Austrian Army Must Be Withdrawn to a Winter Camp Because of Defeats and Shortage of Food.

LONDON, Nov. 15.—Finding the pressure exerted by the allies more than the Germans could withstand, the kaiser's troops blew up today all the culverts on the Leopold and Schipdonck canals in Belgium, flooding a large area and temporarily halting the advance of the Franco-British soldiers. The allies have assumed the offensive in that section with fresh attacks.

Despatches from Paris relate that the Germans were forced to retreat east of Arras because the allies succeeded in driving a wedge into the kaiser's battle line. A large detachment of Germans were isolated by the manoeuvre. It is further reported that the Franco-British forces captured positions on a plateau, where they mounted heavy artillery, and dominate the roads leading toward the north.

Latest advices from the French capital add that the attacks made by the Germans were repulsed at every point of conflict from the North Sea to the Vosges Mountains.

ANOTHER LARGE ARMY

Couriers from the battlefields near Verdun reported that another large German army is being concentrated north of that place for a supposed attack on the Verdun fortifications.

A large French field army is guarding the fortress, and it is said all onslaughts of the Germans in that region have been defeated.

Despite the clamor for official confirmation or denial of the reported sinking of the British super-dreadnought Audacious off the Irish coast, the British admiralty still declines to make a statement on the subject. It is unofficially reported, however, that an investigation will be ordered to determine whether the battleship was sunk by a torpedo, by a mine, or by an interior explosion.

PLISSIANS STILL GO ON

RUSSIANS STILL GO ON.

According to despatches from Petrograd, the Russians are continuing their offensive movement in West Prussia. Danzig, a seaport and railroad terminus of the greatest military importance, appears to be the objective of the czar's army. The place is defended by a large garrison, and has a population of about 150,000. It is said the German general staff is organizing a new offensive campaign against the Russians, with Thorn, in East Prussia, as the base of operations. It is believed that this movement is intended as an offset to the siege of Cracow by the Russians, who will soon make an investment of that powerful fortress. The Austrians are reported as continuing their precipitate retreat from Cracow under their own staff arrangements. The Austrians are exerting all possible strength to save the place from capture, despite the fact that the Germans attach more importance to the defensive of the roads to Breslau than to Cracow.

SOME GROUND GAINED.

The Franco-British armies, as a result of their offensive thruout France and Belgium, gained ground today at several points of strategic importance, especially in the region east of Arras, where the enemy had to give way on a wide front, a wedge being driven by the allies between two detachments of the kaiser's army. man troops after a fierce charge retreated, carrying all their wounded, except one man. A British officer who went out to bring in the wounded soldier was himself wounded, but managed to drag the German to shelter, where later both were picked up by a German ambulance. As a reward for his bravery and humanity, the officer was decorated with the iron cross by the German commanding officer. The Briton was sent back to his own trenches, where he was recommended for the Victoria Cross, but he soon died of his wounds.

NO CIVILIANS AT ZEEBRUGGE. A correspondent in Amsterdam telegraphs as follows: "No civilians are permitted to visit Zeebrugge, presumably because work is being hurried there on more submarines.

"New troops have been arriving at Ostend from Bruges. Troops are continually passing Ostend on their way to and from Roulers. Bad weather has made the battlefield a vast swamp, and the trenches are filled with water and mud. Weather conditions are impeding transportation and causing a shortage of food supplies."

HEAVY LOSSES INFLICTED.

The British array occupying Yorse is reported to have inflicted

The British army occupying Ypres is reported to have inflicted exceedingly heavy losses on the kaiser's troops. The Englishmen maintain their position intact. Bayonet combats near Arras and along the River Oise ended in victory for the French, who drove the Germans from their trenches at several vitally important points. Artillery duels from the River Aisne to the frontier of Lorraine were without decisive

TRYING FOR WEAK POINT.

TRYING FOR WEAK POINT.

The fact that the Germans have attempted advances at widely-separated points indicates, in the opinion of military observers, that the German general staff is seeking to discover a weak point in the Franco-British lines, with the object of preparing a new concentrated aggressive campaign against the allies in France. The revival of general activity on the French battlefield included a resumption of the fighting at Lasigny. For the last six weeks the kaiser's men have attempted to break thru the French defence at that place, and each attempt has failed.

The opinion prevails here that the German campaign in western Belgium has passed its high-water mark, and that both the allies and the Germans will seek other ground on which to bring the long-drawnout battle to a decisive issue. The slackening of the German attacks has given the allies a welcome rest. The trenches are filled with water or mud, the weather is cold and damp, and fogs conceal the enemy's movements. The forces which have successfully borne the brunt of the German works have been reinforced, particularly near Dixmude. It is believed the Germans will not be able to longer withstand the assaults of the French and British troops, and that the Germans will be driven from the town.

be driven from the town.

