

BORDEN DENIED ORDERS WERE GIVEN UNFAIRLY

Correspondence With Manufacturers Early in War is Made Public.

SPECIFIC CHARGES MET

Premier Asked Consideration, However, of Extreme Urgency of the Case.

(Continued From Page 1.)

Under but as regards the first over-... contingency he pointed out the urgency of placing orders. If they said the force could not have been equipped in two months...

Another complaint was from the international well-known company. They had built a special wagon for war purposes, but despite repeated requests could find no officers who would even inspect it.

The correspondence contains a complaint from Geo. H. Douglas of the firm of Thomson and Douglas, who claimed that H. Brown, director of contracts, had informed him that Mark Workman in Canada was the only contractor who could make uniforms. Uncivil treatment by Mr. Brown was complained of by several Toronto firms.

Complaints of middlemen alleging that they had influence to secure orders were made by Mr. Murray. Another complaint was that Mr. John M. Doda of the Allen Knitting Mills, assisted by Richard Blain, M.P., secured the order for thousands of blankets which, it was alleged, were farmed out to J. Walshaw of Bolton, Ont., at a large profit. Still another instance was that of the Canadian Shirt Company of Montreal, which failed to get business at \$14.75 per dozen, but later thru H. Johnson of the Murray-Kay Company, secured an order for 2000 similar shirts for \$18.50.

Other instances were cited of the same character by Mr. Murray. Sir Robert Borden made an enquiry into each case cited by Mr. Murray, and replied to the C.M.A. on Feb. 13.

Other instances were cited of the same character by Mr. Murray. Sir Robert Borden made an enquiry into each case cited by Mr. Murray, and replied to the C.M.A. on Feb. 13.

In regard to the contract let to John M. Doda which was cancelled, was farmed out, Sir Robert said that the contract had never been filled by Doda, and the charges of lack of official courtesy, Sir Robert pointed to the strain and pressure under which the officials were working during the first days of the war.

To Cure a Cold in One Day. Take LAXATIVE BROMO QUININE Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

TORONTO MAN GETS SIX MONTHS' SENTENCE

Arthur Lloyd Must Serve Time for Cheque Frauds.

HAMILTON, Tuesday, Feb. 8.—For passing cheques on the Imperial Bank of Toronto amounting to \$25, when he had no account with the bank, Arthur Lloyd Toronto, was sentenced to six months in jail yesterday by Magistrate Telfer.

Charles Crossman, who was hit over the head with a steel bar, was still unable to appear yesterday, so John Fools, 38 North Wellington street, the accused, was again remanded. J. C. Gould, K.C., acting for the prisoner, renewed his bail.

RECORD BREAKERS IN FAST PACE AT STAR

Judging by Applause Chorus, Leading Women and Comedians Ran Dead Heat.

Followers of the burlesque parties should not fail to pay the Star Theatre a visit this week. Yesterday afternoon Jack Reid's "Record Breakers" was the winner, were made strong favorites by the capacity audience just as soon as the curtain was raised on the matinee. Judging by the applause the chorus, leading women and comedians ran a dead heat. The time was a new record for this house and the pace set in the singing and dancing numbers by the chorus was very fast throughout.

Jack Reid, as a dope fiend, is without a doubt Lew Kelly's only opponent. Reid takes the part of a racketeer and the "hop" information that he hands out, seems to be as full of hope as the winners he took as a "dope" when they win at the track. The way in which he tells the "out box" information is very laughable. Ella Gilbert, Lillian Lippman, Edna La Bell and the Escher Sisters plot the string of thirty ponies home in front in the musical numbers.

FEDERAL BANKS PLAN OPPOSED BY PUGSLEY

Canada's Industrial and Agricultural Situation Discussed in House

OPPOSE LABOR BUREAUS

Lemieux's Plan Met With Little Favor on Either Side of House.

(Continued From Page 1.)

dian high commissioner at London. As high commissioner it could be truly said that he was faithful, able and indefatigable. Sir Robert recalled that he himself had come to parliament in 1896, and had served as opposition member under Sir Charles Tupper from 1896 until 1900.

Premier's Personal Recollections. "Altho, of course, it came here the prime minister continued, 'with a high opinion of Sir Charles Tupper, I must say that I found him at close range even a greater man than I had anticipated. I was constantly inspired and impressed by his splendid courage, his optimism, and his firm belief in the resources of Canada and her wonderful future. (Applause.)"

Sir Charles Tupper, the prime minister, said, was a constructive statesman and a great antagonist, but that he delivered strong blows, there was never behind them any personal malice or bitterness.

Sir Robert recalled having visited Sir Charles in August, 1896. He was at the time in feeble health, but his intellect was unimpaired. He was keenly interested in the great war, and discussed with wonderful clearness and insight Canada's duty in the war, the future relations between the self-governing nations of the empire and the world-wide changes that must follow the war. It was his good fortune to live to see all his prophecies about the greatness of Canada fulfilled, and his great policies happily vindicated. No doubt a suitable monument would be reared to the great statesman on Parliament Hill, Sir Robert continued, but his enduring monument would be found from ocean to ocean. Paraphrasing the epitaph of Sir Christopher Wren, Sir Robert said that the visitor to Sir Charles Tupper's grave, who asked for his monument might be told, 'If you seek his monument look about and see that Canada is today.' (Renewed applause.)

Sir Wilfrid Laurier, in responding to the resolution proposed by the prime minister, said that by adopting the same the house of commons would honor it. Sir Charles Tupper, he was the last survivor of that great group of statesmen whom the people of Canada loved to call 'The Fathers of Confederation.' For himself, Sir Wilfrid thought that Geo. Brown more than any other man, had set more than the honor of his name and violent opposition to the legislation between Upper and Lower Canada. Sir George Cartier, with his practical and realistic ideas of confederation a reality by bringing into confederation the Province of Ontario, and Pelly and also contributed to the great work, but it must certainly be admitted that Sir Charles Tupper had shown the greatest courage and change of opinion in the history of the people of Nova Scotia were opposed to confederation, but Tupper, as

premier, had not hesitated to invoke the undoubted power of a dying legislator. Sir John Macdonald, who had accepted the idea of a federation, when once he accepted the idea, however, he became the master and the pilot and steered the ship of state with wonderful skill.

