TEXAS ..... O. B. Colquitt.

An A. P. bulletin at 2 a.m. says:  
"Democratic control of the house  
is assured."

Elections held thruout the United  
States yesterday resulted in a political  
convulsion far-reaching in extent,  
similar at many points to the famous  
tidal wave of 1892, and apparently more  
widespread in its effect.

The indications at midnight were  
that the national house of representa-  
tives had been carried by the Demo-  
crats, reversing the present Republican  
majority of 48.

The United States Senate will proba-  
bly have a reduced Republican major-  
ity as a result of legislative elections  
held in many states.

In New York State John A. Dix, De-  
mocratic candidate for governor, is  
elected over Henry L. Stimson, Re-  
publican, by a plurality of about 60,000,  
reversing the Republican plurality of  
1906 for Gov. Hughes.

In New Jersey Woodrow Wilson, De-  
mocratic candidate for governor, is  
elected over Vivian M. Lewis, Republi-  
can, by about 15,000 plurality, reversing  
the previous Republican plurality of  
8,000 for Gov. Wood.

In Massachusetts, Eugene M. Foss, De-  
mocratic candidate, has defeated Gov.  
Eben S. Draper, Republican candidate  
for re-election, by about 30,000  
plurality.

In Connecticut, Judge Simon E. Bal-  
win, Democratic candidate, is elected  
governor over Charles A. Goodwin,  
Republican, by a plurality of about  
40,000.

Harmon Re-elected.  
In Ohio, Gov. Judson Harmon, De-  
mocratic candidate for re-election, ap-  
pears to have carried the state by  
about 15,000 over Warren G. Harding,  
Republican candidate.

In New Hampshire, Robert P. Bass,  
Republican candidate for governor, is  
leading Charles E. Carr, Democratic  
candidate, by about 6,000 plurality.

In Pennsylvania, the election of John  
K. Tener, Republican candidate for  
governor, is claimed by a large plu-  
rality.

In Rhode Island Gov. Pothier, Re-  
publican candidate for re-election, is  
slightly in the lead over Lewis A. Wa-  
terman, Democrat, with a plurality  
much reduced from that of 1906.

In Tennessee, the fusion candidate,  
W. H. Hooper, is apparently elected by  
14,000 plurality.

Democratic governors have been  
elected in Alabama and South Caro-  
lina.

Democrats Claim Iowa.  
In Iowa, the Democrats claim the  
election of Claude S. Porter for gov-  
ernor, but this is not yet conceded.

In Wisconsin, the election of the Re-  
publican candidate for governor, Fran-  
cis J. McGovern, is claimed by a re-  
duced majority, and the return of Sen-  
ator La Follette to the United States  
Senate is assured.

In Michigan, Chas. S. Osborne, the  
Republican candidate for governor, ap-  
pears to have a safe lead over L. T.  
Hemans, Democrat.

Congressional Changes.  
CHICAGO, Nov. 8.—Indications were  
at midnight that the Democrats had  
gained control of the house of repre-  
sentatives.

The known gains by Democrats are  
one in Connecticut, one in Kentucky,  
two in Maryland, one in Massachu-  
setts, three in New York, and one in  
North Carolina, or a total of nine.

This is offset, however, by a gain by  
the Republicans of one congressional  
district in Pennsylvania and one in  
New York.

## TWO NEW GOVERNORS-ELECT

DIX  
Democratic candidate for governor in  
New York State.

WOODROW WILSON  
Democrat, elected governor of New  
Jersey over Fort (Rep.)

## DIX WINS N. Y. STATE VOTE SHOWED DECREASE

Democrat Rolled Up Plurality of  
About 100,000 in New  
York City Alone.

NEW YORK, Nov. 8.—Returns at  
midnight indicate that John A. Dix,  
Democrat, has been elected governor  
of New York over Henry L. Stimson,  
Republican, by between 50,000 and 60,-  
000 plurality. These figures may be re-  
duced or increased by returns from up-  
state rural districts. The vote gener-  
ally was beneath that polled when  
Hughes was elected.

New York City gives Dix a plurality  
of at least 100,000, which more than  
offsets the greatly reduced plurality of  
the Republican up-state. Two years  
ago the greater city gave Chanler for  
governor less than 60,000 plurality.

Below Mr. Dix on the ticket the re-  
sult is uncertain at this hour, al-  
though tending toward Democratic suc-  
cess. Thomas F. Conway, the Demo-  
cratic nominee for lieutenant-governor,  
appears to be running only slightly  
behind Dix.

The returns from 55 out of 158 as-  
sembly districts showed that the Demo-  
crats had gained 13 seats. Five were  
in Manhattan and the Bronx and eight  
up-state. If this ratio is maintained,  
the Democrats will have 38 seats out  
of 150 in the lower house a majority  
of eight.

Stimson's estimated plurality to the  
boroughs of New York City about 40,-  
000, is less by 20,000 than the up-state  
vote polled by Hughes in 1906. The  
same year Greater New York gave  
Chanler a plurality of less than 60,000.

Both the assembly and senate returns  
ran strongly Democratic, and there  
were some notable upsets in even the  
congressional districts. Representa-  
tive Herbert Parsons, a life-long friend  
and political associate of Theodore  
Roosevelt, and formerly chairman of  
the Republican county committee, was  
elected by Jefferson M. Levy, Republi-  
can, by a plurality of 1,000.

## MISTAKEN FOR A DEER

Another Distressing Hunting Accident.

## MR. DRAYTON TO INSPECT FAMOUS CONTRACT TO-DAY

Toronto Electric Light Co. Will-  
ing That Corporation Counsel  
Should Peruse Its Agreement  
With Electrical Development  
Co.

After Corporation Counsel Drayton  
has visited the offices of the Toronto  
Electric Light Company this morning,  
the city will be in a position for the  
first time to figure out clearly and in-  
telligently on what basis an offer for  
the purchase of the company's plant  
can properly be made. The reason is  
that Mr. Drayton is to have a private  
view of that awe-inspiring document  
whose inmost secrets the hydro-elec-  
tric commission has sought in vain to  
probe—the Electric Light Company's  
contract with the Electrical Develop-  
ment Co., for a supply of power  
from the latter.

Mr. Drayton yesterday afternoon re-  
ceived a letter from Manager Macrae  
of the Electric Light Company, in  
which Mr. Macrae expressed himself  
as willing to let him see the justly  
celebrated agreement which was the  
only obstacle in the way of the city's  
expropriating the company's plant two  
years ago. The manager suggested  
that the city counsel make the ap-  
pointment at the earliest moment he  
could to do so, and Mr. Drayton nam-  
ed 10 a.m. to-day.

Mr. Macrae, so it appears from his  
letter, misunderstood the city's object  
in wishing to learn the contents of the  
document.

"Now that he is convinced that the  
object is to arrive at some proper mod-  
us vivendi, he is willing to let us see  
it," commented Mr. Drayton. "The  
city will proceed along the line of do-  
ing what may be done in the interest  
of everybody, and to produce order  
out of chaos. The city has never been  
able to make an offer because it has  
never been able to learn the nature of  
the contract."

The other developments of yesterday  
showed that the situation between the  
city and the company is to say the  
least, apparently strained. In a state-  
ment of rather tart flavor, issued after  
consultation with Mr. Drayton, the  
mayor charged the company with  
withholding the contract from the city  
and with blocking a settlement in re-  
lation to the overhead wires. In a  
statement given the press last night  
Mr. Macrae repudiated the charge that  
the agreement was jealously guarded,  
and countered the charges that, despite  
the fact that the city's electrical depart-  
ment has been guilty of serious trans-  
gressions on the company's rights and driven  
it to the courts for redress.

Members of the board of control are  
unanimous in declaring that, while  
willing to negotiate further, the pros-  
pect of war to the knife with the com-  
pany is not alarming. The same view  
is expressed by aldermen.

"I have read the statement of Mayor  
Geary, and in reply can only say that  
I am sorry that the attitude of the  
company is so little understood at the  
city hall that its absolute good faith  
in dealing with the large interests in-  
volved can be brought into question."

"It is to be observed that the state-  
ments made in my letter published in  
this morning's papers are none of  
them contradicted, so that the public  
will understand that the injury to the  
company's plant and property has ac-  
tually taken place, and is being con-  
tinued in spite of the injunction pro-  
ceedings and the written notifications

Continued on Page 7, Column 3.

## THE PREMIER'S VIEW

"I am sorry to hear of further  
litigation. It will be a  
great pity if the time has gone  
by when the matters in differ-  
ence between the City of Tor-  
onto and the Toronto Electric  
Light Company can be settled  
amicably."

"I can see no good reason why  
that which two good common  
sense business men would do  
cannot be done by the repre-  
sentatives of the City of Toronto  
and the Electric Light Co."

"However, primarily, it is  
their own affair, and I am not  
at all clear that I am anxious  
to say anything more on the  
subject."

SIR JAMES WHITNEY, in  
a statement yesterday.

Our Greater Toronto Number  
December 22, 1910, is the date.  
Keep it in mind.  
The twenty-second of December  
falls on a Thursday, and is only  
three days before Christmas.

On December 22 the Greater Tor-  
onto Number of The Toronto  
World will be published. It will  
be the most comprehensive review  
of the business interests of this  
city ever published by any news-  
paper.

It will be a sketch of Toronto as  
she is to-day, from a commercial,  
industrial, educational and soci-  
ological viewpoint.  
Toronto's story now is espe-  
cially interesting because of the  
great growth of the city in every  
direction. Of this growth the  
Greater Toronto Number of The  
Toronto World will tell.

This year marks the coming of  
King George V. to the throne.  
The beginning of a new reign is an  
important event. None the less  
important to Canadians and the  
empire is the expansion that is  
taking place thruout the Dominion,  
and of Toronto's share in this, the  
Greater Toronto Number will be a  
clear and concise record.

