THRU CATARACT'S SPRAY
UNDER ARCH BRIDGE

Lincoln Beachy Successfully
Accomplishes One of the Most
Daring Feats in History of
Aviation—Aviator's Own Story
of His Perilous Trip, as Told
to the World—Machine Seem-
ed Sucked Down as He Passed
Over Crest of Horseshoe Fall.

WOULDN'T DO IT AGAIN
FOR FIVE THOUSAND
NIAGARA FALLS, June 27.—(Special.)—For the first time in the history of aviation, an aeroplane crept over the majestic cataract of Niagara and dipped gracefully under the upper steel arch bridge shortly before 6 o'clock this evening, when Lincoln Beachy piloted his Curtiss bi-plane safely over the perilous course in the view of a quarter of a million of people. His successful flight marks another mile stone in the achievements of daring bird-men. Enthusiastic aviators who witnessed the flight, declare that it was more perilous than the recent race across the Alps. Beachy won the thousand dollar prize offered by the international carnival committee on the under-the-bridge flight.

Beachy rose into the air in his machine about a mile from the roaring cataract, soared several thousand feet into the clouds, then clung near to the earth. Several times he was lost to view. Like a great sea eagle, his aeroplane passed over the steel structure, clearing the trolleys that cross it by a margin of twenty feet. Down the gorge for a mile the machine raced, then passed over the city on the Canadian side.

Flitting over the Horseshoe Falls for the second time, Beachy dipped his machine as soon as he cleared the cataract and ducked under the bridge without even brushing a guy wire. As the aeroplane passed under the bridge, the whistles of the Maid of the Mist and the gurgles of the water were the news of the successful attempt to perform a feat which Jas. McCurdy, the Canadian aviator, and heavy wood kum bird-men had refused to try, declaring it to be suicidal.

Beachy will fly over the falls again to-morrow afternoon, aviation features being the star attraction of Niagara's international carnival, in progress today and to-morrow.

Beachy's Own Story.
Here is Beachy's own story of his epoch-making flight, as he told it to the World correspondent tonight. "I would not again attempt to fly under that bridge for five thousand dollars, let alone the thousand dollars prize such as I won to-day. It is the uncertainty as to what is before the aviator as he passes thru the clouds of spray over the falls that makes the flight so perilous.

As I neared the Horseshoe Falls I dipped my machine to the spray. I could hear the roar of the cataract above that of my machine, but I could not see three feet in front of me. As I passed the spray and came out into the daylight again I dipped my machine and made directly for the bridge. I was within a few hundred feet of the bridge before I was sure that my attempt to pass under it would be successfully accomplished.

As I passed over the falls I noticed a great suction that seemed to suck my machine into it, and the rushing waters I breathed a sigh of relief when I had cleared the cataract on both my flights over the falls. The strong air currents in the gorge made it difficult for me to come up from the chasm. When within a thousand feet of the Cantliver Bridge, about a mile below the bridge I passed under, I was about level with the upper river bank, and was fifty feet above the ground when I changed my course and turned my machine towards the Canadian shore.

Another Big Merger.

GUELPH, June 27.—(Special.)—Another big-merger has been formed. This latest consists of a union of the various milling companies scattered thruout western Ontario. The stated object is to secure, if possible, a larger share of the export trade, and to do away with overlapping of orders. Six companies are interested, these being the owners of mills situated in Chatham, Blenheim, St. Mary's, Stratford, the John Campbell Milling Co., with two mills at St. Thomas, and the Goldie Milling Co. of this city.

When interviewed this morning, the officials of the Goldie Milling Co. stated that this merger has been under process of formation for some time past, and that the arrangements were concluded at a meeting of the millers, held at Toronto, on Monday. The capital has not yet been announced, but it will be large. The merger will not affect the output of the Goldie Milling Co., for some time at least, and the staff will be kept intact. It may mean, however, that some of those who have been at the head of the Goldie Milling Co., for many years, will retire from active participation in the business, and will allow the younger men to have the control.

SUPPOSED VICTIM OF MURDER FOUND ALIVE

Disappeared Six Years Ago—Two Men Were Awaiting Trial For His Assassination.

SHERBROOKE, Que., June 27.—"Charles G. Weymouth, supposed victim of murder at Biddeford, Me., said to be working as butcher in Sherbrooke. This message received in Sherbrooke on Sunday morning was the means of clearing a mystery that has baffled the authorities at Biddeford, Me., for nearly six years. Chief Davidson was notified and communicated with the police at Biddeford, asking for information. This morning Provost Officer Daniel S. Hamilton, of Saco, Me., and L. Emery, a lawyer of Biddeford, arrived in town. Hamilton knew Weymouth personally. A search was made among the butchers and finally one was found, who said that a man answering the description of the missing Weymouth, had applied to him for work some time ago, and that he was now working for Messrs. Bray Bros., grocers. The officers proceeded at once to the grocery store and there found their man. They held a private consultation and took the man off with them to the hotel.

Weymouth had been working for Bray Bros. for nearly a year. He had stated to one of the employees that he had formerly been a butcher at Biddeford. A short time ago Dr. Snow was arrested on a charge of burglary. He was tried, convicted and sentenced to jail. He left a family of small children and one of these told a story, which threw light on the case. Two of the children told the officers that they saw a man who was quite familiar with quite a considerable number of the films shown thruout the country. That will be a great saving in time, as he will recognize the film when it is presented, and there will be no necessity of running it all off. Many of the films, you see are all right except in one or two places where objectionable scenes will have to be eliminated before being passed by the censors.

The act controlling moving picture shows was introduced by Col. Matheson, and he states that no suggestive, immoral or obscene pictures, or those that portray crime or prize fights will be sanctioned. "We'll have to be a little easy for a while," he remarked, "and the films which it will take time to get all the objectionable features eradicated."

Spoilin' for a Fight

Unduly Aggravated Cops May Soon Be Able to "Talk Back" to Journalistic Dictators.

OTTAWA, June 27.—(Special.)—Surferin' in silence may be majestic and all that sort of thing, but it don't appeal to the Irish, and if the suggestion of Toronto's chief inspector, David Archibald, made to assembled police chiefs here to-day is carried out, the cops will hereafter be able to talk back. The chief inspector proposed that a police organ be established for monthly publication upon which the attacked bulls might play big base re-primands and answers' arguments to their critics. This suggestion was one of the big guns fired at the opening of the seventh annual convention of the Chief Constables' Association here to-day.

MUM ON ASYLUM SALE.

Nothing definite will be announced regarding the sale of the Central Prison property and the asylum property until Hon. W. J. Hanna returns from New York City at the end of the week. Hon. Dr. Reaume, minister of public works, made this announcement yesterday with regard to rumors to the effect that the sale of these properties had been consummated.

TORONTO MEN GOT EVERYTHING

LONDON, Ont., June 27.—Every office of the Grand Camp of the Sons of Scotland went to Toronto men at the annual meeting here to-night. The list is as follows: Grand Chief, F. S. Meigs; Grand Chief, A. C. Gordon; Secretary, Lieut.-Col. Robertson; Treasurer, Alex. Hays; grand chaplain, Rev. D. W. Crisler; grand medical examiner, Dr. Thomas Wylie.

The Toronto World

LINCOLN BEACHY, his Curtiss biplane and the International Bridge at Niagara Falls, under which the daring aviator flew aboard his air craft yesterday afternoon. This was the first attempt ever made by an aviator to pass under any object. He was also the first bird-man to fly over the Falls of Niagara.

