WINNIPEG HAS GREAT FUTURE

Sir Wilfrid Contrasts Conditions Now With His Last Trip

CHEERY OUTLOOK

Liberal Chieftain in Ringing Speech Says There is Hope of Carrying Winnipeg—Reviews Liberal Regime—Speaks of Centennial Exhibition

Winnipeg, July 13.—(Special)—Sir Wilfrid Laurier was given a magnificent reception at the crowded amphitheatre here last evening.

A roar of applause greeted Sir Wilfrid The monarch's address was not shared. He said in part: "I know our Conservative friends say it is not a Liberal Government but Providence has given good crops and harvests. I acknowledge all we owe to Providence, but the thing I must say; Providence has in the last four years shown singular partiality in the government of the Liberal party."

"Is this Winnipeg?" asked the premier. "Can it be possible that this is the center of yesterday's defeat of Liberalism? I could fancy I was in my own stronghold of dear Quebec. You remind me of Toronto, her great meetings her wonderful hospitality, but her invariably early cessation of life, but her invariably early cessation of life, but her invariably early cessation of life."

"Sixteen years ago I visited Winnipeg. I then found Winnipeg a struggling and straggling little town. Today I return and find it one of the greatest emporiums of the continent. One of the things that surprised me, even though I was prepared, was the spirit of buoyancy and confidence in the face of your country. It was different sixteen years ago. Then there was despondency on the face of the people. In contrast to the condition today, when if there is any place in the world where hope springs eternal in the human breast, it is Winnipeg. What is the cause? What has brought about this change? I have there are some Conservatives in this city, perhaps more than we would like to see. I believe I see a few Conservatives in this audience, and it is to them I address myself at this moment. What is the cause of this change? The answer is, a bold, broad, courageous policy maintained by the grace of God and the will of the people by an administration which has ruled Canada for the past fourteen years. I know my Conservative friends claim this is too high an ambition on my part. I know they say it is not the Liberal Government but Providence who has given good crops and harvests. I acknowledge we owe all our providence, but one thing I must say, providence has in the last 14 years shown singular partiality to the government of the Liberal party. Then our friends insist that we have simply been lucky."

"You have been told," said Sir Wilfrid, "that I am an enemy of Manitoba." Nay, I invited Premier Roblin to come again to Ottawa. We were ready to discuss what was fair and just, and give what was fair and just, either in land or increased subsidy. (Cheers.) "What more can we do? I ask every man, whether Gent or Tory, can anyone ever charge me with being unfair to any one? I lay the record of my whole life before this audience, and friend or foe may ask if my policy all through life has not been the policy of harmony and conciliation. Mr. Roblin has had his triumph today. He Manitoba continues to remain the postage stamp province, as has been said, it will be his fault and not mine. (Cheers.) "Constitution has been the keynote of my life, an old man and I have not ten years to live. Fellow Canadians, citizens of Manitoba, I have never favored discord."

"Winnipeg asked for substantial government aid to the projected Centennial Exhibition, of an international character. Let us see what you have already done," the premier commented, pencil and paper in hand.

"Five hundred thousand dollars from the Canadian Pacific, \$200,000 from the Grand Trunk Pacific, \$200,000 from the Canadian Northern, \$250,000 from the Local Legislature, \$200,000 from the City of Winnipeg and \$200,000 in subscriptions from the citizens. That makes \$2,000,000, if my arithmetic is good. Now, if it were possible to get from some other source, I don't know where, another \$2,000,000. I should think you would be in good financial shape for your great and worthy undertaking. (Prolonged applause.)"

"I cannot make any promise," continued Sir Wilfrid, smiling. "The minister of finance, who knows me not, me under bonds not to deplete his treasury in trying to meet the requirements of the west on this trip. But if I tell him I assured you that his administration was like unto the kingdom of heaven, I don't think he could find fault with that, and I read of the Kingdom, "ask and ye shall receive."

