## Mineral Baths

Chatham, Dec. 18, 1901.

To CHATHAM MINERAL WATER CO.  
For some years I was so badly used up with rheumatism in my hip and leg that I could not walk without suffering severe pain and finally got so bad that I was confined to my bed. I tried almost every kind of patent medicines beside consulting physicians, but obtained no relief. At last I was persuaded to try the mineral water and used it in liberal quantities. From the first I felt a decided change for the better, and now I can say I have entirely recovered. I cannot recommend the mineral water too highly and am pleased to such a magnificent establishment erected for the treatment of cases like mine.

### ROJESTVENSKY MISSING

Four Great Battleships and Several Cruisers, Too.

Probability is That He is Coming Through Sunda Straits Between Java and Sumatra—Has Nothing to Fear From Cruiser Division of Japan Fleet—Togo is Said to Have Lost Five Ships.

Chicago, April 11.—A special from Hong Kong to The Chicago Daily News says:—It is reported here that two sections of the rival fleets clashed near Singapore this morning and that Togo lost five vessels. The rumor is not given much credence.

Rojestvensky is Not Placed.

Labuan, British Borneo, April 11.—The British ship Knight Templar, in yesterday from Saigon, in French Indo-China, brings startling news of the Russian fleet. It would seem from the authentic story of Capt. Williams, confirmed by several of the ship's officers, that the Russian warships which passed through the Sunda Straits, between the Malay Peninsula and Sumatra, and as he was returning were not in command of Admiral Rojestvensky, and that, as a matter of fact, his four great battleships and several of his cruisers were not in the squadron. The Knight Templar sailed within a few miles of the fleet on Saturday evening, and there is no doubt that the Russian ships, numbering 51 in all, are the second division, under Volsky, which met Rojestvensky off Madagascar in January and sailed from the eastern coast with him in the second week of March.

This makes it clear that while Rojestvensky may not be far away, the four modern battleships with their attendant cruisers, torpedo boats and supply ships did not pass through the Malacca Straits on Saturday, as was supposed. He is probably coming through the Sunda Straits, between the Islands of Java and Sumatra, and as he has four first-class ships, has nothing to fear at present from the cruiser division of the Japanese fleet.

No Doubt of Division.

There can be no doubt that the fleet is divided. Capt. Williams and all others on the Knight Templar had a complete view of the 51 vessels in the war fleet. Only one battleship was in the squadron met by the Knight Templar, and she was plainly made out as the Russian vessel, flying a vice-admiral's flag.

Is the general belief here that they are coming through the Sunda Straits, and may not be reported until they reach either Saigon or the port selected by the command admiral for a reunion of his fleet.

Togo in Touch.

The Japanese protected cruisers Kasagi and Takasago were in the open Sunday with the Togo boats off Hong Kong and Tientsin. All this section of the China Sea is patrolled by the Japanese scout ships, several of which have 23 knots speed. On Thursday last the Japanese cruiser Akiyoshima and the Tokiwa were at Siam, across the sea from Singapore. It is the belief here that Admiral Togo's battleships and main squadron of cruisers are off the island of Formosa. His flagship the Mikasa, is known to have been there on April 2. From that point they can be kept in touch hourly with the movements of the Russian squadron and can meet them at their own convenience.

Sighted Lying at Anchor.

Singapore, Straits Settlements, April 11.—The latest information in regard to the Russian squadron, commanded by Rear Admiral Rozhkov, which passed here Saturday afternoon, was brought here yesterday by the British steamer Gregory Apeur. The latter Sunday sighted the Russian ships twenty miles northeast of Manila, one of the islands of the Anambas group, about 150 miles north northeast of Singapore. The Russians were at anchor.

How Tokio Views It.

Tokio, April 11.—Vice-Admiral Rojestvensky's second Pacific squadron has not been reported here since it passed Singapore. It is quite generally assumed that he does not desire an immediate battle, and that he will attempt to reach Vladivostok, where there are docks and shops, or else a base. The latter course is deemed unsatisfactory on account of poor facilities and the danger of political complications. Many believe that the Russian naval commander has a second rendezvous in the Pacific Ocean, and that he will speedily quit the China Sea and go eastward to the Philippines. "Vladivostok is his objective, the Pacific is considered to be more favorable for the accomplishment of his purpose."

St. Petersburg Hears Rumors.

St. Petersburg, April 11.—Russia's information regarding Rojestvensky's fleet, its location, destination and intentions is based on foreign despatches, which are all too meagre to prevent a quick-rising crop of rumors. According to one of these the adverse fleets have already joined battle. Others of these despatches are attempting to locate variously the battleship division of the squadron.

Cowardly Officers Disgraced.

Gushu Pass (100 miles north of Tientsin), Manchuria, April 11.—Gen. Linitch has pilloried a number of officers who displayed cowardice during the battle of Mukden, publicly disgracing them by posting their names at all division headquarters, while some of them were ignominiously driven out of the camp.

Want Church to Give for War.

St. Petersburg, April 11.—It is stated that the Emperor's proposal to appoint a patriarch, which appointment would subordinate the power of the procurator of the Holy Synod, M. Pobedonostsev, carries with it the condition that the church supply large funds to continue the war.

Blew Up Czar's Picture.

St. Petersburg, April 11.—Durlin

morning prayers yesterday at the high school. Rumor, Government of Poltava, a portrait of Emperor Nicholas was destroyed by an explosive which was let off behind the picture. Four pupils were injured.

British Subject Stabbed.

Lodz, Russian Poland, April 11.—James Ratcliffe (a British subject and manager of Poznauskis cotton mills), was stabbed yesterday morning while returning from a mass celebration to commemorate the end of the strike. His assailant escaped. Two workmen were found stabbed in death elsewhere. It is supposed they were non-strikers.

Fired Nine Shots; All Missed.

St. Petersburg, April 11.—Nine shots were fired at the Governor of the province of Lihva last night as he was returning to his residence outside the town. The Governor was not hurt. His assailants escaped.

Woman to Kill the Empress.

New York, April 11.—A St. Petersburg despatch to The Herald says: "One of the women recently arrested with a number of other persons on suspicion of being concerned in the revolutionary plot, has been found in a villa at Tsarskoye-Selo and there lived a luxurious life, keeping several carriages and horses. A quantity of explosives was found in her house. Among them was a bomb which, according to documents discovered by the police, was to be thrown at the Dowager Empress when she went to the hospital, which she constantly visits. This bomb was to be thrown from a carriage."

TERRORS OF THE BOYCOTT.

When Unions Fought the Gurney Co. Business Dropped Off.

