Mr. Speaker,

To protect and fecure the Houfe of Affemby in the free and full enjoyment of all its rights and privileges, is no more than my abfolute duty. The House having refumed its sitting, Mr. Speaker reported that when the house attended this day in the Council Chamber, His Excellency was pleased to deliver to both houses of Alsembly a speech, of which, to prevent mistakes, he had obtained a copy, which was ordered to be read and is as follows, viz.:

### " Mr. President, and Gentlemen of his Majesty's Council, "Mr. Speaker, and Gentlemen of the House of Assembly,

O N receiving intelligence of a War having been declared by the Government of the United States of America, against the United Kingdom of Great Britain, Ireland, and her Dependencies, His Majesty's Colonial Council was convened, and I deemed proper in compliance with the advice thereof, to fend an officer charged with confidential Dispatches to his Majesty's neighbouring Colony of Nova-Scotia.

"It is with peculiar latisfaction, that, in refult of that miffion, I am enabled of announcing to you, the cordial affurances, on the part of his Excellency the Lieutenant General Commanding, and the Admiral at Halifax, of affording for the fervice, and protection of this Ifland, fuch means as the actual conjuncture, of affairs may occafionally require.

"These hostile occurences rendering it imperiously necessary that fome prompt and vigorous measures be immediately adopted to ascertain the efficient defence and fecurity of this Colony against all eventual attempts of an enterprizing enemy, I beg leave to recommend, as the primary and most pressing object of your duty a revision and improvement of our Militia Laws and Regulations.

"The faithful profecution and difcharge of that important duty will, no doubt, afford you, not only a gratifying opportunity of evincing your zeal and attachment to our moft gracious Sovereign and the beft of Conditutions on earth; but alfo of forering the feeds of the fimilar zeul and attachment, amongst all Ranks of individuals which compose our feveral Militia Corps, whole laudible disposition, I con-

### OF HIS MAJESTYS ISLAND PRINCE EDWARD.

template with heart felt fatisfaction, and from whole genuine, fpirit and activity, I am led to entertain the most fanguine hopes, that in critical occurences they will prove themfelves amply deferving the encouragement and rewards apportioned to them by your justice and liberality.

"To the end that due deliberation may take place, and that the appropriate time for your Agricultural purfuits might not unneceffarily be entrenched upon, I deligned this prefent meeting of the General Affembly, rather merely to propole, and deiberate than finally to determine on all the various important fubjects, which appear to me indifpenfibly incumbent on your duty, and that any Bill or matters of confequence, except fuch as may relate to the prefent momentuous crisis, be printed for mature consideration during a Recefs or Proprogation.

"The permanent arrangement and internal flate of the Colony, I am well perfuaded, cannot escape your attention: Religious Establishments and enforcing the observance of divine ordinances, faciliating the Administration and Execution of the Laws, and establishing schools or seminaries, for the Education, of youth are each of them objects of great urgency. Your Agriculture, your Fisheries, your Roads of Communication are also effentially requisite, to be attended to, and to supply the temporary want of cash, some adequate substitute, ought to be considered.

### "Mr. Speaker, and Gentlemen of the House of Assembly,

"I have directed the officers of the Revenue to lay the accounts of the receipts and expenditures of the public money before you.

"Fully relying on your experience, knowledge and liberality, I am perfuaded that you will judiciously, and by the most eligible and efficacious mode make the necessary provision for the support of the extraordinary expenses obviously requisite to be incurred, in the prefent critical circumstances, particularly for the equipment, and support of the embodied Militia, and summarily to place the King's Island together with your landed and commercial concerns in a state of security, against all manner of hostile depredations.

### " Mr. President, and Gentlemen of His Majesty's Council,

### " Mr. Speaker, and Genilemen of the House of Assembly,

"To your wife, able and unanimous exertions, a great task is consigned, the accomplifhment of which, cannot fail to evince, the true fpirit with which, the King's fubjects in this Ifland, are warmly imprefied, and inconteffibly to prove, that they are worthy of the bleffings, hitherto enjoyed by them, under the gracious Reign, of a plous and revered Monarch, and which they are qualified, and fhall therefore continue to enjoy, under the benign and happy Government of an active, dignified and august Regent."

