YORK AND YAMASKA

The by-elections in East Elgin and West Peterborough brought heavy reverses for the Meighen government, and now Yamaska has given another warning that the country at large has no confidence in the Meighen administration and that a general election is overdue.

THE HARBOR

There have been some street rumors of late concerning a change of heart at City Hall in connection with harbor commission. The Standard on Saturday, in an article opposing the commission plan, made the statement that if harbor commission is defeated, as it thinks will be the case, there is a proposal on foot that the city shall of its own accord place the harbor under a civic commission, securing for that body the necessary powers regarding borrowing, construction, etc., and it is commonly reported also that this commission is to be presided over by one of the present members of the city council.

IN HONOR OF FEAST OF CORPUS CHRISTI

Special services in honor of the Feast of Corpus Christi were held in several of the Catholic churches yesterday. The Blessed Sacrament was exposed for adoration during the remainder of the day after the high mass at the Cathedral. His Lordship Bishop LeBlanc officiated at pontifical veppers in the evening, after which the Corpus Christi procession was held.

The Blessed Sacrament was carried around the church by Bishop LeBlanc, preceded by officers and prefects of both the Holy Name Society and St. Anne's Society, the officers of both the Children of Mary, the altar boys, school boys and school girls and orphans from St. Vincent's all participated.

The canopy, under which the Blessed Sacrament was carried, was supported by John J. Coughlan, Charles Mitchell, T. Mahoney and W. L. Walsh. The choir, under the direction of Rev. A. P. Allen, with A. L. Godose as organist, sang the veppers and also during the procession.

The procession was very impressive and the little school girls, clad in white dresses and veils, some whom carried flowers in the path of the bishop carrying the Blessed Sacrament, looked particularly pretty. Rev. S. Oram and Rev. Roy McDonald were deacon and sub-deacon, respectively, and Rev. W. Duke was master of ceremonies.

PAINS SO BAD STAYED IN BED

Young Mrs. Becroft Had Miserable Time Until She Took Lydia E. Pinkham's Vegetable Compound.

Hamilton, Ont.—"I have suffered for three years from a female trouble and consequent weakness, pain and irregularity which kept me in bed four or five days each month. I nearly went crazy week at a time I could not do my work. I saw Lydia E. Pinkham's Vegetable Compound advertised in the Hamilton Spectator and I took it. Now I have no pain and am quite regular unless I over-work or stay on my feet from early morning until late at night. I keep house and do all my own work without any trouble. I have recommended the Compound to several friends."—Mrs. EMILY BECROFT, 289 Victoria Ave. N., Hamilton, Ontario.

For forty years women have been telling how Lydia E. Pinkham's Vegetable Compound has restored their health when suffering with female ills. This accounts for the enormous demand for it from coast to coast. If you are troubled with any ailment peculiar to women why don't you try Lydia E. Pinkham's Vegetable Compound? It is made from native roots and herbs and contains no narcotics or harmful drugs. For special advice women are asked to write the Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of forty years experience is at your service.

SPRING AILMENTS

Impure Blood, Humors—Relief In a Good Medicine.
Spring ailments are due to impure, thin, deoxygenated blood. Among them are pimples, boils, other eruptions, catarrh, rheumatism, loss of appetite, that tired feeling, nervousness and "all run-down" conditions.

Hood's Sarsaparilla combines the roots, bark, herbs, berries and other medicinal plants that have been found in many years of intelligent observation to be most effective in the treatment of these ailments.

Successful physicians prescribe the same ingredients for diseases of the blood, stomach, liver and kidneys, and in cases where alterative and tonic effects are needed.

Hood's Sarsaparilla is the spring medicine that purifies, enriches and revitalizes your blood, increasing power of resistance to disease.

For a laxative take Hood's Pils.

TREAT WASTE IN WOMEN'S STYLES

Investigator Tells Engineering Societies Public is Paying a Tremendous Subsidy—Traces Industrial Losses.

Chicago, May 30.—The American public is paying a tremendous subsidy through waste in changing styles for women, L. W. Wallace, executive secretary of the American Engineering Council of the Federated American Engineering Society, declared in an address before the management session of the American Society of Mechanical Engineers.