"During the afternoon, Sir Wilfrid received many visitors including Provincial Premier Roblin, who called informally to extend felicitations with Bishop Matheson, Rev. C. W. Gordon, (Ralph Connor) and many prominent Liberals."

"The weather is fresh south-west and west winds; shovely tonight, fresh west-erly winds, fair and warm."

RAIN ADDS TO DISCOMFORTS

Fire Sufferers Now Seek Shelter From Rain Many in the Open

USING PASSENGER CARS

Scenes of Lawlessness Last Night and a Detachment of Militia is Being Sent

(Staff Correspondence.) Campbellton, N. B., July 13.—Campbellton today presents a weird appearance with blackened waste on every hand. There are but few people about. The destitute and homeless having gone to the streets. Last night, by reason of the great conflagration was a gruesome one, the smoldering ashes only lighting the darkness and silence reigns where but a few days previous there was a centre of activity. Rain has been pouring in torrents since early morning and many of the homeless are compelled to remain out in the wet as it is impossible to house shelter them all. Those who have been fortunate enough to have saved their home, or even a barn, have generously taken in their fellow townsmen who have met with disaster and ruin. Passenger cars and some hot cars have been made use of as a rain shelter for the multitude. A few scenes of lawlessness were reported the night of the fire, when some lumbermen, from the surrounding district, were guilty of considerable pilfering. A squad of special police were sworn in last night and a detachment of the 72d Regiment are expected tonight.

The food supply today is ample and help has come to hand from various directions. St. John, Bathurst, Newcastle, Chatham, Moncton, Halifax and the local government. It is understood that tents are being pitched today and every effort is being made to get temporary houses for the sufferers from the Campbellton fire. The assembly rooms were kindly placed at their disposal by Mr. Gelling to receive and forward the donations.

Free Transportation H. H. Schaefer, district passenger agent at C. E. R., has received instructions from the general freight agent to advise the board of trade of St. John and other points, that free transportation will be afforded for goods going forward to the Campbellton fire sufferers.

Women Will Help A committee of ladies will be at the assembly rooms at Keith's Theatre tomorrow morning at 10 o'clock to receive donations of clothing, bedding or money for the sufferers from the Campbellton fire. The assembly rooms were kindly placed at their disposal by Mr. Gelling to receive and forward the donations.

Generous Longshoremen The executive of the Longshoremen's Association met this morning and voted \$100 for the Campbellton sufferers. It will be collected and forwarded by the postmaster, A. E. Mowbray.

The following is a list of the insurance companies with names of agents and amounts: E. H. Fairweather, \$10,000; A. E. Mowbray, \$10,000.

BABY WINS OUT FIGHT WITH CZAR Right of Jewish Woman to Keep Her Baby in Moscow, Questioned in Courts, and the Child is Allowed to Remain

St. Petersburg, July 13.—Should a Jewish baby, aged four, should be allowed to live in Moscow or not is a question that has been engaging the attention of the Russian government and of the highest legal authorities in the Russian empire. The mother of the child is a poor woman who has the right to live in Moscow and she desires to remain there, as she is able to earn a living by nursing. In the view of the ministry of the interior he did not enjoy the same right. An order therefore was sent to Moscow to have it despatched to some spot within the Jewish pale.

The mother sent an appeal to the senate and the case came up for consideration. The assistant minister of the interior, replying to the mother's rights did not give the child. Finally the senate laid down the principle that "the presence of young children with their parents depends not on the rights of the first, but in the obligations of the second." Hence the baby at present is to be allowed to remain at Moscow.

WILL WRITTEN ON CARD WHEN DYING Frightful July 12—A card torn from a freight car was filed in probate court yesterday as the will of Robert J. McElroy, who, after being fatally injured by a freight train, scribbled on the card, "Mary, all that is mine is thine." The will leaves an estate worth \$6,000 to his wife. After writing the will McElroy signed the letter "B" but was unable to finish and another trainman completed the signature. McElroy died June 12.