St. Catharines, April 11.—The Gurney Foundry Co. of Toronto is suing the president and secretaries of several of the local unions here for damages for alleged interference with their employees and agents, boycotting their goods by advertising them as unsafe. The company asks damages of \$5,000 from each of the defendants, \$10,000 from the unions collectively and an injunction to restrain the defendants from further interfering. The case is being tried at the Assizes before Justice Anglin and a special jury.

W. H. Carrick, general manager for the Gurney Co., swore yesterday afternoon that the unions have interfered with their business in St. Catharines, whereas in 1901 they had a trade of over \$4,000 last year, they did business amounting to only \$316.

P. O'Connor, secretary of the Plumbers' and Steamfitters' Union, and one of the defendants, admitted writing letters to the Gurney agents warning them that they had better handle "safe goods." He also wrote to various city architects and engineers to let his union asking them not to recommend Gurney furnaces.

The architects in question testified that they gave trouble they had obeyed the unions and ceased recommending Gurney goods.

C. H. Hoople, a master plumber, had been agent for the Gurney Foundry, but the unions would not let him handle the goods. His men would not work on them, as they had been warned by their union that if they did they would be fired. Hoople had to throw several good contracts for Gurney furnaces. He wanted the union to let him go on and put in a Gurney furnace for a man named Westhead who had ordered it, but the union would not consent and offered to pay him anything he was out of the contract if he threw it up. Hoople was finally put on the unfair list himself. He had a conversation one day with one of the defendants named Day, and Day had told him that if he threw the union he "would be sent against the wall in a hurry."

Justice Anglin was presented with a pair of white gloves, there being no criminal business at the Assizes.

Bishop Undergoes Operation.

Toronto, April 11.—Right Rev. Arthur Sweetman, D. D., Anglican Bishop of Toronto, was taken suddenly ill last night, after returning to his residence from conducting a confirmation service. Medical attendance was summoned, and it was found his lordship was suffering from a severe attack of heart disease. He was taken to the Toronto General Hospital, where an operation was at once performed. At 2.30 it was stated that the operation had been completed. His condition was stated to be very serious.

Fighting in Morocco.

Paris, April 11.—A despatch to The Temps from Algiers, Algeria, says it is reported there that a bloody encounter took place Sunday between the troops of the Sultan of Morocco and the rebels supporting the Pretender. The latter planned taking the strategic town of Oudja and the Sultan's forces were driven back. A serious rout was threatened when Lieut. Mongin, commanding the French frontier forces in that vicinity, opened fire with a battery of artillery, permitting the Sultan's forces to retire in order.

Found Drowned.

Poughkeepsie, N. Y., April 11.—James Barrytown, started across the Hudson River in a rowboat at that place last night with six Polanders, and before reaching the other shore the boat capsized and Barrytown and four of the Polanders were drowned. The boat was built to accommodate three.

Hanged Himself.

St. Thomas, April 11.—James Couch, for 23 years baggageman at the M.C.R. depot, committed suicide here Sunday evening by hanging himself in the woodshed. He was discovered a few hours afterwards by his wife and daughter. The cause is attributed to brooding over the loss of his position. He was 58 years of age.

The success of perovskite. "Keeping everlasting at it" brings the hoped for result.

### RUNNING RIGHTS BILL

Intercolonial Over Canada Atlantic and Grand Trunk.

Hon. Mr. Emmerson Makes a Very Short Explanation of the Bill, and Mr. Borden is Able to Show That Government Has Indulged in a Right-About Policy—Private Members Day in the House.

Ottawa, April 11.—Yesterday was a private bills day, and the House settled down to ordinary business after the strenuous autonomy debate of last week. Considerable progress was made.

Amending Railway Act.

Hon. Mr. Emmerson, Minister of Railways and Canals, introduced a bill entitled "An act to amend the Government Railways Act, empowering the Government to reserve certain powers for the Intercolonial Railway over the Canada Atlantic Railway and the G.T.R., and that the certain parties interested to be notified of such resolution." The running rights of the Intercolonial would be on the Grand Trunk from Montreal to Coteau Landing and over the Canada Atlantic from Coteau to Georgian Bay. The Government was to have the right to run through freight and passenger trains and do a local passenger business. The compensation to the Grand Trunk should be determined by the Railway Commission, their decision being subject to an appeal to the superior court, tariff rates to be fixed by the commission.

Mr. Borden remarked that when, five or six years ago, Hon. Mr. Blair brought in the extension of the I.C.R. from Lewis to Montreal there had been great expectations as to the benefits arising from the development. For a number of years the history of the I.C.R. had been one of deficits. It was claimed at that time that the extension would mean a large increase in western traffic. These hopes had fallen completely to the ground.

A Turn-About Policy.

Mr. Borden contrasted the attitude of the Government, then and now. Then the object was to reach out and get western traffic by the acquisition of the Canada Atlantic and not by acquiring running rights. That was the opinion of Hon. Mr. Emmerson when he was a private member in those days. The policy of the Government in 1903 and 1904 was that it was not in the interests of Canada to operate railways. Now a complete reversal of opinion was expressed. The policy of the Government now was, "Let us operate railways."

Hon. John Haggart declared that he was opposed to the payment of an exorbitant price for running rights, what was to be the basis on which the Railway Commission would fix the tariff? The time would come when the railways would find that it was not to their interests to reserve the power of the Government now was, "Let us operate railways."

"In regard to the question of separate schools, however, there is no change from the condition which has suited the people of the Territories for thirty years, and while the Canadian Parliament has passed a resolution on the coronation oath, the Irish home rule question and dozens of other questions of Imperial policy, the Canadian Parliament has never seen fit to introduce a bill condemning the condition of things as they have existed in the Territories."

Lightning Hits Barn.

Chatham, April 11.—The barns of Thomas Brown, Raleigh Township, were burned to the ground at 4 o'clock yesterday morning. A heavy electric storm passed over this city at 3 o'clock, and the barn was struck by lightning. Brown had \$1,000 insurance, but this will not half cover his loss.

Mr. Stoddart Improves.

Galt, April 11.—There is practically no change in the critical condition of J. H. Stoddart, the veteran actor. He continues to hold his own, however, and the members of the family are beginning to take hope.

Like a State Funeral.

Montreal, April 11.—The funeral of the late J. X. Perrault, president of the St. Jean Baptiste Society, was so imposing that it resembled a state funeral.

Whalebone is Good Finding.

London, April 11.—(C. A. P.)—A parcel of whalebone which arrived at Dundee from Hudson Strait, sold for \$2,500 per ton.

Rider Haggard.

Toronto, April 11.—Rider H. Haggard, the novelist, who is investigating a settlement scheme on behalf of the British Government, will be in Toronto tomorrow and on Wednesday will be the guest of the Canadian Club. In conjunction with officers of the Salvation Army he will no doubt propound his scheme to Premier Whitney and his Cabinet.

The Gaynor-Greene Case.

