## BRITISH MAKE ANOTHER SUCCESSFUL TRENCH RAID

### Col. W. C. Macdonald is Killed, Four Hurt, at Toronto Union Station

#### CZAR DEMANDS ATTENTION TO SUPPLY

Addresses Rescript at Petrograd on Present Wants.

#### RESOURCES UNENDING

#### No Danger Exists of Exhaustion for Russia, as for Enemy.

Special Cable to The Toronto World.  
London, Jan. 21.—An imperial rescript has been addressed by Emperor Nicholas to the new Russian premier, Prince Goltzine, calling upon him, among other things, to see that the government devotes its attention to the question of supplies for the armies of Russia and concentrates itself upon the development on a large scale of the resources recently taken in this connection. The text of the rescript, as transmitted by Reuters' Petrograd correspondent, reads:  
"Having entrusted you with the responsible post of president of the council of ministers, I deem it opportune to point out to you the pressing problems, the solution of which should be the main object of the government's attention.  
"At the present moment when the tide of war has turned, all thoughts of nationality or class are directed towards the valiant and glorious defenders of our country who, with keen expectation, are awaiting a decisive encounter with the enemy.  
"In complete solidarity with our faithful allies, not entertaining a thought of the conclusion of hostilities until a final victory has been obtained, I firmly believe that the Russian people, carrying the burden of war with self-denial, will accomplish their duty to the end, not stopping at any sacrifice.  
"No Danger of Exhaustion.  
"The national resources of the country are unending. There is no danger of their becoming exhausted, as apparently is the case with our enemies. All the greater is the significance attached to settlement of the question of supplies which, under present conditions, is so important and so complicated.  
"Accordingly I call upon the government to devote its attention first and foremost to the question of supplies, lessening those difficulties connected with supplies, inevitable in a world war, by the most judicious use of the joint labors of the whole government."  
(Concluded on Page 2, Column 5).

#### Seven Senators Appointed

### Frederic Nicholls is One

George Lynch-Staunton of Hamilton, G. D. Robertson, Welland, and H. W. Richardson, Kingston, the Others From Ontario.

Special Reporter.  
Ottawa, Jan. 21.—Seven of the fourteen senate vacancies have been filled. Four of the appointments went to Ontario, two to Nova Scotia and one to New Brunswick. The new senators are:  
Col. Frederic Nicholls, Toronto.  
George Lynch-Staunton, K.C., Hamilton.  
Gideon D. Robertson, Welland.  
H. W. Richardson, Kingston.  
C. E. Tanner and A. B. Crosby, Halifax.  
Dr. J. J. Bourque, Richibucto.  
This is the first occasion upon which a Canadian government has recognized the right of the Union, and was the first time since the appointment of Hon. T. W. Acland to Winnipeg on the 15th of December last that a senator has been appointed from the west coast of the continent. His good opinion is an agreement, he was requested by both trainmen and the appointment to the senate upon the recommendation of Hon. J. H. Brown, the minister of agriculture and fisheries.

#### GREAT CONFERENCE EAGERLY AWAITED

#### Question of Policy in India May Be Brought Into Discussion

#### HOPES RUNNING HIGH

#### Important Results Are Expected From Coning Council of Empire.

Special Cable to The Toronto World.  
London, Jan. 21.—An air of tense expectation is everywhere in evidence regarding the council of empire to be held next month. It has been publicly stated that the council will be held in London, and it is generally expected that the Irish question would have a prominent share in the proceedings, but the suppressed excitement with which the sessions are awaited forecasts some other issue of most vital moment.  
In certain circles it is believed that the administration of India will come before the council. The president of the recent Indian National Congress, a non-legislative organization, which met at Lucknow the first of the year, openly demanded home rule.  
In spite of reports of sedition and wide unrest in India nothing has come to light here to prove more than local disorders.  
Arrangements for the empire conference are being rapidly pushed forward. The premiers of all the dependencies are expected to be present and attend a series of continued sittings of the council, which will be held in London, and the attendance of Mr. Hughes, the Australian representative, is not certain.  
All concerned with the conference are busily engaged and hopes run high.

#### Four Vessels Under U.S. Flag Reported to Be Hun Raiders

Rio Janeiro, Jan. 20.—The captain of the Brazilian steamer Maranhao, says a report from Pernambuco, encountered off the coast of the state of Rio Grande do Norte, two cargo vessels, accompanied by two auxiliary ships, all flying the American flag. The vessels are supposed to be German, the report adds.  
**MONTREAL'S MOTOR SHOW.**  
Montreal, Jan. 20.—With an attendance over 3000, the ninth annual motor show was formally opened Saturday night in Almy's Building, St. Catherine street, west, by Hon. Walter Mitchell, provincial treasurer. Other speakers included Mayor Martin and U. K. Dandurand, president of the Dominion Good Roads Association.

