CHATHAM LOST TO ST. THOMAS

Lacrosse Players From The
Saintry City Capture
Intermediate Prize

SPECTATORS WERE MANY

It was St. Thomas' day. They came here with a strong lacrosse team and a large and enthusiastic following, who expected to go home with the Intermediate C. L. A. championship for this district in their pockets—and the Chatham team did not disappoint them. It is, however, just a question whether it was an act of extreme courtesy on the part of the Chatham team, or whether it was really their fault after all. It was a good game, fast and clean, and the spectators enjoyed it—especially the St. Thomas spectators.

When the St. Thomas team arrived in the city with their big host of rosters, bright uniforms—red, denoting, presumably, that they were after blood—and their noisy bugle band, the local enthusiasts experienced something akin to a chill. St. Thomas was at least putting up the bluff pretty strong, and from the looks of their sturdy players there was evidently something behind it.

There was, however, some hope left for the Chatham bunch. There had been wild rumors going the rounds about some fast players who had been signed, and who would make their debut in this game, and the local rosters looked to these and Elliot to save Chatham's reputation. They were safe in depending on Elliot. He was in the game all the time, but unfortunately one of the supposed outside stars went lame at the knee early in the game and finally had to give it up and walk to the benches. It was then felt that it was "all off"—and it was. The Chatham team played well while they lasted, but they did not have the length of time, while the St. Thomas boys were in the game from start to finish, and they finished particularly strong.

The scoring started early in the game, and the first quarter ended 1-1. Ramer and Fairfield doing the tricks. The second quarter also ended in a tie, 2-2. McArthur and Best being the scorers. The third ended 3-3. Fairfield and Ramer being again the favorite players, and in the last quarter Chatham took a knock when a string on the market, when Northcote scored when there was only one minute to play.

The Chatham team was visibly weak from the centre all the way down the home. They were played 12 men to 11 and they should have won; at least this was the opinion of the rosters, but there were only two men on the whole home who would take chance, and these were Fairfield and Richards. The latter did not seem to wake up until the end of the game, when he did there was something doing when he got the ball. Fairfield was the favorite of the day. He was always on top of the ball and took repeated chances. The result is evident, as he did most of the scoring. Stewart made himself unpopular. He seemed to be saving himself and refused to take the "brouse." He had several good chances to go in and score, but he only took one of them. There is no excuse for Stewart, unless he was ill, for it is a well known fact that he is one of the fastest home players that Chatham has ever seen and when he does go in he generally scores.

There was surprise in many quarters to find Poole off the line-up. He could have done better than many who were on, and it is the duty of the management to put on the very strongest team when so much is at stake. Poole is a young player and has shown up well in all of the games he has played. Moreover, he is a Chatham boy. It is no way to encourage young players by leaving them off when any importance is attached to the game, especially when they have shown up as well as Poole has. It is discouraging to the spectators who go out to see a game and find that a strong team could easily be put in the field.

Frank McLaren, an old Chatham lacrosse player, was on the line-up for St. Thomas, but he did not do anything. He was mark of the rosters, but he took it all with a graceful spirit. Ramer, Northcote and Outhbertson did most of the heavy work, although every man on the St. Thomas team seemed to be in good shape, and they played hard. Art Pickering, another old Chatham boy, was the same old stone wall on the defense. St. Thomas tried to ring in a man who did not have a certificate. He was ruled off by the referee, and this is why they were forced to play with eleven men. Mr. Henry, of Brampton, made a good referee.

The following was the line-up:—Chatham—D. Babin, Tierney, Schevers, Elliot, Miner, Johnson, O'Keefe, Hutchison, Fairfield, Richards, Best and Stewart.

St. Thomas—Kempthorne, P. Leddy, Pickering, W. Leddy, Outhbertson, Sharp, McIntosh, Northcote, McLaren, McArthur, and Ramer.

Heaven is a place where the pedestrian will have just as many rights as the automobilist.

THE COUNCIL WILL RENOVATE THE ISOLATION HOSPITAL.

Building Must Be Placed In Suitable Condition—Health
Of city Demands It—Request For More
Street Sprinkling.

The City Council have decided on renovating the isolation hospital, as recommended by the Board of Health. The aldermen could see no way clear of avoiding the expense. The matter came up in the Finance committee's report, read by Ald. Scullard, which was in brief as follows:—

1.—That the work of renovating the isolation hospital, as recommended by the Board of Health, be gone on with, and that the contract for the work be awarded to J. W. Carswell.

2.—That the assessments of H. Mount and J. Powers be rectified according to the assessment rolls.

3.—That no action be taken with regard to St. Cowan's request for reduction of assessment, as such action would be illegal.

4.—That Mayor Marshall attend the annual convention of municipalities to be held in Halifax.

Ald. Scullard said that the Finance committee had looked carefully into the matter, but could see no

feasible way of avoiding the expense of renovating the isolation hospital. If the hospital were not put in proper condition the city would only incur more expense in perhaps another way.

Mayor Marshall reminded the aldermen that no provision had been made for the amount in the estimates.

Ald. Austin believed with Ald. Scullard that repairing the hospital would be the cheapest in the long run. The city had had dear experience in the way of not having a properly equipped isolation hospital. The Mayor, however, did not take quite so optimistic a view of matters. He said it was his belief that expenses would only be higher than ever. He did not look to see expenses cut down one iota by the change.

SOME STRAIGHT TALK.

Ald. Stone—Every member of the committee was opposed to such expenditure. Continued on Page 8.

GRAND TRUNK CANNOT USE THE QUEEN STREET SEWER

This Is The Decision Of The Council And Company
Will Be Requested To Repair Damage—The
Natural Gas Franchise.

The G. T. R. company and their bog pens are again the cause of trouble and annoyance to the City Council. This time it is in connection with the sewer from the pens which it seems the company's men tapped into the Queen street sewer without the permission or sanction of the City Engineer. In fact it seems that they did so without even notifying that gentleman of their intentions.

At last night's meeting of the City Council the City Engineer drew the matter to the attention of the aldermen. He stated that the Council City Engineer Jones stated that the company's workmen had tapped and broken into the Queen street sewer without getting a permit to do so. Some time after they had begun the work their agent here, Mr. H. Frisland, had come to the City Engineer and stated that the company intended making a change in their standpipes at the station, and this was the first notice he had had of their intention of doing any sewer work. The tapping of the Queen street sewer by the railway company, the Engineer said would seriously effect the service of that sewer, as the refuse from the pens flowing into it would back up and block it, and in times of high water and high pressure this refuse would most likely back up into the cellars along the street. The sewer was at present overtaxed, and this new tax upon its capacity made the outlook very serious. Further more, he said that Queen street sewer was in that peculiar position that it could not be taken up on account of the pavement on that street.

