Despite their pretended assurance there are not wanting signs of great uneasiness in Germany and Austria at this eleventh hour. The swift and uncompromising decision of America in February was unexpected by them, and their diplomats have clung to the delusion even since then that she would not take the step she is about to take. But they cannot recede in the only effective way, and order their submarines to cease their murder. To do so would be to confess either failure of the campaign or dire fear of the new adversary, and to suffer a moral defeat that would immediately bring disastrous consequences within their own borders. They are hardly in a dilemma, for they are compelled to the choice already of one of the painful alternatives that confront them. From this point their fond and favourite weapon will itself bring into the war against it counter-weapons of great effectiveness, so that the first direct result of its use will be an increase in the means to defeat it. ANOTHER RAIDER AT LARGE.

RIO JANEIRO, To-day. A new German raider has reache the South Atlantic and sent nine o more merchantmen to the bottom, ac cording to survivors from the sunker vessels. The raider is the Sea Adder or the Sea Eagle, a formidable armed craft operating with the same daring as its predecessor the Moewe, which recently returned to a German port from the same waters. News of the activities of the raider was brought to Rio Janeiro by the French barque Cambronne which arrived here yesterday. She had on board 285 men from the crews of vessels sunk by the Ad der. The Cambronne encountered the raider on March 7th in latitude 21 south, longitude 7 west, a point in the Atlantic almost on a line with Rio Janeiro and about two-thirds of the way to the African coast. After the survivors had been put on the Cambronne she was ordered to proceed to the coast of Brazil, a voyage of 22 days, according to the Journal de Bra-

The raider was loaded with mines which explains the destruction of vessels off the coast of Brazil. The commerce destroyer is reported to be armed with two guns of 105 millimeters and 16 machine guns. The vessel has three masts and is equipped with wireless. Its crew consisted of 64 men, under command of Count Hkner. According to the refugees, the raider left Germany on December 22, escorted by a sumbarine. They say that the commander declared that the German Emperor and Crown Prince alone know of the expedition. No complaints have been made as to the treatment of the sailors while they were aboard the raider. They gave the ame of the boat as the Sea Adder

Immediate?—Yes! Certain?—that's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Danderine hair cleanse, Just try this—moisten a cleanse. Just try this—moisten a cloth with a little Danderine and cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forall over the scalp. If you care for pretty, soft hair, and lots of it surely get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter and just try it.

Just see what splendid, snowy white, delicious bread it makes!

Never in the history of the world did good bread mean so much to you as it does now. It helps to reduce the high cost of living by

lessening the amount of expensive meats necessary, and is the cheapest, most nourishing and most extensively used food known. Decidedly you should have none but the best flour for your bread. That is why we can so heartily recommend

Cream the West Flour

The hard wheat flour that is guaranteed for bread

None but the finest quelity Western wheat, and unsurpassed facilities could produce such splendid flour for bread. You can see for yourself how rich it is in nutritious, body-building gluten. The ginten imprisons the gas formed by the yeast, thus enabling your bread to rise right away up out of the

pans, making splendid big bulging loaves, light and flaky and full of fine home-made flavor.

Cream of the West flour is guaranteed. If for any reason you are dissatisfied with it, return the unused flour to your dealer along with this advertisement (our guarantee). He will return your money, and we will repay him.

WOMEN SOLICITORS.

"The Solicitors Qualification of Wo men Bill," introduced in the House o Lords on February 21 by Lord Buckmaster, has for its operative clause the following: "Women shall not be disqualified by sex or marriage from being admitted as a solicitor or for cting or practising as a solicitor under the Solicitors Act, 1843." The measure does not apply to Scotland or Ireland. Asked why he, as a member of another branch of the profession did not promote a bill to admit women to be barristers, Lord Buckmaster told me that that matter was not regulated by statute, and could only be dealt with by the Inns of Court. Parliament, however, had the power make some women solicitors.

£1,005,186 worth last year, are among branches of the dress trade. The demand for ribbon has been very heavy throughout the war, and is increasing. During the last month we ima quarter of last year's total. Lest this should be attributed to war-time extravagance, it may be well to add that those who are handling ribbons in both the wholesale and retail trades declare that the great popularity of these goods is explained by the fact that during the war the majority of women have eschewed flowers and feathers, and have taken to wearing what are known in the trade as semitrimmed hats. Ribbon goods come under present conditions from Basle and Government has promised to publish St. Etienne, but France is struggling against many difficulties brought about by the war, with the result that neutra! Switzerland is able to give quicker delivery, and so is capturing the trade. There is, of course, still a British ribbon-making industry, but t is almost entirely confined to the making of Petersham ribbons, which have very largely shared in the demand for ribbon hat trimmings.

prise, and the result is, that the indeendent district of Fogo is to-day direct weekly communication with the city, and the service is running as

egularly as clock-work. We claim that the same benefits which Fogo now enjoys should be availed of by the entire northern and estern coast-line; and that the congestion which now occurs on the dates of shipping at our city coastal premises should be avoided. These advantages are due the country, and it is to be hoped that in due time they will come to us, and that no party interests will delay their usefulness.

The telephone is another boon to a visit to his son-in-law and daughter stand at the farther end of it and orphan's home. People who have exhausted their credit with the proprictor can always waltz up to the telephone and order a drayful of provender from a green clerk who is anxious to oblige. The only way to avoid this is to kill the clerk.

The cash customer is looked upon preferred stock and is always given the fresh celery and late model eggs. It is a soul-satisfying sight to see a brisk patron come in and carry off \$18.75 worth of store goods after paying for the same with a crinkly \$20 bill. Such a man should never be served with musty oysters or stale seda crackers, but should be allowed to paw over the grape-fruit and gar-

den truck without interruption. If there were more cash customer ia existence, it would be easier to stay in the retail business without borrowing money on the home farm. The man who pays cash is a greater public benefactor than the inventer of the cheeseless mouse trap or the air tight inner tube, and yet who ever hears of any medals being hung around his neck? This teaches us that justice should be more evenly distributed

Tea is Still Advancing

But We Intend to Protect Our Customers as Long as Possible

We notice the Canadian Press expresses the opinion that good tea may soon be a dollar a pound. This may appear rather pessimistic but it is not impossible, as at the moment there are a variety of reasons which contribute towards considerable advances in the price

We are to-day offering a MAGNIFICENT TEA in 1 lb. packets only, at

50c. per lb.

This is better than many teas offering at 60c. per pound, and on to-day's market quotations should be selling at 70c, per pound. This tea is being used by many of the best families in the city and has gained many encomiums.

We are also offering a SPLENDID TEA at

45c. per lb.

Both of these teas are specially put up by ourselves and are better value than can be obtained anywhere. We shall be forced to advance our prices later or

reduce the quality and we would sooner advance the price than reduce the quality. A word to the wise is sufficient.