LIGHTNING DESTROYS FINE MONTREAL CHURCH

Loss Will Be in the Neighborhood of \$200,000—No Loss of Life, But One Fireman Was Injured—Disaster Happened Shortly After a Service Had Been Held.

MONTREAL, June 27.—Lightning tonight struck the Church of St. Jean Baptiste on Rachel-street, and completely destroyed the splendid edifice, at a loss of about \$200,000. This was the second time the church had been burned, but the present fire was much the more disastrous, since after the fire in 1886 it had been rebuilt into one of the finest edifices in Montreal.

At midnight there was little left but the walls and the tower, facing on Rachel-street, which still stood, although it was momentarily threatening to fall. The fire is still raging within the walls in connection with the fire, which started about 9.30 o'clock, very shortly after a service had been held. The only person injured was fireman Bourgoin, who was thrown from a ladder by a toppling wall and suffered a broken leg and other injuries.

At a late hour Wednesday morning the fire is still raging within the walls, but the bare walls of the church, and it was stated by Chief Tremblay that it would probably be soon before the firemen would be able to leave the ruins. While the losses are very heavy, they are well covered by insurance, it being stated that there was \$175,000 insurance on the main building, spread over a number of companies, while the insurance on the organ amounted to \$14,000. Oddly enough, the organ insurance had only been concluded at noon yesterday, the organ having been recently installed by the Casavant Company of Ste. Hyacinthe.

THREE CANDIDATES OUT

For Majority Honors in Chatham Municipal Election.

CHATHAM, June 27.—(Special.)—Three candidates have quietly announced themselves for majority honors in the next municipal election. They are Ald. Wm. Anderson, Ald. Frank E. Baxter, and ex-Ald. John McCorvie. The latter being the defeated candidate at the last election. Mayor Brackin has not yet decided whether to run again or not. It is understood that the local option question will form a very important feature in the election, and already the temperance people of the city are asking that all candidates announce their position on the question of the liquor license problem.

Wanted in Perth.

KINGSTON, June 27.—(Special.)—Elmer Goslet, aged 30, has been placed under arrest on a charge of theft. He is wanted in Perth to answer a charge of stealing a horse.

London Street Car Was Struck By Freight Train

Watchman Killed in Shanty, Which Was Ground to Pieces—Passengers in Car Not Hurt But Badly Frightened.

LONDON, Ont., June 27.—Timothy O'Leary, a watchman, was killed, and passengers badly frightened and three freight cars were thrown across the tracks, obstructing traffic for several hours, as the result of a collision between an Ottawa-venue car and a freight train backing down a siding. Watchman O'Leary had thrown the derail for the car to cross the tracks. A freight train backing down a siding failed to stop on signal and crashed into the front end of the car. The car was turned entirely around, but remained in an upright position, and bruised none of the passengers, allowing the frightened passengers to escape. The caboose of the freight train left the rails, striking the shanty in which O'Leary was sitting. The shanty was crushed to death under the wheels, which ground the shanty to pieces. The caboose then struck and derailed two other cars, which were piled in a pyramid on the tracks. Motorman Facey jumped just in time to save himself from being crushed in the vestibule of his car, which was broken to splinters. He struck the tracks with his left leg doubled under him. An examination of it was found that several muscles had been torn. Aside from a few insignificant bruises, none of the passengers were injured.

NEED MANAGER FOR WORKS DEPT.

Judge Winchester Finds Loose Business Methods and Suggests That Messrs. Russett and Fellows Should Serve Solely in Engineering Capacities—Area Rentals Should Yield Good Revenue.

Works Department Recommendations

A general business manager should be appointed, advising Mr. Rust to give undivided attention to engineering. Deputy Engineer Fellows should be limited to engineering on the waterworks. Appointment of a general purchasing agent. A rental per square foot should be charged for all city areas rented to pay cost of inspection. Annual license fee to be paid by all persons who use the streets for private purposes. Coal and coke used at the pumping station should be weighed.

Judge Winchester's Report

Judge Winchester's report of the works enquiry was handed to Acting-Mayor Spence yesterday. It is a rather bulky document of about forty typewritten pages, and contains very little of a radical or severely censorious nature. His honor found cause for criticism with regard to the handling of the intake pipe, his main findings on this question being: That the causation of the break in the intake was most likely the ice and storms. That the inspection of the intake pipe had been altogether too infrequent, and should have been made once a month instead of once a year. That the intake pipe became choked with sand thru the break in the pipe rather than thru the intake itself. Other conclusions, reached by the investigator were: That the city has lost a great deal thru poor business management in the department. That the charges made by Geo. Orpen in connection with meter parts were made in good faith, and that Matthew Warnock was making exorbitant charges therefor. That Klesock and McGill acted dishonestly towards the city.

Recommendations

That all areas in the city be charged with a rental per square foot to cover the expense of inspection and the use of the streets and also as an insurance against actions for damages that might occur by reason of improper use of the streets for private purposes, such as for wooden signs, billboards, etc. That an annual license fee to cover the cost of inspection and the use of the public property be charged to all persons who are using the streets for private purposes, such as for wooden signs, billboards, etc. That the weight scales be placed at the high level pumping station and at the East Toronto and West Toronto pumping stations for the purpose of weighing the coke and coal supplied to these stations. That it is absolutely necessary in consequence of the great increase in the population of the city, and the necessarily increased expenditures, that the works department and the water works department should be reorganized, that Mr. Rust should be permitted to devote his time exclusively to the engineering work of the works department and Mr. Fellows to the engineering work of the waterworks department.

That a general business manager or commissioner of works should be appointed, with full supervision over all expenditures of both these departments, and over the employment of all persons other than those directly under the engineers, the care of supplies and stores, and generally of all business in connection with the departments.

That a general purchasing agent be appointed for these departments, whose duty shall be to make all purchases required for the departments, under the direction of the commissioner of works. After the treasurer has reported funds available, all accounts should be paid after being vouched by the purchasing agent and auditor, and certified by the commissioner. The general stockkeeper should enter all receipts of supplies to be obtained from him on requisition by the purchasing agent, and issue supplies only as they are required by the different foremen.

Continued on Page 8, Column 1.

The Tropical Headwear

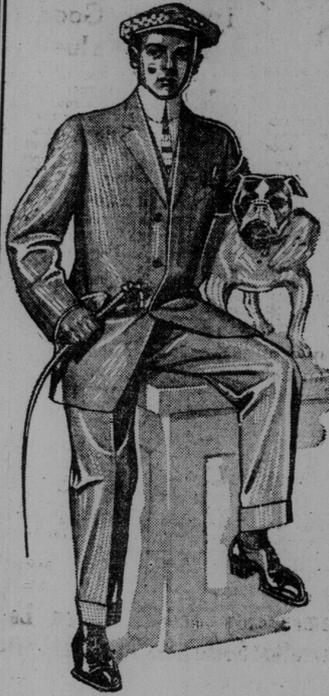

The humidity yesterday made it a trying summer day. A cloudy sky now and then saved us from a record breaker. The hat that felt best during the time "Old Sol" was on the job was a Panama. A Panama hat is a tropical sunshade for the head. The Dineen Company are showing some excellent weaves in these popular hats at from five dollars to twenty. The five dollar lines could not be duplicated elsewhere at less than eight-fifty. Other prices in proportion.

