ST. JOHN N. B., THURSDAY, MAY 7, 1914

TEN PAGES—ONE CENT

THE NEW CITY COURT ACT IS IN FORCE TODAY

Designed To Make Procedure More Simple

THE PRINCIPAL CHANGES

If No Constable in Court, Magistrate May Authorize Any Suitable Citizen to Act—Returns by Constables—Attorneys' Fees Provided For—First Time

The new City Court Act, adopted at the last session of the legislature, and superseding the section of the act for the union of the city of St. John and the town of Portland, which formerly governed the city court, went into effect today. Owing to the copy of the new act not being ready no papers were issued in the city court last week and considerable business awaited the court today when the new act was presented for their guidance.

H. W. Robertson was one of the prime movers in the work of securing a revised act which was so greatly needed and last winter, with the aid of H. J. Smith, H. A. Porter and others, completed the bill, which was approved by the city council and finally passed, with some slight amendments, by the legislature.

THE PRINCIPAL CHANGES

Various changes have been made all with the purpose of making the procedure more simple and enabling litigants to get better results with less difficulty. The most important changes are given herewith.

Under the old procedure (section 55) if the summons were served personally upon the defendant it would be returnable on the following court day; if served on a member of his household it would not be returnable until the court day of the following week. This was the cause of considerable confusion which is eliminated by the new act. Section 7 now provides that the summons shall be returnable on the court day following the week in which it is served.

An important innovation is found in section 9 of the new act which provides that "in case no constable is in attendance at the police court, when the attachment is ready to be issued the Police Magistrate may, in writing, authorize any suitable person to be a constable to execute the same."

Another new section which will save considerable trouble is sub-section 2, section 17, regarding the particulars of the demand or cause of action, which must be delivered to the magistrate with the application for a summons or attachment. It provides that in all cases, need not state the items of a claim for goods sold and delivered, unless the defendant shall, at or before the trial of the cause, demand further particulars from the plaintiff in which case the police magistrate shall order the same and adjourn the trial for a reasonable time.

Under the old act an adjournment was allowed only for the absence of a material witness. The new act (section 21) provides also that the case may be adjourned for other cause or by consent of the parties.

Section 21 also provides for the release of a defendant who has been arrested without sufficient cause. On application upon affidavit to the police magistrate the latter may issue an order for a hearing upon one day's notice to the plaintiff, his agent or attorney with the service of a copy of the order and the affidavit, and if the police magistrate is satisfied that the affidavit upon which the attachment was granted to arrest the defendant is insufficient or unjustified by the facts in reference to the defendant's departure upon which it is based, or if the plaintiff consent to waive bail, the police magistrate may discharge the defendant from arrest and imprisonment, and the cause shall then proceed as in the case of a summons.

Section 23, amending section 74 of the old act, now provides that "an assessment upon any bond, bill, note or other written security for the payment of any sum certain may be made upon production thereof without requiring such affidavit or viva voce examination."

Under the old law when such a written security had been placed on the file by the magistrate there was no provision for securing it again if it were needed to follow up the suit in the county court of another county in the case of the defendant leaving the city before the attachment could be executed. Section

Weather Bulletin. Issued by authority of the Department of Marine and Fisheries, R. F. Stupart, director of meteorological service.

Synopsis—An area of high pressure covers the western and northwestern portion of the continent, with a shallow depression is situated in Wisconsin. A few scattered showers have occurred in Ontario and rain has fallen heavily in Eastern Nova Scotia.

Fair and Milder. Moderate to fresh winds, generally fair and mild today and on Friday.

Washington, May 7.—New England forecasts—Partly cloudy tonight and Friday; moderate variable winds, mostly west.

SUFFER SEVERELY FROM BURNS AND EXPOSURE

Thirteen of the Columbian Survivors Reach Boston

Boston, May 7.—When the Cunard Liner Franconia arrived today with thirteen members of the crew of the burned steamer Columbian, several of the survivors were suffering severely from burns, and all showed the effects of exposure. The body of Chief Steward Matthews, who died from burns while in the open boat, also was brought by the Franconia.

James Drohan, the wireless operator of the Columbian, expressed the opinion that spontaneous combustion in the cargo of rags and junk caused the fire. He was awakened by an explosion about midnight on Sunday and when he rushed out on deck, the vessel was in flames.

The saloon passengers, among them Raymond Belmont, son of August Belmont of New York, assisted in giving first aid to the survivors, provided clothing for them and subscribed to a fund for their relief.

When the order to abandon ship was given, it was found that the tackle was jammed on the boat manned by the survivors. The boat hung for a few moments by the falls, the sailors fending it away from the heated sides of the steamer, until one of the men cut the rope. The edrop forced a hole in the bottom, and throughout their forty-eight hours' drift, the men took turns in bailing.

Sable Island, N. S., May 7.—The third boat which, with nineteen men, put away from the Columbian on Sunday night, was still missing today and wireless advices are that vessels cruising in the vicinity had given up the search.

GOVERNOR ASKS FOR THE RESIGNATION OF A MAINE SHERIFF

Bangor, May 7.—The resignation of J. Fred O'Connell as sheriff of Penobscot county has been requested by Governor William T. Haines. In a letter to the sheriff the governor asks that he hand in his resignation, because of the violation of the prohibitory law in certain cities and towns.

Sheriff O'Connell admitted the receipt of the letter and intimated very strongly that he should not resign his office. "The governor can ask me for my resignation, and you can ask me for it," he said to a reporter, "and you would get it about as quick as he will."

It was rumored that in the event of Sheriff O'Connell refusing to resign, the governor will call a special session of the legislature and ask for his removal.

British Steamship Ashore

Las Palmas, Canary Island, May 7.—The British steamship Emma went ashore on Great Canaria Island in a thick fog today. The captain reported by wireless that her hull had been badly torn. The Emma is believed to have from Cardiff. The S. O. S. call is bringing help.

21 now provides that "such security shall remain on file among the records of the said court unless and until permission to remove it shall be granted by order of the police magistrate."

Constables are prevented from acting at the hearing for either party by section 26 which says "provided, however, that no constable appointed by the common council of the said City of St. John shall act on the trial or hearing of a cause before the police magistrate as agent or attorney for either party."

Returns of Constables. Under the new act constables are required to make proper returns for the service of all papers giving the reason why they fail to carry out their intention. The constables are now placed under the authority of the police magistrate who is given power to enforce the act by

Section 37 "For every breach of duty under this act by a constable he shall be liable to an action at the suit of the party injured, who shall recover before the police magistrate damages with costs to the extent of the injury sustained, although the damages exceed eighty dollars."

Section 38 "For every breach of duty under this act by a constable he may be suspended for a period of not exceeding one month, by the magistrate."

Section 44 now provides for attorneys' fees in the city court, for the first time. It also provides that all constable fees shall be paid into court before the papers are issued; if the papers are not served the fees will be returned. The section is as follows:

"The fees to be taken and taxed for the police magistrate or sitting magistrate, attorneys, constables, witnesses and jurors, and in all cases of reviews, in all actions in the city court of St. John, shall be according to the table contained in the schedule of this act; and the constable's fees for serving any summons, attachment or execution shall be paid to the police magistrate, at or before the issue of the same, to be by him paid over to the constable, who the same shall have been served and returned or executed according to law, and if the same shall be returned without having been served or executed the said fees shall be repaid to the plaintiff."

Council to Appoint Clerk. Provision is made for vesting the appointment of future clerks of the court in the common council, instead of leaving the appointment in the hands of the magistrate as at present, by section 46 which says:

"Section 48 of the said Act 52 Victoria, Chapter 27, is hereby repealed, and the following substituted therefor: "48.—There shall be a clerk to the said police court, who shall also be clerk to the city court of St. John. "The present incumbent shall continue to hold such office until his resignation (Continued on page 5, fourth column)

Matter of Royal Commission Stands For Few Days

Lieutenant Governor Says He Will Wait To See If Sir Frederic Barker Then Feels That He May Act

"We still have hopes that Sir Frederic Barker will be able to accept the chairmanship of the royal commission," said His Honor Lieutenant-Governor Wood over the long distance telephone from Fredericton this morning in reply to a query regarding the situation.