#### BRITISH RAID FOE IN LOOS SECTOR

#### Daylight Operation Meets With Splendid Success in Flanders.

#### BOMBARD DUGOUTS

#### Many Germans Caught in Refuges, Suffer Death From Bombs.

Special Cable to The Toronto World.  
London, Jan. 21.—The features of the operations on the battle line in France today was the carrying out of a daylight raid by the British troops southwest of Loos. The British caught the Germans hidden in many dugouts, and destroyed these with their tenantry by bombs. After going all the damage possible to the German defences the British troops returned to their lines. Their casualties were slight. A night raid was also carried out east of St. Eloi.  
The report from British headquarters in France issued tonight reads:  
"A successful daylight raid was made this morning against enemy trenches southeast of Loos. Dugouts full of Germans were bombed and destroyed. Many casualties were inflicted on the enemy of small count to ourselves. We secured some prisoners."  
The official statement on the campaign in France, as issued last night from British headquarters, reads:  
"We carried out a successful raid tonight east of St. Eloi. There was considerable artillery fire during the day on both sides."

#### ONE OF TORONTO'S LEADING CITIZENS

#### Col. W. C. Macdonald Prominent in Business and Military Activities.

#### SERVED IN NORTHWEST

#### Was Managing Director of the Confederation Life Assurance Company.

Col. William Campbell Macdonald was one of Toronto's best-known and most respected citizens. He was one of the leading men of Toronto's business life, and had been very prominently connected with the various financial institutions of the city since 1878. His present military position was that of brigadier of the First Infantry Brigade of the C. E. F. forces at Exhibition Camp, having received that appointment on returning last October from Camp Borden, where he was brigadier of a brigade last summer. He was managing director and secretary of the Confederation Life Assurance Company, and had been connected with the company since 1880. In 1910 he was elected president of the Toronto Insurance Institute.  
Col. Macdonald was born on May 21, 1855, and received his education in the public and high schools. He was married in 1887 to Caroline Smith, only daughter of Frederick W. Smith, wholesale dry goods merchant, Toronto. Col. Macdonald entered the Queen's Own Rifles in 1878, and was promoted to lieutenant-colonel, commanding the 16th infantry brigade two years later. In 1893 he was promoted to rank of full colonel. He served as adjutant of the Canadian Infantry team of 1892. At the Quebec tercentenary celebration in 1901 he was elected one of the brigadiers. Col. Macdonald was a member of the Canadian Military Institute from 1901-3 and was elected president of the Ontario Rifle Association in 1908. ## STRUCK BY LIGHT ENGINE WHILE SEEING TROOPS GO

### Col. Macdonald is Killed Instantly and Others Badly Hurt—Three Trainmen in Custody, Charged With Manslaughter.

The worst accident in the history of the Union Station occurred there at 5.58 last night when G.T.R. engine 215 backed up on track six and ran into a crowd which had gathered on the track watching the departure of overseas detachments, killing Col. W. C. Macdonald, brigadier of the first infantry brigade, and injuring many others. Among the injured are: Frank Lowarn, 37 Perth avenue, of the headquarters staff, who, it is feared, sustained internal injuries; Isaac Brock Lucas, son of Hon. I. B. Lucas, provincial attorney-general, who received face and head wounds; Benjamin Cameron, 158 Dundas street, head and face wounds; and Earl Jenkins, 1073 1/2 Bathurst street, who received a fractured left arm and right leg.  
The train, bearing detachments of the Army Service Corps, Divisional Signallers, and Mechanical Transport, was drawn upon track seven, the most southerly track used for the departure of troops.  
Between this track and the nearest platform runs track six, and the crowd, to the number of 150, anxious for a last good-bye, were standing on track six. This is the customary position where troops are saying the depot, track seven being the usual track used for military trains.  
The weather conditions were very bad and the flying snow and escaping steam formed a mist which made it impossible to see for more than a yard or so. Engine 215, in charge of Earl Lowarn, was backing up on track six, and the passenger train from Stratford, was on its way to the roundhouse at Mimico along track six when it ran into the crowd.  
The body of Brigadier Macdonald was removed to the platform after leaving some friends on board the train, which was due to pull out. He was in the center of the track when struck by the oncoming engine, which was proceeding backward. The engine was brought to a standstill within its own length, and the brigadier's body was found jammed between the roadbed and the rear axle of the tender. The tender had to be jacked up and when the body was removed life was extinct.  
One of the injured men was removed from the brake-beam but was found to be not seriously injured. The others were knocked out of the path of the locomotive, and the scene of the accident and could not have been going rapidly, according to the railway men, who have their opinions on the short distance from the diamond, the weather conditions and the position in which the body was found.  
The body of Brigadier Macdonald was removed to Myles undertaking parlors and arrangements are being made by the 48th Highlanders to hold a military funeral. Cameron and Jenkins were removed to their homes in Matthews' ambulance while Lucas and Lowarn are in the General Hospital. Both Cameron and Jenkins are applied and rejected men. Jenkins has one brother at the front and was saying good-bye to another. Cameron was caught by his coat and dragged along by the locomotive and when picked up was unconscious.  
Trainmen Arrested.  
Engineer Jack Ross and Fireman Chas. Farmer, both of Berlin, were placed under arrest by Acting Detective McConnell on a charge of manslaughter and were removed to Court Street Station from their train. They will be held until the finding of the coroner's inquest, which will be opened this morning. Signalmen Patrick J. Hickey, John B. Baturst and Court Street Station where he is held on the same charge.  
McKenney of Court Street Station was standing beside Brigadier Macdonald and the others and escaped injury. According to the coroner's inquest it was a crowd was cheering and shouting and the warning bell of the train was ringing.  
The coroner of the C. A. M. C. and Dr. Ross, of the street, rendered first aid to the injured men while P. S. McKenney and a squad of police kept back the crowd.

