DERMIDAN KICKED AT PURCHASE OF NEW PARK

Poured Hot Shot Into Parks Board "Easy To Unload Junk on City," Said One.

HAMILTON, May 29.—(Special)—The innocent request of the parks board for the loan of \$27,500 from the city, with which to secure the Tuckett property at the Beach for park purposes, was the target of a vigorous verbal assault by several city council members at a city council meeting.

Ald. Howard came right back with the charge that the land had been bought for speculation, and that if the parks board had power to buy without consulting the council, the by-laws should be changed.

Ald. Birrell also returned to the fray with the assertion that the parks board had power to buy property when it had the money to do so, which was not the case in this instance.

Controller Cooper sought to quiet the disturbance by suggesting that the discussion was out of place to-night and should have taken place when the matter was before the council three weeks ago.

THOSE ATLAS WITNESSES STILL FAIL TO APPEAR

Crown Prosecutor Doesn't Show Confidence of Defence Counsel That They Will Turn Up.

June 19 has been set for the trial of Rev. George M. Atlas, formerly a Presbyterian preacher and presently in Kingston penitentiary, serving a six-year sentence for forgery of a receipt from the widow of Vanil Simoff, murdered by Pavel Steffoff, for uttering that forgery and for theft of \$400 from the widow.

Before Mr. Justice Riddell in the criminal assizes yesterday morning, E. A. DuVernet, K.C., crown prosecutor, was prepared to go on with the trial of the charge of subornation of perjury still pending against Atlas in connection with the winding up of the estate of Simoff.

Atlas was in court. He has been in jail since the last postponement and his hair has grown out of the prison crop.

R.C.Y.C. LAUNCH SUNK

Ten Passengers Taken Off Safely After Collision With Tug.

As the little R.C.Y.C. launch "Bobs" neared the Yonge-street wharf yesterday morning shortly after 11 o'clock, Joe Goodwin's tug "Roy Stantion" was leaving the dock and notting the "Bobs" approach, blew one whistle, signifying that she was keeping to starboard.

There were about ten people on board and fortunately only one lady amongst them. The tug pulled up along side the little craft and in less than two minutes the passengers were safely transferred.

The "Bobs" was then towed to the dock west of the ferry wharf and most before the lines were secured, the engine was forced to leave his work and leap ashore, just as the waters swallowed up the launch.

Now only two ropes fastened to the dock mark the spot where the launch "Bobs" is lying submerged.

It is not thought that there will be great difficulty in raising the launch, which is valued at about \$100, but the bill for repairs will be considerable.

Capt. Goodwin says that he received no response to his whistle, the launch keeping right on its course for the dock and that the reversed engines and tried to get the stern of the tug clear. Had the tug struck the launch amid-

ships the accident would have been most serious, he says, as the launch would have foundered at once.

LINING UP CANADIANS FOR TARIFF REFORM

Organization Founded in England Will Carry Imperial Banner Thru Canada.

While Sir Wilfrid Laurier and his colleagues in England are proclaiming sentiments of loyalty anent the reciprocity agreement with the United States, the fiscal reform party of Great Britain, realising the danger which this agreement bears to the Imperial ideal, are preparing to "carry the war into Africa," and will organize a branch of a Unionist party in Canada, under the aegis of the Imperial mission.

The Imperial mission derives its origin from the Imperial pioneers, and is actively engaged in fighting the cause of Imperial unity in trade and defence, educating the people of the empire in the principles of Imperialism. N. Ormsby Scott, the organizing secretary, is at present in Canada, arranging for the opening of a campaign. "Let us be one" is the motto of the organization, which was started in January, 1910, and has no connection whatever with any political party. The Duke of Argyll is honorary president, and the Earl of Dundonald is president of the organizing committee.

The founders of the organization were Henry Paze Croft, M.P., for Christchurch, chairman of the executive committee; Alan Burgoyne, M.P., North Kensington, honorary treasurer; Messrs. T. Comyn-Matt and Ralph Glyn, honorary secretaries. These, with the following small committee: R. B. Whitehead, Frank Fox of Australia; L. W. R. Mulloy (the blind Canadian trooper); P. J. Hannon, ex-director of agriculture, Cape Colony; and Dr. G. Levinge of New Zealand, started the ball rolling. An organizing council with sections for each dominion was formed.

Closer Imperialism. The mission's objects are to promote in every possible way closer organic Imperial unity. To place before the people of the empire the benefits of Imperial solidarity in commerce and defence. To show the people of the mother country that if she decided to buy her imported food within the empire, the over-sea dominions could supply all her wants. To show the advantage of promoting inter-Imperial trade to the wage earners of the empire. To endeavor by every means to direct the tide of emigration to the over-sea dominions of the empire rather than to foreign countries.

"The campaign," Mr. Scott explained, "is not being organized in support of or in opposition to any party here, but to place before the people of Canada the danger to the empire and the national independence of Canada, as an integral part of the empire, that unquestionably presents itself in the reciprocity agreement."

George Tate Blackstock, K.C., A. W. Wright and A. C. Pratt, M.A., have been with the leading men of England campaigning in this cause in the old land, and at a meeting held in London in January, endorsed the proposal to organize Canada for the same purpose. Free trade, according to the opinion of

those in the campaign, is dying in England, and after one more election, they believe the Canadian preference will be reciprocated.

W. G. Fee has been acting secretary and organizer in Canada, with Mr. Blackstock as provisional head.

Farm House Burned. ST. JACOBS, May 29.—The large stone farm house of Daniel Crossman, living two miles northwest of here, was this morning totally destroyed by fire. The building is a total loss. By the strenuous help of the neighbors scant of the contents of the house were saved. The loss was about \$2000, fully insured. The cause is supposed to have been from a spark from the chimney.

EARL GREY AT BERLIN

Unveils Queen Victoria Memorial—Given Warm Reception.

BERLIN, Ont., May 29.—(Special.)—Earl Grey and party arrived at 11.30 to-day and were accorded a grand reception. His Worship Mayor Schalz and the aldermen formed a civic reception committee and met the viceroyalty at the depot. His excellency, who was accompanied by the Ladies Spyn and Evelyn Grey, the countess being absent on account of illness, was escorted by a troop of 24th Grey's Horse and honored by a hundred boy scouts from Golt, Preston, Heeseler and Berlin. Dr. Leckner, M.L.A., and Hon. W. L. Mackenzie King took part in the reception. An address of welcome was read by Mayor Schalz and replied to at the city hall. The party then drove to the Country Club on the Bridgeport-road, where a luncheon was tendered them.