Montreal, April 11.—After some formal evidence in the Gaynor-Greene case yesterday afternoon Mr. McMaster, K. C., declared the case for the prosecution closed. Objection was made by the defence to the admission of the record of proceedings, which took place in New York and argument will take place on the objection tomorrow.

Died in His Boat.

Napanee, April 11.—Royal Bowe, who lived on the high shore of Prince Edward County, was in Deseronto on Saturday, and started for home in a row boat Sunday. He was found dead in the bottom of the rowboat about two miles from Deseronto. Death is supposed to have resulted from heart disease.

They Drowned Together.

Sault Ste. Marie, April 11.—The bodies of James Pappas and Frank Dagle, who were drowned through the ice of Point Aux Pins last week, have been recovered. They were in a death clutch and evidently went in together. Pappas had \$300 in money and diamonds on his person.

Will Lose His Deposit.

Montreal, April 11.—The election yesterday in St. James' division resulted in 3,420 ballots being cast for Hon. Lomer Gouin, and 504 for Alex. St. Martin, his opponent, the latter, of course, losing his deposit.

WATER AT ERIEAU LOW

Archie Park says that the water at Erieau is very low, and he walked all around the boat houses. At Sandy-Knowe there is 20 feet of beach between the boat house and the Eau. Last year the boat house was an island surrounded by water. The water took up a greater part of the afternoon, and nearly all of the evening session.

Read a Third Time.

The evening session was taken up by the private bills in committee of the day. A number were read a third time. The bill allowing the issue of the \$16,000,000 stock by the Canada Atlantic was reported, and at Mr. Haggart's request the third reading was allowed to stand, as it was understood that Mr. Borden, who was not in the House, wished to say something regarding it.

To Pay Witnesses Sooner.

One public bill was considered in committee, introduced by Gus Porter, of West Hastings, to amend the criminal code so as to compel the authorities to pay witnesses subpoenaed in cases of summary conviction their travelling expenses before trial. It was allowed to stand for further consideration.

The House arose at 12.15 a. m.

THE NEW MINISTER.

Does Not Believe Autonomy Bills Claim of Human Wisdom.

Winnipeg, April 11.—Hon. Frank Oliver, M. P. for Edmonton, who has been appointed to the vacant portfolio of Minister of the Interior, to replace Hon. Mr. Eiton, reached the city yesterday, on his way from Ottawa, to contest his riding in the bye-election which is to be held May 2.

Mr. Oliver does not consider that the election there will constitute a test of public opinion on the separate school issue, which has been forced upon the Dominion Government.

In an interview Mr. Oliver said: "Though I am in accord with the provisions of autonomy as laid down in the measures submitted by Sir Wilfrid, I do not say that the bills are exactly as I would have drafted them, or that they are the climax of the human wisdom."

Mrs. Wm. Simpson, Gray street,  
passed away last evening.  
Ornament four homes with the  
finest pieces of China, at imitation  
prices, at VonGuten Bros. to-mor-  
row.  
G. K. Atkinson was taken serious-  
ly ill this morning about four o'clock.  
He is still to-day in a serious  
condition.  
Jack Hinnecker and Geo. Rhonson  
left last evening for Alberta, N. W.  
T., where they will take up land and  
settle down on homesteads.  
The Board of Works have ordered  
the windbreaks taken off the bridge.  
The work was done to-day, as one  
of the boats goes out to-morrow.  
P. J. Henry, representing the Dyer  
Cigar Company, London, is in the  
city. Mr. Henry was a resident of

### DEATH'S CALL

O. L. Lewis this afternoon received  
a telegram with the sad intelligence  
of the death of his mother, Mrs. T.  
L. Lewis, at Toronto this morn-  
ing.

The deceased lady has not been well  
for some time, and Mr. Lewis spent  
last Sunday with her in Toronto. He  
has the sympathy of many Chatham  
friends in his bereavement. The  
deceased lady had many Maple City  
friends, who held her in the highest  
esteem.

### Do You See Specks

And spots before your eyes and imagine  
you are simply bilious? Do they continue  
in spite of ordinary curative remedies?  
Does your headache constantly or more or  
less intermittently? All these ailments may  
be due to stomach or liver trouble; but  
the chances are that once your eyes are  
set right by well adjusted glasses or spec-  
tacles, the spots and specks, the head-  
aches and heart aches will miraculously  
disappear. At all events it's worth trying,  
isn't it, when the trial costs you nothing  
whatever here!

## DEFIANCE CO.

Prosperous Company Being Estab-  
lished in the Maple City—  
Bright Prospects

Chathamites have an example of  
what an up-to-date industry can do,  
in the Defiance Iron Works. This  
Company have secured temporary  
quarters in the old harvester works,  
where they will conduct their busi-  
ness until their new factory is built  
and is in running order.

A Planet representative called at  
the factory and was surprised to see  
the business aspect of the whole con-  
cern. They have been only two  
months in their present quarters  
and have already 15 skilled workmen  
at work. They have a lot of their  
machinery installed and another  
consignment is expected in the course  
of two weeks, which will mean the  
addition of several mechanics to  
their staff of workmen.

They have now 35 marine engines  
in the course of construction and  
have also orders for ten launches  
which they are working on. It is the  
intention of the company to manu-  
facture gasoline engines for both  
stationary and marine purposes.  
They will also at a later date go in-  
to the manufacture of other lines of  
iron work.

Ald W. S. Marshall is the manag-  
ing director and R. J. Barnes expert  
mechanist and superintendent of the  
company. Mr. Barnes, in conversa-  
tion with The Planet, said:

"We have good temporary quarters  
here but we expect to start soon  
on the construction of a \$25,  
000 plant. We will employ about 200  
men in our factory when we get  
running well and we will add to  
our staff here as our machinery ar-  
rives. Lookmen are given the pre-  
ference, but of course we have to  
employ men who can do the work.  
We expect to be established in our  
new factory this fall."  
The Defiance Iron Works is in the  
hands of solid business men and  
should turn out to be one of the most  
prosperous institutions of its kind in  
Ontario.

### POLITENESS WITH DISCRETION

An Older Woman's Comment on Young  
People's Manners.

Politeness should be tempered with  
discretion; otherwise it is apt to be a  
bore, remarked an older woman, com-  
menting on what several friends of  
hers among young people, said. The  
manner among young people, she  
London Star. Too much manners is al-  
most as bad as no manners at all, she  
continued. That is to say, it is ever  
more annoying. For instance, if I go  
into a room where several friends of  
mine are sitting chatting, I think  
it is but right and proper that they  
should rise to their feet as I come in  
and give me a greeting, but that is  
enough. To have them bob up every  
time I leave my chair irritates me. I  
like to move about as I like, without  
feeling that I am stopping the conver-  
sation and interfering with their plea-  
sure.

