

HAMILTON HAPPENINGS

DON'T MAKE BONFIRE OF YOUR RUBBISH PILE

City May Get After You as a Result of the Firemen's Experience on Saturday.

HAMILTON, March 27.—(Special).—The firemen were called out to attend to a grass fire on Argue-street Saturday afternoon. They found several bonfires raging in the district, started by people who were tidying up their lawns and yards. They made a circuit and extinguished all the bonfires, and may apply for summonses for those who started them, as the practice of burning rubbish on the streets is contrary to by-law.

Frederick Grafton, North Hess-street, an employe of the Moyden Britannia Co. died Saturday afternoon, aged 41.

Mrs. Grossberg, who, while sitting in the Gore Fair Saturday afternoon, was trampled by Samuel Hanna's runaway horse, was resting comfortably at the City Hospital to-night. One wound in her head required ten stitches. Hanna's collarbone was broken.

Thomas Anderson, 22 Oak-street, was seized with a epileptic attack at the corner of Emerald and Cannon-streets, and was taken to his home in the ambulance.

Objects to Kisses. John Ballantyne was in the police court Saturday charged by his wife with non-support. She complained that he was constantly demanding kisses of her, and abused her when she failed to comply. The magistrate gave them until Monday to settle their troubles, making pointed remarks about a whipping for the benefit of the husband.

At a meeting of the police committee on Saturday, Mayor McEwen presided. He testified before the committee dealing with the Miller bill, one of the detectives stating that he had bet while on duty at the race track. All the commissioners expressed disapproval of his conduct in betting, but no definite action was taken. The by-law will be amended so as to allow taxicabs to charge \$5 an hour.

Stewart Munro, arrested Saturday on the charge of stealing a \$100 brooch from Miss Carrie Warner, Detroit, made no fight against extradition, and was taken back to Detroit Saturday afternoon.

Building Boom. The value of buildings for which permits have been taken out for this year amounts to about \$500,000. The building of the registry office for which \$28,000 was voted has been blocked temporarily because when the tenders were opened it was found that they totaled up to \$29,000.

Jos. Schorer, proprietor of a lunch room, the stock of which was sold out for arrears of taxes, threatens to bring an action against the city for \$20,000 damages.

In connection with the rival merger schemes being promoted by different factions of the Hamilton Steel and Iron Co., the Nova Scotia Steel Co. offered as high as \$175 a share for a block of 6000 shares.

Hotel Hanrahan, corner Barton and Catharine-streets, Hamilton, conveniently situated and easily reached from all parts of the city. Erected 1906. Modern and strictly first-class. American plan. Rates \$1.50 to \$2 per day. Thomas Hanrahan, proprietor. Phone 1465.

PRES. TAFT SNUBS PROFESSOR WHO CRITICIZED HIS DEEDS.

SYRACUSE, N.Y., March 27.—President Taft has administered a decided snub to Chancellor James R. Day of Syracuse University, and the Syracuse alumni are the principal sufferers. He has withdrawn his acceptance of the invitation to speak at the alumni banquet at the Hotel Brevoort in New York next Wednesday evening. The president gave as his reason the speech of Chancellor Day, noted as the standard oil champion before the Traffic Club at Pittsburg last Friday, in which the chancellor attacked the president for his alleged use of federal patronage to sway congress.

It was planned to have the president and Chancellor Day as the guests of honor at the dinner.

OBITUARY.

John R. Wilson. The death occurred on Saturday, the 26th inst., of John R. Wilson, of his home at 41 Salem-avenue, after an illness of several months. Deceased was born in Thornhill 61 years ago, and came to Toronto when but a young man, and had lived here ever since. He was a prominent member of the Orange order, having been treasurer of McKinley L. O. L. No. 275 for fifteen years. He is survived by a widow and two children, a son, Harold, and Mrs. A. Rosebatch, of this city. The funeral will take place on Tuesday at 2:30 p.m. Mount Pleasant Cemetery from above address.

YOUNG GIRL STRANGLED AND BODY SET ON FIRE

Terrible Attempt to Destroy Body of Victim, Who Had Been Lured to Her Doom.

NEW YORK, March 27.—The body of Ruth Wheeler, the little girl graduate who was lured from her widowed mother last Thursday by a decoy offer of employment, was found late Saturday afternoon huddled in a gunny sack, on a fire escape outside the apartment of Albert Wolter, the man charged with her abduction. She had been strangled with a short end of rope, hacked with a knife, burned beyond recognition, and thrust carelessly out of doors like so much rubbish.

Identification was possible only by shreds of clothing and fragments of jewelry, but there was abundant evidence of how the murder had been done. Around the neck were the charred fibres of manilla rope burnt into the flesh. The apartment reeked with kerosene. There were oil stains in front of the newly painted fire board that hid an open grate.

The girl's clothing and hair had been saturated with kerosene, the fireboard had been removed and the body thrust up the chimney, standing. When the match was touched to her, she burned like a torch. Probably the murderer had hoped for an opportunity to remove the body under cover of the night, but when the girl's disappearance raised such an uproar and he began to suspect he was shadowed he had packed up and fled.

A neighbor living on the same floor of an adjoining house noticed a lumpy bundle outside his window and thinking it refuse, poked it off the fire escape into the back yard with a broomhandle. The bundle moved obstinately and fell with a crash. His curiosity aroused, the neighbor hurried down stairs for the janitor to investigate.

Traced by Decoy Letter. Ruth Wheeler was 15 years of age, the youngest of three sisters bred by their mother, a dressmaker, to self-support. Both the elder sisters are stenographers, and Ruth had just been graduated from a business college.

The girl had been carefully brought up. She was never on the streets at night and her father to come home for 24 hours without explanation more than a caprice. The next morning her sisters, Pearl and Adelaide, in their own rooms, went to the office. Col. Sir Henry Pellatt called the following postcard had been turned over to her:

"Please call in reference to position of stenographer at residence of the secretary. (Signed) A. Wolter, 122 East 106th-street." Investigation at the address given soon showed that Wolter, whose his landlady described as a sickly, white-faced youth of about twenty, with bushy, curly hair and a thick mustache, had left the apartment where he lived with his wife, earlier in the same day. He received many calls from young girls, said the landlady, and had particularly noticed that the last one who called was fresher of face and better dressed than the ordinary run of them.

