

they had been largely self-destructive. He added: "Some think we demanded too little, others too much."

Germany's Responsibility

Dealing with an amendment moved by Horace W. Bottomley, independent member for South Hackney, regretting that Germany had not been required to enter into binding obligations to pay the whole cost of the war, the premier gave details respecting the demands of the treaty on this subject and pointed out that the very first clause was a recognition by Germany of her responsibility to defray the whole cost. But, he asked, was there the remotest chance of exacting that sum? The total cost to the allies was 30,000,000,000. The sinking fund Germany would have to provide was 11,800,000,000 yearly. How could she pay that?

"It is useless to talk about Germany," he said. "You can't cash waterways at the bank of England. It is useless to talk about German soil. You can only talk about the produce you can get outside of Germany and get cash for. Germany has lost three-quarters of her land, one-third of her coal deposits, between six and seven millions of her population and all her colonies. Nobody could think that she would be able to pay eleven hundred millions even if all these were still in her possession."

Territorial Arrangements

Regarding criticisms on territorial arrangements, the premier contended that it was impossible to make a settlement leaving Poles inside Germany, and no Germans inside Poland. That was largely due to Germany's policy of establishing little colonies here and there in order to Prussiaize Poland, and the peace conference had taken the only possible course in accordance with the principle adopted, as the basis for the armistice.

Turning to the question of conscription, Mr. Lloyd George reiterated that it was necessary to retain a strong army until peace and the fruits of victory had been secured, but he hoped that by the beginning of next year Britain would have voluntary army meeting all her needs with respect to stopping mad competition and armaments. Everything, he added, depended upon the sincerity of the nations in their desire for peace.

Concerning Russia, the government still stood by the policy he announced a few months ago.

Treaty Not Perfect

Concluding, he said that he did not claim the peace treaty was a whole as perfect, but he looked to the organization of the league of nations to remedy any defects. He added that he had appeal and to readjust crudities, irregularities and injustices. The conference had redressed many wrongs, and, he believed, had created a new era.

"I claim that this treaty will stand against the perils on which the German empire shattered itself," he exclaimed.

LABOR BECOMES DIVIDED CAMP

Toronto Situation Involved in Party Terminology Beyond Present Comprehension.

MONTREAL ASPECT

Deliberate Attempt to Kill A. F. of L. by O. B. U. Supporters.

Montreal has, according to well-founded reports, two labor union bodies, the regular trades council under the auspices of the A. F. of L. and another trades union body known as the Industrial Council of Montreal. This industrial council is alleged to be a propaganda institution organized on behalf of the One Big Union, and engaged mostly in education of the people along radical lines. Members of the time-honored trades council claim that the newly organized body is nothing less than a body aiming directly at the very life of the A. F. of L. And it is whispered that the Montreal affair is nothing less than an enlargement of the split which has overtaken the labor movement in Canada.

Situation Perturbant.

In Toronto the situation is more involved, but perhaps none the less porous. Twelve months ago the situation in the labor movement was that the so-called Progressives of today were but little represented in the Toronto Trades Council, and whenever they rose to speak upon the floor they were given either a silent and tolerant or a tumultuous hearing, dilating much of the time upon the factor of class consciousness in the struggle of labor for its rights. Six months later this type of labor enthusiasm had increased in numbers and in force of debate. He was beginning to make himself felt in the movement, although apparently little organized. Then came the armistice when many men of oratorical leanings who had kept silent during the war essayed to study the various questions at issue, and a number of small but powerful minority became much more ambitious in its attacks upon all and sundry. A little later, about six months ago, a certain Saturday night meeting, very largely attended gave voice to sentiments which had received recognition previously from only a few trades unions. This meeting found the "small minority" better organized and more energetic than had been anticipated. From this time on organization of the radicals proceeded but surely carried out, aided and abetted by the alleged autocratic attitude both of the government and of certain employers. Thursday night last witnessed the full fruits of this organization, to which tribute is paid on all sides. The "progressives" had swept through the ranks.

Opinions Varied.

The term radical may be a misnomer, and the term progressive may be correct in respect to those who are gaining the leadership of trades unions on Thursday night. Opinions in this matter are many and varied. The facts of the case are these: That the president is best known as a radical, the vice-president as a moderate, while the secretary is known to be Socialistic in his point of view which he does not deny. The financial secretary is understood best as a moderate with radical tendencies. That practically all the so-called radicals, as also the socialists, are keen students of all phases, both of sociology in general, and the labor movement in particular, is a fact that is not denied.

Labor Sociology.

Such men as Lou Braithwaite, Tom McMillen, James Simpson, James Wilson, John Macdonald, and others may be counted among those men who form the mainspring of the movement in respect to sociology. They are men who have made the history of labor sociology their special hobby, and it cannot be doubted that the thrashing machine was invented, as well as the live stock, excepting five horses, which were killed. The loss is estimated at \$5000, and there is no insurance.

IN POLICE NET.

Charged with stealing an automobile three weeks ago from the garage of Frank Badgerow, Blecker and Wellesley streets, Ernest Connors, 62 Florence street, was last night arrested by Detective Sergeant Nicholas.

Wanted on several charges of theft, John Ruben, 2 Pelham avenue, was last night arrested by Detective Hazelwood.

William H. Cross, 443 Pacific ave., was arrested on a charge of theft, last evening, by Detective Alexander.

Alleged to have stolen an automobile, Robert Brown, 328 Bartlett avenue, was arrested last night by Policeman Dawson.

RIVERDALE

TRADE DEPENDENT ON COMPETITION

Secretary of Federal Reform Association Objects to Fixed Wheat Price.

In connection with the high cost of living, Albert Hanna, Carlaw avenue, secretary-treasurer of the newly-organized East Toronto Federal Reform Association, stated to the World yesterday that owing to the present dormant government allowing food profiteers to run rampant without being arrested for adopting a system of fixed trade prices, whereby they obtain excessive profits or business tariffs at the expense of the consumer, it is the duty of the Federal Reform Association to demand that the government withdraw the charters from all incorporated companies and public utility corporations, which have eliminated competition in trade and fixed prices by conspiracy against the consumer.

"Combining is a restraint on trade," said Mr. Hanna. "and competition is the corner-stone to all commercial life. Unless competition has a free course economic reforms will be a failure."

Controls Many Things.

"For instance," said Mr. Hanna, "the fixing of wheat at \$2.25 per bushel will keep up the high cost of living, as wheat prices will control largely the price of all cereal food which enters into the production of all kinds of meats, milk, cheese and butter, and I cannot agree with the western farmer who would ask for free implements on the one hand and seek a protective price for wheat on the other."