Treating a middle-aged woman with  
too much solicitude is also, I consider  
unpleasant. It emphasizes her age. I  
do not like to have my places found  
for me in the hymn book, or to be  
helped carefully into a carriage. At-  
tention to an older woman must be un-  
obtrusive to be agreeable. There is a  
tendency nowadays to overdo politeness  
with girls who pride themselves on  
serving upon their good manners, which  
if they only could realize it, do not  
please, for the reason that they are too  
effusive.

"How about Violet W.?" queried a  
young woman, who, with her mother  
was making up a list for a house party.  
"Oh, don't ask that girl," ex-  
claimed the latter. "She is a me-  
chant. She is always following me  
about to wait upon me, as if I were  
an old, feeble woman, that had to be  
tenderly taken care of. I almost pre-  
fer that that boyish Miss C., who  
has no manners at all!"

Edinburgh Castle.  
The Castle of Edinburgh was un-  
doubtedly the foundation of the old  
town of Edinburgh and is the oldest  
building in it. Though there is no  
doubt that it was rebuilt by Edward  
a Northumbrian fortress in 636, for  
nearly four centuries later its history is  
obscure, and only becomes clear again  
with the reign of Malcolm III. in 1004.  
One of the great names in connection  
with it is that of St. Margaret, the  
pious and beautiful Queen of Malcolm  
III, whose little chapel in the castle  
is perhaps the oldest ecclesiastical  
monument in Scotland. It was restored  
in 1282. In subsequent centuries the  
castle was repeatedly taken and retaken  
by Scots and English, being last taken  
by Cromwell in 1650. In 1745 Prince  
Charles Edward Stuart attempted to  
since that date it has been undisturbed  
as a garrison of the British Govern-  
ment.

### THE BUDGET DEBATE.

Hon. Col. Matheson Will Deliver His  
First Speech of This Sort To-day  
—The Estimates.

Toronto, April 11.—The Legislature  
took a day off yesterday. To-day Hon.  
Col. Matheson delivers his budget  
speech, and from now on, on Govern-  
ment days, Tuesdays, Wednesdays and  
Thursdays, there will be night sessions  
of the House.

The detailed estimates for the year  
were handed out by the provincial treas-  
urer yesterday. As shown by the ex-  
tract of expenditures which was laid on  
the table Friday, the total amount re-  
quired is \$5,073,235, of which \$4,545,  
845.25 is for current expenditure, \$597,  
644.77 on capital account, and \$156,300  
for other purposes. The expendi-  
tures last year amounted to \$5,267,453.  
All the departments show increases for  
this year except the education depart-  
ment, which shows a decrease of \$2350.  
The department of agriculture,  
which shows a decrease of \$400. The  
amount required for legislation is \$137,  
950, as compared with \$190,550 a year  
ago, there being a decrease of \$52,600 in  
the indemnity and mileage paid to mem-  
bers. The assistant clerk receives an in-  
crease of \$100, and the seasonal writ-  
ers and messengers call for an increase  
of \$100. The expenses of the select  
committees on agriculture and public  
utilities last year amounted to \$2700,  
and this will not be required this year.  
There is an increase of about \$5000 in  
the cost of the administration of the  
provinces. Allowances to judges of the  
supreme court require \$17,000, as com-  
pared with \$15,000 a year ago.

For education there is asked \$7,198,  
845.51, an increase of \$10,815.23. Some  
of this increase is due to the trans-  
ferring of the institutes for the deaf,  
dumb and blind from the public insti-  
tutions and maintenance account. The  
Bellevue Institute requires \$50,000, and  
the Brantford Institute \$24,825 for  
public and separate schools, the amount  
required is \$531,358.06, as against \$512,  
638; there is an increase of \$18,720 for  
high schools and collegiate institutes.  
An increase of \$2,883.33 for the depart-  
ment of libraries and museums; an increase  
of \$30,690 for the department of  
Science; a decrease of \$3800 for public  
libraries, art schools, etc.; an increase  
more annoying. For the provincial university  
of \$21,750; for the provincial university  
of \$10,000 towards rebuilding the Ottawa  
University. This vote was promised  
by the late government.

The sum of \$12,000 is included for the  
purchase of sub-targets for cadet corps  
under contract of 1904.

Salaries and maintenance of the new  
Macdonald Institute for girls at Guelph  
an expenditure of \$25,000. This is a new  
vote, and under the head of agriculture  
there is a new item of \$25,000 for pre-  
paring and equipping a building for farm  
mechanics and implement demonstra-  
tions.

Under public institutions maintenance  
there are several increases. For the  
Woodstock Asylum there is a new vote  
of \$15,000.

For hospitals and charities there are  
several new votes: \$15,000 for the Na-  
tional Sanatorium for Consumptives, and  
\$4000 each for county houses of refuge  
for Halton, Haldimand and Victoria.  
The widow of the late James Martin,  
late of Hamilton Asylum, killed by a  
patient, is granted \$500. Gratuity total  
\$20,000, as compared with \$19,950; for  
the enforcement of the Game Protec-  
tion Act, \$5000 is required, as compared  
with \$6000; for the statue of the late  
lieutenant-governor Sir Oliver Mowat,  
\$5000; memorial to South African veter-  
ans, \$2500; reprinting statutes on ac-  
count of Toronto fire, \$2000; honorarium  
to assistant King's printer, on account  
of extra work re fire, \$100. The cost  
of elections is \$50,000, an increase of  
\$50,000.

Notice to Quit.  
There will be very little comfort for  
the magistrate at Sault Ste. Marie in  
the estimate. His salary has been cut  
from \$1400 to \$600. The magistrate is  
W. A. Quibell and the cut is tanta-  
mount to a notice to quit.

Col. Matheson will have a detailed  
statement of estimated receipts ready  
for the house to-day.

## YOUR EYES

Are surely worth more to you  
than the price of a pair of glasses.  
If you value your eyes have them  
properly fitted at once. Delay  
and your eyes may become so bad  
that no glasses will help them,  
then you will regret it the rest  
of your days. This is true every  
word of it. Do not trust travelling  
Opticians and peddlars to fit you  
with glasses. They get your  
money and you get the experience.  
This we know because it is told us  
by people that come to us for  
glasses after having bought of the  
Spectacle peddler. Our Opti-  
cian is a graduate of the Detroit  
Optical College and is fully  
equipped with all the modern ap-  
paratus. We will examine your  
eyes free of charge, at the  
sign of the Big Clock.

### BLLENHEIM

April 11.—W. Hawgood, of Detroit,  
is visiting his parents here.

At the evening service on Sunday  
in Trinity Church, Miss Chas. S. Ska-  
don sang very sweetly that beautiful  
sacred song, "Son of my Soul," ac-  
companied by the organist, Miss Lab-  
adie. Mr. Telford Rodney, played  
the organ, and the singing volun-  
teers.

