G. T. P. BIDS FOR HUDSON BAY ROAD

Enters Field in Rivalry To Canadian Northern

LETTER FROM MR. HAYS

Minister of Railways Receives Offer of Negotiations Respecting Operation of New Line—Possibly a Lease—Means a Road From Saskatoon to Pas Mission

Ottawa, Jan. 18.—A telegram was received yesterday by Hon. Geo. P. Graham, minister of railways, from Charles M. Hays, president of the Grand Trunk Pacific Railway Company containing an offer from the Grand Trunk Pacific to negotiate with the government respecting the operation of the Hudson Bay Railway.

While no terms were mentioned, it is surmised that the Grand Trunk Pacific would desire a lease similar to the one under which it will operate the eastern section of the National Transcontinental. A substantially similar offer, it is said, has already been received from the Canadian Northern, and it is hoped that better terms may be secured from one or the other of the competing companies.

The present proposition contemplates the construction of a line by the Grand Trunk Pacific from Saskatoon to the Pas Mission.

This proposition follows upon a conference held here recently in which President Hays, Mr. Wainwright and Chief Engineer Kallinger participated.

TWO OTHERS ARE NOW CHARGED IN FARMERS' BANK CASE

Warrants are Issued for a Toronto Man and a New York Broker

Toronto, Jan. 18.—(Special)—The issuing by the crown of warrants against Wm. J. Lindsay, of this city, who was engaged as an agent with W. R. Travers, when general manager of the Farmers' Bank, to sell the bank stock on commission; and George Wishart, a New York broker, who was concerned in the Keeley deal with the Farmers Bank, is the latest development in the bank matter.

Both men are charged with conspiracy. The information against Wishart reads no charge against Dr. Beattie Nesbit, former president of the bank, other than that of making false returns of the bank's financial position to the government at Ottawa. The charge sets forth that George Wishart, Dr. W. B. Nesbitt and W. R. Travers "did conspire, confederate and agree to steal from the Farmers' Bank of Canada the sum of \$300,000."

The charge is based upon alleged division of the stock of the Keeley Mine, which the crown contends was a fraudulent transaction. Wishart is said to be the holder of 500,000 shares of the Keeley mine. He is a broker of considerable prominence in New York, and has large business connections in Toronto and Cobalt. A special despatch received from Buffalo last night said: "Geo. Wishart went to Canada this morning." Inspector of Detectives Duncan, who went to Buffalo yesterday, returns without Wishart.

WANTS WOMEN AS INSPECTORS

Toronto Medical Health Officer to Clear Up Slums

Death of Judge McMahon—Ontario Provincial Authorities Seem to Have Been Victims of a Practical Joker

Toronto, Jan. 18.—Dr. Hastings, medical health officer, has asked for the appointment of four women inspectors to investigate slum conditions with a view to the inauguration of a systematic plan for sanitary and hygienic betterment of the homes of the poorer classes.

Hon. Hugh McMahon, a justice of the high court of Ontario, died at 2 a.m. after a month's illness, aged seventy-five.

The annual report of the fire department shows that there were 1107 alarms sent in in 1910, an increase of 104 over the previous year. The total fire loss was \$27,248,881, the lowest for the past nine years. It was \$481,157 less than the total fire loss in 1909 and the average loss per fire was the smallest in the history of the department.

J. C. Harston, principal of the Weston High School, dropped dead before his pupils as he was conducting devotional exercises at the opening of his school yesterday. Death was due to heart trouble.

T. E. Godson, K.C., of Brantford, has been appointed police magistrate for Port Hope and district at a salary of \$4,000 a year. He will hold court at Port Hope on Tuesdays.

A huge, but unintentional practical joke on the provincial authorities and the people of Ontario has just come to light. 1895 Hugh Nichol, of Stratford, Ontario, presented to the provincial museum at the small school a block of stone with circular hole cut through it. Tens of thousands of sightseers have read the placards which state that the stone is the old "Flighting Stone" of Laing, in Sutherland, and that the customs of plighting troth with clasped hands through the hole was probably of druidical origin.

It now appears that the stone is an ordinary one used for grinding meal and that the legend associated with it was invented by a humorous Scot from whom Mr. Nichol purchased the stone in good faith and brought it to Canada to present it to the province.

