No. 53

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co. of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday, contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman Monthly. A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of timber products.

AUCTION SALE

OF VALUABLE TIMBER LIMITS AND LANDS.

There will be offered for sale by Public Auction at the Russell House, in the city of Ottawa, on

Wednesday, the 19th day of February, 1902,

at two o'clock in the afternoon, the Timber Berths and Properties owned by Mr. William Mackey, on the River Amable, Du Fond, Province of Ontario. The limits are: in one block containing 1000 square miles, timbered with white and red pine of superior quality, spruce and other woods, and are well watered, making a very short average draw. Part of the block is still a virgin forest containing large board pine of the finest quality with a very short haul.

With above are included: decayed lands on which are built slides and dams; and at Baucalre station, Can. Pac. Ry., a well-equipped saw, planing and shingle mill run by water power.

The whole will be sold in one block. Maps and descriptions of limits may be obtained from

Large Tract of Timber

In Central Ontario

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited.)

This company has a large tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherrybirch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5,000 to 25,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

The demand for lumber in Toronto is heavier than usual in midwinter, and prices generally are firm. It has seemed difficult to advance wholesale prices to the same extent as has been done at the mills, but the prevailing opinion is that there will be a moderate rise at least before spring. The outlook is regarded as very bright. Box lumber and mill culls are now being shipped in considerable quantities from Ontario to the Eastern states, Chicago and Michigan. Numerous inquiries are being received for stock for shipment as soon as navigation opens. Consumers of hardwoods are adding to their stock of raw material, apparently believing that it will not be possible to obtain hardwood lumber below present quotations for some time at least. Shingles are higher and sell wholesale in Toronto at \$3 for XXX, \$2 for XX, and \$1 for X. The movement of lath is light, but the tendency of prices is upwards, and as soon as there is an expansion in demand, quotations will immediately follow the advance which has been put into effect in the Lake Superior and Michigan districts.

The latest reports from the woods go to show that the log cut of the present season is to date behind the figures for the same period one year ago. Natural conditions are held responsible for the shortage.

QUEBEC AND NEW BRUNSWICK.

Predictions are made that there will be a strong demand for spruce lumber during the current year. Building operations throughout the Maritime Provinces promise to be on an unusually large scale, while the projected harbor improvements at Montreal, Quebec and St. John will call for a considerable quantity of timber. The erection of large grain handling facilities at Quebec by Capt. Wolvin, of Duluth, is also an undertaking which will consume a considerable quantity of building material. The Eastern States are likely to purchase liberally, while it is probable that about the usual quantity of spruce deals will find a market in Great Britain. Altogether, manufacturers are disposed to anticipate a favorable season. Clapboards at the present time are the strongest feature of the market, selling at \$35 for Boston delivery. Cedar shingles are unchanged at \$3.25 to \$3.30 for extras. Spruce lath is weaker, sales having been made for Boston at \$2.90 for 1 1/2-8 inch.

UNITED STATES.

The lumber business is exceptionally good for this time of the year, with each day adding strength to the position of white pine. In the Lake Superior district the shortage in the supply is an important factor. Some dealers have already advanced the price of piece stuff and No. 1 boards, and it is expected that at the annual meeting of the Mississippi Valley Lumbermen's Association on February 18th, the price list committee will decide upon an advance in the price of nearly all grades. The official price list of the Saginaw Lumber Dealer's Association, which took effect on January 20th last, shows an advance on pine stocks generally, the greatest increase being, of course, in the upper grades. White pine lath is now quoted by that association at \$3.75 for No. 1 and \$3.25 for No. 2. The supply is light and no person is endeavoring to force sales. The strength of lath is also shared by shingles. Dealers report that it is simply impossible to get shingles to fill orders. Hemlock lath are firm at \$2.90 for No. 1, and \$2.15 for No. 2, in car lots. A further improvement is reported in the tone of the hardwood market, and it is believed that within a short time there will be a decided change for the better in hardwood prices. The state of New York, in view of an active building season, is buying quite liberally.

Maple flooring has advanced in New York city \$1 a thousand on clear. \$2 on common, and \$1 on factory.

GREAT BRITAIN.

The outlook for shippers of lumber to Great Britain is better than was expected a few weeks ago, although importers are not exhibiting much confidence in the year's operations. It is almost certain that the better grades of pine deals will find a market at remunerative prices. The course of the spruce market, however, is less certain, as it will depend largely upon the extent of imports into Great Britain from the Baltic. If these should prove unexpectedly large and greater than the market can absorb, a slump in spruce prices will likely result. Stocks in London, however, have become considerably reduced during the past two months. The peace proposals that have been made to the British Government are a hopeful sign, and although meeting with refusal, are regarded as indicating that negotiations for a settlement of the South African war will soon be under way.

STOCKS AND PRICES.

The city engineer of St. John, N. B., has been instructed to invite tenders for the supply of 2,500 tons of timber for the building of a wharf.

The cooperage market at the present time is quiet. Buyers are not in the market to any extent. In Chicago pork barrels are offered at from 90 to 95 cents.

