VOTE FOR THE MODEL HARBOR OF THE ATLANTIC COAST

Two great railway men, President Hays of the Grand Trunk Pacific and ex-deputy minister Butler, stated on inspection of the place and the plans that Courtenay Bay could be made the model harbor of the Atlantic coast.

Hon. Dr. Pugsley says that the plans will be carried out, as part of the government's great policy for the development of Canadian trade routes and national ports.

The contract for the beginning of the work is as good as awarded. It will provide a great concrete breakwater, dry dock, ship repair plant, and the first of the series of wharves, along with the necessary dredging.

Vote for Dr. Pugsley and Mr. Lowell and the development of Courtenay Bay.

FINE RALLY IN NORTON FOR DR. McALISTER

Hall Crowded and People Stay Till Midnight to Hear Speeches

GREAT RECEPTION

Procession Escorts the Popular Liberal Candidate to the Meeting Place—Spirit of Gathering is Prediction of Victory For Reciprocity

(Special to The Times)

St. John, N. B., Sept. 16.—A torchlight procession with the pipes' band, an automobile parade and cheering throngs of reciprocity supporters last night greeted Dr. McAlister, the people's candidate, as he emerged from the Campbell hotel, Norton, en route to the village hall, where he and J. T. Hawke and Geo. R. McCord addressed the largest and most enthusiastic political meeting ever held in Norton.

Not only the male population of Norton are favorable to reciprocity, but the ladies of the village had put forth a great deal of self-asserting effort in nicely decorating the hall.

"Hail to the Chief, who in Triumph Advances" was played by the pipes, and as they played cheers corresponding to the sentiment of the song went forth from the people of Norton who are going to vote on the 21st that the masses and not the classes are going to rule Canada.

WILSON THE OUTLAW FOUND

Manitou, Man., Sept. 16.—Word received late yesterday is that Bill Wilson, the alleged assassin of Miss Gladys Price, who was held captive in the woods near here for thirty hours, has been sighted and positively identified at Bluff, twelve miles south of Snowflake in the Pembina Valley.

"We have got him surrounded but we want more men, so that we can overtake him with numbers," is the appeal brought here. A large posse was hurriedly organized and started for Bluff.

Miss Price today identified a photo of her assailant. It had been brought from the police records of Winnipeg, where the original, under the name of Wesley Osborne, was arrested some weeks ago as a vagrant.

BOURASSA'S NAVAL BOGEY

"I remember when the first railroad was built between Quebec and Montreal in 1852. A member of parliament, whom I shall not name, opposed it because he said it would frighten the cows and prevent their giving milk.

"We can laugh at that now, and fifty years from now we shall be laughing at this naval bogey,"—Sir Wilfrid Laurier.

THE ISSUE BETWEEN LAURIER AND BOURASSA

To-day once more Laurier and Bourassa fight the battle over the right of the Government of Canada to participate in the defence of the Empire. This time it is the Liberal policy of undertaking the obligation of naval defence that is at issue in Quebec. Bourassa and Monk, the Conservative leader, have joined hands to destroy Laurier because he is too British for them. And once more to complete the parallelism, the Laurier who is too British for the Nationalists and Conservatives of Quebec is being held up to the people of the English speaking Provinces as not British enough for them—Toronto Globe.

NO FEAR OF ANNEXATION DECLARES MR. POWELL AT MEETING IN MONCTON

Conservative Candidate Does Not Subscribe to Silly Talk of His Party—Another Speaker at Tory Gathering Praises Sir Wilfrid Laurier

(Special to Times)

Moncton, N. B., Sept. 16.—H. A. Powell, K. C., well known to Moncton audiences, addressed a meeting in the interests of the Conservative candidate here last evening.

Mr. Powell has always been regarded here as a master of rhetoric, and in this connection he scored when in concluding moments of his speech he bid for that brand of applause which he so ardently appreciates by a series of grand flag waving. He had not the hardihood in face of general public censure to believe that the reciprocity agreement when ratified would lead to annexation. In fact Mr. Powell stated flatly he believed no such thing, but as a bait no doubt which he considered many auditors who had staked their hopes on this cry, hinted at weakening of the imperial bond.

STOLYPIN LIKELY WILL GET BETTER

Kiev, Russia, Sept. 16.—Premier Stolypin, who was shot down in the Municipal Theatre here last night, in the presence of Emperor Nicholas, in all probability will survive his wounds. Late last night the surgeons after a consultation announced that the premier's condition was satisfactory. They declared that no complications were feared and that there were good hopes for recovery.

POISONOUS MUSHROOMS KILL FOUR PEOPLE

Fishkill, Landing, N. Y., Sept. 16.—Mr. and Mrs. Michael Lyons died here yesterday from eating poisonous mushrooms, eaten by mistake for edible fungi. A double funeral will be held today.

Today's deaths make four from the same cause in this community. Mrs. Machoul and her daughter died on Thursday. They had partaken of the poisonous dish at a dinner with Mr. and Mrs. Lyons.

THE BEST WAY TO BUILD UP THE EMPIRE IS TO BUILD UP CANADA. LARGER FREE MARKETS FOR CANADIAN PRODUCTS WILL BRING THAT RESULT.

IT IS YES!

"I ask you if I have not made good during the three years in which I have been your representative?"—Hon. Mr. Pugsley at last night's meeting. And the people answered in a way that meant a sweeping victory for St. John's best friend at Ottawa.

ECHOES OF THE GREAT CAMPAIGN

POTATOES AND LOYALTY (Sackville Tribune)

How many sweet potatoes grown in the United States and free of duty, would a man have to eat before he would be in favor of annexation with the United States?

EASY TO REMEMBER (Fredericton Herald)

Farmers of York who are selling potatoes for \$1.45 per barrel don't forget that they are selling to the United States for \$1.10 per bushel in the field.

REACTION TOWARD LAURIER (Montreal Herald)

An interesting feature of the campaign, more noticeable than the last year, is the earlier stages, is the way the plain average admirer of Sir Wilfrid Laurier is getting his back up. Every time they announce the desertion of some highly placed person who has grown rich under Laurier rule, you hear some quiet person who is very far from the field of newspaper publicity expressing his indignation and announcing his own intention to get in one solid early vote for Laurier.

