## The Everyday Bargain Store

IF YOU PATRONIZE

### Present and Future Prices

Merchants as well as the buying public are watching with real amazement the steady upward growth of prices. They can see that this growth seems to be a matter of increases in everything except in production—for there is simply not the merchandise to be had to supply the demand for it. Rising prices together with shortage should, we think, interest careful men and women. Supply your wants at this time, for we have no assurance whatever that we will be able to offer such a price for the same quality of merchandise again.

### TO ORGANIZE BRANCH G.W.V.A.

All Local Returned Soldiers are Asked to Meet for Organization Next Wednesday

An endeavour is being made to organize in Hartland and district a branch of the Great War Veterans' Association, and the plan is likely to carry through forthwith. Private S. G. Barter has the matter in hand and yesterday he called at the office to say that he had received word from the secretary of the Provincial Council at St. John, who had informed him that the necessary forms and material for starting the branch would at once be forwarded from the Dominion command at Ottawa. It is expected that by the middle of the coming week everything will be in order and every returned soldier in Hartland and vicinity is urged to attend a meeting at Hartland on next Wednesday evening. Mr. Barter points out that it is very important that as many of the old comrades get together as possible, for that from the very start the branch may be successful.

Concerning the visit of the Prince of Wales to St. John, P.E. Barter submits the following for publication: "Tomorrow the Prince of Wales will be at St. John, and what a history day it will make of Aug. 15, 1919. He will get a great welcome from all the people, but most specially from the returned soldiers, for the Prince was one of the boys on the western front in France and Belgium, as well as having served with the British Expeditionary Forces in Italy. Some people may think that the Prince of Wales was a mere belletrist, but the returned soldiers know that he has seen and taken his share of the danger and peril of the battlefield. It is common knowledge that once on the front in France he had his motor car stopped while he went up as a small hill to make observations and a shell smashed the car and killed the driver just as the Prince had stepped out.

"One of our own boys from this parish, while going with his battery in the early morning, saw the prince up in a hayloft in a shell-shattered barn shying himself by a mirror hung on a rafter. He had bayonet hanging to his back where he had slept in this shelter as a common soldier would and was 'cleaning up' for the day. He was heartily cheered and waved his left hand in acknowledgement while his right hand continued to wield the razor. Again, he was among the Canadian soldiers and went by the name of 'Lionel Windor,' unrecognized by the rank and file. He was having a great time with the boys when his identity leaked out and suddenly everyone was as still as a starched shirt-front. That night at a banquet given in his honor he said: 'Today I enjoyed myself and had a great time with the boys and by chance I was discovered to be the Prince of Wales and after that I had a simple rotten time and had no good time at all.'

"When the Germans were full of the Prince and Gen. Birdwood were seen together well up in front advancing, riding from one division to another. This fellowship and the knowledge of the gallantry and quiet bravery of our Prince has endeared him to all of the returned men, and the boys will welcome him as one of our beloved and trusted comrades of the Great War. God bless the Prince of Wales! We know him so well he is recognized at once, anywhere.

#### Card of Thanks

I wish to express my sincere thanks to the friends at Long Settlement and Good Corner for their untiring efforts to make easy the long illness of my wife, and who at the time of her decease and funeral showed so much sympathy and kindness to me and to the children.

#### New School Teachers

In the Normal School examination for grammar school license

Frank C. Cronkite of Centreville led the list, with Russell N. Brown of Lower Brighton fourth. Carleton Co. students passing for first class are: Dilliah G. Campbell of Stiekney, Edwin N. C. Estey of Florenceville, Norville A. Reid of Centreville.

Those passing for second class are: Alma F. Simms, South Knowlerville, Rowena L. Bell, Lakeville; Victoria A. Spinney, Windsor; Ruth L. Estabrooks, Coldstream.

### THE POTATO CROP

The present outlook for the potato crop is not so favorable as it was in July. The tops are taking on a stunted and yellowish appearance, due, some say, to the quality or the absence of potash in the fertilizer. The yield is not likely to be quite up to the average, although of course the out-turn is still altogether problematical. Some shippers will commence buying next week, but of course digging will not be very general for two or three weeks. No doubt some early-maturing Cobblers will be cleared earlier.