Betrayed by Wives. With Wolter fled, the detectives waited for his wife. When she appeared they trailed her to a corner, where she met a man answering Wolter's description. He was immediately arrested, taken back to the room he had vacated and searched. At first he denied writing postal cards to the schools, but when detectives traced answers from business schools, addressed to him at various house numbers, he admitted the correspondence, but could not explain it.

Before a magistrate he had nothing to say, but to others he admitted that the woman with whom he was living is not his wife. He met her shortly after coming to this country from Germany two years ago, he said, they fell in love and set up housekeeping. Last summer he and she had worked at Irvington-on-the-Hudson at a boarding house. They came to this city last month and since then the woman had supported him by working in a laundry.

Was Crazy About Women. The parents of Albert Wolter, when found, told in broken English of the difficulties their son had brought upon them. "He was always crazy about women," said the mother. "From the time he was a little boy it was always dancing, pleasure, women, women, with him."

F. W. Morse's New Role. MONTREAL, March 27.—The report comes from Buffalo and is current in railway circles here that Frank W. Morse, former vice-president and general manager of the Grand Trunk Pacific, has been appointed president of the Buffalo and Susquehanna Railway.

Killed by Kite String. SAN FRANCISCO, March 27.—Entangled in the string of a large kite which he was flying, William Fletcher, seventeen years old, was dragged over a steep declivity on Telegraph Hill yesterday, and fell three hundred and fifty feet to his death.

Forest Fires in Pennsylvania. PITTSBURGH, March 27.—Forest grass and brush fires of a more or less serious nature continue to be reported from sections in this and neighboring counties. Even this city is not without its dangers in this respect, for more than half a score of alarms were answered by the department in the outskirts during the day. The runs were all 16 small brush fires.

About This Sale

It's different to the ordinary sale you may hear about any day.

It was not inaugurated because someone else had a sale.

For fifty years we've been leaders in the piano trade—taking the initiative—leading it to others to follow.

It has stirred the whole country for the reason that the buying public have learned to place confidence in the announcements of this house.

The bargains are the biggest ever known in piano selling.

Terms of payment are easy enough to suit anyone. No trouble on this score.

Piano Salon, where Sale is being held, 115-117 King St. West, Toronto, Can.

We come into possession of the Brown building, 193-197 Yonge St., on Friday next, and will remove there as soon as contractors complete the work of remodeling.

The big Removal Sale of the entire stock of Pianos, Player-pianos and Organs held in the warerooms of

"Ye olde firme" of Heintzman & Co.

Makers of Canada's Greatest Pianos

will continue all this week. No like stock of high-class pianos, new and some slightly used, but all in first-class condition—no such size of stock—has ever before been offered the Canadian public—never such prices.

The sale is open to everyone, where ever you may reside. If you cannot come to Toronto, and make a personal selection, fill out enclosed coupon and mail it and learn more about this great sale.

Coupon form with fields for Name and Address, and a return address for Heintzman & Co., Ltd., 115-117 King St. W., Toronto.

Q.O.R. UP AGAINST IT THRU RAILWAY'S ACTION

Sir Henry Pellatt Disappointed That Rosedale Extension Plan Has Fallen Thru.

Since the street railway has positively refused to extend into North Rosedale, the committee arranging for the Queen's Own Rifles celebration next June has a serious problem on its hands.

Col. Sir Henry Pellatt expressed this view last night. Altho Sir Henry is a director of the street railway, his interest in the jubilee justification is apparently uppermost, and he is keenly disappointed that the plan for accommodating the public in visiting the military celebration at the Rosedale athletic field has fallen thru.

Distress in the Stomach

Hundreds of Thousands of Bottles of Nerviline Used Every Year For Curing Cramps, Diarrhoea and Stomach Disorders.

Deadly cramps—the symptoms are not to be mistaken. Suddenly and without warning the patient experiences such agony in the stomach as to contort the countenance and cause him to cry aloud for help.

Because We Study His Likes and Requirements and Strive to Satisfy Them the Best Possible Way

The Young Men's Service this Clothing Store has prepared for Spring is so very out-of-the-ordinary in breadth of selection that it must appeal to the most varied tastes. The clothing is cut over specially drafted young men's patterns and made by expert young men's tailors. The style features appeal to the young man's fancies; and the workmanship throughout is thorough and satisfying.

In the overcoats, handsome grey fabric effects and smart styles with long broad lapels and the buttoned-through effect are profusely shown. In the suits, rich stripe effects in grey are most prominent, while the stone shades and browns are well represented; and there's a smart diagonal effect in the weave that is much favored. Here is more detail about the suits:

AT 13.50—A Stylish Three-buttoned Single-breasted Sack Suit, with dip front coat; imported English worsted material, in stone shade, with colored pin stripes; trousers cut full and fashionable; sizes 32 to 37.

NAVY BLUE CLAY TWILL WORSTED, in a fine woven effect; an English material; three-buttoned sack coat with dressy long lapels and fitting snugly about the collar; well tailored, with good quality linings; sizes 32 to 37. Price 14.00.

AT 14.00—Three-buttoned Double-breasted Sack Suit, with long broad lapels, stylish well-fitting garments; the material we imported from England; it is a stone shade worsted with colored pin stripes; twilled body lining; sizes 32 to 37.

AT 14.00—Fashionable Three-buttoned Single-breasted Sack Suits, long coat with fronts slightly dipped and shapely long lapels; materials are English worsteds, in striped patterns on brown, light grey, olive and smoke grounds; good twilled body linings; sizes 32 to 37.

AT 15.00—Very Stylish Young Men's Suit, in that new wave of English worsted, a diagonal woven herringbone effect, medium grey shade; long single-breasted sack coat with dressy lapels and close-fitting collar; sizes 32 to 37.

AT 16.50—New Hairline Striped English Worsteds, a black and grey pin stripe weave, pure wool material; three-buttoned coat with long lapels; trousers cut full at thigh and in peg-top effects at boots; twilled body linings; sizes 32 to 37.

The Curtain Sale is Under Way

The second day of the big annual event finds thousands of beautiful curtains spread out for the selection of the busy buyers. Patterns almost confusingly various, and in many textures and styles.

