BEAVER BOARD
If you are building or going to complete some unfinished rooms, let us show you some colored samples, illustrating the beautiful color effects obtained by using this sanitary and durable board for walls and ceilings in all classes of buildings.

We carry a large stock in assorted sizes.

MAIL ORDERS.
We solicit out of town orders which receive our personal attention. The length of time taken to fill orders is governed very largely by how busy we are in the department of our factory in which the particular goods are made. While we have exceptional facilities for promptly turning out goods, it is important to place orders as far ahead as possible. Orders are filled by us in the rotation in which they are received, and customers can always depend on our doing everything to reason to give prompt despatch.

Our Office is connected with the N. B. Telephone by two separate lines insuring prompt attention.

TOWN OFFICERS WERE APPOINTED

Annual Meeting of Council Held Tuesday Evening—Other Business.

The annual meeting of the Town Council was held in the Council Chambers, His Worship Mayor Murray in the chair with Councillors Jamieson, Bissett, Matthews, Dickie, Ingram, Devereau, Campbell and McKay present.

Minutes of the previous meeting were read and confirmed.

A communication was read from the Fire Brigade enclosing the names of those selected by the Brigade as its officers and members of the Fire Brigade and asking the council to approve of the appointments. On motion same were approved.

A communication was read from Messrs. McDonald and Taylor stating that the sidewalk along the front of their lot on Water street was at present projecting some two or three feet upon their property and as they were about to start building operations would like to have the town straighten up the sidewalk at an early date. This communication was referred to the public property and streets committee with power to act.

A communication was read from W. D. Duncan re claim for damages caused to Miss Annie Gallant in April last reason of her falling upon the sidewalk and sustaining injuries which necessitated medical attendance. The claim was for \$35, cost of medical attendance and wages. Referred to town solicitor for legal opinion.

A communication was read from R. J. Sandover Sly tendering his resignation as Manager Water and Sewerage System, Building Inspector and Town Engineer. Said resignation to take effect June 1st. After considerable discussion the resignation was accepted upon motion of Coun. Dickie.

Applications were read from S. J. Munroe of Athol, Chas. Parker, Angus Dewar and Ben. Steeves of Campbellton, for position of Street Commissioner. Laid on table to be dealt with when appointing the town officials.

A communication was read from Henry Chamberlin asking for a position in the electric lighting plant. Laid on table.

Petitions from F. M. Anderson for an Auctioneer's license, and several truckmen asking for trucking licenses were read and referred to the Police and License Committee.

Department reports regarding the payment of accounts were received and adopted.

Coun. Devereau brought up the matter of license for Express theatre as set forth in Mr. L. T. Jouley's letter. He did not think that it was fair to ask a house running moving pictures only to be compelled to pay a license fee of three hundred dollars, when the Opera House charging a dollar or more per seat for other attractions had to pay only this amount. He thought the other smaller houses were entitled to a lower rate.

His Worship agreed that it was hardly fair. In many cities the lic-

BODY OF BOY WAS IDENTIFIED

That of Ouirle Tromblay of Causapscal Drowned January 7th.

The body of the boy found at the North Room Wednesday evening, April 20th, by Thos. McKenzie, was identified by the father as Ouirle Tromblay, aged seven years of Causapscal, Quebec.

On Thursday an inquest was held before L. P. LeBel, Esq., deputy coroner of New Carlisle. At this inquest it was stated that the little boy was drowned in a hole in the ice near the mouth of the Causapscal river. He had jumped upon a sled his brother was driving to this hole to get a load of water. The horse turned sharply and the sled slipped, when the little fellow fell off and into the open water and was carried away before he was even seen by his brother.

The father, Mr. Arthur Tromblay, is a baker. The body was taken home Thursday night for interment.

A sense fee was fixed at the seating capacity of the house.

Coun. McKay spoke in favor of the \$300. fee for all. The new moving picture houses that were erected, and people were going into the business when they knew this was the fee, and why should the Council reduce it. He would like to see the fee reduced to the old rate.

The Police and License Committee were given an extension of time to deal with this matter.

Coun. Bissett, Chairman of the Electric Light Committee read a letter from the employees of the power house asking for shorter hours. They would like to be put on an eight hour basis at same pay. The chairman explained that he had not had time to look into this matter or consult the committee, and asked for additional time to look into the matter which was granted.

Coun. Jamieson, Chairman of the Public Property and Streets Committee, read a letter from Mr. Wm. Flann, Caretaker of the Dumping Road, Commission, Taylor in which Mr. Flann stating that he would look after work for \$125 per day to end of May and \$100.00 per month to end of October. Another letter was also read from George Comeau in which he requested that his salary be increased from \$285 to \$325 per day. Both letters were referred to the Public Property and Streets Committee.

