We copy below an account from the Sun of the progress of the Prince of Wales through Windsor and Hant-port. We learn from one pre-sent that the repast furnished to his Royal Highness and the party who accompanied him to Windsor was sumptuous, and the reception all that could be desired. The address read by the Rev. Dr. McCawley, President of King's College, was an elegant piece of composition, and elicited a very neat and appropriate reply from the Prince. A number of beautiful arches graced the streets of Windsor and Falmouth, among which those constructed by Mr. James Gelder and Mr. Churchill were prominent. The forme were decorated with the motions "Maria ipra alque tecta exultant," and "God return Thee

His Royal Highness was received by the members of the Executive Government, and the Executive Committee, and accompanied by his Excellency the Earl of Mul-grave and other distinguished persons. The party immediately entered the carriage prepar ed for the occasion, which shortly after left amid the cheers of the people. The run to Windsor was made in the short time of one hour and a half precisely. Arrived at the banks of the Ayon, the Prince entered the new Hotel by the Railway Terminus, through a guard of the Hal-ifax Rifles and Irish Volunteers, and under a Royal Salute from the Halifax Volunteer Artil-lery. whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofu-lous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venercal infection. What-ever be its origin, it is hereditary in the constitu-tion, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tuber-cles; in the glands, swellings; and on the surface.

lungs, liver, and internal organs, is termed tuber-cles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their pen-etrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting. Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the follow-ing complaints: Costiveness, Heartburn, Headache, arising from dilordered stomach, Nausea, Indiagestion, Pain in and Morbid Inaction of the Boucels, Flatulency, Loss of Appetite, Jaundice, and other kindred com-plaints, arising from a low state of the body or obstruc-tion of its functions.

When once tried, its been restored from alarming and even desperate dis-eases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and to remarkable to be forgotten.

A CARD TO THE SUFFERING

A CARD TO THE OUT I LITERAT. THE REV. WILLIAM/COSOROVE, while labouring as a missionary in Japan, was cured of Consumption, when all other means used failed, by a receipe obts ined from a learned physician residing in the great city of jeddo. This recipe has cured great numbers who were suffering from Consumptioh, Bronchitis, Sore Throat, Coughs, and Colds, and the debility and nervous depres-sion caused by these disorders. Desirous of basefitting others, 1 will send this recipe, which I have brought home with me, to all who need, it, free of charge. Rev. WM. Cosenovs, 20 Baltie street, Brooklyn, N.Y.
