THE FREE STATE TROOPS PROGRESS

Two More Rebel Strongholds Are Captured.

New Campaign of Terror Declared by Irregulars—Priest Shot on Church Steps by Deaf Mute.

(Canadian Press Cable.)

Dublin, Aug. 21.—National army forces have captured Bandon and Dunmanway, two of the few remaining rebel strongholds in South Ireland, and the irregulars are hastily retreating.

The advice said to have been given by Eamonn De Valera to the irregulars, that they were free to return to their homes when they thought fit, seems to have had its effect, as many have already resumed civil life.

Belfast, Aug. 21.—The drive in the mountains north of Dundalk is being steadily pushed by a large force of Nationalists operating from several directions. There has been heavy firing at different points, but no serious engagements have yet been reported.

Residents of the Ravensdale district, which is near the reported site of a big Republican munitions dump, have been warned to keep their windows open and remove valuable pictures from the walls, as an explosion is feared.

Dublin, Aug. 21.—An attack by Irish irregulars last Friday on the automobile generally used by Michael Collins, head of the provisional government, and commander of Free State forces, was reported in an official communication issued yesterday.

Dublin Almost Deserted. Dublin, Aug. 21.—The notice of the government garrison of Dublin to keep indoors Saturday night generally was obeyed. Very few persons ventured out, and the theatres and moving picture shows were almost deserted.

The expected attack by the irregulars did not materialize and except for the usual sniping the night passed quietly. Shortly after noon a machine gun and revolver fire was heard. It was stated that snipers were at work and that the National troops replied with machine guns and rifles. The fusillade continued for some time.

New Terror Campaign. London, Aug. 21.—A Press Association despatch from Dublin says there is ample evidence that the irregulars who admittedly have been defeated in the field, are planning a new campaign of terrorism and destruction. The insurgents tactics are undergoing a change which has become more and more apparent since their rout from Cork.

It is not their intention to hold on to areas as an organized force and invite conflicts at close quarters with the Free State forces, but to strike swiftly and inflict the maximum amount of harm to all men of questioning loyalty. The irregulars are said to be undergoing organization into flying columns, composed of about thirty to forty men, and divided into squads of five, to carry out the new tactics.

Guerrilla Warfare. The irregulars intend to conduct guerrilla warfare by the same methods as when war was waged against the English, in these words the irregulars command has notified the rank and file. At the same time strict orders have been issued against "indisciplined looting."

The burning of houses, courts, houses and work houses and the destruction of railways and bridges will continue and is authorized by the leaders. Dundalk, Aug. 21.—As he was locking up the little St. Patrick's mission church at Protton, a few miles from the town, Saturday night, Rev. Father Cleary, of Dundalk, was shot and wounded by Thos. Cogris, a deaf mute, who it is stated had previously threatened him.

Immediately after the shooting Cogris fled into the bush, and a search is being made for him by the police.

BLACK HAND SAID TO BE RESPONSIBLE

Explosion Wrecks House in Rochester—Firemen Unable to Locate Occupants.

Rochester, N. Y., Aug. 21.—A two storey brick dwelling on Pennsylvania avenue here, is now a heap of smoking ruins, following a terrific explosion early today. Adjoining structures were wrecked by the blast. Flames, which shot thirty feet into the air, completed the work left undone by the explosion. Debris was scattered about the street for a distance of 100 feet.

Firemen could not find the occupants, despite the fact that the place was said to have been occupied by a number of families. Police believe the explosion due to a blackhand gang.

MORE TEXTILE WORKERS RETURN

Warr, Mass., Aug. 21.—About 200 employees of the Otis Company's textile mills went to work today when the mills were re-opened after being closed since March 8 because of a strike. The normal number of workers is about 1,700. They went back under the arrangement in force prior to the walk-out.

Expect All the Pumpmen Back on Job by Tonight

All Quiet in Sydney Strike Area During The Night.

Picketing Activities Interfered With by Heavy Rain—London, Ont., Troops Being Held at Disposal of Town Authorities.

(By Canadian Press Staff Correspondent.)

Sydney, N. S., Aug. 21.—Although practically all the maintenance men in Cape Breton South went back to work at the power house, pumps and fans, on Saturday and Sunday, full maintenance operations have not yet been resumed at several places, including the main power house at No. 2, New Aberdeen, where the military garrison is stationed.

The reason for this is that it has required some time to get things working after the almost complete shutdown of the last six days. It is expected, however, that full steam will be available at No. 2 and other centres this afternoon, when the work of pumping out the pits can be vigorously prosecuted.

Through some error in transmission of orders from U. M. W. headquarters the Sydney mines maintenance men were notified of the decision to return to work pending a conference with the company, and the pumpmen there were still out this morning.

It is reported, however, that they will be back on the job this afternoon or tonight at the latest. The situation at Sydney Mines is not so serious, because the strikers have not interfered with the officials pumping the mines.

A heavy downpour of rain all day Sunday put an end to all but perfunctory picketing activities, and as a result did not indicate whether Mr. Collins was in the machine at the time of the attack.

Dublin Almost Deserted. Dublin, Aug. 21.—The notice of the government garrison of Dublin to keep indoors Saturday night generally was obeyed. Very few persons ventured out, and the theatres and moving picture shows were almost deserted.

THE TURCO-GREEK PROBLEM TO BE CONSIDERED SOON

Paris, Aug. 21.—The allied conference on the Turco-Greek problem probably will be held in some Italian city within the next six weeks as the result of a note from the British government received at the French foreign office today.

The note is in response to a French communication of Aug. 9, suggesting a conference of the allies in which Turkish and Greek representatives would be admitted on an equal basis.