A resolution previously drafted under the supervision of the City Solicitor, was moved by Ald. Austin and seconded by Ald. Scullard. In effect the resolution was as follows:

That having been informed that the G. T. R. company had broken into the Queen street sewer without the permission of the City Engineer, and that the said company's workmen had damaged the sewer, and in view of the fact that the sewer cannot be taken up and remedied, and in view of the fact that the Council condemn and object to the action of the company or their employees, as the said action was taken without the proper authority and is deemed illegal. Furthermore, the resolution called upon the company to repair the damage they had done, and if they refuse to repair it within one month that the City Engineer do so and charge the work up to the G. T. R., and that the company be forbidden to dump their refuse into this sewer, as no provision is made for such action by either the local or the Provincial Board of Health.

This resolution when put to a vote was carried unanimously.

NATURAL GAS QUESTION.

An application to pipe the city with natural gas pipes was received from a Leamington syndicate, who stated that their pipes would be laid along the streets and alleys of the city. They did not ask for an exclusive franchise, and they would be prepared to do the work under the supervision of the City Engineer.

Ald. Austin and Scullard thought the matter would be best laid over till a subsequent meeting, as they said they understood that there were some other applications to come in and they might as well be all considered at once, which method would be fair to all parties concerned.

Ald. Massey thought the matter

should be taken up at once, as the Leamington people had their agreement all drawn up, and they did not ask for an exclusive franchise.

Ald. Benson believed the better plan would be to refer the matter to a committee of the whole Council to deal with, and take up all the propositions at once.

Ald. Stone favored this proposal, if each of the individual companies could be notified to have their agreements in by the time the meeting was called.

Allister McKay, who was in the audience, wanted the proposition taken up at once. He said that it was one of the best the city had ever had put before them, and that he thought the important time to deal with it was now.

Ald. Austin argued that a difference of a few days could not amount to so much to the capitalists, as they could not have the pipes down this year anyway, and all the companies should be given an equal chance.

Ald. Stone, seconded by Ald. Austin, moved that a special meeting of the Council be called for next Thursday night to deal with the matter, and that each of the individual companies be notified to have their proposals in by that time.—Carried.

SMALL MATTERS.

A property owner notified the Council that the sidewalk on the west side of Poplar street is in very bad shape, and that a granolithic walk should be laid there.—Board of Works.

A petition was received asking for a granolithic walk on the west side of Fourth street from Wellington street to the post office property. This petition in order to pass required a two-thirds vote from the Council.

It was moved by Ald. Stone, that the work be proceeded with at once, according to the by-law pertaining to such matters.—Carried unanimously.

A petition was received from eighteen ratepayers on Emma street, protesting against the laying of a pavement on that street. As the petition was received too late and is contrary to the new rule, no action was taken with regard to it.

Art. Dunn applied for permission to trim trees on King street west.—Referred to the Chief of Police.

Mrs. L. M. Taylor presented a doctor's bill for her son George, who received injuries through a fall on a defective walk at the corner of Duke and King streets. The letter claimed that on the evening on which the young man fell, the electric lights were not lit. She had afterwards had the break in the walk repaired so that no one else might be injured in the same way. The account was for \$6.—Finance.

"I want to know how J. Etches lay me off last April, and tell me not to go to work any more," wrote Joseph Keeley. "He kept single man Horn, and he is doing this this summer. It makes me mad, and I go to City Engineer. Then he tell me that I get work only I was a old drunker."—The Mayor referred the matter to the Board of Works to deal with.

Nothing is to be gained by abusing an individual because of the success achieved.

There is no difficulty in borrowing trouble when the inclination is in that direction.

EMMA STREET TO BE PAVED

Council Decides To Go On
With This Work In
Spite Of Petitions.

OTHER MINOR MATTERS.

Last night's meeting of the City Council was the first one this year at which there was barely a quorum present. The absentees were Ald. Potter, Edmondson and Thompson. These gentlemen were all out of town last night. Several questions of considerable importance were dealt with.

Ald. Stone brought up a matter which he wished referred to the Property committee to report upon at the next Council meeting.

Ald. Potter had received a request from a large implement company, which he (Ald. Stone) understood to be the International Harvester Company, who wished to rent from the city part of the auctioneers' stand on the market square for the purpose of exhibiting their implements to the farmers on Wednesdays and Saturdays.

Ald. Stone thought that if the city could thereby receive a revenue from this stand, it would be a wise move to rent it to this firm. He wished the matter referred to the Property committee, as arrangements might be made by the committee to have this company locate in the second floor of the market building, which is now unoccupied.

Mr. Scullard—Would they carry their machinery up there? The people might complain of the dust coming through to the room below where the poultry and dairy produce is sold.

The Mayor—The other men in the same line of business and already located in a permanent business in the city might object.

Ald. Scullard—The only way would be to ask for tenders and then all of them could get in on it.

The matter was referred to the Property committee.

Ald. Scullard brought up the matter of the remission of the taxes on the Charter property on Raleigh street, which is each year used by the Central school as a school garden. It is customary to remit this tax.—Referred to Finance committee.

Ald. Scullard made mention of the visit of the English bowlers to Chatham, which will be made shortly. He wanted to know the feeling of the Council on the subject of allowing these gentlemen some sort of entertainment from the city during their stay here. He had noticed that other cities were offering the bowlers civic welcomes.

Ald. Stone said that the English cricketers had visited Chatham and had received no formal entertainment from the city. The local cricket club had looked after them. The city was already under a heavy expense, and rather than make a grant from the city's funds for such a purpose he would be willing to donate \$5 out of his own pocket, providing all of the aldermen would do the same, and thus raise a fund to be applied towards a civic entertainment. He thought that the local bowling club is quite able to look after the English bowlers while they are here.

Ald. Austin explained to Ald. Stone that the members of the bowling club are donating \$10 apiece towards the entertainment of their visitors and Ald. Scullard's suggestion was for a civic welcome.

The Mayor—I think it will be sufficient if the Mayor and Council should meet them and tender them an address of welcome.

Ald. Scullard—I am just as tender as Ald. Stone on the subject of the tax rate, and I am very anxious to keep down the expenses of the city. I realize how important it is to do so. I did not move a grant by any means. I merely wished to get the feeling of the Council in the matter. I would not make any motion to extend such an entertainment unless it were unanimous.