Don't forget the date—December  
22. It will make the best of Christ-  
mas reading to send to your  
friends, and will be in the spirit of  
the season.

CRAZED BY THE GAME  
When Detective Went to Arrest Him  
He Was Calling Off Signal Plays.

OTTAWA, Nov. 8.—"Forty-four,  
sixty-eight, seventy-two, eighty-four—  
Buck the line—Buck the line," were  
the cries that greeted Detective Mac-  
Donald when he went to arrest a young  
man on Percy-street to-day.

The youth has evidently become demen-  
ted over football, and before being taken  
into custody, had shown at various  
times that he was afflicted with "foot-  
ball mania," as he was continually  
talking about the game, and calling off  
signal plays. He has been remanded  
to jail for a week, pending medical ex-  
amination.

How It Works Out.  
It is unquestionably a fact that  
thousands of married couples are dis-  
satisfied with their lot, and it is also  
true that the causes of such dissat-  
isfaction are more imaginary than real.  
A thorough demonstration of this is wit-  
nessed in David Belasco's presentation  
of "Is Matrimony a Failure," which is  
the attraction at the Princess Theatre  
this week.

H. H. WILLIAMS & CO.  
MOVED

30TH YEAR.

## CARS COLLIDED AND ONE MAN BADLY HURT

Trailer Leaves Track, and Is  
Run Into by Trolley on Other  
Track—Big Crowd of Pas-  
sengers Have a Narrow Es-  
cape.

Two men were hurt and two street  
cars badly wrecked when trailer 164  
eastbound on Queen-street, near the  
Woodbine race course gates, left the  
track, and was struck by a westbound  
motor in charge of Motorman A. M.  
McLean (198) and Conductor Donnelly.  
The accident occurred at 6:10 p.m., and  
the trailer was comfortably filled.

Harold McCague, 21 Hannaford-ave-  
nue, East Toronto, and C. W. Bishop-  
ric, Gladhill-avenue, who were on the  
front platform of the trailer, were in-  
jured by the flying glass and the im-  
pact. Bishopric's leg was wrenched,  
but after he was attended by Drs. Sis-  
ley and Coates, he was able to go  
home, but McCague was taken to St.  
Michael's Hospital, where he now is in  
a critical condition. The right leg was  
fractured above the ankle, the right  
arm was fractured above the wrist,  
and his face was cut to pieces by fly-  
ing glass. He is suffering greatly from  
shock.

H. F. Strickland, Howard-avenue,  
who was sitting close to the front of  
the derailed trailer, says positively  
that it had been off the track for 200  
yards before the collision, and that the  
car was traveling at a high rate of  
speed. Just as a man reached for the  
hellspring to stop the car to have this  
rectified, the trailer sprang onto the  
north track, and was struck by the  
westbound car. This was directly op-  
posite the gate where the cars turn to  
run into the Woodbine grounds.

In an instant all was darkness, and  
there was a shower of falling glass  
from the broken windows. All the  
passengers were badly shaken up, but  
beyond a few scratches and some  
clothes, none but the two were hurt.  
Roadmaster McKenna of the street  
railway, who was on the scene, says  
that the trailer was thrown off the  
track by the switch turning at Wood-  
bine, but that the railway officials  
say that these switches were removed  
shortly after the close of the races.  
Another theory is that the trailer  
ran off the track and that the crew  
kept the motor running in the hope of  
running it back again.

## RIOTING IN WALES

Mobs Attack Police and Troops in  
Mining Centre.

CARDIFF, Wales, Nov. 8.—Wild  
scenes were enacted in the disturbed  
colliery districts to-night, where thirty  
thousand miners are on strike. Bands  
of youth, supported by women, seized  
the colliery buildings and looted the  
stores in several towns, scattering the  
goods in the streets. The police, who  
were largely reinforced during the  
day, attacked the mob with tear gas  
and batons, but the strikers replied with  
stones.

More than one hundred men were  
treated at the local hospital for scalp  
wounds. A number of the police also  
were injured, but they succeeded in  
getting the upper hand. Police re-  
serves and troops arrived quickly at  
the scene of the greatest disturbances  
and have been posted in the storm  
centres. They are prepared to pre-  
vent further disturbances, and should  
the strikers maintain their defiant atti-  
tude, bloodshed is anticipated.

A squadron of British cavalry armed  
and accoutred as for warfare,  
charged thru the streets of Aberdare  
to-day, scattering the strikers right  
and left. A mob attacked the troops,  
throwing clubs and stones.

## MINE EXPLOSION

Between Fifty and Sixty Men Believed  
to Have Been Entombed.

TRINIDAD, Col., Nov. 8.—Between  
50 and 70 men are believed to be en-  
tombed in mine No. 2, of the Victor  
American Fuel Company at Delagua,  
as the result of an explosion to-day.

Fifty men came out unharmed thru  
mine No. 2, which is connected with  
mine No. 3. According to reports to the  
mine officers, those men did not even  
know there had been an explosion in  
mine No. 2. If this report is true, the ex-  
plosion, which caved the entrance to  
No. 3, did not extend far into the mine,  
and it is hoped that the men within  
the workings are unharmed.

Jardine Trial Postponed.  
GODERICH, Nov. 8.—It was stated  
to-night that the preliminary trial of  
the Jardine brothers, charged with the  
murder of Lizzie Anderson, will not  
commence to-morrow, as fixed. There  
is a possibility of the crown withdraw-  
ing the charge as against Thomas, and  
of the defence consenting to Edward's  
commitment without further evidence  
being taken.

## SPECIAL FURS.

In the early part of the season, an-  
ticipating that winter would set in  
earlier than usual, Dineen, 140 Yonge-  
street, increased his stock of fur ac-  
cordingly. The warm weather of Oc-  
tober has left fur stocks pretty heavy  
everywhere. You will find the best  
pelts that can be purchased in Cana-  
dian or foreign markets included in the  
Dineen selection, at prices that are  
the most approved styles, by expert  
furriers and designers. A call will con-  
vince you that the Dineen assortment  
is something real good.

Express Car Burned.  
MONTREAL, Nov. 8.—Fire in an ex-  
press car on the Toronto train due at  
7 o'clock destroyed it but the wheels  
and delayed the train for two hours  
and 40 minutes.

# GREATEST CURE FOR RHEUMATISM IS "FRUIT-A-TIVES"

"I HONESTLY BELIEVE IT," SAYS MR. MILLS.

Known, P.Q., Oct. 12, 1909.

For many years I suffered from severe Rheumatism and the attacks were very distressing and prevented me from doing my ordinary work.

I tried many remedies and physicians' treatments, but nothing seemed to do me much good, and I was becoming very nervous for fear I would become a permanent cripple from Rheumatism.

I tried "Fruit-a-tives," and this medicine has entirely cured me, and I honestly believe that "Fruit-a-tives" is the greatest Rheumatism cure in the world.

E. E. MILLS, Asst. P.M., Knowlton, Que.

"Fruit-a-tives" not only strengthens and heals the kidneys—but also regulates the bowels, improves the action of the skin—and thus keeps the blood pure and rich and free from uric acid which causes Rheumatism.

"Fruit-a-tives"—the great fruit medicine—is sold by all dealers at 50c a box, 6 for \$2.50; trial size 25c, or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

## PAYMENT CEASED

And Wife Traced Lither to St Kitts, to Find Him With Another Woman.

ST. CATHARINES, Nov. 8.—(Special.)—Tracing her husband from Montreal to this city, where she found he had opened a fur store, Mrs. Meyer Lither this afternoon caused his arrest for non-support.

In April last year the couple separated, but but her husband Lither has since that time been paying her \$25 monthly. Last July payment ceased, and Lither disappeared, and it was only recently that the woman traced him to this city, where she arrived today, to find him living with another woman. Police Magistrate Campbell this afternoon adjourned the case till Monday morning.

## A GREAT COUNTRY

Capitalist Says 250 Miles of Railway Would Open 2000 Miles of Navigation.

EDMONTON, Nov. 8.—(Special.)—That 250 miles of railway into the north country will open to civilization more than 2000 miles of river and lake suitable for navigation by large steamers, is the opinion of W. Hays, capitalist of Duluth, Minn., who has just returned from a trip into the Athabasca country with A. Volette, the man who is contesting the city's rights to use the great rapids on the Athabasca River for power purposes.

Mr. Hays gives a very complete survey of the country. He says there is timber enough there to supply western Canada for the next half century. Agricultural prospects could not be better, while copper, iron and gold are found, and also petroleum, asphalt, limestone and oil. Fishing could be developed into a great industry.

## Charged With Theft.

George Kent, 14 Palmerston-avenue, formerly employed by Edward Dyess, butcher, was arrested last night by Detective Newton upon a warrant. It is alleged that he collected \$120 for his employer but did not turn it in.

# NERVOUS DYSPEPSIA A CURE FOR ALL.

Not a Patent Cure-All, Nor a Modern Miracle, But Simply a Rational Cure for Dyspepsia.

In these days of humbuggery and deception, the manufacturers of patent medicines, as a rule, seem to think that the weakest of stomach troubles claim that it will cure every disease under the sun. And they never think of leaving out dyspepsia and stomach troubles. They are sure to claim that their nostrum is absolutely certain to cure every dyspeptic and he need look no further.

In the face of these absurd claims it is refreshing to note that the proprietors of Stuart's Dyspepsia Tablets have carefully refrained from making any undue claims or false representations regarding the merits of this most excellent remedy for dyspepsia and stomach troubles. They make but one claim for it, and that is, that for indigestion and various stomach troubles Stuart's Dyspepsia Tablets is a radical cure. They go no farther than this, and any man or woman suffering from indigestion, chronic or nervous dyspepsia, who will give the remedy a trial, will find that nothing is claimed for it that the facts will not fully sustain.