Eye Witnesses Tell of the Disaster — One Man Carried Mattress Five Miles for His Wife Chatham, N. B., July 13.—(Special)—A number of people from Campbellton reached here today, including twelve sisters from the convent, Mrs. Frank McConville, three children, a young boy, Lester, the hospital, Hotel Dieu, and the Catholic church were burned. The fire came so suddenly that the occupants of the convent were able to save nothing. The patients at the hospital were all men and were removed to Dalhousie. The Mother Superior and five sisters are still at Campbellton. The convent, hospital and other buildings owned by the Catholic church were partially insured. It has been definitely learned that the I. C. R. station, round house and freight sheds were destroyed. One locomotive was burned. There were several explosions at Mowbray's store, but these caused no loss of life. There was but one life lost, that of the Doyle child. The fire started in the Doyle child. HON. JOHN BURNS VERY DEMOCRATIC Gets \$25,000 a Year, But Wife Keeps No Servant

London, July 13.—Surely Mr. John Burns is the most democratic cabinet minister in the world and et cetera in his colleagues in state with a republican form of government. Although his official salary, very much against his will, was recently raised to the snug sum of \$25,000 a year, he has not altered his way of living in the least. He is still the same "honest John" as in his early struggling days the same frank, outspoken, vigorous and hard-working man full of pride for himself, his family, and his country.

A modest house in the heart of a part of London inhabited mainly by workmen is sufficient for him, and he does not even keep a servant; but Mrs. Burns has only a scrub-woman to help her with the heavy housework.

STATE CONVENTION Milwaukee, Wis., July 13.—Burt Williams, of Ashland, Wis., was the unanimous choice for United States senator of the Democratic state convention, which adjourned sine die early today after a session that lasted nearly all night.

On the state ticket nominated to be voted for at the primary election September 6 for places on the regular ballot in the September election Adolph C. Schmitt of Milwaukee was selected without opposition as the gubernatorial candidate.

FIGURES THAT TELL STORIES RAILWAY SALARIES

FOR the first time in Canadian railway statistics, an analysis of salaries and wages has been given in the Government statistics for 1909. The railway employees numbered, in that year, 125,195, and they received \$63,216,662.08 for their services, this amount being 60.43 per cent. of the total operating expenses. The average daily compensation and the classification of employees are as follows: General officers, \$2.89; 3,377 carpenters, \$2.33; 13,858 other shopmen, \$2.33; 4,216 section foremen, \$2.15; 28,401 other trackmen, \$1.59; 1,624 switch tenders, etc., \$2.00; 2,899 telegraph operators, \$2.09; 9,324 employees in steamship service, \$1.26; 18,527 other employees, \$1.95. Compared with the wages paid in 1907, there is an increase shown to all classes, except that of general officers.

NEXT TEN YEARS CRUCIAL PERIOD

Says Lord Islington in Welcome to New Zealand

KINGSMILL IN LONDON

McMaster, M. P., Speaks of Canadian Loyalty—Lady Herbert Desires The Conference at the Hague—General News of the Empire

Winnipeg, N. Z., July 13.—Lord Islington, responding to an enthusiastic welcome, said that the next decade would be a crucial period in the empire's destiny. It behooved the nation to set itself with serene determination, fearlessly, but not with a spirit of aggression, to maintain the position it holds in the world today. London, July 13.—Admiral Kingmill conferred today with Commander Howe of the admiralty.

At the Liberal Union Club dinner to Liberal Unionist M. P., Mr. MacMaster laid stress on the profound and absolute loyalty and devotion of Canada to the service of the empire.

Lady Herbert, widow of Sir A. J. Herbert, and daughter of John Hill, of Halifax, is dead.

Sir Wilfrid Laurier acknowledged the message from the Chamberlain birthday dinner. Respecting the first new B. C. gold mine at Almarud, River Stewart, the prospect where it is issued, the Mail says it seems to be the case of a peculiarly risky investment.

Lord Strathcona has given £10,000 towards a chair of agriculture at Aberdeen University.