The last item on the orders for the day was one of the biggest of the meeting. Thirty-one by-laws were put through their various readings and finally passed. One was for a sewer on Elizabeth street, another for a bitulithic pavement on Emma street, and twenty-nine for raising money for local improvements. When the by-law for the bitulithic pavement on Emma street came up in committee, Ald. Massey asked what percentage of the residents on the street were on the petition against this pavement.

The names were read out.

Ald. Austin, who was in the chair, explained that he had been approached by many of those whose names had been read out and while they could not refuse their neighbors' requests for them to sign this petition they would really like to see the pavement go down.

The Mayor thought the Council should go ahead with the work and the by-law authorizing the construction of the pavement was finally passed.

Ald. Benson rose, and being out of order, asked the Mayor's permission to call the attention of the Property committee to the light at the end of Queen street which, according to the complaints of some of the residents in that vicinity, has not been lit for some weeks.

GOOD ROADS MOVEMENT.

"Brantford wants to begin a good roads movement, with a view to improving its streets, which are said to be in bad condition. We know of no city, unless it be Toronto, more in need of such a movement than is Hamilton. Teamsters and drivers of all kinds of vehicles complain of the large number of holes in the streets and their general state of disrepair."—Hamilton Times.

"If Hamilton finds cause of complaint what shall be said of this city?"

"In Brantford the class of thoroughness to which Hamilton objects would be considered good, for at least they have their main streets paved, and many of the other streets macadamized."

"Brantford needs to face this thing in a straight and business-like way."—Brantford Courier.

A short time ago the high rate of taxation in Chatham was disparagingly commented upon by some of the eastern papers in whose cities the rate was considerably lower. Now, Hamilton and Brantford are just commencing to agitate through the press a movement which having been taken up and followed out by Chatham a couple of years ago, has been directly responsible for the local tax rate. It shows to what an extent Chatham is in advance of other cities in the way of local improvements.

Chatham has found the good roads movement a profitable thing and can recommend it highly to both Brantford and Hamilton. There is no complaint about a high tax rate from the citizens of this city. They are proud of their splendid pavements and are willing to pay for them. No doubt other cities would find these conditions much the same if they inaugurated good roads movements.

A PRIVATE BRIBE.

Engineer Rainboth, who gave startling evidence in the Public Accounts committee concerning grafting operations in supplying the survey parties engaged in the Georgian Bay survey, has been engaged to work with the International Boundary Commission. This officer came out of the investigation with great credit. He showed that he did his best to prevent the payment of excessive prices for horses, sleighs and robes. He made strong representations to his immediate superior and even carried the case to the Deputy Minister, though he did it without success.

The offer of a \$100 coin skin coat to this engineer with a receipted invoice, from the man whose claim was pending, only made Mr. Rainboth more firm. He returned the goods and told the Deputy Minister of the attempted bribe. The strange part of this affair was the indifference of Deputy Minister Gobeil who told the Public Accounts Committee that this seemed to be a private matter with which he had no call to interfere. One would like to know how many other private matters of this kind occur in the settlement of public accounts in the Marine Department.

Returns are coming in slowly from the census of Manitoba and the Northwest, which is now being taken. So far as Commissioner Blue has received figures they do not bear out the sanguine claims of the localities enumerated. The rural districts are yet to be heard from, and unless they make a better return than the cities and towns, there will be some difficulty in explaining what has become of the immigrants whom the Department of the Interior has been counting as they came in, and for whom the nation has been paying five dollars per head. Still the figures show a very large and rapid increase and are by no means disappointing to those who have not been deceived by immigration returns.

Too many people spend their time hoping for the best instead of working for it.

It is quite possible for a fellow to be blown up without feeling inflated.

The average man is more willing to lend his ears than to lend a hand.

The Food That Builds

Maybe you think of Mooney's Sodas only as a toothsome tidbit. Don't overlook their food value.

Mooney's Perfection Cream Sodas

are made of finest Canadian wheat flour, pure butter and rich cream. There's nothing else of equal size and cost that contains so much wholesome nourishment.

An ideal food.

All grocers have them—fresh and crisp in 1 & 3 lb packages.

TO ABOLISH SLEEP.

Abolition Would Enable Men and Women to Work Longer.

Up to the present we have found the ant the most interestingly suggestive creature. He has developed and understands stirculture—the improvement of the race by careful breeding—which with us is as yet mere theory, and as we look down at ant, we look up to him because the strangely active creature manages to do without sleep.

We human beings drowse through thirty years of our three score and ten, but the ant is awake and working all the time.

If the ant has managed to live without sleep, if he has acquired the faculty of lifelong wakefulness, why should we not do as much in time? We take it for granted that sleep is essential, as we take everything else for granted. We used to take it for granted that the earth was flat, but we have stopped that. Sleep was at one time forced upon man and other animals.

The earth in its rollings turned away from the sun once in every twenty-four hours. In the darkness of the beginning man said to himself, "If I go walking around I shall fall into a hole, so I shall be down and wait until the sun comes again."

We know that thin men, nervous highly organized, do with far less sleep than others. We know that age requires less sleep than youth.

Can we not cultivate and develop the characteristics which make sleep less necessary? Higher races of apes have abolished tails. Can't we abolish sleep?

As old age needs less sleep than babyhood, so in our maturity as a human race we shall probably demand less sleep than now in our racial babyhood. Perhaps none at all will be needed.

That kind of life will be worth while.

You can make people believe in you by pretending to believe in them.

A REMARKABLE TEST

Hyomei Has Been Known for Years And Is Guaranteed To Cure Catarrh.

We have given Hyomei a most thorough and remarkable test. The remedy has made so many cures that we have urged its use in the most chronic cases of catarrh. Breathed for a few minutes four times a day, through an inhaler that comes with every outfit, it soothes the irritated mucous membrane of the nose, throat, and lungs, kills the catarrhal germs, and restores complete health. Its healing, antiseptic fragrance penetrates to the most remote air passages, as no medicine taken into the stomach can possibly do. Immediate relief almost always follows the use of Hyomei, and great benefit is seen after a few days treatment.

The complete Hyomei outfit costs only \$1, and consists of an inhaler that can be carried in the pocket or purse, and will last a lifetime, a medicine dropper, and a bottle of Hyomei. If this is not sufficient for a complete cure, additional bottles of Hyomei can be obtained for 50 cents.

Compare this small expense with the fees charged by specialists. If you cannot obtain Hyomei of your dealer, it will be forwarded by mail, postage paid, on receipt of price. Write to-day for consultation blank that will entitle you to services of our medical department without charge. The R. T. Booth Company, Hyomei Building, Ithaca, N. Y.