Work has been commenced in the  
building line by J. J. Cookson, who  
is working at the foundation of J.  
W. Shillington's new residence.

Mr. C. Brownlee, left last evening  
for Slavey, Alberta, where he in-  
tends to remain. Mrs. Henneker and  
child will follow shortly.

Mr. C. Brownlee has left here and  
intends to reside in Bothwell.

The marriage of Miss Margaret  
Ludlow Grant, second daughter of Mr.  
and Mrs. W. J. Grant, and Mr. Chas.  
W. Brown, Eriean, was solemnized at  
the residence of the bride's parents,  
Sheldrick St., on Thursday evening  
last. April 7th.

Only the immediate  
relatives of the contracting parties  
were present. Precisely at five p. m.  
the bridal party entered the room  
for the strains of that beautiful  
hymn, "Perfect Love," which was  
sung by the bride's brother, W. H.  
Grant, and took their places under  
an arch of Smilax. The bride was  
given away by her father, and was  
gowned in her travelling suit of  
pink and white muslins. The  
bride's gift to the bride was a  
handsome watch and chain. After  
all had partaken of the wedding  
supper, Mr. and Mrs. C. W. Brown  
left on the 7.30 train for a short trip  
to Detroit amidst the best wishes  
of a host of friends.

Mr. and Mrs. Robt. Nichol and  
family and Miss Dennis have return-  
ed from their trip to the States and  
are here. It is rumored that Nichol  
Bros. have bought out J. Henderson.

### SATCHEL OF THE SATELLITE

It was a dandy growing rain.

To have everybody using city wa-  
ter is the main purpose of the Com-  
missioners.

It has been suggested that all the  
stores in the city shut up for one  
afternoon a week during the sum-  
mer.

Perhaps no hosts will want to go  
through the bridges until the Board  
of Works makes up their minds to  
take down the bill boards.

I've been wondering how much  
longer those bill boards could be left  
on the bridge without their being  
captured by W. W. Scane.

The papers yesterday said that  
Togo had been trapped between the  
two Russian fleets. That recalls the  
time that W. H. Harper and his  
friend, Sam Callaway, went con-  
hunting in Northern Michigan. They  
tried something, and as the tree was  
too big to cut, after some discussion  
W. H. led Sam to believe he ought  
to go up and shake that con out of  
the top branches. The two thought  
they surely had that wild animal  
trapped. Sam started up and just  
got nicely started up when the animal  
started down to meet him. It  
was a wild cat. Sam and the wild  
cat came down together. W. H.  
didn't realize what the trouble was  
but he was game.

"Hang on, hang on, I'm coming to  
help you hold him," shouted W. H.  
as he hastened to his friend's assist-  
ance.

"For heaven's sake," yelled Sam,  
"get a gun and help me let go. I  
don't want to hold him."

I think I hear Rojevsky calling  
the other hosts to come and help him  
let go.

SCOTT'S EMULSION

We don't put Scott's Emul-  
sion in the class of advertised  
cure-alls; it doesn't belong  
there. We hardly like to use  
the word "cure" at all, but we  
are bound to say that it can be  
used for a great many troubles  
with great satisfaction. Its  
special function is to repair  
the waste of the body when  
the ordinary food does not  
nourish, and this means that  
it is useful in many cases  
which are indicated by wast-  
ing.

We'll send you a sample free.

## REASON NO 26 WHY YOU SHOULD USE Red Rose Tea

Because it is Reliable.

Some one has said: "A single fact is worth a ship-load of argument."

A few facts: I introduced this tea to the public about ten years ago. In that short time the business has grown to such proportions that we now occupy the largest Tea warehouse in Canada.

This enormous business has been built up without extensive advertising.

The merchants who commenced handling Red Rose Tea ten years ago are the most enthusiastic in its praises to-day.

The merchants who sell it, the people who drink it, have found that it could be relied on.

The brand, "Red Rose Tea," is accepted everywhere as a guarantee of the highest quality, and those who drink it are its best advertisers.

Ask some of your friends about it.

## MADAM ZOUFFLE

By Hubert McBean Johnston

Copyright, 1904, by Hubert McBean Johnston

"Phyllis," I said reprovingly, "I don't like it."

"Don't like what?" she questioned in mock surprise.

But I was not foolish enough to go on and tell her what I didn't like. She would only have laughed at me if I had. I'll admit it's all very nice to see a girl help with the decorations, and, for my part, I like to see them do it. It's proper that a girl should take an interest in the cause of charity, but when it comes to every fellow about the place wading to hold the tacks in the dark corners it seems to me that it's time to call a halt.

"You don't think I'd even let one of them hold my hand, do you?" asked Phyllis icily.

"No—but," I stammered.

"Perhaps you mean to insinuate that I'd hold theirs, then?"

Phyllis was holding her nose very high indeed. There was only one thing I could do and retain my dignity. I must get very angry.

"I'm sure you may if you want to," I retorted, with affected indifference.

Phyllis laughed. I was quite sure I was going to get into some sort of trouble. I always do when Phyllis laughs just that way.

"Thank you, sir," she replied, with a deep courtesy. "I will avail myself of your kind permission this evening."

The place looked quite different at night with all the lights going. And really the booths were very pretty. I couldn't see Phyllis anywhere, though. Then Grace Rawshaw came along and took me in tow.

"You haven't had your fortune told," she informed me, "and you really must. Besides, I'm curious to hear it."

"Who tells them?" I questioned.

Grace looked at me in an awfully funny way. It was stupid of me not to have found out what parts the girls were to take. I'm morally certain she expected me to know.

"Why, Madam Zouffle," she said; then she giggled all the way to the booth.

You never saw such a jawn in all your life. I'm sure every fellow I knew was there.

"You'll have to wait your turn," Grace told me; then she went to look

"PERHAPS YOU CAN TELL ME IF I LOVE HER."

for more victims. I found out afterward that this was what she was supposed to do.

You couldn't catch a glimpse of Madam Zouffle. It was a long time to wait, too, until all that crowd got through, and I wandered away twice. Each time Grace Rawshaw came and took me back.

Finally I got inside. It was a little tent all hung with red, and there was just room for you to sit on a camp stool in front of the fortune teller. But even then you couldn't see Madam Zouffle. She was all wrapped up in one of those fluffy things like a Moorish woman, and when she spoke her voice was deep and masculine. I was sure that part was affected.

She reached out and took my hand.

"You have quarreled with your lady-love," she said.

"Yes," said I, vaguely wondering how she knew.

Then I happened to glance at her hand. There were no rings to identify it, but the third finger on her left was just a little red, as though there might have been one there not so long ago. And then—well, I may be a duffer, but I knew. There's only one girl in the world that has a hand just like that.

