## IMMIGRATION POLICY FAIR TO ALL PROVINCES

Hon. Robt. Rogers, Replying to Criticism That East is Neglected, Announces Scheme of Co-operation With Provinces—Date of S. Renfrew Election Indefinite.

OTTAWA, Jan. 29.—(Special.)—Hon. Robert Rogers, minister of the interior, this evening announced his intention of inaugurating an immigration policy in co-operation with the various provinces that would give equal treatment to all parts of the Dominion.

Hon. H. R. Emmerson delivered himself of a voluminous speech that for lugubriousness made Jeremiah look like an "also ran."

W. F. Carroll (Cape Breton) played the role of Jeremiah, Jr. An air of chastened but not uncomplaining sadness pervaded the opposition benches.

The occasion for this pessimistic outburst was a resolution introduced by E. N. Rhodes (Cumberland) calling for a more vigorous immigration policy in regard to the maritime provinces.

The resolution, said Mr. Emmerson, was all right, but he would give it his support, but—here he let loose a flood of regrets as to what might have been.

If Canada had not turned down "larger markets," there was a "sore spot" here that no more immigration resolutions could cure. It was "awful to contemplate," "a sad commentary," and so, ad nauseam, the tedious tale continued.

Donald Sutherland (S. Oxford) put in a word for Ontario, which he said had been shamefully neglected by the late government in regard to immigration.

No South Renfrew Writ. Sir Wilfrid Laurier, when the orders of the day were called, asked whether the writ for the South Renfrew election had been issued, to which the premier replied in the negative.

There was some difficulty in regard to the writ. This did not satisfy Sir Wilfrid, who pointed out that the vacancy occurred on Dec. 7, and the Ontario general elections took place on Dec. 11.

The lists that were good enough for the government were not good enough for the opposition.

## TAFT TO HONOR BADEN-POWELL

Boy Scout Will Deliver Message From Capitol When the Steamer Reaches New York.

NEW YORK, Jan. 29.—(Can. Press.)—Lieut.-Gen. Sir Robert Baden-Powell, the "hero of Mafeking," and scoutmaster of the world, will be given a hearty welcome by the Boy Scouts of America when he arrives here from Kingston, Jamaica, next Wednesday.

His first greeting will be from President Taft, who is honorary president of the Boy Scouts of America. This greeting will take the form of a letter which will be brought here from Washington by a Boy Scout, who will board the steamer Arcadian at quarantine and deliver it to the noted British soldier.

The president, it is said, will wish Gen. Baden-Powell a pleasant trip thru the United States. Several troops of Boy Scouts will meet Gen. Baden-Powell when he lands.

To the Capitol. The general will remain in the United States six weeks and visit all the large cities and inspect the scouts. He will first go to Boston, and thence to Washington to meet President Taft.

At the National Convention of Boy Scouts in this city, Feb. 8, he will review the boys, and afterwards deliver his illustrated lecture on "Scouting in Peace and War." During his visit he hopes to amalgamate the Boy Scouts of America into a great international union of scouts.

Gen. Baden-Powell will end his American tour at San Francisco, March 13, on which date he will sail for Australia.

UNTO THE HILLS. A prominent banker in the city yesterday related a rather amusing incident which occurred during service at his church on Sunday night.

The minister, a member of the Lord's Day Alliance and one of the gentlemen who seek to close the slides on Sunday, had just delivered an eloquent and stirring address on the evils of sliding on Sunday, pointing out to the congregation the unhappy end to which the guilty parties were bound to come, at the end of which he paused to seek the effect, and solemnly requested the congregation to rise and sing "Unto the Hills Around Do Rise Up Mine Eyes."

Police Were Powerless. Police Sergeant Spranger and four officers went to the scene, but could do little towards quelling the disturbance. Officer Oscar Bennett became separated from his companions and while sur-

## Grain Growers Versus Millers

OTTAWA, Jan. 29.—(Can. Press.)—A large deputation of the Grain Growers' Association will be here on Wednesday to give their views upon the grain bill and also upon the proposition that the government take over the terminal elevators.

Representatives of the Ontario millers will also be on hand. From what can be gathered the interests of both are, to say the least, not identical, especially in the matter of the mixing grades. It is not improbable, therefore, that the bill and its concomitants will be submitted to a special committee of the house of commons.

LONDON, Jan. 29.—(Can. Press.)—W. Morgan Shuster received a remarkable ovation and his claim for Persian independence was enthusiastically cheered at a banquet which the Persian committee, composed of members of the house of commons and other prominent men, gave in honor of the American ex-treasurer-general of Persia at the Savoy Hotel to-night.

A representative company of 200 listened to a detailed narrative of the wrecking of Persia's constitutional government.

He placed the entire responsibility upon Russian antagonism to a strong independent Persia, and made it plain that he thought the British people had been deceived regarding the facts. He declared that 99 per cent. of the disorders charged as a partial excuse for intervention had been fomented by Russia.

Slain in Full View. Replying to the accusation in the British newspapers that he backed tact, Mr. Shuster declared that he had kept on the most cordial relations with the Russian and British ministers at Teheran through out. To the criticisms of his course in presenting Persia's case thru the newspapers, he said that he had asked the Persians "whether they preferred their country slain in a dark alley, or that the crime should be committed in a public square," which evoked prolonged cheering.

He strongly condemned the late Russo-British ultimatum, which had forced Persia to pledge herself to satisfy all the claims that Russia had made in the past and might make in the future.

Politics Ignore Commandments. "I am not bitter about our experience," he said in conclusion. "I would be a hypocrite did I pretend not to sympathize with the bitterness of a Mohammedan people who have so forcibly learned the lesson that the Ten Commandments do not apply in international politics."

H. F. R. Lynch, ex-M.P., presided, and spoke at length on the question of Persia. Sir Thomas Barclay, vice-president of the International Law Association, in his speech, referred gracefully to the reception recently accorded by the Duke and Duchess of Connaught and Princess Patricia in New York.

Philip Edward Morrill, M.P. for Burnley, evoked cheers by the statement: "We realized with deep and mortifying shame the part played, not by this country, but by the government of this country."

Woman Killed, Policeman Hurt Fierce Riot at Lawrence, Mass.

Mill Strikers and Sympathizers, Some Armed With Revolvers, Overcame Police, But Yielded to Charge of Militiamen—Italian Woman Victim of Random Bullet.

LAWRENCE, Mass., Jan. 29.—(Can. Press.)—One woman was killed and a policeman was stabbed in the back by rioting strikers or their sympathizers, who gathered to the number of nearly 1000 about the Everett mills, on Garden and Union-streets, to-night.

Police and militia were rushed to the scene and a free use of clubs and rifle bullets resulted in the breaking up of the mob and the dispersing of the strikers.

The victim of the riot was an Italian woman. A man nearby was firing a revolver into the ground when the woman was struck by a bullet. An ambulance was summoned and the woman hurried to the Lawrence Hospital, but she died before reaching the institution.

Police Headquarters was notified at the beginning of the trouble. At that time the mob was charging up and down Union-street, yelling and shouting, with some of the crowd discharging revolvers.

Police Were Powerless. Police Sergeant Spranger and four officers went to the scene, but could do little towards quelling the disturbance. Officer Oscar Bennett became separated from his companions and while sur-

Man Who Brought Persia to Brink of Chasm Cheered Enthusiastically in London—Russian Antagonism to Independence of Persia to Blame for His Dismissal.

