Retirement of the Teutonic troops has been forced in one sector north of Campolung and the Jui Valley, where two howitzer batteries were captured by the Roumanians. The text of the statement follows:

"Northern and northwestern fronts: At Tulghes and Hicaz there have been artillery bombardments. In the Trotus Valley, the Tuzul Valley and on the Vrancea frontier nothing new has developed. Reserve Sub-Lieut. Patrascu, with a unit under his command, captured two howitzer batteries of 105 millimetres calibre belonging to the 21st Regiment of Bavarian Artillery. The guns were immediately put into action against the enemy, rendering us great service. In addition we captured four machine guns and many limbers.

Enemy Again Repulsed.
"In the Orsova region, after a violent bombardment, the enemy attacked us at Verselo, Variful and Cocosuliu but was repulsed.

"On the southern front the situation is unchanged.

"Roumanian troops on the Muldavian frontier have won another success over the Austro-German forces. In the Trotus Valley they recaptured Pisoul, from the vicinity of which the Teutonic troops are fleeing in disorder, the official statement declares.

"In the Uzul Valley a Roumanian attack was successful, ten officers and 900 men, together with five machine guns and a large quantity of war material, being captured by the Roumanian forces.

"East of the Alt Valley hostile attacks were repulsed.

"In the Jui Valley, the Austro-German forces which had advanced to the west were completely defeated, adds the statement, leaving 1,000 dead on the battle field, besides losing 450 men in prisoners and 16 machine guns. "Successful reconnaissances have taken place on the River Stavok, a tributary of the Stokhod (Volhynia), in the region of the village of Sittovichi and the village of Rudka-Miryshin (16 miles east of Kovel), and also in the region of Belick. Along the rest of the front artillery duels and hand-grenade fighting is proceeding.

"In Dobrudja there was no change during October 28."

"Western (Russian) front: On the whole front reconnaissances and an exchange of fire are taking place.

"On both banks of the River Bystritsa, in the region of Dorna Watra, the enemy, supported by his artillery, launched a series of fierce attacks, compelling our advanced posts to abandon two heights. The attacks of the enemy south of this region were without success.

MONCTON WOMAN HEIR TO \$6,280

Mrs. Barbara E. McKinnon, of Moncton, will receive \$6,280 from the estate of her brother, Thomas Griffin, who died in New York, May 23, 1903. Griffin was supposed to be a poor man but the New York authorities found that he had considerable money in the Bowers Savings Bank of that city, and in the Salem Savings Bank and Salem Five Cent Savings Bank of Salem, Mass. It was only recently that they learned that Griffin had a sister, his only heir, in Moncton. Had the whereabouts of Mrs. McKinnon not been ascertained the estate would have gone to the city chamberlain in trust.

The court has ordered the public administrator to turn over \$6,280 to Mrs. McKinnon after deducting \$110 for administration expenses.

The 180th at Church.

After service the full battalion marched down King street in column of platoons, saluting Brigadier General H. H. McLean, who occupied a stand in front of the Victoria Hotel. The battalion in this formation was seen to good advantage, as it gave an opportunity to show the citizens how they carried themselves when marching in what is considered the most difficult formation in military drilling. Their appearance yesterday was one that any city might be proud of, and one that any city might envy.

MEAT INJURIOUS TO THE KIDNEYS

Take a tablespoonful of Salts if Back hurts or Bladder bothers—Meat forms uric acid

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night, when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.

EUROPE WILL NEED LUMBER WORTH BILLION

St. John and all Other Wood Manufacturing Centres and Export Points Should Benefit After War.

Special to The Standard.

Portland, Oregon, Oct. 28.—"Europe will need a billion dollars worth of lumber the first year after the war," asserted Dr. Edward Ewing Pratt, chief of the bureau of foreign and domestic commerce, department of commerce, in an address read yesterday before the forest industry conference.

"There will not only be an opportunity to sell lumber, there will be a duty that should not be shirked."

"If the war should end in December, which is hardly likely, and lumber imports into Europe should in the meantime show no increase, there will be at the close of 1916 an estimated deficit in the normal European lumber supplies of some \$400,000,000. This is entirely outside of the great additional needs for lumber due to the actual destruction of the war."

"No one knows at the present the amount of lumber that will be needed by France, Belgium, Poland and other countries, which have suffered directly from the war to replace ruined buildings, railroads, bridges, etc. There can be little doubt that this amount will run into large figures and that hundreds of millions worth of general purpose lumber will be called for as soon as the great European struggle is ended."

TEUTONIC TROOPS FORGED TO RETIRE

(Continued from page 1)

The text of the statement follows: "To the south of the depression between Lopplo and Mori, in the Camaras and Adige valleys, our infantry entered the village of Sano, drove out the enemy and destroyed his defenses."

"From the Asiago plateau and the Sugena Valley increased activity on the part of the enemy artillery is reported."

The Julian front there has been further intense activity on the part of the enemy's artillery east of Gorizia and on the Carso. Our batteries replied with an equally heavy fire. To the southeast of Novavilla we have advanced our line 300 metres as the result of a surprise attack."

Turks Defeated.

Petrograd, Oct. 29, via London.—The development of a Turkish offensive movement in the Hamadan sector in Persia, is reported in today's Russian official statement regarding operations on the Caucasus front. The Turks, who advanced in considerable force, were defeated in a pitched battle, and their forward movement checked. The official statement says: "Caucasus front: West of Soudjulgaka our troops captured two Turkish convoys."

In the direction of Hamadan, at daybreak on October 25, considerable Turkish forces assumed the offensive. After a fierce battle the enemy's advance was arrested. South of the Akhid-Abadoud line, in the direction of Burudjird, the Kurds were driven back as far as the village of Tubia."

British Repel Bulgarians.

Saloniki, Oct. 28, via London (2.40 p. m.)—Bulgarian troops yesterday attempted to recapture from the British the town of Ormanli, on the east bank of the River Struma, in Greek Macedonia, says a British official statement issued today, but after artillery preparation the British succeeded in driving them back. The statement reads: "Struma front: The enemy's advanced troops attempted to seize Ormanli but after artillery preparations we successfully drove them back."