LANDSTURM IN ACTION. According to despatches from Amsterdam, German troop movements in the last day or two in Belgium were unusually active, but it is not known whether they were reinforcements to strengthen the battle line or reserves being brought up to replace the exhausted men on the firing line. Landwehr regiments have been moved from Ostend to Blankenberghe. New troops have entered Bruges, and German soldiers are constantly moving toward and from Roulers. Landsturm soldiers in the German forces in Belgium are reported as being disgusted with the failure of the Germans to advance to the coast. It is said many have been imprisoned thru their unwillingness to go to the front, and that some of them have attempted to desert at Dixmude after having

seized civilian passports.

The despatches add that the British aviators continue to do excellent work by destroying the enemy's petrol depots. On two occasions the airmen wrought great havoc by dropping bombs on the petrol tanks in Bruges and setting them afire. Each tank destroyed caused the Germans further difficulties, because they are known to be short of petrol for their automobiles and air craft.

NIEUPORT TAKEN BY GERMANS. Nieuport fell into the hands of the Germans at 3 o'clock Thursday afternoon, according to a report brought by a wireless operator, who was the last Belgian to leave that town. The informant says that after three separate bombardments only three buildings were left standing. In their efforts to retake the town the French battered the

Germans mercilessly with heavy artillery. The allies cannot advance north of Nieuport, for the reason that for miles around the mouth of the Yser River the country is a vast swamp. It was impossible to reach Pervyse, owing to the overpower-ing stench from the bodies of the slain, which have remained unburied for many days where they fell. There are too few men available for the work of burying the Belgian and German dead, and the corpses are now being burned in large fires made for the purpose-impromptu

Fighting of the most sanguinary nature is going on almost continually along the line. Nieuport, Dixmude, Merickmen, Ypres are all scenes of fierce encounters. The Germans now hold both Nieuport and Dixmude, but at the cost of ceaseless vigilance and a lengthening roll of killed and wounded.

AUSTRIANS BOMBED ANTIVARI. Two Austrian aeroplanes yesterday dropped five bombs on Antivari, according to a Cettinje despatch to Reuter's Telegram Company. One exploded in front of the residence of the crown prince. breaking the windows.

The Austrians, adds the despatch, attacked the Montenegrin army operating in Herzegovina, but were repulsed with considerable loss.

GERMANS PREPARE DEFENCES.

A high Swiss officer, who recently returned from Berlin, is authority for the statement that the German general staff has prepared three powerful defence lines from the North Sea to the Rhine, to be used in case the Germans have to retreat from France and Belgium. He says the first line of defence extends from Antwerp southward to Namur and Sedan. The second will embrace the frontier from Maastricht, Luxemburg and Metz. The third is to be on the Rhine itself, extending from Basle to Cologne, and even further.

Deepest Sympathy With British Nation and Army Conveyed in Official Messages-Canadians Proud to Remember Lord Roberts as Colonel of R.C.A.

By Staff Reporter OTTAWA, Nov. 15.-The Duke of Connaught cabled the following message to Premier Asquith: "In my own name, and that of the Canadian Government, I desire to express our deepest sympathy with the British nation and army at the loss they have sustained by the death of the distinguished field marshal, Lord Roberts, whom we are proud to remember as the colonel of the Royal Canadian Artillery."

The prime minister, Sir Robert Borden, sent the following message from New York: "I have received with the deepest regret tho tidings of the death of Lord Roberts, in whom died a great soldier and patriot. His commanding ability, his untiring earnestness, his intense patriotism, and his many great qualities of heart and intellect, made him a distinguished and even a unique figure among those who wrought most and best for the empire which he loved and served so well. He died as he had lived, at the post of duty. His memory will be honored and his death mourned thruout the empire, and nowhere more sincerely than in Canada."

Sir George Foster, acting prime minister, sent the following message to Miss Roberts: "Please accept the most heartfelt sympathy of the government and the people of Canada in your great personal bereavement. Lord Roberts' distinguished career and his long and arduous services to the empire have been nowhere followed with greater interest than in Canada, where he has long typified the best qualities of a great and kindly-hearted soldier."

Parish Hopes to Reduch Church Debt - Bishop Reeve's

Celebration of the Pardonal Festival was begun on Sunday at the Church of St. Mary Magdalene, when appropriate sermons were preached morning and evening by Bishop Reeve, the Assistant Bishop of Toronto, and Professor Boyle of Trinity College. It was the occasion of the 25th anniversary of the church, and altho the Festival of Mary Magdalene occurs in July, it has been the custom to hold the anniversary during the second and July, it has been the custom to hold the anniversary during the second and third Sundays in November. The occasion is made an opportunity to decrease the debt on the church, which has been decreased \$7,500 in six years. This year, the pastor, Rev. Charles B. Darling, hopes that at least \$1,000 will be subscribed towards the church fund to reduce the present debt of \$17,000.