The following from the Fort Fairfield Review will apply for most part to conditions of the crop and to circumstances in Carleton and Victoria counties:

The writer has asked a great many farmers recently what the prospects are now for a crop of potatoes in Aroostook this fall. Of course the answers have varied much. A few have said that the yield will be very light, owing to the fact that there are so many poor pieces. The majority have said that the prospects are fair, some even being good and dead and many pretty poor. One big shipper says that, although a good many pieces are poor, the majority of the fields are good indeed, so that the prospects for a good crop are excellent right now. There are several reasons for the pooriness of some of the pieces, some had not enough fertilizer, some were on poor ground, some were set back a little by the frost, and some had not been handled properly in general, but the greatest cause is the bad quality of the fertilizer often used. The presence of borax with the potash in considerable of the fertilizer this season has apparently had a very bad effect on the seed and plants, sometimes killing the plant entirely but oftener rendering it very backward and weak. It is pretty hard lines for a farmer to pay nearly a hundred dollars a ton for fertilizer to ruin his potato crop with. It ought to be possible to ruin it more cheaply.

Thomas Travis, associate editor of Forest and Stream, the well known New York magazine, arrived in Hartland on Monday and with Prof. Watson was conveyed to the camp of the Miramichi Fishing Club by A. Plummer and was the guest of the club until today, when he returned and went to the Tobique. Later Forest and Stream is likely to contain something of supreme interest to disciples of Jack Watrous who know the Miramichi headwaters.

### BASE BALL LEAGUE CREATES INTEREST

Florenceville in the Lead, Hartland and Centreville Tied, and Bath Still at Zero

Throughout the northern part of Carleton county the progress of the base ball league is the leading topic for conversation and for speculation, on a small scale of course. The second game of the series was played at Centreville on Thursday and Florenceville won in a score of 8 to 3. At Florenceville on Monday evening Florenceville team was again victorious, this time against Bath. At Hartland on Tuesday evening Centreville easily carried off the honors in a score of 9 to 5.

	Won	Lost
Hartland	1	1
Centreville	2	0
Florenceville	0	2
Bath		

Each team plays six games.

Herewith is the line-up of the league games that have been played so far, with the exception of the first game, which was reported last week:

## MRS. CHARLES PEDEN GAINS 27 POUNDS

Was Twice Examined and Each Time Told Operation Would Be Her Only Hope

"I have just finished my third bottle of Tanlac and have gained twenty-seven pounds," was the truly remarkable statement made by Mrs. Chas. Peden, residing at 550 Mill street, Huntsville, Alabama. Mrs. Peden is one of the best known and highly respected women of that thriving little city where she has made her home for a number of years.

"When I commenced taking the medicine," she continued, "I only weighed eighty-eight (88) pounds; now I weigh one hundred and twenty-five pounds and never felt better in my life. For years I have suffered with a bad form of stomach trouble, constipation and pains in my side and back. At times the pains took the form of torture and I was twice examined and each time told that an operation would be my only hope. I had fallen off until I only weighed ninety-eight and was so weak I could hardly get around."

"I had no appetite scarcely at all, and what little I did eat would form gas in my stomach which gave me palpitation of the heart, sick headaches and a dizzy feeling about the head."

When these spells came on I would get awfully nervous. I worried about myself until I could rest and sleep but little.

"I had fallen off until I was almost 'skin and bones' and my strength and energy were slowly leaving me. I had a dread of the future and could see nothing but the operating table and knife. I had a perfect horror of an operation, but had made up my mind that it was either life or death and prepared to submit to it. I had made all the preparations for the operation and called on my sister to tell her goodbye, as I did not know whether I would live to see her again or not. My sister begged and pleaded with me not to allow them to cut on me and told me to wait and try a good tonic for awhile. The next day as I returned from the consultation room I thought of what she said, and as I heard so much about Tanlac I decided to try it as a last resort, and got a bottle. Of course, I had lost heart and had no faith in medicine, but to please my sister I made up my mind to take it, and oh, what a happy day that was for me."

"I never returned for the operation, but just kept taking Tanlac and my improvement has been so rapid that none of my clothes fit me. Right from the start I began to improve. The medicine seemed to take hold right at once. It had a soothing effect and in a few days I had no pain at all. I

was so happy over my wonderful improvement that I sent for my neighbors to tell them how much better I felt. I sent and got another bottle of Tanlac and have just finished my third and feel like I have been made all over again into a new woman."