It is a modern discovery composed of harmless vegetable ingredients acceptable to the weakest of most delicate stomachs. Its great success in curing stomach troubles is due to the fact that the medicinal properties are such that it will digest whatever wholesome food is taken into the stomach, no matter whether the stomach is in good working order or not. It rests the overworked organ and replenishes the body, the blood, the nerves, creating a healthy, appetizing, refreshing sleep and the blessings which always accompany a good digestion and proper assimilation of food.

In using Stuart's Dyspepsia Tablets no dieting is required. Simply eat plenty of wholesome food, and take these Tablets at each meal, thus assisting and refreshing the stomach, which rapidly regains its proper digestive power, when the Tablets will be no longer required.

Nervous Dyspepsia is simply a condition in which some portion or portions of the nervous system are not properly nourished. Good digestion incorporates the nervous system and every organ in the body.

Stuart's Dyspepsia Tablets are sold by all druggists at 50 cts. per package.

# HAMILTON HAPPENINGS

## NO PRESENTMENT YET IN THE FINTON CASE

Grand Jury Spent Whole Day in Hearing Witnesses—Presbytery Debate Church Union.

HAMILTON, Nov. 8.—(Special.)—There is now little doubt that the Finton case will go over to the next session, which will be held in January. The inability of the defence witness, Mrs. Spera, the accused man's sister, and Dr. Silverthorne, the Toronto doctor who is making the serum test on the blood found on Finton's overalls, to attend, will necessitate the adjournment. Up to tonight the grand jury had not brought in their bill in the Finton case. They spent the whole day in hearing witnesses in this case.

This afternoon a conclusion was reached in the case of Paul V. Maw, in which the plaintiff sought to recover damages for the erection by Maw of a fence on his property by mistake. The judge awarded \$25 to Paul, but gave the defendant costs. The jury in the action of Freeth v. Kennedy, brought in a verdict for the defendant. Freeth asked for \$5000 from Kennedy for damages he received by being run into by a runaway horse belonging to the defendant.

Albert New, who failed to come up for trial at the last county court, appeared before the judge and was allowed out on bail, provided he promised to come up for trial at the next county court.

At the meeting of the Hamilton Presbytery this afternoon, discussion took place over the question of church union. The speakers criticized the special committee appointed by the general assembly to deal with this subject. Rev. Dr. Smith of St. Catharines said the committee appeared to be withholding information. Sir Taylor, who started the discussion, said that the basis of union should be submitted to the sessions and congregations, even the general assembly did not approve of such action. Sir Thomas Taylor's resolution carried.

The works committee this evening appointed a sub-committee to go into the whole matter of regulating the erection of lighting standards on the streets. This was brought about by the application of the Hamilton Gas Light Co. for permission to place lamp posts before the Wright House.

A report by Inspector McAndrew in favor of a twice a week collection of garbage in the summer with single horse rigs, which would save the council about \$2000 a year, was sent along to the council. The committee which waited upon the street railway company in regard to new tracks reported that the company did not favor laying a track along Ferrie-street. The company, however, promised to look after the Oliver Plow employees, who would be likely to want a track on Ferrie-street.

Sitting rooms will be made at the city yard on John-street, and at the property given by C. S. Wilcox on West Cannon-street.

Rev. Dr. Fletcher, pastor emeritus of McNab-street Presbyterian Church, was this evening presented with a cheque for \$1200, to-day being the fiftieth anniversary of his entry into the ministry. The presentation took place at a reception to the doctor, given in McNab-street church. The gift was made by Dr. Fletcher's friends and the members of the Hamilton Presbytery. The doctor was pastor of McNab-street for thirty-two years, was a moderator of the Presbyterian General Assembly, and is at present clerk of the Hamilton Presbytery.

Hotel Hanrahan, corner Barton and Catharine-streets, Hamilton, conveniently situated and easily reached from all parts of the city. Erected in 1906. Modern and strictly first-class American plan. Rates \$1.50 to \$2 per day. Hanrahan, proprietor. Phone 1465.

Game and Fishery Inspector Kerr is out after hotelmen and restaurateurs who are serving food to their customers without a license. He saw a duck dinner advertised at the Raymond House, Burlington, last week, and was present when a number went in to enjoy this dainty. The proprietor of the hotel, E. A. Truman, could not produce a license.

## FAVOR A CIVIC PLANT

If the City Can't Purchase the T. E. L. Company.

High Park Property Owners' Association last evening passed the following resolution:

"That this association approves the city council making an offer for purchase of the Toronto Electric Light Co. on a fair basis, but if this is impossible then the association places itself on record as approving any action council may deem necessary for the establishment of a municipal plant."

It was felt that the Bell Telephone Co. should, if anything, reduce the rates, and the danger that exists through the Yung at Queen-street and Dundas-street. The attention of the civil authorities will be directed to the foul odor from sewers and abattoirs in the neighborhood of the station, and will also get into touch with similar associations.

Aids. McCarthy and McCausland were present at the meeting, which was the largest yet held.

## OBITUARY.

J. T. Thompson.

John T. Thompson, for over 50 years a railwayman, is dead, aged 77. He was connected with the G.T.R. during the Fenian raid, and after serving this company for over 25 years, joined the old Credit Valley Railway, and ran one of the first trains out of Toronto to Orangeville. His later work was with the Canadian Pacific Railway and at the time of his death he was on the superannuation list. He is survived by three sons and one daughter, Fred W., connected with the Central Press Agency, Toronto; John T. and James C., both of Chicago, and Mrs. John L. Day, Montreal. He was a member of Zeta Lodge, A. F. & A. M.

## MORE CHAUFFEURS OUT

One Thousand More Pilots of Taxicabs Join the Express Company Strike.

NEW YORK, Nov. 8.—(Special.)—Today was expected to mark time in the strike of express company drivers and helpers, owing to the apparent disposition of the labor leaders to postpone consideration of the general strike question until after election, unexpected interest was injected into the sympathetic movement in aid of the strikers to-day by the announcement that 1000 additional taxicab chauffeurs had joined the strike. This made, according to Secretary Forster of the International Brotherhood of Teamsters, a total of 2300 taxicab chauffeurs. Despite the fact that 900 "taxicabables" employed for the most part by smaller companies, which had made agreements with their men, went back to work to-day.

## WANTED ON EIGHT CHARGES

Chase After Racine Lasted Over Three Years and Covered Continent.

OTTAWA, Nov. 8.—(Special.)—After a chase which lasted for over three years, and extended over a large stretch of the continent, Ralph Racine, who has been in Ottawa since last spring, has been captured by Inspector Baur of Washington in the barber shop of the Russell Hotel, where he has been employed under the name of Ralph Bennett.

Racine is wanted in Washington on eight charges of grand larceny. Extrajudicial proceedings were begun at the court house before Judge MacTavish, but were adjourned.

## PROCEDURE AT CORONATION.

(Canadian Associated Press Cable.) LONDON, Nov. 8.—At the coronation on June 22, the Canadian Associated Press understands that as to the procedure of the ceremony the King will adhere to precedent. There will be no disposition to excel in any of the historic characteristics by adding courtly or military displays. The only possible alteration in the program will arise from a specially expressed desire from the overseas dominions to be more comprehensively represented.

Mr. John Tyrrell

# Scratched Until I Tore The Flesh

"It was in the latter end of the year 1903 that a nasty itch came through my skin, and I scratched it until I tore the flesh. I tried several ointments to no effect. I went to a skin hospital. They advised me to go to the Hospital, but I refused. I could not sleep with the constant itch. I was that way until on about the month of January. One day I chanced to see in the papers a one like mine, but I gave it no credence. At last I said, 'I will try the Cuticura Remedies.' With the first wash and Cuticura Ointment I used, I found their effects. I got one box and a return of the same, and in less than one week the skin was all right, and left no traces after it. I have not had a return of the same since, and I shall always praise the Cuticura Remedies as being the means of my cure."

(Signed) JOHN TRANKLIN, 94, Scotland Road, Liverpool.

In a further letter Mr. Tyrrell adds: "The first appearance of my skin eczema was a burning itch which I tore and left my body legs and arms a mass of sores. It caused sleepless nights, but now I can sleep as well as ever."

# Cuticura Soap and Ointment

## AMERICANS HOPEFUL OF REACHING AGREEMENT

Tariff Commissioners Sat Two Hours Yesterday, But Would Not Say How Things Were Going.

OTTAWA, Nov. 8.—(Special.)—The third tariff conference between Hon. W. S. Fielding and Hon. William Patterson, representing Canada, and Henry M. Hoyt, Charles M. Pepper and Hon. J. C. Foster, representing the United States was held this afternoon and lasted from 4 to 6 o'clock. This is the most prolonged sitting yet held, and the fact that the negotiators were engaged in their task for two hours leads to the natural deduction that definite proposals were under consideration.

The commissioners, however, courteously declined to throw any light on the problem of how they occupied the time. It was gathered, however, that the commissioners do not anticipate negotiations for some time. One of the American negotiators remarked that he did not expect to go back to Washington for quite a spell.

This would indicate that the commissioners of the United States have reason to hope that they will at these preliminary meetings be able to set a satisfactory basis for an agreement with Canada. The Canadian Manufacturers' Association is anxious to find out what is going on here in the city to-day of R. Broadner, tariff expert of the association, who will keep an eye on the proceedings.

## SALE OF THE LATE DR. WADE'S CHOICE OLD FURNITURE.

All yesterday afternoon there was no busier place in the city than Messrs. C. M. Henderson & Co.'s Art and Galleries, 87 and 89 East King-street. A large number of buyers, including a number of the most prominent of local collectors, attended the disposal of the late Major Orchard's pictures, which proved very successful. Prices ranging from \$5 to \$250. Even greater public interest was taken in the choice examples of Canadian and English furniture and rare old French furniture belonging to the estate of the late Dr. John W. Wade, the greater part of which was also on exhibition. As illustrating the business methods of Messrs. Henderson & Co. it may be mentioned that immediately on the conclusion of the picture sale about 5 o'clock, the inner room was at once cleared and the remainder of the valuable furnishings unloaded and in place.

