

MONTRÉAL'S BUSINESS BOOM

Operations for the Coming Season Show Vast Increase Over Last.

19 BUILDINGS TO COST \$2,800,000.

C.P.R. Workshops to Cost a Million, and G.E.R. Elevator \$250,000.

Montreal, March 8.—Few people, even residents of the city, realize the enormous extent to which building operations in Montreal have extended during the past few years. An evidence is not lacking that in this respect, as in many others, 1903 will outshine all its predecessors.

Mr. Chabossé, the city building inspector, reports that 10 large buildings already mapped out for the season's work will cost an aggregate of \$2,800,000, an advance of \$300,000 over 1902, and, altogether, it is estimated that this year's building operations will cost in the neighbourhood of \$5,500,000, or a million more than last year.

Some of the undertakings. A few of the buildings projected are: The C.P.R. workshops, estimated to cost \$1,000,000; proposed N. P. elevator, \$250,000; Notre Dame Hospital, \$200,000; Laval Polytechnic, \$100,000; Bank of Montreal, \$50,000; and alterations, \$250,000; Mount St. Louis Academy, \$50,000; Imperial Bank (May building), \$250,000; Royal Hotel and office building, \$75,000; in addition, the Grand Tower elevator at Windsor Park will cost \$250,000. A building factory on Gray Street will run to \$300,000, and the Chamber de Commerce is thinking of building a home of its own.

Died at Port Arthur. Port Arthur, March 8.—W. J. Haskin, merchant, died this morning at 10 o'clock. Deceased came to Port Arthur from Devonshire, England, in the early seventies. He has been in business for 20 years.

CHURCH DISCIPLINE BILL.

Lord Halifax and the Church Union Are Opposed.

London, March 8.—The chief religious event for England will be the discussion of the church discipline bill in parliament, which comes up as a private measure this week. It dispenses with imprisonment as a method of punishing the disobedient clergy and substitutes for it the deprivation of their posts and salaries. The bitter hostility of Lord Halifax and the Church Union to this Protestant measure is proof that it is considered an effective weapon against the extremists. The bill abolishes the bishops' veto power upon proceedings against the contumacious clergy, but this feature probably will be altered. Extremists at both ends of the English church are against the bill. The Protestants complain that the veto power of the bishops has been employed for the prevention of litigation and for licensing ritualistic disorders. Lord Halifax attributes all the troubles of the English Church to the ambitious attitude of the bishops, who, he says, have been over-zealous in their efforts to bring about the reformation of the church. He is due to the faithful work of the advanced clergy.

Notwithstanding the unpopularity of the bishops there is increasing agitation in favor of increasing the number of dioceses, although every new bishopric involves a costly endowment.

Gananoque Citizens Dies. Gananoque, March 7.—Gananoque loses one of her most useful citizens and leading manufacturers and a large employer of labor in the person of S. C. Skinner of the Skinner Company, who was highly esteemed by citizens and employees. He died at 3:30 this afternoon from bright's disease. Mr. Skinner was born in Brockville on Feb. 18, 1834. At an early age he was apprenticed to the transmitting trade, following that business in Cobourg and Detroit. In 1857 he entered into partnership with his father and brother in Gananoque.

POPE IS NOW RECOVERING. But He Will Not Hold the Proposed March Consistory.

Rome, March 8.—The Pope is recovering his usual health. At dinner today he appeared to have his usual appetite. He had a long conference with Cardinal Rampolla, the Papal Secretary of State, and Cardinal Rezzolini, Vicar General of the Pope. The Pope has decided to receive all pilgrims on Monday. There have been many false alarms in regard to the Pope's health, often based on a slight cold or something similar, but now there has undoubtedly been more serious cause for alarm. The wonderful old man seems again to be returning to his normal health, which is marvellously sound.

TROUBLE IN B.C. POLITICS. Believed That Joe Martin is Trying to Become Elector.

Vancouver, B.C., March 8.—It is understood that a caucus of government supporters will meet in Victoria Monday for the purpose of considering the present political situation. It is believed that Mr. Martin is preparing to attempt to gain the part of the caucus which is in the minority. Affairs which Premier Firth is believed to be prepared to present in the strong and unimpeachable manner, but followed his own inclinations he would at once appeal to the country. It is, however, impossible to say whether the general elections should be brought on just now. With a dissolution of the House of Commons, the Conservative Government would be forced to call a general election. It is believed that the Conservative Government would be forced to call a general election. It is believed that the Conservative Government would be forced to call a general election.

