, Owner of Old Log Cabin, Run Over Near His Home.

While crossing the Dundas street car tracks at the corner of Dundas street and Stirling road late Saturday night Daniel Shea, aged about 50, was instantly killed when struck by a westbound College car. Not much is known about Shea except that he lived with his sister in the oldest log cabin in the city, situated south of and nearly under the Dundas street bridges. An inquest will be opened today by Dr. J. M. Cotton.

Evidently Shea was coming off Stirling road to cross Dundas street on his way to his home. The tracks at this point run close to the curb. He failed to notice the car, and it struck him. Conductor E. Pullan and Motorman J. Ford, who were in charge of the car, picked Shea up and carried him to the car barns at Howard Park avenue. He was dead when they reached there. The body was removed to the morgue in the police ambulance. Shea was the second man to be killed at the same point within the past six weeks.

THRESHING ACTIVE IN SASKATCHEWAN

Thirty Per Cent. More Machines at Work Around Regina.

REGINA, Sask., Sept. 21.—(Special.)—Farmers report that there are at least 30 per cent more threshing machines busy in this district this year than last, and the work is being rushed. One farmer reports 50 bushels of wheat the acre, and a lot of prize grain is expected. There was considerable frost here last night. Today is clear and warmer.

Cities of Niagara Peninsula Should Get Together to Break Dead-LOCK—Great Development Certain in "White Coal" District.

By a Staff Reporter. ST. CATHARINES, Sept. 19.—The curve St. Catharines, with Merritt and Thorold, has close to 25,000 people, while Welland, Queenston and Niagara Falls are further centres in a district which will eventually form as densely inhabited as Greater London with its 10,000,000, or Greater Manchester with its 12,000,000, the most thickly populated spot on earth. But if Ontario is wise the people will not be so closely crowded.

The beauty of the country will not be lost, nor its purity polluted with half-consumed carbon. Electricity has already revolutionized the factory towns and the atmosphere will remain breathable in the lives of industry in this pleasant field of labor. There are the most of a million people today in Toronto and St. Catharines and the region around about. How long till they are multiplied by ten? Three generations. What is being done to prepare for them? Definitely and intentionally nothing at all.

All this comes home to one very forcibly on seeing St. Catharines after an interval of some years, during which the population has doubled. It was 11,000 in 1911. It is 16,000 today. The customs returns were \$268,798 for the year 1911-12, and \$662,371 for the year 1912-13. This is a 90 per cent increase.

RED LETTER DAY TO SONS OF ITALY

Local Colony Royally Celebrate Forty-Third Anniversary of Freedom.

TWO HUNDRED PRESENT Banquet at Italian National Club Saturday Night Had Many Speakers.

Sept. 20 is a memorable day in Italian history, and in the countries of the world where Italians are to be found that day is the most important on the calendar. In Toronto, as well as in all other places in Canada where the children of sunny Italy have fixed their abode, carnival high on the day on which the forty-third anniversary of the establishment of freedom in the land where their fathers were born. For so many centuries was celebrated. It was in honor of Sept. 20, 1870, that some two hundred Italians gathered in the spacious rooms of the Italian National Club on Saturday night, when Manager C. M. Thresh, that establishment, open to his compatriots in celebration of the unification of Italy and the obtaining of freedom for her sons.

The gathering would undoubtedly have been much larger had it not been for the unfavorable weather conditions, but even so a very patriotic and enthusiastic assemblage was present. Over the arch of the doorway hung a picture of King Victor Emmanuel, while on the walls hung the Canadian ensign, and on the right was draped the tricolor of a united Italy. The name of Garibaldi was on every tongue, and the remarks of the speakers could not be understood by an Anglo-Saxon there was no mistaking the sentiments expressed. "La Belle Italiana" and "Garibaldi" were often repeated, and they were generally the signal for enthusiastic outbursts. One speech was made in English, and it was very well delivered, dealing comprehensively with the details of a struggle for freedom in which all Italians are vitally interested.

Musical Features. The musical features were not wanting, either, and the orchestra which rendered musical numbers during the evening again demonstrated that the Italians are a very music-loving people. The Italian royal march evoked hearty applause from the floor. In the gathering of the familiar strains of the "March of the Soldier" and "The Italian Soldier" were also present. Messrs. V. Piccinini, Joseph Gliona, Dr. George Gliona, Dr. Harley Smith (Italian consul), H. Corri, editor of La Tribuna Canadiana, Francis Nicoletti, president of the Italian Club, R. V. Gliona and M. Sacca. A distinguished visitor in the person of V. E. H. Corri, who was also present and gave an address.