"Wet weather seriously interfered with our operations during the past week."

Serbia Advance.

Saloniki, Oct. 29, via London, (2.40 p. m.)—"On the Dolran front there is nothing to report," says today's British official announcement regarding operations in the Macedonian war theatre.

"On the Struma front strong hostile patrols were driven back by our advanced troops in the neighbourhood of Kalandra."

Serbian troops yesterday made an advance at the bend of the Cerna river, in Serbian Macedonia, says a Serbian official announcement issued here today. "Thursday several Bulgarian trenches were captured by the Serbians."

WORLD WAR INVOLVES THREE-FIFTHS OF ITS POPULATION

The Standard is occasionally asked how many countries of the world are engaged in the present war on the side of the Entente Allies and what they are. For the benefit of our readers statistics are appended. Ten nations with a total area (before the war) of 26,712,106 square miles and a population (also computed before the war) of 824,832,867 represent the Entente Allies. The nations are: British Empire, France, Russia, Italy, Japan, Portugal, Serbia, Montenegro, Belgium and Roumania.

The Central allies are the German Empire, Austria-Hungary, the Turkish Empire and Bulgaria, with a total area before the war of 4,296,246 square miles and a population estimated at 170,648,229.

Every Continent Involved.

Before the great struggle commenced the entire world had a population estimated at 1,691,104,077. The land area is 50,657,713 square miles. It will be seen that of this number, countries with a population of 985,481,096 and a combined area of 31,481,096 square miles are engaged in the universal combat. Every continent is concerned directly in the war, for even South America is involved through British ownership of British Guiana and the Falkland Islands, off which a famous naval battle occurred. Certain of the West Indies and many other islands of the sea are likewise involved. Thus countries containing nearly three-fifths of the world's population are at war.

The figures for each nation involved follow:

Nation	Area (Square miles)	Population
British Empire	11,908,378	403,842,541
France	4,262,130	94,638,085
Russia	8,342,927	188,667,800
Japan	176,866	50,751,900
Italy	199,650	34,886,700
Serbia	18,630	2,311,701
Montenegro	3,630	250,000
Portugal	838,442	14,567,416
Belgium (including Congo)	911,373	27,516,700
Roumania	50,720	7,900,400
Total	26,712,106	824,832,867

DEFINITION OF THE CATHOLIC CHURCH

Theme of Interesting Address Last Evening by Rev. J. V. Young of Mission Church of S. John Baptist.

The Catholic Church was defined at last evening's service at the Mission church of S. John Baptist by the priest in charge, Rev. J. V. Young. He said that the Anglican, Greek and Roman Catholic churches were branches of the Catholic Church, founded by the Lord, the bishops of all three were successors of the apostles. The church of England, he declared, was neither Protestant nor Roman. The Protestant denominations, he said, held none of the seven sacraments except that of baptism. The Protestant denominations were doing a good work, he added, and he was opposed to attacking the dissenting bodies.

There will be celebrations of the Holy Eucharist at the Mission church at 7.30 and 9.30 a. m. on Wednesday, All Saints' Day, a holy day of obligation.

Rev. Fr. Young baptized a Roumanian child last evening. His parents are members of the Greek church.

Mr. Morrish's Case.

William Morrish, a blind man, who suffered injuries by falling into a city excavation and who got a verdict for \$800 against the contractor, but could not collect it, applied to the city council in September for payment of the amount. Mr. J. King Kelley presented the case for him, but the city solicitor decided that the city was not liable and Mr. Morrish got no grant. The Mayor and council, however, expressed strong personal sympathy for him. It is his intention, if possible, to take a three years' course at the Halifax School for the Blind. His health is such that he cannot carry on his former agency work.

KING HONORS COL. JOHN F. ELKINGTON

London, Oct. 28.—King George has appointed Lieut.-Col. John Ford Elkington a companion of the Distinguished Service Order.

Col. Elkington recently was received in audience by the King at Windsor, and His Majesty evinced a deep interest in the history of the officer's case and his experiences in the French Foreign Legion.

Elkington still limps badly as the result of a knee wound, but he is undergoing treatment and hopes he may return to active service. The decoration bestowed upon him is the next highest to the Victoria Cross.

Lieut.-Col. Elkington is known as the "man who came back." He was dismissed by a court martial from the British army after serving nearly thirty years, just as his regiment was going into action in France in the latter part of 1914.

CHILD'S TONGUE BECOMES COATED IF CONSTIPATED

When cross, feverish and sick Give "California Syrup of Figs."

Children love this "fruit laxative," and nothing else cleanses the tender stomach. Liver and bowels so nicely. A child simply will not stop playing to empty the bowels, and the result is, they get a sluggish, stomach sour, their little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, the stomach-ache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well, playful, child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeits sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with contempt.

UNIONS SUPPORT BIG BUSINESS OPPOSED

Boston, Oct. 29.—The presidential election is decidedly in doubt of the last week. The railroad brotherhoods and other unions are opposing the election of the eight placed on the ticket.

It is also that certain few which Mr. Wilson for his support for his defeat. He have been extolled his interest in local business interest said to be waiting put an end to his bid for a successful Howard D. OUTCOME OF U. S. CONTEST IS DOUBTFUL

Unions Support Wilson, but Big Business Interests are Opposed—President's Remarks on War.

Boston, Oct. 29.—The outcome of the presidential election November 7, is decidedly in doubt at the opening of the last week of the campaign. The betting on the result is even. The railroad brotherhoods and many other unions are openly advocating the election of President Wilson because of the eight hour law which he placed on the statute books.

The "Solid South," embracing twenty-one states with one hundred and ninety-seven electoral votes, is normally Democratic and is conceded to Mr. Wilson, while Mr. Hughes will probably carry twenty states, scattered from Maine to California, which are almost invariably found in the Republican column, and which will give him an electoral vote of one hundred and forty-two.