Courage Great Quality. Tupper's commanding quality in Sir Wilfrid's opinion was courage. In a poor Baptist clergyman, he had with great difficulty acquired an education and a place in the medical profession. Yet this poor unknown physician had the audacity to match himself against the darling of the people, the brilliant magnate Joe Howe, then at the zenith of his power. Tupper contested Cumberland against Joe Howe in 1855, defeated him and almost at once became the dominant force in the Conservative government under Sir William Johnson.

Sir Wilfrid went on to say that Sir Charles after serving in the militia in Nova Scotia, came to Ottawa and became at once one of the great figures in Dominion politics. To Sir Wilfrid's opinion, had not Sir John Macdonald been credited to be given for the National Policy and the construction of the Canadian Pacific Railway, Sir Wilfrid's opinion had been somewhat indifferent to protection, but Sir Charles Tupper believed in the construction of the railway as a matter of course. Tupper who organized the syndicate to build it, whose faith in the enterprise never wavered, and who lived to see all his prophecies concerning it more than realized.

Sir Charles Made Mistake. Sir Wilfrid said that Sir Charles Tupper had undoubtedly made a mistake in giving up his parliamentary career to go to London as High Commissioner. He certainly should have succeeded Sir John Macdonald as prime minister in 1891. Four years later than Sir Wilfrid added, 'they waited too long; they sent for him too late.'

For Labor Bureaus. Hon. Rodolph Lemieux addressed the house in support of the resolution declaring that this house recognizes the necessity for immediate national action to deal with the unemployment problem arising after the war and emphasizes the urgent need for a system of national labor bureaus. Mr. Lemieux deplored the decline in rural population and the growth of our cities. He thought unemployment would greatly increase after the war with the return of the soldiers and increased immigration. He referred to the fact that national labor bureaus had been established in Great Britain, France, Australia and the United States.

Crofters' Defence. Hon. T. W. Crofters, minister of labor, said that the government in Australia had never established a labor bureau and the attempted federal bureau in the land was a failure. He referred to the fact that the U.S. bureau had only round jobs for forty thousand men in the Canadian Immigration Department had placed 100,000 of the unemployed in Britain the national labor bureaus were coupled up with government and private industry and violent opposition to the legislation would be ultra-vires of the Dominion.

Mr. Verville, the labor member for Malton, did not take much stock in the Crofters' suggestion. He suggested some practical ways of helping the toiler. Mr. Pugsley (West. Peterboro) announced that the age of poetry and philosophy was past. We had now reached the age of common sense. He did not see much use in establishing labor bureaus.

W. F. Maclean: 'That is what they are proposing to do in the United States. The banks are making a mortgage on the bonds of the land banks by which money is raised to lend to the farmer.'

W. F. Maclean: 'The banks are made depositors for whose money some fine bonds are made, and in many ways they are helped by the government. I would like to see a mortgage on the bonds of the land banks by which money is raised to lend to the farmer as low a rate of interest as possible.'

A. K. Maclean (Halifax) said a great many of our newspapers have assumed that we would have a big immigration after the war. He would like to see a mortgage on the bonds of the land banks by which money is raised to lend to the farmer as low a rate of interest as possible.

Maud Rockwell, the prima donna, sings a number of operatic airs in a pleasing manner in every town so, for circuit, he deserves much credit for the show he is touring with this season. Reeves is a veteran of burlesque-producing and was always noted for the beautiful and well-formed little girls who composed the chorus. These standards have not only been lived up to in this show, but have been surpassed. The old worn-out burlesques have been done away with and two up-to-date farces staged, and sandwiched between these are a number of exceptionally good vaudeville turns.

The German general staff, which entirely controls the war for Germany and her allies, consists of 300 of the ablest military officers in Germany. Instead of remaining at Berlin, it travels about with the Teuton armies. Its duty comprises the choosing of points for beginning an offensive, the calculating of the number of troops required, for the operation, the drawing up of plans of the manner in which an operation is to be carried out, and the issuing of instructions to the generals, who are merely leaders and not planners of campaigns. These men alone are responsible for the direction of the war. The new British general staff, which will be strengthened by the recalling of some of the ablest officers from the staff of the army in the field in Flanders, will not follow the British forces about like the German general staff, but it will direct the war in the various quarters of the globe from London.

Later reports from Greece show that the Germans and their confederates have not yet crossed the Rubicon of the Greek frontier to try their heavy artillery against the heavy artillery of the British and the French, which strengthens the lines defending Saloniki. Doubt is now cast on the veracity of the stories sent out from Germany that the offensive will be begun in this theatre, and on the contrary, it is said that the Germans are very much frightened, and has her soldiers busily employed in entrenching her frontier. Perhaps, concentrations of allied reinforcements in Russia and France and Italy have done much to intimidate the Germans. The Kaiser, accompanied by his general staff, has been flitting about from front to front, making a special study of the situation, and the worse it is the more the Germans may be expected to bluff.

WAR SUMMARY: Today's Events Reviewed

(Continued From Page 1.)

The only recordable achievements in the western theatre of the war these days are those of the British and French guns. The French inventors have perfected a heavier gun than their celebrated 75, their one sure rock and defence in the present war. The 75 excels other guns in its ability to absorb the recoil, and in a minute can be fired from it, while it only takes two or three men to manage one, and once French artillery discover a German trench, even at a range of two miles, they can throw projectiles loaded with melinite straight into it. The Krupp field gun, on the other hand, is quite an obsolete weapon, firing only ten shells a minute, while the British field gun shoots shells, twice as fast. The recoil of the French gun is absorbed by a cylinder filled with nitroglycerine, compressed air and other substances, the composition of which remains secret. For the other hand is opened, the compressed air escapes, and the secret escapes with it. When the Germans stole the carefully guarded plans of the 75 and made a gun according to their elaborate particulars, it would not work, and the German spies found that they were tricked for once in their lives at any rate.

In pursuance of the policy of making the British high command adequate to the direction of forces four million strong, some important changes are being made in the imperial general staff, one of the latest being the instructing of Sir William Robertson, the new chief of staff, to send his reports directly to the cabinet, instead of sending them by way of the war office, the object evidently being to relieve the minister of war of a burden in order that a civilian of some general military knowledge, discretion and character and broadness of mind may perform that duty and enable the government to employ Earl Kitchener in an active capacity more in conformity with his native genius. The attempts of his enemies to cast aspersions on his fame have been childish as well as malicious, and they arise from ignorance of the British war organization. The direction of military operations in the British Empire is entrusted to the British general staff, which has been in existence for several years, but when the war began, it was only a staff adequate to the direction of an army of 150,000 men. Kitchener is merely making it adequate to an army of 4,000,000 men, and he is out to beat the great German general staff, which it has taken 100 years to build up.