An evensong service will be held on Wednesday evening, when Rev. R. W. Norwood of Memorial Church, London, will preach. The festival will be concluded next Sunday when Rev. F. H. Bredwin, rector of St. Paul's Church, will preach. Bishop Reeve's text at the morning service was: "We are a living temple." He dwelt on the body as the temple of the soul, and referred in high terms to the spirit of endeavor of the parish in reducing the church debt.

Hymns Were Martial in Tone -A Tribute to Late Lord Roberts.

In awe and reverence more than 1700 soldiers, who have sworn to endanger their lives for the empire, stood bareheaded and worshipped God at the divine service in the huge transportation building at Exhibition Park yesterday Music for this inspiring drumhead service was furnished by the military band of the 10th Royal Grenadiers. Rev. A. L. Geggle read the lessons,

Rev. A. L. Geggle read the lessons, and Rev. G. Russell Maclean delivered the sermon.

"As for me and my house, we will serve the Lord," was the text and the preacher urged that behind all great movements, great men, and great achievements religion stood as a basis. As a passing tribute to the memory of Lord Roberts, he said: "That great soldier, who has done so much for the empire and who was known to so many of you, who served under his command, presented a wonderful testimony of the great power of religion; especially so in his latter days when he held his religion before him as the great ideal."

Bach man had his place in the army to fill, eaid the preacher, and each should try to serve the other. Without religion there was no hope in life.

THE WAR By WINIFRED BLACK

THE man who knows a good many things was talking to us about the war last night.

Not about who was right and who was wrong and who began it and who ought to end it.

Now about what corps was taken and what battalion was victorious, but about the war itself, and what it all really means and is going to mean to the whole world.

"I'm a doctor," said the man who knows things. "I've been one for 40 years. I was an army surgeon for a while, too, and I've seen the ups and downs of things pretty well.

"It took me a long time to understand. You can't think very hard when your heart beats fast, and a man never really gets to reasoning about world affairs until he is practically thru with his own.

whole lot, but somehow it doesn't.

"And just about once in so often we all go crazy and then something has to happen to bring us to our senses.

"We get religious manias, and dancing manias, and art manias, and music manias, and eretic manias, and mysychic manias, and we go stark, staring mad, the whole pack of us, from one end of the world we call civilized to the other.

"And old Mother Nature site and

to the other.

"And old Mother Nature sits and knits and rocks and hums to herself an old nursery tune and smiles to see us make fools of ourselves.

"And then, all at once, when we sheut too loud or act entirely too outrageous, she rises up, grabs one or two of the worst of us, and boxes our ears, turns another one or two over her lap and gives them a good spanking, shakes a half dozen or so of us and says:

I've observed, however, that it isn't altogether due to my innate speed that I get thru so quickly, but because of the tools, which are just right for every kind of cleaning needed, and also because of the scientifically correct furnishing of my room. None of the furniture has carving or funny claws that always do look musty. Everything has straight simple lines with not an unnecessary crevice for a dust particle to make his permanent home. And yet my room is attractive and artistic, but it has taken house cleaning to prove to me that simple lines are best.

was the ring I had pawned at the old Armenian's—the ring which Dad and mother had given me on my 21st birthday, and which I had confidently never expected to see again. The big diamond sparkled brilliantly in the rose-glow of the candles.

"You—you are very good," I said abruptly, and looked away.

Dad saw my emotion, and instantly began a rambling story of how he had come to get it. On the first floor landing she has a shallow closet on which brooms, sweepers and handled mops are hung by eyescrews diagonally screwed in their handles. There, too, are hung the dustless dusters, hand mop and polishing cloths.

So, first thing in the morning as I arise, the bedclothes are aired. I simply remove blankets, sheets, etc., from the bed and hang them over the chair and my bedroom screen, which is then placed near the window. Once a week the blankets and mattress are taken out doors for more thoro airing, and out. I had it that night when Mary was talking wildly to you about the money that had been stolen, and I asked you what money. Remember you were forced to say it was the money you'd got from pawning your ring. Why, son, I knew it before you spoke. Indeed, I knew it the very night the old Armenian gave you the

"What's this?" I inquired, smiling, for there was somehow so much good cheer about this dinner that you simply had to be gay—"a present?"