"We want a full dinner-pail at the lowest price possible for the Toronto people, and we must adjust trade relations with one another in Canada to bring down the price of living," concluded Mr. Hanna.

EARLSCOURT

SITE FOR CITADEL BOUGHT BY S. A.

New Effort Endorsed by District—Will Seat Five Hundred.

The building fund committee of the Salvation Army are now able to make the announcement that a plot of land has been purchased on the south side of Dufferin street for the erection of the new citadel for this district. The land has been purchased at a moderate figure which enables the local corps to put up a building suitable for their requirements, and its location is such that it will make it more or less a good central location for Salvation Army activities.

The present building on West St. Clair avenue and the building on Hillingdon avenue and on three new streets to be opened out just south of the Danforth avenue civic hall bars.

It is expected that the houses to be built on Hillingdon avenue will cost much less than the first fourteen now being completed, owing to the fact that the commission has decided to allow the buildings to be erected by contract. The Coxwell avenue houses were erected by the commission by the National Railway Board, and proved more costly than it would had the housing commission advertised for tenders to build by contract.

Work of excavation for a number of workmen's houses has already started on the Webb property. The contract is the property of the commission to three different contractors.

EAST TORONTO PLAYGROUND PROVES BOON TO DISTRICT

Since the inauguration of the supervised playground on the land adjoining the Y.M.C.A. Main street, East Toronto, a great improvement is noticed in the district. According to the statement of a prominent business man, a wonderful change has taken place, and the children who monopolized the main streets for their playground, to their own danger and the annoyance of the residents, are now able to enjoy themselves with all kinds of amusements under the personal supervision of the two women and one male supervisor.

Large crowds are also attracted to the baseball games held under the auspices of the Y.M.C.A. who are also arranging for a quill league and other amusements for the young people of the district.

HOUSES NEARLY READY

In connection with the Toronto Housing Commission's houses on Coxwell avenue, fourteen are now ready for interior plastering, and contracts, it is stated, have been let for 300 to be erected on the land recently purchased by the commission on Hillingdon avenue and on three new streets to be opened out just south of the Danforth avenue civic hall bars.

It is expected that the houses to be built on Hillingdon avenue will cost much less than the first fourteen now being completed, owing to the fact that the commission has decided to allow the buildings to be erected by contract. The Coxwell avenue houses were erected by the commission by the National Railway Board, and proved more costly than it would had the housing commission advertised for tenders to build by contract.

Work of excavation for a number of workmen's houses has already started on the Webb property. The contract is the property of the commission to three different contractors.

WEATHER STOPPED SHOW

Owing to the inclement weather, the outdoor moving picture show held every Monday evening in connection with East Toronto Y.M.C.A. was held last evening.

WEST HILL SOLDIER COMRADES GIVEN SIGNET RINGS

A meeting of the "Soldiers' Comrades League" of West Hill was held recently in Melville Presbyterian Church. Rev. M. McLeod occupied the chair.

Rev. Mr. Durnford and Rev. Mr. Frazer delivered addresses of welcome, and James G. Cornell, reeve of Scarborough made the presentation. Supporter served, and a musical program was contributed by Miss Jean Little and Mrs. J. R. Kennedy.

BRICKBATS BECOME GARDEN

Charles T. Lacy, provisional secretary of the Fairbank G. W. V. A., claims to have the finest garden in the city. He has cultivated it for the time it has been cultivated. It is only about six months ago since Mr. Lacy built a house on Hatherly road and the garden was practically all brick bats. He never thought he would be able to raise anything else but weeds but to his surprise he has raised a crop of fine beets, peas, string beans, tomatoes, potatoes, squash and other garden produce. Many people are making trips to see the garden.

LILLING WON EVENT

The prize winner in the Peace parade for the offices of Canada and John Bull was not Allen's Theatre but George Lilling of Logan avenue.

PARADE MARSHAL

Sgt. Major H. Phillier of the Earlscourt G. W. V. A. was the marshal in the great peace parade on Saturday last. Phillier wears the Mons medal and has been on active service for nearly four years at the front.

NEWMARKET REBUILDING BRIDGES.

Newmarket town council met in the council chambers last night and discussed the advisability of replacing the wooden bridge on Queen street by a cement bridge. No definite decision was reached, and the matter was laid over until a later meeting.

The contract for the construction of the municipal bridge at Prospect street, recently destroyed by floods, was awarded to the Lewis Company of Toronto, and work will begin in the immediate future.

It was decided to observe a civic holiday on August 1. The usual accounts were passed and routine business disposed of.

YORK WHISKEY FOR PICKLING COST MAKER HIGH

Several alleged makers and purveyors of liquor appeared in the county police court yesterday morning, and in one case, exhibit A, was an elaborate collection of copper pots and boilers. That paraphernalia belonged to Tullio Brindisi, who was arrested last week and will be tried on Thursday morning.

Rosa Prelatoro, an elderly female, was charged with selling liquor without a license, and was fined \$500.

Alexander Bohalac told the court that he was making the "stuff" for pickling, but the magistrates fined him \$211.50 for the privilege. Peter and William Hodges and Roy West were charged with distilling and were remanded.

FELL FROM SCAFFOLDING.

Robert Billings, 482 Dufferin street, fell from scaffolding on Victor avenue, Mimico, yesterday and broke his leg. He was moved to a home ambulance, but was later removed to Grace Hospital. Late last night his condition was reported as favorable.

NORWAY ST. JOHN'S CHOIR PICNIC

The sixth annual choir picnic in connection with St. John's Parish Church, Norway, will take place at Queenston Heights tomorrow. Rev. W. L. Baynes, rector, will accompany the party.

WANTS RAILWAY TO ORDER MORE COAL

Nova Scotia Mine on Point of Closing, Manager Declares.

Sydney, N.S., July 21.—At a public meeting at Little Bras d'Or, called to consider the question of the shortage of work at the local colliery, it was decided to forward resolutions to Ottawa asking the government to order the quantity of coal ordered from the mine to an amount more nearly equal to the mine's fair share of the coal orders placed in Nova Scotia for the National Railways.

Manager George Burchell gave some facts and figures and said the colliery was on the point of being shut down. D. D. McKenzie, M.P., leader of the Liberal party, who was present at the meeting, will take the Bras d'Or case up with the government, who by treaty to Ottawa in the course of a few days, and will urge that action be taken to meet the situation.

