PREFACE.

The Publishers have great pleasure in placing before the public this Third Edition of the GAZETTEER AND GUIDE OF THE MARITIME PROVINCES. The matter contained in this work has been arranged in such a systematic form as to render it very easy for those who peruse it. The fact that this has been a tremendous undertaking, and the desire to have it published and ready for the advertisers and subscribers as soon as possible, has occasioned a great outlay of time, money and nervous energy. For any shortcomings the Publishers must appeal to their readers. They have experienced great difficulty in getting the information, proper populations, &c. Errors, of course, will be found, (as they are in all works of this kind) but the strict and very careful manner in which this work has been compiled has made the errors that have been made unavoidable.

The Publishers here acknowledge their indebtedness to all who have in any way forwarded the work. The Publishers also express their thanks to one and all of the advertisers and subscribers who responded to make this edition a success, so much so that we find when this very large edition is supplied to the advertisers and subscribers very few will be left.

D. MCALPINE'S SONS,
PUBLISHERS.

BAY OF FUNDY

STEAMSHIP CO., Ltd.

ROBERT H. FLEMING, - COMMANDER.

IT is intended that their splendid sea-going side-wheel iron steamer "*CITY OF MONTICELLO*," plying between ST. JOHN, DIGBY and ANNAPOLIS, will run on daily trips during the months of July and August (Sundays excepted); every other day during June and September, leaving St. John Monday, Wednesday and Friday, and returning Tuesday, Thursday and Saturday; and for the remaining months of the year will leave St. John Monday, Wednesday and Saturday mornings, returning same days.

Connecting at Digby with the Western Counties Ry. for points West, and at Annapolis with the Windsor and Annapolis Ry. for points East; at St. John with the different lines of railways and steamships for points North, East and West.

Meals can be obtained on board at reasonable rates.

THE UNIVERSITY OF

Mount Allison College,

SACKVILLE, N. B.

DAVID ALLISON, LL. B., President.

THE University of Mount Allison College, with its associate Institutions, the Ladies' College and the Mount Allison Academy, constitute one of the most extensive, complete and thorough educational establishments in the Dominion of Canada. Students may enter either as regular Matriculants or as specials who wish to follow chosen lines of Study. Women are admitted to College Courses and Degrees on the same conditions as Students of the other sex. The domestic and social arrangements are pleasant, and the expenses moderate.

The first term of the Collegiate year 1892–3 begins on the 4th September next, and the 2nd term on the 8th of January, 1893.

For further particulars address the President for a Calendar.

Mount Allison Ladies' College,

SACKVILLE, N. B.

Principal: REV. B. C. BORDEN, A. M.

Over Thirty-Four years of successful educational work has given this Institution an unrivalled position in the public confidence. Courses of Study are provided, extending through the whole Universiry Curriculum. Teachers eminent in their profession are employed in the different departments.

THE MUSICAL CONSERVATORY is under the direction of an accomplished graduate of Stuttgart.

VOCAL CULTURE is taught by a lady who has studied under some o the best Masters of Germany and New York.

The VIOLINIST received his musical education under JOACHIM, the greatest living violm artist.

In order to meet the increasing demand of business offices for Stenographers a department of Shorthand and Type-writing has been recently established. The FINE ARTS department is maintained in a high state of efficiency. Special attention is given to the development of Christian character, as well as to the cultivation of refined taste and lady-like manners. The location is exceedingly healthful, and the terms are moderate.

Apply for Catalogue to Principal. Students are admitted at any time.

A. & J. W. Fraser, Harness Manfrs, New Glasgow, NS.

Represented by Whittaker & Co., is $13,000,000.

Mount Allison Wesleyan Academy.

C. W. HARRISON, B. A. Principal.

No Institution of Learning in the country has had a more successful history and none more worthy of patronage for the future. Many of the most prominent men now in professional, commercial and political life in Canada, and in other lands; had their training at Mount Allison Academy. The arrangements for the future are such as will guarantee a continuation and extension of the efficiency of the Institution. A thorough English and Commercial Education is imparted, and Students are prepared for College Matriculation and for Civil Service examinations. Instructions can be obtained in Short Hand and Type-writing, also in music, both vocal and instrumental. If desirable, Students can take, in addition to their work in the Academy, one or more classes and lectures in College. Every care is given to the private interests of the boys, so as to ensure their comfort and happiness.

The building is commodious, well heated throughout by the hot water system, and comfortably furnished.

EXPENSES VERY MODERATE.

For particulars apply to the head Master or to the President o the University.

NOVA SCOTIA

COUNTIES.

The Publishers of this work consider that there having been so many publications giving historical information of Nova Scotia, as in New Brunswick, that it would be of no advantage to follow in the same way, they therefore give a condensed statement of each County. Population of Nova Scotia in 1891, 450,523.

Annapolis County, capital Annapolis Royal, the oldest County, first inhabited by the French in 1605, nearly 287 years ago. They continued in possession for 108 years. In 1713 there was a treaty formed with the English, and the country of Nova Scotia became an English possession, and for 36 years Annapolis Royal was the capital of Nova Scotia; in 1749 it yielded the honors to Halifax. Fruit culture is carried on more extensively than in any other county in Nova Scotia, the lumber business is large, also shipbuilding is carried on extensively, the fishing business is also extensive. The scenery is very fine. Population in 1891, 19,352.

Antigonish County, capital Antigonish. This is an admirable county for agriculture. Shipbuilding is carried on. It is largely inhabited by the descendants of Scotch Highlanders. Population in 1891, 16,117.

Cape Breton County, capital Sydney, the oldest county

of the Island of Cape Breton, which was a separate colony from 1784 to 1819, when it was re-united to Nova Scotia proper. There are immense deposits of coal, and ten mines are profitably and extensively worked. Large quantities of coal are shipped annually by steam and rail. The fisheries are extensive, and large quantities of fish are shipped annually. The Cape Breton Railway traverses the centre of the island and terminates at Port Hawkesbury, thus connecting the island with Nova Scotia proper. Population in 1891, 34,223.

Colchester County, capital Truro. The capital has increased largely in population in the last ten years. There are large deposits of iron ore in this county. At Londonderry there are large quantities of it manufactured into iron and shipped; there are also some deposits of coal. The soil is very fertile. Both fishing and shipbuilding are carried on. Population in 1891, 27,160.

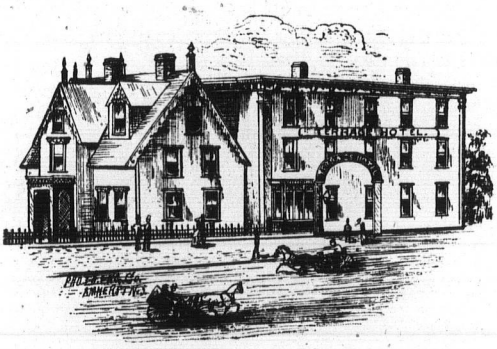

Cumberland County, capital Amherst. This county is the border county between New Brunswick and Nova Scotia, it lies at the head of the Bay of Fundy on one side, and Northumberland Strait on the other. There are extensive marshes comprising 1600 acres, the soil is exceedingly fertile. The I. C. R. runs through it. Lumbering is carried on extensively. Coal is found abundant in some portions and grindstones have been made and shipped in large quantities, also freestone, lime and gypsum are found. Fishing is also carried on extensively. Population in 1891, 34,529.

Digby County, capital Digby. This county was formerly part of Annapolis County. The inhabitants are largely the descendants of the French who first inhabited Nova Scotia. At Bear River there is considerable shipbuilding carried on. Part of the county is quite mountainous, the herring fishing is among the chief business of numbers of its inhabitants, its waters abound with other fish: it has a fine bay, which would make the finest harbor in Nova Scotia except Halifax.

The Annapolis River empties into it, and it is connected with the Bay of Fundy by what is called Digby Gut. The Western Counties Railway runs from here to Yarmouth, and with the Missing Link completed there is direct rail communication with Halifax by the W. C. R. and W. & A. R. Population in 1891, 19,896.

Halifax County, on the Atlantic Ocean. There are a number of harbors and islands on its borders. There is considerable gold found in this county. It contains 2064 square miles, 1,321,250 acres. Population (not including Halifax City) in 1891, 32,865.

Hants County, capital Windsor. The Indians were the first inhabitants of this county, and portions of it in the early settlement of the whites in the country was claimed by them as their hunting grounds, and a reservation was made to them. There are large quantities of land—which is very valuable—reclaimed from the tidewater. The county is well adapted to agriculture, and shipbuilding is carried on extensively. Population in 1891, 22,153.

Inverness County, capital Port Hood, in Cape Breton. The inhabitants are mostly all descendants of Scotch Highlanders, fishing is carried on extensively, coal is found in this county, but farming is the principal employment of the inhabitants. Population in 1891, 25,781.

Kings County, capital Kentville. This county is the continuation of the Annapolis Valley. There is a large quantity of dyked land which is very valuable; it is a fine agricultural county; shipbuilding is also carried on. It ranks next to Annapolis County as a farming and fruit-growing county. Population in 1891, 22,492.

Lunenburg County, capital Lunenburg, adjoins Halifax and Hants Counties on the northeast, Kings and Annapolis Counties on the northwest, Queens County on the southwest and the Atlantic Ocean on the southeast. It has several very good harbors. There is a very extensive busi

ness done in the fishing line, which has created a large business with the West Indies. It is also a good farming district. Gold was found in this county about the first in Nova Scotia. During the sixteenth century this coast was frequented by French fishing vessels, but no permanent settlement was made until the seventeenth century. It was formerly called by an Indian name—Malagash; was first settled by German and Swiss, and is now inhabited by their descendants. Population in 1891, 31,077.

Pictou County, capital Pictou, on the Strait of Northumberland. This is a fine county for agriculture. There are numerous harbors and rivers. In parts it is very hilly. This county was first settled by Highlanders, whose descendants now remain. It was formerly part of Colchester County. When first settled it was noted for its timber and large quantities were shippped to Great Britain. Coal is found in large quantities and shipped to all parts of the world. It was first discovered in 1798. This is a great manufacturing county, having the raw materials of coal and iron. Fish is also abundant. Population in 1891, 34,550.