No. 5 Colds, Coughs

Cure a cold, do not suppress it, or it will form a complication with the next disease you have. Use the Ensign Remedies for all ailments as they arise, and you will have good health.

SOLD BY DRUGGISTS.

FASHION HINTS

GIRLS' ONE-PIECE DRESS.

No. 4182.

A serviceable dress for school and everyday wear for girls is portrayed here in dark blue flannel and trimmed with black satinette braid. The dress is made in one piece with box plait laid in at the front and back, stitched to waist length, and from there allowed to hang freely. The closing is made down the center front. A broad sailor collar finishes the neck, and a belt of the material or leather fastens at the front. Chambray, linen, duck, gingham or plaid will combine harmoniously with insulation, embroidery, all-over and wash bands.

The quantity of material required for the medium size is 11-1/2 yards of 36-inch goods for guimp, 31-1/4 yards of 42-inch goods for dress and 5-8 yard of all-over or tucking for collar, sleeve band and facing guimp. Pattern No. 4182 is cut in sizes 4 to 12 years.

Mailed postpaid on receipt of 10 cents; name, size and address. The Fashion Department of C. Austin & Co.

A woman will work a week on a gown in order to look pretty two hours.

Too much humility is just as tiresome as quality as too much conceit.

NAIL CHARACTERISTICS.

They Are an Aid in Diagnosis of Diseases and Traits.

It is said that the moon at the base of the nail is simply an indication of good health and excellent circulation, while the white spots are always the accompaniment of an impaired nervous system. The common idea that an external application of vaseline will cure the white spots is erroneous, and those afflicted with the little "story tellers" would far better turn their attention to securing perfect physical health in the assurance that the spots will disappear with improved circulation.

It is not possible to create moons at the base of the nails. Frequently the moon is there, but through negligence it is covered by skin, which without attention will grow upward over the base of the nail.

It is not generally understood that the shape and appearance of the finger nails are carefully considered and form an important factor in the diagnosis of disease. Long nails are said to indicate physical weakness and tendency to lung trouble, and this tendency is aggravated where the nails are corrugated and yet more aggravated if they curve from the top back to the finger and across. Where the nails are long and bluish they indicate bad circulation. This same type of nail, but shorter, denotes tendency to throat affection, bronchitis and the like.

Short, small nails indicate heart disease. Where they are short, flat and sunken you may look for nervous disorders. The short nailed woman will criticize her friends and her foes, but she will criticize herself with the same severity. She is apt to be sarcastic and sometimes so quick at repartee that she appears almost brutal. The best dramatic and literary critics possess this type of nail.

Gold.

The first mention which we have of gold is in the eleventh verse of the second chapter of Genesis, or, in other words, 4,004 years before Christ. Gold was used as money by the ancient Egyptians at a very early date. Herodotus tells that the invention of the coinage of gold belongs to Lydia, about 750 B. C. Authorities conflict about the first coinage of gold. Some say it was Miletus and some the Persians, but there are no records to show just when.

The Justs.

Banaram of Persia bore the enviable title of the Just. The righteousness of his decisions was seldom called in question. This title has been conferred on several monarchs, among them being Casimir II. of Poland, Ferdinand I. and James II. of Aragon, Haroun-al-Raschid of "Arabian Nights" fame, Khosrow of Persia, Louis XIII. of France and Pedro I. of Portugal.

A Colored View.

"Mammy," said Pickaninny Jim as he watched the meters falling, "does you see all dat brightness comin' down?"

"Yaas, indeed."

"I know what makes it. De cullud angels has been put to work sweepin' up de golden city."

His Way.

Mr. Hennypeck (peevishly)—When you tell me to do a thing, like a fool I go and do it. Mrs. Hennypeck (acidly)—No, you go and do it like a fool.

We have committed the Golden Rule to memory; now let us commit it to life.

The Way of It.

"You see, he was whirled around a shaft at the mill and pretty seriously hurt. Now he's suing the boss for \$500 damages."

"Well, that's the way of the whirled."

Remember This.

Good temper is a splendid thing. But don't abuse it. You never know how good it was until you lose it.

Surprised Into It.

Custom Officer—Have you any smuggled articles in your baggage, ma'am? Lady Traveler—Well, I declare! Custom Officer—That's what we want you to do, ma'am.—Baltimore American.

An Ohio Idea.

She mailed a buckeye from her state. Delight and wrote, "I hope, dear Kate, I am your buck ideal."

Circus Gossip.

The Tiger—I hear the elephant can't leave with the show. The Bear—Why not? The Tiger—They are holding his trunk for his board.—Lippincott's Magazine.

They're Always There.

"How is it when parades go by," complained the little runt. The tallest man about you then must always stand in front?"

His Finish.

"He was born with a silver spoon in his mouth?" "Yes; but he met a chap who was raised with four aces in his hand."—Puck.

Poor Fool!

The masher's dart who fondly hopes With girls to have his fling. The he may think he knows the ropes. They'll get him on a string.

On One Point.

"Do you and your wife agree on anything?" "Yes. Each of us believes that one of us is very poorly matched."—Judge.

A lost fortune grows in proportion to the passage of time.

The Northway Co., Limited.

A WORKING PARLIAMENT.

Passed Much Legislation During Session Just Adjourned.

London, Aug. 6.—The new Liberal Parliament, which adjourned Saturday, distinguished itself as a working Parliament.

Besides passing the principal measures promised in the King's opening speech, others were passed or reached an advanced stage in committee, which will allow of their being finished at the autumn session.

The Irish laborers' cottages bill, the colonial marriages bill, Mr. P. O'Connor's musical copyright bill, the workmen's compensation bill, and the merchants' shipping bill are all in an advanced condition.

The Scotch crofters' bill, which, with the Irish laborers' cottages bill, probably will form the basis for eventually dealing with the land question in England also, was only introduced at the close of the session.

It goes to greater lengths in the reform of land legislation than even the Irish bills, and will be keenly contested by the Unionists.

The feature of the autumn session will be the struggle just opened between the two Houses over the education bill.

Better Than Spanking

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box 4, Windsor, Ont., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her to-day if your children trouble you in this way. Don't blame the child; the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

Honest Boy.

A boy was standing beside a stall where a farmer was selling cherries one day when he saw a coin lying on the ground and honestly picked it up and gave it to the farmer. "Thank you," said the farmer. "If you are always like this you will get on well. Here, take a handful of cherries." "No, thank you," said the boy. "Why not?" asked the farmer. "I would rather you would give me to me," said the boy. The farmer gave the boy a handful himself. "Why did you wish me to give them to you?" said the man. "Because your hand is bigger than mine," the boy replied.