Coun. Dickie, Chairman of the Water and Sewerage Committee, reported recommending that a complete lavatory outfit be at once installed in the G.W.V.A. rooms, the cost of which would not exceed \$30.00. Report received and adopted.

The following town officials were then appointed:—
Deputy Mayor—Councillor Devereau.
Ex-Officio County Councillor—Coun. Dickie.
Town Clerk—John T. Reid.
Town Treasurer—S. H. Lingley.
Town Solicitor—H. A. Carr.
Town Auditor—Hold over.
Auditors School Accounts—D. C. Firth and J. S. Bond.
Assessors—Ward J. Capt. F. Rendall; Ward 11, Peter McLennan; Ward 111, E. A. Allingham.
Revisors—D. C. Firth and Wm. P. Gray.
Commissioner Public Charities—Hold over.
Town Engineer—Hold over.
Street Commissioner—Chas. Parker.
Building Inspector—John T. Reid.
Inspector of Plumbing—W. J. S. Walsh.
Caretaker Town Horses—Percy Gaudin.
Manager Water and Sewerage Systems—Hold over.
Manager Electric Lighting Plant—G. V. Farrer.
Engineer Electric Lighting Plant—James Robinson.
Firemen Electric Lighting Plant—Benj. Larson and John S. Nelson.

At this point considerable discussion took place upon the advisability of appointing three policemen. Coun. Devereau, Chairman of the Police Committee, and perhaps it would be necessary during the summer months to have three men, as we would likely have considerable transient citizens which might need police after. Then after October we could perhaps get along with only one. Coun. McKay said that two men could look after peace of town at any time. Why look at the police records for the past two years. They had had a pinch, nothing to do. As far as the floating population and sailors were concerned if booze was cut out they would give little trouble. Couns. Ingram, Dickie, Matthews, Bissett and Jamieson thought that two officers would be sufficient.

His H. Adams was appointed Town Marshal and J. A. Allard Policeman. Policeman Smith was retained on

GREAT RECEPTION AT CAMPBELLTON

New York Light Opera Singers Play to Crowded House—Here Monday.

The Opera House was crowded to the doors Monday evening to greet the New York Light Opera Company which under the management of Mr. S. W. Dimock is touring the Maritime provinces. The performance was put on here under the auspices of the Soldiers Memorial Hospital Aid Society, and the ladies are to be congratulated upon its success, not only from a financial standpoint but from every viewpoint. The company was one of the best small companies which have ever appeared in our town, and the audience gave unmistakable evidence of appreciation of their work. Every number was heartily applauded and many ovations demanded.

MEETING OF PRESBYTERY HELD HERE LAST WEEK
Resignation of Rev. Mr. Mackay Dealt With—Regret that he is Leaving.

A special meeting of the Presbytery of Miramichi was held in St. Andrew's Church, Campbellton, on Thursday, May 1st, to deal with the resignation of Rev. J. R. Mackay, Pastor of Restigouche Congregation whose return to Scotland from which he came 28 years ago is made necessary by the state of his wife's health. There were present with Rev. Hugh Miller, Moderator, Rev. A. Craze, Lewis King and MacLean, ministers, and Messrs. Ferguson, Robertson and Fair, Elders. Rev. Alexander Craze was appointed clerk pro tem.

After devotional exercises Messrs. Firlotte, Thomas Busteed, Simon Ferguson, Robert Gerrard, John Adams and T. Adams as representatives of the session and congregation testified to their great respect for Mr. Mackay, their appreciation of his services and their regret that circumstances made his departure from his people by whom he is highly esteemed imperative. Mr. Craze in moving the severance of the pastoral tie said that he had known Mr. Mackay and had been intimately associated with him since the beginning of his ministry in P. E. I. Presbytery, 25 years ago, and that his (Mr. Mackay's) work had been successful in the highest sense. In Richmond Bay East where he was ordained and in Souris, P. E. I. his first regular charge he knew, he is still remembered with affection, and in the Miramichi Presbytery in which he has served for 16 years he has in his work both in and out of the pulpit won the esteem of all.

Rev. Lewis King in seconding the motion spoke of the excellent work done by Mr. Mackay in Tubinatic where he had ministered for 11 years and built up a strong congregation. After appreciative remarks by Messrs. Miller and MacLean and expressions of their regret at his departure from the Presbytery Mr. Mackay was released from his charge and Mr. MacLean of Dalhousie appointed interim Moderator of the session of Restigouche and to declare the pulpit vacant in connection with the dose on the manse at Tide-head. The Presbytery deferred consideration of the matter till the regular quarterly meeting to be held in Charlottetown in June.

A very large delegate representative of the Congregations of Restigouche, Escuminac, and Matapedia in response to the invitation of the Presbytery's Committee appeared to consider a proposed rearrangement of fields was present for conference. No decision was arrived at but the conference was helpful and good results are expected from it.