## HOLY CROSS COLLEGE BURNED BY PUPILS

Three Boys Admit Complicity in Incendiary Plot Which Caused Loss of \$90,000 at Farnham, Que.—Several Previous Attempts Were Made.

SWEETSBURG, Que., Jan. 29.—(Can. Press.)—High Constable Bolwert this afternoon held an investigation into the incendiary fire which destroyed the Holy Cross College at Farnham, Que., causing a loss of \$90,000, and for which five of the students were arrested at noon to-day.

The high constable questioned the boys and found three of them connected with the fire, of whom one set the building afire while the others acted as accomplices. The other two boys arrested were released, as there was no proof against them. The actual culprits and the two accomplices confessed.

The lad who set the fire is J. P. Marchand, aged 11, of Montreal. His accomplices were Eugene Bernard, aged 15, Albany, N.Y., and William Henry, aged 14, Southbridge, Mass.

The boys were remanded by R. J. Ladd, J.P., until Feb. 5, when they will appear before Judge Mulvena.

The fire was discovered about 6.30 a.m. and was beyond control when the firemen arrived on the scene. About one hundred and fifty boarders were in the building at the time, and all safely escaped. The loss will be about \$90,000, only partly covered by insurance.

Long Standing Plot. It seems that there had been plans to burn the college among the boys for some time. The investigation this afternoon showed two former attempts and it was also learned that one of the boys had written a letter on Jan. 29 to a friend saying that the college would burn down on Jan. 25. One of the brothers opened the letter and learned of the plan. He informed the lad's parents, and the youngster was removed from the school. The brother, however, failed to notify the police of the matter, but a strict watch was instituted.

On Dec. 4 and again on Jan. 10 attempts were made to burn the buildings, each attempt being followed by the running away of a pupil.

High Constable Bolwert has the names of the boys who ran away on these occasions, and will have them arrested and questioned.

The No. 1 Company En Tour. The company of "stars" including such noted artists as Lina Abarbanell, Jack Gardner, Elizabeth Murray, etc., that appeared in New York for such a long run in the musical success "Madam Sherry" are now on tour and an effort is being made to have the company visit Toronto at an early date.

## British Government To Inspect Banks

LONDON, Jan. 29.—(C. A. P.)—The government will introduce a drastic banking measure at the forthcoming session, dealing with private banks. The bill provides, among other things, for a rigid system of government inspection on the lines that are obtaining in some colonies, and for a deposit of ample securities with the government in cases of new banks. The proposal is a direct sequel to the Charing Cross and Birkbeck disasters.

It was stated by Col. Lowther, military secretary to the governor-general, when asked if the household here would go into mourning, that a cable would be received from King George in connection with the length of mourning, if it were to be ordered. The Duke of Fife, however, was not of the royal family.

Shock to Britain. LONDON, Jan. 29.—The tragic end of the Duke of Fife's ill-starred voyage to attend the consecration of the cathedral at Khartoum, erected as a memorial to General Gordon, has given a great shock to the British public. Although he showed no effects of his experience in the wreck of the steamship Dabhi on the arrival in Egypt, the duke's death is universally attributed to the exposure and shock resulting from that event.

He contracted a chill at Wadi-Halfa, in the Egyptian Sudan a week ago and was unable to proceed. But not until a physician was summoned from London on Friday was any alarm felt. Only to-day, when it was learned that the duke had been removed to Assuan on Sunday, was a fatal issue feared.

Dampers on Festivities. The deepest sympathy is everywhere expressed for the princess royal, who accompanied her husband to Egypt. The duke's death will cause the curtailment or modification of all projected arrangements at Portsmouth and London for the reception of King George and Queen Mary on their return from India. It is probable that all the festivities will be shorn of military display and state ceremonial. The court functions in the early spring also will be modified.

The Duke of Fife was one of the pioneers with Cecil Rhodes in the early history of South Africa. He was greatly liked for his public spirit and his philanthropic and other useful work for the country.

DANA GIBSON AT OTTAWA. OTTAWA, Jan. 29.—Charles Dana Gibson, the celebrated artist, and his charming wife, of New York, returned with their Royal Highnesses from New York, and are spending a few days at government house, leaving about the middle of the week for their home.

THE ANTI-BILLY CLUB. In the January fur sale now on at Dimsen there is a very fine collection of Alaska Sable garments, especially muffs and stoles. This fur is something high-class, being made from personally selected pelts manufactured into garments in the Dineen work-rooms. WILSON STORE DAMAGED. Fire and Water Caused Loss Amounting to \$10,000, Covered by Insurance. Fire in the top flat of the Harold A. Wilson store, 179 Yonge-street, discovered at 5.30 p.m. yesterday, damaged the building to the extent of \$1000, and smoke, fire and water damaged the stock to the extent of \$9000. The loss is fully covered by insurance. How the blaze started is unknown. The floor is given over to manufacturing, and about 25 men and girls are employed. All got out safely, but many lost overcoats and hats in the rush for the stairway.

PLACING EMBARGO ON JEWS. ST. PETERSBURG, Jan. 29.—(Can. Press.)—The Nationalists introduced in the duma to-day a bill prohibiting the admission into Russia of Jewish citizens of the United States. The bill also provides for an increase in the general customs tariff, with special duties against American goods.

## BRITAIN MOURNS DUKE OF FIFE'S PASSING

Brother-in-law of King Succumbs to After Effect of Shipwreck—Elaborate Preparations to Celebrate Return of the King and Queen Abandoned.

ASSUAN, Upper Egypt, Jan. 29.—The Duke of Fife died here at 6 o'clock this evening.

He was taken ill about a week ago with pleurisy and congestion of the lungs and since Saturday has been very low.

It is thought that he never completely recovered from a cold caught when he and the Duchess, with their daughters, were wrecked with the Delhi off Cape Spartel in December.

The Duke of Fife, brother-in-law of His Majesty King George, was born on Nov. 20, 1849, and was the oldest son of the fifth earl.

He married Her Royal Highness Princess Royal, eldest daughter of King Edward VII, in 1889. He was educated at Eton, and represented Murray and Nairn as Liberal member from 1874 to 1879. In 1882 he went on a special mission to the King of Saxony. For nine years he was vice-president of the Chartered Company of South Africa, resigning after the Jameson raid. He owned about 250,000 acres.

Received News at Ottawa. OTTAWA, Jan. 29.—News of the death of the Duke of Fife was received at government house to-night. There was a large dinner party of over 100, and owing to the lateness in the receipt of the sad news, the dinner could not be postponed, and their royal highnesses received their guests in the usual manner.

It was stated by Col. Lowther, military secretary to the governor-general, when asked if the household here would go into mourning, that a cable would be received from King George in connection with the length of mourning, if it were to be ordered. The Duke of Fife, however, was not of the royal family.

Suits for Young Men That Accentuate the Personality of the Wearer

Suits Youthful in Appearance and Pattern and That Fit in Between the Clothes of the Boy and the Clothing of the Man

One of the important features in the great progress made in the Ready-to-Wear Tailoring is the recognition of the injustice that heretofore has been done the youth, in transplanting him—with a jar to himself and a sigh from his mother—from the clothing of the boy to that of the man; and permitting him to wade through a period of awkwardness, painful to behold and seriously shaking the foundations of manhood, with self-consciousness and the ever-present feeling that he didn't fit in.