"Can you tell me her name?" I asked, slowly regaining my wits.

Madam Zouffle consulted the stars a bit and then the lines in my palm.

"It starts with a P," she said at length—"P—Ph—it looks like Phyllis."

"You're right," I told her. "Is it a very serious quarrel? I think a very great deal of her, you know. Can you tell if she's deeply offended?"

"I think she is," said Madam Zouffle. "At all events, she ought to be. You have treated her very badly."

"What have I done?"

Madam Zouffle studied the lines very carefully.

"You have practically given her to understand you don't care for her at all. You have told her you don't care if she holds the hand of as many men

as she wants to. That sounds as though you were giving her liberty to flirt with as many men as she pleased."

"Yes," I said with the rising infection. I didn't give assent to anything. "And is she doing it?"

"She has held the hands of a great many of the gentlemen present this evening."

There was a suspicious little quiver in Madam Zouffle's voice. It sounded almost like a suppressed laugh.

I assumed my most dignified air. "And the men—did they like it?" I queried.

Madam Zouffle could not tell. The lines were not sharply enough defined.

"They'd better," I said fiercely. "I'll jolly well punch their heads if they don't. Besides, it's the last chance they'll have."

Now, for a mere outsider and just a common fortune teller I must say that Madam Zouffle took quite a remarkable interest in my affairs.

"Why," she asked—"why is it their last chance?"

"Because I'm going to tell her tomorrow that she must stop," I replied grimly.

There was an odd glitter in Madam Zouffle's eyes.

"And will she do anything you say?" she asked. "She must be well trained to obey your 'Lie down, Carlo!' every time."

"She'll do it if she loves me," I said. "By the way, I haven't asked you. Does she love me?"

Either the light was very dim or there was something wrong with Madam Zouffle's eyes. The question necessitated her bending over and making a very close scrutiny of my palm before she was able to answer. The warm, soft folds of her hair were directly in front of me, and I kissed them ever so slightly. She didn't feel it.

"I don't know," confessed Phyllis—I mean Madam Zouffle—at last. "It looks partly as though she does and then again just the least little bit as though she doesn't. I—I think she does—sometimes."

Madam Zouffle was not looking at me. She was still examining my hand ever so carefully. So I ventured again.

"What is there about me," I asked, "that she does not like—sometimes?"

"You don't always treat her very well," said Madam Zouffle. "Your hand shows that you are very selfish."

"No; not that. But you always think of yourself and your own personal convenience first."

Now, you know just as well as I do that this was a libel. Ever since I have known Phyllis—But what's the good of arguing about it? Phyllis knew it too.

"If Phyllis were here," I remarked, "if she could only hear you say that, you would have an opportunity of knowing how utterly false it is. It's true," I went on magnanimously, "I may have my fanitis, but I'm quite convinced that the dear girl would not say that was one of them."

Mme. Zouffle did not reply. She seemed to have worse eyesight than ever.

"What else can you see?" I questioned. "Perhaps you can tell me if I love her."

"You think you do," answered Mme. Zouffle.

"When I really do not?"

"When you really do not?" The fortune teller was very positive in her tone.

"Wrong again," I replied. "You're a very poor hand at your business. If you've told the others here this evening no more truths than you've told me, I actually think you ought to be up for obtaining money under false pretenses."

"I can see several other girls here on your hand," argued the fortune teller. I laughed.

"Excuse me, please," I murmured, "but I do a bit at palmistry myself. Now, right here in your hand"—I turned her palm over—"I can see my number of heartless flirtations. There seems to be one in progress now, in fact."

The palmist looked up into my face and I guess she must have seen that I knew her. But she wasn't very certain. I never winked an eyelash.

"Now," I went on, "this dimple shows—why, how very odd that you should have a dimple just like that! But I think that clinches my argument, for I know a girl who has a dimple in her hand just like that, and she's—"

And then some one boxed my ear. I looked up and saw that Phyllis' eyes were twinkling.

"You're such an old stupid, Jack dear," she said.

**Moscow's Famous Church.**

There can be little doubt that the Church of Our Saviour in Moscow is supreme in its magnificence. It was erected to commemorate the deliverance of Moscow from the French and cost about \$5,000,000 by the time it was finished. The building is of white stone, crowned by a gilded dome and cupolas, on which there is nearly a thousand pounds weight of gold. The interior decorations, which are a wonderful combination of precious stones, marbles, gold and silver, are of unparalleled splendor. On the walls different colored and rare marbles rise from a dado of Jasper tier on tier, the whole surmounted by a magnificent frieze of frescoes and carvings. The building will hold 10,000 worshippers and covers two acres of land.

## VARICOCELE & STRICTURE

No other disease is so prevalent among men as Varicocele. As it interferes with the nutrition of the sexual organs it produces weakness, loss of semen through dependency, backaches, pain in the joints, aching in the back, nervousness, debility, loss of vitality, pallor of the face, constipation, and a combination of these results in complete LOSS OF MANHOOD. Thousands of young and middle-aged men are troubled with STRICTURE. If you have reason to believe you are afflicted with it, don't neglect it. It will ruin you. Don't let doctors experiment on you by cutting, stretching or tearing. Our NEW METHOD TREATMENT dissolves the stricture (tissue), hence it disappears and can never return. We cure Varicocele and Stricture without operation or loss of time. This treatment may be taken at home privately. Send for our Free Illustrated Book on VARICOCELE and STRICTURE. WE GUARANTEE TO CURE OR NO PAY.

## Kidneys & Bladder

All sexual complaints affect these organs. Beyond the kidneys are a great source of disease. Have you aching or weakness over the small of the back, tendency to urinate frequently, deposit in urine, chills of the body or feet, a drowsy feeling in the morning. Don't neglect your kidneys. Our NEW METHOD TREATMENT is guaranteed to cure any disease of these organs or no pay.

### Distilled Sunshine

Did you ever have a headache that made Sunday feel like wash-day?

Perhaps you have been drinking inferior teas.

No, you don't need medicine—all you need is a package of Grand Mogul Tea.

This tea combs the kinks out of the nerves. Why? Because it is rich in theine (the flavoring essence) which is just concentrated sunbeams. Grown on the high table lands of Ceylon, this tea contains the elements of a pure nerve-food.

### Grand Mogul Tea

There are no other teas "just as good" as Grand Mogul, 25c, 30c, 40c and 50c per pound.

There are book stores in Canada that do more to destroy the human intellect than half a dozen cigarette stores in the same town or city.—Canadian Magazine.