"As I have said before, I now weigh one hundred and twenty-five pounds and none of my clothes are big enough for me, and I will have to make them over again. I now have a vigorous appetite and my husband says I simply eat him out of house and home. I have even gone back to my office which I was told not to touch. Those horrible pains in my back and head have all disappeared and I sleep like a child. I am no longer nervous, and when I get up in the mornings I feel refreshed, cheerful and bright. I am now able to attend to my housework again and I feel as if I had started life all over. My husband is highly delighted and my recovery is the talk of the neighborhood. I do nothing but rejoice all day long and the recovery of my health and praise Tanlac to everybody."

"I feel as grateful for my escape from the operating table and the knife that you may publish what I have said; you may if you wish, tell other women suffering as I was to come and see me and I will be glad to tell them about my case."

Tanlac is sold in Hartland by

Bater & Curtis Co., in Bristol by Dr. G. W. Somerville, in Centerville by Stevens Bros., and in Woodstock by E. W. Mair.

### Manuel Oldenburg

At The Manor, Florenceville, on Wednesday, August 6, at 2.30 o'clock in the afternoon, Harry K. Manuel and Mrs. Mabel Olive Oldenburg, both of Woodstock, were united in marriage by Rev. M. H. Manuel. The wedding couple left immediately after the ceremony for a short honeymoon among friends in Maine. They will reside in Woodstock.

### Be Ready for Emergencies

The best way is to always keep a bottle of Dr. Chase's Syrup of Linseed and Turpentine in the house, ready for emergencies. Then when cough, or colds come suddenly they can be promptly cured before they have time to reach an acute and dangerous stage. To meet this requirement we have put the syrup up in family size bottles that contain nearly three times as much as the 25 cent bottle and sell at 60 cents.

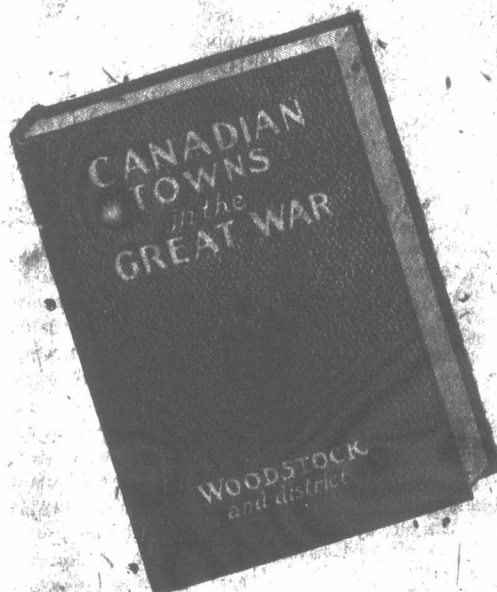

## REWARD!

# Woodstock and District in the Great War

It will contain Photographs of all your soldiers and nursing sisters attractively displayed.

It will contain the full and authentic story of the achievements of your town and vicinity.

## The Work on the War Record is Under Way

Representatives are now at work. They are out visiting the citizens of YOUR DISTRICT in order to obtain every possible assistance to make this Memorial Volume a success. So that this volume will contain the real story of what you and yours have done in this War, your co-operation is needed. The work now under way is to be YOUR story of Your District. It will contain biographies of the boys and noble women who did their bit in helping bring victory to the righteous. It will contain their photographs in groups, attractively displayed.

The home battalions will be treated specially. Lieut. Fred James, who was Official Correspondent to the Ministry, Overseas Forces of Canada, has been secured to write the interesting stories concerning the activities of your boys while overseas. His writings will be human-interest stories of your boys in action. He will tell, graphically, how your boys made the Hun run to cover.

This volume will be unique in many ways. It will

be kept as one of the family records and treasures; it will have your friends grouped together and will prove to be of real historic value.

You are asked to assist with this work; to help make it the complete success it deserves to be. It is for YOU and YOUR DISTRICT that this volume is being gotten out. You can help materially. It is a matter of patriotism on your part to see that not one item of interest is withheld, and that not a single soldier's photograph is missing.

For every photograph loaned for reproduction, the owner will be given a receipt. Ask for a receipt.

Our representative will show you the sample pages of this volume and will explain just what it is and what it means to you.

This is the only work of its kind published in Canada. It is the only one that will be published in your district. It is one that will become more valuable as the years pass. This is to be YOUR record. GIVE IT ALL THE ASSISTANCE POSSIBLE.

## Our Representatives Will Call

As it is our intention to print only a sufficient number of books to fill advance orders, be sure to place your order for this volume when our representative calls.