Queens County, capital Liverpool, lies on the Atlantic coast and possesses good land in the interior, but along the coast is rocky. Farming and fishing are the principal business of its inhabitants. Lumbering and shipbuilding are carried on very extensively, large quantities of lumber being shipped annually. There are a few manufactories, but a great deal more might be done in that line. Population in 1891, 10,610.

Richmond County, capital Arichat, in Cape Breton. Fishing and mining are the principal business, the former being carried on very extensively. A large business is done with other parts of the world. Shipbuilding is also carried on extensively, and a large quantity of shipping is owned by its inhabitants. The people are generally of French descent. Population in 1891, 14,400.

Bigelow & Hood's Ginger Ale is the Best, Truro, N. S.

Shelburne County, capital Shelburne. Its coast, like all others when on the sea coast, is rocky. The soil is fertile, but the inhabitants are better adapted to fishing, in which a large business is transacted. Large quantities of lumber are shipped and shipbuilding is carried on extensively. This county has some fine harbors. It was founded in 1783 by British Loyalists. Population in 1891, 14,956.

Victoria County, capital Baddeck, in Cape Breton, is bounded partly by the ocean. Part of it, therefore, is rugged, but portions of it are well adapted to agriculture. It abounds in mineral wealth. It is inhabited chiefly by the descendants of Highland Scotch. Being in such close proximity to the Gulf of St. Lawrence, its winters are very cold and lengthy. There are several harbors, and fishing is carried on quite extensively. No fresh water lakes of any extent have been found in this county. Gold has been found in several places. It was formerly a great rendezvous for wild animals and a great field for sportsmen. The aborigines are nearly extinct. Population in 1891, 12,390.

Yarmouth County, capital Yarmouth. The French Acadians were the first settlers in parts of the county. Their descendants still remain. The capital may be considered next to Halifax in importance as regards the number of business establishments. There is a large business done in lumbering and shipbuilding. It was considered not long since that Yarmouth owned more tonnage in shipping per head than any place in the world. Fishing is carried on very extensively and a large trade is done with the West Indies. In some localities farming is in a prosperous condition. Population in 1891, 22,218.

Amherst, the capital of Cumberland County, was incorporated as a Town in the year 1890, it is situatedat the head of Cumberland Bay, is one of the leading stations on the I. C. Railway, and also one of the principal towns in Nova Scotia. It is about half way between St. John, N. B., and Halifax, N. S. ; the distance to Halifax 138 miles, fare $3.70 ; to Moncton 48 miles, fare $1.44, and St. John 137 miles, fare $3.78. The principal buildings are the post office and the County Court ; both of these buildings

have a very fine appearance outside, and will be sure to attract the stranger's eye while in town. The Court House is finished very nicely inside, being built of native birch and ash, and is one of the finest buildings in the Maritime Provinces. The town is lighted with electricity, and has a very bright and business look during the evenings. The stores are all lit up by incandescent lights, and quite a number of the private buildings are also brightened by the same process. There is a splendid Driving Park about one mile from the business portion of the town, it is situated on a dry sandy soil, and is a superior track in every respect. There is also a very handsome Cemetery about one mile out of town, it is fitted up with ornamental trees and set off with flowers. A good sized Exhibition Building is the next to attract attention, where an exhibition is held every three years, taking in Cumberland, Colchester and Westmorland Counties exhibits. Amherst is noted for thoroughbred horses, and some of the best trotters that are in the Maritime Provinces have been raised and are being raised here. The Chignecto Marine Transport Ship Railway Company's head offices are here, where the engineer and staff can be found. The Amherst Floral Company is also another place that the visitor should make it a point to see. There is a Freestone Quarry two miles from town, the stone is a very pretty grey color, and of an extra quality, the coldest weather not effecting it in the least. The town contains the following—56 stores, 36 of these have plate glass fronts, three printing offices, one publishing a daily and weekly paper, one a tri-weekly and weekly paper, and one a weekly paper, all of the above offices also do job printing, two of the offices are run by electricity, one large Electrical Co. which supplies the town with light and power wherever electricity is used, one extensive coffin and casket manufactory, two large foundries and three machine shops, one boot and shoe factory, one large tannery, two wood working factories, two saw mills, four carriage manufactories, one calf and sheep skin manufactory, also in the same building they manufacture lambs wool mats, one soda water manufactory, one

S., Am. express, W. U. tel., a weekly newspaper, an iron foundry, a steam furniture factory, two monument manufactories, three hotels, one sash and door factory, lighted by electricity, a post and money order office, pop. 1,700.

Bridgewater, a post town in Lunenburg Co., one of the most charming towns on the southern shore of Nova Scotia, and having a population of nearly 2,000 people, is situated on the beautiful LaHave, at the head of its navigable waters, and about 12 miles from the sea. It lies embosomed in the hills that rise from the river's banks, and has certainly much of the poetry of nature in its composition. On a summer's day a sail down the river and out among the islands which cluster in Dublin Bay, and around to the famous Crescent Beach, unexcelled for bathing and trotting facilities, is a treat delightful to all lovers of nature; or one may drive along the banks of the river and enjoy the panorama presented from that vantage ground. Tourists are profuse in their praises of the LaHave and the picturesque town of Bridgewater, and each summer finds it growing in favor.

Trains connect with Windsor and Annapolis Ry. at Middleton for Annapolis and Halifax, making close connections with Express Trains of I. C. R. at Windsor Junction and Halifax, and at Annapolis with Western Counties Ry. for Digby and Yarmouth.

Steamer "City of Monticello" leaves Annapolis on Tuesdays, Thursdays and Saturdays, connecting at St. John with all rail line for Bangor, Portland, Boston and all points West, and with Canadian Pacific short line trains for Montreal.

Steamers of International S. S. Co. leave St. John every Monday, Wednesday and Friday for Boston via Eastport and Portland.

Steamers of the Yarmouth S S. Co. leave Yarmouth for Boston on arrival of trains every Tuesday, Wednesday, Friday and Saturday evenings.

Steamer "Bridgewater" leaves Bridgewater for Halifax every Monday and Thursday.

Balcolm Stage Line for Liverpool connects with trains at Bridgewater.

Blain's Stage Line and Steamer from Mahone Bay to Chester.

Through Tickets for sale at all principal Stations.

Bridgewater, June 12th, 1891. **F. B. WADE, Manager.**

—— FENTON T. NEWBERY, ——

W. H. PENTZ & CO.'S, - SUMMERSIDE, P. E. I.

The Nova Scotia Central Railway connects with the Windsor and Annapolis Railway at Middleton, and runs across the Province to the Atlantic coast at Bridgewater, Mahone Bay and Lunenburg.

It opens up a fine agricultural district, and abounds in hard and soft wood timber.

The country traversed is most picturesque, and abounds in game and fish of all sorts.

The scenery in and about Lunenburg, Bridgewater, Mahone Bay and Chester is most beautiful, while the La Have, which has been christened "The Rhine of Nova Scotia," is the most picturesque river in Canada. The shores abound in beautiful sand beeches, and offer every inducement to summer tourists.

The towns are well supplied with first-class hotels.

From Bridgewater stage lines connect with Liverpool, Port Medway, Mill Village and other points West, and with the Molaga, Brookfield and Caledonia Gold Mines, and from Mahone Bay stage and steamer connects with Chester.

The equipment of the road is equal to any in Canada. The road is very smooth, and constructed with stone culverts, steel bridges, steel rails and safety switches.

For Nursing Mothers use Peptonized ALE and BEEF.

The advantages for trade and commerce in Bridgewater, the grand chances for the promotion of manufacturing enterprises, the convenience of situation with regard to the outside world, which are here apparent to the most careless observer, must commend it to the business man as a most desirable field for business operations. It is a centre for the trade of a large portion of the growing county of Lunenburg —a county rich in timber and in mineral wealth, noted for its fruitful farming land, and famous for its fishermen, whose craft teem the fishing grounds, and who are increasing in number and prosperity—and with trade flowing in its natural channels, Bridgewater cannot help advancing steadily. Its principal industries are lumbering and shipping. Messrs. E. D. Davison & Sons, without doubt the largest lumber dealers in Western Nova Scotia, annually cut and ship from this port many millions of feet. There are other lumber mills and planing mills, and shingles and laths are also manufactured in the town, and in numerous small mills on the river and on streams in the vicinity. The river is navigable to Bridgewater for vessels drawing seventeen and a half feet of water, and with the exception of a few weeks in winter it is open for commerce all the year. Ship-building, principally of brigantines and fishermen, is also carried on to a fair extent. The general store trade of Bridgewater is increasing, and the fine stores attract much attention. There are two banking institutions doing a good business here—the Merchants' Bank of Halifax and the Halifax Banking Company—besides the agency of the Government Savings Bank. Am. express, W. U. tel., N. S. telephone. The town is now being lighted by electricity, due to the business enterprise of a local company. Telephones are in nearly every store and residence, and direct communication can be had by telephone with Mahone Bay, Lunenburg, Petite River and intermediate points, Malaga Mines, North Brookfield and Caledonia, and with the city of Halifax; nor must the old reliable Western Union Telegraph Company be left out in the cold. As for hotels, the town is well supplied with them, the largest and most com-

modieus being the Fairview House. managed by Mr. John L. Doyle, and the second being the Eureka House, of which Mr. S. Z. Foshay is the old-time proprietor. The merits of these houses are too well known to waste time on a comparison. Then there is the Bridgewater Hotel, E. Power proprietor, and a half dozen other hotels which all have the patronage of the public. There are also two well-stocked livery stables in Bridgewater, and with the popular "Joe" and "Ariel" on hand, those who wish to ride may do so to their heart's content, both these gentlemen's charges being extremely moderate. The ways of getting to Bridgewater are legion. There is the N. S. Central Railway, which runs every day between Middleton and Lunenburg. The steel steamship "Bridgewater" plies regularly between Bridgewater and Halifax twice a week, and the various stage lines all take passengers. The time-tables are arranged so as to meet the convenience of the travelling public, and the fares are at a minimum. With regard to religious and moral culture, Bridgewater is not behind the age. It supports six churches—the Episcopal, the Presbyterian, the Lutheran, the Methodist, the Baptist and the Roman Catholic denominations all have comfortable places of worship, the R. C. church being, in point of architecture, a gem. There are four halls. The Music Hall, which cost $11,000, will seat six hundred people, and has a stage suitable for large companies. It is considered the best designed hall outside of Halifax. The other halls divide the honors for small audiences. The Y. M. C. A. and the W. C. T. U. have flourishing branches here, with a reading room in connection. The town has two newspapers, both devoted to its interests, and a good bookstore, where all the general literature of the day may be found. On the whole, it may be said that Bridgewater has extraordinary attractions, and all who visit it or take up their abode among its people, will be sure of a warm welcome and of generous treatment. B., fare $7; St. Pierre, fare $14; New York, fare $16; pop. about 40,000. Halifax was founded in 1749. It was originally called Chebucto. This was at a time when the Earl of Halifax was President of the Board of Trade and Plantations, hence the name adopted for the place. The expedition sent out from England to do this work was placed under the direction of Hon. Edward Cornwallis—not *Lord* Cornwallis, as is often stated—Governor of Nova Scotia. He was instructed to found a town upon some part of the shores of Chebucto Bay, to be thereafter the seat of government of Nova Scotia. According to the most authentic account, Governor Cornwallis and suite landed upon what thus became Nova Scotia's capital, on the 21st of June, 1749; and the anniversary of that day has, for years past, been celebrated as the Natal Day of Halifax. The streets are spacious and cross each other at right angles.

