EXCURSION OF LITTLE FOLKS

The Senior Classes of McKeough School Take Initial Electric Trip

Visited Sugar Beet and Glass Factories and Secured Many Souvenirs

It was an enthusiastic and happy party of young folks that thronged special electric car No. 2, when it pulled out to Wallaceburg on the C. W. & L. E. R. at 12.45 yesterday, and called forth their greetings to anxious comrades and pedestrians on route.

Through the enterprise and kindly thought of the lady principal, Miss Esther Abram, the special trip to Wallaceburg, with accompanying visits to the sugar beet and glass factories, had been arranged for the third and fourth classes of McKeough school and their teachers. For days past the handsome new cars had been speeding past the school and the young folks were enthusiastic for a first ride.

Over a hundred pupils took in the trip. The run was made in about an hour and on their arrival in Wallaceburg the visitors were met by Mr. T. H. Dundas and other kindly Wallaceburg citizens and escorted in groups through the two large factories. Then they went to the top of the sugar beet factory and had a magnificent view of "the plains." Many delightful souvenirs were secured, the fortunate girl who secured the glass pistol being a special object of envy, while glass hats and other charming mementos of the visit were also secured.

In an interview with The Planet this morning Miss Abram said, "It was in every sense a most delightful trip and was thoroughly enjoyed by all the girls and boys. We are indebted to Mr. Warburton for the excellent arrangements made for the trip, and are particularly grateful for the courtesy and kindness extended by the Wallaceburg people."

DEATH'S CALL

Jerome Eddy, Former Prominent Consul to Chatham, Called to the Unseen

Flint, Mich., November 24.—Jerome Eddy, for years prominent in civic, business and social circles in this city and in the political affairs of the State, died this forenoon at 10 o'clock after an illness from abscess of the lungs extending over a period of eight years.

He served as United States Consul at Chatham, Ont., during President Cleveland's first administration, and was for several years a member of the Democratic state central committee, being chairman of that body in 1888.

Both deceased and Mrs. Eddy have a large circle of friends in the Maple City. Ex-Mayor W. E. McKeough is in Flint and will remain for the funeral.

BUSY TRIP

Judge Houston Sees Many Things Driving Through Tilbury East Township

Judge Houston spent Thursday in Tilbury East visiting one of his farms. In speaking of his trip this morning he said:

"The muskrats, mink and foxes are doing great damage to the drains through Tilbury East, and I suppose the same thing is happening in Rutledge Township. These animals burrow holes in the banks of the drains and as a result in a short time the banks will be caving in. The muskrats are very thick and in the evening you can see countless numbers of them swimming around in the water. The farmers are anxious to know what they can do to get rid of them and save their property. The law used to allow them to shoot the animals and I got several requests from many farmers to look up the present law on this point."

The wheat through this Township looks remarkably well and farm work generally is quite satisfactory this year.

"I was quite surprised to see the immense amount of business being done at Prairie Siding. This is a busy little place and quite a centre for grain shipping. Stricker & Co. and Geo. Crow have elevators there and they pay almost as big a price as they pay in Chatham. The people there are starting an agitation for a telephone office to be stationed there and it would no doubt be a great benefit to both the people and the company. The store keeper is not a telegraph operator so the farmers around there have neither telephone or telegraph communication."

FORM STRONG ASSOCIATION

Citizens Organize Vigorous Campaign to Erect Monument to Tecumseh

Officers Elected and Plans Perfected—Money to be Raised—Mr. Clement's Support

The suggestion of The Planet that the residents of Kent county should organize forthwith with a view to securing the erection of a handsome monument to the memory of the great Indian Chieftain, Tecumseh, has been vigorously acted upon, and, with commendable zeal and enterprise a new association will devote itself to this splendid project.

The meeting at the Public Library auditorium yesterday afternoon was largely attended and enthusiastic over the enterprise, and a large public fund is being formed to aid therein, several handsome subscriptions being assured. Messages of regret at inability to be present were received from Judge Woods, A. E. McCaig, M. P., and P. H. Bowyer, M. P.

Chairman Stone read a letter from Mr. Bowyer, styling frankly and kindly, that owing to the claims of Thamesville in his own constituency, he desired to support that locality and urged, if possible, a unanimity of effort in order to secure the monument for Kent.

The meeting fully appreciated the position of Mr. Bowyer. It was felt that it would be unfortunate to have rival county claimants and that the first effort of all should be to secure the monument for Kent, after which it was assumed that the location could be mutually agreed upon.

Spirited and helpful addresses were delivered by Dr. T. K. Holmes, Col. J. B. Rankin, J. S. Lane, J. S. Lane, Sheriff Gemmill, W. N. Mowly, Harry Collins, Thos. Scullard, S. B. Arnold, A. E. Jewett, C. E. Beeston and others.

H. S. Clements, M. P., spoke heartily in favor of the project and would lend it every assistance in his power. He thought there was only one place for a monument to Tecumseh, and that was in Kent county.

On motion of ex-Ald. Thos. Scullard and A. E. Jewett, B. A., the Tecumseh Monument Association, for the purpose of erecting a monument to Tecumseh on Tecumseh Park, was duly formed.

The following officers of the Association were then elected:

President—Fred. Stone.
Secretary—H. W. Anderson.
Treasurer—Sheriff J. R. Gemmill.
Executive Committee—Col. J. B. Rankin, Dr. T. K. Holmes, J. S. Lane, Clements, M. P., W. N. Mowly, chairman School Board, S. B. Arnold, A. B. McCaig, M. P., Thos. Scullard, J. S. Black, Harry Collins, J. S. Lane, A. E. Jewett, Edwin Bell, J. M. Pike, J. G. Kerr, with power to add to their numbers.

On motion of Sheriff Gemmill and Chairman Mowly, the following were appointed delegates to interest the Dominion and Provincial Governments in the project:—Fred. Stone, Col. J. B. Rankin, S. B. Arnold, H. W. Anderson, H. S. Clements, M. P., and A. E. Jewett, M. P.

On motion of Thos. Scullard and A. E. Jewett, the following were appointed to "prepare a brief" or the project, and to secure all data required:—J. S. Black, J. S. Lane and Edwin Bell, LL. D.

Mr. Black gave a most interesting address. He pointed out that the Association had many valuable relics of the Tecumseh battle, all weapons and cannon balls with models of the old gun boats built of their material, with which to ornament the base of the proposed monument and give it a peculiarly historical setting.

Several liberal contributions were bespoken and the meeting adjourned to the call of the President, active work to commence at once.

CHILDREN'S AID SOCIETY

The Annual Meeting of the Kent and Chatham Children's Aid Society will be held in the Hall of the Elks' Club on Thursday, Nov. 30, at 8 p. m. The reports of the Secretary, the Treasurer and the Executive Officer will be presented. A good musical program will be given, and Mrs. Harvie, the provincial visitor of the children in the foster homes, will give an address. Mrs. Harvie is an interesting, eloquent speaker, and all interested in rescue work should attend, and catch some of her spirit and enthusiasm in the great work of child-saving.