The Italian societies were strongly represented, many of the members of Umberto Primo and Victor Emmanuel Societies being noted. Telegrams of congratulatory nature were received from Mr. A. J. Cowan, M.P., who expressed regret at not being able to be present.

Mr. Joseph Gliona in his speech said that the Italians in Italy, in their colony here and in the various countries of the world where Italians were to be found were all celebrating the anniversary of the obtaining of Italian freedom. The career of the famous Garibaldi was described in detail, and the recalling of the struggles of this patriot in striving for the freedom of his country evoked very great applause from the audience.

Dr. Harley Smith and H. Corri, as well as nearly all the other speakers of the evening spoke in the native tongue, but the applause that punctuated their remarks indicated in no uncertain manner the kind of sentiments which they expressed.

The patriotic gathering broke up with three cheers for King and country.

Law Should Stop Sale of Elastic and Spring Trusses

Such Misery-Causing Makehifts Are the Ruptured Man's Worst Enemies.

HOW 60 DAYS TRIAL PROTECTS YOU.

Depending on elastic or spring trusses like shown above is less than slow suicide. Such contraptions are almost sure to shorten your life.

It's hard to make them hold, even when drawn so tight that they scarcely give a minute's peace. They are simply a course to wear.

And because they nearly always let their springs get worse all the time they are yearly forcing thousands of people into making their lives by undergoing operation. These unscientific makeshifts cause so much misery and such a shameful waste of money that the law should put a stop to their sale.

DON'T BUY ANYTHING FOR RUPTURE WITHOUT GIVING A THOROUGH TEST

There's only one reason in the world why you or anyone else ever gets saddled up with goods for nothing. It's because you didn't try 'em first. It's simply because you trust to a mere try-on or hasty examination instead of first making a thorough test.

A trust or so-called "appliances" may seem tight when you try 'em on and afterward prove utterly worthless.

The only way you can ever make sure of exactly what you are getting is by sixty days' trial—a thorough day-after-day test. There's only one thing of any kind that you can get on such a long trial.

Only one thing good enough to stand such a long, thorough guaranteed rupture holder.

ONLY THINKING RUPTURE ENOUGH TO STAND A 60-DAY TEST

Well, make you a rupture rupture holder—make it to your measure—and let you give it a thorough 60-day test without making you a cent.

If it doesn't keep your rupture from coming back, or bothering you in any way, no matter how hard you work or strain—if it doesn't prove every other day that it's made of such good stuff and it won't cost you a single penny.

Builders Coming Back Into Market With Return of Cheaper Loans.

MONEY NOW EASIER

High Priced Houses on Helliwell Estate Sold Without Roof.

The real estate man's optimism of a few weeks ago is turning into enthusiasm. Money is loosening up and builders are buying again. That means the market is enjoying the best boost it could get.

Building loans are now obtainable at 6 1/2 per cent. from almost any lender. The only place where more is being asked is at the loan companies, and there are quite a few men around town who frankly say the companies are oversteering themselves in keeping their rates at 7 per cent. and higher.

The drop in rates had to come. For three months very little money has been used for building purposes, although the supplies have kept accumulating. In some quarters there is a distinct surplus of ready cash. Then out comes the man who is selling a record crop, or a high yield and very high grades. In Toronto the demand for the builders' wares has steadily held, and with a limited amount of construction has become many times greater than the supply. H. H. Williams, E. A. English and other firms dealing in houses, say they never sold so many as now. Eachens said that the sale of building land is becoming quite prominent.

Last Thursday A. C. Don, a builder, bought 400 feet in Kingsmount from them; he will build 20 houses. On Friday W. A. Gardner purchased 200 feet in the same place for ten houses. Martin & Co. are starting five houses in Rivercourt that will cost \$7000 each. During the week 1200 feet was sold in this addition, and mostly for building use.

"There is no difficulty now in getting building loans. All the legal firms that we get building loans from have plenty at 6 1/2. Money is easier now than it has been since the untimely death of Mr. McEachern. On Helliwell estate there are 24 \$5000 houses with "sold" signs on them, and six of these houses are still without roofs."

