

General News.

Joseph Anderson, aged 71, wandered away from Liverpool, during the week Wednesday and was found there with 300 yards of his boots.

It is claimed that Johnson's disease is almost infallible in the cure of diphtheria, pneumonia, influenza, bronchitis, congestion of the lungs and dry cough. This may be all true. We know it will prevent diphtheria, and that it will cure the cough instantly.

Lord Edmund Fitzmaurice, under foreign secretary, speaking in London on Wednesday stated that when parliament met the government would make a satisfactory statement in regard to Egypt. Parliament was not likely to consent to a protectorate over Egypt. The government was an international one with the object of maintaining European concert and promoting peace.

We will wear a year's subscription that a 25 cent package of Sheridan's Condition Powder contains more pure ingredients and costs more money than a bushel of any other kind put up in large bags. Sheridan's powder is available in any quantity.

Stanley says the length of the Congo River is 2,100 miles, and that the Mississippi and the Nile together would scarcely equal its tribute of water. It is estimated that from the mouth of the river a steamer drawing fifteen feet can steam up 110 miles, at which point a land journey of fifty-two miles is taken on account of the rapids. The other steamer of the Congo voyage of eighty miles, which is succeeded by a land journey of thirty miles. After that it is possible to steam up another 1,000 miles. Along this route thirteen stations have been constructed among possible tribes.

CHINA FARM.—The newest phase in the trunk road in passenger traffic is the announcement that engineers will be brought from Hamburg to Chicago (some 4,000 miles) for six different routes. This is the next thing to carrying them for nothing—a sort of business of which steamship and railroad alike will soon be tired. Possibly it may stimulate emigration a trifle—but it will be only a temporary inducement to our industry, and the country once more regains its former prosperity, we need not expect, by such devices as these, to increase the movement to anything like the phenomenal volume of 1880-81.—New York Commercial Bulletin.

A THUNDERBOLT FACT.—During the connection of the Metropolitan Railway from the Mansion House to Aldgate (London), on which upwards of two thousand men were employed in erecting the works, were permitted to be brought upon the site. The Superintendent of the works, Mr. Police laid his testimony to the uniform good conduct of the men, adding, "During the progress of the works there was happily no occurrence, and no serious accident. Though the large number of men were employed within the city radius I cannot find there were more than six changes taken at any one police station and these of a trifling character."

A HORRIBLE DEATH.—The San Francisco newspapers have entered on a crusade against the iniquitous practice just discovered of white mothering and selling their illegitimate babies to Chinese. It has been discovered that a systematic trade in babies has been going on for years in many of the agencies of the city. Nine white babies, four of them girls, in the possession of female proprietors of Chinese brothels, have already been sold to Chinese, and there are good reasons for believing that there are hundreds of others, but the Chinese secret discovery has laid them. It is asserted on excellent authority that these female children are purchased by these Chinese men and sent to high Chinamen for large sums of money.

A LONG TUNNEL.—The longest tunnel in the southern hemisphere has been recently completed. It will connect the Nile and the Nile river to the Nile river, at a point on which they will be joined by a canal. The tunnel is about seven feet in height, and is about one-half mile long. It is three years ago that the contractors began to drive the tunnel through the mountain, and as soon as they commenced to work they knew they must lose a large sum of money on the contract. It is said by some that the tunnel was worth \$20,000, but the outcry has been many thousand pounds in excess.

A Montreal dispatch says: The dynamite conspiracy appears to be taking a more definite shape. The Times states that one of its reporters has told this morning of a detective that a meeting was held last p.m. a few miles from the city. The meeting was held in a house, and was attended by several well-known persons. After a few speeches the English at Khartoum, a plan of destruction against parliament buildings in Ottawa was discussed. A few voices were heard in favor of the plan, but the majority opposed the project on the ground that a large number of the friends of the cause might be massacred with the first shot. The police are keeping a close look out on the banks and public buildings.

DEATH OF A DEAD WIFE.—Beth, Feb. 2.—A father-in-law, Mr. Squibb, who had been married for many years, was found dead at the top of his wife. The island, in winter, is uninhabited. The secret of the young man's strange actions has since been made known. He is a graduate of Williams College, and was a student in the law office of one of the leading men in New York city. He has a fortune inherited from an uncle, who died worth \$200,000. He was engaged to a young lady in a city not far from Beth. They spent all the summer together at Squibb's place. In October she died after an illness of six days. Two hours before she expired they were married at her father's house. Since her death the young man has been falling bodily and mentally, and his grief has been terrible. He went to New York, but returned and spent most of his time at his wife's grave. Finally he chartered a steamer at Bath, took a box of food and a supply of provisions and went to the island remaining there three days. His condition is critical.

The Pilot Chart of the North Atlantic Ocean for February has been issued by the United States Coast and Geodetic Survey. It is the latest issue of the chart, and contains a great deal of valuable information. It is particularly valuable for the sailing route from the Equator to the English Channel, the southern limit of the north-east trade, the northern limit of the south-east trade, the probable direction of variable winds, the latest position of abandoned wrecks, numerous notices to mariners, and a variety of other useful information. It is particularly valuable for the sailing route from the Equator to the English Channel, the southern limit of the north-east trade, the northern limit of the south-east trade, the probable direction of variable winds, the latest position of abandoned wrecks, numerous notices to mariners, and a variety of other useful information. It is particularly valuable for the sailing route from the Equator to the English Channel, the southern limit of the north-east trade, the northern limit of the south-east trade, the probable direction of variable winds, the latest position of abandoned wrecks, numerous notices to mariners, and a variety of other useful information.

THE WAR IN EGYPT.

DISASTROUS NEWS.

KHARTOUM FALLEN AND NO NEWS OF GENERAL GORDON. London, Feb. 10, 10 a.m.—Intelligence has just been received that Khartoum has been captured by the rebels, the whereabouts of Gen. Gordon being unknown. He is probably a prisoner in the hands of the victors.

London, Feb. 6.—The War Office has issued the following: Telegrams from Lord Wolsey announce that the fall of Khartoum occurred on Jan. 26. Colonel Wilson arrived at Khartoum on January 28 and was greatly surprised to find the enemy in possession of the city. He immediately started on his return, and proceeded under heavy fire from the rebels. When some miles below Shabkha, General Gordon, who had been wrecked, but the whole party managed to reach an island in safety, where they were secure. A steamer was sent to let them back to the British camp near Matruh. Lord Wolsey has no information regarding the fate of Gen. Gordon.

London, Feb. 6.—The confirmation of the fall of Khartoum has caused the wildest excitement throughout the city, far exceeding in intensity any that has ever occurred by any of the startling events of the past few weeks.

London, Feb. 6.—Gen. Wolsey telegrams from Khartoum to the war office this morning that a courier arrived from the British camp near Matruh, who reports that the rebels at Matruh have become desperate. The British camp at Khartoum, the courier also says an attack on Khartoum may be looked for any moment, as the rebels expect reinforcements from Khartoum. Lord Wolsey states that he will remain quiet, pending further orders from the government.

The cabinet met at 11 o'clock this morning to consider what course should be taken in regard to the recent Egyptian emergency. It was decided to telegraph to the British government to dispatch troops to Khartoum, and to telegraph to the British government to dispatch troops to Khartoum, and to telegraph to the British government to dispatch troops to Khartoum.

London, Feb. 6.—The British government has decided to dispatch troops to Khartoum, and to telegraph to the British government to dispatch troops to Khartoum, and to telegraph to the British government to dispatch troops to Khartoum.