Ewart Speaks at Hague The Hague, July 13.—J. S. Ewart began his pleading for Britain. He said the British interpretation of the words "by sea" was complicated and had changed several times in the course of the last century. The difficulty in determining the limits of the "by sea" was apparent. Britain and America had often concluded treaties dealing with "by sea," but not "three miles from the shores of bays." For the rest, no nation recognized that these territorial bays could not be broader than six miles from headlands.

PORTUGUESE AND CHINESE FIGHT Hong Kong, July 13.—A Portuguese gunboat cooperating with troops in today's bombardment of the pirate settlement on the island of Colowan, destroying the houses and killing many natives.

The Chinese retaliated by storming and capturing the Portuguese military post. Portuguese reinforcements were sent to the scene from Macao.

PRELIMINARY HEARING IN ITALIAN MURDER CASE

Damaging Evidence Brought Out Against Rose—Jealousy Over Jones Girl the Apparent Reason for the Crime

The preliminary hearing in the case of Andy Rose, charged with the murder of Diego Sircusa in his home in North street on Sunday morning, June 5, was commenced in the police court this morning by Judge Magistrate Ritchie. There were five witnesses examined, and they all gave evidence of a very damaging nature against the prisoner. At exactly 11 o'clock Rose was brought into court. He looks the picture of health and appears to be more or less indifferent. In fact to see him sitting in court with bowed head, paying little attention to the evidence given, it is hard to believe that he fully realizes the enormity of the crime with which he is charged. The prisoner has no counsel defending him, and Detective Killen is conducting the prosecution. From the evidence given at this morning's hearing it is very apparent that the trouble all arose out of jealousy over the Jones girl.

Joseph Jones was the first witness called. He testified that he lived at 29 North street. He knew Diego Sircusa. He was acquainted with the prisoner, Andy Rose, and knew that he lived there. The witness stated that he went by the house of Sircusa on the Saturday evening previous to the murder, and he heard an argument go on inside. The witness could not understand anything that was said. Both of them were standing up, about two feet apart from one another. There was a light in the shop at the time. The next time he saw Diego Sircusa was on a Sunday night at 8 o'clock. The witness said a policeman wrote a letter to his mother in which he also said that he was going to poison himself. He gave the letter to her to mail, but she never mailed it. On the Saturday evening previous to the murder, Diego Sircusa gave her a gold chain and locket. This seemed to offend the prisoner. She saw Sircusa wearing a gold watch and chain. The witness said that she washed a pocket handkerchief for Andrew Rose on the Saturday afternoon previous to the murder. Detective Killen showed the witness a handkerchief and she stated that it was the same as she washed. The handkerchief appeared to Detective Killen here produced a revolver.

The witness said that the prisoner came into her mother's house on one occasion and remarked that he was going to get carbolic acid and poison himself. The prisoner, the witness said, gave his reason for doing this, was "that he had no job." Witness further testified that the prisoner wrote a letter to his mother in which he also said that he was going to poison himself. He gave the letter to her to mail, but she never mailed it. On the Saturday evening previous to the murder, Diego Sircusa gave her a gold chain and locket. This seemed to offend the prisoner. She saw Sircusa wearing a gold watch and chain. "Davis' Perfection," 10c Cigar

That Restful Hour

after the evening meal, when you settle down in an easy chair for a good smoke, will be still more delightful if you have a "Davis' Perfection" Cigar.

With all that rich, full flavor of the Havana, this unusual cigar is so mild that you can smoke the whole evening with pleasure.

The attempt has often been made to produce a cigar of similar superior flavor—real Havana flavor—without the mildness usually found in tasteful cigars. The time the attempt has been a brilliant success. Judge for yourself.

The fact that for over fifty years our experts have been specializing on cigars explains why we have been so uniquely successful in blending delicacy with surpassing flavor.

FAMOUS GEMS OF PROSE THE ISTHMIAN CANAL

By Dudley G. Wooten (Texas)

From a speech on the bill to provide for the construction of a canal to connect the waters of the Atlantic and Pacific oceans, in the U. S. house of representatives, January 9, 1902.