"When I talked with Sir Frederic and asked him to accept the position he seemed to be and expressed himself as being in excellent health. In view of this it was a surprise to me when he informed me that he was indisposed and when his doctor informed me that Sir Frederic would be unable to undertake the work."

"No other arrangement has been considered yet and it is our intention to wait for a few days to see if the excellent justice will recover his health sufficiently to do so. If he is still unable to accept we will have to secure someone else. The suggestion that a separate commission should be appointed to deal with the two sets of charges has not been considered."

An inquiry at Sir Frederic's residence today elicited the information that he had no announcement to make regarding his final decision just yet.

CARRANZA MAKES MATTER EASIER

Keeps on Whipping Huerta's Troops

THREE MORE VICTORIES

Washington Sees End of Dictator and Simplifying of the Situation

Famine in Interior of Mexico Threatens

Washington, May 7.—Carranza's attitude toward mediation, which, temporarily at least, has eliminated the Constitutional chief from general negotiations aimed at settlement of Mexico's troubles, was declared to have been revealed today by his official report of a vigorous rebel military campaign, marked by significant victories.

While Carranza parleyed with the South American envoys over details of their proposals, three powerful forces were hurled against Federal strongholds. Reports of the results of the movement which Carranza transmitted to Rafael Zubaran, interior minister in the Constitutional cabinet, now in Washington, are as follows: Fully a score of names have been suggested to the president and his advisers believe that before the mediators begin their work at Niagara Falls conference, they will hold the entire north. They are equally confident that as soon as this condition is brought about, Huerta will either eliminate himself or be eliminated by the men who in the past have supported him.

A common ground then could be quickly found on which the warring factions, in Mexico would be brought together. Meanwhile the administration is carefully considering its representation at the Niagara Falls conference. Fully a score of names have been suggested to the president. However, until it is definitely settled whether there is to be one or three representatives, a selection will not be made.

Nelson O'Shaughnessy arrived here today. I Paso, Mexico, May 7.—General Pablo Gonzales, rebel commander, who captured Monterrey, met and defeated a strong force of Federals near Saltillo on May 4, according to a message received here.

Veracruz, Mexico, May 7.—Famine conditions prevail in the interior of Mexico and thousands of families are starving to death. Refugees, many of them well-to-do Mexicans, who reached here today declared that conditions were unparalleled, and that the United States should probably have to come to the rescue of the country to prevent a situation of unappealable horror.

That Huerta is preparing to flee to Central America by way of San Cristobal was a report brought here from the capital, by A. A. Wimer of the National Bank of Mexico. According to Mr. Wimer, the dictator was already sent his family out of Mexico City.

He said that Huerta has been unable to get money to pay his troops and attaches of the government, and they are turning against him.

CHINESE ROW ON BOARD STEAMER TOLD OF IN COURT

Ah Ee and Young Yea were in the police court this morning on charge of assaulting Young Hum on board the coal steamer Kendall Castle at North Wharf yesterday afternoon. Not one of the three Chinese could give any account in English of what took place and an interpreter had to be called. It appeared that the trouble arose when the complainant, who is from Peking, called the other names, they being from another province. The two defendants then rushed on him, according to the story, and cut him in several places with a formidable knife, which was produced in court. The captain said that the people from different parts of China did not get on well together.

The two defendants admitted fighting with the complainant but said they had not returned without having been repaid to the plaintiff."

Much difficulty was experienced by the court in getting the evidence even after an interpreter was secured, as the witnesses were much excited and the interpreter was not familiar with the different dialects spoken by the three witnesses. Each of the defendants were fined \$25.

EAST ENGLAND LEAGUE

A meeting of the executive of the East End League will be held tonight at 8:15 in Wm. O. Monahan's Barber Shop, Union st.

Still Going On With The Preparations For Execution

May Be Trouble Over Alleged Confession of Haynes in the Cape Breton Murder Case

(Special to Times) Halifax, N. S., May 7.—Crown Prosecutor Hearn has, on his own responsibility, requested a postponement of the execution of Haynes for the Atkinson murder. Sheriff Ingraham scoffed at the reports that Mrs. Atkinson is a user of drugs. The sheriff said he saw her on Tuesday and that he considered her a perfectly normal woman. No statements are made by attorneys, except vague hints at prosecuting for what they term reckless and incorrect reporting of the Haynes confession. Sheriff Ingraham said today that he had no orders to stay the execution and that he had made no statement regarding the Haynes confession.

Haynes will see his spiritual advisers this afternoon. This morning he was writing letters.

It is rumored that an investigation has been ordered from Ottawa as to the people responsible for making the statement of confession which appeared in the Sydney Post. The Salvation Army captain and the sheriff have both denied that they gave out any information. Attorneys say there will be serious consequences if a leak is discovered.

A representative of the minister of justice is expected from Ottawa to conduct the case. Ottawa has asked for statements from all persons concerned and all preparations are still being made for the execution of Haynes tomorrow.

Civil Service Superannuation Provisions of Hon. Mr. White's Bills—Increases in Salary and Other Features

Ottawa, May 7.—The civil service bills of which Hon. W. T. White has given notice will provide that the salaries of deputy ministers generally be increased from \$5,000 to \$6,000 a year, and that the inside service be divided into four classes, with a sliding scale of salaries from \$500, the minimum of the lowest class, to \$4,000, the maximum of the highest. The annual percentage increase is raised from 80 to 100.

Retirement at sixty-five years of age is provided in the case of new appointments to the service, and at seventy years for those now in it.

A system of superannuation for the inside service is provided in another bill, the monthly contributions ranging from 2 to 8 per cent, according to the age of the contributor. The superannuation allowance will be 2 1/2 per cent of the total of the salary received during thirty-five years of service, and if the term of the service is less than that, it will be 2 per cent of the total salary during that period.

Specimens were sent to him by the American Zoological Society last year. It is in Egypt that the most remarkable case of loss caused by cotton pest occurred. The value of the cotton destroyed by the pest in 1904 was not less than two millions sterling, and in the Province of Behera alone whole fields were destroyed and nothing but bare stalks were left, and thousands of small cultivators were ruined.

In recent years the Egyptian government has carried on a vigorous crusade against the pest. Forced labor is now used to rid the cotton of the worm, many thousands of boys and girls being employed picking the worms.

In Egypt the bird that helps to keep down the parasite is not the bobwhite quail, but the buff-breasted heron or paddy bird. This bird is the Egyptian cultivator's best ally, and the reports of the successive consuls-general repeatedly contain appeals to sportsmen to refrain from killing nature's preventive—the paddy bird. This bird is much less common than formerly.

Plans for the improvement of Market square are under consideration by Commissioner Potts. He has not yet drawn up definite proposals, but is giving the matter considerable thought. One of the improvements which he desires is a permanent pavement with concrete base, and either granite block or asphalt surface.

In addition he approves of the plans already drawn to improve traffic conditions at the square. These plans include the straightening of the car tracks to make the angle at the foot of King street less dangerous, and a change in the location of the fountain to allow more room for traffic between the fountain and the street car tracks.

BURIED TODAY The funeral of Mrs. Susan J. Stewart was held this afternoon from her late residence, 82 Marsh street. Services were conducted by Rev. Canon Hoyt. Interment was in Fernhill. Sons of Mrs. Stewart were pall bearers. Many persons attended the funeral and there were beautiful floral set pieces from relatives and friends.

A large number attended the funeral of Miss Annie F. Carson this morning from the residence of her nephew, H. Dever, 34 Harrison street. The body was taken to St. Peter's church where solemn high mass of requiem was celebrated at nine o'clock by Rev. J. H. Borgmann, C. S. R., as sub-deacon. Interment was in the new Catholic cemetery. The coffin was covered with beautiful floral offerings.

NEARLY \$7,500,000 LOWER During the winter season just closed, the exports from St. John showed a total valuation of \$24,277,880. The total for the season of 1912-1913 was \$31,739,266, thus showing a shrinkage during one year of \$7,461,386. These figures include the West India as well as the trans-Atlantic business.

