DROPPED DEAD AT DARTMOUTH

Rev. Wm. Phillips, Pastor of Digby Methodist Church Cut Down While on Vacation.

Rev. William Phillips, aged 62 years, pastor of the Methodist Church, at Digby, dropped dead on Ochesterlony street in Dartmouth, about 8.30 o'clock on Saturday evening. The deceased had just arrived in Dartmouth on a vacation. He was seen to fall to the sidewalk face downwards and when picked up was found to be dead. The remains were sent to Middleton for burial accompanied by Rev. Mr. Higgins, pastor of the Grace Methodist Church at Dartmouth.

A Digby despatch says: The news of the sudden death of Rev. Wm. Phillips has cast a gloom over the town, and there is genuine regret at the passing of one of the most popular preachers of the Province. The news was taken to the bereaved family by R. A. Abramson, of the Methodist Church, and Rev. D. E. Hatt, pastor of the Baptist Church. The congregations of the Methodist and Baptist Churches have united during the vacation period of the two pastors, and before the opening of the joint service this morning, the following resolution was passed:

The united congregation, Baptist and Methodist, now gathered for worship, having learned with deepest sorrow of the sudden passing of Rev. Wm. Phillips, pastor of the Methodist congregation in Digby take this opportunity to place on record the very high esteem and genuine regard in which Mr. Phillips has long been held in this community, having recently entered upon his second term as pastor here, and to extend to his bereaved family our tenderest sympathy, praying God to comfort and sustain them in this great trial, and we ask the leader of our morning worship to now lead us at the throne of grace on their behalf.

MR. M. C. BROWN'S NARROW ESCAPE

Manager of the Wolfville Telephone Exchange Badly Burned by Electricity

On Saturday evening C. A. Brown, manager of the Wolfville telephone exchange was badly burned and narrowly escaped death from electric current.

The light and telephone wires in Wolfville had been brought into contact thru the moving of a barn so it was reported. At the time, Mr. Brown was working about the switchboard of the telephone office. Holding an electric lamp in one hand he touched one finger of the other hand to the switch board receiving a heavy electric shock.

He screamed and fell to the floor, but in falling broke the current. He was carried home and three doctors worked all night over him. At first there appeared little hope of his recovery, but he is now doing nicely.

The town was in darkness during the remainder of the night.

NARROW ESCAPE NEAR MIDDLETON

A Twelve Year Old Boy Allowed to Drive an Auto in Our Sister Town

An auto accident which might have caused serious injuries or instant death was nearly the result of a twelve year old boy being allowed to drive an auto on Middleton's main street during last Saturday's rush when dozens of cars were leaving that town with people who had been attending the ball game.

An automobile driven by this little boy stopped in front of a house and another boy left the car. Notwithstanding the fact that a number of cars were coming behind, the one nearest blowing the horn and the little fellow who had left the car, warning the youthful driver the latter turned his car directly across the road. The next car coming was obliged to run across the ditch and a general blockade of traffic for a few minutes was the result but fortunately no one was hurt.

A MONITOR reporter was able to get the number of the car and the name and age of the little driver. Surely the authorities in our sister town will see that at least six years will elapse before this driver attempts a similar stunt at the wheel.

Convention, National Council of Women, St. John, N. B., June 17th, 1920

Dear Sir:

The undersigned after seeing the film, "ENLIGHTEN THY DAUGHTER" at a private screening, find no objectionable feature in it. It is a wholesome lesson to the suffering following abortion—The evil of allowing boys and girls untaught and unsuspecting to make promiscuous acquaintances and to go motoring into the country without chaperonage. The picture emphasizes the fact that the "Wages of Sin is Death." Carefully presented as it is, it cannot be condemned by earnest, thoughtful mothers, who might well take their growing boys and girls to see it.