Whole House Took Up Refrain

After the last verse was given the whole house took up the refrain with enthusiasm. Mary turned and bowed to the audience. Then their majesties departed. They were given an ovation both within the house as they were leaving and outside where great crowds still kept vigil for the departing guests, most of whom drove to Lord Derby's supper party. The principal coronation festivities are nearing an end, but subsidiary functions and social entertainments are still sufficiently numerous and important.

Continued on Page 7, Col. 3.

# Now For Dominion Day

The holidays are coming thick and fast, which keeps us busy making up our sales for the one day "short" in the week. People are getting more used to shopping during the week nowadays and that makes it easier for all hands, so that when we say *special prices for Dominion Day* needs we know you'll shop early.

**SEVENTY-FIVE Men's Two-Piece Linen Outing Suits**, beautifully made to clear for 5.95.

## HAMILTON HAPPENINGS

### COMPANY BLAMED FOR DEATH OF JAMES DIXON

Negligent in Not Properly Protecting Fuses—Cataract Power Interrupted by Storm.

HAMILTON, June 22.—(Special.)—Coroner Baugh's inquest into the death of Jas. L. Dixon, which was concluded tonight after having been adjourned from last Friday night, resulted in the following verdict: "The jury empaneled to inquire into the death of one James L. Dixon, and from the evidence produced that death was due to electrical shock caused by coming in contact with a fuse or fuses, and to find negligence on the part of the company in not having fuses properly protected."

Dixon was killed at the Canadian Westinghouse Company's plant on June 17. He was an Englishman who had been here about a year, and had a family in the old country awaiting to come out to him here.

At a banquet in the Tudor Inn tonight fifty representatives of Hamilton manufacturing and wholesale concerns listened to Henry Detchon of Winnipeg while he explained the workings of the Canadian Credit Men's Association. The object of the association is to protect its members by collecting and distributing information relative to credit accounts. The plans to attain this object, as explained by Mr. Detchon, are very ingenious and comprehensive. Many of those present expressed themselves as favorably impressed with Mr. Detchon's proposition and promised him their support in his efforts to establish a branch of the association in Ontario and Quebec.

A Fatal Mistake. Mrs. Salpe, 304 East King-st., this morning drank carbolic acid in mistake for a cough medicine, and died half an hour afterwards. Coroner Rennie decided that an inquest was unnecessary. Mrs. Salpe came here from England a year ago. Her husband is a tailor, besides whom she leaves two children. The funeral will take place on Wednesday. Interment will be made in the Jewish Cemetery on the Waterdown rd.

The inquest at Dowville last night into the death of Gordon Haggerty was adjourned by Coroner McCall until Aug. 2. Haggerty, a 14-year-old ward of the Children's Aid Society, lived with a farmer named John Thomas and his wife, and on June 2 was found dead in the Thomas home under circumstances indicating suicide by taking traces of strychnine found in the organ. The coroner's jury heard the evidence of Mr. and Mrs. Thomas and Dr. Macleachan of Waterdown last night, but no satisfactory explanation of the boy's death was disclosed. During the interval of the adjourned inquest a further investigation into the mysterious affair will be conducted, and it is considered likely that a provincial detective will be called in to help clear up the matter.

With his mother lying at death's door as the result of taking carbolic acid on account of his disgraced John Horning, a 16-year-old Tapscottown boy, appeared before Magistrate Jefe this morning on a charge of stealing a horse and buggy from J. E. Ashton of Rickman's Corners. The lad was remanded and allowed bail in the sum of \$500.

Touched His Friends. James Preston, a former T. H. & B. employe, was sentenced to three months in jail for defrauding friends of small sums. Preston claimed to be a claims adjuster for the railroad company and lured several local people for various sums on the pretence of settling a nervous temperament.

A severe electrical storm here this afternoon put one of the Cataract Power Co.'s line from Decew Falls out of business and delayed car traffic for a short time. A heavy rainfall, with lightning, accompanied the storm. Lee Gueson, 157 North James-street, was convicted by Judge Danckel on a morning of selling opium. Sentence was suspended until the charge of keeping a disorderly house is disposed of.

Hotel Hanrahan, corner Barton and Catherine-streets, Hamilton, conventionally situated and easily reached from all parts of the city. Erected in 1908. Modern and strictly first-class American plan. Rates \$1.50 to \$2.00 per day. Thos. Hanrahan, proprietor. Phone 1485.

**BIG PROFITS ON TAX SALES LAID.** The city treasurer yesterday handed the acting mayor a report on the proceeds of tax sale lands, disposed of from 1898 and June 17, 1911. He stated that the city has made a total profit of \$81,530 on these sales. The lands sold brought in \$1,171,562, but \$789,911 was deducted from this amount, bringing it down to \$381,650.

**Excursion to Boston, \$15.25 Return From Toronto, Friday, June 30.** The only through service to Boston here via Grand Trunk Railway System route to Montreal. These points should be considered if you are taking advantage of the low rate excursion to Boston Friday, June 30. Only \$15.25. 14. Secure tickets, berth reservations and full information at Grand Trunk Ticket Office, northwest corner King and Yonge-sts. Phone Main 4269.

**All Aboard For Long Branch.** Turbines and turbines, Friday, 29th, from Bay-st. wharf, 8:15 P.M. Danckel one hour at the Branch. Tickets 25c.

**Appealed Against Assessment.** The court of revision yesterday afternoon heard an appeal of A. B. Open against an assessment of \$6000 on a acre on the Dufferin race track. The court reserved judgment.

**Advise Expropriation.** The civic improvement committee yesterday presented the expropriation of several lots on the north side of Severn-street with the idea of improving the entrance to the Roseale driveway. The properties are worth about \$40,000.

**Victim of a Joker.** When Jacob Wiborg met his friend in a moving picture show Monday night and asked if he had his bicycle outside, his friend played a joke on him. He said the wheel was there, was not the one and Wiborg rode off on John McLean's wheel. McLean did not know it was a joke and so Wiborg allowed to depart from the picture show. He was arrested for theft. He was released tomorrow when matters were explained all round.

**Summons Issued.** Summons have been issued against the following bakers for making light-weight bread and are returnable Wednesday, 28th, at 2 p.m.: S. Tepperman, 82 Edward-street; E. Marcovitz, 1234 Agnes-street; P. Yarnel, 905 King-street East; Toronto Steam Bakery, 25 Ontario-street; Standard Bakery, 185 Elizabeth-street.

After Fifty Years' Service, He Finds Charge Too Heavy—is in Eightieth Year.

REV. CANON A. J. BROUGHALL.

Rev. Canon A. J. Broughall, for 50 years rector of St. Stephen's Church, will give up his duties at an early date. "You know I am not quite so young as I used to be. But, remember, I can say nothing definite until I confer with the bishop, and he is at present out of sight." "I am not tired of my work, but man in his 80th year cannot execute the office of rector of a large Toronto parish with the ease and results of a younger man. I do not want to stand in the way of the work for one moment, and I feel that if I remain in the pulpit very much longer, the results will be rather unfavorable."

"As St. Stephen's Paris require a younger man, a man who can make his way amongst the people better than I am able to. My heart will still be in the work of the church I have been associated with for half a century."