Hon. H. C. Lavette, who also addressed the meeting, stated that in his capacity of warden of the municipality he would send letters to Sir Robert Borden and the minister of the Interior, and to D. B. Hanna head of the board of directors of the Canadian National Railways, drawing attention to the state of affairs existing here, and requesting that more coal orders be placed with the collieries.

Premier Borden's Message.

Sydney, N.S., July 21.—At a labor meeting held this afternoon at Sydney Mines, a telegram from Sir Robert Borden was read, dealing with coal purchases by the National Railway Board. At the same meeting, Butts denounced local union mine worker leaders as demagogues and agitators. The secretary of the meeting stated the proceedings by reading a number of prepared questions, which were evidently designed as expected to be presented by the miners to the politicians, who were expected to be present. The questions dealt mainly with unemployment at Sydney Mines, and the government's apparent apathy in the matter of furnishing orders for coal to the mines. The secretary then read the following telegram on the C. N. R. coal situation from Sir Robert Borden:

"Mayor McKenzie, Sydney Mines, C.B.—The Canadian National Railway board advise me that they are purchasing over 200,000 tons of Nova Scotia coal this year than last year, and also the present weekly consumption is only 13,000 tons they have placed orders for 100,000 tons of coal in Nova Scotia and Cape Breton and are taking from those companies 16,445 tons a week. They have accumulated seventeen weeks supply and are increasing their stock at the rate of 2,000 tons a week. They have distributed their orders with due regard to the output of the various mines and not one of American coal has been purchased to supplant Nova Scotia coal. Unfortunately, the Dominion Coal Company and Nova Scotia Coal Company are handicapped in the St. Lawrence commercial trade by present universal shortage of tonnage and this has subsequently affected the Cape Breton and Nova Scotia outlook. Canadian National are still taking large tonnage in exchange of actual requirements and cannot add to present orders as they are operating but two boats between Quebec and Sydney."

(Signed) "R. L. Borden."

J. B. MacLachlan, Silby Barrett and D. D. McDonald also addressed the meeting, their remarks being much in line with those which have recently made. Mr. MacLachlan was disposed to accept the premier's statement and felt that the government ought to do something to help the miners. He stated that he was in sympathy with the aims of labor. What was needed was a change of ownership from the few to the many.

HAMILTON NEWS

Lieut.-Col. J. C. Meakin has accepted the chair of therapeutics at Edinburgh University.

Chartrand, the insane murderer who escaped from the Ontario Hospital is still at large. Inspector Dunlop says the man is not dangerous, being regarded more as an imbecile than a lunatic.

The G. W. V. A. declines to take the profits made by the stores keeping open on peace day. The money will be turned over to local charities.

The board of control will today consider the advisability of revising and amending the by-laws of the city. A number of complaints have been made.

The special committee for investigating excessive house rentals is being asked to probe the recent boasts on dwellings owned by the C. N. R. "below the bridge."

An educational campaign is to be carried on by coal dealers, with the idea of inducing the public to use bituminous fuel for the early fall and spring.

A number of Hamilton men who came over on the Cedric were given a warm welcome home last night.

WHITES AND NEGROES GLASH IN WASHINGTON

Known Casualties at Midnight Totaled Ten, With Two Men Killed and Two Dying.

Washington, July 21.—Rioting between negroes and whites broke out late tonight in the national capital in retaliation for recent attacks by blacks on white women. At midnight tonight, the known casualties list totaled ten, including two deaths, and two men probably dying, while uncounted, but police records placed the number at a much greater figure. Of the dead, one was a city detective, shot thru the breast by a negro woman, who was firing indiscriminately from the upper storey of her house.

The negro, who is a girl of about 17 years, also was shot, but not fatally. In another part of the city, a black firing from a garage door, kept the provost guard of soldiers, sailors and marines at bay for several minutes, but finally was shot down.

Many clashes occurred between whites and blacks on street cars. One negro attacked on the bus, and a car fired into the crowd following the car and wounded four persons, but finally was stopped by a city detective, who was reported to have sent seven bullets into the negro's body. Each of the four white men was only slightly wounded.

Police stations late tonight were swamped with reports of clashes between mobs of whites, largely made up of soldiers, sailors and marines, and negroes in many different sections of the city.

Crowds, which moved up and down Pennsylvania avenue, between the capitol and the White House, despite the presence in the city of two troops of cavalry and four hundred other armed service men, grew more determined as the night wore on, and outbreaks were reported more frequently.

A mob, composed largely of civilians, according to the police, cornered a negro and in the fight which followed the black was shot and his skull crushed by the butt of a gun.

FOURTEEN RUSSIANS ARRESTED IN VANCOUVER

Vancouver, July 21.—Acting on warrants sworn out by Major Fitzhugh, superintendent, the R.N.W.M.P. have arrested fourteen members of the Russian Workers' Union here, on the charge of being members of an organization inimical to organized government.

Some of the men arrested are well known and have resided in this city for years. The men are now held by the immigration authorities, and if the charges against them are proved they will be deported.

Lightning Destroys Ontario Barn; Killing Five Horses

Special to The Toronto World.

St. Jacobs, July 21.—During a thunderstorm which passed over this district the barn belonging to Nathaniel Martin, west of the village, was struck by lightning and totally destroyed. All the implements but the thrashing machine were saved, as well as the live stock, excepting five horses, which were killed. The loss is estimated at \$5000, and there is no insurance.

Japan Prepares to Add Many Ships to Her Navy

Tokio, Friday July 18.—The naval department has drawn up a three years building program, according to the newspaper Nichinichi. The new construction includes two battle cruisers, smaller of 40,000 tons, and numerous smaller craft.

MEN FROM THE FLEET TO AID PUMPING

Lloyd George, in House, Announces That Many of Them Will Be Ruined.

London, July 21.—Sir Eric Geddes, minister without portfolio, was appointed today a commissioner to attempt to settle the miners' strike, and is on his way to Yorkshire. Premier Lloyd George announced today in the house of commons.

Three mines in the Yorkshire district are flooded, and twelve others are likely to be shut within a day or two, Premier Lloyd George said, as a result of the pumpmen's strike. Some of the mines, he said, would be ruined. The government is sending men from the fleet to aid in pumping out the mines.

Mr. Lloyd George said the last 24 hours had witnessed grave and unprecedented developments in the miners' strike. He said the Yorkshire miners had called out the pump men and engineers, and that many mines in that district were suffering from the rising water and were threatened with destruction.

