JAPANESE TO RESTRICT EMIGRATION TO CANADA

Steamers Must Receive Official Permission Before Leaving the Orient as Protection to the Authorized Emigrants.

NO MORE FROM HAWAII PROMOTERS LOST MONEY

TOKIO, Aug. 26.—The Clausen protection law, making ships carrying immigrants subject to official permission, which hitherto has been limited to vessels destined for Hawaii or South America, will be made to operate in regard to similar ships destined for Canada and after Sept. 1. This will have no effect in reducing the volume of immigrants, who already are under certain restrictions, but is aimed principally toward assuring the safety of the interests of officially recognized immigrants.

VANCOUVER, B.C., Aug. 26.—(Special.)—The situation in reference to the arrivals of Asiatics reached an acute stage last night, when men cried at the meeting of the Oriental Exclusion League. "Let us go to the next boat which brings in Orientals with guns in our hands and prevent them landing."
This cry was taken up vigorously, though no official action was taken.
Further, it was urged that a strict boycott should be established on all lumber sawed by orientals, all mines worked, and all fish handled. All the canneries are worked by these people.
The situation daily is growing more critical in all British Columbia.

Senator C. F. Chillingworth, the Honolulu lawyer, who has engineered the Jap invasion, is here to-day, and says there will be no further organized effort to bring Japs from Hawaii to Canada. Even the Kumeric venture which landed over 1200 people here was a losing proposition for the boardinghouse-keepers who organized the movement, he says, will be heavy losers. The charter costs \$40,000, but Chillingworth declares that as baggage compared to the expenses incurred and losses sustained.
She was long detained at Honolulu, involving an expense of \$700 per day to the charterers, and the runners who collected the emigrants were paid a bounty of \$50 per head.
This was not all. Many of the Japs, not possessing the requisite \$25 to enable them to enter Canada, were advanced various amounts by the promoters of the enterprise, and in nearly every instance the borrowers on reaching Vancouver scattered to all points of the compass and have not made a refund.
This is the tangled Chillingworth is here to-day, with the aid of Moriama, who accompanied the emigrants from Honolulu.

Chillingworth says that the Japanese consul Moukawa, through, really did all in his power to prevent them coming to Canada, and that the Japs, who had \$7,000 tied up and it was too late to cancel the charter.
He predicts that other parties who rechartered the Indiana will sacrifice the charter rather than lose more money on the venture. Chillingworth, however, is of opinion that there will be a large movement of individual Japanese to Canada by every steamer, as wages in Hawaii are only \$18 per month.

Our Trade With Japan.

OTTAWA, Aug. 26.—(Special.)—Reporting to the trade and commerce department from Yokohama July 30, M. A. MacLean, commercial agent for Japan, gives the total imports of Canadian flour into that country during the six months as valued at \$2,212, an increase of \$20,000 on the imports for the corresponding period of 1906.
Exports of Japanese goods to the Dominion during the six months amounted in value to \$48,135, as against \$45,541 worth imported in the six months of 1906, showing a decrease of \$26,334.

RUMORED GOLD FIND.

Cobalt Mining Co. Strike Rich Silver Vein Empregnated With Gold.

COBALT, Aug. 26.—(Special.)—It looks as if the City of Cobalt Mining Co. has found gold as well as silver, but until an assay is made, it is impossible to make a positive statement. In the bottom of their main shaft, at a depth of 87 feet, the ore, which is about two inches wide and very rich in silver. Some samples were brought up the shaft this afternoon, which seemed to be stained with gold.
The miners' union held its meeting yesterday, and despite all opposition it was decided to prolong the strike.

Accidental Death.

"That Angela Calvez came to her death in St. Michael's hospital from a fall from a street due to her own carelessness," was the verdict of Coroner Young's jury into the death of the Italian woman who was killed by stepping off a moving Bloor and McCaul car on York-street on the 15th inst.

LAKE STEAMER ON ROCKS.

SALT STEER, MARIE, Aug. 26.—(Special.)—At 2 o'clock this morning, and most of the day, while entering the main dock at Thessalon, in a high wind, at 5 o'clock yesterday morning the steamer, or King Edward, of the Algoma Central Line, was forced on the rocks a quarter of a mile out and was badly damaged, a large hole being stove in the boat, into which the water poured. The passengers were brought to land, where they were given hotel accommodation at the expense of the Soo by the steamer Fortune, another company, and were brought to the Soo

RAIN IN WEST STOPS CUTTING

Cool Weather Starts Wheat Going Up— Forecast of Crop.

WINNIPEG, Man., Aug. 26.—(Special.)—To-day's cold, wet weather sent wheat up to 97 cents.
Reports show that rain is general throughout the west.
F. O. Fowler, secretary of the Grain Dealers' Association, after a trip thru Saskatchewan, predicts a three-fourths crop.
Cutting would have been general in Southern Manitoba to-day if the weather had remained fine.

"BANCO" TANGLE CLEARS MAY RECOUP LOSSES

Edmund E. Bristol Outlines Plan for Recovery of Any Shortage That May Exist.

The various participants in the "Banco Giannetti" fiasco are coming into camp and the mystery surrounding the make-up and machinations of the "bank" are beginning to show signs of breaking up. It is by no means dispelled.
Ezio Corneo has been located by the detective in New York and will come to this city whenever wanted.
The reason for his mysterious disappearance is given by the detectives as fear of his countrymen, instilled by one of the men now in custody.
Inspector Duncan says that Corneo will render much assistance in unravelling of the tangle and looks to him as his chief source of information.
He says Corneo has been misrepresented by those who posed as his friends, and there is no doubt that he was intended by them to bear the brunt of both from the authorities and the Italians.
He may be here for the longest time, but this is unlikely.
The order forbidding railway companies to use lignite coal has been extended to Oct. 1.
The order forbidding for watchmen at bridges and trestles will not take effect until next year, except at trestles 700 feet long.

CABINET APPOINTMENTS IN HANDS OF PREMIER

No Announcement Yesterday as Was Expected—Will Wait Earl's Return.

OTTAWA, Aug. 26.—(Special.)—The vacant cabinet portfolios of public works and railways have not been filled, and it is now understood that nothing will be done until Earl Grey returns from Toronto.
It was stated after the cabinet meeting this afternoon that the matter had been left entirely in the hands of the premier, Sir Wilfrid did not see Earl Grey this afternoon, as was anticipated.
It was stated in well-informed circles to-day that the talk of Hon. George F. Graham for public works has been started simply for the purpose of boosting that gentleman in the eyes of the people of Ontario, and that all the railways long are this.
It is said in other quarters that the Hon. Clifford Sifton will be offered the department of railways and that Pugsley will go to public works.
Hon. Sydney Fisher will remain at the head of the agriculture department.

WHERE IS WM. WATSON?

Where is William N. Watson? He has been missing since July 15 from 2 Edward-street, where he lived with his daughter. He is 87 years of age. The accompanying picture is a good likeness of him, save that when last seen he wore a beard. He is very thin and has a prominent nose.

KILLS FAMILY FOR REVENGE.

Chatham Chinaman Has Rival Who He Thinks Got Even In Earliest.

CHATHAM, Aug. 26.—Charlie Lee, a local Chinaman, last year won a lawsuit against a rival, who later disappeared.
He has just received the news from China that a band of pirates massacred his parents, their children and grandchildren, in short, wiped out the entire family.
This, he believes, is because his former rival belonged to a rival Tong and in this manner revenged himself for being beaten in the local courts.

2-CENT RATE IN KANSAS.

Governor Hoch Forces Railway Board to Take Up Question.

TOPEKA, Kan., Aug. 26.—(Special.)—Kansas may have a two-cent passenger rate within a few days. The board of railroad commissioners on Tuesday will hold its first regular meeting since Governor Hoch gave out a letter threatening to call a special session of the legislature to have a two-cent law enacted unless the board acted at once.
It is believed the board will order the rate.

GERMAN CRUISE RA TMONTREAL.

MONTREAL, Aug. 26.—(Special.)—The German third-class cruiser Bremen reached port to-day, and will remain here two weeks.

MAY REBATE ON PHONE RATES

Right to Charge Present Tolls Extended Till November 13, on Condition.

OTTAWA, Aug. 26.—The railway commission has decided to extend the present Bell Telephone rates to Nov. 13, the commission not having time to give judgment in the case.
The understanding is that the company will have to give rebates on unexpired contracts where the rates are lowered.
The order forbidding railway companies to use lignite coal has been extended to Oct. 1.
The order forbidding for watchmen at bridges and trestles will not take effect until next year, except at trestles 700 feet long.

KIDNAPPED HIS CHILD TELEGRAPHS TO SAY SO

Brockville the Scene of "Abduc- tion" of Girl From Mother's Custody.

BROCKVILLE, Aug. 26.—(Special.)—There was considerable excitement on the matter known to-day that Florence Stewart, a bright little girl of ten years, was missing from the home of her grandmother, Mrs. McCullen, widow of the late John McCullen, the well-known Canadian writer.
Suspicion pointed to kidnapping by the child's father and to-night Stewart telegraphed from Ogdensburg, New York, that he had the child.
Mrs. Stewart, who has two daughters, one of them Florence, has been spending the summer here, but when at home lives in New York City. She is separated from her husband, who resides in California.
The child went for the morning mail to-day as usual. She also had another errand to perform and Mrs. Stewart was not anxious concerning her until two hours or more had elapsed. A crying child from opposite the Brockville club-house, adjoining the post-office, about the time the girl was due at the latter place. He took them to the C. F. R. dock, where another man was found, who had taken the child away for Ogdensburg. The child was crying and resisting and the man was tugging her along by the hand. Stewart, who was driving in Rochester, and thinking Stewart had gone there the police were instructed by Mrs. Stewart to communicate with the authorities to locate him pending her arrival, she having taken the night train for that city.
There is some question whether the woman can regain possession, Stewart having a claim on this and the other child for ten months in the year, the mother being privileged to keep them for the remaining two.