NOVA SCOTIA COAL AND FISH IN THE TARIFF NEGOTIATIONS

Some Speculation From Washington as to Items Affected by the Conference—Work of Conference is Nearing an End

Washington, Jan. 18.—The treaty makers took a holiday yesterday and today are engaged on what is thought to be one of the last days of the work of negotiations. The remainder of the struggle will be in the two houses of congress in Washington and in parliament at Ottawa.

It is now taken for granted in Washington circles that such progress has been made that an agreement will soon be announced involving more articles than anticipated and paving the way for further action in the future, when it is felt to be in the interests of both countries to agree. There is no longer any thought that the conference will result in an agreement for concurrent legislation. President Taft continues silent.

When a correspondent ventured to inquire if he thought this country would get a good bargain, the president laughed but gave no answer.

The geographical aspect of the present trade negotiations is one to which no one would care to refer. If Nova Scotia is compelled to yield free coal for the benefit of central Canada which is more adjacent to Pennsylvania and Ohio fields, Nova Scotia will want something in return, and it would naturally be free fish. The people of New England could do with more herring haddies from Digby and New York will never get enough haddies. It now appears that the stone is an ordinary one used for grinding meal and that the legend associated with it was invented by a humorous Scot from whom Mr. Nichol purchased the stone in good faith and brought it to Canada to present it to the province.

THREE MEET DEATH IN THE SUBMARINE

Commander and Lieutenants Remain in Tower After Crew are Safe

AIR IS CUT OFF

Accident Sends in Rush of Water and Supply of Oxygen Fails—Sixteen Hours Work Before They Could be Reached

Kiel, Germany, Jan. 18.—The work of raising the German submarine U3, which sank yesterday, was completed early today. Three men were found inside in the tower. The commander was one of the three. P. Fisher and Kolb, the lieutenants, their deaths were due to an unforeseen mishap at the moment that the officials of the salvage ship Vulkan, twenty-seven of her crew were receiving congratulations upon the supposed successful raising of the submarine, three hours after she sank.

The three men were still in the conning tower "L," which remained submerged when the vessel rose obliquely. Here the men might have stayed without danger for some time, as the boat had a considerable supply of oxygen, but for an accident that cut off this supply from the tower.

Word was sent out that the raising was being attempted and that the crew was safe. The work was continued when suddenly a ventilator gave way, permitting the water to rush into the submarine, isolating the tower and cutting off the oxygen upon which the three officers were dependent.

With the ingress of water the bow of the ship rose, but the stern, where Tower "L" is located, sank deeper. Recognizing the peril, the rescuers worked desperately to reach them, but it was sixteen hours before they were able to enter the conning tower. Long before that time the men had died of suffocation.

The chief responsible for the giving way of the ventilator, the immediate cause of the tragedy.

Do Fine Work When C. P. R. Train is Ditched

RESCUE PASSENGERS

Unshackled When Train Goes Over Bank, Then Hold Out Hands for Irons When Danger is Passed—Passengers Petition Attorney-General in Their Favor

Toronto, Ont., Jan. 18.—A score of persons were hurt, none seriously, in a wreck yesterday afternoon on the C. P. R. Owen Sound branch, between Monro Road and Balton. The language car and two passenger coaches of the south bound express, due in Toronto at 3.30, left the rails, ran down a low embankment and turned over on their sides. The train was running about thirty miles an hour, and the accident happened on a curve. The cause is believed to be a loose fish plate, which allowed the rails to spread.

A feature of the accident was the brave conduct of four prisoners, who were being brought from Owen Sound to the central prison in Toronto. When the derailment occurred, the constable in charge released the prisoners from their manacles and they worked nobly in rescuing the imprisoned passengers. One of them crawled into a coach and with snow carried by his comrades, extinguished the fire in the stove which threatened to ignite the wreck.

When all the passengers were safe, the prisoners submitted themselves to the custody of the constable, who allowed them to travel the remainder of the journey without shackling them. All the passengers signed a petition to the attorney general of Ontario asking him to take cognizance of the brave conduct of the convicts.