Perhaps, concentrations of allied reinforcements in Russia and France and Italy have done much to intimidate the Germans. The Kaiser, accompanied by his general staff, has been flitting about from front to front, making a special study of the situation, and the worse it is the more the Germans may be expected to bluff.

Later reports from Greece show that the Germans and their confederates have not yet crossed the Rubicon of the Greek frontier to try their heavy artillery against the heavy artillery of the British and the French, which strengthens the lines defending Saloniki. Doubt is now cast on the veracity of the stories sent out from Germany that the offensive will be begun in this theatre, and on the contrary, it is said that the Germans are very much frightened, and has her soldiers busily employed in entrenching her frontier. WAR SUMMARY: Today's Events Reviewed

(Continued From Page 1.)

The only recordable achievements in the western theatre of the war these days are those of the British and French guns. The French inventors have perfected a heavier gun than their celebrated 75, their one sure rock and defence in the present war. The 75 excels other guns in its ability to absorb the recoil, and in a minute can be fired from it, while it only takes two or three men to manage one, and once French artillery discover a German trench, even at a range of two miles, they can throw projectiles loaded with melinite straight into it. The Krupp field gun, on the other hand, is quite an obsolete weapon, firing only ten shells a minute, while the British field gun shoots shells, twice as fast. The recoil of the French gun is absorbed by a cylinder filled with nitroglycerine, compressed air and other substances, the composition of which remains secret. For the other hand is opened, the compressed air escapes, and the secret escapes with it. When the Germans stole the carefully guarded plans of the 75 and made a gun according to their elaborate particulars, it would not work, and the German spies found that they were tricked for once in their lives at any rate.

In pursuance of the policy of making the British high command adequate to the direction of forces four million strong, some important changes are being made in the imperial general staff, one of the latest being the instructing of Sir William Robertson, the new chief of staff, to send his reports directly to the cabinet, instead of sending them by way of the war office, the object evidently being to relieve the minister of war of a burden in order that a civilian of some general military knowledge, discretion and character and broadness of mind may perform that duty and enable the government to employ Earl Kitchener in an active capacity more in conformity with his native genius. The attempts of his enemies to cast aspersions on his fame have been childish as well as malicious, and they arise from ignorance of the British war organization. The direction of military operations in the British Empire is entrusted to the British general staff, which has been in existence for several years, but when the war began, it was only a staff adequate to the direction of an army of 150,000 men. Kitchener is merely making it adequate to an army of 4,000,000 men, and he is out to beat the great German general staff, which it has taken 100 years to build up.

The German general staff, which entirely controls the war for Germany and her allies, consists of 300 of the ablest military officers in Germany. Instead of remaining at Berlin, it travels about with the Teuton armies. Its duty comprises the choosing of points for beginning an offensive, the calculating of the number of troops required, for the operation, the drawing up of plans of the manner in which an operation is to be carried out, and the issuing of instructions to the generals, who are merely leaders and not planners of campaigns. These men alone are responsible for the direction of the war. The new British general staff, which will be strengthened by the recalling of some of the ablest officers from the staff of the army in the field in Flanders, will not follow the British forces about like the German general staff, but it will direct the war in the various quarters of the globe from London.

Later reports from Greece show that the Germans and their confederates have not yet crossed the Rubicon of the Greek frontier to try their heavy artillery against the heavy artillery of the British and the French, which strengthens the lines defending Saloniki. Doubt is now cast on the veracity of the stories sent out from Germany that the offensive will be begun in this theatre, and on the contrary, it is said that the Germans are very much frightened, and has her soldiers busily employed in entrenching her frontier. Perhaps, concentrations of allied reinforcements in Russia and France and Italy have done much to intimidate the Germans. NEWS FROM THE CITY HALL

WHAT CITY COUNCIL DID

Confirmed the appointment of Ald. Sam McBride as chairman of the committee of the whole.

Awarded contract for the year's supply of cement to John E. Russell at a net price of \$1.88 per barrel, the contractor to put up a surety that he will enforce the fair wage clause.

Sent on Sons of England the use of the grand stand and enclosure at the Exhibition grounds for their annual games on Dominion Day.

Approved the appointment of T. J. McMullin as chief engineer at the high-level waterworks pumping station, at a salary of \$2000 per year and residence.

Decided to repair the roads leading to the artillery quarters at Exhibition Park.

Carried a resolution that the city take over the Toronto Street Railway Co. in 1921.

Went on record as favoring the principle of appointing a Toronto Transportation Commission to refer the matter back to the board for further consideration.

Decided to give a banquet to the members of the Hydro-Electric Railway Association of Ontario, when they meet here in convention on Feb. 15.

Sent on instructions to the commissioner of works to see that the work on Mount Pleasant road bridge is commenced without delay, but struck out the reference to civic car lines.

FAIR WAGE CLAUSE IN CEMENT CONTRACT

Ald. McBride Makes Serious Charges Against Empire of Canada Company.

Given Owen Sound Firm Council in Favor of Taking Over Toronto Street Railway in Nineteen-Twenty-One.

Toronto's supply of cement for 1916 will come from Owen Sound, the tender of John E. Russell on behalf of the Union Cement Company having been accepted by a vote of 16 to 3 at yesterday's council meeting.

The recommendation of the board of control against the Canada Cement Company brought out considerable discussion and was the main subject of the meeting.

Apart from this matter, no delay was met in going through the business except when at the outset, Ald. Newman questioned the legality of the contract.

McBride's election to the position of chairman of the committee of the whole. He asked that the matter be struck out of the minutes of the meeting, but was unsuccessful in bringing this about.

In discussing the cement contract McBride made some strong statements. "This matter was sent back because it was contended that the fair wage clause could not be enforced in Owen Sound, and that the city, in awarding the contract to the Union Cement Company was not living up to principle," he said.

The young man was working for the Canada Cement Company," he said. Controller Foster introduced the subject of accepting the lowest tender, claiming that a saving to the ratepayers of \$13,000 would be the result. He referred to the statements of the mayor of Owen Sound and others that the plan was paying the minimum wage, and held that up against the affidavits which were read to the board of control stating that the plant only pays 17-1/2 cents an hour. He believed it was perfectly fair to make a change when that change in fact was being made, and called upon the members to do as they would in their own businesses.