CHATHAM'S BROADWAY

Ald. J. N. Edmondson is enthusiastic over the results of the advent of the electric cars on St. Clair street. "Why," he declared, "this is now Chatham's Broadway, and we are seriously contemplating changing its name to suit its increased importance."

MACAULAY CLUB

The annual meeting of the Macaulay Club will be held this evening at the office of Crown Attorney H. D. Smith, Harrison Hall. A full attendance is requested. For the purpose of re-organization.

EXTRA CARS CALLED FOR

Special Increased Service Requisitioned on Electric Road this Afternoon

Cars Crowded With Delighted Passengers—Several Excursions Next Week

Any doubt as to the assured value and success of the Chatham, Wallaceburg & Lake Erie Electric Railway was surely dispelled to-day. Every car arriving was simply packed with pleased and delighted passengers. From the first run at 5.30 this morning up till the hour of The Planet's going to press farmers and their wives with their produce were thronging into town, all enthusiastic over the excellent service provided. It seemed as though the whole of Dover had come in to celebrate the occasion.

The congested traffic caused a doubling of the service at noon, when General Manager Warburton sent out an extra, the service during the afternoon being every hour and a quarter. The cars stop everywhere for everyone and every resident on the concessions is picked up and let off at his own gate.

The regular rates start to-morrow, but the sale of book tickets preserves a very cheap rate. These book tickets are unlimited and interchangeable and by them the trip to Wallaceburg and return will be made for 85 cents with a corresponding reduction for all intervening points. The cheapness of these rates is a great source of satisfaction to the travellers. A large number of school tickets have also been issued, these selling at a remarkably low figure. Announcement is made that tickets will be sold on Saturdays good to return Mondays for 10 cents over single fare to all points.

General Manager Warburton has been exceedingly busy to-day booking a large number of excursions asked for next week, particulars of which will doubtless be announced.

WILL GET LEASE

Mayor Cowan Receives Important Communication on the Tecumseh Park Matter

Mayor Cowan believes that the only thing to do if you want anything is to keep at it. He has undertaken to get the city a lease of Tecumseh Park, and has written several letters to Sir Frederick Borden on the matter. He succeeded in getting a promise of the lease, and yesterday he received the following letter bearing on the matter:

Ottawa, Nov. 23rd, 1905.
Dear Sir,—In the absence of Sir Frederick Borden, I have received your letter addressed to him, of the 21st instant, relative to the lease of the Tecumseh Park, and in reply have to inform you that the matter has not been lost sight of. The Deputy Minister is at present having the lease prepared and it will be sent to you for your signature in the course of a few days.

Yours faithfully,
CHAS. L. PANET,
Private Secretary.
To Geo. W. Cowan, Mayor,
Chatham.

MODERN SHYLOCK

A Farmer in Tilbury East Finds Himself Out in the Cold—He was Caught in a Money Lender's Net

The latest story of poverty and persecution, instigated by a Modern Shylock, comes from Tilbury East Township.

Rumor has it that a few years ago there was a certain farmer in that township who owned a farm which was practically free from debt. He solicited a loan from a local money lender, and got it—then the money lender got him.

It was all the farmer could do to pay the interest on the mortgage, and, as a result, more mortgages were added. His chattels came next, and this week the climax was reached when the money lender, finding the poor farmer unable to pay the interest, sold his chattels by auction. The farmer was helpless and had no choice whatever in the matter.

The sale was progressing nicely. Everything was going well and the money lender, rubbing his hands, had all his money in sight when the tax collector came along and seized the goods that were not sold, for taxes.

It was a cruel blow for the Shylock in the case, as, of course, the sale was stopped.

It is said, however, that the money lender is not giving up. High rates of interest soon pile up enough money to make a man safe on a chattel mortgage investment.

BRITISH CRISIS OVER

Balfour Will Not Resign; But Appeal to the Electors.

Proposal For Collective Resignation of Cabinet Rejected at Cabinet Council—Marquis of Londonderry, President of the Council and of Board of Education, Has Not Resigned—No Statement by Ministers.

London, Nov. 25.—Yesterday's Cabinet Council, which, although not originally summoned for that purpose, had to decide the question of the resignation or temporary prolonging of the retention of office by the Balfour Ministry, was attended by all the members, with the exception of the Marquis of Salisbury, president of the Board of Trade.

The Ministers have not yet given any intimation of the actual date of the dissolution and appeal to the constituencies.

It is understood that the proposal for the collective resignation of the Cabinet was rejected and that the Ministers arrived at the decision that it would be better to dissolve Parliament themselves and appeal to the electorate. Should this course be followed it would be largely due to the well-grounded belief that the Liberals would decline to form a Cabinet before a general election places them in possession of an adequate Parliamentary majority to carry out the Liberal program.

All doubt as to whether or not the Marquis of Londonderry had consented to remain in the Cabinet was dispelled later by a statement from the Minister himself to the effect that he had not resigned.

It is officially intimated that no statement regarding the decision of the Cabinet will be issued by the Ministers, but the fact that Mr. Balfour left London last night until Monday and the additional fact that Mr. Balfour is the additional fact that he is not going to Sandringham to see the King is taken as a confirmation of the understanding that the Premier and his colleagues have decided against a precipitate resignation.

Change in Foreign Policy.
London, Nov. 25.—It is officially announced this evening that Sir Thomas Henry Sanderson, permanent Under Secretary of the Foreign Office, since 1894, will retire early next year, and that he will be succeeded by Sir Chas. Hardinge, now British Ambassador to Russia.

OPENING OF

The Finest Jewelry Store West of Toronto will be in Charge of Ladies Assisting Society of Public General Hospital

Chatham is proud of its many fine stores, among which is VonGuten's new Jewelry Store, by all odds the finest west of Toronto, and to fittingly mark the first opening Mr. VonGuten has generously offered the first week in December, commencing one week from Monday, as a benefit to the Public General Hospital. The Ladies' Assisting Society having accepted the offer, will take charge of the store, assisted by the able staff of clerks, and will spare no pains to make this the most successful benefit the hospital has experienced. On everything sold that week, as well as on all goods which may be selected and laid away for later delivery, the hospital will receive a benefit. It will well repay anyone to take time and go through this handsome Jewelry Store. From the most costly to the moderate priced Jewelry, Cut Glass, Silverware and hundreds of articles suitable for Christmas presents will be on display.

Everything is marked in plain figures, which everyone knows, from the reliability of this firm, will be the lowest in keeping with the quality of the goods.

Quite a number of Chatham's society attended the banquet given to President Kipp of the C. W. & L. E. electric road, at Hotel Sanita on Tuesday evening. The evening was most pleasantly spent. The banquet was one of the most elaborate ever given in the Maple City. A large number of Towanda guests were present and partook of the evening's enjoyment.

MACGREGOR-STURGIS.
At seven o'clock Wednesday evening Rev. C. J. Moorehouse united in marriage Mr. Thomas W. MacGregor and Miss Francis L. Sturgis. The happy event took place at the home of the bride's parents, Mr. and Mrs. Thomas Sturgis, 2nd concession, Camden. The ceremony was performed in the presence of about thirty guests.

