POTATO WAREHOUSE BEING ENLARGED

T. W. Caldwell, M. P., Argues Matter Before Government and West St. John Facilities are Being Extended

During recent weeks T. W. Caldwell, M. P., has been waiting upon the Dominion Government urging an enlargement of the frost proof potato warehouse at West St. John. His efforts have been crowned by success for it is announced that the extensions will be made and completed by January 1. The frost proof potato warehouse will be by far the finest building on the docks at West St. John. In size it will be 60x300 feet with a separate building to house the steam heating plant, which is used in extremely cold weather to keep the warehouse at the right temperature. During the time Mr. Caldwell was urging the claims of the potato growers for further accommodations at St. John delegations of the citizens of St. John along with their Board of Trade and city commissioners waited on the Minister of Public Works and urged him to build more grain conveyors at West St. John, but the minister decided that the grain conveyors would have to wait until another year and that the addition to the potato house will be the only new work undertaken this fall.

BUSINESS BRISK AT BATH

On another page of this issue, will be found the large advertisement of Bohan & Co., of Bath. This is a good advertisement, and is an example of skillful merchandising. Such values as the Bath firm are giving will be read with interest in the nearby 5,000 Carleton county homes to which the Observer will carry the announcement. It is a certain fact that many who read this alluring advertisement will drive many miles to take advantage of the bargains offered and Bohan & Co. will see to it that every customer is fully satisfied.

At the same time there is another sale going on at Bath—at the store of Mr. Cohn. Mr. Cohn's advertisement will be found on the Centreville page.

DESCRIBES VISIT TO ENGLAND

What promises to be a very interesting evening is the meeting which will be held on Friday night at 8 o'clock in the Methodist church. This meeting is under the auspices of the Women's Missionary society of the church. It being their anniversary meeting. Besides a program of music, readings, etc., the pastor, Rev. J. K. King, will give a description of events and scenes in his recent trip to the old country, as Mr. King visited five different countries his talk will be interesting and instructive. This meeting is open to the public and everyone is cordially invited to come. A collection will be taken in aid of the missionary fund.

AT HARTLAND UNITED BAPTIST CHURCH

Next Sunday morning Rev. G. F. Bolster will give the third sermon in the series on "God's Message to the Church" and will base his discourse on John's letter to the Church at Pergamum, Rev. 2:12-17. It is desirable that this brief letter should be carefully examined before hearing the sermon.

In the evening the pastor will again preach, the subject of the sermon to be "Running Away from God." Special music will be provided by the choir for both of these services.

A story of conflicting purposes and men who do not balk at murder to secure their prey, is "Bucking the Barrier," the latest William Fox photoplay starring Dustin Farnum. It comes to Neighborhood Theatre this Thursday.

AROOSTOOK AND N. B. COMPARED

As will be noted from the item published elsewhere, New Brunswick farmers were getting about a week ago \$1.50 a barrel for their potatoes. At the same time potatoes in Presque Isle were quoted at \$2.00 per barrel, a difference of fifty cents a barrel in favor of Aroostook as compared with New Brunswick.

The New Brunswick farmers appear to be satisfied with the returns they are getting at \$1.50 a barrel, as they have raised a big crop, probably averaging about the same as the crop on this side of the line. In addition to this their taxes are much lighter than the Aroostook farmers'; their fertilizer has cost them, through the agency of the United Farmers Assn., an average of about \$33.00 to \$35.00 a ton for the best grades, as against \$50.00 or thereabouts here, and the interest on their investment is small compared with the investment the Aroostook farmers have made.

This all tends to make their \$1.50 per barrel equal or pretty nearly equal to the \$2.00 per barrel on this side of the boundary. But the great advantage they have is that while they are in debt, they are in comparatively shallow water in that respect as compared with Aroostook farmers. Here, partly owing to extravagance, and partly owing to the big scale on which they have gone into potato raising, many farmers are literally submerged and will be a much longer time reaching dry land and getting on firm footing than the New Brunswick farmers.

Without doubt, it would conduce to the prosperity of Aroostook if there was a curtailment of the potato plant here nearer to the New Brunswick pattern and if our farmers would go more into mixed husbandry, and try to get out of their present bondage to the fertilizer companies.—Presque Isle Star-Herald.