MONDAY'S ADDED LIVE STOCK MART

Toronto Live Stock Exchange Prepares to Meet Buffalo Conditions.

The Toronto Live Stock Exchange decides to notify all drovers and handlers of live stock that commencing on Monday, Sept. 22, Mondays will be added to the usual market days, with hours of business from 9 a.m. to 4 p.m.

The above was decided upon yesterday at a meeting of the exchange in which the various firms in connection with the trade were discussed. Owing to the new tariff, the local market will be forced to compete with the Buffalo market, and as Monday is one of the market days in the city, it was decided to add it to the list here, as well.

Public Reception to General Booth

Leader of Salvation Army Will Attend Annual Congress Here.

General Bramwell Booth has announced his acceptance of the invitation to be present at the annual congress of the Canadian branch of the Salvation Army, on November 5, in the Toronto headquarters of the army.

Landing at New York, Gen. Booth purpose coming to Toronto, expecting to arrive here at noon on Saturday, November 1. After being tendered a welcome at the station by Mayor Hookton, on behalf of the city authorities, a public reception will be given for the distinguished Salvation Army leader. Three speeches will be given on Sunday by General Booth at Massey Hall, where morning, afternoon and evening meetings will be held. At one of the sessions, probably in the afternoon, His Honor Lieutenant-Governor Sir John Gibson will preside.

At the three days' congress General Booth will, of course, be the most prominent figure, and it is likely that he will deliver a number of addresses. On the day following the close of the congress, he will leave for Winnipeg, and on the conclusion of a brief stay will embark from Vancouver for England, ending what will be his first Canadian visit since attaining the position of leader of the Army.

AN INCONVENIENCE OF TRAVELING.

How It May Be Remedied.

One of the inconveniences of traveling is the difficulty of discovering the name of any particular station the train may stop at or may pass. In this respect, something might be done to train parties to call out distinctly and clearly the name of the station where a train stops. Or an automatic device might be devised by means of which the name of the station being approached might be shown on an indicator inside such compartment. But, failing this, a general perfection of the best thing travelers can do is to secure a pair of glasses from the Royal Opticians, 231 Richmond Street, under the House of Hoebberling, and then they will have no difficulty in seeing clearly and distinctly the name of the station, whether the train is in motion or not.

MISSIONARY WORK WITH THE ESKIMOS

Bishop Stringer Gives Very Interesting Address at St. Mark's Church.

THE YUKON DISTRICT

Many Hardships Undergone by Those Engaged in Spread of Gospel.

The parishioners of St. Mark's Anglican Church were given an opportunity of hearing some very interesting facts concerning the missionary work being done in the Yukon by Bishop Stringer, who for the past twenty-one years has labored in that district, delivered a very interesting address on the subject at the morning service yesterday.

In glowing terms he referred to the heroic work of Archdeacon MacDonnell and the late Bishop Boninus, who preceded Bishop Stringer as bishop of the Yukon, in laboring among the Eskimos in Mackenzie River, and the other missionaries who were forced to undergo in spreading the Gospel.

The speaker devoted considerable time in telling instances to show the faithfulness of the converts. He mentioned especially the case of a merchant, who did not profess to have anything to do with the church, but who was so struck with the change effected in the converted natives that he built at his own expense a new church in a district in which it was badly needed.

Bishop Stringer closed his address with an earnest appeal for more missionaries to continue the work in this region.

The bishop is a native of Bruce County, and about twenty-one years ago he engaged in missionary work in the north country. Twelve of these twenty-one years were spent within the Arctic circle. About five years ago the newspapers devoted considerable space to his experiences and hardships while lost in this district.

Bishop Stringer attended the provincial synod at Winnipeg a few days ago, and came east to be with his friends and his youth. He intends going to England before returning to the Yukon, as he is intimately connected with the Anglican Missionary Society in England.

SOLDIER SHOT DEAD AT RANGE

Member of Princess Louise Dragoons Accidentally Killed in Shooting Match.

OTTAWA, Sept. 20.—Stanley Harris, a member of the Princess Louise Dragoon Guards, was accidentally shot dead at Rockcliffe Range this afternoon.

The duodecennial match, a shooting and rifle competition among the regiments of the army, was in progress, the various squads being lined up ready to shoot. One of the men in the squad behind that in which Harris was standing was engaged in loading a rifle magazine when it went off.