Halifax is the principal British military station in America, and, ever since its settlement, it may be considered as also virtually the principal British naval station in the "New World," although Bermuda has nominally been the naval headquarters for many years. Ships of war are continually coming and going, and there are from two to

three regiments of soldiers, besides artillery and engineers stationed in the city. It may not be amiss to keep in mind the natal day and year of Halifax, because comparisons are often made between the city and Boston, New York and Philadelphia, to the discredit of the former. Further, the topography of Nova Scotia, of which Halifax is the capital, is such that there is no point in the Province distant over thirty miles from a good seaport. Consequently the shores of the province are rather profusely dotted with towns, nearly all of which make their own importations and exportations direct. Halifax is connected by rail and steamboat to all parts of the world. The growth of Halifax has not been so rapid as that of some other cities and towns on this continent, although it has been a steady and healthy one.

The natural situation of Halifax is exceedingly fine. The *city*, properly speaking, comprises the whole of a peninsula formed by the harbor, on the East, and by a river-like inlet from the harbor, called the North West Arm, on the South West. The harbor, after narrowing very much as we proceed northward, suddenly expands into Bedford Basin, which bounds the peninsula on the north. This peninsula extends four and a half miles in extreme length—that is, from Point Pleasant to the Basin. The width across the middle, and which is pretty nearly its average width, is two miles, the width of the isthmus, from the head of the North West Arm to the nearest point on Bedford Basin, is about one mile and a half. The whole area of the city may be roughly estimated at eight square miles. The arm of the sea, from which branch off the inlets and expansions already mentioned, is called Chebucto Bay.

Nature seems to have done everything that could be wished to make this peninsula of Halifax the site of a magnificent city. The whole of the area already described is available for building purposes, comfortable streets, parks, pleasure grounds, etc., on a regular plan, at a less cost than usually has to be incurred in the laying out and building of a town. For a distance of ten miles, following the sinuos-

ities of the shore, its borders, with the exception of about a quarter of a mile at Point Pleasant, where a shoal or ledge make out seaward, are washed by what navigators call "good water," The whole of that distance, with the exception named, is available for wharves, piers and quays, with sufficient depth of water to admit vessels close in shore, and with good "holding ground" in front.

The more compactly built portion of the city—the town proper—lies along the eastern side of this peninsula, and consequently on the western shores of the harbor. It is built, for the most part, on the slope of a hill, the summit of which is surmounted by Fort George, or the Citadel, and has extensive steam communication with all parts of the world. It sends two members to the Dominion House of Commons and two to the Provincial Legislature. The best view of the town is when seen from the opposite, or Dartmouth shore; but the prospect from Citadel Hill is one which no visitor should fail to see. We will suppose him there upon the ramparts, or outside the works at an angle of one of the bastions. Clustering almost beneath his feet, and spreading out more visibly on his either hand, north and south, is the town. Beyond it lies what is often, and probably with truth, called "the finest harbor in the world," six miles long by one mile in width, and connected by a Basin which is six miles long by four miles in width. Set in it, like a gem, is the green mound-like George's Island, crowned by Fort Charlotte. These waters—blue as ever the Mediterranean was—stretch away to the right, or southwest, leaving for miles the shores of McNab's Island with its forest-clad hills and breezy downs, gleaming through the dark pine tops of the luxuriant Tower Woods, mirroring the pretty village of Falkland, which seems to clamber up the steep hillside, from the lofty summit of which frowns York Redoubt; now playfully rippling, and now rolling in, in curling and foaming waves, over Point Pleasant ledges and the more distant Thrum Cap Shoal, until off Sambro, about nine miles distant, it becomes one with the broad Atlantic. On the other hand, to the Northward, this sheet of water

contracts in width, forming what are called *The Narrows*, the shores of which are beautifully variegated with groves, green fields and pretty clusters of houses. Pursuing the view still further in that direction, we may catch a glimpse of Bedford Basin over the shoulders of the hills which form the northern part of the peninsula. Turn to the rear, or westward, and Halifax Common spreads out from the base of Citadel Hill, an expanse which is every year being more extensively planted and otherwise improved, and will soon be a charming public park. This—more properly the *North* Common—comprises, together with the Public Gardens, an extent of about ninety acres. Of this area the Public Gardens comprise about fourteen acres. They are kept in first-rate order, contain ponds and fountains, and a croquet lawn, a delightful public promenade and a great boon to the citizens of Halifax. Considered the finest Public Gardens in America. Beyond this Common there extends west, north and south a great and nearly level plateau, which will, doubtless, at no distant day, be the heart of the town, as well as of the city, of Halifax. The view in that direction is bounded by precipitous wooded hills, beyond the deep gulch, at the bottom of which the waters of the North West Arm cannot be seen from this point of view. Turning our eyes once more in the direction of the harbor, we see on its farther shore the pretty and thriving town of Dartmouth, built down to the water's edge and backed by bold, wood-crowned hills, the slopes of which are dotted with tasteful vilas, and through one of the depressions of which we may catch a glimpse of the Dartmouth lakes. Indeed, in whatever direction the eye is turned from the point we have selected, it is met with a prospect of rare beauty.

Slate Mantels, Tiles, &c., . . . Saint John, N. B.

The Academy of Music is a fine building, and gives great satisfaction to the theatre-going population.

The Masonic Temple is another fine building, but situated so that it is partly hidden from view.

The Young Men's Christian Association is also a fine building, but wrongly situated to be seen any distance. There is a good library and reading room connected with it, with ample accommodation for young men of the city or for strangers. It has also a restaurant on temperance principles.

There are also several fine buildings such as the Government Building—Halifax being the seat of Government for the Province of Nova Scotia—Government House (the residence of the Governor of Nova Scotia), the Custom House and Post Office combined, the new City Hall, facing the parade, one of the finest public buildings in the Dominion. There are a number of fine churches, banks and private residences both in the city and in the suburbs, where also there is a large cotton factory and a sugar refinery, both in good working order. Her Majesty's Dockyard comprises a large area and has all modern improvements, and compares—if not exceeds—any on the American continent. The Railway Passenger Depot on North street, is also a fine building and equals any in America, although it may not be as large as some in the United States. The freight cars proceed past the Passenger Depot to what was formerly called West's wharves, where is now erected capacious freight houses, both for the accommodation of the railway and English or foreign steamers carrying freight. At this locality there is a good sized grain elevator. There are also a number of manufactories with suitable buildings.

The educational affairs of the city are in good condition, and several very good buildings.

There is also the most to be considered—a large mercantile trade done with the West Indies, United States and Great Britain, both in exports and imports, and some fine and extensive buildings for carrying on the trade of the city.

THE

"Land of Evangeline"

ROUTE.

Nova Scotia is the Favorite Resort of the Tourist.

ALONG THE LINE OF

The Windsor & Annapolis Railway

Are to be found the best bits of scenery in the "Land of Evangeline," which Longfellow has vivified in immortal verse, and in this region the traveller will find irresistible inducements to linger.

HALIFAX, BOSTON and NEW YORK.

The W. & A. Railway, and its connections, afford the most picturesque and varied route, by Express trains (with Drawing Room Car) via the "Land of Evangeline" Route, and shortest sea passage by the Clyde-built steamers "Boston" and "Yarmouth" of the Yarmouth S. S. Co'y, running between Yarmouth and Boston, thence by rail or steamer to New York.

HALIFAX and SAINT JOHN.

Shortest, cheapest and best route between Halifax and St. John, thence by C. P. R. to Montreal and all places West; by "All Rail Line to all points in the United States; by the I. S. S. Co.'s steamers to Eastport, Portland and Boston; or by N. Y., Me. & N. B. S. S. Co.'s line to New York.

K. SUTHERLAND,
Resident Manager.

Slate Mantels, Tiles, &c., . . . Saint John, N. B.

Liverpool, originally Port Rossignol, a post and money order settlement, the county town of Queens, is prettily situated at the head of Liverpool Bay, on the River Mersey. The Mersey takes its rise in Annapolis Co.. and flowing through a series of lakes. amongst which is Rossignol, the largest inland sheet of fresh water in Nova Scotia, flows into the sea at this point. It is navigable for small vessels about two miles only. The town of Liverpool is very attractive in appearance, especially in summer, when the Main Street is almost embowered by the foliage of the numerous large trees. The climate even in the hottest weather is generally tempered by the sea breeze, and the bracing ozone from the Atlantic justly entitles Liverpool to the credit of being a health restorer for invalids and city resi ents fagged out by excess of business or pleasure. In the neighborhood are many pleasant drives and walks, the drive round western head rewarding one with very pretty bits of scenery, with a bold lookout on the broad ocean. Beach Meadow and Summerville Beach afford splendid hard sand for a spin with a good team. "Hill's Grove," of pine trees, is celebrated as a resort for picnicers as the Grove Mansion House, kept by Mrs. Hill, is as an hostelry for guests. The harbor and river furnish excellent boating fa ilities. Good salmon and trout fishing can be had in the season within easy reach, deep sea fishing as well, while the moose hunting in the fall is unsurpassed in any part of the Province. Intelligent Indians or reliable white hunters can always be obtained to accompany a hunting party. A trip from headwaters down the lakes in a canoe is most enjoyable and exciting, and friend David Neeman, of Kempt, is "par-excellence" the man to ensure the trip being safe and agreeable to those who intrust themselves to his care.