We demonstrate the great change that has taken place with a department entirely devoted to the showing of Young Men's Suits, suitable in cut, fabric and finish to the tastes and individuality of the youth.

They are made in sizes 32 to 37 only, and are so different from what Young Lads have been able to secure that they are sure to meet with great favor. One excellent sample is a single-breasted sack model, with neatly shaped lapels, natural shoulders and that fashionable modulating curve at the waist line which gives the wearer the slim, lithe effect so much desired at the present day. The trousers are cut on approved lines, and are finished with cuffs and belt loops. The fabric is a clean cut pattern, showing a dark ground, with narrow thread stripes.

Get acquainted with this new line of clothing, Wednesday; sizes 32 to 37. Price 11.50

OFFICIAL CALL FOR CONVENTION

World's Seventh Sunday School Congress Will Meet at Zurich in June, 1913.

The official call for the world's Sunday school convention, to be held in Zurich in 1913, has been issued. It is as follows: In recognition of the far-reaching aims of the World's Sunday School Association, your executive committee has always chosen for its conventions places in which accessibility, historic association and favorable location are combined in a high degree. In the eastern hemisphere conventions have been held in the Cities of London, Jerusalem and Rome. In the western in the Cities of St. Louis and Washington. At Washington it was unanimously resolved to hold the next convention in Europe in 1913. After an exceptionally careful study of the situation, involving a visit to many continental cities by our first vice-president, W. N. Harshbarger of Boston, the City of Zurich, Switzerland, was unanimously chosen as the place for holding the world's seventh Sunday school convention. In the selection of the convention city we believe that we have been guided by a wiser than human intelligence. Zurich--"beautiful for situation"--is in the heart of the Alps. It is the largest city in Switzerland, and an important historic, educational and religious centre. It was the home of Zwingle, the reformer--the birthplace of Pestalozzi, whose work underlies the fabric of modern educational meth-

ods. With its splendid "Ton hall," where the sessions of the convention will be held, and ample accommodation for the entertainment of visitors, it would appear that Zurich presents exceptional advantages as a place for holding our next convention. These are days of wonderful opportunity, and ours must be a large vision for a large task. The world's seventh Sunday school convention should be the most effective religious event the world has ever seen. As we fit the occasion to His great world purpose, thru the convention theme, "The Sunday school and the great commission," what may not God be able to say to the nations? Your executive committee therefore officially announces that the World's Seventh Sunday School Convention will be held in the City of Zurich, Switzerland, July 8-15, 1913. To this convention, so rich in promises, representative Sunday school workers from all lands will be cordially welcomed. (Signed) G. W. Bailey, President.

UNUSUAL PIANO VALUES. It is only under special conditions that one can buy a good upright piano at the prices that are being quoted just now by the old firm of Heintzman & Co., Ltd., 193-196-197 Yonge-street. Following stock-taking they have brought into the warehouse a number of upright pianos of well-known makers that have been out for concert use. These pianos are but slightly used--none the worse for use--and, besides, have been put in first-class condition by Heintzman Company's own workpeople. They are being offered at a large reduction from regular prices and can be bought on easy terms of payment--a small amount down and small amount weekly, monthly or quarterly. 4812

WOULDN'T MEET ROYAL VISITOR

Cardinal Farley of New York Refused Three Invitations for Lunch and Dinner.

NEW YORK, Jan. 29. (Special).--The World, gives prominence to the fact that Cardinal Farley declined several invitations from Ambassador Reid to meet H.R.H. the Duke of Connaught during the recent visit of his royal highness to New York. It appears that his eminence was invited to meet the duke both at luncheon and at dinner on Monday last. These invitations were declined, but as his royal highness expressed a desire to meet the cardinal, the latter was approached with a view of extending to him a third invitation, this time for dinner Tuesday night. The reply was that the cardinal had already accepted an invitation for the same evening to another dinner at which he was to be the guest of honor. The fact that Cardinal Farley has been so much in the public eye of late, coupled with the fact that he is almost a next door neighbor of Mr. Reid's, caused his absence to be noticed, and his given rise to much speculation. It is suggested that the cardinal, being an Irish Catholic, regards the present royal family as unfriendly to the Catholic Church and to the Roman Catholic Church. This seems unlikely in view of the modification of the coronation oath, largely brought about thru the personal influence of the present sovereign, and in view of the great popularity enjoyed by the late King Edward among the advocates of

DRIVER WORE RUBBERS WHICH SAVED HIS LIFE

Wire Broke at Corner of Queen and Victoria Sts. and Killed a Horse.

Sometimes the last straw is an icicle. This was the case yesterday when a telegraph wire, over-weighted with ice, parted at Queen and Victoria-streets yesterday noon, killing one of the Eaton delivery horses which was passing under it at the time and severely shocking the driver, Thomas Harradine, 181-2 Leonard-avenue. As one end of the party wire dropped it fell across a street railway high voltage wire and a Toronto Electric Light wire. The wet ground was charged with the fluid for a radius of several feet. The horse dropped dead from this charge without touching the wire. The driver was thrown from his seat and received a shock. His life was probably saved by the fact that he was wearing heavy rubbers. The wire was repaired before any further accident occurred.

FOREIGNERS GIVE BETTER RESULTS

Foreman on City Work Told Commissioner Starr That He Hires Them Rather Than Englishmen.

Commissioner J. E. Starr has concluded taking evidence in the discrimination charges against the foremen on civic works. At last night's sitting only one complainant put in an appearance, and one foreman to refute the charges laid. Charles Moore, 69 Sullivan-street, complained in spirited language that he had applied for job after job, but had been turned down on every occasion. His evidence was not taken very seriously, and after a few minutes rapid conversation he left the room in disgust. Foreman Cornelius Enright, 496 Clinton-street, said he had more Italians working under him than Englishmen. His reason was that the foreigners stuck to their work, while the English-speaking men laid off for the most trivial matters. Another reason was that he was out for results, and the foreigners, he said, gave better returns for their wages. The commissioner will make his report to the board of control in about a week.

UNANIMOUS APPROVAL OF THE COUNCIL. Unanimous approval of the council action in closing the toboggan slides on Sunday was expressed in a resolution passed yesterday by the Municipal Association.

TEARING DOWN BUILDINGS

C. P. R. Starts Work of Removing Houses in Order to Lay Track.

The C.P.R. expect to start work shortly on their new freight terminal at the corner of Simcoe and King-streets, where the government houses stands at present. The first part of the work to be done is the laying of tracks from the diamond crossing at Bathurst-street to Simcoe-street. This work will be started immediately. A great many old residences on Wellington-street, Dorset and Clarence-squares will be torn down to make room for the new tracks. The officials declare that the new Dominion Express Co. building and freight warehouse will surpass anything on the continent.

NEW HARBOR ENGINEER STARTS WORK THURSDAY

E. L. Cousins Will First Make a Hydrographic Survey of Toronto Harbor.

Mr. E. L. Cousins, who has been appointed railway and dock engineer of the Toronto Board of Harbor Commissioners, will assume his duties on Thursday. Mr. Cousins' first work will be the taking of a hydrographic survey of the harbor. This work will be done while the ice is on the bay in order that the depth of water in all parts of the harbor may be correctly ascertained. This work will be followed by a geographical survey, which will give the board an idea of the plans to be submitted to the Dominion Government. It will probably be a year before this work is completed. The last survey to determine the depth of the bay was made by the city engineer's department four or five years ago.

