Rt. Rev. Neil McNeil

New Archbishop of Vancouver, B.C.

The public despatch received at the city telegraph offices Saturday night contained the important announce- ment that His Lordship Rt. Rev. Neil McNeil had been appointed Archbishop of Vancouver, B.C. This is one of the most important dioceses in British North America, and the selection of His Lordship Bishop McNeil shows that his administrative abilities and his successful work on the West Coast of Newfoundland have not gone unrecognized by Rome.

For the past 15 years Bishop McNeil has been laboring in the Diocese of St. George's, and the work accomplish- ed there is phenomenal when one con- sider the limited amount of capital that must necessarily be available for such a sparsely settled diocese where there are no millionaires. Good judgment, prudence and economy, however, are able to work under the most adverse conditions. His Lord- ship possesses in a marked degree, the town of St. George's has under- gone a remarkable metamorphosis since the Bishop took charge of that diocese in 1895. He built a beautiful Cathedral, a Presbytery and school, and these buildings in conjunction with the splendid convent already erected there make an imposing spec- tacle and tell better than any mere words can the kind of a man Bishop McNeil is. He has moreover encour- aged thrift amongst the people of the West Coast, and never ceased to ad- vise them to go in more extensively for the cultivation of the land and raising of live stock. He is beloved by the people of all denominations, and the regret that he is leaving the West Coast will be general. He has also many friends and admirers on the East Coast and at St. John's in particular who will be sorry to hear that he is leaving this country. Following is a short biography of the new Arch- bishop:

The Archbishop elect is descended from the McNells of Barra, Scotland. On his mother's side, he comes from the Meaghers, Kilkenny, Ireland, and was born in Mabou, Cape Breton, 59 years ago. When 15 years old he left

school to learn the trade of a black- smith, with his father, and three years later he entered St. Francis Xavier College, Antigonish, to study for the Priesthood. Here his re- markable mathematical abilities be- came developed. In 1873 the success- ful student proceeded to Rome to finish his studies. There he entered the College of the Propaganda, and for six years studied under such men as the late Cardinal Satelli and the eminent astronomer, Father Secchi. His record as a student was most brilliant, and in 1879 he was ordain- ed to the Priesthood. After leaving Rome, he spent a year at the Uni- versity at Marcellus, to study astro- nomy and higher mathematics. In 1880 he returned to Nova Scotia, and joined the teaching staff at St. Francis Xavier College, of which he afterwards became President. In 1881 he started the newspaper Aurora, and from 1890 to 1892 edited the An- tigonish Casket. In the latter year he was appointed to the parish of West Arichat, and later on, to the parish of D'Escouss, when he was elevated to the dignity of the Hier- archy. In October 20th, 1895, Bishop McNeil was consecrated Titular Bishop of Nipolis in partibus In- diarum and Vicar Apostolic of St. George's, and was consecrated at An- tigonish, assisted by Archbishop How- ley and the Bishop of Charlottetown. In 1905 when St. John's was cre- ated an Archdiocese, the Vicariate of St. George's was made a diocese and Bis- hop McNeil became Bishop of St. George's.

As a mechanic, student, teacher, professor, editor, priest and Bishop, the history of the prelate has been a series of brilliant successes. He is a profound thinker, a careful and wise administrator, an accomplished linguist, an astronomer and a dis- tinguished Latin and French scholar. As a mathematician and astronomer and a French scholar Bishop McNeil is admitted by all to have no equal in Nova Scotia, and few in all Canada. There is a remarkable coincidence in connection with his appointment is the fact that his co-worker at St. Francis Xavier College, Antigonish, from 1880 to 1890, Rt. Rev. Dr. Alex- ander McDonald, was appointed Bis- hop of Victoria, B. C., about four years ago. They will once more be work- ing together in the cause of Religion and Education but on the shores of the Pacific instead of the Atlantic. Dr. McDonald is also a native of Cape Breton, and a world-famed writer on theological questions.

St. Francis Xavier College bids fair to supply British North America with

the most of her future R. C. Bishops. They make their names at Rome in learning and piety, and evidently are never lost sight of by the Propaganda. Rev. Dr. A. Thompson, the present en- titled Parish Priest of Glouce Bay, and Rev. Dr. H. P. McPherson the present and able Rector of St. Francis Xavier University, are amongst the most learned and accomplished of the Cana- dian Catholic Clergy, and will no doubt soon be heard from as follow- ing in the footsteps of Archbishop McNeil and Bishop A. McDonald of the Pacific Dioceses.

C.M.B.C.

A large attendance was at the Lec- ture room of the Synod Hall yester- day afternoon. Rev. Canon Noel, of Harbor Grace, visited the rooms and addressed the members. He was in- troduced by Rev. J. Bell, who acted as Chairman. The lesson from 12 chap. Romans having been read Canon Noel spoke from the 15th verse: "Rejoice with them that do rejoice." It was a great treat for the members. They highly appreciated the address and at the conclusion passed a hearty vote of thanks. He is in town on a short visit and preached the Canonical Sermon at the Cathedral yesterday morning. The annual tea and entertainment will be held in the British Hall, Feb. 3rd.

Hit With a Sledge.

A young man who refused to give his name or say where he worked en- tered Courtney's West End pharmacy Saturday afternoon in a bad state. He said that while working on a scaff- old a man engaged near him hit ac- cidentally with a 14 pound sledge and felled him unconscious to the ground. There was a bad cut over the man's right eye, and Mr. Courtney after staunching the blood ordered him quickly to a doctor.

Fell Into Lake.

A young lad named Harold And- rews was walking over the ice on Quidd Vid Lake yesterday afternoon when he fell through, going into the neck. The boy clung tenaciously to the edge of the ice until companions hastened to his aid and rescued him. This is a treacherous lake and as hardly a winter goes by that drowning accidents do not occur, boys, and men for that matter, should be careful to go on it only when the ice is thick.

The Winter Fishery.

Mr. R. Moulton, who came in by Saturday night's train, says that all the Burgeo and Flames schooners are getting ready for the winter codfish- ery, fishing off Rose Blanche, Burnt Island and other places near. Quite a number of the vessels will use salted squid, and others will secure baitings of fresh herring. There is at present a good sign of fish on the grounds up there and very many of the people about Fortune Bay and all west of there will be in good cir- cumstances this winter.

FOR SALE.—One powerful second hand Mason and Hamlin Reed Organ. Two manuals, also foot pedals. Can be played by foot power. Most suitable for the schools, Sunday School or Hall. Will be sold at a great bargain. The White Piano and Music Store, CHESLEY WOODS, Jan. 17, 2w

Herring Plentiful.

Last week about 2,000 barrels of herring were taken at Rencontre. Youngs at St. Jacques had 500 barrels barred when the seine burst owing to the great pressure of the fish on it and all we lost. At Bay de'Leau, near Harbor Breton, splendid catches of herring are being made, and it now seems certain that a good Fortune Bay herring fishery will be recaptured.

Night School.

