### ANNUAL ANNOUNCEMENT.

#### 1875 and 1876.

The Medical School at Kingston will enter upon its twenty-second term on the first Wednesday in October next, and continue open for six months.

This School being separately incorporated under the title of the ROYAL COLLEGE OF PHYSICIANS AND SURGEONS, KINGSTON, and possessing independent powers and privileges, is enabled to confer upon its own students and others the Diploma of "Licentiate" and of "Fellow" of the College; and being, moreover, affiliated to Queen's University, its students can also obtain the Degree of *Doctor of Medicine* from that Institution.

Certificates of attendance at this College are also recognized by the Royal Colleges of Surgeons of London and Edinburgh; so that those holding the License of this College as well as those possessing the Degree of M.D. from Queen's University, are entitled to all the privileges in Great Britain that are accorded to the students and graduates of any other Colonial College.

The College Buildings, which are situated at the foot of Princess street, having this summer undergone a thorough reconstruction and repair, and having been fitted up in modern style at considerable expense, will be found to be commodious and comfortable, and to offer every convenience requisite in a Medical School.

The class-rooms are large, conveniently seated, well warmed, lighted, and ventilated, and suitably adapted to the requirements of both teacher and pupil; while a spacious waiting-room adds greatly to the comfort of all parties. The Materia

Medica and Chemistry class-rooms are provided with abundance of specimens for examinations and experiments; and facilities are afforded in all the class-rooms for a thorough and efficient course of instruction.

The Dissecting Room has been very much enlarged; and being situated in the uppermost part of the building, is free from noise and intrusion. It is thoroughly lighted and ventilated, and furnished with all the necessary appliances for making proper dissections.

The foregoing improvements, together with the abundance of dissecting material inrnished by the Penitentiary, Jail, Hospitals, and other public institutions in the neighborhood, afford opportunities for the study of Practical Anatomy not equalled in any other school in Ontario, and equal advantages for the prosecution of every other branch of medical knowledge.

The Kingston General Hospital and the Hotel Dieu, both within a few minutes walk of the College, are open to the visits of students, and offer every advantage desired in the way of Clinical Instruction. Students can, if they desire, also visit the Penitentiary Hospital with Dr. Lavell, and the Insane Asylum with Dr. Dickson

The General Hospital alone has accommodation for 150 beds, and contains in the recently erected "Watkins Wing" an operating amphitheatre, so arranged as to afford all the students an opportunity of witnessing operations; while the other institutions referred to have a large number of patients constantly under treatment.

As proofs of the quality of the instruction given in this School the Faculty point with pride to the high position taken by its students at the examinations of the Medical Council of Ontario, and the Royal College of Surgeons of England, as well as to the professional success of its graduates in competition with the graduates of other Canadian Colleges.

Kingston, moreover, is a very healthy and pleasant city to live in, and free from the attractive amusements that interfere

with study, and the inducements to vice found in many larger cities, while the cheapness of living is such as to commend it to the notice of all intending students of Medicine.

Good board in respectable houses may be obtained at prices ranging from \$3 to \$4 per week, and other necessaries at proportionate figures.

#### FEES.

The Fees for the different classes, etc., are as follows:

Registration Fee for each session\$ 2 0	0
Anatomy	0
Institutes of Medicine 12 0	0
Materia Medica 12 0	0
Principles and Practice of Surgery	0
Theory and Practice of Medicine	0
Obstetrics and Diseases of Women 12 0	0
Chemistry	0
Botany 6 0	0
Medical Jurisprudence 6 0	0
Practical Anatomy 6 0	0
Practical Chemistry (each course)	0
Clinical Medicine (for two courses)	0
Clinical Surgery " " 6 0	0

Payment for two full courses in any class and attendance in the same, entitles the student to a perpetual ticket for that class.

The Kingston General Hospital may be attended by students during their whole period of study for one payment of \$6.00 at the commencement, or \$4.00 per session.

Diploma of Licentiate of th	he	(	do	11	eş	ge			 						 	\$20	00
Degree of M.D																	00
Fellowship of College															 	50	00

All fees are payable to the Registrar of the College, Dr. Fowler, and are expected to be paid in advance.

#### MATRICULATION.

The *Matriculation* Examination is the same as that required for the Medical Council of Ontario and similar to that of other Colleges.

This examination and that for the Medical Council will be conducted in the College Buildings by the Rector of the Kingston Grammar School on the first Tuesday and Wednesday of January, April, July and October of every year, and will embrace the following subjects:

ENGLISH LANGUAGE, including Grammar and Composition.
ARITHMETIC, including Vulgar and Decimal Fractions.
ALGEBRA, including Simple Equations.
GEOMETRY—the first two books of Euclid.
LATIN—Grammar and Translation.