Ordered, On Motion of Mr. Curtis, seconded by Mr. Gardiner, that a Committee be appointed, to prepare an Address, in answer to his Excellency the Lieutenant Governor's Speech, and that Messrs. Curtis, Goff, and Birme, do compose the fame.

The House then proceeded to the choice of their officers, when Mr. Ewen Cameron, was chosen Clerk. The Rev. Theophilus Desbrisay, Chaplain. Mr. Thomas Alexander, Serjeant at Arms. Mr. George Mabey, Messenger.

Moved by Mr. Solicitor General, That a Committee be appointed, to revise the Journals, from day to day; which Motion being seconded by Angus M'Aulay, Erg. was put and carried in the Affirmative, and the following members were appointed to compose the same, Messrs. Solicitor General, Worrell, and Birnie.

#### « SIR,

"IT HE House of Assembly in General Assembly convened having, in an Address dated 18th August, 1812, required to be laid before it "Such Information as I might be possessed of by Correspondence or otherwise, relative to the Office of Sheriff for the years 1809 and 1810, together with the list of fit and proper persons, to serve the the said Office of Sheriff for those two Years; and information to the like effect, as to the Years 1811 and 1812"—accordingly such documents as were in my possession relative to the office of Sheriff, and the nomination of proper persons for said office, have been transmitted to you, Sir, for the required information of your said House.

In the course of perusing an official copy of yesterday's transactions of your House, I had to observe, among other matters, the following statement, vizt. "On "motion the house resolved itself into a committee of the whole house to take "into consideration the correspondence between His Excellency the Lieutenant "Governor and the Chief Justice, on the subject of the nomination for the office of "Sheriff (Mr. M'Aulay in the chair) and after some time spent therein, the Speak-"er resumed the chair, and the Chairman reported, That it is the opinion of this Com-"mittee, that the office of Sheriff of this Island is an office in the important and upright "execution of the duties of which, the lives, liberties and properties of His Majely's "Subjects are deeply interefted.!! which opinion is self evidently just; the Journal continues, "That having considered attentively the correspondence laid before "this committee, between His Excellency the Lieutenant Governor and the "Chief Justice of this Island, we from delicate and respectful motives, decline to make "any minute comment thereon, but we are humbly of opinion, that the subject "thereof, is of such a nature as renders it highly necessary, that an amendment "should take place in the Act for the appointment of a Sheriff."

Here, Sir, I confess myself utterly unable to form the least idea of the existency of any species of delicate and respectful motives that could possibly exempt any House of Legislature from the indispensable duty, of making all such minute and proper comments as may be requisite on beneficial subjects submitted for investigation and consideration, but more principally, on a subject on which, (as justly stated in your Journals) the lives, the liberties, and the properties of His Majesty's subjects are deeply interested. I have strong reasons to request yop will move your House, to revise the first part of the extraordinary paragraph here alluded to, and I trust that upon the slightest reconsideration, they will feel its incongruity with the immutable principles and dignified spirit of candour—Conscious rectitude abhors concealment—I would most readily acknowledge my error, were I in the least degree sensible of having eired. The sequel of this paragraph seems clearly to imply that there has been some fault, or impropriety somewhere. Let it be enquired into. Let impartial discrimination pronounce where that fault lies, and let justice be some.

I have the honor to be, Sir,

your most obedient and

most humble Servant,

J. F. W. DES BARRES.

RALPH BRECKEN, Esquire,

Speaker of the House of Assembly. 5th September, 1812.

On Motion of Mr. Solicitor General, feconded by Mr. Townsend, That William Hyde, Efquire, during his attendance in performance of his duty as a Member of this Houfe, having been ferved with Process by a Constable, requiring his attendance before two Magistrates pending the fitting of the House, That the Constable ferving such process and any other perfon being accessary thereto, have been guilty of a Breach of the privileges of this House—The House divided, and there appeared,

Ordered, on Motion of Mr. Solicitor General, feconded by Mr. Coffin, That the following Address be adopted by the Houfe, and be prefented to His Excellency the Lieutenant Governor, and Mr. Solicitor General, Mr. Coffin and Mr. Murray, were appointed a Committee to prefent the fame, viz.