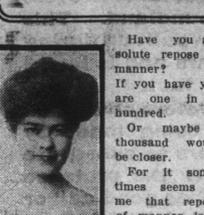

The night school at St. Vincent de Paul's Hall, conducted by the Chris- tian Brothers, will open to-night. It will be conducted three nights of each week—Monday, Wednesday and Friday. A number of ex-pupils will also attend and help the Brothers with the classes. This is an excellent chance for young men to learn the rudiments of education. The school is now very comfortable and will be heated and lighted. No doubt there will be a large attendance.

HER BABY HAD ECZEMA. Mrs. F. Clarke, Belmont, Man., writes: "My baby had eczema on her ear. The sore was very bad and nothing seemed to help her. Hearing of some remarkable cures Dr. Chase's Ointment had made we began using it and with the third application the sore began to heal. The cure was thorough and complete and we give all credit to Dr. Chase's Ointment." 11

CART STOLEN.—A large cart was stolen from the rear of Mr. Power's coopersage last week. The police were making enquiries since, and the thief evidently heard that he would be run down and brought back the cart Sat- urday night.

The Evening Chit-Chat.

BY RUTH CAMERON.

Have you ab- solute repose of manner? If you have you are one in a hundred. Or maybe a thousand would be closer. For it some- times seems to me that repose of manner is a lost art among the girls of to- day.

"More repose of manner, Ruthie, more repose of manner," an old aunt of mine used to say to me when I was a nervous little girl and fidgeted from hassock to high back chair and back again in her stiff old parlor. And though I had but a vague idea of what the words meant at the time, I used to make up my mind that it must be something very objectionable if Aunt Eliza urged it and that I would take care never to have it. But I've changed my mind now.

I sat beside a girl in a car yester- day. She was a pretty girl, well dressed and refined looking. She was talking vivaciously to her companion in a voice that for a wonder was fairly well modulated. To judge from the fragments that floated my way she was saying rather interesting things. I used to make up my mind that it must be something very objectionable if Aunt Eliza urged it and that I would take care never to have it. But I've changed my mind now.

Her appearance and manner might have been perfect but for one thing. She wore a tiny locket on a little gold chain and continually as she talked she twisted and twirled and tossed and played with the chain and its trinket. Never for an instant did the restless motion cease.

Yes, but it showed she did not have that final charm that would have been a crown for all the rest—repose of manner.

offer opportunities of doing good in other directions. "My self respect and the magnitude of the work I have done, not because of any great ability than many another man, who has tried before me, but of my good fortune in being able to stick to the work and finally con- centrate upon it the inestimable ex- perience of years, will not permit me to lecture for insignificant sums and tell my hearers the real story of the discovery of the North Pole, when amounts have been paid the greatest impostor of the present generation for a fictitious story.

"If you can see your way clear to pay me \$1,000 for a lecture in your largest auditorium, I shall be glad to come and shall tell you the straight-from-the-heart story of the past of the great early stories in a way that every one in your audience will hear and understand, and I shall supplement my narrative with a series of views that have been pronounced by experts as the most effective and unique ever obtained in the Arctic region, views which will be a revela- tion and an education. Thanking you for your interest, I remain, "Very sincerely, "R. E. PEARY, U.S.N."

Minard's Liniment Co., Limited. Gentlemen.—Last winter I received great benefit from the use of MIN- ARD'S LINIMENT in a severe attack of LaGrippe, and I have frequently proved it to be very effective in cases of Inflammation. Yours truly, J. G. LESLIE, Dartmouth.

Ladies had better wear purple, orange, pink, yellow, salmon, light or dark green dresses—in fact, toilets of any color but the obnoxious blue. The jewels to be worn should be the color of rubies, amber, beryl, corals and pearls. The sun likes diamonds in the summer time, and wives are to get as many of them as the generosity of their husbands will permit. In au- tumn topaz and garnets are to be worn, and in spring rubies and beryls, which make a love sinners. The concluding prophecy is the best of all. Contrary to the general ex- travaganza of the year, women's fash- ions are to improve, and the present monstrous hats are to give way to trim creations of 'petits chapeaux.'

Stop Cough Those hard night coughs of the children! What shall you give them? Just what your mother gave you, and just what her mother gave her! In some families, Ayer's Cherry Pectoral for the coughs and colds of medicine for seventy years. Once in the children. Do as the says. It's a family, it stays. Keep it on hand.

Family Physician Said Incurable

She was cured completely by Dr. Hamilton's Pills.

A Terrible Experience with Indigestion.

Another example of the marvelous merit of Dr. Hamilton's Pills comes from Kingston where Mrs. E. V. Hol- ton was snatched from the grave and restored to sound health by this won- derful medicine.

"Three weeks ago I was taken sud- denly ill. My head, throbed and ached and I became so dizzy that I had to go to bed. There was a terri- ble feeling of weight and fullness in my left side and all the region of my stomach and liver was sore even to touch. I was in a terrible state—had no appetite, in fact I was afraid to eat because of the sufferings I had to endure after meals. I got so bilious and had such pains across my eyes that I could scarcely see. My doctor said I had Incurable Indigestion.

"As a last hope I used Dr. Hamil- ton's Pills. I saw clearly they were doing me good and continued the treatment. My appetite and strength gradually returned—my color im- proved and day by day the stomach and liver derangements were less troublesome. All symptoms of bil- iousness and indigestion have now passed away. I am cured by Dr. Hamil- ton's Pills."

The same medicine that so wonder- fully cured Mrs. Holton will cure any- one else of biliousness, constipation, indigestion, headache, poor color and stomach trouble. Get Dr. Hamilton's Pills to-day—refuse any substitute. 25c. per box, or five boxes for \$1.00. By mail from The Cattarhogue Com- pany, Kingston, Ont.

What 1910 Has in Store

Prophecies of Mme. de Thebes, the French Zaddiel.

Mme. de Thebes has already come out with her prophecies for the year 1910. The revolutions, social upheav- als and earthquakes predicted in pre- vious years have left her alive, to the great joy of Parisians, who would terribly miss her annual selections of catastrophes and good and bad sea- sons.

First we are told that the year 1910 will be one of fire. It will be under the influence of the sun, and the re- sult will be that human minds, like things material, will become over- heated. France will experience it at its worst, and will be, so to speak, in- candescent. Commerce will extend, arts will reach the pinnacle of per- fection and the stage will give us magnificent surprises. On the other hand, the clerk of the weather will persistently ignore the calendar. Spring will take the place of winter, but the wine will be good all the same. The waking up of long-sleep- ing volcanoes is to be feared in Aus- tralgia, and volcanic activity will be terrible both in Europe and America, where some disastrous earthquakes may be the result.

Men's brains, again, will be in equilibrium, and savants will make un- usual discoveries, especially in avi- ation. Common mortals will be seiz- ed with a sort of frenzy, the most frantic of all being writers for the stage. There will be some remark- able 'crimes passionates' and scandal- ous escapades of heroes and heroines twenty years of age. The French aris- tocracy—this is nothing new—is to be implicated in a great conspiracy. England will have a revolutionary explosion; Russia and Belgium will undergo great changes; Spain and Germany will be stirred by popular movements, and a great conflict will be brewing between Europe and Asia.