Mr. Wallace, who is vice chairman of the engineering council's committee on elimination of waste in industry, which operating from headquarters in the engineering societies building, 39 West Thirty-ninth street, New York city, has just concluded a nation-wide assay of industrial waste, asserting that there was great waste in the manufacture and sale of ladies' hats, shoes and millinery.

Suggesting the nature of the report of the waste committee, which was submitted to the executive board of the council in St. Louis on June 3, Mr. Wallace said that industrial waste was occurring because of lack of planning, inadequate standards, uneconomic design and unfair practices in various industries.

"Why does the style change?" asked Mr. Wallace. "Is it because the dealer wants an excuse for selling another article or is it because the purchaser demands a change? This may be an extreme case, but it illustrates the difficulty in definitely assigning the cause, the responsibility and the remedy for industrial waste.

"Twenty-five per cent reduction in production possibility occurred in every men's ready-made clothing plant that adopted a slight style change in the cut of the lapel of the coat. One prominent plant did not adopt the change in style; that plant continued to operate much nearer normal capacity after most others had closed down because it did not have to add the cost of a 25 per cent of production to the units of product that it did manufacture and sell.

"You desire to build a home, an office or a factory building. You ask for designs and bids, six, eight or ten contractors submit plans, specifications, and bills of material. The contract is let to the lowest bidder; but in this price is included not only the cost of him of making the plans and specifications for

your job, but also a percentage to cover the cost of all other jobs that he has placed a bid on, or else a percentage to cover the cost of the other seven or eight bidders; there being an agreement among the bidders that this be done; there are some that always bid high; they do not want the contract; they make their living by the commissions so collected.

"The examples cited serve to indicate that waste is occurring because of change of style, no planning, inadequate standards, faulty and uneconomic design, unfair practices. This is not an exhaustive list, but merely indicative. The report of the committee on elimination of waste in industry is soon to appear and will much more fully and clearly show the avenues through which waste is occurring."

CANADIAN HILLS GROWL, BUT IT IS PROBABLY OIL

(New York Evening Post)

"The spirits of the bears are angry." That is what the Swampy Cree Indians of Shoal Lake, in the wilds of Canada, say when they hear the Pasquia Hills growl in their subterranean caverns with a noise like thunder. White men say it is near of natural gas deep in the earth, and prospectors are preparing to search the region for oil.

Forty years ago the Swampy Cree built their village on Shoal Lake. The hills growled at them then. It meant bad medicine and their hunters were afraid to venture into the haunted uplands. Black Bear, the chief whose totem was the bear, had a dream one night that cleared the mystery. Beneath the hills the spirits of all the bears that had died through all the ages were imprisoned. So when the thunderous rumblings boomed from the hills the Indians said: "The spirits of the bears are angry."

Two years ago an educated Indian from eastern Canada went to Shoal Lake to teach school. He laughed at

the tribal superstition and hunted and fished frequently among the hills. On one of his expeditions he discovered a little stream of oil trickling from a cliff. He told of his find at Red Earth, a fur post of the Hudson's Bay Company that is disposing of its rich farm lands in the prairie provinces to settlers. An oil expert was sent for. The manager of the post and the oil man set out in a canoe on Man River with the Indian as guide. For miles the Indian paddled. Then he dropped the paddle in the boat.

"No," he said firmly; "I won't do it. You have promised me a fortune, but you won't keep your promise. If we find oil you will stake your claims and grow rich, but you will give me only a cigar or perhaps a few dollars. That will be enough, you think, for an Indian. I will never guide a white man to the oil."

The Pasquia hills have growled more savagely than ever this spring. To the white prospectors preparing to go in the earth is calling a welcome to the hoarded wealth it has grown weary of hiding. But to the Indians the grizzly phantoms imprisoned beneath the rocks are snarling out a threat against the proposed invasion of their sacred fastnesses. "Stay away!" they say to the white men. "The spirits of the bears are angry!"

It is this story that will lure prospectors in numbers as great as during the gold rush to the Klondike, into the mountain wilderness of the Pasquia Hills this spring to find the hidden wells of inestimable value there.

AMERICAN GIRL JOINS DUMBELLS

"Colonel" Pauline Henkel Created Honorary Member of Third Division Troupe.

New York, May 30.—The "Dumbells," theatrical organization of former Canadian soldiers, has honored "Colonel" Pauline Henkel, by making her an honorary member of the Canadian Third Division "Dumbells."