NO SPEEDING ON DON FLATS

Proposal to Have Race-Track for Horses and Automobiles Not Favored by Committee.

The proposal that the city erect a race track for horses and automobiles on the eastern side of the Don flats met with little sympathy from the parks committee yesterday afternoon. Acting Parks Commissioner Chambers claimed that the idea was not feasible and would mean that the Riverdale slides would be destroyed. Ald. McErlife was quite sure that the horse-man did not want it. The committee decided to strike out the motion. The question of prohibiting automobile racing in Exhibition Park caused some discussion. Controller Foster argued that Toronto was the centre for a large automobile trade, and he thought that such a step would be detrimental to the industry. It was decided to let the matter stand until enquiries could be made. A letter from Acting Parks Commissioner Chambers was read advocating that the city take steps to connect up their parks system by means of park driveways. The commissioner recommended numerous improvements, and it was decided to have them printed and shown in chart form.

## SIMCOES PUT UP BEST TEAM TOTAL FOR NIGHT

Spill the Wood for a 2766 Total in Athenaeum "A" League—All the Bowling Scores.

The Simcoes and Sun Life cleaned up in the Athenaeum A League last night their victims being the Windsor and Spoolers. The Howards with the big total of 2766 were top scorers for the night. The Sun Life, who have steadily strengthened up lately, put in 2866. Chris Spencer with 65 had the best individual total, also the best single game, with 234, while Andy Sutherland put in three good games for a 900 count.

In the Athenaeum League, United Brass won three straight. McLaughlin's triple-header in the Dominion Express League resulted in Terriers taking two from Clinkers and the Black Cats and White Hopes doing the same to Clinkers and Merry Widows, respectively.

Following are the scores:

TUESDAY MORNING, JAN. 30, 1912

A FAIR COMPROMISE.

That \$60,000 settlement is a great year, by Mr. H. L. Drayton, K.C., corporation counsel. The settlement will be generally regarded as a fair one, but a weaker man might have been willing to be more compromising. Mr. Drayton got the facts, however, which cover a period of 22 years or more, and having settled what he considered fair he had the strength to stand by it. It has been stated that the statute of limitations had been invoked against part of the claim, but Commissioner Harris, who assisted in getting up the evidence, denies this. Nor would it comport with the dignity of the city to evade a just debt on a technicality.

No doubt the city council will ratify the settlement, which closes up a long chapter in the city's annals. The city hall cost much in money, but there were not a few broken hearts as a result of the differences which the present settlement will now lay to a long rest.

And after all the contention it must not be forgotten that Toronto city hall is the cheapest building of the kind erected on this continent, nor that its stately and imposing corridors and chambers have already been outgrown by the ever multiplying city.

LOCATE THE BLAME.

An altogether unexplainable delay has taken place in the matter of opening up the street through Mount Pleasant Cemetery. The cemetery trust has at no time carried out its obligation as a public body in dealing with this question, and the street opening is now held up because of one or two insignificant details which should never have ranked as obstacles if the public interest instead of a supposed corporation interest had been considered. Nor is the council of the Township of York altogether blameless.

J. R. Starr, the solicitor for this municipality, has at no time shown a disposition to push the street opening and a little determination on the part of his employers would have made him turn handsprings. The Town of North Toronto saddled itself with a \$25,000 debt over six months ago to pay the exorbitant demands of the cemetery trust for the right of way and has been prepared at any time since the bylaw was passed to pay over the money. Responsibility for the blocking process lies between the York Township authorities and the cemetery trust, and it would be well for the former body to rid themselves of that part of the blame now attachable to them.

UNIVERSITY VIEWS ON EDUCATION.

One cannot avoid the conclusion on looking over recent numbers of "The University Monthly" that an intensely practical interest is being taken in educational affairs by those in charge of the magazine, and the appeal of its pages is as strong for the general reader as for the alumnus or the student.

An excellent editorial in the December number on compulsory English composition should be widely read. The American practice arose out of an idea, emphasized by newspaper clamor, that once composition were compulsory in a short time everybody would write good English and in a quarter of a century a body of great authors would appear. Dr. Lounsbury in a recent article in Harper's, pointed out that all the great writers of America like Longfellow, Hawthorne, Lowell, Bryant, were trained before the day of compulsory English composition, and forty years of it have done nothing to fill their places. The University Monthly agrees with the view that undue importance is attached to exercises in English composition, the criticism of themes being largely incompetent and when competent of little value to the pupil.

The capacity to write good English involves the sense of style which is a result of the possession of literary taste. It is a delusion to believe that it can be developed by a study of rhetoric or by the books on rhetoric. Going to the root of the matter, the reason for the preservation of the superstition of compulsory composition is quoted from Prof. Lounsbury: "In the educational world there exists, and always has existed the disposition to enforce a strict quarantine against the entrance of new ideas. Any practice, any belief connected with education dies hard." Nothing could be more promising than the fact that this condition is recognized. It implies the

correction of any possible weakness of the kind in Toronto.

In a discussion of the use of the university laboratories, it is stated that one-fifth of the total annual expenditure of the university is absorbed by them for the benefit of one-eighth of the students. It is suggested that the absence of a broad science course in the curriculum in arts accounts for the failure of the students to use the laboratories. There is no course leading to a B. Sc. as in other universities in Britain and the United States.

The male and female teacher problem is dealt with at some length, and it is taken for granted that "a large majority of the parents of this province would prefer to have their sons after the age of ten or twelve, at the latest, under the care of male teachers; and that a considerable number of parents would, no doubt, be willing to have their daughters attend the same classes as their sons for a year or two at about the same age."

The editor enforces a proposal made at the Ontario Educational Association, that a number of schools be opened exclusively for boys. The status of the male teacher would be greatly improved. Similar schools for girls would do as much for women teachers. Being no longer rivals, the position of both men and women would be improved, with perhaps an increased remuneration. It is not overlooked that "an extremely important part of the teaching, at certain stages, must always be done by women, and never ought to be left to men."

Besides the editorial comment there are many interesting articles in these numbers, and Dr. Macallum is to be congratulated on the result of his labors.

TALK SATISFIED.

The Globe has so many and so tortuous policies it finds consistency difficult. Not that we particularly desire consistency from The Globe. All we ask is a public-spirited support of progressive measures. The Globe is now out with a wall for radial railways. No great city on the continent is so ill-supplied as Toronto with electric suburban lines.

But one short month ago the only practical scheme that has yet been devised for the entrance of the radials to the city was before the electors. One would have thought that The Globe in its enthusiasm for radial railways would have tunneled to Hamilton in order to get them. The project had been two years before the city; The Globe admitted it would have to come some time, but the Mexican plant of "to-morrow," and the Scotch plant of "the expense," overwhelmed all other considerations. If The Globe had really wanted radials it would have helped to carry the tube entrance a month ago. It pretends to want radials now. It only wants something to talk about.

SHOULD BE STRAIGHT VIADUCT.