TARIFF BILL TO CONFERENCE TODAY

Washington, Aug. 21.—Republican leaders in the House planned to send the tariff bill conference today under a special rule when the measure was received from the senate, thirteen months after the former body first acted upon it.

The task of composing the 2,000 odd differences between the senate and house will be begun this week by the conference committee. The position of the senate on the valuation question may be decided by a direct vote of that body with the general expectation that it will accept the so-called flexible tariff provisions instead of the American valuation provisions which it previously adopted.

ARGUES FOR FULL ENFRANCHISEMENT OF ALL HINDUS IN CANADA

Victoria, B. C., Aug. 21.—(Canadian Press)—Hindus in British Columbia ought to be fully enfranchised, the Right Hon. Srinashi Sastri and his secretary, here from India as the representatives of the Indian government, told Premier Oliver and cabinet members Saturday.

MINE WORKERS SUPPORT LOAN TO RUSSIANS

Montreal, Aug. 21.—(Canadian Press)—The mine workers of Nova Scotia are moving in the Trades and Labor Congress for support for the proposal of a Canadian government loan of fifteen million dollars to Russia. A resolution has been forwarded from District 26, U. M. W. A., to that effect and endorsed by West Toronto Brotherhood of Railway Carmen.

SURVIVORS TELL TALES OF HEROISM

Crew of H. M. S. Raleigh Arrive in Liverpool.

London, Aug. 21.—Thrilling tales are told by the survivors of H. M. S. Raleigh, who arrived at Liverpool on Saturday. The light cruiser went ashore at Heath Point, in the Straits of Belle Isle, in a thick fog, and the crew was saved only by the heroism of a boat's crew commanded by Lieut. Hopper.

The weather was so thick it was impossible to see across the wreck, and the Raleigh was slowed down to eight knots to avoid an iceberg. She veered to starboard and struck the rocks immediately. Discipline was well maintained, and the crew mustered to their boats, but it seemed useless to lower them in the swirling water alongside. The ship was settling fast and canvas rafts were launched.

It was absolutely necessary to establish connection with the shore, and volunteers were called for. Lieut. Hopper and a number of blue-jackets responded and managed to get away in a lifeboat. They pulled to the rocks and just as Hopper leaped ashore with a line the boat capsized and every one of the gallant crew was swept away. Hopper kept hold of the line and succeeded in reaching the shore.

The crew had a hard time on the bleak Labrador coast before they were taken off. Some were very thinly clad, and the rain was driving in from the barren rocks. Some hard biscuits had been brought ashore, and fishermen from the nearest settlement gave them what fish and clothes they could spare.

Bodies Buried. The bodies of only three of the lifeboats' crew were recovered. They were wrapped in a Union Jack and buried on the beach.

The sailors landing Saturday were very pessimistic about the chances of salvaging the Raleigh, but it was said a party of 150, under captain Bromley, was starting by to do what it could.

The anti-submarine "blisters," it is suggested, saved the cruiser from complete and immediate destruction. They took the full force of the crash on the rocks, thus acting as buffers for the true hull.

MURDERED ON HIS VERANDAH

Thorold Man Fatally Shot And Brother Badly Wounded—Murderers Unknown.

St. Catharines, Ont., Aug. 21.—Adam Solton was shot to death on a verandah of his house on Patricia street, Thorold, late last night, and his brother, Tom, is in the hospital badly wounded. The police have been unable to attach responsibility for the murder, but so far as can be learned the Solton brothers were conversing on the verandah when three men, at present unknown, stopped and engaged in an argument which had only lasted a few minutes when several shots were fired.

TWO DROWNED IN NEWFOUNDLAND

St. John's, Nfld., Aug. 21.—Thomas Anderson, principal of the Presbyterian College this city, and Percy Southgate, also of St. John's, were victims in a double drowning in Conception Bay, Saturday afternoon when a small catboat in which they were sailing capsized.

New England—Fair and continued cooler tonight. Tuesday increased cloudiness and warmer; fresh northwesterly winds, becoming variable.

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbosom, "our civilization is wearing itself out—ain't it? There is nothing but strikes and social upheavals and crimes and unrest everywhere. What do you make of it all—the beginning of the end—ain't it?"

"It shows in the first place," said Hiram, "that people are alive—'an' where the life the's hope—yes, sir. It ain't a bad rule to reason out from what you know to what you don't know. 'I would,' said Hiram, 'I'd say that—yes, sir.'"

OUR "RAINMAKER" NOW IN ITALY

C. M. Hatfield Anxious to Explain to Pope His Secret Progress.

London, Aug. 21.—A "rainmaker" who claims to have brought relief to drought sufferers in Canada, and the U. S., has arrived at Naples, having been invited by the Italian government to try to bring rain to that vicinity, parched by a five months drought, says a Central News despatch from Naples today.

The "rainmaker" Charles M. Hatfield, who arrived at Naples today, was anxious to explain his secret process to Pope Pius, and if the pontiff agreed he would try to induce rain to fall on the Vatican gardens, which for some time have been withered by the drought.

2 AVIATORS ARE BURNED TO DEATH

London, Aug. 21.—Lieutenants Llard and Duncan were burned to death when their airplane crashed to the ground in flames at Darlino, British India, yesterday.

The accident occurred when the aviators were attempting to land on a field of reeds, which had been recently flooded by the monsoon, says the despatch.

POSTPONES HIS SEAPLANE FLIGHT

Halifax, N. S., Aug. 21.—Major A. B. Sheerz was unable to make a start again this morning in the seaplane with which he proposes to make an air flight to Roberval, Que., owing to weather conditions. He said this morning that while he might get away this afternoon it was most unlikely as he wished to make the flight in a single day.

EVERY GERMAN WILL BE HELD

Premier Poincare Says France Knows How to Make Germany Pay for Damage Done.