DR. PIDGEON WILL PREACH HERE

Former New Richmond Boy Will Up in Presbyterian Church Work.

Dr. Pidgeon is one of the youngest men of the Presbyterian Church who have been entrusted with a large share of the more important work of the Church. He is a native of St. John's, N. B., a graduate of Montreal College. He resigned his parish in New Richmond, N. B., in 1917, and has since been engaged in the work of the Soldiers Memorial Hospital Aid Society, and the ladies are to be congratulated upon its success, not only from a financial standpoint but from every viewpoint. The company was one of the best small companies which have ever appeared in our town, and the audience gave unmistakable evidence of appreciation of their work. Every number was heartily applauded and many ovations demanded.

Irish Problem Still Acute

A REMARKABLE feature about Irish history, and particularly about that history in recent years, is pointed out by the Christian Science Monitor, one of the few important newspapers in the United States which has always viewed the position of the Ulster Unionists with favor. It is that whenever a solution of the problem of her great province seemed imminent something has always turned up to postpone or destroy it. The Irish question is a far from being settled by agreement today as it has been since Gladstone introduced his first Home Rule bill. There is just as firmly opposed to Home Rule as ever, although Ulster's position has been modified of late years by an admission that Nationalist Ireland has a right to govern herself as she chooses. The other Irish provinces want Home Rule, but they admit that if you let Ireland be ruled by the Irish nation with its own parliament and its own army and navy, the five million of the north will have to be a separate nation. The Irish nation, however, is not a nation. It is a collection of tribes, and the tribes are not united. The Irish nation is a collection of tribes, and the tribes are not united. The Irish nation is a collection of tribes, and the tribes are not united.

TO PROVIDE FOR BETTER HOUSING

THE RETURNED SOLDIERS.

The returned soldiers have a grievance which they are pressing, and we think they should be backed up by the citizens generally. What they are asking is reasonable and is the fulfillment of promises made to them before they left our shores to fight for the empire. When in the enthusiasm of their going we assured them that upon their return their jobs or better ones would be waiting for them, we were doubtless sincere, but unfortunately in many cases the boys who have returned are finding it difficult to get back to their civil work.

NEW BLACKSMITH. Try the new blacksmith and horseshoer at the Andrew Blacksmith Shop.

PROFESSIONAL. Dr. A. Pierce Crockett, eye, ear, nose and throat specialist of St. John, will be at the St. Louis Hotel, Campbellton, Friday, May 9th, where he may be consulted professionally. May 1-2-wks.

ANOTHER VENDOR. The Graphic understands that Mr. A. C. Roy will shortly receive his license as vendor under the Prohibition law.

RURAL CEMETERY CO. MEETING. The Campbellton Rural Cemetery Co. will meet in the Town Council Chamber on Monday evening 12th inst. at 8 o'clock. A full attendance of all lot holders is requested.

DOING GOOD WORK. The Soldiers Memorial Hospital Aid has been organized three months. The first quarterly meeting was held Tuesday evening and was very largely attended. The financial report showed over \$1500.00 raised in that time.

LETTER FROM RUSSIA. The editor of the Graphic has received a very interesting letter from Capt. Alf. Gillis who is with the Canadian forces in Russia. The letter was written March 25th, and spoke of receiving copies of The Graphic. Capt. Gillis wished to be remembered to all his friends here.

CARD OF THANKS. Alexander Turvey and sisters of Jacquet River, wish to thank their neighbors and friends for their kindness and sympathy during their recent and benevolent, also for the beautiful floral offerings.

THE MILLS. The Dalhousie Mills, as well as Hicks Mill at Dalhousie Junction, the Richards' upper mill, shives shingle mill and Chabour Bay Mills have begun the season's operations. The other mills will be in operation next week.

IMPORTANT NOTICE. The Choral Club will meet on Monday evening (instead of Tuesday) from now on. This Club is open to the public. The annual fee is three dollars per member, payable any time during the year. The Club is hoping for a large and enthusiastic attendance at the next meeting Monday evening at 8 o'clock in the Grammar School.

SHOULD HAVE RECEPTION. A number of Campbellton boys are with the 4th and 6th Batteries which are expected to arrive in St. John this week end. They will probably arrive home Sunday or Monday. His Worship should start the machinery moving for a big reception for our returning boys.

NEW BUILDING. Mr. J. A. LeBlanc, butcher has purchased the old Johnston McKenzie lot next the Bank of Commerce and is erecting a brick building thereon.

NOW ON THE JOB. Charles Parker, appointed Street Commissioner was sworn in Wednesday morning and began work immediately.

THE ROADS. The roads between Campbellton and Dalhousie are with an exception of a few bad places in excellent condition, considering the season of the year. Tuesday the Point la Nim road was dragged the entire length and is in fine condition. Commissioner Henry McIntyre will commence work on his district between Campbellton and Dalhousie Junction at once.