**Celebrated Golden Jubilee.** The retirement of the venerable canon follows the transfer of his son, Rev. J. S. Broughall, to Grace Church, and the announcement will occasion deep regrets in the parish. A service was held on April 22 last to commemorate the golden jubilee of canon Broughall's incumbency at St. Stephen's, Bishop Sweeney paying him a warm tribute for his work. During the 50 years 445 persons were baptiz-

ed in the church, 2209 confirmed, and there were 1591 marriages. For 25 years Canon Broughall was examining chaplain and examined candidates for deacon's orders and 182 for the priesthood. Mrs. Broughall has been prominent in the work of the church. There are three sons in the Anglican ministry. Rev. J. S. Broughall, Toronto; Rev. William Broughall, Toronto; Rev. Herbert Broughall, Winnipeg.

7000 Yards Plain and Fancy Silks, Yard 33c

A collection of Serviceable, Fashionable Silks, reliable weaves of chiffon, taffeta, peat de cygne, satin messaline, tamoline, Louisiane, etc., being part of a special purchase and odd lines from regular stock, full range of shades, navy, brown, grey, reseda, tan, sky, pink, helio, rose, maize, Copenhagen, red, wine, royal, king's blue and some white and black. The fancy effects are in stripes, checks and plaids, in good color harmonies and patterns, correct qualities for dressing coats, waists, linings, petticoats, etc. Reduced tremendously for Thursday. 33

Rush Price on High-Grade Summer Dress Fabrics

This offering of material for outing skirts, bathing suits, house dresses, etc., includes in very fine quality goods such popular weaves as the following: Serge, cashmere, nuns' veiling, fancy suitings, black and white shepherds' checks, etc. The collection entire shows a good color range; navy, Alice, red, cardinal, reseda, browns, greys, creams, black, etc. Widths, 35 inches to 42 inches. Rush price Thursday, per yard 26

Store Remains Closed All Day Saturday, DOMINION DAY

HOW C.P.R. HAS GROWN IN QUARTER CENTURY

Enterprise, Founded on Faith in Canada's Future, Has Become Famous World Over.

Twenty-five years ago to-day the first transcontinental train of the Canadian Pacific Railway pulled out from Montreal for the Pacific Coast. It was a memorable occasion, marking the consummation of the greatest work that Canada had ever undertaken.

No less wonderful has been the growth and expansion of Canada's great national highway during the intervening quarter of a century. The company did not merely remain a common carrier—it became more a developer and an empire builder—and so intent as a factor in filling the wants of others as well as the vast army of travelers that both on land and sea the C.P.R. to-day is a name to conjure with.

Big Savings in Outing Shoes for Men, Women and Children

A whole stock of High-Grade Outing Shoes and Boots, for men, women and children, clearing at greatly-reduced prices. Boots and shoes made from fine white duck, in Blucher style, with corrugated soles and heels, adapted for tennis, boating, lacrosse, etc.

Boots, men's sizes, 70c; boys' and women's, 60c; youths', 50c. Low Shoes, men's sizes, 65c; boys' and women's, 50c; youths', 40c.

Specially Low Price Thursday for Misses' Dresses, \$1.95

Owing to the Limited Quantity We Cannot Promise Phone or Mail Orders for These

Two styles in Young Women's Wash Dresses are marked for early Thursday shopping at \$1.95. One style is of cotton foulard in a pretty pattern; the other is of printed lawn, in navy, black and mauve, on white, with plain bandings. The designs show short kimono sleeves and low, square, or round necks. In sizes 32, 34 and 36, and skirt lengths 35 to 38 inches. The very special Thursday price is \$1.95

Now for a Quick Clearing of Women's Tub Dresses Thursday Morning at \$2.75

A Price That Calls for 8 o'Clock Buying: Prepare for the Holiday.

In the lot are many pretty styles, in printed percales, chambrays and ginghams, with contrasting bands and borders. The different designs show kimono shoulders, long and short sleeves, high and Dutch necks. To this group has been added a limited number of specially-purchased one-piece Rep Dresses, in white, sky and natural linen shade. These are smartly tailored, with pleats, and a scalloped fastening at front of both waist and skirt. Sleeves are long, and the high neck is finished with stiff linen collar.

A limited number of these high-grade coats, in black and navy broadcloths, tweeds, fine serges, shepherd checks, and novel weaves. In plain suitors and braid trimmed, semi-fitting and loose back styles, some have small collars and revers, others have large sailor collar with extended revers. Some were much more than double this clearing price of \$12.50

Half Price on Women's Boots, \$1.50 High grade boots, in vel kid and gummat calf stock and also patent coltskin and vel kid, Blucher style, taken from our regular stock and they are all Goodyear welted and finished in the latest style for summer wear. Sizes 2 1/2 to 7

Perhaps the most remarkable offerings of the season are these summer suits of finest covert cloth and French serges, coats are of modish length, with silk or satin linings. The skirts are in six-gored style with fashionable front and back panel. In colors, black, navy, tan and gray. Each is marked to clear Thursday at half price. In colors, \$12.50

Rush Price on Silk Blouses Thursday Morning at, Each 98c

Two distinct styles are found in this collection and some of them were originally more than double the Thursday price. One style in white Jap silk has kimono shoulder, the front being prettily embroidered in silk, and outlined with heavy lace insertion that extends over the shoulder.

The other of navy, black or ivory silk is in plain tailored effect, with pocket. Gibson pleat and long sleeves with plain cuff. In women's sizes. Each specially priced to clear early Thursday at .98

Imported Sweater Coats, Half-Price, \$3.00

Just a few of these sweater coats remain from two popular half priced lines. On Thursday the price is halved very opportunely for wear on Saturday's holiday jaunt and on all the holidays of which July 1st is the forerunner.

Of fine wool in a fancy stitch, one style is hip length, the other is three-quarter length in double-breasted effect, with adjustable roll collar, turn-back cuffs, 2 patch pockets, and pearl button fastenings. In white only and sizes 36, 38 and 40. Thursday, marked at half-price \$3.00

Great Price-Reduction on Men's Worsted Suits, \$6.95

The price is the big attraction for early shopping Thursday, for extraordinary reductions have been made to assure a crowded department. They're just the kind of suits many men are looking for now, and at this price the whole lot should be quickly carried off by early shoppers.

Suits made of handsome English worsteds, medium and dark shades of grey, olive, fawn and brown, right in weight, in fashionable patterns, and stylishly cut and tailored. Coats single-breasted, 3-button models, with vent in the centre of the back, well-formed shoulders, padded just sufficiently to hold shape, close-fitting collar, medium length lapels, and half-lined with serviceable lustre. The trousers have full hips and taper to the bottom, belt loops and straps at the waist, and cuffs at the bottom. Many are marked at nearly half-price

Youths' Suits, Some Less Than Half-Price, \$3.89

To rid our stock of a number of odd sizes in youths' three-piece tweed suits, we have marked them all one extra low price. The materials are English tweeds in dark brown and light and dark gray shades, in neat stripes and patterns, in fancy weaves. Coats single-breasted, 3-button length, nicely cut and shaped, well padded shoulders and carefully finished collars and lapels, lined with serviceable wearing materials, trousers fashioned by cut. Dollars off every suit, many marked below half regular price. Sizes 32, 34, 36, 38, 40. All one price \$3.89

Share of Strathcona Fund. Chief Inspector James L. Hughes received a cheque yesterday from Ottawa for \$4000, being the Ontario share of the interest of the Strathcona fund, to be divided among high, public and separate schools, for physical drill, military training and rifle shooting. The sum of \$2000 will be given for physical training, \$1400 for military drill and \$600 for rifle shooting. The education department of Ontario will issue regulations in a few days regarding the distribution of the money.