It has been suggested here that the gulf states are peculiarly interested in this great movement. That is true, they are locally and peculiarly; but I deny that to them alone will be confined the benefits of this measure.

The vast region between the eastern and western ramparts of the world, that is today the garden of the continent and the granary of the world, will especially reap the fruits of an interoceanic canal, while the father of waters, that for the last quarter of a century has lost his former power in the world of traffic, will be restored to his wonted functions as the arbiter and arbiter of our whole internal commerce.

He dreamed of a time when the isthmus of the new world would be to modern civilization what the Corinthian isthmus was for the Greeks and rising on the wings of his superb conception he foretold the day when the two oceans would become the emporium of the universe; when its canal would shorten the distance which separates the nations of the earth and render the commercial ties which connect Europe, America and Asia closer and stronger.

In 1849 the scholarly and scientific Maury pointed out the unsurpassed advantages of the construction of an isthmian railroad and canal. He declared that the gulf of Mexico and the Caribbean constitute the Mediterranean of the new world, with possibilities of commerce and civilization as far superior to those of that older sea as our laws, institutions and capabilities are immeasurably beyond the systems of the old world.

We are today upon the point of making that date and opening that epoch and it is an occasion for thoughts both solemn and sublime. In the name and for the sake of all these things I hope this bill will pass without amendment, without delay, without complication, for in the fulness of time it will bring to this country the realization of dreams of commercial power, of real, safe, peaceable expansion along constitutional lines, such as could not in my judgment flow from any other measure that has in all our history challenged the attention of the American congress.

FATHER MORRISCY'S REMEDIES

Cured a Truro Lady of Both Lung and Kidney Troubles.

Truro, N.S., Jan. 14th, 1910. Father Morrissey Med. Co., Ltd.

For some time I had been troubled with a very dry cough and pain in my lungs. I made up my mind to try your medicine, and had used one bottle of No. 10 (Lung Tonic) when the pain left me and I felt much better.

My kidneys troubled me quite a lot also, and I purchased a box of No. 7 (Rheumatism and Kidney Cure) and since taking the tablets I have had no pain in my side or back. I repeat quite a number of times that I feel much better.

(Mrs) MARTHA WHITE. Not only Father Morrissey's remedies have cured my ailments, but they have also cured my children. My youngest child, a boy, was afflicted with a severe case of diphtheria. I tried many remedies, but none of them did any good. I then purchased a box of No. 10 (Lung Tonic) and gave it to him. He recovered in a few days and is now as healthy as I am now.

HUNDREDS OF FARMERS ARE USING AUTOS

More Than 10,000 Licenses Issued in Minnesota This Year, Representing an Investment of About \$10,000,000—Steamship Line to Norway

Saint Paul, Minn., July 13—As the result of farmers buying automobiles and using them for trips about their farms and to town, more than 10,000 licenses for cars have been issued in Minnesota this year.

According to estimates made in the office of Julius Schmalz, secretary of state, at Saint Paul, more than ten million dollars is invested in automobiles in the North Star state.

"Estimating the average cost of cars to be as low as \$1,000," Mr. Schmalz said, "the total investment in Minnesota today is \$10,100,000. More than half of this sum has been put into cars by the farmers. On May 1, 1909, the total number of automobiles in the state was 7,374. Since then, within 60 days, 2,786 additional machines have been licensed."

The cost of a state license in Minnesota is \$1.00. It is generally understood that the next session of the legislature will increase this to \$3.00 or \$4.00, as charged in most other states.