PROFESSIONAL. Dr. W. H. Coffey of Bathurst, who is confining his work to diseases of the eye, ear, nose and throat will visit Campbellton weekly beginning Wednesday every Wednesday, at the Hotel Dieu Hospital, where he may be consulted professionally from 9 a.m. to 12 a.m. and from 2 to 5 p.m. April 24-5.

TIPPERARY BANQUET. The Tipperary Club extended a cordial invitation to each and every Campbellton boy returned from Overseas to attend a banquet which will be held on Tuesday evening, May 13th at 7 o'clock in the Hall of St. Andrew's Presbyterian Church. An effort has been made to send each boy a personal invitation but in the event of anyone being overlooked the Club request that they will accept this as a personal invitation.

ON THE OCEAN. The Robert Reford Co. Ltd., Monday received a cablegram announcing that the steamship "Mauritania," with 4,000 passengers and troops, including the 4th and 6th batteries for St. John, sailed from Southampton at 3 a.m. on Sunday for Halifax. She is due to arrive Thursday night or Friday morning. The Royal George sailed from Liverpool at 3 p.m. Sunday with 1,000 passengers and troops for Halifax. She is due about Sunday next.

CHEAPER PULPWOOD. That the price of pulpwood will drop in the near future is the report given following a conference of representatives of Maine and New Brunswick companies held at Bangor recently for the purpose of considering prices and contracts for 1919. It is stated that the principal cause for the decrease will be a more plentiful supply of labor. Among those at the meeting were Walter L. Cobb, manager of the Eastern Pulpwood Co. of Calais; Robert W. McLellan, of Fredericton; George F. Underwood, R. S. Bradman and J. P. Riley, of the International Paper Co.; C. D. Prince, of the S. D. Warren Paper Co., and F. C. Murchie, of the Oxford Paper Co.

OBITUARY

Mrs. Joan Turvey. The death of Mrs. Joan Turvey occurred at her home in Jacquet River on April 8th. Mrs. Turvey, who had been in failing health for some weeks was in her 77th year. She was a kind and affectionate mother, and a good friend and neighbor. Her husband and four children predeceased her. Those who are left to mourn are two daughters, Mrs. T. M. Willis, Salmon Beach; and Mrs. A. H. Buttner, Janville; and one son Alexander at home; also one sister Miss Katherine McNair, and one brother, Mr. A. A. McNair of New Mills.

The funeral on Thursday morning was largely attended, and testified to the esteem in which the deceased was held. Services at the house and grave were conducted by Rev. F. L. Jobb. The pall-bearers were: A. A. McNair, Gordon McNair, Ernest McNair, Alex. McNicol, W. E. McMillan and Thomas Hamilton. Interment took place in New Mills Cemetery. The floral offerings were beautiful. The family have the sympathy of the entire community in their very sad bereavement.

Maggie Irvine. At Mann Settlement, P. Q., March 23rd, Maggie Irvine, aged twenty-six years. She was baptized by Rev. C. P. Wilson eight years ago. Her life bore a beautiful influence in the home, church and community. She will be greatly missed by all who knew her. Her testimony, prayers, and singing will be remembered for a long time. She passed away peacefully after an illness of but three days. God comfort the sorrowing friends.

The one we love is now laid, In the silent tomb, How peaceful is her repose While Christ her soul doth keep.

DIED SUDDENLY. Mrs. Frank Gallagher, who has been residing here with her niece Mrs. Thos. Matheson was this morning found dead in her bed. Deceased lady who formerly Miss Harris, was very well known here. Her husband Mr. Frank Gallagher of the Customs department, St. John, died about two years ago. She had suffered from heart trouble for some time and this caused her death.

EMPLOYEES OF BANK OF COMMERCE MADE HAPPY. The employees of the Canadian Bank of Commerce have recently been granted a war bonus equal to ten per cent of their salary. A similar amount was made in December last, thus bringing the bonus distribution up to 20 per cent in about six months' time. This bonus to the employees is largely in recognition of their loyal service during the war, when staffs were depleted through war services and the cost of living on the increase. The decision of the bank came as a surprise to the employees following so closely the recent distribution.

HOTEL CHANGES HANDS. The Menard Hotel, New Carlisle has been taken over by Mr. John E. Allard, and many friends along the coast wish him success.

HAVE ARRIVED. Fresh herring and lobsters arrived in the local market this morning. Herring are selling for 25c per dozen.

WILL APPEAR NEXT WEEK. The standing of various Grades in the recent Easter examinations will be published in next week's Graphic.

CASE RESUMED. A large number of Dalhousie residents were in town Saturday last as witnesses in an assault case. Henry Good charged Jacob Davidson with assault and with pointing a gun at him. The case was before Judge Matheson and was adjourned until this afternoon at 2 o'clock.