On the other hand, the year will be a lucky one for all those born be- tween July 21 and August 21. To be lucky during the year people will have to try to propitiate the presid- ing genius—that is to say, the sun; and as that fiery deity detests blue.

Political Outlook at Home.

A straight victory for Balfour, the Peers and Tariff Reform seems out of the question on the returns which are in at present. As little has been heard from Ireland, Scotland and Wales, Mr. Balfour must be prepared for a big set-off from these three countries against the gains he has obtained and he may yet obtain in England.

He has failed to shake the free trade representation of Manchester and Salford, and most significant of all he has lost Grimsby, which was represented by the most strenuous and popular Tariff Reform orator in the Unionist party. Sir George Doughty, who had been returned for Great Grimsby four times in succession, and has been the platform man most in request at bye-elections since 1906.

The Unionist party had to gain 168 seats to make even a tie with a combination of the other three parties, and to gain 300 seats to obtain a small working majority of 60 odd. The net Unionist gains on Saturday appear to be 15, the difference between the gross Liberal gains of 18, and the gross Liberal gains of 3 seats. Even should this rate of gain continue, which is extremely doubtful, as Scotland, Ireland and Wales have yet to poll, the total net Unionist gain would be 105. This gain added to the 167 seats they held in the last parliament would give them a total of 272, placing them in a minority of 126 against the anti-

Peer combination. Unless the English and Scotch county vote has undergone a radical change, this appears to be the best Balfour and Chamberlain can hope for.

The proud pre-eminence of the Liberal party in the last parliament is fast disappearing. On Saturday Asquith's clear majority of 60 over the Unionist, Nationalist and Labor parties was cut in two, although not one-seventh of the members were returned. It is evident that the Liberal party will be dependent on the Nationalist party and the Labor party, which will help it against the House of Peers and on Home Rule. These two parties are in no way affiliated to the Liberal party. They have independent organizations, whips, programmes and aspirations. Their aim is to support or oppose the party in power for their own ends. The Nationalists will force Home Rule or break the Liberal party. The Labor men will force social legislation or try to emulate the Nationalists in breaking the Liberals. The Tories will swallow their convictions to gain power for their own ends. The Liberal party on the question of the Peers' usurpation of financial functions. After the Peers have had their claws cut and Home Rule has been granted to Ireland, we do not hesitate to predict that the Liberals will be defeated and we shall see the Tariff Reformers in power.

A Unique Orchestra.

That the Managers of the Parade Ring are entertaining has of late been demonstrated. They have now on the way for the rink a large and costly organ, a French creation which will serve the purpose of a brass band and gives forth excellent quick-steps, waltzes, polkas, etc., excellently adapted for skating. It has a loud and very sweet tone and will soon arrive here. The band will also play at intervals with this so that patrons will have continuous music.

Band Tours Bay.

The S. A. Band takes its annual tour of Conception Bay on Saturday next. They will give concerts at Bay Roberts, Spaniards Bay, Clark's Beach, Harbor Grace, Carbonear and other places, and as they play well the members are always welcomed to these places.

Two Houses Burned.

By the S. S. Louise we learn that two houses were burned to the ground a couple of days ago in the high wind which prevailed then. One fire occurred at Seldom where the residence of a man named Anthony with all its contents was demolished. The other fire occurred at Pogo, but our informant could not remember the name of the owner.

Supreme Court.

(Before Mr. Justice Johnson.)
The case of Knox vs. Carroll was heard at the Supreme Court to-day. The action is taken by plaintiff for possession of land and house on Prospect Street, occupied by Mrs. T. Carroll. The property is a part of Kickham's estate. Mr. Howley was heard for plaintiff, Mr. Pittman for defendant. The case was not concluded at 1.30 p.m.

Two Steamers Arrive.

THE CLYDE.
The s.s. Clyde after concluding her service in Notre Dame Bay arrived here to-day at 1 p.m. The Louise arriving at the same hour. The former arrived at Shea & Co's pier and the latter at the South Side premises of Job Bros. The Clyde, Capt. Job Kneel had a very successful season around the Bay, and her passengers here were Miss Freeman, Mr. Sullivan and another. The vessel had it very frosty and stormy Friday last and was badly iced up. She brought 900 casks of whale oil from Beaverton. Her captain and his officers are popular and so is the ship with the travelling public.

THE S. S. LOUISE.
The s.s. Louise, Capt. Barbour, which arrived at 1 p.m., left Wesleyville at 2 a.m. to-day and had a good run. She brought no passengers and had as cargo only 500 qts. fish and 40 other packages. She had very frosty weather going to Change Islands and Pogo and the ship was badly iced up.

POLICE COURT NEWS.

A drunk, and a man in for safe-keeping, were dismissed to-day.
The man West, referred to in another column, who attacked Constable Martin Saturday evening, on a charge of drunkenness and disorderly conduct, was fined \$20 or 30 days.
A man named Rodgers, one of his crew, for the graver offence of trying to rescue the prisoner and assaulting Const. Martin, was fined \$25 or 30 days. The principal witness against each man was a citizen named Cooper.

Two drunks conveyed to the station were each fined \$1 or 6 days.
Mr. Isaac Dave, a well known resident of Port de Grave, died last week in his 100th year. He resided at Long Beach Pond. He was a fisherman all his lifetime, and when Capt. Eli Dave worked a cod seine on the Labrador the deceased was then regarded as a very old man.

Girl Attacked.

A domestic residing with Mrs. Leighter on Water Street was attacked by two other girls last night and was badly beaten. She knows the girls and will have them summoned. Mrs. Leighter, who had retired for the night, had to come down and let her in. She was so weak that she could not open the door.

New York, Jan. 8.—

One girl was instantly killed and two of her companions, a girl and a boy, were seriously injured in a coasting accident at White Plains to-night. The dead girl was Miss Mary Ballard, 19 years old, of Niagara Falls, a school teacher in the Hilda School at White Plains.

FLEET OF VESSELS LEAVE.

The schr. Empire for Oporto, Golden Hind for Bahia, the steamers Bonaventure and Adventure for Sydney, and schr. Hispanola for Lunenburg, left here Saturday. The schr. Aldine, herring laden for Boston, left yesterday; and the tern schr. Canada, for Bahia, also left to-day.

Bluefields, Jan. 7.—

General Pedro Andreas Fornes Diaz, who started out yesterday for Managua in order to treat for peace with Premier Madrid, met with a tragedy last night on Greytown Bar. The canoe, in which he was attempting to make a landing, was caught by a gigantic wave and broke amidships, and Diaz disappeared from view in the turbulent sea.

Pawntucket, R.I., Jan. 12.—

Wilfred Barabee, the 12 year old son of Louis Barabee, of Berkley, a village five miles from here, lost his life in a peculiar coasting accident there yesterday. While the boy was in full career down a steep hill, the hat of a passer-by blew off and across the course of the speeding lad. While trying to catch the hatpiece, the boy lost control of his sled, and dashed into a tree, dying almost instantly. Less than a month ago, Joseph, an uncle of the boy was killed by a train within a few rods of the same spot.