There will be no extra copies printed—only enough to fill subscription orders—so subscribe NOW. You simply must not miss this opportunity.

Authorized representatives will carry special re-

ceipt forms which will have attached a postal card addressed to us. The subscriber should immediately fill this in and mail to us for his own protection. It is important that the address shown on the post card is identical with that given below. If any other receipt form is offered, you will confer a favor and protect others by immediately informing us.

## Used for Shaving

Many men are troubled, more particularly in cold weather, with a sort of roughness of the skin or eczema caused by shaving. The application of Dr. Chase's Ointment after the shave soon cures the trouble and by using it after each shave you keep the skin soft and prevent irritation and soreness. Because of its antiseptic qualities this ointment prevents and cures Barber's Itch.

## SUMMER HEAT HARD ON BABY

No season of the year is so dangerous to the life of little ones as is the summer. The excessive heat throws the little stomach out of order so quickly that unless prompt aid is at hand the baby may be beyond all human help before the mother realizes he is ill. Summer is the season when diarrhoea, cholera, infantum, dysentery and colic are most prevalent. Any one of these troubles may prove deadly if not promptly treated. During the summer the mothers best friend is Baby's Own Tablets. They regulate the bowels, sweeten the stomach and keep baby healthy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## THE NEW LEADER

At the great convention of Liberals at Ottawa last week Hon. W. L. McKenzie King, minister of labor in Sir Wilfrid Laurier's cabinet, was the unanimous choice as the party leader. He is still a young man, but 45 years of age, and of marked ability.

The new platform of the reunited Liberal party is one that will commend itself to the electorate of Canada and will be particularly pleasing to the great army of agriculturists. The convention bound the party to important tariff reforms, chief of which will be the placing on the free list, so soon as the people return the party to power, of all farm implements and machinery and many other articles necessary to the consuming population. The British preference is to be increased to fifty per cent. Commenting on the outcome of the Ottawa convention the Toronto Globe says:

There is much in the platform adopted that calls for approval. Liberalism does well to protest against the policy of centralization, which would lessen the control of the Canadian people over their defense forces and lead men to look to Westminster rather than to Ottawa as the real seat of Canadian government. The pledges concerning tariff reform and the efforts to be made to reduce the cost of living are much more specific than political conventions usually make. The country will expect that the promises now made shall be implemented if after the next general election a Liberal ministry is formed.

"The future form of government in Canada will probably depend on the promptitude shown in carrying out the pledges of the convention should the country give Liberalism a mandate to do so. If party organization fails to play fair, there will inevitably be a swing away from the two-party system to government by associated groups representing agriculture, labor, old line Conservatism, Liberalism and Socialism. Group government, as France knows to her hurt, is costly, unsatisfactory, and turbulent. A re-united and rejuvenated Liberalism may, by its zeal for the public welfare, do much to save Canada from that peril to democracy."

We unhesitatingly recommend Magic Baking Powder as being the best and purest baking powder possible to produce. It possesses elements of food that have to do the building up of brain and nerve matter and is absolutely free from alum or other injurious substitutes.

## Brown-Anworth

A quiet but pretty wedding took place at the Methodist parsonage, East Florenceville, on July 30, when Ruby Gertrude, daughter of Mr. and Mrs. Herbert Anworth, Centreville, was united in marriage to Edward Stillman Brown, son of Mr. and Mrs. James Brown of Summerfield. The marriage was performed by Rev. F. A. Wightman in the presence of a few intimate friends, after which the happy couple motored to the bride's home where dinner was served. All wish Mr. and Mrs. Brown a happy voyage through life. They will reside in Summerfield, Mr. Brown being a prosperous young farmer.

## Back from the West

James M. McLeod, who went to Alberta last spring after the sudden and tragic death there of his son-in-law, returned on Saturday, glad to be back in the country of sure crops again. Mr. McLeod says crop conditions in Alberta and parts of Saskatchewan are most pitiable. Continued dry weather has so injured the crops that there is little chance of even a quarter of what would be considered a fair average. East of Moosejaw and in Manitoba the crops look better. Mr. McLeod is not at all in love with the west, and would not trade his home interests for anything the west has to offer.

Dorian W. Gray arrived in Hartland yesterday after an absence of more than ten years in British Columbia and Alberta. He was met at Lowell, Mass., by Mrs. Gray, who went from here for that purpose. Mr. Gray sees many changes, mostly for the better, in the old home town.