Millton, some two miles up the river, is the "mill-town" where the giants of the forest, after their voyage down the many lakes and streams, are converted into lumber for shipment to the West Indies and other parts. Milton is a very pretty village, extending for over a mile on either bank of the river, and its comely residences indicate a large measure

Grove Mansion.

Mrs. J. C. HILL,

LIVERPOOL, N. S.,

TAKES this opportunity to inform the public that she wants to sell the above first-class Hotel, furnished—in fact, just as it stands. It is the only first-class Hotel in Liverpool; only five minutes' walk from P. O. Bank, and just at the head of the Steamboat Wharf. Any one wanting to buy a Hotel cannot do better than inspect this one, or write for particulars. The travel to this Hotel is very large, winter and summer, and is the headquarters for all the commercial travellers coming this way.

Besides the Hotel, Mrs. Hill has a Grove, which is a popular resort for picnickers, or there is good large timber on the place, fit for ship-building. Mrs. Hill wants to sell on account of her husband's death.

E. H. NORTON & CO., - Charlottetown, P. E. I.

Clayton & Sons, Boys' & Men's Clothing, Halifax, N.S.

of "well-to-doness" in the Miltonians, who number about 1,200. An Indian camp is located at Upper Milton.

The trade of Liverpool is principally with the West Indies, the exports being fish and lumber. During the season a sailing packet runs regularly to Boston, taking passengers and, as cargo, hemlock lumber, and bringing back passengers, flour, meal, etc. The population of the town is about 2,500. It contains court house and jail, five churches and a chapel of ease, three schoolhouses, branch bank of Nova Scotia, several hotels and boarding houses, two newspapers, stores of various descriptions in which every necessary and luxury can be procured. Shipbuilding yards, steam planing mills, carriage factories, a tannery and other industries are carried on in the town. Jubilee Hall is well arranged for entertainments, the seats being graded, and will accommodate over 500 comfortably, W. U. telegraph Co., Am. express.

Liverpool Harbor is never frozen over so as to impede navigation, and from its position is one of the best places on the coast to carry on the fishing and West India business and for establishing manufacturing enterprizes.

The gold fields of North Queens will well repay a visit, and a trip to them can be made a very pleasant and instructive picnic party.

Communication with Halifax and Yarmouth is by weekly steamer, or daily by coach to Bridgewater and thence by rail. One hundred and four miles from Halifax by land, fare $5, W. & A. R. and N. S. C. railways, 59 miles from Halifax by water, fare $3.50. The passage to the south is safe, with fifteen or eighteen fathoms of water. There is a lighthouse on Coffin's Island, exhibiting a revolving light seventy-five feet above the level of the sea; also a beacon light on Fort Point, at the entrance to River Mersey.

Livingston's Cove, a post settlement in Antigonish Co., on the north side of Cape George, 42 miles from New Glasgow, fare $2, a fishing station, Can. express, pop. 100.

Lochaber, a post and money order settlement in Antigonish Co., on Lochaber Lake, the lake is five miles long,

eries; there is also a large West India and coasting fleet. The local fleet not being able to supply the demand, thousands of quintals of cod fish are imported from Newfoundland and other ports, whence they are exported to the West Indies. The exports of fish in 1890 amounted to $1,007,648, and the total exports were only exceeded by Halifax, while the imports of West India produce and salt was nearly $3,000,000.

The town contains seven churches, a school house, town hall and court house, three fire engine houses, fifty-one shops, five hotels, Halifax Banking Co., People's Bank of Halifax, Merchants' Bank of Halifax, three shipyards, two planing mills, seven boot shops, six cooperages, a foundry and machine shop and a number of other industries, W. U. tel., N. S. telephone, Am., Can. and Dom. express.

It is the terminus of the Nova Scotia Central Railway, which connects with the W. & A. Railway at Middleton; has water communication with Halifax by steamers of the L. & H. Steam Packet Co., making five trips per week each way, and with Yarmouth and intermediate ports by a steamer of the Y. S. S. Co.

The harbor is safe and open all the year round.

The scenery around the town is magnificent and boating and bathing facilities are unsurpassed.

THOMAS SLOVEN,

The Great Life Saver and Swimer, is loud in his praise of

Scott's Cure for Rheumatism.

He had such a severe attack of RHEUMATISH in his right arm that he could not raise it without excruciating pain. After applying half a bottle of **Scott's Cure for Rheumatism** he could swlng his arm as freely as ever, and now he says **Scott's Cure** for Rheumatism is the greatest discovery of the age.

Tiverton, Digby Co., N. S.

This is to certify that I have been crippled with RHEUMATISM in my hands, and have used several kinds of liniment without any relief until I got a bottle of

SCOTT'S CURE,

and it has made a complete cure of me. I can recommend it to anyone who has Rheumatism, as a sure cure.

Yours respectfully,

MRS. ELIZABETH BLACKFORD.

Shelburne, capital of Shelburne Co., a post and money order town beautifully situated on the east side of Shelburne Harbor, which has always been considered one of the finest in the world. It is a clean, well-built town of about 2,000 inhabitants and contains many fine stores and residences. The principal industries are shipbuilding lumbering and fishing, a large trade being done with Halifax and other ports along the coast. The trunk manufactory and the Shelburne Granite Works also give employment to a large number of hands. Shelburne is noted for its healthful

Clayton & Sons, Boys' & Men's Clothing, Halifax, N.S.

climate, and, as a summer resort, has advantages unequalled by those of any other port on the coast. In its vicinity are many beautiful drives. One of the best is that around the shore to the neighboring harbor of Jordan Bay, affording a magnificent view of the Atlantic. Another is that northward, through the settlement of Ohio, a drive for twenty or thirty miles through a wooded country, diversified by lake and river. Directly opposite the town are the old barrack grounds, formerly occupied by soldiers, but now chiefly devoted to the use of merry groups of picnickers, for whom it is a favorite resort. It was here that Field Marshal Beresford, victor at Alberera, lost an eye from the accidental discharge of a musket. The boating and bathing facilities of Shelburne cannot be surpassed. The harbor is long and wide and yet so sheltered from the ocean that it resembles a lake, making boat-sailing delightful and secure. Bathers will find here everything they require. The dense woods which line many parts of the harbor afford delightful spots where one may disport himself unobserved, while for those who prefer are convenient bathing houses free to all, within the limits of the town.

It is in regard to hunting and fishing, however, that Shelburne offiers advantages unexelled in the Maritime Provinces. The harbor swarms with fish. The favorite sport of mackerel fishing is found here to perfection. Catches from 200 to 300 per man per day are common. To the expert angler the streams of Shelburne and vicinity offer every advantage. A dozen or two of fine trout may often be taken within a few minutes walk of your boarding house, while further up the river catches from 100 to 200 per party are frequent. Good roads lead from town to within a short distance of the fishing grounds.

To the moose, bear and fox hunter the densely wooded region north of Snelburne offers unequalled advantages. It is extremely rare for a well-equipped party, furnished with a good guide, to go out without bagging one or two moose. In fact, so plentiful are they, that a few years ago a law had to be passed prohibiting one man from killing

more than three moose, as they would frequently remove only the horns and hide, leaving the rest behind. Partridges, wild ducks and rabbits are found in abundance. Hunters must remember, however, that the Close Season Law for game is in force until about the middle of September, after which moose hunting, partridge shooting, etc., becomes lawful. It is probably through lack of railrord communication that Shelburne has, up to the last year or two, been comparitively neglected as a summer resort. This neglect, however, has preserved the hunting and fishing grounds almost intact, so that the traveller coming here will find privileges unexcelled in Eastern America, in near proximity to a large town, fully supplied with every convenience, with excellent accommodation for both ladies and gentlemen and only one and one-half day's sail by steamer from the United States. The favorite route to Shelburne from the United States is by steamers "Yarmouth" or "Boston" to Yarmouth. From there to Shelburne, by steamer "City of St. John," is only a matter of about eight hours, 108 miles from Halifax, fare $4.50, W. U. Telegraph Co., Can. express.

Sherbrooke, a seaport post and money order town in Guysborough Co., 124 miles from Halifax, fare $6, it contains seven stores, two hotels, one tannery, one chair factory, valuable gold mines are worked within a short distance, W. U. tel., Can. express, pop. 650.

CARRIAGE STOCK

Can be bought to better advantage from me at the

CAPE * BRETON * CARRIAGE * FACTORY,

NORTH SYDNEY,

Than elsewhere on the Island, for the following reasons :

I HAVE the Largest and Best Equipped Factory in Eastern Nova Scotia, fitted with steam power and latest machinery for the production of work of best quality at low cost. I buy my stock direct from first hands, and in large quantities, which gives me lowest possible prices; and having by close attention to business and the requirements of my customers, earned a reputation for good work, and as I am here to stay, it is but reasonable to expect that I will exercise every care, both in the selection of my materials, and in the construction of my work. I am continually adding improvements, I fully warrant every job, and my guarantee is not only for the first year, but I agree to make good any part that may prove defective any time within reason; and I am on the ground to do it.

I notice that some irresponsible parties are attempting to flood the market with a low grade of imported work, and while sales of them mean a big rush in our repair trade, still I think our people should reflect that in buying from those agents they do not know what they are buying, and the agent, if honest, will say that he really does not know what he is selling, and his guarantee is not worth much as the firm he represents is so far away that the freight on repairs will be probably as much as they would cost if made here at home. And further is it not time we looked to our manufacturing interests here in C. B., as too much money that should be circulated in our midst is sent abroad to enrich other places. By all means patronize home industries, especially when you can do so at a saving to yourself.

My prices are low and my terms are made to suit every customer.

I am also Agent for the Celebrated Brantford Mowers, &c.

Truemanville, a post office in Cumberland Co., Can. and Dom. express.

Truro, a post and money order town in Colchester Co., a station of the I. C. R., one of the most enterprising places in the Maritime Provinces. The number of stores have increased wonderfully since our last issue in 1883.

The incorporated town of Truro is most delightfully situated on a gently rising tableland on the banks of a small stream, the Salmon River, which, after conjunction with a sister stream, the North River, about a mile from the town, empties into the Cobequid Bay. The Bay is here spanned by what is known as the "Boardlanding Bridge," about two miles from the centre of the town, and is nearly the head of the tidal waters of the Bay of Fundy. From this bridge the scenery, both down the bay and up the rivers, over the wide-extending marshes, is really beautiful.