Miss Henkel, a youthful New York girl, won fame during the war by selling more than \$100,000 of Liberty Bonds, for which service she was appointed honorary colonel in the United States army.

The ceremony took place at noon in front of the public library. "Colonel" Henkel was attended by a guard of honor composed of United States marines and was later the guest of the "Dumbells" at a theatre party at the Ambassador Theatre. After appointing her an honorary member of the troupe, Captain Punkett presented her a gold maple leaf, having a background of crossed dumbbells, the insignia of the Third Division Canadians.

CHICAGO TO HAVE FIRST NEGRO NATIONAL BANK

Indications Are That Stock Will Be Oversubscribed.

Chicago, May 30.—Chicago is to have the first national bank organized by negroes in the United States. This institution, now in its preliminary stage, is called the Douglas National Bank, being named after Frederick A. Douglas, one of the noted orators of his race. The Douglas National Bank is to be

gin business with a capital stock of \$200,000 and a surplus fund of \$60,000. The stock, with a par value of \$100 a share, is selling at \$150 a share to create the necessary surplus. Indications are that the stock will be oversubscribed and that the bank will be ready for active operations within sixty days.

S. E. White, who is connected with the preliminary management, said that while Chicagoans are subscribing liberally, many out of town subscriptions are being received from Pennsylvania, District of Columbia, Maryland, Kentucky, Alabama, Michigan, Missouri and other states.

TO LIVE TWO YEARS WITH THE ESKIMOS

Bud Rasmussen, Danish Explorer, Will Soon Sail for Extreme North to Study Land and Customs of Its People.

Ulan W. Porterfield in N. Y. Evening Post.

When Knud Rasmussen, the doughty Danish explorer, boards the Sea King on May 29 for the extreme North, his heart will not be set on discovering new territory. His plan is rather to make a careful study of the Eskimos, their life and their customs, and to return to "Ullinn Thule" with a few people; for his main purpose is to step his mind in the ways and customs of the Eskimos, of whom he is in truth the only educated white man living today who goes to the North to study the Eskimos to learn about their life and their customs. He may, for a while have had confidence in Dr. Cook, but that has passed, and there is no thought on his part today of undertaking this three-year voyage to refute any one. In fact, his aim is not to rigidly scientific it is in spirit.

He is at least two years in the Arctic. Rasmussen will have as his closest two graduates of the University of Copenhagen. At Cape York, in Greenland, they will pick up four Eskimos, and will start for the North. On August 28 they will start for Devon Bay, where Lyon Inlet, in the Arctic Peninsula will be made the headquarters of the expedition. During a fall and winter excursions will be made on sledges to the Iglood Eskimos in the month of May and Hecla Strait. The party will proceed in the spring of 1922 to Chesterfield Inlet, where a food depot will be established sufficient to meet the needs of an unexpectedly protracted stay. They will then cross the frozen grounds, visit the tribes along the Northwest passage, and finally return to Lyon Inlet in the spring of 1923. The party will then be divided, one of its members returning to Denmark, while Rasmussen, accompanied by his faithful Eskimos, will embark on sledges to Devon Bay, Jones Sound, Ellesmere Land, and probably to Heberg Land to Thule.

His Fifth Journey.
However, the territory in question may be mapped. The only expeditions that ever touched these parts were those that set out to discover the Northwest passage. In modern times they have never been scientifically investigated. By the coast line of Baffin Bay it is known only in part. The Arctic expedition, as explained by Rasmussen to the Royal Geographical Society yesterday, is regarded as being extremely important, because it is the connecting link between Greenland and the American continent.

PRESENTATION OF ADDRESS MARKED CLASS CLOSING
The closing exercises of the Central Baptist church Baraca class yesterday afternoon were the crowning event in a successful year and were the occasion of special honor being bestowed on Dr. I. W. M. Baker, whose leadership has been the inspiration of the class. A beautifully illuminated and highly eulogistic address was presented to Dr. Baker and it set forth in glowing terms the very deep appreciation of the members of the class of his efficiency as a teacher.