Not for some considerable time has so favorable an opportunity been afforded Toronto citizens to acquire really rare and choice specimens of the finest French, English and Canadian workmanship in artistic furniture. Conspicuous among it is a magnificent mahogany inlaid mahogany china cabinet, mounted in gilt ornate bronze, of equal interest is a carved Louis XV. sofa, with chairs to match, the set forming one of the most important in the collection. Another noteworthy article is a mahogany Chippendale china cabinet, silk lined and inlaid with mother of pearl.

In breakfast and dining-room furniture attention may be called to a very handsome Sheraton cabinet sideboard, inlaid and with diamond doors. Of special beauty is a Davenport tea set of 22 pieces, decorated with delicately tinted flowers and in perfect order. For the hall no better opportunities could be found than the carved oak table which will be offered and an exceptionally fine grandfather clock in mahogany case and in running order. There is also a massive mahogany bedstead of Gothic design. These mentioned are merely the outstanding features of a collection including old bureaus, secretaries, tables, chairs, beautiful vases, figures and china ornaments, fine old Sheffield electro plate and other decorative and household articles. The collection will be on view to-day (Wednesday) and the sale will commence at 11 o'clock a.m. sharp to-morrow, Thursday.

## \$2.10—Buffalo and Return—\$2.10, via Grand Trunk Railway System, Friday, Nov. 11th.

Tickets good going via 4.42 p.m. train, valid returning Saturday, Nov. 12. Remember that the Grand Trunk is the only "double-track line" to Buffalo. Secure tickets at Grand Trunk city ticket office, northwest corner York and Yonge-streets. Phone Main 4205.

## MAY RUN IN ENGLAND.

(Canadian Associated Press Cable.) LONDON, Nov. 8.—Bob Richardson of the Winnipeg Tribune, made some eloquent speeches during a recent visit, when on several occasions he spoke in the St. Pancras district. He so impressed the Labor and Radical Association of South St. Pancras that he was then and there offered the nomination for the ensuing election. The Canadian Associated Press understands that Mr. Richardson has not yet said whether or not he will accept the offer.

## SOCIETY NOTES

Mrs. Edwin James Powell of Palmerston-avenue is to be the hostess of twin teas on Monday, Nov. 14, and Tuesday, Nov. 15.

The first meeting of the Art Study Club of the Women's Art Association of Canada will be held at 10.30 a.m. to-day in the association's rooms at 394 Jarvis-street, when Mrs. Fenton Aron will introduce the topic for the winter's work by reading a paper on "The Life and Character of the Greek People."

Mrs. Edwin James Powell and young ladies of the Wagnerian Musical Club are entertaining their friends at a tea on Monday, Nov. 14, at 357 Palmerston-boulevard.

Miss Eleanor H. Shackleton, a sister of Sir Ernest Shackleton, is registered at the Queen's. She is studying systems of nursing, with the intention of taking up the profession herself.

T. A. Meyer, proprietor of the Edwin House, was charged with having men in his bar after hours, but it turned out in court yesterday that they were plumbers, fixing leaky beer pipes.

W. W. Young of the Carpenters' Union left yesterday for St. Louis, to attend the meeting of the American Confederation of Labor.

W. C. Martin, proprietor of the Winchester Hotel, has sworn out a warrant for Herbert Smith, formerly employed by him. The charge is theft of \$854 from his safe. He believes that it occurred on Friday night while he was out of the hotel, and has gone to New York to try to locate Smith.

Charged with theft of jewelry from his employer, T. C. Fenton, jeweler of 31 West Queen-street, Martin Tager, an engraver, was arrested yesterday by Detective McKinney. A quantity of the property was found at his house at 35 Chestnut-street.

Frank Gibbons, working on a new building on Dupont-street, fell from the second story and alighted on a pile of sand. He was badly shaken up and was taken to his home, 28 Wilton-ave.

A partnership dispute involving \$3000 was begun in the non-jury assize court yesterday before Judge Tetzlaff. A rent, contractor, is suing his former partner, R. L. Bullen, claiming a share on six houses that he says were erected under partnership. R. L. Bullen says it was his own private contract.

# WHAT MAKES A GOOD COMPLEXION?

You are just about to commence the season's programme of evening parties, social events, etc. Why not look your best? Why let your complexion suffer by contrast with other ladies? Why not ensure a good complexion? You can do this on sound natural lines by using Zam-Buk, nature's herbal balm.

Zam-Buk is a skin food; and complexion is purely a matter of skin health. Zam-Buk smeared lightly over the face, each night, acts as a skin tonic. It stimulates the cells beneath the cuticle to healthy action, makes the capillaries and blood vessels work, and the vigorous circulation, thus started, carries away secreted impurities. Wax, sallow deposits are thus removed. Hard pimply growths are softened, and disappear.

That yellow tinge gives place to the pink of health, and the white velvety "look" and "feel" which healthy skin should have.

Isn't this wiser than relying upon talcum powder and cosmetics? These only put on a "complexion" from the outside. It doesn't last. Zam-Buk helps nature to build up a complexion from blood and tissue. It lasts! It won't rub off!

Be wise as well as womanly! Let Zam-Buk help you to look your real best!

If you're in a hurry take the New Queen Street Elevators.

The frames are of plain oak, in dark-brown shade. Thursday, each .25

—Third Floor.

# THE T. EATON CO. LIMITED

HOPE OF MORE COMPLETE UNION

(Canadian Associated Press Cable). LONDON, Nov. 8.—Joseph Chamberlain, in a letter to Lord Ridley re the annual meeting of the Land Reform League at Manchester, referring to the preference, says: "I hope the preference is indeed a hope of the more complete union of our colonies, and unless this is secured at the next colonial conference, it may be too late to influence those whom we have to deal with. They have shown a willingness to meet us half way, which is very promising for our trade and our country, but they will not forever wait upon us."

We should take the advantage which the conference offers once more, or we may find it too late. The present is the time given for our decision, and I hope we shall no longer show ourselves unwilling to make the changes our colonies have already made."

WILL ARREST INDIANS.

VANCOUVER, Nov. 8.—As a result of the inquest on the body of William Bernard, a half-breed, which was pulled out of the Fraser River at Ewing's Cannery, the arrest of several Indians is expected. The jury brought in a verdict that deceased met death by foul play. Bernard was last seen alive on the night of Sept. 20. He was in a fight with some Indians. The police found blood on the wharf and saw the Indians pulling away in a boat.

Fatal Collision.

GUTHRIE, Okla., Nov. 8.—In a collision between a Rock Island passenger and a Santa Fe work train, three miles south of here to-day, A. Wilson of Guthrie, the Rock Island engineer, was killed, and eight passengers were injured, none fatally. R. Williamson, the Rock Island fireman, was probably fatally hurt. Several other trainmen were injured.

ARRESTED ELECTION OFFICIALS

Charged With Intimidating the Negro Voters.

McALISTER, Okla., Nov. 8.—Charged with conspiracy to injure, oppress, threaten and intimidate certain negro citizens, by refusing them the right to vote, half the election officials of McIntosh were arrested by a deputy U.S. marshal to-day, taken before the U.S. commissioner, and held in bonds of \$200 each.

The election officials were charged with refusing the negroes the right of suffrage without subjecting them to the test of writing or reading any section of the constitution.

FIREMAN FELL FROM LADDER.

DUNKIRK, N.Y., Nov. 8.—Several firemen and a little girl were injured here to-day in a fire, thought to have been of incendiary origin. Four business blocks were partially destroyed. A number of persons living in one of them narrowly escaped cremation. Overcome by smoke, they were rescued by firemen, one of whom and an eight year old girl he was carrying, fell from a ladder. Both were seriously injured. The property loss was about \$50,000.

## Fireplace Accessories

Among the splendid new lines of imported accessories there are some that give extraordinary values. Specially priced coal hods, with black bale handles and a band of brass around the middle, are made of heavy sheet iron in a single piece. The quantity is limited, so make an early visit. Each .150

—Main Floor—Yonge Street.

## FAVORS ARBITRATION.

PARIS, Nov. 8.—Arbitration as the preventive of strikes is the position of the new French Government, as outlined to-day to the chamber of deputies by Premier Briand.

Briand's declaration that the government questioned the right of public service employees to tie up the business of the nation to win their points, was greeted with hisses by some of the Socialists and strike sympathizers.

## Burned to Death.

ST. ARMAND STATION, Que., Nov. 8.—About three o'clock this morning a fatal fire occurred near Morse's line, Mississquoi County, when Frank Peck, was burned to death. Peck, who worked for Mr. Tittenger, was 17 years of age, and although awakened did not manage to get out of the house in time. His charred remains were found this morning.

A six-panel comic strip by T. Foote. The story follows a man in a suit and hat who is talking to a taxi driver. The taxi driver is driving away, and the man is following him. The man is talking to the taxi driver, and the taxi driver is driving away. The man is following him, and the taxi driver is driving away. The man is talking to the taxi driver, and the taxi driver is driving away. The man is following him, and the taxi driver is driving away. The man is talking to the taxi driver, and the taxi driver is driving away. The man is following him, and the taxi driver is driving away.

Panel 1: A man in a suit and hat is talking to a taxi driver. The man says: "SRY, PAL, I'M SICK. IF YOU TAKE MY TAXI AND DRIVE IT, YOU CAN HAVE HALF OF WHAT YOU TAKE IN TODAY. I GOT A CALL AT 14TH STREET. NOW, YOU GO PICK HIM UP." The taxi driver says: "OH, JOY!"

Panel 2: The taxi driver is driving away. The man is following him. The man says: "YOUNG MAN, DRIVE ME TO VAN CORTLANDT PARK IN A HURRY." The taxi driver says: "YESSIR!"