The unveiling of the monument to Queen Victoria, the purpose of his excellency's visit, took place at 2.30.

NO MORE SUNDAY CIGARS

Likewise Candies and Soft Drinks Cannot Be Sold.

There is deep sorrow in the ranks of the restaurateurs and druggists to-day. In each of the five cases where dealers and merchants had been tried and acquitted for selling cigars, candies and soft drinks on Sunday, Justice Middleton, who heard the appeal of the attorney-general at Osgoode Hall, has ruled that there should have been convictions, as an offense had been committed against the Lord's Day Act. The offenders cannot be re-arrested and tried on the old charges, but a violation of the act now will mean a conviction. The cases were Rex v. Alden; Rex v. Wells; Rex v. Waldo; and Rex v. Roe. There were two charges against S. R. Wells. Magistrate Kingsford's decision that a cigar is a drug is thus reversed.

Rounding Up Gang. Clara Jones, colored, 113 Sherbourne-st., was arrested last night on a bench warrant by Detectives Cronin and Taylor from Kalamazoo Mich. Frank Perkins, a man in her company at the time of the arrest, also colored, was taken in charge, and the police believe they have rounded up two of a gang of two men and four women who have been making trouble in the United States and Canada.

ST. KITT'S BYLAW CARRIES.

ST. CATHARINES, May 29.—By a vote of 1468 to only 7 against the by-law to grant to the Canadian Talc and Towne Company eight and a half acres of land, fixed assessment and free water, was carried to-day. As a result the company will employ 200 men within two years and erect a building valued at \$50,000.

Time for Biscuit and Berries

When your think of strawberries or other fresh fruit think of

SHREDDED WHEAT BISCUIT

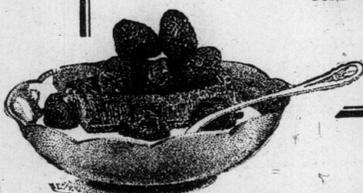

the cleanest, purest, most nutritious of all the cereal foods—combines most naturally with all kinds of acid fruits—better than the soggy white flour dough of ordinary short-cake and more easily digested. A Summer delight and a stomach joy for those who like good things to eat and who have to cut out heavy winter foods.

Heat a Shredded Wheat Biscuit in the oven to restore its crispness; then cover with strawberries, raspberries, or other berries and serve with milk or cream, adding sugar to suit the taste. A dish of Shredded Wheat with berries and cream is the bright spot in a dull day. It will keep the stomach sweet and clean and the bowels healthy and active. An ideal Summer food, ready-cooked, ready-to-serve. Your grocer sells it.

Two Shredded Wheat Biscuits with milk or cream and a little fresh fruit will supply all the energy needed for a half day's work or play.

TUESDAY MORNING, MAY 30, 1911

ANNEXATION AND NORTH TORONTO.

At the municipal election in January, the electors of North Toronto voted in favor of annexation to the City of Toronto. So far the city has done little or nothing towards entertaining the proposal that was made—the whole matter has been practically hung up. We think this is bad policy on the part of the city. Sooner or later the town must be taken in, and every day's delay makes annexation harder, and the difficulties that have to be overcome greater and more numerous.

For instance, when the council and the people of North Toronto saw that no action was being taken, they went to work on their own account and established a municipal lighting plant, built their own sewers and they are now investigating an elaborate scheme for bringing water to North Toronto from springs over twenty miles away to the north at rather a big expenditure. The town is also negotiating with the Metropolitan Railway for new rights and acquisitions on Yonge-st., and the consequence will be that the Metropolitan will be entrenched in the City of Toronto eventually, with almost inextinguishable rights, and Toronto will then be a city at the mercy of two fares.

If Toronto wishes to build up a great municipal railway system, the two greatest feeders to that system will be the two municipal lines thru North Toronto on the two new streets parallel to Yonge. In fact these two parallel streets will do more, or at least as much business as the Yonge-street will do, and this line will be able to turn in towards Yonge-street at the upper end of North Toronto and give a first class service to any place in the city for a single fare.

While a proposal is now under way to make annexations in the direction of the Humber River and the district lying between the present western boundaries of Toronto and the river, we still think that the most pressing question in the matter of annexation is that of North Toronto. Besides, there is great danger in the fact that North Toronto is a municipality with full powers to do what it likes. When East Toronto and West Toronto were taken over by the city, these municipalities disappeared and no more injurious deals have been made as against the city. Any danger from them was extinguished by annexation. North Toronto, as a separate municipality, is a direct menace to the Greater Toronto of the next few years, and the sooner that danger is extinguished by a reasonable plan of annexation, the better for all parties concerned.

Why not do it now, once for all, and do it immediately?

JUDGES AS LAW MAKERS.

Referents in the United States are becoming restive over the new attitude adopted by the supreme court as disclosed by the decision in the Standard Oil case. The act under interpretation by the justices was that known as the Sherman anti-trust law, and the court assumed the responsibility of limiting its operation to such combinations in restraint of trade as were held to be unreasonable. The judges did not make any definitive ruling as to what would or would not be deemed "unreasonable" restraint of trade so that the uncertainty regarding any particular trust or combination is greater than before. Justice Harlan has vigorously protested against the new ruling, which he holds to be in flat contradiction to what the supreme court said fifteen years ago. But apparently the majority of the present supreme court consider themselves entitled to disregard earlier decisions and to modify or alter them at pleasure. In other words the supreme court, according to its latest decision, has constituted itself a revising chamber capable thru its judicial power of leading into acts of congress what congress never intended to be.

The decision in the Standard Oil case has given a fillip to the agitation in favor of the proposal to make appointments to the supreme court of British notables. It is prominent on the faculty the great majority of British judges possess of detaching themselves from other considerations than what are immediately concerned with their duty as interpreters of the law. But it is strongly argued in the United States that its judges have arrogated to themselves powers far beyond those properly belonging to skilled interpreters of the law in individual disputes. They have, it is urged, built up a "system" under which they exercise the kingly powers of making laws at their own will by de-

cre, of repealing statutes as unconstitutional and of controlling administrative authority. The right of recall is demanded, not because of their judicial function in private quarrels, "but because they have usurped legislative power, administrative power and the people's power in respect of the laws of the land." Evidently the much-vaunted United States constitution is failing to respond to the need of twentieth century democracy. As it has developed the citizens of the republic have little real self-government. An irremovable bench of judges can easily be as arbitrary as any autocrat.

GERMANY AND THE MONROE DOCTRINE.