CAN'T INTIMIDATE HIM (Montreal Witness)

Henry Mason, of the "Trade Bulletin" is one of the most estimable citizens of Montreal. He has done most useful work for many years, in advising not only Montreal and Canada generally, but the Mother Country and the world at large, as to the course and variations of the produce market. Every one in the produce business values his opinion, and very many have profited by it. Mr. Mason has voted Conservative for many years, but this time he will vote Liberal—because, not only does he see that reciprocity is right and inevitable, but he also sees that the Friendship and cooperation of the United States is the most valuable asset of the British people in the world over. Some supporters of (Continued on page 5, first column)

MUST HAVE A NEW KING

With regret it must be stated that the portrait of King George was turned to the wall in the hall of the Patriots last evening.

The reason was stated in terse sentences by the Exalted Patriot, who said:—

"We are betrayed. The King has sent a birthday message to Taft. I can scarcely contain my indignation to speak of it. It was a bolt from the blue. Here are we exposing the infamous plot of Taft to wreck Canada for the Empire, and there is King George calling his congratulations to Taft. 'Il a le diable au corps,' as our Brother Bourassa would say. What can we do with a King like that? He assured the villain Taft that he wanted cordial relations to exist forever between the mother country and the loyal Yankee. Can we stand for that—at this of all times—are we preparing the flag that portrait to the wall. The meeting is adjourned."

THE QUEBEC SECTION OF BORDEN'S GREAT SHOW

BOURASSA—What's the matter with you Monk, you seem to be worried?
MONK—I've got it into my mind that if we start a tour with this menagerie of ours, we won't even clear our expenses.—Le Canada.

REMEMBER!

It was members of the same party which now prates about loyalty and British connection who once said: "So much the worse for British connection." Members of the same party once signed an annexation manifesto.

A GRAND REVIEW OF THE LIBERAL FORCES HERE ON MONDAY

Big Mass Meeting in Opera House Inaugurates the Last Week of the Election Campaign in St. John

The last stages of the great electoral fight in this city and county will be entered upon with enthusiasm and vigor by the government forces on Monday with a rousing amalgamation of all the workers and hundreds of other voters in the Opera House.

This is going to be the greatest assemblage of Liberals in the whole five weeks of campaigning and will in all probability exceed similar meetings of former elections both in numbers and enthusiasm. Each day finds the Liberal party keener for the fray, every morning news of more converts to the reciprocity programme of the government is made known.

HOPEFUL FOR PEACE

Berlin, Sept. 16.—Considerable progress is believed to have been made toward a settlement of the controversy between France and Germany over Morocco. It was learned from an authoritative source that an agreement between the two powers seems assured. Several questions, however, yet remain open to further discussion, but both sides are showing good will.

SIGNALING INSPECTION.

It is expected that the inspection of No. 8 Signaling Section under Lieut. Allan Leavitt, will be held during the latter part of the month. It will be conducted by Capt. Powers, in charge of divisional area No. 6, and there is a probability that it will this year include a heliograph inspection, which has not been the case before in St. John. No dates have yet been set for the examination, but to allow for the helio work it will probably be held in the morning instead of the evening as in other years.

THE LATE MRS. R. D. SMITH.

Mrs. R. Duncan Smith, whose death is announced elsewhere, was an active member of Queen Square Methodist church and Sunday school, and will be greatly missed in church circles.

WHAT RECIPROCIITY WOULD HAVE SAVED YOU IN 3 MONTHS THIS YEAR

Striking proof that the reciprocity agreement must result in substantial reductions in the cost of living to Canadian consumers is given by figures contained in the Trade and Navigation returns for the first three months of the present fiscal year, which have just been published.

Now let us get down to the figures. During the month of June alone we imported 1,145,000 pounds of butter from the United States valued at \$22,534; in the three months ended June we bought 2,320,000 pounds of butter from the States valued at \$45,172. Had reciprocity been in force, the Canadian consumer would have saved \$2,347.

Other vegetables, such as turnips, onions, cabbage, etc., were imported in the three months to a value of \$32,785. All these foods go on the free list and under reciprocity the people of Canada would not have had to pay the \$102,846.50 which they had to hand over before they could get these vegetables. If reciprocity had been in force, we would have saved the duty of \$1,744,446.

VOTE FOR ST. JOHN

The city of St. John has so much at stake in this campaign that only a very grave national crisis could overshadow it in the minds of St. John electors.

We are on the eve of the most extensive and far-reaching developments in the whole history of St. John. No man can let his mind dwell upon the work to be done at the head of the harbor by the C. P. R.; at West St. John by the C. P. R. and the federal government; and at Courtenay Bay by the government and the Grand Trunk Pacific, without realizing that all this means increase of trade, a larger population, and the coming of new industries to St. John.

What would be the attitude of a western city where such great public works were projected? There would not be a pessimist within a hundred miles of the place. The outside world would be told of the wonderful future, and every citizen would be hurrying for his home town.

Unfortunately, there are some persons in St. John who would rather see the city fenced in and closed up than to cast a Liberal vote. If there were enough of them, progress would be so slow that the next census would show a decline in population.

BORDEN AND BOURASSA

Mr. Borden has not repudiated Mr. Bourassa. The electors will do well to keep this fact in mind. Mr. Bourassa is opposed to a Canadian navy and to any participation by Canada in the defence of the Empire.

THE BENEFITS

Because of the efforts of the Conservatives to make the people believe the trade agreement with the United States is something entirely different from what it really is, the following statements are worth repeating:

It is a trade agreement and not a treaty, and can be terminated at any time. It provides for a free exchange of natural products. It lowers the duty a little on some food products, and on agricultural implements.

living, since the duty on raw food products is removed. It gives the producers two free outside markets instead of one.

It does not deprive us of the free British market, which remains open as before. It does not affect the British preference, which may be increased if found desirable.

It does not affect in any way the relations between Canada and the mother country. The members of the British government approve of the agreement.

It will make more friendly the relations between the Empire and the United States, which King George and all British statesmen so earnestly desire that they have just agreed to a sweeping treaty of arbitration.

It will give the maritime provinces a special opportunity for development, by giving a new impulse to their great natural industries and reviving the coasting trade.

It will not affect the east and west trade. Eastern manufacturers will go on enlarging their shipments to western markets, and western products will come east by the Canadian route for export.

It will benefit St. John, the maritime provinces and the whole Dominion; and in doing this it will strengthen the Empire.

THE FARMER'S PATIENCE

The farmers of New Brunswick have been patient long enough. Not only have they lost the free American market for their products, but they have seen the low tariff of pre-confederation days raised and raised, again and again.

Why have we a high tariff? Because the manufacturers were not content to "let well enough alone." The farmers saw their market restricted, and the cost of what they had to buy increased. They accepted the situation and paid the score.