Panel 3: The taxi driver is driving away. The man is following him. The man says: "GEE, I'LL GET A BIG TIP - HE MUST BE A MILLIONAIRE TO GO THAT FAR IN A TAXI. I'LL TAKE A LOOK AND SEE IF IT'S ROCKEFELLER."

Panel 4: The taxi driver is driving away. The man is following him. The man says: "WHAT THE -"

Panel 5: The taxi driver is driving away. The man is following him. The man says: "BACKING UP FULL SPEED"

Panel 6: The taxi driver is driving away. The man is following him. The man says: "NOW, GET OUT!"

# COOK DISCREDITED BY HIS OWN ESKIMOS' STORY

Confirm Peary's Charge That He Traveled in a Circle and Never Even Approached the Pole.

CHICAGO, Nov. 8.—Dr. Frederick A. Cook was further discredited in a special cable dispatch to The Chicago Daily News to-day from his correspondent in Copenhagen, Denmark. The story was the first publication of the report of Knud Rasmussen, the Danish explorer, as sent by him to his wife in Copenhagen, and now given out by her.

Contained in the story are what purport to be the statements of Cook's two Eskimo companions in the polar quest, Etukook and Alikak, in which they confirm Commander Peary's charge that Cook traveled in a circle and never even approached the pole. Rasmussen is quoted as saying that he did not interview the men, but their statements were taken by the Rev. Gustave Olsen and Katekates Edmann Ross-Bach, missionaries born in Greenland, and at the time of securing the statements were in the country from which Cook claimed to have started for the pole.

**Story of the Eskimos.**  
This is the story of the Eskimos, given in the dispatch: "We traveled from Annakook with eight sleds, in company with Dr. Cook, at first in sunshine (February). From there to Eklersere, we slept only on the way. It took four days to cross Eklersere. Eighteen days out of our companions left us. We then had gone only one-half English mile from land. The ice was fine and there was no reason to stop, for anyone who wanted to go on could do so. The nineteenth day Dr. Cook took observations with an instrument he held in his hand and we then changed our course westward. "We left here a lot of food for men and dogs and one of us (Etukook) reported it in good shape, which it was, but Dr. Cook looked at it and said it was bad."

**Gives Cook the Lie.**  
One day I, Alikak, came upon Dr. Cook sitting down and drawing a map. I looked at it and asked him, "Whose route are you drawing?" "My own," replied Dr. Cook, "but that was a lie because he drew the map a long way out at sea, where we never had been. The small rivers had only begun to break when we reached Hell's Gate."

"Here, as Dr. Cook directed us, we left our dogs behind us, although they were fat from the meat of the bears we shot. We crossed the Great Sound and had to push our boat along the ice. Dr. Cook said, 'We will reach here by the end of the month.' Within two days, we had slept twice when he looked ahead and said he saw a trail. It was only a trail, and we kept hunting for human beings a long time. Then we came to an island in which elder birds were nesting, we following the land past Cape Sparbo, and we our provisions were gone. We returned toward Cape Seddon, where we arranged for wintering. It was twilight the whole night, and we built a house of peat and stone just as the Eskimos do. We caught walrus, musk ox and bears for the winter. With the bow we killed only two hares. We had a gun to kill musk ox and bear, but it was a musk ox with the bow is impossible. It was a fine autumn and we had good provision for the winter. "During the dark time we were in, side most of this making out, Dr. Cook said, 'The making out, at first sight of the sun we started home.'"

**Swindled His Eskimos.**  
Dr. Cook, during the journey, promised us a good reward, but he proved himself a liar and swindled us out of the payment. We did not get the fox he promised us. These he sold for furs. He gave us only a knife, some matches and a useless bow. This is all we had. We were hungry and cold. We told him, but he said we were lying. Our journey with the great Dr. Cook, was a failure."

## Railway News.

At a meeting of the Eastern Canadian Passenger Association, held in Toronto on Tuesday, Nov. 8, 1910, reduced fares were considered for numerous events, among them being the following: Christmas and New Year holidays, 1910-1911; Jan. 6, 1911, Epiphany; Toronto, Oct. Feb. 1-10, 1911, Live Stock Convention.

General Immigration Agent Thomas Howell of the C. N. R. left last night for Montreal, en route to England, where he will spend some time in mobilizing a force of agents, preparatory to the large immigration campaign planned by the company for next year.

**The Quebec Bridge.**  
OTTAWA, Nov. 8.—When Hon. Geo. P. Roblin was asked this morning as to the various reports that the contract for the Quebec bridge had been let, he replied: "The enterprising gentlemen of the press have already awarded this contract to each one of the tenderers, but so far I have come to no decision. As a matter of fact, the board of engineers have not yet completed the figuring out, and until that is done I cannot make any recommendation to council."

**New Railroad Line.**  
QUEBEC, Nov. 8.—The first train over the railroad from Ste. Flavie to Matane was run yesterday. The official inauguration of the line will be made about Dec. 10.

**Got Three Months More.**  
OTTAWA, Nov. 8.—Mrs. Felix Potvin of Hull, who is at present serving a three months' sentence in the Hull jail for selling whiskey without a license, came up before Judge Goyette in the police court to answer to a second charge of a similar nature, laid by Inland Revenue Collector Symmes, and pleading guilty, was condemned to serve an additional three months.

## JUST RING COLLEGE 3645

## HUDSON BAY ROUTE

McMaster Debaters Prove That It is Practicable.

The Hudson's Bay route is a practicable proposition. At last this was what the McMaster University debaters made the orators from University College believe at the inter-collegiate debate held last evening in Castle Memorial Hall. It took the judges just forty minutes to come to a decision.

S. C. S. Kerr and J. D. Mackenzie-Naughton presented the affirmative side for University College. Referring to government reports and statistics, they endeavored to show that if such a line could be established it would be the shortest route to the north. The Hudson's Bay and straits were also pointed out, as was also the short season that navigation would be possible. It was also stated that there was no harbor for terminals for such a line, but Port Nelson and Churchill being open only a very short time each year.

That it would be a most practicable and valuable asset, was the belief of James Strachan and F. W. Waters. The judges were: N. W. Hoyle, J. C. Rev. G. R. Fasken and G. S. Brett, M.A.

## A RUB FOR WINNIPEG

Too Busy With Material Things to Build Up Industrial Ability in Youth.

WINNIPEG, Nov. 8.—(Special.)—At the Canadian Club gathering here to-night Dr. Robertson mentioned some impressions Winnipeg had made on the members of the commission.

In Winnipeg, he said, the commission had seen some schools the best equipped for manual training in all grades to be found anywhere from the kindergarten upwards. An unfortunate condition in Winnipeg was that, when it came to the learning of a trade there was a different attitude. Winnipeg is too busy building and manufacturing to bother with apprentices, he remarked. They are too busy engaged in building warehouses and other things, to build up industrial ability in youths who had left the schools. A boy will go and work for \$12.5 a day at an occupation leading nowhere, although, if he would put up with less wages while learning, he could make an assured future as a skilled craftsman.

The commission left Portage at midnight for Brandon.

## Got Three Months More.

OTTAWA, Nov. 8.—Mrs. Felix Potvin of Hull, who is at present serving a three months' sentence in the Hull jail for selling whiskey without a license, came up before Judge Goyette in the police court to answer to a second charge of a similar nature, laid by Inland Revenue Collector Symmes, and pleading guilty, was condemned to serve an additional three months.

## NEW RAILROAD LINE.

QUEBEC, Nov. 8.—The first train over the railroad from Ste. Flavie to Matane was run yesterday. The official inauguration of the line will be made about Dec. 10.

## MISSISSIPPI RE-ELECTED AS DEMOCRATIC CONGRESSIONAL NOMINEE.

The defeat of Herbert Parsons, Republican, in the 13th New York district, was the first loss of a sitting member of the house reported up to 9 p.m.

Ohio—Early returns from Franklin County indicate a great gain in the Socialist vote. In some precincts the Socialists doubled their strength, taking votes from both old parties.

Congressman Mann of Illinois, who is among the slain, was chairman of the special committee in congress reported on the matter of pulpwood and its relation to the paper making industry.

Northern Navigation Co. Limited. Sailings from Sarnia 1.30 p.m. every Monday, Wednesday and Saturday. From Collingwood 1.30 p.m. and Owen Sound 11.45 p.m. every Wednesday and Saturday.

## MR. DRYTON TO INSPECT YORK CIDER

Continued From Page 1.

No Knowledge of Offer.  
"No excuse or justification, such as the public would have a right to expect, is put forward. The mayor seems to have been informed that the company has known for some time that the city intended to make an offer of settlement, and that having this knowledge, they have declined to produce the contract with the Electrical Development company. The company has never known that the city contemplated making an offer, and has had every reason to believe otherwise; there has never been one word, written or verbal, from the mayor or the board of control or from Mr. Drayton or Mr. Dow or anybody else to the company to that effect."

"On November 2 I had a long interview with Mr. Dow, but he did not tell me that the city was desirous of buying out the company, nor did he say one word about any proposal being in contemplation or about to be made; our whole talk was with reference to the engineering difficulties, and had no reference to the settlement which had been held, or to any offer on the part of the city."

**Always Willing.**  
"We have always been willing to produce the contract for the purpose of giving to the city information in connection with any offer of settlement, and in June last, when we were before the board of control, Mr. Blackstock, on behalf of the company, to lay the contract on the table, but no one cared to take it up or look at it."

"On Nov. 2, Mr. Dow telephoned to me and asked if I would produce the contract, and I told him that, if the city intended to make any offer of settlement, or to purchase, that I would only be too glad to produce the contract for Mr. Drayton, or for him, to know that it was always been the attitude of the company, and it is the same to-day, and I wrote to Mr. Drayton this morning repeating what I have just said, and if the city has intended to make a proposal of any kind, he is at liberty to see the contract at any moment that he likes. I supposed my answer to Mr. Dow was the same as an answer to Mr. Drayton, as Mr. Dow was representing him and the city, in his interview with me."