TENDERS FOR THE NEW HOTEL DIEU HOSPITAL. Work on the excavation for the new Hotel Dieu Hospital began last week. Tenders for the construction of the building will be called for shortly.

IN MEMORIAM. In loving memory of John H. Inis, who departed this life on May 13th, 1918.

In the dark and lonely grave yard Where the trees and branches wave, Lies our dear beloved father In the cold and silent grave. Inserted by his family.

Livery Stable. I have purchased the R. Ellsworth Livery Stable and am prepared to attend to the requirements of all needing horses or rigs for driving. Also horses sold and exchanged.

SUCCESSFUL TEA AND FANCY SALE. The afternoon tea and fancy sale held on the 30th in aid of the Hotel Dieu Hospital was an unequalled success.

Mrs. D. Harquail assisted by Mrs. H. McIntyre, received Mrs. A. T. LeBlanc presided over the tea tables, having as assistants Mrs. A. (Dr.) Martin, and Mrs. A. C. Belle-Ile who poured tea, and a berry of young matrons who saw that the needs of the guests were well attended to.

In another section of the hall, Mrs. H. O'Keefe, Jr., and Mrs. Joseph Fichte ably conducted the sale of fancy work. There were some beautiful pieces in evidence, all of which were rapidly and advantageously disposed of.

A little further on Mrs. Phillip Dupuis catered to the proverbial "sweet tooth" in a manner that proved irresistible. Mesdames Faubert, Richette and Murray and Miss O'Leary circulated through the Hall soliciting contributions to various side-lines which totalled up a considerable addition to the proceeds, while Mrs. H. P. Doyle and Mrs. J. Lemieux Sr. drew around them a continual circle of seekers after the mysterious contents of the old familiar grab bag.

A beautiful spirit of enthusiasm and co-operation was in evidence all through the afternoon and evening. The ladies in charge seemed determined to make the visitors "eat, drink and be merry" while to the tune of the music which was played by the orchestra.

EASTERN STEAMSHIP LINE TRAVEL Passenger and Freight Service between St. John and Boston via International Line—A Boon to Shippers and Travelling Public.

With the opening of travel on all branches of the Eastern Steamship Line it is safe to say there is none which offers greater advantages than that on the International Line from Boston to St. John, with intermediate stops at Eastport and Lubec, Maine.

Not only is this true of the passenger service, which is particularly attractive from every viewpoint, but also of the general freight service, which is unusually heavy this season. The fact that two trips are made each week, every Monday and Friday out of Boston at 10 A. M., and every Wednesday and Saturday out of St. John, the Wednesday trip leaving at 9 A. M., stopping only at Eastport and Lubec, makes it especially attractive. Then, too, by leaving St. John at 6 p.m., Saturday for Boston direct, the tourist is enabled to get to Boston at one o'clock the following afternoon, leaving Boston at 10 a.m., the steamship is due at St. John at one o'clock the next afternoon.

from St. John, N. B., where he attended a meeting of the Synod. Councillors Alex. Levesque, of Grimmer, and Narcisse Levesque of Balmoral, were in town to-day attending Court. Mr. John McDonnell, Jacques River, was here to-day attending the County Court. Mrs. Thos. Murphy, who lived in Dalhousie for many years, is convalescent after having been seriously ill all winter. Many friends in Restigouche Co. will sympathize sincerely with the distinguished member for Gloucester, O. Turgoon, M. P., who has just lost one of his sons, Charles O. Turgoon, Barrister, of Edmonton, Alberta. The sympathy of many friends here is extended to Conductor E. S. Vye, who was formerly in charge of the Dalhousie Branch train, in the death of his highly esteemed wife. She passed away at her residence, Blackville, N. B. on Wednesday, the 23rd, April, after over a year's illness borne with great patience and christian fortitude. The late Mrs. Vye was a daughter of the late James Fraser Downie, of New Glasgow, N. S., who was for a time a member of the N. S. Provincial Legislature. Besides her husband the late Mrs. Vye is survived by two daughters, Mrs. Arch. Alcorn, Dauntdown, and Miss Eddy Vye, at home. Mr. and Mrs. E. R. Gaudet, have returned from Moncton, N. B., where they had gone on Friday last, on account of the illness of Mr. Gaudet's father. Murray McKay, who belongs to one of our oldest and highly respected families of the shiretown, has severed his connection after nine years of faithful service, in the successful four and a half years business, conducted here, by Alexander Daniel McDonald. He speaks of going west, but many home and with the prospects of a greater Dalhousie, it is hoped he will be induced to open a business in the shiretown. Alex. McLennan, Campbellton, was a visitor to Dalhousie on Monday. Miss Robertine McIntyre, Campbellton, arrived in Dalhousie recently to continue her studies. She is attending the convent and is the guest of her aunt Mrs. George E. Mercier. A meeting was held on Friday evening in the office of Capt. J. R. Disbrow, M. D., to set on foot a movement towards organizing a Branch of the G.W.A., to work in conjunction with the Campbellton Branch. Every encouragement should be given to this movement, as no doubt every soldier has returned home with the idea of making things better in our land for God and Country.