The town itself, with a population nearing 6,000 inhabitants, quietly nestles on the edge of the broad, fertile intervales, with a span of quite elevated land in the rear, or south, while away to the north, over the low land in front, rises the quite lofty range of the distant Cobequids. From any hill top in the vicinity of the town the view on every side is exceedingly beautiful, and from the top of the Exhibition Buildings, provided with a suitable look-out, the distant bay, with its surging, murky tide, the clear silver streams of fresh water flowing into it, the wide acres of the most fertile intervale dotted here and there with shrubs and trees, the rounded top of the not distant Penny's Mountain, and tree-clad, rugged ridges of the dark looming Cobequids present a panorama that can hardly be excelled in any part of the province.

The town itself is laid off by streets almost at right angles to each other, and these are beautifully adorned with shade

Bigelow & Hood's Ginger Ale is the best, Truro, N. S.

trees that are the pride of the place. Although the streets are wide and roomy, in many places these trees almost touch at the tops and thus present the appearance of long avenues fringed with green. The houses are invariably neat, some are palatial in style of architecture and appearance, and almost invariably have attached green lawns or flower gardens artistically and beautifuily arranged. The town has long been celebrated in this respect as one of the prettiest spots in the province.

But Truro is not noted alone for the beautiful and the decorative. It is one of the most substantial towns in the Maritime Provinces. It is the railway centre of Nova Scotia—trains almost innumerable going north, east and south daily. In Truro there is no excessive wealth and extreme poverty is unknown. Its inhabitants are well-to-do, industrious, contented and happy. When the town was incorporated the assessable property amounted to $885,000 —twelve years afterwards this had increased to $1,250,000 —an increase of fully $30,000 every year. The amount of duty on importations collected at the Customs Office in Truro was $76,188.75 for 1887 and $76,500 for the year ending the 30th June, 1888. The value of goods imported, both dutiable and free, amonnted to $252,807.61 for 1887. This includes Dry Goods, Hardware, Stationery, Saddlery, etc., but does not cover the extensive business done by grocers and others who buy their wares duty paid.

Truro is connected by telegraph with all parts of the world, and by telephone with nearly all points in Nova Scotia.

The Provincial Normal School is situated in Truro, and the building is one of the town's most handsome structures; connected with this is the Provincial Model School. The Truro Academy adjoins and is also a substantial and commanding building. The Post Office is a fine brick building situated in the centre of the town. Truro has been called the town of churches, and any Sabbath some eight or more throw their doors open to the worshipping public.

Bigelow & Hood's Ginger Ale is the Best, Truro, N. S.

The civic government of the town rests with a Mayor and six Councillors. The Recorder and Stipendiary Magistrate is the town's legal adviser and presides at the police courts. Water for domestic purposes is supplied from a reservoir about a mile away, while for fire purposes the Waterous system is used and the necessary force of water is supplied by pumping from the neighboring river. The streets and squares are lighted by electricity, with arcs of some 1200 candle power, and the business houses, many offices and some of the churches present a brilliant appearance under artistically arranged incandescent lights.

One of the finest views of the bay, extensive marshes and even the outlines of neighboring counties can be obtained from the top of Penny's Mountain, the drive to which is up a lovely shaded mountain road about four miles from Truro. A two hours' drive "down the bay" will take in a visit to the well-known Savage's Island, where the graves of Micmac Indians of the last century may be seen, it will give a beautiful view of the historic "Old Barns," and on the homeward trip a run "around Onslow" will show some of the fine farms and farm-houses with "Truro in the distance" from this suburban retreat. In most any direction the stranger can find interesting and pretty drives.

A few spare hours can be most profitably spent in boarding a train and taking a look at the great iron mines in full operation at Londonderry. Here will be seen a rising village some fifteen miles distant from Truro, right in the heart of the forest, surrounded with high mountains and hills, but which is a busy line of active industry both day and night. The interesting process of manufacture in its different stages can be seen and will repay the few hours that may be spent there.

In our own town is the beautiful picturesque scenery of the rugged gorge and waterfalls of Victoria Park. The park is reached by a series of rustic staircases, into a beautiful valley. This valley narrows to a rocky gorge, exposing the strata of the earth to the height of over a hundred feet, with an entirely different formation on either side. Every

turn reveals new beauties, a picnic dell, beautiful pools and rapids, and the historic waterfalls so beautifully and poetically described by Joseph Howe some 60 years ago, other falls and rapids, the ruins of an old mill, and then the reservoir 210 feet above the level of the town, from whence the domestic water supply is obtained, precipices, promontories and steep hillsides, making a wonderful picture of nature's beauty all within a quarter a mile of the town. Among the wonders of the park is a mossy cave and a spring, the dropping water from which in winter congeals and forms a veritable glacier of immense proportions, fully a hnndred feet in height, which continues in existence well along into the summer. This cave is at present inaccessable except to an Alpine climber. Truro's citizens are rapidly improving the approaches, erecting rustic bridges, booths and seats, creating paths and otherwise adorning the park.

Victoria Square, at the west end, is another beautiful breathing spot, a gem in itself. A handsome band stand lighted with electricity, shady walks, cosy seats and a dazzling fountain are the principal features.

There are three printing offices, from which four weekly papers and one daily paper is issued, they are slso job offices; two last factories, one peg and clothes-pin manufactory, one hat factory, one iron founday and machine works, one woollen mill, two saw mills, one milk condensing factory, two woodworking factories, one electric light station, one grist mill, ten hotels, seven churches, water works and fire protection, 62 miles from Halifax, fare $1.86, 50 miles from Pictou, 77 miles from Amheast Railway Centre, where roads from Halifax Western Counties, St. John, United States, Upper Provinces, Cape Breton and Pictou meet. There are branches under consideration now to Windsor, through Maitland to tap W. & A. R., and to Tatamagouche, to tap Short Line and open up North Colchester. Provincial Normal School, court house, registry office and jail, county academy and four public school buildings, with 17 school teachers, three agricultural implement dealers. One of Truro's most flourishing industries is the

HARVIE'S PAPER FILE.

PATENTED MAY 17, 1889.

This File or Temporary Binder has been made to meet a long felt want for a really good and handy article to file Newspapers, Periodicals, Sheet Music, Invoices, Accounts, &c., at a low price, and we think we can safely say it is by far the best File ever placed on the market at the price asked, and equal to the most expensive.

Every one knows the advantage of keeping Papers where they will not get destroyed, and reday for reading or reference.
With this File the Papers are kept as complete as a bound book, and the convience far exceeds the cost. Awarded Diploma at St. John Exhibition, 1891.

ESTABLISHED 1871. INCORPORATED 1891.

Wittenburg, a post office in Colchester Co., Can. and Dom. express.

Wolfville, a seaport post and money order town in Kings Co., on Minas Basin, a station of the W. & A. R., 64 miles from Halifax, fare $1.95, it is the seat of Acadia College and Ladies' Seminary, just halfway, by the mile post, between Annapolis Royal and Halifax—the old and new capital of Nova Scotia—on the Windsor and Annapolis Railway, the conductors will call "Wolfville." Hereabout nature in the early geologic day did some of her grandest work by means of her igneous and aqueous agencies. The northern hills were sundered at Blomiden and the Bay of Fundy, through the Minas Basin, plowed its way south till checked by the more substantial uplift that flanks the southern side of the far-famed valley of Annapolis and Kings Counties. Eastward and westward, unchecked the diurnal tide poured its restless waters with ceaseless ebb and flow over vast estuaries, depositing in them a rich freight of earthy material, fitting them in the fullness of time to subserve the purpose of man. At the angle where, on these southern hills, the Minas Basin and these broad sea-built meadows meet, stands the village of Wolfville. On the hill just south of the town stands Acadia College and its affiliated institutions, Horton Collegiate Academy and Acadia Seminary. These schools were established and are supported by the Baptists of the Maritime Provinces. It contains sixteen stores, three hotels, one of them is the Royal, kept by Mr. John Jenkins, one printing office, a weekly newspaper, one sash and door factory, People's Bank of Halifax, W. U. tel., Unique telephone, shipbuilding is carried on here, pop. about 1,500.

BEAR RIVER HOTEL.

R. M. MacCLELLAND, Proprietor.

This Hotel, situated in the pretty little Village of Bear River, nine miles from Digby, is a favorite summer resort for tourists. In this neighbourhood are the famous Bear River Cherries, of world-wide fame. The scenery of Bear River is unique. Nestling among the South Mountains its appearance is picturesque in the extreme. During the spring, summer and autumn months the scenery is not surpassed by any in Nova Scotia. This Village was founded by the Loyalists shortly after the American Revolution. There are here great facilities for bathing, boating, &c. To the dusty, tired inhabitant of a large City no place offers a better and more pleasant retreat during the hot weather than Bear River. The fishing and hunting privileges are immense. Trout of all sizes can be obtained at all seasons of the year. Moose hunting in its season furnishes sport for those inclined, while near at hand partridge and small game may be procured in abundance. Trusty Indian guides may be had on the spot.

Daily Stage connects both with Digby and twice a day with the Western Counties Railway at Bear River Station.

The house, comprising all the requirements of a first-class hotel, was built in 1850. A large and commodious livery is kept in connection. Teams provided a ta moment's notice with or without drivers to all parts of the country.

NEW BRUNSWICK.

COUNTIES,

New Brunswick, a province of the Dominion of Canada, bounded on the northwest by the Province of Quebec, from which it is separated by the River Restigouche; north by Baie Chaleurs; east by the Gulf of St. Lawrence and Northumberland Strait, the latter separating it from Prince Edward Island; south by the Bay of Fundy and part of Nova Scotia, and on the west the State of Maine, from which it is separated by the St. Croix and St. John Rivers; extending from lat. 45° 5 to 48° 45 N., lon. 63° 50° to 68 W.; greatest length from north to south 230 miles, breadth 190 miles, area 27,322 square miles, equal to 17,393,410 acres. There are sixteen representatives to the Dominion Parliament, and its present Governor is His Honor the Hon. Sir S. L. Tilley; nine representatives in the Executive Council, eighteen in the Legislative Council and forty-one in the House of Assembly: six Judges of the Supreme Court, six Judges of the County Courts; one Judge of Probate to each county. Its coast line is about 500 miles in length, interrupted only at the point of junction with Nova Scotia, where an isthmus of not more than eleven miles in breadth connects the two territories and separates the waters of Northumberland Strait from those of the Bay of Fundy, and which is united by means of a canal called the Baie Verte Canal.