McFADDEN-JOHNSON.
A very pretty wedding was solemnized at the home of Mr. and Mrs. Robert Johnson, Tupperville, on Wednesday evening, Nov. 15th, when their youngest daughter, Miss Margaret Lillian, was united in marriage to Mr. Joseph Wesley McFadden, of Camden. The bride was attended by Miss Walker, of Chatham, and Miss Verna Spencer made a pretty flower girl. The groom was supported by Mr. Harry E. Simpson, of Tupperville. There were guests present from Wallaceburg, Chatham, Dresden and several other places.

CONNORS-McQUILLAN.
A pretty wedding was solemnized at St. Joseph's church Wednesday morning when Miss M. Alice McQuillan, graduate nurse of Mullaphy Hospital, St. Louis, Mo., and Mr. Edward Connors, a valued employee of the Iron Mountain Railway, Little Rock, Ark., were united in marriage. Rev. Father James officiated. The bride was assisted by her sister, Mrs. Andrew Day. They were both prettily attired in white point de esprit over white silk. Mr. Andrew Day assisted the groom. Miss May C. Jamieson, Erie, Pa., niece of the bride, also attended. She wore a gown of net and chiffon over blue silk. Mr. and Mrs. Connors left for eastern points, where they will spend their honeymoon, after which they will return to Little Rock, Ark., where they will reside.

EARLY FLYING MACHINE.

Remarkable invention by a Portuguese Which Failed to Work.

In The London Evening Post, dated Dec. 20 and 22, 1909, is an interesting description of a flying ship then lately invented by a Portuguese priest. Unfortunately for the glory of Portugal it did not fly, as was expected, 200 miles in twenty-four hours or at all. In order that the deeply scientific among our readers may understand the cause of its failure we quote a few extracts from its specifications. The ship was fitted, in the first place, with "sails where the air is to be divided." It had also two pairs of bellows, "which will be drawn toward the wind, and must be blown when there is no wind." At opposite ends of the hull were "the globes of heaven and earth, containing in them the attractive virtues." These served as covers to "two load-stones placed in the upper pedestals to draw the ship after them."

We have not yet exhausted the list of motive powers carried by this remarkable invention. Over the whole was a cover made of iron wire in form of a net, on which are fastened a good number of large amber beads, which by a secret operation will help to keep the ship aloft, and by the sun's heat (certain mats) that line the ship will be drawn toward the amber beads. It is strange that a flying ship fitted with so many alternative appliances should have failed to fly at all. Possibly the amber beads tried to fly one way, the globes another, the wind and the bellows worked in yet other directions, and thus stable equilibrium resulted.—London News.

Cured of Drunkenness

How a Montreal lady cured her husband of drunkenness with a secret home remedy.

"I want to tell you that tasteless Samarra Prescription has entirely cured my husband of drunkenness so quickly and simply that I am astonished. How I am astonished! I wrote for your free sample package. The sample tablets I got when you checked his drinking, and before I had used the full treatment he was permanently cured. He gave him the remedy in his tea, and it had no taste. I am so glad to know he was taking it. I want others to know, so you can use this letter, but please not my name yet. I may say that my husband's health is better every day than for years."

THAT OVER WORKED, PLAYED OUT FEELING AMONG WOMEN

There are thousands of females all over our land who are broken down in health and drifting on a miserable existence, overburdened with disease peculiar to their sex, apparently growing old while yet young. Often they have pale or sallow complexion, hollow, sunken eyes, with a lifeless look; the face has a pinched and haggard appearance; they are weak, weary and trembling, often extremely nervous, starting at every little noise. Many are apparently bloodless, with cold hands and feet, while others are flushed by an unequal circulation of the blood, dizziness, and sometimes dimness of vision, loss of memory, and often loss of appetite and sleep, and are wearied with terrible dreams. Palpitation of the heart, nervous prostration, smothering and sinking spells, shortness of breath and the sensation of pins and needles are all indications of a weakened condition of the heart or nervous system, and should any of them be present we would strongly advise the use of

A BRIGHT COMEDY.

One of the brightest plays, in dialogue and characters true to nature, on the stage to-day, is Daniel L. Hart's "Parish Priest," in which Dan Sully has made the success of his life.

Mr. Hart is a young journalist of Wilkes-Barre. In conjunction with C. E. Callahan, who is the author of "Fog's Ferry" and "A Romance of Con Hollow," Mr. Hart has written a dramatic story of his native state, the plot of which turns upon a law peculiar to mining sections, under which a conveyance of land passes only title to the surface, and not to underlying ores. The characters in "Slaves of the Mine" are borrowed from real life in the locality where the tale is laid, near Wilkes-Barre, and together with the dialogue which gives them being, are like those in natural. The new play is full of stirring incidents, and contains one very sensational scenic effect, depicting the destruction of a coal mine by a tremendous explosion of fire damp. "Slaves of the Mine" will be given at the Grand Opera House to-night. Prices 25, 35c and 50c seats.

MARKS BROS. HERE NEXT WEEK

London Advertiser says: "Marks Bros. are paying their annual visit to London this week, and are filling the Opera House every night. On Tuesday every seat was sold, as well as 250 standing room tickets, and at least 300 were turned away. For the price charged Marks Bros. always put up a good show, and their company this year is stronger than ever. Some good specialties are given. The company opens a week's engagement here on Monday next. Opening with their new play, "In Old Kentucky."

This season they are carrying seven vaudeville acts and give a continuous performance. There will be the usual Wednesday and Saturday matinee.

HUFFMAN'S CORNERS.

The home of Mr. and Mrs. George Cundie, Communication Road, Harwich, was the scene of a very pretty wedding last night, when their second daughter, Naomi, was united in marriage to Charles Morrow, eldest son of Mr. and Mrs. Hugh Morrow, also of Harwich. The ceremony was performed by the Rev. W. J. Waddell, of Huffman's Corners, in the presence of about twenty-five guests.

The bride looked lovely in a gown of white silk, and the bridesmaid wore white organdie. Both wore white tulle veils. Miss Jennie Cundie, sister of the bride, acted as bridesmaid, and Mr. James Morrow, brother of the groom, filled the office of best man. A nicely served supper awaited the guests at the close of the ceremony.

The young people are well known and well liked in this neighborhood, where they have always resided, and have always taken part and helped in church work, and also in all the young people's amusements.

The presents were many and valuable, showing the high esteem in which their many friends were held by wishing them much happiness in their new home on the tenth line, Harwich. The happy couple left for old shore.

The groom presented the bridesmaid with a handsome gold brooch, and the groomsmen with a pretty stick pin.

JOHN GRAHAM, River Side Stock Farm, Tupperville, Ont.

To those who are interested in the culture and production of thorough-bred and fast horse-flesh, there is perhaps no horse better known than "Simon," who, possessing both the sterling qualities, has been listed the best the country knows.