TARES OFF DANDRUFF, HAIR STOPS FALLING Save your Hair! Get a small bottle of Danderine right now—Also stops itching scalp.

"Thin, brittle, colorless and scraggy hair is sure evidence of a neglected scalp. There is nothing so destructive to the hair as dandruff. It robs the hair of its life, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if remedied causes the hair roots to become loose and die—then the hair falls out. A little Danderine to-night—any time—will surely save your hair. Get a small bottle of Danderine from any drug store. You surely can have beautiful hair and lots of it if you will just try a little Danderine. Save your hair! Try it!"

LEMONS MAKE SKIN WHITE SOFT, CLEAR

Make this beauty lotion for a few cents and use for yourself.

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to whiten the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white this way. Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well and you have a white quart pint of skin and complexion lotion that about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle, then this lotion will remain pure and fresh for months. When applied daily to the face, neck, arms and hands it should help to bleach, clear, smoothen and beautify the skin.

Any druggist will supply three ounces of orchard white at very little cost and the grocer has the lemons.

HIGH DROP IN BUTTER PRICE IN FREDERICTON.

Was Down to 40 Cents on Saturday for Large Lots.

Fredericton, N. B., May 5.—The feature of the biggest country market of the spring, which was held here on Saturday was the heavy decline in the price of butter, which started at sixty-five cents a pound and finished at forty-five with forty cents the quotation for large amounts. Butter was on sale in large quantities and there is every indication that there is much in the country. Eggs remained at forty cents a dozen with some lots as low as thirty-five cents. Veal dropped to eight cents a pound. The price of potatoes remained firm on account of the increased price shipping had been paying during last week. The price by the barrel was \$4 and \$4.35 and half a barrel \$1.50.

PARENTS' DUTIES TO THE CHURCH SCHOOL

"We live in deeds, not years; in thoughts, not breaths; in feelings, not in figures on a dial. We should count time by heart-throbs. He most lives who thinks most; feels the noblest, acts the best." —Philip James Bailey

This is placing the emphasis where it belongs. The value of what we think, believe or know is determined by the practical outcome of it all. "We are my friends," says Jesus, "ye do whatever I command you." Therefore the best tests that can be applied to life at the close of each day or "Life's little day" is "something accomplished, something done."

Now of all things required of us and these are many, what is the one thing that exceeds all others in importance? The greatest act of our soul to the light. All else avails little. Meetings, organizations, committees etc., stand or fall by the application of this test.

But upon whom shall our efforts be brought to bear? We should always commence with the one nearest to us in the home, in the church or in the street. The finest thing that can be done about any of Christ's apostles is what is spoken of in Matthew "He first findeth his own brother, Simon" and the finest thing that can be said about a parent is that he finish his own son or daughter. For He who said "suffer the little children to come unto me, and forbid them not for of such is the Kingdom of God" also said "whosoever shall receive one of these little ones which believe in Me, it were better for him that a mill-stone were hanged about his neck and that he were drowned in the depth of the sea."

Every baby comes into the world God's child, and every child of God has a right to be trained that he may grow up as God's boy or girl. It is the privilege of every parent so to train his or her own child that he may become conscious of his oneness with the Father. Then is not the first obligation of parenthood, that the child receive the instruction and training that will enable him to enter into the full possession of his birthright in God's Kingdom. This is one of the great obligations which many parents utterly neglect, or which they are more than willing to delegate to the church or Sunday School, many excusing themselves by saying that they do not know how to teach, or have not the time for this training; still others excusing themselves on the ground that they would not attempt to teach the children themselves, but rather send them where they may receive the training of trained workers. But others of us see in the Sunday school a co-operating agency, which is to join hands with us as parents in the training of our children for God. Not every parent can be in active service in the Sunday school, but he who is out of the Sunday school of necessity, may as very thoroughly in it is spent, by co-operating with the school through the children or the Home Department, critics may differentiate between a reason and an excuse.

Therefore my first point is the parents' duties to the church is to cooperate. Firstly by securing the regular attendance of children, with the full realization that the work of the Sunday School instead of being less is vastly more important than that of the day school, secondly in preparation, which suggests daily Bible reading, suggestive questions and memorization of Golden Text, all of which form a basis of home work; thirdly in giving. The well regulated up-to-date school cannot be carried on without money for supplies, appliances and various incidental expenses. These can easily be met by the regular weekly offering of the average school if the parents are sufficiently interested to help the teacher in person, by boys and girls must have some regular allowance before they can give systematically. Fourthly, in reverence, which is the basis of child religion. This cannot be taught by words directly but largely by personality and inference, and every parent should be thoroughly aware of the power of adverse criticism to hinder reverence and my final point is to sympathize. Show your appreciation of the good work of the Sunday school in your attendance in person at some of its meetings, also by showing a willing spirit to render any service required of you on special occasions. Thus by your co-operation and sympathy to the workers together with your children in the work of the Kingdom.