THE POTATO CROP

The location of this year's potato crop is favorable to Maine. It is a potato-market tradition that anything over a 400-million bushel crop is a surplus and will force down the price, for no one who studies the potato market can deny that supply and demand determine price. The latest official figures place the total United States crop at 401,424,000 bushels. Maine is credited with a total crop of over 31 million bushels as against 21,600,000 bushels last year. This gain of ten million bushels offsets a 5,000,000 bushel decrease in New York State; 6,000,000 in Pennsylvania; 10,000,000 in New Jersey; 5,000,000 in Michigan and 14,000,000 in Wisconsin. Maine is a direct competitor with the potato districts of these states. We feel confident, therefore, that larger Maine shipments can go to market all season without forcing price declines equal to those of former years. We can also congratulate ourselves because a businesslike co-operative marketing association is handling a large portion of Maine's potato crop which means that the growers will get the benefit of whatever advantages the market offers.—Maine Farmer.

HYDRO LINE IS PROGRESSING

Officers of Carleton Electric Co., Ltd.—
Current Expected Early in December

One day last week the formal organization meeting of Carleton Electric Co., Ltd., was held at Woodstock when Charles F. Gallagher of Bath was elected president, H. H. Hatfield of Hartland, vice-president, and E. R. Teed of Woodstock, secretary-treasurer. These, with Hon. F. B. Carvell and W. F. Anderson of Lakeville, comprise the executive.

Work on the hydro line is going on at a highly satisfactory rate and experts who have viewed the construction say it is one of the finest transmission lines that they have ever seen. All the equipment is the most modern obtainable. The work of stringing wires is going on rapidly—at the rate of about two miles a day.

The Hartland transformation station is about complete. It is situated just south of the western approach to the bridge on a lot of land purchased by the company from G. B. Nixon. The transformers are highly complicated pieces of mechanism, are self-contained and situated outside the building which has been built to house the switchboards. The lot is double-fenced with chicken-wire and barbed wire to keep out intruders whose curiosity might lead them to a sudden exit from this sphere.

It is expected that the current will be turned on in a few weeks. It is a matter of interest that the transmission line is being completed for twelve or fifteen thousand dollars less than the government estimated the cost would be.

Dr. Charles Pransley McKay, chiropractor, of Fredericton, his wife and two children arrived in Andover last week and have taken up their residence in the house owned by N. J. Wooten, where he will begin practice.

The Presbyterian sale and supper held in the Masonic Hall on the evening of Nov. 7, was a great success. Although the evening was very rainy a large number came and voted the supper the "best of the season." Over \$12 was realized which will be largely used in the repair of the church. The "Presbyterian Chicken Suppers" are getting to be an established yearly event and all who want a "good one" look forward to it.

Did you keep a piece of your wedding cake as a souvenir?

Some of Moir's Cakes, saved for this purpose, is as fine flavored as the day baked, though of course drier. That's one reason, perhaps, Moir's got orders for wedding cake clear across Canada.

What Will You Put in the Pot?

When you drink tea every cup should be a delicious refreshment—a distinct pleasure. But this demands good tea in the pot. You cannot possibly get satisfactory results from inferior tea.

Now consider the small cost of a cup of King Cole Tea—a mere fraction of a cent. Surprising isn't it? But its secret is in the rich liquoring King Cole blend which yields so generously in the number of cups to the pound. It makes King Cole the truly cheap tea. From whichever point you view it—economy—quality—or the wise combination of both, King Cole Tea claims your preference.

BOOST

Boost your city, boost your friend;
Boost the church that you attend;
Boost the street on which you're dwelling.

Boost the goods that you are selling;
Boost the people round about you—
They can get along without you,
But success will quicker find them.

If they know that you're behind them;
Boost for every forward movement;
Boost for every new improvement;
Boost the man for whom you labor;
Boost the stranger and the neighbor.

Cease to be a chronic knocker;
Cease to be a progress blocker;
If you'd make your town some better,
Boost it to the final letter.

LOCAL AND PERSONAL ITEMS

Two good stories were shown in pictures last week. On Wednesday night the manager presented Laurette Taylor and Mahlon Hamilton in "Peg O' My Heart," a pretty picture with equal portions of laughter and tears. Many of the beautiful scenes were pastoral and taken back on the old sod. Saturday evening the highly advertised "Rich Men's Wives" was shown with pretty Claire Windsor, House Peters and Gaston Glass in the main roles.

A good sermon was preached during the process of the picture, and the evil that can arise from a mere misunderstanding was plainly brought out. A comedy was added to each night's bill. Read the advertising for this week's pictures.

Even unused attics invite fires.

Up in the attic, on an old trunk, is a veteran of many fishing trips—a box of trout flies. It contains coils of oiled lines, and rests closely to the chimney. The oiled lines get hot, they smoulder a little and then burst into flame.

Fire comes without warning but it is always a warning to the uninsured.