DIED.

At Caplin Bay, on the 17th inst., Mary, wife of the late James Power, aged 67 years. She leaves two sons, four daughters and one sister to mourn their sad loss.
MILNARD'S LINIMENT CURES COLDS, ETC.

At R. C. Cathedral.

Rev. Monsignor Roche occupied the pulpit at the Cathedral last night and preached an excellent sermon on the Marriage State and the duties of husbands and wives. The Monsignor, whose voice can be heard in every part of the church, took his text from the Gospel recital of the miraculous conversion of water into wine at the marriage feast at Cana of Galilee. Our Divine Lord by His presence there raised the marriage to the dignity of a sacred contract and elevated women kind to a higher sphere. At the conclusion Benediction of the Blessed Sacrament was imparted by Rev. Fr. Fyne.

Weather Report.

Sound Island—No person looking for herring at Sound Island. At Ragged Island herring are very plentiful—6 to 8 barrels per net. One seine has 1,000 barrels barred.

Convince YOURSELF

That Union Blend Tea is worth the Price.

The secret of greater flavor and body of Union Blend Tea—the choice Rose aroma—lies in the fact that there is not a single full-grown tea leaf in it. I use nothing but the tender, young sprouts, hill-grown in Ceylon and India, this ensures quality. In my thirty years I have gathered together a staff of expert blenders who devote their entire time to make Union Blend Tea the one perfect Tea. That's why I stake my reputation on its delicious and refreshing flavor. It's as different from ordinary tea as ——— well, there's no comparison, really. You can prove this right in your own tea cup.

Swift Vengeance Was Meted Out

To Italian Murderer.

Dayton, Ohio, Jan. 10.—Dominick
Allo, prominent among the Italian
colony here was shot dead last night
in a quarrel. Swift vengeance for the
deed was wreaked upon Tommaso Wil-
lells, the other participant. In the
quarrel, whose body stabbed through
and through was found a little white
lifter behind Allo's house. Allo's wife,
who was found with her hand
badly out, told the police that Wil-
lells came to her house and, after
picking a quarrel with her, husband
shot him. As to the identity of the
person who killed Willels she pro-
fessed ignorance. She said that Al-
lo killed an Italian by the name of
Rezzo on the night of December 1,
1907, during the christening at the
home of a girl baby. Allo disap-
peared and was gone for some time,
but finally came back, was arrested,
tried and acquitted on the ground
that he slew the man in self-defence.
The police are now trying to learn
from the woman if Rezzo was in any
way associated with Willels, but Mrs.
Allo refuses to make any statement
that might clear up the mystery.

Played With a Lion.

The infant son of one of the Dutch
settlers in South Africa had strayed
away. After some time a search party
discovered little footprints leading in
the direction of the bush. Follow-
ing up these, the search party came
upon a large open space, at the far-
ther side of which they discovered
the object of their search sitting hug-
ging a little wooden doll and munch-
ing a piece of bread and butter. Be-
fore they could make their way
through the thick, tangled under-
growth a large lion sprang into the
clearing. The little boy, far from be-
ing frightened, ran to meet the lion,
holding up his bread and butter and
said, "Take a bite, doggie."

The father stood powerless to move
or speak through fear, expecting each
instant to see the child crushed un-
der the lion's paw, but instead of do-
ing as he dreaded the lion turned him-
self over and lay on his back at the
child's feet, looking up in his face as
a cat would do at play. Watching his
opportunity, the father raised his gun
and fired, hitting the lion in the leg.
The animal sprang up and, leaving
the child, rushed on the party, injur-
ing two of the number before it was
finally killed. From this circumstance
the child was immediately christened
by the settlers "Daniel."—London

Coasting Accidents.

At 1.30 p.m. Saturday two 6-year old
boys named Power and Peters were
coasting over Chapel Hill, one of the
steepest thoroughfares in the city. The
sled took charge and went with light-
ning speed, and the young children
could not check it until it struck full
tilt into a horse and slide passing
along Queen's Road. It was a boy
who drove the fit-out and he was so
scared believing the children had gone
under the hoofs of the beast and been
killed that he could not bring himself
to stop to see what he thought was a
fatal termination of the accident, and
drove hurriedly on. The two children
lay bleeding on the road, and one,
Power, was seen to be badly hurt. The
Peters' boy after some attention could
walk to his home on King's Road, but
the other child, Power, who resides on
Bond Street, was so badly cut about
the head that Mrs. Paterson and other
kind people about brought him into
her residence, and it was a fortunate
thing that Dr. Paterson himself was
home. He soon revived the little chap
with stimulants and had to insert a
number of stitches in one of several
nasty cuts in the little chap's head.
He was afterwards soothed and kindly
cared for and then driven home. This
is an illustration of the danger of
coasting over the steep hills and
streets of the city to which the Tele-
gram has often referred. If parents
persist in allowing their children to
continue indulgence in this practice
some of them will rue it. We have
seen a case in which two boys last
winter coasting down Stephen Street
went at such a rapid rate that their
sled went completely under a passing
horse's legs and they were not hurt.
Coasting in the city is not alone a nu-
isance to pedestrians, but it is also a
great source of danger to the children
who indulge in it.

Deathly Cramps, Stomach was Bloating

A Bad Case That Proves
Cramps and Stomach Dis-
orders are Cured Fast by
Nerviline.

"The distress I suffered from cramps
last summer was so severe I thought
it meant death," writes P. R. Emerson,
of Guys Hill, P. O. "I was doubled up
with pain and in such bad shape I
couldn't walk a hundred feet. I re-
membered having Nerviline on hand
and took half a teaspoonful in sweet-
ened water. In five minutes I was
well and my stomach derangements
disappeared entirely."
For cramps, flatulence, diarrhoea
and disorders of the stomach and
bowels, Nerviline knows no equal—
one million bottles used every year—
fifty years on the market, that's proof
enough of its merit. Large 25c. bot-
tles, five for \$1.00. All dealers or the

At the R. C. Cathedral.

The Annual Triduum of the Holy
Name Society which began on Wed-
nesday evening last at the R. C. Cath-
edral was largely attended. The
Spiritual Director, Rev. Fr. Fyme, de-
livered very impressive sermons each
evening which were listened to with
marked attention, after which Bened-
iction of the Blessed Sacrament took
place. The Annual Meeting held yes-
terday afternoon was the largest on
record, it being attended by the mem-
bers of St. Patrick's Branch, accom-
panied by their Spiritual Director,
Rev. Fr. Pippy. His Grace the Arch-
bishop was also present and gave
Benediction. We are sorry to state
he is suffering from a cold which pre-
vented him from preaching on this oc-
casion. Many new members were ad-
mitted to the ranks, and through the
untiring efforts of the Spiritual Di-
rector the Society has greatly increas-
ed in membership during the past
year. We hope to see it still increase
in its ranks during the present year,
especially amongst our younger class.
The meeting was brought to a close
by the singing of the Hymn of the
Holy Name.