Col. W. C. Macdonald, brigadier, first infantry brigade, Exhibition Camp, managing director Confederation Life Assurance, who was killed by a train at the Union Station last night.

#### MAY FORCE SERVICE IN MAKING OF MUNITIONS

#### British Government Will Not Shrink From Step if Workers Hold Back, Chamberlain Warns—Appeal for Eight Thousand Women.

Special Cable to The Toronto World.  
London, Jan. 21.—The ministry of munitions has issued an appeal for eight thousand more women to work in munitions factories. The appeal says that the need of these extra workers is urgent, "for the output of munitions must not be delayed for a day by any lack of labor."  
Arthur Neville Chamberlain, director general of national services, told a conference of employers and employees at Central Hall in Birmingham that the government was prepared to take drastic action if the appeal for voluntary service fails to evoke sufficient response. Mr. Chamberlain said:  
"I want the nation to understand that the government is very much in earnest about this matter. While they desire to give the nation every possible opportunity to come forward of their own volition in their country's need, they will not hesitate to take any step they may think necessary to bring them to a successful conclusion, including compulsory national service if voluntary service is not forth coming."  
Upon what is done in the course of the next few weeks, the director-general declared, might perhaps depend the question whether victory will be won next spring or whether a fourth winter of hostilities will have to be endured.

#### Germans Claim Capture of Manesti Bridgehead in Fighting.

#### TAKE TOWN IN FIGHT

#### Small Number of Prisoners Falls in Hands of Enemy.

Special Cable to The Toronto World.  
London, Jan. 21.—Operations on the Rumanian front have quieted down, probably owing to bad weather. The official communications from both sides today do not mention any heavy fighting. The Russian and Rumanian troops have been quite passive.  
The Germans in their official communication give details of the operation before Manesti, in the region of the Rumanian and Sereth rivers. They report that after capturing the town in house-to-house fighting they captured the bridgehead, and that the Rumanians suffered rather heavily from the German artillery and machine gun fire, as they withdrew across the Sereth river. Altrmanians and West Prussian troops were engaged on the enemy's side.  
As the Germans only claim the taking of 156 prisoners in this it is considered that the Rumanians got away from the enemy and that the fighting was merely of minor importance. Since the taking of this bridgehead the enemy has not yet attempted to exploit his advantage.

Berlin, Jan. 21, via London.—A summary of the German admiralty's official statement on the detention as prisoners of war of neutral sailors captured by the German naval forces was cabled to the state department at Washington by Ambassador Gerard last evening. This is the only information yet available regarding this development.  
The German official statement professes to regard the case as being an opportunity for negotiating the settlement of the long-standing controversy between America and Germany of the so-called armed merchantmen.

BAKERY THREATENED BY TWO SMALL FIRES. Bathurst St. Building Damaged on Saturday and Again on Sunday Morning. Fire, believed to be due to defective wiring, damaged Weston's bakery, 429 Bathurst street, Saturday night to the extent of \$1500. The blaze started on the ground floor near the elevator shaft at 11.28, and when the firemen arrived on the scene had gained a good hold. The damage to the building is \$1500, to the contents \$3000. The loss is covered by insurance. At 5.45 Sunday morning the firemen again answered a call to the same place, where they discovered a blaze on the second floor, near the ice box. They soon had it out. The damage was about \$50. About \$500 damage was done by fire to three houses at 299, 301 and 303 Royce avenue Saturday afternoon. The blaze originated from a defective chimney at 301 and quickly spread to the other houses. It is estimated that the daily attendance at moving picture theatres in the United States is more than 25,000,000.