Today they are offered their free market back again, but the protected interests cry out against it, and demand that they make a further sacrifice—although the manufacturers are not at all affected by the agreement.

There is a time when patience ceases to be a virtue. That time has arrived in the experience of the farmers, fishermen and lumbermen. They are perfectly well aware that their turn has come, and that the flag-waving is done for a sinister purpose. Their loyalty is not endangered, but they are offered a larger free market, and they will accept it.

Borden, Buncombe, Bourassa, et Cie.

Canada's need of revenue in the manufacturer's guarantee of tariff protection. St. John wants a revival of the coasting trade. It will come with reciprocity.

The flag-waving policy has petered out. It was too ridiculous.

When the spasm is over the lip-loyalists will be rather ashamed of their performance.

Three more working days, and then the battle. Liberals of St. John, it's up to you.

Picture Mr. W. Frank Hatheway humbly appealing to Finance Minister Foster for a crumb for dear old St. John.

The Conservative campaign has degenerated into one wild scream, with the Montreal Star in the lead.

If the American nation were essentially dishonest, why would King George desire a sweeping treaty of arbitration? Is the King also dishonest?

There is no such possibility, but imagine St. John's feelings if the Liberal candidates here were defeated, when the country at large is going so overwhelmingly Liberal.

The Liberals of St. John must put forth greater efforts than ever before to win by a large majority. The character of the campaign waged against them should put every man on his mettle.

The Conservatives do not seem to credit the Canadian people with even average intelligence, or they would go out of the bogy business and discuss the issue that is before the country.

The Standard will now perceive that there is nothing the matter with Mr. James Pender. He has submitted arguments in favor of reciprocity that cannot be refuted by the Standard or its candidates, or the "kindergarten politicians" who have amused Dr. Alward.

If the duty on American lumber sawed at St. John is not removed by reciprocity the mills will go to Maine, to save the duty. That means loss of wages, loss of population, loss of trade for the merchants and loss of taxes for the city. Can the city afford this loss?

Are the electors of St. John and the province of New Brunswick content with the last ten years' record in growth of population and production, and industrial development? Why has there been so little growth? Vote for reciprocity and give a stimulus to the great natural industries. Then the next ten years will show a very different result.

LOVE AND AGE Like the fair rose, Which on the summer breeze blows; Wooing June's happy hour, Until with fear, lest love grow cold; Both he from out the fleeting year To ne'er grow old.

OH! Householder—Do you guarantee that the meter registers the amount of gas we burn? Inspector—I'm not going to argue, sir. All I know is that it registers the amount of gas you've got to pay for.

FUTURE JOYS. Kid—Gee, but it must be nice to get whiskers 'n' not have to wash 'em face!

WANTED TO KNOW. Prospective Purchaser—(after a storm) How are you selling this land? By the foot or gallon?

OPINION. Stella—"What do you think of marrying Bells?" "It is like buying a fish instead of catching it."

TRAINING IN POLITENESS

"By indifference to the impoliteness of servants employers make life more difficult for themselves and for society—just as mothers do who fail to exact prompt and implicit obedience from their children. Recently in a certain club a call-boy, sent to find a member, rushed into the smoking room with a repeated and strident summons of 'Jones!' whereupon a gentleman drew him aside and softly prompted him with 'Mr. Jones, if you please.' This action was a service not only to the boy but to every member of the club. But how many 'house committees' consider these or a score of such delinquencies worth discipline? And where is the multitude of servants to learn their trade if no one exacts of them respect?"

The ruinous indulgence of children ought at least to be confined to the home circle and not carried into a world where age, intelligence and experience should have precedence and should form the standards. The reversal of values, so as to make the debutante the point of interest in a social season instead of the accomplished matron, is as though society should have forewarned its functions. This would be true even were the manners of the debutante all that they should be in deference, civility and fact. The experience of Washington, where society is fairly representative, goes to show that much is still to be desired in these respects in the general education of American girls.—Exchange.

See that Flexible, Adjustable GILLETTE Blade? As you slip the razor together and tighten up the handle, the guard curves the flat blade. The tighter you screw the handle, the closer the blade edge fits against the guard, and the lighter the shave. Loosen it a quarter turn and the edge springs away from the guard, giving a closer shave.

THIS WEDDING IS POSTPONED

Miss Deacon is Again In The Lime-light

GOSSIP OF GOTHAM

Society Women May be Sued for Milliner's Bills—Lonely in The Great City—What New York People Pay for Their Theatrical Amusements

(Times' Special Correspondence.) New York, Sept. 15.—Society here seem to be agreed that some evil genius is pursuing Gladys Deacon, the American beauty, whose wedding to Lieutenant Oliphant of the English army, has been indefinitely postponed on account of "sickness."

As this is the third or fourth time that she has been on Hymen's threshold, only to turn back at the last minute, her friends suspect there is something more than sickness behind the sudden abandonment of the plans for her wedding.

Miss Deacon, who is one of four famous sisters, who have all had more or less matrimonial trouble, is noted for her beauty and her conquests in every capital in Europe. Although she is intensely American, she was born in Paris and knows very little of her fatherland.

She had scarcely been launched in society when she was rumored that she was engaged to the Hon. Claude Lowther. Just when it was certain that her engagement could not be announced, the affair was suddenly broken off.

The Prince of Liechtenstein, a wealthy German nobleman, was the next favored, and the papers had set days for the announcement of the engagement, when he, too, disappeared. Lord Francis Hope, it was said, had all arranged when he was suddenly dismissed as the others had been.

Miss Deacon's next affair of the heart nearly caused international complications. The Crown Prince of Germany came to England and was a guest of the Marlboroughs at Blenheim, where Miss Deacon was also a guest. With the imperial prince it was apparently a case of love at first sight. A marriage ceremony was out of the question, and she could not possibly be Empress of Germany. So the crown prince went back and told his father that he wanted to give up his pretensions.

Her difficulties seemed to be all over a short time after the engagement, when the prince had forgotten Baron Armand de Charette, heir of one of the oldest houses in France, was her hand in a whirlwind wooing. He was twenty-seven, handsome and well-to-do. The engagement was announced and the wedding set when he played leading role in a dignified elopement with Miss Henning of Louisville.