At fifty-eight mines, he said, the necessary men were at work, but that in eighty-five mines pumping had been stopped entirely. He added, however, that the pumping of thirty-five mines after the men left. The Yorkshire coal fields, the premier said, produce 3,000,000 tons of coal a year and were second largest in the United Kingdom.

Messages to Federation.

The government, he said, had sent messages to the miners' federation, asking what action it is prepared to take, and stating that the government was prepared to withdraw the men if it had sent to replace strikers on the mine pumps as soon as the strikers returned to work. Until this had been decided, he added, the government would take every means at its disposal to save the mines and to afford protection to those willing to work.

He said that Sir Eric Geddes would seek to co-ordinate efforts to overcome the serious menace threatening Yorkshire. The premier stated, not only jeopardized the own means of livelihood, but threatened disaster to everyone in the district.

Strike in Protest

As a protest against the increase of six shillings in the price of coal, which came into effect today following the refusal of the miners' federation to accept a compromise on the wage and other conditions, the general public in the Mansfield district of Nottinghamshire refused to go down into the pits this morning. The men in other parts of Yorkshire mine owners, subject to the question of the increase of the price of the coal.

Some 200,000 miners are out in Yorkshire for an increase in wages granted by the government. The miners are not yet to approve of the coal controller. The West Yorkshire owners, however, withdrew from this agreement.

The strike is being considered as very serious because the workers engaged in pumping and other labor essential to the safety of the mines, joined the better of the strikers, such workers have been allowed to continue at their tasks during strikes.

Forty-five thousand miners also went on strike in the Derbyshire district as a protest against the increased price of coal.

Sheffield Hard Hit.

A staggering blow has been struck in the Sheffield industries by the strike in the Yorkshire coal fields, says a despatch to The Evening News, from Sheffield today. Thousands of hands were thrown out of work this morning by the stoppage of the engineering works in Sheffield, which announced the bestler of the strike, and that they will remain closed until the end of the strike. Before the end of the week it is feared that all the large works will be shut down, the advice of the government.

Large numbers of surface workers at the mines in South Wales are also on strike for the same reasons, such as those granted the miners, and for extra pay for week-ends. A number of other strikes in various parts of the coal field are reported. One colliery in South Wales has been closed because of alleged harsh treatment of the men, while at another colliery the men are on strike for the maintenance of the custom by which they were supplied with coal at nominal prices for their homes. A general strike, the despatches state, is threatened on this question.

It was pointed out that the proposed increase of six shillings per ton for coal, announced by the government, would make the best quality cost 52 shillings six pence in London, with a bottom price of 46 shillings six pence.

BOLSHEVIK REFUSE TO RELEASE SWISS

Two Men and Five Women, Members of the Legation, Have Been Arrested.

Stockholm, July 21.--The Bolshevik government at Petrograd refused to release five members of the Swedish legation at Petrograd, recently arrested. It was announced here today. An official of the Swedish foreign office said it was his belief representatives of other nations at Petrograd probably would be arrested. The members of the Swedish legation arrested were two men and five women typists. Sweden protested, but the Bolshevik government replied that the arrests were based on violation of laws, and that the plea of diplomatic immunity could not be recognized. Answering a renewed protest, the Bolshevik government said only three persons were arrested.

GOVERNMENT URGES PLACING COAL ORDERS

Supplies Not Coming to Canada as Rapidly as Last Year.

Ottawa, July 21.--Sir George E. Foster, minister of trade and commerce, has issued the following statement on the coal situation: With the signing of the peace treaty the U. S. fuel administration has automatically ceased to exist, and the production and distribution of coal in that country is now governed solely by the law of supply and demand. All wartime regulations, restrictions and embargoes have been cancelled. As has been previously intimated the Canadian fuel control was disbanded on March 31 last. The coal supply of the nation therefore now depends on the individual efforts of the coal trade, and the co-operation it receives from the consumers in placing their orders for coal at once. The information at hand indicates that coal is not coming into the country in the same quantities as last year, or even as it did in normal war years. This is especially true in the maritime provinces. Substitutes Suggested. It is not safe to assume that next winter will be a mild one, nor is it possible to forecast what the labor situation at the mines will be; or what success the railroads (just recovering from the strain of the war period) will have in coping with the possible adverse climatic conditions this coming winter. The government therefore urges all consumers to protect their fuel requirements by placing their orders at once. If it is impossible to secure full requirements of anthracite at this time, it is suggested that bituminous coal or other substitutes be acquired for use in the late fall and spring.

ONTARIO SOLDIERS IN CASUALTY LIST

Ottawa, July 21.--The following casualty list was issued today: Infantry, died--790,795, J. E. Ryan, not stated; 3,060,791, A. H. Love, Milford, Ont. Previously reported missing, now for official purposes, declared dead--2,498,825, P. J. Springgarn, Sault Ste. Marie, Ont. Ill--2,497,962, P. Swanson, Attawapisket, Ont.; 3,057,308, J. P. Macawa, not stated; 3,135,056, R. E. Bell, Ingersoll, Ont. Medical services--627,865, P. W. White, 127 Hazelton avenue, Toronto, Ont. Deaths in Canada--2,015,311, J. Doherty, Ireland; 75,816, R. S. WILSON INDISPOSED; ENGAGEMENTS CANCELED

Washington, D. C., July 21.--President Wilson returned to Washington early today from a week-end cruise to Hampton Roads and was immediately ordered to bed by his personal physician, Rear Admiral Grayson, who announced that the president was suffering with dysentery. Admiral Grayson said the president's condition was not serious, but that he probably would be unable to receive callers before the end of the week. Engagements, which Mr. Wilson had with a number of Republican senators to discuss the peace treaty and the league of nations, were cancelled.

Robber Holds Up Lady Bank Teller and Manager

Fort William, Ont., July 21.--A lone robber entered the east-end branch of the Imperial Bank of Canada there at one o'clock this afternoon and held up Miss Devlin, the teller, and the manager, F. W. Cummings, at the point of a revolver and secured about \$2,000. The man was not masked.

STOLEN MACHINERY IS BEING RETURNED

3000 Tons Being Shipped Back Weekly to Former Belgian Owners.

Brussels, July 21.--The work of recovering stolen Belgian machinery from Germany is proceeding with full swing. Approximately 3,000 tons of machinery are being shipped back weekly to the original owners by German industrial firms who have set them up in their own factories. The total tonnage returned on July 1 was 18,000. The Belgian government will this week issue regulations governing trade with the Germans. Every transaction will require a license and importers and exporters will be obliged to submit specifications, prices and other details. Subject to this control, trade will generally be free, except the exportation of gold, platinum, arms and munitions. Importations of raw materials from Germany will be encouraged and the importation of finished products, not directly competing with Belgian industries, will be permitted.