The so-called "doubtful states," on which the strenuous efforts of both parties are centered, make up the balance of the total vote in the electoral college, which number five hundred and thirty-one, two hundred and sixty-six being necessary for a choice. That Hughes will capture a majority of the doubtful states, which include Connecticut, Illinois, Indiana, New Jersey, New York, Ohio and West Virginia is the claim of the Republican campaign managers. When the Republican party has been united during recent years, it is argued, they have invariably won heavy majorities. It is also creditably reported that certain financial elements on which Mr. Wilson has been counting for his support are secretly working for his defeat. While humanitarians have been extolling Mr. Wilson for his interest in local reforms, the great business interests of the country are said to be waiting the opportunity to put an end to his career by the election of a successor.

Howard D. Hadley, a newspaperman, who has travelled 30,000 miles through 36 states in the last four months writing national politics for the New York Tribune, the New York Evening Post and other papers, has returned to his home. He said: "This bids fair to be the closest election in 32 years. I think Hughes will win, but it's no landslide either way. Illinois, Minnesota, Ohio, Connecticut, and, of course, Indiana, are the storm centres. The women who are leaders in the movement for woman suffrage by federal amendment are doing most effective work for Hughes in the 12 suffrage states. Hughes will carry all of them, largely through the efforts of these women. The 'dry' are likely to put at least five more states in the prohibition column this fall, I. e., Michigan, South Dakota, Montana, Utah and Nebraska. The 'dry' movement is increasing in strength all over the country, and even California is threatening to go 'dry'." "The Republicans may get the House of Representatives by a narrow margin. The Democrats will likely retain control of the Senate."

President Wilson's Speech. In a recent speech at Cincinnati President Wilson said: "I, for one, have been very much disturbed by some of the things they say are going to happen after the distressing war in Europe. I say that I have been distressed because apparently the point of these predictions was that this year of arms was going to be followed by another sort of contest based on a radical economic rivalry which would breed deeper antagonism than the antagonisms of actual force. For one thing, it is predicted that after this war is over, Europe will in some way overwhelm the United States by her economic power and her economic antagonisms to the United States. I wonder that any thinking man can entertain an opinion of that sort. "What I want to preach from this time on, in office or out of office, is that America must show that as a member of a family of nations, she has the same attitude towards the other nations that she wishes her people to have towards each other; that America is going to take this position, that she is lending not only her moral influence, but her physical force if other nations will join with her, to see to it that no nation and no group of nations tries to take advantage of another condition or group of nations and that the only thing ever fought for is the common right of humanity. A great many men are complaining that we are not fighting now in order to get something—not some spiritual ideal, not a right, not something we could be proud of, but something we could possess and take advantage of and trade on and profit by. They are complaining that the government of the United States has not the spirit of other governments which is to put the force, the army and navy, of that government behind investments in foreign countries. Just so certainly as you do that, you join this chaos of competing and hostile ambitions. "Have you ever heard what started the present war? If you have, I wish

N. B. KILTIES WILL OPEN BRISK CAMPAIGN TOMORROW

Brigadier Gen. McLean, Col. Guthrie and Major Eason Will Go to Toronto—First Named Will Address Canadian Clubs in New York, Providence and Boston Later

Special to The Standard. Fredericton, Oct. 29.—The national campaign for the 236th Kilties Battalion (Sir Sam's Own), will be inaugurated this week, the Minister of Militia having authorized the recruiting of "all MacLeans and their connections throughout Canada" for this unit. Plans have been completed for the tour of Scotland and more or less organized in clans and societies throughout North America under the presidency of Colonel John Bayne MacLean of Toronto, editor and proprietor of the MacLean publications. As chief of the clan Colonel MacLean has extended a warm invitation to the Kilties officers to visit Toronto and the support of the Ontario MacLeans shall give to the battalion will then be determined. Brig. General McLean, Col. Guthrie and Major Eason will be guests at a luncheon at the Empire Club on Thursday and the Hebrides Society, one of the Queen city's most select and wealthiest associations, on Friday at a reception. Before the Empire Club Col. Guthrie will give a talk on his experiences in war. The Bon Entente Association has also wired here inviting Col. Guthrie to speak on as many dates as may open after November 2nd at Toronto, Hamilton, Peterborough and other Ontario points.

After Col. Guthrie's tour of Ontario he will return to Fredericton for a few days and then leave for New York where he will address the Canadian Club on the 14th, Empire Club of Providence on the 16th, and Canadian Club of Boston on the 20th. Meanwhile G. E. Dennis, second vice-president of the C. P. R., is arranging a big recruiting campaign for MacLeans and their connections in the prairie provinces, and on Tuesday Major C. G. Gieggle and Lieut. Frank H. Ryder, both old members of the 10th Battalion, the white ghillies, will proceed to Calgary and assist Mr. Dennis. The parties in the west will later on be visited by Brig. Gen. McLean and Lieut. Col. Guthrie.

The appeal to the MacLeans of Nova Scotia and P. E. Island will be undertaken after the western tour. New Brunswick is being scouted for eligible recruits for the Kilties and the results in this province are bearing good fruit daily.

"I say that because I believe that the business of neutrality is over; not because I want it to be over, but I mean this: that war now has such a scale that the position of neutrals sooner or later becomes intolerable just as neutrality would be intolerable to me if I lived in a community where everybody had to assert his own rights by force and I had to go around among the neighbors and say 'here this cannot last any longer; let us get together and see that nobody disturbs us any more.' That is what a society is and we have not yet a society of nations. "We must have a society of nations; not suddenly, not by insistence, not by any hostile emphasis upon the demand, but by the demonstration of the needs of the time, the nations of the world must get together and say, 'nobody can hereafter be neutral as respects the disturbance of the world's peace for an object which the world's opinion cannot sanction.' "The world's peace out to be disturbed if the fundamental rights of humanity are invaded, but it ought not to be disturbed for any other thing that I can think of. America must hereafter be ready as a member of the family of nations to exert her whole force, moral and physical, to the assertion of these rights throughout the round globe."

ENORMOUS OUTPUT OF MUNITIONS

Director of Imperial Board Tells of Wonderful Increase in Production of War Supplies in Great Britain.