To illustrate the foregoing statement, a few are mentioned whose parentage is that of the horse referred to above. Simon is the sire of

"Free Bond"..... 2.04% "Irene D"..... 2.15%
"Simple Simon"..... 2.16% "Princess Simon"..... 2.17%
"Billy S"..... 2.18% "Joe Letter"..... 2.18%
"Topsy Simon"..... 2.24% "In Bond"..... 2.19%

And a dozen others that have shown fast.

The recent owner of "Simon" has kindly supplied a few facts that are very convincing of the horse's merits.

We have raised just twelve colts and fillies by Simon on our farm, breeding in a small way, and have sold five of them for \$2,740.00, an average of \$548.00 each. Who says that it does not pay to raise trotting horses. "FREE BOND" was sold in New York for \$6,000 and IRENE D. was sold the past season for \$1,200.00. We still have seven of these colts and fillies now as good or better than those mentioned above, and all as good or better than a mile in 2.25 or better any time. The others, of course, are younger and have not been handled very much.

But why would not SIMON get speed? The records show. SYDNEY DILLON and JOE PACHEN are the greatest sires of extreme speed the world has ever produced. Joe Pachen is the sire of Dan Pacn (1.55 1/4), pacing, and Sydney Dillon is the sire of Lou Dillon (1.58), trotting. Simon's breeding on the sire's side is the same as that of Sydney Dillon, but much better on the dam's side, and we cannot see why under similar conditions, but that he would be as great a sire as Joe Pachen or Sydney Dillon.

We have sold the stallion "Simon" to JAMES BLYTHE, Chatham, Ont., for a good price.

International Bible Lesson for To-morrow.

Abstinence for the Sake of Others.
—1. Cor., 10, 23-33.

Golden Text—"Let him that thinketh he standeth take heed lest he fall."—Cor. 10, 12. "Edify one another."

"To serve the present age, my calling to fulfill: Oh may it all my powers engage, to do my master's will."

Paul, Peter and Jude each declares himself a bond servant, or slave, of Jesus Christ, in contra-distinction to a hired servant or legalist; and every true disciple of Jesus Christ our Lord and King, should be His devoted bond servant in love, and so he is, when fully surrendered to Him by the power of the Holy Spirit. As our Lord took on Himself the form of a servant or slave, tasting death for every man, even the slave's death, the cross, to redeem and save, so we, when living in the same spirit of love—the fruit of the Spirit—should consider ourselves the servants of all men.

With this truth in mind, consider the surroundings of the Corinthian Church, gathered through the ministry of Paul, composed of converted Jews and Gentile Greeks, and to be living witnesses to the Jews zealous of law, and the Greeks zealous of learning and licentious idolatry. As Christians, then and now, we are called on to control and overcome our natural lawless appetites; and we cannot, dare not, do the things we would, lest the truth and honor of God be misrepresented and misunderstood by unbelievers.

Jewish laws about food were very strict, and have been just as devoted in honoring their gods, by consecrating and sacrificing animals, whose flesh was eaten by their priests or sold to the meat shops of the city—verse 25—and thus finding its way into houses where a lover of Christ might be visiting; he is directed how to act in verses 27 and 28, so that God can use him to reach the conscience of his host.

Cardinal Manning said, "For 35 years I have been priest and bishop in London, and now I approach my 80th year, and have learned some lessons, and the fact is this:—The chief bar to the working of the Holy Spirit of God in the souls of men and women is intoxicating liquor. I know of no antagonist to the Good Spirit more direct, more subtle, more stealthy, more ubiquitous, than intoxicating drink."

The counsel of God to Corinthian Christians, in our lesson, is just as applicable to Chatham Christians, in social functions where strong drink is used. Are we saved of God? It is His purpose to make us saviours of our fellows.—Verse 33.

THE BEST FRIENDS OF PE-RU-NA ARE THE MOTHERS AND CHILDREN

When Sickness Comes to the Little Ones
It is the Mother Who Chiefly Suffers.

She suffers even more than the child who happens to be sick. Her sympathy is deeper than that of any other member of the family. The mothers look forward with dread to the torrid heat of summer, thinking of their children and the many liabilities to disease that are before them.

Spring and summer are sure to bring ailments, especially among the little folks.

It does not take a mother very long to discover that Peruna is the best friend she has in times of illness among the children.

The doctors may come and go with their different theories and constant change of remedies.

The doctor of years ago gave entirely different remedies than he does today. Each year finds some change in his prescriptions and in the drugs he relies upon.

A Multitude of Mothers

Have discovered that Peruna is the stand-by, and that in all the ailments of spring and summer to which the children are subjected, Peruna is the remedy that will most quickly relieve.

Whether it is spring fever or stomach derangement, whether it is indigestion or bowel disease, a catarrhal congestion of the mucous surfaces is the cause. Peruna quickly relieves this condition of the mucous membranes. Its operation is prompt, the children do not dislike to take the medicine, it has no deleterious effects in any part of the body. It simply removes the cause of the disagreeable symptoms and restores the health.

Peruna is not a physic. Peruna is not a narcotic. Peruna does not produce any drug habit, however long it may be taken. Peruna is not a stimulant.

