TEN STOCKS HIGHER—LESS SELLING IN C. P. R. WHICH IS HIGHER—COTTON STOCK INTERESTING AT PRESENT.

Montreal, Aug. 21.

The Street has resolved that valuations must rise. This was one announcement from New York, and it might have been said with equal truth about the local Exchange. A very large majority of the fifteen securities traded in to-day, did so at higher prices. Montreal-London is leading in this respect, Payne and Dom. Coal coming next, while Royal Electric also registered a considerable advance. Canadian Pacific in agreement with London quotations, rose to something like its old level, and its smaller amount of shares transferred were well taken. One of the Cottons advanced to-day and one fell off a little. These stocks are, in view of the approaching Convention of the New England Cotton Manufacturers' Association, to be held in Montreal on the 5th and 6th of October, likely to be more interesting than usual to Commercial and Financial circles. They may rise a point or two higher for the next seven or eight weeks. Business was thus very much brisker to-day, owing to general interest having been awakened here and to the more bullish sentiment prevailing in New York market.

Canadian Pacific was 1/2 higher on two deals involving 350 shares. Demand 97 1/2, offer 97 1/2.

Montreal Street Railway advanced 1/2 on 100 shares. Wanted 323 1/2, offered 322 1/2.

Twin City advanced 1/2 up to 65. Wanted 66, offered 65.

Toronto Railway 1/2 higher. Offer of the same 116 1/2 was made for more, but 117 1/2 was wanted.

Payne advanced 2, to 138. An offer of 135 was made, but 140 was asked.

Republic sold at the same prices. There was offered 125 at the close, while 127 was asked.

Montreal-London sold at 2 1/2, 3 1/2, 4 1/2 higher than Friday's. To-day's medium price, 57, was also the price offered for more, but 58 1/2 was demanded.

Royal Electric was 1 1/2 higher to-day, and 181 is the price of about a month ago. This price was offered for more, but 182 1/2 was wanted.

Dom. Coal Com., at 55 was 2 over its price of a fortnight ago. Sellers held out for 55, but buyers offered 53.

Merchants Cotton, 138 was 1 below last week's price.

Quebec Bank, at 137 was 1 higher. This was offered for more, but no shares were for sale.

Bank of Commerce, at 150 1-2, was 1 point over its former notch. Demand was for 162, there being offered 155.

Bank of Montreal at 261 1-2 was 3 1-2 lower than last week's price. A sale of 1 share, as this was, shows nothing.

Merchants Bank at 170 1-2 stood at the same figure as on Friday. 172 was the demand, 169 1/2 the offer.

EXCHANGE NEWS IN EVIDENCE.

Mr. George Johnson, the Dominion Statistician, in announcing that there are 1,219 periodical publications in Canada, says: Mining is not well represented by the number of our Canadian journals, though the excellence of those we have is beyond dispute. There are four of the monthly variety, three weekly and one daily."

We need scarcely add that the one daily thus complimented among others for excellence is the "Exchange News."

MONTREAL MINING EXCHANGE.

STRONG AND ACTIVE WITH AN UPWARD TENDENCY — MARKET BROADENING DAILY—MONTREAL LONDON AND SLOCAN-SOVERLEAD—STOCKS IN SMALL SUPPLY.

Montreal, Aug. 21

There is a good speculative demand all along the line and a most encouraging outlook for the holders of mining shares. Prices seem to advance without much stock changing hands, which bears out the view lately taken by the Exchange News that all weak and dissatisfied holders are pretty well sold out. The general expectation is for higher prices and we would recommend accepting reasonable profits on advances. A business of over 25,000 shares demonstrates the fact more forcibly than words, that the mining business of the country is quietly drifting to the Montreal Exchange where every advantage is given operators as business is done strictly on a commission basis. The Toronto brokers will always command a fair share of trading, but we think a more concentrated plan of operators would tend to the advantage of all concerned.

Montreal-London and Slocan-Sovereign were the leaders of the Exchange. That much larger trading in them did not take place, was owing to the lightness of offerings. They both closed strong, and as they are closely connected, news of one affects the other. In the present case there is good news on both.

Big Three was down to 13. Its day will come, and purchases around present prices will be pleasant to look back upon.

Okanagan was sold at 12. There are strong believers in this stock. Gold Hills Development was in good demand at full prices. It has been dead for a long time and the change of tone is welcome news to many holders of the shares. It should be sold on all advances.

Morrison was also an active issue. It bids fair to be an active stock and promises fair chances for winning.

NEW YORK EXCHANGE.

PARISIAN RIOT WITHOUT EFFECT ON AMERICAN STOCK—PANHANDLE AND RUBBER LIKELY TO GO HIGHER.

New York, August 21.

The week opened with the financial outlook on the American side of the water as brilliant as ever. So far as the immediate market is concerned, the only cloud over it is the news of the rioting in Paris, which people, who are constantly on the lookout for a French revolution, proceed to interpret in that sense. It is doubtful, however if any serious effect upon American securities will be felt, even should such a revolution occur. It would, however, of course, have a temporary effect.

The N. Y. Stock Exchange has fixed itself for higher prices and interests in that expectation. It has the confirmation of each and all the more important financial interests in New York.

Attention is, I think, likely to be turned more towards the moderate priced stocks than in the direction of such high-priced ones, as B.R.T. and the Grangers, the latter are already selling on the basis of the present money market and unless melons are to be cut, can hardly do more than retain that relationship. Such stocks as So. Pac., which according to the best advices I can get, is likely to go still higher. Panhandle, Big Four, C & O, and So. Ry. common and preferred, are, it seems to me, more likely to advance.

Some of the Industrials which are likely to be affected by the development of speculation, are also in line for higher prices. The Rubber Goods Mfg. Co. has recently acquired the Hartford Rubber Co., which adds a net income, so I am informed, of \$400,000 per annum to the Rubber Goods Co., which under consolidation will probably reach \$500,000 or \$600,000. I expect to see Rubber goods common sell at 40 or 50 before very long, and preferred at par.

Some enthusiastic people predict 200 for T.C.I., the underwriting essential to the combination of the Schloss, Sheffield Co. is already at a premium of 110 to 120.

New York, noon, Aug. 21.

Although the market in London, was irregular, the stock which has been the favorite with the foreigners for some little time, namely, L. & N., was $\frac{3}{8}$ below our closing, nevertheless, our opening was strong with evidences of a sharp revival in commission business and with rather less liquidation than might be expected considering the advance.

Perhaps the feature of the opening was T.C.I. which very shortly after the fall of the gavel reached par, reacted somewhat quickly, then became and now remains decidedly feverish. The short interest in it is still large and it is leading well below the current money rate.

Another active feature was B.R.T. which early developed weakness on what looked like heavy liquidation. There is an im-

pression in the Street that a flow of office orders has disposed of a very large proportion of its holdings, that the earnings are not satisfactory, and further, that its prospects are endangered by the operations of the Ford Bill, and also by the possibility of an attack from the Brooklyn politicians, who are talking about passing an ordinance compelling the company to put its tramway underground, are matters well known to the Street.