Shipbuilding is extensively prosecuted in the province, more especially at St. John and on the Miramichi. Vessels

are also built at St. Andrews, at various coves and harbors on the Bay of Fundy, along the banks of the St. John River and Petitcodiac, and at Cocagne, Richibucto, Bathurst, Dalhousie, Campbellton and other ports on the North Shore.

New Brunswick was first settled by the French in 1639. It continued to form part, with Nova Scotia, of Acadia, or New France, till it fell into the hands of the British, after the conquest of Quebec. The first British settlers in the province emigrated from Scotland to Miramichi in 1764, and in 1784 New Brunswick was separated from Nova Scotia and erected into a seperate province. In 1825 the standing timber in the district around Miramichi Bay took fire and enveloped an area of 6,000 square miles in flames, consuming two thriving towns, many large vessels lying in Miramichi River, and destroying 500 human lives.

In 1867 this province united with Ontario, Quebec and Nova Scotia in forming the Canadian Confederation, and is the fourth largest province, as regards population, in the Dominion. Population in 1871, 285,594; population in 1891, 321,294.

In preparing an historical sketch of New Brunswick the publishers of the Gazetteer could hardly tell how to place it before the public, there being so many histories now in circulation. They, therefore, considered it best to describe each county separately in a condensed form, commencing in alphabetical order.

Albert County is bounded westerly by Kings and St. John counties, northerly and easterly by Westmorland County and the Petitcodiac River, and southerly by the Bay of Fundy. Hopewell Cape being the shire town. It is divided into six parishes—Hopewell Cape, Hillsboro, Elgin, Coverdale, Harvey and Alma. The county is well watered, having about eighty miles of ship navigation. The soil is generally fertile, having large quantities of alluvial manures and good facilities for bringing them in use. There are about 5,000 acres of marsh land, the minerals are coal, gypsum, limestone, grindstone, copper ore and manganese.

Bigelow & Hood's Ginger Ale is the best, Truro, N. S.

There is a large export of lumber and building stone. Large quantities of hay are produced from the marsh and intervale lands. The Albert railway runs through a portion of the county. It contains 670 square miles, 433,560 acres, pop. in 1891, 10,971.

Carleton County is bounded southerly by York County, northerly by Victoria County and westerly by the State of Maine. It lies on the River St. John, Woodstock being the shire town, and is well watered by numerous streams running into the St. John, where several mills and factories are at work. This county is intersected for its entire length by the C. P. Railway and its branches to St. Stephen, St. Andrews, St. John and Fredericton. Large deposits of iron ore abound, several railroads traverse different parts of the county. It is divided into eleven parishes, six on the western and five on the eastern side of the St. John. The roads are very good for travelling. It is an agricultural county, the soil being very fertile. Large quantities of lumber are annually shipped, several mines of minerals are being worked successfully. It contains 788,200 acres, pop. in 1891, 22,523.

Charlotte County, on the southwesterly part of the province, is bounded southerly by the Bay of Fundy, westerly by the State of Maine, northerly by York and Sunbury counties, and easterly by Queens, Kings and St. John counties, St. Andrews being the shire town. This county was among the first inhabited after the discovery of the province. The parishes are St. Andrews, St. Patrick, St. George and St. David. It is not very fertile as an agricultural district, but its waters abound in fish, and large quantities are shipped annually. The principal fishing stations are the Islands of Grand Manan, Deer and Campobello and parts of St. George and Pennfield. The red granite quarries at St. George give employment to a large number of men. Lumber is also shipped in large quantities. It lies on the borders of the United States, but the inhabitants of each country agree together very peacefully. There

are several railways running through it. It contains 1,323 square miles, 822,500 acres, pop. in 1891, 23,751.

Gloucester County, is bounded easterly and southerly by Northumberland County, westerly by Restigouche County and northerly by the Bay of Chaleurs, Bathurst being the shire town. The parishes are Bathurst, Beresford, New Bandon, Caraquet and Saumarez. It is largely inhabited by French. There are extensive mills, which produce large quantities of lumber. Several rivers run through this county, and it is well watered. There are large quantities of fish shipped and it is noted for its salmon fisheries. The minerals are copper ore, manganese. Parts of the county are well adapted for agriculture, but the county principally lies on a bed of sandstone. The roads are very good. The Intercolonial Railway runs through it. It contains 1,195,000 acres, pop. in 1891, 24,901.

Kent County is bounded by the Gulf of St. Lawrence, the Bay Chaleurs and Northumberland County, Richibucto being the shire town. The parishes are Richibucto, Carleton, Dundas, Wellington, Weldford, Huskinson and Harcourt. The soil is generally light, but suits very well for agriculture. It is well watered by several fine streams. The population is about equally divided between the French and English. It formerly abounded with large quantities of timber, and still a great quantity of lumber is being shipped yearly. There are large quantities of marine deposits, which have proven to be of great service to the agricultural development of parts of the county. The Intercolonial Railway traverses it. Large quantities of fish are also shipped. It contains 1,149,000 acres, pop. in 1891, 23,858.

Kings County is bounded northeasterly by Westmorland Co., southwesterly by Charlotte County, Hampton being its shire town. The parishes are Kingston, Sussex, Hampton, Norton, Westfield, Springfield, Greenwich, Studholm and Upham. The Kennebeccasis and St. John rivers run through the western portion of it. Geographically, it is favorably situated, and it is without doubt the best county

for agricultural purposes in the province. The mineral resources are iron, lead, gypsum, limestone and manganese, the latter being found in Sussex. There are several factories at different localities, also several mills, and large quantities of lumber are shipped. The salt springs in Sussex produce a fine quantity of salt. The I. C. Railway runs through this county. It contains 877,200 acres, pop. in 1891, 23,094.

Madawaska County contains 810,500 acres, of which about 750,000 acres are granted. The acreage returned as under crop in 1881 was 33,010 acres. This has been largely increased since, but the proportion of the cultivated to the granted land is small, for the reason that the C. P. Railway Company holds a large portion of the area of the county. Of the ungranted portion of Madawaska, very little is unfit for cultivation, the greater part of the soil being of the same class as that of Carleton and Victoria. The River St. John forms the southwestern boundary of Madawaska, the river front of the county being about 75 miles. This is settled continuously and very thickly, the settlements extending back from the river in some places for a distance of twelve miles. The opposite shore of the St. John is in the State of Maine and it is also thickly settled. The great majority of the people are descendants either of the Acadian French, who found their way here after the "expulsion of the Canadians" from the region around the Bay of Fundy, or of settlers from the Province of Quebec. French is the language in universal use, but very many of the people speak English fluently and most of them sufficiently well to enable them to understand strangers and to make themselves understood. They devote their attention almost exclusively to agriculture, but lumbering is extensively prosecuted in the county and many of the French people find employment in the lumber woods. Edmundston is the shire town of the county. The C. P. Railway runs through this county.

Northumberland County is bounded northerly by Restigouche and Gloucester Counties, easterly by the Gulf of St.

Bigelow & Hood's Ginger Ale is the Best, Truro, N. S.

Lawrence, southerly by Kent, Queens and Sunbury Counties, westerly by Carleton County, Newcastle being its shire town. The Miramichi River, only second in importance in the province, runs through it and empties in the Miramichi Harbor. This is a very fine river. The county is well watered. Large quantities of lumber are shipped yearly, produced from several mills, but in 1825 the great fire terminated in destroying the largest portion of the timber. The parishes are Newcastle, Chatham, Ludlow, North Esk, Alnwick, Blissfield, Gleneig and Nelson. The Miramichi River is noted for its fisheries in salmon. There are large quantities shipped to the United States. There are numerous other streams, which abound with trout. The I. C. Railway crosses this county. It contains 2,756,000 acres, pop. in 1891, 25,715.

Queens County is bounded northerly by Sunbury County, easterly by Kent and Westmorland Counties, southerly by Kings County and westerly by Charlotte County, Gagetown being the shire town. The parishes are Gagetown, Canning, Wickham, Waterborough, Brunswick, Hampstead, Johnston, Petersville and Chipman. The St. John River divides one part of it, and the Washademoak and Grand Lake the other part. It was settled among the first—if not the first—in the Province. There is a large quantity of timber sawed and lumber shipped. The St. John River is the largest and finest in the Province. It abounds with fish, navigable for a hundred miles, and at a still greater distance for small craft. The C. P. R. traverses part of it. Coal is found, but not in large quantities. It contains 924,000 acres, pop. in 1891, 12,152.

Restigouche County is bounded southeasterly by Gloucester County, southwesterly by wilderness, northerly by Bay Chaleurs and Restigouche County It is the boundary between Quebec Province and New Brunswick. Dalhousie is the shire town. The parishes are Dalhousie, Addington, Durham, Colburn and Eldon. It is well watered by several streams, the largest being the Restigouche River. It is a fine agricultural district, the upland being superior to any

McAFEE'S PATENT SEWER TRAP.

YOUR attention is respectfully solicited to the above Sewer Trap, which offers many advantages over the hand-made traps, and all others hitherto used. THE McAFEE PATENT TRAP, being composed of a single homogenous casting of lead or other suitable material, is not only heavier, more durable, and having no solder joints less liable to be eaten away or injured by acids and sewer gas than other traps, but is also much less expensive. It is also so constructed that it always remains filled with water, and prevents any possibility of sewer gas escaping

COX'S GELATINE, Full Weight, Goes Farthest.

in the Province. There are large quantities of lumber shipped. Fish is abundant, more especially salmon; trout is found plentifully on the rivers and streams. The I. C. Railway runs through it. The public roads are in good condition. It contains 2,072,710 acres, pop. in 1891, 8,311.

Sunbury County is bounded southeasterly by Queens County, northwesterly by York County, Oromocto being the shire town. Tne parishes are Maugerville, Sheffield, Burton, Lincoln and Blissville — Maugerville being the oldest settlement on the St. John River, which has its course through this county. The commission for holding a Court of Common Pleas is dated in 1770, but after the arrival of the Loyalists in 1783 the court was removed to St. John, and finally to Fredericton. It is a fine agricultural county. Several streams empty into the St. John River, which runs through it. Large quantities of timber and lumber are shipped from the county. The C. P. Railway runs through this county. It contains 656,000 acres, pop. in 1891, 5,763.