VALUABLE ADVICE TO MOTHERS

If your child comes in from play coughing or showing evidences of a gripe, sore throat, or sickness of any kind, get out your bottle of Nerviline. Rub the chest and neck with Nerviline, give internal doses of ten drops of Nerviline in sweetened water every two hours. This will prevent any serious trouble. No liniment or pain reliever equals Polson's Nerviline, which has been the great family remedy in Canada for the past fifty years. Try a 25c. bottle of Nerviline.

A lost fortune grows in proportion to the passage of time.

LOCAL

Ernest Brisco is spending the day in Detroit.

H. L. Fenton, of Aurora, is in the city on business.

N. H. Stevens is spending the day in Detroit and Belle Isle.

Miss E. Purdy is spending her vacation in Tarnerville.

W. H. Tobey, of the 'Burg, was a Chatham visitor yesterday.

J. J. O'Connor was a city visitor from Ridgetown yesterday.

G. Kissell, of Mitchell's Bay, was in the city yesterday on business.

Miss Bagnall, of Jeannette's Creek, left this morning for Carrievale, Sask.

A. I. McCall left this morning for Muskoka, where he will spend a week.

The highest registered by Turner's thermometer yesterday was 88 in the shade.

Mr. Palmer, of Edgar street, left this morning for Vancouver via C. P. R.

W. M. Druder has just completed a fine new residence for E. Tape, of Highgate.

The Chatham baseball team are expected to play West Lorne on Friday in Chatham.

Miss Dolly and George Pritchard left yesterday for Pontiac, on a two weeks vacation.

Mr. and Mrs. Fred MacKay, of Springfield, Ill., are spending a few days in the city.

Mrs. (Dr.) Parsons, of Cleveland, is the guest of her mother, Mrs. Wm. Blight, Wellington street.

The Chatham cricket club will play a return match with the D. A. C's at Detroit on Aug. 16th.

Thomas Stephenson and Mr. Grandbois left this morning for Berlin to attend the old boys' reunion.

Mrs. (Capt.) Alf. Harris and children, of Serbia, are the guests of Mrs. John Carter, Selkirk street.

All members of the Bugle Band are requested to meet in the band room to-morrow night at eight o'clock.

Mrs. (Dr.) R. N. Fraser and Mrs. D. W. Newcombe, of Thamesville, were the guests of Mrs. W. M. Druder, Wellington street, yesterday.

While playing lacrosse last evening Fred Munroe received an unfortunate gash over one of his eyes which necessitated the attention of a physician.

Mrs. A. T. McDonald, of Louisville, Kentucky, is expected to arrive in the city this week. She will be the guest of Mrs. Wm. Blight, Wellington street.

Mr. and Mrs. G. W. Sulman were expected to arrive home from New York to-day at noon. Mr. and Mrs. Sulman have just returned from a tour to the most noted and historical cities of Europe.

The firemen were called out Sunday morning at two o'clock to extinguish a fire in a pile of straw on Mr. Kelly's property, Wellington street. The prompt work of the brigade prevented any serious damage. The alarm was sent in by Jack Smith.

Lost, a gold filled watch and chain on William street or at the Athletic Grounds yesterday afternoon. The watch bears two initials, "E. G." engraved on it, hunting case, and the chain is set with chipped diamonds in the shape of the fleur-de-lis. The finder will be suitably rewarded on returning the same to the G. T. R. depot.

THE ACCOUNTS WERE HIGH

The Board Of Health Discusses Expenditure On Contagious Cases

THE INSPECTOR'S REPORT

The regular meeting of the Board of Health was held yesterday afternoon. There was not much business to come before the Board, and the most important feature of the meeting was the passing of a number of accounts for the care of contagious patients. There was considerable discussion on some of these accounts, which were considered too high, but the Board realized that they were in such a position that they could not refuse payment.

There were present at the meeting Chairman Chatteris, Dr. Bray, Chas. Hadley, J. C. Wanless, and W. R. Baxter.

The following accounts were passed:

Coltart & Wilson, \$4.50.
Alex. McDonald, \$2.00.
G. T. Gutteridge, \$30.18.
B. Brooks, \$5.75.
Leaust, \$3.00.

A communication was read from H. G. Reed, re an outhouse on city property, near his residence, King St. East, in an unsanitary condition. Referred to the Sanitary Inspector to investigate.

Mr. Hadley moved that the account against Robert Broad, for board at Isolation Hospital and for back hire going there, be placed in the proper hands for collection. Carried.

Andrew Harbert was heard, stating that he could call twice a week at houses for garbage. Referred to the City Council.

The following was the Sanitary Officer's report for the month of July:

Owing to the hot weather there has been a large number of complaints of garbage and decaying fruit, but with two exceptions, the parties who had the garbage, etc., cleaned it up at once after being spoken to. One of the two has been warned for the second time and will be prosecuted if complained of again.

There was a little dissatisfaction with the garbage wagon. The by-law calls for the collector to call twice a week, and Mr. Harbert refuses to collect at the price more than once per week.

There have been six complaints of dead dogs five chickens and three cats, all of which have been attended to by Mr. Harbert, the cases having been labelled after immediate action was taken.

A. T. MOUNTIER, Inspector.

LIFE SAVED BY CORSETS

Brookville, Aug. 7.—A New York lady named Mrs. Russell, camping at Butterfield Lake, near Alexandria Bay, can attribute the saving of her life to her corsets. Her clothing caught fire from an alcohol lamp which was being used to heat curling tongs, and in an instant she was ablaze.

The terrified woman ran screaming out of the house towards the lake, a short distance away, with a view to jumping in, but those attracted by the noise started in pursuit, and overtaking her managed to extinguish the blaze with a blanket.

Every bit of clothing was burned from Mrs. Russell's body with the exception of the corsets, which prevented the fire from reaching the vital parts. The injuries inflicted were of a most painful and serious nature. Hopes are entertained of her recovery.

Child Burns to Death.

Calgary, Alta., Aug. 7.—The four-year-old daughter of W. S. Clarke of Innisfail, died yesterday morning from burns. She was left in the house while her parents were at work.

Two Killed in Wreck.

Pittsburg, Aug. 7.—The Cincinnati and New York limited, on the Pittsburg, Cincinnati, Chicago and St. Louis Railroad, was wrecked while entering this city late last night. Two persons were killed.

Little Boy Missing.

Toronto, Aug. 7.—Nine-year old Ronald Morrison of Hayter street went for a swim at Fisherman's Island yesterday morning. He did not come home last night and a policeman after a search handed his father his clothes. It is surmised he was drowned and a search is proceeding for the body.