An attempt is being made by some of the papers to discover that the land damages for the straight viaduct would be very heavy. All the figures for all the damages have been before the people for months, and these alleged discoveries are not new, whatever they may be. The city engineer and everyone who has the general interest of the city at heart, as distinguished from those who have personal interests in Rosedale, are in favor of the straight plan viaduct. The difference in cost between the straight and the crooked plan is estimated at about ten per cent., and the advantages of the straight over the crooked plan are about 100 per cent.

HOME RULE TENTATIVES.

No Irish movement, it has been said, but owed its defeat to Irishmen. A critical stage appears now to have been reached in the history of the self-governing powers to be accorded the Irish legislature. This is the crucial point on which Nationalist success or failure depends. Mr. Alexander Ure, lord-advocate of Scotland, not long ago compared the legislature proposed by the government to that of British Columbia. This indication of the trend of the government's deliberations immediately elicited angry Nationalist protest and it at once revealed a sharp divergence of opinion between the government and its allies. What the Nationalists want is that Ireland should occupy towards Great Britain the position Canada occupies towards the United Kingdom, and not a position similar to that which a Canadian province holds towards the Canadian Government and Parliament.

British Liberals, as a rule, are not prepared to support a measure which confers on Ireland practical independence and the right to regulate her own fiscal system and to enter into separate treaty arrangements with foreign countries. Management of her own local affairs the great majority of Liberals are ready to concede, subject to the control of the Imperial Parliament, in which the Nationalists profess to believe. Ireland should continue to be represented. Moreover, the measure of devolution accorded should be of a character such that it may be equally applicable to England, Scotland and Wales. This is the only possible solution of the home rule question, and apparently Mr. Asquith's government recognize that none other can be proposed without risk of defeat. If the Nationalists are serious in their desire for local self-government, they will ac-

Winnipeg Power Manager Quits

Wouldn't Stand Interference of Board of Control in His Department.

WINNIPEG, Jan. 29.—(Can. Press.)—J. G. Roseman, general manager of the civic light and power plant, in receipt of a \$6000 salary, which was shortly to be augmented, resigned this morning on account of the alleged interference of the board of control in his department. He complains particularly of a recent move which placed the direct supervision of his staff under the control of the board, which, he says, brings it within the influence of civic politics, tending to inefficiency.

Mr. Roseman is the expert brought in from New York recently on completion of the city's big water power plant at Point Du Bois, and has instituted a very vigorous selling campaign by cutting rates against the corporation-owned electric, the Winnipeg Electric, domestic lighting company meeting each out.

J. PIERPONT NEEDN'T WORRY.

LONDON, Jan. 29.—(Can. Press.)—The chancellor of the exchequer expressed the view this afternoon that the withdrawal from London, however, continued to be a subject of widespread interest and the opinion is generally held that Mr. Morgan's belief that the event of his death in the future would be a heavy burden on the Chancellor Lloyd George this afternoon authorized the following statement: "Mr. Pierpont Morgan's art treasures would not be liable to death duties in England unless they were sold."

CAN KILL 5000 SEALS YEARLY.

WASHINGTON, Jan. 29.—(Can. Press.)—The law to make effective the pelagic sealing treaties between the United States, England, Russia and Japan probably will not abating responsibility for the killing of seals for the next five years. The foreign affairs committee of the house has introduced an amendment to limit the killing of seals to 5000 for the first five years, 7500 for the next five years, and 10,000 for the concluding five years. The committee holds that the killing of American seals is not a subject of international agreement.

OTTAWA, Jan. 29.—A bill to hasten the distribution, or winding up of the estate of the late Ezra Butler Eddy, has been introduced in the Quebec legislature by P. A. Gendron, M.L.A. of Hull.

Fearing Violence in Court.

FORT WORTH, Tex., Jan. 29.—(Can. Press.)—As spectators entered the trial of John B. Sneed, accused of the murder of Capt. A. G. Boyce, to-day, they were searched for weapons. There was no disorder and no weapons were found. It was announced several days ago that spectators would be searched, as they were in Sneed's case. Sneed's trial did not proceed to-day. On a technical counsel for the prosecution argued that the court lacked jurisdiction. The trial will be delayed two days on this account.

Sugar Going Up?

HAVANA, Jan. 29.—(Can. Press.)—The continuance of unusually warm weather is affecting the sugar crop unfavorably, the cane containing a lower percentage of sugar than last year. Should the heat continue in December, will prove much too high, but there is little doubt that the crop will not be far distant. In various parts of the island there are complaints of a scarcity of labor.

INTERESTING FEATURE OF GRAIN SITUATION

An interesting feature of the present grain situation is the fact that as prevailing prices barley is the dearest cereal on the market. The average price of matting barley is 96c a bushel, or approximately two cent as pound, while the corresponding quotation on wheat is 1.60 per pound, making barley sell for nearly half a cent a pound more than wheat. The comparison shows the border is even more remarkable. Good matting barley is worth 2.1c a pound, or a full cent above wheat. Owing to the increased price, the world's barley crop has made longer journeys during the current season than ever before. Peruvian barley has been shipped to Western Europe, Pacific Coast barley has been shipped to the West Indies, and the commercial importance of North Africa has been enhanced by its supply. The main reason is in the short crops of North America. Scarcely has led to the use of substitutes, including wheat, for matting. Yeast manufacturers are using wheat instead in some cases.

C. P. R. EARNINGS.

MONTREAL, Jan. 29.—C.P.R. press earnings for December, 1911, were \$10,654,872; working expenses, \$6,549,141; net profits, \$4,105,731. In December, 1910, net profits were \$2,246,824, and for six months ending Dec. 31, 1911, figures are as follows: Gross earnings, \$25,565,866; working expenses, \$18,049,123; net profits, \$7,516,743. For six months ending Dec. 31, 1910, there was a net profit of \$2,616,708. The increase in net profits over the same period last year is, therefore, \$4,900,035, or 187 per cent. For six months ending Dec. 31 there was an increase of \$4,889,939.

Only in Self-Defence.

President Alderman of the University of Virginia is a brilliant orator, says The Popular Magazine, and makes it a habit to travel thru the country delivering speeches to the alumni associations of the institution which he governs. On one occasion he was making such an oration, and was in the midst of a glowing, star-shaking tribute to his students, when he stopped and said: "The fact of the matter is, gentlemen, that the alumni of the university are dear to my heart, whether they commend me or abuse. I am like the Irishman who lined up his family of several giants and invited his caller to take a look at them. "Ain't they the fine boys?" enquired the father. "They are," agreed the visitor. "The finest in the world!" exclaimed the father. "Ain't I never laid violent hands on any one of 'em except in self-defence?"

Toronto-Detroit-Chicago Service.

The Canadian Pacific have an excellent train sleeping car service between Toronto and Chicago, leaving Toronto at 4:30 p.m. and arriving Chicago 9:45 p.m. The 7:20 p.m. train carries in addition to Chicago sleeper, a local Detroit car, which can be occupied until 8 a.m. This enables passengers to secure a good night's rest. A dining car is operated on the 8 a.m. and a buffet car on the 4:30 p.m. Connections out of Chicago can be made for California points from these trains. THE GREATER GODALM DRUM

Thoughtless People With Visions of Spring Were Soon Surprised by Slippery Pavements.

Yesterday was one of those peculiar days when you couldn't exactly say whether the weather was hot or dry.