No country is watching the situation in American (including reciprocity) so keenly as Germany, and no country, we imagine, will resent when the proper time comes so strongly as Germany the interpretation placed by the Monroe doctrine by Sir Edward Grey, British foreign affairs secretary. Great Britain, who in a recent speech defined that doctrine as meaning that no European power could be permitted to acquire more territory on the American continent.

Now we are convinced that Germany is determined to get some kind of standing or colonization scheme under way in South America, and by no process of reasoning can we see how anyone, either the United States or Great Britain, can interfere. A country with the immense resources of Germany, with her enormous fighting strength, under the pressure of a rapidly growing population, will not be denied the right to colonize wherever she can get a foothold. It is idle for Great Britain to say that Germany shall not go into South America if she wishes. It would be equally idle for the United States to say so, or even for Britain and the United States to join to prevent Germany's entrance into South America. If the right is denied, then Germany must fight Great Britain in Europe, and the United States in America, and she is evidently prepared to do either of these things if she must. Sooner or later Germany must accommodate herself to the idea that Germany has a right to expand and to find a home for her surplus people. She can expand either by the conquest of Holland and Denmark and by some kind of closer alliance with Austria gain access into Asia Minor and Persia, or she will have to colonize in South America.

A nation as powerful as Germany, with all her resources, with the fighting machine she has in her navy and army, will never submit to being denied what she must admit is a reasonable right of her part. The United States is not in a position to defend the Monroe doctrine as against Germany, and the sooner the world recognizes it the better it will be for peace. Sir Edward Grey's speech may be satisfactory to the Americans, but to our mind it goes a long way towards endangering the peace of the world.

ATTRACTIONS AT HANLAN'S.

The immense crowd at Hanlan's Point on the holiday and Saturday was the best evidence that the public look upon this as the real pleasure park of the city. The great improvements made in the way of placing tables and chairs in shady spots for the use of lunching parties are much appreciated. And there are a number of most entertaining features. Harry Six, the highest diver in the world, makes his fearful plunge twice daily. Volo, the daredevil, comes down a narrow incline thru two hoops of fire. Special attractions are Madame Sidorin, the bearded lady; Baron Barclay, the smallest perfectly formed man in the world; Victoria, the fattest girl living and Johnny Webb, the biggest and handsomest baby on earth.

The Scarborough Bill.

The Nolas, who open a week's engagement at Scarborough Beach this afternoon, come to Toronto with a high reputation. The Mascagnis are European whirlwind dancers. Brooks & Kingman are comedy acrobats of the better class, and the Millard Bros. are well known for their amusing and amazing tricks on bicycles. Vatalo's Band has been re-engaged for a week. There will be two free vaudeville performances daily, beginning at 3:15 and 5:15 p.m. respectively.

Trials.

Before Riddell, J. Bateman, County of Middlesex—T. M. Meredith, for plaintiff. J. M. C. Gibbons, K.C., and J. C. Elliott (Glenoe), for defendant. An action for \$2,000 damages for injuries sustained by a plaintiff while driving upon the highway known as "Adelaide-road," in the city of Toronto, by the defendant, consisting of a pile of gravel and a large log being upon the traveled portion of the road. Judgment: The main charge of the plaintiff was that the defendant had failed to remove the gravel and log from the road, and that this road was much traveled, and as a barrier was under repair on the road, he had placed it at each corner of the road, and that it was in the way of the plaintiff. He should, of course, have placed a light upon or near the barrier, and that he failed to do so. Judgment: The defendant was found liable for the injuries sustained by the plaintiff, and was ordered to pay to the plaintiff the sum of \$2,000, with costs.

TOBACCO TRUST ORDERED DISSOLVED IN SIX MONTHS

Continued From Page 1.

Standard Oil decision of two weeks ago to the adoption of the 'rule of reason' as a standard for ascertaining what restraints of trade violate the Sherman anti-trust law.

"I agree with the court in holding that the principal defendant, the American Tobacco Co., and its accessory and subsidiary corporations and companies, including the defendant English corporations, are co-operators in a combination which 'in and of itself,' as well as each and all of the elements composing it, whether corporate or individual, whether considered collectively or separately, are illegal under the anti-trust act of 1890, and should be decreed to be in restraint of interstate trade and an attempt to monopolize and is a monopolization of part of such trade.

"The evidence in the record is, I think, abundant to enable the court to render a decree containing all the necessary details that will effectually suppress the evils of the combination in question. But the court sends the case back with directions to further hear the parties so as to ascertain whether a new condition cannot be created in harmony with the law. I have found nothing in the record which makes me at all anxious to perpetuate any new combination among these companies which the

court concedes had at all times exhibited a hardened offender.

"The court says: 'The history of the combination with the doing of acts which it was the obvious purpose of the statute to forbid, so demonstrative of the existence from the beginning to the present of a combination and control of the tobacco trade, but by methods devised in order to monopolize the trade, by driving competitors out of business, which were ruthlessly carried out upon the assumption that to work upon the fears or play upon the cupidity of competitors will make success possible. I do not now say what in my opinion should be the form of the decree, nor speculate as to what the details ought to be. It is enough to say that the subject when we have the decree before us, I will, however, say now that in my opinion the decree before the court should be affirmed as to the Tobacco Company and its accessory and subsidiary companies, and reversed on the cross-appeal of the government.'

"But my objections have particular reference to those parts of the court opinion which reaffirm what it said recently in the Standard Oil case about the former decisions of this court touching the anti-trust act. We are reminded again, as we were in the Standard Oil case, of the necessity to apply the 'rule of reason' in the construction of the act of congress, which, I think, expressed in language so clear and simple that there is no room whatever for construction. Congress, with full knowledge of the law, and the subject, has signified its purpose to forbid EVERY restraint of interstate trade whatever form or to what extent, and it is not for the court to insert in the act, by construction merely, words which make congress say that it means only to prohibit undue restraints of trade. The 'rule of reason' is a perversion of the plain words of an act of congress, in order to defeat the will of congress.

"In the court, by judicial legislation in effect, AMENDS AN ACT OF CONGRESS relating to a subject over which that department of the government has exclusive cognizance."

million dollars invested in the plant. Such a public service corporation is too large a thing to be sidetracked into another department, and hardly considered by the council. Mr. Rust himself made the suggestion at one time that it is well impossible for one man to bear the burden, and a few days ago he declared himself to be of the same opinion.

"It should be in charge of a separate department, with a separate manager and a standing committee of the council. There is no other branch of the city service so important, and yet none so neglected, and I think it entitled to closer consideration than it has had from the council, to which it should be referred by a competent head directly responsible to the council."