FETE FOR REFUGEES

Paris, July 21.--A victory fete was given at Coucy le Chateau on the old Hindenburg line, for thousands of returned refugees who were unable to participate in the celebration in Paris. SHOE RETAILERS HOLD CONVENTION

Recently Organized Association Holds First Official Reunion.

VALUE OF ADVERTISING

Expert Says Sellers Could Devote Five Per Cent. to Advantage.

More than 300 delegates are in attendance at the Canadian National Shoe Retailers' Association, which opened its first annual convention at the King Edward Hotel yesterday.

The official meeting of the association got under way at 9 o'clock yesterday, when the various delegates appeared and were duly registered by the secretary.

Chairman W. T. Fegan of Toronto, after calling the meeting to order, and stating the aims and purposes of the association, introduced Controller W. D. Robbins, who welcomed the delegates to the city in the name of the municipal government.

The first routine business of the day was the work pertaining to the organization of the association. The constitution and bylaws which had already been drawn up by special committee, were presented to the general body, and they were passed without any changes.

An executive council of the officers and 15 members was provided for, and three of these were elected. The council shall consist of one member from each of the provinces of British Columbia, Saskatchewan and Alberta, three from Manitoba, three from Ontario, three from Quebec and three from the maritime provinces.

Addresses relative to matters affecting the retail shoe trade were delivered by F. S. Scott, M.P., president of the Canadian Shoe Manufacturers' Association, and R. H. Greene of the Gutta Percha Rubber Company, Toronto.

Advertising R. A. Baker, of the Baker Advertising Agency, was the first speaker after the noon adjournment, giving an address on "Advertising." Mr. Baker pointed out the value of good advertising, and advised every dealer in attendance to apportion as high as five per cent. of his total earnings to advertising.

Window display was another large item in promoting sales, said Mr. Baker, and he said that nearly every storekeeper on Yonge street received less than 50 per cent. of the true value of his window advertising.

"Making Your Business Pay," was the topic on which F. W. Stewart of the Cluett-Fenobdy Co., Montreal, spoke. In outlining his address, Mr. Stewart said that nearly 90 per cent. of the failures in business in Canada were due not to lack of business, but to lack of knowledge of business methods.

A paper on "Fire Insurance" was given by W. G. Wright, insurance editor of the Saturday Night, contained a good deal of technical information to the dealers on what kind of fire insurance they should invest in.

Shop Topics A number of questions on purely shop topics were discussed when the question box was opened and answered by Capt. Howard C. Blachford.

Other papers read were: "Exchanges and Returns," H. W. Blaine, St. John N.B.; "Retail Shoe Store Credits," Fred Argall, Three Rivers, Que.; "Standard Cartons," led by Mr. J. W. Jupp, "Transient Trades," W. C. Miller, secretary Ontario Retail Merchants' Association; "Local Organization," Wm. A. Smith, Hamilton.

Reception Some 200 of the members and their lady friends attended an informal reception which was held in the Pentagon room at the King Edward Hotel last night. The reception was held primarily to get the members acquainted with each other and the chairman Fegan said as he welcomed the members to the affair, everything was ready for them to enjoy themselves.

Do not suffer from itching, bleeding piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once. Sample box free if you mention this paper and enclose 10c stamp to pay postage.

VETERANS LIKE THEIR NEW HOME

Old German Club, Now Renovated, Breathes New Atmosphere.

What memories skirt over the imagination of the Canadian who realizes that he sits in halls once occupied by proud citizens of the erstwhile great Germanic empire, especially if that Canadian is a returned soldier. This is just what is happening at 41 Isabella street, within the quarters once known as Deutsches-Zollverein Gesellschaft or some such high sounding Hunnish title.

GETS SIX YEARS FOR HITTING HUN

American Soldier Imprisoned at Leavenworth for Striking German Officer?

Harry J. Gordon, properly named Graham, brother of a member of West Toronto G. W. V. A. who enlisted with the American forces in 1918 has apparently touched the sore side of American discipline. He writes to his mother to say that he has arrived in New York from Germany where he slapped a German officer in the face.

COMING BACK FAST G. W. V. A. officials report that during the week ending July 12 nearly a thousand officers and nearly eleven thousand other ranks reached Canada.

ARMY AND NAVY DELEGATES.

Lieut.-Col. McCausland, president of the Army and Navy Veterans of Canada, is one of the delegates to the Dominion convention of the association which commences in Montreal on Thursday.

HIGH PRAISE FOR "Y."

Sir Edward Kemp in his official review of the Canadian forces generally, has given high commendation to the work of the Canadian as of all "Ys," and points out that the organization which attended to both the material and spiritual needs of the men at the front faced almost insuperable difficulties with that resource which has won admiration on all sides.

WILL PREVENT DISCRIMINATION

Veterans league officials have requested the C. N. E. officials to permit representatives of all soldiers' societies to stand at the entrance gates to the Exhibition, so that all members of organizations may be identified as well as the men who wear the war service button.

MUCH TO INVESTIGATE.

Comrade Gustar, secretary of West Toronto G. W. V. A., stated yesterday afternoon that he was overwhelmed with investigations at the moment of going to press. He had several with respect to conditions at Cobourg Hospital, and others again in Toronto, besides that respecting the case of the American soldier serving a term of seven years, allegedly for striking a German officer in Germany.

HONORED IN DEATH.

Comrade Broadbent, late of the 2nd East Ontario Battalion, and later with the 2nd Machine Gun Battalion, was accorded the same soldierly honor which can be accorded to veterans, yesterday afternoon, and his remains were interred at Norway Cemetery under the auspices of the Great War Veterans of Riverdale. A large gathering of the 2nd Battalion veterans were present to do honor for the last time to their popular comrade, and the funeral was largely attended by members of the War Veterans' Association.

WILL TEACH CHILDREN ARTS OF HOUSEWIFE Housewife centres rather than domestic science demonstrations are to be the attractions in the schools during the coming term. At the school openings it is expected that five schools will be equipped for the work. The old method taught cooking at a big desk with 25 burners; the new way will endeavor to teach housekeeping in many phases. A large room will be divided into the several apartments, such as kitchen, dining-room, bedroom, bathroom, the furniture of each being installed, and this pupils will be taught to keep in order and to put to their proper use. Huron Street School has an entire house, and here Miss Noble, who did such good work at the Orde Street School, will have charge.