LOCAL DEATH ROLL

MRS. NORMAN F. CHUTE

Posty A. wife of Mr. N. B. Chute, passed away at her home, corner of Church and Granville streets, at 2.45 Sunday morning, aged 61 years. Mrs. Chute had been ill since March and notwithstanding the best medical treatment and nursing that could be obtained the end came as stated above. When in good health she was a great entertainer being always ready to extend hospitality to visitors in her splendid home and besides her local friends, had a host of them all over the province. Her charitable deeds were many. She was a charter member of Autumn Leaf Rebekah Lodge, but had not attended for many years. She leaves a grief stricken husband, but no family. She was the daughter of the late Mr. and Mrs. Daniel Messinger and is survived by five brothers, Lemuel, Elias, Henry, Daniel and William all of Bridgetown, and two sisters, Mrs. Mary Allen (who formerly resided in Moncton, N. B.) and Mrs. Major Slocumb both of this town and one half sister, Mrs. Amy Smith, of Clementsport.

The funeral was held from her late home Monday afternoon with interment in the Riverside cemetery, the services being conducted by Rev. M. S. Richardson, pastor of the Bridgetown Baptist Church, the pall bearers being four of her brothers. The floral tributes were beautiful. Among those from out of town who were here to attend the funeral were Mr. and Mrs. Charles Clark, of Windsor; Mr. and Mrs. Wm. Bent, Lawrenceton and Mr. and Mrs. Burpee, Armstrong, of Mt. Hanley; Mr. and Mrs. F. L. Gertrude and daughter Aleta, and Mr. and Mrs. F. B. Westcott, of Gasperaux. Special music was furnished by A. C. Charlton and E. C. Hall, of Bridgetown and David and Joseph Hall, of St. Croix Cove. The MONITOR extends its deepest sympathy to the bereaved ones.

THREE BULL MOOSE AT VICTORIA BEACH

A true moose story which occurred at Victoria Beach, the terminus of a narrow neck of land 35 miles long by two wide is creating considerable interest. On Wednesday three bull moose one about a four year old and the other two about 2 1/2 years each, made their appearance on the main post road just in front of Dr. F. F. Smith's auto who had been summoned there from Granville Ferry to attend a patient. After trotting along the main thorough fare through the village for a short distance they took to the shore and began to swim across the Annapolis Basin in the direction of Bear River their intention evidently to enter the south woods of the province. They were pursued by fishermen in their motor boats and when about two and a half miles off shore, were forced to turn and again land at Victoria Beach. Two of them struck off immediately for the woods while the third walked quietly down the street. The whole affair caused quite a sensation in that thriving little village where fishermen are more plentiful than moose hunters.

MRS. JOHN BREEMAN

Word has been received by Miss Bell Ruffee of the death of her sister, Mrs. John Breeman, of Neadman, Mass., who was Miss Fannie Ruffee, the daughter of Mr. and Mrs. William Ruffee of this town. She leaves a husband and four children, Mrs. French, Miss Dorothy, Jack and James, also one sister Miss Bell Ruffee and brother Charles, of Bridgetown and Harry of Philadelphia.

CAPT WILLETT SAILS 5,000 MILES ON SHORE

The Annapolis Spectator says: Capt. W. M. Willett left this week for New York to take command of a 10,000 ton ship for a voyage to Australia and New Zealand. In his long summer ashore he has travelled 5,000 miles in his Grey-Dort auto and says he enjoyed every minute of it without a scratch or an accident which shows what can be done by careful seamanship with a competent navigator. Mrs. Willett will remain in Round Hill till his return.

CAPT RALPH MESSINGER

The death occurred of Captain Ralph Messenger at his home in South Chatham, Mass., Sept. 10th, aged 89 years two months and one day. He died very suddenly of heart failure while at his work. He was a native of Yarmouth and a brother of the late Capt. S. E. Messenger, and is survived by four children, namely, Edgar D. City; Samuel C. of Swansea, Mass.; Mrs. Effie D. Broughton, of Unadilla, N. Y. and Mrs. Mary A. Sawyer, of Webster, Mass.; also 8 grandchildren and three great grandchildren. Dr. Joseph E. Messenger of New York is a brother of the deceased.