"To His Excellency JOSEPH FREDERICK WALLET DES BARRES, Lieutenant Governor and Commander in Chief of His Majesty's Island Prince Edward, and its Dependencies, Chancellor and Vice Admiral of the fame, Sc. Sc.

" The Address of the lower House of Assembly in General Assembly convened.

" May it Please Your Excellency,

66 THE House of Assembly in General Assembly convened, beg leave under the most embarrassing and painful circumstances to make their humble Aderess and representation to Your Excellency.

"In pursuance of his Majesty's Summons the Members attended on the Tenth day of August last, and have already sat as a House, Thirty-One Days, they have paid great attention to the investigation of the Public Accounts, and they have passed Bills to encrease, improve and facilitate the collection of the Public Revenue, to give some degree of efficacy to the Militia Laws, and other Bills tending to the security of the Colony, and the carrying into effect matters of immediate public utility therein, reserving for mature consideration, during a recess or prorogation, several subjects essentially requisite to be attended to, after due advice and deliberation. "Your Excellency has been pleased in your gracious Speech, at the opening of the Session, to demand with peculiar energy, the summary discharge of a great and ardnous duty on our part; and we hoped to have found in the proceedings of His Majesty's Council, that general unison with your Excellency's feelings, which would have promoted a prompt, efficient, and zealous prosecution of their duty, that so the three Estates, might in the present momentous Crisis of public affairs, have proceeded with harmony, unanimity, and vigour, but deeply do we regret to present to His Majesty's Representative, any statement which may indicate disunion and want of zeal, when and where effectionate coucord and fervent loyalty, should appear pre-eminently conspicuous: Yet a sense of that loyalty, our duty to our constituents, and regard of our own Reputation all demand that we should release our Character from the imputation of debility or indecision, which with too much justice, has been bestowed on the proceedings of both Houses of Assembly during the present Session.

" Under those impressions, we take the liberty to state, that from the Fifth day of September, instant, being the day on which, the Militia Bill passed this House, His Majesty's Council have sat, as a House but Three times until this Day; and that such their sittings seldom last half an hour-That the Militia Bill has not yet been ' committed in that House-That a Bill to establish a paper Currency, and a Bill relating entirely to the privileges of this House, were both sent up and rejected without a Conference having been demanded—That an Alien Bill (passed at Your Excellency's express recommendation) and a Bill to amend and increase the Revenue (both which Bills had passed this House and were sent up to His Majesty's Council for their concurrence) have been returned, for this alledged reason, that we had not a full House, when the Bills were sent up, although they had been regularly passed, and had been previously ordered to be sent up, but His Majesty's Council were not then sitting, to receive them—That the Bill for the Supplies, now lays in this House waiting for His Majesty's Council to receive it; and although it was mentioned to two of the Members of Council, before their sitting this Day, that the Bill would be ready in a few minutes, yet their honors did not sit above ten minutes to day; and have not yet taken into consideration sundry Bills now before them. Thus may it please Your Excellency are we kept from our Families and private pursuits, at an immence and unavailing expense to the Country,-The public service is obstructed, and His Majesty's Colony remains undefended.

"We should be equally degenerate and ungrateful if we omitted to bear testimony of the full sense we entertain of Your Excellency's dignified conduct, and indefatigable zeal, and lively attention to meet the wishes of this House, and of the Public, at all times, and while we lament most deeply, the necessity which compels us to lay this remonstrance before You, we have a perfect confidence, that in Your Excellency's Wisdom and Discretion, you will release us from Censure, and will adopt such measures, as may operate speedily to relieve us from further attendance at this time, when our agricultural pursuits so strongly demand our personal superintendance.

RALPH BRECKEN, Speaker."

# OF HIS MAJESTYS ISLAND PRINCE EDWARD.

Mr. Speaker, informed the Houfe that he had received a Letter from His Excellency the Lieutenant Governor, relative to the Affidavits of Angus M'Aulay, William Roubel and William Hafzard, Efquires, which on Motion, was ordered to be read, and entered on the Journals, and is as follows,

# GOVERNMENT HOUSE, Prince Edward Island, Sept. 25, 1812.

SIR, Edward Island, Sept. 25, 1812. HAVE attentively considered the Address of the House of Assembly, requesting information "whether certain Affidavits made by ANGUS MCAULAY WILLI-"AM ROUBFL and WILLIAM HASZARD, Esquires, in the matter of a certain Charge "of a State Nature, then depending against the Society of Loyal Electors, were "given up to the Judges of the Supreme Court of Judicature, by my order, for the "purpose of being produced in Court upon a Charge of a Criminal Nature, to be "brought against the persons who made the said Affidavits or any of them, and "upon whose application, such order, if any, was made, or such other official in-"formation as I may think fit to lay before the House on the subject."

