IN SAVAGE ATTACKS GERMANS GET SOME GROUND FROM THE BRITISH

Make Gains in Mametz and Trones Woods After Being Heavily Reinforced; Elsewhere Are Beaten Back

London, July 12.—The Germans, heavily reinforced, delivered strong attacks against the British on the Somme front last night. They gained ground in Mametz and Trones woods.

An official announcement issued here this afternoon says that all the German attacks were beaten off except in Mametz and Trones woods.

Between the main battlefield and the sea we have been actively engaged in bombarding the enemy's positions and raiding the front line.

Opposite the Hohenzollern redoubt two companies of Seaforth Highlanders forced their way into another portion of the enemy's trenches after a stiff fight.

Several combats in the air took place on July 10, as a result of which we destroyed one German machine, while one of our own machines was brought down by the enemy's gunfire.

TO RECRUIT COLORED MEN HERE FOR A CONSTRUCTION CORPS

Ready Soon to Receive Names—Other Local Military News

All races, creeds, and colors are found among Britain's fighting men and from the latest reports in local military circles, recruiting will begin in this city very soon for No. 2 Construction Corps, which will be composed of colored men, commanded by white officers.

The conditions regarding physical fitness, size, etc., are the same as those governing other units and the pay and separation allowances are excellent.

The work required by a construction unit is particularly fitted for the colored men of this dominion, as many of them are clever artisans, concrete workers, etc., and this unit will be especially filled up.

Daniel Sutherland, formerly of McGill University and now a prominent railway contractor is to be the O. C. of the new unit.

It is announced for the information of all concerned that, owing to the difficulty in securing plate for the manufacture of drums, the Kings Company have requested that as much care as possible be exercised in the opening of drums containing Kilmilk powder.

The following transfers have been approved by the General Officers Commanding military district No. 6: To the 100th overseas battalion C. E. F. Private C. Hamilton, 64th P. S. Beckham, 18th Battalion, to the 5th Pioneer Battalion, and Private William Henry, 63rd overseas draft.

A twenty-one day school of bayonet fighting and physical training commenced at Aldershot camp on Monday, July 10, for the benefit of the overseas battalions in Aldershot camp.

In addition, two officers and twenty other ranks are attending school from the 28th American Battalion. The class of work they will cover will be physical drill, marching, etc., and bayonet fighting.

Sergeant W. A. Macaulay of the Orderly Room staff of the 118th Battalion, has returned to Valcartier after a brief furlough.

A GERMAN AIR ATTACK ON CALAIS

Berlin, July 12.—Two German aeroplanes made an attack on Calais on Monday night. They dropped bombs on the port and on army encampments.

ITALIANS SUCCESSFUL IN ATTACK ON HYDRO BASE OF AUSTRILIANS

Rome, July 12.—An Italian naval unit yesterday successfully attacked the Austrian hydro base at Parenio, in Istria. It silenced the new and strong shore batteries and put to flight four Austrian vessels from Trieste.

FOUR TODAY

Four recruits were secured today at the recruiting office in Prince William street. All signed for No. 1 Construction Corps—Frederick J. Sullivan, Salt Springs, Kings county; Wesley Thomas, Newfoundland; Peter Durdak, Newfoundland; and Frederick W. Brennan, St. John.

CELEBRATING ANNIVERSARY OF BOYNE BATTLE

Orangemen Gather at Various Centres Throughout the Province

One of the most interesting celebrations of July 12, which is being held in the province today is that which is taking place at St. George.

Domination Lodge, No. 141, of this city, organized an excursion for the benefit of those who were injured in the celebration, and about seven well filled cars left by the Shore Line this morning.

This afternoon at one o'clock there was a mass meeting in the evening, at which the Orangemen of the district gathered for the purpose and their combined efforts resulted in arrangements which promised an interesting evening.

One of the big features of the day will be a mass meeting in the evening, at which recruiting speeches will be delivered, the chief address to be given by Lieut.-Col. P. A. Guthrie, M. P., O. C. of the 28th Battalion.

There was a big gathering of Orangemen in Chipman today. Representatives from Moncton and backstreet arrived at noon and were met by the Orangemen of Chipman.

Frederick Jones, 15—Local Orangemen left today for Fredericton to take part in the celebration of the anniversary of the Battle of the Boyne.

London, Ont., July 12.—Between 800 and 1,000 Orangemen left London via C. P. R. this morning for a big celebration at Tillsonburg. About 120 city and county lodges are represented.

There was no local demonstration today owing to inclement weather conditions this morning. A mammoth picnic was arranged for Courtenay Bay.

In Lorneville there was an enjoyable outing at Dean's grounds. Mount Purple Lodge, No. 29, in conjunction with Courtenay Lodge and the Practice Boys, assembled this morning and headed by a bugle band and a band composed of musicians from Fairville, marched through the village to the picnic grounds.

Members of Orange lodges in Kings county assembled at Bayswater today, where a garden party was conducted on Harold Gibson's lawn.

Predict Fall of Pinsk

Petrograd Despatches Show German Position Growing More Perilous.

London, July 12.—Special despatches from Petrograd reflect the feeling that Pinsk is likely soon to fall before Brusiloff's advance.

The Daily News' Petrograd correspondent says:—"The situation at Pinsk is extremely complicated for the Germans. Pinsk is now the extreme point of the German promontory running into Russian territory, leading to the wide sweep of the Russian advance from the Lutsk salient in the last few days, any attempt by the Germans to hold on to Pinsk will mean that the Russian must now be made north of the Pinsk marshes.

Paris, July 12.—According to a despatch to the Journal from the Italian front, the Austrians appear to have evacuated Tolmino on the Isonzo front. The correspondent says that the Russians are now in the Pinsk region and that the Austrians in that region is felt less and less.

Lost Ground Is Won Soon Again

French Take Back Portion of Territory Captured by Germans East of Meuse

Paris, July 12.—The Germans delivered two attacks last night on a French position in the neighborhood of Dead Man Hill, on the Verdun front.

East of the Meuse the French retook part of the ground won yesterday by the Germans. In the operations east of the Meuse the French took eighty prisoners, of whom one is an officer.

There were no developments last night on the Somme front. The French conducted successful raids in the Champagne, and in Lorraine.

TRIKING POWER AT VERDUN HAS BEEN REDUCED.

New York, July 12.—For the first time since the crown prince initiated his siege strategy in last February, the German striking power is less at Verdun than elsewhere on their front in France, according to the Paris correspondent of The World.

Their latest blow on the right bank of the Meuse early yesterday morning, the cables, "was inferior in strength, according to the evidence laid before me in an authoritative quarter, to the desperate counter attacks with which they have sought to bar the sturdy systematic progress of General Fayolle's push up the slopes culminating in the summit of Hill 97, the highest elevation immediately south of Peronne.

They are refusing to feed young William his daily reserves," a staff officer observed to me a few days ago, and the remark becomes highly significant in view of the feebly futile effort of the Germans in Fumini and Chonoi Woods.

IN HONOR OF THE GOLDEN JUBILEE OF MGR. DOYLE

His Lordship Bishop LeBlanc and Many Priests at Border

St. Stephen, July 12.—Monsignor Doyle is today celebrating the golden jubilee of his ordination as priest. Fifty years ago Father Doyle, with nine others, was ordained into the priesthood and he is the only survivor of that illustrious class.

This morning at ten o'clock high mass was celebrated. His Lordship Bishop LeBlanc occupied the throne and Monsignor Doyle was the celebrant with a deacon, sub-deacon and master of ceremonies.

At one o'clock this afternoon a banquet for the priests was held at St. Patrick's Hall. The children of the Sunday school will be entertained on the lawn at the rectory from three to five o'clock.

WILL ATTACK DEUTSCHLAND

British Make it Plain They Will Fire Upon "Merchant Submarine" at Sight

Washington, July 12.—British naval vessels will fire upon the United States government liner Deutschland "at sight." It will be treated as a warship, regardless of any ruling the United States government may make.

One column sought to work its way along a railroad which runs around Hill 80 towards the Fleury Station, situated in the eastern extremity of the village, but it melted away before the French fire, as did another column attacking Chapelle Wood.

Column debouching from Vaux fort, however, succeeded in getting a bare footing, after intense fighting, in the Puisse Wood to the west and in the ruined Damploo Battery, one of the subsidiary outposts of Verdun, which lies three quarters of a mile southwest of the village of the edge of Laufen Plateau.

The day's operations on the Somme were confined to completing the work of Sunday and yesterday of clearing the Germans out of those few isolated positions they still held in the bend of Somme, opposite Peronne. The French troops on the north of the Somme are continuing their preparation for the next move.

Even if a submarine merchantman can prove herself to be really unarmed, the difficulties of supervising such a vessel even in harbor, must be almost insuperable for the friendly neutral.

Another on Way? Amsterdam, July 12.—Another commercial submarine, the Bremen, constructed by the same company that built the Deutschland, already has left harbor according to the Berlin Vossische Zeitung.

German Submarine Attacks English Port

Undefended Seaham is Chosen—Thirty Rounds of Shrapnel—One Woman Killed

London, July 12.—The English port of Seaham was attacked last night by a German submarine. About thirty rounds of shrapnel were fired.

The official announcement says:—"At 10.30 o'clock last night a German submarine appeared off the small undefended port of Seaham Harbor (on the North Sea, six miles southeast of Hartlepool).

She approached within a few hundred yards of the town and then opened fire. Rounds of shrapnel were fired from a 3-inch gun. Twenty rounds fell in the direction of Daltondale, a dozen rounds fell in and about Seaham colliery.

A woman walking through the colliery yard was seriously injured and died this morning. One house was struck by a shell.