And one of the following subjects, the student having the option of naming the one in which he will be examined:

GREEK. FRENCH. GERMAN.

NATURAL PHILOSOPHY, including Mechanics, Hydrostatics, and Pneumatics.

an

The following are the text-books in the various branches enumerated above. Where more than one is named the student may elect which he will be examined in:

- a. Latin—Cæsar, Commentarii de Bello Gallico, first two books; Cicero Manilian Law; Virgil, Æneid, first book.
- b. Greek-First Chapter of St. John's Gospel; first book of Xenophon's Anabasis.
- c. French-First Chapter of Telemague; Charles XII.
- d. German-Adler's Reader, first part.
- e. Natural Philosophy-Peck's Ganot; Sangster's first book.

#### CURRICULUM.

The Candidate for the Degree of the University or Diploma of the College must have completed a period of four years' study, and have given regular attendance on full courses of instruction in the following branches of Medical Science for at least three Sessions. In the case of Graduates in Arts or those who have spent a year's pupilage in the office of a Medical Practitioner, a period of three years only will be required.

The Candidate must have given regular attendance in Full Courses of Instruction in the following Departments for the period stated:

1

I.	Principles and Practice of Surgery Theory and Practice of Medicine	payo o'x't bas base?
III.	Obstetrics & Diseases of Women & Children	6) Pero dollar Nation
IV.	Institutes of Medicine	Two Full Courses of six
V.	Anatomy	months each.
VI.	Chemistry	
VII.	Materia Medica, Therapeutics and Pharmacy	Acceptation of the second
VIII.	Practical Anatomy	Ballik Demonstrer & Symmetry
IX.	Clinical Surgery	) m T 11 G 641
XI.	Medical Jurisprudence	months each.
XII.	Practical Chemistry	
XIII.	Botany.	One Course of three months.
XIV.	Hospital	.Twelve months.

The above course of study may have been pursued either wholly in this College, or partly here and partly in some other recognized Medical School. In the latter case at least one full session must have been spent in this College, with attendance on at least four of the above six months courses.

Certificates of attendance on Lectures are received from incorporated Medical Schools in the British dominions, and others recognized by the British Universities and licensing Colleges. Other certificates of attendance on Lectures may be admitted at the discretion of the Faculty.

All students shall present evidence of their having compounded medicine for a period of twelve months, or for two periods of six months each, in the office of a regularly qualified Medical Practitioner. And they shall present evidence of having attended not fewer than six cases of Midwifery.

#### EXAMINATIONS AND GRADUATION.

Every candidate must deliver, before the 15th of February of the year in which he proposes to graduate, to the Registrar of the College, a declaration under his own hand that he is twenty-one years of age, or that he will be so before the day of graduation, accompanied by a certificate of good moral character, a statement of his medical studies, with proper certificates; and a Thesis, composed by himself and in his own handwriting, to be approved by the Faculty.

There are two examinations—a Primary and a Final—in each of which every candidate is examined both in writing and orally.

The Primary Examination includes Chemistry and Toxicology, Anatomy, Institutes of Medicine, Materia Medica and Therapeutics, and Botany.

The Final Examination includes Surgery, Theory and Practice of Medicine, Medical Diagnosis, Medical Jurisprudence, Obstetrics, Clinical Medicine, Clinical Surgery, and Practical Surgery.

Students ready to submit to the Primary Examination, that is, to an examination on the first division of these subjects, at the end of their third year, may be admitted to examination at that time. The Final Examination, embracing the second division of subjects, shall not take place until the candidate has completed his fourth or last Session.

#### REQUISITES FOR THE FELLOWSHIP.

Before being admitted to the Professional Examination, the candidate must produce evidence of being a Graduate of Arts, or undergo an examination equivalent thereto, and of having been engaged in the practice of the profession at least five years.

#### COURSE OF INSTRUCTION.

9. 1

M

st

di

an

un

ma

#### 1. ANATOMY-(Prof. T. R. Dupuis.)

Five Lectures a week are given on this subject in the general class-room, and illustrated by plates, drawings, and preparations; but chiefly and fully by recent dissections on the Cadaver.

Two of the best dissectors of the third year are chosen as *prosectors* who, under the direction of the Professor, previously make careful dissections of the parts to be examined before the class, and explained to it; so that the students not only hear a description of the parts given by lecture, but see them carefully dissected and lying in their natural relations to each other.