GOOD LABOR LAWS.

How Australia Handles Very Difficult Problem.

That the various experiments of Australia in labor legislation looking to a reduction of industrial disputes have on the whole been productive of benefit is the conclusion reached in a report on arbitration issued by the National Industrial Conference Board of the United States.

Labor controversies have by no means been eliminated. Indeed there has been an increase so far as mere numbers are concerned. The Australian policies have, however, clearly tended to reduce the seriousness of such disputes, and their prevalence, and to reduce the number of important. Major disputes have been comparatively few.

Such legislation in Australia has been two principal forms: one a system of conciliation for the purpose of bringing the interested parties or representatives face to face in a joint discussion in the hope of securing a mutual agreement without the aid of an outside arbitrator; the other a system of compulsory arbitration by which the disputants are forced to submit their differences to a board of court and to accept its award of that board under heavy penalty for refusal.

No system has been enforced in Australia which has been a permanent and consistent feature. In the conciliation system, which has been the primary of the state, has been used in measure into a policy of conciliation. On the other hand, in New South Wales the rigid system of compulsory arbitration which has been characterized by the policy of that state has assumed more and more the character of conciliation.

The findings of the report are summarized as follows: "The system of compulsory arbitration in industrial disputes is rapidly established as a national policy. The methods and machinery differ, but the fundamental purpose is the same, viz., to reduce industrial friction."

The "living wage" as a minimum is definitely endorsed by the state as the principle behind all forms of conciliation and arbitration.

Beyond that minimum a wage for skill and experience is recognized in accordance with the custom of the industry, but not so rigidly as to prohibit bargaining between employer and employee for a higher wage, or under other conditions, for one somewhat lower.

The minimum wage has become the maximum. The average wage for males is above the basic wage and a considerable percentage of workers receive an added wage for skill. The system tends, however, to limit the reward for extra skill.

Nominal wages have risen, but to the extent that arbitration has been responsible cannot be determined; the general prosperity of the country has contributed to the increase.

Trade unionism and collective bargaining are not only recognized but fostered as a national policy. This is reflected in provisions whereby associations of employers or of employees may initiate proceedings before arbitration courts and in the rapid growth in numbers of trade unions.

The system has not prevented industrial disputes, which have, in fact, increased. But the number of major disputes is small and has decreased. Disputes are accepted by both sides without serious objection. Strikes result mainly from conditions not provided for in awards.

The mining industry contributes altogether disproportionately to the increase in the number of disputes. This is due to the irremediable character and temperament of the miners, who often disregard the advice of their leaders.

In the practical administration of arbitration systems there has been a tendency to place increasing stress on conciliation without abandoning compulsory features.

The right to strike is recognized, but is sharply limited and illegal strikes are penalized.

Public opinion in Australia considers the system effective. It is credited with having raised the standard of living by guaranteeing them at least a living wage. In general there is no tendency in Australia to give up any of these methods of arbitration. Experiments in a period when effective wages are falling, the Labor Party has shown no general desire to substitute the industrial systems is that they strike for arbitration.

Underlying conditions in the Australian Commonwealth are, therefore, the report points out, clearly differentiated from those in the United States, where the labor conditions are a small minority of workers, and where state regulation of wages and other industrial conditions is in no way comparable in extent to that in Australia. The various experiments in Australia, indeed, have been essentially laboratories of political experiment in industrial matters, a process for which their comparative isolation from world affairs has made them peculiarly adapted.

These considerations are fundamental in the report holds in judging the real significance of the Australian experience and doubly so in any attempt to apply that experience to conditions in the United States.

Pearls.

A striking illustration of the advance in the value of pearls was afforded at a recent auction sale in London. A necklace of fifty pearls which was bought in 1872 at a London jeweler's for \$556, was sold for \$7,500.

Australian Gold.

Australia produced 750,550 fine ounces of gold in the first seven months of 1918, as compared with 852,074 in the similar period in 1917.

Sitching Shoes.

It takes fourteen or fifteen yards of thread to stitch the uppers of a pair of shoes. In stitching the seams of a shoe the length of thread required is three times the length of the seam.

EDITOR'S MAIL

San Jose, California, April 24th, 1919

Editor of the Graphic, Campbellton, N. B.

Dear Sir:

I have just received the full returns of the Town Election from the Local papers.

These with many letters expressing words of good feeling in regard to the splendid victory by the obtained by the working men and received by me.