Thiaiscourt, France, Aug. 21.—France knows how to make Germany pay for the destruction she caused during the war, and every German will be held to strict accountability for the repair of this damage, Premier Poincare told the assembled population of Thiaiscourt, which gathered yesterday to dedicate a monument to the soldiers of this community which fell in the great struggle.

The ceremony had a double meaning in that the monument was designed also to honor scores of civilians who died as a result of occupation of the town by German troops. The speech aroused great enthusiasm.

STREET CAR MEN ACCUSED OF TRANSPORTING DYNAMITE

Buffalo, Aug. 21.—R. C. Lacey, former president of the Central Labor Council here, was released on \$1,000 bail today by the police who accuse him of transporting dynamite without a permit from the fire department. It is suspected this dynamite was being used in the attacks against the local trolley company. Lacey denies all knowledge of the dynamite.

Five other men, all striking employees of the trolley company, were arrested on Saturday night and all but one were released on \$500 bail. They were caught with 500 sticks of dynamite in their possession, or are accused by their fellows of having had it concealed, it is claimed.

Favor A Preferential Immigration Treaty With Great Britain

WILL BE PROPOSAL OF TRADES AND LABOR CONGRESS TO GOVERNMENT

Thirty-eighth Annual Convention Opens at Montreal—Unemployment and Industrial Disputes Act to be Issues—State Employment Insurance Recommended—Repeal of Sales Tax Asked—Other Resolutions.

(By Canadian Press.)

Montreal, Aug. 21.—A preferential immigration treaty between Canada and Great Britain proposed to be Canadian organized labor's proposal to the federal government as a means of stemming the flood of industrial workers from Europe. This morning, before the opening of the thirty-eighth annual convention of the Dominion Trades and Labor Congress veterans delegates from all parts of the dominion were comparing their views on the three main issues which the congress state lists—immigration, unemployment, and a revision of the Industrial Disputes Act. The immigration topic is paramount, as it is generally held as inseparable from the unemployment issue.

Not only do the great majority of the delegates who will fill the floor of the convention demand an almost complete closing of the immigration door to Europe but they will find a staunch leader in Tom Moore, the president of the congress, whose views are said to crystallize the majority opinion.

To the Canadian Press last night, Mr. Moore outlined the menace which the Canadian international trades union movement reads into a winter of industrial uncertainty aggravated by a steady influx of aliens from overseas.

"Just as Canada in appreciation of her position as a dominion within the British empire saw the need of a preferential trade policy with the motherland, so too must be seen the immigration question," he said.

Industrial Disputes Act. The industrial disputes investigation act is the theme of several resolutions and the executive of the congress to take up the question of the legality of the act with the federal authorities and also to request penalties for companies and corporations guilty of violation of the law.

Workers' Compensation. Workers' compensation is discussed in various phases and from different angles in six resolutions, increase of payments under this law being asked. Old age pensions, mothers' allowances and health and safety of employees while at their work are also covered by resolutions which will bring up discussion of these questions by the delegates.

Industrial Councils. Joint industrial councils are asked for by civil service unions in Saskatchewan and Ottawa. The organized civil servants in Ottawa voice objection to the recent classification and ask for institution of a joint national council with departmental joint councils in accordance with the Whitley committee's plan and similar to those adopted in the government service of the United Kingdom, these councils on their formation to reorganize the work and personnel of the public services with a view to avoiding unnecessary labor turnover while eliminating duplication of work over training and inefficient methods.

Resolutions Submitted. Montreal, Aug. 21.—(By Canadian Press)—Seventy resolutions covering hours and conditions of labor and other matters of importance to Canadian labor were placed before the Trades and Labor Congress of Canada, which opened its thirty-eighth annual convention here today. Those dealing with hours of labor stress the need for dominion wide recognition of the eight hour day and the need of one day of rest, preferably on Sunday for all workers. A resolution by the Montreal lodge number 2063, United Textile Workers of America urges that attention of the Quebec provincial government be called to the fact that "the law limiting to fifty-five hours per week and number of working hours for women and children continues to be violated, notwithstanding the promise made by the Quebec department of labor that the dominion textile would be requested to stop such practice in its establishments."

Delegate James Drury, International Typographical Union, fathers a resolution dealing with the printers' strike for the forty-four hour week and denouncing employers in that trade "for treating contracts entered into as scraps of paper," and pledging moral and all other helpful support to the striking printers.

Employment Insurance. Resolutions dealing with unemployment and asking that the dominion government be pressed to provide state employment insurance come from Toronto hod carriers and Vancouver trades and labor council. The latter body would also call upon the federal government to assume the management of the unemployment situation on a national scale, "the basic relief to be work at trade centres."

CANADIANS ARE UNDER ARREST

Charged With Offence Against Immigration Laws—Under Indictment for Grand Larceny.

Somerville, Mass., Aug. 21.—F. H. Nixon and J. B. Danby, both of Montreal, were arrested here early today, charged with violating the immigration laws. The police said that the men, who have been sought for two years, were under indictment for grand larceny in connection with the disappearance of goods valued at \$30,000 from Grand Trunk Railway cars. Officers took Nixon and Danby to Portland, Maine, for arraignment before a U. S. commissioner. It is alleged that they failed to pay the head tax in entering the U. S. from Canada.

PITIFUL TALE FROM PACIFIC

Timely Arrival of Motor Ship To Beached Schooner—Crew Starving and Master's Wife With New Born Babe.

(By Canadian Press.) San Francisco, Aug. 21.—A tale of the sea, a beached ship, a starving crew and a mother with a new born babe, to preserve whose life every one else sacrificed rations, thrilled the waterfront here today upon the arrival of the motor ship Annie Johnson, with news of the San Francisco schooner, William H. Smith.