But the greatest of all is the old favorite — the Nottingham — in endless new patterns and odd weaves. The wreath and the new square designs vie with elegant scroll and stripe patterns to make the display absolutely complete.

The values we secured by our enormous buying, just when the mills were at their slack season, and glad to take almost the factory cost to keep their men at work. Every price represents splendid value, usually double value, at the wonderful prices named below.

The Ontario Kennel Club's fifth annual bench show was brought to a close on Saturday night. The show was a complete success in every way. Much credit for this success is due to the energetic work of Mr. Frank Metcalfe, the club president, and Mr. Charles Anderson, club treasurer. The Sir Henry Pellatt Challenge Trophy was won by Mr. Tomlinson's spaniel, Speculator, handled by Mrs. Chas. Waters of St. Thomas.

The defeat of John Miles' bull dog was one of the chief surprises at the Dog Show.

Other reversal was when Mr. John Miles' champion, a bull terrier that has won fame all over the continent, got an unexpected setback for the best in the breed by Mr. W. Lewis' Charivari. Modestly high man for the banner single being as a 24 count in the Logan was the only 500, with 526. For two Jims, McGrath d honors, the former the Pride of the Union he pin down, with 616.

The Toronto World

FOUNDED 1890. A Morning Newspaper Published Every Day in the Year. WORLD BUILDING, TORONTO. Corner James and Richmond Streets. TELEPHONE CALLS: Main 520-Private Exchange Connecting all Departments.

MONDAY MORNING, MARCH 28, 1910.

GET BUSY WITH THE TUBES.

There should be no further hesitation about proceeding with the construction of a tube system and its tributary lines thru the unoccupied districts in the newly annexed territories. The Street Railway Company has made its position clear at last, and if it is really in earnest, and not playing a game intended to embarrass the city, the situation has been altogether simplified.

The company, thru Manager Fleming, explicitly declares that it will not build in the new territories, but will confine lines to the city as it existed in 1891, leaving the city to look out for the rest. Mr. Fleming apparently accepts the fact that the company will only have ten years more of the franchise.

The company has also announced its intention to build new lines upon Bay-street, Wellington-street, Victoria-street, Wilton-avenue, Shuter-street, Adelaide-street, Anderson and St. Patrick-streets. There will be strenuous opposition to the Bay-street proposal, and to the line from Queen to Bloor-street thru Queen's Park. Most of the others are inevitable and necessary.

The approval of the Ontario Railway and Municipal Board is requisite before the lines are laid, but the board has already given a measure of approval to the lines mentioned.

The city should not be behind the company in the construction of its tube system. There will be ample opportunity to show that the city is as capable of carrying on the street car business as the company. The city should not be left behind at the start. The tube scheme is being referred to in the public press by corporation correspondents as a "hobby" invented to frighten the railway company. Nothing could have been worse for the city, says this writer, than the expropriation of the railway company. It is pretty certain that he does not look upon the construction of the tubes at the same time as the extension of the company's lines as a measure intended to put the city on its mettle and by emulation to secure as good or better methods in management for the city as the company obtains from its staff.

There must be no bungling about the tube system. To ensure an economic and uncheated despatch of the business, what is needed are brains and care. The city can get both by the same means that other business concerns get them. The city hall authorities are proceeding at present in the proper way, and there is no good reason that as clever experts in engineering, in legal matters, and in traction problems generally cannot be had for advice Toronto as are available for other cities that has a similar undertaking to carry out.

Very much will depend upon Mayor Geary throughout these negotiations. He has it in his power to make a shining record and establish a public ownership system of railway service in Toronto which will be a model for other cities to study. Or he may muddle it by weakness and vacillation, and give the principle of public ownership a setback which might do permanent injury to the city. He might even tempt the citizens by mismanagement to re-own the franchise to the Street Railway Company. His first duty is to secure the necessary experts, and they must be of the first rank. Then he must see that they are permitted to do their work without interference.

GROWTH OF THE CITY. Nothing could more strikingly declare Toronto's remarkable expansion than the fact that although the tax rate has been lowered from 18 1/2 to 17 1/4 mills, the total revenue to be received during the current year will exceed the income of 1909 by upwards of half a million dollars. It discloses a very strong financial position, which should convince the most timorous and pessimistic citizen that the day has come to treat the public service and other problems awaiting solution in a bold and broad spirit. Experience shows that the population capacity of cities increases more rapidly than the population capacity either of the rural districts or of the country taken as a whole, and there is no present likelihood that the ratio will diminish. Nor should it be overlooked that the character of civic administration has an important bearing on the development of the whole country.

Canadian cities have unquestionably been prejudicially affected by a system of restricted local government, partly due to the inheritance of old world traditions, and more largely to the influence of United States practice. Their powers have been jealously restricted and in the older provinces distinctly averse to enlarging the area and quality of their administration. Fortunately the tendency has been less marked in Canada than in the States, and indications are not lacking that in Ontario at least it will be succeeded by a more liberal policy. Perhaps it

NEW YORK WELCOMES CANUCKS.

New York Herald: Special instructions have been given to facilitate the arrival of the Canadian contingent for Easter. There was one from the land of Champlain who was amazed by the accommodating spirit of the people of the United States. He was a Montreal merchant, who had left his car in Albany for a summer on the station platform and, being unfamiliar with the switching system on these railroads, he became separated from his train. His hat and overcoat were in the car which he had left, and without any outer garment or headpiece he arrived here in the early hours of yesterday morning.

"What shall I do?" he asked Mr. Kramer, the station master. "I must go on to Newark, and I have no hat and overcoat, and they will think I am mad."

"That's perfectly easy," replied the station master. "Where did you say you were from?"

"Montreal," answered the hatless and coatless one.

"Canadians may have anything they want here in New York," said Mr. Kramer. "Take my overcoat and hat and welcome."

The Canadian returned in the afternoon to the Grand Central Station where he received his overcoat and his hat all in good order, they having been turned in by the porters.

University Sermon

Basing his sermon on the text, "Christ Liveth in Me," Galatians II, 20, Rev. Griffith Thomas, M.A., D.D., principal of Wycliffe Hall, Oxford, delivered an eloquent address in Convocation Hall yesterday morning.

"The most acute problem which confronts the theologian," said the speaker, "is how to relate the Christ of history with the Christ of experience."