Sewing Circle Gossip

There was some discussion at the Circle this week about buying coffee in bulk. It was found that the majority of our members had abandoned this practice and were now ordering LUXOR ORIENTAL COFFEE in one pound air-tight tins. These tins preserve the original strength and flavor of the coffee, so that it has the same delicious flavor and aroma a though it had just come fresh from the roaster.

Not only should the stables and mangers be kept clean, but it pays to go over the animals with the comb and brush. This not only improves the appearance, but the animal thrives better.

Finally I ventured on a box of Dr. Chase's Ointment and kept on using it. At last we were rewarded by the steady healing of the sores, and finally he was completely relieved of them. He is now three years old, and has had no return of the trouble since."

EDMUNDSTON'S NEW SCHOOL

We give today what we believe is the first picture in a newspaper of Edmundston's new composite High School. This school, the picture of which is above, was formally opened in August of this year in the presence of a large number of distinguished guests including the Premier of the Province and other cabinet ministers.

It was built by our fellow townsman, the Hon. L. A. Dugal, and finished sufficiently to house the scholars the latter part of last season, but was not completely finished until shortly before the formal opening this summer. It cost to build, \$158,000, and the furnishings cost \$20,000. The monthly pay roll of the school amounts to \$2,375. The school faculty is as follows: Principal, Calixte Savoie; in charge of Vocational Training, Professor Martin Theriault; and the following teachers: Miss Annie E. Young, Miss Regina Martin, Miss Martine Hall, Miss Anna McLaughlin, Miss Catherine Hayes, Miss Greta Hayes, Miss Eva Levesque, Miss Therese B. Ruest, Miss Lilian St. Pierre, Miss Anna Daigle, Miss Euphemie Soucy, Miss Edna LeBlanc, Miss Petty Parker, Miss Yvonne Daigle, Miss Melani Daigle, Miss Della Theriault, Miss Anita Albert and five sisters of the Grey Nuns Convent, viz., Sisters Thomas, Ernest, Alexandrine, Floride and Marthe.

We believe that we have one of the best teaching staffs in the Province, as we undoubtedly have the best school building. And it will be remembered that one pupil this spring, Ben Fournier, led the whole Province in the provincial school examinations, capturing the Governor's medal by so doing.

The building is insured with the famous Hartford Fire Insurance Co. for \$85,000 and for \$50,000 in the Essex and Suffolk, this being placed through their local agent, J. B. Michaud, J. P. Two janitors are required to keep the building clean, their wages amounting to \$120 per month. It takes 150 tons of soft coal to heat the building through the winter. The Board of Trustees are J. B. Michaud, Chairman, Leon Belanger, Secretary, and T. M. Richards, Jr. There are 966 scholars attending the school. Edmundston is proud of its school, proud of its teachers, and proud of its children.

Here and There

The world's record for grain trains was shattered by the Canadian Pacific Railway on October 5th, with a monster train of 125 car loads of wheat, over a mile long, which operated between Stoughton and Arcola. The contents of the cars, 185,000 bushels, weighed 5,566 tons.

JOSEPH ANDERSON

On Oct. 23, there passed away at Deerville, one of the oldest pioneers of Williamstown in the person of Joseph Anderson, at the age of 82 years and five months. Mr. Anderson was an honest, quiet man held in high respect by all who knew him. He had been ill for about six weeks and left one brother, John Anderson, with whom he lived.

Joseph Anderson never married. During his illness he was ministered to by the family of his brother John. The Anderson family was one of the first families to settle in Williamstown (now known as Deerville), and there were eleven children born, and now only John survives.

The funeral was at the Baptist church, Lakeville; interment at the cemetery there; service by Rev. Lee Good.

SAVED FROM PNEUMONIA BY VICKS

Nova Scotia Lady Secures Relief Overnight

Mrs. Charles Dornier, of 2 Ect. Queen Street, Amherst, Nova Scotia, writes, "I have had pneumonia for the last two winters and was on the verge of having it again when I thought I would try Vicks VapoRub. Before retiring for the night I rubbed it thoroughly on my chest and back and went to sleep, although I hadn't slept for three nights. In the morning I got up feeling like a new woman."

Dr. Osler says pneumonia has taken the place of tuberculosis as "Captain of the Men of Death," to use a phrase coined by old John Bunyan. And influenza is not far behind. The germs of both of these diseases are constantly with us. The only reliable protection against them is the resisting power which comes from good health. To avoid these dangerous diseases in winter, don't let yourself get run down and above all never neglect a cold. Break it up in its early stages with Vicks VapoRub, the external vaporizing treatment for colds. At all drug stores, 50c a jar. For a free test size package, write Vicks Chemical Co., 344 St. Paul St., W. Montreal, P. Q.