#### 2. INSTITUTES OF MEDICINE—(PROF. O. YATES.)

This course comprises Histology, Physiology, General Pathology and Therapeutics, and Sanitary Science. The lectures will be illustrated by vivisections, microscopic demonstrations, plates, drawings, and specimens from the Museum.

# 3. MATERIA MEDICA, THERAPEUTICS & PHARMACY-(PROF. FOWLER.),

This course will be illustrated by placts, and specimens of the various drugs, chemicals, etc.

# 4. PRINCIPLES AND PRACTICE OF SURGERY-(PROF. SULLIVAN.)

These Lectures embrace the Principles and Practice of Surgery and Surgical Anatomy. The course will be illustrated by plates and models, and pathological specimens. The use of instruments and surgical apparatus, and appliances are taught; and all the chief operations will be performed upon the Cadaver in presence of the class.

# 5. THEORY AND PRACTICE OF MEDICINE—(Prof. H. Yates.)

These Lectures are illustrated by plates, morbid specimens, and models of diseased parts.

## 6. OBSTETRICS AND DISEASES OF WOMEN—(Prof. Lavell.)

These Lectures are illustrated by drawings, models, prepared specimens, by the use of the Artificial Pelvis, &c.

Ample opportunities will be afforded to the students for studying this important branch practically, as they will be arranged in classes to attend the Obstetric practice of the Hospital.

#### 7. CHEMISTRY—(Prof. N. F. Dupuis.)

Inorganic Chemistry is fully treated; and a large portion of the course is devoted to Organic Chemistry and its relations to Physiology and Medicine. Chemical Physics will engage the attention of the class to the proper degree.

The Professor possesses abundant apparatus for experimental illustration; being completely furnished with all the modern inventions for chemical investigation. All the Lectures are fully illustrated by actual experiments.

#### 8. BOTANY--(Prof. Neish.)

This subject will be illustrated by drawings, microscopic sections, dried specimens, and living plants as far as practicable.

#### 9. MEDICAL JURISPRUDENCE—(PROF. OLIVER.)

These Lectures include Toxicology, the modes of testing for Poisons, post mortem appearances, &c., together with Insanity, Public Hygiene, and Medical Police. They are illustrated by plates and specimens when necessary.

## 10. PRACTICAL ANATOMY—(Dr. Saunders, Demonstrator.)

The Dissecting Room will be open from 8 a.m. to 6 p.m. for the use of students; and the Demonstrator will attend every day to give instruction in dissecting, and in the details of Practical Anatomy; and to see that all students are furnished with material for dissection, of which there is always an abundant supply in this Institution.

#### 11. PRACTICAL CHEMISTRY—(PROF. N. F. DUPUIS.)

Thorough instruction is given in the splendid new Laboratory of the College under the personal supervision of the Professor. The course includes blowpipe manipulations, the use of apparatus, testing, qualitative and quantitative analysis, toxicological investigations, etc.

# 12. CLINICAL MEDICINE—(PROF. H. YATES.)

This is taught by instruction at the bed-side, and by lectures in the new Theatre of the Hospital.

Attention is given to Physical Diagnosis, which is taught practically; and each student is required to take part in it. Examinations of urine, sputa, etc., are illustrated and explained.

## 13. CLINICAL SURGERY—(PROF. DICKSON.)

These Lectures are in illustration of the various surgical cases in the wards of the General Hospital. They are given at the bed-side or in the Theatre of the Hospital, and when requiring it, are elucidated by plates, surgical apparatus, morbid specimens, models, etc. All operations are performed in presence of the class.

### BOOKS RECOMMENDED TO STUDENTS.

ANATOMY.—Gray, Wilson (latest edition), Quain, Ellis and Heath.

Institutes of Medicine.—Dalton's and Kirke's Physiology, and Bennett's and Aitken's Pathology, and Parke's Hygiene.

MATERIA MEDICA.—Pereira's Materia Medica (abridged.)

Principles and Practice of Surgery.—Erichsen's, Holmes, Bryant, Pirrie Gross, Smith, Druitt.

THEORY AND PRACTICE of MEDICINE.—Tanner's and Flint's Practice and Reynold's System of Medicine.

Obstetrics.—Ramsbotham's, Churchill's or Tyler Smith's Midwifery, and Thomas or Churchill on Diseases of Women; Tanner on Diseases of Children.

CHEMISTRY.—Fownes, Miller, Roscoe, McAdam, Bowman, Fresenius.

BOTANY. —Gray's Structural and Systematic Botany.

MEDICAL JURISPRUDENCE.—Taylor's Medical Jurisprudence.