### THE HAPPINESS OF HOME.

Very largely depends on the mother's disposition; if she is animated and bright, everyone is happy; but if she is nervous, irritable and does everything goes wrong. Bright, cheery women usually use Ferrozone, the greatest health-maker known. By acting through the blood, Ferrozone is able to reach all the organs that need assistance; it establishes regular and healthy action of all functions, builds up the general health, fortifies the system with a reserve of energy that defies disease. Don't put off—Ferrozone costs only 50c. at any drug store; get it to-day.

### TERRIBLE BACK PAINS.

They fairly agonize your life. Something powerful and penetrating is needed. Doctors know of nothing so swift to relieve as Nerviline, a strong, penetrating liniment made of cream just such pains as yours. Nerviline is very concentrated, about four times more powerful than ordinary liniments. In the worst cases Polson's Nerviline is extraordinarily good. All muscular pain flees before it. Nearly fifty years in use—a good recommendation, surely.

Manage as we may, misery and suffering will always cleave to the border of superfluity.

Wash greasy spots, pores or pans with Lever's Dry Soap a powder. It will remove the grease with the greatest ease. 3c.

Don't brag about your future if your past won't stand close scrutiny.

Coughs, colds, hoarseness and other throat ailments are quickly relieved by Crescents Tablets, ten cents per box. All druggists.

### PARIS FASHIONS.

Checked Tulle and Vile With Soft Materials—Louis XVI. Styles.

The pointed Marie Antoinette bands are now so elongated that the corsage itself is arranged into a deep point in the front. The Louis XVI. tendency is clearly visible in modes as well as in fabric, and the tints of pale blue, pink and yellow are the same as in this day.

Waistcoats of flowered material are to be seen on many of the more elaborate tailor made.

The new coats are trimmed with flat silk braids and beautiful enamel buckles and buttons.

A great deal of black chintilly lace is being used over foundations of

white, and it is held in at the waist with a deep pointed belt of satin.

Black and white dresses are often relieved with a wide belt of pale blue and touches of the same color on the yoke.

Very fine soft cloths, velles and woolens, which drape and fall well, adapt themselves to the full skirted styles which are now prevalent. The new soft tulle, however, are gaining a foothold with Parisiennes. They come in tiny checks in lavender and white or pink and white, such as were worn forty or fifty years ago.

The long slender effect has come to stay, and nearly every garment of fashion suggests to us the 1830 period. The picture shows a blue cloth dress trimmed with red embroidery and having undersleeves of red and blue mul.

JUDIC CHOLLET.

SKIRTS WITHOUT TRAINS.

Tailor Made for Street Wear—Short Coats the Vogue.

Silk tailor made will be about the smartest thing this summer. They will appear principally in navy blue, black and gun metal gray. The jackets will hang loosely and be made up with flat folds simulating tucks. The skirts will just clear the ground and will be quite full with a trimming of folds simulating tucks, as on the waist. With such a costume fancy buttons either of cut steel or of handsome enamel are used.

Some Years Since He Used Them Now And He Has Had Good Health Ever Since—Story of Well-Known New Brunswick Man.

Lower Windsor, Carleton Co., N. B., April 10.—(Special).—Yes, I tried Now And He Has Had Good Health Ever Since—Story of Well-Known New Brunswick Man.

The speaker was Mr. T. H. Belyea, postmaster here, and one of the most highly respected men in this part of the country. Asked to give his experience with the great Canadian Kidney Remedy Mr. Belyea continued:

"I had been troubled with my kidneys for a number of years. I tried several kinds of plasters and o-b-ber kinds of medicines, but did not seem to get any lasting benefit. Hearing of Dodd's Kidney Pills so highly recommended I decided to try them and they made a complete cure of me. That is two years ago now and as I said before I have had good health ever since I used Dodd's Kidney Pills."

Dodd's Kidney Pills cure once and for all. There is no stage or form of Kidney Disease that they do not cure completely and permanently.

For Hardwood Floors.

Half a gallon of boiled linseed oil heated in an old iron saucepan until almost at the boiling point when applied to an oiled hardwood floor with a clean brush will prove to be an excellent cleanser. Three coats should be put on the first time and then one coat every six months to keep the floor in good condition. Such a floor is excellent in a kitchen, as it only requires wiping with a damp cloth once a week.

A man talks about owning his business. But, as a matter of fact, his business owns him. His whole life is regulated by the demands of the business. The time at which he rises, his breakfast hour, the time given to meals, are all determined by business obligations. He rushes through lunch because he "can't spare the time from business" to eat leisurely. He won't take a rest because he is needed at the store or office. He is in fact an absolute slave to business. The results which follow this slavery are to be seen on every hand. Men dyspeptic, irritable, nervous, with drawn faces and hollow eyes, sit at the desk or stand behind the counter until they collapse in a fit of sickness, or are taken away by heart failure. Those who cannot escape the exactions of business will find a friend in Dr. Pierce's Golden Medical Discovery. It strengthens the stomach, increases the action of the blood-making glands, increasing the vitality and physical vigor. It makes men strong and prevents those business break-downs which so often terminate fatally.

The instinctive feeling of a great people is often wiser than its wisest men.

Enblem of the Red Cross.

The selection of the emblem of the Red Cross Society was a compliment to Switzerland, which country had announced her interest in humanity by officially issuing invitations to the nations of the world to meet in conference and establish rules for the government of civilised communities when engaged in warfare.

The national flag of Switzerland is a white Greek cross on a red ground, and the colors of the Red Cross flag were simply reversed.

By the terms of the Red Cross treaty the hospital flag of every nation must be a red Greek cross, on a white ground, and every person, ambulance, or other essential of the service must be so designated.

And this new development, it seems, is not mere vivid imagination. Sania-Dumont has made his experiments, proved his case.

"The balloon envelope of this aerial yacht, as I may call it, is being sewed. Its car is already built. Its boiler and condenser are being completed. Its motor is ordered. Its propellers exist. And very soon the aerial yacht will start on its first cruise."

"Beneath an egg-shaped balloon will be a small cabin, like a little house with a balcony window running half its length on each side.

"For as there will be no darning up into the rigid solidities above the cabin, the air will be kept in a proper handling of the faucets will secure us the level altitude we desire, and we shall float on, watching the great map of Europe unfold beneath us!"

"We shall watch the stars rise. We shall hang between the constellations and the earth. We shall awake to the glory of the morning."

"So day shall succeed day. We shall pass frontiers. Now we are over Russia. Here is Vienna."

And now that it is morning again, let us ride on this breeze as far as Constantinople!"

"This new aerial pleasure yacht which Sania-Dumont is building will have no great speed, perhaps nine to ten miles an hour, enough to find a northerly current, and by it reach the Pole."

The inventor would, of course, prefer a different matter. It would be 220 yards long, and have thirty propellers, each worked by a petrolum motor of 100 h. p., giving a speed of over sixty miles an hour. It is a great possibility, yet Sania-Dumont works it out to the last inch of Lyons silk.