Special to The Standard. Ottawa, Sept. 29.—H. E. Morgan, one of the directors of the labor supply department of the Imperial ministry of munitions, is at present in Ottawa, giving to the Imperial munitions board here his knowledge and experience of labor problems in the munitions factories of Great Britain. He says, illustrating the tremendous advance in the manufacture of munitions in the mother country recently, that the output which in 1914-15 took twelve months to produce can now be obtained from British sources in from four days to three weeks, depending upon the class of ammunition.

3,500,000 War Workers. The total number of war workers in 1914 was under 200,000; today it is 3,500,000. "We are shipping to France," said Mr. Morgan, "every week about as much as the whole pre-war stock of land service in Great Britain. There are over four thousand engineering and other establishments controlled by the minister of munitions, the major portion of which are producing nothing but war materials." To man these factories Mr. Morgan states that forty thousand engineers had to be recalled from the colors. There is scarcely a man of business in Great Britain whose services are not willingly placed at the disposal of the government; men controlling large businesses with world-wide ramifications, distinguished scientists and professional men, great financiers and manufacturers are all rendering voluntary war service. Fathers have been called back from their retirement to take the wheel of great commercial concerns because their sons have gone to the front. Mr. Morgan says that private motor riding is coming to a standstill, and the nation is being organized to save.

PAID HIGH TRIBUTE TO REV. M. E. FLETCHER. Rev. J. H. Jenner Conducted Memorial Service in Charlotte Street Baptist Church Last Evening.

In his sermon last night Rev. J. H. Jenner, pastor of the Charlotte street Baptist church, West St. John, paid a fitting tribute to the late Rev. M. E. Fletcher. Taking his text from Luke 12:40, "Be Ye Also Ready," he spoke of the death of the late Rev. M. E. Fletcher as a man who will be ready when the summons come. He referred to Rev. M. E. Fletcher as a man who, by living in the sight of God, was "also ready."

AUSTRALIA REJECTS CONSCRIPTION.

Returns of the voting in Saturday's referendum in Australia on the question of whether a measure of conscription should be adopted by the government of the Commonwealth, while not complete, indicate that the proposal has been defeated.

The question on which the Australian people were asked to vote was not an absolute conscription as it is known in continental countries but was modeled rather after the plan now in use in England. It provided that the system of voluntary enlistment should be continued but if the necessary number of men were not obtained by that means, the power to call men to the colors could be exercised by the government. There were of course various exemptions. Men, the sole support of families, of parents or other dependent relatives were immune from the operations of the law.

On the face of it it seemed wise legislation, particularly as Australia is still considerably short of the number of men required. Compared with the English speaking provinces of Canada Australia has not done better in proportion to her population than is the case in the Dominion, but with Quebec included in the Canadian returns, the advantage rests strongly with the antipodean sister nation.

The Australians are intensely patriotic and the troops they have sent to the front have rendered splendid service, particularly in the Gallipoli campaign, where the heroism of the Anzacs will stand as one of the brightest pages in the history of imperial achievement. From the result of Saturday's voting it is evident that the people of the sister nation do not believe that they have reached the limit of their recruiting ability under the voluntary system and it may be expected that the future will see a campaign for men even more aggressive than that conducted in the past. If the referendum will have the effect of stimulating enlistment then it was not undertaken in vain even though the majority of the people declared themselves as opposed to the principle involved in the measure the government sought to enact.

The Australian result is not without interest for Canadians. The returns show that out of a total vote of 2,000,000 the anti-conscriptionists have an approximate majority of 75,000. It is doubtful if a better result could be expected in this country for in Canada quite forty per cent. of our total population is neither British born nor of British descent whereas the Australians are almost exclusively British in this sense. The result of Saturday may also bring its dangers to the sister nation. Those favoring conscription may now feel that they are not called upon to enlist as long as other men, equally liable and equally fit, remain in civilian life. And, leaving sentimental consideration aside, there is really no convincing answer to such an argument.

Australia feels she has not reached the limit of her effort. Neither has Canada. Recruiting has slackened, it is true, but it has not ceased and the fall and winter campaigns for men are but commencing. The National Service Commission appeal and the personal canvasses being conducted by officers and men of the units mobilizing in various parts of Canada will have a stimulating effect and there is good reason for expecting that the winter months will bring the total of Canada's khaki clad heroes well up to the half million mark.

NORWAY AND SUBMARINES.

Apparently Norway is to show the way to the United States in the matter of handling submarines in neutral waters. She has decreed that such vessels must not enter her territorial waters except in cases of dire necessity and must then remain on the surface and display their national colors. Such a ruling suits Britain well enough but is decidedly unpopular in Germany and it was to be expected that Berlin would enter a protest couched in rather threatening language. By Norway's decision Germany's operations in the North Sea will be considerably restricted and it will also add to the safety of merchant ships in those waters. Despite

the Berlin protest it is not likely the Norwegian rule will be changed, for it is in compliance with a strict tenet of international law which declares that each nation owns the sea for three miles from its coast and for that area can make what regulations it pleases. The United States could advantageously use the Norwegian system. If the Deutschland, for instance, had been compelled to remain on the surface within the three-mile limit its career would have speedily ended. A British vessel could have waited a few yards over the line and terminated the usefulness of the Hun submarine in short order. And the U-53 would never have escaped unscathed after that social call to Newport if the three-mile condition had been observed.

If German submarines are to be permitted to visit American ports for fuel or supplies, submerge inside the three-mile mark and then proceed under water to ravage and destroy it is quite evident that any harbor on the Atlantic coast of the United States can be made a base for attacks upon shipping. Of course such a policy would be bothersome to the Allies but in the end the United States would be the chief sufferer. Everything bought by the Allies in America can, if necessary, be brought to St. John or Halifax by rail and shipped from either of these ports conveyed by war vessels. The procedure would be inconvenient but if resorted to would mean the ruination of the trade of every United States port on the Atlantic. It would appear that Norway has shown Uncle Sam the way to escape from what might prove a most embarrassing experience.

WORTHY UNDERTAKINGS.