GOOD THINGS COMING TO THEATRES OF ST. JOHN

MARIE DORO HERE IN "THE HEART OF NORA FLYNN"

Story gripping in intensity and unusual in theme, at Opera House

Now under a long term contract with the Jesse F. Laskey Feature Players Company, the beautiful and talented Marie Doro will be seen in a series of photo-dramas written especially for her. Her first picture will be "The Heart of Nora Flynn," by Hector Turnbull and Jennie MacPherson and produced under the personal direction of Cecil B. DeMille, director general for the Laskey Company.

For a number of years Marie Doro has been on the speaking stage as a star under the management of the late Charles Frohman. She appeared in "The Morals of Marcus," and was a member of the all-star cast in the revival of the celebrated drama, "Diplomacy."

Upon her first appearance upon the screen in "The Morals of Marcus," for the Famous Players Company, she created a tremendous success and was immediately claimed as one of the future photodramatic stars of the country. In subsequent productions she fully justified these prophesies.

She was recently secured by the Laskey Company and in "The Heart of Nora Flynn," will be seen as a nurse maid in charge of the two little children of a wealthy family. How she hopes to be in service only long enough to save money, that she and Nolan may marry and have a home of their own, and how she saves her mistress from disgrace even after she is denounced by her jealous lover, and how she finally convinces him that his suspicions were unfounded so toward making a story gripping in intensity and unusual in theme.

LAST TIME FOR "THE CHRISTIAN" TONIGHT

AS OTHERS SEE IT

There are a good many people who possess a remarkable quantity of absentee goodness. They are as good as can be a thousand miles from where they live. But it is our own corner which really tests our religion. It is easy enough to be patient with children we never meet, but Jimmy Smith is a terror, and he lives next door. What wonder we fall from grace? If we were in heaven we are sure we would be good, but it is a different thing being good in Toronto or Winnipeg. And yet religion is to be good at all must be good just where we live and work. What do our neighbors think of us? If heaven depended upon the vote of our neighbors, would we be likely to get there? And yet they are the ones whom we are expected to help and to save. It is well enough to be interested in other places, but we had better get busy bringing heaven to our own door yard and to our own corner. This may be harder work than being good away from home, but it is much more necessary and much more useful. Be your very best at home.—The Christian Guardian.

Who Pays the Penalty?

Last April two of our representatives solicited applications for life assurance from a prominent Toronto wholesale merchant and his son. They succeeded in selling to the father policy for a considerable amount, but the son could not be induced to protect his dependents in this way against the financial loss which would result from his early death. Less than two months afterwards the daily newspapers

recorded the tragic story of the younger man's accidental death. His failure to act when action was possible deprives his family of the insurance money which he could have secured to them so easily. Have you made any provision for your wife and little ones in case you should die suddenly? An Imperial Home Protection Policy will do it. Write for particulars to-day; tomorrow may be too late.

NEW THREAT OF A SUBMARINE CAMPAIGN

New York, July 12.—A news agency despatch from Berlin says:—"The overthrow of Chancellor Von Bethmann-Hollweg, champion of a conciliatory policy towards the United States, and the unpopularity of German submarines within three months was predicted by Von Tirpitz supporters here today unless President Wilson acts against the British blockade."

The Wheat Market

Chicago, July 12.—Opening wheat prices which ranged from 1-2 to 1-4 higher, with July at 108 1/8 to 108 1/4, and Sept. at 110 to 110 1/4, were followed by moderate further gains.

You Feel Better
When you are free from eye strain you feel better, work better and look better. You have no disagreeing squint, no drain on health caused by over-taxed eye muscles.
Severe eye strain often exists when vision is good. If not removed by properly fitted glasses, serious permanent results follow.
The only way to secure properly fitted glasses is to have a thorough scientific test made of the eyes. You can have such a test made at Sharpe's.

square meal is sufficient to purchase their entire stock of information, while others will talk for no other purpose than "getting square" with their own officers. Often it is not necessary to have the prisoners talk at all. The number of their coats and their identification papers tell the whole story. French experts can tell from a glance at a prisoner's coat what regiment he belongs to, how long he has been at the front, whence he came and a score of other things that would have earned the approval of Sherlock Holmes.

LOCAL NEWS

In arresting Joseph Carr in Union street yesterday afternoon, Policeman Armstrong received a bad cut on the finger, as a result of the prisoner using a knife on him. Carr made several stabs at him with the knife, but fortunately, only one took effect.

The officers elected at the twelfth annual session of the seventh Baptist district, held last week at Campobello were as follows: President, Rev. W. R. Robinson; vice, Rev. P. R. Hayward; clerk, D. C. Clark; with Revs. J. H. Smith, R. R. Hayward, W. H. Johnson and H. W. Smith as additional members of the executive.

The packet steamer John L. Cann arrived in port last evening from Yarmouth and docked at Walker's wharf. The steamer had a very narrow escape while coming up the bay. The crew misjudged the position of the sound from the whistle of Partridge Island, and it was just in time that the captain found that he was heading for Musquodivuit Island.

It is believed that the number of tourists who have come to New Brunswick on holiday trips thus far this year, exceeds the number of last season. Repairs will be made on the pavilions above and below the falls; this was decided at the meeting of the executive of the Tourists Association yesterday afternoon. The association will employ a man to furnish information to tourists and otherwise assist them.

Yesterday was the day for the examinations for the A. O. H. scholarships, but not one applicant called at the examination rooms, in Union street, to compete for the scholarship. The A. O. H., some time ago, decided to provide funds for defraying the cost of scholarships tenable in Catholic colleges in the Maritime provinces. The scholarships are worth \$200 a year and carry with them the privileges of studying for a profession. It is expected that some of the boys eligible will be ready to qualify at an early date.

The Allan liner Stellan docked at Quebec on Monday evening and arrived in Montreal early yesterday morning. She had 108 passengers, of whom number seventy-two are returned officers and men of the Canadian Expeditionary force. There was a large mail on board, including 1,078 bags and 1,029 parcels. Of this amount 170 bags and sixty-two parcels were for the Maritime Provinces, thirty bags and fourteen parcels for Quebec; western mails, 1,773 bags and 853 parcels; Japan seventy-four parcels and Russia 826 parcels.

ST. GEORGE'S SOCIETY. At a meeting of St. George's Society yesterday afternoon, \$25 was voted for the British Naval Reserve Fund. This society has contributed very generously to patriotic funds since the war began. A resolution of condolence was passed with respect to Sergeant H. D. Raymond, the first active member of the society to lose his life in action. Mr. Raymond was a member of the Bank of Commerce staff, this city, before he enlisted. He joined as a private, and was afterwards promoted to sergeant. The shell which cost him his life also wounded his brother. The society passed resolutions congratulating its esteemed past president, Dr. Thomas Walker, on the celebration of his fiftieth wedding anniversary.

WHY?

Why does Lieut. Gov. Wood retain as one of his advisers a gentleman who is not a member of the legislature, and therefore not responsible to the people?

MAHONEY MUST GO.

Self-respecting Conservatives, who have regard for the reputation of their party and the rights of the people, do not hesitate to characterize as it deserves the attitude of the Standard in the case of Hon. P. G. Mahoney.

It would take a lot of commercial submarines to supply Germany with what she will need during the remaining period of the war.

MAKE IT MODERN.

The school board, in deciding to erect any new school buildings, should not fail to provide thoroughly up-to-date buildings.

A GRAVE RUMOR.

The following paragraph from the London Daily Mail indicates that all is not satisfactory in regard to the promotions among Canadian officers at the front.

well informed, its call for action by the Canadian government must not be ignored.

THE WAR NEWS.

Each day brings news of further success by the Allies on all fronts. The situation from their viewpoint grows more and more satisfactory.

All this means disaster for the Central Powers. They are on the defensive, with diminishing forces, while the Allies have abundance of men and have not yet reached the maximum output of munitions.

The Standard is making some progress in its Biblical studies. It is now able, with the assistance of other Bible students, to correct some of its own mistakes.

The 800,000 prisoners taken by the Allies during the last few weeks, along with the great number of killed and wounded, greatly reduce the effectiveness of the armies of Germany and Austria.

Congratulations are extended to Mr. and Mrs. Thomas McAvity and Mr. and Mrs. Edwin N. S. Stewart.

The Standard says the Conservatives lost North Perth because "the German vote has been lost to the Conservative party ever since the outbreak of the war."

Yuba City, Cal., has had nobody in its jail for six months, not a marriage in a year, all the undertakers have moved, and the city marshal's only duty in a year was to kill a dog.

FRENCH PRESIDENT REVIEWS RUSSIANS

One of the outstanding figures in the present great war is President Poincaré. Calm, dignified—the elected head of a great republic cruelly tried in the great strife, M. Poincaré presents a picture for admiration. The Russian Ambassador to France, and French general are with him in the picture.

7,000,000 WOMEN WORK IN BRITAIN

375,000 Fill Places Formerly Held by Men

Many Trades Taught

Female Wearers of Trousers Increasing at a Rapid Rate in the Motherland

London, June 15.—It is estimated that the number of women now working in war and peace jobs exceed 7,000,000. Nothing is more noticeable in the aspect of the streets than the disappearance of the youthful and middle aged civilian, and next month will probably see a marked diminution of even khaki-clad youngsters. Then there will remain only the oldsters and weaklings.

The wholesale withdrawal of men from the commercial and industrial ranks has resulted in huge substitution of female labor for the purpose of maintaining the industrial output of the country. Many hundreds of women are training to become milkers and dairy hands. In Scotland and Northumberland this sort of work is being regularly undertaken by women while in Devonshire and other counties milking is being done even by young girls before they go to school.

Women are at the lathe in overalls and cap in the powder shed, working twelve hour shifts on the motor buses or fashioning metal, timber and leather for driving and distributing. Before the war it used to be said that every Jack had his trade. The same can now be said of every Jill.

Women in trousers are becoming more and more numerous, they are donning them in greater numbers every day in order to cope with work where the skirt is found to be a hindrance. They do not dislike the change and it cannot be said to detract in any way from their native grace or carriage.

Napoleon Favored Trousers.