"Obstructionists Get Busy." "The man in charge of the waterworks is a most uncharitable spirit," declared Ald. Dunn, "coming at a time when the investigation into the matter is now on. It would have been better if he had waited for the county judge's report. We have no evidence of incapability or inability."

Ald. McBride also came to the rescue. "It is not fair," he said, "to throw the man on the island out of a job until they have been given a fair trial. Their work was in charge was broken, and the hard winter work was only the natural thing after the way Fellowes muddled his part."

Here Ald. McBride interrupted. "Do you say it is the neglect of Mr. Fellowes that the trouble has arisen?" He asked.

"Want Fellowes to Resign." "Mr. Fellowes is primarily and secondarily and altogether responsible for the trouble," declared the speaker, "and the alderman added a 'Don't believe it.' 'If the man has been given all the money asked for,' continued the speaker, 'the man is responsible for the break up. We would be perfectly in our rights if we asked for the resignation of the waterworks engineer.'"

Controller Church backed him up. "The council has no right to demand the resignation of the waterworks engineer," he declared. "The council has no right to demand the resignation of the waterworks engineer."

"The question of the reorganization of the waterworks department be deferred until the report of the county judge has been received." The vote was close, but the last amendment won out by 12 to 11. Yeas, Controllers Spence, Ward, Ald. McBride, 10 days. Nays, Ald. Rowland, Hilton, Graham, McCarthy, 11.

Sweeney Kill Killed. Sad was the fate of Ald. Sweeney's bill to regulate merchants from showing goods 'outside their shops. The said fate was sudden death, when the council rose to a man and squelched it.

A delegation was present from the Retail Merchants' Association, George Gibbard, president, told a tale of oppression and of the suffering of the small trader. The speaker said that the bill would be referred back to the council, and that it is merely a question of your saying what remuneration your company would receive if you were to operate the lines as concerned.

"As I feel quite sure it would be impossible to convince you it will not be the company's way, I will not enter into the discussion which your letter invites in its reference to the actions of the city council and the evasions of the council."

No further communication being received from the company, the board of control recommended the corporation apply forthwith to the Ontario Railway Board for an order that the Toronto Railway Company afford proper and reasonable facilities for the receiving and forwarding of passenger traffic on the lines of their system which originate at the city and terminate at the city.

that you do not desire to enter into any further arrangement whatsoever with the city, as had you desired to do so, I think my letter gives you the sufficient data to at least discuss the merits of an arrangement, particularly in so far as the matter of the company would receive if you were to operate the lines as concerned.

few more expressions of opinion pro and con, the amendment was put and carried by a vote of 10 to 6. Controllers Spence and Ward, with Ald. Dunn, Anderson, McCausland, Phelan, Sweeney, Hilton, Graham and Rowland voting for, and Controllers Hocken and Church, with Ald. Maguire, Baird and Youmans against it.

Intake Up Again. Five firms tendered for the 2500 feet of steel pipe needed for the new intake and the contract was awarded to the Canada Foundry Co. as being the lowest tenderer. This firm gave two sets of quotations, one at \$17.75 per foot for slow delivery, the first lot to be delivered in 90 days, and the other at \$20.75 per foot for first delivery in 30 days, complete order in 90 days. At the lower price the total cost of the intake would be about \$54,000; the alternative price would bring it up to \$65,000, a difference of \$11,000 on the whole order.

The city engineer recommended that the lower price be accepted, stating that with the delivery stipulated therein he would receive the pipe as fast as he could use it. The board of control reported in favor of Mr. Rust's recommendation, although, apparently, not unanimously, for the controllers Spence and Ward put up a strong case for the alternative tender with quick delivery. The position taken was that the city engineer should put on enough men to rush the necessary pile-driving and excavation work and that anyway it would be better to have the pipe waiting than presently to be waiting on it.

Finally the motion of Ald. Rowland, the tender of the Canada Foundry Co. at \$20.75 per foot for quick delivery, was accepted by council.

Will Repair Intake. Three contracts were after the contract for cleaning and repairing the 2-foot steel conduit between the intake and the tank at Lake Shore. The Davies Contracting Co. offered to take charge of the work, the city supplying necessary plant, material and labor. Mr. Davies to act simply as superintendent. This proposition the engineer and board of control turned down, and Mr. Davies suggested it was because the engineer's department was sick of the job.

The tender of Leslie Contracting Co. to do the job at a profit of 15 per cent. on all expenditures for material, wages, plant, etc., including the manager's salary, likewise was frozen out.

The successful tenderers were Miller, Cummings and Richards, who gave a definite price of \$40 per pair for bearing pile vents \$35 per pair for anchor piles and \$40 for removing sand from outside each hole. The remainder of the work to be done at a cost plus 20 per cent. profit. In connection with the contract, the board of control authorized the board of control to negotiate and corporation to the Ontario Railway Co. concerning any method that may be suggested by either party for the supplying of street railway service from the city street railway to be constructed, and that any proposal or recommendation resulting from such negotiations be reported to the council for approval."

Looked Like More Delays. Ald. McCarthy, referring to the corporation's letter, thought that the good position to take before the railway board and that it would be wisest to leave matters to him. "Further negotiations would simply mean further delays," said Ald. McCarthy. "But," said Controller Spence, "unless some further move is made, there is no basis on which to conduct negotiations, because the city always wants the board to take the lead. If anything, and what it is prepared to pay for the same?"

Wouldn't See Its Errors. To this Mr. Drayton replied patiently and politely enough. "I conclude

San Company of Philadelphia," says Mr. Rust, "and up to the present time the city council have not signed their contract. I would therefore ask your board, as the company have had ample time to sign the contract and have not yet done so, that authority be given this department to purchase our asphalt supply for the balance of the year in the open market."

Controller Ward looked blank and his colleagues ditto.

Flaunting a yellow telegraph form, Ald. McCarthy said information had been wired to the company in question to the effect that the contract had been signed on Monday last, that the city engineer had accepted and recommended when the chairman dramatically left the chair, summoned Alderman Maguire to the seat of honor, and proceeded to demand what the board of control meant by allowing such a recommendation to impugn itself in their report.

mortem statement at the hospital, were told a like story by him, save that he declared that the belief of Jessiman was groundless. He said that when he met him in the street, Jessiman accused him of ruining his life and had then opened fire.

The body was removed to the morgue, where Chief Coroner Arthur Jukes Johnson will open an inquest at 3 o'clock this afternoon.