Two undertakings well worthy of public support are about to be launched. Tonight, in the Imperial Theatre the 180th (Sportsmen's) Battalion will hold what it is hoped will be but the first of a series of high class musical and athletic entertainments, the proceeds from which will be devoted to patriotic causes. On Saturday afternoon next the Battalion will hold an athletic meeting on the Barrack Square in which some of the world's foremost athletes will participate. Both entertainments will be under the patronage of Lieut. Col. Greer and officers of the battalion and will merit patronage, not only for the merit of the programmes to be presented, but for the sake of the object they seek to benefit.

Preliminaries for another more pretentious and equally worthy undertaking were completed on Saturday night at a meeting of the members of the New Brunswick Commercial Travellers' Association in the Board of Trade rooms here, at which it was decided that the Knights of the Grip in this province should bend their energies toward securing a fund of \$10,000 which will be turned into the coffers of the Patriotic Fund. No class of men in the province have shown greater willingness to respond to the appeals of the day than the commercial travellers. With the energy that characterizes their pursuit of the elusive "order" in the marts of business they may be depended upon to garner in a goodly number of dollars to be devoted to the work of the most important of all patriotic funds. The commercial travellers and the officers and men of the 180th should receive the very heartiest support from citizens. The ventures they are promoting are for most worthy objects and they are to be highly commended for their energy and patriotic zeal.

A DISASTER AVERTED.

An event of the past week, which, owing to pressure of other matters upon the public mind, received less general attention than its importance merited was the prevention of the threatened strike on the Canadian Pacific Railway. At this time possibly more than any other it would have been little short of national disaster if the operation of Canada's greatest transportation organization had been suspended or interfered with because of inability to adjust matters in dispute between employers and employees.

The Standard does not pretend to

say whether the men or the company would have been most to blame had negotiations failed of effect. The details of the issue are of comparative unimportance. But it would have been a matter of grave national concern if the Canadian Pacific trains had stopped and traffic from St. John to Vancouver had been stalled on the railway sidings.

It is generally admitted that the laborer is worthy of the highest wages he can obtain, also that the increased cost of living has made demands upon the working man which have not always been met by correspondingly increased remuneration. Also the Canadian Pacific has had a prosperous year and this fact doubtless encouraged the men to believe that they were properly to be considered in their appeal for advances in pay.

Negotiations between representatives of the labor unions and the company had been carried on for some days without apparent result. Then the Premier and Hon. Thomas Crothers, Minister of Labor, intervened with an appeal for settlement, an appeal quickly followed by what was tantamount to an ultimatum from Sir Robert Borden that in the event of a strike the government would take over and operate the road.

Both parties to the dispute at once realized the seriousness of their position and it is most creditable that in such circumstances public interest was first considered and the railway services maintained without interruption. The men, the company, and the members of the government who did not hesitate to bring the strongest influences to bear in the direction of a settlement are entitled to the warmest thanks of all Canadians. Prompt Government action on one hand and a spirit of reasonable co-operation on the other averted what easily might have become a national disaster.

VISITING MINISTERS IN CITY CHURCHES

In Some of the Pulpits Local Clergymen Give Way to Those from Outside Points.

In several of the city churches yesterday the services were taken by visiting ministers. In the Congregational church, Union street, Rev. Frederick McNeill from Maine preached both in the morning and evening. The evening's subject was "What is God's Attitude Toward the People of this World?"

Rev. L. A. Buckley of Halifax preached in St. John's Presbyterian church in the morning, taking for his subject "The Boy Question." He spoke impressively on the importance of the training of boys for a useful life.

In the Tabernacle Baptist church the preacher in the morning was Rev. George Kincaid, who spoke of "Prayer as a Working Force." Rev. William Lawson of Buctouche presided at the evening service. He will be well remembered by many here as a former pastor of Zion Methodist church, at which he took charge of the morning service yesterday.

Rev. C. A. Myers of Toronto preached in St. Andrew's Presbyterian church in the morning on the subject of "Christian Citizenship." He also officiated in St. David's Presbyterian church in the evening.

In the Central United Baptist church Rev. George Kincaid of Hartland, N. B., took the evening service, adopting as a theme for an impressive sermon, "Feeding the Multitude."

In Centenary church the preacher in the morning was Rev. F. H. Langford, who also took the evening service in Queen Square Methodist church.

In Douglas Avenue Christian church the services included special singing by a large chorus, Singing Evangelist John Prantz taking solo parts. There were large congregations both in the morning and evening.

The preacher at St. John's (Stone) church in the morning was Rev. W. R. Hibbard of Rothesay. In the evening the church service was read by Wm. Pearce, superintendent of the Wigan Orphan Institution. In place of the usual sermon an organ recital was given by D. Arnold Fox and Mrs. G. K. Bell sang a solo.

Arthur Clinton Macdonald and Emma Edith Scott United by Rev. David Jenkins, Anglican Rector.

A very pretty wedding took place Thursday afternoon at Welsford, Queens Co., when Arthur Clinton Macdonald and Emma Edith Scott were united in marriage. Rev. David Jenkins (rector), officiated. The home of the bride was nicely decorated for the occasion, the parlor decorations being pink and white. The bride, who was given in marriage by her mother, looked charming in a navy blue tailored suit, with black picture hat, pink crown and pink ostrich plume, and carried a bouquet of pink carnations and white chrysanthemums. The young couple were attended by Mr. and Mrs. John P. Speight, Jr. and the bride's maid, Miss Dorothy Lewin and Miss Jennie Burton assisting in serving. During this season of the year, the evenings are too cold to permit sitting around without some heat, and at the same time it is not cold enough to warrant lighting furnaces and heating stoves.

LATE SPORTING NEWS AND VIEWS

THE INDOOR SPORT SHOW TONIGHT

The remarkable thing about the sportsmen's show at the Imperial Theatre tonight has been the demand from ladies for seats, remarked Capt. Tom Flanagan of the 180th Battalion last night. In Toronto we have of course had the honor of the presence of many ladies at similar affairs, but we hardly anticipated such a turnout from a conservative city like St. John.

In addition to the boxing bouts in which champions "Danny" Johnson, Ted Pictou and Charlie Christie will appear, there will be a strong man stunt by Pte. Glover, the strongest man in the Canadian army, songs by Pte. Goolah, the nightingale of the 180th, a musical act by Sergts. Nash and Harris, stories by C. Q. M. S. "Billy" Breen and a hand concert.