Napoleon it seems was a great believer in arming women with trousers in the time of war. Dress does not make the man says the proverb but Napoleon found that it made the woman and that putting her into trousers made a world of difference to her work and strength.

Reliable English opinion is inclined to encourage women to adopt masculine attire for what all ought to be man's work, convinced that so dressed woman will give as good an account of herself as her absent mate.

Many thousands of women and girls are serving the nation as munitions workers. The Ministry of Munitions considers every case thoroughly, placing the workers, not only according to industrial fitness and home locality but also with thought for the lives women have previously led and are likely to lead after the war. Many of the women engaged in munition work are art students, musicians, embroideresses—girls who had been engaged in the fine arts and hope to be again. Once drafted into a factory the women are specially looked after by the Ministry as to hours accommodation and rate of payment. The wages are \$5 a week as a minimum, and fit workers are soon able to earn \$15 to \$20 a week by piece work.

Employment for Women

The withdrawal of so many men from all trades and the transference of a large body of female labor from the staple industries to munition making and various other avenues of employment has led the Home Office and the Board of Trade to issue a series of pamphlets pointing out in detail the branches in which women can be employed—what relaxation of the requirements of the factory act are permitted and what arrangements are necessary to be made in factories to meet the introduction of female labor.

The industries and trades dealt with in this way so far are China and earthenware, India rubber, wood, cotton, woodworking, pottery and brick color, paint, varnish, papermaking, hosiery, heavy clothing and others.

The estimated number of females engaged in work in substitution of male labor is as follows:

	Dec. 1915	Feb. 1916	April 1916
All trades	2,871,900	3,093,200	3,750,000
Under this category the main increases are as follows:			
Engineering trades	70,800	117,400	117,400
Chemical trades	9,900	16,300	16,300
Textile trades	57,400	57,400	57,400
Clothing trades	30,400	42,300	42,300
Book trades	29,500	33,000	33,000
Paper and printing trades	22,500	23,000	23,000
Wood trades	11,400	17,400	17,400
Other trades	27,000	37,000	37,000

"I called, sir," said old Jinks to the tailor, "in reference to the letter you sent about the way my son has treated you. I guess you will find him all right in the future, because he has promised to settle down."

"That doesn't interest me," replied the tailor, "I want him to settle up."

News of Maritime Men In The War

Major Anderson Promoted A Moncton officer writes from the front to say that Major S. B. Anderson has recently been promoted to the rank of Lieut.-Colonel in recognition of his splendid services on the western front, and that he is now looking about for officers for the staff of a new artillery brigade which he is to organize soon.

Wounded and Prisoner. Mrs. Alfred Mundle, of Repton, is in receipt of a card from her husband, Sergt. Mundle, who states that he was wounded, captured and taken prisoner. His foot has been taken off above the ankle.

Back at the Front. Word has reached Gagetown that Private Frank Dunn, who was wounded and is now back at the front. Private Dunn was a member of the Expeditionary Force of the British of Nova Scotia when he enlisted with the 55th Battalion.

York County Recruits. (Fredericton Gleaner, Tuesday.) The record of fourteen recruits in the first two days of the present week, Fredericton is jumping ahead after a long lull in recruiting.

Yesterday was an exceptional heavy recruiting day, no less than ten volunteers being sworn in at the local office. This morning the good work continued and up to noon four others had been added to the list. In the two days eleven recruits have enlisted with the infantry and three others, all residents of Massachusetts, were sworn in as members of the Construction Corps, being mobilized at St. John.

Among the recruits sworn in here yesterday afternoon were John Watson, of Fredericton Junction, one of the returned heroes, who is to go overseas with Col. P. A. Guthrie's Killie Battalion. He was at the front with the 12th Battalion and was invalided home some weeks ago. It is also understood that Sgt. George McDonald, another returned hero, is to enlist with the New Brunswick Killies.

The recruits who enlisted here since yesterday afternoon are: William J. McSorley, 28, of Gibson; John Watson, of Fredericton Junction; Charles A. Andrews; J. R. Boyle, 31, of Fredericton; Larry Lawson, 28, of St. John; John Gibney, 24, of Cambridge; Fred Grant, 26, of New Bedford, Mass.; George R. Bancroft, 27, of Boston, Mass.

Railway Man For The Front. Captain D. J. Murphy, Jr., formerly superintendent of the D. A. R. with headquarters at Kentville, proceeded with the 4th Division Train for overseas service. Captain Murphy has been connected with the D. A. R. for twenty-three years.

Editor Enlists. Lieutenant T. C. Choinet, recently enlisted for overseas service with the 108th Battalion and leaves in a few days for Camp Aldershot, where he will join his battalion. His son, Bandman Norris Choinet, is a member of the huge band of the 108th.

RECENT WEDDINGS

Granville-Seely. Yesterday afternoon Miss Edith Myrtle Seely of Lower Norton, and Granville Seely of St. John, were united in marriage in the Church of the Ascension at Lower Norton by the Rev. Thomas H. Parker. The bride was attended by her sister, Miss Nettie Seely. The groom was supported by Ottis S. McNeil. Mr. Seely is a member of the Annapolis Valley and, on their return, will reside in St. John.

Moore-Hopkins. Newcastle, July 11--The marriage of William Moore and Miss Sadie Hopkins, took place last Tuesday at 7 p. m. in the St. Joseph Roman Catholic church, Oldtown (Me.). Rev. E. Gauthier officiating.

Capture German Steamers. Russian torpedo boats have captured the German steamers Lisabon and Worms, of 2,781 and 4,428 tons respectively, and taken them to Finland.

PUBLIC NOTICE

To All Whom It May Concern: Notice is hereby given that authority has been granted by order of the Lieutenant-Governor-in-Council of the Province of New Brunswick, to the Common Council of the City of Saint John, to prepare a Town-Planning Scheme, in accordance with the Provisions of the Act of Assembly 2, George 5, Cap. 15, Intituled "An Act Relating to Town-Planning."

A copy of the Order in Council giving such authority, and a Map showing the Area for which authority to prepare a Town-Planning Scheme has been given, may be inspected by any person interested, without payment of any fee, at the Office of the Common Clerk of the City of Saint John, between the hours of ten and twelve in the forenoon of any weekday, and between the hours of two and five in the afternoon of any weekday except Saturday; and provision has been made for furnishing any necessary information or explanation with reference thereto.

The Common Council of the City of Saint John, under the authority granted, proposes to prepare a Town-Planning Scheme, and has appointed a Commission for that purpose. Any person interested or affected and desiring to be heard with reference to the proposed scheme, should give notice in writing to the Common Clerk of the City of Saint John, within twenty-one days from the date of this Notice.

All owners of Land within the area for which authority has been granted as above, are requested to send their names stating the location and extent of property held, to Mr. A. E. Wetmore, Secretary of the Saint John City Town-Planning Commission.

Dated at Saint John, N. B., the twelfth day of July, A.D. 1916.

HERBERT E. WARDROP, Common Clerk.

The Man In The Street

Commission government for Ireland, never asked for a nice new seralimant-driven, hook-and-ladder-truck.

So Germany has upset Britain's supremacy at sea by a trans-Atlantic trip of a submarine? Surely she has, just as the man displays authority in the home on a positive-by refusing to come from under the bed when his wife told him to.

Those submarine liners should be popular with a lot of folk in peace times, though if you ever were sea-sick, you will know why.

"Will you take it now or wait till you get it?" was the substance of Commissioner Fisher's attitude when his colleague asked for a nice new seralimant-driven, hook-and-ladder-truck.

Perhaps he thought that anything with a name as long as that must be German.

An Angel Mourns. "What is a bat, mamma?" asked the little girl who heard the older folk talking of this species of bird.

"Oh, it's something like a mouse with wings," was the careless answer. "Is it a dead mouse that has got to be an angel, with wings on?" she naturally wanted to know.

Scared or Scattered? A contemporary who refers to an inviolable soldier as a battle-scarred hero may be right, but we would not like to think so.

Those Bibles. A casual reference in these columns to a Bible-distributing campaign by a contemporary seems to have rather upset the editorial-writer of the latter paper. Of course we did not mean to insinuate that he did not possess an academic knowledge of the contents of the books he is sending out.

A casual reference in these columns to a Bible-distributing campaign by a contemporary seems to have rather upset the editorial-writer of the latter paper. Of course we did not mean to insinuate that he did not possess an academic knowledge of the contents of the books he is sending out.

The sweet young thing called up a friend, "buns-buns, lend me the telephone and 'hello' can be the answer.

"I want you to sing for us at the entertainment on Wednesday evening?" explained number one.

"Why, that's so lovely of you; I'd be awfully pleased to, but what shall I sing?"

"Well, you know Wednesday is the twelfth of July, so I thought you might sing something appropriate to the occasion."

"Yes, dear, but what?"

"Oh, I don't know, but there's one piece I always liked; how would it do to sing 'The Wearing of the Green'?"

A little orange-colored sunlight would make this look more like the glorious twelfth.

This Year's Colors. This year the orange and the green merged in the neutral color of khaki. Differences are forgotten as the men from opposite ends of the emerald lake fight for their forefathers were willing to fight each other; red are the fields of France and Flanders with the life-blood of men of the north and the south who stand shoulder to shoulder in the fight against the blackness of Prussian Kultur.

Get Together On This. If other differences can be forgotten, even if it is but for the moment, would not be possible for the O. H. and I. O. A. to get together and declare a truce on one phase of their mutual animosity by the spectacle of no such consolation as the most suffering to the innocent bystander?

As the intelligent reader will readily understand, reference is made to the deadly use of the silk hat. The man who goes to a picnic on a July day of average warmth bedecked with a ponderous plug hat may be expected to suffer, but he has the happiness of a martyr in a good cause to help him bear his sufferings. The mere spectator, who cannot help seeing him and his companions, has to bear the anguish caused by the spectacle with no such consolation.