Mr. Kennedy, of North Brook, Ont., has taken out 20,000 cubic feet of board timber for Burton Bros., of Barrie. The timber was cut on the Drinkwater limits.

During the year 1901 Buffalo dealers imported from Canada 69,212,106 feet of lumber, 44,803,333 shingles, and 12,071,570 laths. These figures show a large increase over those of 1900, which were 43,562,741 feet of lumber, 23,360,400 shingles, and 3,151,400 laths.

In the Chicago market there are many items of white pine lumber that are exceptionally scarce. No. 1 and No. 2 12-inch boards in any length are difficult to get hold of, and everything over 16-foot in both Norway and white pine piece stuff is exceedingly scarce, also 2 x 12 and 3 x 12.

Hon. C. W. Robinson, Capt. Wright and F. C. Robinson, of Moncton, and C. S. Hickman, of Dorchester, N. B., have purchased the mills and 30,000 acres of timber lands from Gillespie Prescott, of Cumberland county, N. S. The property is situated near Shulee, and the purchase price is about \$100,000.

McLachlin Bros., of Amprior, Ont., recently sold about 8,500,000 feet of 12-inch stock to the Shepard & Morse Company for shipment to South America. The

cash equivalent was in the neighborhood of \$150,000. Hostilities in the southern republics have interfered with the business for months past, but it is now recovering its former activity.

Mr. G. W. Campbell is understood to have entered into an agreement with the Pacific Coast Lumber Company, of New Westminster, B.C., to handle their entire output. This company is now building a mill on Coal Harbor, within the city limits of Vancouver.

The R. Laidlaw Lumber Company, of Toronto and Buffalo, are reported to have purchased the entire output of the Huntsville Lumber Company's mill for the coming season. This company have purchased largely in Ontario within the last two months.

The vessel Wetmore, loaded with lumber, recently became stranded at Tobermory, Bruce county, Ont. The lumber was en route to Buffalo, being the property of Hurd & Hauenstein and Hurd Bros., of that city. It comprised about 2,000,000 feet, of which about four-fifths has been saved and is now offered for sale by the insurance agents.

The red shingle situation in Washington is marked by a steady improvement in prices. Clears are bringing about \$1.85, and stars about \$1.65. Stars are stronger in the market than clears, a reversal of the order prevailing near the close of last season. This is attributed to the fact that the poor market for stars which prevailed at that time caused many mills which had been cutting that grade to turn to clears, with the result that the stock of stars has been reduced.

Of the hardwood situation at Buffalo, N. Y., the American Lumberman says: Dealers find that the demand is improving and the supply is not only small, but is growing smaller right along. While New England is not buying as readily as it might, waiting for more favorable prices, New York State and City are quite in line and will have lumber if they can get it, whether the price is what they want or not, for the outlook is that this state is building as it never did before, taken as a whole, and will keep on building as long as general business may be good. What is going to be done for stock, especially oak, is hard to say. Some dealers, who used to be the standbys in that sort of lumber, say that they are very low in it, while others, who are very inclined to boast of their supply, admit that they are out of this or that, especially certain thick cuts. The demand is more general than it was and calls for all sorts and all cuts, but it will have to be satisfied with what there is. Prices are about as formerly, though some dealers are asking more for oak.

A market report from S. P. Musson, Son & Company, dated January 18th, contains the following reference to the Barbados lumber market: "Arrivals have been heavy, and dealers were so fully stocked that a decline was bound to take place, and if further arrivals occur, we shall probably see even lower prices. The

arrivals have been the "Alexandria," from Weymouth, N. S., with 29,000 feet white pine, and 180,000 feet spruce; the W. F. Gordon, from Liverpool, N. S., with 50,000 feet shipping and 32,000 feet second quality white pine, 21,000 feet shipping spruce, and 41,000 feet hemlock; and the "Pilgrim," from Bridgewater, N. S., with 8,000 feet shipping and 50,000 feet second quality white pine and 45,000 feet shipping spruce. The former cargo was sold at \$23.06 and \$17.51 respectively for white pine and \$20.36 for shipping, \$16.26 for second quality spruce, and \$16.87 for hemlock. The cargo of the latter sold at \$23.06 and \$17.51 respectively for white pine; and \$19.75 for spruce. The "Trader," from Shelburne, arrived on January 12th with 109,000 feet white pine intended for Demarara, but owing to loose sails the vessel could not proceed there and the cargo was sold at \$21 for shipping, and \$16 for second quality. The cargo of the "Bertha Gray" from Tusket Wedge, N. S., brought \$20.60, \$16 and \$20.05 respectively for white pine, \$18.50

New Mill Erected 1901. Capacity 100 Million a Year.

Spicer Shingle Mill Co., Limited

It is not the purpose of this advertisement to try and convince the Lumber Trade of Canada that we are the only company in British Columbia manufacturing and shipping shingles in large quantities, or that we "know it all." We recognize that "there are others" and that we are not the only "pebble on the beach." To try and make you believe that we are the only people who can supply you promptly and in large quantities with a high-grade shingle would not only be a fish and a bear story combined, but it would be gall of the bitterest kind.