"Danny" Johnson's fame is too well known down this way to require any particular attention, but some special mention should be made of Teddy Pictou and Charlie Christie, the veterans who wind up the show, both have been champions for several years in their respective classes.

They have met a dozen times this summer and have still easy, in fact it is still a question which is the better man.

Among the champions to be introduced to the public are Lieut. Bob Dibble, the U. S. and Canadian single-sculling champion, his brother, Sergt. Harry Dibble, the Canadian junior champion, Pte. "Ted" Wood, holder of the world's fifteen mile running record of 1:15.16, Sergt. "Tom" Longboat, the famous Indian marathoner; Sergt. James Corkery, Canadian distance champion, and winner of the English marathon in 1912; Corp. Tom Daly, and C. Q. M. S. Daly, the famous lacrosse and hockey trainers and coaches; Captain Gordon MacLaren of the O. R. F. N. senior Rugby champions; Pte. Chummy Wells, the Ontario boy, champion sprinter in 1913; Corp. Morgan, the Scotch billiard champion; Lieut. Jack MacDonaid, the old Ontario long distance cycling champion of 1912, and sundry other champions and ex-champions.

The show opens at ten o'clock and the seats are on sale at the Imperial all day. The prices are 25 cents to one dollar.

ROTHESAY WON OVER F'CTON HIGH

The Rothessay College football team defeated the Fredericton High team Saturday afternoon at Rothessay by a score of 15-0. The Fredericton High boys put up a hard fight but they were outwitted and outplayed by their opponents. Mr. Skelton acted as referee. The line-up was:

Spowball	McParland
Plummer	D. Porter
McKenzie	Jamler
Hickman	M. Cain
Hinton	Peacock
Clark	Donovan
Ascott	E. Hagerman

YOUNG JEWISH BOXER

Nationality, Hebrew; color, white.

These statistics, copied from the pugilistic dope book, appertain to Young Brown, the aggressive young Jewish boxer of New York. Brown is young in fact as well as in non de la box. He is 23 years old. His real front name is Abraham. He was born on the east side of New York, Sept. 24, 1893, of English-Hebrew parentage. He was only seventeen when he began fighting, and from the first he showed promise of developing into a great little boxer. He has a lot to learn about the game, but he is game and willing and as aggressive as they make 'em.

Brown's reputation was confined to New York until June of 1912, when he polished off Matt Wells in Brooklyn. The former lightweight champion of England got the surprise of his life when he went up against the sturdy young Jew. Wells' manager matched his man with Brown thinking that the latter was an easy mark. Shortly before the bout he realized that Brown was better than he had thought, and, it has been alleged, offered Brown's manager a considerable sum to call off the match. Wells was in poor condition and Brown was his superior at every stage of the game. Wells was once knocked down for the count of nine and only his cleverness and Brown's inexperience saved the Englishman from a knockout.

Brown made a poor showing when he fought Jack Britton, but he showed his gameness, and in the tenth round went after his man so strong that he had Britton going. The shifty Britton kept his glove in Abraham's face practically all of the time during the first nine rounds, and treated him to every sort of punch known to the fraternity, but Brown assimilated all of them and begged for more. If persistency is a jewel, Young Brown showed himself to be a regular Tiffany.

Among Brown's most recent victims was Billy Bennett, who came over from Ireland with a sheaf of professional cards reading "Lightweight Champion of Ireland." Abraham can now claim that title among his assets, for he made Bennett look cheap, and only the ball saved the Hibernian champion from being counted out.

On one occasion Young Brown showed that he had a heart by taking up a collection for a boxer he had whipped, and who proved to be a carpenter out of a job; who had posed as a fighter and got a chance in a professional ring to cop a little kale to buy food for his wife and starving children, poor things. That money put the poor carpenter on his feet again, and now he owns a nice little home of his own, with stationary wash tubs, a phonograph and open plumbing, and he never ceases to bless Young Brown.

U.N.B. DEFEATS KILTIES BY SCORE OF 6-0

Fredericton, Oct. 29.—Unable to cope with a better organized fifteen football team of 23rd Battalion, New Brunswick Kilties, went down to defeat at College Field on Saturday, U. N. B. being on the long end of a 6 to 0 score.

The soldiers went along pretty well for the first half, but their lack of condition and practice began to tell and the collegians had much the better of play. The fact that many members of the Kilties' team were not familiar with English Rugby rules marred their work considerably, but Referee "Mike" Kitchen, formerly an Acadia football star, was not very strict and the soldiers did not suffer penalties. The first half ended without any score, but about the middle of the second half, McWilliam went over the line for the first try, which McWilliam failed to convert. Fumbling in the U. N. B. back division lost many chances for the collegians to cross their opponents' line. Adams scored the second try of the game, Bridges failing to convert.

Several well known athletes played with the Kilties' team including Capt. Billy Godfrey and Lt. C. R. McEwan, former Mount Allison stars, Paul Kuhring, one of the best quarterbacks turned out of U. N. B. in recent years, and "Mike" Murphy, former well known professional hockey player. The two teams are to meet again and the soldiers hope to make a far better showing.

A great scarcity of skilled workmen is reported in the ship yards all over the United States, it being almost impossible to secure the men wanted. Wages on all classes of laborers employed in the yards have been advanced 20 per cent. within the past 12 months.

HEAVY FREIGHT BLOCK ON P.E.I.

Freight congestion on the Prince Edward Island railway continues. Every warehouse along the line is reported full of potatoes. Every spare car is full and hundreds more could be filled if they could be had.

The great trouble is the lack of men to handle the freight at Charlottetown and Pictou, especially at the latter port. On the Summerside-Point du

Chene route the same trouble prevails although to a less extent. The men of the Northumberland by keeping everlastingly at it manage to keep the freight fairly under control, but they, too, are finding the work extremely strenuous and are calling for more help, which apparently is not available.