A LONG DISTANCE LAYER

(Experimental Farms Note) As a rule, hens lay two or three eggs and then miss a day. Some good hens will lay more before they take a day off and we have known individual hens to lay five and six dozen eggs and not miss a day, but a record in long distance laying without a miss has, as far as we know, been established by the Experimental Farm, Poultry Division at their Kentville, N. S. station, where a Barred Plymouth Rock pullet laid 104 eggs in 104 days.

This Barred Rock whose leg band No. 163, did not start to lay early. In fact her first egg was laid on the 25th of January. She laid two eggs and missed a day, laid five eggs and missed a day, four eggs and missed a day, one egg and a miss, then two eggs, but on the 13th of February she got down to business and laid every day for the rest of the month, every day in March, every day in May up to the 27th when she took two days off. After this time she took an occasional day off until the 20th of June when she became broody. When she went broody her total record was 126 eggs in 147 days. F. C. ELFORD, Dominion Poultry Husbandman

AN ODD VILLAGE

In Alberta, Canada, there exists a village where no nails have been used in the construction of the houses. They were built by Ruthenian immigrants, and are of the typical Ruthenian style—long, pitch-roofed, thatched and wide in the eaves. Even the door an affair of slender twigs, woven and laced together, swings on home made hinges, and is latched with a wooden hasp. The floor is of heven logs unnailed. The roof is a wonderful fabric of poles and cross woven wheat straw ten inches thick, packed tightly and solidly, and laid with such care that it will endure any weather for twenty years.

WHEN BABY IS SICK

When the baby is sick—when he is cross and peevish; cries a great deal and is a constant worry to the mother—he needs Baby's Own Tablets. The Tablets are an ideal medicine for little ones. They are a gentle but thorough laxative which regulate the bowels, sweeten the stomach, banish constipation, indigestion, break up colds and simple fevers and make teething easy. Concerning them Mrs. Philippe Payen, St. Flavien, Que writes: "Baby's Own Tablets have been a wonderful help to me in the case of my baby and I can strongly recommend them to other mothers." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Probably most of us are superstitious about the number 13 just as people were a long time ago. Our own superstitious will amuse a subsequent generation, as those recalled by our readers amuse us. Only a subsequent generation can safely laugh at superstitions.

HAS NOW THROWN HIS CRUTCH AWAY

Weatherdon Says He Is Entirely Free of Rheumatism Since Taking Tanlac.

"I feel I ought to let everybody know how Tanlac has relieved me of rheumatism, for I doubt if any one has suffered worse than I have during the last ten years," said William Weatherdon, of 118 Agricola St., Halifax, N. S. "I used to ache all over with pain that seemed to go right to the marrow of my bones and drive me almost frantic. At times I couldn't bend my arms enough to get my coat on and it was only with great pain and difficulty that I could stoop over at all. My feet swelled up so that I was unable to get my shoes on and my knees got so stiff that I was barely able to get around with the help of a crutch. My hands were all drawn up so I couldn't use them, and at night my whole body ached so I couldn't sleep. "The way Tanlac helped me is simply wonderful. I have taken several bottles altogether and the rheumatism seems to have left my system entirely. Today I haven't an ache or a pain in my body and all the stiffness and swelling have left my joints. I no longer need crutches to get about and, although I am working every day, exposed to all kinds of weather, the rheumatism never gives me a bit of trouble. Never in my life have I known a medicine to do what Tanlac has done for me, and I strongly recommend it to all who suffer as I did. Tanlac is sold in Bridgetown by S. N. Wear, in Middleton by Clifford A. Mumford and in Bear River by L. V. Harris.

NOW A REGULAR ADVERTISER

(Berwick Register) A thin, sickly, little man entered one of the stores in our town recently and quietly seated himself on a convenient chair. One of the clerks approached and asked if he wished to purchase anything. "Oh, no," said the man. "I just dropped in for a few minutes." After half an hour had passed, the manager of the store, becoming curious, approached him and asked what could be done for him. "Why nothing that I know of," said the man. "You see I have nervous prostration and the doctor told me to stop in a quiet place. Noticing that you do not advertise, I thought this would be about the quietest place I could find." Let me tell you it was anything but quiet their for five minutes. The poor little man found himself in the street wishing that he had landed on a feather bed. But the next week the store surprised itself with a big display all in the home paper.