MONDAY MORNING, JAN. 22.

Land Butchers v. Land Leeches

A number of striking facts are brought out in the report of the assessment commission...

Ottawa is the only city of the fourteen with a denser population to the acre than Toronto...

Another striking fact is the area of these cities. Collectively the fourteen cities cover 45,314 acres...

Mr. Forman does not give the average per capita assessment, but it can easily be calculated...

There could be no objection to the assessments were all made as the act requires, at one hundred cents on the dollar...

Population shows a decrease for the two war years, but if the men overseas are added to the stated population, the city will be seen to have enjoyed its normal increase...

The Time to Cease Firing Hamilton closed the campaign on Saturday which Toronto opens tomorrow...

Hamilton has raised about \$6 a head of the population and Toronto must do as well or better...

Hamilton has raised about \$6 a head of the population and Toronto must do as well or better...

we think that they will give for the nobler motive of pure compassion, seeing and understanding the extreme need of those for whom these funds are designed to give aid.

The question was asked in urgent words on Saturday how much more can one give than last year...

Nothing cheers them up more or gives them confidence like the knowledge that their families are being cared for as they should be...

It cannot have escaped any student of the war that the Germans have adopted a policy of destructiveness, not merely out of sheer brutality...

It must cause a shock to many to realize how abhorrent to themselves become methods which are nominally acceptable in ancient history...

Another point to note is the exemptions in Toronto, which amount to \$85,238,148, as against a total of \$82,914,935 from all the rest.

IMPERIAL STOUT

Northern Fusiliers Wallop Torontonians

COMPLETE VICTORY FOR THE FUSILIERS

Soldiers Outplay the Enemy in Every Department in Arena Gardens.

LED ONCE BY FIVE Civilian Team Rallied Near the Close and Tallied Three.

Captain Howard McNamara, leading a squad of the 22nd Battalion, staged a spirited attack on the enemy on Saturday evening in the Arena. By skillful manoeuvring, deadly shooting and more efficient generalship, a complete victory attended the valiant efforts of the boys from the north.

But, as this was no military engagement, we will get down to hockey talk for the second time this season the soldiers have chalked up a win against Livingston's Torontonians.

The play was lively from beginning to end. There were many plays of the exception of Randall's deliberate and uncalculated attack on Howard McNamara in the first period.

The arena was packed with fans who expected to see a do-or-die struggle, and there was no disappointment in store.

Reference—Dr. Billy Wood.

Young Eddie Reynolds, who made his debut with the Soldiers as a pro, showed great promise.

The Summary.

Table with 2 columns: Team, Goals, Points, Assists.

## LARRY LAJOIE A MODEL PLAYER AND ALWAYS A CREDIT TO BASEBALL

Toronto's New Manager Once a Jumper and Subject to Litigation—Charlie Maddocks Tells About Nap.

Charlie Maddocks, the old-time Grinch, was prominent as a baseball player, and was very quick in the early '90s. He was a model player, and was always a credit to baseball. He was a jumper, and was subject to litigation. Charlie Maddocks tells about Nap.

The American League never had a more popular player—indeed, he was the idol of the entire circuit.

An injunction secured by John I. Rogers of the Philadelphia Club, from which Larry jumped, prevented him from playing in the State of Pennsylvania for some time after he joined the Cleveland, but that was quickly overcome when Larry made public apology for contempt of court.

Larry Lajoie is a model baseball player in every respect, a credit to baseball, which can afford to lose men of his type. He will be remembered while baseball exists.

He always had the natural gift of making hard plays look easy, and was a very limited number of players of that present day can do, and, if they were never able to do so, they would be considered as a professional. He Lajoie failed to obtain the education that most of his fellow players had. He was a young man when he first broke into baseball in the early '90s, and was a model player, and was always a credit to baseball. He was a jumper, and was subject to litigation. Charlie Maddocks tells about Nap.

G. T. CLARKSON, Assignees.

# A German Lunatic on the Top of the C.P.R. Building

S'pose King and Yonge was a Flanders mudhole. S'pose a German lunatic on the top of the C.P.R. building was bombarding the mudhole with shrapnel. S'pose there was just you and another man to arrest him—

## Then which would you rather do ?

Give the other man five cents to get himself muddy for an hour or killed, and let you go home with your boots clean ? Or go yourself ? Wouldn't you think five cents was cheap to keep yourself dry and clean and safe ?