Holy Name Society.

The annual meeting of the St. Pat-
rick's Holy Name Society was held
yesterday afternoon. Although organ-
ized only a year ago the Society now
numbers 300. The reports of the of-
ficers submitted showed that the So-
ciety is in an excellent financial con-
dition. The following officers were
elected for the coming year: John
Barron, President; M. Bambrick,
Vice-Pres.; J. Power, Treasurer; J.
Flynn, Secretary. A committee of
seven members was added for the
purpose of enquiring about rooms and
the project of building a hall. They
will have their report ready the sec-
ond Sunday in February. Great en-
thusiasm prevailed and the Society evi-
dently has a useful career before it.

SMITH-KING.

A very pretty wedding, and one for
some time anticipated with pleasur-
able expectations, took place here
yesterday when Mr. John King, of
Small Point, was united in the bonds
of holy matrimony to Miss Alice, eld-
est daughter of our well known
townsman, Patrick Walsh Smith. The
groom was assisted by Mr. Denis
King and the bride by Miss Teresa
Walsh. The ceremony was performed
by Rev. J. Lynch, P.P., at the home
of the bride's father, about 50 of the
friends and acquaintances participat-
ing.—Cor.

The Carbonear Trouble

Editor Evening Telegram.
Dear Mr. Editor.—The prisoner Butt
mentioned in yesterday's issue is not
a resident of Freshwater, and never
was. He is a resident of the Victoria
Village section of the Carbonear Dis-
trict. And giving every man his due,
I am informed upon good authority
that he was not the ringleader in the
trouble. I am,
Yours respectfully,
CHARLES LENCH,
M. Minister.

Large Funeral.

The funeral of the late John Mc-
Carthy took place yesterday after-
noon and was largely attended. In fact
the funeral was the largest seen since
the death of Capt. Arthur Jackman.
Three quarters of an hour were oc-
cupied in coming from Leslie Street to
the Cathedral, where Rev. Fr. Fyme
read the burial service. Interment
took place at Bellevue.

FROZEN HERRING CARGO.—The
schr. Aidine, loaded at the S. W. Arm,

Constable's Hard Time

Shortly before 6 o'clock Saturday
evening Const. Martin, doing duty op-
posite the Post Office, saw a man
named West, the captain of a banking
schooner, acting in a very disorderly
manner, and of course promptly
placed him under arrest. West how-
ever kicked like a steer, but the officer
threw him and tried to adjust the
handcuffs on his wrists, but could not
do so. He got part of the bracelet
around one of the prisoner's wrists
when a member of the crew, who was
as pugnacious as their skipper, came
on the scene and by main force
took the prisoner and the officer up
the street—the officer holding on to
the one handcuff—and down Knowl-
ing's archway to the Smith Co's
wharf, where the vessel lay. Martin
was game and plucky and sooner than
let go his man was tumbled down
with the three into the cabin. Here
Martin was viciously assaulted, but
fought his way out of the cabin, and
getting again to Water Street told his
story to Head Peet, who with Const.
O'Neill and Inspector Collins later
boarded the vessel with Martin and
arrested West with the one handcuff,
which he could not relieve himself of
gangling from his arm. One of the
crew who participated in the attack
on the officer was arrested and both
were heavily fined to-day.

Ends Dyspepsia in Few Minutes.

Heartburn, Gas, Indigestion and all
Stomach misery vanishes.

There would not be a case of indig-
estion here if readers who are sub-
ject to Stomach trouble knew the
tremendous anti-ferment and digestive
virtue contained in Diapepsin. This
harmless preparation will digest a
heavy meal without the slightest fuss
or discomfort, and relieve the sores,
acid stomach in five minutes, besides
overcoming all foul, Nauseous odors
from the breath.

Ask your pharmacist to show you
the formula plainly printed on each
50-cent case of Fape's Diapepsin, then
you will readily understand why this
promptly cures Indigestion and re-
moves such symptoms as Heartburn,
a feeling like a lump of lead in the
stomach, Belching of Gas and Eructa-
tions of undigested food, water brash,
Nausea, Headache, Bilioussness and
many other bad symptoms; and, be-
sides, you will not need laxatives to
keep your stomach, liver and intes-
tines clean and fresh.

If your stomach is sour and full of
gas or your food doesn't digest, and
your meals don't seem to fit, why not
get a 50-cent case from your druggist
and make life worth living? Absolute
relief from Stomach misery and per-
fect digestion of anything you eat is
sure to follow five minutes after, and,
besides, one case is sufficient to cure a
whole family of such trouble.

Surely a harmless, inexpensive
preparation like Diapepsin, which will
always, either at daytime or during
night, relieve your stomach, misery
and digest your meals, is about as
handy and valuable a thing as you
could have in the house.

Died at Hospital.

Mrs. John Hogan died at the Hospi-
tal yesterday. Deceased, who be-
longed to Northern Bay, had an op-
eration performed for internal trouble
two weeks ago. The stitching broke
and rendered a second operation ne-
cessary. Rev. Fr. O'Callaghan at-
tended her last Saturday and admin-
istered the last rites of the church.
Her husband was telegraphed to by
Mr. Jesse Whiteaway, M.H.A., Satur-
day. Hon. J. C. Crook visited the
Hospital yesterday and found that she
was dead. They telegraphed Rev. Fr.
Lynch to break the news to the relat-
ives and let them know about the
disposal of the body. A reply was re-
ceived this morning asking that the
remains be sent home. Deceased
leaves a baby three months old.

Nationalists Hold BALANCE OF POWER So Far as the Returns Go.

**Unionists Have 43 Members;
Liberals and Laborites, 43.**

North Goes Free Trade and Anti-Peer --- Midlands and South For Tariffs--Lloyd-George Has to Flee at Grimsby, but Doughty, Tariff Reform Orator, is Knocked Out There.

71 M.P.'S ELECTED AFTER CONTESTS.

Special to Evening Telegram. LONDON, Jan. 15.

The first round in the general elections was fought to-day in sixty-six seats returning 74 members of Parliament. In 1906 these constituencies returned 49 Liberals, 17 Unionists and 8 Labor candidates. Everything to-day favored heavy balloting. The weather throughout the district was clear and the party workers made every effort to bring out the voters. Seven more Unionists became members of the new Parliament to-day without contests. The Liberals as usual offering no opposition to the return of members from the three Universities at Oxford, Cambridge and Dublin, and of Speaker Lowther, member for Penrith. The Nationalists also scored an uncontested election, Patrick O'Brien being chosen by acclamation for Kilkenny. The Unionists also elected O. W. Wolff for the East Division of Belfast. The Nationalist additions were: Timothy Harrington for Dublin Harbour division, and W. Field for Dublin County North division. Special interest is taken in to-day's balloting at Manchester and vicinity, the stronghold of free trade. The results there can hardly fail to indicate strongly what progress if any has been made by the protection campaign of the Opposition.

ATTACK ON FREE TRADE STRONGHOLD FAILS.