He moved that the clause be referred back and that the city buy in the open market.

Has Money to Fight. Controller Thompson thought that the fair wage clause, and pointed out that the Russell tender was the only one which the city could accept legally. It was the only one which con-

formed to the regulations laid down by the city. "The Canada Cement Co. has money to fight, even when they are beaten fairly," he said. "If the conditions had been reversed, there would have been no such fight."

The controller was of the opinion that the price was lowered for that purpose. "What are we going to pay next year?" he asked. "If you wipe out the small competitor, you will pay 20 times as much. I am anxious to see the citizens money wherever I can, but it's not good business to save \$3000 this year and lose \$30,000 next year. I am in favor of the fair wage clause, and this is a weak attempt to destroy it."

Ald. Gibbons spoke earnestly in favor of the minimum wage for workmen and created a very favorable impression by the clear-cut arguments he presented and produced an affidavit which he said he understood was made by the same party whose affidavit was read to the board of control, which said that two strangers had asked him (the signer of the affidavit) his wages at the Union Cement Co., and his reply was from 25 cents to 27 1/2 cents an hour.

Principle at Stake. He said that an attempt had been made to create the impression that a change in price had come since the tenders were sent in, but gave it as his opinion that they had only been changed in Toronto "to get the contract."

Ald. Singer believed the city might as well make \$13,000 as the plant in Owen Sound, and also he did not agree altogether with Controller Foster, he thought the clause absurd because it couldn't be worked out. "Should another municipality that is willing to pay \$13,000 to help make competition," he said.

Ald. MacGregor based his argument in favor of the Russell tender on the fact that a principle was at stake, and Ald. Robbins could not see the necessity for giving time to discussion when the members year and year to build up other places at Toronto's expense. Toronto would not be doing anything dishonorable by throwing out the tenders.

Controller Cameron emphasized the fact that the city was not bound to accept any tender. Toronto made money last year by going into the open market for goods, and he was going to get out of Toronto to build up other places at Toronto's expense. Toronto would not be doing anything dishonorable by throwing out the tenders.

This idea was not held by Ald. Maguire, who referred to the amount of money saved this year by the city. He had found that the plant was keeping down the price of cement, and if it had to go out of business Toronto would suffer eventually. He moved that Mr. Russell be required to give a bond that the Union Cement Company would supply the cement, and that the minimum wage scale would be enforced.

On the other hand, Ald. Ball could not see his way clear to vote away \$13,000, but was an advocate of standard wages. He had found that the Union Cement Company had paid last summer from 17 1/2 to 30c an hour, and read figures which gave 17 1/2 the majority. He said there was no assurance that the wages asked would be paid, and thought it was merely a matter of dealing in open market or Belleville.

Ald. Whetter moved an amendment to the amendment, that the supply be purchased in the open market. This was lost by a vote of 14 to 11. Ald. Maguire's amendment calling for the bond came next, and carried 19 to 6. Chairman McBride declared the motion of Controller Foster lost, but his ruling was challenged by Controller Cameron, who claimed that Ald. Maguire's amendment should have come after Controller Foster's motion, and not before. The chairman vacated his seat and presented the case to the mayor, who ruled that Ald. McBride was right, and that Controller Foster's motion was lost.

When the report had been gone thru, Controller Foster again moved that the cement clause be struck out before adoption, but again failed, the vote being:

For: Ald. Gibson, Ald. Maguire, Ald. Whetter, Ald. Graham, Ald. Ball—9

Against: Mayor Church, Con. Cameron, Con. O'Neill, Con. Thompson, Ald. McBride, Ald. Risk, Ald. Plevman, Ald. Archibald, Ald. Whetter, Ald. Graham, Ald. Ball—9

Committee Chairmanship. An attempt on the part of Ald. Plevman to open the question of chairmanship on the committee of the whole, met with defeat. When the council was to adopt the minutes of the last meeting, he objected on the ground that the election of Ald. McBride had not been by acclamation and hinted at

CITY HALL NOTES

The city has received a cheque from the Metropolitan Life Insurance Company to cover the insurance on the life of Pte. S. M. Husband, a British reservist, who was killed in France.

There seems to be no doubt now that the punishment handed to District Chief Gunn by Chief Smith of the fire department will be suspension for a short period. No official notice has been sent to the chief that he cannot reduce Gunn, but he has expressed himself as believing that dismissal would be too severe, still maintaining, however, that some punishment must be given.

"Railroading." He said Ald. Robbins' name had been proposed and was adopted. Ald. McBride elected and adjourned the meeting. The motion was that all reference to the election be struck out of the minutes.

Surprise was expressed by several members that the question should be raised, and the mayor pointed out that he had acted according to the names handed him by the city clerk. He did not hear the name of Ald. Robbins in Ward No. 2. Return of roll, Aug. 9. Court of Revision, July 24.

Ward No. 1. Return of roll, May 6. Court of Revision, June 15.

Ward No. 2. Return of roll, June 30. Court of Revision July 24.

Ward No. 3. Return of roll, Aug. 2. Court of Revision, Sept. 20.

Ward No. 4. Return of roll, Sept. 9. Court of Revision, Oct. 14.

Dr. Hastings, who was back at the city hall yesterday, after several days' illness, says there is not a word of truth in the implication made by the board of education that he had approached the mayor and members of the board of control, asking them to favor the taking over of the school medical examination department by his department. The doctor says that he took no action whatever with a view to having the departments amalgamated, and the answer of Mr. McLeod is that the board of control was in mind of bringing together of the two departments.

Not a Symptom Left Anywhere. Dodd's Kidney Pills Cleared Up D. R. McLeod's Kidney Disease.

Nova Scotia Man Tells How and Why He is Enjoying All His Old-time Health and Vigor.

WEST TARBOT, Victoria Co., N. S., Feb. 7.—(Special.)—"Yes, I feel healthy and full of my old-time vigor. This is the answer of Dr. McLeod, a prominent resident of this place, to a question regarding his present health. Everybody here knows that last winter Mr. McLeod was a severe sufferer from kidney disease. And he is most emphatic as to the cause of his cure. "I used seven boxes of Dodd's Kidney Pills," he says, "and not only have I been greatly benefited by their use, but I am entirely cured of every symptom of kidney disease."