Air Ship a Frail Craft Can't Carry Passengers

Even the Daring Operator Has Only a Three Inch Plank to Sit on— Downtown Trip To-day.

The pet airship creation of Inventor Knabenshue has reached the city. It is snugly tucked away under a tent just to the west of the manufacturers' building on the exhibition grounds, where it will be brought into readiness for its first ascent in Toronto, to take place at 5 o'clock this afternoon if the elements are propitious. For the trip is a skilled and experienced navigator, T. F. Jackson of New York, Mr. Robinson said he made his first flight on the machine at the opening of White City Park, Toledo, last May. Since that time he has taken many flights. On one of them, at Springfield, on July 13, he had the thrilling experience of falling about 400 feet, when from 1000 to 700 feet and the propeller swinging around, he was a rent in the gas bag, allowing the gas to escape. He kept his presence of mind, and, shutting off the engine, he clambered to the centre of the fragile framework, which does duty as a car. By teetering up and down he contrived to check the fall, so as to arrive on solid ground without injury.
The airship, when in motion, presents the aspect of a huge gas bag shaped like a cigar, with a skeleton of another beneath. There are 1500 yards of Japanese silk in the gas bag, which contains about 8000 cubic feet of gas. The framework measures 58 feet from tip to tip, inside measurement, and 15 feet in diameter. It weighs 108 pounds, including the engine, which is a model of compactness, weighing only 40 pounds, providing ten horse power and enabling the airship to travel in a dead calm, so its manipulator does not have to contend with a moderate breeze.
The airship works a pair of staves at the stern of the boat, which they whirl around with tremendous velocity. The operator sits astride what is practically a lath, about three inches wide, immediately behind the engine, which are towards the stern. In each hand he grips a rope connected with the flanges, which serve as a rudder and give direction to his craft.
The work of inflating the gas bag above the earth, it is stated that was begun last night. It is stated that the process takes 15 hours. T. F. Jackson of New York, Mr. Robinson's manager, wishes it clearly understood that no passengers can be taken on the trip.

ADVISOR TO FISHERMEN TO PREVENT FRICTION IN WORK AT DESERONTO

U.S. State Department Sends an Official to the Waters Around Newfoundland.

WASHINGTON, Aug. 26.—At the instance of the state department, Prof. Alexander of the American Fish Commission has been instructed to proceed to the fishing grounds and remain there during the season and act as advisor to the American fishermen, informing them of the exact extent of their rights on the fishing grounds, and counselling them against the exhibition of hasty temper and conduct that would be likely to lead to friction with the colonial authorities.
Prof. Alexander will leave Gloucester Sept. 1 on the United States revenue cutter Gresham.

RUMOR HAS IT THAT CASTLE AND ORPHANAGE WILL BE RENTED AS SUMMER HOTEL.

KINGSTON, Aug. 26.—(Special.)—Sweeping changes are about to be effected in the affairs of Foresters' Island, in the Bay of Quinte. The expenses of maintenance have been enormous for about forty orphanages, the treating alone costing \$5000 a year. The present changes will result in the transfer of the orphans to the house built for the late Dr. Oronhyatekha, and the castle and the orphanage will be rented for a summer hotel.
J. C. Morgan, the superintendent of the orphanage, will be given the post of organizer in addition to his present duties.

DRESSED HER LIKE QUEEN.

Brantford Man Duped by American Girl Who Took His Money.

LAPEER, Mich., Aug. 26.—HARRY Burlingame, who says he was at Brantford, Ont., came to Lapeer to marry a girl with whom he had corresponded for two years. Burlingame says instead he found a letter from the girl, stating that she had loved him and she had found another fellow and gone to Detroit to be married.
"I spent money on that girl and dressed her like a queen," said Burlingame. "It was my money that paid for her wedding outfit."

Hotel for Ottawa.

OTTAWA, Aug. 26.—(Special.)—The plans for the Grand Trunk Hotel in Major's Hill Park were finally approved by the government to-day and made public. The hotel, which is designed by Mr. Gilbert of New York, who is at present in the city, will occupy a most commanding situation.
Everything is in readiness for the opening of the Canadian National Exhibition to-day; at least, this is true so far as the management are concerned. The responsibility for those finishing touches that will give completeness to the ceremonial rests with the exhibitors.
"There is nothing more that we can do," was the well-satisfied comment of Manager Orr, when seen at the close of the afternoon, as he, with Directors George Gooderham, W. K. McNaught, W. K. George, and Architect Gounlock, was inspecting the seating accommodation in the magnificent new grand stand.
"We're in much better shape than we were at the same time last year," added Dr. Orr, as he swept an approving glance over the scene of busy activity within the enclosure.
Yesterday was a day for the Jisel and the saw. Of making booths, there was apparently no end, for the host concessionaires are more numerous by scores than ever before, even as are the exhibitors themselves. There was the hum and stir of activity in the manufacturers' building, while the bulk of the machinery had been installed in the process building.
Last evening a full dress rehearsal of the spectacle "The Siege of Badajoz" was enjoyed by an audience of some 8000 people, who saw the new grand stand. Everything went smoothly and those who are yet to see it can be given the assurance that it is the best yet. The military uniforms of the British and French armies of the days of Wellington and Napoleon are very faithfully reproduced, while the scenery is said to give a realistic idea of the famous Spanish city. There are about 700 soldiers and "sailors." During the action of the spectacle the military bands gave a tattoo, under the direction of Bandmaster Duss, rendering, in addition to well-known regimental marches, the "Maple Leaf" and "Rule Britannia" and "Evening Hymn." The night's audience showed great enthusiasm. With the addition of the fireworks to-night the scene will be a brilliant one.
New Building Opened.
The new agricultural and horticultural building, the handsomest structure on the grounds, so say the architectural critics, opened its hospitable doors to admit many a treasured product of field and garden, from the finest of the best of the horticulturists to the timid dewdrop and the modest violet.
Of course, it is not to be expected that everything will be in its place and the wheels revolving with absolute nicety and smoothness when Earl Grey will press the button at 5 o'clock this afternoon. It will remain for the next day or two at least to complete the picture, but splendid progress has already been made.
The new grand stand, with its 15,000 chairs and its sharp rise from tier to tier, that will enable the spectators to obtain a clear view of the picture, but splendid progress has already been made.
The Car Service.
Manager Foresters' Island, the street railway was a visitor at the administration building yesterday. He was more than wontedly genial and gave assurance.

CONDUCTOR FALLS OFF CAR MAY DIE FROM INJURIES

Fred Raven Has Fracture of Skull—An Aldermanic Trip to Buffalo.

HAMILTON, Aug. 26.—(Special).—Fred Raven, 117 Tisdale-street, a conductor, fell off his car on East Beaver-street this evening about 9 o'clock and was perhaps fatally injured. He was taken to the hospital suffering from a fracture of the skull and concussion of the brain. The doctors could not tell just how serious his condition is. He was collecting fares on an open car and fell off the running board.

The fire and water committee met this evening and discovered that it would be necessary for some of them to make a trip to Buffalo and other places to get pointers about electric waterworks pumps, as it is the intention to install new pumps at the Beach. Formal application will be made to the beach commissioners for permission to close up the roadway between the two filtering basins, so that a connection may be made between the two. The cost is estimated at \$200.

The Savoy Theatre opened for the season this evening. All the seats were sold and a good show was put on. There is promise of interesting rivalry between the Savoy and the new Regentville house, Bennett's Theatre.

Arthur Neil, North Ferguson-avenue, and a young companion came across a floater in the bay last night. They tried to drag it to the shore, but failed. It is supposed to be the body of William Court, drowned on Aug. 10.

The infant deserted in a shed on North James-street a few hours after it was born, died in the Infants' Home yesterday.

Mayor Stewart announced to-day that the cleaning of the filtering basin would be started by next Wednesday. Thomas Finnegan, 69 North John-street, was sent down for a month this morning for abusing his wife.

Miss McKenna, Chicago, has been appointed organist at St. Joseph's Church. Robert Merigold and A. A. Goetz have been summoned to police court by License Inspector Birrell, on charges of violating the License Act.

C. R. Smith, who has been in California for the past ten years, has returned to Hamilton and will make his home here again.

William Egan, employed at Webb's, was taken to the city hospital to-day with a broken leg.

MAY EXTEND TO PETROLEA.

Chatham and Lake Erie Road Will Go Farther North.

CHATHAM, Aug. 26.—With a view to looking over the ground that may be traversed by the C. W. & L. E., in a northern extension of the line from Petrolia to Petrolia, the President of the C. W. & L. E., Kipp, Charles Hadley, James Simon, D. A. Gordon, M.P.; George Fleider and some residents of Wallaceburg to-day made a trip to Petrolia.

It is likely that the line will be built shortly.

HANGED HIMSELF IN BARN.

Walter Whitelaw, Aged 30, Commits Suicide in Employer's Barn.

CALEDONIA, Aug. 26.—Walter Whitelaw, son of James Whitelaw, Seneca Township, employed by John Barrington, farmer, committed suicide by hanging in his employer's barn. The man was committed just before the noon-hour, and it is supposed, while in a state of temporary insanity. Deceased was about 30 years of age and unmarried.

ESCAPES DEATH BY JUMP.

A. McGregor's Horse Killed and Carriage Smashed by Express.

CHATHAM, Aug. 26.—While crossing the Michigan Central tracks, driving a team, a few miles south of this city, to-day, A. McGregor escaped death only by jumping, when he found that he could not cross in time to prevent a smash from a mile-a-minute express. His wagon was smashed to kindling, and a valuable horse killed outright.