I opened the package and gulped. It was the ring I had pawned at the old Armenian's—the ring which Dad and mother had given me on my 21st birthday, and which I had confidently never expected to see again. The big diamond sparkled brilliantly in the rose-glow of the candles.

The old tactics, the old strategy, the old morale, almost everything but the old spirit, was swept away in the reorganization Lord Roberts was the dominant genius who presided over this transformation, and made it possible still for the British soldier to remember the magnificent Mosaic hyperbole and not feel that it was over-strained-"five of you shall chase a hundred, and an hundred of you shall put ten thousand

He was on the the German submarine sailors for their Lord's side, and he hated to see the daring. The exploit of entering Deal Lord's enemies increasing around and no steps take to repel them. He was not too late in South Africa, but he feared that it might be too late else. Germans may be able to go in subwhere. Early and tate he preached the marine practice, and they would like doctrine of having the "feet shod with the preparation of the gospel of peace." Preparation is the first word of war, and the first step to peace.

Lord Roberts was a Bible soldier, and his intimate message to the men going to the front has been read by millions in the past weeks. Those who have had the pleasure of reading his "Fortyone Years in India" are familiar with and which bore him thru the trials of a career that had overpassed the burden of four-score years. Greatest trial of all was the loss of his only son, his heir, killed on the Tugela, where he sought to save the guns, and won the Victoria Cross in death.

The great captains are all gathered together at last, and so "Bobs" marches away to join the horsemen and the chariots of the hidden vision gathered upon the hills around the last great battle in the west. We may be sure his last thought was of victory.

Pawn Takes Rook; White to Move In the loss of the Audacious the British navy has sustained a considerable loss, but not a vital one. In fact, the loss is not so great as has been generally described, the vessel not being a super-dreadnought, but a second-class dreadnought. Ontario has to face is a falling off in revenue in certain channels. In the lands, forests and mines department the decrease already amounts to half a million or more. A great part of this was due to the slackening in the lumber trade, The falling off in the number of settlers in Northern Ontario also affected the returns of the T. and N. O. Thus the deficiency of bread stuffs is certainly less than 10 per cent. Of the total consumption. Moreover, the export surplus of Roumania alone are open to Germany thru Austria—is more than enough to supply the deficiency. I conclude, therefore, that bread will not be seriously lacking, at least so long as the enemy is held back from the frontiers, and Roumania prethere will be an appreciable diminution of the receipts from this source. Other stringencies will make the task of budgeting a difficult one for Hon. It will be a mark of Mr. Lucas' ability if he can lengthen the cloth instead of shortening the

Submarines have played quite as important a part in the naval war as average opinion has expected of them. Some critics pooh-poohed them altogether, and others believed that the battleships would have to be sent to the marine stores. With the assistarce of mines they have enabled the German fleet to remain safely ensconced in the Kiel harbor without fear of British raids, which, but for the submarine threat, would certainly have been carried out. Credit must be given harbor showed as much nerve as any admiralty could desire. Naturally the British public wonder how far the to see a bit of retaliation. That will come in good time.

Many of the directors have been well known local men of integrity, prominent in commercial affairs of importance, and to the credit of the bank stands the fact that it was the first to establish a branch office in this city. Sir Edmund B. Osler, M. P., president, his fellow directors, and the officials, may well feel proud of the high position it has gained in the minds of the people of

A HOUSEHOLD MOTTO.

No longer do we gasp with admiration at the woman who tells us that the things she had in her house came from more than half the civilized countries in the world. It's all very well for the hunter to point to the heads on the walls of his den and tell you that he shot them in nine provinces, or on three continents, in lands of almost eternal snow and lands of ropical heat, on mountain, moor and plain over a whole atlas of maps. It's ery interesting to listen to the aged athlete tell you from how many sporting associations and under how many flags he gathered his great mugs and shields and illuminated addresses. But the man or woman who strikes a thrill into us nowadays is the man or voman who can take us over the house and demonstrate that from gar-ret to cellar, from front verandah to even out into the woodshed, the things which make that house a home were made in Canada, the land of hom and under one flag, the Union Jack. There should be in every home a "Made-in-Canada" society whose business it is to increase the number of hings in that home made in Canada, Some may call it patriotism. It isn't. it's only common sense and the best kind of selfishness

Editor World: While coming from Massey Hall on Saturday night I saw policeman No. 130 abusing several small newsboys who were endeavoring to sell their Sunday Worlds. The boys, no doubt, were to blame to a certain extent, as they were so anxious to sell the papers that some of them got right inside the doors of the hall. This policeman took some of the boys by the ears and pulled them from the steps. Then he walked to the lane west of the hall where the boys were Then he walked to the lane not bothering anyone took one of the the steps at the back kitchen door, and threw him to the pavement. I don't know whether the sergeant, to whom the citizen complained, took any action, but the officer, in my opinion, certainly had no need to be so rough with the small boys. Fair Play.