The bullet took effect in the unfortunate man's side, and he died within a few minutes. He leaves a young wife and infant child.

VISIT OF JOAN OF ARC IN VISION

French Girl Declares She Received Financial "Tip" From the Spirit.

PARIS, Sept. 20.—The simple country folk of Abome in the department of Aude, are greatly concerned by reports of miraculous happenings in the neighborhood. Two persons, named Jeanne Perronnet and Marcelle Lambert declared to the great awe of the villagers, that on several occasions Joan of Arc had appeared to them in visions.

The more favored of the two girls, Jeanne, has even gone so far as to couple a written record of the supernatural message which she states she has received. In one of these the national heroine expresses a wish that a chapel should be built in her honor at the spot where she had appeared.

In another message the heroine of history concerns herself with mundane matters. She recommended that the family of Perronnet should come to an arrangement to purchase a vineyard belonging to one of their neighbors and added that this would turn out an excellent speculation.

KINGSTON WANTS HYDRO-ELECTRIC

Cheap Power is Urgently Needed for City's Future Industrial Expansion.

KINGSTON, Sept. 20.—(Special.)—There is another agitation for cheap power from the hydroelectric commission.

The matter was taken up by civic bodies some time ago, but allowed to drop. Now that the way has been cleared for Hon. Adam Beck to introduce his bill for the construction of a dam at the falls, steps should be taken at once to get under way.

The Meaning of Play

No one who has had any chance to study childhood will challenge the assertion that its most characteristic manifestation is play. At play a child is perfectly natural. He is under no constraint, but freely gives way to his own impulses and ideas. Therefore to study a child when he is most himself, watch him when at play.

Many childish plays originate in a desire to exert force, or to try it against the force of others. Think of the most popular games; they all embrace some form of energetic exercise, running, jumping, throwing, wrestling in competition with others. Did it ever occur to you that the impulse which makes your baby push his feet against you, or as we usually say, "feel his feet," is exactly the same impulse that makes his older brother play baseball? The delight they both feel is in the consciousness of force and the desire to overcome resistance.

We can go farther into the examination of the impulse and realize that by measuring himself against others he compels them to recognize his strength, and thus satisfies that craving for recognition, which is the deepest hunger of the human heart. Other games spring from a desire to understand things. "What the child imitates," says Froebel, "he is trying to understand." And so the baby makes a sound imitating the bark of the dog, the moo of the cow. He tries to creep or fly or spring like the animals and birds that he sees. His unconscious thought is, "I will be each of these things, that I see."

Again, a child will turn into play, real things he has found out in life. The little chap who has had his first trip to the island will play with a ferry boat or will float chips in a pan of water for days after. This fact fully grasps a new fact or a new experience, he relieves it over in his play to show his understanding of it.

Phobias, he sees around him the child creates his little world of play, stamping of life.

THE OPENING of the Lankow concert on Thursday evening in Massey Hall marks the introduction to what promises to be one of the greatest seasons ever seen in Toronto. Mr. Lankow's high standing with the Metropolitan Company and the classical program that he has chosen has created a heavy demand for seats, and a large and fashionable audience will render the occasion a memorable one.

Mr. Lankow's voice, in depth and delicacy of tone, is said to be little short of wonderful, while his skill and artistry on the concert platform has won the highest encomiums from metropolitan critics. He will have the assistance of Miss Mary Campbell, pianist-accompanist, and Mr. Joseph Sheard, cellist. The concert will begin at 8.15 sharp.

LANCOW CONCERT THURSDAY NIGHT

Toronto's Musical Season Will Be Opened by Famous Singer.

"The Old Homestead," Denman Thompson's "The Old Homestead" opens this morning at the Grand Opera House.

Stratford-on-Avon Players. It will interest all lovers of the legitimate drama to know that the Stratford-on-Avon Players, headed by J. R. Benson, the famous director of the Shakespeare Memorial Theatre in that town, will play at the Princess Theatre during the week beginning Oct. 27. The company sailed for Canada last week, and on Saturday, and prior to the Toronto engagement, will spend three weeks in Montreal and other Canadian cities.