Proceeding, Dr. Thomas dwelt on the great change wrought in the person who had accepted Christ, firstly by a consciousness of forgiven sin and clarified vision, and secondly, by a new direction and purpose to life. The argument of personal experience of the risen Christ had been placed on a sound basis, said the speaker, the it had only occupied the minds of thinkers recently.

After referring to a recent publication which had demonstrated the power of Christ in transforming hitherto hopeless depraved lives into useful Christian careers, he turned to St. Paul's conversion, which he characterized as the greatest testimony to the power of our Lord.

"St. Paul," said the speaker, "was a persecutor. He was a deep thinker and possessed one of the most powerful intellects of that day. He was a man of strong convictions, generally, a man to be feared. Saul of Tarsus had learned to hate Christianity and his conversion is one of the great facts which we have to consider. It was a problem of psychology."

Bauer had called it an insoluble problem, for all Saul's past was against such a change. His worldly interests were against it and his hope of advancement was jeopardized. But from the time of his conversion Paul's individuality was sunk in Christ.

Remembering all these facts, and also that Paul had the credentials of a credible witness, intelligent, candid and disinterested, Dr. Thomas declared that he believed that, then Christ had risen from the dead.

"We can point to St. Paul," he remarked, "as the greatest example of the new life which Christ gives to those who receive him."

The argument of experience, he said in conclusion, was the safest, sanest and most satisfactory test of Christ, for the man who trusted in Him learned the true meaning of spiritual satisfaction.

BEAN HOUSTON'S LONG SERVICE

Yesterday Celebrated His Fifty-Fifth Easter in the Ministry. NIAGARA FALLS, Ont., March 27.—(Special.)—Very Rev. Stewart Houston, M.A., D.C.L., rector of Christ Church here, and dean of Diocese of Niagara, celebrated his 55th Easter as minister of the Church of England to-day, and the 31st year of his ministry here. He is 76 years old and was born in Carleton-place. He was ordained in 1859 by Bishop Strachan, and for seven years was traveling missionary in North Wellington and South Grey, Waterford and Burlington Heights before his next parishes, and on Oct. 1, 1878, he was appointed rector of Christ Church.

WORLD NEEDS CHURCH WITH DRAWN SWORDS

Herbert Booth Thinks the Church Should Be a Terror to Evil Doers.

"When the devil wants to laugh he gets a good look at a clever imitation of a Christian." So said Herbert Booth, evangelist, youngest son of Dr. Booth, the Salvation Army founder, during his address before the Canadian Temperance League, at Massey Hall yesterday afternoon.

Dr. Booth took his text from a portion of the 94th verse of the 18th chapter of Judges: "So the dead which he slew at his death were more than they which he slew in his living." The Bible, he said, has dramatic, argumentative and winsome methods of teaching. Of all the characters on the stage of biblical history, he did not know of one which appealed to him more as typifying the average Christian than Samson. His idea of Samson's life was expressed in four points: One, Samson the conqueror; two, Samson the (3); three, Samson the slave; four, Samson the restored conqueror.

"I think the great need of the world is a church with drawn swords," he declared vehemently. "A church that should be a terror to evildoers." The church with more sermons, melodies and vestments did not appeal to him. He said he saw the possibilities of Canada when he lived in Toronto for a time 14 years ago. He saw then that Canada was going to be one of the greatest countries in the world. But Canadians should get up and fight for the good and not let this country be blighted and ruined like the country across the line. He said Canadians could do it if they wished, he knew.

Coming back to his text he said lions were to Samson but opportunities to show the strength of his God. Christianity means being strong, the victory over evil habits, lust and love of drink.

There was only one thing greater than Samson's strength, and that was his folly. He lost his God by fooling with a weakness. Nine out of ten go wrong in much the same way as Samson did, by fooling with a darling sin. The way to fight the enemy is to fight him on the frontier.

"I think I see Samson in the prison house grinding corn. He typifies ordinary Christians. They get into a grind," said Mr. Booth. They sing a hymn because it is on the sheet, they do not put their spirits into Christianity. They go to church, but they would rather go to a political meeting. Our heavenly Father does not take much notice of the preaching and singing. He looks for the spirit.

Mr. Booth conducted service in the Metropolitan Church in the morning and evening, commencing on a series of evangelistic services to be held for eight days.

Thrift--A Lost Art

Peggy Quincy in The Boston Journal.

Many, I am sure, feel that it admits a spirit of meanness, if it does not bespeak deep poverty, to become the least aggressive and watchful of their own resources. The popular idea seems to be to impress the world, and fool one's self as well, into the belief that one's money supply and one's earning capacity are inexhaustible. There is nothing too good for and nothing towards which the ambitions of the average middle-class family of to-day are frequently set, but the those responsible for lax and extravagant conditions were ashamed to take that interest and control which would establish their households on a more commercial basis.

But if thrift is not the habit of the American people, it is one that has been lost. The families of wealth to the positions they occupy to-day, it is one that the American housewife of the present in her lack of it, scrupulously the best she can do what her husband earns, sneers at, then she may find example among women of ample means, who still practise thrift on a large scale in the conduct of their magnificent homes, both because it is a habit inbred by training and practice and because for all their affluence they cannot afford to let things go at loose ends.

Thrift may not be fashionable. Nevertheless it is true that some of our most fashionable women, with reputations for extravagance and possession of great fortunes are thrifty in the extreme as compared with the woman whose husband earns anywhere from \$500 to \$5000 a year. The woman of wealth demands that she shall receive in full measure for what she pays. She pays the highest price and exacts the highest quality and is not above calling tradespeople to account for negligence and inattention.

Compared with what she has at her command, the middle-class housewife is prodigal. Her money constantly flows out. In conjunction with her husband she aims too often at showing making at least as good an impression as her neighbors, and, if possible, of going them one or more numbers better. Things that are done for show must sacrifice in one or more particulars, and the most common is permanency. Nothing lasts forever. But the woman of means often demands a degree of permanency in her purchases than does the one who should endeavor to make things last as long as they can thru the medium of careful selection and of careful oversight once the things come into her possession.