OLD TIME SUPERSTITIONS

A reader furnishes us with a list of old superstitions which were part of our folk lore in this part of the country before we had to have folk lore societies to preserve this sort of thing. A rooster crowing at the front door meant a visitor coming. A twig catching a young lady's dress meant a beau. An itching ear meant that someone was talking about you. To turn back after starting meant bad luck. Opening an umbrella in the house meant bad luck to the house. A measuring worm on a woman's frock meant a new dress. An itching left hand meant that you would marry soon. An itching right hand meant that you would shake hands with a stranger. Seeing the new moon over the left shoulder meant one would soon get money.

THE TEACHER

The teacher's the noblest stunt a mortal can pursue; and yet we see her hunt for something else to do. She loves her high uplifting trade and quits it with a sigh, but she can't live on what she's paid, and can't afford to die. For years she studies night and day, to qualify to teach; and we behold her on her way and say she is a peach. We hand her nosegays when they're cheap, and call her Buttercup, and say the blessed schoolmarm keeps our bulwarks right side up. Without her this enlightened age would sadly be bereft; she guards the priceless heritage our well known fathers left. We hand her taffy with a spade, but when she makes complaint about the measly wage she's paid, we sweat some blood and faint. We may confess to spendthrift ways, hold miser greed a crime; but when the schoolmarm asks a raise, we're tightwads every time. And so she's going from the school to seek some other trade, to carve her way with some new tool, a corkscrew or a spade. She cannot thrive on nosegays sweet, or flourish on hot air, for she must have a prune to eat and decent rags to wear.

WILL SHIP BETTER APPLES THIS YEAR

(Wolfeville Acadian) The Board of Directors of the United Fruit Co. Ltd., held their annual quarterly meeting at Kentville Tuesday afternoon, discussing routine matters. The important meeting occurred afterwards when 28 Managers of subsidiary companies out of a total of 43 held a meeting to meet General Manager A. E. McMahon. This meeting was of importance from the fact that there was a lively discussion as to the standing of the Nova Scotia apple in the European markets at the present time. It was admitted that the Nova Scotia apple had lost some of its prestige. The general opinion expressed that this loss of prestige was largely due to the early frost of last year, resulting in apples coming into the packing houses in bad condition. It was however unanimously decided by the 28 Managers of the subsidiary companies who are responsible for packing that this year will see a better pack.

A REAL LIVE TESTIMONIAL

Given to Professor Hamilton, of Hampton, N. S. TO ALL WHOM IT MAY CONCERN Mrs. Wm. Grant, of Port Lorne, Anna Co., N. S., wishes to bid all who are sad to take Heart again for whatever nature your ailments may be Prof Hamilton of Hampton, N. S., can give you relief and if given an opportunity, can cure. The benefit I have received in a two month's treatment is beyond expression. A disease of over 20 years standing, limbs on left side swollen to an enormous size, use of hands gone, voice also of an almost unintelligible sound, in fact I was almost bedridden as my limbs and feet were refusing to carry me around. Hopelessly I went to Hampton but to my agreeable surprise I am lots better, swelling left, voice returned and the use of my hands once again and my limbs gaining strength daily. Now I sleep soundly. Circumstances call me home. Could I continue under whatever nature your ailments may be Prof Hamilton's treatment for a time I believe I should be a well woman as ever I was before taken sick. Words fail to express my gratitude for what the Prof has done in my case. Physicians had been consulted, both in United States and Canada, to no avail. I only had a lifetime of chronic invalidism to look forward to. Now hope has returned in my heart and I wish all sick and afflicted persons to give Prof Hamilton a trial before giving up in despair. Yours in Christian sympathy. MRS. WM. GRANT