Growth of Earnings. A few figures will give some idea of the greatness of its growth. The total earnings in 1886 were a little over \$10,000,000, and the net earnings less than \$4,000,000, the surplus after deducting fixed charges being \$2,214. This year's gross earnings will probably be over \$104,000,000

and the net earnings about \$37,000,000. The mileage then was 4631 miles; to-day it is, including controlled lines, about 15,500 miles. The number of passengers then carried was 1,839,319 and the tons of freight aggregated 2,046,125. The approximate figures for the past twelve months are over 12,000,000 passengers, and 21,250,000 tons of freight. A comparison of the figures shows that a considerable reduction in the rates has taken place. In 1886 the average earnings per passenger were 2.10 cents, and freight averaged 1.10 cents per ton per mile. To-day the figures are for passengers 1.33 cents per mile and for freight 0.8 cents per ton per mile. A comparison of the equipment then and to-day shows how the company has kept pace with the requirements of the traffic:

Table with 2 columns: Year and Quantity. Rows include Locomotives, First and second-class passenger cars, First-class sleeping and dining cars, Parlor, official and paymaster's cars, Freight and cattle cars, Conductors' vans, Boarding, tool and auxiliary cars, Far Flung Fleets.

Macedonians Protest. Baptist Missionary's Statement Cause of Deep Resentment. The Macedonians of "the Ward" have risen up to protest against the statements made by Rev. John Kolesnikoff, Baptist missionary, who said in the Baptist Association a short time ago that "every Macedonian and Jewish home is a secret saloon on Sunday, and that before these peoples from foreign lands will become good citizens, the civil authorities must have more control, especially on the day of rest. They claim that the missionary did not approach them in a Christian spirit, and that they have been persecuted in their lands because of their religion, and that when they came to this country they expected to live in religious freedom. "We are Christians from Macedonia, Turkish Province, and belong to the Bulgarian Orthodox Exarchate," they say, "and we plead that we may so live here."

PEASE FURNACE advertisement. To insure comfort next winter install a Pease Furnace this summer. Ask the man who has one. PEASE FOUNDRY COMPANY, TORONTO and WINNIPEG.

MINISTER DIES AS THE RESULT OF AN ACCIDENT

Fell Down Flight of Stairs During Meeting of Congregational Union at Kingston.

MONTREAL, June 27.—Rev. John McKillop died this morning at his home, 628 Dorchester-street, at the age of 87, as the result of an accident that occurred two weeks ago. It was during the Congregational Union that he fell down a flight of stairs, the shock of which caused paralysis on the right side, and he never regained consciousness, passing away quietly in the presence of his family.

Could Not Walk Ten Yards Without Resting. WEAK HEART WAS THE CAUSE.

Mrs. Robinson Collette, Rogersville, N.B., writes: "I am now enjoying the best of health after having used your Milburn's Heart and Nerve Pills. I was troubled with a weak heart and was afraid to draw a long breath for the pain it would cause me. I could not sleep at night, and it was impossible for me to walk ten yards without resting myself. I cannot speak too highly of your Heart and Nerve Pills, for they are the greatest I have ever used and I can recommend them to all sufferers."

Little attention is paid to the slight weakness of the heart for the simple reason that one thinks it will right itself, but there is where the mistake is made. It is only when a violent shock comes that the weakness of the heart becomes apparent. On the first sign of any weakness of the heart or nerves, flagging energy or physical breakdown, the use of Milburn's Heart and Nerve Pills will soon produce a quick and permanent cure. Price 50 cents per box, or 3 for \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

CONSUMPTION IMPOSSIBLE.

Catarrh kills the germs in throat trouble like magic. For coughs and colds there is nothing equal to Catarrhazine. Used in hospitals, prescribed by doctors, endorsed by thousands, Catarrhazine never fails. "I suffered from nasal catarrh so badly that I couldn't breathe through my nostrils," writes G. K. Wilmore of Meriden. "I used Catarrhazine for a few minutes and was relieved. It cured in a short time. No other remedy just like Catarrhazine—it's the best. The complete one dollar outfit is guaranteed to cure and costs \$1; sample size twenty-five cents, sold everywhere.

NO TALK OF MUZZLING.

Dr. J. W. S. McCullough, secretary of the provincial board of health, denies the statement in an evening paper that he is growing anxious over the increasing number of mad dogs. "We have not considered the matter at all," he told The World yesterday. "We have not received the slightest indication that a muzzling order is to be issued, and even if that is done it will be by the authority of the Ottawa Government."

EXPLOSION IN A WELL.

SASKATOON, Sask., June 27.—George P. McLeod, pump inspector, lost his life and three other men were more or less injured by an explosion in a well the Canadian Pacific Railway is digging at Plunkett, a few miles east of here, yesterday. Men went down with a lantern when an explosion took place, and McLeod fell to the bottom, his body not yet having been recovered.

The Toronto World

THIS CERTIFICATE, with 25 others of consecutive dates, (Sundays excepted) if presented at the business office of THE WORLD, 40 Richmond St. West, will entitle the bearer to one WORLD COOK BOOK absolutely free. NEED MANAGER FOR WORKS DEPARTMENT

Continued From Page 1.

and those entitled to order goods, and pass the vouchers forthwith to the accountant in the department. The general storekeeper should dispose of material as directed by the purchasing agent...

Trouble With Intake. The trouble with the intake pipe is revealed in detail, and his honor then takes up the evidence and the opinions of the engineers.

"The engineers," he says, "give it their opinion that the break in the pipe was caused, not by being raised in the lake, but by reason of the heavy ice injuring the piles and knocking the pipe off the benches. There had been very severe storms prior to the blocking of the pipe and the ice had formed to a very considerable thickness, so that it would have been quite possible to have broken the piles and thus injured the pipe. Apparently the original construction of the pipe did not contemplate such serious storms as have taken place during the last year."

"Mr. Chipman in his evidence stated that while no doubt the construction was up to the standard at the time the pipe was installed, it being about the first large intake pipe that was laid in this country, yet it was not sufficient to prevent the accident from happening."

"Captain Midford stated that it was necessary that the pipe should be laid fully one half under the sand and carefully protected from attacks on either side of it. He further stated that on examining the flanges and bolts of the pipe brought to the foot of John-street he found that at least four bolts had never been inserted in the flanges, and that a great number of them had been loose."

"If Captain Midford is correct in this statement—and he is borne out by the diver, Margierison—then there is no doubt that the action of the ice upon the pipe aided very materially by the loose joints of the flanges. Following on the other hand, Mr. Fellowes stated that the bolts were properly tightened, and they were all in the pipe, he relying upon the evidence of diver McKelvey, who acted for the city in inspecting the work when it was being installed."

Inspection of Intake. Evidence was given that the intake pipe had been inspected yearly, and in commenting on this his honor expresses the opinion that these inspections were altogether too infrequent.

"The scouring which appears to have taken place according to the evidence of the present divers, may have taken place months previous to the break and might have been prevented had proper steps been taken in time as the result of a proper inspection. One would scarcely imagine that an inspection once a year, would be sufficient for the purpose. A monthly or a quarterly inspection should in my opinion, have been made rather than a yearly inspection as happened between 1908 and 1910."

Referring to the blockage of sand, Judge Winchester expresses the opinion that the sand did not enter through the intake, but rather thru the pipe, after it had been broken.

Cured Awful Ringworm

"Well over four years ago my two little girls were taken with a very bad scalp trouble that the doctors called ringworm. They attended the Hospital for several months for a year. I had to apply their ointment with a brush, giving the children frightful pain. I also had to have their heads shaved every two weeks, but they got no better until the treatment. They used to cry with the itching and itching, and their heads were covered with a thick scurf and dandruff."