St. John County is bounded northerly by Kings County, westerly by Charlotte County, southerly by the Bay of Fundy, and easterly by Albert County. It is not adapted to agriculture. There is an abundance of limestone. There are several mills and factories of different kinds, but its proximity to the City of St. John causes the largest proportion of these industries to be located within the City of St. John. It contains 386,400 acres, pop. in 1891, 25,390.

Victoria County is bounded southerly by Carleton County, westerly by the State of Maine, northerly by the County of Madawaska. The St. John River forms the northern boundary established by the Ashburton treaty, Andover being the shire town. The county abounds in timber, and a large lumber trade is carried on. There are four parishes. The C. P. R. and Tobique Valley Railway runs through it. It is well watered, the principal rivers being the Tobique and Salmon River. The land is fertile

and excellent for agricultural purposes. It contains 1,243,000 acres, pop in 1891, 18,218.

Westmorland County is bounded westerly by Kings and Queens Counties, northerly by Kent County, and easterly by the Straits of Northumberland, Dorchester being the shire town. The parishes are Salisbury, Moncton, Shediac, Dorchester, Sackville, Westmorland and Bathurst. It is well watered and contains the largest marsh in the Maritime Provinces, called the Tantamar Marsh, which supplies an immense quantity of hay. It is a fine agricultural county and contains some deposits of minerals. It is partly inhabitated by French. Westmorland parish is one of the oldest in the province. There are some valuable stone quarries also in this county. The I. C. R. traverses this county. The Petitcodiac is the largest river. It contains 887,300 acres, pop. in 1891, 41,484.

York County is bounded southeasterly by Sunbury County, southwesterly by Charlotte County, northeasterly by Northumberland County, Fredericton being its shire town. The parishes are Fredericton, St. Marys, Douglas, Kingsclear, Queensbury, Prince William, Southampton and Dumfries. The St. John River passes through it. A large proportion of it is very hilly, still there are good districts well adapted for agricultural purposes. The Northern & Western and C. P. Railways run through this county. The shire town is a beautiful city and the seat of government for the Province. There are several streams that empty into the St. John in this county. It contains 3,472 square miles, 2,278,000 acres; pop. in 1891, 30,979.

FRUITS, DRIED and GREEN, in Season,

Truth Triumphant!

The laws of the Medes and Persians were unalterable, but science asserts its nobility and is ever making itself more resplendent with new discoveries. Nature's great law is that of progress From the days of Adam, with his primitive suit of fig leaves, to the present hour, the noble art of TAILORING has been conspicious for its splendid achievements. Gentlemen, I am cosmopolitan in my predilictions. I am prepared to make garments suited for the balmy days of summer, and also such as are fitted for the hyperborean blasts of winter. I am also in a position to make suits that will, in point of fit, show the beautiful outlines of the human body almost as well as the statue as it comes from the sculptor's chisel.

Gentlemen, call at my establishment in Campbellton, as my fits are warranted, and my workmanship open to the keenest inspection.

I keep constantly on hand English, Scotch and Canadian Tweeds, Worsted Coatings, Overcoatings and Fancy Trouserings.

SINCE LAST SEPTEMBER

I have not spent one day without intense suffering until I obtained a Bottle of **Scott's Cure for Rheumatism.** I have used part of my second bottle, and consider it the greatest cure for **Rheumatism** ever discovered. I would recommend anyone to try it who suffers as I did—I was unable to work, or even walk, and now enjoy better health than I have for years. Yours truly,

E. B. GREEN,
City Road, St. John, N. B.

E. J. SHELDON, Esq

Travelling Agent of the Mutual Life Insurance Co., takes great pleasure in testifying that **Scott's Cure for Rheumatism** relieved him almost instantly from a severe attack of Rheumatism in the arm, and recommended it highly as a household remedy.

VERNER McLELLAN,

Of Portland, St. John, N. B., who has been a great sufferer from Rheumatism, takes great pleasure in saying that **Scott's Cure for Rheumatism** has done him more good than anything he has ever used, and would advise anybody suffering to try it and be convinced that it is the best remedy in the world for **Rheumatism.**

DEER ISLAND, ME.

Dear Sir,—This is to certify that I have had the **Rheumatism** so, by times, I could not walk. By chance I received a bottle of **Scott's Cure for Rheumatism.** I have not been so free from pain in five years, and wish you every success with Scott's Cure.

Yours respectfully,
ELMER E. WARREN.

Spring Heel Boots at Wallace's Boot and Shoe Store.

W. H. PENTZ & CO.'S, - SUMMERSIDE, P. E. I.

Fredericton, the shire town of York Co., a port of entry, post and money order office, is also the capital of the Province. This pretty little city, population census of 1891, 6,502, is situated upon a large interval on the western bank of the St. John River, 85 miles from St. John by water, fare $1, and 66 by rail, fare $2, 117 miles to Chatham, fare $3.60, and 65 miles from Woodstock, fare $1.95. The Parliament Building is a large freestone structure of handsome design, recently built to supply the place of one destroyed by fire, and departmental building, built of native freestone. The other chief public buildings are the Normal School, a large brick public school on York street, the University Building, the Government House, the Post Office and Custom House, the City Hall, the Anglican Cathedral, the Presbyterian, Baptist, Methodist and other churches. Many of the business blocks are very fine structures and so are some of the private residences. Fredericton is a trade and manufacturing centre of some importance, being a port whence a considerable quantity of bark, lumber and agricultural produce is shipped to the United States, and having factories of various kinds in full and probable operation.

The city is supplied with water from the St. John River by what is known as the Holly system, the water being pumped into mains, thereby rendering a reservoir or elevation unnecessary. A very excellent fire protection is afforded by this system. The streets are lighted with gas and the stores with electricity.

A military school, with a garrison of 100 men, is maintained at Fredericton by the Government of Canada.

On the shore of the St. John River, opposite Fredericton, are the villages of Douglas, St. Marys and Gibson, at each of which are flourishing industrial establishments, the latter also being the terminus of the Northern & Western Railway, the projected Central Railway and a branch of the C. P. R. The St. John River is here over half a mile in width, and a highway bridge has been constructed across it, also a fine iron railway bridge.

WHAT CURED YOU? PEPTONIZED ALE and BEEF, the Great Tonic.

St. John City was named by the pioneers of French colonization, in 1604, in honor of their Patron Saint, on account of their landing on that particular saint's day. The first choice must have appeared as an unseemly location to build a city, as it was a rocky peninsula of very uneven ground that sloped in opposite directions, which has caused a large amount of labor and expense to bring it to the state in which it now stands ; but its foundation is sure and safe, as it is founded on a rock. It has grown so that the whole peninsula is laid out into streets and built upon, with the exception of here and there a vacant lot, made vacant by numerous fires—more especially by the great fire of June 20, 1877, which destroyed over one-half of the entire city, but it has been rapidly rebuilt, and there is hardly an indidation left to show that a fire did originate. On the 18th of May, 1783, the Loyalists landed at Saint John, and in the following year the Province, under its present name, was separated from Nova Scotia, In 1785 the city was incorporated and Gabriel G. Ludlow was appointed the first Mayor. There was little or no progress made until after the landing of the Loyalists, but since that time the city has been constantly progressing. There are a number of very fine public buildings and private residences. The principal business formerly was shipbuilding and the shipping of lumber ; but the former has not been carried on as extensively these few years on account of the demand for iron vessels, especially steamers. The lumber business is still prosecuted vigorously.

The city is situated at the mouth of the St. John River. The excellent character of the St. John Harbor is well known and only wants a little push to induce large steamers, etc., to make it a port of call. Without taking into account the great space known as Courtenay Bay accommo-

H. W. Northrup & Co., South Wharf, St. John, N.B.

dation could readily be provided in the harbor proper for fifty or sixty steamers of the largest class, and nowhere could dry docks and basins and wet docks be erected at less cost than here. The security of the harbor is a consideration of the utmost importance. At none of the points where wharves have been built or there erection has been proposed would vessels be in an exposed position; in fact, no part of the harbor is dangerous during a storm, as is proved by the fact that it is regularly crossed by a ferry at all times of the year, the trips being suspended only on such rare occasions as the violence of the storm renders it impossible to see lights or hear signals.

St. John has connection by rail with all points east and west and with the interior counties of the province. A splendid line of steamers ply between this port and Boston, and other steamers afford regular communication with Nova Scotia. The port is visited during the year by very many freight steamers from Europe. No vessel ever need leave St. John in ballast, as there are lumber cargoes always offering.

The city is well built—many of the business streets would be not out of place in more pretentious cities; the churches are nearly all very fine structures.

St. John offers many facilities for manufacturing. Fuel is cheap. Wood is largely used by the mills and factories, which employ their refuse material in this way. Coal is abundant and cheap; the Grand Lake mines up the St. John River, the Joggins mines at the head of the Bay of Fundy, and the Springhill mine in Cumberland, Nova Scotia, are all within easy reach, and fuel for all purposes can be obtained at very low prices.

Among the most noticeable public buildings in and about St. John, are the Custom House, said to be equal to any other structure of the kind in America, the Post Office, the City Building, the Country Market, the Provincial Lunatic Asylum, the Public General Hospital, the new Opera House.

For Nursing Mothers use Peptonized ALE and BEEF.

PRINCE EDWARD ISLAND.

In furnishing a brief sketch of Prince Edward Island, we shall not undertake to go far into details. In one respect this seems to be less requisite than in the case of the other Maritime Provinces; for, in the Island, the face of the country shows much less diversity in its natural features than that of the other Provinces.

Prince Edward Island is a beautiful country throughout its whole extent. The scenery is magnificent, and it is one of the best places in the Maritime Provinces as a summer resort for pleasure seekers. It is an everywhere undulating country, its eminence very seldom breaking into cliffs, and never rising to the elevation of mountains; its lower lands never spreading out into broad expanses of interval, marsh or plain, such as are seen in the mainland Provinces; its shores are deeply indented upon every side with almost countless inlets from the Gulf of St. Lawrence, which ramify often in a bewildering manner among the hills. At one time the Island, in places, was clothed with a dense growth of timber, and there was a large lumber trade done; but

For Time Tables, Folders, etc , apply to all Ticket Agents.