The O. H. may be called off to outrun the I. O. A. by a proud display of more silk hats of more varieties and of more ancient vintage, or vice-versa, but what relies in the museum, not on the human head, so why drag these souvenirs of by-gone days out into the cruel light of day?

The man who first invented the stove-pipe hat was, and still is, an enemy of man-kind, but the men who adopted it as the regalia for fraternal societies have a greater crime for which to answer.

Take a festive lodge member, out for a good time on March 17 or July 12, and think of the cruel way in which he beats the rules of correct dressing around the block and back again. Of course, a proud Hibernian or an independent-minded Orangeman does not give a hoot for the rules laid down by the tailors and such authorities, and he wears what he wants to wear, the way he wants to wear it. But some day a bunch of them in correct marching regalia, will catch a glimpse of themselves in a looking-glass and, if they survive the shock, the campaign for abolition of the present rules will be on in earnest.

Why should any one want to wear a pug hat with a bob-tailed coat? Any way why should any one, even for the sake of principle, consent to add a white line to the combination? Of course a pair of tan shoes and a purple striped shirt may somewhat soften the effect,

Recent Deaths

Thomas Upham, Aged 105. Boston, July 11--Thomas Upham, 105 years old, and known as the oldest business man in this city, died today at his summer home at Phillips Beach. While he had retired from active business life he had attended to several interests until quite recently.

John Francis O'Brien. John Francis O'Brien, second son of John and Annie O'Brien, died yesterday after a brief illness, at his parents' home, 8 Mill street. Mr. O'Brien had been ill a short time. He was in his twenty-third year and was well known in the city. Besides his parents he is survived by three brothers and four sisters. The brothers are William, Harold and Ronald, and the sisters are the Misses Ellen, Annie, Florence and Marion, all residing at home.

Mrs. Brennan's Funeral. The body of Mary J., widow of Bernard Brennan, arrived on the Boston train yesterday. The remains were accompanied by her daughter, Mrs. A. A. McDonough. Funeral on Thursday morning at Fitzpatrick's undertaking office at 6:45 o'clock.

Samuel Waters of Moncton, who is dead, aged seventy years, who born in County Wexford, Ireland, and who came to this country when an infant, with his family, which settled in the city of St. John, where he grew up and remained until 1871, when he came to Moncton, and remained for a short time, returning later to St. John. From St. John he moved in 1876 to Moncton. He was employed in the freight department of the C. E. I. until 1888, when he quit the railroad and went into business for himself. Mr. Waters is survived by his wife, Mrs. Darling, Albert street, Moncton; Mrs. Hamilton, Crescent Park, Waltham, Mass.; Mrs. Jones, Melrose, Mass.; Mrs. Fish, St. John; Mrs. Park, St. John; Mrs. Leonard, Marsh road, St. John.

Wm. Kerr, a prominent resident of Elmwood, Carleton Co., died on Monday, aged forty years. Less than two years ago he was appointed a colonel officer at Debec, succeeding Colonel Kirkpatrick, when he was appointed to the command of the 88th Battalion. He leaves his wife and two children, George and Mary; two brothers, John and George Kerr of Debec, and five sisters, Mrs. Henry Speer of Woodstock, Mrs. Wm. Ivey of Lower Woodstock, Mrs. James Bryden of Lower Woodstock, Mrs. David Young of West Glasville, and Mrs. Charles Eddy of Dumfries, York County.

The death of Captain William Reid, formerly of Newcastle, N. B., occurred on June 28. He left two sons and two daughters. The sons are Harry W. Reid, now overseas, and Ward Reid, with Sargent Brose, Newcastle. The daughters are Mrs. James J. Stewart of Moncton, and Mrs. J. Cuthbert Doyle, Halifax, wife of the provincial secretary of the Retail Merchants' Association of Canada. Benjamin Reid, of Newcastle, is a brother. Captain Reid was sixty-nine years of age.

Horace H. Randall died at Randall's Corner, Sunbury county, on Saturday. He was seventy-eight years of age and is survived by a widow and four children. Two brothers, L. S. Randall and John Randall, and two sisters, Mrs. George Burgess, of Randall's Corner, Mrs. Lonsville Judge, Lakeville Corner, and Mrs. Amanda Andrews, of St. John, also survive.

Amherst News--On Monday evening in the Highland View Hospital, Herbert Bidden Killam, only son of O. J. Killam, of St. John, passed away. The youth was twelve years and nine months of age. He was taken ill five days ago with a severe attack of appendicitis. For the past few years the lad had been living with his grandmother, Mrs. E. Bidden of this town.

THE BAPTIST MINISTERS (Maritime Baptist)

Many will read with regret and sorrow of the passing of Mrs. Phillips widow of Reverend C. T. Phillips. Mrs. Phillips, like her husband was for many years a leader in the work of the Free Baptist Conference. In all her husband's work she bore her part well and many hearts will have sorrow in her death.

The ordination of Mr. W. Edson took place at New Brunswick on July 8th. Captain (Rev.) F. S. Porter, who resigned the pastorate of the German street church, St. John, to accept a chaplaincy with the 104th Battalion has arrived safely in England.

Our sympathy is extended to Rev. A. C. Currie of Eastport, Me., and other members of his family in the sorrow that has come through the passing of a beloved mother. Mrs. Berrie was the widow of Deacon Solomon Berrie of Turtle Creek, N. B. Her Christian influence has been a potent factor in the lives of her children.

Cpts. (Rev.) W. F. Parker has been seriously ill with an attack of diphtheria. We are thankful to be able to state that he is now convalescing and according to the last reports seen is now recovering rapidly.

Rev. Thomas S. Roy, Acadia '11 pastor of the Lincoln Park Baptist church of West Newton, Mass., is now enjoying his vacation in the provinces. He will not return to take up his work until September. He will be supplied for two Sundays (August 6 and 13) by Rev. L. L. Wash of Parisboro, N. S.

A welcome visitor from this office during the week was Rev. L. H. Thayer, pastor of the Millstream field. At present he is enjoying a well earned vacation from the work of an unusually large and heavy field. He has been less than two years with these churches into membership, fifty of these by baptism.

A unique record of this made by C. K. Morse (Acadia '03). He and two of his sons are now serving the empire overseas and all enlisted as privates in the Canadian Expeditionary Force.

Rev. E. M. A. Bleakney one of the younger men whom we have given (with some reluctance) to the work across the border. He is pastor of the First Baptist church at Stoneham, Mass., the church from which Rev. Frank A. Starata (Acadia '02) was called to a professorship at Colgate. He has been voted a substantial increase of salary and vacation of six weeks. He is now enjoying that vacation at Wolfville, N. S.

The following changes have recently occurred in P. E. Island: Rev. W. E. Piper, from East Point to Cavendish; Rev. E. F. Calder from Bedouque to Tryon; and Rev. Arthur Hurn, who recently resigned at Tryon, has accepted a call to the North River church. Rev. Dr. J. W. Manning, D. D., now of Wolfville but for many years the honored secretary for foreign missions at the German street Baptist church on Sunday. He understands he has in view also the publication of a local church paper to be called the Transmarine Baptist devoted to the interests of the local church work.

The death of Dr. Elizabeth C. Second occurred last week at her home in Farmington, N. B. As the first lady physician duly registered in New Brunswick she fought her way against custom and prejudice to an assured position. In her preparation for her life work she surmounted obstacles which would have daunted a less determined will. She was an active member of our denomination having belonged before the union to the Free Baptist body.

The friends of Rev. I. W. Corey at one time pastor at Ferville, N. B., will bear with interest of a substantial gift bequeathed him by a member of the church to which he now ministers, the First Baptist church, Kenosha, Wis. The donor, George Yule, showed his appreciation of the friendship and spiritual ministry which he received from his pastor by leaving him a legacy of \$5,000. He also left to the church an annuity of \$200 during the life time of Mrs. Yule. Mr. Yule died May 23 at the ripe age of ninety-one and left an estate valued at \$80,000.

Rev. A. B. Cohoe, D. D., has resigned the pastorate of the First church, in Halifax in order to accept a call to the First Baptist church in Providence, R. I. The announcement of his decision was received with great regret by a congregation to which he has ministered for the last six years, a regret which will be shared by many outside of Halifax. It is generally agreed that Dr. Cohoe is one of our ablest and most brilliant preachers. Coming first to St. John as a total stranger he soon won general recognition as a keen and independent thinker and an able preacher. He has filled an important place in the life of the denomination, a place which will not easily be filled.

WOMEN DIG FOR COAL IN WALES

Since many of the Welsh miners have gone to the war, their women folk have undertaken the job of "keeping the home fires burning" in the old country. They are apparently robust and strong and enjoy the life. The one on the left picture gives a good idea of their "uniform" and equipment for going down the mines. The other photo shows one tipping a coal truck—a work which requires considerable strength.

THE BRITISH SECRET SERVICE

Tripled in Efficiency Since the War Began

Naval Officer at the Head

Captain W. R. Hall Combats German System and Seeks Enemy's Secrets—Can Shoot and Pray

Writing in the New York American, Augustus F. Beach says: There is probably no more efficient officer in all of Great Britain than the man chosen by wise Admiralty heads to combat the German system of espionage and to penetrate at the same time the German espionage armor. He is Captain William R. Hall, at the outbreak of the war commander of the cruiser Queen Mary, destroyed in the fight off Jutland, and one of the first British commanders actually to sink a German man-o-war. This he did in the first Heligoland battle.

Hall is a new fighter of the finest type, a sailor with the salt of the seven seas in his veins and hatred for no man in his heart. He made him chief of the Intelligence Division of the navy, because he knew men as well as ships and the rest of the world as well as Britain. I have known his encouraging smile to batter down spy disguises, where the usual third degree methods would be futile. It takes a strong man to talk an hour with Hall and not reveal himself.

Felt for the Enemy. I never think of Hall as a secret service director without recalling an incident that occurred on the bridge of the good ship Queen Mary as she raced to the death after scoring a fatal hit on a German cruiser in that first tussle in Heligoland Bay.