CROWS BREAK SLATE ROOF. Drop Clam Shells From a Height to Open Them.

Victoria, B.C., March 8.—The slated roof of the massive drill hall here has been damaged in an odd manner. It was caused by the dropping of clam shells in spite of constant repairs. Finally the chief architect of public works caused a thorough investigation to be made. It was found that the trouble was caused by crows. In myriads they swarm to the sea beach when the tide is out and dig clams. Now a clam shell is too hard for even a crow's beak to break open, so the birds adopted the plan of dropping the bivalves from a height and cracking them open in this way. Probably before the drill shed was erected the clams used to be dropped on the rocky beach, where, of course, the contents frequently would be lost in the crevices between the stones. Probably also, there was risk of the shells falling into the clutches of seagulls and other scavengers. At all events the crows found out that a clam dropped on the slate roof of the drill shed would crack open nicely, while the succulent contents would be deposited in a safe and most convenient spot for instantly consumption. It was rough on the slate, too, for nearly every time a clam was dropped the roof was cracked, and soon a roof leaked incessantly. But the drill building engineers near Esquimalt were erected upon it a short time ago.

WILL IT BE FOSTER OF GHANT? " tariff Issues Well to the Front-Riding Overrun With Speakers and Organizers.

Beaverton, March 7.—Meetings in the extreme north and south ends of the riding Monday night will bring the campaign to a close. Mr. Borden will be at Cannington and Hon. William Patterson and several other speakers forced to meet the morning and the judgment of the electors. It cannot be said that the free and independent of North Ontario have not had ample opportunity to form an intelligent opinion for expression at the polls. For two or three weeks the campaign has been waged with vigor by both sides, and even the unfortunate illness of one of the candidates, Hon. George E. Foster, has not abated the interest. In the least, indeed his friends have become more active. Hardly a place in the riding which boasts of a dozen homes has not had one or even two or three meetings on each side. Hardly a day has passed without several political workers of various ranks being seen going up and down and across the country in every part enlightening the electors on the questions of the day. Certainly North Ontario is being kept awake. There have been nine in seven years, but there has not been one into which the most ardent and determined have been thrown as the present great struggle between George E. Foster and George D. LaSalle.

Disinfecting of Campaigning. To gain an intelligent idea of the great task set before the candidates in North Ontario, a glance at the map. The World published on Wednesday morning last. It will be seen that there is considerable length and very little breadth to the riding, the extreme southern portion being a narrow strip of territory between the north end about 25 or 30 miles north of Brantford, a picturesque town which is in the district of Muskoka for county purposes. From north to south one can travel probably 120 miles without leaving North Ontario, but in the Township of Mara and Thorah the devious shore of Lake Simcoe reduces the width to several miles in some places. In this elongated constituency scores of Conservatives and Liberals have been stamping for weeks in a labor of love for their respective parties.

The tour of Mr. Borden, the Conservative leader, has kept well to the fore the issue on which the Conservatives are to divide the people. His cry has been "adequate protection," and a policy of "Canada for the Canadian." He has endeavored to impress upon the farmers that protection would benefit them as well as the manufacturer. Another point on which Mr. Borden has laid much stress is the need of men of Mr. Foster's ability in parliament to watch the expenditures of a profligate and extravagant government in the interests of the people. "The government has a majority of 45 or 50," he says, "and every Liberal who desires good and efficient government should be elected." The views of several Liberal papers, which have said that Mr. Foster ought to have been allowed to gain the seat by acclamation, have been announced from every Conservative platform.

On the other hand the Liberals have been touring some of their strongest supporters. William Patterson and Sir William Mulock have been telling the people that they have been getting rich under the new doctrine of "well-kept" the old N. P. anyway. "Foster," exclaimed the Minister, "is not desired in the House, even by his own people," and, therefore, it would be doing the dear old Conservatives a good turn to keep him out.

Non-Residence Cry Hits Both. It is remarkable the amount of time that has been consumed with the non-residence issue. "Foster is a New Brunswicker," a batch of orators proclaimed, "and he is not a resident of Ontario." Another point on which Mr. Borden has laid much stress is the need of men of Mr. Foster's ability in parliament to watch the expenditures of a profligate and extravagant government in the interests of the people.