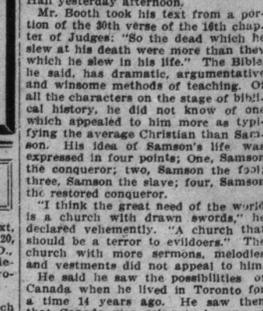

Thrift is exercised in this country by the foreign-born woman and the native of the best stock. It is rather the custom of the exclusive and well-bred American woman. It is not ind-

 The selling of stock by several direc-

 At the rear Kelly gathered in Falvey

 Nicholls had a more exciting time,
 however. Just as he entered the club
 he saw a man running upstairs.
 Nicholls followed and the chase led
 them to the roof. Here he saw his

 a bar was built. Feathers and blood

 place, as also three big beer kegs
 and innumerable whiskey flasks. Sad
 to relate, however, all were empty.

 Supplies of Food Ware Stolen From
 the Caches.

VANCOUVER, B.C., March 27.—(Special.)—Thrilling and exciting
 adventures of a Canadian Northern
 survey party engaged during the past
 winter in making a preliminary line in
 northern British Columbia.

On a return trip from Yellowhead,
 the engineers found that previous catch-
 ing of food had been stolen by Cree
 Indians, a party

DEATH IN COLLISIONS
 Electric Cars Crash, Kill Three Men
 and Set Fire to House.

LIMA, Ohio, March 27.—Two men
 were killed, one was fatally injured, and
 a house was burned to the ground as
 the result of a collision between two
 interurban electric cars near here
 to-day. Both trains were destroyed.
 The collision occurred at a place where
 the tracks curved around an unten-
 dered house. Both cars were going at
 full speed and crashed into each other
 with terrific force. An exploding fuse
 set the structure on fire, a blaze which
 communicated with the house and com-
 pletely destroyed it.

STERLING, Kansas, March 27.—Two
 persons were killed and three injured
 to-day when an automobile collided
 with a street car. The four occupants
 of the buggy escaped serious injury.

KANSAS CITY, Mo., March 27.—Eight
 persons were injured in a collision
 between two crowded street
 cars to-day.

MAY END IN EARTHQUAKE
 Huge Quantity of Bottled Lava That
 Must Find an Outlet.

CATANIA, Sicily, March 27.—While
 the quantity of lava at the craters of
 Mount Aetna continues to decrease,
 the internal activity of the volcano was
 stronger to-day than yesterday. Frank
 A. Perret, the volcanologist, believes
 the decrease in the flow of lava is due
 to obstructions in the new crater
 that prevent it flowing freely and
 that later, either in a few days or per-
 haps in a week, the molten mass either
 will force a passage or a earthquake
 will result.

Seven more men will be added to the
 Arthur fire department. Chief
 Strachan has recommended the follow-
 ing increased wage scale: First year,
 \$65 per month; second year, \$70; third
 year, \$75.

**Trouble with
 the Stomach**
 That Can Only Be Cured When Liver
 and Kidneys Are Set Right by DR.
 A. W. CHASE'S KIDNEY
 and LIVER PILLS.

It is customary to put all the responsi-
 bility on the stomach for indigestion
 and its accompanying discomforts.
 This is all wrong, for almost always
 the kidneys are to blame, and you
 find among the symptoms consti-
 pation, backache, biliousness and head-
 ache.
 You will be surprised how quickly
 Dr. A. W. Chase's Kidney and Liver
 Pills will regulate the liver, kidneys
 and bowels and get the digestive sys-
 tem into good working order.
 If you are in earnest about a cure,
 don't bother any more with mere sym-
 ptomatic remedies, but get the whole system
 of poisonous impurities by using Dr.
 A. W. Chase's Kidney and Liver Pills,
 and you will know once again the plea-
 sure of lively living.
 This medicine gets at the cause of
 trouble and makes the cure complete.

 There is a belief here that conces-

 There is one more chance for trouble

Taft's Personal Triumph
 Given Credit for Preventing the
 Tariff War.

NEW YORK, March 27.—The Wash-
 ington correspondent of The Tribune
 (Rep.) says:
 "President Taft achieved a great
 personal victory to-day when he
 brought to a successful conclusion the
 tariff negotiations with Canada. Con-
 fronted with an apparently hopeless
 situation, with many industries along
 the coast of the Canadian border
 and the diplomats of both coun-
 tries hopelessly discouraged, President
 Taft requested the negotiators at
 Albany last week with the Cana-
 dian minister of finance, W. S. Field-
 ing, and the result is a notable triumph
 for the well recognized diplomacy of
 William Howard Taft.

So determined to achieve success
 was Mr. Taft, and so resolutely did he
 guard the negotiations that when he
 returned to Washington he did not con-
 fide the details to any one, even leav-
 ing the British ambassador, who called
 at the White House immediately, in
 the dark.

Both the president and Secretary
 Knox feel constrained to treat of the
 details of the agreement as entirely con-
 fidential until the time for the official
 announcement, but the fact is that
 they include certain concessions by
 Canada on schedules in which this
 country is especially interested, it hav-
 ing been shown that the treaty between
 Canada and France contains a number
 of concessions which even if granted to
 this country would afford no material
 benefit to American producers and ex-
 porters.

Under the existing treaty between
 Canada and France the latter country
 receives the conventional rate on about
 ninety articles. As to many of these,
 however, the United States has little or
 no interest, and there is reason to be-
 lieve that this government has con-
 sented to receive the intermediate rate
 on much less than half that number.

**The tariff experts who have suc-
 cessfully conducted this large work take
 particular pride in the fact that for the
 first time the United States now en-
 joys the minimum tariff rates of all
 important nations. Heretofore, Ameri-
 can goods have generally paid the max-
 imum rates and the tariff has been
 way into foreign markets solely on the
 basis of their superior merits or be-
 cause they could not be produced out-
 side of America.**

The Times correspondent says:
 "There is great relief and satisfaction
 in admiration over the new agree-
 ment. The tariff experts who have suc-
 cessfully conducted this large work take

OUR reputation and guarantee of excellence stands behind every instrument offered, whatever the price, at this great Sale.

A Mason & Risch Sale, by its very rarity, spells Opportunity. Such Opportunity as may not occur again in a lifetime.