## AUTO-INTOXICATION OR SELF-POISONING

"FRUIT-A-TIVES" Absolutely Prevents This Dangerous Condition.

The chief cause of poor health is our neglect of the bowels. Waste matter, instead of passing from the lower intestine regularly every day, is allowed to remain there, generating poisons which are absorbed by the blood.

In other words, a person who is habitually constipated, is poisoning himself. We know now that *Auto-intoxication*, due to non-action of the bowels, is directly responsible for serious Kidney and Bladder Troubles; that it upsets the Stomach, causes Indigestion, Loss of Appetite and Sleeplessness; that chronic Rheumatism, Gout, Pain In The Back, are relieved as soon as the bowels become regular; and that Pimples, Rashes, Eczema and other Skin Affections disappear when "Fruit-a-tives" are taken to correct Constipation.

"Fruit-a-tives" will protect you against Auto-intoxication because this wonderful fruit medicine acts directly on all the eliminating organs. 50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

## LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers!

Don't suffer! A tiny bottle of Zam-Buk costs but a few cents at any drug store. Apply a few drops on the corn, callus and "hard skin" on bottom of feet, then lift them off. When Zam-Buk is removed from the toes or calluses from the bottom of feet, the skin beneath is left pink and healthy and never sore, tender or irritated.

### Romance Leads to Marriage

At the Church of the Sacred at Red Rapids on Aug. 6 the marriage of Miss Sylvia Pauline Cronkite, second daughter of Mr. and Mrs. Cronkite of Arthurville to Graham Langlais, of Amqui, Quebec, took place at 9 o'clock this morning. The groom is a returned soldier, having enlisted at the beginning of the war, going overseas with the first contingent from Valcartier. He was taken prisoner by the Germans during the battle of St. Julien, and after several attempts succeeded in making his escape. A Christmas box received from the bride soon before his escape from Germany was the beginning of a romance which culminated in the wedding.

The ceremony was performed with nuptial mass by Rev. F. C. Ryan. The bride was given in marriage by her father and wore a beautiful gown of white georgette with veil and orange blossoms. She carried a shower bouquet of gladioli and sweet peas. Miss Mary J. Cronkite, sister of the bride, as bridesmaid, was attired in a dainty gown of pink embroidered georgette with a pink ostrich plume and carried a directoire staff with pink sweet peas. Little Misses Mary and Madeline McLaughlan as flower girls, looked very sweet in white embroidered dresses and carried baskets of sweet peas. The groom was supported by Cyrille Dionne of Edmundston. Appropriate hymns were beautifully rendered during the service by Mrs. Philip Dionne and Mrs. A. M. Chamberlain.

After the ceremony about 250 guests repaired to the home of the bride where the wedding breakfast was served by the girl friends of the bride. Immediately following the reception the wedding party motored to Perth where Mr. and Mrs. Daigla took the train for Metis Beach where they will spend a short honeymoon before going to Amqui, where they will make their home. The bride's travelling suit was of navy blue serge with blue silk hat to match.

## COPENHAGEN CHEWING TOBACCO

Copenhagen is used differently from ordinary chewing tobacco. Take a small pinch, for a start, and put it between the lower lip and gum, in the center. Afterwards you can increase the size of the pinch to suit the strength of the chew you desire. Copenhagen is strong, because the tobacco of which it is made is cut into fine grains, which makes it impart its strength thoroughly and quickly. Hence, a little "pinch" goes a long way, showing that Copenhagen is not only an unusually economical chew, but also one of the finest quality, being made of the best, old, rich, high-flavored tobacco.

## Irritations of the Skin

Are Soothed and Healed by the Use of Dr. Chase's Ointment—Two Interesting Cases Reported

The old method of treating eczema by means of internal medicines is too slow and uncertain of result. The new method is by the use of Dr. Chase's Ointment. You apply the ointment and obtain almost immediate relief from the itching, stinging sensations. In a few days the sore spots are cleansed and the healing process is set up.

As you apply the ointment from day to day you can see for yourself the splendid results obtained, and this will encourage you to keep on with this treatment until the skin is healthy.