CHAPTER VIII.
At the Sun-Dial.
The messenger of evil had waited twenty minutes by the side of the sun-dial...

distance off, lounging among the flower beds in the moonlight, was the figure of a tall man. Osborne was about to inquire of the two nearest him if they had seen the lady, when the old gentleman hurried limply forward out of the tree's shadow and asked if he was seeking a piece of something that had dropped from above.

"Yes," answered Osborne, "have you seen it?"
"That gentleman walking yonder was just under your window when it dropped, and I saw him stoop to pick it up," said the other.

"The Mr. Glyn whom you know is no other than the Mr. Rupert, who is in everyone's mouth in connection with the Felishian Mansion Murder."

He charged the railway with taking too much money out of the people.

MARINE NEWS
After having been wiped off the government list of merchant vessels as lost, the two-masted schooner, J. S. Glover, in command of Capt. Davis, was towed into Boston on Monday. The schooner, the only one of the old craft into the coastwise trade is one of the most remarkable cases on record. On Oct. 15, 1907, the schooner foundered in Marsh harbor, Me. She was supposed to be a total loss and her name was stricken from the vessel list and the record of her loss was entered in the records for that year. But the old craft was destined to live again. She was raised, and was thoroughly repaired and has started to ply her trade to some of the new schooners. She loaded a cargo of boxboards at Round Point, and put into Portland. She left Portland at 2 p.m. Sunday and reached Boston Monday morning, making one of the quickest runs since she was built in 1868.

**Automobile Case Was Resumed Today—Witness Whom "The Boss" Would Not Let Go to Court Yesterday**

The civil case of Margaret Logue vs. George H. Waterbury, senior and junior, action in connection with an automobile accident, was resumed in the circuit court this morning before Judge McKewen.

Agnes McIntyre was called as a witness by the defence. Asked by Mr. Powell why she did not respond to the summons of the court yesterday, she replied that her "boss" would not let her go.

Mr. Powell—"The boss has more power than the court."

Miss McIntyre testified that she was with the plaintiff at the time of the accident. Her evidence was similar to that given by the plaintiff.

Mr. Wilson then outlined the defence to the jury. He claimed that the matter was the result of "inevitable accident."

George H. Waterbury, jr., was called by the defence. He said that he is an experienced driver and that he was driving the automobile on the night in question. He swore that he was following a team up Union street, in the centre of the track; that he turned to the left to pass the team and when almost level with the front of the team he saw a boy on a bicycle striking the front of the team and he turned the front wheels of his car against the sidewalk and struck the plug, thus allowing the wheels to strike the boy, and saving the team from more serious injury. He said that he was not thrown from his seat by the impact, and the damage to the machine was very slight.

Daniel J. Ford, James McCarthy, John Waterbury, George H. Waterbury, jr., and Percy Doleman were called as witnesses by the defence. The court adjourned until 2:30 o'clock this afternoon.

**AND THERE'S MUCH IN VIEW**

**West Side Transfer to Come Up—Purchase of Ferry Likely Off—Lancaster Water Situation To Be Taken Up and Partridge Island People Have Complaint**

A special meeting of the common council will be held Thursday afternoon at 3 o'clock to consider a number of matters. One of the principal questions will be the transfer of the west side lots to the C. P. R. It is possible that in view of the communication from Vice President McNeill, some further action will be taken to define the city's position and to arrive at a satisfactory agreement.

There is a communication from the public works department relative to strengthening the competition between No. 5 and 6 berths on the west side.

The matter of the water supply on the high levels on the west side is likely to create considerable discussion as many complaints have been made. It is also said that the people on Partridge Island are indignant at having their water supply cut off and it is said that there are several cases of typhoid fever on the island.

The correspondence with the marine department at Ottawa relative to the new ferry boat at New York, for which the city has been negotiating, will be laid to rest at the meeting. It is thought that in view of the reply received from the department that the boat cannot be bought.

The matter of the resignation of Alderman Whigg as a member of the market committee will be dealt with. Thus far Ald. White is the only member of the committee who has actually resigned. Ald. Wynne and Ald. Jones as well as Mayor Frink, the other members of the committee have taken no definite action. It is expected that Ald. Wynne will arise on a question of privilege to reply to the statement made concerning him at the last meeting by Ald. Potts and Yawward, and it is probable that some interesting passages will result.