THE MAILS The secretary of the Board of Trade received a telegram this morning from Hon. J. D. Hazen advising him that information asked for regarding the mail records through St. John and Halifax during the winter, is being forwarded by mail. On receipt of this the board hope to be able to complete the statement for the presentation of their case at Ottawa.

COMING TO IT Today was perhaps the first spring day that St. John has experienced this year and although the temperature did not reach as high a level as it did one day last month, it came very near the high mark. On April 27 sixty degrees was registered, but the day was not at all agreeable, but this afternoon on the shady side of Prince William street, fifty-five degrees above the cipher was registered. With very little wind blowing and the sun shining bright and clear, today was indeed pleasant out of doors.

Strike of 50,000 Men St. Petersburg, May 7.—Fifty thousand Russian workmen went on strike today as a protest against the suspension of members of the Duma for rioting during the debate on the budget.

BRITISH TURF Chester, England, May 7.—The Decades of \$5,000 were won here today by Conqueror, St. Guthlac second, and Manuscript third.

MURDER BRINGS THEM BOOTY OF FIFTY DOLLARS San Francisco, May 7.—Three masked bandits, who killed and robbed Hamilton Harris a Wells Fargo express agent at Middletown, last night, fled to the mountains today, pursued by constantly increasing forces. Harris was shot dead without warning. His brother was gaged and held. The robbers paused to rifle the dead man's pockets, and got about \$50. Then they rode away without attempting to rob the safe or cash drawer.

BECKER MAY NOT BE CALLED TO THE STAND

Questions to Prospective Jurors Indicate Little or no Evidence by Defence

New York, May 7.—The questions put to talsmen today indicated that the defence planned to introduce little or no new evidence in rebuttal of the charge that Becker was the moving spirit in the Rosenthal murder conspiracy for the carrying out of which four gunmen paid the penalty in the electric chair last month.

Each prospective juror was asked if he would be prejudiced if the defendant did not testify in his own behalf. This was taken to mean the Becker was not to be called as a witness, although friends of the former chief of the "strong arm" squad of the police department, assert that he is anxious to tell his story to the jury.

Interest in the trial has not diminished although the murder of Rosenthal occurred nearly two years ago. Again today, as yesterday, the corridors were crowded although admission to the court room was by card only.

PARTRIDGE TO KILL THE PEST British Colonial Secretary Is Making Experiment

COTTON FIELDS DEVASTATED

Great Loss in Egypt Because of the Weevil—Millions of Dollars Worth Was Destroyed in One Year

London, May 7.—Reviewing in his last Colonial Office statement the development of British cotton fields, Mr. Harcourt described the ravages of the parasite known as the cotton boll weevil, which has caused the fear that exists that it may spread to the new fields which are being developed in British Africa by the British Cotton Growing Association.

Mr. Harcourt has therefore decided to carry out an interesting experiment with a view to the protection of the cotton crops from this weevil and kindred pests. He has obtained some bob-white quails, American partridges, which feed upon weevils, and is trying the experiment of breeding them at his country seat at Nuneham with the intention, if he succeeds, of supplying some of the cotton-growing colonies, where they may be naturalized.

Specimens were sent to him by the American Zoological Society last year. It is in Egypt that the most remarkable case of loss caused by cotton pest occurred. The value of the cotton destroyed by the pest in 1904 was not less than two millions sterling, and in the Province of Behera alone whole fields were destroyed and nothing but bare stalks were left, and thousands of small cultivators were ruined.

In recent years the Egyptian government has carried on a vigorous crusade against the pest. Forced labor is now used to rid the cotton of the worm, many thousands of boys and girls being employed picking the worms.

In Egypt the bird that helps to keep down the parasite is not the bobwhite quail, but the buff-breasted heron or paddy bird. This bird is the Egyptian cultivator's best ally, and the reports of the successive consuls-general repeatedly contain appeals to sportsmen to refrain from killing nature's preventive—the paddy bird. This bird is much less common than formerly.

Plans for the improvement of Market square are under consideration by Commissioner Potts. He has not yet drawn up definite proposals, but is giving the matter considerable thought. One of the improvements which he desires is a permanent pavement with concrete base, and either granite block or asphalt surface.

In addition he approves of the plans already drawn to improve traffic conditions at the square. These plans include the straightening of the car tracks to make the angle at the foot of King street less dangerous, and a change in the location of the fountain to allow more room for traffic between the fountain and the street car tracks.

WEDDING AT WHITE HOUSE THIS EVENING

President's Youngest Daughter Bride of Wm. C. McAdoo

Few Bidden to Ceremony

Appointments Are Elegant, Though Company Small—Bridal Dress of Ivory White Satin, Trimmed With Real Old Point Lace—Wedding in the Blue Room

(Canadian Press) Washington, May 7.—Miss Eleanor Randolph Wilson, youngest daughter of the President of the United States and Mrs. Woodrow Wilson, will be married at six o'clock this evening, in the White House, to William Gibbs McAdoo, secretary of the treasury. The simple and impressive wedding service of the Presbyterian Church will be conducted by Rev. Sylvester Beach, pastor of the church in Princeton, N. J., attended by the president and Mrs. Wilson and their family.

The ceremony, while it is to be notably elegant in all its appointments, will be witnessed by the smallest company that ever attended so important a function in the White House. The vice-president and Mrs. Marshall, the members of the cabinet and their wives, relatives of the president and Mrs. Wilson, and of Secretary McAdoo, and a few intimate personal friends of the bride and bridegroom, comprise the list of guests.

The ceremony will take place in the historic Blue Room, the middle apartment of the suite on the south side of the White House, between the East Room and the state dining room. It has been the scene of more brilliant social functions than any other room in the mansion.

Miss Margaret Wilson and Mrs. Sayre, the bride's sisters, will be maid and matron of honor. Two charming little maids, Miss Sallie McAdoo, the twelve-year-old daughter of the bridegroom, and Miss Nancy Lane, the daughter of Secretary and Mrs. Franklin K. Lane, will attend the bride as flower girls. They will be attired in exquisite frocks, exactly matched.

The bridal gown is made of ivory white satin and trimmed with real old point lace. The bodice is softly draped with satin which crosses in front and is brought to a point behind the shoulders, front and back. The V shaped neck is finished with folds of soft tulle.

ROOSEVELT, IF HE RUNS, WILL BE PROGRESSIVE Para, Brazil, May 7.—Theodore Roosevelt will not run for president on a Republican ticket in 1916. He made this clear today when he declared that, although he had not yet considered being a candidate in that year, if he did decide to run it would be on the Progressive ticket.

"I can't swallow the Republican horses," he said.

MARKET SQUARE Plans for the improvement of Market square are under consideration by Commissioner Potts. He has not yet drawn up definite proposals, but is giving the matter considerable thought. One of the improvements which he desires is a permanent pavement with concrete base, and either granite block or asphalt surface.

### FASHIONABLE NEW JACKET.

Charming model for ladies' jacket, having collar in pointed or rounded outline and three-quarter length raglan sleeves. The lower front edge of the jacket may be made straight or rounded.

There is no use denying the vogue of the short jacket, for it is one of the most successful models of spring and summer. With the fashionable skirts trimmed with flounces and tunics and other draperies, the hip-length jacket is sure to continue in favor because it is the best possible model to accompany the smartest skirts.

The design shown here looks well in any of the latest materials—gabardine, geline, moire, tafeta, satin and cloth. It has the fashionable English raglan effect at the shoulder, and there is a broad box-pleat at the back, formed from the fullness which develops at the waist-line and below. In front there are suggestions of plaits on either side, and the collar is of contrasting material.