Strange Actions Noted. Jessiman took his holidays, starting Sunday, and thus was at liberty from his employment in the postoffice. One of the men who had interested himself in getting the appointment for him, told the police yesterday that he had noticed that he had been behaving strangely of late. He said that he had gone up in his elevator a few days ago and that Jessiman had told him he should take the other elevator, while there is only one in the building. He told him he would take the other later on and the man seemed satisfied.

There were nearly a dozen witnesses of the shooting and the man of whom Jessiman is also a married man, living with his wife and their one child.

FOY FOR THE BENCH?

OTTAWA, May 29.—The vacancy on the high court bench of Ontario consequent upon the death of Judge Macdonald will not likely be filled till after the long vacation of the courts, as meanwhile there is no urgency. W. N. Tilley of Toronto, and Daniel O'Connell, K.C., of Peterboro, are more prominently mentioned. It is said also that Attorney-General Foy has been sounded with reference to accepting it.

Infant Mortality in Montreal. MONTREAL, May 29.—With the advent of midsummer weather, the deaths from infantile debility and enteritis are on the increase in the city. Last week there were 85 children under five years succumbed, 28 dying before reaching six months, 17 dying between six months and one year. Between one and two years there were ten victims and from two to five years ten deaths.

Accepted Call to North Bay.

LISTOWEL, Ont., May 29.—Rev. W. E. Price has resigned the pastorate of the Baptist congregation at Listowel and Atwood, having accepted a call to the Baptist Church at North Bay, the resignation to take effect July 1.

RUSSIA AND JAPAN WANT TO HAVE SHARE

Signify Their Desire of Taking Part in Chinese Loan—A Serious Diplomatic Contest.

PEKIN, May 29.—The Chinese currency reform loan of \$50,000,000 already has been completed with the American, British, French and German groups of bankers equally participating therein, the Russian and Japanese governments have signified to China their desire of taking part in the loan.

Russia and Japan argue that the pledging of the Manchurian revenues to secure the loan may come in violation of their rights in that province. Furthermore, these two governments are materially interested in both the development of Manchuria and the reform of the currency to which the loan is allocated.

If Russia and Japan follow up their signified wishes to participate in the loan, it may bring about a diplomatic contest of a more serious aspect than that which surrounded the historical entry of the American syndicate into the Hankow Railroad loan agreement. It is reported in financial circles that a strong international group of bankers is being formed in opposition to the Russo-Belgian syndicate, which is expected to take in British bankers and probably also Japanese financiers.

THEOSOPHISTS' QUARTERS Meetings Will Be Held in Canadian Foresters' Building.

Theosophists and their friends have taken the edge room in the new Canadian Foresters' Building for their Sunday evening meetings, and will hold their first meeting there next Sunday. The lease was signed yesterday by A. G. Horwood, president.

For twenty years the Toronto Theosophical Society has been at work in the city. Its first meeting having been held at a private house on Church-street, near Queen-street. Subsequently the society met in Forum Hall; then on Spadina-avenue; on College-street and 282 1/2 Bloor-street. The growth of interest in theosophy has led the society to rent the bedroom in the new Canadian Foresters' building on College-street, near Yonge-street, for their Sunday evening meetings. The hall is a spacious room, excellently ventilated and quite situated on the north side of the street, where the noise of the city is not so much felt. For the convenience of visitors, a permanent office for the library and study classes has also been engaged in the same building, and the usual activities of the society will be carried on under more advantageous conditions.

Another Monster Ship. HAMBURG, May 29.—The Hamburg-American Steamship Co. has announced to-day, has given orders for the construction of a sister ship to the mammoth turbine steamer Imperator, now building. The vessel will be 900 feet long and will be placed in the New York service.

SYNOPSIS OF CANADIAN NORTH-WEST LAND REGULATIONS.

A NY person who is the sole head of a family, or any male over 18 years of age, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta.

The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district in which the land is situated, and must be accompanied by a witness, who may be a brother or sister of the intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live on a farm of not less than 50 acres, solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader's good standing may be pre-empted by a pre-emption purchaser, who may pre-empt the land in each of six years from the date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter, for a purchased homestead in certain districts, a claim for a homestead.

Price \$300 per acre. Duties.—Six months' residence upon and cultivation of the land in each of three years, cultivate fifty acres and erect a house worth \$500.00.

W. W. CORY, Deputy of the Minister of the Interior, Ottawa, Ontario, has published this advertisement which will not be valid for.

Big Selling of Porcupines Sends Prices on Down Grade

Porcupine Gold Camp Porcupines Under Pressure Record Almost General Losses

Sharp Declines in the Gold Mining Stocks, With Big Issues in the Lead—Cobalt's Firm, Beaver Higher.

World Office.
Monday Evening, May 29.

A species of weakness pervaded the mining exchanges to-day, prices developing a tendency to decline when selling of any consequence put in an appearance, and the net result of the day's dealings was a number of losses in what are usually the leaders in the trading.

The gold mining stocks were the prominent points in the dealings, the Cobalts being for all purposes practically neglected. Porcupine stocks were in their demand at the opening, but it was not long before a realizing disposition put in an appearance, and this sufficed to put prices on the down grade almost throughout the day.

There were numerous reasons assigned for the action of the market to-day. Chief among these was a report of other bull in the market, which, it was stated, had seriously damaged the Dome and the Dome Extension. It was also argued that the accumulation of selling orders over the week-end holidays had been too great for the market to absorb in the ordinary course of events.

Hollinger dropped 52 points from the closing price last week. The shares sold as low as \$12.50, being under pressure all thru the session, and touching their low point toward the close of the day.

The cheaper Porcupine issues were almost universally lower. Vipond being off 8 points at 61, Dome Extension 5 and 55, Swastika 4 points lower at 21 1/2, and Preston off 1 at 23. Rea did not hold its recent advance, the shares declining to \$8.45, or 45 points below the opening sale. Foley dropped back to \$13.25, or 15 points below last week's close.

Beaver was the feature of the Cobalts, these shares rising on another point to 45. Rochester was also higher, gaining a small fraction, but other than these there was comparatively nothing doing.

TO INSPECT ELDORADO

Engineer Seymour Leaves to Report on Eldorado and Inspect Camp.

A. P. Seymour, M.E., will lately in charge of the Cobalt Lake Mining Co., and formerly employed by the Bewick, Moreson Co. in South Africa, left last night to make an inspection and report on the Eldorado mine at Porcupine.

Mr. Seymour is one of the foremost mining engineers now in Canada, and has had 18 years' experience in the gold camps of Australia and South Africa.