The reason people talk so enthusiastically about Dodd's Kidney Pills is that they make them well and over-charge on the kidneys, they put those organs in condition to strain all the impurities out of the blood. That means pure blood carried to all parts of the body. And people who are healthy all over are always cheerful and enthusiastic.

How I Cured My Eyes. This Free Prescription Did It.

"My eyes were in a terrible state; I could hardly stand it. They were red and inflamed; felt as though they had sand in them. They would ache and burn dreadfully, and caused incessant headaches. I could hardly read at all. After wearing my glasses my eyes felt strained and overworked. By chance I met a man whose eyes had bothered him the same way. He gave me the following prescription, which he said had cured him and had enabled him to discard his glasses:

"Five grains of Ben-Opto in two ounces of water. Use as an eye bath by means of an eye-cup three or four times daily—offener if convenient."

"This healing, cooling, soothing lotion does not smart or burn, and is absolutely harmless. Your druggist can fill this prescription, or the Valmor Drug Co. of Toronto can fill it for you.

"If you try it I am sure you will be just as enthusiastic over it as I am. Cut this out so you will always have the prescription."

COMPANY WANTS ITS FRANCHISE EXTENDED

Toronto Suburban Railway. Intend Joining Dundas Line With Georgetown.

ROAD ALREADY BUILT

Hydro Commission and York Township to Discuss Power Matters Shortly.

At yesterday's meeting of the York Township Council representatives of the Toronto Suburban Railway asked council to consider favorably an application for an extension of the franchise enabling the company to connect the present Dundas line with the Georgetown branch at a point near the present terminus of the Dundas line at Lambton. The radial road to Georgetown has already been built by the Mackenzie interests, and if connection is granted they will be afforded an entrance into the city at Keele st.

Reeve Griffiths and members of council were non-committal in the matter, but will confer with the solicitor before granting any further franchise, as the right to extend is claimed as embodied in the original charter. Nothing further will be done, however, in the matter until J. R. L. Lower, in the matter until J. R. L. Lower, reports on the question.

Thomas Manton, one of the trustees representing S. No. 2, stated that \$3000 standing to the credit of the section could not be used at present owing to the reorganization of the district portion of the land by the city some time ago. The matter will be adjusted at a conference will be held between the Provincial Hydro Commission and the council. The idea of the conference is to arrive at a better understanding relative to certain township matters.

OPPOSED TO CHANGE OF HIGHWAY ROUTE

Toronto-Hamilton Road Must Run Along Lake Shore, Hold Etobicoke Council.

That the proposal of Geo. H. Gooderham, chairman, and other members of the Toronto and Hamilton Highway Commission, to deviate the highway from the Lake Shore road to Queen street will be vigorously opposed was shown at yesterday's meeting of the Etobicoke Township Council, when a largely signed petition was presented against the movement. The petition was backed up by a deputation strongly protesting against it. The action of the board was denounced and Reeve Silverthorn said that in consequence of the representations made the bill will be opposed by Etobicoke Council when it comes before the private bills committee this session.

"DYNASTS" PRODUCTION WILL BE A BIG EVENT

Considerable interest is being manifested in the production of Thomas Hardy's vast historical drama, "The Dynasts," which will be presented at the Alexandra Theatre all next week. The different colleges and schools were well represented in the big throng that purchased tickets for the Alexandra yesterday. The dramatic clubs were in line, and also the society contingent. The Duke and Duchess of Connaught will witness the Thursday evening performance.

WANT LABOR BUREAUX.

LONDON, Ont., Feb. 7.—London City Council tonight decided to ask the legislature to establish provincial labor bureaux.

ENTERTAINING PROGRAM BY EPWORTH LEAGUE

"Call of the Nations" Presented in Davenport Methodist Church Last Night.

An entertaining program, entitled "The Call of the Nations," was presented by the Epworth League in Davenport Methodist Church last evening. There was a variety of local and foreign talent, which provided a complete and appreciative concert. J. W. Lanson occupied the chair.

The conferring of the first degree upon five members of Fairview Lodge, I.O.O.F., attracted a large attendance in Colvin Hall last night. The ceremony was directed by William McCullough.

Alex. Haimon, C.P.R. brakeman, fell from a box car while on duty in the yards yesterday morning. He sustained a broken kneecap and was badly shaken up. He was removed in Speers' ambulance to his home at 225 Fern avenue, and later taken to the Western Hospital.

SOLDIER'S BABY WON PRIZE AT BIG SHOW

His Father is a Prisoner of War and Has Not Seen the Child.

Two girls for every boy were entered in the baby show held at the Holy Name Church, Danforth avenue, yesterday afternoon in connection with the fancy fair being held there. Despite this fact, however, all the prizes went to boys. First prize in the class for babies between one and two years of age was awarded to the young son of Mrs. Quinn, and when the award was announced there was great cheering. The baby's father has never seen it. He is Private Quinn of the 48th Highlanders, and has been a prisoner at Solstead, Germany, since the battle of Langemarck, where he was gassed and fell into German hands. Mrs. Quinn says she is going to raise her son to be a soldier like his dad.

There were only two classes in the show. For babies under one year, the infant sons of Mrs. Higgins and Mrs. Wilkins tied for first place, while Mrs. Dunn's young son was second. Mrs. Quinn's son was first in the class between one and two years. Mrs. Albert Thibodeau's baby was second and Mrs. Gordon MacLennan's hopeful was third.

PERTHSHIRE ASSOCIATION.

The annual meeting of the Toronto Perthshire Association, held last night in Occident Hall, took the form of an entertainment. The meeting was over in a short time and the musical program arranged by the association was then presented. The members of the 62nd Highlanders Overseas Battalion were the guests of the evening.

WOULD NOT CHANGE INSPECTION AUTHORITY

In a report issued yesterday Chief Inspector Cowley of the public schools recommends against placing the school medical inspection under the municipal government instead of as it is now, under the board of education. He cites cases in the United States where the school medical inspection is under the municipality and has not been a success, and says that in nearly all of the large American cities school medical inspection is under the board of education. He quotes from a report on conditions in Portland, Oregon, as follows: "The board of health lacks the educational point of view, and makes the school service a side issue of the public health work, and fails to secure the maximum co-operation from teachers and parents."

MONEY FOR MISSIONS.

Toronto Methodists have just completed a series of missionary committee campaign meetings to arrange for raising \$225,000 as Toronto's share of the Methodist home and foreign mission revenue this year.