Then came Lieutenant Oliphant. What is the hitch this time no one knows. The Man Milliner Unless prompt settlement is made, the receiver appointed the other day by the federal courts to take charge of the affairs of H. M. Tappé, a Fifth Avenue milliner, who failed a few weeks ago, alleging that he could not collect from his society and stage customers, is to bring suit against the debtors for recovery of the money due. Among the alleged debtors are many well known women, including Mrs. Aldford Astor, Mrs. W. Gould Brooks, Mrs. Clarence Payton, Mrs. A. P. Tiffany, Mrs. H. H. Seligman, Mrs. Charles Dana Gibson, Miss "Billie" Burke, Mrs. Patrick Campbell, Mrs. W. H. Brewster, Miss Carroll Harriman, Mrs. Leslie Carter and many others equally well known.

"Mr. Tappé was forced into voluntary bankruptcy because of his inability to collect the small amounts due him by society and stage customers," says the receiver.

"These amounts were comparatively trifles in comparison to the great wealth of those who owe Mr. Tappé money. The whole trouble appeared to be Mr. Tappé's neglect to press them for the money."

Lonely Amid Millions According to the officers of the Less Lonely League, New York is the loneliest city in the world. More strangers come here, it is said, every day and month than to any other city on the globe. For the purpose of bidding them welcome and cheering them along their way, the Less Lonely League was organized a year ago and has been doing excellent missionary work in its chosen field. A report that the league was evolving into a matrimony bureau, which had gained considerable currency within the last month, because of the number of marriages that have resulted from the social evenings given under the auspices of the organization, was vigorously denied the other day by Mrs. B. B. Taylor, the secretary.

"New York is the loneliest city in the world," Mrs. Taylor said. "It is such a tremendous place and there is no adequate social organization. Boys and girls come here year after year and disappear like drops in the ocean. Either they stick closely to their work and lead narrow, uneventful lives, or else, in a fever of disillusionment and despairing loneliness, they plunge into the vortex of vice. An eminent New York physician has declared that three-quarters of the sin and misery of all the nations in this city are caused by loneliness. Really it is a tremendous menace to the community. And there seems to be no sort of movement against it."

"The churches of this city do not offer much solace, at least in the way of sympathy of cases, and our league is supplying the need they neglect to furnish. All candidates must be able to give references as to character. There are always carefully investigated, for we wish

Interesting Facts Concerning Women

WHEN WOMEN VOTE

The Hon. John W. Lacey, of the Wyoming Supreme Court, says: "Our polling places are as quiet and respectable as any other place at which women are expected to congregate, and in the general election machinery the improvement over methods that would be in vogue in the absence of women is very marked."

The Hon. Samuel T. Corn, of the Wyoming Supreme Court, says: "I have never lived here fifteen years," said one of them, "all the while maintaining our allegiance to England, but when Washington offered the inducement of suffrage we decided to become American citizens."—London Votes for Women.

William L. Saunders, ex-Mayor of North Platte, who received the degree of doctor of science recently from the University of Pennsylvania, had the laugh on some of his old associates of the class of 1876, when he was back for their thirty-fifth anniversary celebration.

He said one of his classmates after congratulating him on getting his doctor's degree, "I hear that you believe in woman suffrage, not only that you believe in it but are president of the Men's League of New Jersey, organized to help the women get the vote. How did that happen?"

"Well, I can't say that I became a doctor of science today because I believe in the Men's League for Suffrage," replied Mr. Saunders, "but I am for suffrage because the same thing that led up to a degree in science. The method of science is to inquire into a thing and get at the facts. If you do this in the matter of suffrage you will also come to the scientific conclusion that woman should vote."

However, the old-timers of '76 were still inclined to say Saunders and one of them who had obtained a printed report of a speech on suffrage made by him at Plattefield last year, pulled it out of his pocket and began to read extracts at random, hoping thereby to cause some discomfiture for the doctor of science. That was where the laugh came in on this particular group of alumni of '76. The reading was begun, and within a few minutes there were comments of approval and the reader was told to go on.

The subject was that of the seven classes who had started in to give "Bills" on suffrage, four admitted that they had been convinced that women should have the ballot and the other three said that there might be something in it.

PSYCHOLOGY OF THE COURTSHIP

"We speak of man as the wooer," says a recent writer on woman, "but the wooer is really mediated by the woman. By dress, behavior, coquetry, modesty, reserve, and occasional jobbers she catches the attention of man and attracts him."

Consider the precise moment when the girl suddenly begins to blush. It is known by instinct that she is being watched long if she blushes, so the girl's first intention is to give the day. It may be that there is an enigma.

One can blow off up to avoid a day, without causing the girl to blush. Disturbances, or the least blotch. This can be done in a moment. The girl's eyes as well as recent ones. A fine grace can be saved or a true one can be saved. Simply send several cents to the National Co. FABLES IN SLANG

Series of 1911 --- BY GEORGE ADE.

THE 1911 FABLE OF THE COLLISION BETWEEN STEVE AND THE SUMPTUARY LEGISLATION

(Copyright, 1911, by George Ade) Once in the dim dead days beyond Recall, before any one invented a Soldier that would hold down a Lid, there lived a blessed Gazook named Steve.

"We refer to the July Period preceding the Uplift, when Gov. Hughes was still in a Prep School and the Candidate wearing the largest collar was the People's Choice for Alderman.

The State Senator with a noble Constancy of Guineas, Woppe and Kimphe-ness in a Hop Joint below a Honka-look in the rear and a Copy Game up stairs. A Cop stood outside to beat up any one who made a Heller.

A Good Citizen wishing to open a Murder Parlor needed a couple of Black Bells, a Barrel of Sawdust and a Pull at the City Hall.

When he opened up, he threw the Key in the River and arranged to have the Books taken out through the Alley so as not to impede traffic in the Main Thoroughfare. All of which came under the Head of Personal Liberty.

Twelve months every year marked the Open Season for every Game from Pitch-Base to Man-of-War. A few Evenings after that he sauntered up to a large Frame Building to look at a couple of Boys who had promised to make 133 Rings.

A Cannon was planted at the Main Gate and the Street was filled with Department. Store Employees disguised as Soldiers.

The Governor had called out the Militia in order to prevent a Riot being put upon the Fair Name of the Commonwealth.

With the Selling-Platters turned out to Pasture, the Brace-Box and the Pitch Wheel lying in the Basement at Central Station, the Pugs going back to the Foundry and all the Street Lamps being taken in at Midnight, no wonder Steve was hard pushed to find Innocent Amusement.

He started to hang around a Broker's Office, but it was no fun to bet on a Turn-Up when you couldn't watch the Shuffle. Besides, the Game was Gold and was being fiercely denounced by the Press.