The schooner was beached in the Pacific for forty-three days and was discovered on Aug. 14, when Captain J. Roy of the Johnson, responded to her signals of distress. The crew of seven men had been eleven days without food except the coya with which the schooner was loaded. They were unable to hoist aboard the emergency supply of rations.

Mrs. N. P. Jensen, wife of the master, was attempting to nurse her baby, whose cries rapidly were growing weaker. The mother, although favored by captain and crew in the matter of available food, could not supply sufficient nourishment for the infant.

For 116 days no word had been heard of the unfortunate vessel and she had been given up for lost. With favorable winds, it is expected she will be in port before the end of the week.

BOTH NEW YORK TEAMS AT TOP

Americans Now Full Game Ahead of St. Louis.

Ruth's Two Homers Spell Defeat for Chicago—Recruit Trims Veteran Walter Johnson—Late Sport.

New York, Aug. 21.—The New York Americans, carried to a 7 to 5 victory over Chicago by Ruth's twenty-fifth and twenty-sixth home runs, today lead by a full game the St. Louis Browns, who were idle Sunday.

The Giants retained their three and a half game margin over the Cardinals, winning from the Cubs 5 to 4, by virtue of a seventh-inning batting rally. Scott, the Giant pitcher, weakened in the eighth, but Jonnard, who relieved him, stood off the Cub assault.

Eight runs scored off three Philadelphia pitchers in the seventh and eighth innings enabled the Cardinals to beat the Quakers 9 to 6.

Cincinnati took two games from the Dodgers, pounding Grimes for thirteen hits and ten runs in seven innings of the first game, winning 10 to 5, and winning the second, 4 to 3, a pitching battle between Cadore and Rixey, in ten innings.

Boone, a recruit, outpitched the veteran Walter Johnson, and Cleveland defeated Washington 2 to 0 in twelve innings.

SOME SIGNIFICANT EVIDENCE TAKEN IN CHICAGO RAID

O. B. U. Propaganda and Long List of Radical Leaders Names Said to Have Been Uncovered—Possible Connection With Rail Strike Riots.

(By Canadian Press.) Chicago, Aug. 21.—Examination of papers and correspondence in a raid last night on the offices of the Trades Union Educational League, which is headed by Win P. Foster, who led the last steel strike and who recently was deported from Colorado as one of the foremost radical leaders of America, barred a widespread "big union" propaganda among railroad workers and gave valuable information concerning a systematic series of radical meetings in railroad centres, according to State's Attorney Crowe.

No arrests were made, but a long list of names of radical leaders was unearthed, Mr. Crowe announced.

The state's attorney's investigation began immediately after receipt of the report of the Michigan Central wreck at Gary, Ind., in which two men were killed and two injured, and the discovery of two sticks of dynamite on the Pennsylvania railroad tracks.

Foster was said to be in Joliet, Ill. Railroad officials said that the Michigan Central express had been deliberately derailed by plotters. Spikes were removed from ties and rails loosened they said.

Detectives battered down the door of the league's offices. Inside were found letter files, card indexes, books, pamphlets and pictures of Lenin and Trotsky. Foster is said to have come to Chicago following his expulsion from Colorado. From there, it was said he went to Joliet, where Sheriff Newkirk was wounded and two men killed in a rail strike riot two weeks ago.

CHEERING NEWS FOR THE U. S. COAL MINE SITUATION

Pennsylvania and Michigan Miners Returning to Work.

(By Canadian Press.) Philadelphia, Aug. 21.—Representatives of anthracite workers and of the mine operators met today for another session of the negotiations to reconcile the differences between the two factions which have kept the hard coal mines idle since April 1.

Both national and state governmental influences are being exerted upon the owners and operators to make every concession possible.

Enough miners have been reported to be on hand in the collieries to keep the mines producing more than the normal amount for months.

Significance was placed in the fact that nine union leaders and operators have arrived at a point in Saturday's session where terms of a possible contract were discussed.

Another Shift Proposed. London, Aug. 21.—(Canadian Press)—The influx of orders for coal due to the strike in the United States has led employers on the northeast coast to suggest a continuous loading system by the addition of a third shift of workers.

Trade union leaders strongly objected on the ground that such an extension would amount to international backsliding. It is contended moreover that a shift is sufficient to meet all demands.

In the course of the negotiations with employees, however, they concentrated on the second objection resulting in protracting the discussions, but an agreement has now been signed under which the men will work two hours overtime daily, until October 31 when the matter can be further discussed if a third shift is found necessary.

Resumes Operations. Saginaw, Mich., Aug. 21.—Operations were resumed in the Michigan coal mines this morning, after a shutdown of almost five months. Reports from throughout the Saginaw Valley were that virtually all the miners were back at work, with indications that normal production would be reached by the middle of the week. Two thousand four hundred men are affected.

Pittsburg, Pa., Aug. 21.—The Bulger Block Coal Co. and the W. M. Shinn Coal Co. today officially announced that they had signed the Cleveland agreement with the U. M. W. of America and would resume work at once. Both companies closed down when the strike began April 1 last. They held membership in the Pittsburgh Coal Producers' Association, which has ignored the agreement.

Pittsburg, Pa., Aug. 21.—Six small companies in the western Pennsylvania region signed the agreement this morning, according to Wm. Hargrett, secretary of District No. 5, U. M. W.

MORE VIOLENCE BREAKS OUT IN U. S. RAIL STRIKE

Chicago, Aug. 21.—Disorder continued to flare in the railroad shop workers' strike during the early hours of its eighth week despite peace negotiations pending at New York and assurances by chiefs of the "Big Four" that no sympathetic strike of train service employees impends.

On the Atlantic side new disorders occurred at Columbia, S. C., where eleven men brought in to work in the shops of the Southern Railway were attacked by a crowd of strike sympathizers.