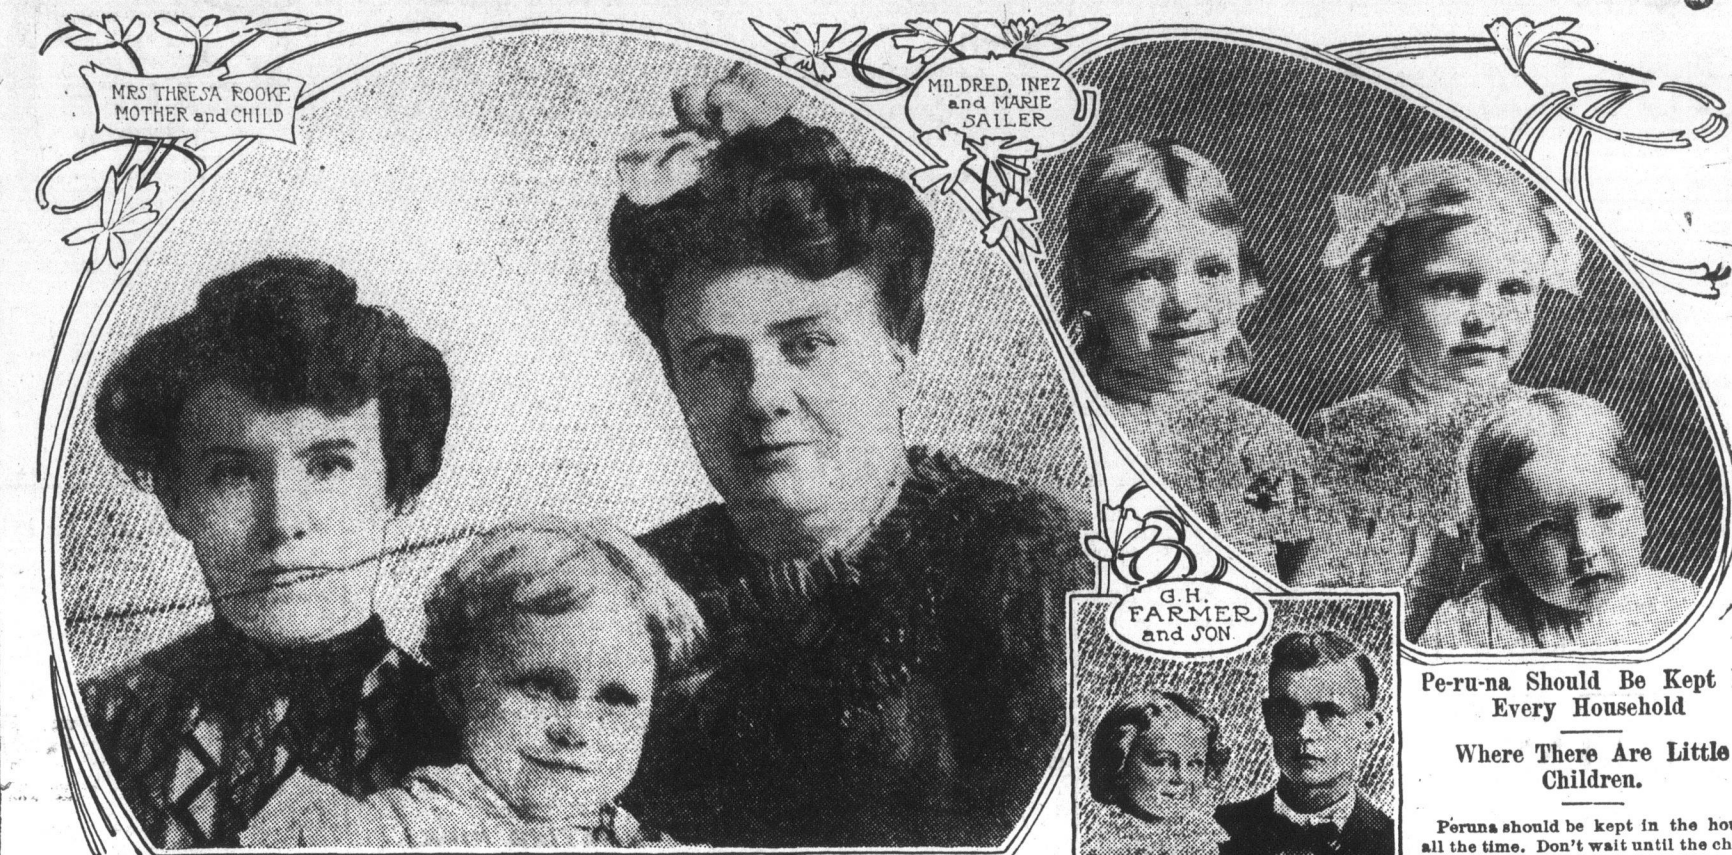

Peruna is a specific remedy for all catarrhal ailments of winter and summer, acute or chronic.

The mothers all over the United States are the best friends that Peruna has.

The Mothers Hold Per-na in High Esteem.

Not only because it has cured them of their various ailments, but because it always rescues the children from the throes and grasp of catarrhal diseases. We have in our files hundreds of testimonials from mothers whose children have been cured by Peruna. However, the large majority of mothers who use Peruna, we never hear from.

But we do hear from a great number of mothers who are so overjoyed at some special good they have received from Peruna that they cannot restrain their enthusiasm. They are anxious to share these benefits with other mothers.

MRS. THRESE ROOKE, MOTHER AND CHILD.

The Benefit Which the Children of the United States Have Received From Per-na Can Never Be Put Into Words.

The chronic ailments it has prevented, the suffering it has mitigated, will never be fully recorded.

But at least this much can be said that the coming generation owes a great debt to Per-na, for it is in the tender years of youth that slight ailments are liable to develop into lasting disease, thus blighting the whole career of the individual.

The mothers who are bringing up their children today to believe in Per-na are doing a great work for humanity. These children brought up to believe in Per-na from the start, will, when they become heads of families themselves, use Per-na with unquestioning faith.

Per-na Protects the Entire Household.

As soon as the value of Per-na is appreciated by every household, both as a preventive and cure, tens of thousands of lives will be saved, and hundreds of thousands of chronic, lingering cases of catarrh will be prevented.

Mrs. Threse Rook, 258 N. Ashland Ave., Chicago, Ill., Treasurer Ladies' of the Macabees, writes:

"In our home Per-na is the only medicine we have. Grandmother, mother, father and child, all have used Per-na. It is our great remedy for catarrh of the stomach and head, colds, and female complaints of which it has cured me. We find it of great value when my husband becomes worn out or catches cold. A couple of doses cure him."

"If the baby has colic, or any stomach disorders, a dose or two cures her. I consider Per-na finer than any doctor's medicine that I have ever tried, and I know that as long as we have it in the house, we will all be able to keep in good health."—Threse Rook.

No Doctor Required.

Mr. Edward Otto, 927 De Soto street, St. Paul, Minn., writes:

"I cannot say enough for Per-na. It has done great work in my family, especially for my oldest boy. We had doctor with three or four different doctors and they did not seem to do him any good."

"We gave up hopes of cure, and so did they, but we pulled him through on Per-na."

"We had several doctors and they said they could do no more for him so we tried Per-na as a last resort, and that did the work. Since then we keep it in the house all the time, and no doctor is required."—Edward Otto.

Per-na Contains No Narcotics.

One reason why Per-na has found permanent use in so many homes is that it contains no narcotic of any kind. Per-na is perfectly harmless. It can be used any length of time without acquiring a drug habit. Per-na does not produce temporary results. It is permanent in its effect.

It has no bad effect upon the system, and gradually eliminates catarrh by removing the cause of catarrh.

There are a multitude of homes where Per-na has been used off and on for twenty years.

Such a thing could not be possible if Per-na contained any drugs of a narcotic nature.

Mr. G. H. Farmer, New Martinsville, W. Va., writes:

"Our little son, Harry, is well and healthy now and we think if we do as you directed us, he will keep his health and grow strong."

"We know that our little son's life was saved by your wonderful medicine, Per-na, and we shall always praise Per-na and use it in our family when needed."

"Should we have any more catarrhal trouble in our family, we shall always write to you for treatment."—G. H. Farmer.

Mr. Howard Andrew Sterner, Muddy Creek, Pa., writes:

"I have Per-na in my house all the time and won't be without it. It is good for children when they take a cold or croup. It cured my baby boy of croup."

"I have introduced Per-na into six families since I received your last letter, and four have seen relief already."—Howard Andrew Sterner.

Per-na Should Be Kept In Every Household

Where There Are Little Children.

Per-na should be kept in the house all the time. Don't wait until the child is sick, then send to a drug store. But, have Per-na on hand—accept no substitute.

Children are especially liable to acute catarrh. Indeed, most of the affections of childhood are catarrh.

All forms of sore throat, quinsy, croup, hoarseness, laryngitis, etc., are but different phases of catarrh.

Mrs. Amelia Sailer, Menasha, Wis., writes:

"I have used Per-na for a number of years. It cured me of chronic catarrh which I suffered with from infancy."