Special to Evening Telegram. MANCHESTER, Jan. 15.

Of the six districts in this city five remained loyal to free trade. Liberal and Labor candidates being returned by large majorities, although these were smaller than in 1906. The sixth district was lost to the free traders owing to a triangular contest. The Unionist nominee was returned although he received a thousand votes less than the combined Liberal poll for the Liberal and Labor candidates. Salford returned also three free traders.

LIBERALS WILL RETAIN CONTROL.

Special to Evening Telegram. LONDON, Jan. 15.

The results tend to confirm the forecast that the Liberals will retain control of the Government with a greatly reduced majority. The Unionists have gained an encouraging number of seats, although less than the 29 which they expected to take away from the Liberals out of the 74.

THE NORTH GOES LIBERAL.

Special to Evening Telegram. LONDON, Jan. 15.

Further election returns show that in three North Division of Salford, W. P. Byles, Liberal, won over his Unionist opponent, I. Malpas; G. Toulman, Liberal, was returned to Parliament from the Lancashire Division of Bury, beating E. L. Hartley, Unionist; and in the North West Division of Manchester, Sir C. E. Kemp, Liberal, defeated W. Johnson-Hicks, Captain G. V. Harting, Unionist, was re-elected in Windermer; A. H. Scott, Liberal, was returned Ashton-under-Lyne; J. R. Cline, Laborite, was re-elected for Manchester North East; Manchester South West returned H. A. Colefax, Unionist. In this district, the polling was close; Sir C. E. Kemp again won his seat for the Liberals in Salford N.; in King's Lynn, T. Gibson Bowles, Liberal; Manchester elected J. E. Sutton, Laborite; Manchester South, re-elected A. A. Haworth, Liberal; other results were as follows: Scarborough, W. Russell, Liberal; Salford West, C. W. Agnew, Liberal; Manchester, North, Sir C. E. Schwann, Liberal; Dover, Right Hon. G. Wynd-

ham, Unionist; Salford, South, H. Belloc, Liberal.

UNIONISTS GAIN 16.

Special to Evening Telegram. LONDON, Jan. 15.

The polling in the general elections to-day resulted in the return of 41 Unionists, 39 Liberals, 6 Laborites and 5 Nationalists. The Unionists gained 16 seats, the Liberals 3 and the Laborites one man.

LLOYD GEORGE RUN OUT.

Special to Evening Telegram. LONDON, Jan. 15.

The popular vote went strongly against the Liberals. Members of that party who hold seats won them to-day by majorities ranging from 30 to 60 per cent. below their majorities in 1906, except in a few boroughs where special conditions figured in the campaign. The popular votes polled by the Liberals for the 12 London seats show a stronger hold on power than in the provinces. The majority of the London boroughs were labor-districts. Of these the Unionists carried 5, these being captured from the Liberal's column but by small margins. Manchester and Birmingham gave heavy Unionist gains. Birmingham has been strongly Conservative, largely the result of Joseph Chamberlain's crusade for protection, and to-day the Unionists carried the city solidly by increased majorities, nearly 8,000 larger than in 1906. In Manchester the Unionists increased their votes, for while the Liberals still have 5 of the 6 seats, the Liberal majorities were decreased nearly 3,000. The most sweeping change in London was in Finsbury Borough where the middle class population went enthusiastically for Tariff Reform, giving W. Paves Fisher, the Unionist candidate, a majority of 2,000 in this borough. In the last election the seat went Liberal by 600. Devenport, where the big navy issue was fought out, the Liberal majority was 1,300 and returned two Unionists by 500--Sir J. Jackson and Sir C. Kinloch Coates. W. Johnson Hicks, the Unionist, who beat Winston Churchill in the Manchester bye-election of 1908, lost his seat to Sir G. Kemp, Liberal, by 783. The Rt. Hon. G. A. Wyndham, who will be Governor General of Canada if the Unionists take on the Government, carried his seat by a slightly increased majority. The Liberals took away 1,000 votes from Sir Gilbert Parker in the Gravesend District, but he retained his seat as a Unionist. The most exciting scene of the campaign occurred at Grimsby where a menacing crowd threatened David Lloyd-George, compelling him to flee from the hall, where he had been speaking, under police protection, much the same as he was driven from a Procher meeting at Birmingham during the South African war when he made his escape disguised in a policeman's uniform. Part of the provocation for the hostility shown towards him was caused by the Chancellor's unusual course in addressing the voters on polling day, which has never been seen before in England and which is considered by many to be unconstitutional.

THE LIBERALS CANNOT STAND ALONE.

LONDON, Jan. 16.

Sunday has given a welcome respite from the strenuous work at the election stations and an opportunity of calm reflection over the prospects of both parties striving to gain control of the Government. The utmost the Unionists dare to expect that the Liberal majority will be so reduced in the next Parliament as to place the Liberals at the mercy of the National-

ists. It must be remembered that Mr. Balfour, leader of the Opposition in the House of Commons, in a speech some days ago, said that the great political issues now in question would not be settled by one election and perhaps not by two. An estimate made to-day after careful calculation by a well informed Unionist based on Saturday's pollings gives the Liberals and Laborites a clear majority of 90 or 100 over all parties which would provide the Liberal Government with a good working majority. Many of the Unionists, however, are less despondent. They do not believe that the Liberals will finish the election with so good a record as this.

HOW THE PARTIES STAND.

Special to Evening Telegram. LONDON, Jan. 16.

Latest summary at close of the elections gives the standing of the various parties including uncontested seats was as follows:--Unionists, 43; Liberals, 37; Laborites, 6; Nationalists, 5. Unionist gains 18; Liberals gains 2; Labor gains over Liberals 1. Of the 12 seats contested in London the Liberals hold 7; the Unionists, 5, 3 of the latter being gains in North Lambeth, Brixton and Fulham. In the Provinces the Unionists gained South West Manchester, Stalybridge, Salisbury, Burnley, 2 seats in Devonport, Cambridge, Yarmouth, Gloucester, Wolverhampton West and South, and 2 seats in Bath. The Liberals won Manchester Northwest, Darlington and Grimsby. The Labor gain was in East Manchester.

Interesting Service.

Rev. Joseph Thackeray completed his 12 years of service at the Congregational Church last evening. In the morning he preached an excellent sermon from the Gospel of St. Luke, chapter 4: "The Temptation of our Saviour." During the offertory the choir rendered "Fight the Good Fight." At the evening service Mr. Thackeray preached on "Salvation," speaking from "Timothy" 1st chapter, 15th verse. At the conclusion he referred to the fact of his thirteen years service at St. John's, and had chosen the text of the sermon accordingly. The singing of the choir was hearty, especially "Jubilate Deo." A special meeting will be held in the lecture room Tuesday at 8 p.m. to form a Men's Class for social and moral improvement.

ACKNOWLEDGMENT.

James J. McGrath, President of the Longshoremen's Protective Union, begs to acknowledge the receipt of \$9.00, collected through Mr. Kennedy at Pitts premises; the sum of \$8.60, collected through Mr. Field, at the Coastal premises; and the sum of \$4.00, collected through Mr. Parsons at Crosbie's premises; from members of the Union in aid of John Gillett and Joseph Menton, members of the Union who have been ill for some time.

