REMARKS.

All who design to become Students in this Institution, should enter, if at all possible, at the commencement of a Term, as the regular Classes are then organized; pupils, however, will be received at any time.

The only pre-requisites for admission into the Primary Department are a good moral character, ability to read and spell, and age sufficient to enable the Pupil to prepare regularly for recitation.

The time which will be occupied in the First and Third Courses will depend upon the capacity and industry of the Student.

Certificates will be given, at the close of each Academical Year, to such Students as may have passed satisfactory examinations in all the studies of either Course.

Persons who may not wish to pursue either Course regularly, will be allowed to enter any of the Classes in order for which they are qualified.

Whenever it may be requested by a sufficient number of Students, Classes will be instructed in French, Book-Keeping, Land Surveying, Navigation, Analytical Geometry, Calculus, &c. &c.

The Institution is furnished with Maps, Globes, Chemical and Philosophical Apparatus, &c. &c.

Lectures will be delivered upon the different branches of Natural Science, &c.

Every effort will be made to secure cheerful diligence in application to study. The object will be not only to instruct, but to educate; not only to impart useful knowledge, but to fix good habits. No reasonable exertions will be spared in giving a thorough

and symmetrical training to all the mental and moral powers, and in avoiding the too common error of cultivating the intellect at the expense of the heart. The course of training will be directed, as far as possible, to the formation of an intelligent, efficient and manly character, suited to the duties and responsibilities of active life.

Every reasonable precaution will be used to preserve a healthy state of moral feeling. It is determined that no one shall continue in the Academy whose character and habits are found to exert an *influence unfavourable* to good morals or good order.

The government will be strictly parental. The Governor and Principal will reside in the same Building with the Students. — Daily records of scholarship and conduct will be made with great care.

Parents and Guardians are *earnestly advised* that the lads should be furnished *very sparingly*, if at all, with spending money. Money sufficient to meet incidental expenses should be lodged with the Governor and Chaplain of the Institution, or with some other responsible person.

SACKVILLE is a retired country village, pleasant and healthy, and easy of access from all parts of the Lower Provinces.

The Academical Building is elegant, spacious, and comfortable, and delightfully situated.