The afternoon especially the weather was a conundrum. It was a typical January thaw, with the rain falling and becoming frozen the moment it struck the ground.

Nobody likes the kind of climate that was supplied to us yesterday. Canadians, or more especially Torontonians, like extremes in cold weather.

Skating, snow-shoeing, every form of winter sport gets a setback on such a day. Even the tobogganers find it difficult to get their toboggans to slide.

METROPOLITAN MAY NOW AGREE TO CONFERENCE

Bell Telephone Co. Begin To Climb Down Off the Perch—Great Time at Humber Bay.

NORTH TORONTO, Jan. 29.—(Special.)—This year's council has moved already what earnest and well-directed efforts will do in protecting the public interests and how even the corporations can be made to take notice if gone after in the right way.

At that time and point no less than 18 people were crowded, many of them, the vestibule around the motorman, and five or six were compelled to alight temporarily to make the passage, and the rules of the company strictly forbidding passengers to enter the vestibule.

At that time last week, on the word of a reputable citizen, who had seen cars, Canadian Northern and others, were bunched together at the Eglinton switch, and on the main line.

Prince Albert's Growing Time

The eyes of the West are now on Prince Albert, where an amazing growth is taking place. In five years the population has trebled, the assessment has increased five-fold, and the building permits have grown almost one hundred times greater.

NO LAND FOR SALE If any further assurance were needed of the great future in store for Prince Albert it would be found in the fact that the Hudson Bay Company refuse to sell any of their land holdings adjoining the city.

A RAILWAY CENTRE Prince Albert is destined to become one of the six great cities of the West—at least, that is the opinion of shrewdest business men of the West. The railway companies have all decided that Prince Albert is one of the West's strategic points, for they are spending large sums of money building lines into the city.

LOTS \$175 AND \$200 At present, we have been commissioned to sell a small block of land right in the line of Prince Albert's greatest growth.

## Bullish Speculative Feeling Carries All Grains Higher

### Lively Action in Wheat Pit With Much Strength Shown—Big Decrease in Visible Supplies.

CHICAGO, Jan. 29.—Increasingly bullish speculative sentiment carried wheat up today a cent a bushel. The close was at a gain of 3-4c over the previous day. Corn finished 1-2c to 5-8c higher than 48 hours before, oats up 3-8c to 5-8c, but hog products less expensive by 2-12c to 10c.

Throughout the day there was lively action in wheat. An early bulge to over \$1.08 for May brought a rush of selling, but before trading came to an end the price nevertheless went almost to \$1.04. The strength was largely the result of encouraging cables, but was also due in part to a big decrease in the United States visible supply total. Liverpool sent word of nervousness there was strong in the smallness of stocks on hand as well as the lightness of world shipments. Advices from Buenos Ayres predicted a large movement soon to the seaboard, but there were also complaints of harvest returns, making a wretched outlook as a result of recent bad weather.

### Receipts Fall Off.

Diminishing receipts northwest of Chicago, alleged by some to be due to winter wheat, and confirmed reports of fifty boat loads of Manitoba wheat taken for ocean shipment, all counted on the bull side. Profit-taking and sales on resting orders at the extreme advance seemed to be well absorbed, the causing the market to close with a somewhat easy tone. May raised from \$1.02 5-8 to \$1.03 7-8, with final sales 1-2c to 5-8c net higher at \$1.03 5-8 to \$1.03 7-8.

Indiana and Illinois export business helped put firmness into corn. So did cold weather and increased feeding. The cash market was strong in the face of a heavy movement of the crop and consequently many early sellers were busy late in the day covering shorts. May fluctuated between \$1.14 and \$1.18, closing steady 1-2c to 5-3c up at \$1.14 to \$1.17 3-4. Cash grades were in good demand.

### Buying Is Brisk.

Eager speculative buying kept many soft spots out of the market for oats. Realizing market was strong in the only source of offerings. Receipts were small and cash enquiry most urgent. Under limits touched for May proved to be \$1.30 3-4 and \$1.30 1-2, with the close \$1.31 1-2, an advance of 5-8c since Saturday night.

Provisions suffered depression on account of huge arrivals at the yards here and in the west. Furthermore the government report made the fact clear that the supply of hogs on farms has not fallen below last year, despite large increases in the slaughter. In timely interest, and to the credit of baconing, the market appears to be happily reconciled with the prospect of a more or less normal supply for the past 22 years, which is

Receipts of wheat in cars at primary centres were as follows: Week ending Chicago, Ill. To-day ago, 13,000; to-day, 15,000; last week, 12,000; last year, 10,000; Minneapolis, 3,000; last week, 4,000; last year, 3,000; Winnipeg, 600,000; last week, 700,000; last year, 600,000.

### Situation in Our West.

The Winnipeg Free Press says fifty per cent of the grain out west is to come to market, and that some winter wheat is to be planted. It says the crop is expected to be better than last year's, and that the market will be strong.

### ST. LAWRENCE MARKET.

Owing to the rainstorm there were no receipts of farm produce on the St. Lawrence Market. The prices given are those of Saturday's market.

## COUNTRY DELIVERIES CONTINUE SMALL

### Further Advances Made in Wheat at Record for This Season.

There is a remarkably small amount of grain coming into the domestic market at the present time, and local merchants are finding some difficulty in getting their orders filled. This has naturally resulted in a further raising in prices, and was again exemplified yesterday in respect to wheat. Country wheat, all of which is sold in bulk, Ontario wheat was quoted at \$1.04, and western wheat at \$1.05. The market was strong and prices advanced, the demand being very firm at recent quotations.

# Burdensome Realizing in Mining Market Carries Values Lower

## Hollinger Down Another Dollar Liquidation Still Under Way

### Mining Stocks Prove Vulnerable to Pressure and Prices Ease All Along Line—Nipissing Up to Seven Dollars.

World Office, Monday Evening, Jan. 29. The publication of the Hollinger report late last week has not had the anticipated bullish effect up to this time in the mining exchange. Another burdensome liquidation movement was under way in the market to-day, and this carried prices lower thruout practically the whole list. The closing figures were generally around the bottom for the session.

The reason for the current depression in the market for the last few days is not hard to find. It is understood that liquidating orders have hung over the market for some time, but that they have been withheld until now, in the idea that the Hollinger report would brighten the situation materially. The accumulation of these orders has in itself defeated its own object, and thereby put the market in a vulnerable condition. Added to this is the fact that holdings have been thrown on the market by local banking institutions. It is not clear that there is any authenticity in this latest rumor.

Hollinger led the decline to-day, the shares declining perpendicularly to \$12.25, a loss of 85 points for the day, and a full \$2 below the high price of Saturday last. There seemed to be little or no support in evidence for the stock as it was allowed to find its own level, and the quotation fell back rapidly on every fresh appearance of selling.

### McKENNEY MAIN SHAFT REACHES 150-FOOT LEVEL

Porcupine, Jan. 27.—A depth of 150 feet has been attained in the No. 2 shaft of the McKenney Mines, Ltd., and sinking will be continued to the 200 foot level. At 200 feet a station will be cut and sinking will be resumed. A new shaft house has been erected at No. 2 and a carpenter shop has been added to the mine building. In No. 4 shaft cross-cutting east and west is in progress from the 75-foot level near the line of the Hollinger property.

The McKenney property is located immediately to the south of the Hollinger in the Pearl Lake district.