**Safeguarding the Public.**  
"With regard to the mayor's statement that good faith has not been observed in connection with the settlement, I have answered that sufficiently in my published letter, and now repeat that the agreement in question was for the purpose only of obviating the danger to the public of the settlement, and that the company, in regard to present and future construction by the city, which went far beyond the question of danger, and which, if accepted, might have very seriously and permanently injured the property of this company, I therefore verbally and by letter requested Mr. Dow to state what the extent and scope of the specifications were, and that I would be necessary for us to know this before I could give the company's consent. This was a matter entirely proper for my decision, just as the introduction of any new matter on our part must have been referred to the public by the city authorities for their determination."

**Eager to Settle.**  
"The company has not sought litigation and would not have resorted to it had it not been driven to appeal to the courts for protection by the continued serious trespasses of the city's electrical department, none of which can, or are sought to be excused or defended. I made that abundantly clear in my published letter and must leave it to the public to decide between us."

"Does it not seem strange for it to be said that the company wishes to remove the whole question from the settlement, and that it has appeared before the board of control repeating all the former proposals of settlement which it had made, and that it is to be sold out to the city upon the very terms which are provided for in the agreement between the company and the city, in case the city should acquire the property of the company; all of which have been refused by the city at the conference."

"The city authorities are well aware that the company is to-day ready and willing to repeat that offer or to make any reasonable arrangement, which will do justice to the shareholders, and protect the interests of the citizens."

**Mayor Geary's Statement.**  
"The mayor's statement reads: 'The officials of the Toronto Light Company have known for some time that the city was endeavoring to arrive at some basis of settlement of the whole situation. The company also knew that it was necessary that the city should see the agreement with the Electrical Development Company; that if the city took over the company, it had to take it subject to that agreement.'"

"On Nov. 2, Mr. Dow disavowed the whole situation at length with Mr. Macrae, and advised him that the city was desirous of settling on an equitable basis, and asked that Mr. Drayton should be shown the agreement with the Electrical Development Company, as he would have to pass upon it."

"On Nov. 1, Mr. Drayton called at the offices of the company for the purpose of making the inspection, which Mr. Blackstock had said could be made, but found that Mr. Macrae was not well, and was not at the office. Mr. Macrae as to the inspection of the instrument, or for a copy of it. On Nov. 4, no reply having been received from Mr. Macrae, Mr. Drayton again wrote with reference to the inspection of the agreement."

**Agreement Kept Secret.**  
"Mr. Drayton has also seen counsel for the company in an endeavor to get the agreement kept secret. The company does not appear to be acting in good faith, but seems to have been merely anxious to appear to the public as being ready and willing to

## DEMOCRATS MAKE GAINS MAY CONTROL CONGRESS

Continued From Page 1.

Governor Harmon of approximately five votes to a precinct.

**Florida and Prohibition.**  
JACKSONVILLE, Fla., Nov. 8.—Partial returns from sixteen towns with six county precincts gives 77½ votes for state-wide prohibition, and 298 against it. The amendment seems to be defeated by over 5000 majority.

**In Indiana.**  
INDIANAPOLIS, Ind., Nov. 8.—Scattering returns from over the state indicate that the Democratic state ticket will be elected.

The returns also indicate that the Democrats have made gains in Indianapolis, Evansville, Muncie, Fort Wayne and other cities.

## Mann is Defeated.

CHICAGO, Nov. 8.—At 9.30 o'clock to-night the Republican congressional headquarters stood ready to concede the defeat of Congressman Madden, Mann and Moxley of Chicago.

## In Connecticut.

NEW HAVEN, Conn., Nov. 8.—At 10.30 p.m. it was definitely determined that the general result of the election in Connecticut, Baldwin, Democrat for governor, appears to be elected by about 4000. Tilson for congressman at large, and Higgsman in the third congressional district; Reilly, Dem., is elected in the second district, and Henry and Hill in the first and fourth districts will probably be re-elected.

## Turnover in Tennessee.

NASHVILLE, Tenn., Nov. 8.—Partial returns from 66 out of 96 counties and estimates give Hooper Fusion, for governor, about 12,000 majority.

## In Idaho.

BOISE, Idaho, Nov. 8.—Scattering returns indicate a Republican victory.

## In Alabama.

MONTGOMERY, Ala., Nov. 8.—Em-

## 'SLEEPLESSNESS'

Thousands of people all over this land toss to-night after night on a sleepless pillow. The eyes do not close in the refreshing slumber that comes to those whose heart and nerves are right.

Some are troubled with weak and smothering spells, others palpitation of the heart; others have their nerves unbalanced; but whatever the cause—whether the heart or nerves, or both, Milburn's Heart and Nerve Pills offer the blessing of sound, refreshing slumber. They do this by their invigorating effect on the heart and nerves, and will tone up the whole system to perfect condition.

Mr. H. Jewel Keewick, Ont., writes: "I am glad to have the pleasure of telling you what Milburn's Heart and Nerve Pills did for me. I would have weak spells, seemed to lose my breath, and would have to get up in the night as I could not sleep. I tried many medicines, but found nothing good until I took three boxes, and it is three years since I did so, and I haven't been troubled since."

Milburn's Heart and Nerve Pills are 50c per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co. Limited, Toronto, Ont.

Not factory made skirts, but are made in our own skirt department from our own materials, in black and variety of colors, all the latest designs. Regularly \$15.00. To introduce our skirt makers more generally.</

FORCED TO EAT SKINS AND SNOWSHOE THONGS

Severe Privations of Explorers in Most Northern Part of Canada—Eskimo Ate Specimens Collected.

OTTAWA, Nov. 8.—(Special.)—Forced by lack of healthy food to subsist on different periods on skins and snowshoe thongs, Dr. E. Stefansson, who is representing the American Museum of Natural History and the Canadian Geological Survey in some Arctic explorations, was reduced to extremities last winter on Cape Lyons, one of the most northern points in Canada.

This morning R. W. Brock, director of geological survey, received a letter written on April 26 last, by Dr. Stefansson. The message had to be carried several hundred miles by an Eskimo on snowshoes, from Cape Lyons to the eastern point in Alaska.

Mr. Stefansson, who is a native of Winnipeg, had with him, Lieut. Anderson of the American army, and five Eskimos. For three weeks steadily they lived on a diet of deer skin, the Eskimo during that time eating up all the zoological specimens collected by the scientists of the party. Thruout, however, they were able to retain their records and instruments. Dr. Anderson and two of the aborigines of the north had pneumonia, and the dogs died from rigorous conditions.

At the time Dr. Stefansson wrote, the party was about to start for Coronation Gulf, about 200 miles east of Cape Lyons. There was, he reported, no further fear of a shortage in food supply, as game was plentiful. One difficulty still confronting the explorers was the great lack of dogs, which made travel across northernmost Canada exceedingly difficult. Mr. Stefansson sent down some of his geographical results. After three and a half years spent in ice-bound regions, with auroras and midnight sun, he expects to return in the fall of next year. The coming winter will be spent in the vicinity of Coronation Gulf.

EAST TORONTO CONS. MEET

Independent Association Has a Prosperous Year, as Reports Show.

There was a large and enthusiastic attendance at the annual meeting of the East Toronto Independent Conservative Association in O'Neill's Hall last night. The time was principally taken up with business. There was little oratory.

The following officers were elected: President George Laughlin; 1st vice-president, David Hinton; 2nd vice-president, H. W. Joseph; 3rd vice-president, John Earl; 4th vice-president, Charles Wilson; secretary, John Worrell; treasurer, E. Gardner; executive committee, E. C. Jackson, Wm. Worrell, Walter Dixon, George Corney, Jas. Mills, G. W. Gilmore, George Worrell and S. H. Hines.

Joseph Russell, M.P., East Toronto, made a few remarks, in which he congratulated the association upon its growth and prosperity. He was glad to see the independent spirit developing in East Toronto. He looked for big things in the future, and declared that the approaching session of parliament would be most important.

The auditors reported a cash balance of \$32.20. The president of the association, in thanking the members for their election, declared the motto to be public ownership, free speech, open conventions and majority rule.

**DROWNING AT COLLINGWOOD.** COLLINGWOOD, Nov. 8.—While working on a government tug in the harbor here to-day, a young man by name of Parlette, from Montreal, was drowned. At the time the tug crew were lifting buoys, and in some way the unfortunate man got caught in the ropes and was pulled into the water.

**Died in India.** BELLEVILLE, Nov. 8.—Word has been received here of the death of Joseph T. Warrington, which occurred at Singapore, S. S. Deceased was at one time a resident of this city, and a member of the firm of Warrington & Son, prominent cheese exporters of this country.

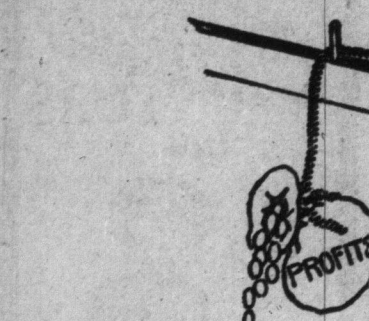

In Dread of Piles

Many Believe That Nothing Short of the Surgeon's Knife Will Effect Cure—They Do Not Know Dr. Chase's Ointment

The agony caused by the intense itching, the burning and debilitating effect on the system, the dread lest a surgical operation might be necessary—these are the things which make piles or hemorrhoids so distressing.

The doctors have been recommending surgical operations as the only cure. But the surgical operation, with all its dangers and expense and pain, does not usually effect a lasting cure. Many a case has been cured by Dr. Chase's Ointment after the surgical operation had failed. Here is a case which doctors gave up.