Col. Sains Lectures. One of the features of the campaign has been Col. Sam Hughes' stereotyped lectures. The colonel has been able to command a large personal following, and if it were not for last night's lecture at Lindsay would not be his. He would rather scrap than take part in any other national pastime, but he has always something novel in his collection of ways and means of getting after the enemy that makes him a successful combatant. He brought his lanterns up into North Ontario, and had full hours every time he addressed his listeners on the subject of politics. His talk was always interesting and he never neglected to boost Mr. Foster's candidature some points.

Both Sides to Win. Both sides expect to be satisfied with the canvass. The Liberal candidate expresses confidence in the result. He is personally very strong, bright, forceful and fluent speaker and everywhere conveying a favorable impression. He bases his calculations upon the fact that the late member, Angus McLeod, was able to command a large personal following, and that the normal Conservative majority is not nearly as large as was given for Mr. McLeod. The late member was strongest in the north part of the riding. The lumbermen were invariably with him, and whether Mr. Foster will be able to hold a good portion of that vote is said to be the only doubtful quantity in the result. The lumber camps have not yet broken up and the Conservative vote is expected to be somewhat reduced in consequence.

Foster Strong in the South. The south part of the riding is relied upon by the Conservatives to make an strong showing for Mr. Foster as it did for Mr. McLeod. The Township of Brock is expected to give a little better than 300 majority. It gave Mr. Hoyle 340 in May last. Scott Township is Conservative by a comfortable margin, and generally offers the heavy Conservative vote of Brock and the other townships in the centre all ways make good fighting ground. The battle, then, will be fought in the extreme north, where the absence of the lumber vote makes the result somewhat doubtful.

Effect of His Illness. It is admitted that the illness of Mr. Foster may affect the result to some degree. It has been unfortunate that the stress of speaking and getting around in a sparsely populated constituency has laid him low, so that he has not been able to meet the people, who votes he desires on Tuesday. It would

“When Worn Out” JOHN PHILIP SOUSA

The Well-Known American Composer

JOHN PHILIP SOUSA Writes: When worn out, I find nothing so helpful as a glass of Vin Mariani. To brain-workers and those who expend a great deal of nervous force, it is invaluable.

have been a prettier fight if he could have stayed to the end. But while he may lose slightly by his illness his enforced absence may possibly gain sympathy. Certainly his friends have been his strongest supporters. A prominent Liberal worker expressed the view that the gains would about offset the losses.

In addition to the two cabinet Ministers previously mentioned, Mr. Grant has been assisted by Senator McMillen, Archibald Campbell, M.P., and some dozen or more prominent Liberal speakers and organizers. Mr. Foster has been assisted by Leader Borden, W. H. Hoyle, M.L.A., Mr. Blinn, M.P., of Peel, Mr. Thompson, M.P., of Owen Sound, E. A. Lancaster, M.P., Conservative whip; Mr. Taylor, M.P., chief Conservative whip, and several others.

A Parkdale Wedding. A pretty house wedding took place Saturday afternoon at the residence of Mr. and Mrs. H. E. Smallpiece, Dundas Street East, Parkdale, when their daughter Lillian was united in marriage with Mr. Beverley Grist Marshall, principally relative of the bride and groom, and many were present from the bride and groom. Mr. and Mrs. Smallpiece, Mr. and Mrs. H. W. Smallpiece of Roxborough Street, and Mrs. McKay of Berlin, the bride looked charming, her wedding gown being of white silk lace over white tulle, trimmed with lace and bouquet of lilies of the valley with maidenhair fern. Her traveling suit was navy blue cheviot, tailor-made, with white silk blouse, white silk-plaid hat, trimmed with lace, medallion, navy blue satin ribbon and grapes. Miss Ada Smallpiece, youngest sister of the bride, officiated as bridesmaid. She wore a handsome gown of white French tulle, trimmed with valence-ennes lace. Mr. H. Marshall, brother of the groom, was best man. The ceremony was performed by the Rev. A. Logan Goggin, pastor of Parkdale Presbyterian Church. Mrs. Smallpiece, mother of the bride, was handsomely gowned in black and white with touches of pink and bertha of rich black lace. Mrs. Marshall, mother of the groom, was beautifully attired in black silk, with overture of lace. The presents received by the bride were numerous and valuable, coming from all parts of Canada and the United States. The decorations were in good taste, the drawing-room in yellow daffodils and palms, the dining-room in pink carnations, ferns and anemones. The drawing of pale pink malines. The bride and groom were seated in a pretty picture. Mr. E. J. Lloyd, caterer of Parkdale, supplied the refreshments in his usual excellent manner. Mr. and Mrs. Marshall left on the 5:20 train for their future home, 152 West York. A number of their friends accompanied the happy couple to the south Parkdale Station and gave them a hearty send-off.