Mrs. Richard Lenson, Winchester, Ont., writes: "I can heartily recommend Dr. Chase's Ointment. It cured me of a very severe case of eczema. After using several remedies without relief, I was about discouraged, thinking I could never endure the intense burning, but last evening when I felt I could not endure the pain another day or hour longer, I thought of Dr. Chase's Ointment which I had seen advertised, and decided to give it a trial. To my great surprise, after using it a few times, I obtained relief, and in a few days my affliction began to completely disappear. My husband and I often speak of the quick and certain cure I obtained in such a short time. That was ten years ago, and we have kept it in our home ever since and it has been a great healer for many other complaints. I never fail to recommend Dr. Chase's Ointment to my friends and neighbors."

"I might state that we have also used Dr. Chase's Nerve Food in our household, and I can recommend it as doing all that you claim for it."

In Dr. Chase's Ointment is of use in every home. Applied after shaving it keeps the skin soft and smooth. Use for baby after the bath, it cures chafing and skin irritation. It is so soothing and healing that it acts as a healer of the skin, keeping it soft, smooth and velvety. Sixty cents a box, all dealers, or Edmundson, Bates & Co., Limited, Toronto.

### Facts About Alcohol.

Is Closely Related to

Starch and Sugar

THIS paper is going to be mighty careful not to teach folks how to make alcoholic drinks for themselves. It does not sympathize with old John Barleycorn, and will offer him no help. But a few interesting things may nevertheless be said on a subject which just now engages much popular attention.

Alcohol is made from two things, starch and sugar, which are much the same thing chemically. In fact, the sweetness that arrives in a fruit when it ripens is due to the conversion of its starch into sugar. The sugar of the sugar-maple tree, of the sugar cane, and of the sugar beet was originally starch.

Take starch or sugar in any form, add a lot of water, with some ordinary yeast, and fermentation follows. The yeast is composed of minute living plants, which, feeding upon the material, convert it into alcohol and carbonic acid gas. The latter bubbles up and passes off into the air.

When the bubbling has ceased, the process has come to an end, and you have a fluid containing a certain percentage of alcohol. Resort may then be had to distillation for the purpose of separating the alcohol from the fluid. Distillation does not make alcohol; it is the fermentation that does that—as for instance, when whisky is made from corn or other cereal grain.

What can be made from any kind of starchy material—potatoes, for example. In the stilling process the stuff (previously fermented) is subjected to heat and the resulting vapor (carrying with it the highly volatile alcohol) is condensed by exposure to cold. The product is alcohol mixed with more or less water.

You cannot make pure alcohol in this way. The product of the still contains not only water but also other chemical ingredients, which are removed by refining methods in the industrial laboratory. You have then the "grain alcohol" that you buy from the apothecary or are to be able to buy—which is about 96 per cent. pure. That is to say, it is 96 per cent. alcohol and 10 per cent. water.

The prohibition law, by the way, is likely to interfere very seriously with the sale of colognes, which are perfumed alcohol. In the manufacture of these agreeable preparations the first step is to place fresh flowers in contact with refined fats, which, having a special affinity for perfumes, absorb the "odor" of the blossoms. What the fat is steeped in alcohol, which, possessing an even greater affinity for such odors, takes them up. The result is what we call a cologne.

People have been known to drink cologne in preference to any other alcoholic refreshment. It is a highly ethereal beverage—a bit decadent, one might say, but stimulating enough to be satisfying. Before long, it is likely, cologne will be replaced by the bolder, dry (and appropriate) word) perfumed powders.

In fruit juices the fermentable matter is, of course, sugar. When water and yeast are added, fermentation starts, and alcohol is evolved. The "wines" put up by the old-fashioned housewife were the result of this simple process.

## THERE IS ONLY ONE GENUINE ASPIRIN

Only Tablets with "Bayer Cross" are Aspirin—No others!

If you don't see the "Bayer Cross" on the tablets, refuse them—they are not Aspirin at all. Your druggist should give you the genuine "Bayer Tablets of Aspirin" because genuine Aspirin now is made by Canadians and owned by a Canadian Company.

There is not a cent's worth of German interest in Aspirin, all rights being purchased from the U. S. Government. During the war, all rights being purchased from the U. S. Government, Aspirin is the trade mark (registered in Canada) of Bayer Manufacturing of Monocetate of Salicylic Acid.

The Observer will be sent to Canadian subscribers a full year for \$1 paid in advance.

A process has recently been developed for making "grain alcohol" out of feedstuffs. It is not what is commonly known as "wood alcohol," which is a poison, but stuff chemically indistinguishable from grain distillate. There seems, indeed, to be no reason why it should be a valuable nature out of which alcohol cannot be made.