ANNAPOLIS VALLEY BOYS' CONFERENCE

As already intimated in our columns the Conference for the Annapolis Valley in the interest of work amongst boys is to be held in Bridgetown October 8-10th, and various committees are now at work arranging details. As well as our own local "Taxi" boys delegates are expected from various centres along the Valley. Besides this the Conference is open to all men and older boys who are interested in this work, and especially along the Canadian Standard Efficiency Training (C. S. E. T.). We shall publish somewhat full particulars in our next issue. Meanwhile detailed information may be obtained from: J. T. Archibald, (Registrar) Dr. M. E. Armstrong, Mr. H. B. Hicks, Mr. W. R. Longmuir, Mr. A. F. Hiltz, Mr. Karl Freeman, or any of the local clergy. It is hoped that besides the local Taxi Boys a large delegation of our local men will attend this Conference. The Registration fee is the nominal sum of One Dollar.

NOVA SCOTIA G. W. V. A. OFFICERS

ANOTHER INDUSTRY FOR BRIDGETOWN

Messrs Angus Ramey and George Wheeler have purchased the Annapolis Royal Vulcanizing works from Mr. R. C. Barnes and as soon as suitable quarters can be fitted up, this industry will be moved to Bridgetown. The same skilful and efficient workmen which have made this business such a success will be continued on duty. In the meantime orders left at Mr. Angus Ramey's shop in Bridgetown will be forwarded to Annapolis at once and promptly attended to.

"ENLIGHTEN THY DAUGHTER"

A picture which is sure to draw a big house is "Enlighten Thy Daughter" which will be shown in the Primrose Theatre next Friday night, Oct. 1st. This picture is too well known for further comment. A special advertisement appears in to-day's MONITOR. Tickets will be on sale at Maxwell's tomorrow and should be purchased at once to avoid the rush.

OPENED AN OFFICE IN KENTVILLE

Mr. W. A. Spurr representing George Menno's Commission Fruit Brokers' Covent Garden Market, London, Eng., has opened an office in Kentville. Mr. Spurr was a Lieut. Pilot with the R. A. F. during the war, and after the signing of the armistice held a position in London with the firm which he now represents.

KENTVILLE WINS

The Kentville Advertiser says: The Kentville Junior Baseball Team defeated the Bridgetown Junior Team at Bridgetown Wednesday with a score of 4-3. The game was an interesting one, and the boys report a fine time, and are enthusiastic over the entertainment given them at Bridgetown.

It is reported that Mr. S. B. Chute's first shipment of apples from Berwick to England this season (2,000 bushels) has cleared him \$20,000.

BRIDGETOWN'S LIBRARY ASSOCIATION

Some weeks ago a meeting was called of all those interested in our town "Library fund". As a result of this meeting there was organized a Library Association with the following officers:
 Pres., Mrs. O. T. Daniels.
 Vice Pres., Mr. J. T. Archibald, Secy-Treas, Miss Mary Jost.
 Also a committee of managements: Mrs. R. R. Duncan, Mrs. F. H. Johnson, Mrs. J. W. P. S. Mavor Salter, and Dr. M. E. Armstrong.
 Since that time plans have been made and it is now expected, that before winter Bridgetown will have a public library.

Mr. Walter Scott and sister, Miss Ada C. Scott, leave next week for Toronto where they will reside for the present. As we have already noted in our columns, Mr. Scott has been doing business in British Columbia for several years during which time he has been a big advertiser, noted for his systematic manner in which he does business and has proved himself thoroughly reliable in all his dealings. We trust that their stay in Toronto will prove a pleasant one.