"Monte Cristo."

To-night and Tuesday the Robinson Allworth Dramatic Co. will present the scenic production of "Monte Cristo" at the People's Theatre, this piece has not been produced here for years and is a pronounced favorite and it should attract large audiences both nights as we believe it will. The company has been working very hard to give this piece the proper mounting and have prepared much new scenery which the play requires. The play abounds in heart interest and spectacular situations, the story of Edmond Dantes, the sailor, is well known to all, his incarceration in prison through the villainy of Danglar on his wedding day and his miraculous escape from prison by being tied up in a bag and thrown into the sea, being mistaken for another prisoner who is dead and then comes the revenge which is probably one of the strongest scenes afforded by any play. This company is one of the best organizations ever seen in Newfoundland and they are giving St. John's public a conscientious and artistic rendition at every performance and are deserving of the hardest support of all lovers of good drama presented in the painstaking manner. The delay between the acts during the play of "Michael Strogoff" was due to accident unforeseen, with this exception the performances has been worked remarkably smooth.

A Trout With Shot in It

Joseph Hannaford caught a trout at Petty Harbor Saturday weighing a pound and a half and when he opened it he found about three ounces of shot in the intestines, also a piece of copper wire. The find is now on exhibition at the West End Fire Hall.

The Parade Rink will be open to-night with enlarged skating space.

MARSHALL ROTHERS.

Saturday's Law Moot. Cost of Living Has Advanced.

Saturday evening the first discussion in the series of law moots was held at the Court House. The following proposition was taken up:--

"A Railway Company has a tuncable on its premises enclosed by a fence. The turn-table is kept unlocked, and therefore, in a dangerous state for children. Children are in the habit of trespassing. The Company is aware of this and has posted notices, warning of the danger. Two children aged four and seven years respectively, got into the inclosure and injured themselves whilst playing with the turn-table. Is the Company liable in an action at the suit of the children or either of them?"

Plaintiffs counsel were Messrs. C. E. Hunt and J. A. Winter, and for the defendants Messrs. W. J. Higgins and B. T. McGrath. Sir James Winter acting as Judge. When the aforementioned counsel had concluded their arguments, all the students present took part as did Mr. Browning, K. C., and Mr. J. Blackwood. The proceedings were very interesting, and the different speakers acquitted themselves in a manner that evidenced much ability. The Judge's charge to the jury was able and exhaustive. The verdict of the jury was for plaintiff. Mr. Blackwood, the chairman of the meeting, announced the second discussion for Saturday next.

Leaves for Birchy Cove

Mr. Liddell of the Bank of Montreal who many of our readers are acquainted with, leaves by to-morrow's express for Birchy Cove, to become Acting Manager of the Bank Branch Office there. Mr. Liddell has made many friends at St. John's since he joined the Bank of Montreal some two years and eight months ago. His obliging manner won him a host of friends. He is a native of Ontario. The Telegram wishes him all the success available in his new undertaking.

Condensed Air Baths.

Patents in an Air-Tight Boiler-Plate Room.

At a time when so much original research work is being done in connection with the effect of high atmospheric pressures on the human body it is interesting to learn that at the Brompton Hospital for Lung Disease a high-pressure air treatment is in use.

Recently the secretary of the hospital explained the treatment. The apparatus, which consists of an air-tight boiler-plate room fitted with chairs and electric light, is large enough comfortably to contain four patients at the same time. The treatment is chiefly used for patients suffering from asthma, bronchitis and emphysema.

During the treatment, which lasts two hours, the patients may play cards or draughts or read, though general conversation is forbidden as being too tiring. The patient walks in through a heavy iron door, which is then closed and sealed. Air is then pumped in gradually by means of a steam pump until the pressure is about 25 lbs. to the square inch, or two-thirds of an atmosphere above the normal.

After being kept at this height for an hour the air is gradually allowed to escape, the reduction taking about half an hour. There are numerous heavy plate glass portholes in the walls through which the attendants can observe the patients inside.

"The effect obtained," the attendant in charge of the apparatus explained, "is practically that of breathing condensed air. A course consists of about twenty-five baths, three a week being the rule. Whether the increased air pressure really extends the tiny tubes and air-cells in the lungs, or whether the benefit is derived from the increased oxygen absorbed from the denser air, many patients are undoubtedly helped by the treatment. One private asthma patient has come up from Yorkshire regularly every season for many years to take a course of the baths. He says they set him up for the whole year."

The Bruce express which left here at 6 p.m. yesterday had only a few passengers, including Miss White, Mr. Campbell, Sergt. Noseworthy and about 10 second class.

HOUSEHOLD NOTES.

Croutons for soup are most easily
made by cutting stale bread about
half an inch thick, buttering it quickly
on both sides, cutting in half inch
squares, and baking in the oven until
brown.

In cooking broilers all the juice
is saved and much of the flavor other-
wise lost is retained by completely
brushing over the fowl with olive oil
before submitting it to the flames.

To keep an iron sink in good con-
dition, scrub it once or twice a week
with soap and kerosene. Every night
put a little chloride of lime over the
strainer, and pour through it a kettle
of boiling water.

Paradise cement is ordinary fudge
made with more than the usual
amount of several kinds of nuts,
ground very fine, and the white of an
egg beaten light and incorporated af-
ter the mass has been stirred to a
cream.

There is nothing better for clean-
ing copper utensils than hot vinegar,
salt and milk. Take a cupful of warm
milk, add a quarter of a cupful of
hot vinegar and a tablespoonful of
salt. Rub on hard with a flannel
rag.

Worn brooms or whisks may be
dipped into hot water and the uneven
edges trimmed with shears, and then
dipped in cold water and all water
shaken out. This makes the straws
harder and the trimming makes the
brush almost as good as new.

Time and patience may be saved
when putting cotton into quilts if the
cotton is first rolled about an ordi-
nary yard stick. Spread the cotton
out on a large table or the floor, roll
on the stick, then transfer to the quilt
foundation and unroll.

To clean straw matting, put three
pints of bran in two quarts of water
and boil. When it is nearly cool,
wash the matting with it, and after-
ward dry it well with a clean cloth.
Add a little salt to the water for white
matting and vinegar for red.

Piloff of chicken livers is an excel-
lent dish for luncheon. Boil the liv-
ers until tender and put in an open
dish lined with rice. Put a layer of
rice over the top and turn the mound
out into the dish in which it is to be
served. Cover with a rich tomato
sauce.

While kerosene is now generally
recognized as better than any drug
store or barber shop preparation for
the hair, it is not generally known
that crude oil is better still. Used
once a week, it will destroy dandruff
and promote a fine growth of hair.

To iron a handkerchief so that the
corners will come out exactly even
and square, iron it out flat, then fold
its lower corners back almost to the
upper corners, leaving a little space.
Then, when the second fold is made,
the corners will push up and be ex-
actly even.