DESCRIPTION OF CROWN JEWELS
 They Will Be Prominent at King George's Coronation—Precious Stones of Great Value
 London, July 13.—The Orb and Sceptre which were placed on the late King's coffin will, like the Crown, be used at the coronation of King George V. One of the top of the gold orb is an extraordinary fine amethyst nearly an inch and a half in height, which forms the foot of a cross of gold set very thickly with diamonds.
 The sceptre, which is also known as Saint Edward's Staff, is of beaten gold, four feet and a half in length. The gold orb will rest in the king's right hand at the coronation, while the sceptre will be carried before him at that ceremony. The crown placed on the coffin is known as Saint Edward's Crown, and is that which the new king will be actually crowned with.
 The Imperial State Crown, which is carried on the opening of parliament by a sovereign in person and is not to be confounded with Saint Edward's Crown, weighs 2922 dwts, and contains in the centre of a diamond Maltese cross the famous ruby said to have been given to Edward Prince of Wales, son of Edward III, by Don Pedro, King of Castile, a ruby which was worn in the helmet of Henry V. at the Battle of Agincourt.
 The crown is studded with diamonds, pearls, rubies, sapphires and emeralds set in silver and gold, with a crimson velvet cap with ermine border and lined with white silk.

NOVICE AVIATOR BADLY INJURED
 Fell One Hundred Feet When His Machine Capsized—Air Vehicle Was Wrecked
 *East St. Louis, Ill., July 12.—Howard W. Gill, of Baltimore, a novice aviator, fell 100 feet tonight and sustained serious injuries. He was flying outside of the aviation field where the novice met to open Thursday. A runaway team of horses beneath him temporarily took his mind from his levers and he lost control of the machine. With a sudden jerk it almost capsized and started for the ground. Gill was thrown several feet away from the machine, which was wrecked. He sustained a broken rib, a broken nose and an injured arm.

 It was reported early this afternoon that the Fredericton Junction was on fire and that the town was in danger. The C. P. R. authorities here, however, informed the Times that the report was unfounded. A slight fire, they said, had occurred at the junction this morning, but little damage resulted. The Montreal train was delayed in consequence of the fire.

 book-hauls at the Wm. Richards Company from Richards' upper mill to the back part of the town. The force of water was very light and to this it is attributed the great loss. The fire started from Richards' upper mill, to Richardsonville, three miles below the town. Two houses only remain, where the main portion of town stood, Evan Parris and O. G. Kelly's. Some of the Currie houses at the western end, are left. The fire started at 3 o'clock. In an hour it was in the main part of the town. Business men estimate the loss at three millions. White, the druggist, had \$10,000 less and only \$1,000 insurance. Hundreds of people were obliged to walk on the logs to get away from the town and many others went in boats. Few had anything to eat the first night. The first train load of supplies arrived from Bathurst yesterday morning. Everybody had been given something to eat by yesterday afternoon, but huge quantities of supplies will be required for days. A large number were taken care of on the steamer Senlac and a Norwegian steamer. One man carried a mattress five miles for the use of his wife. The fire broke out two days old. A public meeting will be held here tonight to arrange for public subscription lists.

THIRD BOY BANDIT HAS BEEN CAPTURED
 Pittsburgh Authorities Bar Moving Pictures of Crimes as a Result of the Boys' Confession
 Pittsburgh, July 13.—Edward McDonough, aged seventeen, the third of the boy bandits who held up a street car early Sunday morning and shot Police Lieutenant Scriver Stewart, was captured early today in the kitchen of his home in Slataville by a policeman in plain clothes who had been watching the house for twenty hours. McDonough said he had hidden all day in the woods near his home, where the rain drenched him to the skin. While the policeman was under arrest, McDonough fired the shot that wounded the lieutenant. McDonough claims that the lieutenant was the director of the car covering the motorman with an old rusty revolver which would not work. He ran when he heard the shooting. He will be held to await the result of the lieutenant's injuries. Stewart is in a hospital. Late last night it was thought that he would recover. Pittsburgh, July 13.—Moving pictures depicting train robberies, safe cracking and other crimes must not be shown here, in Pittsburg. Director of Public Safety, John M. Moran today notified all managers of moving picture shows that these films would not be permitted under penalty of revocation of license. The recent hold up of the train, the director attributes to the influence of these pictures, and in a few days ago, the handle of a revolver that they were inspired to hold up a street car by pictures of a train robbery they had seen a few hours previous to their attempt, in which they eluded the police lieutenant.