**MRS. ASQUITH ON STAND IN ENGLISH SOCIETY SLANDER CASE**

London, Jan. 18.—Mrs. Asquith, as a piquant witness today in a slander case of persons prominent in society. Mrs. Asquith was called for damages for making remarks concerning her separation from her husband, which deprived her of social invitations and sent her out from court functions temporarily.

Justice Darling supported the lord Chamberlain's refusal to reveal confidential statements made to him by Sir Algernon and the prosecution of the case. The allegation of slander, Lady Grove and Mrs. Asquith were called, but neither could remember any charge more serious than the assertion that Mrs. West was extravagant and Mrs. Asquith caused general excitement by adding that a reputation for extravagance, instead of barring any one, would have been a passport into society.

Mrs. West said that her invitation functions were ignored after her case was laid before the court. She said that a reputation for extravagance, instead of barring any one, would have been a passport into society.

**THERE'S EA OF DELAY IN STREET RAILWAY WORK**

**Mr. Hopper Hopes There Will Be Special Meeting of County Council Called**

The action of the Municipal Council yesterday in sending the communication from the St. John Railway Co. to the Highway Board of Simons may, it is said today, prevent the railway company from starting their extension work put the Red Head road in the spring, as was intended. The highway board will have to meet on Monday and the council before action can be taken, and the next regular meeting of the council will not be held until May.

In appearing before the general committee of the council yesterday afternoon, H. M. Hopper, general manager of the company, said that they were desirous of getting an early reply to their request in order to order the equipment at once, so that work could be commenced early in the spring. The present time for the laying of steel rails was favorable for ordering and as the rails were of a special kind, they have to be rolled to order. It was the desire of the company to place the order at once.

In speaking of the matter this morning, Mr. Hopper said he hoped that the council would see the advisability of having the matter settled as soon as possible, in order to facilitate their work and that a special meeting of the council would be called soon to hear the report of the highway board.

ATTEND THE MEETING

Electors interested in the commission plan of government, from all parts of the city, should attend the meeting at Keith's Assembly rooms this evening. It is proposed to organize a large citizens' committee, to take up the work of familiarizing all the people with the principles of government by commission.

CHANCE FOR MANUFACTURERS In a letter to the Times, the secretary of the Coronation Exhibition, to be held at Shepherd's Bush, London, from May 11th to October 1st of this year, writes: "It is intended to bring before the many millions of persons who will visit the exhibition a more complete representation of the British Empire than has ever been attempted, and in this stock-taking of Great Britain great and deserved prominence will be given to the Canadian government."

A BOARD OF CONTROL

Ottawa is having trouble with its city council and board of control. The two do not work well together. The Journal says: "By a majority of two in a council of twenty-two members, a motion to re-establish a citizens' standing committee was adopted Monday night, and will result in the passage of the necessary council by-laws unless some aldermen experience a change of heart."

At the annual meeting of the New Brunswick Tourist Association the need of larger hotels for summer tourists was again emphasized. Some day enterprising men with capital will deem it worth while to exploit the St. John river and some other provincial resorts, and provide the hotels. To get the people who have the most money to spend, it is necessary to have the right kind of hotel accommodation.

A PRISON FARM

The Times is glad to note that its advocacy of a prison farm instead of the jail, for prisoners sentenced to hard labor, has commended itself to the municipal council. The council has endorsed the principle, and will no doubt take action in a practical way at an early date.

KIDNEYS ACT FINE AND ALL BLADDER MISERY VANISHES

The Most Severe Backache and Any Urinary Trouble Goes After Taking Several Doses of Pape's Duretic

Kidney disease is the most dangerous, because the first symptoms are seen in other parts of the body before anything wrong is noticed with the kidneys themselves. Some of the symptoms, though, cannot be mistaken; for instance, sick, unhealthy kidneys cause thick, cloudy, offensive urine, full of sediment, irregular passage or attended by a sensation of scalding. The back aches constantly, or there is dull misery in the sides and loins, headaches, and dizzy spells may occur, nervous twinges, disturbed sleep, inflamed or putty eyes, indigestion, bilious stomach, heart palpitations or the sufferer is often weighed down by a feeling of languor or fatigue.