J. UNSWORTH, Superintendent.

See JOHN MACLEOD & CO.'s adv. on page 612.

See JOHN MACLEOD & CO.'S adv. on page 612.

now the places that had lots of lumber on it are turned into beautiful farms. The soil almost everywhere is exceedingly fertile, with scarcely a rock or stone of any size to be found in the whole Island. The population of the Island by the census of 1891 was 109,088. It contains 2,133 square miles, and 1,365,400 acres. The inhabitants are almost wholly engaged in agricultural pursuits, consequently the larger portion of the area of the country is in a high state of cultivation. It may be mentioned that shipbuilding was at one time carried on quite extensively; but at the present day, the lumber being pretty well cleared off the lands, which of course would make the shipbuilding business not as large as it was at one time. At the present time there is only one or two ships built in a season—none at Charlottetown or Summerside. The fisheries are prosecuted very extensively; also lobster fishing all around the coast. Cascumpeque, Tignish and Souris are the most considerable fishing stations on the Island. There are five or six potato starch factories, which turn out a large quantity of starch.

From having been one of the worst provided with public facilities for inland travelling of any of the Canadian Provinces, Prince Edward Island has suddenly become about the best. A few years since, the traveller making his way through the interior of the Island would find it anything but a joke unless provided with a private vehicle. All is now changed. The Islanders having, in 1872, commenced railway construction, have done their work so thoroughly that but little more can be done in that way. A railway runs from Tignish, at almost the extreme northern point of the Island, to Georgetown—making, with Charlottetown Branch, one hundred and fifty-one miles—with a branch of forty miles from Mount Stewart to Souris, which is almost the extreme eastern point; also branch from Emerald to Cape Traverse of thirteen miles. Thus there are in all two hundred and four miles.

As mentioned in a former part of this work, under the head of Nova Scotia, the Charlottetown Steam Navigation

H. W. Northrup & Co., South Wharf, St. John, N.B.

Company's (Ltd.) steamers run daily to Pictou, vice versa. They also ply daily regularly between Charlottetown, Summerside and Shediac ; a weekly steamer to Halifax, by way of Canso, taking in intermediate ports. By another line of steamers, locally known as the Phalen Line, there is regular communication with Boston. The Quebec and Gulf Ports steamers, plying between Pictou, Quebec and intermediate ports, also touch at Charlottetown. These arrangements, it must be remembered, are in operation only during the season of open navigation in the Gulf—that means for seven or eight months of the year. During the remainder of the year communication can be effected by means of the government steamer Stanley, which is a strongly-built screw steamer of steel, and got up expressly for forcing its way through the ice. In the winter of 1890 it made daily trips with little interruption, except once, for about a week, to clean the boilers. In 1891 they ran all the season, with the exception of three weeks, for the same reason as mentioned above. There is also a system of ice boats, which ply between Cape Tormentine and Cape Traverse, the narrowest part of the Strait of Northumberland.

As a field for sportsmen, Prince Edward Island cannot in every way be recommended. Small game, that is woodland game, is still to be had; waterfowl are very abundant. The patient stalker of the web-footed families will find almost any one of the more secluded salt-water inlets of this island a paradise after its kind. Owing to the conformation of Prince Edward Island, most of its streams above tide-water are necessarily very short; consequently there is not much variety of fresh water fish properly so called, and of them trout is the principal. Further inland, in the streams and inlets, trout is quite plentiful, and are caught in great quantities, from a few ounces to four and even five pounds in weight. Should the tourist have a fancy to fish his own oysters, there is no place in North America where he can do so more successfully than in Prince Edward Island. The ocean fishing trade is immense, and there are numerous lobster canning factories, and it is noted for its fine oyster

FOR DELICATE CHILDREN USE ALE AND BEEF PEPTONIZED.

LAZENBY'S PICKLES, the Best in the World.

SINCE LAST SEPTEMBER

I have not spent one day without intense suffering until I obtained a Bottle of **Scott's Cure for Rheumatism**. I have used part of my second bottle, and consider it the greatest cure for **Rheumatism** ever discovered. I would recommend anyone to try it who suffers as I did—I was unable to work, or even walk, and now enjoy better health than I have for years. Yours truly,

E. B. GREEN,
City Road, St. John, N. B.

E. J. SHELDON, Esq

Travelling Agent of the Mutual Life Insurance Co., takes great pleasure in testifying that **Scott's Cure for Rheumatism** relieved him almost instantly from a severe attack of Rheumatism in the arm, and recommended it highly as a household remedy.

VERNER McLELLAN,

Of Portland, St. John, N. B., who has been a great sufferer from Rheumatism, takes great pleasure in saying that **Scott's Cure for Rheumatism** has done him more good than anything he has ever used, and would advise anybody suffering to try it and be convinced that it is the best remedy in the world for **Rheumatism.**

DEER ISLAND, ME.

Dear Sir,—This is to certify that I have had the **Rheumatism** so, by times, I could not walk. By chance I received a bottle of **Scott's Cure for Rheumatism** I have not been so free from pain in five years, and wish you every success with Scott's Cure.

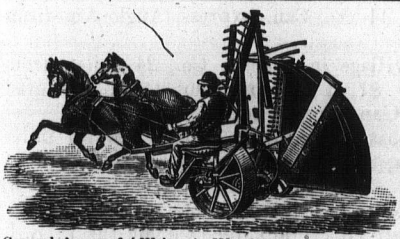

Yours respectfully,
ELMER E. WARREN.

Charlottetown a post and money-order town in Queens Co., the provincial capital, is beautifully situated upon a gently sloping tongue of land, formed by the junction of the East River with the North and West rivers. It is regularly laid out with broad and airy streets, and several reservations for public squares. It is plainly, but for the most part substantially, built; the Colonial buildings, containing the halls of the Local Legislature and certain provincial offices, are capacious and handsome edifices of Nova Scotia freestone, three stories in height, and occupying the centre of Queen Square. Charlottetown, as the seat of the Provincial Government, has the usual quota of public buildings. Besides these there are in the city and its environs no less than three colleges--the Prince of Wales (Provincial institution), St. Dunstan's (Roman Catholic), and the P. E. I. Business College; also the Provincial Normal School, with three large public schools, a capacious Convent, Lunatic Asylum, and various other edifices of a semi-public character. Government House, the residence of the Lieutenant-Governor, is an unpretending but commodious structure, beautifully situated in the midst of very attractive grounds in the immediate vicinity. Charlottetown can boast of one of the tidiest, best-kept and best-supplied markets in the Dominion. The environs of Charlottetown afford some charming drives, presenting fine views of wood and water and tastefully laid out and well-kept private grounds. At the same time the East (Hillsborough),

P. P. ARCHIBALD, Proprietor.

Dr. Simon says M.M.P. is an admirable preparation

H. W. Northrup & Co., South Wharf, St. John, N.B.

the North (York) and the West (Elliott) rivers present great temptatious and good facilities for boating and yachting. The trip on the Hillsborough to Mount Desert, near its head, is a favorite excursion of Charlottetown pleasure seekers during the summer months and can scarcely fail to prove agreeable to the stranger tourists; contains four printing offices, which issue three daily and five weekly newspapers, three banks—Merchants Bank of Halifax, Bank of Nova Scotia, Merchants Bank of P. E. I.—one savings bank, one woollen factory, two iron foundries, one brewery, two tobacco factories, with a large number of stores and many branches of business. A considerable West India trade is carried on, and in the fishing trade for its size it has no equal in the Maritime Provinces. The P. E. I. Railway connects the capital with the whole of the Island, and the greater number of steamers spoken of in the description of the Island stop here for the Island and go to no other ports on it. The Anglo-American telegraph has its head office here, and it has offices in a large number of places throughout, also the P. E. Island Telephone Co. have offices in the principal places, Can. express, fare to Summerside $1.25, the census of 1891 show a population of 11,374.

Chepstow, a post settlement in Kings Co., 4 miles from Souris, contains one store, one lobster factory and is an important fishing station.

Somerset, a village in Prince Co., 12 miles from Summerside, fare 50 cts., contains three stores, pop. 275.

Souris, a seaport post and money order town in Kings Co., situated on Souris River, it is 60 miles from Charlottetown by P. E. I. R., fare $1.80, of which it is the eastern deep-water terminus, contains about twenty-five stores, one post-office and custom-house, one first-class hotel and three others varying in rates, P. E. I. telephone and Anglo-American telegraph, and has two daily mails; the harbor is quite commodious but is an artificial one, formed by a brakewater—the natural harbor, formed by Souris River, being at Souris West and too small to afford refuge to the tonnage frequenting the place. Souris is an important fish-

ALE AND BEEF MAKES BLOOD AND MUSCLE. Price 25 Cents.

See JOHN MACLEOD & CO.'S adv. on page 612.

JONES' RICE STARCH, Strongest, Purest Made.

ing station, and being on the sea-board is the great rendezvous of the American and Canadian fishing fleets, as many as 200 vessels being in port at one time. It is a first-class resort for summer tourists, who can indulge in fishing, shooting or bathing during the summer months. Can. express, pop. about 850.

Bigelow & Hood's Ginger Ale is the Best, Truro, N.S.

I. R., 10 miles from Charlottetown, fare 30 cts., pop. 280.

Suffolk Station, in Queens Co., Can. express.

Summerside, a seaport post and money order town, capital of Prince Co, on the P. E. I. R., 49 miles from Charlottetown, fare $1.45, contains about fifty stores, three hotels, two printing offices (each issuing a newspaper), one planing mill, three banks (the Summerside Bank, Merchants Bank of Halifax, Bank of Nova Scotia), one foundry, one tannery, Anglo-American telegraph and telephone exchange. It has a splendid harbor, and has daily communication in summer with New Brunswick and Nova Scotia. The Charlottetown Steam Navigation Co.'s steamers run here daily, except in the winter season. Summerside is in every respect the second town on the Island, and indeed its growth has been so rapid of late years that it bids fair to become soon a formidable rival to the provincial capital itself. Its local position of course has much to do with its prosperity; it is directly opposite Shediac, with which it has daily communication by the above-named steamers. Can. express, census 1891 shows a population of 2,883.

Summerville, a post village in Kings Co., contains three stores, Can. express, pop. 500.

Ten Mile House, a post office in Queens Co., Can. express.