TERROURS OF LA GRIPPE. (From The Chicago Medical Era.) "Many patients recover very slowly. The lassitude and weakness calls for something in the nature of a tonic, and for this purpose I am satisfied that I have found a preparation that answers the purpose. I refer to Vin Mariani."

BIG ENGLISH COLONY.

Advance Party of the 15,000 Colonist Settlers Arrives in Winnipeg.

Winnipeg, Man., March 8.—The advance party of 15,000 English settlers who are to form a colony twenty-five miles north of the city, arrived in the city yesterday. It was headed by George Lougheed, who in an interview said that the class of settlers which would form the colony was of the very best, nearly all being successful English farmers and their families. Accompanying the advance party will be three doctors, two clergymen, electrical and mechanical engineers, also kind of specialists, including a dentist, blacksmiths and builders, who will assist in the work of erecting suitable dwellings for the new comers.

TURKEY'S PROMISE. Russian Ambassador Told Reforms Will Be Carried Out.

London, March 8.—A despatch from Constantinople says that M. Zhelevitch, the Russian Ambassador to Turkey, had a conference yesterday with Ferid Pasha, the Grand Vizier, and Ferid Pasha on the subject of reforms in Macedonia. The Ambassador asked to the progress of the reforms, and the Minister of Foreign Affairs assured that preparations for the execution of the reforms were proceeding actively. General amnesty would probably be proclaimed on the festival of Kurban Bairam next month. Several hundred prisoners had already been released, the local authorities are endeavoring to watch the expenditures of a profligate and extravagant government in the interests of the people.

RUSSIAN CROUCHES DIES. Scheme for Home for Mother-in-Law Made Here.

London, March 8.—The richest man in Russia, Nikolai Tereshchenko, who just died, in his New York will, left a property valued at \$100,000,000, much of it in real estate in this city. For more than fifty years he had been one of the richest men in Moscow. He died only four hours in the twenty-four hours at night and two hours at day. He had had a stroke of apoplexy at 6 o'clock he began work with his secretary, eating nothing until noon, when he had only one solid meal a day, and that was at 10 o'clock at night. His will was charitable, and was extended in unusual ways—as, for instance, in establishing homes for orphans, and in the establishment of a home for mother-in-law who were badly treated. The scheme for a home for mother-in-law who were badly treated. The scheme for a home for mother-in-law who were badly treated.

YOU CAN INTEREST HIM. Any Man Over Fifty.

You can interest any man over fifty years of age in anything that will make him feel better, because while he may not be as young as he once was, his disease he no longer feels the buoyancy and vigor of twenty-five, nor the freedom from aches and pains he enjoyed in earlier years, and he very naturally examines with interest any proposition looking to the improvement and preservation of his health.

We will notice among other things that the stomach of fifty is a very different one from the stomach he possessed at twenty-five. That greatest care must be exercised as to what is eaten and how much of it, and even with the best of care there will be increasing digestive weakness with advancing years.

A proposition to perfect or improve the digestion and assimilation of food is one which interests not only every man of fifty but every man, woman and child of any age, because the whole secret of good health, good blood, strong nerves, is to have a stomach which will promptly and thoroughly digest wholesome food because blood, nerves, brain tissue and every other constituent of the body is entirely the product of digestion, and no medicine or "health" food can possibly create pure blood or restore shaky nerves, when a weak stomach is replenishing the daily wear and tear of the body from a mass of fermenting half digested food.

No, the stomach itself wants help and in no more ways than this: it wants direct, unmistakable assistance, such as is given by one of our Stuart's Dyspepsia Tablets after each meal.

These tablets cure stomach trouble because they give the stomach a chance to rest and recuperate: one of Stuart's Dyspepsia Tablets contains digestive elements sufficient to digest 3000 grains of ordinary food such as bread, meat, eggs, etc.

The plan of dieting is simply another name for starvation, and the use of bread, meat, eggs, and other food for breakfast foods simply makes matters worse, as any dyspeptic who has tried this method knows.

As Dr. Bennett says, the only reason I can imagine why Stuart's Dyspepsia Tablets are not universally used by everybody who is troubled in any way with poor digestion is because many people seem to think that because a medicine is advertised as being in drug stores or is protected by a trade mark it must be a humbug, whereas, as a matter of fact, any dyspeptic who is obedient knows that Stuart's Dyspepsia Tablets have cured more people of indigestion, heart burn, head trouble, nervous prostration and run-down conditions generally than all the patent medicines advertised or advertised for stomach trouble combined.