Hall is a religious man. Also, like the ablest sea fighters everywhere, he could face death himself with a hundredfold less feeling than would reach his heart at the sight of an enemy bound to the regions of Davy Jones. Hall first found the German with a shell at seven or eight miles. A broadside from the Queen Mary filled the enemy, and Hall rushed in at full speed. Through his glasses he could see the German turning up on end and her men crowding aft to stay out of the water as long as possible.

"I'm a bit religious, you know," Hall said to me, "and I don't like to see the poor beggars going down just that way, naturally took off my cap and said a little prayer for them. This is Hall, the man who guards the secrets of the world's greatest fleet, and seeks the secrets of the next greatest. He believes you should love your enemies—and shoot straight.

THE BRITISH SECRET SERVICE

Tripled in Efficiency Since the War Began

Naval Officer at the Head

Captain W. R. Hall Combats German System and Seeks Enemy's Secrets—Can Shoot and Pray

Writing in the New York American, Augustus F. Beach says: There is probably no more efficient officer in all of Great Britain than the man chosen by wise Admiralty heads to combat the German system of espionage and to penetrate at the same time the German espionage armor. He is Captain William R. Hall, at the outbreak of the war commander of the cruiser Queen Mary, destroyed in the fight off Jutland, and one of the first British commanders actually to sink a German man-o-war. This he did in the first Heligoland battle.

Hall is a new fighter of the finest type, a sailor with the salt of the seven seas in his veins and hatred for no man in his heart. He made him chief of the Intelligence Division of the navy, because he knew men as well as ships and the rest of the world as well as Britain. CITY MANAGERS

Wherever the commission-manager plan of government has been adopted the National Short Ballot Organization in the United States finds the conduct of municipal affairs has shown marked improvement.

Westerville the first city in Ohio to take advantage of the new statutory provisions enabling it to appoint a city manager, has placed the affairs formerly conducted by the board of public affairs, the board of health, street commissioner and fire chief, in the hands of a civil engineer. The largest operations under his management are the water works and electric light plants, and in these two departments the greatest savings have been shown. The same employees are used in several city departments, thus eliminating much waste in the form of unemployed time. In work formerly done by contract, the city has saved about \$2 per team per day by owning its own teams. The city manager has arranged with the auditor to borrow sufficient money at low rates to take advantage of the two per cent. discounts, effecting a saving of about \$400,000 a year.

Of affairs in St. Augustine, Fla., the organization reports: "Three inches of incrustated rock and muck in the 10-inch mains of the distributing system measures the neglect of the old-fashioned city government in operation up to a year ago. The city manager, W. L. Miller, found that the flow of water was about as many gallons per minute as should be expected. By cleaning out the mains the flow was increased from 900 gallons to 1,788 per minute, and a saving of 25.6 per cent in fuel cost at the pumping station was effected."

"The city manager of Niagara Falls, Asslan E. Cass, has been successful in securing important citizen co-operation. At his request real estate men have placed in his hands the disposal of 800 city lots. These will be given the children free for use in gardening. The superintendents of the park department and superintendent of schools supervise the work and two newspaper men are serving on the committee."

Morris, Minn., the water department shows a balance of more than \$8,000 for April. Two years ago for the same period, there was a deficit, which has been the rule. This improvement in operation was accompanied by installing

an electric pump and overhauling of old leaky equipment. A saving of 50 per cent of the pumping cost is to be effected."

Karl Mitchell, city manager of Sherman, Tex., has reported these results accomplished during the first eight months under the new charter. "Useless positions paying salaries amounting to \$4,000 have been abolished; bills have been paid promptly and discounts taken; a saving from 10 to 25 per cent in the cost of hardware, printing and other supplies has been effected; all night lights on the public square now cost \$8 per month, instead of \$27."

The Short Ballot Organization calls attention to "certain weaknesses in the commission-manager plan, telling 'why the commission-manager plan is better. The commission plan dates from 1901, when a Texas court decided that the appointment of the governor could continue no longer and the governing commission of five men must be chosen by local election. Although the plan was not designed to be elective, it became such by this unforeseen decision."

In the next fifteen years 800 cities and towns copied the commission plan, and only one (Salem, Mass.) has reverted to the old scheme, and that was because of a tactical incident in a local fight where the merits of the plan were not at issue.

In 1912 Sutter, S. C., adopted the commission-manager plan, followed the next year by Dayton and Springfield, O. There are now forty cities governed by this plan. The organization says it is spreading more rapidly than the commission plan.

When a commission government plan is changed to the commission-manager form the commissioners are no longer as signified each to the headship of a city department, they assume no individual administrative work, they do not give all their time to the city, but only spare time, they receive only nominal salaries or none and continue uninterrupted their private careers. They are empowered to hire from anywhere in the nation a city manager at a good salary and he holds office at their pleasure, is their sole executive agent in all things and runs the municipal administration under their continuous supervision and direction.

NERVOUS?

Do You Brood? Have Morbid Fears? Toss in Your Sleep?

Your Condition Below Par You Must Be Built Up—At Ferronze Do It

All the vital activities of the body are quickened into new vigor by Ferronze, which contains all the constituents necessary to make nerve strength. Its first action is upon digestion. It stimulates the secretion of gastric juices, ensures perfect digestion and prepares the food so as to be easily assimilated. This everything you eat is converted into nourishment that enriches the blood and lends new strength to the nerves. By Ferronze the mind is relieved of those brooding tendencies, of morbid unnatural fears, of unwillingness to concentrate attention on things that should be done. Won't you try Ferronze? Won't you give it a chance to bring you back to health? It will do it, just as it did for Mrs. Creighton Zinck of Palm street, Lunenburg, N. S., who says: "I want to give my experience with Ferronze because I believe it will be of assistance to thousands of women who need it badly. I was very thin, run down in flesh and lacked color. My nerves were in a dreadful state. If anything felt I would jump and start. At night I would suddenly wake up, heart palpitating and all keyed up. Ferronze went right to work. It restored my poise and balance, gave me self-control, cured my nervousness. Ferronze increased my appetite and my weight came up so fast that simply didn't need to use it any longer. Eight boxes cured me. Why Won't you use Ferronze also, it certainly will do you good in many ways—sold by all druggists in 50c. boxes.

COMMON COUNCIL

The purchase of a motor ambulance at a cost not to exceed \$4,000 and the expenditure of \$7,000, the balance of a bond issue, for what pieces of motor fire apparatus are procurable and considered essential to the service, were authorized yesterday afternoon at the meeting of the common council. Thwarted in his effort to secure a new issue of about \$10,000 so as to procure a motor hook and ladder truck at about \$16,000, by the negative vote of Commissioner Fisher, Commissioner McLellan offered the alternative of expending the balance of the bond issued, after the resolution had passed he stated that he would get two motor salvage wagons and a runabout for the chief of the fire department.

The commissioner of Public works was authorized to purchase 26,445 pounds of asphalt in excess of the 200 tons already ordered, at \$22 per ton, from the Carrite-Paterson Mfg. Co., Ltd. He was also authorized to assemble in one fund various balances from street appropriations, the whole to be used for such purposes as the department approves.

The claim of William Hodd for \$25 damage done to his fishing nets in the harbor by the ferry boat, was referred to the commissioner of harbors and ferries, with power to act. The commissioner of finance reported payments for the month of June amounting to \$87,000.42, an itemized statement of which was submitted.

ONE TRAWLER MADE RECORD CATCH OF FISH AT SAMBRO BANK

Gloucester, Mass., July 11.—The largest single catch of fish ever landed at a port in this country was brought here today by the trawler Easthampton, according to port officials, after comparison with available records. The trawler got 400,000 pounds off Sambro Bank, near Halifax (N. S.), in less than two weeks.

SALISBURY MAN KILLED

Sussex, July 11.—A distressing accident occurred last night about 6 o'clock, near Salisbury, in which Herbert Parker, a section man of that place, lost his life. Parker, together with five other section men, was coming into the station on a handcar, after having completed the day's work. When nearing the station the handcar jumped the track, throwing Parker violently into the ditch and fracturing his skull. His companions, none of whom was injured seriously, rushed to his aid, but he died five minutes after he had sustained the injury. Parker is very well known in this section and leaves his wife and five children.

Killed on I. C. R.

Herbert Parker was killed almost instantly when a hit-car, on which he and four other section men were returning from Petticoat to Salisbury, jumped the I. C. R. tracks last evening. He was sixty years old and is survived by his wife and five children. One of the other men was slightly injured.

Down Planning in Force.

The commissioner recommended that the common clerk give public notice under the provisions of the Town Planning act, that authority has been granted by the lieutenant-governor-in-council for the preparation by the city of a town planning scheme and that the city proposes to prepare a scheme and has appointed a commission for that purpose. This was approved.

The mayor explained that the activities of the commission heretofore were but preliminary and that hereafter it will have the official sanction of the city and government as all the necessary forms have been compiled with. Among the communications was the resignation of J. D. Cameron as a member of No. 2 Salvage Corps and upon his request his warrant was cancelled.

Notification was received from the office of Mayor Martin, of Montreal, that the Union of Canadian Municipalities is meeting on Aug. 21, 22 and 23, in city hall, Montreal, and he invited the St. John council or delegates appointed to attend and take part in the debates. This was referred to the mayor, with power to act.

A communication from the city recorder giving advice on the matter of boundary of the Marsh creek, which has been engaging the attention of the commissioners, was referred to a committee meeting.

The terms of Mrs. James Dever as a member of the school board having expired a new appointment was considered. Commissioner McLellan withdrew his nomination of Mrs. James Gerow and Mrs. Dever was reappointed for another term.

Upon motion of Commissioner Russell it was agreed that charges against the government for berth 14 be cancelled. It was suggested that next season some agreement should be made with reference to the use of this pier by the government.