PLAY AT 6.30.

The Stars and the Tammany Healers will play off a game on Tecumseh Park to-morrow evening at 6.30. The line-ups will be as follows:

Stars—Wood 2b, Dunn s.s., Baxter 1b, Smith 3b, Flick p, Grandbois l.f., Bailey r.f., Perrott c.f., Head c. Tammany Healers—Trotter 1b, Walker r.f., Thordacre 3b, Brady 2b, Raynor s.s., Pleasence p, Taylor c., Winegarden c.f., Willard r.f.

MR. MCKEOUGH ON WEATHER

Popular Ex-Mayor Says the Atmospheric Conditions Are All Right

SOME VERY HOT PLACES

"I take exception to you writing Chatham up as a hot place," said ex-Mayor W. E. McKeough to The Planet this morning. "You are all wrong," continued Mr. McKeough, as he threw open his light summer coat and fanned himself vigorously with a carefully folded piece of paper which he keeps handy in his law offices these days. It looked like a pretty good joke, but as the conversation progressed it was seen that the former father of the City Council was in earnest.

"Chatham is the coolest place in Ontario to-day," continued he with much emphasis, "and although we have a little warm weather now and again, we never have hot weather such as is experienced in some of the other cities in the province." And then the speaker went on to produce evidence to prove his statements.

"Take the instance of Mr. Gunn," he pointed out. "He has been spending a week at Miller lake, and he says that he never experienced such hot, sweltering weather as he did there. Walter Piggott has just returned from Parry Sound, and he comes back with tales of scorching cool day. Mr. Simon has been in Quebec, and had to leave there on account of the hot weather. He could not stand it. Matthew Wilson has been in Packson Point, Lake Barry, and he was glad to get back to Chatham, where he could enjoy a refreshing cool day. Mr. Simon has been out on the River St. Clair looking for a cool spot, but he had to come back to Chatham to find it."

"You spoke of Sunday being such a hot day, but you were wrong in your figures. I spent the most of the day in the west end of King St., and I found it very comfortable at just 70 degrees in the shade."

"When everything is considered," concluded the genial ex-Mayor, "you will go a long way before you can find a more comfortable place than Chatham, at any season of the year."

And then The Planet man, who was so convinced with Mr. McKeough's arguments about the coolness of the present Chatham weather, batted down his coat and turned up his collar before he would venture out in the open air.

THOUSANDS IN PRIZES

MILITARY DICTATORSHIP.

If Strike In Russia Gains Such Headway As to Endanger the Life of the State—70,000 Out.

St. Petersburg, Aug. 6.—With a general strike formally declared and the country apparently on the threshold of a gigantic struggle, minor issues fade into the background. If the strike inaugurated Saturday gathers sufficient headway to endanger the life of the state, it has virtually been decided that Grand Duke Nicholas Nikolaevich will be named commander of all the troops in the empire "where martial law exists," which would be tantamount to the decreeing of a military dictatorship.

It is possible, however, that the Government will not be driven to this extremity, as the showing made by the St. Petersburg proletariat was not impressive. Although nearly 70,000 workmen were reported to be out at night-fall Saturday, many of the men appear to be entering the struggle with heavy hearts.

Moscow and St. Petersburg are expected to decide the issue.

While the authorities undoubtedly are anxious, they manifest equal confidence that the army will not fail the Emperor, and that the strike will fail.

The weakest point in the revolutionary armor is believed to be lack of competent leaders.

The cabmen will strike Monday.

Two Killed by Bomb.

Moscow, Aug. 6.—A bomb was exploded Saturday afternoon in a room

in the Kazan-Moscow railway station occupied by the trail superintendent. Two employees were killed.

25,000 Miners Strike, 1,000 Armed.

Uzovka, Russia, Aug. 6.—More than 25,000 miners are now on strike, and 1,000 of them have organized themselves into a military body. They are armed with rifles.

Blows 30 Workmen to Pieces.

London, Aug. 6.—A despatch to The Evening Standard from Moscow says that a number of workmen there Saturday had prepared to receive with bombs a detachment of troops sent against them, when one of the bombs was prematurely exploded by accident and exploded other bombs, blowing 30 workmen to pieces and wounding many others. The soldiers were uninjured.

Poles Counsel Order.

Minsk, Aug. 6.—The Polish deputies who represented Lithuania and white Russia in the late Parliament, have returned from Viborg and created a sensation by issuing a statement to their constituents which criticizes Parliament for its agrarian program, and justifies its dissolution as constitutional. The deputies say they are opposed to measures of violence or revolution, and appeal to the voters to peacefully and quietly prepare for the new elections.

Love has a way of making exciting demands that cannot be gilled.

Since may be golden, but sometimes it is merely an indication of guilt.

SUMMER FIREPLACES.

How They May Be Transformed Into Things of Beauty.

The fireplace in summer is an almost tragic feature, with its neglected, rather aggrieved air, and most people are glad to induce it to hide as much as possible of its diminished head. We do not want to be reminded that all things pass and that we shall scarcely have begun to enjoy the summer ere we realize that it is nice to see a fire again, "just for the evenings."

The degree of summer disguise needed by the fireplace depends on its nature. The modern fireplace, with deep tiled recess, wants little but a bowl of cool greenery stood in the center. The

A DECORATIVE FIREPLACE, black leaded abomination, however, which survives in too many houses is a more difficult customer to manage. Half measures are of no use here, and the thing must be either left in its native ugliness or means must be adopted to cover it almost entirely.

A New Idea.

A wooden panel covered with tapestry of an indefinite leafy design may be planned to fit into the large square opening, and the lines of this can be broken up by pots of ferns. Once started, these groups can be kept up with a very few additional touches all through the summer.

An Oriental Suggestion.

A large Calene brass tray is another thing which goes far toward mitigating the plainness of the summer fireplace. This can be flanked in various ways by a couple of scrolly iron stands bearing plants, supporting jars of foliage or, as is shown in the sketch, by two tall cylinder pots. These latter can be filled with trails of ivy and periwinkle, with large fronds of fern standing up in the center, or, less trouble still, they can be planted with marigolds or ivy leaf geraniums.

Coiffure Modes.

The new summer coiffures are quite the prettiest and most becoming that Dame Fashion has been pleased to bestow upon us for some time. The hair in most cases is dressed high and is once more waved, the fashion for straight locks having passed. The hair is waved now in large waves, nothing small and crinkly being allowed or approval by the woman of fashion.

In the sketch of new coiffure modes is a dignified manner of hairdressing for an elderly lady.