In reply I beg you will have the goodness to communicate to the House, that no order whatever, relative to the delivery of the Affidavus in Question, has been given by me.

What I recollect is, that on the Monday before the sitting of the Supreme Court of Judicature in Michaelmas Term 1811, the three Judges called at Government House. I understood from what the Chief Justice said, that the Affidavits might have a tendency to discredit the Administration of Justice among the people in the country, and that he was well persuaded, I wished to give every requisite support for upholding the respect due to the Courts of Law, and the administration of Justice .- The Chief Justice requested to know, whether I had any objection to their having access to these Affidavits, and mentioned that Mr. SERANI had them. I informed them that MR. SERANI had been directed to furnish a complete Copy of these papers, to the Attorney General, for the purpose of obtaining his opinion thereon, but that the Original Papers remained in MR. SERANI'S hands, and I had no objection to their having access thereto. I had not the most distant idea of the possibility of these Affidavits being applied to the purpose of carrying on any criminal prosecution against the persons who made them; these Affidavits were given in by the parties by way of Justificative proofs, against charges preferred before me in Council, sitting as a Court of Inquiry on the subject matter of which no official decision has, as yet been made.

This enquiry into the proceedings of the Loyal Electors was deemed adviseable to be conducted with that secrecy, usually observed, in State affairs.—The opinion of the Attorney General had not been received, and it was expected, nothing immaturely, would be promulgated.

Willing to convey all the information which the House requires, I have no objection to the whole of the Papers, being laid before it.

I have the Honor to be, SIR,

> Your Most Obedient, Most Humble Stervart,

> > J.F. W. DES BARRES.

Resolved,

That this Houfe having peruled with due confideration, the papers laid before them, in confequence of His Excellency the Lieutenant Governor's order, relative to the Society of Loyal Electors together with His Excellency's Letter, are deeply concerned to obferve, that the conduct of the Honorable CÆSAR COLCLOUGH, Efquire, His Majefty's Chief Juffice, in procuring through m frequetentation and by indirect means, certain Affidavits made relative to a charge of a State Nature, at that time depending before His Excellency in Council against the Society, and in making use of those Affidavits, by causing them to be filed in the Supreme Court of Judicature, without the order or knowledge of His Excellency and causing profecutions and other proceedings to be taken upon fundity of the fair Affidavits. That the Houfe regarded with filence the correspondence between His Excellency and the Chief Justice relative to the appointment of Sheniffs, folely from an unwillingnels on the part of the Members to comment at this particular time upon the nature of that correspondence, but when the floule observes, that by the former proceedings the Chief Justice would have the Choice of Justes and by the later papers, that he became Solicitor, Profecutor and Judge, the Members can for those and other reasons, no longer refrain from declaring that fuch conduct is dangerous to the Lives, Liberties and Properties of His Majethy's Subjects, in fuch a degree, as to render it unadviseable, that the Chief Justice should be any longer continued in the discharge of the Functions of his Office, which he hath proved himself unworthy of being entrusted with.

Ordered, On Motion, that a Message be sent to His Majesty's Council, requesting to know, whether the Bill for amending the Sheriff Act, has received their concurrence.

Ordered, On Motion, that a Message be sent up to His Majesty's Council requesting to know if they have disposed of a Bill for the establishment of a Land Assessiment, sent up by this House.

On Motion, the House refolved itself into a Committee of the whole House to refume the confideration of the Public accounts (Mr. Solicitor Genreal, in the Chair) and after some time spent therein, the Speaker resumed the Chair, and the Chairman made the following report.

The Committee of this House, for the purpose of examining the Public Accounts, beg leave to report, that after an attentive and careful Examination of the same, they have found the different amounts thereof to be correct, but as the various charges of expenditure, contained in the Treasurer's account Current did not explain for what service they were made; your Committee have classed them un. der their proper heads, which they beg leave to submit to the House, with such remarks to each as they deemed proper to communicate.