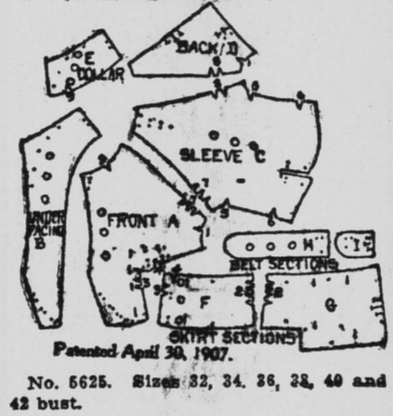

For its development 2 1/2 yards of 44-inch or 1 1/2 yards of 54-inch material are needed, with 3/4 yard contrasting material 2 1/2 inches wide for the collar. One will have to use careful judgment in cutting out the coat. The skirt section marked "G" is placed on a lengthwise fold of the material, as is also the back (D). The underfacing and second section of the skirt (F) are arranged on a lengthwise thread. This

is true, too, of the sleeve, front and collar. The belt is placed on a cross-wise fold of the goods. There are two outlines for the collar from which to make a selection. For the rounded effect, cut off collar, front and underfacing on single small "oo" perforations. For lower front edge of front in rounded outline, cut off lower edges of front and underfacing on double "oo" perforations. If back is desired in shorter length, cut off lower part of back skirt section on crosswise of small "oo" perforations.

To Make.—Pleat lower edges of front and back, placing "oo" on corresponding small "oo" perforations. Close under-arm seam as notched. Center-front indicated by large "O" perforations. Join the two skirt sections as notched. Pleat, creasing on slot perforations, bring folded edges to corresponding small "oo" perforations and press. Sew to front and back as notched. Pleat, creasing front on slot perforations, bring folded edge to double "oo" perforations; stitch in position above skirt section and press. Tack belt sections together, corresponding perforations even, in advance position, center-back even, center of belt over joining of skirt section.

Take up dart in sleeve as perforated. Pleat lower part, leaving front slanted edge on back edge, corresponding perforations even, and tack. Close seam as notched, sew to front and back as notched. Close back seam of collar and underfacing (indicated by double "oo" perforations), sew collar to neck edge as notched. Adjust underfacing small "oo" perforations and press. Sew to front and back as notched. The belt may be secured at the ends with fancy buttons covered with the material that forms the collar.

### CONSTRUCTION GUIDE 5625

Patented April 30, 1907.  
No. 5625. Single 32, 34, 36, 38, 40 and 42 bust.

Fill in this blank and mail it with price of pattern:

Name .....

P. O. Address in full .....

Number of Pattern.....Size of Pattern.....

Order by number only. Remit in stamps or currency. The Evening Times Pattern Department, St. John, N. B.

Patterns published in this series may be obtained by sending price of pattern in cash or stamps to The Evening Times Pattern Department, 23 Canterbury street, St. John. As a rule it takes about one week to deliver the pattern to the buyer. Those sending money must be careful (1) to write the number of the pattern plainly, (2) to write their name and Post Office address clearly, and (3) to enclose the price.

## For Sallow, Wrinkled, Freckled, Pimpled Skin

If you have any cutaneous blemish, don't use paint powder or anything else to cover it up. Too often this only emphasizes the defect. Besides, it's much easier to remove the disfigurement with ordinary mercurized wax. Applied nightly, the wax will gradually remove freckles, pimples, blackheads, moth-patches, sallowness, red or yellow blotches, or any surface eruptions. The affected cuticle is absorbed, a little each day, until the clear, soft, youthful and beautiful skin beneath is brought wholly to view. Ask the druggist for an ounce of mercurized wax and use this like you use cold cream. Remove in morning with soap and water. Many who have tried this simple and harmless treatment report astonishing results.

If bothered with wrinkles or crow's feet, a wash lotion made by dissolving an ounce of powdered saccharine in a half pint witch hazel will prove remarkably effective.

Mrs. Belle Van Dorn Harbert of Denver, president of the International Congress of Farm Women, who has been decorated with the cross of the Order of Agriculture of Belgium, is the first woman to be so honored.

Sir Charles Waldstein thinks it possible that fashion in women's dress may yet lead to the wearing of bells and castanets.

## FOR PURE MILK

After a conference between a committee from the Board of Health and the finance committee of the Municipal Council yesterday afternoon the latter agreed to grant \$500 for the purpose of employing an inspector to look after the source of milk supply and enforce sanitary conditions.  
Two inspectors may be appointed; they would be directly under the control of the board and give their whole time to the board. They would visit the dairies without notice, at least four times a year and carry on a daily inspection of the distributing milk centres with frequent analysis to prevent infection. One of the results hoped for is a reduction of the infant mortality.  
It is probable that the first inspector appointed will be a qualified veterinarian. The appointment will be made as soon as the right man is found.

**Murderer Has Confessed.**  
Frank Haynes, Sydney, C. B., who is sentenced to die tomorrow morning for the murder of Thos. Atkinson, has made a confession, in which he implicates the wife of the dead man and John Donalds. The woman, he says, is an accessory to the murder, having in-

## NO ALUM

suggested the plot to kill her husband while Donalds held Atkinson's horse until Haynes killed him. Both have been arrested. The reason for Haynes' confession is said to be that he heard that Mrs. Atkinson was soon to marry John Gannon, of North Sydney.

**SAYS TORONTO JAIL IS WORST ON CONTINENT**

Toronto, May 7.—Dr. Bruce Smith, provincial inspector of prisons, has condemned the Toronto jail as overcrowded, ill ventilated, insanitary, a firetrap and the worst jail on the continent of America. He has recommended to the provincial secretary that the provincial grant be cut off immediately.

If this has not the desired effect the inspector says that the city of Toronto should be indicted for maintaining a nuisance. He declares that the discipline is lax and that immorality exists on account of that.

Doctor Smith has ordered that the underground cells used for women must be abolished.

**A CITY SURVEY THE BASIS FOR A CITY PLAN.**

(From the Chairman of the U.S. National Conference on City Planning)

The basis for a city plan must be a city survey covering information as to four classes of fact:

- 1.—The facts of the physical environment of the people of the city.
- 2.—The social, facts concerning the people themselves and the reaction between them and their physical environment.
- 3.—The economic and financial facts as to the resources of the community
- 4.—The facts as to the legal and administrative conditions which must be reckoned with in any attempt to control the physical environment.—Frederick Law Olmsted.

### THE MILK SUPPLY

The action of the board of health in moving for a proper inspection of St. John's milk supply will be endorsed by every citizen, and should receive the unanimous support of the municipal council. The fact that milk which has been considered good enough for consumption here has been shut out from Boston is enough to rouse the public to action in this matter; and it is also declared there are people in the city having scientific knowledge of the conditions which should but do not prevail in relation to St. John's milk supply who do not use the milk at all. The movement, therefore, to have a thorough inspection of the sources of supply, and to ensure also the delivery of all milk in proper condition, should be universally supported. It is especially important in the summer season that the milk supply for infants and other small children should be pure and of high quality. While there are not such extremes of heat here as in Montreal and Toronto, and while the infant mortality is much smaller in proportion to population, yet the mortality could be lessened if the milk supply were guaranteed pure and if young mothers were given more instruction in regard to the feeding and care of babies. The first requirement can at least be met. Let us have a milk supply which will not be shut out from Boston, but which shall be held up by St. John and other cities as a model for imitation. The board of health are not only to be congratulated, but they should be heartily supported in this movement.

### FAIRVILLE SETS THE PACE

If the citizens of Fairville continue to manifest the community spirit which has been so strongly in evidence of late there will be a very special reason why the people who wish to move from the city into a less congested area will choose Fairville and its neighborhood. Those who are looking for a new place of abode are invariably attracted by evidences of what is called the community spirit, because they realize that it means continued improvement of living conditions. In relation to sanitation, public health, schools and playgrounds, and all that makes for health and enjoyment in life. All who have been noting recent events hereabouts have observed an awakening in Fairville which promised important results, and the movement culminated last evening in the organization of a community council which has Dr. J. V. Anglin at its head, and which is representative of all churches, social and benevolent and other organizations in the town. The purpose of the council is to improve living conditions, and to bring to bear upon the solution of social problems the united forces of the whole citizenship. A beginning will be made by providing a supervised playground for the children during the summer, and there is also an excellent prospect that an athletic field for the young men and older men, which would also be a recreation field for all, will be provided. The suggestion of Mr. Linton that what is known as the Freeman's Park be secured and converted into a perpetual playground is worthy of prompt attention. The old athletic ground beyond the Marsh Bridge might today be a public playground, owned by the city, if seven years ago the city had been willing to purchase it at about one-fifth of what it would probably cost today; and today that field is the site of a mill.