Readers of cable despatches are aware that Mr. Benson was tendered a luncheon in London on Thursday last, to bid him goodspeed. The greatest living Shakespearean authority, Sir Sidney Lee, presided, and the speakers included Sir Johnstone Forbes-Robertson and other well-known figures. The Canadian tour is under the direct patronage of Duke of Connaught, who is a great admirer of Mr. Benson. A repertoire of the organization includes 16 separate productions of dramas by Shakespeare and other great masters of the modern genre, John Mansfield. Eight of these will be seen in Toronto.

The Mischief Makers. Jean Bedin's Mischief Makers will be the attraction at the Star Theatre this week, and from an advance notice, is bound to bring capacity houses to the Temperance street house. The great Symbolin Run will be used, and in order to do so it will necessitate the abolishing of the front row as the run extends further than the orchestra pit, to accommodate the girls at the same time. Miss Sadie Feldman, a Toronto girl plays the soprano, and from reports is bound to be the talk of the town.

AT THE THEATRES

The Quaker Girl. The dainty English-musical success of three continents, "The Quaker Girl" returns to the Princess Theatre for an engagement of one week. The cast this time is headed by Victor Morley, the English comedian, who will be favorably remembered as principal comedian in last season's "The Quaker Girl." This year will be played by Miss Bernice McCabe, a little English lass seventeen years, who has been loaned to the American management of "The Quaker Girl" by Mr. George Edwards until April next, when she is to return to London and become a permanent member of the London Gaiety Co. She was understudy to Miss Gertrude Miller, the original "Quaker Girl," and when the production was transferred from the Gaiety to the Adelphi Theatre, Miss McCabe was given the leading role. The balance of the cast has been made up from the two companies that were out last season, and as a result, an excellent one was secured. The song hits in "The Quaker Girl," "Come to the Ball," is the most popular of this delightful musical piece.

The Garden of Allah. A wonderful insight into desert life with its camel, the dancing girls in Beni-Mora, their belligerent Arab lovers, the bleating goats and kindred sounds of Oriental life that strike the ear, the brilliant sun on the walls of the monastery, and the strange lights that play on the sky that marks the far-off end of the horizon, are vividly presented to the spectator of "The Garden of Allah," which comes to the Princess Theatre next Monday for a week's engagement. The famous gardener of Count Antonio, with his massive palms stretching in aisles to their sunlit outlet far away on the desert, its crimson exotics and scarlet blooms, the gentle, in short, of the entire spectacle, never fails to elicit unbounded admiration, beautiful as the rest of it is. Every character is augmented, orchestra, scenic effects, and the beautiful written lines fly to clinaxes where the real art of the superb company of players is brought forth.

Fiske O'Hara in "In Old Dublin." Fiske O'Hara's voice and engaging personality, will be the central figures of the splendid company that is booked to present the musical comedy "In Old Dublin," at the Grand all this week. The big tenor with his handsome face and stalwart figure, makes an ideal hero in the comedy romance which the veteran author has written for him, and it is said that never before has he been so happily fitted with a play. The character of Nell Powers, the young boat designer, fits him like a glove, and his excellent training, makes an ideal dramatic production, serves him in good stead when the dainty little scenes with the charming Rose Stratford are being played.

The Big Frolic. Margaret King, the dainty little singing and dancing troubadour, well-known here from former visits, is this time the star of the "Big Frolic," a very beautiful show, and will be seen here at the Gaiety Theatre this week.

Miss King is appearing in a delightful comedy, "The Big Frolic," this season, and is seen in the dances which have made her popular in musical comedies. The "Big Frolic" is "Splash, Splash, Splash," which is said to be a sensation. Her gowns are said to be most elaborate.

COMPLETE STORY IN ONE VOLUME

Covering More Than Four Hundred Years of Activity in Isthmus of Panama.

Since the eyes of the entire world are now focused on that little narrow neck of land which connects the two Americas, the natives of that part of the globe are beginning to wonder if anybody has ever before known of their existence.

Willis J. Abbott, the author of the new book on Panama and the canal, takes his readers back to the year 1500, at which time it is said, the first European to see Panama.

He describes the people of the Isthmus, telling of their customs and dress, their home life and social activities, their sports and pastimes. Intertwoven with these beautiful word pictures are hundreds of photographic reproductions which accurately portray the scenes in the text. Many of these pictures were taken far from the path of the tourist, and show the almost unutilized natives who live in the jungle and who are quite unknown outside of their own little world because of the great difficulty in reaching them. Such illustrations are rare and are to be found only in this book. Beautiful lantern slides, plates also abound, throughout the book, and these are reproduced in splendid full pages from water-color studies. No book of a similar character contains such a wealth of magnificent color.