The hair is waved and gathered from the brow over pads to match the hair,

DAINTY STYLES.

then the whole effect is completed with a coronet plait and a high tortoise shell comb with a design of lovers' knots in silver.

The coronet plait can, needless to say, be made up of hair comings to match the hair, and this innocent deception can well be pardoned, especially in the case of very scanty locks.

Many young girls use a plait of hair made of their own comings, the use of such small aids to a successful appearance being pardonable where nature has not been lavish with her gifts.

Hair comings can be made up by almost any hairdresser for a small sum.

A very dainty coiffure for a young girl is pictured, the hair being dressed low, with one curl on the shoulder and a single rose nestling behind the ear. In the center of the picture is a pretty coiffure with the hair dipped in the center and padded out a little at each side, then the hair on the top is arranged in curls, and large black bows complete the effect. This coiffure is particularly suitable for a tall girl.

With the tremendous popularity of the empire dress for day and evening wear, empire headdresses are very popular. A lovely design is finished with large puffed curls at the sides and a high empire comb.

To Obtain a Good Complexion—Don't drink tea or coffee. Drink pure water.

Eat grapes, apples, raisins and figs. Eat a few salted almonds daily. Don't eat animal food.

An egg or two a day, soft boiled, instead of meat.

Eat an orange every day or so. Walk two or three miles a day. Bathe the whole body daily in tepid water.

Don't fret; don't worry; be calm and quiet.

RED ROSE TEA

Pandora Range

A Ventilating Oven that Ventilates.

There is only one practical way of ventilating a range oven and that way has been adopted in the Pandora—is an actual, positive, working feature and not a mere talking point.

Fresh air is drawn from the outside through small vents into the oven while the odors and cooking fumes are forced by the fresh air out through small vents into the smoke flues, and up the chimney.

Roasts cooked in a Pandora oven retain their sweet, natural flavor, entirely free from cooking odors, absolutely unimpaired with any foreign flavor. Puddings, cakes, bread, meats, etc., are always light, fresh and free from mixed odors or flavors.

In the Pandora range you get all that scientific study, practical experience, skilled workmanship and an immense and finely equipped plant combined, can produce—the highest possible attainment in range perfection.

Ask your local dealer to show you the Pandora range, or write to us for free catalogue before buying any other.

THE REBELS ARE COWED

Loud in Protest the Russian Reformers Are Weak In Action.

THE STRIKE IS FUTILE.

St. Petersburg, Aug. 7.—Late yesterday afternoon it was evident that the Government had practically succeeded in crushing the organization of the strike leaders here. The central committee of the Social Democrats was captured and imprisoned in the early hours, and the greatest confusion now prevails in the revolutionary camp. The hope of the revolutionists is now centered in Moscow as the St. Petersburg railroad committee has decided to await the result of the strike there before attempting to order out the men. Wednesday is now the day on which they say the railroad strike will begin, although the employees of several of the street railroad lines who struck Saturday have resumed work.

Work of Expulsion.
The prefect of police of Cronstadt has notified the striking longshoremen there that unless they return to work to-day they will be expelled from the island.

A private despatch from the Westinghouse branch at Moscow received late yesterday said that the men were at work, and that the manager had been assured by the prefect of police that a general strike in Moscow was impossible.

Unless despatches from the interior within a few hours entirely change the situation the general strike promises to prove a complete failure. Although the Liberals are strongly opposed to the course of the Government they shrink from precipitating a revolution and the horrors of a civil war, in which the country would be plunged if the plans of the proletarian leaders were successful.

Will Destroy Railway.
Not only is the sympathy of the intelligent public lacking, but in St. Petersburg the leaders of the various labor organizations find many of the followers lukewarm and even in open rebellion against their orders. When the central committee of the printers' union adjourned last night many of the men returned to their cases, with the result that four newspapers appeared yesterday. The central committee of the railroad men's unions finds so many of the positions, with imprisonment into the bargain, that it has not yet, so far as known, issued a formal order to strike. If the train service is not brought to a standstill the collapse of the strike movement is inevitable.

The Council of Women's Deputies.
which met secretly at Terki, Finland, were so incensed at the timidity displayed by the railroad men that they decided to resort, if necessary, to the blowing up of bridges and the destruction of the roadbeds to bring the transportation service to a standstill. Representatives of all the revolutionary parties and emissaries from Moscow, Kiev, Riga, Odessa and other cities were present at the meeting. The telegraphers thus far have been appealed to in vain.

A Pottava despatch says that the torch has been applied to the stables, granaries and other buildings on the estate of Princess Chaplitsky. A flour mill also was destroyed. The incendiaries are not known.

At a congress of Baltic landowners held in Riga yesterday a resolution was passed in favor of the sale of crown and church lands, and the gradual expropriation of the land in excess of the establishment maximum. No peasant family owning more than fifty acres may obtain land under this system. The Baltic nobility have up to the present time been opposed to the expropriation of land.

Moscow Foresees Failure.
Moscow, Aug. 7.—Yesterday's developments presage a failure of the strike. The leaders are divided as to its opportuneness and their irresolution is affecting the spirits of the men. The railroad men who hold the key to the situation have thus far refused to join in the strike.

12,000 Miners Quit.
Lugansk, Province of Yekaterinoslav, Aug. 7.—A general strike has been proclaimed here. Twelve thousand miners have stopped work. Fifty thousand men are now out in the Donets Basin mining region.

Cossacks Whip Miners to Death.
Usovka, Aug. 7.—Workmen in the Monagova pits, to the number of twenty-five hundred, went on strike Sunday after Cossacks had broken up their meeting and whipped three of the resisting miners to death. Soldiers have been detailed to pump out the flooded mines.

Race War in Shusha.
Yelisavetpol, Aug. 7.—The race war between Tartars and Armenians at Shusha recommenced Sunday with greater force, and the fighting and massacres continue.

Skyröf's Dilemma.
London, Aug. 7.—According to an Odessa despatch to a local news agency, steamers arriving from Sevastopol say that fully 20,000 persons have left that city, and that the exodus is still in progress.

Admiral Skyröf's Dilemma.
The Black Sea fleet there, advice adds, is in an awkward dilemma. He is afraid to remove the breech locks from the fortress guns in case the crews of the warships mutiny, and at the same time he distrusts the fortress artillerymen.

At the fortress and on the warships double staffs of officers keep watch with cocked revolvers in their hands.

Sunday Wagonette Parties

Arrangements can be made for going to the lake every Sunday during July and August. The wagonette will leave every Sunday morning at about seven o'clock, and any person desiring to take the trip should call up phone No. 470. Calls will be made in any part of the city and upon the return in the evening passengers will be taken to their residence. Fare for the round trip 50 cents.