Art and Eggs.

"John S. Sargent, when he was last in America," said the art editor of a New York magazine, "spent one day in the gallery of a certain millionaire."

"This millionaire's gallery was large. It included, perhaps, a thousand pictures, and the pictures had not been collected with discretion. Many of them were bogus, and those that were genuine were not at best, worth much."

"In silence Mr. Sargent walked through the gallery. Now he paused before this painting, now before that. But he said nothing. Not a word."

"The millionaire, alarmed at this silence, became very valuable over his pictures. He pointed out their merits in the eloquent tones of an art catalogue, and each of his sentences had an interrogative inflection—at the end of each he paused, waiting for Mr. Sargent to answer. But the great painter continued silent."

"Finally, in despair, the millionaire said: 'At least you will agree that my collection is a tolerable one, won't you?'"

"Tolerable? Yes," Mr. Sargent answered. And he added, with a faint smile: "But what would you think of a tolerable egg?"

Traits of Indians.

The Indian believes when a man is so unfortunate as to lose an eye he is entitled to two wives, and he generally gets them.

The wolf has a regular name and is never mentioned as a wolf, but is accredited with having a soul and is considered almost human.

An Indian never goes on a hunt soon after attending a funeral, knowing that some will detect whereabouts readily after being at a funeral.

The medicine man always takes charge of all in camp when on a hunt. He places his medicines in the ground with great pomp before building his campfire. The fire is never removed while the hunt is in progress.

Knowing that a shot through the milt of a deer is fatal, the Indian always waits until this part before he eats his supper after bringing in the carcass.

### AERIAL BATTLESHIPS.

Visits to the North Pole—What the Airship Will Do.

Suppose that I consider it quite possible to visit the North Pole in an airship?

"Suppose I predict that, at no distant date, aerial cruisers will threaten fleets, make war on submarine boats, and stampede army divisions?"

"Suppose I tell you that I hope, as early as the coming summer, to give something to the impetus remaining needful to the aerial effort that will bring such things to pass in Europe?"

In these remarkable words, M. Santos-Dumont begins, in the March number of the "Scientific Review," an article on the future of airships, which takes a strange and even thrilling grip of the imagination.

The twin enemies of ballooning are condensation and dilution. They have hitherto made it impossible for a balloon to stay much longer than twenty-four hours in the air.

The world's record is thirty-six hours. If a cloud makes the sun the gas in the balloon cools and condenses, and ballast has to be thrown out. The cloud vanishes, the balloon dilates under the heat, and gas has to be released. Thus the time soon comes when the balloon ceases to be able to carry its car.

The Problem Solved.

The twin enemies Santos-Dumont has vanquished.

How is it done? When the gas is condensed he re-heats it by means of steam. He carries, let us say, 24 lbs. of water. With one kilogramme (2.2 lbs.) of petroleum he turns this into steam, which dilates the gas to such an extent as to produce 36 lbs. of new ascensional force.

This steam does its work through the medium of aluminium tubes inside the balloon. It cannot mingle with the gas which it re-heats and it cannot injure the fabric of the balloon envelope. And when the steam has done its work it comes out of the other end of the tube in the form of water. There is your 24 lbs. of ballast back again.

"The twenty kilogrammes (or more) of water remain always in a part of the original vessel, the 'water balloon,' as M. Santos-Dumont, 'yet each time I send it round the circle at the cost of one kilogramme of petroleum I gain temporarily thirty kilogrammes of ascensional force.'"

"If the ordinary spherical balloon can stay twenty-four hours in the air with a small quantity of sand ballast, I am able to stay thirty days in the air with the same quantity of petroleum ballast."

New Airship.

And this new development, it seems, is not mere vivid imagination. Sania-Dumont has made his experiments, proved his case.

"The balloon envelope of this aerial yacht, as I may call it, is being sewed. Its car is already built. Its boiler and condenser are being completed. Its motor is ordered. Its propellers exist. And very soon the aerial yacht will start on its first cruise."

"Beneath an egg-shaped balloon will be a small cabin, like a little house with a balcony window running half its length on each side.

### WORKED CARNEGIE

"I was up at Palmerston at an inquest," remarked Archie Skirving, claims adjuster for the Pure Marguerite, "and I was very forcibly struck with the enterprise of that town. They got \$10,000 from Carnegie to build a library, and built a combination council chamber, lock-up, market and library. The cost of maintenance is about \$800 and they have one of the most up-to-date public buildings in Ontario. There must have been something wrong with the Chatham people when they couldn't finance their market like they did in Palmerston."

John H. Snell, foreman of the cooper shop of the Canada Flour Mills Co., was badly scalded this morning. A steam pipe used for thawing out ice in the stable during the winter came loose and the steam struck Mr. Snell on the leg. He was very badly scalded from his thigh down and was removed to his home on Lorne avenue.

### HONORED HIM

Thamesville Tributes to the New Governor of Kent County Jail—A Worthy Citizen.

Prior to their departure for Chatham, Mr. and Mrs. John Davidson were kindly remembered by their friends. Last week they were presented with a large mantle clock by Rebekah Lodge, No. 51, and on Thursday evening last Mr. Davidson was presented by Thamesville Lodge, No. 157, I. O. O. F., with a veteran's jewel suitably engraved. On both occasions a banquet was held and very kindly worded addresses presented. On Monday evening the congregation of St. James' Presbyterian church met and during a program of speeches, songs, etc., Mrs. Davidson was presented with a handsome quarter cut oak secretary and Mr. Davidson with a Morris chair of the same material. Mr. Davidson has been for years leader of St. James' church choir and a valued member, and his departure means a distinct loss. As a citizen he has always been active, and while we are loath in seeing him leave, we congratulate him on his appointment as county jailer, a position which we are sure he will fill with credit to himself and county.—Thamesville Herald.

### IS FIXING UP

Ald. Potter, chairman Parks and Cemetery, says that an effort will be made to make the parks attractive spots this year. Tecumseh and Victoria parks have been seeded where needed already and flowers will be planted as soon as the weather permits. The old well in Victoria Park has been filled up and the spot made attractive. A strong effort is being made to put the cemetery in good shape. Two men are at present employed and the roads will be scraped at once.

### A DESERVED TRIBUTE

The Buffalo Courier on Saturday, contained a write up of St. Catharines, and a portrait of Mrs. Herbert Eckhardt, of St. Catharines, daughter of Mr. and Mrs. J. M. Pike, of this city. The Courier says Mrs. Eckhardt is one of the most esteemed and popular young society ladies of St. Catharines and a recent bride. The paper also contains a cut of J. B. MacIntyre, brother of E. J. MacIntyre, of this city. He was Mayor of St. Kitts four years.

Pride carries with it a peculiar sort of inability to accomplish anything.