COL. DENISON'S SALARY LIKELY TO BE RAISED On the recommendation of the police commission, of which he is a member, it is stated that the city council will have before it the subject of an increase of \$1000 in the salary of Police Magistrate Denison. It is understood to be for his services on the commission, and if the rise is granted this would bring the magistrate's salary up to \$7000. The city has received from Judge Moreton a bill for \$340 for his services on the board of police commissioners during the illness of Judge Winchester, and prior to the time he was appointed permanently. Some men drop all their money trying to pick up more.

Nationalization in Britain

A very definite stand is being taken by British labor in favor of the nationalization of natural resources, and of public utilities. The recommendation of the Sankey commission, that the coal mines be nationalized, is one of the striking incidents of the development of this policy.

Ontario Joins Up With the Three Prairie Provinces—A Program and Leader Later

The creation of a Dominion-wide farmers' party in politics was announced yesterday by J. T. Morrison, secretary of the Ontario U.F.O., who had just returned from Winnipeg, where steps were taken to inaugurate the new movement. The object, said Mr. Morrison, is to elect as many farmers as possible to the house of commons.

Three Old Residents of Oxford County Are Dead

Woodstock, Ont., July 21.—Death has claimed three old and widely respected residents of Oxford county. Mrs. Susan Loeese died this morning on her birthday at her home in the city, aged 73 years. She was born in Norwich, and lived in the county all her life. Benjamin Franklin Young is dead in the county all his life. John Lancaster passed away at the age of 74 years. He was born in Paris, Ont., but later moved to Oxford, where he lived the remainder of his life.

Did Not Regard Letter as Protest

Paris, July 21.—The letter signed by Secretary of State Lansing, Henry White and General Tasker H. Bliss of the American peace delegation, advising against the turning of Shantung to Japan, was submitted before the signers had knowledge that any decision had been made as to the disposition of Shantung. It is declared in authoritative quarters here, and was therefore not regarded by them as a protest.

AWAIT GOVERNMENT ACTION ON WHEAT

(Continued From Page 1)

demand this year for mixing, according to reports reaching here.

"There is considerable speculation as to local grain brokers as to what the fixed wheat minimum price will be.

Grain men are predicting that it will be somewhere between \$1.40 and \$2.

It is contended that if the market price recedes to this level, it will only be because of shortage of tonnage.

British Government Undecided.

The British government has not decided to purchase wheat in the open market, according to advices received here recently by grain men.

Montreal Star. These gentlemen, who keep an ear close to the ground in this matter, state that the British government, according to best informed sources, will not make its decision in the matter until August, just prior to the receipt of the new crop.

Whether the British government should or should not allow her people to buy in the open market is a question upon which grain men differ greatly.

It is generally conceded that if there is a prospect of securing anything like sufficient ships to move the crop it would be better for the British government to decide to buy in the open market.

On the other hand, should the death of shipping continue at the most serious of the opinion that the open market buying would have a very bad effect upon the Canadian grain business.

There is little probability that the British government in any case will see to it that ships are provided somewhere to handle Canadian grain.

U. S. Situation.

Grain men say that now that the United States has fixed its minimum price, and in view of the fact that Julius Barnes, in charge of the situation for the United States government, is not anxious to see this government make up a great deficit to the farmers of that country, it is not likely that the government of the United States will sacrifice its treasury in part in order to see their farmers out the price in open market at a much lower price than the British government could buy it at the elevators at Fort William.

The shortage of shipping and the long trip from Argentina to the United Kingdom swayed the imperial authorities in their decision so that it was decided that in order to save ships the Canadian wheat be purchased. This was done and the same conditions are likely to prevail this year.

Canadian wheat, it is believed, will sell considerably below the fixed price of the United States, but the ability to move the American crop by reason of increased shipping facilities is the trump card of the people to the south of the border.

The situation is admittedly to be very serious, the most perplexing that has ever faced Canada so far as her wheat crop is concerned.

PLAYS, PICTURES AND MUSIC

AT ROYAL ALEXANDRA.

Full Comedy Strength of Robins Players Brought Out in "A Very Good Young Man."

"A Very Good Young Man," by Martin Brown, is a piece that brings out the full comedy strength of the Robins Players, and last night's performance at the Royal Alexandra betokened a record week in attendance.

While it is described as a sensational, the engagement itself is more sensational for the unrepresented in the whole Dominion.

Nearly half the city's population has seen "Mickey" since its opening at the Grand Opera House, but the picture and such wonderful drawing qualities that the same people come again and again to see it.

Its unusual construction, its intensely interesting story, its big vein of natural and wholesome comedy, the clever portrayal of the various roles, the excellent photography and the exciting horse races all combine to make it for its popularity.

Aside from the interest manifested by the amusement public the engagement is the talk of the town.

The owners are in receipt of thousands of letters from outside points seeking information when the picture will be shown in the Ontario towns and cities.

During the stay of "Mickey" at the Grand a matinee will be given every day.

AT LOEW'S.

Love, Murder and Happiness Form Theme of Film Featuring Alice Brady at Her Best.

"In the Hollow of Her Hand," at Loew's this week, features Alice Brady in the role of an English girl, who is entirely in the power of a woman whose husband she murdered.

She is in love with a young man who finally breaks the shackles of slavery and finds love and happiness.

The plot of the story is gripping and shows the film star at her best, with an excellent cast in support.

The Five Musical Misses headline the vaudeville attractions. They offer a national dance in addition to some specialty, which embraces the piano, violin and the heavier brass instruments.

In their presentation of "Dance Fantasia," an act decidedly rare to vaudeville, and features various national dances in addition to some of the latest ragtime.

The Kremka Brothers are exceptionally clever in their rough and tumble stunts and introduce some extraordinary feats of strength.

Ash and Hyams, the well-known Hebrew comedians, provide a number of original parodies on the latest song hits, while Hinkle and Mae have a clever skit which overflows with bright witicism.

Interludes with bright witicism intersperse the acts, and the program is a most enjoyable one.

MARY PICKFORD AT MADISON.

Big houses at the Madison Theatre yesterday were obvious.

Delighted with "Daddy Long Legs," the seven-reel feature in which Mary Pickford is said to excel herself.

The picture is splendidly made in every way, its appeal is universal and the star's acting superb.

"Daddy Long Legs" will continue to be presented today, tomorrow and Thursday, with a special matinee tomorrow (Wednesday) at 2.30.