The Value of a Ten Dollar Bill
 There are occasions in life when even a small sum of money, wisely used, will produce results that will echo on for good throughout a lifetime. We have all had such opportunities—we have not all been equally far-seeing in grasping them. This great Stock-Taking Sale of high-grade pianos at mere fractions of original cost is emphatically just such a psychological moment for all those who would like to grace their homes with that greatest of all influences for beauty and refinement—a high-grade Piano.

"Every Piano Must Go! Customers to Make the Terms"

THESE are the orders given our Sales Staff. Not only have the prices of the largest stock of all high-grade new and used Pianos in Canada been cut down to and under the half-price mark, but the utmost liberality in terms is being ordered. Ten dollars cash will send you home the Piano you have always wanted—the high-grade instrument of enduring worth that should be there. Think what this means: A new Piano for as low as \$247—splendid examples of standard makes, slightly used but in perfect repair—down to \$169. Who can afford to disregard a saving of from \$75 to \$175 when it concerns such a weighty purchase as a Piano—the purchase of a lifetime? Don't delay. Come and inspect for yourself the bargains unprecedented in the history of the Piano business in Canada. It is unlikely that we will ever be able to duplicate them. Act now. This is your opportunity.

THE OPINION AT OTTAWA
 Serious Promise of Uncle Sam To-ward Reciprocity is Expected.

OTTAWA, March 27.—(Special.)—
 There is no official confirmation here of the report of a definite settlement of the tariff trouble between Canada and the United States, but it is believed that the Washington despatches more or less accurately describe the situation. It is probable that when the announcement is made, it will be found that Canada has not in any degree sur-
 rendered the principle for which the government has been contending
 viz., that in trade matters we are and must remain absolutely independent of the United States.

Terrible Method of Suicide Employed by Quebec Woman.
 QUEBEC, March 27.—Saturating her clothing with coal oil and then applying a lighted match, Mrs. B. Giroux, a young married woman at Montmorency, chose a horrible method of committing suicide to-day. Her body was burned black and almost to a crisp before her husband's arrival. She was about 27 years of age, and the mother of four children. She had been ill for some time and her mind had become unbalanced.

NONCONFORMIST VIEW OF BRITISH POLITICS

Sir Robert Perks Tells of Present Conditions—Parliament Membership a Farce, He Says.

NEW YORK, March 27.—Sir Robert Perks, who is at the St. Basil, is the Nonconformist part of the population of the Roman Catholic element of the country. He is speaking of the much larger portion of the population than the Duke, the Methodists and other Nonconformists represent. It is estimated, fully one-third of England.

Sir Robert is often called the biggest Methodist in England, and he is the one who has been most prominent in the conclusion that it needed a fund of a million pounds for educational and other purposes. He raised the slogan, "A million pounds from a million Methodists," and actually raised it.

Why He Quit Parliament. "Why did I get out of parliament?" Sir Robert repeated yesterday when asked to explain his resignation.

"I realized that I was too busy to stay in it. When I put to myself the question, 'What have you got by being a member of the House of Commons?' I realized that I was too busy to stay in it. When I put to myself the question, 'What have you got by being a member of the House of Commons?' I realized that I was too busy to stay in it.

"A busy man cannot afford to give his time to parliament. He goes and sits in the house of commons and listens to speeches that are mere repetitions, and only the echoing of the pronouncements of ministers who are misinforming him on the subject which is under treatment. To a business man who is accustomed to quick decisions, who knows his own mind, it is irritating to listen to the playing to the galleries and the government of the house of commons, which is a farce.

"Commons Echo of the Ministry. "Persons in countries who have not kept their eyes on British parliamentary institutions are unable to appreciate the fact that the house of commons nowadays is merely an echo of the ministry that is in power. Ours has become an oligarchical form of government. The house of commons represents about the same amount of power as would an equal number of wooden arms, unless you who happen to be a member, are in the government or are expected to be. There has been a tremendous change in the commons in twenty years, for in that time the power of the great members has been reduced to a shadow.

"The present Liberal government is a fact that the house of commons is the Irish, with eighty votes that are always in the market. 'Something for the day' they are always ready to make. The house of commons is a market. There are the labor members, all paid by the different labor organizations to which they belong, and whose object is to divert taxation for what are called social objects, which are not the objects of the commons, and have it and giving it to those that have it. They would turn over to the state all means of producing anything that is a home of the state, into which the commons could be admitted at any hour of the day or night to see whether the commons was doing his duty as a citizen. The commons would take away property, making the equal number of wooden arms, and say the man who will not work the same as the man who will.

"Then there is the Liberal party, which is split into two irreconcilable sections, the strongly imperialistic, advocating a powerful navy, and following the old Gladstonian traditions of finance, favoring a sound, modern and progressive reform, and holding that the commons must be left free as far as possible of state control in building up a business and his home. This was the policy of Mr. Asquith, Sir Edward Grey and Mr. Haldane.

"The Socialistic Section. "Then there is the socialistic section of the Liberal party which is strongly socialistic, opposed to a powerful navy and crying out for peace when there is no peace, and not likely to be, in favor of universal arbitration and putting great burdens of taxation on the rich and the industrial classes. This wing is led by Lloyd-George, whose great qualification, and I may add, his only one, is that he is a brilliant speaker. He calls himself a 'child of the mountain' and a 'son of the people,' but in the twelve months which he has been in office as chancellor of the exchequer he has got the finances of our country into most awful muddle of any chancellor since the days of Lord North.

"These two resolutions of the house of commons, stripped of all their verbiage, simply mean that Great Britain is to be ruled by a single chamber, and in the lifetime of one party any measure, however repulsive to the country it may be, must be passed by the house of lords, or must go to the King for approval, when the lords reject it, and the commons have passed it three times in one session of parliament.

"In my judgment, the English electors have got to choose between an efficient second chamber or no second chamber at all. If we have a second chamber it ought to be greatly reduced in numbers from the size of the house of lords. The hereditary principle should no longer be recognized, and if I had my way we would have a second chamber of 100 members, elected for life, and a commons of 100 members, elected for five years.

"The Commons of the Future. "The commons of the future should be a commons of 100 members, elected for five years, and a commons of 100 members, elected for five years. The commons of the future should be a commons of 100 members, elected for five years, and a commons of 100 members, elected for five years.

NO GOLD ON SURFACE

But First Blast Produced Showings of Free Gold All Thru.