EIGHTIETH ANNIVERSARY.
The Sufay school of the Ludlow street church celebrated the eightieth anniversary of its organization by special exercises held yesterday afternoon. R. H. Parsons, the superintendent, presiding as there was a very large attendance. The address of the afternoon was given by Rev. C. T. Clark of the Fairville church, who is the great-grandson of Deacon Clark, who was one of the founders of the Sunday school eighty years ago. Deacon John F. Ring gave an interesting historical sketch of the school. The exercises given by the primary department were very well rendered and greatly pleased the gathering. Little Miss Ramsay sang a solo.

INSURANCE EXPERT DEAD.
Halifax, May 29—John Strachan, one of the most known marine insurance experts in Eastern Canada, died yesterday.

MUST WE CONTINUE TO PAY THIS HEAVY COST?

The Constantly Mounting Fire Losses Are a Great Drain Upon Our Resources.

The fire loss on buildings and contents for first quarter of 1921, amounted to \$7,065,000, equal to 865 per cent. of \$812,000 more than for the same period of 1920.

Canada is passing through a season of business depression; the demand on all sides is for the exercise of economy, not only in private life but in public affairs. Parliament is critically surveying every item of the national budget for possible reductions. The estimates call for the largest sum Canada has ever been required to raise, over \$655,000,000, and yet, large as this sum is, the minister of finance could go into the open market and borrow the money at approximately the same cost for interest as is represented in our annual fire waste.

Unfortunately, there is little indication of a reduction in the fire loss; to much the larger portion of fire suffering the loss is made easy by the fact that it is covered by insurance, while this same condition tends to make the general public callous of the fire danger.

During the present period of receding values, there is a temptation to unload property on to the insurance companies by cashing insurance policies, and the greatest vigilance should be exercised by insurance companies, fire marshals and fire departments to guard against this danger.

May is usually a prolific month for fires among the smaller risks, due to cleaning up fires, removal of stores to summer kitchens, use of wood for temporary heating, etc. Rubbish fires may actually get beyond control, consequently they should never be left alone or in care of children. Stove-pipes and chimneys should be cleaned, and where pipes run through walls or partitions, they should be protected by metal thimbles with air spaces. It requires but ordinary precaution to overcome any of the above causes, and a little care may avert a conflagration.

We are up to our necks in shirts at low prices. Semi-ready Store, 87 Charlotte Street.

"WHITE SLAVERY" CONFERENCE CALLED BY LEAGUE OF NATIONS

Geneva, May 30—The secretary-general of the League of Nations has called an international conference to be held in Geneva on June 30, to bring together the views of the various governments on the question of repression of white slavery.

The conference will be presided over by Michael Lévy, former Belgian minister of finance.

CLASSES CLOSE FOR SUMMER.

The Baraca Brotherhood of Central Baptist church and Sunday school also the Philathea class of young ladies closed their definite organization sessions yesterday for the summer months, although some members will doubtless attend the school at liberty during June, July and August. Rev. A. L. Telford of the Tabernacle church addressed the young men, of whom there are about sixty in the class. Dr. I. N. W. Baker is the Bible instructor of the Baraca Brotherhood and John Collins, president.

ABOUT 5 MILLION GETTING NO WAGES

New York Bank States the Case for Reduced Cost of Production.

(National City Bank of New York Letter)

It is evident on every hand that the depression which exists is due to the unbalanced state of industry, as re- industry, as regards the compensation received by important bodies of people. A great portion of the population suddenly has lost a large part of its purchasing power, and is no longer able to buy the products of the other industries as it has been accustomed to do.

We must stop talking in terms of money only, when compensation is concerned. The labor leaders knew better than that when the cost of living was rising; why not recognize that the purchasing power of money is of as much importance when it is rising as when it is falling? And why not recognize that the wages paid in every industry are a factor in the cost of living of all the wage-earners?

Logically it is correct to reduce wages only as the cost of living is reduced, but how long will it take under this deliberate method, with everybody doing the Alphonse and Gaston act, to get industry back into balance, and provide everybody with work?

Meanwhile the economic law is not waiting on anybody. It got to work promptly, with the result that wages have been reduced already! According to a survey by the Bureau of Labor, Washington, about 6,000,000 persons in the ranks of the wage-workers are not getting any wages at all. It is strange that the people who declare so vehemently against any wage reductions seem to overlook this fact.