Our competitors in the shingle business in B. C. are nice people, and we presume that they know their business; but we are nice people too, and as we have been in the trade as long as any of them, and a great deal longer than the most of them, we know that we know our business, and that our competitors are not in the possession of any points of value regarding the manufacture of shingles which has not come to our knowledge.

Our old mill was burned down in May last, and in its place we have built what is at the present time the Largest Shingle Mill in B. C.

Our new Mill has 7 of the latest improved type of Dunbar machine, which we run night and day—giving us a capacity of about 100 Million a year.

Competent judges who have seen our new mill, tell us that it is one of the most substantial, carefully constructed, and best planned mills in this province. We ourselves think it is the very best shingle mill in B. C., and we know that it is equipped with all the very latest improved Shingle Machinery.

Will the trade please note that our contract with the Pacific Coast Lumber Co. closed on December 31, 1901. D. Ferguson, of London, Ont., is our representative for that province. Orders sent to him, or to us direct, shall have prompt attention.

We want our share of your shingle business, and can guarantee you satisfaction in every particular.

Spicer Shingle Mill Co., Limited,
VANCOUVER, B. C.

OUR SHINGLES

FACTS ARE FACTS WHETHER TOLD ABOUT FISH OR SHINGLES

We make a fine 16-inch Shingle.
We make a fine 18-inch Shingle.
We make a fine 24-inch Shingle.
We make all thicknesses from 6-2 inch to 6-38/8 inch.

They are going out of our different mills at the rate of 200,000,000 a year. We make more shingles than any one firm in the world. Just think of it!

We claim to be experts. That is not gall. That is a statement which is proven constantly by the testimony of our customers from the Pacific Coast to the Atlantic Coast on the Canadian side, and from Maine to Puget Sound.

Mixed Cars our Specialty. Don't forget that we have all kinds of House Finishing Material in Fir and Cedar, and can load any quantity with shingles.

Come, let us deal together.

CUSTOMERS' ATTENTION.—Please take notice that on and after the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles, will be ended, and until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg, Man., for Manitoba and the North-West; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

CORRESPONDENCE INVITED.

THE BOSTON MARKET.

For spruce lumber the week shows an improvement in the demand, though slight. The situation is considered very firm, following the remarkably strong position of southern pine, cypress and other woods, for which spruce can be substituted. The actual scarcity of spruce in most sections is also a very strong feature: Ten and 12 inch dimensions, \$30; 9 inch and under, \$18; 10 and 12 inch random lengths, 10 feet and up, \$19 to \$19.50; 2 x 3, 2 x 4, 2 x 5, 2 x 6, 2 x 7 and 3 x 4, 10 feet and up, \$16 to \$16.50; all other randoms, 9 inch and under, 10 feet and up, \$17 to \$17.50; 5 inch and up merchantable boards, \$15 to \$16; matched boards, \$18 to \$19; out spruce boards, \$13; bundle furring, \$16 to \$17. Hemlock lumber is well sustained: Boards, 12, 14 and 16 feet, \$14 to \$14.50 for good eastern; Pennsylvania, No. 1, \$16 to \$17; random, \$13 to \$13.50; No. 2, \$14.50.

The scarcity and firmness in white pine is a feature of the present lumber market, with little chance of prices being any easier: Uppers, 1 inch, \$72 to \$73; 2 1/2 and 3 inch, \$77.50; 4 inch, \$82.50;

selects, 1 to 1 1/2 inch, \$66 to \$67; 2 inch, \$68 to \$70; 2 1/2 to 3 inch, \$73 to \$75; 4-inch, \$75 to \$80; fine common, 1-inch, \$55; 1 1/4 to 1 1/2 inch, \$60; 2 inch, \$55; 2 1/2 and 3 inch, \$65 to \$67; 4 inch, \$70; barn boards, \$23 to \$32; coffin boards, \$27 to \$32.

Hardwoods are very firm on some varieties, with quotations unchanged: One inch whitewood, \$38 to \$40; thicker, \$39 to \$42; 2 inch, \$30 to \$35; saps, 1 inch, \$45 to \$50; common, \$23 to \$25; quartered oak, \$56 to \$65; fancy, \$70 to \$75; plain oak, \$40 to \$47; black-ash, \$40 to \$50; white ash, \$45 to \$55; cherry, \$90 to \$130; maple, \$32 to \$40.

Shingles are very firm with fancy prices quoted for immediate delivery. Extra cedar, \$3.25 to \$3.30; clear, \$2.85 to \$2.95; second clear, \$2.35 to \$2.40; sap, \$2.10 to \$2.20; extra No. 1, \$1.75 to \$1.80; British Columbia, 16-inch, five butts to 2 inches, \$3.45 to \$3.50.

Clapboards are still very firm, with the market largely nominal. Extra spruce, \$35 to \$36; clear, \$33 to \$34; second clear, \$29 to \$32; extra No. 1, \$20 to \$23; pine extra, \$50 to \$52; clear, \$45 to \$48; second clear, \$40 to \$42.