"About a year ago I determined to try the Cuticura Remedies. I used plenty of Cuticura Soap and applied the Cuticura Ointment. I used only about three cakes of Cuticura Soap and three boxes of Cuticura Ointment and they were cured. Their hair is growing long and nice again. They had become so ill after their three years of suffering that I had to send them to a convalescent home as soon as she was cured, but now she is home, well and strong. My younger girl was away from school nearly months with the disease. I am very grateful to Cuticura and for their children's sake I hope other mothers will try it. The Cuticura Soap is always use for it makes the hair so lovely."

Mr. Chipman in his evidence stated that while no doubt the construction was up to the standard at the time the pipe was installed, it being about the first large intake pipe that was laid in this country, yet it was not sufficient to prevent the accident from happening."

"If Captain Midford is correct in this statement—and he is borne out by the diver, Margierison—then there is no doubt that the action of the ice upon the pipe aided very materially by the loose joints of the flanges. TOMLIN'S BREAD There are only two elements in its manufacture— EXPERIENCE and QUALITY We have the first, and in effect produce the latter You try it.

THE HOME BANK OF CANADA. Somewhere around fifty-seven years ago Chevalier MacDonald, a worthy Scotish pioneer of York County—called 'Chevalier' because he was at one time the representative of the Netherlands in Toronto—started a bank, and called it The Toronto Savings Bank.

any kind whatever, and shortly after 7 o'clock the winning side captained by Jimmy Hood, by vociferous cheering and a simultaneous rush to the supper table, announced their win over the losers, captained by Jim McLean, out the win was only by the smallest margin and honors might very well be said to have been evenly divided. But if Capt. Hood's men were winners on the barn, they did no more effective work at the well laden supper tables.

serious Situation Has Developed Out in Markham Township. That an outbreak of rabies is imminent in York County, especially on the border of the city, is the opinion of medical men well in touch with the situation. The laxity which has characterized the action of the city and York Township is bearing fruit.

York County and Suburbs BIG BARN RAISING OUT AT BUTTENVILLE Outbreak of Rabies in Markham Township is Causing Great Uneasiness.

Why bother with lemons and lemon squeezers when you can get Dalton's Concentrated Lemonade. It's lemonade ready made—one bottle makes a half gallon of the finest lemonade that ever delighted thirsty mortals.

**LOST SUIT FOR MILLION AND A HALF DOLLARS**  
**Poirer Family Claimed Undivided Share in Mount Royal Park at Montreal.**  
MONTREAL, June 27.—The court of appeal to-day rendered judgment in the famous case taken by the heirs of the Poirer family against the City of Montreal as to the estate of Stanley Bagge, by which the plaintiffs claimed to be the proprietors of an undivided share in that portion of Mount Royal Park known as Fletcher's Field, and they prayed by their action that the city be compelled to surrender their share or pay their value, amounting to about a million and a half dollars.

**SUMMER SKIN TROUBLE.**  
Sunburn, blistering, and irritation are the commonest forms of summer skin troubles, and Zam-Buk ends these very quickly. It works in two ways. As soon as applied, its antiseptic powers get to work and kill all the poison in a wound, a sting or a sore. This generally ends the smarting and the pain. Then Zam-Buk begins the healing process, and fresh healthy tissue is built up. For sore, blistered feet, sore hands, heat rashes, baby's heat spots, sore places due to perspiration, etc., you can't equal Zam-Buk. It also cures cuts, ulcers, abscesses, piles, and all inflamed and diseased conditions of skin and subcutaneous tissue. Drugists and stores everywhere sell Zam-Buk 50c box. Use Zam-Buk Soap also for bathing. All stores, or Zam-Buk Co., Toronto.

**Local Improvement Notice.**  
TAKE NOTICE that the Council of the Municipal Corporation of the City of Toronto intends to construct the under-mentioned works on the following streets between the points herein described, and intends to assess a part of the cost upon the land abutting directly upon the said works:

**GRADINGS.**  
Douglas drive, from Glen road to the east end, a grading, the estimated cost of the work is \$174, of which \$82 is to be paid by the Corporation, and the estimated annual special rate per foot frontage is 12-10 cents.  
Sumnerhill avenue, from Edgewood crescent to Douglas drive, a grading, the estimated cost of the work is \$104, of which \$52 is to be paid by the Corporation, and the estimated annual special rate per foot frontage is 20-10 cents.  
Macaulay avenue, from Perth avenue to the west end, a 12-inch curb, the estimated cost of the work is \$210, of which \$105 is to be paid by the Corporation, and the estimated annual special rate per foot frontage is 16-10 cents.  
CURBINGS.  
Austin terrace, n.s., from Walmor street (running north) to Spadina road, a 6-inch concrete curb, the estimated cost of the work is \$221, of which \$110 is to be paid by the Corporation, and the estimated annual special rate per foot frontage is 16-10 cents.  
Austin terrace, s.s., from Walmor street (running south) to Spadina road, a 6-inch concrete curb, the estimated cost of the work is \$221, of which \$110 is to be paid by the Corporation, and the estimated annual special rate per foot frontage is 16-10 cents.  
Bartlett avenue, west side, from C. P. R. to Davenport road, a 6-inch concrete curb, the estimated cost of the work is \$83, of which \$41 is to be paid by the Corporation, and the estimated annual special rate per foot frontage is 14-10 cents.  
Bismarck avenue, s.s., from Yonge street to Park road, a 6-inch concrete curb, the estimated cost of the work is \$273, of which \$136 is to be paid by the Corporation, and the estimated annual special rate per foot frontage is 14-10 cents.  
Chapman avenue, s.s., from W. of St. Nicholas street to Barrett avenue, a 6-inch concrete curb, the estimated cost of the work is \$123, of which \$61 is to be paid by the Corporation, and the estimated annual special rate per foot frontage is 7 cents.  
Conduit street, e.s., from Howard Park road to Spadina road, a 6-inch concrete curb, the estimated cost of the work is \$73, of which \$36 is to be paid by the Corporation, and the estimated annual special rate per foot frontage is 7 cents.  
Gerrard street, e.s., from King to Dundas street, a 6-inch concrete curb, the estimated cost of the work is \$613, of which \$306 is to be paid by the Corporation, and the estimated annual special rate per foot frontage is 7 cents.  
Gerrard street, e.s., from King to Dundas street, a 6-inch concrete curb, the estimated cost of the work is \$613, of which \$306 is to be paid by the Corporation, and the estimated annual special rate per foot frontage is 7 cents.

# Porcupines Wait for a Breathing Spell—Prices Easier

## Porcupine Gold Camp

### Market Gets a Slight Reaction When Profit-Taking Comes In

Porcupines Under Pressure and Prices Show Disposition to Sag—Cobalts Show no Tendency to Move.

World Office, Tuesday Evening, June 27. Trading in the mining stocks quieted down to a moderate extent to-day, the markets showing the usual effect of a protracted upward movement, and prices displaying a tendency to drag whenever selling of any consequence put in an appearance.

There was undoubtedly considerable profit-taking under way in to-day's market, speculators who had got in before the advance taking advantage of the higher prices to realize on their holdings.

The underlying strength of the situation was amply shown in the manner in which the market held up the realizing which was extant. The net result of the transactions for the session was a number of losses in the active issues, but it was noteworthy that in no instances were the low points of the day maintained for any length of time.