For a Time he kept warm in a Bowling Alley. Drive a Man into a Corner and send him to Desperation and he will go so far as to bet. Provided he lives in a German Neighborhood.

One Evening he went down to see the Walhalla go against the Schwabens but the Place was Dark.

Armchair Reflections

BY H. L. SPENCER

They are silent, the musical voices of the children of the fifties, and their happy faces are no more seen on the streets; they have gone away, the friends and chance acquaintances of those days—those yesterday—and are, by the many, well-nigh or quite forgotten.

Here is a note from Annie—"Mother and I are going up river tomorrow; will you join us?" And here is another from Tom: "Lend me fifty for a week." Anne is where she signs no more for company, and a "fifty" would be of no use to Tom, according to the general impression, in his present abode. Gone away! They have dropped like the leaves—like the apples that the farmer neglects to gather when they ripen, and many, alas, have withered as leaves and flowers sometimes do—touched by an untimely frost. Where is Little Ethel and Little Mary, and Little Florence? Where is Little George and Little Ralph and Little Edward? I don't know, but I do know that the "fifty" at various periods of trials and tribulations.

Mrs. Hemans, seventy or eighty years ago one of the most admired of English poets, but now well-nigh forgotten, wrote, as she watched the falling leaves, as they are now falling—

"Leaves have their time to fall, And flowers to wither at the North Pole's breath, And stars to set—but all— 'Tis that all seasons for thine own, oh Death!"

Very beautiful, but leaves fall at all seasons, even when just emerging from the bud; flowers wither, even in the spring sunshine, and stars have gone away, like "leaves that pass in the night," at various periods, never to return.

Nothing that lives, or exists, has a secure abiding place. The air is full of arrows from the bow of a blind archer; they pierce the young and the old, the strong and the weak; they strip the trees of their leaves, prostrate the forests, disintegrate the rocks, and eventually may transform this poor, old, dingy world into an unrecognizable paradise.

If ladies could know and appreciate what a delightful hair dressing Newbro's Herculide is, they would all have it on their dressing table. It is the most exquisite toilet article ever used and at the same time one of the most essential.

In order to get the beautiful hair every lady should use Newbro's Herculide for her hair. It is the only hair dressing that dandruff and the scalp is kept clean and the hair is falling.

Herculide is a hair dressing, does not stain or discolor, and has an exceedingly delicate and pleasing odor. Newbro's Herculide is just the sort of preparation that always appeals to a lady of refinement and cultured taste. There is nothing that can take its place. It is not just like it, nearly like it or "just as good."

MARRY IN MONTREAL

Budget of Dominion News of Interest From London—Our Soldiers For Empire—Shipments of Peaches—Canada Booming in The Motherland

(Times Special Correspondence.) London, Sept. 5.—Further details than have appeared in Canada are now available regarding the two new "Empress" steamships being built on the Clyde by the Fairfield Company. They will not only be larger but in other respects different from the Empress of Ireland and Empress of Britain.

They are to have what are called "cruiser sterns," wherein the underbody will be cut away as in the case of a fast warship, while the rudder will be of the new type hitherto associated in the merchant service with only a few channel steamers, as, for instance, with the turbine steamer Dieppe, which the Fairfield Company built in 1903 for the Newfoundland service of the London, Brighton & South Coast Company.

The peculiarity consists mainly in the fact that the rudder is hung from one point at the top, and is not supported below in any way, in this respect differing from the balanced rudder usually associated with warships. It will, in fact, be like a large spade hung by the shaft. Neither the cruiser stern nor the "spade" rudder has ever been adopted before, in vessels so large as the new Canadian Pacific Railway boats.

Marry in Montreal The marriage of Charles Wilburham of Satterwell, Ironpoetry, Chemist, and Eleanor Mary Dorothea, daughter of Sir Charles and Hon. Lady Crawford, Asenbank House, Ayrshire, will take place at St. George's church, Montreal, on Friday, September 22. The bride will be accompanied by her parents and two sisters, Miss Alice Crawford and Miss Elizabeth Crawford. Her husband, Mr. Wilburham, who with her husband, Mr. Walton-Wilson of Stanley Hill, Northumberland, will go to British Columbia for the marriage of Sir Charles and Lady Crawford's third son Alexander, with Miss Alice Little in October.

Mr. Gulland, M. P., the Scotch whip and Mr. Middleton, M. P., are among the recent departures for Canada which would have had a stronger contingent of visiting M. P.'s had there not been autumn sessions to limit their travels. Members of the House of Lords are, however, making up for their deficiencies as expellers of and in many cases investors in the Dominion.

British Money for Canada Speaking of his own experience in Canadian undertakings, a well-known Canadian company promoter said this week: "One finds a favorable predisposition on the part of capitalists here which makes them keen to look into such investments as may be offered, and the well-known experience of some of our fellow investors causes this examination to be very critical and searching. On the other hand the definite knowledge that some Canadian investments have been both safe and remunerative causes money to flow freely into Canadian channels, once confidence is established."

There are in England as in Canada "professional directors" some with titles who "when properly approached" will lend their names to flotillas, but I must say that in my observation this class of man is a serious drawback. There are a large number of Canadian securities being offered here now in the smaller way and with ordinary amounts. Canadian bonds and mortgages are in great favor. Investment is sought in lands for farming purposes by those going to Canada and those who seek small secure investments with both of reasonable reward. The growing railway towns of the west and the opportunities in British Columbia are attracting great attention.

"I find a vast difference between the Englishman who has traveled and him who has remained at home. The former is always interested in a good Canadian investment. Personally I have found men here prominent in the political, social and financial life to be ready investors."

Our Soldiers for Canada In military circles the increase in the number of Canadian appointments to the Imperial Army is welcomed. "Canadians," said an officer to the writer, "are so eager to make the most of their time here and anxious to learn the science of their profession that they receive a ready welcome."

The Royal Military College at Kingston has a great reputation on this side for turning out good men. The Official Gazette announces the following promotions of gentlemen cadets from that institution: A. B. Van Straelen, to be second lieutenant; Royal Artillery; G. G. Mackenzie, second lieutenant; Royal Scots; Pauline, H. J. McLennan, second lieutenant, Army Service Corps; H. E. Silver, second lieutenant, with a view to his appointment to the Indian Army.