LOCATE LEAK IN HYDRO

Some Aldermen Oppose Recommendation That City Share Bond Sale Loss.

There is nothing of overwhelming importance for the city council to decide at tonight's session, and unless somebody brings up something unexpected the session should not last later than midnight.

The creation of the office of fire commissioner is about the most important matter before council, but there is not likely to be a very lengthy debate on the question unless names of possible commissioners are introduced. It was rumored some time ago that ex-Ald. Robert Yeomans had four votes for the position in the board of control, but this has never been confirmed. If his name is introduced there will be hot opposition from a number of aldermen on the ground that the ex-alderman knows nothing of the duties of a position of this character.

The board of control have recommended that the city bear half the loss of \$445,000 on the sale of hydro bonds in New York A few of the aldermen believe somebody is responsible for the loss and that the matter should not be passed over by the city and hydro sharing the loss.

Fair Wage Officer.

Altho the name of E. Webb has been before council before for the position of fair wage officer, the board of control again sent it on for consideration. City Solicitor Johnston really has the filling of the position, and it will be interesting to watch developments if council do not concur in his nomination.

of Ald. Wanless, which council may take up, and also Controller Simpson's campaign to secure a five-cent cash fare for night workers.

While not of great importance to the city at large, the question whether the city will itself operate the Bloor street car line or whether the Toronto Street Railway should be permitted to operate at 20c per car mile, is about the biggest thing in sight for residents of West Toronto. The board of control turned down the works committee's recommendation that the railway company operate at 20c per car mile on

YES, POLLMAN EVANS MAY COME BACK IN JANUARY

And Dr. Millichamp May Be Healthy and the Case May Go On.

Chief Justice Falconbridge on Saturday allowed the Union Life case to be traversed until the January assizes, which commence on the twelfth of that month. Crown Attorney DuVernet for the fourth time this case has been practically taken out of his hands. The defence claimed that they were not ready, and it is hoped that Dr. Millichamp will be ready to stand trial in January. He is reported sick at present. Harry Symons, K.C., and Dr. well written, that there to hundreds of dollars worth of T. R. Hughes were ready with their counsel. Eric Armour, K.C., but the crown attorney suggested that owing to the delay in making up the case it could hardly be disposed of at this

sitting of the assizes. Pollman Evans is still non-existent to write R. J. Fleming, as far as his appearance in the local courts is concerned, but he may come

that the dampness caused lung weak ness to develop. Pneumonia set in and Lord Roberts was rushed back to Boulogne to receive the benefit of experts in lung trouble. When he reached that city he is said to have remarked: "I don't expect to recover, but I am glad to die near so many of my old comrades."

His pain was relieved by medical

attendants, and he sank into a tran-quil sleep, from which he did not awaken.

When the news of "Bobs" death reached the trenches many veterans sobbed aloud.

The French nation regards Lerd Roberts end as the most inspiring historic incident of this war.

SIR JOHN FRENCH'S REGRETS.

LONDON, Nov. 15.—A telegram from Field Marshal Sir John French. commander of the British expeditionary forces on the continent, apprised Earl Kitchener, secretary of state for war of the death of England's great soldier. The telegram read:

Donovan, aged 40 years.

Lord Roberts' devotion to the interests of the army, his hard work in this connection, and his seeming good health had been the subject of comment since the beginning of the war. He was the most popular military figure in Great Britain, and national hero without rival in the affections of the neonle. people.

Funeral from his late residence, 8
St. Joseph street, Toronto. Funeral notice later.

Despite his years he had never ceased and retirement, and, as he had often remarked, he lived a rigidly abstemious life, that he might preserve his strength for the service of his country.

Urged Cempulsory Service.

During the past five or six years, when the German war cloud had been growing, he prosecuted an active campaign to persuade the nation to adopt a compulsory military service. His be-

lief was that Great Britain required the training of the whole male population in arms rather upon the plan of Switzerland than the longer terms of conscriptions enforced in the case of continental military nations.

By speeches in parliament and addresses before meetings thruout the kingdom, by magazine writings and letters he preached unceasingly and untiringly the necessity for the nation to have its men trained in the rudiments at least of the soldier's work so that they could be called quickly to arms to defend the country against invasion.

Saw German Menace.

In private conversation he expresed the conviction that Germany was planning to make war on Great Britain when she found an advantageous moment and he heliaved that the

when she found an advantageous moment, and he believed that the sup-posed menace of civil war in Ireland was a factor in setting alight the present European conflagration.