Mr. B. E. Cartwright of the Timmins silver mine at Cobalt arrived at the King Edward Hotel on Saturday morning from the Porcupine gold camp. Mr. Cartwright confirms the reports of the Timmins claims to Mr. Dennison, president of the Buffalo mine, and some other gentlemen interested in the International Nickel Corporation. The Porcupine camp is full of people, including capitalists, and big developments will soon be in order. The Timmins people are down about a foot in their shaft and are getting surprisingly good ore at that depth. Mr. Cartwright saw and heard of other good claims where good showings are reported.

Mr. Cartwright saw a blast made on a claim owned by George Wishart with no indications on the top, but when the blast was made a quantity of rock showed free gold and lots of it. At present the road into Porcupine is good, but with the soft weather any road will be a month before the camp will be in touch with the outside.

Mr. Cartwright says everything looks good at Cobalt. The Timmins mill is now running turning out concentrates. The mill is being run by electricity from Hound Chutes Rapids (Compressed Air) and will be placed thru the camp now from the Matibewan.

VALENTINE MINES, LIMITED. J. H. Wadsworth & Co. of Montreal presenting a mining proposition claimed to be different to anything presented to the public who deal in Cobalt. The new company is named the Valentine Mines, Limited, and will acquire the property known as the "Large," located near the Silver Cross, E. T. Mines, Belmont, Kerr Lake and Crown Reserve mines. The public subscription will be made at the actual cost price of the property. J. H. Wadsworth & Co. will receive 150,000 shares as payment in full for promotion of the company. Every dollar raised goes into the treasury of the company and no commission is paid to the promoters. As for the veto resolutions, I expect they will go to the house of lords and there will be rejected, and this will involve another general election within a few months. Then you will find the country will get pretty tired of the squabbling and discover that it does not exist merely to keep or to elect a government. "A Fool There Was." Robert Hilliard and the members of his distinguished company arrived in Toronto last night from Buffalo. They were accompanied by the Thompsons, a mechanical band, and a troupe of the best scenic production of "A Fool There Was." In which Mr. Hilliard will be seen for the first time in Toronto to-night at the Princess Theatre.

Mr. Hilliard's most recent visits to Toronto have been to a vaudeville attraction, and he has appeared on several times as the most important attraction on the season's bill. Last spring he deserted the "varieties" for a more serious career. This is the time set for the annual theatrical production of the "varieties" for a more serious career. James T. Powers in "Havana." The George Edwards musical comedy, "Havana," which enjoyed a prosperous run of three years in London, England, will open to-night at the Royal Alexandra Theatre. The original New York Casino company will present the play here, and it will be the only city visited in Canada.

Friday, April 1, is the day for all lovers of theatricals to keep marked on their calendars. This is the time set for the annual theatrical production of the "varieties" for a more serious career. Actors' Fund Benefit. A benefit performance in aid of the Actors' Fund of America will be given at the Princess Theatre on the afternoon of April 2. The performance is to be under the patronage of Lieutenant-Governor and Mrs. Gibson, and should prove most interesting, as there will be talent from all the various theatres of the city. The benefit here is to be coincident with performances in all the principal cities of Canada and the United States, as the members of the profession are taking up the project with great enthusiasm.

Special Matinee at Grand. "The Man of the Hour" opens with a special matinee to-day at the Grand.

Vocal Recital. Jesse L. Lasky's "The Twentieth Century" heads the bill at Shea's Theatre this week. This stirring feature is in three scenes and carries a company of 30. The final scene shows the rear end of the observation platform of the Twentieth Century Express, whizzing thru the country at 60 miles an hour. Stuart Barnes, the American monologist, will be the special feature of this week's big bill. The Six Flying Bananas, Gordon-Pickens Company, Ed Cota, J. Rubens, Bowman Bros., and

Chicago Stays "Wet" Efforts of "Dry" Workers for April Election Nullified. CHICAGO, March 27.—Chicago has lost its chance to vote on the saloon question at the election on April 5, according to a decision reached by the election commissioners.

The "wets" had filed a complaint asserting that out of the 74,000 names on the "dry" petition, 28,128 were those of non-voters. The commissioners sustained this charge, and the prohibition forces to-night declared too little time intervened between now and election to permit of court action to have the question submitted to the voters.

A company is being formed under the laws of the Province of Ontario, capital \$1,500,000, par value \$1.00 per share, and to be known as the "VALENTINE MINES, LIMITED." This Company will acquire the property now known as the "Large" claim, being located immediately adjoining the Belmont and E. T. Mines, 660 feet from Silver Cross, 1320 feet from the Drummond and Hargrave, and 2640 feet from Kerr Lake and Crown Reserve mines. Its location cannot be excelled, as it is in the famous Kerr Lake silver district. Its formation is Huronian conglomerate and diabase.

Only thirty days' work has ever been done on the property, but this has disclosed a well-defined pink calcite vein, which has been traced for 150 feet on the lot.

H. Laurence Brown, E.M., manager of Silver Cross, Belmont and E. T. mines, has reported on the property and recommended its purchase.

THE ACTUAL COST PRICE OF THE PROPERTY IS \$28,500.

Of the Capital Stock 712,500 shares will be issued for the property and sold at five (5) cents per share. This will realize \$35,625, of which \$28,500 will cover the actual cost of the property, and the balance, \$7,125, will be placed in the Treasury of the Company for development purposes.

J. H. Wadsworth & Co. will receive 150,000 shares as payment for services rendered and to be rendered. No brokerage commission will be paid by the Company on this offering.

There will still remain in the treasury 637,500 shares, of which 100,000 shares will be offered for sale at ten (10) cents a share.

WE HEREBY OFFER FOR SUBSCRIPTION 712,500 SHARES AT FIVE CENTS A SHARE.

WE CANNOT RECALL AN INSTANCE IN COBALT WHEREBY THE PUBLIC HAD THE OPPORTUNITY OF BUYING AN INTEREST AT ACTUAL COST PRICE. This is a case where the public gets the underwriters' profits; as positively no stock of any kind can be secured below five cents, and no further stock will be offered for less than ten cents. You can therefore see a profit of AT LEAST 100 PER CENT. in your investment.

The mine will be under the management of H. Laurence Brown, E.M., whom we consider the best mining engineer in Cobalt.