Your Committee have also, as far as in their power made out a statement of the different Funds, now in the Treasurer's hands, with the feveral demands thereon so as to enable the House, to have at one view the balance, that will remain after those demands are paid, which the Committee trust, will be found correct, the same being stated from such Documents as were delivered them.

Remarks upon the different heads of public Expenditure.

#### STATISTICAL SURVEYS.

The Sum of  $\pounds$  130 0 0 charged under this head of Expenditure for the purpole of taking Statifical Survey's, you Committee with all possible defference, cannot avoid fubmitting to the House. However praiseworthy may have been the intention of Government in ordering those Surveys to be taken, yet we feel it an unavoidable duty on our part to flate that the advantage resulting from those Surveys has not kept pace with the Expence incurred thereby, in such proportion, as to render it advisable, that they should be continued annually, during the present limited flate of the Revenue.

### HIGHWAY EXPENDITURE.

There appeared to be expended upon the Highways and Baidges, &c, of the Island as pr. abstract  $\pounds 850$  8 0 your Committee do not feel themselves competent to remark fully upon the Items under this head of Expenditure, but beg leave to submit for the consideration of the House, whether the Revenue of the Island is at present adequate to follow up the plan lately adopted of widening and clearing the Public Roads to the extent of thirty feet. It must certainly be considered a very High Improvement if our finances can afford it; but it appears to the Committee, that the money would in future be expended, more to the advantage of the Public in making the prefent Roads to the Principal Settlements, paffable. Cutting down the Trees to the extent of twenty feet in breath, and clearing the Road of Stumps for half that distance, carrying on this Syftem of improvement, through the Principal Roads of the Ifland, which when completed might then be again improved upon. And that the Bridges and Caufeways flould be made good and expofed to the fun and air.

### CONTINGENT EXPENDITURE.

Your Committee observe a Charge for procuring Stones suitable for establishing a Meridian Line, and a further charge on the same account for clearing the ground: previous to their Erection; this object they conceive of the highest public utility, and trust the same will speedily be carried into full effect.

Your Committee next advert to the Sum of  $\pounds_{125}$  expended in the Conveyance of Mails, and beg leave to fubmit if a Superior arrangement could not be eafily formed for that effential purpose, the regular conveyance of the Mails, to and from Halifax.

The Sum of Twenty Pounds appears to have been paid to the Honorable William Townshend, as a remuneration for his boat lost on Government Service, your Committee are informed, that about one third of the above Sum has been recovered from the fale of the Wreck, but not yet handed to the Treasurer,

Your Committee further remark, upon the Charge for inclosing Charlotte-Town Burial Ground and the Interment of a Lunatic deceased, which they conceive properly helong to Parochial matters, and ought not to be fustained by the Public.

The Charges under Warrants, No. 71, £25 and No. 123, £20, being Sums paid on account of Plans, and Effimates furnished for Public Buildings, your Committee are of opinion, should have been defrayed from the Fund raised for that purpose, and not introduced into the present account rendered by the Treasurer. That it appears to the Committee as a measure highly necessary that the arrears of the Land Assertion and rendered for the Act of 1809, should be recovered, as foon as practicable.

In addition to the remarks which your Committee have fubmitted to the confideration of the Houfe, they conceive it their duty to flate that the Commission charged on the receipt of the Public money and transactions relative thereto by the Officers of Government, amounting to the Sum of 15 pr. Cent is an object deferving the ferious attention of the Legislature, for the purpose of endeavouring to establish a more economical system of management in future. Your Committee are assure that a reduction of two thirds of the charge above flated, might be obtained as well as sufficient fecurity given to the Public.