But the Fairville people are thinking of more than this. It is evident from what was said at last night's meeting that a cleaning-up campaign for the town will be inaugurated. There is also talk of providing a bandstand, and why not also a band? Why is it not possible to get a group of young men of the town who will form themselves into a band, and make that their contribution at the beginning of this new era of community welfare?

It was an inspiration to see more than fifty earnest men devoting two and a half hours last evening to the thoughtful consideration of untiring their forces to improve the living conditions of the town. The St. John board of trade would be fortunate if it could secure at its meetings as large an attendance of men really in earnest. The people of Fairville have not only set St. John an example, but they have set an example to the towns and cities throughout the provinces. They have organized the first real community council that has been formed in the lower provinces. They do not start out with too ambitious a programme, but propose to do first the work lying nearest to their hand, and go on from that to the accomplishment of other reforms.

Nothing could be finer than the spirit which characterized last night's meeting. There was no question of class or creed. The spirit of the meeting is expressed in the sentence, Mr. J. S. Woodsworth lately let with us: "If we pray aright let us work together."  
 Congratulations to Fairville, and may its example be an inspiration to the citizens of St. John, who will shortly be called upon to consider also the question of organizing a community council.

### A VITAL QUESTION

There was an interesting discussion in Newcastle on Monday evening on the question "Why are people leaving the farms?" It is a fact that people are leaving the farms, and the proof is found in the great scarcity of vacant houses in all the villages and towns of New Brunswick at the present time. People are moving in from the country. A movement of this kind appears to be inevitable under the conditions which at present exist. Perhaps if there were better roads, a development of the co-operative community spirit, and the introduction into the country of more of the attractions of life which the larger centres offer, there would also be a movement from the cities and towns toward the country, to counterbalance the drain which is now a really serious matter in all the agricultural districts. The subject discussed with much intelligence at Newcastle should be given thoughtful consideration in all communities, the cities and towns included; for one of the advantages of a city is to have a flourishing country behind it. Board of trade would be doing a good service to consider this question, and to endeavor to find a way of bringing about a healthy development of rural communities. The question is one which affects trade, and therefore comes fairly within the scope of such organizations.

"We have removed the saloons from Fairville," said one of the speakers at last night's meeting, "but what have we put in their place?" This searching question should stimulate the new community council.

The proposal of Commissioner Potts to construct sidewalks of a permanent character should be endorsed by the city council and the citizens. Only work of a permanent character, except where a little patching is urgently needed, should hereafter be tolerated in the streets and sidewalks of St. John. If it is possible to add substantially this year to the mileage of permanent pavement in the city so much the better.

The fact that the winter export traffic at St. John shows a decline of more than five million dollars compared with the figures of the previous season should stimulate the St. John delegation to speak plainly and firmly when they go to Ottawa. Such action on their part will be the more necessary because Mr. Borden has appeared as a defender of the Guelph agreement. Mr. Hasen's attitude in relation to that agreement is now a subject of interested speculation.

### HORTICULTURE ON THE DOMINION EXPERIMENTAL FARMS

At the Central Experimental Farm at Ottawa and at each of the branch farms and stations distributed over the dominion a large amount of investigation-al work is carried on year by year in the growing of fruits, vegetables and flowers. The purpose of this work is to discover and develop not only improved varieties and strains of these crops but to find out the most successful methods of culture for the different provinces and districts.

The result of last season's work has been brought together in a summary prepared by W. T. Macoun, dominion horticulturist, and the superintendents of the branch farms and stations and issued in Bulletin No. 77, copies of which are available to all who apply for them to the publications Branch of the Department of Agriculture at Ottawa.

Referring to apples at the Brandon, Manitoba farm the bulletin states that a large number of hybrid trees are doing well. These are stated to be bearing fruit which makes excellent preserves and jelly.

At Lethbridge, Alberta, culture with and without irrigation was carried on. Sections dealing with ornamental gardening are especially interesting and instructive to those who take pride in the appearance of their home surroundings.

An immense red fir tree about six feet in diameter was cut down recently in Albany, Or., and was found to have a heart of solid and genuine charcoal, for about 15 feet up from the ground. No

Dick Williams, a fisherman of Beloit, Miss., caught a freak recently in a fish 12 inches length, 6 inches wide, and perfectly transparent.

### BIRTHDAYS OF NOTABILITIES

THURSDAY, MAY 7.

Hon. William Cameron Edwards, millionaire lumber manufacturer and member of the senate since 1908, reaches his seventieth birthday today. He was born in the township of Clarence, Russell County, Ont., and started in the lumber business when he was quite a young man. He is known familiarly as "Don't Worry" Edwards, for it has always been one of his principles not to let business cares interfere with his health. "I never heard of a man who made anything out of worrying," says Senator Edwards. "On the other hand I have heard of many men who have lost their health and ruined their business through worrying. It seems to me that worry is a great waste of energy. If men would only utilize the vital force required for worrying and put it into good hard work there would be fewer business failures in this and in all other countries."

Also born today—  
 J. W. Allison, Dartmouth, N. S., born in Newcastle, N. B., 1851.  
 H. T. Bovey, formerly of McGill University, born Devonshire, England, 1852.  
 C. H. Keefer, Ottawa, born Rideau Hall, 1851.  
 Hon. J. H. Leppie, Louisville, P. Q., born Riviere du Loup, 1850.  
 A. M. Nanton, Winnipeg, born Toronto, 1860.  
 Hon. H. Turner, London, born Clayton, England, 1864.

### LIGHTER VEIN.

No Distance to 'Em  
 "There's one thing I like about indoor golf."  
 "What's that?"  
 "The walks between shots are not at all tiring."  
 Only One Sh'd Heard Of  
 Fog reports that he overheard this in the book department of one of our big stores.  
 Customer—Have you Arnold's poems?  
 Salesgirl (turning to head of department)—Miss Simpson, here we Benedict Arnold's poems—Boston Transcript.  
 Teaching Him a Lesson  
 "Is it true that you stopped your son's allowance when he married that pretty chorus girl?"  
 "Yes, I told him he needn't expect to get another dollar from me."  
 "How does he manage to live?"  
 "I have increased his mother's allowance about \$10,000 a year."  
 —Chicago Record-Herald.

OUR ancestors would great cumbersome watches with keys and were satisfied if they ran within a couple of minutes a day.

Our ancestors bought diamonds of any shape, any color, any cutting.

Today there is a growing demand for watches that are small and thin and that will run within 80 seconds a month.

Today there is a big demand for the finest diamonds to be had. They must be WHITE, ROUND, FREE FROM FLAWS AND PERFECTLY CUT. WE HAVE THEM.

WE HAVE THEM AT THE RIGHT PRICE.

WE EXTEND A MOST CORDIAL INVITATION TO ALL TO EXAMINE OUR GOODS AND VALUES.

### Allan Gundry Direct Diamond Importer 79 King Street

Why spend your summer months in a smoky city, when you can have a beautiful summer cottage like this. The size of this building is 18 x 25, with a verandah 6 ft. wide the length of the building. It has five beautiful rooms, with large open fire-places. It is finished outside and painted. I will supply the materials and finish these buildings for \$650.00, and give a guarantee that they are what I say.

## If It's Quality and Perfection You Desire in a Range---Then See The GLENWOOD!

This Range has both QUALITY of material and WORKMANSHIP—nothing but the highest quality of iron is used in connection with the manufacture of the GLENWOOD. No one mine in the country can furnish a perfect range quality of iron, and the best irons from several mines are blended together in the melting furnaces at the GLENWOOD foundry, where skilled workmen are watching and caring for every detail essential in turning out such a high class range. None but the most skillful molders and fitters are employed.

Perfection of design and construction make the GLENWOOD line without an equal.

Call at the GLENWOOD store and have our salesmen explain the range to you.

THE MICHIGAN FIRING A BROADSIDE

Photo by American Press Association.