Rev. C. E. Manning, one of the secretaries of the mission board, and J. H. Condy of the laymen's council, have gone to Montreal to address similar district missionary committee conferences.

COMMISSION APPOINTED TO PROBE OTTAWA FIRE

Judge MacTavish Will Be Associated With R. A. Pringle, K.C.

By a Staff Reporter. OTTAWA, Feb. 7.—At the opening of the house this afternoon the prime minister announced a royal commission, composed of R. A. Pringle, K.C., and Judge MacTavish, had been appointed to enquire into the cause and origin of the fire which destroyed the parliament building, with full power to employ expert assistance and to compel the attendance of witnesses, and, in short, to make a thorough investigation into the great disaster.

Judge MacTavish is the senior county judge of Carleton County, and presided over the insurance commission in 1906-7. Mr. Pringle for a number of years sat in the house of commons for Stormont and Cornwall. He is at present practicing law in this city and has conducted a number of investigations under commissions from the present government.

CHEESE FACTORY PREY TO FIRE AT ROEBUCK

Flames Started in Sawdust Engine Room and Spread Rapidly.

Special to The Toronto World. BROCKVILLE, Feb. 7.—Word has been received here of a disastrous fire at Roebuck, which destroyed the Roebuck Cheese and Butter Factory, together with a new box factory and the dwelling of the proprietor, Mr. Lindesay. The flames started in sawdust in the engine room and spread so rapidly that nothing could be saved. The factory was in full operation, with upwards of 50 boxes of cheese, which were insured for \$1000. On the buildings there was \$4500 insurance, which will not begin to cover the loss.

PERTHSHIRE ASSOCIATION.

The annual meeting of the Toronto Perthshire Association, held last night in Occident Hall, took the form of an entertainment. The meeting was over in a short time and the musical program arranged by the association was then presented. The members of the 62nd Highlanders Overseas Battalion were the guests of the evening.

Pringle, K.C., and Judge MacTavish, had been appointed to enquire into the cause and origin of the fire which destroyed the parliament building, with full power to employ expert assistance and to compel the attendance of witnesses, and, in short, to make a thorough investigation into the great disaster.

Judge MacTavish is the senior county judge of Carleton County, and presided over the insurance commission in 1906-7. Mr. Pringle for a number of years sat in the house of commons for Stormont and Cornwall. He is at present practicing law in this city and has conducted a number of investigations under commissions from the present government.

CHEESE FACTORY PREY TO FIRE AT ROEBUCK

Flames Started in Sawdust Engine Room and Spread Rapidly.

Special to The Toronto World. BROCKVILLE, Feb. 7.—Word has been received here of a disastrous fire at Roebuck, which destroyed the Roebuck Cheese and Butter Factory, together with a new box factory and the dwelling of the proprietor, Mr. Lindesay. The flames started in sawdust in the engine room and spread so rapidly that nothing could be saved. The factory was in full operation, with upwards of 50 boxes of cheese, which were insured for \$1000. On the buildings there was \$4500 insurance, which will not begin to cover the loss.

PERTHSHIRE ASSOCIATION.

The annual meeting of the Toronto Perthshire Association, held last night in Occident Hall, took the form of an entertainment. The meeting was over in a short time and the musical program arranged by the association was then presented. The members of the 62nd Highlanders Overseas Battalion were the guests of the evening.

WOULD NOT CHANGE INSPECTION AUTHORITY

In a report issued yesterday Chief Inspector Cowley of the public schools recommends against placing the school medical inspection under the municipal government instead of as it is now, under the board of education. He cites cases in the United States where the school medical inspection is under the municipality and has not been a success, and says that in nearly all of the large American cities school medical inspection is under the board of education. He quotes from a report on conditions in Portland, Oregon, as follows: "The board of health lacks the educational point of view, and makes the school service a side issue of the public health work, and fails to secure the maximum co-operation from teachers and parents."

MONEY FOR MISSIONS.

Toronto Methodists have just completed a series of missionary committee campaign meetings to arrange for raising \$225,000 as Toronto's share of the Methodist home and foreign mission revenue this year.

Rev. C. E. Manning, one of the secretaries of the mission board, and J. H. Condy of the laymen's council, have gone to Montreal to address similar district missionary committee conferences.

COMMISSION APPOINTED TO PROBE OTTAWA FIRE

Judge MacTavish Will Be Associated With R. A. Pringle, K.C.

By a Staff Reporter. OTTAWA, Feb. 7.—At the opening of the house this afternoon the prime minister announced a royal commission, composed of R. A. Pringle, K.C., and Judge MacTavish, had been appointed to enquire into the cause and origin of the fire which destroyed the parliament building, with full power to employ expert assistance and to compel the attendance of witnesses, and, in short, to make a thorough investigation into the great disaster.

Judge MacTavish is the senior county judge of Carleton County, and presided over the insurance commission in 1906-7. Mr. Pringle for a number of years sat in the house of commons for Stormont and Cornwall. He is at present practicing law in this city and has conducted a number of investigations under commissions from the present government.

NEW GARDENS RECEIVE GIANT DOUGLAS PINE

Gigantic Flag Pole Made of Tree Cut in Forest of British Columbia.

Canadian Associated Press Cable. LONDON, Feb. 7.—The recent arrival at Kew Gardens of a giant Douglas pine from the great forests of British Columbia is the means of there being discovered in the heart of London a real Canadian pioneer—a man who, like the tree, is a splendid specimen of his kind—George Synge, father-in-law of Dr. Ella Synge, of Vancouver, who is also in London at the present time, on her return from Serbia, where she has had a wonderful experience of dodging shells during the bombardment of Belgrade, in which town she was stationed.

H. M. S. CAROLINE NOT HIT BY BOMB

Britain Shatters One More Claim Put Forward by Germany

LONDON, Feb. 7.—The following official statement was issued here today: "A German wireless message today quotes Koenigliche Zeitung reports from the Dutch frontier that on the occasion of the recent air raid on England, M. H. S. Caroline was struck by a bomb in the Humber and sunk, with great loss of life.

WILLS PROBATED

An estate of \$147,914 was left by Captain Ernest Parker of the Royal Highlanders, who was killed in action in Belgium on Nov. 7, 1914. Before the outbreak of war Capt. Parker was living in Vancouver, B.C., as a retired captain of the 10th Hussars.

Hockey Toronto Quebec

MORAN WAS ABSENT QUEBEC WERE BEATEN

Torontos Ran in a Large Score on Amateur Goalers — Rough at End.