Hostilities broke out again in San Bernardino, Calif., where four men, employees of the Atchison, Topeka and Santa Fe shops were attacked and beaten.

Hurrying to Kansas City following a near riot in the Chicago Rock Island and Pacific shops there, Governor Allen of Kansas gave Mayor Harry Barton twenty-four hours in which to restore order, threatening to send troops if the situation did not improve. Governor Allen said he was informed that gunmen had been imported to intimidate men who wanted to work in the railroad shops.

Yardmen of the St. Louis-Louisville line of the Southern Railway at Princeton, Ind., who had been on strike since Saturday morning, returned to work and

STOP NEGLECTING YOUR EYES

We often hear such remarks as "My eyes are getting old" or "I'm putting this off for months."

Your eyesight, next to life itself is nature's greatest gift. You can't afford to neglect it.

Don't delay until headaches or falling night compel you, but have your eyes properly examined now.

A good pair of glasses, if needed, may double your pleasure and increase your efficiency.

SEVEN OF FAMILY ARE POISONED; 2 CHILDREN DIE

Quebec, Aug. 21.—Seven members of the family of Z. Gagnon, at St. Michel, Bellechasse county, about fifteen miles below this city, were poisoned after eating canned salmon on Saturday. Germanine, eleven, and Leonide, twelve, daughters, died. The father and mother and three other children will recover, it is expected.

STORM KILLS 2, INJURES FOUR

Regina, Aug. 21.—News of the death of two and injury to four in a storm at Eastend, Sask., last week was received here last night. Mrs. McHaffey, mother of Joseph McHaffey, was instantly killed and Mrs. Joseph McHaffey died of a broken back and other injuries one day after the storm. Mr. McHaffey and two children, although badly bruised and injured, will recover.

Will Your Widow Dress as Well as Your Wife Does?

A queer question? Well, perhaps—but it's intensely serious. It means, in other words—Have you made adequate provision for your family in the event of your sudden death?

Not a pleasant thought, maybe, but a far more unpleasant one is that the wife and little ones you love and cherish may next week be left penniless and dependent upon the charity of friends.

By investing a few dollars a year in an Imperial Home Protection Policy you can ensure that they will be comfortably provided for even though you should die next week. And they deserve that much sacrifice on your part—don't they?

Our booklet, "The Creation of an Estate," tells all about it. Ask for a free copy to-day—because you never know when you may be uninsurable.

Reason For Optimism.

Reports of the executive council, provincial executives, federation of labor and fraternal delegates were presented.

"There is no place in the trade union movement for pessimism and neither is warranted by present conditions," the executive report states. Though we have not been able to maintain our right record

of paid up membership receded last year, the corner has been turned. We have successfully weathered the past storm and commence our forward movement with more than double the membership we were able to report six years ago when the last serious trade depression occurred."

**According to advices received from Winnipeg experiments made with wheat of the 1922 crop are proving satisfactory. The mills are already busy making baking tests of the new wheat flour. The only grade so far tested, the No. 1 northern wheat, was not quite up to last year's old wheat in gluten and protein, but that is usually noticeable in wheat which is threshed very early. The bread was not quite as white as old wheat bread, but had a fine appearance and flavor. The sample from which the bread was made weighed about sixty-three pounds to the measured bushel, the yield having been something over forty bushels to the acre.**

### WHOLE BLOCK IS KEPT ON JUMP BY RUNAWAY MONKEY

**N. Y. Hotel Guests Chief Sufferers From Simian's Pranks — Factory Girls Scared.**

New York, Aug. 21—A wild South American monkey that stands two feet six inches in its stocking feet is at present terrorizing the residents of the block bounded by Seventh and Eighth avenue and 22nd and 23rd streets, he has been racing over the roofs in the block, swinging into open windows, jumping from roofs to trees, perching himself on the Presbyterian church at Eighth avenue and causing a panicky feeling among the guests of the Chelsea hotel.

Several times he has entered the hotel. Once to choke a couple of song birds to death in the room of the manager, Arthur Wolfe, where he threw about the cages and strewn clothes about the room. His antics in other rooms caused the guests to sleep with an eye open all night and hope that the fly screens might prove a barrier that would prevent an intrusion.

He is still enjoying the freedom of the city without going through the formality of having a golden key presented to him by Mayor Hylan on the city hall steps, along with resolutions passed by the board of aldermen. Not

having these credentials, he has confined himself to the block.

In the time he has been at liberty he has furnished damage suits sufficient to keep the city court busy a week and among his owners, J. W. Simmons and Company, owners of a bird and animal store at No. 226 West 23rd street. The only asset which Mr. Simmons may be able to interpose is the amusement and excitement the monk has furnished.

It was some time after 10 a. m. that Mr. Simmons discovered the cage of the monkey was broken and he was gone. He is according to his owner, a kapiaia monkey that comes from the west coast of South America. After a search about the place, which continued for three hours, Simmons saw a crowd in the street and joined it. The monk was scaling the Chelsea hotel. He dislodged the fire escapes and was going up a drain pipe. Persons went to the roof to lead him off and he disappeared into one of the open windows of the hotel.

With the knowledge that there was a surprise awaiting some guest, the crowd lingered. The monk came out, made the roof and went over to the roof of the Presbyterian church near the corner of Seventh avenue. Darkness set in with him sitting on the ridge pole of the church. All he needed apparently was a ukelele to make him happy.

**Spent Nervous Night.**  
Guests with windows open had a jumpy feeling all night in the hotel, and this morning reports arrived of what had occurred.