Lord Roberts commanded none of

the arts of the orator and usually read his speeches. His popular nickname "Bobs" implied no lack of personal dignity. Altho only 5 feet 3—a shade shorter than Field Marshal French his figure and bearing were the em-bodiment of soldierly character. His home at Ascot was a modest this home at Ascot was a modest unpretentious villa. For society he had neither time nor inclination, but he was the president of the Pilgrims' Club, and presided over many gatherworked Hard for Soldiers.

Field Marshal Roberts worked day and night for the welfare of the soldiers from the outbreak of the war. He took the greatest interest in the Indians and issued an appeal for funds for their wounded and sick. He also made requests for sportsmen to con-tribute saddles for the army, which brought ready response. He made other requests for the loan of field glasses to officers during the war. He wrote personal letters of thanks to all contributors.

One of his last speeches was made at a review of a battalion of volun-teers, when he referred sarcastically to young men who played football and cricket at this crisis.

King and Queen Shocked.

King George and Queen Mary were greatly shocked by the news that Field Marshal Earl Roberts had succumbed last night to a swift attack of pneulast night to a swift attack of pneu-monia in France, whither he had jour-neyed to see once more the Indian troops of whom he was so proud. Immediately upon receipt of the in-telligence, Their Majesties sent mes-sages of condolence to Lady Roberts and her two daughters, Lady Aileen Many and Lady Ada Edwins Stewart Mary and Lady Ada Edwina Stewart.
The question of a public funeral for Britain's great soldier, with services at St. Paul's, in under consideration, but it is understood that in deference to the wishes of Lady Roberts for a private service this will not be pressed.

AGAINST PROFESSIONAL FOOTBALL IN ENGLAND

LONDON, Nov. 15.—Followers of professional football in England are greatly agitated over a statement issued tonight by Under-Secretary of War H. J. Tennant, relative to the attitude of the military authorities toward this sport.

Asked whether football should be played in time of, war, said the statement, Under-Secretary Tennant replied that the military authorities have no objection to the game as an occasional recreation, but professional football is not within that category, and it is more desirable that professional football players should find employment in His Majesty's forces."

The secretary of the football associa-tion declares that the stopping of the game would mean a loss of \$10,000,000

VARSITY'S SUBS DOWNED HAMILTON

Won Uphill Loose Exhibition Game Before Small Crowd at Stadium.

Varsity subs brought home the honors on Saturday before a small crowd at the Stadium when they defeated the Hamilton Rowing Club in a mediocre game of rugby by the score of 19 to 13. The fixture was only an exhibition, which the public believed would be to keep the Blue and White in shape, but the regulars were as scarce as snowballs in July. With but thiree exceptions Varsity lined up their subs and members of the second team to give battle to the visitors. Hamilton also were minus several of their stars, and they did not get the work that they in reality came down for. With the decisive game next Saturday in which the college team must battle it did not look sight to see the subs sticking out the whole game. Real games are the only genuine tests of condition.

The last half of the game was a lively struggle with both teams trying hard in spots. There was no sign of concerted play, but individual work helped to stem the tide for both aggregations. Punting duels between Saunders and McNellly were the feature and the Hamilton boy had a shade on Saunders, who, however, was far cleverer at running back punts. Carr and Milne worked nicely, while Doyle pulled the play out of several tight corners. There was a little too much fumbling, however, to call their work clean. Lindsay on the line bucked well and hammered his way thru on several occasions. Crawford, Stratton and Monty Clarkson were in the limelight on end runs and tackling.

Ross Craig was back in the struggle again, and the big fellow broke loose at times, but he lacked condition, in fact, the whole Hamilton aggregation displayed signs of being off form, which it will take a full week for them to remedy with good hard work. Every time a man was pulled down hard he raised the flag for the ambulance men. It looked bad for a team that has been training practically for three months. Stowe did some nice running and he had the Varsity tacklers side-stepping him on more than one occasion. Red Harper got into the game near the end and soon made his presence felt wi

cials.

Hamilton led at the outset, 11 to 6 at quarter time and then stopped, half time 12-12, three-quarters 18-12, and the finish 19-13. Teams:
Varsity (19): Right half, Carr; centre half, Saunders; left half. Mine; right middle, MacLaren; left middle, Hughes; right inside, McMullen; left inside, MacKenzie; right outside, R. Sinclair; left outside, Clarkson; flying wing, Lindsay; quarter, Crawford; left scrimmage, Nicholson; centre scrimmage, Campbell; right scrimmage, O'Reilly.