Tenders for the paving of North and South Market streets were opened and the following tendered: A. R. C. Clark & Sons, James E. Kane, Grant & Horn, Corey & Stevens, R. Alfred Corbett, J. H. Barley, B. Mosey & Sons, and Ernest Ryerse. They were referred to the mayor and Commissioner McLellan, with power to act.

In view of the fact that R. D. Wood & Company, of Philadelphia, have been shown to have accepted \$167,000 from Germany to refrain from making shell machinery for contractors for the Allies, and that the agreement in the Williams report, the Dominion General Equipment Company, were the lowest tenderers for cast iron pipe, Commissioner Wigmore moved that all the tenders be rejected and new tenders called for. This was agreed to.

Be fair to your teeth --use Mennen's

MANY extravagant claims are made for tooth pastes and powders. Some, while they clean the teeth, do so by a scouring or grinding action that in the end destroys the precious enamel of the teeth. Mennen's is fair to the teeth. It cleans and polishes by a gentle natural action, removing all stains and restoring the natural whiteness of the teeth. Mennen's is agreeably flavored and leaves the mouth cool and fresh.

Veteran For The Island Battery

Two recruits were secured yesterday at the recruiting office—Charles Dickson, Sackville, and Frederick G. Smith, St. John. A Big Soldier. Charles Dickson, formerly of Sackville, arrived in the city yesterday, after residing in Boston for several years, for the purpose of joining the colors. He measures six feet four inches in his stocking feet and weighs 220 pounds. Shortly after his arrival he signed on with No. 6 Construction Corps. That Lieutenant Frank M. Smith of this city, son of R. Morton Smith, had been wounded the second time, was the news received in a cable yesterday by W. G. Smith of this city from the young officer's father who is at present in England on a business trip for his firm. The cable said that he had received a card from his son, who is in France, saying that he was slightly wounded.

Officer Invalided Home to be in Command—Two Recruits Yesterday—Lieutenant F. M. Smith Wounded

It is rumored that an officer at present at the front, will return to take the command of the 6th C. G. A. The officer will be returning on account of physical disability in order to recuperate for further duties at the front. Captain P. W. Wetmore, who has been in command, is to take the No. 9 Siege Battery overseas. Casualties. The names of two New Brunswick men appear in the midnight list: Gunner George M. White, Moncton, seriously ill, and Charles H. Preston, Bayside Road, wounded.

New Officers for 146th

It is reported that the following additional officers have been appointed to the 146th Westmorland and Kent Battalion: Captain Garfield Smith, 76th Regiment; Lieutenant Herbert Gladstone, Palmer, 74th Regiment.

FAMOUS DAYLIGHT SAVERS

Men Who Needed no Act of Parliament

The robust William Cobbett, in his advice to Young Men, says—"To obtain respect worth possessing you must do more than the common run of men in your state of life; and, to be enabled to do this, you must manage well your time; and, to manage it well, you must have as much of the daylight and as little of the candle-light as is consistent with the due discharge of your duties." Lord Carlisle of the same generation, writes to his friend Selwyn—"I rise at six a. m., on horseback till breakfast is over, and then I can scarce crawl to bed at eleven. You get up at nine; sit till twelve in your night gown; creep down to White's and spend five hours at table; sleep till you can escape your supper reckoning; and then, make two wretches carry you in a chair, with three pairs of claret in you, three miles for a shilling." A Boswell-Johnson Quotation. In Boswell's life of the tavern Juniper he writes—"I mentioned that Lord Montbald told me he awakened every morning at four, and then for his health got up and walked in his room naked, with the window open, which he called taking an air bath; after which he went to bed again, and slept two hours more. Johnson, who was always ready to beat down anything that seemed to be exalted with disproportionate importance, thus observed—"I suppose, sir, there is no more in it than this, he wakes at four, and cannot sleep till he chills himself, and makes the warmth of the bed a grateful sensation. I talked of the difficulty of rising in the morning. Dr. Johnson told me that the learned Mrs. Carter, at that period when she was eager at study, did not wake as early as she wished, and she therefore had a contrivance, that at a certain hour, her chamber-light should burn a string to which a heavy weight was suspended, which then fell with a strong sudden noise; this roused her from her sleep, and then she had no difficulty in getting up. But I said that was my difficulty; and which there could be some medicine invented which would make one rise without pain, which I never did, unless after lying in bed a very long time. I have thought of a pulley to raise me gradually; but that would give me pain, as it would counteract my internal inclination. Dr. Johnson observed that a man should take a sufficient quantity of sleep, which Dr. Mead says is between seven and nine hours." This judgment did not coincide with Johnson's famous contemporary, John Wesley. When the great evangelist entered on his eighty-fifth year he attributed his marvellous health and vigor mainly "to my having sleep at command, so that whenever I feel myself worn out I call it, and in come, day or night, to my having constantly, for about sixty years, risen at four in the morning, to my constant

WHY PEOPLE FEEL DEPRESSED IN THE COLD WEATHER

Why is tiredness and languor so prevalent just now? A physician explained that the cold of winter drives blood from the surface of the body to the liver. Normally one-fourth of the whole blood supplying the liver, and when more blood is accumulated in that organ everything goes wrong. No better remedy exists than Dr. Hamilton's Pills which are composed of such vegetable extracts as Mandrake and Butternut, and possess wonderful liver stimulating powers. It's a marvel the way Hamilton's Pills clear the blood of the poisonous humors. They put new life into worn-out bodies, build up the appetite, bring back a reserve of nervous energy, tide folks over the cold days of winter and the depressing days of spring. had not been an early riser; he used to say, "I should never have written more books than I have lived years." Crockett tumbled out of bed, winter and summer alike, at five o'clock. Long before six he was hard at work, and by breakfast-time had written three or four thousand words, leaving, if he wished it, the rest of the day "to play in." Anthony Trollope was also an inveterate early riser, though he did not form the habit early. He was twenty-nine years of age, married, and in post office service, when he decided down to laudatory orship. He says—"The only necessary to prosecute two professions at the same time is, not being to everyone, and it was only lucky that I had found the vigor necessary for one. There must be early hours, and I had not yet learned to love early hours. In his biography of Thackeray, when he deals with Thackeray's attempt to go to the office at five o'clock, he affords a glimpse of what ultimately became his own method of work. "He might have done so, could he have risen at five, and have set at his private desk for three hours before he began his official routine at the public one. A capability for grinding at a desk for such a long time, a disposition to sit in one's chair as though fixed to it by cobblers' wax, will enable a man to do so. He went through the tedium of a second day's work every day, but of all men Thackeray was the last to bear the wearisome persistence of such a life." In his autobiography Trollope explains that he engaged a man to awaken him every day and compel him to get up at five o'clock.

Dr. Johnson observed that a man should take a sufficient quantity of sleep, which Dr. Mead says is between seven and nine hours." This judgment did not coincide with Johnson's famous contemporary, John Wesley. Early Worm Catchers. Alexander von Humboldt, a great German philosopher and traveller, rarely spent more than four hours in bed, and was frequently content with two. Michel Angelo often slept in his clothes, and frequently rose in the middle of the night to continue his labors. Edison's advice is "Don't look at the clock." He has been known to work thirty-six hours continuously at a single problem, and on many occasions he has spent a whole week "in his clothes," snatching a few minutes' sleep when exhausted Nature prompted him to do so. Some celebrated Frenchmen deserve mention for their capacity to catch "the early worm." President Faure was rarely in bed after five o'clock in the morning. When he held the proudest position in France he had his early bath and was immersed in his work by five o'clock. To this habit of early rising the "tanner president" attributed much of his success in life. Little, who lived to be eighty, thought that to spend more than five hours a day in bed was shameful self-indulgence. But he can hardly be called a daylight saver, as he went to bed at three in the morning and got up at eight. The G. O. M.'s Granddaughter. Owing to House of Commons hours, Mr. Gladstone could not be called a daylight saver either, though he limited his sleeping hours strictly to seven. He often wanted more, but he denied himself. Everybody has heard what a great favorite of his was his little granddaughter Dorothy Drew. One morning word was brought that she would not get up. No enquiries had any effect upon her. The G. O. M. had to interview the little maiden. She surprised him by stating that the Bible did not favor early rising. When he demanded evidence she quoted from the Psalms—"It is vain for you to rise up early."

While the heroic Don Quixotes will always be ready to greet the dawn of day in full armor prepared for the fray, the majority will say with Sanch Panza, "Blessed be the man who invented sleep." close to the dwellings of civilization. In other years little notice has been taken of them, most of the residents in the country considering that all quadrupeds were the property of man. Some even carried their good-natured tolerance so far as to throw a stone at any bear they sighted, and cry "Shoo, where?" or "get out," as they would have done to pigs or any domestic animal invading the precincts sacred to man. But that in their present state of hunger bears are formidable antagonists has been demonstrated to the satisfaction of Frank Hebert, a farmer near Lac Superior, who also works occasionally for Mr. G. Maxwell Sinn at the latter's summer house in the Lac Superior district. Shied Stone at Bears On Sunday afternoon Hebert thought himself of the excellent trout fishing in the Roule river, one of the best fishing streams of the Laurentians. A trail runs from his house to the river, more than a mile away, through a heavily-wooded district, covering Gray Mountain. He waded up the river for some time, having such splendor of the high bank from the brush and their voices added to the uproar brought mother uppermost in the she-bear's heart and she went up the bank again. Several times both the male and female bears started down the hill but the cub could not be induced to follow, and they had to return to comfort them. Meanwhile Hebert wished wildly for the rifle hanging securely in his cabin beyond the reach of his children. In his plight he decided that fight would be the wisest plan. Therefore he started distribut-

MR. BALFOUR, FIRST LORD OF ADMIRALTY, INSPECTS TROOPS GOING TO FLANDERS

Wars may come—and go—but Mr. Balfour, the genial and dignified First Lord of the Admiralty, and virtual leader of the Unionists of England, maintains his placid, well dressed appearance. This is a new photo of him, with one of the English generals.