A middle-aged woman guest came from the bathroom this morning to see the monkey perched on a chifferoni, examining a silver-backed brush and mirror. She slipped a slipper at him and retreated to the window sill. With him went a gold breast pin. This he examined for a while, and when reinforcements arrived in response to her telephone call he went away. He evidently dropped the pin, as it was not found.

For a while before noon he was the centre of attraction of a crowd that

surrounded the Greenwich Bank Building, at Seventh avenue and 20th street. He swung on electric light wires and took his moonday exercises without the aid of any phonograph records. The general hope was that he would tear a little of the insulation from one of the wires and that would end his troubles, but he did not.

At No. 202 West 23rd street is the Paris Silk Undergarment Factory. The machines in the place are operated by girls. The monkey made a giant swing from the electric light wire and went into the third floor window. There was one scream and that became a chorus as the girls ran for the exits. The monkey gave a chatter, watching the disappearing operatives, and raced through the place holding a piece of silk that weighed nothing and which unwrapped from a bolt of it like a fishing line from a reel. His finish was a leap from a window into a tree not even seen.

In the course of the day it was decided the thing to do was to poison him so bananas containing poison, it was said, were scattered on the roof. After 5 o'clock this afternoon the monkey was up on the roof of the church where he makes his headquarters. He had eaten the bananas, but he gave no evidence of dying and not even seasick.

On one of his escapades soon after his escape he jumped from the roof of the six-story building at No. 244 West 23rd street and landed on the ground.

### Cut out this message and hand it to some sufferer from constipation!

Nature has provided the one sure, permanent relief from the horrors of constipation—**BRAN**—Kellogg's Bran, cooked and krumbled! Bran will correct the severest case of constipation if it is eaten regularly. For Bran, as a nature's wonderful "poupage" food, clear the eliminative tract in a positive way, leaving it clean and purified.

Do not let constipation get the upper hand; do not neglect the mildest symptoms because constipation is only the forerunner of disease, premature old age, and many forms of child illness! Ninety per cent of all sickness can be traced to constipation, which is the direct cause of such diseases as diabetes and Bright's. Fight constipation with Kellogg's Bran! We guarantee results if you

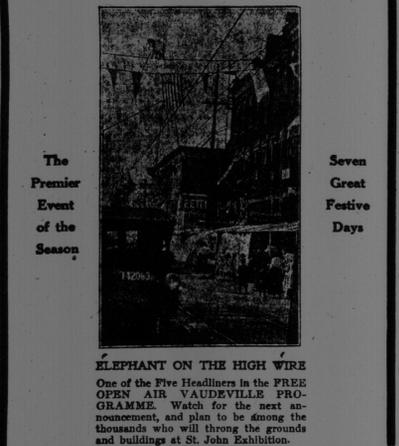

eat at least two tablespoons daily in chronic cases, with each meal!

Kellogg's Bran is not only a permanent corrective for constipation, and a very delicious cereal, but it is one of nature's most valuable foods because of its richness in mineral salts. It stimulates brain and nerve cells in grown people; it aids children to become strong and robust!

Kellogg's Bran will correct a pimply complexion and an obnoxious breath.

Kellogg's Bran is not only an unequalled health aid, but delightful as a cereal or sprinkled over your favorite cereal. Its nut-like flavor is very appealing. You never ate such muffins or raisin bread or macaroni or cornmeal other bakery batches as made with bran! Prove out Kellogg's Bran! Buy it at all grocers! It's wrapped "WAXTITE"

### GIRL ACCUSES EIGHT

Causes Arrest of Suitor and Others as Kidnappers.

New York, Aug. 21—A woman and seven men, including a rejected suitor, were arrested in Brooklyn on a charge of kidnaping Miss Tessie Defto, twenty of 100 Delight Place, Brooklyn, last Monday evening near the young woman's home. The suitor, accused as the leader, is Ralph Sibbo, twenty-one, Brooklyn. The other defendants are Joseph Caponi, twenty-three, Angelo Uale, twenty-three, George Muller, twenty, Joseph Sibbo and his wife, parents of Ralph, Jerry Sibbo, his cousin and Joseph De Angelo.

According to the story told to Assistant District Attorney Herbert Moore by the girl, Sibbo had been attentive to her for the last three years, but she declined to marry him. Last Monday at dusk she was informed by two girls, supposed-

ACTION IS EXPECTED.

In the discussion on the Bodell offer the commissioners not only condemned that proposition but intimated that they wished to carry out the mandate of the people. The recall proceedings that have since been instituted, and which will seat a new mayor in City Hall, are a further reminder of what the people want.

ANOTHER SNARE SET.

The displaced Musquash development has suddenly become the salvation of the St. John householder. It will supply him with "white coal." Of course it can only do so through the agency of the New Brunswick Power Company, (which needs coal) but the Company is eager to save the householder — and get its clutches on the Musquash current.

SEEING THE LIGHT.

The Nova Scotia miners have had a lucid interval. It came to them when Premier Murray said: "We are going to have these mines pumped. If you won't pump them, we will find someone who will. More than that, we will see the men are protected while they are pumping the mines."

IT IS CONTINENT-WIDE.

All over this continent the corporation interests are fighting against public ownership of public utilities. Of the struggle in the state of California the Toronto Globe says: "A great fight between private monopoly and public ownership is being waged in California. It is the same battle that has been fought to a finish in Ontario. In California hydro-electric power is not only used generally for domestic and factory purposes, but it also runs the irrigation pumps on which the life of the orchards and fields depends."

THE U. S. TARIFF.

The tariff bill has passed the United States senate after four months debate and now goes to joint conference between the senate and house. The latter will not know the bill, so many changes have been made since it was adopted by that branch of congress. Quotations from two influential journals will show what the country at large thinks of the measure.