PRELIMINARY HEARING IN ITALIAN MURDER CASE

 have blood stains upon it. The witness said she saw the prisoner with a revolver. He resembled the revolver in court. The witness said she never saw the prisoner until she saw him in court. She saw him on the night of the murder. On the time that the witness saw the prisoner, she was wearing a blue dress. The witness replied that she did not know Rose, the witness said, this is the man who was wearing a blue dress. When Minnie Gregor was called upon to be sworn in to appear at the next sitting of the supreme court, she said she did not leave town before this affair occurred. Minnie Gregor remarked that she came to this city owing to the serious illness of her father, who was in the hospital. Magistrate Ritchie: "Well, if your father only died recently, he does not seem to you to be wearing a gold locket and chain, got from a strange man, and you a married woman." Mrs. Gregor said that Siracus was the locket and chain in return for services which she had rendered him. She said she did not see him for a long time. Magistrate Ritchie: "Well, that probably explains for your mother allowing Siracus to take his father's money. You should have given that out for publication before." Mrs. O'Connell, who lives at 67 Smyth street, was the next witness. On Saturday June 23, he testified he was in Siracus's store. He purchased a package of cigars and Andy Rose served him. He returned to the store again about 7 o'clock that evening. Rose was the only one there. The witness said that Rose told him that Diego Siracus went out with Minnie Gregor he would hit his throat. A few days previous to this the witness said that Rose told him he intended to come outside. Being out of a job he was discouraged. John Wolf, who lives on Pond street, was the last witness. He testified that he was in Siracus's on Saturday evening June 23. He missed Siracus and he saw Rose, who was in the store, where he was. Rose, the witness said, replied that he had gone out with one of his friends, but he saw Rose take a revolver out of a drawer and unload it. Minnie Gregor was in the store and Rose showed her the contents of the revolver. The witness said that he told Rose he would come back at 11 o'clock and see Siracus. He returned at 11 o'clock but Siracus had not returned. The witness said he told the prisoner to tell Siracus that he would call again tomorrow. At this Rose replied "neither Charles or I will be here tomorrow." The case was adjourned until Friday morning at 10 o'clock.

WANTS DIVORCE
 Reno, Nev., July 13.—Mrs. Minnie Heary, a New York actress and dancer, recently obtained a divorce in Judge Pike's court from Edgemoor Wallace Henry, of Utica, Jersey City, and other places. She will take her maiden name, Minnie Heary.
 Mrs. Henry testified that while acting in Utica, N. Y., in March, 1908, she was taken ill and went to her home at New York, N. Y., and that there she had nervous convulsions, and became so ill that physicians told her mother she would die. A minister was sent for and when he arrived Henry was there. She learned afterward that Henry was going to marry her, and her mother gave permission. This minister then performed the marriage ceremony. The next day Henry entered the room, and she asked what he was doing there, and he said she went there to see her mother. She also said he tried to kill her in a box in Utica, and once entered the theatre in Utica while she was performing and attempted to shoot her as she was dancing.

 Funeral from his brother's residence, 10 Pitt street, on Friday afternoon at 2:30 o'clock.

TRAINING AIRMEN
 A Special Corps of Military Aviators Being Trained at Government's Farnborough Airship and Balloon Factory
 London, July 13.—Excellent progress is being made at the government's airship and balloon factory at Farnborough with the training of a special corps military airmen. The idea is that there may shortly be urgent need for a body of men qualified to handle and manipulate a regular airship which may be created. With airship work it has been found that a great deal of the risk of injury to a vessel in starting and descending may be obviated by supplying a special squad of trained men. Colonel Cooper, who is dealing with the training of this body of airmen, now gives regular lessons in airship riding, demonstrating his points with one of the airships of the factory. After they have become thoroughly proficient in sailing airships, some of the pupils are selected to handle balloons in order to familiarize themselves with steering balloons against the wind, and the care of the ship's engines.