There is a world-wide interest in Panama at the present time, and information on the subject will be welcomed by all who wish to keep abreast of the times. Realizing this situation, The World offers "Panama and the Canal in Pictures and Plans," the popular plan explained in the certificate which is printed daily elsewhere in these columns. Look for it today and clip it with care.

COUSINS TO ADDRESS AD MEN.

Chief Engineer of Harbor Commission Will Speak at Tuesday's Luncheon.

Next Tuesday, Sept. 23, Edward L. Cousins, chief engineer of the Toronto Harbor Commission, will address the luncheon at the club at the club-rooms, 194 Yonge street.

His talk will be a comprehensive exposition of the Toronto harbor scheme and what it means to the commercial and other interests of the city.

Cousins will illustrate his remarks by means of an electrically lighted lamp.

The luncheon will be held at 12.30 sharp, and a full attendance of club members is expected.

Looking Around.

The summer over, autumn well on its way, bulbs all snugly in their beds, the wise and thoughtful gardener will seize the opportunity given in the next few weeks before the frost sets in for good, to make several improvements on the garden plan of the past seasons.

No matter how well and carefully planned the garden has been, no matter how luxuriant and altogether satisfying the bloom has been, nevertheless, no garden has ever been perfect. For does any gardener ever plan his layout the same year after year?

In the summer just gone our observant gardener has no doubt seen several new plants that he has decided to make his; has observed a few new garden tricks that he himself can make use of; has decided on improvements, on changes, on things to be added and things to be discarded. All means work.

The three or four weeks between bulb planting and the arrival of mulching time presents a good opportunity of carrying out these several plans.

For instance, perhaps our gardener has decided on making a rockery, or rock garden, or perhaps he has decided to add a water garden, to add to the restful attractions in some hidden corner at the back of his lawn.

Perhaps a summer house has been decided upon. Hedges may have been thought about; new shrubs chosen, Pergolas on which to spread new vines or support choice grape vines are to be built.

Arches across the garden gate, or between hidden pathways, are to be built to frame a happy picture. Perhaps even fresh walks are to be laid or old ones are to be freshened up. Cold frames are to be built and hot beds against the early appearance of next spring.

And so the wise gardener will make use of these fine workable days before the November rains set in, and so soften the ground that outside work is not quite feasible.

October is the ideal month in which to do most of these tasks and so we will get us to work. Tomorrow we shall start planning our new garden.

SUFFRAGE ASSOCIATION.

The first meeting of the executive of the Toronto Suffrage Association for the season was held at the residence of the president, Dr. Margaret Gordon, on Thursday afternoon.

It was decided that an interview be asked for with the board of control asking for the referendum: "Do you believe in taxing married women voting on their own property?"

The first monthly meeting Mrs. MacDonald Dennison will speak on "How Mrs. Rankin has hindered the Movement."

IRISH HISTORICAL ASSOCIATION.

The Irish Historical Association met on Thursday evening to make final arrangements for their concert to be held in St. Mary's Hall this evening. The reports received indicated a very large advance sale of tickets. The committee have been able to secure some very excellent talent and a splendid musical program is promised. Andrew T. Heron, president of the association, will address the audience on the aims and objects of the society, and N. J. Kennedy will deliver an oration on the life and times of Robert Emmet.

EFFICIENT HOUSEKEEPING BY HENRIETTA D. GRAUEL

DOMESTIC SCIENCE LECTURER

SUNDAY dinners are always the best meals of the entire week, no matter whether they are elaborate or very plain, for that is the time when the family group is complete, and when good home cooking can be discussed and appreciated at length.

It is a good idea to make ready for this meal, as far as possible, on Saturday, but it is absurd to condemn a family to eat food that has been cooling for twenty-four hours and has lost its flavor in the process. There are many favorite dishes that are better when reheated.

The French cookery of which we hear such praise, is largely composed of "rechauffes," and these are, in English, made over foods; that is, the food is partly cooked, or blanched, and when needed for serving, is finished with a quickly made sauce or dressing.