At the fortnightly meeting of the Royal Agricultural Society the Canadian huckleberry was the subject of a lecture and was spoken of as a close relation to the English huckleberry. I hear that British Columbia fruit will again be in great display at the society's December meeting. We are now waiting for scientific evidence. Speaking of the importation of this fruit from Canada this year a Covent Garden merchant says:

"The experimental shipments made by the Ontario government were instrumental in drawing the attention of the English buyer to this fruit. This year we are having (Continued on page 10, fifth column).

THE "LOYALTY" OF MR. HAZEN THE "LOYALTY" OF MR. FLEMING

How do the electors of New Brunswick like Premier Hazen's idea, and J. K. Fleming's idea, of using the money and credit of this Province to finance a Railroad across the State of Maine?

After all their talk about loyalty, Mr. Hazen and Mr. Fleming, who tell the farmer that it is disloyal to sell a barrel of potatoes in the Boston market, have tried to divert the Valley Railroad across the State of Maine, thereby building up the northern part of that state and affording an outlet for the very products which Mr. Hazen and Mr. Fleming say would flood this market.

In a letter of Provincial-Secretary Fleming to Hon. Mr. Pugsley, dated at Hartland, May 25, 1911, Mr. Fleming wrote:

"We have secured the co-operation of a company. We have arrangements made whereby they will be able to construct a first-class line of railway from Saint John to the international boundary in the Parish of Andover. They have also made arrangements whereby they are financially in a position to begin construction immediately of the line both in New Brunswick AND ACROSS THE STATE OF MAINE."

What do the farmers of New Brunswick think of such loyalty as this?

The Valley Railroad plan advocated and brought about by Hon. Mr. Pugsley, Col. McLean, F. B. Carvell, and other Liberals, is for a first-class road from St. John to Grand Falls, connecting with the Grand Trunk Pacific there, a first-class road for the use of Canadians, EVERY MILE OF IT ON CANADIAN SOIL. JUST COMPARE THAT WITH MR. FLEMING'S MAINE SCHEME.

A Positive Cure For Rheumatism

For many years, both during Father Morrissey's lifetime and since he passed away, his No. 7 Tablets have been curing many of the worst cases of rheumatism in Eastern Canada.

During his lifetime it became the custom, when people could not get relief from other sources, to consult Father Morrissey, and few indeed did so in vain. His standard prescription came to be called

Father Morrissey's No. 7 Tablets

and it can now be procured from any druggist or dealer in medicine.

No. 7 Tablets act directly on the blood, purifying them so that they can remove from the blood the uric acid, which alone causes the rheumatism. Two or three weeks' treatment cures ordinary cases, while with the worst chronic cases it takes more than three or four boxes of No. 7 Tablets to thoroughly eradicate the rheumatism from the system.

In every case, right from the start, the sufferer gets relief from the torturing pains and aches.

We would be glad to refer you to one-time rheumatism, now well through taking Father Morrissey's No. 7 Tablets.

Our men are finely courteous to our women, but there are no foolish gallantries, only an increasing mutual pleasure in congenial company.

Some Theatre Figures

Henry B. Harris, a producing manager of New York, has compiled some interesting statistics, dealing with theatres. He says that 129,466 people nightly visit the theatres in New York, given over to the presentation of first-class plays. The total receipts of the theatres located on the island of Manhattan last year, were a few dollars in excess of \$24,000,000. The amount of money invested in the theatres on the island of Manhattan is in excess of \$17,000,000 exclusive of the values, the assessed valuation of which is more than \$30,000,000. The stage apparatus, seats, carpets, draperies, etc., cost more than \$4,000,000.

The approximate value of the theatres scattered throughout the United States is in excess of a half billion dollars. The amount of money invested yearly in the City of New York in the production of plays reaches the huge sum of \$5,000,000. The inhabitants of the United States spend per capita for theatrical amusement, \$2.20 a year. The railroads receive for transporting theatrical companies from one city to another \$175,000 a week, during an average theatrical season of thirty weeks. The printing houses receive for lithographs and other billboard printing, \$80,000 a week. The amount of money spent in advertising theatrical plays and stars in the newspapers of the United States has been estimated at \$18,000 a day.

The highest salary paid a star is \$2,500 a week, and fifty per cent. of the profits, and this same star received as her share of the profits \$250,000 for a season of thirty-eight weeks. The average salary of actors, exclusive of supernumeraries, is \$25.00. Seventy-five per cent. of the profession receive less than \$30 a week. The best salary paid leading women, exclusive of stars, is \$400 a week, and the average rental is \$1,000 a week each, based on a season of forty-two weeks.

Morgan and the Mosquitoes

Unabashed by the attacks made upon him by the muckrakers and by his enemies in the financial world, Morgan the other night fled in dismay before an army of pesky mosquitoes. His yacht, the Corsair, he brought up the night in the Hudson River off Riverside Drive. The financier had invited a number of prominent Wall street men for a conference on board, and after dinner the little group adjourned to the main deck to talk over the plans they had been invited to consider.

Suddenly from off the port side of the boat came a hissing, buzzing sound that grew in volume as the members of the party puffed away on their black cigars. Morgan looked at his companions, and they at him, as if divining trouble and wondering how they were prepared to handle it. In a few seconds the accents of the advancing cavalcade rode up and lit on the noses and ears of the financiers. Mr. Morgan has an extra sized nasal organ and it seemed to become an especial mark for the sappers of the raiding force. Unable to stand the bombardment the owner of the yacht beckoned to his guests to follow him and beat a hasty retreat below decks. Once inside, the captain was ordered to raise his anchor and flee up the river. Twenty miles up stream, opposite Andover, the great craft came to a halt and stopped for the night. There the conference was resumed without interference from the mosquitoes.

Wonderful Wealth of G. M.

Probably to no one more than the relatives of the late Mrs. Charles T. Yerkes, was the return of Miss Emily Gresley from London, a few days ago, of greater interest. What interested them most was not the fact that the ward of the late London and Chicago railroad magnate had given up her home in the British capital and rejoined her family on this side of the water, but the fact that for the first time since the death of Mr. Yerkes, she confessed to the wealth of jewels he had bestowed upon her in his life time.

country, so far as the customs house records show, ever brought into this port \$800,000 worth of precious stones at a single time. This was four times more than Mrs. Yerkes, the beautiful wife of the multimillionaire, ever owned and probably a good many times more than she ever expected that her husband had ever given to his ward.

There was never any love lost between the two women. To preserve the domestic amenities the railroad men made it a point never to exchange confidence between them. Thus he kept the ship of state on an even keel.