"When my three children were born they all had catarrh, but I have given them Per-na and find it very effective in ridding them of this horrible trouble. I find that it is also good to give them as a tonic and a preventative of colds and colic."

"In fact, I consider it a household blessing. I would not know how to raise my children without it. I am pleased to give it my recommendation."—Amelia Sailer.

NATURE POINTS THE WAY.

The showers that bring forth blossoms and make nature more beautiful often cause untold misery to mankind in whose blood the poisons have accumulated.

When all nature seems to be glad we sometimes experience our greatest ills. The important thing is to make this life while we live—consider each disappointment and ill-fitting as so much experience and as a temporary lesson set for us to learn. When you catch cold—suffer from indigestion or notice the skin breaking out with pimples let this furnish you a warning that the blood is in disorder. Profit by the expert advice of others and quickly drive the poisons from the blood and build up the system with a reliable remedy—such as Dr. Pierce's Golden Medical Discovery, which has stood the test of time and for over a third of a century has sold more largely than any other blood remedy. Thousands attest to its remedial value; witness the testimonials which have been published for the past thirty-eight years.

One year ago I wrote you concerning my daughter, writes Mrs. Jennie Smith, of Pine Grove, Md. "She was very weak and nervous, had no appetite, could not sleep, and was afflicted with headache, backache, and dizziness. I was too weak to go to school, took no interest in anything, was inclined to sleep most of the time. I took her to several physicians who said she was going into consumption. My mother advised us to try Dr. Pierce's medicines, and I wrote to you giving the symptoms and you advised us to try Dr. Pierce's Golden Medical Discovery and 'Favorite Prescription.' We did so, giving her three bottles each. My daughter began to improve before the first bottle was gone. When she had taken in all six bottles she seemed to be entirely well."

Irving's Generosity.

The late Sir Henry Irving retained faithful old members of his company long after their services might have been dispensed with if only business considerations prevailed. One of the most touching cases of this character was that of Daddy Howe, who died in Cincinnati some years ago while the company was touring here. At one of the most memorable dinners given to Irving by the members of the profession Daddy Howe arose and, with tears streaming down his face, told how his proposal to retire had been received. At this time he was eighty years old. When Howe learned that the company was to come to America he realized that the expense would be very great and that the minor roles he played could be easily filled over here at a much less cost. As a result of these gloomy reflections he wrote Mr. Irving that he appreciated the situation and would either retire or accept a reduced salary. Not receiving an answer, he brought the matter up at a personal interview.

"Dear me! Ah, yes! Well, I'll let you know presently," was Mr. Irving's evasive reply.

Daddy Howe thought from this that he was undoubtedly doomed to retirement. With trembling fingers he opened a note that came from Mr. Irving the next day and read:

"Of course I expect you to go, and I hope that the increase in your salary will indicate my appreciation and good wishes."

Danton and the Clock.

The clock in the anteroom of the ministry of justice having stopped, a watchmaker took it to pieces and was surprised to find engraved on one of the wheels this inscription: "J. Jean Blanchet, this 22nd Aug., 1792, saw the Sieur Danton profane the emblem of divine kingship by breaking a fleur-de-lis, which so rightly adorned the hand of this clock." The inscription had been hitherto undiscovered. Danton at the time mentioned was minister of justice, and it is known that the clock stood for more than a century in the minister's private room. Presumably he was irritated by watching the fleur-de-lis, which finished off the minute hand, as in many clocks of the eighteenth century, slowly mark fleeting time as he sat at his desk and on the day in question suddenly started up in a temper and broke the emblem off. The hand still shows a mark where it was mended and the fleur-de-lis resplendent. The Jean Blanchet who in his respect for dethroned royalty recorded his indignation at Danton's act is unknown, but he may be supposed to have been the watchmaker who mended the broken hand.—London Telegraph.

Work and Talk.

Generally speaking, it is true of women as of men that those who think most say least. Woman's talkativeness is the result of her sedentary occupation. Tailors, shoemakers and weavers—all men who sit close at their work—have, in common with women, not only hypochondriacal fancies, but also a tendency to great talkativeness.—Richter.

A BRAVE MAN

Latest Intrepid Feat of the Notorious Jack the Hugger—Disappears on Park Ave

The usually quiet neighborhood in the vicinity of Park Lane on Park avenue was thoroughly aroused last evening by a visit from a Jack-the-Hugger.

A young girl who lives on that street was on her way home about ten o'clock last evening and was passing through a vacant lot when she was startled to find a man following close behind her. She quickened her pace but the man kept slowly gaining upon her.

Fortunately the young lady was near a house. She screamed and attracted the attention of a man who came out of the house and the Hugger disappeared.

Once before about a year ago one of these extraordinary individuals tried to scare a young lady in this vicinity. The girl proved stronger than the man and succeeded in dragging him into a house, where he was identified.

This last appearance has caused considerable excitement on Park avenue and young ladies will be scarce on the street at night, particularly as it has been hinted that whatever the Hugger's motives, he is an individual of cultured taste.

SUDDEN CALL

Death of Herman Jenner, Formerly of This City, Reported From Quebec

In reference to the rumor current on the streets this morning, and the reports in the Toronto and London dailies, about the death of Mr. Herman Jenner, of Quebec High School, a well-known former resident of Charing Cross and this city, The Planet interviewed Mr. Harry Collins, of the Collegiate Institute staff, who preceded Mr. Jenner in the position of commercial master of the Quebec High School. Mr. Collins says:

"I have wired Mr. T. Ainslie Young, the principal of the school, for the result of the inquest, but have not yet received word. Mr. Young always spoke in the highest terms of Mr. Jenner, whose character was of the best. Mr. Jenner has been four years in the Quebec High School, a fact which speaks well for his progress and worth."

"Until further news is received," said Mr. Collins, "I think it would be well to reflect also lately the distressing rumors concerning the cause of Mr. Jenner's sad demise."

Mr. Jenner was a former student of the Collegiate Institute here, and took all his examinations with honors, winning a medal at the close of his course. Mr. Jenner also graduated from the business college here with the highest standing.

On a visit home last summer Mr. Jenner called on his many Chatham friends and seemed in the best of spirits, speaking enthusiastically of his work and prospects for the ensuing year.

The Planet extends its sincerest sympathy to the bereaved ones. The Jenner family at Charing Cross are among the grand old pioneers of Raleigh, and the sad news will excite the sympathy of a wide circle of friends throughout the city and county.

HAMMOND CONFESSED CRIME

Boston Murderer Believed to Have Fled to Canada.

Albany, N. Y., Nov. 25.—John Hammond, the missing husband of the woman whose strangled and decomposed body was found here Thursday wedged in a trunk in their home, is said by the police to have fled to Canada a week ago to his brother-in-law, a Cohoes man named Magini, that he had killed his wife.

Magini was arrested at Cohoes yesterday morning and under a searching examination by the police, admitted, they say, that Hammond told him of the murder on Tuesday, Nov. 14, when Hammond appeared at Cohoes. At Hammond's request, Magini says, he accompanied him to Rouses Point, and there left him on his way to Canada.