Mr. D. McCormack, of the Western Union Telegraph Co has just returned from a six weeks' tour of Western Canada and the Pacific Coast which included a visit to his sons Leo and Harry at Alaska, and John and Peter at Montreal and Edmonton. A. Among the many pleasing features of the trip was a visit to Vancouver City, where he was a guest of old Kentville friends, Mr. and Mrs. R. W. Chateau de Ramezay One of Montreal's Historic Relics

The running of the sands of time alone can give the proper perspective and value to historic buildings. Societies spring up to preserve these relics of the past. Perhaps the most famous of these memorials of the past in Canada is the Chateau de Ramezay in Montreal, which has remained almost untouched since the days of the old French regime. It was built in 1765 by Seigneur Claude de Ramezay, eleventh governor of Montreal. Here he kept open house with his wife, whose hand was the reward of his gallant sortie with 800 men in aid of Quebec in 1690, when the Count de Frontenac, governor of Canada, fended off the English fleet of Sir William Phips. The Chateau stands in what was once the fashionable part of old Montreal, amid mansions and gardens that merged into the neighboring forests. To-day the homes of Montreal have forsaken the busy waterfront and climb their charming gardens still clinging to them, up the slopes of Mount Royal. From the days of de Ramezay the Chateau has been the scene of many historic assemblies. Its roof sheltered not only the governor-generals, their suites of fair women and brave men and their illustrious guests, but fur traders, scouts, militia leaders, and Indians. In 1745 it passed into the hands of the Campagnie des Indes and as India House became the centre of a great fur trade, filling this picturesque and important role for nearly twenty years. In 1763, after the cession of Canada, it was again the residence of the governor, and invitations to receptions held there during the following century are still in existence. The Chateau was headquarters for the army of the Continental Congress in its fruitless effort to hold Canada for the thirteen colonies. After Benedict Arnold failed in his treason he retired to Montreal and stayed there for a time. Benjamin Franklin lived in the Chateau when he visited Montreal in 1776 in his effort to persuade the French Canadians to join the new nation to the south, but his was a vain hope. During his stay there he established the Montreal "Gazette," which is still running. Needless to say, he did not find this paper for the purpose of propaganda. After 1849, the Chateau was for thirty-five years used for government offices. When the government removed to Ottawa, the city presented the Chateau to the Numismatic and Antiquarian Society for a museum, and as such it is unique. Its collection contains all sorts of things ranging from crude home-made utensils fashioned by the clumsy hands of frontier habitants to portraits done by world-renowned artists. One of the most precious things among the thousands catalogued is the Louisbourg bell, hung in the church there in 1724.

Made in Canada

WE know the sale of the Chevrolet Light Delivery Wagon depends on the satisfaction it gives in actual service. We also know that its valve-in-head motor eliminates fuel waste and delivers fullest power, that its ample bearings cut friction to a minimum, that its perfect balance—strength without weight—insures stability and makes a maximum of power available for actual hauling. These are only a few of the obvious reasons for Chevrolet ability, durability and economy.

Forty-Eight Years in "Canada's Western Empire"

Colonel John S. Dennis, C. M. G., who rode the plains of Alberta, Saskatchewan and Manitoba 48 years ago, when Indians and buffalo were plentiful, knows more about "Canada's Western Empire" than any other man. He killed and ate the buffalo, narrowly escaped being scalped by Indians on at least one occasion, suggested and built in Alberta the largest irrigation system in North America, recruited thousands of British and Canadians in the United States during the recent war and not only volunteered but saw service with the Canadian Expeditionary Force in Siberia. Now the four western provinces of Canada have a population of 2,500,000, the buffalo are to be found only in parks in the Canadian

Rockies and the Indians, are on reservations. There are nearly 20,000 miles of railway in the four provinces, or one mile for each 125 persons and of 225,000,000 acres of good agricultural land, but 35,000,000 acres are at present occupied and cultivated. Of the balance, 190,000,000 acres, some 30,000,000 acres lie within fifteen miles of these railway lines waiting for settlers. "Think of it," says Col. Dennis, "and the world crying out for food." His view is that while Canada has won a standing among the nations by her work in the recent war so that today the name "Canadian" is recognized as distinguishing a citizen of a progressive and virile country, Canada's share in the great struggle has involved her in financial obli-

gations which can only be met and discharged by increasing her population and developing her vast natural resources which, while ample security for many times her war debt, must be made productive of wealth through development. Between 1905 and 1914 about 2,500,000 people settled in Canada, the largest proportion in the four western provinces. They left Great Britain, the United States and other countries for their new home, and Col. Dennis believes that 500,000 each year may follow them until these provinces have a total population of 10,000,000. Canada, he further believes, is destined to be "the keystone in the arch of the British Empire."