His report on the Eldorado will be of more than ordinary interest, like-wise his estimate of the porcupine as one of the world's important camps.

Silver Stocks Decrease

NEW YORK, May 29.—According to cable advices received to-day by the International Banking Corporation, the stocks of silver at Shanghai in the week ended May 27, decreased 300,000 taels to 23,000,000 taels, compared with 23,300,000 on May 20, and 23,000,000 on May 13, the highest point reached.

TO INCREASE CAPITAL

Swastika Shareholders Will Vote on the Proposition Shortly.

The directors of the Swastika Mining Co. have under consideration a plan to increase the capitalization of that company from the present figure of a million to two million dollars.

The plan, which will provide for the issue of 2,000,000 shares of \$1 each, is to be carried out, will provide funds to erect the large plant which the officials have decided necessary, and to carry on aggressive development work, which seems warranted in view of recent results.

A special meeting of the Swastika shareholders will be called in a week or two, when the directors' decision will be heard, and the proposed increase in capital voted on. The present idea is to issue 2,000,000 of the proposed new stock, and to retain the other half of the new issue in the treasury, to provide future development capital, if required.

New Porcupine Map

A. C. Goudie, Teachers Bank Building, Toronto, has issued a new map of the Porcupine gold district, which is the most complete chart of the gold camp yet published. All the newer townships, as well as the Porcupine camp proper, are shown in detail.

PROSPECTUS ISSUED BY REA CONS. MINES

Company Sends Out Statement of Operations to Date on the Property.

A pamphlet prospectus giving the general statement of affairs of the Rea Consolidated Gold Mines, Limited, has been issued by the company over the signature of the president, C. Plummer Hill of Montreal. Little authentic information concerning the Rea has been handed out prior to this statement, which will consequently be received with considerable satisfaction.

The company is incorporated under the Ontario Companies' Act, the capital being \$1,000,000 in 200,000 shares of five dollars each. The issued capital is 200,000 shares, and the remaining 180,000 shares are held in the treasury for working capital. A sum of \$100,000 has been provided by the vendors as cash working capital.

Eight Claims in All

The mining property of the company consists of two veteran lots, equal in area to eight mining claims, in all 321 acres, being the north halves of lots 6 and 7, concession H.L. on the Township of Tisdale. All the property is held under crown patents in the name of the company as owner, with an absolute title free from all encumbrances. The property is being developed by a contract with a large body of one and a half miles, which is centrally located, which at present consists of a six-drill company with shafts and pumps sufficient for several hundred feet of sinking, mining and development continuous and adequate to the time of the installation of a mill.

Development to Date

The development work done up to the present on the No. 1 lode, which has been intersected by a large core drill at a vertical depth of 240 feet, consists of a main shaft 200 feet deep, which has been sunk to a depth of 200 feet, and a smaller prospect shaft sunk to a depth of 20 feet. A prospect shaft will be sunk to the 200 foot level to test the No. 1 lode and drifting in both directions will be in progress before the end of the month, so that by the time a mill can be erected it is expected that a very large body of ore will be located. So far all the development work has been confined to the No. 1 lode, and also to the No. 2 lode, which is the largest portion of the company's territory is yet unprospected. There have already been several other lodes located which showed free gold on the surface. Notably those on the east side of the property, where the core drill is now working, and the No. 2 lode, lying north of the No. 1 lode, which will be developed by a core drill of 200 feet driven from the 200 foot level of the No. 1 lode. Samples taken under the direction of Leonard Webb, mining engineer, formerly in charge of operations at the mine, gave values along the main or No. 1 lode, without its entire length, as far as the No. 1 lode is concerned, as follows: Where the No. 1 or main lode was cut by the core drill at a depth of 240 feet the sections of the drill core showed a total of 10.25 lbs. of free gold, containing 18.20 per cent. of gold, thus indicating that the lode has lost nothing of its richness in depth. At which high-grade values have been shown in the Porcupine field.

WILL BEGIN ACTIVE DEVELOPMENT WORK

A. C. Goudie, Porcupine Specialist, Leaves to Initiate Operations on His Various Interests.

A. C. Goudie, the well-known Porcupine specialist, left at the beginning of the week for the Porcupine, to start work on a large scale on various properties in which he is interested.

Mr. Goudie has been connected with the gold camp ever since its inception, and has had not a little to do with events since the Porcupine developed into a full-fledged mining district.

Interviewed by The World prior to his departure for the north, Mr. Goudie discussed his plans for the development of the several companies with which he is connected.

The General Holding and Development Co., Ltd., owning twenty-two claims in Whitney, Tisdale and Deloro in the north section of Tisdale and Whitney to open up 12 claims on the Deloro and the Andrew claim in Tisdale; a second camp on McKay Lake to operate six claims tied on to the Bannerman properties which are recognized as the star claims in Deloro and which are just going into a company, capitalized at \$2,000,000, and a third west of Gold Lake to open up 12 claims on which some rich strikes of free gold have just been reported.

In addition to the work on the General Holding and Development Company's properties Mr. Goudie will institute active development work on the Bremner Porcupine Mines property.

Over 1,000 feet of trenching has been done on the Bremner during the winter and spring months. The company have over 150 drill holes open ready to shoot, have various test pits down an average of ten feet and the main shaft down eighteen feet through a solid body of quartz averaging 15.00 across the entire bottom of the shaft.

While in Porcupine Mr. Goudie will confer with F. F. Ames, secretary and treasurer of the Porcupine Stock Exchange, for the purpose of deciding upon the location of the exchange, and arranging for its immediate construction in order to be open for business by the first of July. The exchange has made all arrangements with the T. N. & O. for wire connection, and will be ready to operate by the time that the railroad is in. The present membership is sixty-five, at which it will be limited for the time being.

NOT WANTED IN CANADA

Government Will Discourage Negro Immigration to Northwest.

WINNIPEG, May 29.—W. J. White, who has charge of the immigration offices as representative of the Canadian Government in the United States, said in an interview here today that a flux of negroes from Oklahoma was likely to terminate soon. Discrimination against colored men in that state has been partly removed by the decisions of the superior court at Washington on questions relating to franchise. The churches are opposed to the movement, and the Dominion Government similarly regards it. It is recognized that the climate of Western Canada is unsuitable for negroes, and every effort will be made by organizations interested in keeping them in the south to show the folly of their attempting to make a livelihood in this country.