Exhibition Visitors

will take notice that Col. Moran, the old veteran, is still at his stand, next Gourlay, Winter & Leeming's glass store, Yonge-street, where he has displayed his stock of hardware for the past ten years. He opens up this fair time with an extra stock, consisting of his wonderful giant cement, that is guaranteed to stand hot water and permanently mend the glassware or bric-a-brac. In addition to this he carries a large stock of shoe polishes, Half Time, Two in One, Nugget, etc. His useful kettle knobs are well-known and always in demand. You will find the colonel with the same old smile.

There is no change in the local telegraph situation. The G.N.W. are bringing in agents from outside points to enable them to handle the extra business during the exhibition. Miss Whilands of the Parkdale office is at the exhibition grounds with one of the chiefs. Meta have been brought in from Ottawa, Kingston, Ingersoll and Cannington.

\$30,000 LESS IN WARD THREE

Court of Revision Deals With Appeals Against Assessment.

The court of revision dealt with appeals against assessments in ward three yesterday.

Thomas Vance, potato dealer, succeeded in getting his business assessment reduced from \$225 to \$125.

Messrs. Henry Diston & Sons appealed against the assessment on their property, at 37 Lombard-street, and 110 and 112 East Adelaide-street. The rating of the Lombard-street property was raised from \$50 to \$80, and the Adelaide-street property was left at \$80, as last year.

The Purdy Mansell Company, Limited, property, at 25 and 27 Elizabeth-street, was assessed at \$100 per foot, an increase of \$40 per foot from last year. The company got a reduction to \$58 per foot.

John Kay & Co., Limited, were assessed \$480 on property at West Adelaide-street, which they occupied temporarily while their other premises were being enlarged. This was also struck off.

Purdy Mansell Company, Limited, got a reduction from \$23,000 to \$23,000 on their Albert-street property. The total reductions amounted to \$30,000.

G.T.R. TO SELL CIGARETS.

Will Monopolize the Trade on Board Their Trains.

MONTREAL, Aug. 26.—The Grand Trunk Railway has decided to go into cigar selling, and none but G.T.R. cigars will be sold on its trains hereafter.

They ordered on Saturday a supply of the finest Turkish.

Raffled a Cow.

Thomas Banks of 64 Jones-avenue appeared before Magistrate Denison yesterday on a charge of breach of the Lottery Act, and was remanded until Friday. Banks raffled a cow, the lucky winner being Joseph Matie, an Italian. When the latter called to get the animal Banks refused to hand her over, and Matie swore out an information against Banks, charging him with theft. The police laid a charge of breach of the Lottery Act.

The Remarkable Mrs. Eddy

Result of the Investigation by "Next Friends" Has But Added to Her Reputation.

"The most remarkable woman in the world" - the people may differ as to her teachings, character and influence upon the world, no one could be in doubt but that this sentence could only refer to Mrs. Mary Baker Eddy.

A woman of 38, she has just passed her fortieth birthday, and one that would seem to be almost intolerable to have a law suit brought ostensibly for her benefit, but in reality to destroy her life work, and, as an incident thereto, to be subjected to constant visits, examinations and the like with the avowed purpose of determining her mental condition, presents a remarkable case.

In the end it may be to the great advantage of Mrs. Eddy and her memory hereafter and to the church which she has founded, that the relations and the truth so ascertained as to dispel the rumors which have been spread, and that she was a prisoner in her own house, that she was robbed of her means by people who were fully understood to be masquerading as Mrs. Eddy.

"The interview was opened by her disavowal of any prejudice against physicians, and her statement that she was a regular doctor who had become a homeopath and that her father had been a fully understood to be masquerading as Mrs. Eddy.

"The will of Mrs. Helen Turner, sister of the late Sir Casimir Gzowski, who died in Folkestone, England, in January last, has been filed for probate here, and left an estate in Ontario worth \$170,000.

Those to whom the estate is left are: Bingham Alex. Turner, a son, \$16,829; Hotel Gzowski, a daughter, \$46,543; Charlotte Strader, a daughter, \$11,825; and Edith May Kiddell, another daughter, \$88,113.

one slow month; yet a month's payroll would make many a New York forerunner of the month's salary. They can't cut the force down appreciably, so they must create business to keep it busy.

The stores are satisfied with an exceedingly small margin of profit, and really give some wonderful values in furniture during the humid month.

The efforts expended on the great sale are in fact, the store decorations are elaborate with an idea to comfort and suggestive coolness, so that it becomes a relief to sit and time in the furniture department buying furniture that will really be needed later at prices far below what they will climb to several months later.

Then the advertising. The public must be awakened from their mid-summer lethargy—copy must be spontaneous, bright—with the true straightforward, frank—different. Oh, so decidedly different from what has been written during the past month.

First it must arouse the general interest, mould the mind of the general public to anticipate the sale for months ahead, and, in fact, the sale to the store. Then you are neither talking solely to women nor solely to men, you're talking to both sexes, and once.

The Toronto World CHILDREN'S HUMANE LEAGUE

The children are all invited to write to this page on any subject of interest to them. The letters will be published, and a prize souvenir pin will be awarded each week to the best letter printed during the week. This is quite separate from our fortnightly competition for the best letter from the little Leaguers. The subject for the competition closing August 31 is a "Vacation Letter," and may deal with anything the children have to say on their summer outings. It must be only two hundred words in length, plainly signed with name and address, and written on one side only of the paper. The prize is an enamel pin, with the letters "T. W. H. L."

I wish to become a member of The Toronto World Humane League.

SEND FOR THE VANDERBILTS. Toronto, and Ontario generally, will begin to come into their own when each of the big railways put their respective systems in this province under the administration of an executive officer located in Toronto, with the rank and powers of vice-president.

This constant reference of Ontario business to Montreal is poor policy for the company and worse for the public. Whichever road does it first will be the more certain to gain thereby.

The Canadian Pacific has Vice-President Whyte of Winnipeg in full charge from Thunder Bay west. The experiment has proved a great success. Next year the Sudbury branch will be completed and then Toronto will be on the main line of the Canadian Pacific—Montreal, Toronto, Sudbury, Westgate, Winnipeg, Vancouver. Indeed, it is more than likely that the chief transcontinental line of all North America will be New York, Niagara Falls, Toronto, Winnipeg and Vancouver—Montreal not even in it.

The ticket office of the Canadian Pacific at the corner of King and Yonge-streets, Toronto, takes in over a million dollars a year, more than any other office on the line.

What does E. B. Osler, M.P., think of this idea? He ought to be able to work it out.

Mr. Osler is said to be overcautious, but there is a story abroad that he is seriously meditating the erection of big executive offices in Toronto, with a vice-president in charge of the Grand Trunk's extensive mileage in Ontario.

The day that the New York Central is invited into Toronto and Ontario will make the Montreal gentlemen sit up. They may think that their treaty with the Vanderbilts will keep them out of Toronto, but they ought not to be too sure of that. Even William Mackenzie might link up with them. They'll bring two cents a mile with them when they come.

HIGH SCHOOL OVERCROWDING. It is to be hoped that the board of education will do the best it can under the circumstances for the pupils who are crowded out of the Harbord-Regent Collegiate Institute. It is regrettable that the pupils have to go to a separate building when they are seeking admission to the only high school in their neighborhood and are as much entitled to consideration as first form pupils of previous years. These entrants are as much a part of the Harbord Institute as if that building had room for them. They will be Harbord second form pupils next year, and, in fact, the life of the school in a year or two will depend upon the way these pupils are taught and directed this year. They should be under the supervision of Principal Hagarty, with such arrangements for their welfare as he may be able to make. A competent vice-head should be placed in charge to do some of the teaching and see that the work is properly carried on from hour to hour. Discipline outside of the classroom, as Principal Hagarty very sensibly recommends, should be in the hands of Principal Evans, whose school will be apt to be disturbed by the presence of an outside element. But inside of the classroom a competent high school director, subject to the general organization and movements of the Harbord staff, should have charge.

TORONTO AND ITS THEATRES. Toronto has the reputation of being a theatre-going city, and it cannot be denied that the attribution is well-deserved. To the present-day inheritors of Puritan traditions, the favor shown by the citizens towards the drama can scarcely be regarded as worthy of commendation, but the endeavor to erad-

cate one of the deepest instincts of human nature never warranted hopes of success, and has now become practically a negligible quantity. Even among those churches that have embodied the convictions of the stricter sectaries in their own regulations, the revolt against restrictive legislation of this kind, never wholly absent, has within recent years become more recurrent and insistent, and has now support in quarters which not so very long ago would have been anything rather than oscillatory. Thus in the current number of The Methodist Review, Bishop Edward G. Andrews of Brooklyn, N.Y., discussing the subject of the Methodist attitude towards amusements generally, admits the church's lack of scriptural authority for its disciplinary injunctions and doubts both the right and expediency of such prohibitions. His plea is for individual liberty. "In vain," he says, "in the long run will any church attempt to rule its members in matters on which the New Testament is silent."

Valuable as the Puritan revival has been in many important ways for the English-speaking peoples, its indiscriminate condemnation of popular amusements brought serious evils in its train. These are felt to this day, and their result has certainly been adverse to the continuance and development of the culture for the higher drama. Those who cater to the play spirit of mankind cannot be blamed if they provide what their patrons demand and prefer. They run their business frankly to make money, and for that purpose will just as readily stage a classic play as a musical comedy, or a melodrama, or a farcical extravaganza. And it says a good deal for the perseverance of the intellectual habit that an actor who really has an inborn faculty of interpretation, and who can present in noble guise the works that have already gained the assurance of immortality, is not left without even pecuniary reward.

But it must be admitted that to-day, more than ever before, the people that throng the theatres want amusement pure and simple and have their wishes met in abundant and varied measure.