A SEA-SYMPHONY

All day the sea mad a song for you, singing Of waves that jeweled by opal spray, Of wild sea-chargers, their white manes swinging, And fair sea-maidens as wild as they; The sea made a song for you, this day, The wind that listened, joined too; his sighing Is but the burthen of song too sweet To waive on the sails of the ships far a-lying Toward strange horizons where dim worlds meet; The wind made a song for you, blent with sighing.

IN LIGHTER VEIN

HOME-MADE The parlor maid had been out for a day with her mother, and her mistress, asking where they had been, was told, "Madame Tussaud's." "But you always go there," she remonstrated. "Why don't you take your mother somewhere else?" "Well, you see, madam," explained the domestic, "it's like this, Father bein' in the chamber of horrors at a ball of horrors."

BETTER TO BE CAUTIOUS.

In a churchyard an old man deep in thought sat on a flat tombstone. It had been raining, and all the trees looked fresh and green. A tramp, passing by, made a remark on the weather. "Grand morning," "Yes," said the old man. "Just the sort of weather to make things spring up," said the tramp. "Hush! Hush!" said the old man. "I have three wives buried here."

NEVER SUSPECTED KIDNEY TROUBLE; GAINED FIFTY POUNDS IN WEIGHT

Some time ago I was suffering from what I supposed was rheumatism. I became so bad that I could hardly get on my feet from a sitting position. I ran down in weight from 165 to 145 pounds. I tried different kinds of medicine but received little or no relief. I saw Dr. Kilmor's Swamp-root highly recommended for kidney trouble and I never had any idea that my kidneys were affected. I thought I would try a fifty-cent bottle of Swamp-root and see what the effect would be. I commenced taking it according to directions, and in a few days I saw that it was helping me. I bought the fifty-cent bottle and then bought three more dollar bottles and they completely cured me. I have gone back to my original weight—165 pounds—and I am a thorough advocate of Dr. Kilmor's Swamp-root as I believe it is a remarkable preparation for what it is recommended to cure.

The Evening Chit-Chat

By RUTH CAMERON

WHEN a certain kind of white grapes were served at our breakfast table the other day and some one refused them, another member of the family looked at him in astonishment.

"Why don't you eat them?" he queried. "Why, those are the best kind of grapes there are."

Do you know, I think that remark was typical of a wrong attitude very many of us hold toward other things besides grapes.

What he meant was "I CONSIDER those grapes the best grapes there are."

"Those are the grapes I LIKE the best."

The mistaken attitude toward life or this—we forget to realize how very much personal equation there is in our judgments and definitions.

We attempt to make our standards the standards of every one.

We try to foist our "best" and "worst" upon other people as their "best" and "worst" and can't understand it when they refuse to accept our point of view.

A learned English judge recently pronounced his idea of the fourteen or so most mistakes in life. Three of them—I believe I have quoted these before, but I think they are worth innumerable quotations—were:

"To try to measure the enjoyment of others by our own."

"To expect uniformity of opinion in this world."

"To endeavor to mold the opinions of everybody alike."

Evidently he had met many people who left out the "I consider."

There are people who say there is no such thing as absolute good and bad. "Goodness" and "badness," they say, are fluctuating quantities depending entirely upon environment, bringing up, habit, point of view, etc. What is bad in one person may be good in another person and what is good in one may be merely natural in another.

I can't quite see it so strongly as that. It seems to me that there are some few things which are always bad and some which are always good. Selfishness and unkindness, for instance, are always bad.

But I do think that in all definition, in all judgment there is a tremendous personal equation, and that those who attempt to speak or think without reckoning with it are making the most of the fourteen—beginning the Judge's pardon, seems to me fourteen hundred times fourteen would be nearer the reckoning—common mistakes in life.

When you have learned to say "I think and feel 'I consider these the best grapes,' instead of 'These are the best grapes,' then you have learned one of the big lessons of life.

Did you ever hear any one say they could not get good coffee except in the States?

I have heard it scores of times, and it's one of the reasons that made me decide to go into the Coffee Business.

Of the Americans who visit us in summer, hundreds take home a supply of Red Rose Tea because they have never tasted such good tea before.