H.R.C. (13): Right half, McKelvey; centre half, McNeilly; left half, Stowe; right middle, Wren; left middle, Caffery; right inside, Gibson; left inside, Ross Craig; right outside, Gatenby; left outside, Fisher; flying wing, Fickley; quarter, Finlayson; left scrimmage, Gerard; centre scrimmage, Oheir; right scrimmage, Flannery.

Officials—Dr. Hendry and F. B. Robins.

The Limit Man Wins West End Handicap

The annual run for the West End Y. senior members was held Saturday afternoon under ideal conditions. The course noon under ideal conditions. The course was from the building up Dovercourt road to Bloor, along Bloor to Dundas, thence to College and the building. The handicapper, C. Whyte, had a time giving the runners their proper time. It can be said of him that he did very well, all of the men finishing fairly close. R. Yake, a new member, won the race. He looks good, finishing strong. O. Johnson will hold the Kenney Cup for one year, doing the distance in 18.15. The following is the summary:

rather than a Rugby ground, and before about 5000 people, the largest local attendance of the season, McGill yesterday carned the right to play off with Varsity for the Intercollegiate championship, thru defeating Queens by the one-sided score of 31 to 8. Never at any stage was there any doubt as to which was the better team. Queens made a gallant effort, but were never able to get within challenging distance of the winners, who forced the pace thruout.

The lee-covered surface made it dangerous for the players and added to the difficulty of handling the ball, which was water-soaked shortly after the commencement of the play. There was more aggressiveness shown by the players of both teams than in their previous meeting, which brought about penalties for Ross, Laing and Reid of McGill and Quigley of Queens.

There was only one change in the line up of the McGill team, that being Greenwood in the scrimmage. This brought about a general switching of the players from their positions of a week ago, Quilty being moved back to flying wing, and Seath, on one of the ends, made the team stronger, not only on the defensive, but on the offensive. The line-up:

McGill (31)—Flying wing, Quilty: half-backs, Palsley, Laing, Jeffries; quarterback, Montgomery; scrimmage, Greenwood, McColl, Brown: inside, Ross, Reidi middle, Demuth, Williamson; outside, Seath, Ross.

Queens (8)—Flying wing, McQuay, half-backs, Hill, Hazlett, Rowlands; quarter, Quigley; scrimmage, Kennedy, Cook, White; Inside, Pilgrim, Ellis; mid-Seath, Ross.

Queens (8)—Flying wing, McQuay;

Banks and the War.

Owing to the great interest shown by
the citizens of ward seven at the recent
aneeting held for the discussion of the
financial conditions since the outbreak of
the war, the netx meeting of the Ratepayers' Association will be given up to
the subject of "Banks." A resolution
passed at the close of an address by W.

previous meeting placed the association
on record as favoring a national bank
handling a national currency, and the
next meeting will no doubt be an diteresting one.

MOUNT DENNIS

The newly formed Mount Dennis Company of the Toronto Home Guard Sharpshooters' Association held its first drill on Saturday on the grounds of the public school on Dennis avenue, in command of its captain, the Rev. Gore M. Barrow.

The congregation of the Anglican Church of the Good Shepherd held services yesterday in the Maple Leaf Theatre, on the Weston road, the fail of a newly completed arch during the wind storm of Friday morning having put the church basement out of commission. The Rev. Gore M. Barrow, nowever, contradicts the report that any serious damage resulted from the storm. The walls yet stand, the pulpit is intact, and the clearity away of the debris of the arch will again render the vasement fit for service. The uncompleted nature of the building rendered it susceptible to damage from an exceptional wind, but the structure will be roofed at as early a date as possible.

W U. S. BANKING SYSTEM **BEGINS OPERATION TODAY**

easury Becomes Partner in General Banking System of the Country - Inauguration Will Be So Quiet as to Cause No Outward Sign.

NEW YORK, Nov. 14.—Without creating a ripple on the surface of the comparcial and financial world, the new ederal reserve system of banking and urency will quietly be inaugurated Monay morning. Its beginning will be so ithout display or financial upheaval that a average citizen will not be aware that new foundation has been put under the contry's financial house and the architecture of the whole structure considerabaltated.

of the whole structure considerated.

In order in the merning the doors opened of the Federal Reserve of New York at No. 62 Cedar street, it is stone building formerly occupied by private banking firm of Harvey and Son. This new bank is but one relve similar institutions forming an flocking chain thruout the United less, which will open at the same hour. The principal difference between the new system and the old is this: In the principal difference between the new system and the old is this: In the principal difference between the new system and the old is this: In the principal difference between the new system and the old is this: In the principal difference between the new system and the old is this: In the past the United States treasury with its vast holdings of cash and unlimited credit has been separate and apart from the financial business of the people.