The trouble is that wage payments have been enormously reduced without accomplishing anything toward restoring the balance between the industries. The loss of wages and production is sheer waste. The cost of production in all the industries that have laid off workers, without reducing wage rates as high as it was before, and probably the expansion of consumption, it keeps up the cost of living to all those who have had to take reductions in their compensation and to those who are out of work, as well as to those who are fortunate enough to be employed.

These facts are evidence of a principle, running through all our economic relations. They signify that those relations are not determined at last by the mere strength and bargaining power of the different elements in society, but that there is a normal balance and relationship under which all groups and classes prosper best together.

SALE OF LONDON PAPER REPORTED

London, May 30—The newspaper world has been stirred by a report published prominently in the Daily Express that a great historic morning newspaper has been sold.

The Star denies authoritatively that this refers to the Daily News. The Morning Post also declares it is not changing hands.

The reported sale is being discussed in London newspaper circles as if it were a definite fact. The reported purchaser of the Journal in question is Sir John Ellerman.

Guaranteed!

NOT only did the proprietors of Rubberset Company originate and perfect the process of gripping brush bristles everlastingly in hard vulcanized rubber, but they originated the policy of guaranteeing brushes against bristle shedding, to the end that the manufacturer and not the individual brush buyer must bear the cost of any shortcomings in their goods.

That trade and public might identify the brushes so made, and so guaranteed, the manufacturers adopted, many years ago, the trade name "RUBBERSET" and affixed it prominently and permanently upon every brush they made.

"RUBBERSET must make good—or WE WILL!" is not an advertising slogan. It is a straightforward statement of the principle which made and maintains RUBBERSET brushes as the world's standard article of their kind.

Imitations of the process, the trademark, or the principle, can be viewed only as an attempt on the part of those practicing such imitations to profit by the standing and esteem accruing rightfully to the originators of all three. Identify the brushes made by this company by the presence of the trade name RUBBERSET as shown below.

In their thousands, men are turning to this new razor of precision—

PATENTED: CANADA, AUGUST 31st, 1920

The New Improved Gillette Safety Razor

Uses the same fine Gillette Blades as you have known for years—but now your blades can give you all the luxury of the finest shaving edge in the world. Identify the New Improved Gillette by its:

- Fulcrum Shoulder
- Overhanging Cap
- Channelled Guard
- Micrometric Precision
- Automatic Adjustment
- Diamond Knurled Handle
- Diamond Trademark on Guard

Finer Shave—Longer Service—More Shaves from your Blades

Alexander Graham Bell, the great Canadian inventor, will always be given the credit for the telephone. Bell's work superseded the efforts of Page, whose research was advanced in 1837; Bourseul in 1854; and Reis about 1860. In 1878 Bell's transmitter was itself superseded by Hunning's "granular carbon transmitter"; since perfected by A. C. White, whose "solid back transmitter" has practically displaced all earlier forms.

MOST inventions develop slowly. Here a little detail. There another—and so on, until you can hardly tell when the perfected device finally took shape.

Here in the New Improved Gillette is one of the startling exceptions.

At one stroke—micrometric precision, exact to 1/1000 inch, and these three fundamental discoveries, the Fulcrum Shoulder, Overhanging Cap and Channelled Guard.

The result of the unequalled Gillette experience and resources, developed by nearly 20 years' service to the shaving needs of every civilized people on the surface of the globe.

Even measured against your old-type Gillette, the New Improved Gillette Safety Razor represents an advance of 75% in shaving comfort and efficiency.

To the man who has never used an old-type Gillette, we say this: Compare the new Improved Gillette with any shaving method or device you know now. It opens up an entirely new era in shaving—the era of precision, of exact and predictable results.

It is worth any man's money—no matter how attached he may be to his old-fashioned razor or old-type Gillette.

NOTE.—The Gillette Company assumes responsibility for the service of Gillette Blades when used in any GENUINE Gillette Razor—either old-type or New Improved Gillette. But with IMITATIONS of the genuine Gillette, it cannot take responsibility for service of Blades.

POLICY THAT INJURES OUR CANADIAN PORTS. (Moncton Transcript). The senate committee, which has been investigating the causes of the diversion of Canadian grain consigned to overseas countries to American ports has brought out some evidence of interest to people in the east. It is estimated that in the past six years 818 million bushels of Canadian grain were diverted to American ports via Buffalo.