### Brokers Changes.

Announcement is made elsewhere in this issue that the firm of Smiley, Stanley & McCausland, members of the Standard Stock Exchange, has been dissolved by mutual consent, to go into effect on the first of next month. Mr. J. A. McCausland, who is the president of the Standard Stock Exchange, will go into business under the name of J. A. McCausland & Co. and will open offices in the Royal Bank Building. Messrs. W. A. W. Smiley and F. J. Stanley, partners in the present firm, will do business under the name of Smiley & Stanley, with premises in the Standard Bank Building.

## B. C. MINING MERGER NEARS COMPLETION

### Amalgamation of Sir Donald Mann's Properties and Other Portland Canal Camp Groups Under Way.

Arrangements for the amalgamation of a big group of Portland Canal, B. C., mining properties, including the Chicago-Jumbo-Ben Bolt group, owned by Sir Donald Mann, and the holdings of the Portland Canal Mining Co., the pioneer operators in the Portland Canal district, are making satisfactory progress, and it is reported that the proposed merger will take definite form in the near future.

Sir Donald Mann is at present in the Southern States, and pending his return to Toronto, no specific details of the proposed consolidation are obtainable. It is known, however, that the negotiations for that concern, which were completed a short time ago, were made a special trip to Pasadena, Cal., where he went over the matter with the financier.

A meeting of the shareholders of the Portland Canal Mining Co., Ltd., has been called for March 30 at Victoria, B. C., when the details of the amalgamation will be submitted for their approval. It is expected that Sir Donald Mann will go to Victoria in the next week or so to make final arrangements for the merger.

## SINKING SHAFT AT REA TO 600 FOOT LEVEL

### Operations to That End Commenced Last Week—Resampling the Mine.

Porcupine, Jan. 27.—Operations at the Rea are continued for the present to sinking the shaft from the 300-foot level, the first shot being put in this morning. The next station will be cut at 400 feet, and to facilitate work a new hoist has been ordered. This machine has been shipped from the factory and will be here within a few days.

Resampling of the mine is nearing completion and several hundred assays have been made in the new assay office which was completed a short time ago. Sinking is being done with small hammer drills, which are being found more economical at the Rea than the deepening drills, the kind first used.

On all three levels already established the main lead has been cut. At 100 feet and 300 feet the lead was from three to four and five feet wide, and at 200 feet it was about 30 feet wide. At this level values were not quite so good as on the upper levels, but at 400 feet it is hoped to secure better ore.

## Future Seems Assured For Red Willow Co.

### STETTLEB, Alta., Jan. 27.—(Special.)—People here and in all the surrounding towns are highly elated at the prospect that the Red Willow coal and brick lands will be opened up and operated in the next few months. There is a tremendous demand in this vicinity for brick at high profitable prices, and the Red Willow product will be snapped up as fast as it can be turned out.

There is likewise a large market for coal. That on the Red Willow Co.'s property is a splendid grade of semi-anthracite of good burning quality and will command a ready market. Most of the towns of the Red Willow district are understood to have been sold, many of the lots having been taken up locally because of the possibilities ahead of the town where the coal and brick properties are under active development.

Copper Dull at Advance. NEW YORK, Jan. 28.—The copper market continues to mark time, with the asking price by the large agencies still at 14 1/2 cents for electrolytic 30 days. Sales were made at 14 3/8 cents on this basis, which would be 2 1/2 cents per share, or 3,000 shares for \$1000—write me at once. I have five men now at work on 3 of the claims, and every day is showing up their value. My two associates, with their seven years' experience prospecting in the Canadian country, say the claims are worth \$100,000 as they stand today. Eight distinct veins, with an average width of 4 to 10 feet, have been already located on 3 of the claims, and a 50-foot vein extends through the other three. This offer may be withdrawn at any time—should further expected values be discovered.

WICKLIFFE, Ky., Jan. 29.—The 13 or more persons who last night were caught in the ice that choked the Mississippi River, landed here to-day.

A limited number of 7 per cent. Preferred Shares (Par Value \$1.00) are being offered for public subscription at par. These 7 per cent. Preferred Shares carry a bonus of 50 per cent. Common Shares for a short while only.

Of the merits of the enterprise there is absolutely no question. The location of the 2720 acres of land which the Company has purchased could not be better. It is in the heart of the finest section of Alberta, about sixteen miles northeast of Stettler, on the Canadian Northern, Edmonton to Calgary branch. Nothing need be said as to the fertility of the soil. The whole world looks on amazed at the enormous yield and high quality of the Canadian grain. Men and money are pouring into this section of our Canadian West, forming one of the richest and most progressive centres of that province. They are building many large towns, and will consume coal as fast as it can be mined.

It is a matter of common knowledge that with the growth of towns in the West (300 new towns having been started last year, and over 1500 in the past eight years) the obtaining of building material has been a serious problem. A valuable asset of the company, therefore, is the unlimited supply of clay for the manufacturing of red and white brick. It is the purpose of the Company to install a plant to manufacture 50,000 bricks a day, and also a plant to mine 500 tons of coal a day.

A very important avenue of profit will be the sale of lots in the Town of Glen Hayes (\$25,000 worth of which have already been disposed of), which has been conservatively estimated to yield the Company a net profit of at least \$150,000. Glen Hayes is destined to become a very important centre. Within a radius of six miles, over 1,000,000 bushels of grain were shipped last year.

A recapitulation of the profits to be derived from this extraordinary safe investment, which will be drawn from four magnificent avenues of business, namely, the land yielding at least \$200,000 per annum, the brick manufacturing plant at least \$30,000, the coal mines, taking out 500 tons a day, a net yield of nearly \$150,000, and from the sale of town lots \$150,000; we say this four-fold source of revenue absolutely guarantees the payment of the 7 per cent. dividend on the Preferred Stock, and a very large dividend on the Common Stock.

The Directors of the Company are all shrewd men, of unusual business ability, men of sterling integrity, men of the highest principles, men who may be trusted to the very limit in any and all business transactions. One has the assurance, therefore, that the affairs of the Company will be handled to the very best possible advantage. "Get into the Company whose destinies are guided by men of this stamp, when ITS FUTURE IS BEFORE IT—NOT BEHIND IT."

The Red Willow proposition is an absolutely honest, straightforward, money-making, business enterprise for business men, and every man who has been over the ground says that this Red Willow proposition is the best he has seen, and we cannot too strongly recommend it to you as an AI investment.

Write us for Booklet and Prospectus of the Company at once, which will be cheerfully sent you without any obligation or expense on your part. The stock is now selling very rapidly, and as this is an investment of exceptional merit, you cannot afford not to thoroughly investigate it, so write us to-day.

## Third Announcement

In view of the fact that we have been overwhelmed with enquiries from investors and brokers for an explanation of our announcements published in The Telegram, Star and World, stating we have an investment in an industrial enterprise that should pay larger profits than mining, without any of the risks attached to mining enterprises.

We announce that we will make public the nature of this investment in the financial columns of The Telegram, Star and World next Thursday, Friday and Saturday, and guarantee it will be interesting reading for the public, and especially for our competitors.

The corporation we represent will manufacture one of the important products of the world of fifty per cent. less than it is now or ever has been produced, and by its low production cost will control the world markets of this commodity.