Our celebrated Leigh Valley coal—dressed to \$7.50 a ton delivered—Burns & Co., 44 East King-street.

How I Cure Weak, Puny Men.

ARE YOU A MAN OF THIS CLASS? Are you in any respect wanting in that unseen but very important element which is called "manly vigor"? Would you like to feel stronger, more self-reliant, more energetic, more jovial and popular among your acquaintances? Have you any aches, spells of nervousness, periods of debility, attacks of stomach, kidney, liver or heart troubles? If so, you must know that what has restored the joys of life to thousands of other men must be a blessing to you.

I have on record hundreds of instances where men of 75 to 90 have returned to the hard labor of their youth with a vim, after having worn my appliance three months.

One decrepit old man of 75 had in youth been a blacksmith, after using my appliance he took up his tools and said he can work as hard as he did at 35. He says he is an old man made young.

Another man of 72 had been crippled with rheumatism for forty-five years. He pronounces himself cured and as vigorous as he ever was in youth.

Another who was a wreck at 49, and said that he had been so for twenty years, was cured and three years later undertook the severe hardships of a trip to the Klondike. He returned a few months ago and I could cite thousands of similar incidents. When you see that I have fifty thousand voluntary testimonials and that there is not a hamlet in this country without one or more cures by my appliance, you will understand that my experience has been broad.

My treatment is a success in any case where strength is lacking, whether in the nerves, stomach, heart, kidneys, liver or any other part. My appliance gives a soothing, constant electric glow, which is taken by the body just as a sponge takes up water. It cures rheumatism in any guise, as well as every other form of pain.

I will explain why I get better results than a physician derives from using a battery on his patient: Because the nervous system which receives the electric current is so sensitive that the current from a battery shocks it but leaves no additional power in the nerves or vitals. That is why a doctor's battery does no good. Now my system is different. I pour the current into the body for six or eight hours every day or night, usually while the patient sleeps. The delicate nerves are not shocked or jarred by this current, as it goes into them just like a drizzling rain saturates anewly ploughed field. They absorb it, drink it in, and, as it is their life, they grow strong with it.

I think, perhaps, that is the reason that doctors think so little of electricity as a remedy. Of course they think they know all there is to know about applying it, and as that is a failure they conclude that electricity is no good.

Here are extracts of letters from people given me without solicitation, you can see these patients and secure from them a verification of what I say—THAT IS MY STRONGEST ARGUMENT.

I am sixty-five years of age and I think your belt is an age renewer, when worn according to directions. PHILIP RADMORE, 205, Fleet Street, Ottawa, Ont.

I am 79 years of age. Your Belt has completely restored my health. It has also cured me of rheumatism. JOSEPH WILGINS, 107 Quebec Ave., Toronto Junction.

Your Belt did all for me that I expected it to do, and far more. I am now 60 years old, and have good reason to be thankful. For fifteen complaints it can't be beat. It has done as much good for my wife, in that way as it has for me.—ISAAC RICHMOND, 422 Bank Street, Ottawa.

I have been wearing one of your Belts. It has done up my system wonderfully, and made a new man of me. I consider it a wonderful invention. G. M. BURTON, Hudson, Que.

Tell me where you live and I will send you the name of some man in your town I have cured.

EASY TO WEAR. CURES WHILE YOU SLEEP. NEVER FAILS.

I don't ask you to take any chances of a failure. I take all the chances of curing you. If you are suffering from RHEUMATISM, LAME BACK, LUMBAGO, SCIATICA, VARICOCELE, NERVOUS DEBILITY, CONSTITUTION, LOST ENERGY, resulting from exposure and excesses in young and middle-aged men, write me. Offer me reasonable security and I will cure you and you can

PAY WHEN CURED.

Beware of imitations. There are dozens of them, and the bait is always a supposed "FREE GIFT" or a Belt for a few dollars. Many who have been victimized by such offers lose faith in electricity, as the only result given them is a burned neck, if they get any current at all. I have hundreds of these old business that have been exchanged for mine—note that these old Belts are any use to me, only to prove what a curative power there is in electricity when properly applied. I make allowance on such Belts. Write to me or call at my office and let me show you the difference and the pleasant sensation of a properly applied electric current.

READ WITH CARE! Every patient wearing Dr. McLaughlin's Electric Belt receives his case. Agents of drug stores are not allowed to sell these goods.