MOTHER SAVES HER BABES

Bride Sinks In Sight Of Her Husband - The Sirio Wreck

THE CAPTAIN WAS SAVED

Carthagena, Spain, Aug. 7.—Reports continue to arrive here of the terrible scenes attending the wreck on Saturday evening off Hormigas Island, not far from Cape Palos, of the Italian steamer Sirio, resulting in the loss of over 200 lives. The drowning of the Bishop of San Pedro, Brazil, is now attributed to the action of an Argentine passenger, who forcibly took from the bishop, a life-belt with which the latter had provided himself.

One Italian woman kept her three children afloat on a plank until they were all picked up.

Bridegroom Lost Bride.
A bridegroom who was on his honeymoon lost his bride and sister, and an old man who was saved lost three children.

Capt. Giuseppe Parodi, commander of the Sirio, was 62 years old and had 45 years' experience in navigation. The Sirio is considered to be a total loss. A number of bodies of drowned were buried yesterday. Ten passengers died after being brought ashore.

The survivors say that the Sirio sank with extreme rapidity. The boats were so overcrowded that a number of them immediately capsized, throwing their occupants into the water.

Quantities of food and clothing for the survivors are arriving here from all parts of the country.

Captain Was Rescued.
It is learned that the captain of the Sirio was on board the steamer when she sank, and expressed the determination to go down with his vessel. He was afterwards rescued in spite of his refusal to be saved.

Intense Excitement at Genoa.
Genoa, Italy, Aug. 7.—The wreck of the Italian steamer Sirio Saturday, off Hormigas Island, near Carthagena, Spain, causes intense excitement among relatives and friends of the Italian passengers and crew, most of whom lived here or in this vicinity. The fate of the captain of the port and of the Italian General Navigation Co., to which the Sirio belonged, were so besieged yesterday by agonized throngs seeking information that the police were compelled to establish barriers to hold back the crowds, some of whom assumed a threatening aspect, declaring that facts were being withheld.

The Sirio had seen 29 years' of service, but she was considered to be seaworthy. Her captain, Giuseppe Parodi, was a native of Genoa and a veteran seaman.

Naples Is Anxious.

Naples, Aug. 7.—Many of the emigrants who sailed for South America on the Italian steamer Sirio, wrecked Saturday near Carthagena, Spain, were from Southern Italy, and accordingly great anxiety is manifested here. Crowds of people are seeking details of the disaster and the names of passengers for the purpose of identifying the lost and saved.

EMMA STREET TO BE PAVED

Continued from Page One.
The request was granted and the Property committee will investigate the matter and remedy the trouble if there is any.

Ald. Scullard reported the sale of debentures. The first sixteen of the debentures had been sold to P. Marx and the city received a bonus of \$115. This was considered a fairly good sale.

\$1,000 PILE CURE.

A Thousand Dollar Guarantee goes with every bottle of Dr. Leonard's Hem-Roid—the only certain cure for every form of Piles.

George Cook, St. Thomas, Ont., writes: "Dr. Leonard's Hem-Roid cured me of a very bad case of Piles of over ten years' standing. I had tried everything but got no permanent cure till I used Hem-Roid. I had Blind and Bleeding Piles, and suffered everything. Ointments and local treatments failed, but Dr. Leonard's Hem-Roid cured me perfectly."

Hem-Roid is a tablet taken internally which removes the cause of Piles. \$1.00, all druggists, or The Wilson-Pyle Co., Limited, Niagara Falls, Ont.

SHOT INDIAN FOR BEAR

Peter Skye Aged 21 Fatally Wounded At Mine Centre

A TERRIBLE BLUNDER

Mine Centre, Ont., Aug. 7.—Sunday night while D. C. Boyington and Paul Lapierre were en route to a canoe from their mining location to Mine Centre, they saw what they took to be a bear in the water.

Lapierre fired at the object, which turned out to be two Indians in a canoe.

The canoe capsized, one of the shots taking effect, going through one of the Indian's body. The Indian's name is Peter Skye, aged 21. He died yesterday morning from result of wound.

RADIANT WOMANHOOD.

The glory and satisfaction of beautiful womanhood can be known only to those possessing the unlimited advantages of health. No weak woman can be happy or enjoy half the pleasures of life. Pallid cheeks, sunken eyes, exhausted nerves, all tell of a terrible struggle to keep up. What the weak woman needs is Ferrozone; it renews, restores and vitalizes instantly—it's a "woman's remedy," that's why.

Ferrozone makes women strong, plump and healthy because it contains lots of nutriment, the kind that forms muscle, sinew, bone and nerve. Vitalizing blood courses through the body, making delightful color, happy spirit, true womanly strength. Fifty cents buys a box of Ferrozone in any drug store.

Wisdom does no title with any man and the trouble is she lives with very few.

Sheriff's Sale of Lands

County of Kent to wit:

By virtue of a writ of execution issued out of the Third Division Court of the County of Kent, to me directed and delivered against the lands of Samuel H. Johnston, in a certain suit wherein Laird Bros. are plaintiffs, and Samuel H. Johnston is defendant, I have seized and taken in execution, and will offer for sale, at my office, Harrison Hall, in the city of Chatham, on Wednesday, the fifteenth day of August, A. D. 1906, at the hour of eleven o'clock in the forenoon, all the right, title, interest, and equity of redemption of the said Samuel H. Johnston, in, to, or out of, the east half of the southeast quarter of lot number nine in the eleventh concession of the Township of Chatham in the County of Kent.

J. R. GEMMILL, Sheriff.

Sheriff's Office, Chatham,
April 30th, 1906.

The above sale is adjourned until Saturday the 29th day of September at the same hour and place.

J. R. GEMMILL, Sheriff.

A. M. HUNT, Secretary.

LONDON

Sept. 7-15, 1906

street, and on Queen St. only the ratepayers on one side had signed.

Ald. Austin thought that some arrangement should be arrived at whereby the people could be relieved of the nuisance. They had made several complaints and he thought that every endeavor should be made to secure means of having the street sprinkled.

Clerk Merritt said that the petition to have that portion of the street sprinkled had not been presented to the Council early enough. It was moved by Ald. Austin that the matter be referred to the Board of Works, and that that committee be asked to take every possible action to comply with the prayer of the petitioners. Carried.

DEAFNESS CANNOT BE CURED.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. Cheney & Co., Props., Toledo, O.

Sold by druggists, price 75c.

Take Hall's Family Pills for constipation.

Some girls flirt with handkerchiefs and some with fans, but the majority prefer to flirt with men.