When the American battleships began their broadside of the Mexican seaports it was feared that they would have to open fire upon some of the cities in case the Mexicans attempted to outrage the Americans who still remained in the country or burned down their property. This picture shows what a broadside of one of the big battleships looks like.

TRUE TO THE AGREEMENT OF 1909

Australia Shows to Canada the Patriotic Way From Which Borden Has Turned Aside

(Halifax Recorder)

The attempt on the part of the British Admiralty and its first lord to revert to the old and discarded policy of contribution has produced a rejoinder from Australia which is not likely to be forgotten for some time. The naval agreement of 1909, which provided for the organization and construction of colonial navies, was broken by Canada with the advent of the Borden government to power, the Canadian defection being the Tories and the Nationalists to destroy the Laurier government. Encouraged by this, the admiralty with Hon. Winston Churchill as its spokesman, has been doing its best to discourage colonial naval development and to revert to the policy of contributions. This attitude has at length put Australia out of patience, and her government has issued a most emphatic statement of her position in regard to naval matters. The statement was contained in a speech delivered by Senator Millen, minister of defence, in the Australian parliament of late May. The central fact of the pronouncement is contained in the following paragraph:

Australia is irrevocably pledged to and will determine and consistently pursue the policy on which she embarked by the imperial government's advice five years ago. She will not be deflected from her course by the first lord's pronouncement, since she regards the task she has undertaken as vital to the cause of imperial defence and imperial unity. This is the true British spirit. O, that we had a government in power in Canada with some of that same spirit obtaining in its counsels.

THE HOUSEHOLD APERIENT.

NOTICE TO THE PUBLIC RE BLASTING OPERATIONS

I take this opportunity of notifying all citizens in the city and county, who may have had property damaged by the blasting at Courtney Bay, to furnish me with a list of the damages caused, also a list of claims for illness due to the blasting. I will give proper consideration to the matter.

WHAT THIN FOLKS SHOULD DO TO GAIN WEIGHT

Physician's Advice For Thin, Underdeveloped Men and Women.

Thousands of people suffer from excessive thinness, weak nerves and feeble stomachs who, having tried advertised flesh-makers, food-fads, physical culture stunts and rub-on creams, resign themselves to life-long skininess and think nothing will make them fat. Yet their case is not hopeless. A recently discovered regenerative force makes fat grow after years of thinness, and is also unequalled for repairing the waste of sickness or faulty digestion and for strengthening the nerves. This remarkable discovery is called Sargol. Six strengthening, fat-producing elements of acknowledged merit have been combined in this powerful preparation, which is endorsed by eminent physicians and used by prominent people everywhere. It is absolutely harmless, inexpensive and efficient.

A month's systematic use of Sargol should produce flesh and strength by correcting faults of digestion and by supplying high concentrated fats to the blood. Increased nourishment is obtained from the food eaten, and the additional fats that thin people need are provided. Leading druggists supply Sargol and say there is a large demand for it.

While this new preparation has given splendid results as a nerve tonic and vitalizer, it should not be used by nervous people unless they wish to gain at least ten pounds of flesh.

THAT AWFUL ACHE OF LUMBAGO RUBBED AWAY FOR ALL TIME

Hoorah! No More Suffering—Every Ache Goes Quick—RUB ON NERVINE

Lumbago is a peculiar sort of rheumatic trouble that affects the muscles about the loins and back. At times its agony is intense, severe spasms of pain shoot in all directions, and become more severe on stooping.

In treating lumbago or stitch in the back, it is necessary to keep warmly covered to prevent a sudden chill. Attend to this, and then apply Nervine freely. Almost instantly you feel its warm soothing action. Right through the aching muscles the healing power of Nervine penetrates.

Quick as a wink you feel the stiffening lessening. You realize the powerful pain-subduing remedy is curing the pain.

is easing your distress, is making you well again. Nervine quickly cures backache and lumbago because it has the strength, the power and penetrating force possessed by no other known remedy. Its amazing curative action is due to certain extracts and juices of rare herbs and roots, combined by a secret process, and forming a truly magical medicinal marvel.

Get the large 80 cent family size bottle, 100 cents, the smallest economical, 25 cents. All dealers or the Catarthorose Co., Kingston, Canada.

U. S. MUST PAY FOR SHIP TAKEN IN WAR OF 1812

Washington, May 6.—The American and British claims arbitration tribunal which has been in session here for several months, adjourned here today with the understanding that it shall resume some time in July in Paris, when announcement will be made of decisions in some of the cases recently argued.

An award of \$827 was made to the Great Northwestern Telegraph Company which the Australian navy was organized to protect the cable in the Quebec harbor by the anchor of the U. S. steamer Essex.

For the illegal seizure of the British ship Lord Nelson captured by the United States navy June 5, 1812, nearly two weeks before the declaration of war between the United States and Great Britain, the tribunal assessed \$3,000 damages against the United States.

Because its lighters in rough seas in Manila Bay damaged the British collier Estry in 1901, a judgment was rendered against the United States government for \$49 pounds sterling with interest at 5 per cent.

The case of the Canadian government's steamship Canadienne, which was in collision with the U. S. Yantic in the St. Lawrence river in 1897, the commission found that both vessels were to blame, but in a different proportion.

This is the first time that the tribunal has assessed a damage of \$1,000 against the United States.

CANNOT MEET FIXED CHARGES?

C. N. R. May Face \$2,000,000 Deficit—C. R. Block System—To Abolish Tipping—Superannuation For Civil Service

Ottawa, May 6.—A second instalment of information in regard to the C. N. R. finances was tabled in the commons by Premier Borden today. It throws some interesting light on what has been done with the money raised by the C. N. R. Company, either on its own securities, or on securities guaranteed by the public and on the prospects of the road for profitable operation.

It will be noted that net earnings are given as to estimated net figures for the current year. The omission is significant. The net earnings of the company for the year ending on June 30 of the present fiscal year, which ends on June 30 next, have been approximately \$3,900,000, and according to present indications the net earnings for the year will only be about \$2,500,000.

The net earnings last year totalled \$8,461,000, and the fixed charges and outstanding securities were \$6,000,000. It is apparent therefore that the net earnings this year will fall some \$2,000,000 short of paying the fixed charges. Under the present plan of the company, which is to pay the least matter now before parliament.

Hon. Dr. Reid, acting minister of railways, told A. K. Maclean, of Halifax, that a block signal system is being installed on the I. C. R. from Halifax to Windsor Jet, from St. John to Hampton, and from Moncton to Paines. The contract is held by the Union Switch & Signal Company and totals \$85,000 for the three sections.

These then went into committee on the bill to amend the Dominion Land Act, introduced by Hon. Dr. Roche. The bill provides a number of changes in regulations governing homesteading in the west and led to a lengthy discussion by western members.

Senator Davis' bill, which provides for a fine or imprisonment for tipping and making the employer, the employe and the person offering the gratuity liable, was given second reading in the senate today.

Ottawa, May 6.—Hon. W. T. White, minister of finance, gave notice tonight of the resolution upon which will be based the legislation with regard to superannuation.

The civil service legislation will provide for changes in the classification of the inside service and for increase of salaries and pensions in the outside classes, both in the inside and outside service.

The resolution with regard to superannuation provides that the government must pay such allowances to an amount

not exceeding one-half of the total allowance or benefit. The balance will be paid out of a fund contributed by the employes themselves.

Canadian Club Speakers. At a meeting of the executive of the Canadian Club it was decided to unite with the Loyalist societies and other organizations in the observance of Loyalist Day, May 18.

Make Hairs Disappear Almost Like Magic

Advocates of the electric needle for removing stubbony growths now concede that a simple paste made with powdered delatone and water is fully as efficacious and is devoid of pain, while the cost is trifling.

The delatone paste is left on the hairy surface about two minutes and when it is rubbed off all traces of hair vanish. Washing leaves the skin soft, smooth and spotless. Be careful to see that it is delatone you get or you may be disappointed with the result.

In the annual report relating to Irish agricultural laborers it is estimated that the savings in 1912 of Irish laborers who migrated to England for the season approximated £190,000.