Quebec still lead the N.H.A., but thru no fault of their own. The Bulldogs got a real thrashing from Toronto last night, but Ottawa saved the day for the Ancient City outfit by downing Wanderers. Quebec played nice hockey from the defence out. With Faddy Moran unable to take his place between the nets Toronto ran in 11 goals. Quebec collected five.

Roche, a product of the Quebec City League, was easy prey for the blue shirt. They skated up anywhere past centre and let fly at the Quebec net and it generally landed between the posts. The Quebecs let them in under his skates, over his skates and each side of his pads. Soviet, another amateur, got a trial and his work was not much better.

The Quebec forward line was fast and checked well and their defence did some grand rushing, but it went for nothing with the weak work in the nets. Toronto had hardly as much team play as the visitors, but they checked from end to end and went in close.

The players ran wild in the last period and only smart work by the officials stopped a Donnybrook. Both sides had a struggle stored up for their overtime game in Quebec and cross-checks and a few punches were handed out. Kents and Ritchie were the first to use their fists and Cameron and McDonald had a couple of punches to trade. It was not called for, but shows that they were in earnest.

Quebec spread out three across the ice time after time, but hard checking by the locals and fast breaking stopped them. Tommy Smith was well watched and the Toronto defence did nice work when the Quebec forwards came in close. Skinner, the Denney brothers, Randall and Cameron were the best of the Toronto outfit and Malone, Hall, Ritchie and McDonald showed their worth for the visitors. Toronto led at the end of the second period and the final was 11 to 5.

The teams: (5)—Goal, Roche; defence, Hest and Ritchie; centre, Malone; right, Mack; left, Cameron. (11)—Goal, Lesueur; defence, Cameron and Randall; centre, Keats; right, Skinner; left, Cameron. Referee—Cooper, Smeaton, Montreal. Judge of play—Hooper, Toronto.

Quebec — H. Mummy, Crawford, Vovian, McDonald, W. Mummy, 2 minors; Malone, Hall, Ritchie, Denney, Meeking, Brown. Toronto — Ritchie, McDonald, Corbett, Denney, Meeking, Brown. Quebec — Ritchie, 1 major; McDonald, 1 major; Crawford, 1 major; H. Mummy, 2 minors; Malone, Hall, Ritchie, Denney, Meeking, Brown. Toronto — Cameron, 2 minors, 1 major; Keats, 1 minor, 1 major; Cy. Denney, 2 minors; Malone, Hall, Ritchie, Denney, Meeking, Brown. Referee—J. Moxon, Toronto.

PORT COLBORNE WINNERS. PORT COLBORNE, Ont., Feb. 7.—In a new fast intermediate O.H.A. game here tonight Port Colborne defeated Hamilton Rowing Club by a score of 7 to 5. Over 1700 people were in attendance. In the first period the score was 2 to 0 in favor of Port Colborne and in the second 4 to 2 for the same team. Drury was again the star player of the evening. The line-up: (5)—Goal, Morris; defence, Reese and Parker; rover, Etherington; centre, Reid; right, Boyd; left, Dickie. Port Colborne: (7)—Goal, Croker; defence, Gorman and Macdonald; rover, McAvery; centre, Drury; right, Knell; left, Mason. Referee—Lou Marsh, Toronto.

THE NATIONAL COMMISSION has issued a ruling that all Federal League players given their unconditional release by the Fed clubs are to re-join the club that had title to them last in organized ball. The National Commission, which suspended the drafting rules during the recent baseball war, has reinstated them. The drafting season is to be the same in the future as it was before the war, namely Sept. 15 to 20 for all big league clubs.

OTTAWA IN HUNT DOWN WANDERERS

OTTAWA, Feb. 7.—Ottawa defeated Wanderers 3 to 1 in a brilliant game at the local arena this evening. It was fast from start to finish, with hard checking on both sides. Wanderers were again without Sprague Cleghorn, while Ottawa was scored for by the greater part of the team without Art Ross. Nighbow put the Ottawa ahead after 19 minutes play in the first period, while in the second period, Ottawa scored in turn, Ottawa leading at the finish of the second by 3 to 0. In the third Wanderers strengthened up and Bayfit tallied their only goal. Lindsay played a great game in the Wanderer nets, otherwise Ottawa would have trailed the score.

GROUP FOR BELLEVILLE

BELLEVILLE, Ont., Feb. 7.—An intermediate O.H.A. match was played here tonight between Belleville and Pictou to decide the winner of this group. The result was a win for Belleville by a score of 3 to 2. This gives Belleville the group, the locals having played a tie game with Pictou on Friday last at Pictou. In-play: Belleville (5)—Goal, Connolly; defence, Simons and White; centre, Ross; rover, Whalen; wings, Symons and Mitchell. Pictou (7)—Goal, Scott; defence, Redborough and Heffernan; rover, R. Burns; centre, Cooper; wings, B. Burns and Hodge. Referee—J. Moxon, Toronto.

CURLERS PLAY TODAY FOR ONTARIO TANKARD

Forty-second Annual Competition on Keen Ice—Two City Teams in the Draw.

The forty-second Ontario Tankard curling competition starts today on keen ice in four city rinks. Only fourteen of the sixteen groups responded, while two are represented by the runners-up. There were no returns from No. 12, Harriston headquarters; No. 2 defeated, where Port Hope beat Belleville; No. 13, where the runners-up, came from No. 14, which was won by Brockville, while Newmarket takes Shaw's place in No. 15. Toronto has two teams in. The Granites should survive the preliminary round by beating St. Thomas, the Queen City will have a harder time against Sarnia. Play will continue at 2 today, with one winner getting a bye. They will leave the semi-finals and the final, which will be played on Victoria ice.

THISTLES WIN DISTRICT CUP

HAMILTON, Feb. 7.—The finals in the Hamilton District Cup primary competition were played at Victoria ice between Dundas and the Thistles, and resulted in favor of the Thistles by 17 shots. Thistles: C. Choate, C. Lawson, W. A. Holton, H. C. Clarke, W. H. Groves, J. S. Gray, G. H. Douglas, J. G. Collinson, skip. Wanderers: W. V. Scott, D. A. Pirie, W. H. Edgewick, W. L. Brown, R. M. C. Clark, sk. 22. Total... 22. Total... 22. The final competition.

RESCUED WOMAN FROM HOLE IN THE ICE

Lieut. Gilbert is Hero of Life-Saving Exploit at Brockville.