Soup is an article that can be made on Saturday for Sunday dinner. Baked meats may be heated in their own liquor and be juicier and richer for standing thus over night, vegetables, if well drained, do not suffer in the second serving. All sauces and spiced dressings, like white sauce or salad dressing, have a smoother, rich flavor if made the day before they are needed.

In some families the favorite baked dishes are only served on Sunday. They are keenly enjoyed and the meals looked forward to by the folks, who never suspect that they are prepared twenty-four hours ahead of time and reheated so mother-cook can attend Sabbath services.

The best recipes for Sunday foods come from New England homes, as this one for baked beans will testify: Three parts Navy beans soaked several hours in cold water, one-third pound salt pork cut in squares, one teaspoonful pepper, one tablespoon salt, three tablespoons New Orleans molasses, one-third teaspoon of soda, one cup of hot water. Mix all these ingredients and pour over the beans. Put in the covered baking dish with plenty of water and bake very slowly.

Potato salad is a substantial food that almost every member of the household will welcome. The best is made from potatoes boiled in their jackets for the occasion. Peel and dice them while warm and at once sprinkle them with vinegar, salt and pepper. This forces the seasoning into the slices before the pores of the potato close. Put in the refrigerator. When ready to use, chop a little parsley, chives, onion and celery, mix these with the potato and cover with the salad dressing.

Rice pudding is a fine dessert for Sunday dinner; the colder it is when served the better, and any sort of plain cake is good with it. A pretty way to dress it, that is not too fancy, is to pour cream over each helping and then have the stiffly beaten white of egg, sweetened, at hand and place a spoonful on the top, and on this a bit of crab apple jelly.

Other desserts that may be prepared the day before using are those made with gelatine. Directions for using the different brands of this useful article are always found printed on the packages. Experience and ingenuity will enable any cook to prepare many different dishes with the various flavors and colors in combination with various fruits.

MONDAY MORNING, SEPT. 22. HIGH ASSESSMENT, LOW TAX RATE. An extraordinary delusion is being fostered by some of the papers, and was contributed to by a cartoon in The Globe on Saturday.

Hanna. The Globe doesn't say, "Take out Sir James," because, of course, nobody could take him out unless he wanted to go.

going McKinley had a war on his hands before he was a year in the White House, but the turbulent Teddy had a reign of seven years of peace with all the world.

"A REFUTATION 3700 MILES LONG." On Friday last The New York Sun said editorially:

EUROPEAN TRADE. Indications are in evidence that the industrial boom in the United Kingdom and in Germany has spent its force, more particularly in the latter country.

CLEARING UP. Many things in this world are forecasted which do not come to pass and, with the wisdom which comes after the event, we are apt to do justice to the caution or anxiety displayed by those who, before the event, provided for every contingency.

TAKE OUT THE KING PINS. The Globe asks, "Why Denounce One Minister Alone?" It is thinking of the days when a certain whiff cabinet came in for the denunciation of the country, and it is hard for The Globe even after eight years of experience to understand why the Whitney administration is not as bad as its predecessors.

It is therefore, the statement of the empire felt grave apprehensions a year ago, which they do not feel today. They are not open to criticism. Many events have turned out during the past year more happily for the peace of the world than could have been anticipated.

Autumn Meeting Opens Two Features on the Card The Dorval Meeting Only Two Favorites Lose Today at Woodbine Park The Dorval Meeting At Montreal Closes

FAVORITES IN FIVE RACES OPENING DAY OF AUTUMN MEET

Rockville and Hodge Are the Surprises of the Day—Plate Glass and Southern Maid the Beaten Choices.

Favorites won five of the seven races on opening day of the Ontario Jockey Club's autumn meeting Saturday afternoon at Woodbine Park. The weather was ideal, sun shining and almost warm, and the track fast. The attendance was large. In the first race, and Hodge, in the third, and Rockville, in the fourth, Plate Glass, favorite in the first race, finished third, while Southern Maid, favorite in the third, ran second. Hodge, it is a coincidence that the two beaten choices were from the stable of Mr. R. Davies. Watta was the winning colt of the day, landing Cogs and Ondramon. Hearts of Oak and Ondramon. Hearts of Oak pleased the horseman so well that only three were scratched in the seventh race, Melos and Wikison in the steeplechase, and Lord Lucie in the seventh.