Cauliflower fried in deep fat is de-
licious, and also a pretty dish. The
vegetable should be boiled about half
done, and the flowers then broken
apart and each dipped in a thin flour
and egg batter, then cooked in deep
fat and sprinkled with salt before
serving.

For fruit granite, run equal parts
of dates, figs and English walnuts
through a grinder. Then knead the
mixture on a board sprinkled with
confectioners' sugar until it is firm.
Roll into a sheet, cut into small
rounds and form into little balls or
squares.

The T. A. & B. Society of Ferryland Holds Its First Parade.

On New Year's Day the newly form-
ed T. A. & B. Society, of Ferryland,
held its first parade: it was witnessed
by crowds of spectators which assem-
bled all along the line of route to ac-
tuate the banner of Temperance under
which 70 proud and staunch members
marched in professional order.

After first Mass our beloved Pastor
and Spiritual Director, Rev. L. K.
Verker, met us in the hall, and was
greeted with ringing cheers on his ar-
rival. He then a few well chosen
remarks paid a glowing tribute to the
Society, and expressed himself as re-
joicing much pleased on seeing the great
work it was already doing for the no-
ble cause of Temperance, and before
leaving for Cape Broyle where he had
to celebrate a second Mass, we all
knelt to receive his special blessing.

In view of the fact that the Society
has been organized but a few months,
its splendid turnout on New Year's
Day was a great surprise to everyone
in the old settlement, flags were flying
gaily everywhere, and volleys of mus-
ketry saluted the Society on its march.
Old Sol shone out in all his splendour
which seemed to add a lustre to the
great occasion. Another pleasing in-
cident which happened during the par-
ade was when it was passing the
Telegraph Office the President was
handed a telegram from Mr. P. P.
Moore, M. H. A., congratulating the
Society and wishing it a very pros-
perous New Year.

The parade started from the hall at
2.30 p.m. and returned at 4 p.m., the
President then addressing the Society
and impressing strongly upon the
minds of its members a deep sense of
their duty, a duty they owed to God,
to themselves and to their country.
The duty they owed to God by ever
guarding their pledges, the duty they

owed to themselves as men and
Christians; and the duty they
owed to their country by always per-
severing to keep spread to the breeze
the motto:—"Be Sober and Watch,"
inscribed on the dear little banner of
Pink, White and Green. On the same
evening at 6 o'clock a grand dance and
Fancy Fair was started in the hall and
was kept up till twelve at night, num-
bers of young ladies and gentlemen
from all parts attended making it a
most enjoyable success, over sixty
dollars being realized in a few short
hours. This money will go towards
paying off the debt contracted by the
repairing and painting of the hall.
The Society wishes to thank sincerely
the ladies of Ferryland and Caplin
Bay who helped so kindly to make the
Fair such a great success. We also
wish to thank Dr. R. J. Freebairn for
his very handsome New Year's gift to
the Society; also, Mr. T. J. Devereaux
who has taken such a kindly interest
in the Society since its organiza-
tion.

We are now forming a library in
connection with the Society, and any
books sent by friends will be received
with thanks.

Dreadnoughts Canal.

Expert Views of the Forth-to-Clyde
Project.

"We are naturally very delighted
with the suggestion of the Canal Com-
mission that the Government should
be approached to see how much mon-
ey they will give towards the project-
ed canal to carry Dreadnoughts be-
tween the Forth and the Clyde.
My association will certainly take
steps very early toward ascertaining
this most important point."

This was the statement of Admiral
Sir Charles Campbell, the honorary
secretary of the Mid-Scotland (Forth-
to-Clyde) Canal Association. "We are
quite prepared to start. Estimates
have been prepared, contractors ap-
proached, and we could start to-mor-
row—if we had the money."

"The cost has been estimated at
£20,000,000, but with recent inven-
tions in boring machinery which are
now available a saving of quite ten
per cent. on that quotation can be
effected. If the Government will guar-
antee three per cent. interest on the
capital required during the time of
construction, the whole of the money
needed would be subscribed to-mor-
row. It only means diverting the in-
terest on the Suez Canal shares for
one year and the thing would be
done. But if the Government would
find half the capital, I think there
would be no difficulty about the other
half. The canal will be quite self-
supporting when once it is opened."

The Largest Concert Hall.

The Royal Albert in London, Where
12,000 Can Be Accommodated.

Besides being the grandest salon in
Europe, the Royal Albert Hall, where
Mr. Asquith opened his campaign,
rightly lays claim to being the largest
concert hall in the world, says Tit-
Bits. The building was commenced
in 1867, took fourteen years to com-
plete, and cost exactly \$1,000,000.

The hall can afford accommodation
for between 10,000 and 11,000, but on
the occasion of Sims Reeves' farewell
concert, 12,200 persons found accom-
modation under the huge glass roof.
This number included 5,200 who were
allowed to walk about the grand
promenade near the roof. This num-
ber has since been declared to be the
danger limit, and not more than 3,000
are now permitted on the promenade.

The Albert Hall was erected from
the part of the profits of the famous
1851 exhibition, the rest of the money
being raised by subscription. It was
arranged that every subscriber of
\$500 should be entitled to a private
seat, which belongs to the subscriber
until the lease of 999 years is com-
pleted. For \$1,000 they had the right
to a pair of seats; for \$2,500, five stalls
of a box of five seats, and for \$5,000,
a grand tier box holding ten. The
late Queen Victoria subscribed \$100,
000 and had two grand tier boxes,
which were converted into one. This
is now the royal box. The King,
when Prince of Wales, also bought
a grand tier box, which is now the
private property of the Prince of
Wales.

There are about 1,300 of these pri-
vate seats, and the owners can do
just what they like with them—use
them, lend them to their friends, or
sell them—but they are liable, how-
ever, to an annual seat rate not ex-
ceeding \$10 for upkeep. The owners
can only be excluded at private meet-
ings where the public are not admit-
ted by payment.

These seats are not regarded as an
investment, although they are fre-
quently in the market for sale. The
stalls may realize anything from \$175
to \$250 each. The late Duke of Edin-
burgh's box on the grand tier fetched
\$2,250.

The charge for engaging the Royal
Albert Hall for a concert, afternoon
or evening, is \$275, inclusive of all
expenses, such as lighting, attendants,
sale of tickets, police and a staff of
fifty gentlemen who act as honorary
stewards. These stewards are busi-
ness gentlemen, and include barris-
ters, solicitors, stock brokers, bank-
ers, etc., who do the work simply for
the love of the thing. The sum men-
tioned, however, does not include the
use of the freedom seats mentioned
previously. If every seat is required
for a private meeting the rent would
be \$750.

The big organ is known as the sec-
ond largest in the world. It has five
manuals and ten thousand five hun-
dred pipes, some forty feet long and
two feet in diameter, and some of the
size only of a straw. It also has four
keyboards and one hundred and twenty
stops. It is blown by wind sup-
plied by two engines of 14 horse-
power each. The hall and offices are
heated by steam, and there are over
twenty-four miles of hot water pipes
in the building.