Kootenay and Its Mines

C. P. R. Train at Kootenay Landing Connecting With the Steamer Nasookin, From Nelson. The trade travel and exploration of the Kootenay are a romance of progress. The day of the fur trader gave way to that of the placer-miner. In passing, the placer-miner left beside his trail of rocks, a still deeper mark on the country and its future. He stayed long enough to make history. The Tod Mines, near Nelson, discovered in 1888, saw a great stampede. The discovery of the Silver King Mine, about 1887 by Hall Brothers, and its development, was the beginning of Nelson, and following the arrival of the miners, a townsite was laid out. The Granite Poor Man Mine, developed as a gold mine, was first worked by Lincoln Davenport in 1889. He built the first stamp mill and the whole was in operation about 25 years and produced an immense amount of gold. The "Molly

PALLID CHEEKS MEAN ANAEMIA

New Health Can be Obtained by Enriching the Blood Supply

When a girl in her teens becomes peevish, listless and dull, when nothing seems to interest her and dainties do not tempt her appetite you may be certain that she needs more good blood than her system is provided with. Before long her pallid cheeks, frequent headaches and breathlessness and heart palpitation will confirm that she is an anemic. Many mothers as the result of their own girlhood experience can promptly detect the early signs of anaemia and the wise mother does not wait for the trouble to develop further, but at once gives her daughter a course with Dr. Williams' Pink Pills, which renew the blood supply and banish anaemia before it has obtained a hold on the system. Out of their experience thousands of mothers know that anaemia is the sure road to worse ills. They know the difference that good red blood makes in the development of womanly health. Every headache, every gasp for breath that follows the slightest exertion by the anemic girl, every pain she suffers in her back and limbs are reproaches if you have not taken the best steps to give your weak girl new blood, and the only sure way to do so is through the use of Dr. Williams' Pink Pills. New, rich, red blood is infused into the system every dose of these pills. From this new rich blood springs good health, an increased appetite, new energy, high spirits and perfect womanly development. Give your daughter Dr. Williams' Pink Pills, and take them yourself and note how promptly their influence is felt in better health. You can get these pills through any dealer in medicine or by mail postpaid at 50 cents a box or six boxes for \$2.50 from 'The Dr. Williams' Medicine Co., Brockville, Ont.

CHEAP APPLES IN ONTARIO

(Berwick Register)

Mr. R. J. Graham, President, of Graham's Limited, and Mr. Jamieson Bone, of Belleville, Ont., accompanied by Mr. Charles Whitney, of New York, were in Berwick yesterday on business in connection with the Graham evaporating plants. It is understood that only a few of the larger plants through the Valley will be in operation this fall. This is owing to the prevailing high prices for apples in Nova Scotia compared with Ontario, where Mr. Graham states that apples for evaporating and canning can be purchased at from 45 to 50 cents per hundred pounds. It is expected that the Berwick factory will be among those to be opened for business.

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. CORRESPONDENCE

THE LIBRARY FUND

To the Editor of the MONITOR:—Will the readers of the MONITOR kindly turn to the notice on another page, in which the Committee of the Library Association of the town is calling attention to the efforts it is proposing to make for the establishment of a much needed public library. For some time this matter has been contemplated and much interest has been manifested in it by our citizens generally, but nothing definite has been accomplished.

The Committee, however, has concluded that the desire for a public library must not end in good wishes, but that it must become a fact. Already some plans have been formulated, and the Committee desires and expects their hearty endorsement by generous contributions of both old and young.

It is understood that some of the former residents of Bridgetown have expressed their approval of this forward movement, and their willingness to assist in its success.

There can be no question of the great value of a good library. Let every person give encouragement to the Committee of the Library Association by both deeds and words.

A WELL WISHER

REFERENDUM ACTIVITIES AT LAWRENCETOWN

As one result of the organization of the Annapolis County Social Service Council, the committee met Tuesday evening to consult respecting the means that should be used in order that the community may make a creditable showing in the referendum poll which is to be taken in the Province of Nova Scotia, October 25th.