FREE BOOK. If you cannot call, write for my beautiful descriptive book, showing how my Belt is used. It explains how my Belt cures weakness in men and women, and gives prices. Send for free book, addressing:

Dr. M. O. McLaughlin, 130 Yonge Street, Toronto, Ont.

OFFICE HOURS—9 a.m. to 8:30 p.m.

The Best of the Year

This is indeed the best time of all the year... which to purchase for garment - and will prove the best probably for all time to come.

Furs are steadily increasing in price. Especially in Alaska Seal becoming very scarce. Our prices are away down. We manufacture all garments on the premises.

Alaska Seal Jackets \$150 to \$250. Persian Lamb Jackets \$75 to \$125.

Deputation of Liberals Will Wait on Government to Urge Claims of L. Beattie

FOR WEST YORK LICENSE INSPECTOR. Appointee Must Be Temperance Man - Murky Water at the Junction.

Toronto Junction, March 8. - A deputation of Liberals from this town will wait upon representatives of the legislature to-morrow in reference to the appointment of a successor to J. Pearen as license inspector for West York. It is understood that the name of L. Beattie, principal of Western-avenue school, will be put forward as having claims upon the position. Mr. Beattie is a staunch temperance advocate, and is the temperance wing of the local Liberals that is urging his appointment. The name of Frank Smith of Eglinton has been spoken of since the day Mr. Pearen resigned, and until the last few days was considered a foregone conclusion that Mr. Smith would be appointed. Frank Smith has been a member of the License Commission Board in West York for some years prior to last year. There is a feeling throughout the riding that Toronto Junction gets everything that is going when an appointment is made.

The name of Frank Smith of Eglinton has been spoken of since the day Mr. Pearen resigned, and until the last few days was considered a foregone conclusion that Mr. Smith would be appointed.

The High School Board will meet to-morrow night at 7:30 o'clock at the school. The principal and vice-principal will be present. E. Bennett, clerk in E. R. Rogers' hardware store, was presented with a testimonial by the employees upon the occasion of his departure to take a position in Hamilton.

Mr. C. Robinson, K.C., discussed at length the records of March, 1884, and while the records of March, 1884, were not in fact, will probably be the only record. A bill was introduced in the House of Commons on March 11, 1884, to amend the law relating to the license of public houses.

SHE WAS LOCKED IN A CELL

Authorities Seeking to Shift Responsibility for the Outrage

Buffalo, March 8. - In their eagerness to place the shroud of mystery surrounding the assassination of Edwin L. Burdick, the police Saturday made a false move. They immediately retraced their steps when it was found that the district attorney considered their case to be entirely too flimsy.

Every effort was made to undo as far as possible any wrong that had been done. From statements given out by the Superintendent of Police, and the district attorney, after the denouement of the fiasco, it is evident that the two departments did not work in conjunction in the matter.

The result of today's work brings the authorities to a solution of the mystery that they were a week ago. Marion Hutchinson, a young woman formerly employed in Burdick's office, was taken to police headquarters by a detail of detectives at an early hour.

While boarding a train Saturday morning, she was released and allowed to return to her home. She was released and allowed to return to her home. She was released and allowed to return to her home.

MOTHER AND SISTER, TOO

Taken to Station and Questioned by Police Officials.

Miss Hutchinson was not the only member of her family to be brought in connection with the case. Her mother and sister were also visited by the police, and while the unfortunate young woman, who had worked for the murdered man was at police headquarters building, her mother and sister were being taken to the Grand Precinct in Beach street. There they were confronted by Assistant Supt. Cusack, who questioned them at length about the whereabouts of Marion on the night that Burdick met his death.

They answered the questions convincingly, saying that Marion was asleep at the house in West Tupper-street, and that her sister slept with her. The arrest of the Hutchinson woman caused great excitement early in the day.

When in a short time it was learned that Justice White had granted a writ of habeas corpus and that the authorities had promptly freed the young woman and had soon afterwards strenuously claimed that she was not a party to the murder, but merely invited to come to police headquarters to see if she could throw any light on the mystery, there was a burst of indignation. It was freely stated that Miss Hutchinson's detention was an outrage and that there is a feeling throughout the riding that Toronto Junction gets everything that is going when an appointment is made.

There is a feeling throughout the riding that Toronto Junction gets everything that is going when an appointment is made. The name of Frank Smith of Eglinton has been spoken of since the day Mr. Pearen resigned, and until the last few days was considered a foregone conclusion that Mr. Smith would be appointed.