The season which commenced in force yesterday will be a notable one in the theatrical history of Toronto. Yesterday the Royal Alexandra, admittedly one of the finest theatres on the continent, opened its doors. Another house is in course of construction, a third has been remodelled and greatly enlarged, and the older favorites will continue to invite public support. To-day our great national fair will be formally opened, and will for the next ten days be a prime centre of attraction for thousands on thousands of Canadian people and visitors from near and far. All this testifies to a widespread pursuit of pleasure, not in any invidious sense either. Theatre-going in Toronto has become a passion with a large proportion of its citizens, and they go because they enjoy it and have developed an appetite for it. The habit will grow, and it is all the more necessary that an effort should be made to utilize it to the best advantage. Deliberate attempts to raise the public standard usually end in failure, but if those who are attracted either by the presentation of the higher drama or by the delight attending polished and accomplished acting give rise to their inclinations as opportunity arises, there is no reason to doubt that their taste will receive due consideration from the providers of theatrical entertainments.

GROWTH OF CANADA'S INDUSTRIES. The government reports issued recently show that there are now 62 big manufacturing concerns in Canada transacting business of \$750,000,000 and upwards. Seven years ago there were only 24 industrial concerns transacting this volume of business in Canada.

OCEAN RATE WAR IS ON

FRENCH LINE MAKES CUT

Reduction of From \$20 to \$25 in Minimum First Cabin Rate to Europe.

NEW YORK, Aug. 26.—Announcement is made by the French line of a reduction of from \$20 to \$25 on its various ships in its minimum first cabin rate to Europe, to meet the sharp cut recently made by the Hamburg-American and North German Lloyd lines.

The reduction of the French Line rate was put into effect to-day, and when the news became known officials of the White Star Line said that their company would likely meet the reduction within a few days.

An official of one of the companies said that the present situation was caused by the inability of the companies to agree upon the rates for recently-built slow-going steamships.

Cunard Cuts. HAMBURG, Aug. 26.—The agent of the Cunard Line for Germany to-day formally announced a reduction of \$2.00 in second-class and steerage rates from Hamburg to New York via Liverpool, and also announced that the Cunard Line's bottom price for first cabin was \$22.50.

The Cunard Line has thus gone a step further than the German lines, by reducing its second-class and steerage rates, which is regarded as being equivalent to a rate war with the Mercantile Marine Company.

REDMOND QUILTS IN HUFF

TAKES IRISH FROM HOUSE

Declines to Take Further Part in Consideration of Evicted Tenants Bill.

LONDON, Aug. 26.—The chief secretary for Ireland, Mr. Birrell, announced in the house of commons this afternoon that the government was prepared to accept some, but not all the amendments of the house of lords to the Irish evicted tenants bill, whereupon John Redmond, chairman of the Irish Parliamentary Party, said he declined to take any further part in the discussion of the measure.

Mr. Redmond accused the government of failure to carry out its promises to the Irish people, and said the bill, as it now stood, provided for the compulsory removal of tenants who had taken farms from evicted persons, and, therefore, was a victory for Lord Clarendon, whose evicted tenants had for twenty years been waiting at the roadside for an opportunity to return to their homes, but who would not be able to do so under the bill as amended by the house of lords.

It was evident, continued Mr. Redmond, that the Irish must close their ranks and recommence a steady and unceasing agitation as the only means of securing proper land legislation.

The Irish Nationalists, then, left the house in a body, and another committee of the house of commons was appointed to confer with the house of lords to see what could be saved of the mutilated measure.

WORKED SMOOTH GAME. Two Men Charged With Victimizing Orangeville Banks.

ORANGEVILLE, Aug. 26.—(Special.)—George J. McDonald, a supposed deserter from Stanley Barracks, and Thomas Giles, were charged in the police court to-day with discounting notes of no value, representing themselves as prosperous farmers.

Giles appears to have signed his own name. His knowledge of writing is confined to making his own signature, but McDonald seems not to have been so particular for he is alleged to have signed several names.

Both pleaded not guilty, and the evidence disclosed a pretty smooth game which has been worked on the various bank managers, and the cash was handed over in every case. Banker Charles Mason of Shelburne was touched up three times.

Both prisoners were remanded to jail.

Lake of Bays. A district which has come rapidly to the forefront as a tourist resort is the Lake of Bays region, with headquarters at Huntsville. The scenery of this region is distinguished for its beauty, with an absence of the rugged aspect of many parts of Northern Ontario. There is a pleasing contrast of dense wooded growth, picked out with the mosaic-colored cultivated farm lands with their varying green and gold tints and shades of growing crops and chocolate-colored fallow, where the land has been recently cleared and transformed from trowning forest to fertile field. There is an absence of malaria and hay fever here. The 11.45 a.m. Grand Trunk Express connects at Huntsville with the steamer for all points throughout the lake, arriving at any destination the same day. Full information and tickets may be obtained at city office, northwest corner King and Yonge-streets.

Watchman at Danger Spot. City Engineer Rust has received a communication from Superintendent Gillen of the Grand Trunk Railway regarding the danger spot at the foot of Spadina avenue, that it would be impossible here to place a watchman at that point to apprise people of the danger.

Single Fare for Labor Day. On Aug. 31st, Sept. 1st and 2nd, the Grand Trunk will issue round trip tickets at single fare, good returning on any day to all points on Muskoka Lakes. Tickets and full information may be obtained at Grand Trunk city office, northwest corner King and Yonge-streets.

Fraternity Men Meet. CHICAGO, Aug. 26.—Fraternity men from forty states in the union, from France, Canada, Mexico and the Philippine Islands are gathering in Chicago for the 20th biennial Kappa of Delta Tau Delta Fraternity, which began to-day, and will continue until Friday morning.

Political Intelligence

The Winnipeg Tribune (Ind.) in reviewing the Halifax platform, as quoted in part in this column yesterday, promised to submit a platform of its own for the consideration of the people of Canada. It is now announced, as follows:

Mr. R. L. Borden's so-called platform, which he outlined at Halifax the other night, is little better than a joke. It provides for nothing tangible, says nothing that has not been said in one form or another by political parties for years, and as it at present stands, means nothing.

The people naturally look to a party in opposition as the party of reform, progress and advanced ideas.

To Mr. Borden's opening speech of his transcontinental tour they looked forward with hope and the expectation of something radical, comprehensive and definite.

Their hopes have been disappointed—they have had presented to them a platform that is vague, rambling, and so full of loop-holes that it is worthless, a mere bundle of generalities and platitudes.

Canada is a young, vigorous and naturally progressive country. It has the example of Europe, and the young colonies of Australia and New Zealand before it—examples that prove the inestimable advantage of the great principle of public ownership and the vital importance of preserving to the people the public domain and the fullest control of legislation—examples that the Canadian people would gladly follow, if they had a political leader who would give them the opportunity.

It is The Tribune's belief that Canada is ready for an advanced political policy. It is The Tribune's belief that the country NEEDS such a policy. For these reasons, the following outline of a modern platform is presented for the consideration of the people—a platform that is tangible and unmistakable in its meaning—a platform such as many who retained their faith in the leader of the opposition hoped that Mr. Borden would outline at Halifax, when he made his weak, rambling and non-committal confession of faith:

1st.—A declaration in favor of the principle of public ownership of all utilities which, by their nature, are natural monopolies, such as railways, telegraphs, telephones, etc.; the ownership and operation by the public (preferably by an independent commission, as in some of the Australasian states, to obviate the possibility of political interference) of at least one transcontinental railway from the Atlantic to the Pacific. This would ensure the regulation of rates and force them on all lines to a basis in which the payment of operating expenses, plus the interest on cost, would only be considered. In this scheme the Intercolonial could be utilized. The western extension could be secured either by the expropriation or acquisition of one of the existing or proposed lines, or by independent construction. A threat of the latter expedient would readily influence one of the companies to sell.

2nd.—The re-possession by, and the restitution to, the people of Canada of the great tracts of public lands, coal and mineral lands and timber lands now held by corporations, political and other exploiters, and which were in many, if not in most cases, alienated from the people without their consent, and against their wishes, by questionable and corrupt methods. The great coal deposits of the Rockies and the foothills, especially, should be restored to the people, developed and operated in their interest, in order that the boon of cheap fuel, an absolute necessity of the western settler, may be guaranteed to him for all time.

3rd.—The adoption of the principle of the initiative and referendum in order to provide, in the event of a corrupt government attaining power, an absolute check by the people upon any legislation that carries the earmarks of suspicion, or appears to be inimical to the interests of the people. The experience of nations and states where the principle has been tested has been eminently satisfactory.

4th.—The abolition of the senate. If such action appears too radical for conservative minds, then the amendment of the constitution of that body, so as to bring it into harmony with, and give it some semblance to, a really representative body. As at present constituted, it is a political and legislative excrescence, which must be either abolished or reformed.

5th.—The establishment of a system of government insurance, which will guarantee to the people the desirable protection to the family at actual cost.

6th.—The loaning to the settler what money he requires to develop and improve his land, at 3 or 4 per cent, or at such rates as the government can secure the money, plus the cost of handling.

7th.—Compulsory arbitration, which will eliminate strikes.

8th.—The relegation of the work of preparing the voters' lists to the municipal authorities, with proper judicial safeguards; and the administration of the electoral machinery under the direction of the sheriffs and high court officials.

9th.—Compulsory voting.

10th.—The placing of the civil service under the management and control of an independent commission, so as to eliminate political influence and secure promotion for proficiency.

11th.—Such action by the federal parliament as will result in all railway subsidy lands bearing their share of the heavy burdens of taxation. They are enhanced in value by virtue of the development of the country, and should share in the taxation.

The Montreal Star (Ind. Con.) does not think that the telegraph and telephone plank amounts to much. It complains that this plank is "so well hedged about with 'ifs' and 'ands' that no one is likely to get nervous about it; and adds:

"No one expects that Mr. Borden's platform will cause any wholesale selling of telegraph and telephone stocks. The fact is that Mr. Borden's platform was pretty well utilized before the people were exposed to it."

There is a widespread impression among newspaper men that the above and similar toned articles now appearing in The Montreal Star and pretend-fair criticism of Mr. Borden, or at best full of cold-blooded candor, are so prepared to mystify the public as to the real political whereabouts of the man who has just been elected. The Star is at heart wrapped up in Mr. Borden's success; but it has at last been so convinced of the deadly effect of its support of any politician or political program that it has decided to veil its friendship with cheap criticism like the above. The Star was the chief wreck-er of Conservative chances in the elections of 1896, 1900 and 1904.

The Quebec Chronicle (Con.) is apparently well pleased that the leader goes no further in support of the general doctrine of public ownership. After commenting upon the generally fair criticism of the Halifax platform and speech by the press of Canada, Conservative and Liberal alike, it says:

"The principal objection is The Toronto Globe, which finds fault with Mr. Borden for not having raised more, and for having shown himself singularly cautious and prudent in formulating his policy. It would like to have seen him forthrightly and to advocate the public ownership and operation of railways, and is considerably disappointed that he has not done so."

What, says our confrere, will chiefly attract attention in Mr. Borden's speech are its omissions. With the exception of the nationalization of the telephone and telegraph systems there is not a hint where Mr. Maclean's program is concerned. At one time there was an announcement that the leader of the opposition was prepared to go so far as the public ownership and operation of railways. It is difficult to catch a whisper of so bold

EATON'S DAILY STORE NEWS

THE MOST UP-TO-DATE SHOE FACTORY IN CANADA

MAKING EATONIA SHOES

AT THE EXPOSITION.

There has been great progress made in the manufacture of fine shoes during the past two years, but no shoe has kept more thoroughly abreast with the advancement than the EATONIA. It is with much pleasure we announce that, through the courtesy of our good friends, the United Shoe Machinery Co. of Canada, we are enabled to demonstrate every detail of the famous Goodyear method employed in making them.

In the PROCESS BUILDING at the Exposition will be found a long line of machines in full operation, making EATONIA Shoes. They represent the most advanced ideas in shoe manufacturing. Several of the machines have never been exhibited in Canada before, so that even those who are familiar with the Goodyear method of manufacturing shoes, will find much to interest them. Every detail of the Process is shown, and we most cordially invite everybody to inspect the exhibit and also ask the operators or those in charge any questions they desire. They will gladly explain.

Eatonia Shoes for men or women, \$3.00.

Liberalism of Pletou, N. S., will hold place at Barney's River on Wednesday and at River John on Friday. The speakers will be Dr. Beland, M.P., Alex. Johnston, M.P., and perhaps F. F. Fardoe, M.P.

Will he go forward or back? It is said that J. C. Walsh, managing editor of The Montreal Herald, will stand as the government candidate against Mr. Brabazon, M.P., in Fontaine, Quebec, on Friday. The clever writer, an educated, gentleman and rather exquisite in manners and dress. Just what success he will achieve against so good a mixer and so experienced a campaigner as Mr. Brabazon remains to be seen.

If the insurance men of Canada heed the advice of E. E. Rittenhouse, deputy commissioner of insurance for Colorado, another element of non-partisan activity may figure in the next elections, even tho' it may not appear to be dictated solely by a regard for the public interest. In his address to the National Association of Underwriters assembled in convention this week at Toronto, he said: "The best place to have a lobby level on the

DOUBLE SOMERSAULT

Sensational Attraction Which Will Be Provided at Scarborough Beach This Week

The leading free attraction at Scarborough Beach this week will be that of the double somersault in an automobile.

The feat will be made by Mlle. Paulette Bergerat, who arrived last evening from Montreal, where her "trick" proved one of the most fascinating and thrilling attractions that have ever been put before the summer pleasure seeking public.

Mlle. Bergerat is a charming young Frenchwoman, former lion tamer, a woman without fear and with a daring rarely witnessed in her present act.

In the auto act, which might be called automobile-steeplechase, she drives an 800-pound machine down a sharp incline, terminating in a short upward curve, which projects the car into space in such a manner as to cause it to turn completely over twice in the air, striking a platform and then coming to a standstill.

The greatest danger to the daring young woman in the performance of the feat is when the car has completed its double revolution and she strikes the platform for the last descent.

Should the car strike all the wheels, the driver would be smashed to bits and the driver probably killed, or, at any rate, maimed for life.

The car strikes the platform with fearful violence. There are 800 pounds hurled thru space toward this obstruction, and when the machine has started the car is running 30 miles an hour. This impact is equal to thousands of foot pounds and sometimes wheels have been crushed.

Among other attractions at the beach this week will be the boxing stalls, which also appear every afternoon and evening.

The society of Mlle. Etolite's troupe of horses is also deserving of great credit. These free exhibitions, together with the regular attractions at this popular resort, promise to draw thousands during exhibition week at Toronto.

ARE HERE JUST IN TIME

The newest ideas to be procured are at Dineen's.

By fast express from Paris and London some of the nice things to be shown at Dineen's during the exhibition have just arrived. In time and to-day they will be in place to be admired.

Dineen's big store is an ideal establishment in which to show goods to their best advantage and give the prospective purchaser the best of an article's value. Its central position at Yonge and Temperance-sts. makes it easily accessible that there is no excuse for the visitor or the host or hostess for missing it. The display includes all that is now in men's hats, and as to the newest niceties in millinery—well, the ladies should simply see. All are invited. The ladies will also be interested in the display of cloaks and, and particularly in the new fall and winter furs, of which there is no finer assortment, variety and quality on the American continent anywhere.

The August sale of furs continues. Until the end of the week there is a 25 per cent. discount on furs purchased and the garments will be stored in Dineen's vaults until wanted. Don't miss Dineen's.

Was the Money Stolen?

J. Hynes, agent of the Toronto News Co. at the Yonge-street Wharf, reported the theft of \$100 to the police yesterday. He says that between 7 and 10 o'clock the money was taken by someone who had a key to the office room. The news stand, at this he decided because the door was locked and everything in order, save that the money was gone.

ance that the street railway service to and from the grounds would be 20 per cent. better than last year.

Those who have been specially invited as guests of the directors to-day, besides Earl Grey, are: Lt.-Gov. Sir Mortimer Clark; Sir William Mulock, Chief Justice Falconbridge; Col. G. S. Denison, Col. Septimus Denison, Sir John Boyd, Sir William Meredith, Archbishop Sweatman, Archbishop O'Connor, Mr. C. C. Steele, president of the board of trade; Mr. Henry Cockshutt, Brantford, president Canadian Manufacturers' Association; Mayor Stewart of Hamilton sent the directors.

The fremen on duty this year are under the command of Capt. W. J. Smith of hook and ladder 1, Lombard-street. The hose company is made up of Herb. Oliver (aerial 1), Dick Birrell (hose 7), and Tom Boyes (hose 19), who comprise the team of bay horses, which are the pride of hose 3 (Yonge-street). The chemical company, under Capt. James (Yonge-street), include: Walter and Jack McQueen, from Yonge-street station, and Arthur Lucas and the beautiful team from Chalmers.

The fire protection is an important feature, and strict orders have been issued by Manager Orr to exhibitors against the use of inflammable material in the buildings that there has been talk of putting a permanent fire company on the grounds of the exhibition season is also spoken of as desirable.

In any event, there is need of a modern police and fire station in the grounds, the accommodation for the men and horses not being of the best from a sanitary point of view, and from that of comfort and convenience.

BEAUTY IN A PIANO

An Exhibit That Will Attract Wide Attention.

There will be much in the exhibit of Heintzman & Co. at the Canadian National Exhibition to enlist the interest of visitors. General principles of piano-making, a high-class piano, will account. But the exhibit, as it stands to-day, is the immediate source of interest and attraction. There one will see a display of parlor grands, baby grands, miniature grands and uprights, that in richness of construction and in the design, will make Canadians proud indeed of the manufacturers of their country. "Made in Canada," with the old house of Heintzman & Co., is a large making.

AUTO SCENIC DIPS

As usual, the T. M. Harton Company of Pittsburgh, Pa., are to the fore with their amusement, auto scenic dips. This firm is one of the largest designers of various forms of amusements in the world, carrying out their business not only in the United States, but also in Canada and the British Isles. It is their intention to make another bold bid for popularity at the exhibition, and that object in view, have put up a new form of scenic railway called "The Auto Scenic Dips." This is the latest and most original of the auto scenic dips to the exhibition who are in search of a new form of sensation should take the dip. This is the latest and most original of the auto scenic dips to the exhibition who are in search of a new form of sensation should take the dip.

The cars are hauled up to the immense height of 65 feet before being despatched on their journey. Four tunnels and three crevices, through which they have to be traversed before the cars come to a final standstill, and the tremendous speed at which they travel, make the ride a most thrilling one. A very fine view of the lake and surrounding neighborhood is to be seen from the cars, and it is only for that reason the trip is well worth the price charged.

Ferrie Wheel

The Ferris Wheel, also owned by the T. M. Harton Company. A delightful amusement can be obtained for the modest sum of Adults 10 cents; children, 5 cents. The Ferris wheel is a most popular amusement, and it is only for that reason the trip is well worth the price charged.

BIRD'S DINING HALL

STYLISH SILK DRESSES

SPECIAL \$15.00

This is a line that will certainly interest out-of-town visitors to the fair, as well as our regular Toronto customers. The dresses are all carefully made, some in the very latest advance fall styles, others in the popular jumper effects, shirt-waist styles, etc. The silks are, of course, the best, and imported by ourselves direct from the manufacturers. We are enabled to offer them to you at this very low figure, for, if imported in the regular way, the styles would not be as good and the dresses would not be made with the same care as when made in our workrooms by expert hands and under our own direct supervision; and more than that, and the most important reason for our customers, the price would be at least 1-3 more.

The dresses are made in the latest advance fall styles, of checked silk, in black and white; also some in green and white, blue and white, pink and white, brown and white; all handsomely trimmed with lace collars and cuffs. On special sale in our Cloak and Suit Department. 15.00

LEATHER SUIT CASE \$5.00

This is an extra special value, and just at the season of the year when perhaps it is most needed. They are made of a good, soft leather that will withstand a lot of hard usage that these cases usually get. The regular price is \$7 and \$8. Tuesday, each \$5.00

WEDNESDAY, SEPTEMBER 3

Class 190—For trotting stallions, not less than 5 years of age, that have covered at least 15 miles during the season of 1907, route bill and list to be certified by owner and presented to Judges when called to exhibit if demanded. Purse \$200.

FRANCE REGARDS MULAI AS PRETENDER TO THRONE

Altho His Power is Growing, He Must Still Be Classed as Revolutionist.

PARIS, Aug. 26.—France's attitude toward Mulai Hafis, the sultan's brother, who recently was proclaimed sultan, is one of complete non-recognition of his authority as sultan.

It is officially pointed out that, altho Mulai's power seems to be growing in the south, the people in the north appear to be loyal to the reigning sultan, and until decisive events demonstrate that Mulai is actually the choice of the people, France is forced to regard him as a pretender and revolutionist.

It is officially stated that the most cordial exchanges of views occurred between Ambassador Cambon and Chancellor Von Buelow on the subject of Morocco, and that Germany appreciates the difficulty of France's position.

The Echo de Paris to-day published a despatch from Berlin declaring that the impression caused there by the interview between Ambassador Cambon and Chancellor Von Buelow, and between Premier Clemenceau and King Edward is "that the peace of Europe is solidified."

Germany Satisfied. BERLIN, Aug. 26.—Ruler Cambon, the French ambassador to Germany, returned here to-day from Northern Germany, where he visited King Edward and Chancellor Von Buelow.

Possibly the most interesting subject to the French Government at present was the Moroccan situation, upon which the chancellor talked freely, repeating and elaborating Germany's willingness to place difficulties in her way, or hinder the French work of restoring order and securing the future safety of Europeans in Morocco.

Ask for Spanish Warships. TANGIER, Aug. 26.—The Spanish colony here has voted to petition Spain to send additional warships to Tangier, on the ground that Spanish citizens have not sufficient protection.

ACCIDENTAL DEATH. But Jury Makes Suggestion as to Running Elevators.

That Thomas Davidson's death was accidental was the verdict of the coroner's jury, who enquired into the death of the young Scotchman, who was decapitated by a counter weight while cleaning an elevator shaft in the Traders' Bank Building on Saturday.

The jury recommended that in the future while doing such work the adjoining elevators should not be run.

It is thought, from evidence given, that the deceased, from curiosity, leaned too far over from where he was cleaning and was struck by a descending weight of another elevator.

DRAGO MAKES HIT. South American Wins Honors at The Hague.

THE HAGUE, Aug. 26.—The American proposition concerning the collection of contractual debts is now ready for submission to the examination committee of the peace conference.

Gen. Horace Porter having introduced the desired changes, especially those recommended by the Latin-American states.

Dr. Luis Drago (Argentina) is receiving congratulations on the proposition, for it is believed that it will more closely resemble the Drago doctrine.

RAIN SAVES VILLAGE. Residents of Parham Fight Bush Fires Forty-Eight Hours.

KINGSTON, Aug. 26.—A much-longed-for rain fell on Saturday and stayed the bush fires raging about Parham, and gave the residents a breathing space after 48 hours of constant watchfulness and fighting of the flames.

The fires kept creeping toward the village, and barns and buildings were constantly in danger, but heroic work kept the fire back.

Grafting in Arsenal. NAPLES, Aug. 26.—Thirty officials of the Castellammare arsenal have been arrested as the result of the discovery of extensive embezzlements alleged to have been made in collusion with contractors for supplies of materials.

ARTIFICIAL EYES. Special Announcement by CHAS. POTTER OPTICIAN

85 Yonge St., Toronto.

On Friday and Saturday next, the 30th and 31st instant, a skilled maker of artificial eyes will be in attendance here, ready to make artificial eyes to order on these premises. Wearing of artificial eyes, particularly those who have had difficulty in getting satisfaction, are specially invited to pay a visit to this house on either of the days mentioned with the view of securing an exact fit.

Appointments will, as far as possible, be made with those proposing to take advantage of this opportunity. Correspondence solicited. A large stock of artificial eyes is kept by this house—both full back and shell models—and accessories are sent on approval to responsible parties. CHAS. POTTER, 85 Yonge Street, - Toronto.

30 MORE TO FACE COURT FOR DARKENING THE SKY

Prosecution of King Edward Hotel for Breach of Smoke Bylaw to Involve Others.

In the police court yesterday afternoon Manager Bailey of the King Edward Hotel appeared before Magistrate Kingsford to answer to the charge of breaking the bylaw providing for the repression of the smoke nuisance.

Solicitor T. P. Galt, who appeared for defendant, pleaded that there had been no intentional breach of the bylaw, inasmuch as every precaution had been taken to prevent an undue emission of smoke from the chimneys of the hotel.

To do otherwise, he argued, would be as detrimental to defendant as to the other citizens. The hotel company had plans prepared for the erection of a large chimney which would make possible a total observance of the law, and asked that six months be allowed for this to be built and the law-abiding intentions of his clients amply proven.

Ascertaining from the prosecution, represented by Assistant City Solicitor W. Johnson, that this was a test case preliminary to proceeding against 30 or more others who were to be charged with the same offence, Magistrate Kingsford abruptly adjourned the case until the 30th, instructing Mr. Johnson to have all the cases ready for trial together on that date.

TURKS KILL PRISONERS SLAUGHTER INNOCENTS

Many Women Carried Off, a Church Defiled and Grain and Property Destroyed.

TEHERAN, Aug. 26.—General Samson Dowth and other Persian officers, according to reports received here, have been killed by the invading Turks, after having been taken prisoners.

Many inoffensive villagers, including women and children, have been slaughtered, a number of women have been carried off, a church has been defiled and much grain and other property has been taken or destroyed.

Turkish regular troops, with artillery, were within four miles of Urumiah, Aug. 15. There are no signs of the withdrawal of Turks from Persian territory.

Another report says that the Turks have occupied Merivan, in Persian Kurdistan, late Sunday. In a telegram asking for help the clergy and inhabitants of Merivan add that the withdrawal of Government troops, unless the people must beg Russia for assistance.

ALL AMERICAN. Joseph Choate Working for Plan of New Allotment.

THE HAGUE, Aug. 26.—Joseph H. Choate is working on a new plan for the allotment of judges for the international high court of justice under which the representatives of the United States and those of all the Latin-American countries will form one group.

This plan, it is believed, will dissipate any feeling arising from the previous proposed allotment.

This union of the whole American continent, adherents of twenty-one countries. Adding to these countries Germany, Australia, France, Great Britain, Italy, Japan and Russia, which are also favorable to the proposition, this would give the court the adhesion of two-thirds of the countries of the world, with the exception of other countries whose support is most likely, such as the Netherlands, Spain, Turkey and Switzerland.

GODERICH BRANCH OPENED. Whole Town Witnesses Departure of First Train.

GODERICH, Aug. 26.—The opening of the railway service on the Guelph and Goderich branch of the C. P. R. took place this morning.

The whole town was en fete and the station platform and river banks crowded with citizens as the first train glided around the high banks of the Maitland, Goderich's "scenic route."

The conductor in charge of the train was Peter McDonald, and the engineer Hugh Davidson. A large number of passengers left for Toronto and Montreal on the first train.

Sept. 12 will be a fete day at Guelph and Goderich, to celebrate the construction and opening of the line.

ART AND COMMERCIAL SPECIALISTS. Below is given the list of successful candidates at the recent examination for specialist standing as teachers of art and commercial work.

Fast Time to Parry Sound. People used to the old-fashioned ways of getting to Parry Sound cannot realize how quickly it is done by the Canadian Northern "Lake Shore Express," leaving at 10 a.m. and arriving at Parry Sound at 3, after a comfortable dinner on the train; in fact, the beautiful run through Muskoka, seen from the observation cars, seems all too short. Remember, three trains a day to Parry Sound; no vexatious changes.

WHILE SAM NEGOTIATES JAPAN BUYS TORPEDOES

Little Island Empire Gets Output of Most Improved Explosive on Market.

NEW YORK, Aug. 26.—While the United States has been secretly negotiating with the Whitehead Torpedo Co. of England for the purchase of fifty of the newest and most approved English torpedoes, Japan has stepped in and bought 1000 of the weapons at an expense of \$5,000,000.

The torpedoes were purchased by the Japanese at \$5000 each immediately after the first negotiations of the United States Government.

It is believed the enormous purchase by the Japanese torpedoes from the market, and that in case the U. S. Government wishes to lay in an additional supply, it will have to wait some time for the torpedoes to be delivered. The new Whiteheads are declared the most improved torpedoes now manufactured for naval warfare. They are guaranteed to go four thousand yards, while the best torpedoes in the United States navy can only cover 2500 yards.

HANG MURDERER TO TREE. Twenty Men Take Morris Higgins From Sheriff.

OMAHA, Neb., Aug. 26.—Morris Higgins, who murdered W. L. Copeland and wife, near Rosalie, Neb., May 12, was lynched at Bancroft to-day. Twenty men took Higgins from the sheriff, hauled him off in a drag and hung him by a tree.

When the sheriff left for Omaha Sunday he was accosted by citizens at Bancroft, who asked him what he would do if they should attempt to lynch Higgins.

"Shoot the first man who tries it," he said.

"Well, we just wanted to know chances are you will have some shooting to do."

SUSPENDED FOR FIVE YEARS. Shoemakers' Punishment on Craftsman Convicted of Wrong-Doing.

Meas. Hickey and Murray, the two Brockton (Mass.) men convicted by their fellow-delegates in open convention of corruption and fraud in connection with the election of officers of the International Union of Foot and Shoe Workers, were sentenced at the Labor Temple yesterday to deprivation of the privilege of holding office in the international union for a period of five years.

Several delegates advocated their expulsion from the union, but on a vote being taken, the recommendation of the committee for a five years' suspension, was carried by 187 to 107.

The cases against Edmunds and Donovan were postponed for further consideration, but it is anticipated they will be expedited.

The rest of the day was devoted to discussing motions for amending the constitution, first by the elimination of the clause that prevents the possibility of any readjustment of wages during the life of a contract. The majority voted in favor of this amendment from its most objectionable.

It curtailed the principle of arbitration and left the employees entirely at the mercy of the bosses, who, they introduced new labor-saving machinery or other devices, could snap their fingers at the employees. So it was decided that the clause should be remedied forthwith.

NERVES IN ORDER. NERVES UNSTRUNG. This is a nerve-racking age—not a man in an office or behind the counter, striving hard to get on in the world, that does not feel the strain.

If nerves are in order, a man is strong, eats and sleeps well. Unstrung nerves mean weakness, worry, sleeplessness and a general decay of bodily strength, inability to do good work, or to do it long.

Most men are careless of their health, instead of taking Ferreroze for a few weeks when they feel dull in the morning, sleep poorly or lose appetite. Ferreroze quickly brightens up the mind. It creates an appetite and improves digestion. Ferreroze makes the blood, quiets the nerves, makes muscle like steel, and induces refreshing sleep.

Ferreroze is a body builder, thousands have proved it. If you are sick or only out of sorts, use Ferreroze and you will find it a splendid reward it affords. Permanent in its results, the greatest health-giver in the world.

WELLMAN'S BALLOON TRIP TO POLE MAY BE DEFERRED

Tourists Saw Explorer at Spitzbergen and He Was Not Ready to Fly.

LONDON, Aug. 26.—The Hammerfest correspondent of The Daily Mail says that Walter Wellman did not start from his camp at Spitzbergen for the North Pole in his airship on Aug. 23 as he hoped to do. The last two-tour steamer of the year arrived at the camp at Virgo Bay on Aug. 20. They saw the balloon high in the air, confined by anchor ropes.

Mr. Wellman said he was unable to start as the breeze was wrong. He could not start in a southeast wind. The tourists banqueted Mr. Wellman and his companions. Mr. Wellman said to them:

"If I am lucky you will hear from me and the North Pole in a week. I am leaving in a fortnight. If you do not hear from me in three weeks you will never hear from me."

The steamer left twenty-four hours later. It was then remarked that the balloon seemed gradually being deflated. They passed Virgo Bay for the last time, and then started. The weather was calm and bright. The passengers doubt if Mr. Wellman will or can start this year.

ONE KILLED SIX HURT IN HEAD-ON COLLISION

Freight Trains Smash in Ohio—Twenty Hurt in a Derailment.

PORTSMOUTH, Ohio, Aug. 26.—Conductor Robert Gilmore of this city, and Engineer J. C. Purdy of Toledo, Ohio, were instantly killed and six or more trainmen seriously injured in a head-on collision between two Norfolk and Western freight trains near Beardsley today. A relief train bearing physicians and medical supplies was rushed to the scene here.

REQUEST DOMINION POLICE TO PROBE ITALIAN BANK TO COL. SHERWOOD MAY TAKE HAND IN INVESTIGATION OF CERTAIN INSTITUTIONS HERE.

It is said on authority that the Dominion police under Col. Sherwood will investigate several so-called banks which are operating in Toronto on the same scheme as the affair of the defunct Banco Giannetti.

The matter has been brought before the provincial authorities, but it is claimed that the department does not prosecute alleged offenders under the Banking Act, such being under the care of the federal government.

It is hinted in certain quarters that another smash may happen any day now with an institution which does a large business in "little Italy." The cheque forms and bank books used by these operators are similar to those used by the Giannetti people, even so far as to use the word "banco" on prospectuses, books, etc.

OTTAWA, Aug. 26.—(Special.)—When H. T. Ross, acting deputy minister of finance, was asked about the position of the federal authorities in the Italian banking trouble, he said the ability of prosecuting offenders belonged to the attorney-general of the province. Mr. Ross confirmed the statement that the use of the word "bank" in such a business was illegal.

If the finance department had become aware of the Banco Giannetti affair, it would have investigated. There are several instances in which the department at Ottawa has notified persons under similar circumstances, but the offenders always desisted without delay. If the practices had been continued in any of these cases the only step would be to notify the attorney-general of the province, because in all cases it is the duty of the province to administer justice. In the recent counterfeiting cases the finance department assisted the province, but could not take the initiative of prosecution.

BLONDIN STILL ALIVE. Man Who Walked Rope Across Niagara Hard Up in Old Age.

WATERBURY, Conn., Aug. 26.—Charles Blondin, the once famous tight wire walker, who made the perilous trip across Niagara Falls, is said to be living the life of a hermit in west Cheshire, the rumor had it that he died ten years ago in London.

Blondin, who is working as a carpenter on odd jobs, and going under the name of Michael Todd, is said to have been recognized by an old circus performer named Abe Totten. Blondin, when found by his old comrade, said: "Yes, I know they think me dead, and perhaps I had better be dead. I made money fast and spent it faster in the maddening pleasures of life, and I certainly have felt the need and the of it."

BLONDIN STILL ALIVE. Man Who Walked Rope Across Niagara Hard Up in Old Age.

WATERBURY, Conn., Aug. 26.—Charles Blondin, the once famous tight wire walker, who made the perilous trip across Niagara Falls, is said to be living the life of a hermit in west Cheshire, the rumor had it that he died ten years ago in London.

Blondin, who is working as a carpenter on odd jobs, and going under the name of Michael Todd, is said to have been recognized by an old circus performer named Abe Totten. Blondin, when found by his old comrade, said: "Yes, I know they think me dead, and perhaps I had better be dead. I made money fast and spent it faster in the maddening pleasures of life, and I certainly have felt the need and the of it."

AMUSEMENTS AND THEATRES PROVIDED AT SIX CITY THEATRES THIS WEEK

The Royal Alexandra Has Brilliant Premiere

Magnificent Audience Sees Curtain Rise For First Time in New Playhouse - Spectacular Musical Extravaganza Provides Great Entertainment.

Book by Mark E. Swan, Lyrics by Jas. O'Dea. Music by Manuel Klein and Anna Caldwell. Staged by Frank Smithson. Dances by William Rock.

There was a buzz and hum of curiosity and excitement around and about the Royal Alexandra Theatre last night, where many of the beauty and chivalry of the city gathered to witness and share in its inauguration.

But all the earlier features paled before the more clamorous glory of the auditorium. Broader and shallower than usual, it presented a bright, yet harmonious appearance. Its bordering panels of quarter-cut oak and walls lined with pale yellow silk formed an artistic background for the elegant and many-colored toilettes of the ladies.

For this eventful night the manager secured a new Shubert production, presented in Toronto for the first time on any stage.

THE ROYAL ALEXANDRA—View of the newest of the city's theatres. It is situated on West King-street, opposite Government House. In its interior arrangements and decorations, it is the most complete and beautiful of any playhouse in Canada.

LEO DITTRICHSTEIN'S CLEVER COMEDY TICKLES 1ST-NIGHT PRINCESS AUDIENCE

One of the Most Amusing of Plays and Presented by a Capital Company to Well-Deserved Plaudits.

Col. Larivette, Mr. Edouard Durand, James Jeffrey, Mr. Aubrey Beattie, Edgar, Driscoll, Mr. John Arthur, Anthony, Mr. James Du Sang, Cassius, Mr. G. M. Beldon, Mrs. Page, Miss Kenyon Bishop, Cora Belle, Miss Nellie Butler, Odette De Vere, Miss Mabel Findlay, A Shop Girl, Miss Anna Long.

The Princess Theatre, which has been thoroughly renovated during the summer months, was launched upon what promises to be another highly successful season last night, when Leo Ditrachstein's diverting farce comedy, "Before and After," was presented before a large audience.

Mr. Ditrachstein, who, either singly or in the capacity of a collaborator, has been responsible for the fashioning of about a score of plays, does not start out apparently as a playwright and does not worry over the problem of stage elevation.

Leo Ditrachstein, as an actor featured in a play of his own craftsmanship, might be excused in a slight excess of self-consciousness and tendency towards over-acting, but he fails to enter into error, and it is as a comedian, pure and simple, and not as a playwright who poses, that he appears on the stage.

"Before and After," as its name might imply, has to do with the magic properties of a certain compound nostrum that would surely make the whole match the houses receive their since to quaff a solution of it has the inevitable effect of causing the quaffer to enter into the most amorous transports.

There are numerous complications in which prominently figure James Jeffrey, a robust elderly American, who has made his pile in foreign lands, and Bella, a dashing adventuress and other.

A Scene from the New Farce, "Before and After," Which Opened the Princess Theatre Last Night, Showing a Great Trio of Fun-Makers, Leo Ditrachstein on the Left.

THRILLING MELODRAMA BIG RUN AT MAJESTIC

"A Race Across the Continent" Full of Startling Sensations and Pathos.

—Cast of Characters— Hector Byard, a young prospector Tom Darrol, an adventurer.

The offering at the Majestic Theatre this week is the newest of A. H. Woods' melodramatic productions, "A Race Across the Continent," and is one of the best comedies appearing in the melodramatic business.

Another unusually exciting scene occurs in the third act, which depicts the perilous trip over the mountain side the distance between them is gradually lessened, until they are side by side.