A witness appeared before the committee, J. G. Scott of Quebec, a railwayman of considerable experience, declared that over the Transcontinental railway with its shorter distances and low grades it would be possible to carry grain from Winnipeg to Quebec 49 cent as against 57 cent via the route via Harvey Junction and a still make a profit. Scott added that it was not right to argue that the distance to maritime province ports made it difficult to give them the winter grain trade.

LOCAL NEWS

A coach, carrying five passengers, while crossing the railway tracks on the Loch Lomond Road had one of its wheels of the horse and a remaining coach for the rest of the distance.
W. J. Brown, president of the St. John branch, G. W. V. A., has received a telegram from the Nova Scotia command, protesting against the appointment of a civilian as chief supervisor of the Maritime Soldiers' Settlement Board and calling upon the local branch for its support in the matter.
In an automobile accident that occurred at the junction of the Hanington and Golden Grove Roads, Miss Laura Akery, who was one of six passengers in a car driven by Lambert Stockford, received a severe shaking up, when the car collided with a car owned by the N. B. Construction and Building Co.
Two street cars met with a mishap near the corner of Douglas avenue on Saturday night. One car was proceeding north on the hill side-sloped hill. Both cars were loaded with passengers, but fortunately none were seriously injured. One woman was stunned and was conveyed to her home in an automobile.
At the G. W. V. A. fair on Saturday evening the door prize of one-half a ton of coal was won by ticket No. 1181. This prize is undivided as are prizes drawn by tickets No. 2458, No. 1283, No. 406 and No. 157. The ladies' loss was won by Mrs. J. Garry and the gentlemen's by Mr. Parfitt. The City Cornet band was in attendance and rendered a good programme of music to the 1,500 persons present.
Mrs. George Parker visited the South End Boys' Club on Saturday morning at 10:30 and entertained the children with the weekly story telling event. She told of Florence Nightingale, Bookers Washington and the Story of the Indian. Miss Gunn presided and Mrs. Blenkinsop was a visitor. The boys were delighted with these stories, which were told in a very interesting manner.
YESTERDAY IN THE CHURCHES
Rev. G. A. Kubring in his sermon at the morning service in Stone church yesterday, paid an eloquent tribute to the life and character of the late Lady Tilly. Tracing the lives of nobles in Biblical history, Canon Kubring described women as the preservers of national and family life and the equality of elders. The scriptures formed his only rule of faith.
Rev. F. H. Bone announced yesterday to his congregation that it was hoped to institute a nursery in connection with the Central Baptist church so that mothers having small children might be relieved of their little charges while attending service.
The twenty-fifth anniversary of the induction of Rev. Gordon Pringle as minister of Kinross and Kintore was the occasion of special celebration yesterday when a congratulatory message was delivered to him by Rev. Dr. A. Morrison on behalf of the presbytery of St. John. The sum of \$100 was also presented to the pastor by Dr. Morrison on behalf of the presbytery to help defray the expenses of the new foundation of the church.
Some visiting clergy were heard in the city churches yesterday. Rev. J. A. Cooper, of Bathurst, was the preacher in Trinity church. Rev. Frank Baird, clerk of the St. John Presbytery, conducted the services in the First Presbyterian church. Rev. W. C. Kriesel of Fredericton was in St. Dav's church. Rev. Dr. A. M. Hill, secretary of the Canadian Brotherhood Association was the preacher in St. Andrew's church in the morning and in the evening delivered a sermon at the Carmarthen street Methodist church. Some of the Methodist ministers observed the usual interchange of pulpits at the morning service. Rev. George F. Dawson, of Edmund street church, exchanged with Rev. A. I. Terford of the Tabernacle church. Rev. E. E. Styles, of Carmarthen, exchanged with Rev. H. B. Clarke of Portland church.

And Advertising Knows No "Peak"
"Kinchinjings" is the name of one of the highest mountains in the world. It is 28,156 feet high. Pike's Peak is only 14,108 feet high but gets credit for being higher because it is advertised. Advertising will bring many unknown things into prominence during the coming years.

King Plays Tennis Against Ex-King—Baseball in Germany—International Polo Meet.