Again we say to the investors and brokers that this enterprise will undoubtedly control the markets of the world in its products.

Brokers wishing to fill orders for their customers after we make our offering of stock will do well to call and see us at once.

### Cobalt Central Seems In a Very Bad Way

United States Government Fails to Collect on a Judgment \$2246.

### Cobalt Central Mines Co. affairs have taken another turn, and the latest one seems to be the worst of all. New York dispatches last night reported that United States Marshal Henkel of New York had returned to the district court an unsatisfied order signed by Judge Holt to recover \$2246 on a judgment obtained by the government against the company. The marshal stated that he was unable to find any property owned by the Cobalt Central Mines Co., and that at the head office, No. 64 Broadway, he could find trace neither of the company nor any of its officers.The reorganization of the Cobalt Central was handled from Philadelphia, and it is presumed that the books of the company have been removed there. The property is held in the name of the Standard Cobalt Mines, the operating company. When the government fails to collect on a judgment, however, what is to be said of the situation of the stockholders? Baronetcy for Heaton. LONDON, Jan. 29.—King George, it was announced to-day, has conferred upon John Henkle Heaton, Conservative member of parliament for Canterbury since 1885, and popularly known as the "Father of the Imperial penny postage," the title of baronet.

# THE ADVENTURES OF KRAZY KAT BY HERRIMAN

# Clashed Business and Political Outlook Not Liked by Wall St.

## N. Y. Market Continues Weak Wall Street in Gloomy Mood

Depression Shown Last Week Still in Effect, and Market Proves Vulnerable to Pressure Once Again.

NEW YORK, Jan. 29.—(Can. Press.) Questions of stocks oscillated in an uncertain manner to-day. At the opening the market was subjected to severe pressure and prices receded sharply. There was a partial recovery in the first hour, but before noon the selling was resumed on a large scale and the list showed decided weakness. Prices hardened slowly in the afternoon until losses had been largely eliminated, but in the last hour the pressure again became heavy and some issues fell back to about the low points of the day. The movement was erratic and confusing and seemed to indicate a sharp conflict of speculative opinion.

### IN APPREHENSIVE MOOD.

Wall-street was in an apprehensive mood again on Monday, worry over the political situation keeping sentiment of a somewhat pessimistic character. The stock market reflected this, prices undergoing a further reaction under a volume of bear selling. Quotations dropped by fits and starts, and closed the day anywhere from a small fraction to upwards of two points below Saturday. Pending an improvement in the political situation the market promises to back and fill, and it would not prove surprising to see a continuation of the selling movement.

## EXTREME LETHARGY IN TORONTO STOCK MARKET

Speculative Interest at a Low Ebb and Price Changes are Negligible—Can. Permanent Advances.

World Office. Monday Evening, Jan. 29. Trading in the Toronto Stock Exchange for the opening session of the new week was on a decidedly smaller plane than has been realized of late, speculative interest to-day having occurred to an extremely restricted level. There was no one section of the list which was picked out for any special attention, and such price changes as occurred were of negligible volume, and more often than not ran into declines.

### BIG STICK METHODS AGAIN OVERHANGING WALL ST.

Henry Claws & Co. in their financial review comment on the situation as follows: Something is needed to break the present inertia of the stock market. So long as there is no favorable news to lift prices to higher levels a downward reaction of a few points appears desirable to stimulate fresh buying. Railroad operations offer the best inducement to buyers at this time, for the reason that the railroads are under the stress of investigation and legislative attacks, and are now preparing to meet the demands of a commission against irrational and unreasonable demands. The industrial picture is somewhat brighter, but it is not those which the railroads had to face four or five years ago, and the outcome of this agitation is yet to be seen.

### GLUT IN MONEY MARKET NOT LIKED BY BANKERS

WALL STREET, Jan. 29.—Bankers generally admit that they did not expect such easy monetary conditions as now prevail. At the end of last year it was confidently stated by local bankers that there would be a shortage of demand for funds, but expectations have not been fulfilled. Money has been piled up at New York since Chicago and the outlook is anything but bright from the banker's point of view. The causes of this have been the failure of trade to revive to the extent which the lack of speculation in the stock markets and in real estate, and the inactivity of the market.

### ON WALL STREET

Erickson Perkins & Co. (J. G. Beaty) wired: Stocks backed and filled all of the afternoon, continuing under pressure much of the time. Union Pacific and Steel were freely offered on each rally. The shorts pressed every advantage. We think prices may work a little lower for some stocks before tomorrow is over, but we would not buy except on orders. The short interest is increased. Chas. Hegd & Co. to J. E. Osborne: There was a weak and feverish opening to the market this morning, due in part to the liquidation of last week, which brought in many early selling orders, and to London's lower range of quotations. After the early flurry the market rallied and it soon became evident that there was no great supply of stocks for the bears to feed upon. London was a seller, however. Business was quite active. The leading financiers are not pleased with the political outlook and many are said to be pessimistic as to future market conditions. We should hesitate to recommend buying, except of special stocks, unless in the event of weakness and sudden break, the opportunity for a time proved tempting. Closing was dull and heavy.

### European Bourses.

BERLIN, Jan. 29.—The bourse was weak to-day on persistent rumors of international political trouble, although the reports were denied. PARIS, Jan. 29.—Prices were weak on the bourse to-day.

## London Market Shows Irregularity

Americans Decline Under New York Selling—Consols at Small Advance.

LONDON, Jan. 29.—Money was in moderate demand to-day. Discount rates declined. The Bank of England secured most of the \$5,000,000 new gold offered in the open market. Dealers on the stock exchange were principally occupied with the settlement of the market, and the heavy account in home rail, which advanced on the increased prospects of averting a coal strike. Consols were better on easy money, and mining shares were quiet. American securities opened easier. First prices showed irregular changes, but later the entire list declined sharply on free offerings. When the selling subsided the market became dull and values moved irregularly within narrow limits. A better tone prevailed in the late trading and the closing was steady.

## Montreal Stocks Had Apathetic Day

Detroit United Scores Further Recovery, But General List is Dull.

MONTREAL, Jan. 29.—Further recovery by Detroit United was the outstanding feature to a rather dull and uninteresting day on the Montreal stock exchange. The added reassurance as to the company's outlook, contained in President Hutchins' message published this morning, combined with a certain amount of covering of shorts, seemed to infuse strength into the stock and the price movement was an upward direction through the day. At 2 1/2% in the last sale, Detroit showed a net gain for the day of 3 1/2 points. Apart from Detroit, Dominion Steel was the only active stock to show an upward movement during the day. Steel was in better demand again and held up to 3 1/2% in the afternoon and holding the advance to the close showed a net gain of 3/4 of a point over Saturday.

## Railway Earnings Tend to Decrease

Total gross earnings of all United States railroads reporting to Dun's for the first two weeks of January aggregate \$14,438,941, a decrease as compared with the same roads for the corresponding period last year of 7.1 per cent. This is a much more indifferent comparison than has been made for a long time, and while to a very large extent the loss may be ascribed to the unfavorable weather conditions which have prevailed in almost every part of the country east of the Rocky Mountains, conditions that were entirely absent at this time a year ago, the fact that the losses were shared in by practically every road included in the statement both in the south and elsewhere, indicates general interruption to railroad business. In the following table are given the gross earnings of all United States roads reporting to date:
