# SPAIN'S DIRE TROUBLES

Cannot Yield to the Demands of the United States and  
Resume the War—Commissioners Afraid of Being Mobbed  
If They Accept the Conditions—Internal Trouble Also—Lord  
Curzon's Farewell to His Constituents.

The lot of Spain is indeed unhappy. There was no joint session of the Peace Commission in Paris yesterday, Spanish Commissioners finding it impossible to get their memoranda ready. The U. S. Commissioners granted the delay asked, and it is expected sessions will be resumed Wednesday. Meanwhile the Americans will not recede from the position taken regarding the Philippines, and the Spaniards will acknowledge their helplessness, seeing they cannot resume the war. A Madrid despatch says, on the authority of officials there: If the United States persist in their present claims, Spain will accept the conditions after formally announcing at a session of the commission and in a circular to the powers that she fields to force, and owing to the impossibility of renewing the war without unobtainable assistance in defence of her rights.

The Spanish Commissioners point out that they dare not face their country if they accept the American conditions, fearing official degradation and even mob violence.

Added to this trouble is internal dissatisfaction. Catalonia and Aragon provinces demand decentralization of the government, saying that the "Anglo-Saxons of America, aided by the Anglo-Saxons of Europe, have obliterated half of Spain from the maps."

## SPAIN'S DILEMMA.

London Papers See No Alternative for the U. S. But to Go the Whole Length.

London, Nov. 15.—The morning papers comment editorially upon the Peace Conference crisis, and the American ultimatum, reiterating their conviction of the hopelessness of Spanish opposition, and recognizing that the United States have practically no alternative, especially after the elections, but complete annexation, and that, if Spain continues obstinate, the United States must send a fleet to Europe, an action which no power but Great Britain would welcome, though none would be likely to interfere in Spain's behalf.

The Daily Telegraph says: "We cannot believe that President McKinley favors a compromise that would leave Spain a portion of her far Eastern possessions. Such a policy would commend America, since Spain would speedily sell the remnant."

## LORD CURZON'S FAREWELL.

The New Governor of India and Lady Curzon Say Good-Bye to His Lordship's Constituents.

Southport, Eng., Nov. 14.—The visit to this place today of Lord and Lady Curzon of Kedleston led to a remarkable demonstration of good-will for His Lordship, who has represented this division in Parliament since the last general election, in 1885. All the city functionaries and the county bodies participated in it, the streets were decorated with flags and crowded with people, and at the railroad depot the public officials, in their robes of office, presented an address of congratulation to His Lordship on his appointment to the Viceroyship of India.

The Lady Mayoress presented Lady Curzon with a bouquet of orchids in a silver holder, and with a ribbon attached to it, inscribed in gold letters, "Farewell to Lady Curzon by the Lady Mayoress, in behalf of the Southport Division."

A procession was then formed and Lord and Lady Curzon proceeded to the municipal buildings amid the cheers of the people, mingled with the pealing of the church bells. Lord and Lady Curzon afterwards held a reception.

Prominent among the decorations were trophies representing the Union Jack, the Stars and Stripes and the Star of India conferred. At a later function Sir William Fernwood presided. He said that never had there been a Viceroy of India appointed who was so heartily approved of by the entire nation. Sir William added that the charm and refinement of Lady Curzon, who is an American lady, will adorn the viceregal court.

After the presentation of a eulogistic address from the Conservative Association of Southport and a handsome and massive silver bowl, weighing over 200 ounces, and a pair of gold spurs, Lord Curzon made a speech, during which he formally bade farewell to his constituents.

## THE HOOLEY CASE.

Sir W. Marriott Calls Hooley's Statements Regarding His "Pure Inventions and Abominable Lies."

London, Nov. 14.—The examination in bankruptcy proceedings of Mr. Ernest Terah Hooley, the company promoter, was resumed this morning.

Sir William Marriott took the stand and declared that Mr. Hooley's statement that he had paid the witness £1000 for introducing him (Hooley) to the Carlton Club was "a pure invention and an abominable lie."

Sir William added that he knew nothing at the time about Mr. Hooley's alleged donation of £10,000 to the Conservative party funds through the Marquis of Abernethy, though Mr. Hooley told him afterwards that he had given the Marquis £10,000 for the "fighting funds" of the Conservative party, which, Sir William Marriott explained, had nothing to do with the Carlton Club. The witness also said he had helped Mr. Hooley in political and financial matters, but had always declined remuneration for his services.

Later, Sir William Marriott said Mr. Hooley told him, in December, 1896, that he was engaged with an American syndicate, which was going to raise an enormous loan for Cuba, and said he (the witness) had been appointed counsel to the company's commission, which was to visit Cuba, and that his fee was to be £10,000, in view of which Mr. Hooley paid him £1000 on account.

On cross-examination, Sir William Mar-

## COMPLAINED TO THE EMPEROR.

And William Says the Regent Shall Have His Rights.

London, Nov. 14.—For the first time a Federal sovereign of Germany has officially complained of the Emperor.

Count Bismarck, of Liepzig-Bischofswerde, wrote to Emperor William that he was humiliated by the Emperor's order that military honours were not to be paid to the Count's household, but only to the Count and his wife.

The Emperor replied: "The Regent shall have his rights; nothing more."

Count Bismarck has now laid his claims before his fellow-sovereigns of the German Empire in a long address, which is nothing less than an indictment of the Emperor.

## Next Governor of Malta.

London, Nov. 14.—The Malta correspondent of the Daily Mail says it is reported that Lieut. General Sir Francis Wallace Greenfield, Inspector-General of Auxiliary Forces, and in supreme command of the operations conducted by the Sir. Lieut. General Lord Kitchener, for the reconquest of the Egyptian Provinces in the Sudan, will be the next Governor of Malta.

## France Adding to Her Navy.

London, Nov. 14.—The Daily Mail says this morning that the French naval construction program for 1898 includes two battleships of 14,500 tons each, with very powerful armament and protection; two cruisers of 4,000 tons each, two large torpedo destroyers and eleven torpedo boats.

German Army to Be Increased.

Berlin, Nov. 14.—The semi-official papers announce that the German army will be gradually increased by about 15,000.

Antarctic Expedition.

London, Nov. 14.—The Royal Geographical Society offers £2000 to fund a subscription for outfitting an Antarctic expedition.

Belgians Capture Dervish Post.

London, Nov. 15.—The Daily Chronicle this morning says: "We are reliably informed from the Congo Free State that the Belgians have captured Bohr, a Dervish post 30 miles north of Beja, on the White Nile."

Miss Willard's Temple Scheme.

Was abandoned. It was feared it might wreck the organization.

St. Paul, Minn., Nov. 14.—The W.C.T.U. today held a lengthy discussion on the late Frances Willard's temple scheme. It was feared that the fight for the temple would wreck the organization. Miss Willard had done so much to build up, and it was, after five hours' bitter and personal debating, by a vote of 285 to 71, decided to abandon the project as an affiliated interest. Resolutions were presented on the subject, which may precipitate the whole controversy once more, if called on this morning, as expected.

Capt. W. W. Kerr, principal owner of the Pittsburg Baseball Club, left for the East last evening. The captain will call a meeting in New Jersey to-day, at which he will elect himself president and P. L. Auten vice-president of the club. Last season W. H. Watkins acted in the capacity of president. After the captain's last meeting, all of his lonely, he will probably spend a few days in New York, and then return to Pittsburg.—Pittsburg Times.

Q. O. R. G. and 45th Bands.

Massey Hall, to-night.

ENOUGH LEFT TO STING.

Mr. WHITNEY: The general election frost settled many of the wasps, and I hope to dispose of a few more of 'em with the broom.

## LAUNDRY TRUST LAUNCHED

Toronto, Capitalists Go Into the Laundry Business on a Large Scale—There is a Sequel.

The announcement in The Gazette of the incorporation of a company, to be known as the Beatty Manufacturing Company, and to be engaged in the manufacture of women's and children's clothing and do laundry work, is the talk of city business circles. What especially interests the public curiosity is the mystery which envelops the whole affair.

Starting with the clue that the company consisted of W. H. Beatty, C. W. Beatty, Harry Beatty, J. W. Beatty, W. G. Gooderham, T. G. Blackstock and W. H. Cavatina, and that the capital was \$200,000, a World reporter yesterday called on the members to get further information. W. H. Beatty told a semi-comical story, whose moral was: "Mind your own business, whose moral Mr. Mahony still retains his embryonic business, and had it distinctly so stated in the sale. The real object of the new company, as you will see, is to form a trust which will control all the white goods and laundry in the province."

Combined Bands, Massey Hall, to-night.

Bert Harvey will sing at the Big Band Concert to-night, Massey Hall.

Cigar Chatter.

"And a good cigar is a smoke," says Kipling. "You will be hugely satisfied with your cigars if you get them at Muller's—not a poor cigar in his store."

By the way, you're invited to use the smoking parlor. Bring your friends. Meet them at Muller's.

Cook's Turkish and Russian Baths.

Bath and Bed \$1.00, 204 King St. W.

The Fur Jacket Specials at Dineen's.

Fur-lined capes—richly lined throughout with fur, and trimmed with the most popular kinds of showy furs. Covers in all the latest shades—all pattern capes priced to sell for \$25, \$30 and \$40, which were bought from the maker on bloc by Dineen's, and offered at \$15, \$20 and \$25—just about the maker's cost. No two capes alike—and nothing like them in style, quality and workmanship can be offered anywhere else. See them at Dineen's to-day.

Cook's Turkish and Russian Baths.

Bath and Bed \$1.00, 204 King St. W.

California Tokay, a delicious, pure, sweet red wine, admirably adapted for invalids; also an excellent cup wine. Receipt for same on applying at our store. See that you get the genuine. Take no imitation. Mar's Office, 79 Yonge-street, Phone 1708.

Reminiscences of Scotland, combined bands, Massey Hall, to-night.

## MARVELOUS OLD AGE.

Mrs. Margaret Davis of Jordan Lived 110 Years and Eight Months—Born in Ireland.

St. Catharines, Ont., Nov. 14.—Mrs. Margaret Davis, who was by more than 10 years a centenarian, died yesterday at her late residence, near Jordan Station. She was aged 110 years 8 months and 10 days.

Mrs. Davis was born on Lord Downshire's estate in the County of Down, Ireland, where 23 children were born to her. About 40 years ago Thomas, her youngest son, who lives on the Thorold-road, in this city, came to America, and was soon followed by his two brothers, John and Joseph. They settled in Louth on a farm, Thomas afterwards moved to St. Catharines, and in the summer of 1872 he sent for his mother, who was then living in Glasgow with other sons and daughters. Mrs. Davis was then 85 years of age, but she braved the Atlantic to come to America, and on July 4, 1872, she landed in New York. Until a few years ago she was very active, and in the warm weather she would do some of the chores around the farm. She lost the sight of one eye some years ago through an accident, but the sight of the other was good until the time of her death. She was seldom ill. The human mechanism simply played out after 110 years.

Decayed was a staunch Presbyterian. The funeral will take place to the Louth Cemetery to-morrow.

Fosterburgh & Co., Patent Solicitors and experts, 348 Colborne St., Toronto.

For Adoration at Dineen's.

Those ladies' fur jackets at \$45 and \$50 at Dineen's excite the admiration of every lady who examines them. They are made of the new XXX Electric Seal, but only an expert, on close inspection, can distinguish them from the finest Alaska seal, and the styles are superb.

How the cleaning of a garment is done by our "Merchandise" cleaners, they really cleaned or not. It is not everyone whose sign reads "Clothes Cleaned" can clean clothes. There is a science in the business, and we know it—be the clothes men's, women's or children's. H. Parker & Co., Dyers and Cleaners, 187-191 Yonge St., Toronto. Phone—3603, 3640, 2142, 1085, 5098.

High-Class Pictures.

We carry a large assortment, and frame to order in the most approved modern style. Prices low. A. H. Young, 248 Yonge-street.

Armeda Tea has the Flavor.

Carlton Hotel, 153 Yonge Street.

First-class rooms and board at lowest rates for winter. Table d'hôte by week, also meal tickets. M. A. Harper, proprietor. 240

TO CURE A COLD IN ONE DAY.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. 25 cents.

Combined Bands, Massey Hall, to-night.

## THE ROYAL GRENADIERS.

Song and Chorus.

Far up the street, with tramp of feet,  
A flash of red appears;  
The word goes round, with joyous sound,  
It's the Royal Grenadiers!  
Along they swing, their muskets ring,  
The streets are all aglow;  
They march in time to the music's chime,  
While the brass bugles blow.

The brass bugles—the brass bugles—  
Hear their music flow!  
The ladies' hearts go pit a pat,  
As the drums go rat, tat, tat, tat, tat,  
And the brass bugles blow!

They've had a wash since old Batoche,  
They look so spruce and clean,  
They gaze your eyes as they pass you by  
With a blaze of soldier shien;  
They are not boys, these soldier boys,  
They were not made for show;  
For they can fight with all their might  
When the bloody bugles blow!

The sassy bugles—the brass bugles—  
Hear their music flow!  
The ladies' hearts go pit a pat,  
As the drums go rat, tat, tat, tat, tat,  
And the bloody bugles blow!

We need not fear when they are near,  
So dry your foolish tears;  
Ter-ump, ter-ump!—ter-ump, ter-ump!  
It's the Royal Grenadiers!  
If foes should come—our land has some,  
It's down the Don they'd go;  
We'd teach them—well, that war is hell,  
While the bloody bugles blow!

The brass bugles—the brass bugles—  
Hear their music flow!  
The ladies' hearts go pit a pat,  
As the drums go rat, tat, tat, tat, tat,  
And the bloody bugles blow!

When the Grens march out the people shout  
Hark to the martial lilt;  
For they're a patch just cut to match  
On the Widow's home-made quilt!  
A splendid spread for the good Queen's bed  
To keep her warm, and so  
When she's asleep they sentry keep,  
While the bonnie bugles blow!

The sassy bugles—the brass bugles—  
Hear their music flow!  
The ladies' hearts go pit a pat,  
As the drums go rat, tat, tat, tat, tat,  
And the brass bugles blow!

—The Khan.

Combined Bands, Massey Hall, to-night.

New Christmas Presents.

A variety of very handsome presents are given for the return of sets of wrapped from Adams' Tutti Frutti Gum from the Tutti Frutti selling machines.

DEATHS.

FRENCH—At East Toronto, on Nov. 14, George French, in his 48th year.

Funeral at 2 p.m. Wednesday, from his late residence, Gerrard-street east, Toronto, to Chalmers' Cemetery. Friends and acquaintances please accept this intimation.

POLSON—At No. 19 Sward-street, on Nov. 14, Jennie, only child of Arthur and Matilda Polson, aged 9 years.

Funeral from 10 Seward-street, at 2:30 p.m. Wednesday, Nov. 15.

# DAWSON CITY BURNED.

Half a Million Dollars' Worth of Property in the Heart of the City Gone Up in Smoke as the Result of a Row in a Saloon Between Two Women—A Few Men Were Injured, But No Deaths Resulted.

Vancouver, Nov. 14.—(Special.)—The steamer Cottage City brings news of a disastrous fire at Dawson City, which happened on Oct. 14. The fire started in the Green Tree Saloon, Belle Mitchell throwing a lighted lamp at another woman. Four of the chief city buildings were destroyed. The citizens fought the flames heroically, and a few men were injured.

Following is a list of the principal buildings destroyed:

Wardner Hotel, loss \$50,000; Pathom's saloon, \$40,000; postoffice, \$10,000 (all mails were destroyed); Green Tree saloon, \$35,000; Empress bakery, \$40,000; McPherson & Johnson, \$20,000; Vancouver Hotel, \$25,000; John Sargent, \$3000; New York store, \$21,000; Case & Gilsey, \$8900; Malson-Horton, \$48,000; Hibbard's store, \$6000; Meier's store, \$16,000; John M. Donald, \$6000; George Brunet, \$8000; Foley's, \$5000; Seattle Restaurant, \$9000; other small stores, \$30,000; 12 cabins, \$18,000.

There is no insurance. The heart of the city has been wiped out by the flames, and there is not enough lumber and window glass for rebuilding this winter. People must live in tents.

The total loss is calculated at close upon \$500,000. Some of the buildings contained cartridges, and occasionally a fusilade would make the crowd scatter, but no one was killed or fatally injured.

C. P. R. Press Report.

Among the fire-fighters who received in-

juries were: Pte. Mullins of the Infantry, contusions, sprains and burns; G. O. Ellis, contusions on head and a shattered shoulder; Dan Miller, scalp cut and skull cracked; W. A. Jones, head battered and burned; Constable Tipp, burns and sprains; Pte. Enfield, face and arms burned; Al. Halkeus, leg badly wrenched. A number of men lost eyebrows and whiskers.

The Cottage City brought 200 passengers from Alaska ports. Her passengers were mostly from Skagway and other coast cities, but there was a small scattering of miners from Cook's Inlet, Dawson and Atlin, as well as from the Sitka country. The Atlin men bring news of a new strike, a creek paralleling Plac Creek having been found which feeds Atlin Lake, about eight miles south of the first discovered creek. The discoverer, M. McKee, who was one of the passengers down, took out five or six pans, the average per pan being \$1. The new creek, which has been called McKee Creek, after the discoverer, who is an old Altonian, mines, promises to rival Plac Creek. The find was made fully two months ago, but kept a secret until friends could reach the scene.

Belle Mitchell's Second Fire.

The fire of a year ago was caused by the same woman, who threw the lamp at a man with whom she had a quarrel. A month ago she burned her own place on Third-avenue in Dawson, by throwing a lamp at a woman, and now she has caused a conflagration by again losing her temper and wielding another lighted lamp.

error-General and party will leave for Ottawa to-morrow morning.

Mr. Tarte to Rev. Dr. Carman.

In reply to Rev. Dr. Carman's letter in The Globe, Hon. Mr. Tarte writes in La Patrie: "The citizens of the Province of Quebec respect the laws, and are a moral people. They intend, however, to be free at once. And why should they not be?"

Gone to Washington.

Miss Scott, daughter of the Secretary of State, left for Washington this morning with Sir Wilfrid and Lady Laurier.

Brierley and Mackay Arrested.

As predicted, Messrs. Brierley and Mackay of The Herald were arrested to-day at the instigation of Chief of Police Hughes, charged with criminal libel.

A Delegation for Toronto.

Chas. Assessor James T. Dillon, S. J. Lamontagne, P. H. Morin, Capt. C. A. Patterson, A. Laing, Thomas Ferns and William B. Ward, with their secretary, G. B. Waddell, left for Toronto this evening by the C.P.R. to consult with the Toronto civic authorities.

## LA MINERVE AFTER THE ABERDEENS

The French Conservative Organ of Montreal Indulges in Criticism.

Montreal, Nov. 14.—(Special.)—La Minerve, the French Conservative organ, says that the festivities now being over, and the Aberdeens out of the country, it feels that the truth must be told about His Excellency and the Countess of Aberdeen. After referring to the good work Lady Aberdeen accomplished all over the country, La Minerve adds that there is reason for censure in a case of extreme gravity, and interference in the administration of justice. The steps taken, the writer adds, were too persistent and too public to admit of their being hidden, and too dangerous to be patting down. The intervention of Lady Aberdeen in the shorts matter is one of those things which no newspaper has the right to ignore, because her intervention in that case produced a disastrous effect upon public opinion, and one that will last a long time. It was after the awful tragedy at Valleyfield, followed by a commutation of the sentence, that people remarked: "They don't hang any more in this country," and we all know that for a while crime seemed to be an epidemic in our midst. It is quite likely that Lord and Lady Aberdeen gave to a sentiment of kindness and tenderness, but justice in this country should not be influenced by such considerations, noble though they may be. It is our duty to say, therefore, that it would not take many such Governors as the last to turn our affection from the colonial tie and tire us of an institution that we could easily replace by the election of our First Magistrate, either by the popular vote or by the choice of Parliament.

In another column, La Minerve warmly welcomes Lord and Lady Minto to the shores of Canada, and says: "Like our English-speaking fellow-countrymen, French Canadians love the free institutions which the Mother Country has accorded them, and which they owe to their loyalty, as well as to the wisdom of the British Government. The role of a Governor-General is a grand and noble one, and it demands a mind free from prejudice and partiality. We have the conviction that Lord Minto will be equal to the task, and that he will deserve the sincere gratitude of Canadians, irrespective of origin or tongue. It is with pleasure, therefore, that La Minerve extends to Lord and Lady Minto the most cordial welcome."

Detective After Big Game.

The detectives are again after his game in this city. A reward of \$2000 has been offered for the arrest of a young man named Fred Moore of Boston, who is wanted there for embezzlement. About a month ago \$50,000 disappeared in a mysterious manner from the National Bank of Commerce, and at the same time Moore left his position there. The American detectives have been on the lookout for him for some time, and they now believe he is in hiding in Montreal.

Viscount Melgund is Better.

The entire community will rejoice to learn that Viscount Melgund, the 6-year-old son of Lord and Lady Minto, is much better to-day of the bronchial attack which so alarmed the family on Friday and Saturday. It is quite probable that the Gov-

## BAD ACCIDENT AT BOWMANVILLE.

G. T. R. Express Ran Into a Freight—Engineer and Fireman Hurt.

Last night the Grand Trunk express, No. 7, due at Toronto at 9:15, ran into the rear end of a freight train near Bowmanville, demolishing the van of the freight and shaking up the passengers of the express considerably.

The engineer and fireman of the express, who jumped before the crash came, were both seriously injured. Engineer F. Warren was hurt internally and Fireman T. Casey had his right leg hurt and was also cut about the head and face. The engine, at the time, and consequently the freight crew escaped injury.

These Captivating Capes at Dineen's.

Another two-day sale of those special XXX Electric Seal Jackets for ladies, at \$45 and \$50, and those special fur-lined capes at \$15, \$20 and \$25. Dineen's will see precious few of these specials left. Good assortments of sizes for choice will remain for to-day, and possibly for to-morrow, at Dineen's.

If your grocer does not handle Lawson's Health Breads you can get them at 237 Yonge-street.

Stop That Toothache.

by using Gibbons' Toothache Gum. Sold by druggists. Price 10c.

Combined Bands, Massey Hall, to-night.

Milder Weather Coming.

Meteorological Office, Toronto, Nov. 14.—(11 p.m.)—Pressure is low in the Territories and Manitoba, and also over the Maritime Provinces, and highest in the middle states. Light snowfalls have occurred to-day in the Midland and Gulf, and rain and snow in Victoria, 40-48; Kamloops, 32-40; Calgary, 28-42; Qu'Appelle, 16-30; Toronto, 31-41; Ottawa, 39-50; Montreal, 32-38; Quebec, 30-34; Halifax, 38-52.

Forecast.

Lower Lakes and Georgian Bay—Fresh or strong breezes, westerly to southerly; fair; stationary, or a little higher temperature to-day; still milder on Wednesday.

Ottawa Valley—Northwesterly, shifting to southerly winds, fair and cool to-day; higher temperature on Wednesday.

Lake Superior—Strong westerly to southerly winds, generally fair and milder.

Manitoba—Westerly winds, generally fair and comparatively mild.

Pure Icing Sugar, special at 11c pounds for 11c.

THE TORONTO WORLD ONE CENT MORNING PAPER.

No. 55 YONGE STREET, Toronto.

TORONTO AND NIAGARA FALLS POWER.

The success of the Hamilton power project ought to be as pleasing to the people of Toronto as to those of the sister city. All doubts as to the economy of transmitting power from Niagara Falls to Toronto have been removed by the success of the Hamilton enterprise. The current is conveyed for a distance of 34 miles under a pressure of 22,000 volts, which is more than double the pressure that is used by the Ontario Construction Company in transmitting its power from Niagara Falls to Buffalo. The loss between Decew Falls and Hamilton is only eight per cent. These facts, taken into consideration with the favorable conditions for developing power on the Canadian side of the river, make the problem of conveying electric current from Niagara Falls to Toronto a safe and profitable commercial undertaking. The Ontario Government has prevented Toronto from enjoying the benefits of cheap electric power for several years back, but our day of deliverance has at last arrived. Niagara Falls power again reverts to the people of Ontario. There is enough power at Niagara Falls for all the requirements of Toronto, Hamilton, St. Catharines, Guelph, Brantford, in fact half the whole Province of Ontario. The one thing that Toronto now stands in need of is cheap power. With that assured no better place for factories will exist in all Canada. Cheap power and connection with the ocean by a 14-foot waterway will make Toronto go ahead with a rapidity hitherto undreamt of. Both the 14-foot channel and Niagara Falls power should be accomplished facts during 1899.

THERE WILL BE NO REMOVAL.

The Evening Telegram last night presented to its readers the fact in regard to the proposal to remove the cattle market. Our contemporary has gone into the matter very fully. The conclusion of the Telegram arrives at, after carefully weighing the pros and cons of the proposal, is exactly in line with what The World has contended for from the very first. It shows that without the annexation of a single foot of territory there is space in the cattle market to accommodate the demand for many years to come; that there is no good reason why Stanley Park or any other adjoining property should be acquired until it is shown that the cattle market, with the improvements suggested by the City Commissioner, fails to give the necessary accommodation. In an article on the cattle market last night The News tries to convict The World of advocating the present site in order to help the J. B. Smith Co. in selling their lease at a big figure to the city. The World's contention has all along been that the market was large enough of itself, that if more accommodation were required Stanley Park was available, and, as a last resort, the Smith property could be acquired. We showed, however, that there was no necessity for taking in the latter property, and in any event we never suggested that any such ridiculous figure as has been mentioned by The News should be paid for it. We think we have probably heard about the last of this attempt on the part of real estate speculators to get their hands into the civic treasury. There is no necessity whatever to remove the market. Furthermore there will be no removal.

ANTICOSTI AND THE FRENCH.

Much is being written about Anticosti. A low, bare, inhospitable sandbar, interspersed with rocks, it lies in the jaws of the St. Lawrence, and on a map of small scale it looks as if it might choke that river. But few realize that it lies 40 miles north of Cape Gaspe (twice the distance from Dover to Calais) and nearly that distance from the north shore. Besides this, vessels coming through the Straits of Belle Isle have to travel 35 miles before they reach Health Point, at the extreme east end of the island. A gap of over 80 miles separates it from Newfoundland, and there lies to the south of it the whole expanse of the Gulf of St. Lawrence. To talk of it as a menace to British shipping is absolute nonsense. I imagine it in the hands of an enemy fortified but yet surrounded on all sides by British territory and accessible only through the Straits of Belle Isle and by way of the Gulf of St. Lawrence, whose entrance is only 70 miles wide from Cape Breton to Cape Ray. No power would for one moment desire a place of arms which it could only get at by strategy and that when reacted would only form a trap.

But the underlying absurdity of the whole thing is this: No position, however commanding, is worth a farthing unless fortified. Toronto Island commands in point of position this fair city of ours, but its present innocent condition enables us to go to bed and sleep comfortably. If strongly fortified it would be quite another affair, but we can hardly imagine that in case of war any power would sit down upon it and fortify it. That is a contingency we contemplate with consternation owing to our experiences of other wars and the method of making them, and it is equally preposterous to imagine that France would deliberately enter 300 miles into British territory and fortify a low lying spot of land, when vessels of all kinds could safely pass more than 20 miles out of gunshot and always out of sight. With a naval base at Halifax, nothing would please Great Britain's navy more than to get a French fleet bottled up in the gulf.

The French have two small islands,

St. Pierre and Miquelon, lying 10 miles off the Newfoundland coast and quite out into the Atlantic.

They possess just five buildings of any importance, and no forts nor guns. They are of immense commercial value to France, as they form the station from which she carries on her fisheries on the banks of Newfoundland. Undoubtedly in case of war they would be seized and the French treaty rights on the south coast abrogated, and the despatch of H.M.S. Cordelia and Pelican to Sydney a few weeks ago shows that the Colonial Office means to get them if hostilities are commenced.

DAILY EUROPEAN HINTS.

Elegant afternoon visiting gown of pearl grey silk with band of black lace applied on white muslin, trimmed with blacker darker grey silk with application of black baby ribbon. Grey velvet hat with black plumes and rosette of geranium pink. Model by Felix.

THE LONDON STRIKE.

Manager Carr says Detroit Men Stirred Up the Trouble. It is All Over.

Manager Carr of the London Street Railway Co., when seen in the city last night by The World, on his way to Montreal, was asked what he thought was the real cause of the strike, which has just been settled in London. Mr. Carr said to a friend of his yesterday afternoon that the newspapers had greatly exaggerated the reports of the enmity between the company's men and the strikers. He said, as an illustration, the egg-throwing that had been indulged in, and remarked that while the papers said he had been struck several times with eggs, the real fact of the matter was that he had been struck only once.

Child Prize Winners.

Among the prize winners in the school children's exhibit of chrysantheums, at the Pavilion on Saturday, were the following: Silver medal, Ella Wilcox, Devon-street school. School class prizes: Winchester, Thomas Parker; Victoria, Annie Cummings; St. Michael's, Bond and Wilton, Mabel Crowe; St. Paul's, Edward Mitchell; Sackville, Lillie Kingsmill; St. Helen's, John Gray and Bertha Boland; St. George's, F. Terrible Tragedy, Which Threatens to Wipe Out Remaining One of an Unlucky Family.

At 7 o'clock this morning, cold and still, and beside it was a note that indicated that he had committed suicide. There were no marks of violence on the remains, and the inference is that he had taken poison. The Bell family was very wealthy, and occupied a prominent position in German social circles on the north side of Toronto. A little over a year ago J. F. Bellstein, the father of the family, died after an illness of a few hours. Six weeks ago yesterday morning, Bertha, who was then a widow, and inflicted four wounds with a revolver upon herself. She is still living, but cannot recover, her physicians say. Within 24 hours after her attempt to kill herself, David Reish, an old man who lived with the family, laid himself on the floor with a knife in his hand, and was killed.

FOUR DEAD; ONE DYING.

Terrible Tragedy, Which Threatens to Wipe Out Remaining One of an Unlucky Family.

FLOUR AND FEED STORE OF JOHN GIBBY BAILY DAMAGED.

Elora, Ont., Nov. 14.—About 7:30 o'clock this morning fire was discovered in the flour and feed store of John Gibby Baily, of this place. It had gained considerable headway before it was noticed, and in a few minutes the interior of the building was a mass of flames. The firemen were soon on the scene of action, and in half an hour had it under control. The fire is supposed to have started from the furnace. Loss about \$2000, partly covered by insurance.

TELEGRAPHING WITHOUT WIRES.

M. Marconi's Apparatus for Sending Messages Across the Channel—Successful Experiments.

The accompanying picture is from a photograph—now first published—of the apparatus with which M. Marconi hopes to be able to send messages without wires across the Channel, from Dover to Calais. It is understood that the French authorities have given permission for signalling stations to be erected anywhere along the French coast, so the experiments will doubtless be put in hand without much delay.

Stations have already been erected, one at Alum Bay and another at Bournemouth. M. Marconi has also erected a station at Dover, and the results so far

have quite come up to M. Marconi's expectations. Marconi's instruments are constantly being improved upon, and a signal has already been sent between Salisbury and Bath (31 miles), there is little doubt that as the subject of wireless telegraphy becomes better understood, it will be possible to send messages over longer distances.

A WONDER-WORKING MACHINE.

Scientists even hold out hopes of being able to send signals without wires between London and Capetown, and if this prophecy is ever fulfilled, the "Cape to Cairo Telegraph" will be completely superseded.

Everything points to the fact that the telegraph of the future will be accomplished without connecting wires, and that man will make use of the mysterious ether for the conveyance of messages.

OCTOBER RECORD OF LE ROI

Big Quantity of Ore Mined at Small Cost.

Good Object Lesson for the Camp - Operations in the Silver-Sloane-Placers in Ontario Region - Two Olive Dividends - About the Englewood Concession - Stocks.

The Le Roi made its banner record last month so far as the shipping of ore is concerned. It shipped 12,445 tons of ore in October and the cost of extraction was only \$2.47 1/3 per ton.

There are signs that the show this year will be even more attractive and successful than that of last year. The management has been hard at work and every detail has been worked out to perfection.

There are 114 classes to be judged, and the winners will divide \$35,000 in prizes. There are many special prizes, and there are, too, a number of cups to go to the winners in some of the classes.

The sale is reported from Vancouver, B.C., of a number of claims on Vital Creek in the Ontario country.

The Commonwealth Company are working the Ethel group on Trout Lake in Ontario, B.C.

Work on block B of the English concession in the Lake-of-the-Woods district has been stopped.

Mr. Deacon, C.E., with a large gang of prospectors has been exploring this tract of land for his English principals for some time.

Mr. Deacon is now preparing a report for his principals. It is said that the result of his explorations was not quite satisfactory.

Ald. Lamb Says Controllers Spent This Money Unsanctioned.

Either the Estimates, or by Vote of the People—Says Aldermen and Officials May Be Liable to Criminal Action—Will an Injunction Be Got Out Restraining the Spending of Any More of This Money on the New City Hall?

The winter of Council's discontent with the Street Railway Company is fast approaching. With equal velocity the cold, dreary day of electoral judgment comes on as well. It was to be expected, therefore, that a good deal should be asked of the company at yesterday's meeting, which it needed not to ask some months ago.

But this was only an incident in the meeting. The lion, or rather the scorpion, of the hour was Ald. Lamb, who made the date book his final fling at the Board of Control. In the seriousness of his allegations this solar plexus blow overwhelmed all the others. It will furnish material for Mayor, aldermen and responsible officials to sweat over for some little time.

The Board of Control in short has awarded, according to Ald. Lamb, who also referred, a contract for the new City Hall to the amount of over \$2,000,000 without having either received a sanctioning vote from the people or without placing the amounts in the estimates. Ald. Lamb asks, and rightly asks, who is going to provide the funds when the people decline now to vote the amount of over \$2,000,000 without having either received a sanctioning vote from the people or without placing the amounts in the estimates.

Lamb's Hard Roast. The Board of Control, said Ald. Lamb, is a question of privilege. He pressed this report of the Property Committee asking for a money bylaw. They say without having the funds provided. They had acted illegally. Ald. Lamb emphasized the illegality charge by frequent repetition. He emphasized it still more by warning that any responsible citizen could get out an injunction on the business. The aldermen and officials had no right to do this. He believed, to criminal proceedings for allowing the expenditure of money without any sanction from Council or people. The report of the Property Committee, calling for a vote of \$110,000, had been suppressed, yet this open account had been run since. "If you should get the people, and they should vote to vote the money the Board of Control has spent," he added, "it may leave members of this Board in a somewhat precarious financial condition. You spent \$10,000 amongst other things in furnishing the new Council Chamber. You had no money for that." He mentioned other contracts, which, however, were pointed out to have been provided for in the estimates.

Why Didn't You Help Me? Ald. Denison asked Ald. Lamb for having buried all his efforts to have New City Hall expenditures thoroughly investigated throughout the year, and for then coming down with his speech, which he had sanctioned all these expenditures.

An Inquiry Interrupted. There were numerous interruptions, but the contention between those quoted were lying in open account were not referred when the subject was snuffed out. But it is only quieted for a time. Ald. Lamb will put an enquiry on the order paper as to how much money had been spent on the pile without any sanction from the estimates or by bylaw now yet carried, such statement to be compiled by the

A GIRL'S TRIBUTE. She Tells How Dodd's Kidney Pills Gave Her Health. Thousands of Girls Need the Same Remedy, for They Are Suffering From Similar Disorders—Dodd's Kidney Pills Will Cure Them. Toronto, Nov. 14.—There are thousands of girls in this city who are passing the best years of their lives in sickness and misery, when they should be enjoying the blessings of health, strength and vigor. The observer who will watch the crowds of this and young women streaming homeward every evening, after their hard day's work, cannot but be struck by the many pale, careworn faces—that should be rosy with the glow of health, with sparkling eyes and well-rounded cheeks, but which are pale and careworn, with dark circles under the eyes that have lost their brightness. A glance is enough to show that these tired and worn-out girls are suffering. And there is a special reason for this, because there is no need for it. Dodd's Kidney Pills would bring the brightness back to the eyes, the bloom to the cheek, the firmness to the step, the vigor to the entire body.

No other medicine on earth can produce such beneficial results in these cases as Dodd's Kidney Pills can and will. Miss Mary Dinsdale, 73 Eber-street, has proved the truth of this statement. She says: "I have been a sufferer from female weakness, nervous and liver trouble, and

decrease of the volume of water in the Don, be it resolved, that the Engineer report at the next meeting of the Board of Works the cost of the proposed bridge culverts spanning the Don, 60 feet wide, at Queen-street east, and also the cost of roadway and sidewalks above the same. This one is long enough to deserve more attention than it will get.

On motion of Ald. Davies, the Property Committee must report upon constructing a sidewalk and curb on the west side of George-street, now used as annex to the hay market, for purposes of economy of space and facilities for farmers and hay and straw purchasers.

The Rosedale Valley Road. Ald. Crane gave notice of a motion to appoint a special committee, viz. Ald. Lynd, Sheppard, R. H. Graham, Davies, Frankland and the mover, to investigate the matter of the opening of Rosedale Valley-road, and a possible report who is responsible for the recent decision of the council, fixing the cost of this improvement on the city generally, which was done on the local improvement system.

Petitions for Victoria-square. Controller Leslie submitted petitions from Thomas Douglas and others, for the widening of the Victoria-square project be carried out as a civic enterprise. The signatures number up in the thousands.

Denison the Klecker. Ald. Denison, as a matter of privilege, explained his position in reference to giving up the plans for market improvement. But the Mayor informed him that Architect Symons had already consented to give his plan, so the matter ended, and the citizens have the benefit of Ald. Denison's explanation that the market delegation had only drawn mileage money from the city, and not a cent for Pullmans or hotel bills.

Year—Ald. Leslie, Hubbard, Burns, Saunders, Woods, McMurrich, Davies, Bryce, Denison, Hamilton, and the mover, R. H. Graham, Crane, Sheppard, Lynd, Frankland and Richardson. The other recommendations, notably that referring the new dockage report back to the Property Committee, and the other to run a furnace and boiler in the Eastern Crematorium, were adopted. Ald. Richardson moved to leave the crematorium in the hands of Dr. Sheppard, the result was 17 aye and 17 nays against himself and Ald. Hubbard.

The Don bridge money bylaw and the by-law for appointing deputy returning officers, the latter after some quibbling, were also carried through the various readings.

Why They Should Abstain. The Mayor received two letters yesterday morning, both read at Council, one from W. H. Walker, on behalf of the Governor-General's secretary intimating the invitation from His Worship to have the heroes of Omdurman, the 21st Lancers, pass through Toronto, on their way from "home" to India, and the other from Secretary Joyce of the Trades and Labor Council, enclosing a circular which is being distributed, setting forth reasons why the Council should abstain from the Industrial Exhibition.

The reasons given are: (1) The Trades and Labor Council directly represents 500,000 organized workmen; (2) ninety-nine per cent. of the constituents vote in Toronto; (3) the working people are intensely, even scathily, interested in the exhibition; (4) in seeking membership, the Council desires harmony and progress, not irritation or obstruction; (5) the relations existing in Toronto of late years between what is commonly known as capital and labor have been of a most amicable and profitable nature to all concerned. The cause is not far to seek. To the sense of justice and concern regarding the labor and commercial interests may be credited our peace and prosperity; (6) repression never constitutes.

Must Go to the People. Architect Sheard will be instructed by the Mayor to have a revision of the plans for St. Lawrence Market improvement completed in time, if possible, for next Council, Nov. 28, 12, in two weeks. This would make the submission of the bylaw possible for January, the statutes calling for the beginning of the bylaw advertising Dec. 10.

No Long Coats for Cops. Col. Grasett, Chief of Police, wrote in informing Council that the cops could get long rubber coats until next week's estimates had been passed. Ald. Bowman found when he moved his resolution to substitute coats for capes that there was a 17-ay vote.

The Wabash Railroad. With its superb and magnificent train service, it is now acknowledged to be the most perfect railway system in America. The great winter tourist route to the south and west includes the famous destination in Arkansas, Old Mexico (the Egypt of the new world), Texas and California (the land of sunshine and flowers). Passengers going by the Wabash to their destination in advance of other routes. Wabash trains reach more large cities than any other railroad in the world. Detailed information will be cheerfully furnished by any railroad agent, or J. A. Richardson, District Passenger Agent, northeast corner King and Yonge-sts., Toronto, and St. Thomas, Ont.

Spanish Transport Ashore. Havana, Nov. 14.—The Spanish transport Legatip went ashore at 1 o'clock this morning at Punta Boca Gavilanes, near Cienfuegos, Province of Santa Clara, and was totally lost. All the members of her crew were saved.

Still the Street Railway. Then came the anti-election flood of factitious motions. The first, by Ald. Wood and Duba, requested the Engineer to report as to (1) the number of passengers each class of street car used by the Toronto Railway Company should carry, and (2) if the tractors now in use by the company are such as the agreement calls for; if not, that the City Engineer be requested to condemn them. It was carried.

Will Inspect New Schools. On motion of Ald. Burns and Hubbard, the invitation of Chairman S. W. Burns, a prospective alderman candidate in Ward 4, to Council to inspect the additions and new school buildings was accepted. The Mayor is the City Engineer be requested to condemn them. It was carried.

To Cutters the Don. The Works Committee will also handle this one by Ald. Richardson and Leslie: "Whereas the Don is only an open sewer and the idea of ever being navigable in the out of the question, owing to the lowering of the level of Lake Ontario, also the rapid

SPECIAL TO WEAK MEN

Dr. Sanden Offers a Special Mode of Treatment Which Never Fails to Cure.

Special Treatment. The use of Dr. Sanden's Electric Belt has become so general for all kinds of nervous and chronic weaknesses that it has urged Dr. Sanden to construct a belt adapted especially for this class of sufferers. He has perfected a special appliance which permeates all the vital organs with a steady flow of vital strength, and is prepared to assure the complete cure of all cases of Weakness, Varicocele, Wasting

A SOLDIER SUICIDES. It is Surmised Because He Was Ordered to Manilla. Baltimore, Md., Nov. 14.—Lieut. Herman G. Dressel of the United States Navy committed suicide in the Carrollton Hotel, this city, this morning, by shooting himself in the head. From papers found on his body it is surmised that he killed himself because he had been ordered by the Secretary of the Navy to Manilla to join the United States ship Zafiro.

A Magic Pill—Dyspepsia is a foe with which men are constantly grappling but cannot exterminate. Subdued, and to all appearances vanquished in one, it makes its appearance in another direction. In many cases the apparatus is as delicate as the mechanism of a watch or scientific instrument in which even a breath of air makes a variation. With such persons disorders of the stomach ensue from indigestion. To these Farnham's Vegetable Pills are recommended as mild and sure.

By destroying all living poisonous germs in the blood Radam's Microbe Killer is a sure and safe cure for all diseases of the Throat, Lungs, Kidneys, Liver and Stomach, Female complaints and all forms of skin diseases. No need to remain ill, it cures disease. Pamphlets to remain ill, it cures disease. Pamphlets to remain ill, it cures disease. Pamphlets to remain ill, it cures disease.

Exhausting vital drains (the effects of early follies) thoroughly cured; Kidney and bladder affections, Unnatural Discharges, Syphilis, Pimples, Lost or Falling Nails, Liver and Stomach, Old Gleet and all diseases of the Genito-Urinary Organs a speciality. It makes no difference who has fallen to cure you. Call or write. Consultation free. Medicines sent to any address. Hours—9 a.m. to 9 p.m.; Sundays, 3 to 9 p.m. Dr. Reeve, 333 Jarvis-street, southeast corner Gerrard-street, Toronto.

EXPORT DEMAND WAS GOOD

And Nearby Wheat Deliveries Ad-

vanced.

Higher Quotations in Liverpool,

Paris and Chicago—Decrease in

European Visible and in Quanti-

ties Afloat—Good Increase in Am-

erican Visible—Toronto Stocks—

Notes and Gossip.

Monday Evening, Nov. 14.

Liverpool wheat was strong to-day,

the spot article advancing 1/4 and futures

about 1/4 per cent. Paris wheat closed

15 to 20 centimes higher and flour 20

to 25 centimes higher than yesterday.

Chicago also ruled rather stronger to-

day on the higher cables, the good demand

for the spot article, and the reported de-

crease in the European visible. Though

receipts were not so heavy as last month's

deliveries turned a full cent above Satur-

day's final figures.

Liverpool main futures closed 1/4 to 1/2

per cent higher than yesterday. Mid-

west corn held heavy on expected in-

crease.

Bacon, heavy long cut, declined 1/4

at Liverpool.

Total clearances to-day: Wheat and flour

220,000 bushels, corn 82,000 bushels.

Exports at New York to-day: Flour 10,

283 barrels and 21,879 sacks; wheat, 166,112

bushels; corn, 11,000 bushels.

New York reports 150 loads of wheat taken

for export to-day.

Philadelphia worked 300,000 bushels of

corn to-day.

Wheat receipts at Minneapolis and Du-

luth to-day 1836 cars, against 1896 the same

day of 1897.

St. Louis, wheat receipts to-day 114,000

bushels, against 101,734 bushels a year ago.

Primary wheat receipts to-day 2,015,000

bushels, against 1,667,000 bushels the same

day last year. Corn 674,000 bushels, against

668,000 bushels.

Car receipts of grain at Chicago to-day:

Wheat 470, corn 498, total 968 cars.

For Tuesday: Wheat 460, corn 400, total 860

cars.

Last week's imports into the United

Kingdom: Wheat 228,000 quarters, maize

135,000 quarters, flour 252,000 bbls.

December wheat puts at Chicago 634c,

cash 67 1/2c. May corn puts 33 1/2c, cash

63 1/2c.

The deliveries of flour and wheat at the

western primary markets last week were

220,000 bushels of flour and 166,112 bushels

Stocks at European

ports, Nov. 14. 24,000,000 31,880,000

Stocks at European

ports, Nov. 14. 22,000,000 25,000,000

Summary of increases—

In United States and

Afloat for Europe, 2,340,000 17,880,000

All European ports, 1,730,000 6,280,000

Total increase, 39,785,000 61,722,000

Considering the big crop everywhere this

year the above figures are evidence that

farmers have passed slow to sell this season.

Foreign Visible.

The English visible supply of wheat last

week decreased 48,000 bushels, and the

European 190,000 bushels. It is figured

that breadstuffs will to-morrow show an

increase of 1,350,000 in the world's visible.

Grain at Toronto.

Nov. 14, Nov. 7.

Wheat, bush 37,555 42,194

Barley, bush 38,920 23,138

Oats, bush 4,800 3,000

Peas, bush 850 850

Rye, bush 500 500

Canadian grain stocks to-day: Wheat 2,050,

000 bushels, corn 9,878,000 bushels, oats

821,000 bushels.