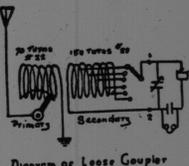

The passing of Col. G. W. Mesereau is sincerely mourned by friends throughout the province. His services to education, to the militia of New Brunswick and in the great war had won for him a notable distinction. Though well advanced in years he recruited a battalion and went overseas with it in 1916. Though unable to go into the field, he rendered valuable service until ill health compelled his return from France to England and then to his native province. Col. Mesereau was a fine type of citizen, ever ready to render service and promote the welfare of the people.

Lesson No. 83. THE LOOSE COUPLER.

The loose coupler or receiving transformer as it is sometimes called, consists of two windings of insulated wire on cardboard tubes so arranged that the number of turns on each winding may be varied and the inductive relation between the windings may be varied by moving one of the tubes on a hinge or sliding arrangement.

The primary coil or winding which is in the antenna circuit is wound on a cardboard tube about five inches in diameter and four inches long using 70 turns of No. 22 copper wire double cotton insulated. The tube is supported horizontally between two wooden end pieces of insulating material secured to a wooden base. The winding is large enough so that 800 meter and 600 meter stations can be tuned in.

In this type of loose coupler the secondary does not telescope into the primary but is hinged on to one of the end pieces which supports the primary coil in such a way that the axis of the secondary coil extended passes through the axis of the primary coil.

The diagram shows how the loose coupler described above may be connected to a crystal detector with a variable condenser shunted across the secondary of the coupler to permit of slightly sharper tuning.

In adjusting for best signals the coupling is first made maximum and the secondary and primary switches varied until maximum signal is heard in the telephone, then the coupling is loosened as much as possible without reducing the strength of the signal.

The hinge support for the secondary will be found to be more satisfactory than sliding rods or sliding bases as it is much smoother in action and is much more compact. An ordinary cabinet hinge with removable pins is suitable for this purpose, preferably of non-magnetic material such as brass.

IF BY A MIRACLE

If by a miracle of God These of our blood that died on the fierce fields of France, Striving against the beast, Should face us here once more, What could we say to them?

If by this miracle, Upon some one they gazed us In song, dark, steady ranks, And from those ranks a trumpet And should step And, sounding, make his trumpet call to us.

THE TRUMPET We are those who died to save you, Never reckoning the price, Drinking from a brimming chalice, Bitter wine of sacrifice, Answer for the thing we gave you, Now that we have come again, Did you guard the flag litiged? Tell us, did we die in vain?

What would we say to that sad song, The blood-kin we of all the men who died, Knowing the full of this world's bitter wrong, What could we say to leave them here? H. J. MACLEAN in Toronto Globe

LITTLE GARDENS. Blessed the little city gardens, where Gay, sturdy bits of gorgeous color bloom Rose, hollyhock, blue larkspur, yellow broom.

Where myrtle and shy periwinkle share The shady spots that otherwise were bare, Where morning glory dull walls animate, And try wreaths about the shabby gates, That end the paths where friendly pansies fare.

Where children have a happy place to play, And mothers crouch quaint folksons, soft and low, And, at the long, dingy stress of day, To smoke their pipes, the toll-worn fathers go, And wait at dusk beneath the poplar trees.

MORNING NEWS OVER THE WIRES Barnes in Cumberland county at Tidnish, Nappan, Six Mile Road and Leicester were destroyed in Friday night's electrical storm and hay and grain literally beaten into the ground by the heavy rain.

Chester Woodman, a young man of Smith's Cove, near Digby, N. S., was found dead on the shore near Digby Saturday morning. He leaves a wife, a Scotch girl who married while overseas, and two small daughters. He was twenty-seven years old.

The fish plant of R. Hendabee & Company at Half Island Cove, fourteen miles from Truro was destroyed by fire on Friday night when it was struck by lightning entailing a loss of about \$40,000.

Fred Jeffers of Meadowdale, near Stewiacke, N. S., was killed and his brother-in-law, Pineo Taylor of Taunton, was injured when the car in which they were driving went over an embankment on Sunday. Mrs. Jeffers, who was also in the car, escaped injury.

The local offices of the C. P. R., and the Dominion Express Company held a combined picnic at Lorneville on Saturday. A baseball game was held in the afternoon in which the Benedicts trounced the Beuchlers 16 to 8. The battery for the winners were Paisley and McDonald; for the losers Fitzgerald, O'Neill and Wood. Dinner was served at Dean's and the return to the city made about ten o'clock.

WOULD ALTER DIVORCE PLEA

Clara Hammerling Alleges Two Common Law Marriages After Ceremony by a Rabbi - Attacks Polish Decree.

New York, Aug. 21.—Supreme Court Justice Lehman heard argument last week on motion of counsel for the plaintiff in the divorce action brought by Clara Schacter Hammerling, first wife of Louis Nicholas Hammerling, formerly head of the Association of Foreign

Language Newspapers in this city, to amend the complaint by setting up two common law marriages between the same parties subsequent to the date of alleged marriage by a rabbi in Poland in September, 1897. A rabbinical divorce decree was granted in Poland in 1914, and in February of the following year Hammerling married again in Brooklyn and is now living with his second wife, who was Countess Sophie Jeanne de Brezicka, in Poland. The second wife is named the co-respondent. After listening to arguments, Justice Lehman remarked that if the parties believed they were legally married the mere fact that they had lived together as man and wife in two different states in this country did not within itself constitute a common law marriage. In June of last year Justice Wasservogel, who did not have before him the rabbinical decree granted in Poland, allowed the plaintiff alimony and counsel fees. Counsel for the plaintiff asked Justice Lehman for time in which to file a brief in his motion. This was granted. Briefs also will be filed in the motion of coun-