The car ferry sailed last night with about sixty-five tons of freight. Potato shippers are becoming uneasy owing to the danger of frost and to the fact that so many carloads are going at different parts along the railway. The Railway Department is using every possible means to relieve the congestion.

WHAT QUALITY DID

By strictly adhering to the good old-fashioned quality so much desired in whisky, Messrs Whyte & Mackay, Glasgow, Scotland, lifted the brand of Scotch bearing their name out from the numerous common brands and placed it abolutely in a class by itself, and today it is the most conspicuous brand on the Canadian market.

For your health's sake drink this pure, mel-low Scotch.

NEW SYSTEM OF SURGERY PERFECTED

(By Cable to the Associated Press.)

Paris, Oct. 25.—A system of sterilizing wounds which has been successfully applied at the hospital at Compiegne under the direction of Dr. Alexis Carrel, of New York, Nobel prize winner, has been extended to the American hospital at Neuilly, the American and Belgian hospitals in Belgium and probably will be adopted in all war hospitals of the Entente Allies.

Mr. Hugues Le Roux, editor of the *Matin*, describing a journey to the Compiegne Hospital, quotes Dr. Carrel as saying:—

"Beginning in September, 1915, it would have been possible to suppress completely the suppuration of wounds in the hospitals, but our process thus countered such resistance from the heads of the profession that it was, so to speak, applied nowhere, though the lives of a great number of wounded would have been saved by this means.

The savants would not believe in the possibility of the complete sterilization of deep wounds, but we have succeeded in doing it."

The process as described by Mr. Le Roux consists of complete irrigation of the wound by means of a rubber tube with numerous branches, perforated with many small holes. The sterilizing solution was perfected after experiments with two hundred or more different substances in combinations. The wound is thus rid of all foreign substances and every corner

HOW REGINA TRENCH WAS CAPTURED

(Copyright, 1916, by the Associated Press.)

Mr. Frederick Palmer's Despatch

British Front in France, Saturday, via London, Sunday, 3:10 a. m.—With the return of fighting weather the British resumed the offensive on a larger scale this afternoon and turned on enough gunfire and sent in enough troops to make sure Regina trench was theirs. It was the most important attack for three weeks.

All this month Regina trench has been developing a sinister reputation. It joins on to the old first line fortifications in the neighborhood of Thiepval, and anything in that region, with its comfortable dugouts, the Germans like to retain, in order to prevent the active battle front; from broadening, and for another reason, which a British soldier expressed when he said, "With winter coming on we feel the need of those deep, snug dugouts the Germans spent so much time in building."

Parties of the British got possession of portions of Regina trench on several occasions, but the Germans swarmed in front of their burrows and repulsed the invaders. Evidently Regina trench was not to be taken by nibbling, and required one big bite. In such cases there is nothing to do but wait till clear weather, when the gunners can see what they are doing, and turn on a No. 1 artillery curtain fire.

Yesterday morning a set gunner's smile was on the face of the whole army. Instead of rain and mist, a gunner's ban of low visibility, an almost wintry sun was shining in crystal clear air—literally an artilleryman's heaven. All the gun trunks necessary for the job were up and in position already waiting for such a day as this when the eyes that see for them from the observation posts can tell whether the practice shells they leisurely fire are on the target which they are to paste as far as they can on the signal being given for the concert to begin. When the same kind of weather continued today staff officers who arrange these affairs said:—"This is moving day for the Prussians in Regina trench."

The Regina is a long trench of nearly three miles—about the same length as the battle front at Gettysburg.

Shortly after noon, when there had been the usual amount of shell fire all morning and no sign anywhere on the landscape that anything unusual was going to happen, a No. 1 curtain fire was suddenly turned on, with the

HOW REGINA TRENCH WAS CAPTURED

same effect on the ear as when all the whistles of New York start when the clock strikes twelve on New Year's eve. The usual billowy cloud of shell smoke, vapourously extensive in the cold air, churned and whipped the length of Regina trench with the customary accuracy of these swatches of death and tempest, and then the British infantry were in full possession of the trench, six hundred left alive, were taken prisoners.

The gunners are smiling at the stars tonight, which promise another fair day tomorrow. The cold weather has transformed the army into a winter chrysalis. The battalions are marching up the trenches all wearing their overcoats. The call is for more chocolate and more slices of bacon frizzling in pans in the dugouts. The gunners, who were stripped for their war work in August, now warm their hands on the heated gun barrels. At night, on the field where fires are permitted, the men gather around the blaze of any wood they can gather. Those digging new trenches on the ground won, do not mind how cold it is so long as the ground is not soaked by rain.

PANTRY SALES. The season of pantry sales opened on Saturday when two were held. From now on the housekeeper will be able to buy her Sunday cake, fancy bread and dessert at a pantry sale and also by her purchase assist some worthy cause.

To those who hold the sales a word of advice--everyone is willing to pay a fair price but once overcharged and a patron of pantry sales is lost. It might be well if a scale of prices could be agreed upon by the societies and kept to as far as possible.

Last winter the first sales of this nature made as high as \$90 in one day. Towards the end of the season \$25 only was realized.

It was told that the reason was (in some cases) overcharging, so I pass on the hint to those societies who are intending raising money this year. Saturday's prices, I am sure, were perfectly fair.

Pantry Sale in Aid of Seamen's Mission. "Where would we be without the navy?" This is the feeling which made the Ladies' Auxiliary of the Seamen's Institute arrange a pantry sale on Saturday in aid of the funds of this institution run for the benefit of the men of the sea.

The St. Monica's Guild of Mission church held a pantry sale in the old recruiting room on German street. The rooms were decorated with plants and flags.

Many home-cooked dainties were sold and a good sum of money realized. The ladies in charge were: Mrs. Rowland Frith, Mrs. E. T. Sturdee, Mrs. R. Mackenzie, Misses Jack, Mrs. W. D. Foster, Mrs. E. Blair, Mrs. Alban Sturdee, Mrs. Fred Seely, Mrs. T. Carleton Lee, Miss G. Lee, Mrs. H. B. Schofield and others.