CAMPBELLTON

The importance of prompt relief should not be overlooked by all who contribute to the fund or supplies for the Campbellton sufferers, and the list of contributors should be a long one, for the need is great. The measures already taken in this city, Fredericton, Moncton, Chatham, Newcastle and other places to provide immediate and temporary relief must be followed up by more substantial aid for the homeless people of Campbellton.

It is difficult to learn the amount of insurance carried in Campbellton, but it appears that nearly or quite \$1,300,000 is held in St. John offices, while a considerable amount was held in companies having direct representation in the town.

THE VALLEY RAILWAY Engineer Maxwell Issues Statement in Reply to F. B. Carvell, M. P.

D. F. Maxwell, engineer in charge of the Valley Railway survey, was at the Royal Hotel yesterday. He gave out the following statement, typewritten, with the request that it be published.

After La Grippe "I had suffered several weeks with LaGrippe. Had pains in my head and eyes. It felt as though there was a heavy weight on the top of my head, until it seemed that my brain would burst. I was so nervous that I could not rest or sleep. When I dozed off I would wake with a sudden jerking of my whole body. Dr. Miles' Nervine, and Restorative Nerve Pills cured me."

The Evening Chit-Chat By RUTH CAMERON

A BIG bunch of magnificent pansies crowded close together in a tall china vase with a base relief of roses upon it—yes, it scarcely seems possible in these enlightened days, but that is what I actually saw yesterday in the home of a well educated woman.

Do not crowd too many flowers into a vase in your home. That is the first rule. Tall growing flowers like long stemmed roses, daffodils, jonquils, poppies, carnations and lilies should have tall, straight vases in which to grow. Do not mix flowers, such as the long, graceful stem of the rose and the exquisite pale green stalk of the jonquil, are almost as beautiful as the flowers themselves, and the glass vase, of course, displays the charm.

The clearer and more revealing the glass, the more desirable the vase. Cut glass, for this season, is not as good as plain glass, and colored glass, unless it happens to harmonize perfectly with the flowers and stems, is not as good as colorless. The perfect vase or bowl, most artists consider, is that of absolutely clear crystal glass.

Do not mix flowers, such as the long, graceful stem of the rose and the exquisite pale green stalk of the jonquil, are almost as beautiful as the flowers themselves, and the glass vase, of course, displays the charm.

CONDITIONS ARE EXCELLENT IN THE MARITIME PROVINCE

Dominion Agriculturist Returns to Ottawa After Visit to Farms in the East—Will Tour the West (Ottawa Citizen, July 11.) J. H. Grisdale, of the Central experimental farm, who was recently promoted from the position of agriculturist, of that farm to the newly created one of Dominion agriculturist, has just returned from an eastern trip during which he inspected the work under his direction at the three eastern farms, which are situated, respectively at Napton, Trevo and Charlottetown, the one at Charlottetown being not yet two years old.

"Prospect," says Mr. Grisdale, "are for bumper crops in all the maritime provinces and everything is looking well. There are very few indications which are not favorable for a bountiful harvest at all eastern points."

Mr. Grisdale expects to leave for the west about the 20th of this month in order to complete his tour of inspection of the other experimental farms, about seven of which are situated in the west. The work of the Dominion government in creating the two new positions of Dominion agriculturist and Dominion horticulturist and filling them with such men as now occupy them is certainly one worthy of a word of approbation. Every year, almost every few months, produces some significant sign which indicates that matters agricultural in a scientific sense are rapidly coming to their own in Canada as well as other countries. It will not be long, it is predicted, before agriculture will receive due acknowledgment not only of its importance as the great basic industry upon which a progressive and prosperous national life must be built, but also of its essential dignity as a delightful calling.

The treatment which every civilized country in the world is nowadays ready to accord to it is suggested by such progressive action as that noted. Such should inspire the actual agriculturist with every feeling of confidence in his calling. A girl doesn't like the idea of working for a living unless she is married to a shiftless man.