Man Fractures Skull in Fall From Street Car

Special to The Toronto World.

Woodstock, July 21.—Fred Clayton, the young farm hand who suffered a fracture at the base of the skull when he fell from a street car near this city on Saturday night, and who was removed to the hospital, is today reported to be in a very serious condition.

The attending physicians hold out some slight hope, but he is in a precarious condition.

The accident happened when Clayton tried to change seats in the car, which was open at the side. He lost his balance.

BREACH OF O. T. A.

Special to The Toronto World.

St. Catharines, Ont., July 21.—James Hagan was today fined \$200 for breach of the Ontario temperance act in having a bottle of whiskey on his person when he was arrested on St. Paul street last night.

Hagan admitted he had been drinking and stated that he had bought the liquor in a bootlegging joint in Niagara Falls, N. Y.

"MICKEY" DRAWS CROWDS.

Eighth Week at the Grand Shows No Falling Off in the Patronage of Popular Film.

For the eighth week "Mickey" commenced yesterday with two capacity houses, maintaining a patronage that has never been equaled in the history of local theatres.

This picture is the wonder screen drama of the times. While it is described as a sensational, the engagement itself is more sensational for the unrepresented in the whole Dominion.

"THE AVALANCHE"

Film at the Allen Shows Elsie Ferguson in Dual Role as Ingenious and Gambler.

Elsie Ferguson, starring in "The Avalanche," at the Allen this week plays a dual role in her inimitable manner.

As Chiquita, a sensuous daughter of old Spain, she portrays the fiery, fatalistic passion of the South and as Helene typifies the convent ingenue.

The story is one of interest and deals with the hereditary gambling taint in the blood of Helene, daughter and granddaughter of gamblers.

In the play Chiquita, Helene's mother, is the daughter of a gambling Spaniard living near Monte Carlo and is left penniless when her father is killed in a brawl.

She carries a wolf breed pariah and when he kills himself because of excessive gaming losses, Chiquita places Helene in a convent and later marries another gambler with whom she comes to New York and opens a fashionable gambling house.

Helene, Mary Emmerson, is the daughter of a gambler and is left penniless when her father is killed in a brawl.

SHINING TREE ROAD IS GREATLY NEEDED

Diamond Drilling Plants Held Up and Execution of Contracts Delayed.

Westree, July 20.—The government is pushing work on the road from Westree, there is one diamond drilling plant stalled at Roseland, 13 1/2 miles from the steel, and others lie at Westree unable to reach the mines. This interferes with the execution of contracts for drilling at the Atlas, West Tree and Herick mines.

Many voices are heard in dispraise of the apathy of the government in reference to the greatest mining resource. This section should have had a railway before the war. Prospectors and mine owners feel that they have not received fair play. An inexperienced man was sent to report on the first discoveries. He was not aware of what surface indications should be given for guidance. Hence Shining Tree suffered for many years. Now the road building policy of the government is at best a half measure. Next year a considerable part of the work of this year will have to be done over again. The weakness and indecision of the government spell partial stagnation for the greatest mining region in the world. If Shining Tree were situated in any state of the American union it would now be producing \$100,000,000 per year. Cripple Creek, the greatest mining region in the U. S., has a production of only \$250,000,000. There may be several mines in this camp with an equal output. If the body at the Waspaika gold province to be forty feet wide it will practically rival Cripple Creek.

The Only Criticism
The only criticism of Shining Tree has come from scollists who fancy that because of the great distance, the care sometimes small the payable zone must be small. In parts of the western states whole forests have been sacrificed without the slightest benefit. Quartz is a persistent mineral. It may form at depth from hot or on the surface from volcanic action. It means nothing. And it has been repeatedly pointed out in reference to this camp that the quartz veins often lie in zones of great irregularity and that gold is found throughout. In fact, quartz is getting out of fashion in Northern Ontario, as it is being replaced at depth by sulphides in the "Big Dome," the value of the ore increasing. There is an outcrop analogous to this camp, but as a specially promising. Fracture and the formation of ore channels is of paramount importance. There is an abundance. For the work done this camp is now showing up quite as well as the better than any of the older camps at the same time he owned ever did want adequate transportation. With that it would very soon have outgrown the grossly inadequate report of the Ontario bureau of mines.

Overnight news that the Cobalt miners would "down tools" on Wednesday, unless the mine owners agreed to recognize the union, a contingency which seems very remote, was not the most cheerful import, and some of the silvers gave way quite perceptibly. Prominent among these soft leasues were LaRose, Trethewey, Timiskaming and Adanac. LaRose opened five points off at 38, and continued the decline to 36, closing there. LaRose is now 13 points under the hope that the point on news of a strike, later news having indicated that the said strike was less important than had been thought at first.

Trethewey declined four points to 31, Timiskaming two points to 36, and Adanac one point to 12. It is said that the persistent heave for there in the past two or three weeks has been due in part at least to the pressure of offerings held by the estate of the late Burr Cartwright. At one time he owned one-quarter of the Adanac stock, and at the time of his death it is understood that he held about half a million shares. Beaver at 29 was off a point, and Peterson Lake a shade lower at 12 1/2. Crown Reserve was up half a point at 25 1/2, while Contagous at \$2.60, McKinley-Darratt at \$1.70 and Mining Corporation at \$1.70 and Nipissing at \$1.10 were unchanged.

NO STRIKE LOOMING IN PORCUPINE CAMP

Hollinger and McIntyre Will Organize Company Stores for Employees.

While the Cobalt miners have apparently made up their minds to go out promptly at noon on Wednesday, according to wire information received yesterday afternoon by Hamilton B. Willis, over his private, direct wire, the situation in the Porcupine camp is completely settled to the entire satisfaction of the miners and mine operators. Mr. Willis' message with Timmins is as follows: "Yesterday's meeting of the managers and union men dealt with the high cost of living only. As a result of which the Hollinger and McIntyre men are going to organize company stores for the employees of the mines. The Hollinger are going to turn the store over to the union, and McIntyre, I understand, has gone to buy a building in Schumacher. These stores, I understand, will be in operation at the first of next month.

"The mine managers told the union men that it was practically impossible for them to raise the present scale of wages. The mines will also pay all men half pay. The union men have voted on the proposal for company stores was voted on yesterday by the union men, and the majority voted this as satisfactory. The labor union is therefore at an end in this camp, and strikes are all off."

There was some heavy buying of the Victory loan of 1923, which held firm around 100 1/2. The day's transactions: Shares, 1,770, including 100 mining shares; war loans, \$195,000.