Though Vicks is new in Canada it has a remarkable sale in the States. Over 17 million jars used yearly.

Miss Rosamond Archibald, teacher of English at Acadia University, will give a demonstration on the Methods of Teaching Better English in Smith's Hall at East Florenceville on the evening of Thursday, Nov. 15. Admission 10 cents. There will be an interesting program in addition.

A scion of rare English stock, but a villain to the heart, was Luke Candlish, the brother of the one girl Kit Carew loved. Kit Carew was from the Far North, where men fight for what they get, and Kit own his bride. Such is the theme of "Buckling the Barrier," the Dustin Farnum picture coming to the Neighborhood Theatre soon.

His hand was as steady as his eye and his eye as clear as his heart. And he sacrificed his life for the love of the one woman in the world whose light shone to him in a love that never waned. Such is Kit Carew of George Goodchild's story, "Buckling the Barrier," which stars Dustin Farnum, the Fox star, at the Neighborhood Theatre, Thursday.

Several toasts were given and Mr. McCollom in responding to one drunk to him gave a short history of the class, giving a financial statement, etc., and also expressed the great pleasure which was his in being the teacher. After the dinner a very pleasant evening was spent with games and music.

CHRISTMAS A FEW WEEKS OFF

The Harvey Studio certainly strike a popular note when they state that there is nothing better than photographs as Xmas gifts. One never regrets the expenditure of a good photograph. They are pleasing beyond question. Now is the time to have them taken.

Order Printing Now

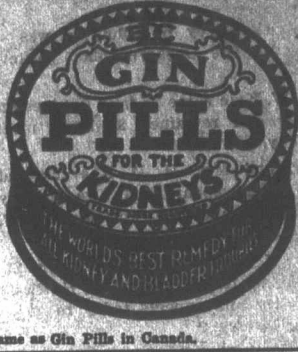

Now is the time for produce dealers and other business men to look over their stock of office supplies and place their orders for printing before the big rush that usually sets in around the first of September. We can handle any orders sent in now very expeditiously, but if orders are deferred they may come at a time when we have weeks of work ahead. Letterheads, invoices, envelopes, all the various needed blank forms may as well be ordered now and be ready the instant they are required. We can at any time deliver blank typewriter paper, second sheets, from stock in hand, and we supply any form of special loose leaf or other blanks as quickly and as cheaply as they can be secured elsewhere. The facilities of The Observer Newspaper printing plant are not excelled in the province, being quite equal to the best equipped city offices. The most expert craftsmen we can secure are employed and the enterprise needs your patronage and we will lend our best effort to satisfy every customer in quality, service and price. Orders sent by mail will be filled promptly and at just as low a price as if we gave competitive figures. And if you must have an order filled in a great rush we will never take advantage of your necessity. The regular customer, the "stayer," gets our best prices. We try to fill every order so that we may hope for the next one with reasonable assurance. The Observer Newspaper Ltd., Hartland, N. B.

Why you have Rheumatism

RHEUMATISM is largely due to weakened and deranged kidneys. When the kidneys fail to properly fulfil their duty of carrying away the poisonous impurities in the blood stream, uric acid accumulates and rheumatism, lambo, sciatica and other serious ailments follow.

If you suffer from headache, pain in the back, dizzy spells, or uric acid floating before the eyes, painful, suppressed or scalding urination let GIN PILLS set your kidneys right, and restore you to the glory of good health. A few doses will bring relief. A few boxes will make you entirely well.

DR. CHASE'S OINTMENT

50 cents a box, all dealers or Edmanston, Bates & Co., Ltd., Toronto.

"When my little son was three months old he broke out in sores on his chest and arms. We did all we could to heal those terrible sores, but nothing did him much good. Finally I ventured on a box of Dr. Chase's Ointment and kept on using it. At last we were rewarded by the steady healing of the sores, and finally he was completely relieved of them. He is now three years old, and has had no return of the trouble since."

JEWETT SIX PAIGE BUILT

Try to Pass It On a Hill
Then You Will KNOW Jewett Six
Has More Power

LOTS of "boulevard beauties" are "duds" when asked to climb! That's where real ability shows. And that's where the new Jewett Six is daily outshining "light" sixes—and cars costing far more than Jewett.

The new Jewett Six outclasses all cars in size. It has a full 50 h.p. six-cylinder motor—Paige built. Cylinders are 3 1/4 x 5 inches—which means 249 cubic inches of piston displacement. Check those figures against any "light" six. Form your own opinion of performance possibilities of lower-powered cars.