Nice, May 29.—(Associated Press, by Mail)—King Gustave of Sweden, who had been wintering here, just previous to his departure for Stockholm to resume his kingly duties, expressed a desire to play one last game of tennis with Miss Suzanne Lenglen, world's woman champion, as a partner against ex-king Manuel of Portugal paired with Mrs. Satterthwaite, a celebrated English expert. The king is not so young as he used to be and it was only through the overwhelming superiority of Miss Lenglen that the game went to the present ruler against the ex-king.

IMPERIAL BIG SPECIAL WITH WHICH TO OPEN THE SUMMER SEASON TODAY

TO PLEASE ONE WOMAN

THE ONE THING IN ALL THE WORLD that man tries most to do! And when he succeeds or fails? Here is the mightiest moving force in history—the alluring power of woman over man—embodied in a drama of every-day life and vibrant with romance and beauty.

SAME CLASS OF PICTURE AS 'THE FURNACE,' 'DON'T LEAVE YOUR HUSBAND,' etc.

Character of the Story: Drama of North American life. Scenes laid in California seaside town and surrounding country. Famous Producer: Written and produced by Lois Weber. First of a series to be made by Miss Weber for Paramount.

Lesson of the Picture: The havoc wrought on innocent lives by the infatuation of an unsuspecting man for a selfish, sophisticated woman. The blight cast upon his romance with the girl who really loved him, his awakening and final regeneration through faith and true love.

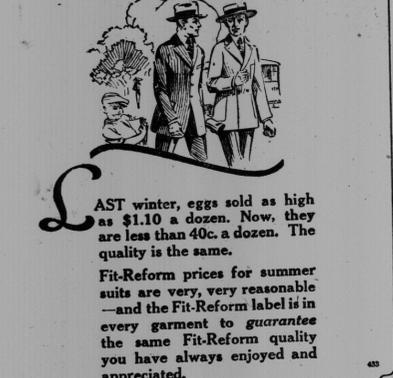

SUPERB OPERATIC ORCHESTRAL SETTING. WED. Feature 'SNOW IN THE DESERT' Story. COMING: First and Exclusive HIS HOLINESS POPE BENEDICT

METHODIST MINISTERS.

At the weekly meeting of Methodist ministers this morning a long discussion took place on work in small fields and the pastoral oversight thereof. Suggestions were made looking to the better care of these districts. Some routine business was transacted. Those present were Rev. Messrs. Neil MacLellan, chairman; S. H. Stewart, Dr. S. F. Heston, Dr. Marshall, J. B. Gough, E. E. Styles, H. A. Goodwin, Henry Penna and G. F. Dawson.

FUNERALS.

The funeral of Miss Alice Melvin was held this afternoon from the residence of D. H. Melvin, 37 High street, to Parkhill. Services were conducted by Rev. G. F. Dawson and Rev. H. A. Cady.

DEER HIT BY STREET CAR IN MILL STREET.

A young deer ran out from the direction of the C. P. R. freight sheds, Mill street, about 7 o'clock this morning, and crossed the street right in the path of an oncoming street car. The poor animal, becoming frightened by the car, stopped in the tracks with the result that the car collided, injuring the deer so badly that C. N. H. Policeman John Morrissey decided to shoot it. The mortician was unable to stop the car in time to avoid the deer and the animal charged it, and after being entangled in the fender, the deer was dragged along and crushed under the car. Sergeant McLeese arrived on the scene soon after the accident and notified the game warden, who is looking after the carcass.
On Saturday a deer ran across the road at Riverdale and was struck and killed by an automobile.

CONFERENCE ON TRACK SITE FOR THE C. N. R. RAILWAY.

Mayor Schofield and the city commissioners were in conference this morning with C. Barker, superintendent of the C. N. R., regarding the purchase of the city warehouse on McLeod wharf, which is now occupied by the Memorial Shop. The C. N. R. is desirous of having this warehouse removed in order to allow for a further extension of its railway tracks along the waterfront. It is understood that the railway wants the city to remove the warehouse at its own expense offered the property to the city this morning for the sum of \$9,000, or in case this was not satisfactory, expropriation was suggested. Mr. Barker announced that he would have to report the result of his negotiations to headquarters before any decision could be made in the matter.

PROGRESS IN THE BRUSSELS STREET PAVING QUESTION

Expected That it Will be Cleared Up This Afternoon—Power Company Willing to Co-operate—The Queen Square Loop.