Your Committee also cannot avoid making some observations, upon the necessity of establishing a more regular mode of stating the Public accounts, than has here, tofore been the practice—much time must naturally be expended in their investigation and arrangement for the Public satisfaction, by the Committees appointed for that purpose, if the Expenditure is not ordered to be classed under different heads, and funds appropriated for particular purposes, kept completely diffinct from interference with any others. Your Committee also observed a confiderable degree of irregularity in the dates and numbering of the warrants, having found several inflances, of two being iffued of the fame number, and several amounts paid without any number, they also are of opinion, that the form formerly followed of inferting in the body of the warrant, the particular fervice for which the fame was ordered to be iffued, was more correct, than the prefent one, which does not ftate those particulars. Your Committee have thus endeavoured faithfully to difcharge their duty in laying before the House, the forgoing Remarks in Addition to the other Documents, which they trust will meet with the approbation of the House, and finally beg leave to add, the mode of appropriating the monies raised by the Impost Act, has been the subject of creating much discontent and want of Harmony in the Colony— and an alteration in the Act, giving the House of Assembly its share in the appropriation of that money, would, in the opinion of the Committee conduce in a great degree to the prosperity of the Island, and most certainly would, produce in the House, a spirit of liberality to meet the future Exigencies of Government.

Ordered, On Motion, that the report of the Committee be agreed to, and entered on the Journals.

Ordered, On Motion of Mr. Townsend, feconded by Mr. Gardiner, that an humble Addrefs be prefented to His Excellency praying that he would be pleafed to take the fubject of James Warren's Petition, into confideration, and to afford him fuch relief as to His Excellency in Council, fhall feem meet, for the purpofe of affifting him to purchafe Blankets, Window Glafs and other necessaries, at the Commencement of a long Winter, in a remote fituation; and Mr. Townsend, Dr. M'Aulay, and Mr. Curlis, were appointed a Committee to draw and prefent the fame.

After which His Excellency was pleased to deliver the following speech to both Houses,

" Mr. Peesident, and Gentlemen of His Majesty's Council,

" Mr. Speaker and Gentlemen of the House of Assembly,

66 TXTHEN the Hoftile Spirit and aggression of the United States of America, imposed on me the duty of Convening the Legislature of this Island, to provide requisite means, for ascertaining the Public fafety, I forrowly beheld the necessity of meeting you, at a feason of the year, in which I well knew, that your agricultural purfuits, and your Commercial Engagements, more than at any other, required your perfonal attentions, and prefence.

" Contemplating the momentous Grifis before us, to the importance and eventual confequence of which, all inferior confiderations ought to give way, I looked forward to the animation of your zeal and loyalty, and relying on your alacrity, in the difpatch of the most immediately pressing objects of your Legislative Duties, I indulged the hopes of being enabled, to afford you, a fpeedy relief, by an early prorogation.

"These hopes however have been disappointed, by various intervening interruptions, in the profecutions of the prefsing objects just alluded to. Among the number of those interruptions, I have to notice, that you deemed it a primary and inevitable object of your Legislative duty, after a forutiny of Elections, an examination of the Public Accounts, &c. &c. diligently to investigate the ground and Caufes of fundry matters and proceedings, appearing to you effentially to effect, the internal peace and tranquility, and the Lives, Liberties and Properties, of His Majefty's Loyal Subjects in this Island.

"While I deeply lament the inadequate efficacy of your Labours, I cordially acknowledgde the candour, afsiduity, and folicitude with which, feveral among you, Gentlemen, have, at the facrifice of perfonal interests, endeavourced to dif. charge your incumbent duties, in the protracted course of this now expiring Selsion.

"No Exertion of mine shall be wanting to bring our Militia Force in a course of Improvemnt by means of Drill and Discipline, to render it qualified and efficient, in the acertainment of the Public fafety.

" Trucking to the fulfilment of your promiles, to provide for its support, I have only to recommend to you, that in return to your feveral Counties, you will inculcate obedience to the Laws, and a due regard to that admirable Constitution which we owe to the Divine Inspiration of the all bounteous providence, and upon which the Glory and Happiness of the British Empire, have, fo long and successfully depended; and let us make our lives happy, in the enjoyment arifing, from a pious. observance of our Laws, being fully convinced of this truth, that, when the Laws are violated, life itself grows insecure, and property ceases to be advantageous."

Prince Edward Island, September 29th, 1812.

The Prelident of His Majsty's Council by His Excellency's Command, then faid, Gentlemen, it is His Excellency the Lieutenant Governor's will and pleafure, that this General Affembly be prorogued, to Tuesday the Tenth Day of November next, to be then here holden, and this General Affembly is accordingly prorogued to the Tenth day of November next.