CLOSE FINISHES ON CLOSING DAY

Horses From Dorval Divided Between Toronto and Havre De Grace. MONTREAL, Sept. 20.—The inaugural meeting of the recently organized Dorval Jockey Club came to an end on Saturday afternoon with the running of seven well-filled races. The card, although a featureless one, brought about many close finishes, in the majority of which the first choices got the best. Following the running of the last race two special horse trains left Dorval, one for Toronto, and the other for Havre de Grace.

Conditions pleased the horseman so well that only three were scratched in the seventh race, Melos and Wikison in the steeplechase, and Lord Lucie in the seventh.

The Dominion Handicap for Canadian bred horses had the biggest field of the day. The Ontario Jockey Club, of course, were the favorites, but the large weight of 122 pounds on Hearts of Oak to 50 on Seagram's Maid of Frome made them all look to have a chance and induced the speculators to consider everything. Lindesta was second, fifth in the race, and Hodge, in the third, and Rockville, in the fourth, Plate Glass, favorite in the first race, finished third, while Southern Maid, favorite in the third, ran second.

Thirty-Two Thoroughbreds.

Greatest Sale of Racing Blood Canada Has Ever Known on Tuesday Evening. The greatest sale of thoroughbreds ever brought to Canada is to take place at the Ontario Jockey Club on Tuesday evening in the big arena there. There are 32 in the lot, including 16 two-year-olds, one 3-year-old colt, three 3-year-old geldings and 6 brood mares. They are all from the celebrated Woodlands Farms, owned by Barney Schreiber, who has long been noted as one of the most successful and most enterprising breeders on the continent. The two and three-year-olds are by some of the best sires of the day, and the brood mares are of the highest quality. The sale is being held at the Ontario Jockey Club, and is expected to attract a large number of buyers from all over the province.

FLOOD OF WHEAT WEAKENED PRICES

Outlook for Large Increase in Visible Supply Another Depressing Influence

CHICAGO, Sept. 20.—More than a million bushels of wheat suddenly thrown on the market in the last hour today by a few leading houses, caused a decided break in wheat prices.

Prospect of a large increase in the visible supply Monday was said to have influenced the selling. The close was weak, 3-4 to 1c under last night.

Receipts of farm produce were 400 bushels of grain, 3 loads of hay, about 500 wagon and bugies containing mixed produce, and a large delivery of butter, eggs and poultry.

There was an active trade, as there were more buyers than has been seen on the market since last Christmas.

Wheat, fall, bushel, 80 25 to 80 50; Barley, bushel, 65 00 to 65 50; Oats, bushel, 38 00 to 38 50; Rye, bushel, 68 00 to 68 50; Buckwheat, bushel, 65 00 to 65 50.

Wheat, fall, bushel, 80 25 to 80 50; Barley, bushel, 65 00 to 65 50; Oats, bushel, 38 00 to 38 50; Rye, bushel, 68 00 to 68 50; Buckwheat, bushel, 65 00 to 65 50.

HIDES AND SKINS

Prices revised daily by E. T. Carter & Co., 85, East Front street, Dealers in Wool, Tars, Hides, Calskins and Sheepskins, Raw Fur, Tallow, etc.

Inspected hides are nominal. Lambkins and pelts, \$0.20 to \$0.55; Hides, per lb., 0.25 to 0.37; Horsehides, No. 1, 3.50 to 4.00; Tallow, No. 1, per lb., 0.05 to 0.07.

There are 110 carloads of live stock at the Union Stock Yards, the bulk of the stock being cattle. It looks like another big run for this week.

WINNIPEG GRAIN MARKET. The local market opened steady on firm Liverpool cables, but later in sympathy with American markets, was inclined to sag.

Wheat, No. 1 northern, 85c; No. 2 do., 84c; No. 3 do., 82c; No. 4 do., 77c; No. 1 rejected seeds, 80c; No. 2 do., 79c; No. 1 red winter, 85c; No. 2 do., 83c; No. 3 do., 81c.

DULUTH GRAIN MARKET. Wheat, No. 1 hard, 87c; No. 1 northern, 86c; No. 2 do., 84c; No. 3 do., 82c; No. 4 do., 77c; Dec. 85c bid; May, 91c asked.

ST. LAWRENCE MARKET. Receipts of farm produce were 400 bushels of grain, 3 loads of hay, about 500 wagon and bugies containing mixed produce, and a large delivery of butter, eggs and poultry.