BROCKVILLE, Ont., Feb. 7.—Lieut. Gilbert of the Army Service Corps ventured out on thin ice on the River St. Lawrence at this point to save the life of Miss Codd, who had broken thru while skating. He managed to reach the woman by throwing her his gree-coat, which she grasped, and was pulled out. The woman was a Brookville visitor from Tarrytown, N.Y.

ADDISON TURNS OUT WITH THE RIVERSIDES

New Goaler With East End Club — News and Gossip of the Players.

Dug Addison, the former T.R. & A.A. and St. Michael's goaler, was out with the Riversides last night and will likely be used against Argonauts. Noble was the only absentee from the east enders' practice, but he will be ready to start in the big game.

Ferry Lesueur, the Toronto goaler, is a full-fledged sergeant in the 124th Overseas Battalion. He has special permission to play for the Torontos in their out-of-town games.

Argonauts had the full squad out for practice last night and it was a rattling good workout. Jerry Laflamme and Frank Knight had their hands full trying to keep the forwards out. Burritt was going strong and will fill the place left vacant when Young was moved to Montreal.

COOKSVILLE HEARS OF HYDRO-RADIAL SCHEME

Sir Adam Beck Shows Benefits of Hamilton, Port Credit and Toronto Road

Transmission Station Will Be Installed Which Will Reduce Rates.

Sir Adam Beck, speaking at Cooksville last night, promised those present that the service rates for electric light would be cut from \$2 to \$1.50, as they had requested. He outlined the hydro radial scheme which is to extend from Hamilton to Toronto by way of Port Credit. He explained to a large audience that this railroad would be their own property, and that it would be conducted on the same basis and principle as the electric light scheme. Also the proposed line would not touch Cooksville, he said, "I am sure that you believe that every dollar you have paid into the Hydro-Electric system has gone into the system of the graduates of the Divisional Cyclists. For the latter unit, college men or men with a knowledge of surveying are the most valuable."

CANADIAN CASUALTIES

Fifth Battalion. Severely wounded—Thomas Hogan, Peter Seak. Seventh Battalion. Wounded—Archie Maclean, Scotland. Seriously ill—Theodore Wright, Red Deer, Alta. Tenth Battalion. Wounded—Sgt. Frank Herbert Ryder, St. Stephen, N.S. Twelfth Battalion. Seriously ill—Corp. Wilfred E. Cummings, Colborne, Ont. Fourteenth Battalion. Wounded—Frank L. Pearson, Haliburton, Ont. Fifteenth Battalion. Thirty-second Battalion. Wounded—David S. McDowell, Campbellville, Ont. Pioneer Battalion. Accidentally killed—Pioneer Angus Mc. Kinnon, Procter, B.C.

MONSTER PROGRAM FOR WAR EMERGENCY

Professional Concert Talent Donated Services and Raised Generous Sum.

With the support of Toronto's artists and the co-operation of the general public, a generous sum was realized for the War Emergency Fund thru the entertainment given in Massey Hall last night, when a program of genuine artistic merit was presented. The numbers contributed by the choral section of the Women's Musical Club were very favorably received. This organization consisted of about 45 voices and was conducted by Peter C. Kennedy. The opening number, "Indian Serenade" (Lorena Bergford), was received with enthusiasm, and even more hearty applause greeted the other numbers they gave during the evening. "Venice," by Victor Hardy, was perhaps its best number.

RICHMOND STREET FIRE AFFECTS THREE HOUSES

Twenty Thousand Dollars Damage to Buildings Owned by Imperial Trust

Twenty thousand dollars' damage was done to 19, 21 and 23 West Richmond street, belonging to the Imperial Trust Company, last night, by a fire which started at 7 o'clock from an unknown cause at the southwest corner of the top floor which was vacant. The fire was discovered by George Graham, of the Crystal Cafe, 18 Temperance street, who immediately rang in from Box 425, near the Star Theatre. Berkeley street section was the first to arrive and two ladders of the fire department were used to reach the fire at the rear of the burning building. The flames had obtained a firm hold by the time the fire-fighters started work and dense volumes of smoke poured from the windows and caused difficulty to the firemen. The fire spread along the rear of the building with alarming rapidity. Although fought from the front and rear, it was not until nearly 10:30 that the fire was overcome.

T.B.C. EXCURSION BUFFALO

\$2.70 RETURN Saturday, Feb. 12 Via CANADIAN PACIFIC RAILWAY

DAMAGED BY WATER.

One thousand dollars' damage was done by water to the stock of Anderson & McBeth, hat manufacturers, when a small blaze broke out at the "United Clear Stores" warehouse, 254 West King Street, yesterday afternoon. The Anderson & McBeth store room is immediately under where the fire started, and the heat from above set the sprinkler system going below. No damage was done directly by the fire.

Here is What The PERSONAL LIBERTY LEAGUE

Of Ontario Stands For!

IN response to the numerous inquiries regarding the aims and objects of The Personal Liberty League of Ontario, we append below a Declaration of Principles, which is self-explanatory.

That there is pressing need for such a stand just now in Ontario cannot be denied. Constant inroads are being made upon personal liberty, and it seems to be the belief of many that the individual has no inherent rights which the majority are bound to respect.

Join Us in the Defence of the Rights of Free Citizenship!

NEVER before has there been a time, then, in which it has been so necessary for the people to stand together for personal liberty as during this present year of Grace.

Declaration of Principles

"We are in favor of the proper observance of the Sabbath, but not of laws that restrict the right of the individual citizen to indulge in innocent amusements and harmless recreation on that day."

Application Blank for Membership to THE PERSONAL LIBERTY LEAGUE OF ONTARIO. Includes fields for Name, Business, and Address.

Today's 'Marching Orders'

Every day now drafts of men are leaving for active service. The importance of foot comfort for the military man cannot be over-estimated.

Boys at the front write home for friends to send them "Simpson's Military Boots." They know that every pair is up to the standard.

Both in the present and the South African war these boots have been tried out by many of the men, and have proved their comfort and durability.

So, if you are in training here, come and have a look at these Military Boots.

OFFICERS' BOOTS

(Illustrated above) Strathcona style, knee length, made of selected tan winter calf, heavy double viscolized soles, solid leather heels, laced up front, with two side buckles; neat fitting shape; sizes 5 to 11. Per pair, \$11.00.

REGULATION RANK AND FILE BOOTS.