I am unable to find words of thanks for those who worked and voted for a change and the rights which ought to have been enjoyed years ago. It is to be regretted that the ordinary economy was not practiced in the Town's management during the war period (the past four years) and had this been done we could now have had a fund large enough to build a Town hall or pave a portion of at least of our main street.

I have visited quite a number of cities and towns some perhaps have a milder climate, but none have greater opportunities than Campbellton, N. B., to be made bigger and better.

If you will kindly give me the above space and confer a favor, you will oblige.

Yours truly,
W. H. Wallace

to cure a bad leg from which I suffered. Miss P. D. D. writes to the proprietors of Zam-Buk, "The power of Zam-Buk with me was such that this time I could not resist. Finally I was advised to try Zam-Buk. I had not long before I could see that this remedy was quite different from anything I had before tried. It went long before the inflammation began to disappear and with it the pain. The appearance of the sore changed—it became healthy looking and then I noticed healing had commenced. I persevered with Zam-Buk and it entirely cured me. I shall never be without it again, and if everyone knew the wonderful healing power of Zam-Buk I am sure it would be in every home."

Zam-Buk is so successful in healing chronic sores because of its great refinement and its extraordinary powers of penetration. It reaches the "root" of the disease in the underlying tissues and cleanses the flesh of all germs. Zam-Buk then grows new tissue, which replaces the old and diseased, builds itself up to the surface skin. A complete and permanent cure results.

Zam-Buk is best for eczema, ulcers, abscesses, rashes, boils, pimples, bronchopneumonia, and piles, and is indispensable as a first-aid for cuts, burns, scalds, etc. All dealers sell.

LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers

Don't suffer. A tiny bottle of Zam-Buk costs but a few cents and lifts any corn or callus off. Apply a few drops on the sore, rub in, and "hard" callus" on bottom of foot, then lift them off. When the orange removes corns from the feet, the "blister" from the fact is not pink and healthy, but is soft and healthy, and is not irritated.

SUB-INSPECTOR RESIGNS JOB

(Contributed.)

It has just become public that Mr. Mann, the Local Inspector of intoxicating liquor act has resigned. The public will learn of this resignation with deep and sincere regret. Mr. Mann has discharged his duties in such a manner as has commanded the respect of all law-abiding people, and even those who were unfortunate enough to come under his powers as inspector, invariably respected the honorable way in which he dealt with them.

That Mr. Mann has been alert and on the job all the time is very evident by the "tight" condition of affairs so far as the drinking and having of liquor is concerned in this town and county, particularly in town. His task as inspector has been far more arduous than this country. Under his superior officer, he has been discharging the duties of inspector all over the province from St. John to Edmundston, and in all the different parts of the province where hard work was to be done. His success along the line of his work, as shown by the tightened condition of the liquor situation and by the confidence made in him by his superior, must be a source of gratification to himself. And at this time, the time of his resignation and leaving the town, the citizens of this town and county have experienced a personal loss. Added to his energy and ability to look after the enforcement of the act, there has been that splendid assurance of honesty in his dealings, which goes far beyond anything else in public opinion.

In leaving the town and going into private life we are sure Mr. Mann will be pleased to know that he has the entire confidence of the public and we assure him that we are parting with a public servant with great respect.

THE DAY FOR GERMANY HAS ARRIVED NOW

But a Different Day From Which They Drank to German Envoys at Versailles.

Ottawa, Canada, May 7.—The following summary of the peace treaty draft has been received here, addressed to the acting prime minister:—

Verailles, May 7.—(By the Associated Press)—Germany was told today the terms upon which the Allied and associated powers will make peace with her. Of the fourteen principal sections of the treaty, one contains stipulations with regard to frontiers, which materially change the map of Europe. The treaty has to do with Germany alone, but it is required that she accept agreements made by the Allies with the other Central Powers.

The document, long as it is, is shorter than was indicated by some of the forecasts which estimated its length at 1,000 words. The treaty is not printed in German. The text is in French and English, on opposite pages.

The terms of the treaty spell the end of Germany as a military power. She is deprived of virtually all her fleet, her army is cut down to nominal dimensions and she is sharply restricted along the lines through which she might seek to work militarily to rehabilitate herself. Economically, also, the future course of Germany is hedged about with stipulations intended to insure her inability to pay the indemnity demanded by the Allies, but to prevent her from exploiting her old time resources as a strangling competitor of the nations about her which she overran and devastated during the war.

Thus, for instance, Germany for a period of years, at least, will be deprived of the coal output of the rich Sarrre Basin, which goes to France in repayment of the damage caused by the destruction of the French coal mines. She likewise is compelled to make restitution for the damage in other ways done to France, Belgium and the various other countries, which suffered from tectonic deprivations in various forms. In numerous ways she is made to realize that her more than four years career of destruction must be made good.