Board Supervises.

vising all these institutions is the reserve board in Washington, set of the secretary of the treasury, mptroller of the currency and five ited members. Each of the twelve ited members. Each of directors all banks has a board of directors.

BIG BANK MERGER regional banks has a board of directors of nine members, of whom three are bankers, three are business men and three are selected by the government.

The new system provides banks for bankers, not for the public. There will be no individual personal deposits, no direct leans, no cashing of cheques, none of the ordinary daily business which the average citizen is accustomed to do with his particular bank. All the customers of these new federal reserve banks will be existing banks. The stockholders are all banks. The only depositors will be the federal government and the banks. The sole customers will be organized banks.

Technically, the Federal Reserve Act creates a bank of discount and issue. National banks loaning money to existement of good credit can indorse the notes, use them discounted and get money on tham.

table amount.

All the national banks are arranging to make their required contributions on Monday. They have already paid in a part of the capital stock assessment. The reserve fund will be transferred by the sakes the first day and by country banks the second and third days. Practically no money will be drawn out for a week or more because the federal boards of directors are going to be very careful in scrutinizing commercial paper

Standard Exchange Meeting

A meeting of the Standard Stock Exchange directors will be held this morning. The main subject of discussion, it is understood, will be that of minimum prices. It has been suggested that these be done away with owing to the increased interest being manifested in mining issues.

The Metropolitan Bank this morning opens for business as part and parcel of the Bank of Nova Scotia, thus concluding one of the large bank mergers of recent years, and one which is of more than usual local interest.

In November, 1897, the Bank of Nova Scotia country that the large field were the state of the large field with the large field was the state of the large field with the large field was the large field was the large field with the large field was va Scotia entered the Ontario field by opening a branch in the Canada Life building here. To record the steady addition of branch after branch in Ontario and the west, made by this maritario and the west, made by this maritime institution, would be a prosalc story of uninterrupted banking success. DOMINION TRUST NOT REGISTERED

Steps Taken to Prevent Pro-bation of Late Manager's Will.

HOLDERS ARE ANXIOUS

Alvensleben Interest Estimated High-Others Heavily Involved.

Ever since the announcement was made that the Dominion Trust Company in Vancouver had closed its doors, there has been a great deal of discussion. Developments of a dramatic nature have followed the smash. The widespread interest in the event is due to the fact that the shareholders are scattered not only in almost every province in Canada, but also thruout the United States and England and other countries.

According to the Financial Post, the Dominion Trust was not registered as a trust company, altho it was generally understood to be one and advertised as such.

The late W. R. Arnold, managing director, was insured for a sum approximating \$400,000. This is payable to his estate and the Dominion Trust is named as the administrator. Steps have been taken however, to prevent the Dominion Trust from probating the will.

Shareholders Anxieus.

At the meeting held November 2 which was presided over by President W. H. P. Clubb, several of the shareholders showed anxiety in regard to the alleged defaications. It was first stated that the late Mr. Arnold was indebeted to the company in a sum of \$114,000 but later after further questioning it was admitted that the real sum was much larger. It is safe that the sum of \$243,000 of the company's funds had been misapplied, but later after further opens for business as part and parcel it was not stated in what manner of the Bank of Nova Scotia, thus contributed in what manner or by whom.

According also to the report, a large number of investments were made on the instructions of the late managing the instructions of the late managing director without the knowledge of the directors or advisory board. In commenting on this, The Monetary Times says: "The subtle suggestion that the late Mr. Arnold is likely to be shouldered with the responsibility does not look good. Too often have dead men been made the scapegoats of financial breakdowns. Let us have a thoro investigation. In the meantime other concerns with whom rumor is busy should examine themselves with the hope that it is not too late."

MONTREAL GRAIN AND PRODUCE. MONTREAL GRAIN AND PRODUCE.

MONTREAL, Nov. 15.—There was no improvement in the demand for Manitoba spring wheat from foreign buyers today, and what few bids were received were unchanged to 3d lower. The tone of the local market for coarse grains is steady. The demand for oats in carlots was better today and a moderate amount of business was done. The demand is principally for Ontario and Quebec grades, owing to prices for such being much lower than Canadian western grades. The tone of the market for flour is firm, but business on the whole is rather quiet. Demand for millfeed is good, and the market is active, with a very firm undertone.

There is an easy feeling in the butter market. Cheese is firm under a continued good demand and small offerings. Export demand for eggs continues good, and the market is active.

In the Chinese Bazaar

It has often puzzled us Occidentals to know just why the Chinese bound up the feet of their women to the extent of making them cripples. Possibly it was to stop their shopping propensities! In any case, the women of Toronto will be very glad they are not hobbled, when they read of the special attractions that await them tomorrow in this Bazaar.