Mr. J. Mawer, Roden, Ont., writes: "Dr. Chase's Ointment is a wonderful preparation. I had itching piles for over six years, and though I tried two doctors' prescriptions and used many other preparations could not obtain much benefit. The doctor told me there was no cure for me, and that I would have to undergo an operation. I bought a box of Dr. Chase's Ointment, and was completely cured in one week. As this was six months ago and there has been no return of the old trouble, I believe that the cure is a permanent one."

Tighten Things Up—by Eliminating Undue Cost in the Handling of Goods

What's the use of a money-producing business, if the money leaks out as fast as you pull it in?

In other words, cost-reduction is just as important as profit-producing.

And cost-reduction means labor-saving.

To cut out unnecessary expense in the handling of merchandise, modern methods suggest the use of a freight elevator.

Whatever the nature of your business, you need a copy of our free book, "Freight Elevators and Their Uses."

This Coupon is worth Hundreds of Dollars if you clip & send it.

DOUBLE DROWNING

Body of One Found Near His Overturned and Broken Boat.

HALIFAX, Nov. 8.—(Special.)—A double drowning accident occurred near Port Greville last night. Geo. Dorsey and Everett Allen left Fraserville for Port Greville yesterday afternoon with a boat and raft of piling. This morning the body of Dorsey was found at the mouth of Batchford River, near his overturned and broken boat. Allen's body has not been found.

Piling from the raft is scattered along the shore above Fraserville, and it is supposed that when the raft broke up a man tried to reach Port Greville, and that his boat struck a sandbar near the river mouth and capsized. Dorsey, who was a strong swimmer, evidently tried to reach the shore, and nearly succeeded. Allen, probably sank at once and was swept away by the strong current.

Both men were married, and Dorsey leaves a family.

BOARD OF TRADE PLEAS

Congratulates Provincial Government On Immigration Policy.

Commendatory words were expressed by the board of trade of the city at its last meeting concerning the immigration policy of the present government. To record its appreciation of the policy, a resolution was passed by the board: "That this board express its cordial approval and support of the establishment and maintenance of the Ontario office in London, England, and that it further, this board extend its hearty congratulations to Sir James Whitney and the minister of agriculture upon the very valuable work which the office has already accomplished, and upon the government's present policy of enlarging the accommodation and of carrying on a vigorous campaign in Great Britain in the promotion of emigration and in widening the market for provincial products."

MARGARET ANGLIN'S ILLNESS.

According to a Chicago despatch to The New York Times, Dr. G. W. Whitfield, who is attending Margaret Anglin, the gifted Canadian actress, declares her condition is very grave. He is quoted as saying that "her vocal cords are in a frightful condition. In my experience, I have never seen a case where the nose and vocal organs have become in such a dreadful state. An operation will be necessary, but this cannot be performed at the immediate present, for she is in too nervous and rundown a condition."

MOTORIST FINED \$2,000.

ORANGEVILLE, Nov. 8.—The jury in the action of Mrs. Margaret Marshall, widow of John Marshall, who was killed on June 17 near his home in Melancthon Township by his horse, being frightened by the automobile of Dr. T. J. Gowans of Horning's Mills, this morning brought in a verdict for the plaintiff for \$2,000 damages, which Mr. Gowans must pay.

Alpha Lodge, R.A.M., Excursion to Buffalo, Friday, Nov. 11th.

The above lodge will leave Toronto by special C. P. R. train for Buffalo at 2 p.m., Friday, Nov. 11. Return special for their accommodation, will leave Buffalo at 3 a.m. Saturday. They have secured a rate of \$2.19 for the round trip, and tickets are good for return on all trains Saturday, Nov. 12. Tickets may be obtained from any members of the committee.

Hotel Changes Hands.

MASSEY, Nov. 8.—The Clifton House here, of which Mr. Neil Brown has been proprietor for many years, is about to change hands. Mr. Brown now having the Gladstone House in Orillia, Mr. Charles Brown, at present manager of the King Edward Hotel at Sudbury, takes control of the Clifton House on the 15th of this month.

Deserted Wife's Sad Plight.

Lena Goldstein with three children, after vainly searching New York for her husband, was deported by the United States Government as undesirable arriving in Toronto yesterday morning. She and Goldstein lived in Montreal for three years, and in Toronto for three. Several months ago he went to New York, and the children going later, trying to locate him.

MIGHT HAVE BEEN ARRESTED

Attorney-General's Name Placed on the Challenge List.

NEW YORK, Nov. 8.—United States Attorney-General John G. Wickersham narrowly escaped arrest and arraignment in a police court to-day.

Through either the ignorance or oversight of someone connected with the registry verification system, the law granting federal employees the right to vote from their last place of residence, no matter how long they have been absent, was ignored, and because Mr. Wickersham was not found at the number, 36 East Fifty-first street, where he lived before he went to Washington, his name was formally placed on the challenge list, and a policeman waited for him, so that he might be arrested if he appeared to vote.

Then State Superintendent of Elections William Leary learned that after Mr. Wickersham's name and address was the note "in federal employ." This Superintendent Leary said should have been sufficient to have Mr. Wickersham's vote accepted. Fortunately, the challenge officer did not appear at the polling place before Mr. Leary heard of the error.

Margins Were Wiped Out.

Wm. Forrest and Murdoch McLeod were again in police court yesterday charged with conspiring in the operation of their brokerage office in the Traders' Bank Building. W. M. Newsome declares that a transaction in shares of the Little Nipissing upon a margin formed the basis of a fraud, and that when he called for his stock the firm did not have it. The defence declared that, as Newsome did not cover his margin, they were forced to sell him out.

At the close of the hearing Magistrate Denison decided that if the facts were as stated by Newsome, the margins must have been wiped out, and declared that it did not look like an conspiracy to him. The case was, however, adjourned till Nov. 10 for further evidence.

INLAND NAVIGATION.

NIAGARA CENTRAL ROUTE.

ST. CATHARINES, NIAGARA FALLS, BUFFALO, WELAND

Commencing Monday, Sept. 12th, and for the balance of the season, Steamer "Lakeside" will leave Port Dalhousie daily (except Sunday) at 8 a.m., returning will leave Toronto at 4:45 p.m. Express service at freight rates to all points in the Niagara Peninsula. Marie and Georgian Bay Ports. Information from Railway Ticket Agt. or the Company at Sarnia or Collingwood.

SHIP WAS AFIRE

Flashed Distress Signals by Wireless, Asking for Aid.

SAN FRANCISCO, Nov. 8.—Wireless messages were picked up at various points along the coast last night from the steamer Falcon of the American Hawaiian Steamship Co., stating that the boat was afire, and asking for aid. The Mare Island station received a message early this morning that the Falcon had flashed distress signals about 9:30 o'clock, while off the Columbia River bar. The fire was put out, it was reported, shortly after midnight, after the tug Snolomah had gone to her assistance, and the steamer proceeded on her way to Astoria, Oregon.

John McLean's Sister Wanted. By wire from Green Bay, Wis., the police have been notified of the death of John McLean at that place on Monday. He is believed to have a sister in Toronto.

YOU WANT A CURE!

I CURE WHERE OTHERS FAIL

To people who suffer from chronic troubles of any kind—rheumatism, nervous complaints, varicose, low power, debility, weakness in any form, or stomach, kidney or liver disorders, I offer a positive cure at a price within the reach of all. I have no drugs to sell. I cure with electricity—that's nature's medicine. Because you have wasted your money on worthless remedies and so-called cures, and found that they could not help you is no reason why you should be discouraged. I can show you people who had doctored and drugged, and who were restored to perfect health after using my Electric Belt for a short time. I'll give you the names of some of these people and you can ask them about it. It is impossible to cure any ailment by dishing the nerves and vitals with stimulants or poisons. Your body needs new life and strength. My Electric Belt gives that. It helps nature cure by restoring the energy and activity of every weak, sluggish organ of the body. Dr. McLaughlin's Electric Belt is the best Electric Belt made. No better belt can be made. If it will cure you it is worth giving it a good trial. I don't want your money if I can't help you, and I'll tell you so before you pay me a cent. Do you doubt it? If so, any man or woman who will give me reasonable security can have my Belt with all the necessary attachments suitable for your case, and you can

PAY ME WHEN CURED.

Stronger Than Ever Before.

Dr. McLaughlin: Dear Sir—Your Belt has helped me wonderfully, for I am feeling like at present. I have gained nine pounds in weight, and I give your Belt the credit for it. I am sure you will be satisfied. I sleep well, eat well, and feel fine, and I am sure your Belt did it. Yours truly, L. MALIN.

Just put your name and address on this coupon and mail it to me. I'll send you full particulars regarding my Electric Belt, together with my big free book, which explains many things you ought to know about the diseases of men and women.

DR. M. J. McLAUGHLIN, 112 Yonge Street, Toronto, Can.

Dear Sir—Please forward me one of your Books, as advertised.

## BROCKVILLE POWER RATES BECK'S REPLY TO GRAHAM

Minister of Power Points Out Where Federal Minister of Railways Has Made a Mistake.

When shown the statement made by Hon. George P. Graham, minister of railways and canals, in a speech delivered at Brockville, on Nov. 8, in which he charged the hydro-electric power commission with lack of sincerity in regard to estimates for the cost of power furnished to Brockville, Hon. Adam Beck, chairman of the hydro-electric power commission, said:

"I am sorry, Mr. Graham is correctly reported, that he has questioned the sincerity of the claim of the hydro-electric power commission in its desire to furnish the eastern part of the province with cheap power. Would it not be better to leave the questioning of our sincerity to the municipalities who have from time to time made application to the commission for power or information? Any municipality in the eastern part of the province can easily put us to the test by accepting the commission's offer."

"Offers have repeatedly been made to these municipalities, including Brockville, based on a supply of power from a company operating along the Trent River. The last estimate of the cost of power to these municipalities was based upon an option of 15,000 h.p. from the New York and Ontario Power Co., who have a charter to develop power at Waddington, N. Y. The whole principle of the government's power policy is that power should be available in all parts of the province, but this is only possible by co-operation in all districts," added Mr. Beck.