Act I—Scene 1—Interior of Klondike Hotel. Scene 2—Exterior of Klondike Hotel. Scene 3—Interior of Klondike Hotel. Act II—Scene 1—Exterior of the Post House on the way to Nome.

Comedy With a Moral Enthuses "Grand" Patrons

"A Message From Mars" Renewed the Popular Favor Accorded on Previous Presentations.

Horace Parker, Wallace Widdicombe, Arthur Deacy, Alfred Beaumont, Dr. Chapman, Roland Wallace, Jim, Walter Addison, Boy, Master Phillips, Muggidge, Andrew Edwards, Watchman, Paul Masters, Policeman, Richard Hanson, Newboy, Joseph Bernstein, A Messenger from Mars, Walter H. Clouston, Aunt Martha, Nellie Blanchard, Mrs. Clarence, Helen Peters, Servant, Mrs. Clarence's, Marie Sylvestre, Flower Girl, Dorothy Robinson, Bella, Wallace Widdicombe, Polly, Agnes Dey, A Poor Woman, Kate de Becker, Girl, The Busy Year, Eileen Errol, Minnie Tempier.

"A Message From Mars," the charming comedy which pleased theatre-goers so greatly two years ago, opened the Grand last night and played to a very large audience.

For the first time in eighteen years, A. J. Small, the energetic proprietor of the Grand and numerous other theatres, was not present at the opening of the theatrical season.

BURLESQUE AT STAR PLEASES BIG CROWDS

"A Pair of Plums" Introducing the Scotch Lassies in gun marousski, "The Marriage Broker," "The Tramp and the Golf Stri," "Miss Gladys Sears—The Girl with the Punny Dialects."

The offering at the Star Theatre this week is the newest of A. H. Woods' burlesque productions, "A Pair of Plums," and is one of the best comedies appearing in the burlesque business.

Another unusually exciting scene occurs in the third act, which depicts the perilous trip over the mountain side the distance between them is gradually lessened, until they are side by side.

Act I—Scene 1—Railroad station. Scene 2—Madison-street, Chicago. Scene 3—A hotel room. Scene 4—Chicago roof, by night. Scene 5—Above the clouds.

WALLACE WIDDICOMBE As Horace Parker in "A Message From Mars."

The support of Mr. Widdicombe is excellent. Alfred Beaumont, as the tramp, and Walter H. Clouston, as the messenger, displayed histrionic talent to a high degree.

MARY ANN BROWN, an English Comedienne, Who Delighted the Audiences at Shea's Yesterday

An English Comedienne Star of Shea's Program

Kroneman Bros. Comedy Acrobats Annie and Effie Conley. In Story Songs Almont and Dumont, the Musical Hussars Mr. and Mrs. Truesdell & Co. In their latest comedy by Louis Wesley, "Two Men and a Bottle."

The skit deals with the complications that ensue from a husband and wife encountering each other in the flat of Jack Camden, rather gay young man who has just returned from New York.

Mary Ann Brown, the English comedienne, is an actress and singer of remarkable talent. Her first selection, "Tid Rader Be Icke Paw," is a typical music hall song.

One imitation and exceedingly good, was a verse from "John, Poor John," and the song itself was rendered with "John" and his mother in evidence by the "America's Comedy Four," Scott, Earle, Westman and Lynne.

Earle, Westman and Lynne. They also presented, in good style, "Waiting at the Church," with the bride's attendants sitting on the church steps disconsolate over the young lady who was "left in the lurch."

Under the rich but soft light diffused from the electric chandeliers and sun-bursts, the marble walls of the entrance hall, of darkest green, exquisitely veined, and the ceiling of old gold and the mosaic floor seemed fit to be the vestibule to a veritable land of enchantment.

Several very handsome floral tributes were presented to the principal lady artists, and "The Top of the World" should please the numerous visitors who will be found in the Royal Alexandra during the rest of the week.

Kroneman Bros., as comedy acrobats, secured a hit in their novel turn of an express train going at full speed thru the new Toronto union depot "to be finished," they announced, "in 1920."

Vertical advertisements on the left margin including 'GO., MERCHANTS TORONTO', 'DOD', 'HULLER', and 'O. LIMITED'.

FIELD THRESHING.

Again the threshing season sees a renewal of that habit, introduced from the Northwest, of threshing in the field and burning the straw. This is a custom that Ontario farmers cannot afford to continue.

There are not enough manures available on the average Ontario farm. Cattle are fed in fair numbers on the land, but these fail to produce enough fertilizer for the hundred-acre farm.

Canadian tomatoes were selling for 30 cents a basket on the Toronto market yesterday. They are fine large ones.

The first basket of Clapp's favorite pears came in to the Toronto market yesterday, said Dawson's. It was a basket of windfalls and sold for 75 cents.

Shebrooke, Quebec, where the Dominion Exposition is being held this year, promises to have a very good poultry exhibit from Sept. 2 to 14.

All fowls should be fasted from twenty-four to thirty-six hours before killing. Where this is not done, the food accumulates in the crop and intestine, the result being that the flesh becomes tainted and does not keep well.

Mr. Wm. Kyle, who has been a tenant for the last thirty years on the Armstrong homestead, lot 2, con. 5, Vaughan, has already threshed his fall wheat, which yielded 40 bushels to the acre on fallow land.

The fruit crop between Toronto and Kingston this year has been a fortunate one all along. Cherries were a heavy crop and prices as high as \$1.50 a pall were received by some.

There are annually on view at the one time at the Canadian National Exhibition at Toronto upwards of eight million live animals, to wit: horses, 1,200; cattle, 900; sheep, 700; swine, 600; dogs, 1,500; poultry, and many other animals.

Never has an exhibition attained such success at a single place as the International Horse Show at Olympia. After carrying \$25,000 to the reserve fund a dividend of \$1,000 was declared on the \$100,000 capital stock.

The live stock entries for the Iowa State fair at Ames this week show that all past records are to be broken. In the Shorthorn class alone, there are over 200 entries, which will make one of the biggest Shorthorn shows in the country.

THE FARMSTEAD

The fair has begun. Threshers are working everywhere. Read the American-Abell ad.

Those who are going to have auction sales must remember The World. Potatoes are yielding a medium crop. Hampshire sheep are gaining in favor in Ontario. See them at the fair.

There is a great difference between a fat animal in the showing and the same animal in the pasture rousing it.

The results of twelve separate tests made at the college show an average increase in yield of grain per acre of 6.5 bushels in corn as compared with small seed, or with 7.8 bushels from plump as compared with shrunken seed, and of 8.5 bushels from sound as compared with broken seed.

The time for auction sales of live stock and farm implements is drawing near. To all who contemplate holding such a sale, we point the attention to the valuable means offered thru The World's Farm Pages, for advertising their stock and implements.

Now The World has a bigger circulation than ever. Every breeder and farmer who reads The World, and an ad. in the farm pages catches and holds attention. Our rates are very moderate, so that even the ordinary farmer who sells out will find it of advantage to do just justice to his stock.

There is no use arguing that your sale is too small to advertise in our pages. That is not the point. It is the value of what it will give you that counts. It is as well yours as anyone's. If you have a few extra dollars, a small seller last year, \$100 extra by the ad. Write the Agricultural Editor for particulars of our rates, and you will be pleased.

DAWSON'S GOLDEN CHAFF LEADS IN FALL WHEATS

O. A. C. Results of Experiments With Autumn Crops.

Prof. Zavits of the O. A. C. reports upon the yields of winter crops this year at the Agricultural College at Guelph. The co-operative experiments with these grains in the province have shown a fair return for the year.

The opening and closing of harvest has a significance at least worthy of being compared to the inauguration and dissolution of governments. The horizon with its first grip upon the sickle is a conspicuous portion of a nation's coat of arms, in which a crowned head also appears.

What is more regal than to have dominion over the fields, and to be a Canadian farmer? My Lord the Farmer is a most authoritative potentate, and he is not to be trifled with.

Improving Wheats. We are endeavoring to improve some of the best varieties of winter wheat by means of selection and by cross-fertilization. Each of eight different selected strains of Dawson's Golden Chaff wheat were sown in the college experiments.

The independent farmer is not a mere fiction. Like his square-built house, forty rods from everybody, he is a real thing, and he is not to be trifled with.

80 CARS AT JUNCTION BULK OF FAT CATTLE POOR

Prices About Steady - Quotations of Sheep, Lambs, Calves, Hogs Unchanged.

Receipts of live stock at the Union Stock Yards were 38 car loads, consisting of 2103 cattle, 2 hogs, 292 sheep and lambs, 57 calves and 5 horses.

Space on ocean boats not being scarce, caused a little more activity, but prices were no better. Exporters, in the true sense of the word, sold from \$5 to \$5.35 per cwt. the bulk of the best cattle selling at 15 to \$5.25 per cwt., common unfinished light-weight exporters sold from \$4.65 to \$5 per cwt. Bulls sold at \$3.75 to \$4.40 per cwt. Butchers.

Outside of two or three loads that were bought for export, there were few good well finished butchers' cattle on the market, and most of the finished class would have sold readily. Picked lots of prime cattle sold at \$4.75 to \$5.30 per cwt., but they were scarce.

There were 3 choice milkers sold at \$55 each, and another lot of 10 milkers and springers, at \$50 to \$50 each.

Prices of veal calves ranged from \$4 to \$6 per cwt.

There were 15 loads of fat cattle at prices quoted above, which are Mr. Leavack's quotations of the fat cattle market.

John Scott sold 1 load of heifers, 1055 lbs. each, at \$4.40, less \$2 on the lot.

George Dunn bought 1 load of steers, 118 lbs. each, at \$4.35 per cwt.

Wesley Dunn bought 68 lambs, 75 lbs. each, at \$6.15 per cwt.

Wesley Dunn bought 68 lambs, 75 lbs. each, at \$6.15 per cwt.