DROPPED DEAD ON STAIRS

While walking upstairs at his residence, 274 Logan-avenue, Benjamin Hale dropped dead from the effects of rheumatism of the heart. Deceased was in his 56th year and was in the employ of the McAlpine Tobacco Co. Interment will take place this afternoon at Weston.

A widow and several sons and daughters survive. Mrs. Roberts of Hamilton, whose children were kidnapped in this city by their father and taken back to Hamilton in an automobile, is a daughter of Mrs. Smith of this city. Her daughter is a daughter. There are two other daughters and three sons.

PORCUPINE IS COMING.

The Porcupine situation grows better every day. In regard to transportation it is pretty well determined that at the present rate of progress the rail and the construction train will be into Porcupine in three weeks at the latest. There are only four or five miles of rail to lay, but another sinkhole has been encountered, and unless it can be filled, it may be necessary to make a slight detour for a while. The commissioners, the engineers and all their men are working under high pressure in order to get the rail as far as the Town of Porcupine early in June.

As to the mines themselves the outlook is bigger and brighter than ever, although it will take some time to make the prospects into mines. Hollinger, however, may be said to be a mine to-day, and soon will have its stamps going, and in a very short time the Dome will be a mine, bigger than anything of its kind in Canada in the way of production. Other properties are also being steadily developed, and will soon be in such shape that the question as to whether they are mines or not will be settled.

Porcupine, as far as the market for mining stocks is concerned, is not very active at the present moment, promises soon to be so. There are at least a dozen properties so well under way that probably by the first of July their owners will have a line on them, and all indications point to their being big mines with big production within a year. The Hollinger people are making arrangements for a still bigger prospect, but of course than the one ordered some months ago.

In connection with transportation, The World was informed yesterday that the Hollinger people and associated mines are turning out their men to build a wagon road from Porcupine station to Pearl Lake—some six or eight miles—and this will be done within two or three weeks, so that there is a good prospect of a railway to Porcupine station and a driving road from there to Pearl Lake, all within a month. Any number of capitalists and owners are holding back paying a visit to the camp until these are concluded. The Toronto Board of Trade so into the camp about the middle of July, 900 members strong, and they have already made their arrangements. The heavy dining and sleeping cars may not be able to get right into the camp at so early a date, they will certainly get in the construction train will take them the balance.

MOVING PICTURE CENSORS

Col. Matheson's Return to Duties to Be Followed by Announcement.

Hon. Col. Matheson, provincial treasurer, who has been ill at Perth, is expected back at the Parliament building today. The board of censors, which is related to this department, has yet to be appointed to enforce the new act in regard to moving picture shows, which goes into effect on June 1, the provisions of which were announced in The World when the legislature was in session.

A WOMAN'S BACK.

Not One Woman in Twenty Has a Stong Back.

The kidneys are to blame nine times out of ten.

Mrs. A. H. Hutton, Jr., McCreary, Miss. "Two years ago, in the spring I had a very severe pain in the small of my back. When I would rise it seemed as if my back would break. My kidneys were very badly out of order, and I would have to get up three or four times during the night. I took one box of Doan's Kidney Pills and they effected a cure."

Doan's Kidney Pills are 50 cents per box or 3 for \$1.25, at all dealers or mailed direct on receipt of price by the T. Milburn Co., Limited, Toronto, Ont.

If ordering direct specify "Doan's."

When the blood isn't properly filtered the poisons that ought to be carried off by the kidneys are sent back through the system, and it's hardly to be wondered that backaches and lame backs come to make life miserable.

Doan's Kidney Pills are a specific for all kidney troubles. They begin by expelling all the poisonous matter from the kidneys, and then heal the delicate membranes and make their action regular and natural.

PORCUPINE MAPS

General Map of the District Revised to Date
A. C. GOUDIE & CO.
621 T'adors Bank Building

Porcupine City Townsite

The site selected by the first settlers in the Porcupine gold-fields, who had the whole lake district to choose from, is admittedly the most suitable townsite location in that district, both from a business standpoint and from the standpoint of health and pleasant surroundings—a site central for the large working mine, at the convergence of the main traveled roads and all on high, well-drained land.

With the Porcupine postoffice in the townsite, with the government townsite adjoining, and with the main station of the T. & N. O. R. R. less than half a mile away, Porcupine City townsite lacks none of the essentials of a permanent town.

For particulars as to business opportunities in the townsite and for prices of lots, see or write

MINES AND PROMOTIONS

The public will require to be discreet in making investments in Porcupine stocks, as in any other mining issue. There are legitimate mining companies in Porcupine, but there are also and will be others.

Any company started with the laudable idea of developing a promising prospect—one that has received the endorsement of responsible engineers, is entitled to support.

ELDRADO, with three claims in Whitney, has already been endorsed by two engineers, and Mr. Seymour, a mining expert of wide experience, will shortly give his idea of the company's three properties.

We are still offering a small part of the original allotment of ELDRADO at 10 cents a share, and in our opinion, this stock offers the best speculative chance in the whole Cobalt Camp. Orders should be sent at once to insure filling at this price.

How to Keep Cool

Keeping cool is one of the easiest things an aeronaut does—he doesn't have to worry about light summer clothing. His suit is a one-piece affair, in which he gets far too cool for comfort.

We cannot offer you a one-piece Summer Suit, unless you're satisfied with overalls, but we do direct your attention to the Two and Three-Piece Summer Suits for sale here Wednesday as the lightest, and yet most substantial, suits to be found.

English Tropical Worsteds Suits, in dark navy blue and brown, with white pin stripes, three-button single-breasted sack models; these suits will retain their shape; sizes 36 to 44 **19.00**

Men's Two-Piece Summer Suits, made from a lightweight English Saxony finished tweed, grey ground, with white and faint colored thread, stripes alternately; two-button single-breasted sack style; half lined; pants semi-pegtop, with roll bottoms, and built for a belt; sizes 34 to 44 **9.50**

SHIRTS AND UNDERWEAR.

Men's Outing Shirts, with detachable double soft collar; made close-fitting style, double turn-back cuffs, large and roomy; all sizes 14 to 17. Regular \$1.50. Wednesday **.98**

Men's Bathing Suits, combination style; some button on shoulder, others button down front; small, medium and large sizes. Regular 75c. Wednesday **.50**

HATS FOR CHILDREN.