LAST NIGHT'S WAR CABLES BRIGHT

London, July 11—The capture of the whole of the German first system of defence on a front of 14,000 yards (nearly eight miles), after ten days and nights of continuous fighting, is announced in the official report from British headquarters in France. The number of prisoners taken exceeds 7,500.

This was another good day for the Allies all around, who are making a steady advance on all fronts. A striking illustration of the difference in the relative positions of the Allied and Teutonic forces and of the remarkable change from the monotonous defensive trench warfare which characterized the Allied operations for so many weary months until the present summer, is found in the number of prisoners and guns taken. These for the battle of the Somme amount to 22,000 prisoners and 104 guns captured from the Germans, while the official figures for the Russian general Brusiloff's drive to the 10th of July are 271,620 prisoners, 312 guns and 866 machine guns.

Today's news is of sustained and heavy fighting on almost all the fronts, the Allies making consistent progress, with only occasional setbacks. The British have finally captured the fiercely contested town of Contalmaison after desperate day and night fighting and are now holding the town against all the German counter-attacks.

The importance the Germans have attached to this position may be measured by the fact that they recently threw the Prussian Guards into the fighting at this point.

The British are also in possession of the greater part of Mametz Wood, and have recaptured nearly the whole of Trones Wood.

RUSSIANS CLOSE ON KOVEL.
The news from the eastern front is equally satisfactory from an Allied point of view. The German official communication, at least admits that the fighting on the Stokhod line is approaching Kovel on both sides of the railway, and claims that the Russians have been driven back near Huleviche.

Much comment was caused here today by the German denial of an alleged Russian claim that Pinsk had been evacuated, as no such claim has yet been made in the Russian official despatches.

It is now clear that the Russian drive in the direction of Kovel has brought the German offensive at Lutsk to a standstill and according to the Russian communication, the Germans have brought up strong reinforcements to defend the Stokhod line and Kovel. General Brusiloff, however, now has the impassable Pinak marches covering his right flank, and is in a position to outflank the German defenses of Kovel.

According to a report from Bern, Switzerland, the Austrians are hurriedly transferring the Landsturm from Serbia and Montenegro in an attempt to hold back the Russians. The difficulties confronting the Central Powers in meeting the all-round attack are indicated in the Italian official statement tonight, in which it is stated that the Austrians have been obliged to recall to the Italian front troops which were about to be sent to the eastern front.

Washington, July 11—On the strength of advice from navy experts who inspected the Deutschland at Baltimore today, the treasury department informed the state department that the German merchant submarine was an unarmed freight carrier which could not be converted for offensive use without "extensive structural changes."

New York, July 11—The following news agency despatch from Rome is published here today:

Kaiser Wilhelm and Emperor Francis Joseph have sent an urgent request to Czar Ferdinand that he despatch Bulgarian troops to the Galician and Tseretino fronts to help check the Russian and Italian offensives. This information was received from Geneva today.

London, July 11—The Earl of Crawford has been appointed president of the board of agriculture, to succeed the Earl of Selborne, it was announced officially today.

Vienna, via London, July 11—The official statement issued today says:

"Near Zolze on the Caranostza we repelled to the Russian fire. Attacks made by superior forces near Sokal broke down in our entanglements. The enemy vainly endeavored to bring his fleeing masses to a standstill by turning the fire of his own guns and machine guns upon them.

"Near Huleviche, on the Stokhod the enemy was repulsed by German and Austro-Hungarian forces after bitter fighting. Several other attacks in the Stokhod region failed completely."

SENSATIONAL GRAFT REPORT IN BANGOR

Bangor, Maine, July 11—Charges that nineteen members of the Bangor city government have illegally done business with the city to the extent of \$15,441.74 in 1914 and 1915 were made tonight by a special "graft" committee of prominent citizens recently appointed by the city government. The investigation grew out of the extensive disclosures of graft in the street department, and as a result of which three city officials are under bonds for appearance at the September term of the criminal court.

Charges of gross negligence are also made against Henry O. Pierce, former city treasurer. It is alleged that his ac-

counts are short more than \$500, a shortage that has not been made good or explained. "Various persons who have paid the city sums of money for taxes, special assessments, etc., have presented receipts showing that the money has been paid into the city treasurer's office under Mr. Pierce's administration and has not appeared on the books."

Another committee reported tonight that the city was defrauded in a \$20,000 gravel contract last year, that worthless gravel was furnished in short measure wagons. The city is also said to have paid for gravel hauled by phantom drivers, in phantom wagons in other words by men and vehicles that existed only on padded payrolls.

The Summer "Life-Savers" are fruit, cereals and green vegetables. Meat in Summer overtaxes the liver and kidneys, potatoes cause intestinal fermentation. Get away from the heavy winter diet; give Nature a chance. One or two **Shredded Wheat Biscuits**, served with milk or cream or fresh fruit, make a deliciously nourishing, satisfying meal. Such a diet means good digestion, good health and plenty of strength for the day's work. All the goodness of the wheat in a digestible form. Pat Duggan Joins Bridgeport. (Frederick Gleason). Pat Duggan, former manager of the Fredericton Pats, has been released by the Hartford Club and is now with the Bridgeport team, having been signed last Saturday by Manager Neal Hall. While the Bridgeport Club have been tail-enders in the Eastern League race most of the season, Duggan will not be sorry to get away from Hartford. Ownes Clarkin is about the cheapest manager in the game to work for, while a ball player's life under Jase Buriett, except when things are breaking right for the old St. Louis slugger, is far from being one sweet dream.

St. Peter's League. In St. Peter's League last evening the Shamrocks defeated the Thistles with a score of 4 to 0. The game was well contested despite inclement weather. THE BIG LEAGUES. Tom Daly Catches First Game of Season. Cleveland Wins and Loses. Red Sox Are Back in Third Place; Bush Pitches Well For Connie Mack's Aggregation; Alexander Holds Cubs To Three Hits.

By defeating Chicago in a double header the Red Sox got sweet revenge and incidentally jumped back into third place. The first six teams in the American League are well bunched. Cleveland and New York split even and as a result their positions remain unchanged. The Phillies, however, Thomas Daly, formerly of this city, caught his first game of the season yesterday for Cleveland. His work behind the bat and his judgment may have been good, as Lowermilk won his game quite handsily. Tom has the goods, but he is only a young man and old players are not anxious to let young men get into the game as they fear they might work them out of a job.

At Boys' Club. Moore and Fitzhugh defeated Kings and Pemberton 21-11 and 21-17 in the second round of the Boys' Club tournament last evening. The deciding ball game in the league, which was to have been played last evening, but postponed on account of RING. White Better Than Wells. Boston, July 11—Charles White, of Chicago, defeated Matt Wells, of England tonight in the fifth round of what was scheduled to be a 12-round bout, the Englishman's manager stepping into the ring and stopping the contest to save his man further punishment. Wells had the better of the first round, but after that White was plainly his superior and in the fourth round knocked his opponent to the floor three times.

CRIME GREATLY REDUCED UNDER PROHIBITION ACT. Winnipeg Merchant Testifies That Money Formerly Spent in Drink Goes To Stores. Manitoba has now experienced one month of prohibition, and the eyes of the Dominion press turned toward this province watching the operation of the Manitoba Temperance Act. Out of the many beneficial results consequent upon this new law and which are apparent on every side there stands out the following facts which perhaps greater emphasis than any of the others: The commercialized end of immorality has been reduced to such an extent that if such conditions continue in the province they will be reduced to a minimum within three months. Only 24 drunks were arrested in June as compared with 261 in the preceding month of May. There have been only one half as many convictions in the Winnipeg police court as there were during May. Just half as many vagrants were convicted in June as in May. The wholesale houses report that collections during June have been far better and this very desired condition is directly attributable to prohibition. The hotelmen have surrendered themselves to the new conditions, have fallen into line and are helping their best customers in the administering of the Act. No weaknesses in the Manitoba Temperance Act have as yet been discovered and in all the cases taken to court by the license department convictions have been obtained. The leading retail merchants in the city declare that money which formerly went in drink is now directed over the counters of the stores, and more domestic commodities are being purchased—Winnipeg Free Press, July 1st.

Would Public Stand For Dillon Willard Bout? Apparently soundings are being taken in different parts to determine how the public would view a Dillon-Willard bout; whether it would rise indignantly against a contest which would bring two men so different in size to combat, or be willing to pay to watch the consequences. Dillon, himself, wants to meet Jess, but the Hoosier, he is said in his press, is moulded in the stern stuff of a fighter who fears no one, and in this case perhaps better judgment should step in. Here are lines soliciting a Dillon-Willard match, an event which has been long in the air. That question is being asked of nearly everybody who saw Ernest Cutler Price, alias Jack Dillon, pound big Frank Moran to a pulp in this city last night. Moran a much worse beating than he received at the hands of Jesse Willard in the early spring. He gave Pittsburg Frank about as good a thrashing as a man can take without being knocked out. Moreover, Moran was somewhere near the knockout stage during the closing rounds of the fight, whereas he retained his strength to the end when he met the champion. Perhaps better physical condition for the Willard battle caused this and then, again, perhaps not. One thing seems almost certain. If Dillon and Willard ever meet there will be a much more spectacular encounter than the Willard-Moran affair. The Pittsburg blond, a stolid type, cannot move half as fast as Dillon. His sole method of winning any fight is to plant his right hand in the opponent's face, then try to put his entire weight behind a right hand punch that will knock the man down. Outside of the possibility of landing a few crushers, he cannot administer punishment. Dillon is just a referee. Almost every moment he has his fists flying at the adversary, and every punch carries a sting. With his phenomenal accuracy he gets home an average of four out of five blows he starts. When Willard met Moran the champion was able to lay back, and his long left at the Pittsburgher's head whenever he wished. He did not have to worry about being on the receiving end of the punches, for the simple reason that Moran could not hit him. There will be no reminders of a slow-gardener if Dillon attacks big Jess. The little fellow will be on top of him from the first bell to the last, whaling away with punches that hurt and that don't miss. Dillon is a master at the art of the dominant stare, turned toward his province where he can better a bigger opponent at short range. He is one of the wonders of ring history in his ability to get by if Dillon can get past Willard's left—an indefinitely more accurate left than Moran's—the champion will take a lot of blows in the face, as well as a fair number of jolts to the mid-section. He will give Willard a lively time by that right. He is bound to get by that left often enough to do some of the sort of work that putted and reddened Moran's face.