Such stocks as Swastica and Vipond suffered most in the liquidation. The former issue sold off five points at one time, the shares retreating to 53.

Recovery of three points followed the break, however, supporting orders put in an appearance. Vipond was off to 61, a drop of five points, but nearly half of the loss was regained before the close.

The other cheaper Porcupines held generally around yesterday's levels, with prices moving in a narrow range, and no distinct trend observable. Eldorado, the new gold stock listed to-day, was given a flattering reception, the shares selling up to 18 and closing strong at that quotation bid. The stock was put out at 10 cents per share, and sold yesterday on the street at 12 1/2.

The big Porcupines were under pressure, with Hollinger showing the greatest decline of the session. Its price was back to \$15.00, the lowest price reached in some days.

Cobalts continued to display an extremely subdued attitude, with no change in price doing in this section of the list which could be taken as indicative of any new activities.

The market closed dull, and inclined to sag. The movement, however, was taken as only a natural one after the recent advance, and will not come amies in keeping the market in a healthy condition.

## Porcupine Reserve.

Mr. W. F. Platke left Toronto Tuesday night to take charge of the operations at the Porcupine Reserve Mine. Eight men are now engaged on the company's property and it is Mr. Platke's intention to increase the gang to 50.

It was learned yesterday by The World that the Stoddard Syndicate, which is in charge of several prominent Toronto business men, are in connection with the Stoddard Syndicate.

The claims owned by the Stoddard Syndicate are removed only three 40 acre lots from the Moneta fourth and west in Mountjoy, and four 40 acre lots from the Timmins buildings. These properties are also located within two 40 acre claims from the rich finds made on the Worthington property.

The entire acreage owned by the Stoddard Syndicate is directly in the strike of the Worthington, Hollinger, and the recent finds made in the Belton, Toronto, and other veins. The continuity of the gold belt clear across the Porcupine district.

The seven properties have been under the control of the syndicate for a considerable time, during which active development work has been in progress. A large gang of men is now employed, and the syndicate has secured the recognized mining experts in the Porcupine district.

Mr. Hill, writing to his employers in Toronto, states that the syndicate is in Toronto and active, and that he hopes to see forward further encouraging reports within a short time.

## American Goldfields

Getting Good Ore

PORCUPINE, June 25.—Development on the American Goldfields properties is being carried forward in an aggressive manner as almost on any other properties in the camp. About 35 men are employed on the company's two claims, under capable management.

On the company's two properties, which adjoin the West Dome, the dikes is about 35 feet wide, and samples of ore recently taken from this lead have been shipped to Toronto and Buffalo, N. Y.

Work these samples are rich in sulphides and make a favorable comparison with other veins which are being produced on neighboring properties. To all appearances there is a very large body of ore on these claims.

Adjoining the Porcupine Lake Gold Mining Co. the Reilly claim Buffalo, owned by the American Goldfields Co., Ltd., is showing up well under the extensive work which is now being carried forward. Several strong veins have been opened up, and assays taken from ore in which no visible gold could be seen have run over \$100 to the ton.

A prominent engineer from Buffalo, who has just visited the camp, speaks highly of this particular district and states that the under-lying which is next to the Reilly, shows a rich vein of gold. Shot drills are being installed by the American Goldfields for proving all three of their properties to depth.

## Prof. Hardinge on Porcupine.

"Northern Ontario will be known all over the world as a big mining field," remarked Prof. Hardinge to The World yesterday.

Mr. Hardinge has just returned from Cobalt and a few weeks ago spent some time in Porcupine.

Asked as to Porcupine the professor said: "There will be a Nipissing, a La Rose and a Crown Reserve in the gold camp and many other mines, but, as must be expected, there will be some disappointments. Porcupine is not going to be the only gold camp. I expect to see several, and in fact others are already in sight."

## Golden City to Have the Stock Exchange

New Porcupine Exchange to Be Opened on July 15—Extensive Preparations Made.

PORCUPINE CITY, June 24.—(From Our Man Up North.)—Workmen employed in sinking a shaft and doing surface prospecting on the Porcupine Eastern Mines, Limited, Fred G. Minter, president, in the northwestern part of the Township of Thomas, came in to-day with the news that free gold in white quartz had been encountered at the 25-foot depth.

The Porcupine Western Mines, Limited, hold two claims in Thomas, about one mile to the east of the eastern shores of Night Hawk Lake, where the strike of the formation is from northeast to southwest in schist and granite.

Before locating in this section Mr. Minter, who was formerly the owner of the Old Mother Lode mine in California, studied out the rock and the strike of the formation relative to the lake belt. He is satisfied that the lake belts show the line of weakness, and he expects to put the shaft through both ways around Night Hawk Lake.

The Porcupine Western Mines, Limited, hold two claims in Thomas, about one mile to the east of the eastern shores of Night Hawk Lake, where the strike of the formation is from northeast to southwest in schist and granite.

# Stock Markets in Usual Stage of Midsummer Apathy

## June Bond List

Containing particulars of carefully selected Canadian Municipal Debentures which yield the investor a very attractive return.

Mailed on Request.

**Wood, Gundy & Co.**  
London, Eng. Toronto, Can.

## LONDON STOCK MARKET.

LONDON, June 27.—Money was in increased demand and discount rates were firm to-day. Traders on the stock exchange were chiefly occupied with the mining carry-over, and business was light. Consols and copper shares advanced early, but later reacted and closed below the rest. Home rails were weak on fears of labor troubles, while realizing caused declines in Mexican rails. The other sections were dull. American securities opened quiet and steady and during the forenoon were propped under the lead of the Erie issue, on New York buying and local covering. The closing was firm.

## Cross Currents in Stock Market Prices Not Materially Changed

New York Stocks Left Much to Themselves and Make no Progress—Apathetic Movements in Toronto Market.

World Office, Tuesday Evening, June 27. Outside of the filling of a few investment orders, Toronto brokers were practically unemployed to-day. There was little speculative sentiment abroad, but such as could be observed was bullish, if anything. Montreal sent buying orders for Toronto R.R. and under these a record high price was made for the stock at 10 1/2. No absolute information was available here to account for the demand for the shares, but it was understood that the Montreal interests intended to force an 8 per cent. dividend at the next declaration. Nearly all the speculative shares were dull. Rio and Sao Paulo fell away on profit-taking, and Mackay common dropped 1/2 a point on the selling of twenty-five shares. The rise in Dominion Bank yesterday brought free selling of these shares, and they declined five points. Also the market shows considerable apathy, the desire to sell stocks is not strong, and this is the mainstay to present prices. Traders are not hopeful of any early change in the situation.

### WALL-STREET POINTERS.

Chicago & Alton preferred dividend has been passed. M. K. & T. has placed orders for 20,000 tons of rails. Americans in London quiet and slightly easier. Erie planning to order \$5,000,000 of new equipment. Now Haven shows \$211,595 decrease in gross earnings for May. Dry goods situation shows slight improvement. Heavy rains in Nebraska, Iowa and South Dakota break long drought. Copper buying small, pending report of copper producers' June statement. Steel manufacturers receive many en-

Interest allowed on deposits at all Branches of the Bank throughout the Dominion of Canada. 1 1/2%  
Quilics from railroads since Harriman merger decision.  
Cunningham coal claims in Alaska declared invalid and ordered canceled by general land office commissioner.  
An enquiry into 20,000 tons of steel rails for Holland has been received by local iron and steel manufacturers.  
Sub-treasury gained \$1,400,000 from the banks yesterday, and since Friday has gained net \$2,161,000 from the banks.  
Paris cable says there is a rumor there that the committee of the house has decided to delay indefinitely the listing of additional American Telephone stock.  
Joseph says: Now get busy on the Pacific and likewise in So. Reactions cannot possibly be of a formic acid character, but on the other hand, advances in many instances marked (in Pacific) will soon be recorded. The gas stocks promise exceedingly well. There is much virtue in Laclede Gas. Specialties: Mark you B. R. T. is shaping for a big advance, this is certain.