Do you realize the wonderful control over the organs of the body that is exerted by the nerves? Through the voluntary nerves you walk, talk and work, but there are other nerves which control every movement of every muscle in the body.

The action of the heart becomes weak, the lungs are weak in breathing and digestion fails because the nerves which control the flow of gastric juices give out.

Many a man and many a woman who is tired out, weak and discouraged does not realize that it is the nerves that have given out. They do not know what a

wonderful change Dr. Chase's Nerve Food would bring about in their condition. Headaches, sleeplessness, indigestion, irritability, nervousness and loss of energy, ambition and courage are among the warning symptoms.

Do not let these danger signals go unheeded, for nervous prostration and paralysis are the natural results of neglect.

Almost every day you will find in this paper reports from people who have been cured of some form of nervous disease by using Dr. Chase's Nerve Food. No treatment has ever proven so successful as a restorative for the nervous system. Note your increase in weight while using it. 50 cents a box, 6 for \$2.50. All dealers, or Edmondson, Bates & Co., Limited, Toronto.

THE REASON WHY

You don't take sauce? Perhaps not, but if you look for the reason why, you will find it in the fact that the word "sauce" suggests to your mind a thin, dark, hot-tasting fluid, which, if taken at dinner, runs all over the plate, saturates the vegetables and eventually leaves a disagreeable burning sensation in the mouth.

Do not wonder that these circumstances you do not take sauce—but, change the circumstances, and the taste will probably change with it.

A new sauce has been introduced by the Midland Vinegar Company of England, which is known as H. P. Sauce, and is quite different to the old fashioned sauces referred to.

H. P. Sauce has proved an immediate success, and is now used regularly by those who previously never took sauce. It is prepared by blending together the choicest Oriental fruits and spices with pure malt vinegar.

The manufacturers' secret process produces a thick, fruity sauce, which is delicious when eaten cold, and especially when served with pure malt vinegar.

All family grocers are selling H. P. Sauce. Of course its success has brought many enquiries, but you ask for H. P. and see that these letters appear on each label, you will preclude the possibility of disappointment.

A REVOLT AGAINST THE BLUE LAWS

New Haven, Conn., May 6.—The Supreme Court of Errors of Connecticut is to be asked for an interpretation of the much discussed Sunday observance law of the state, commonly referred to as the "Blue Laws." This was stated definitely today, the request for the interpretation being the outcome of the Sunday closing crusade at Savin Rock, a pleasure resort near this city, during the past few weeks.

Nineteen arrests were made during April of proprietors of various enterprises and in many cases appeals were taken after fines had been imposed. In at least three of these cases, it was stated today, the appeals will be carried to the highest court.

The supreme court, it is said, has never been asked before for an interpretation of the "Blue Laws," since that enactment in Colonial days. Legislators have wrestled with the problem many times but with little success.

Women's Suffrage Defeated. London, May 6.—The women's suffrage bill was rejected tonight by the house of lords by a vote of 104 to 60.

Wreckage Found.

Boston, May 6.—Two masts with rigging attached, indicating the possible wreck of a sailing vessel, were sighted 200 miles east of Boston Light by the steamer Cleopatra, which cleared today from Huelva, Spain. The wreckage was considered a menace to navigation, and the revenue cutter Androscooggin left Portland in search of it.

When It Comes To Nerve Jeff Is The Diplomatic Guy . . . . . By "Bud" Fisher

SPORT NEWS OF A DAY, HOME AND ABROAD

ATHLETIC. Planning New Rink. The members of the St. Francis Xavier Athletic Association are already beginning to prepare for the celebration of the diamond jubilee of the college in 1915. One of the features they plan upon is the opening of a new rink before that time. The members of the alumni of the college are to be asked to help, and various means are to be taken to raise funds. Committees have been appointed for the purpose. W. R. Walsh, of St. John, has charge of the campaign for New Brunswick.

THE TURF. Turf Notes. Frederick Gleaner—Driver Tommy Raymond will not be alone at the Frederick Trotting Park very long. Trainers Wm. Sharen and Sandy Stewart are preparing to get to the track just as soon as the weather gets a little warmer. The former will have Lella Burns, Frederick's new "grey ghost," Norway W., Sam Boyle's handsome trotting mare, and some others, while Stewart's string will include the horses owned by H. J. Morgan, of this city.

BASEBALL. Some Baseball Gossip. The East End league enthusiasts have been hard at work for the last few weeks and have furthered the reorganization of the league to such an extent that it is now almost certain that there will be baseball again on the East End diamond this year. The same four teams, Alerts, Nationals, Glenwoods and Commercial, will probably be in line this year and with the addition of some new material should supplement their success of last season.

Death of Ball Player. John Malvey, a well-known athlete, died at his home in Lewiston, Me., on Monday. He was born 23 years ago, graduated at the Lewiston high school in 1909, and was captain of the baseball team this year. He was also a half-back on the high school football team. For the last two summers he had played ball with the Cape Breton team. He was also a member of the Pigeon team of Lewiston.

WITH THE BOWLERS

Five Men Team League Enjoy a Banquet. Commissioner McLellan's Project to Provide a Good Athletic Field and Track—An Interesting Gathering.

It was a merry crowd that gathered at Bond's last evening to celebrate the closing of the Five Men League on the Victoria alleys. After partaking of a sumptuous banquet, the bowlers enjoyed immensely a programme of speeches and music.

Commissioner McLellan was in the chair and, after the toast to the King was honored, delivered a pointed address on the advantages of sport, and made an announcement which rather took the assembly by surprise. He said that in view of the need in St. John for a proper place to conduct sports, the municipality should provide a means of overcoming the difficulty. He proposed, therefore, to bring the matter of the provision of an exhibition grounds, which would enclose a baseball diamond, race track and accommodation for other sports, before the members of the municipal council in the near future, and hoped to see the matter carried to a successful issue.

THE RING. Roddie McDonald of Glace Bay, knocked out Jimmy Glover, of Boston, last night in the seventh round at the Halifax arena. Mike Gibbons of St. Paul, outclassed Johnny Howard of Bayonne, N. J., last night in a ten round match in Brooklyn, N. Y.

AQUATIC. Launching May Be Delayed. London, May 7.—It is not certain that the Shamrock IV will be launched on May 28. She may not take the water until the last week in June. Work is now being rushed, however, to get the boat ready by the 20th, for, if she is not launched then, it will be necessary to wait until June, as twelve or fourteen days intervene between suitable tides.

SHEEP RAISING IN WEST. Saskatoon, Sask., May 6.—For \$200 a farmer can start the nucleus of a flock as so many of our progressive men are now doing. Probably no branch of animal husbandry has ever rushed more rapidly into a deserved popularity than has the sheep in Saskatchewan. The latest estimate gives the province approximately 130,000 sheep, of which farm flocks constitute about 15 per cent, the remainder representing range flocks.

What the Audience Wanted. With hisses and groans the audience greeted the new musical comedy. All hope, then, was at an end. "It's hard to tell just what the public wants," murmured the heartbroken author. "It's easy enough to tell in this case," said the manager, grimly, "it wants its money back!"

Keep Down the Cost of Living. Did you ever count the potatoes you throw away as useless? They average one in every five, and, you have to pay for them, had they been kept. CLEMENS' HAND-PACKED POTATOES are GUARANTEED GOOD. They are smooth, shal-low-eyed, and carefully selected, being kept, at just the right temperature, in our own special cellars. They come in Peck Packages, every week, right to the kitchen door, and COST NO MORE THAN OTHER KIND.

PRAYER BOOK REVISION

Anglican Church Committee Has Completed Its Work.

Toronto, May 7.—The committee appointed by the General Synod of the Anglican Church in Canada for the purpose of preparing a revision of the Prayer Book, has completed its labors and has issued a statement which, while not giving details as to the work done, explains the general lines upon which the revision, which is now ready for presentation to the general synod, was carried out.

The work has been carried out on very conservative lines, and no feature of the book has been impaired or altered, while the enrichments and additions were considered by nearly all present, representing as they did practically all schools of thought, as increasing in large measure the value of the book for the needs of the church at the present day. Two details which are calculated to make the new book capable of being more easily followed by those unfamiliar with it, and which are recommendations of the committee, are uniform paging (so that the minister can announce upon what page any special service or portion of a service will be found), and the inclusion of a brief instruction as to how to use the book to the use of those unfamiliar with the prayer book.