Ever since the death of Mr. Yerkes, Miss Briggs has spent practically all of her time abroad, and some time since was reported she intended to make her home for good in London. Her sudden change of mind naturally has given rise to much speculation and many explanations, which, however plausible, do not seem to meet the question concerning the repudiation of her standing at the British Court.

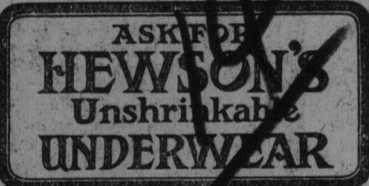

DOCTORS HAD GIVEN UP ALL HOPE

"Fruit-a-tives" Saved My Life

"Riviere A Pierre, Q., May 9, 1910. 'I look upon my recovery as nothing short of a miracle. I was for eleven years constantly suffering from Chronic Dyspepsia and Indigestion. I was treated by several doctors and they simply did me no good. During the latter part of my illness it was so thin that I weighed only 90 pounds, and I vomited everything I ate. 'The doctors gave me up to die as the stomach trouble produced by weakness and I was frequently unconscious. I received the Last Rites of the Church. 'At this time a lady, a friend of mine, advised me to try 'Fruit-a-tives'. Then I had taken one box, I was much better, and after three boxes, I was practically well again, and had gained 20 pounds. I have taken 13 boxes in all and now weigh 130 pounds and am well. 'Madame ARTHUR TURANGEAU. A CURE FOR WEAK MEN

Every man who is weak and "going back" knows that there ought to be something that will restore that old "steam" to his physical body. He has tried the usual drug method and found that a fizzle, and yet he knows there must be something.

I know it, too, and I've got it. It's Electricity. You can't name anything more likely to have that force which a weak man lacks. It's a natural power. I can pump it into a weak man while he sleeps, and make him feel like a Godwin in no time. It's the force of life.

I HAVE AN ELECTRIC BELT THAT DOES CURE, and am offering it to you in such a way that you take no chances whatever. You use your name and address, with a statement of your case, and I will send you a Belt suitable for your case, and

WHEN YOU ARE CURED PAY ME. Feels Better Than He Has For Years. Dear Sir, I am pleased to say that I have not felt any return of my ailments and have not felt better for some years than I have done this summer, for which I thank you for your Electric Belt. Yours truly, ROBERT COMBE.

PERSONAL AND SOCIAL NEWS OF THE WEEK IN ST. JOHN

Cool weather has hastened the return of those who lingered in the country and soon the streets will be filled with familiar friends, all bent on making ready for the winter social campaign. This year the season will open with a number of weddings of special interest, owing to the prominence and popularity of the participants in these events. None of these functions will be large, only in one instance, the family connections of bride and groom being so numerous that it was necessary to have a large assemblage to witness the ceremony.

At St. Paul's church, Regina, Sept. 6, the wedding of Miss Frances Emma Tinning, daughter of Mrs. R. J. Tinning, and Mr. Stanley Lorimer Emerson, of this city, took place. The ceremony was performed by the Rev. Mr. Allison, of Chad's. The bride, who was given away by her brother-in-law, Mr. Allen Wetmore, wore a beautiful gown of white satin with overdraped heavy silver lace with white fringe and pearl trimmings. She carried a bouquet of pink and white carnations. A cousin, Miss Jean Coleman, in pale mouseline de soie, acted as flower girl. She carried a basket of sweet peas. After the ceremony the happy couple left on a honeymoon trip to Montreal and other Canadian cities to return by way of New York. They will reside at Cedar street.

At the church of the Messiah, Toronto, on Tuesday afternoon, the marriage was solemnized of Miss Amelia Kilham, only daughter of Mrs. William Black, and Gottfried H. Crona, of Amsterdam, Holland. The bride was given away in ivory duchess satin with garnitures of Brussels lace and pearls, wearing the conventional veil of white tulle. She carried a bouquet of pink roses and lilies of the valley. Mr. and Mrs. Letourgey went abroad for their honeymoon trip, and will remain for six months. The groom's gift to the bride was a low knot of diamonds and whole pearls in platinum settings.

READY TO SIGN CONTRACT WHENEVER THE PROVINCIAL GOVERNMENT IS HEARD FROM

Hon. William Pugsley So Notifies A. R. Gould, Who Announces That He Has Made Financial Arrangements for Building Valley Railway from Grand Falls to St. John—Waiting Now for Hazen and His Colleagues to Act.