## Be very careful how you answer

For if you would pay five cents to escape a thing like that for one hour—if you would give "a nickle" just to keep your boots clean and escape the chance of being shot by a German lunatic—

Then you must be willing to pay five cents for the privilege of staying on a quiet back street in Toronto while other Toronto people are—in France. That means \$1.20 a day—\$8.40 a week ! \$33.60 a month ! Or something over Four Hundred Dollars a year ! That, mind you, is what you are fairly committed to if you say "yes" to the question. Four Hundred Dollars a year—

And yet you think that a week's wage or income, paid in easy instalments, if necessary, is a lot to give the new Patriotic Fund campaign. A lot ? Why, it's comparatively nothing. It's like getting a house and lot for thirty-eight cents. It's like buying a piano with a quarter !

But, of course, there's a third course open. You could pretend you didn't see the lunatic on the top of the C.P.R. Building. You could sneak up Bay street or up Victoria street and let on you had no interest in the fight with the lunatic.

But would you ? Wouldn't it be cheaper to pay the five cents—give a week's income in instalments if necessary to the Patriotic Fund—than give your conscience a stick to beat you with ?

## As you read—

As you read this ad.—your brothers in France are shivering in icy mud, lying hurt under shell fire, drawing each breath in full knowledge that it may be the last, while their wives and children here;—while you—well, isn't it ridiculous to argue any further ? A week's wage or income is little enough ! Make your decision at once. Give till it hurts.

BOSTON CREEK A WORD WITH YOU

Boston Creek remains the leading feature of the Toronto mining share market, both in activity and price advances.

I recommend its purchase by investors—by semi-investors for the long pull and large market profits and by investors for extraordinary indicated earnings and dividends.

BOSTON CREEK IS UNDOUBTEDLY THE SENSATION OF THE NEW YEAR FROM THE NORTH COUNTRY. NOT SINCE THE DISCOVERY AND DEVELOPMENT OF PORCUPINE, WHICH REQUIRED THE BUILDING OF A RAILROAD INTO THE CAMP, HAS THERE BEEN A MINE AND CAMP OF THE NORTH BROUGHT TO PUBLIC ATTENTION WHICH INVITES INVESTMENT AND SPECULATION ON AN EXTENT EQUAL TO BOSTON CREEK, WITH A RAILROAD AND STATION ON THE PROPERTIES.

I believe present buyers of Boston Creek have but to stay with the developments of 1917, as already announced through the management, to see this company push very far on the road to permanent earnings and extraordinary dividend payments. I believe those who buy now and stay with this proposition will see their profits in figures of from 100 per cent. to 500 per cent. And I believe those who buy now and wait the dividend-paying period, which should not be long in following the inauguration of bonanza ore shipments this month or next, will have reason to regard their holdings highly for the exceptionally high yields which they will make on the basis of stock purchased anywhere from \$1.25 to \$5 a share.

Boston Creek is today the sensation of the Toronto Standard Stock Exchange and the New York Curb Market. Its recent volume of transactions recalls the days when the Porcupine gold issues were active and were advancing in price. On the New York and Toronto markets the transactions, as shown on the sheet in Boston Creek, recall the heavy and sensational trading in the latter part of October in Magna and at an earlier date in United Verde Extension.

Buy Boston Creek now. The company has a management with abundant financial and technical means to carry it to success. It represents an expenditure of a quarter of a million dollars. The management plans to spend as much more in providing accommodations to increase the working forces from 50 to 200 men and in the building of a mill to treat the ore on the ground. A large tonnage of the highest grade ore in the north has been developed under good and placed on the dump, and shipments are now made to start which will startle the country with the remarkable sustained showings of values—thousands of dollars to the ton—which will appear in the settlement sheets from the reduction company. The company has developed ore of such fabulous value that it is now estimated that \$1,500,000 already is available. The mine grows richer with depth and has been pronounced by the best experts to have the earmarks of a WHOLE OF A PERMANENT BONANZA PROPERTY. There are two big parallel vein systems and the formation has been passed upon favorably by geologists, who are of the opinion that the ore will "go to the deep," just like the mines of Porcupine—like the great deep-vein copper mines of the United States.

I URGE IMMEDIATE ACTION IN PURCHASING THIS STOCK BY WAY OF ANTICIPATING HIGHER PRICES. BUY BOSTON CREEK FOR INDICATED REMARKABLE DIVIDEND RETURNS WHEN THE COMPANY ENTERS THAT STAGE AND FOR IMMENSE MARKET PROFITS.