I determined to put up a coffee that would make for itself just as good a reputation.

It has not been easy, but I am sure I have succeeded.

CASE OF RHEUMATISM

Many people have an idea that rheumatism is caused by climatic conditions, etc., but this is not so.

While these conditions aggravate sufferers from rheumatism, the real cause is due to uric acid in the blood.

This acid crystallizes with damp and it is these crystals working against the muscles that cause the torturing pains so often experienced.

There is only one way to cure rheumatism and that is through the blood and the kidneys.

Outward applications relieve by rubbing but the cause is still there, viz: uric acid.

A course of Booth's Kidney Pills will remove rheumatism by going to the seat of the trouble—the kidneys—and make men strong to throw off the uric acid before it gets into the system.

Lumbago and sciatica are another form of rheumatism and have their origin in the kidneys.

They all belong to the uric acid family and should be broken up at once by the Booth treatment.

Booth's Kidney Pills are a specific remedy for lame back, rheumatism, sciatica, lumbago, diabetes and all kidney and bladder trouble.

The Friend of the Aged

Booth's Kidney Pills are the friend of those advancing in years. They supply a life force that is needed more as the years advance.

They do this by keeping the kidneys active and throw off more readily the blood impurities that are inclined to remain in the system.

Booth's Kidney Pills lighten the burdens of age.

Heed the Warning

Booth's Kidney Pills are the only guaranteed cure.

Street Cars Hard on Kidneys

John Berwick is a motorman and resides at 89 Murray street, Montreal. He says: "For two years I was a sufferer from kidney and bladder trouble."

I had tried every possible means to secure relief, but nothing seemed to benefit me. The constant jarring of my car had a very bad effect on my kidneys and often my back would be very painful.

I would have to lay off work frequently. Every little cold I took flew to the kidneys and caused me much suffering.

Finally I heard of Booth's Kidney Pills. I secured a box from my druggist and they gave me immediate relief. I persevered with the treatment until every symptom of kidney and bladder trouble had disappeared and I am now better and stronger than I have been for years and the 1st-tributed to Booth's Kidney Pills.

If you would be so long and be healthy, heed the warning and get a box of Booth's Kidney Pills. A general tonic will not do. Remember that Nature intended to curate the ailments.

They bring quick relief and cure thoroughly. Rheumatism, neuralgia, sciatica, lumbago and gout all yield to Booth's Kidney Pills, the enemy of uric acid, the cause of all these troubles. Booth's Kidney Pills are sold by all druggists and dealers at 50c. or post paid from the R. T. Booth Co., Limited, Fort Erie, Ont.

Booth's Kidney Pills are the only guaranteed cure.

DYSPEPSIA
Can Be Cured.
This disease is the all prevailing malady of civilized life, and one which often baffles all ordinary treatment. It gives rise to a great variety of distressing symptoms, such as indigestion after eating, rising and souring of food, wind in the stomach, heartburn, etc. Nearly everything that enters a weak dyspeptic stomach acts as an irritant; hence the great difficulty of effecting a cure. The long pain of distressing symptoms, which render life a burden to the victim of dyspepsia, may be promptly cured by the use of Doan's Kidney Pills. B.B.B. cures the stomach, liver and bowels, stimulates the secretion of the saliva and gastric juices, to facilitate digestion, purifies the blood, and restores the entire system. Mrs. Henna Dickson, Benton, N.B., writes: "I have used Doan's Kidney Pills and find that few medicines can give such relief to dyspepsia and stomach troubles. I was troubled for a number of years with dyspepsia, and could get no relief until I tried Doan's Kidney Pills. I took three bottles and became cured, and I can now eat anything without it hurting me. I will highly recommend it to all who are troubled with stomach troubles." Manufactured only by The T. M. Could Not Rest at Night. Back Was So Weak.
Weak, lame and aching backs are the primary cause of kidney trouble. When the back aches or becomes weak it is a warning from the kidneys that everything is not right with them. Head the warning; cure the weak, lame, aching back and dispose of any chances of further trouble. If you don't do this, serious complications are very apt to arise and the first thing you know you will be troubled with Dropsy, Diabetes or Bright's Disease, the three most deadly forms of kidney trouble.