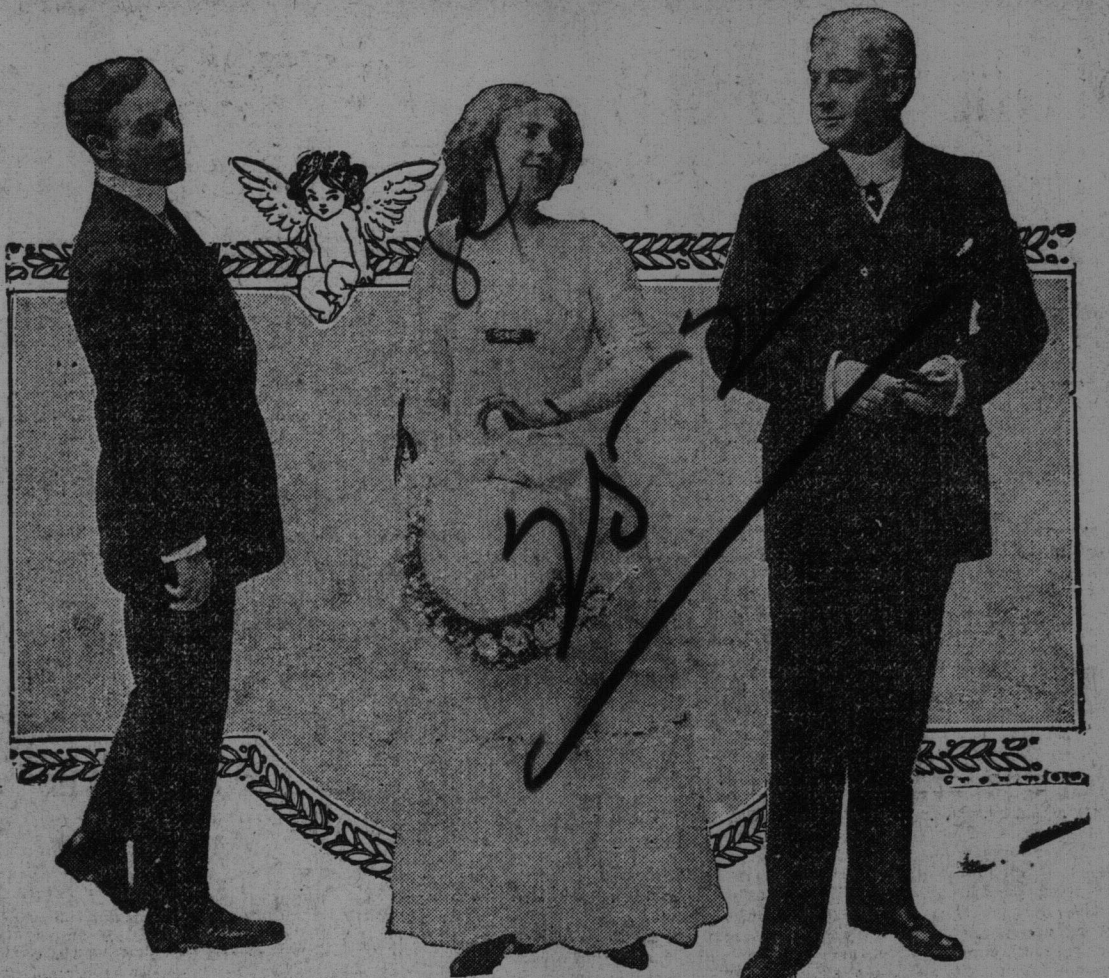

Hon. Mr. Pugsley when asked yesterday if there were any further developments in regard to the St. John Valley Railway produced the following letters, as the latest correspondence on the subject, and which he thought should be given to the public as there is such a deep interest taken in the Valley Road project: Presque Isle, Me., Sept. 6th, 1911.

St. John, N. B., Sept. 14, 1911. Dear Mr. Gould—I am in receipt of your letter and am very glad to learn that you have made the necessary financial arrangements for building the Valley Railway from St. John to Grand Falls. I have not heard from the Provincial Government since we met in Ottawa, but whenever they are ready to execute the contract I am prepared to ask the Minister of Railways to sign the contract with your company for the Dominion subsidy.

VOTE FOR ST. JOHN

The projected development of St. John harbor means work, wages, more business and more people. Vote for Pugsley and Lowell.

THIS IS AN ANSWER TO DR. DANIEL; WHAT MR. LOWELL HAS ALREADY DONE FOR ST. JOHN

Some of the Conservative party campaigners have been seeking to make capital against James Lowell, the Liberal candidate in the city and county by asking what has he done for St. John. Though no responsibility for the interests of St. John city has rested upon Mr. Lowell in his public life up to the present, it has been already shown to his credit that to him is due the getting of the street railway service in Carleton and that, too, at the five cent rate.

The following letter from J. B. M. Baxter is a pointed and effective answer to the canvas referred to—

COPIED FROM SUN FEBRUARY 19, 1908
St. John, N. B., March 20th, 1906

Dear Lowell:—
I am very glad to know that you got the Street Railway matter closed up to your satisfaction. I was just a little afraid that our getting a settlement in the city might hamper you and after what you had done for the City it would not have been fair to have lost any part of what you had worked so hard for. I am satisfied now that you knew what you were doing when you told us to go ahead and you would get your end of it all right. Your \$850 a year is a big contrast to the sum that the City gets for looking after its streets and it just shows what a live man can do when he makes up his mind what he wants and has got enough force of character to keep at it until he gets it. The city owes you a debt of gratitude which I hope the citizens will appreciate. Hoping to see you when you come down and talk it all over, I remain,
Yours sincerely,
John B. M. Baxter.

PRIZES FOR THE DOG SHOW

A large number of prizes for the coming dog show will be on exhibition this evening in the window of Edgecombe & Chaisson, King street, where interested persons may see them. Several other prizes in the shape of cups and medals presented by upper Canadian clubs have not yet arrived, but will be here shortly.

The two judges arrive in Saint John on Tuesday morning, 29th inst., and will remain for the day. Mr. J. Y. McLennan, secretary of the West will judge Saint Bernards, Great Danes, English, Irish, and Gordon setters, Cocker Spaniels, Field spaniels, Dalmatians, Wolfhounds, and mastiffs, while Mr. Mason takes all other classes. The fact that Mr. Mason is considered America's greatest expert on pointers will no doubt be pleasing news to fanciers of this breed, as his opinion will be worth much to them.

Entries for the show will close positively on Tuesday 4th inst., and all who have not yet entered their dogs should do so at once. For entry blanks, etc., apply to J. Y. McLennan, secretary office, or to T. McCullough, 82 British street.

YEARS FARMER IN MAINE, NOW ST. JOHN CITIZEN, STRONG FOR RECIPROCITY

E. M. Smith of Burpee Avenue Gives New Brunswick Farmers and People in General Convincing Reasons For Voting Liberal Next Thursday

After successfully conducting a large farming business in Maine for more than forty years, in which he prospered and met with substantial encouragement, E. M. Smith is now a citizen of St. John, living in Burpee avenue, and does not hesitate to state openly that he will cast his vote on Thursday for the ratification of the reciprocity agreement. He also expresses the opinion that if it carries, and he thinks it undoubtedly will, it will be one of the greatest blessings ever bestowed on the people of Canada. His convictions should carry weight in view of the fact that he knows the value of the larger markets to the south, and because it was in his dealings there that he attained that measure of success which enabled him to retire from active farming and seek less exciting and more comfortable life.

"While I say that I am going to vote for reciprocity," Mr. Smith said to a Times reporter yesterday, "I may explain that if I had the chance to do so on the other side of the boundary, I would oppose it as strongly as I could. I know that the markets in the states are what the Canadian farmer, if he is alive and awake to his interests, is striving for, and his competition must be feared by the farmers throughout New England. Of course, I have been away for a few years from

Clothing for the Rumping Boy

What sort ought it to be?
It ought not to be skimpy, narrow chested, too tight—would you cramp your boy's muscles or his lungs?
It ought not to be made of flimsy, cheap Cotton or Cotton-mixed material; or carelessly made or sewed—a paper Suit would do as well—it would keep him warm.
Yet this sort of Clothing is common.
A growing, healthy, full-blooded boy needs strong, well-made Clothes. He needs full play for his arms and legs; he doesn't want to be afraid every minute that something is going to give away.
For years we have upheld the standard in both our Men's and Boys' Clothing with the result that ours is the largest Clothing business in Eastern Canada today.
The full stock is ready. Business is bounding ahead as never before—and every mother's son can be well fitted out—as in expensively or as magnificently as you choose.