### ROUTINE BUSINESS ONLY.

The annual meeting of shareholders of the Home Bank of Canada was held yesterday, routine business only being transacted, including re-election of the old directors. The report showed satisfactory profits and expansion of business.

### ON WALL STREET.

Erickson, Perkins & Co. had the following: The stock market was very spotty to-day with evident liquidation in the metal group and probably in the high priced rails which were bid up sharply Saturday and yesterday. Steel was also pressed for sale after the early start. It was largely in professional market, with a tendency to quiet down. The stock market was no doubt checked by the sharp rise in grain, which reacted in the afternoon. It has been much damaged during the hot days of the last week, and because of the drought in many sections. Our advice to sell stocks on bulges was based on the view that crop news may continue unfavorable and force stocks lower. Buy nothing except on drives.

### WALL STREET TRADING

NEW YORK, June 27.—Aside from a few issues which were selected for special attention at the hands of traders, stocks moved listlessly within narrow limits to-day. The market was less reactionary than that of the previous day, although the undertone was at times uncertain, and trading was inactive. There was a fair degree of activity at the opening and through the first hour, with pronounced strength in Union Pacific and U. S. Steel, but the movement was short-lived and during the remainder of the session prices fell away slowly. Reading, Union Pacific, the Erie issues and the local traction stocks all gained a point or more in the early part of the day, but most of the gains were canceled. Erie, however, displayed exceptional strength. Reports of earnings on U. P. and Steel seemed circumstantially reported as uncommonly interesting. Buying of U. P. seemed to originate with brokers whose names are frequently associated with operations of "insiders" in the Harriman properties. There were further reports of speculative contests in U. S. Steel. The bulk of the buying in this issue came from London and was said to be for the account of a prominent western speculator, who was credited with big short interest. Shares of roads affiliated with C.P.R. were fairly active at higher prices, but the movement in

### WALL STREET TRADING

NEW YORK, June 27.—Aside from a few issues which were selected for special attention at the hands of traders, stocks moved listlessly within narrow limits to-day. The market was less reactionary than that of the previous day, although the undertone was at times uncertain, and trading was inactive. There was a fair degree of activity at the opening and through the first hour, with pronounced strength in Union Pacific and U. S. Steel, but the movement was short-lived and during the remainder of the session prices fell away slowly. Reading, Union Pacific, the Erie issues and the local traction stocks all gained a point or more in the early part of the day, but most of the gains were canceled. Erie, however, displayed exceptional strength. Reports of earnings on U. P. and Steel seemed circumstantially reported as uncommonly interesting. Buying of U. P. seemed to originate with brokers whose names are frequently associated with operations of "insiders" in the Harriman properties. There were further reports of speculative contests in U. S. Steel. The bulk of the buying in this issue came from London and was said to be for the account of a prominent western speculator, who was credited with big short interest. Shares of roads affiliated with C.P.R. were fairly active at higher prices, but the movement in

## John D. Once More Back in Old Haunts

Oil Magnate Pays Another Visit to Historic No. 26 Broadway.

NEW YORK, June 27.—J. D. Rockefeller, president of Standard Oil Co., paid a visit to the company's office at 26 Broadway yesterday. "It was his first appearance at this office in several years," it was reported. Mr. Rockefeller, it was reported, attended a conference of directors and attorneys held to consider means of bringing about a reorganization of the company to conform with decision of the United States Supreme Court. It is understood that a definite reorganization plan has not been agreed upon, but that something is likely to be accomplished within next few weeks.

## Canadian Locomotive Issue Oversubscribed

It is announced that owing to the large amount of applications received for Canadian Locomotive Company Preferred Stock, which has been offered thru Aemilius Jarvis & Company, the subscription lists will close to-day, Wednesday, at noon, instead of on Friday, and allotment of shares is to be made as soon as possible hereafter.

## Lots of Money Made In Motor Car Business

Ford Motor Company Pays Another One Hundred Per Cent. Dividend.

WINDSOR, June 28.—Cheques for the sixth annual dividend declared by the Ford Motor Company of Walkerville were mailed to stockholders to-day, at the rate of 100 per cent. The stock was passed entirely on Friday, which has been offered thru Aemilius Jarvis & Company, the subscription lists will close to-day, Wednesday, at noon, instead of on Friday, and allotment of shares is to be made as soon as possible hereafter.

## Irregularity in the Montreal Market

MONTREAL, June 27.—Price movements on the Montreal stock market were very irregular to-day. Certain issues which have lately been prominent in the advance displaying a reactionary tendency, while others came into prominence by sharp advances. Montreal Power and Shawinigan were again the most active issues in the trading with So. Ry. and Toronto R.R. also conspicuous. Montreal Power, after selling at 17 1/2 at the opening, sold off sharply at 16 1/2 or nearly five points below yesterday's high level, the last sale being at 17. Shawinigan, after advancing to 11 1/2 or 1 1/2 points above yesterday's close, reacted to 11 1/4, and was offered at 11 1/4 at the close, with 11 1/4 bid. So. and Toronto R.R. were active and had marked advances. So. under active buying advanced to 14 1/2, compared with 14 1/4 at the close yesterday. Toronto R.R. advanced to 14 1/2 as compared with 13 1/4 at the close yesterday, reacting to 14 1/2 with 14 1/2 bid at the close. Richelleu was strong advancing to 11 1/4.

## TIP TO TRAVELERS.

A commercial traveler writes to World as follows:  
"As Dominion Day falls on Saturday which is a bank holiday, a good many towns intend keeping Monday as holiday, as they cannot afford to hold Saturday's trade, which is usually the heaviest of the week, so travelers might enquire and not lose another day's business before leaving home."

## Dominion Day Excursions.

The Niagara Line will, as usual, sell tickets over the holiday at special rate. This will apply to Niagara, Lewiston, Queenston, Niagara Falls, Buffalo and Cleveland. Tickets and all information from A. E. Webster & Co., corner King and Yonge-sts.

## Masons Again Fraternize.

The strained relations which have obtained for sometime between Mason lodges in Michigan and Ontario, have come to an end. It is understood that Grand Master McWatt, Sarnia, has raised the ban. The trouble arose over an unauthorized visit of a Michigan lodge into the jurisdiction of the Grand Lodge of Ontario.

## LACKS SNAP, BUT NOT SUBSTANCE.

World Office, Tuesday Evening, June 27. With no fresh news developments, the Toronto market made no movement in either direction to-day. As for some time, Montreal provided the stimulus for any speculation. To-day this buying occurred in Toronto R.R., and the eastern operators were evidently confident of an increase in the dividend on the stock. Dominion Bank met considerable liquidation to-day, and thereby lost all the recent rally. The market as a whole lacked snap, but not substance. Special movements are likely at inside dictation.

## THE TRUSTS AND GUARANTEE COMPANY LIMITED

Established 1897  
43-45 KING STREET WEST, TORONTO