Progress in the matter of the paving of Brussels street was made at a committee of the common council, which took place this morning. P. W. Thomson, manager of the New Brunswick Power Co., was present and assured the council that the company would do everything in its power to assist the city in carrying out this work. A special meeting will be held this afternoon when the report of the commissioner of public works on the matter will be presented.

The N. B. Power Co. applied for permission to erect an electric sign in its building in Dock street. Referred to Commissioner Frink and the city engineer.

Commissioner Thornton said that many owners of electric signs were not complying with the agreement signed when permission was granted—to keep them lighted until 11 p.m.

Commissioner Frink suggested cancelling the licenses in such cases.

The residents of Charles street petitioned for the erection of a retaining wall along Charles street to Rock street. Commissioner Frink said this would be a very heavy expenditure. The matter was referred to Commissioner Frink for report.

Proposed Refractor Law.

Commissioner Thornton submitted a draft of a by-law respecting the removal of stalls from restaurants. The matter was laid over for further consideration.

Brussels Street Paving.

Commissioner Frink reported that he had announced to the N. B. Power Co. the fact that the city intended paving Brussels street. He re-read the letter from the power company read on Saturday asking the city to finance the company's share of the expense by taking a note for two years.

The city solicitor, Dr. J. B. M. Baxter, said that under the law the city could remove the rails for paving and the company was required to replace them when the work was completed.

The mayor said that the city was desirous of getting the work done but wanted the power company to co-operate and relay the track so it would not be necessary to dig the street up again later.

Replying to the solicitor, the mayor said the company should be financially able to look after the placing of the tracks.

The solicitor said the only thing to do was to notify the company that the city was to remove the track and to ask them to replace them satisfactorily or the street would be closed to car traffic. He said the Brussels street situation did not look so bad as the Douglas avenue matter did at the start.

Dr. Baxter said that the depreciation fund of the company could hardly be expected to provide for the rail replacements.

The Marsh Road.

Regarding the track on the Marsh road, the road engineer said that all the work to be done there would be surfacing the street and railway work. He said that the city would have to adjust the rails only. There would be no foundation or curbstone to be put in. He said some stones had been put in the holes, but the mayor said that the cars were throwing the material all over the road.

The mayor expressed the opinion that this work should be done as soon as possible.

The engineer was of the opinion that could be carried out by the city without interfering with street car traffic. The plans provided for an asphalt surface on the present foundation.

Company to Co-operate.

Percey W. Thomson, manager of the N. B. Power Co., was present and was informed of the plans of the city regarding Brussels street.

Mr. Thomson said the company would go along with the city and do its part of the work. He asked what the city could do to help the company out financially.

The mayor said the work of placing the rails would not amount to a large sum and he thought the city could not be expected to finance the work.

Mr. Thomson said the company would go as far as their credit would allow. He said the company had \$75,000 to go along with, but was spending \$100,000 on Douglas avenue.

Replying to Mr. Thomson, the road engineer said he would prefer to cut off a portion of the track and transfer, rather than leave one track open all the way. He said either way would be suitable, however.

Mr. Thomson said that the company would agree to a fixed price a yard on the concrete base. This would obviate the necessity of keeping the costs separate while the work was going on. He said the equipment for putting in the rails had been ordered, as had also the rails for Douglas avenue.

The mayor said that the city could not promise to give the company two years to pay for the foundation.

Mr. Thomson said the only thing which could delay their work was delay in the arrival of material. He said the company could start cutting the rails from Douglas avenue for the Brussels street work.

Commissioner Frink said with the information from the power company he could bring the whole matter before a special meeting of the council at four o'clock this afternoon.

Queen Square Rails.

Regarding the rails in Queen Square, West St. John, Mr. Thomson said that the company was desirous of keeping the rails in the square for this summer and then taking into consideration the removal and replacing of the rails on another route.

The mayor asked if something could be done to level the tracks to the grade, provided permission was given to retain them in the square until next spring.

Mr. Thomson replied that he would make a report on this matter in a day or two.

ENGAGEMENTS ANNOUNCED.

Mr. and Mrs. F. P. Josselyn, of East St. John, announce the engagement of their sister, Annie F. Gillett, to Wm. A. Sege, the marriage to take place in June.