The Cohoes police yesterday afternoon declared that they had definite information that Hammond is in or near Montreal.

WORK STOPPED

Mayor Cowan Finds Some Bad Concrete on Raleigh St.—Will Tear Up Part of Pavement

The work on the Raleigh street pavement has been stopped and part of the road condemned. It will now be necessary for the contractors to tear up about two blocks of the pavement and put it down again.

Some time ago Mayor Cowan called a special meeting of the City Council to consider the advisability of stopping the work on all pavements on account of the near approach of the winter season and the damage which will be done by the frost to the concrete which is being put down. At this meeting it was decided, after much discussion, to allow the contractors to go on with the work subject, of course, to be stopped by the city engineer when he deemed it advisable. The engineer wanted all work stopped then, but the contractors were anxious to complete their work and they were allowed to go on.

Yesterday the attention of the Mayor was called to the poor concrete on Raleigh street and after an examination it was found it was not all right. He ordered the city engineer to stop the work, and that part of the pavement from Lorne avenue to Richmond street, and from the C. P. R. to Richmond street, will have to be torn up and laid over again.

The concrete was badly damaged by the frost. The steam roller when run over it sank down in the concrete to a depth of about six inches. The contractors alone are responsible for the work and will have to make it right.

SKATING RINK

The erection of the splendid new skating rink is rapidly progressing under contractors Blight & Fielder on the premises of the Curling Club next to the curling rink. The structure will be built up to the building and the floor will be of concrete and well adapted for a skating rink. The rink will be completed in December and will be opened to the hockey sports during the winter season. The rink will be under the management of L. E. Tillson.

ISOLATION HOSPITAL

At the next meeting of the Board of Health the erection of an isolation hospital will be considered. Chatham has long been in need of such an institution and the Board of Health are going to do all in their power to have one established in the city.

President Lindsay Parrott opened the meeting and prayer was offered by Mr. Bushel, after which James Mackness read the topic for the evening, giving a lengthy and instructive address. The I. O. F. orchestra favored the audience with a very fine selection.

Then came the intermission, and all members of the League were very cordial in making the strangers acquainted. Order was then called and the gathering was favored by a very appropriate program, which was as follows:

Instrumental—Miss W. Lamont.
 Speech by Percy Parrott—Topic, "Did the Jews show good judgment in accepting the peace terms of the treaty?"

After much discussion the matter was referred to Mr. Bushel, who gave an interesting address in favor of the action of the Japanese.

Address—Star Oldershaw.
 Duet—Misses Maud and Ella Groves.

Speech—Robert Clements—Topic, "Should the street cars be allowed to run on the Sabbath?" This was referred to the Ten Commandments.

Speech—Mrs. Groves—Topic, "Will the new electric road be a paying investment?" Speaker was in favor of the fifty cent rate.

Speech—Mrs. S. S. Wells—Topic, "Fashions of to-day."
 During the time of the intermission the executive officers of the League decided to charter cars from the electric road for a proposed trip to the 'Burg. It was announced that the fare would be 40c and return.

After an anthem was sung the meeting dispersed.

THE YOUTH'S COMPANION IN 1906.

During 1906 The Youth's Companion will publish in 52 weekly issues

serial stories, each a book in itself, reflecting American life in home, camp and field.

50 special articles contributed by famous men and women—travelers, essayists, soldiers, sailors, statesmen and men of affairs.

200 thoughtful and timely editorial articles on important public and domestic questions.

250 complete stories by the best of living story-writers—stories of character, stories of achievement, stories of humor.

1000 notes on current events and discoveries in the field of science and natural history.

2,000 bright and amusing anecdotes, items of strange and curious knowledge, poems and sketches.

This is what The Companion offers its readers during 1906. And the quality of it is fully equal to the quantity. The paper is interesting without being flashy, elevating and strengthening without being prosy—a paper for every member of the family.

A full Announcement of the new volume will be sent with sample copies of the paper to any address on request. The new subscriber for 1906 who sends \$1.75 for the new volume at once will receive free all the remaining issues for 1906, including the Double Holiday Numbers; also The Companion's "Minutemen" Calendar for 1906, lithographed in 12 colors and gold.

WHEN buying a range the oven construction should be your first consideration. Its baking and roasting qualities are of the utmost importance to you. A poor oven means ruined food, waste of coal, late meals and many heartaches. The Imperial Oxford Range is the result of years of experience and scientific study. It has taken years to evolve it, and years of use have proven it without a peer. There are a number of exclusive features in the construction of the

Imperial Oxford Range

that give it advantages found in no other. Of these exclusive features the most important is the heat-diffusing oven flue. This flue draws the cold air in from outside the range, superheats it and distributes it through perforations in the top of the oven. This insures fresh, heated air evenly distributed throughout the oven, the moist vapors of the oven being drawn off by openings provided for the purpose.

The Imperial Oxford Range, by this construction, gives a dry, even heat, which roasts or bakes an article thoroughly and evenly, the heat in all parts of the oven is equal, the fire side being no hotter than the other side.

If your dealer doesn't handle the Imperial Oxford Range, write to us and we will send you our catalogue and tell you where you can see the range.

BRITAIN'S MARK TWAIN

FAMOUS ENGLISH AUTHOR SAYS
JOKES COME FROM HEAVEN.

Jerome K. Jerome Has Grave Moods As Well As Gay—The Personality of the Author of "Three Men in a Boat"—Has Tried Many Things But Is Making Good Money Now—His Name.

Jerome K. Jerome, the humorist, who has come to the country to lecture, avers that he is a very serious man. Though he has made so many people laugh, he has an ambition, like many other joke makers, to be taken seriously. He has had a serious time of it in life. At fifteen he was thrown on his own resources and got employment as a clerk in a railway office. He stood it for three years, but, as Mr. Jerome himself has put it, "the routine was simply killing," and he got out of the railway business. Then he went on the stage, not altogether because he expected to become a great actor, but more, perhaps, because he wanted to do dramatic writing and needed to

JEROME K. JEROME.

know stage technique. He came to grief as a traveling actor, but while on the stage had many experiences that served him in good stead later on. He tried newspaper reporting and wrote about fires, inquests—everything. He would manifest his items and leave them at the offices of different papers, and those that used them paid 3 cents a line. His weekly receipts were not colossal in those days, and he was delighted when by chance he got a position as a dramatic critic, with a salary equal to \$7.50 a week. Afterward he taught school, but the public was finding him out, and he is now one of the most popular writers of the day. Some reviewers are of the opinion that his story, "Paul Kelter," places him in a front rank as a novelist. His plays have been quite remunerative, and the royalties from "Miss Hobbs" alone have made him independent of routine work. He is forty-three years of age and has been a married man for seventeen years.

A few years ago Mr. Jerome was running for a seat in Parliament and discussing on the platform such serious things as the corn tax and the education bill. The more out and he is undertaking to be the more the good people of Henley, where the speech was made, were convinced that he was joking. He wore a little white hat with a black band, and when in the opening his remarks he asked if he might be permitted to wear it, as he had a bad cold, he was greeted with uproarious laughter, under the impression that this was only some more of the fun found in his "Three Men in a Boat." The author told his audience among other things, that the House of Lords was an "excellently preserved museum of mediocrity."