AMUSEMENTS. GEM. Vitaphone players in special two part feature. Breezy, pleasing drama of the sawdust ring. Story of life with a big circus with all its romance and adventure. "Whimsical Threads of Destiny". Rex Co. in stirring story of a young author. "The Cycle of Adversity". Gem Orchestra—New Hits. Fun! One long rowing laughter in Joker Comedy. "The Head Waiter".

COMING! Fri. and Sat. Last of the Clock Series. "The Mystery of the Silver Snare".

PHOTOPLAYS. The Evangelic Meeting. Rev. Dr. Burrows scored those who oppose revival campaigns, in a very forceful sermon last evening on "Rolling Away the Stones," in which he showed the work that will have to be performed by the professed followers of Jesus Christ if a great work is to be accomplished in the campaign now being held in the Queen's Rink. He chose as his text John XI:88, "Take ye away the stone." The service was well attended. A great gathering in interest is noticeable at this early date in the campaign. Rev. Wilfred Gaetz made the opening prayer and gave the announcements. Mr. Van Horne sang "No Room in the Inn." The work of selecting a large chorus choir is progressing very favorably.

ST. JOHN TO HAVE CAVALRY SCHOOL

New Brunswickers Need Not Now Go To Quebec

CONTINUE FOR FIVE WEEKS

Officer and Five Men Coming Here to Take Charge — Old Drill Shed to Be Converted Into Riding School

A cavalry school is to be opened in St. John this month and is to continue for five weeks. This announcement will be received with much pleasure by all cavalrymen throughout the province as it has been previously necessary for them to go to St. John's, P. Q. to qualify.

Five men are to be sent from St. John's, Quebec, with a qualified officer to take charge of the school and from the interest evinced it is likely to be well attended. One of the weeks will be used as a "brush-up" period and this will no doubt be taken advantage of by qualified officers and N. C. O's.

A desire which has long been fostered by cavalrymen in New Brunswick, was the establishment of a school at which they could qualify for rank without having to leave their occupations and places of business for five or six weeks to go to Quebec. But while the hope is in a measure to be gratified, by the maintenance of such an establishment it has been a further desire that such a scheme should extend to the whole maritime provinces, for at present it is necessary that the members of the squadron of Light Horse on P. E. Island and the members of the mounted regiments in Nova Scotia go to Upper Canada to qualify.

Those who have enjoyed the games of the campaign against the "White Plague" was reviewed today at a convention of the National Association for the Prevention of Tuberculosis. More than 2,000 anti-tuberculosis agencies now are well established in the United States compared with 150 ten years ago.

HARBOR NOTES The schooner Harold B. Consens cleared this morning for Philadelphia with 2,000,000 spruce laths from Stetson, Cutler & Company.

Steamer Coban arrived this morning from Parrsboro with a cargo of coal.

CHARGES FRAUD IN CONNECTION WITH THE FENIAN RAID GRANTS

Ottawa, May 7.—Consideration of the Fenian Raid bounty grant to those called out for service in the maritime provinces, gave rise to a prolonged discussion which kept the house going till three o'clock this morning.

B. B. Law, Liberal, of Yarmouth, took exception to this assertion, while Major Sharpe, of Ontario, urged that if there were any fraud it should be investigated.

Much cross firing took place between Nova Scotia members as to the significance of a vote in 1911 on a resolution calling for recognition of Fenian Raid claims.

WILL USE GROUNDS AT FOOT OF HANOVER STREET

East End League and Every Day Boys' Club Baseball Plans

Arrangements have been completed by which the East End League and the Every Day Boys' Club will play ball this season at the grounds at the foot of Hanover street.

The two organizations will work in harmony. A caretaker will be with the boys every evening from the time they assemble until they disperse, and it is hoped that it will be possible, in addition to baseball and football, to have them take part in general athletic exercises, such as running and jumping and also in marching exercises on the open field.

Those who have enjoyed the games of the East End League for the last two seasons will not only be able to do like this season, but if they care to do so can enjoy and give encouragement to the boys who will be the big leaguers of the future.

SCHOONER DOWN FROM FREDERICTON; RIVER CLEAR SAYS CAPTAIN

The American schooner Harry H. Chamberlain, Captain B. M. Wasson, arrived in the harbor this morning from Fredericton, where she discharged a cargo of coal. Speaking with a Times reporter this morning, Captain Wasson said that there was no sign of any ice in the river between here and Fredericton, not even at the bridges. The water, he said, was not particularly high, and there were but few logs moving. The Chamberlain made the passage from Fredericton in good time.

BOYS' PETS STOLEN

Theft of Rabbits From Several Indian Towns—Boys Thieves Seen in One Place

A miserable piece of sneak-thievery was discovered yesterday in Indian town when it was found that three or four boys who had been keeping rabbits as pets had had several little animals stolen from them during the night.

FAIRVILLE SETS PACE FOR CITY

Energetic Community Council Is Established

DR. J. V. ANGLIN PRESIDENT

Fine Spirit of Co-operation Shown at Mass Meeting — Clean-up and Playgrounds Items on Programme For Prompt Attention

The Fairville public meeting called in the interest of town welfare was held in the Temperance Hall last evening and was attended by a most representative gathering. There was enthusiasm from the outset, and after securing what information was available and discussing this for a time, the meeting took practical action by electing a community council and officers.

Rev. W. F. Dunham was next heard and believed to be in perfect accord with the object, and splendid results sure to accrue. He thought a clean-up day especially important, but general lines of social endeavor, bringing the question to a head in the following resolution.

That this meeting place on record its sympathy in the proposed movements and that the choir appoint a nominating committee forthwith to suggest the personnel of a community council. This was seconded by Charles Barnhill and carried.

The chair then named the following nominating committee—John Fowler, Councillor Bryant, J. J. Hennessey, H. H. Stout, W. J. Linton, and J. Gale, who retired within twenty minutes or so returned with the following list: Dr. J. V. Anglin, president.

W. E. Gunter, vice-president. Councillor John O'Brien, 2nd vice-president.

H. Marshall Stout, secretary. J. J. Hennessey, treasurer.

The general council to be composed of presidents of all fraternal societies, with all members of the clergy, and W. J. Linton, W. E. Gunter, Arthur W. Cartan, Walter Ross, Dr. Dalton, John Gale, Joseph O'Brien, F. V. Hennessey, Eldon Schofield and Alexander Donaldson.

These officers were unanimously accepted by the meeting and much favorable comment was heard on all sides on the election of Dr. Anglin, who is conceded capable and popular enough to lead almost any organization into a winning campaign.

Councillors Bryant and O'Brien then spoke in favorable terms of the whole proceeding, and both alluded to the school field as suitable for the younger children, but not large enough for baseball and the more active sport of the older boys.

W. J. Linton then explained there were four more years for the lease to run at Fireman's Park, and urged that the council first appointed take such measures as would make the out-and-out purchase of the land from the city a possibility, so that a play field might always be available and once ownership became assured a band stand, bleachers, grand stand and other improvements would follow.

Chas. Barnhill then moved a vote of thanks to Mr. Belding, seconded by James Masson and it was carried with great enthusiasm. Adjournment was made for a week when the council will meet in the Court House.

This is recognized to have been one of the most successful public meetings ever held in Fairville. There was not one dissenting voice, and every one seemed possessed of enthusiasm to better town conditions. The initial work being over it now rests with the council, and its members may feel assured, judging from the spirit manifested by the meeting of last night, that they have the entire community at their back in their future labors.

GREAT LAKES STEAMER BURNS; ALL ESCAPE

Erie, Pa., May 7.—The steamer City of Rome, Buffalo to Toledo, was burned to the water's edge ten miles off shore today. The crew, after a valiant battle with the fire, was forced to take to the yawl boats and escaped.

Prince and Princess Arthur of Connaught have returned from Devonshire to their Mount street residence. The stork is expected about the end of July.