Visit of Miss Kathleen Burke. The visit of Miss Kathleen Burke on Nov. 8 will certainly be a most delightful treat for St. John. Added to her personal charm and outstanding gifts as a lecturer she comes clothed in the story of a war worker among the distressed Serbian people on the staff of the Scottish Women's Hospitals for Foreign Service.

ing matter for her lectures, and added to this she tells of her visit this summer to the citadel of Verdun. Of it she says: The headquarters of the army in the city are situated in the galleries cut in the rock 200 feet below the citadel by Vauban, the great military engineer of Louis XVI. There are barber shops, candy stores, cafes, where the 'poules' supplement their rations. The candy store is a favorite resort. It is perfectly safe down there. I was invited to dine in the big room in the gallery with General Dubois who gave a dinner for 180 officers in celebration of his receiving the grand cordon of the Legion of Honor that day from General Nivelle, who is the commander of Verdun.

Tickets for Miss Burke's lecture, for non-members of the Women's Canadian Club, can be had at the annual meeting of the club tonight--price 50 cents.

VIVIAN MARTIN'S COOKING CHATTER. The Art of Carving. The title of this installment contains many elements of truth because carving is an art and it is one that stands in good stead.

Carving is nothing more than a knowledge of anatomy and young ambitious amateurs in this "knife wielding" can easily become quite adept should they devote about four years of their life to hard study. A surgical course in any medical school might be very beneficial.

TODAY'S LITTLE JOKE. A Kid. In a kindergarten class the teacher recently asked what a "kid" was. Up went a little boy's hand.

"Well," said the teacher, "what is a kid?" "I'm a kid," came the startling answer.

BIRTHDAY GREETINGS. Uncle Dick wishes many happy returns to the following kiddies who will be celebrating their birthdays today: Evelyn Wannamaker, Cumberland Bay; Vera Simpson, 103 Elliot Row.

PETER AND THE SCARECROW. One day sitting on the shoulder of a ragged, old scarecrow, sat the handsomest crow that ever a child did see. His name was Peter Cawkins, and he sat on the scarecrow's broom-stick shoulder watching three little rabbits right below him, nibbling sweet best leaves. They were three of the Cottontot family, Bobbie, Tillie and Tad.

Just for mischief--of which he was chuck-full--Peter Cawkins snatched the old cornucop pipe that was stuck into the scarecrow's straw face, and dropped it down on the little Cottontots. Of course, they jumped almost out of their little skins and were greeted with a loud Haw, Haw, Haw! from Mr. Cawkins.

"Scared you, didn't I, eh?" said he. "We wouldn't have jumped," said Bobbie Cottontot, "if we had known you were sitting there. Mr. Peter Cawkins, because you are always playing tricks."

"An' why shouldn't I be sitting here?" demanded Peter Cawkins. "Isn't it a good, comfortable seat for a crow?"

"It's a scarecrow," said Bobbie Cottontot, "and you're not supposed to be around scarecrows." "No," said Peter Cawkins. "An' why not?" "You're supposed to be scared of scarecrows, of course," said Tad Cottontot. "That's what scarecrows are for."

JOSEPH PARTRIDGE. Mr. Partridge, the travelling sales manager for Greater Vitagraph for America, left St. John for his return trip on Saturday evening. Mr. Partridge was formerly the head of the General Film Company and has many friends in St. John who were glad to welcome him. He promises some fine pictures from the Greater Vitagraph Company.

IMPERIAL. "Thomas Jefferson Morgan." To those who are fond of children and enjoy seeing them happy, it was a truly pleasing sight on Saturday afternoon to witness at least 700 children watching with the most intense gaze a picture of a boy who started in business for himself and made good.

It is hoped that this film will be only the first of a number of pictures for children. Surely adults might willingly sit through what may not interest them deeply in order that the rising generation may have some pictures they can enjoy without those tiresome explanations.

BOYS' CONFERENCE. Guests of Manager Golding at the Imperial Theatre. Between 300 and 400 boys were guests at the Imperial Theatre Saturday afternoon at a special showing of "Thomas Jefferson Morgan." The picture was much enjoyed and the realistic touches thoroughly appreciated by the real boys who formed the audience.

MARGUERITE CLARK. As an Irish Lassie in Famous Players' Production of "Little Lady Eileen." Do you believe in fairies? When Maud Adams asked that question at the end of her marvelous performance in "Peter Pan," every man, woman and child in the theatre invariably joined in the chorus of affirmatives.

Strangely enough, it is only the little Lady Eileen herself who believes in the fairies at the beginning of the story. The others about her are entirely too practical, they would tell you to take any stock in such nonsense. But after we have seen the people of Eiland lead the trusting little Irish lassie so her true lover and kill the impostor who attempted to get possession of her fortune, then

MOTION PICTURE CONTEST

This week all you have to do to win eight free admissions is to name the star (whose picture we will publish daily this week) and one play in which this screen favorite has appeared in St. John. Contest closes November 9th. Letters to be addressed: THE THEATRICAL EDITOR, The Standard, St. John.

Name and one play please, No. 1.

There can be no shadow of a doubt in any of our minds that it is the fairies who reward our faith in them by their good work.

Of course, if one were prosaic and of the earth earthy, one could talk at great length of the miracles which director J. Searle Dawley--the real king of the fairies in this picture--has wrought in introducing his weird little folk and in creating real thrills.

In support of Miss Clark there appear such well-known players as Maggie Halloway, Fisher, Vernon Steele, John L. Shine, Harry Lee and Russell Bassett.

The programme also includes a scenic journey along the north shore of New England and a new Bray animated fun cartoon, "Bobby Bumps and His Dog Detective."

Afternoon performances at 2:15 and 8:45, evening at 7:15 and 8:45. Usual little prices.

advice to all beginners in the pictures is this: Be distinctive. "Some people may think this hair style restricts one to playing vampire or siren roles. Yet, in this new picture, I have the part of a good and virtuous woman. I don't think I am hampered by my hair."

Valeska Suratt's success on the stage and in the movies is beyond question. In vaudeville, she is one of the largest drawing-cards ever booked, and "The Soul of Broadway," her previous William Fox picture, was one of the largest box-office attractions ever sent out by that firm.