Subscriptions at five cents per share will be received on the following basis: All stock will be made out in the name of subscriber and deposited in the Crown Trust Company of Montreal, and an interim certificate issued to subscriber by the Trust Company. The stock will be held by the Trust Company until the Valentine Mines has disposed of sufficient amount of its Treasury stock to properly finance its operations, but in any event the stock will be delivered not later than October 1st, 1910, upon surrender to the Trust Company of the interim certificate.

On or before October 1st this stock should be worth AT LEAST twenty-five (25) cents per share.

SUBSCRIPTION BOOKS WILL BE OPENED AT THE OFFICE OF J. H. WADSWORTH & CO., 704 E. T. BANK BLDG., MONTREAL, AT 9 A.M. TUESDAY, MARCH 29TH, 1910, AND WILL BE CLOSED IMMEDIATELY UPON THE AMOUNT BEING SUBSCRIBED. Subscriptions will be allotted in order of their filing.

We advise you to telegraph or telephone your order immediately, as the issue will undoubtedly be over-subscribed. Never before has the public had an opportunity such as this, to get in on absolutely the ground floor.

The Directors in the Valentine Mines will receive no salary, but may be allowed \$5.00 per day and expenses to each meeting. The minimum subscription to proceed to allotment will be one hundred (100) shares. Under the management of H. Laurence Brown, E.M., J. H. Wadsworth & Co. of Montreal, agreed to cause to be transferred to the Company the property mentioned, a copy of the contract being filed, as is this document, with the Provincial Secretary at Toronto.

stitutions, and the color schemes are said to be most varied and beautiful. Mr. Waldron has been most lavish in his expenditure for scenery and costumes, and the big musical numbers are gorgeously costumed. There are three big numbers which are bound to be immediately popular. They are "The Japanese Girls," "The Baseball Girls" and "The Rough Riders." A horse is carried to land walking, one of the scenes and the production in many respects will prove a revelation on the popular price circuit.

Actors' Fund Benefit. A benefit performance in aid of the Actors' Fund of America will be given at the Princess Theatre on the afternoon of April 2. The performance is to be under the patronage of Lieutenant-Governor and Mrs. Gibson, and should prove most interesting, as there will be talent from all the various theatres of the city. The benefit here is to be coincident with performances in all the principal cities of Canada and the United States, as the members of the profession are taking up the project with great enthusiasm.

A Simple Act—
Fraught with Great Consequence

Your first opening of a box of Tuckett's cigarettes, and the extraction of one of the ten fragrant smokes it contains, will lead you straight to smoke satisfaction.

Why "put off" the time of your enlightenment? Why not get to know Tuckett's cigarettes to-day? 10 or 15 cents invested in a package, cannot be considered much of a gamble—when you stop to think that, for fifty years, the products of the Tuckett factories have held first place in the estimation of the knowing ones.

BEDFORD PARK WILL
HAVE PUBLIC SCHOOL

North Enders Want Large Playground—Real Estate is Active—County Noises.

NORTH TORONTO, March 27.—(Special.)—Splendid enthusiasm has marked the proposal to establish another school in the Bedford Park district, and Friday afternoon's meeting will do much to expedite matters. It is gratifying to see the interest manifested in the project by the ladies and the coming summer will probably see the school in operation.

One thing Friday's meeting in St. Clement's Mission Church practically decided upon was to ask for a good block on which to build the school, which will probably be on the McCormick property, to the west of Yonge-street. It was decided that between McDougall's side road and the northern town limits would be a good location.

The offer of St. Clement's Mission Church, made a year or more ago, still stands good pending the completion of the new building. The Bedford Park people have shown commendable zeal in the matter, and are especially busy and report the demand as largely in excess of their highest expectations.

Kidney Disease
Does It Threaten You?

The kidneys struggle hard to maintain purity of the blood and carry from the system the waste materials that liver and bowels should remove. The kidneys become over-worked in this effort and soon their activity is exhausted. Then follows a long train of evil consequences, among them Bright's Disease, languor, excessive blood pressure, poor color, heaviness and sleeplessness.

It is imperative to give the kidneys aid—give them relief from excessive work by using Dr. Hamilton's Pills. Under their beneficent action the liver and bowels will act splendidly, the kidneys will be restored and the entire system will give manifold evidence that it is robust, good health has returned.

For general family use in the rapid cure of stomach trouble, headache, backaches, constipation, kidney and liver ills, no medicine can possibly do more than Dr. Hamilton's Pills of Mandrake and Bismut, 25c per box; all dealers or The Cataract-ozone Co., Kingston, Canada.

An afternoon tea will be given at the residence of Mrs. Wm. McNeely on Thursday afternoon, March 31.

Inspector J. E. Wetlied visited Markham High School last week and expressed himself as delighted with its efficiency. Markham High School now ranks fourth in the Province of Ontario.

BUILT UP FINE DAIRY HERDS. One of the most interesting features of last Wednesday night's presentation of prizes at Thornhill when David Duncan of Don, Ollie Bajcs of Laming and others of the foremost dairymen in the province, were presented with the prizes won in the "farm and dairy" contest was the fine herds of H. B. Cowan, Simpson, Rennie and Mr. Duncan.

In plain yet most effective language, Duncan followed up step by step the long and rugged path which he in common with the early pioneers in York County went before they attained to his present enviable position.

Mr. Duncan was one among the few who early realized the great possibilities in store for the dairymen within a reasonable radius of the city, and laid broad and deep the nucleus of a great dairy herd, to in a measure meet the demand. Mr. Duncan planned his faith to the Jerseys and Mr. Bates, a younger aspirant for the city trade, to the Holsteins. Each in his chosen line has been wonderfully successful.

At the Thornhill meeting, and it is regrettable that even more farmers were not present, a complete and wonderful success which may be attributed to the untiring effort of Mr. Duncan was a number of instances more particularly in the eastern part of the province, where from low unprofitable yields a careful and careful cultivation, not alone that farm, but others had been added, freed from debt and comparative wealth obtained.

The address of Simpson's gold medal open to the Dominion of Canada for the best cultivated farm, was intended to be a practical and not a theoretical one. He has always been a staunch advocate of the underdraining and on the farm of his son at Milliken's Corners underdraining prevails that is practically possible at any place to which this which has made York County as it is to-day, the banner district in the province.