BUY C. N. R. NOTES
New York, July 21.—William A. Read & Co. have purchased an issue of \$10,000,000 Canadian Northern Railway notes, secured by collateral, guaranteed principal and interest by the Dominion of Canada. It is understood a public offering of the notes will be made on Monday on about the same terms as the recent \$75,000,000 Canadian government 5 1/2 per cent. loan.

The last previous issue of Canadian Northern notes in this market was issued in September, 1917, since which time more than \$200,000,000 of maturing obligations of the company have been paid off in cash. All the \$100,000,000 outstanding capital stock of the company is owned by the Canadian government.

NEW YORK FUNDS UP AGAIN.
New York funds sold in the Toronto market yesterday at the greatest premium ever known, 7 1/2 per cent. to 3 5/8 per cent. The previous high price was 3 1/4 per cent. premium on 3 5/8 per cent. reached last week.

MINING NOTES
In the Porcupine district a shortage of labor is still felt, but the situation is showing gradual improvement, and is expected to soon become normal owing to the fact that at Cobalt there are quite a number of men out of work.

The Miller Independence Mines at Poston Creek has resumed work after a temporary curtailment, due to labor troubles. A new force of men has been engaged. Drifting operations at the 100-foot level toward the west have been completed, and the substantial tonnage of ore is being opened up.

A deal involving a large sum was closed yesterday in the city of Toronto. It is known as the No. 1535, which is one of the well known Berry claims, was purchased by interests in the city of Toronto. With the sale of the property several thousand dollars in cash was paid over.

Claim L 1535 is one of a group of five, which are situated directly south of the Burnside mines.
It is learned that Henry Cecil is endeavoring to negotiate a deal for the disposal of the Hohenaur claim in the Kirkland Lake district. It is said an endeavor may be made to consolidate

The Company is, therefore, assured of efficient management by men who have made a special study of similar organizations. Too much importance cannot be given to this feature of the Company's affairs.

NATURE OF ISSUE
Although comparatively new to this territory, coupon notes represent a form of short term financing in very general use and favor in large financial centres. The public is thereby offered an opportunity to profit by the present high rate for capital, and thus obtain a more favorable interest yield than is usually obtainable on an investment of this high character. On the other hand, the Company can arrange its permanent finances on better terms when more normal times return.

AS AN INVESTMENT
In view of the nature and permanency of the Company's business, operating as a Public Utility in a City which is enjoying rapid though conservative growth we consider that these Coupon Gold Notes form a most attractive short term investment.

We make this offering subject in all cases to previous sale and change in price. Orders may be wired at our expense; and Coupon Gold Notes or Registered Interim Receipts will be delivered free of charge at any Bank or Trust Company.

The foregoing statements and figures are based upon information obtained from reliable sources, and which, while in no way guaranteed, are correct to the best of our knowledge, and furnish the basis upon which we have purchased the above issue.

YEAR'S OPERATIONS AT KIRKLAND LAKE GOLD
In the third annual report of the Kirkland Lake Gold Mining Company for the fiscal year ended May 31 last, President F. L. Culver says: "A total of 546 feet of underground development has been accomplished to date, together with 88 cubic yards of station cutting. A large tonnage of ore is blocked out in the different levels, and the underground is in excellent condition to feed the mill. A careful study of the ground down to the 700-foot level gives no indication of any change of formation, consequently we believe that values will continue to a much greater depth. All development so far has been completed to what is known as the No. 1 vein system; there are two other known vein systems on the property.

The mill has been completed and put in operation. It is equipped with the latest and most approved machinery, and has a capacity for treating 150 tons of ore per day. The first bar of gold bullion was shipped on May 17. The surface dump contains 8000 tons of broken ore. A tramway has been erected and machinery installed to raise this ore to the mill for treatment. In the balance sheet the assets are set forth as \$1,610,181, the mining

claims being given a book value of \$1,000,000. Buildings, plant and equipment are valued at \$241,761, and \$340,481 is credited to development.
The annual meeting will be held on Wednesday, July 30, at 2 p.m.

NEW YORK CURB
New York, N.Y., July 21.—The curb market today was irregular and fairly active. Profit-taking was in evidence, resulting in lower prices in the majority of the stocks. The exceptions were up on account of pool operations. Several of the newer industrials and oil lacked support and declined several points, but the stocks that are time-tried suffered only fractionally.

Perfection Tire sold to the extent of 12,160 shares and closed up 1-16, the Rubber Tire, with sales amounting to 12,900 shares, closed at 65 1/2, a loss of 2 1/2 points. General Asphalt dropped from 25 to a close of 25. Exello Tire, on account of pool operations, advanced one point. Colonial Tire was steady at 40 1/2. Savold Tire issues were lower, with the exception of Savold of New York, which closed at 54, an advance of two points. Astma Explosives of 11 1/2, an advance of 1/2 of a point. Submarine Boat was heavily sold and declined 1 1/2 points, while Sweets Company of America was steady at 13 3/8. United Retail Stores dropped 3/4 point. The oil stocks also suffered, but there

was a strength of undertone that showed the public buying and faith in this class of securities. Livingston Oil was traded in to the extent of 15,900 shares, closing at 3 1/2, inasmuch as the production is now over 10,000 barrels per day and three new wells to be brought in when the two pipe lines are completed, the present selling price is considered below actual value and a sharp uprise in this stock is looked for. Salt Creek Products also suffered from profit-taking sales and declined 3/4 points, closing at 57 1/2. Both of the Sinclair's declined. Sinclair Cons., closing at 29, showed a loss of 2 points, and Sinclair Gulf, closing at 55 1/2, showed a loss of 1 1/2 points. Texas Producing and Refining was active, with sales amounting to 2500 shares, closing at 8, a loss of 1/2 of a point for the day. Midwest Refining also was under pressure and closed at 17 1/2, a loss of two points. International Petro was traded in to the extent of 1000 shares, closing at 22, a loss of 1/2 of a point.

The mineral shares were fairly active in a few of the issues, also lower. Boston and Montana was the most active, with sales amounting to 24,900 shares, declining to 7 1/2, a loss of 12 points for the day. Nitroking was strong, opening at 10 1/2 and closing at 10 1/2. Reports of the value of this company's holdings at the beginning to be appreciated by investors, and an upward movement in the stock is in evidence from the favorable reports published concerning the company's operations. Sunburst Cons. closed at 7 1/2. Other mining issues were fractionally lower.