Having such power, Jewett Six need not be skimped in an effort to attain performance. Nor is it. 6-inch-deep frame, husky Paige-Timken axles, front and rear all-steel universal joints, springs 80% of wheelbase. The new Jewett weighs 2805 pounds—from 200 to 400 pounds more than "light" six cars of the same size.

And with all this power, strength and weight—Jewett drives from 2 to 60 miles an hour in high passes most any car on any hill accelerates from 5 to 25 miles an hour in 7 seconds in high. [Try that with any other car!]

Yet Jewett Six costs only \$1645 f.o.b. Windsor, tax paid. Oldtime motorists are amazed at its performance, stamina and astounding value. Drive it yourself. Call us up. Have a ride, any time. You'll agree that Jewett outperforms most any other car you've ever driven—particularly when compared with "light" sixes of less power, less weight, less strength and durability! (65)

Chilblains Frost-Bite

As a remedy for those most troublesome of winter ailments, chilblains and "frost-bites," Zam-Buk is specially effective. It takes out inflammation and reduces swelling in a wonderful way and soothes the fiery stinging irritation.

Where the chilblains are broken and have a raw ulcerated surface, Zam-Buk is doubly valuable because of its great healing power. Its pain-killing efficiency and its fine antiseptic properties place Zam-Buk far above ordinary ointments.

PRINTING

While it is true that the stamp on your letter is a guarantee of delivery, it falls to the letter itself to determine its final destination—the filing cabinet or the waste basket.

In many cases your written correspondence is your only point of personal contact with your client or your customer, and if through poor appearance or address it fails to convey the importance of your message, it naturally is received with but scant attention. If, on the other hand, your letter has a "crackling" quality—a clean, dignified appearance—it will command the same respect which would be accorded to you on a personal visit.

To ensure quality which you know will be faultless and therefore above comparison, specify Colonial Bond. Printers everywhere in Canada have it—better still, let us send a sample sheet.

Colonial Bond, all-rag, tab-sized and fortified. Made by The Roland Paper Company Limited, who have been making high grade papers for over 40 years.

MOTHER OF TWIN BOYS

Tell How Lydia E. Pinkham's Vegetable Compound Relieved Her of Inflammation and Great Weakness

West St. John, N. B.—"I was in a general run-down condition following the birth of my twin boys. I had a great deal of inflammation, with pains and weakness. Finally my doctor recommended Lydia E. Pinkham's Vegetable Compound. He said that your medicine would be the only thing to build me up. I am sure he is right, for I am feeling much better and am gaining in weight, having gone down to ninety-three pounds. I was in bed for over a month, but am up again now. I have recommended the Vegetable Compound to my friends and give you permission to use my letter."—Mrs. Elara A. Rimeau, 22 Rodney St., West St. John, N. B.

There are many women who find their household duties almost unbearable owing to some weakness or derangement. The trouble may be slight, yet cause such annoying symptoms as dragging pains, weakness and a run-down feeling.

Lydia E. Pinkham's Vegetable Compound is a splendid medicine for such conditions. It has in many cases relieved those symptoms by removing the cause of them. Mrs. Ritchie's experience is but one of many.

Thanksgiving Day of the year 1923 will long remain green in the memories of all those who were fortunate enough to be present in town that day. The fifth anniversary of the signing of the Armistice being on Sunday, the memorial exercises in honor of all those who laid down their lives in the cause of fraternity, equality and justice and in particular for those of the parishes of Kent and Wicklow who lie in Flanders Fields, and whose names are inscribed in enduring granite, an intrinsic part of a fitting memorial, which is situated on Main street, erected there in order to keep fresh in the minds of all those living both within and without the confines of our locality, that we are proud of the boys, the heroes, who died that we at home might always be free from autocracy and enjoy for all time the fruits of a true democracy. To this end, a most impressive service was held. Speeches were made, recitations were given, songs and hymns were sung.

The monument, the "Soldiers Memorial Drinking Fountain," erected some years ago, and the site on which past memorial exercises have been held, was thought to be the fitting place where such functions should be held and which should be kept up annually on the anniversary of the cessation of hostilities and the termination of the Great World War. The monument after the placing of numerous evergreen poppy-sprinkled wreaths, surrounding as it were, the picture of "The Dying Soldier" supported by a nursing sister, brought home forcibly to the minds of all, the meaning and cause of their presence, there. Forthly, yes, but not half so forcibly, as did the "White cross, a replica of those which deck thousands upon thousands of graves in the war cemeteries of France and Flanders."

The program ably carried out under the direction of T. Rankin Smith, the chairman, was as follows:

Parade in a body of the school children and members of the local branch of the Women's Institute from the school to the "Soldiers Memorial Drinking Fountain" on Main street.

Silence—10.55 a.m. to 11 a.m.