Children's Straw Turbans, fine quality white or the new unbleached braids; dome or square crowns; neatly trimmed. Special prices **.50, .75 and 1.00**

Children's Wash Tams, in white duck, drill or pique, tan or pale blue drill, also cream serges. Extra good values, **.25, .35 and .50**

Boys' Straw Sailor Hats, in white Canton braids, black silk bands. Splendid values at **.25, .35 and .50**

Practical Parachutes

We're going to have an Umbrella Sale to-morrow, and we would like volunteers to demonstrate just how strong these forty-five and ninety-five cent umbrellas are, by using them as parachutes from the top of the City Hall tower. However, most of our customers would prefer to take our word for it, that these umbrellas will stand any reasonable strain.

It is a known fact that summer is the proper time of the year to buy furs, that is if you take your purchases into consideration. Perhaps you didn't know that the same thing applies to umbrellas. Well, here is the proof. There are four days on which it will be possible to buy umbrellas (good umbrellas) at practically half price. Wednesday is the first day, and here are particulars from the department:

245 Women's Umbrellas, mercerized tops, strong steel rod and frame. Sale price **.45**

459 Men's and Women's Umbrellas, taffeta, also silk and wool tops; some have tape edge; assortment of handles; good strong steel rod and frame. Wednesday **.95**

84 only Women's Umbrellas, fine silk mixture tops and tape edge; handles in pearl and gold, beautifully chased, ebony, sterling silver and rolled gold mounted; silk cased. \$5.00, \$5.50 and \$6.50 lines. Wednesday, sale price **3.69**

Gloves and Hosiery

Women's Long Lisle Thread Gloves, black, white, grey; good quality; all sizes. Regular 35c and 50c. Wednesday, per pair **.19**

Women's Wrist-Length Pure Silk Gloves, black, white. Regular 50c. Wednesday **.35**

Women's Plain Cotton Hose, black, white, tan; all sizes. Regular 20c. Wednesday **.12 1/2**

Wall Paper

The showing of Wall Papers on the Sixth Floor is one of the best in Canada. Facilities for seeing it are such that a customer is able to form an accurate idea as to what the paper will look like on the walls, and that is half the battle. The experience of our experienced decorators will help you in your choice, and prices and papers are so comprehensive that not one person out of a thousand could fail to get exactly what they want.

Lace Curtains

We have specially planned to make Wednesday one of our busiest days in Lace Curtain selling, and, recognizing the attractiveness of price, we have selected several of our choicest designs in Nottingham and Swiss, and marked them at prices which will make it doubly worth while to purchase on Wednesday.

Nottingham Curtains, of excellent designs, including conventional, scroll and floral effects; fine wearing qualities; well finished; 52 inches wide, 3/4 and 3 1/2 yards long. Worth \$1.00. Wednesday, per pair **.78**

Nottingham Curtains, of high quality, in an assortment of patterns exclusive to this store; among the designs shown are many new floral, stripe, block, conventional and insertion effects; some plain centres, Nottingham and fish net; exceptionally fine weave and highly finished; 52 to 60 inches wide, 3/4 and 3 1/2 yards long. Worth \$2.50. Wednesday, special, per pair **1.89**

Swiss Curtains, in an array of designs, which must be seen to be fully appreciated; richly designed effects; 52 inches wide, 3 1/2 yards long; a beautiful curtain attractively priced. Worth \$4.00. Wednesday, per pair **3.29**

Swiss Applique Curtains, in a variety of richly designed patterns; deep all-over insertion effects; heavy motif corner, plain, floral or figured centres; 50 inches wide, 3 1/2 yards long; exceptional value at Wednesday's reduced price. Per pair **3.98**

For Verandah and Summer Cottage

We are showing in our Carpet Department, Fourth Floor, a range of Floor Coverings for Wednesday that are specially adaptable for summer use and comfort.

A splendid showing of Crex Mats, in scroll and Grecian key bordered designs; a very durable and clean wearing floor covering; self greens and browns.

Japanese Mats for Verandahs, etc., a closely woven mat, very suitable for seats for summer evenings. Special Wednesday **3 for .10**

A Fine Tablecloth for the Bride

Our Second Floor Department of Linens and Staples is a most popular place these days for June brides and their well-wishers. The first item here will give you a good idea of the values you may find:

A Beautiful-Fine Satin Damask Tablecloth, round, scalloped edge; very handsome new round bordered designs; 81x81 inches; a most suitable gift for the bride; 50 only at, Wednesday, each **3.75**

BEAUTIFUL ENGLISH NAINSOOK.

36 inches wide, snow white pure finish, fine round thread; a delightful cloth for fine undergarments, etc.; 750 yards at Cotton Counter, Wednesday, per yard **.12 1/2**

200 FIGURED HUCKABACK TOWEL LENGTHS, 45c EACH.

Pure linen, finest dew bleach, all new handsome designs, 24x40 inches, enough for a good, large bedroom towel, and you can put your own work on it; stripes, figures, bordered designs. Wednesday, per length **.45**

SOILED WHITE QUILTS.

With the big lot of quilts handled every day at the Simpson Store, a few are bound to get soiled; we have about fifty, which we will sell Wednesday. American crochets, English satins, light weights for summer use. A trip to the tub and they will be as good as new. Regular to \$2.75 each. Wednesday **1.53**

(No mail or phone orders.)

STRIPED AWNING DUCKS.

All ready for the awning season, fancy stripe ducks, in blue, green, red, etc.; 30 inches wide. At Shirting Counter, Simpson Store. Per yard, Wednesday **.25**

Wedding Presents of Beautiful Cut Glass and China

Most people are at their wits' ends nowadays to find a suitable wedding present at a price that is not extravagant. If you haven't thought of the solution yet, we'll tell you what it is—come to the west end of our new Basement.

One naturally associates a Basement with such excellent and useful commodities as bacon, tea kettles, etc. A piece of bacon may be cut from the primest porker that ever owned a curly tail, but it isn't exactly pretty or artistic. But in the Basement is one of the most attractive and beautiful departments in the store. The Art Section of the China Department is an education and well worth a visit. Even though you haven't a cent to spend on china, one of the staff would be delighted to show you round.

Here are some examples for Wednesday's selling:

Cut Glassware, conspicuous for its beauty of design, depth of cutting, excellence of finish and moderate price.

Lemonade or Water Set, 7 pieces, tankard shape jug, sapphire design. Per set **7.50**

Fern Pot, rich, deep, flaring cut, full of sparkling color, gem design. Wednesday **5.95**

30 only 8-inch Berty or Fruit Bowls. Our regular \$6.00 bowl, underpriced for Wednesday **3.98**

Japanese China Tea Cups and Saucers, encrusted gold decoration. Wednesday **.25**

100 Teapots, Royal Doulton Ware, good assortment of designs. Wednesday **.79**