With regard to the rejection by Brockville council of the estimates of cost furnished by the commission to Brockville, Mr. Beck said that the prices had been given on the basis of 1000 h.p. and one of \$22.00 for 2000 h.p. The advantage of the whole scheme would be for these eastern municipalities to get together, take a block of power and thus reduce the cost to each.

With regard to Mr. Graham's further criticism, The World is informed that a company to which development has not yet been given, but which is at Long Sault, has not yet received a charter. Dundas is the latest municipality in the province to join the hydro-electric power commission. Yesterday Hon. Adam Beck received a contract from Dundas for 600 h.p. This contract places Dundas on an equal footing with Hamilton in the power question. The additional horse power application required on account of this contract at Dundas, and the only work necessary will be the construction of a pole transmission line, about a mile long, to take the low voltage stepped down power from the transformer station to the town.

## MAYOR UNSEATED.

SMITH'S FALLS, Nov. 8.—Judgment was given yesterday by Judge Senkler in the action brought by John Smith to disqualify Mayor McCallum of Smith's Falls, on the grounds of irregularity in selling cement to the town. It is in favor of the plaintiff, and Mr. McCallum is unseated and ordered to pay the costs of the case.

## Rochester Looking Good.

The development work at the Rochester Mine is progressing most satisfactorily. The new find on the level in the south drift is heavily mineralized, carrying cobalt and galena, a bed about five inches wide. While considerable high grade ore has been blocked out for months in the Rochester Mine, the management only shipped about forty tons of ore, this being ore taken out during the sinking operations to the 150-foot level, where a bigger and richer body of ore is looked for daily.

## Led Band at Victoria's Coronation.

SEATTLE, Wash., Nov. 8.—Thomas Cannell, who led a band at the coronation of Queen Victoria, died here yesterday, in his 95th year, leaving 80 descendants, including seven great-grandchildren. Cannell was born in the Isle of Man in 1814. He crossed the plains on foot and settled in Utah in 1858.

## A. D. C. to the King.

QUEBEC, Nov. 8.—A former Quebecer, Lt.-Col. Charles M. Dobell, son of the late Hon. R. M. Dobell, has been appointed as A. D. C. to his majesty the King, and promoted to the rank of colonel.

## SPECULATION FAVORED BY PRESENT INVESTMENT BUYING.

World Office, Tuesday Evening, Nov. 8.

The closing of the Wall-street market had no apparent influence on domestic stocks to-day. London was less buoyant for American stocks and this was the only matter outside of the Toronto market itself which was discussed in local financial circles. Prices here showed some irregularity, but, taken on the whole, signs of strength were more in evidence than those in the other direction. Toronto Electric continued in demand, and at higher prices, despite the new rupture between the company and the city. Twin City and Mackay are issues immediately in the eye of traders and investors, although the market does not indicate this to be the case. Small investment buying is gradually making a speculative upward movement easier to bring about.

## London Lower for Americans No Feature to Toronto Market

With New York Exchange Closed, Toronto Market Turns Dull, With Only Small Price Changes in Evidence.

World Office, Tuesday Evening, Nov. 8.

All the trading in to-day's Toronto Stock Market had the earmarks of an almost entire absence of speculation. The market was very free from manipulation, the only evidence of this being in Quebec Light and Power, in which the efforts of the pool are still strongly exerted to put out stock.

Inactivity was the only feature of the real local speculative favorites, and a share of Mackay or Twin City being transferred in to-day's business.

Bids for both these stocks were in the market, but the offerings were held continuously above the market, and the only inference was that the sellers were by no means anxious to sell.

One of the strongest issues was Toronto Electric Light, which closed bid half a point above last night. The company's new debt to the city was evidently not a factor in the market for the stock.

About the average amount of Quebec Light and Power shares were put thru to-day, and still there is no interest taken in these securities on this exchange.

With New York closed the Toronto market demonstrated its ability to carry its own obligations, and many are still strong in the conviction that the local market will proceed shortly to discount better things.

## Dividend for Depositors.

Judge P. C. Macdonald of Montreal has authorized the liquidator of La Banque de St. Hyacinthe to pay a dividend of 45 cents on the dollar on the original amount of the deposits which were in the bank when the operations were suspended, and on the amount of the various claims which have been filed with the petitioner. The dividend will be paid on November 19.

## Higher Prices for Money.

If anyone desires evidence of the changed position of the money market, he has but to compare the rates on Wall-street with those of the very recent past. Last Saturday's call loan rate of 4 3/4 per cent. was the highest level that has been seen since the opening of May. Six weeks ago the week's maximum Wall-street rate was 2 per cent. Sixty-day loans on Saturday commanded the highest rate in exactly a year, at 5 and 5 1/4 per cent. for accommodation running to sixty days, the market shows an advance of 1 per cent. over a month ago, and 1 1/2 per cent. over six months ago, and 1 1/4 per cent. over two months ago.

## ELECTION BOOMS ON WALL ST.

It must be admitted that the "election boom" on Wall-street has become in recent years, so far at least as concerns presidential years, a sort of farce. Judged simply as a political and financial demonstration, the instantaneous boom which followed Mr. Taft's election in 1908 was an exceedingly silly piece of business. Nobody in or around New York had the remotest idea that Mr. Bryan could win, and on the other hand, no man of intelligence believed for an instant that Taft's election would alter the financial and industrial situation.

As a matter of fact such expectations were not verified at all. Trade grew steadily less favorable during the three months after election day of 1908. This is not the common impression, even to-day; for people are apt, when looking back at the spectacular expansion in the stock market and the steel trade which began in the middle of 1909, to imagine that it started instantaneously after the election of Mr. Taft. But even from production, it increased slightly in December, 1908, was lower again in February and April, and did not really strike the pace of recovery until July. Indeed, the stagnation of the steel trade during December, 1908, and January, 1909, was so complete as to start the independents cutting prices viciously and to force the Steel Corporation, in February, to declare an open market, with a resultant collapse in prices almost to the cost of production. Yet it is probable that the majority of Wall-street men, if asked to-day whether the "after-election boom" of 1908 was an accurate forecast of the

## Have Your Cosy Days Arrived?

They have, if the inside of your house has been made comfortable and attractive; if you've kept in touch with departments like ours, which constantly exemplify the artistic trend in home furnishings. All furniture looks alike—in print. But if one visit to our new Furniture Department on the rearranged Fifth Floor does not convince you of our ability to supply furniture of the best kind, at most reasonable prices—then you will do us a great favor by telling the manager about it. Take time for a general survey to-morrow along the lines indicated here. There's a price of very special interest in each section.

### Bedroom Furniture.

Dressers, Chiffoniers, Dressing Tables, Cheval Mirror and Beds—in mahogany, Circassian walnut and quartered oak, polished or dull finishes.

Bedroom Suite, in dull mahogany, Sheraton design, with fluted posts and mirror standards, an exceptionally good pattern Dresser, \$39.00; Chiffonier \$37.00, Dressing Table \$23.50, Cheval Mirror \$30.00, Bed \$37.00.

Dressers in neat modern design, made of genuine quartered oak, rich golden finish, lots of drawer space and large bevel-plate mirror. Price \$17.00.

Chiffoniers to match above dresser, \$17.00.

### Reed Craft Furniture.

Suitable for dens, living-rooms, halls and libraries, made of the best of materials and in the various finishes.

Arm Chair, in natural and light green finishes, strongly made and very comfortable. Price \$6.00. Rocker to match \$6.50.

### Bedding.

Iron and Brass Bedsteads, woven wire springs, mattresses and pillows, Iron Bed in pure white enamel finish, heavy posts with heavy filling, evenly distributed, brass caps and rods at head and foot end. Price \$4.75.

Brass Bed, with heavy continuous posts and upright filling, 4 ft. 6 in. size only. Price \$30.00.

### "Somersaultic" Davenport Beds.

A complete assortment of the various styles and finishes.

Davenport with solid oak frame, and covered in an extra good quality of embossed velours, can be changed from a perfect Davenport to a perfect bed without moving from the wall. Price \$25.00.

### Dining-Room Furniture.

Complete Suites in mahogany polished or dull finish, Sheraton, Chippendale and Queen Anne designs, and in quartered oak, modern and mission designs in early English and rich golden finishes.

Dining-Room Suite in mahogany, neatly turned and fluted columns and posts, sideboard has good cupboard and drawer space, china cabinet has 3 display shelves, pedestal table with round top, extends to 8 ft. Prices—Sideboard, \$44.50; China Cabinet, \$26.75; Extension Table, \$37.00; Dinner Wagon, \$16.00; 5 small chairs and one Arm Chair, \$43.00.

### Macey Sectional Bookcases.

This is recognized as the "better make" of sectional bookcases. A full assortment always on hand in Standard, Arts and Crafts and Colonial styles, a Standard stack, consisting of 3 sections, with top and base. Price \$13.75.

### Kitchen Furniture.

Our Special Kitchen Cabinet, made of thoroughly seasoned hard maple, finished natural, bottom part has large drawers, cupboard space and flour bin; upper part has double-door glass cupboard with five small drawers underneath. Price \$13.50.

## Straight Talk

The competition in modern business life is so strenuous that a man is called upon to be at his best all the time. And "at his best" means, among other things, that he should look his best every business day. He should appear at the office as if he had just stepped out of a band-box, and was ready for anything.

This does not imply extravagance; it simply means a little daily attention to your wardrobe, and a daily reading of the news from our men's store. Then there'll be no chance of your missing such an opportunity as presents itself to-morrow, when you may buy

### An English Worsted Blue Suit for \$10.50

A soft, smooth finished clay twill material, in navy blue, thoroughly fast color; three-button single-breasted sack style; sizes 36 to 44. Thursday . . . . . 10.50