Fritz Wilhelm, Horse Doctor.

Compilers of year books and reference books have been lately tried by the kaleidoscopic changes of the past twelve months, says the Living Age. The editors of the "Almanach de Gotha" for 1914, however, must be given a place apart among the victims of unstable circumstances. Their difficulties are but mildly expressed in their apologetic statement that "The dismemberment of Austria and the transformation of 22 German states into as many republics interrupted our labors as we were going to press."

Now the feat of these difficulties has been the choice of designations for the fallen potentates, which should not offend foreign susceptibilities. This is the French edition. "Olivant" has been found a misleading phrase, and Gallic prejudices are further considered in the case of the all-highest and his first-becomes, by laying stress on their subsidiary qualifications.

The ex-Kaiser is referred to as doctor of law, medicine, and sciences, and only in conclusion as grand admiral and field-marshal, while the ex-Crown Prince is given a claim to distinction as a veterinary surgeon. After all, things might have been worse. Frederick William Victor August Ernest of Prussia might, for instance, have been awarded a diploma for household remedy.

## Local News and Personal Items

Henry Emery of Centerville was in town on Tuesday.

A second-hand Frost & Wood reaper is offered for sale by James Plummer, Hartland.

Miss Jennie Boyer of Fort Fairfield was here during the week called hither by the illness of her mother, Mrs. G. E. Boyer.

S. W. Smith wants to buy pulpwood, either for immediate delivery or for future shipment and will contract for next year's delivery. If interested call him up.

Smith Bros. of Windsor, who for several seasons ran a saw mill at Goldstream are moving their plant to Teddie siding at Lower Brighton and will be ready for operation early in the winter. They may also build a mill on the Valley railway between Lakeville and Bellville.

Misses Grace Tompkins and Willa Hunter of Florenceville were in Hartland on Monday.

Call at B. B. Dykeman's for a prize list of the St. John Valley Exhibition, Sept. 9 to 12, 1919.

On account of sending their Buckwheat rolls away for recorrection, Beljea & Estabrooks announce that the buckwheat run in their mill will be down until further notice.

On Friday evening an auto party consisting of Hartland people came to grief at Clark's hill, below Victoria Corner, when in turning out for a team, the car came violently in collision with a telephone pole. Two of the occupants were rendered unconscious, but their injuries were not at all dangerous. The auto was badly damaged.

Mr. Edward A. Caldwell thanked the friends for expressions of kind feelings towards himself and his brother and Thomas W. Caldwell in a few fitting words expressed his gratitude and the family's appreciation for the honor thus bestowed upon them.

At the close of the program refreshments were served.

## DELICATE YOUNG GIRLS

### Need New Red Blood to Give Them Health and Strength

Does your daughter inherit a delicate organization from you? The anemia of young girls may be inherited, or it may be caused by bad air, unsuitable food, hasty and irregular eating, insufficient out-of-door exercise and not enough rest and sleep.

It comes on gradually, beginning with languor, indisposition to mental or bodily exertion, irritability and a feeling of fatigue. Later comes palpitation of the heart, headache, dizziness, frequent headaches and breathlessness. In a majority of cases constipation is present. There may be no great loss of flesh, but usually the complexion takes on a greenish-yellow pallor.

Cases of this kind, if neglected, become serious, but if taken in time there is no need to worry. The treatment is quite easy and simple.

Dr. Williams' Pink Pills, which are free from any harmful or habit-forming drug, are just the tonic needed to remedy this wretched state of health. Though it is not noticeable, improvement actually begins with the first dose. As the blood is made rich and red, the color leaves the face, strength and activity gradually return and if the treatment is continued until the last symptom disappears the danger of a relapse is very slight.

If any symptom of anemia appears, prudence suggests that Dr. Williams' Pink Pills should be given at once, and the sooner they are taken the more speedily will the trouble be overcome. You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brookville, Ont.

## Garage for Sale

F. Hagerman & Son offer for sale their garage business, including, stock-in-trade, good will, etc. The building is 35x70. The top floor is used as a public hall and moving picture house, known as The Star Theatre. The centre floor can accommodate 20 cars for storage, or can be used for battery work and tire repairing. The ground floor, which is of cement, is used as a garage, and is no doubt the best available business location in New Brunswick.