It is said that more copies of his "Three Men in a Boat" have been sold than of any other book since "Punch and Judy," but at a dinner he attended at the house of the guests were overheard to argue as to what made Mr. Jerome famous.

"He writes books," said one.

"No he don't," was the contemptuous retort. "He rowed three men in a boat and then won the race. That's what he does."

Mr. Jerome was asked to define a joke, and he replied he had been trying for twenty years, but had not succeeded in inventing a definition. Then he was asked if it were really true that an Englishman never understood a joke, and his reply was that if the Englishman was intelligent he usually did appreciate a joke. He added: "Jokes come from heaven; they belong to no country; they are of no locality. Jokes are an inspiration. You cannot manufacture them. They are painless."

"Do you believe in a law for the protection of joke makers against theft?" "No," he replied. "I don't advocate any such law for two reasons—one, it would be too easy to convict, and second, persons would be too full. My name is pronounced J-e-r-o-m-e. It has been in our family hundreds of years."

"My first name is pronounced like my last, but for this I claim no responsibility. My father gave it to me, and I didn't argue the point. It is too late now."

His income is large, and golf, tennis, cross country riding and work about the grounds of his country seat, Goulds Grove, which is near Wantage, keep him in training for his mental labor in producing literature, either grave or gay.

Getting Even.

"I wouldn't get the smartest man that ever lived," said she.

"You couldn't, madam," he began.

"I'm married now," said he.

True grit will never scowl and fret; ill luck is but the test of it. If it be the worst of luck should get, it simply makes the best of it.

The Mainspring of the body

Health Depends On The Blood—and "Fruit-a-tives" Insure Pure, Rich Blood.

Correct time hinges on the mainspring of your watch. Gold cases and jeweled movements look handsome—but it is the homely old steel mainspring that sends you to work on time, and prevents you from missing the train.

Blood is the body's mainspring. People lose arms and legs—eyes and ears—even the entire stomach. But you've got to have good red blood, to have good health. Fruit-a-tives give it to you.

Just see how necessary the blood is. Every organ in the body depends on the blood to assist digestion. It supplies gastric juice to the stomach to assist digestion. After food is properly digested, it takes up nourishment from the intestines and builds up flesh and strength. Frick the skin at any point, and blood will flow.

But—if the bowels don't move regularly, they keep food there until it decays—ferments. Instead of

blood taking up nourishment, it carries this decaying matter—poison—all over the body.

The stomach wants clean gastric juice and gets poison—

—indigestion, sour stomach, heartburn, coated tongue.

The kidneys want pure blood to help them, and get poison—

—pain in the back and then kidney disease. The muscles want nourishment so they can grow strong. They get poison instead—

—rheumatism and sciatica.

The blood makes a vain effort to get rid of the poison and carries it to the skin—

—pimples, blotches, sallow complexion.

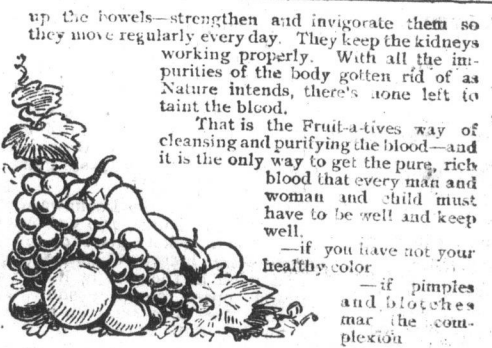

Fruit-a-tives clean the stomach, and make sure that food is digested properly. They go after the lazy liver—and stop those "bilious attacks." They tone

Fruit-a-tives

Purify the blood because they first of all cure CONSTIPATION, which is at the root of the trouble.

"I find Fruit-a-tives to be the best medicine I have ever taken for my trouble. I have been a sufferer from Constipation for five years and until I used Fruit-a-tives, could not do anything that did me any permanent good. Instead of increasing the dose as I had to do with all other medicines, I have steadily lessened it. One Fruit-a-tive tablet every two nights is sufficient now to make my bowels move regularly each day. All my visitors now hear about my new cure for Constipation."

Mrs. L. KINDREV, Treherne, Manitoba.

—if the skin is sallow
—if the head aches
—if the tongue is coated and breath bad
—if the stomach is all upset
—if there is distress after eating
—and especially if Constipation is becoming chronic, start NOW on Fruit-a-tives.

One box of Fruit-a-tives will show you how easily and quickly these troubles can be cured, now that you know the right remedy to take. Your druggist has them.

Ontario's Child Superintendent.

Mr. John Joseph Kelso, who is going to Nova Scotia to show the people of that province how to look after their neglected children, has long been prominent in child work in Ontario. In 1888 when engaged in work on The Toronto World, he organized the Toronto Humane Society. In 1888 Mr. Kelso established the Toronto Children's Fresh Air Fund, to provide free picnics and lunches for poor children in the hot weather. Recognizing the need for protecting children from cruelty and neglect, he organized in 1891, the Children's Aid Society, into which the Fresh Air Fund became merged. This society, which was the first of the kind to be formed in Canada, entered upon an arduous task of providing for neglected and dependent children, and in connection with it Mr. Kelso was appointed Superintendent of Neglected and Dependent Children of Ontario. He was for seven years on the editorial staff of The Toronto Globe.

Well, Eliza Jenkins, how did you enjoy your day in the country? Oh, sir, we had a puffy lovely time; we saw two pigs killed and a gentleman berid.

CATARH CANNOT BE CURED with Local Applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quick medicine. It is prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

MAN EATERS IN INDIA.

The Sort of Tigers That Hunt For Human Game.

The "man eater" is the jungle nightmare of India, and numerous are the theories to account for this abnormal appetite. Commonly it is said to be an old tiger which has found game too difficult to bring down, or a sickly tiger which has resorted to man killing in its weakness as the easier method.

The consensus of opinion among experienced hunters and observers is, however, that a man eater is an exceptional killer which in conflict with herders, who are often quite brave in defense of their cattle, has discovered how much less work it is to kill a man than cattle, for the cattle killer is usually fat and lazy. Nothing has been found, so far as I have discovered, to suggest appetite for human flesh as the impelling motive, or that man eaters reject all flesh but human, or that the cubs of a man killing tiger inherit the man killing propensity. Rather it is a case of contempt for man bred of familiarity, and more often the lust lays hold of the tigress, very likely because in foraging for her cubs (as she does until they begin to hunt for themselves at seven months) and in their defense she has come more frequently in contact with man, or it may be because the female is more numerous than the male or because by nature the slyer and more vicious. Exchange.

The Word Cigar.

The word cigar occurs in a German dictionary for the first time in 1815 and in the Dictionnaire of the French Academie in 1835. Kant used the word "zigaro" in 1798. In Spain at the present day the word "cigarro" means a cigarette, for which the Spaniards have the word "pitillo." Their name for a cigar is "un puro."