Jemseg Notes. Jemseg, July 8—The steamer "May Queen" had a fair sized passenger list for here on Saturday. Many of the city people take advantage of this delightful trip, to spend the week-end at "Jemseg Beautiful." Among the passengers were Rev. Mr. Camp and Mrs. Camp, formerly of Leinster church, but now of Campbellton, N. B. Mr. Camp is on his vacation and is spending a week with his sister, Mrs. Tilley Dykeman. He preached in the Baptist church of Jemseg on Sunday evening to a large congregation. The service was of a beautiful form. The singing added much to its value. The crops are looking fine and all fruits and vegetables seem to promise abundance. A Balaklava Veteran. SOLDIERS' LETTERS

Private Edward Jennings, of one of the overseas units in England, writing to his mother, Mrs. P. L. Jennings, from Roffey Camp, says:—"I had a letter from Frank about three days ago and I think he may be coming to England soon. He advised me not to be in a hurry getting leave, as he may have a few days with me if we can arrange to have leave at the same time. I am writing this in our tent, or rather marquee, sitting on my pile of blankets and rubber sheet. There are twenty-six in the tent. We were moved from the huts into tents in order to have the signallers all together.

"We get to town once in a while and eat and we cannot get enough to satisfy our increased appetites. Yesterday, Sunday, there was a procession of the Blessed Sacrament at Brownridge Heath, a small town about one and a half miles away. Considering the small percentage of Catholics in the district it was great. The canopy was carried by four soldiers and had a guard of six soldiers. There were about forty soldiers present. The people walked, then the soldiers, then little girls in white with baskets of flowers, then was carried the Blessed Sacrament. Coming to the last after the flowers. We picked up most of the flowers afterwards. I am sending you one and I think that it ought to be worth keeping.

"After the procession the soldiers were

Water Tax Bills Show No Increase For Individual

Extra Number of Properties Supplied With Water Produces Increase in Total Assessment For 1916—More Meters Installed—Schools to Pay For Quantity Used

The water assessment schedule has been prepared by the officials of the water and sewerage department, and will be presented to the Common Council today.

The schedule, as given herewith, shows an increase of \$2,206.88, in the total warrant, as compared with last year, but this by no means represents the increase of the city during the last year.

For one thing, the city assessors found a couple of million dollars worth of additional values in making up the 1916 assessment, but the water and sewerage department did not take advantage of this. Another reason why the increase in the schedule does not represent an indication of the growth of the city is the fact that the schedule does not include the taxes paid according to meter readings. Many of the largest consumers pay for their water according to meter and this does not appear in the list. In 1915 the income from this source amounted to more than \$60,000 and during the year many new meters were installed, thus removing the properties from the schedule of service rates and valuations. One effect of this is shown in this year's total for the eastern division of the city, in which the total taxes on the schedule show a falling off from last year.

The chief reason for the reduction is the fact that meters have been installed in the public schools and these properties are removed from the lists of services and valuations. Complaints have been made that the schools are among the worst offenders in the wasting of water and the meters were placed on the buildings to show just how much water is being consumed and wasted. If the bills appear too great, the trustees will have the option of exercising more care in the use of the water.

The total of the schedule this year is \$1,697,821.10, as compared with \$1,675,557.77 last year, not including the more than \$40,000 collected from metered properties.

The schedule for 1916 is as follows:

	Valuation	Stock	Assessment	1915	Total
North	\$4,549,700	\$841,700	\$1,441,881.50	\$881,083.55	\$640,409.47
East	14,251,700	2,888,100	46,985.65	47,738.00	\$4,788.65
West	1,384,800	42,800	\$8,811.95	9,161.50	\$2,348.55
Lancaster	1,288,400	125,800	6,884.70	6,806.75	10,841.45
	\$28,000,100	\$8,648,900	\$2,148.85	\$97,618.75	\$169,782.10

LOCAL NEWS

RECENT CHARTERS.
The Norwegian bark Froulla, 1,880 tons, has been chartered to carry lumber from Bridgewater, N. S., to Buenos Ayres, B. Schooner Harry Miller, in here a few days ago with hard coal for Wm. Law & Company, will take deals from a Bay of Fundy port at \$84.

GETTING ALONG WELL.
Work on the new concrete sidewalks in Lancaster is making favorable progress and now has reached a point below St. Rose's Church, Milford. Perhaps no improvement in this section of the parish has met with more hearty approval than this effort permanently to improve the sidewalks through a district much traversed and which would have been in a bad state this year with the prevailing wet weather. Out of the Manawagonish many holes in the road, largely caused by autos when the roadbed was in soft condition, have been filled in and the general condition of the highway has been considerably improved already this year.

AUTO, WITHOUT A DRIVER, CRASHES INTO IMPERIAL POST.
George Crow's automobile was quite badly damaged this morning as a result of the machine colliding with one of the large lamp posts opposite the Imperial Theatre. Mr. Crow had occasion to leave his car standing outside his house on the south side of King square the car was facing Charlotte street. While he was in the house the car which was left out of gear was started ahead. His son, a small boy, was responsible, as it proceeded it gradually gained speed until it shot across the road and crashed into one of the lamp posts, where it came to a standstill. The car was badly damaged crashing down on top of the car. Mr. Crow had left the power of on going into the house.

COMMISSIONER FISHER EXPLAINS STAND HE TAKES.
In explanation of the course pursued by him at the meeting of the common council yesterday afternoon when he refused to vote for a bond issue for the purchase of an aerial ladder truck for the fire department, Commissioner Fisher said this morning:

"I firmly believed that a survey should have been made of the whole situation regarding the condition and needs of the fire department and that the council should have been asked to vote money for the purchase of equipment only if it had been shown definitely what apparatus is most urgently needed.

"I also felt that purchases of this size should not be made privately, but that the commissioner, after securing quotations, should submit to the council the list of companies and their prices, with his recommendation regarding the purchase of the particular apparatus of which he approved; the council must share the responsibility and the other members should have some opportunity to express their approval or otherwise.

"One reason why I wished for a survey was that it would give citizens who are qualified to give opinions an opportunity to express their opinions to the commissioners and we would thus be better able to estimate the direction of public opinion. The real proposition was not known until yesterday and we had no opportunity to give the matter consideration.

"Even so, if Commissioner McLellan had been willing even to bring his proposals for the purchase back to the council for ratification, I would have withdrawn my request for a survey and would have supported the expenditure."

THE CITY HEALTH.
Of the seven Board of Health inspectors three have completed their rounds. The parts of the city inspected includes Dukes, Sweeney, Guys and Brooks wards. The conditions reported are better than last year, generally speaking, although there is room yet for improvement.

An epidemic of measles is reported on the decrease. In April there were ten cases reported to the board. In May 28, in June 50 and up to date of the present month there have been 28. During this month there have been almost two cases a day, but now a decrease has set in.

LETTER BRINGS FIRST WORD OF CASUALTY.
Corp. Fred Breaux in Hospital—Wounded on Anniversary of Leaving For the War

The following letter was received from Corporal Fred Breaux of the Grenadier section of a N. B. Battalion, by his mother, Corporal Breaux, who is a Northumberland county boy and a brother of Mrs. Stanley H. Taylor of this city, has been through the thickets of the fighting with his battalion from the first, but was wounded in the right hip from shrapnel in the heavy fighting in the vicinity of Ypres just prior to the big allied drive in which the Canadians distinguished themselves. He received his wound on June 18, the anniversary of his departure from St. John. The letter is written from St. Luke's War Hospital, London, and follows:

Dear Mother:

Just a few lines to let you know that I am getting along all right. I have been sent to a hospital in London and have the best of treatment. I was operated on by another I remember. While in hospital in France I was looking to be sent back to the firing line in two or three weeks but guess now that I am good here for some time longer. It is certainly wonderful what is being done for the wounded in these hospitals. They bring them through alive without arms or legs.

I am keeping the piece of shrapnel that removed from my hip. It was necessary to make it out eight inches long to get it; I feel no pain, however, and feel quite comfortable. We get plenty to eat, four meals a day and we can get anything we want. I tell you it is some change to get away from the trenches; it was awful where we were; the dead were lying all around, Canadians and Germans, but about five dead Germans to one Canadian.

We got a lot of prisoners the last time we were up at Ypres. The day before we went to the trenches for our last fight our sergeant was sent to hospital with sore eyes and I had to take his place. The day of the fight our officer was wounded and left me in charge of our bombing section. Just after I had posted the bombers, about four o'clock in the morning, I got mine. I had to stay in the trenches, however, all day and until dark. I could not get out and had no place to get into. I was very tired and I was up to us. The Canadians are doing fine work but are getting cut up pretty badly. Well, Mother, this will do for this time. With love to all the family and kindest regards to all friends, I am as ever,

Your loving son,

FRED.

Corporal Breaux has never appeared in the official list as among those wounded.

CORP. H. MILTON POWERS WOUNDED.
"Severe," Says Report Relative to Saint John Man—Letter From Chaplain Kuhring

J. M. Power of 88 Dorchester street, received a letter yesterday, dated June 29, from Chaplain Kuhring, informing him that his son, Corp. H. Milton Powers, was in hospital suffering from a wound in the neck. Chaplain Kuhring says that Milton was made of the right stuff like all the Canadian boys and would rather be on the firing line than in hospital.

Later a card was received from the hospital authorities saying the wound was severe.