We fitted up for the Battery Business with everything except the lead burning outfit. For charging batteries we have a 900 watt generator and can easily care for 200 to 400 batteries this coming winter.

Our Garage Car is a Gray-Dort Special and has covered 3000 miles. It has been recently cleaned and fitted with new tires all round.

We are located on the corner of Main and Court streets, in the new and prosperous Town of Hartland which is located in the centre of Carleton county which is undoubtedly one of the finest agricultural districts in the maritime provinces.

In the meantime we are here to do business until we sell out. Best reasons given for selling.

## LOCAL AND PERSONAL ITEMS

The reception tendered to the returned men given in the opera house on Friday evening by the ladies of the community was one of the most successful functions ever pulled off here. A great deal of praise is due the several committees for the efficient manner in which they all performed their several duties. The room was most beautifully decorated with vines artistically festooned around the balcony, while a profusion of autumnal flowers and ferns gave a pleasant variety of color. Small flags were just enough in evidence to give the impression to the guests of the purpose of the function, while the lights were seductively toned down by a trimming of crepe paper of a suitable hue. The returned men had received a written invitation and were all present with wives and sweethearts. The opera house was filled to capacity. After a pleasant social hour the assembly was called to order by Rev. J. Rees-Jones and the following program was well rendered:

Chorus by a party of Centreville's best.

Pantomime by the Upside Down Girls.

Solo by Phyllis Clarke.

Chorus by Ten Young Ladies.

Solo by Mrs. George Lunn.

Playlet, "How the Story Grew," by Madames Addie Brown, Glenn Snow, Amy Doolittle, Evelyn White, Effie Green, Kathleen Rice, Mary Bean and Pertie Taylor.

Following the program a score of young ladies began the grand march of the sets in which all heartily participated. At the close all joined hands and lustily sang "Auld Lang Sang" and left for home feeling they had had a most happy evening. A precedent was established at this affair that might well be emulated at others, the premeditated absence of a lot of cheap after-dinner talk.

J. C. Stevens and E. A. Hoyt spent Sunday in Woodstock.

A large gathering of relatives met with Mrs. W. R. Harold in a family picnic on Tuesday afternoon on the occasion of her birthday.

Another large birthday party was held on Saturday afternoon. This time E. A. Hoyt was the culprit. Birthdays are serious things for the digestive powers of your guests.

G. Collins and C. F. West of Presque Isle and families spent Sunday at E. L. West's.

The first league game in which Centreville was a participant was played on the local diamond on Friday evening with Florenceville as an opponent. A good crowd of excited rooters greeted the teams through the play, and though neither team showed big league calibre, the game furnished some good excitement for the spectators. Each of the four combinations have a fine lot of boys composing them but at times show serious lack of adequate practice. The boys must get the idea in their domes that good team work counts for a great deal more than any occasional brilliant little individual play. These grand stand stunts are all O.K., and make bright spots in a game at times but will never serve to win against conscientious and determined inside team work. The game on Friday evening went to Florenceville with a score of 8 to 3. We hope to reverse the score at the return game in Florenceville on Aug. 19 and make it fifty-fifty.

Ardie Humble of Stanley is visiting Allen Niles.

Mrs. LeRoy T. Lee and Miss Dora Lee have returned from a visit to Fredericton.

Mrs. Frank Giberson of Bath is visiting Mr. and Mrs. J. A. Gillard at their home here.

Miss Pauline Balloch is the guest of friends at Skiff Lake.

Capt. J. D. Winslow of Woodstock was the guest of Mr. and Mrs. A. C. Gibson on Tuesday.

Miss McElroy of St. John is visiting her friend Miss Dorothy Clark.

Miss Sansom of Stanley has been engaged as book-keeper for the United Farmer's Co-operative Co., and has taken up her work here.

Dr. Brown, W. M. Bruce, E. L. West and L. A. White attended the races at Fort Fairfield on Wednesday.

T. O. Cain and Geo. Wilkinson spent the week-end at Miramichi fishing.

Miss Marion White, R.N., left for Presque Isle on Saturday.

Mrs. Allan Baker and daughter of Woodstock are visiting Mr. and Mrs. G. G. London.

Mr. and Mrs. Geo. Burpee of Avondale spent Sunday with their daughter, Miss Laura Burpee.

Don Scholey of Mars Hill spent the week-end with his parents here.

Mr. and Mrs. Walter Cogswell of East Centreville are being congratulated over the arrival of a daughter on Thursday.