- The committee divided the polling districts into sections and appointed leaders whose duty will be to get the names of voters on the list, and to see that every man and woman who believes that the importation of liquor for beverage purposes should be prohibited, register their votes. Following are the sections with names of leaders:
- 1.—Post Office to Leonard Road: Rev. H. T. Jones and W.B. McKeown.
 - 2.—Leonard Road to Bent Road: Rev. W. Smith and Kenneth Brooks.
 - 3.—Post Office to head of Fitch Road: Dr. J. B. Hall.
 - 4.—Fitch Road to Bricon, including Hanley Mt. Road to Wm. Fenerty's: Owen Graves and D. W. Bezonson.
 - 5.—Clarence: L. W. Elliott and Henry Messenger.
 - 6.—Lawrencetown Lane and the New Road: T. G. Bishop.
 - 7.—Head of Lane to Paradise Lane, including West Inglisville to Fred Barteaux's: Rev. Ritchie Elliott and F. H. Beals.
 - 8.—Lawrencetown Lane to Henry Grant's: E. C. Shaffner.
 - 9.—East Inglisville: Fred Naugler.

10—West Inglisville: Leander Beals.

Early in October an opportunity will be given to add names to voters' list of which due notice will be given. It is hoped that all who have been appointed leaders will cheerfully accept the responsibility, and that the response may be such as shall place these two polling places in the front rank on October 25th.

Canadian Persian Lamb

(1) A Karakul flock gathered for inspection. (2) Karakul sheep and lambs.

The aggressive and enterprising spirit of the Canadian farmer coupled with the diversity of climates to be found throughout the Dominion result in a continual branching out into new lines of agricultural activity. A recent introduction which has apparently taken vigorous hold and will probably assume important proportions, developing into a commercial industry of magnitude, is the breeding of Karakul sheep, the animal whose young produce the fur variously known as Persian lamb, Astrakhan, and Karakul. This breed is but little known on the American continent although interesting experiments have been made with this breed at Pennac, New Brunswick, and in Prince Edward Island. The home of the Karakul sheep is on the vast sandy deserts of Bokara, which are largely inundated in the spring by the river Zerachane swollen to overflowing by the accumulation of winter's snow in the Alai Mountains. Many deep-rooted bushes grow in this region, the tender shoots of which form the favorite food of the sheep in the summer, whilst their berries supply winter forage. For the supply of furs, the lambs are killed within three days from birth when the wool is curly, a property it maintains afterwards in the most humid atmosphere. If the animal is permitted to live, the growth gradually becomes straight, losing every vestige of flexure at maturity.

In the year 1912 the Karakul sheep was first introduced into the United States direct from Bokara, and in the following year small herds were established in Alberta and British Columbia. Here they have thrived and propagated successfully and give every indication of making the industry in the west permanently profitable. Recently, F. E. Dawley, an inspector of the United States Bureau of Husbandry for New York, who has been running a herd of 45 animals north of Calgary, Alberta, located land in the Kamloops district of British Columbia, on which he proposes establishing a similar ranch. He believes the district to be particularly adapted to the raising of Karakul sheep on account of its elevation, climate and winter conditions closely approximating the animals' native Bokara in Turkestan. Previous to the war attempts were made to acclimatize Karakul sheep in Belgium and Northern Germany, with some success. The climate of certain sections of Canada, however, provides more ideal conditions, and indications are that the foundation has been laid in the Dominion for a new issue in the livestock industry, which should prove a very profitable line to Canadian farmers.

Before the war almost the entire Karakul fur crop from Bokara known as Persian lamb or Astrakhan, was treated and dyed at Leipzig, where two houses alone received 750,000 skins valued at about \$2,700,000 (at pre-war prices). A full-blooded Karakul sheep is worth about \$2,000; three-fourths blooded, \$800; half-breeds, \$150 to \$200. Skins at the present time range from \$20 to \$25 each.