sel for the defendant for the appointment of a commission to take testimony on interrogatories in Europe. The defendant wants to question witnesses regarding the granting of a rabbinical divorce decree to Hammerling and the plaintiff in the present action in Poland in 1914, when Hammerling is alleged to have made settlement on her of \$25,000 known. Opposing the amending of the complaint, Edward Thomas Moore of the Knickerbocker Building, counsel for Hammerling, insisted that a marriage subsequent to a legal marriage was of no force and effect, and that, since the parties believed they were legally married, they could not contract a common-law marriage because the intent to contract such a marriage was lacking. Lorenz & Lorenz of 2 Rector street, representing the plaintiff, set up the plea that the plaintiff had recently learned that the first marriage in Poland might have been illegal and that the foreign court might have been right in the decree; therefore, it was desired to amend the complaint so as to set up two common-law marriages in this country, one in Pennsylvania, where the couple lived from 1897 to October, 1908, and one in New York, where they lived at 422 Carroll street, Brooklyn, from May, 1910, to March, 1921.

SPAIN TO DIVERT THE GARONNE IF FRANCE CHANGES THE SEGRE Saragossa, Spain, Aug. 21.—Spanish experts are making a survey with a view to altering the course of the River Garonne, which rises in the Spanish Pyrenees, and flows into France. It is said that this action was motivated as a retaliatory measure against the French proposals to change the direction of the waters of the Segre, which rises through Lerida Province, Spain. It is said here that if the course of the river is changed it will kill several Spanish industries.

WINS PARDON FOR HER SON

Harding Grants Pardon to Woman Who Tramped Across Continent Leavenworth, Kan., Aug. 21.—Efforts of Mrs. Margaret Anderson, sixty-three years old, who traveled on foot last January from Sioux Falls, S. D., to Washington to ask President Harding to pardon her son, were rewarded when Joseph Anderson left the Federal penitentiary here, pardoned by the president. He was serving a two-year sentence, which began Oct. 4, 1921. Mrs. Anderson had searched more than two years for her son, trading across country and visiting practically every penitentiary in the United States. In January, 1921, she found him serving a sentence in the disciplinary barracks at Fort Leavenworth for desertion and fraudulent enlistment. At the completion of his sentence in the military prison Anderson was rearrested at the prison gate by Sheriff Russ Wilson, who had he was wanted on a charge of post office money order forgery.

EAST SIDE 'PONTZ' DIES SUSPECTED AS SLAYER

Police Hurry to Boston in Belief Body 'There Was That of Torres Murderer. New York, Aug. 21.—News of the death of Juan Cippitelli of 75 Delancey street, in a hospital in Boston, caused Detective Michael Fischetti of the Italian Squad to send Detective Salvatore Imbello to Boston immediately in an effort to identify the dead man as a suspect in the double murder of Ralph La Torre, thirty-one years old, of 1,065 Fifty-second street, Brooklyn, and his brother Michael, twenty-seven years old, of 118 Cherry street, on June 11, in front of 79 James street. Two other persons were wounded at the same time. The murderers escaped. Chief of Police McGarr of Boston notified the New York police last night that a man believed to have been Cippitelli had died in a hospital. Cippitelli also was known as 'Pontz' on the east side, because he was supposed to have \$200,000 on deposit in a Bowery bank.

WILL OF MILLIONAIRE'S WIDOW SAYS FIVE CHILDREN ARE NOT HERS

San Francisco, Aug. 21.—When the last will and testament of Mrs. Teresa Bell, widow of Thomas Bell, California pioneer and millionaire, was read following her funeral, the five men and women present who had believed her their mother were astounded to learn from the document that she denied them to be her own flesh and blood. She bequeathed them \$5 each. The will did not divulge the true parentage. A third of the estate was left to charity and the rest was bequeathed to her cousins, 'if she had any,' and if not to the state.

POLICEMAN IS SHOT BY FRIEND

Fatally Wounded by a Fellow Officer Who Was Examining His Pistol.

New Rochelle, N. Y., Aug. 21.—Charles A. Rizzo, a lieutenant of the New York, New Haven & Hartford Railway police, was accidentally shot and mortally wounded here when a pistol in the hand of a friend, Frederick Langlitz, which Rizzo was examining, was inadvertently discharged. In a signed statement made tonight at the New Rochelle Hospital, where he lies near death, Rizzo completely exonerated his friend. A few months ago Rizzo obtained employment on the railway police force for Langlitz. Last Monday the lieutenant sold Langlitz a .48-calibre automatic. Subsequently Langlitz had trouble with the pistol and today, when the two met in the freight yards of the New York, New Haven & Hartford Railway here, Langlitz asked his friend to examine it. Rizzo did so while Langlitz held it. A moment later the weapon was discharged and Rizzo fell to the ground. The bullet, which entered his abdomen, passed through his body and lodged in a stone wall. Rizzo was rushed to the hospital and immediately operated on, but physicians said tonight that he had no chance for recovery. Langlitz was arrested but was paroled after Coroner D. F. Fitzgerald had satisfied himself that the shooting was accidental. The injured man, who was forty-nine years old, is the father of nine children. He has been a railway detective for four years. Several years ago he accomplished the round-up of a band of train wreckers, and, more recently, he led a group of railway accident fakers.

MUTT AND JEFF—THE OLD LADY WAS JUST CLEANING UP

WEAPONS FLY ON NEGRO EXCURSION

Picnic Up The Hudson One Prolonged Fight From Start to Finish.

New York, Aug. 21.—Razors, revolvers, bottles, flasks, knives, clubs, canes, and fists were in incessant use on the picnic of the West Side League Voters, a negro organization, which had an excursion up the Hudson River in the steamer Smithfield, commanded by Captain William Raynor.

Captain Raynor took 1,000 excursionists aboard at West Seventy-ninth street. There were some lively revolver battles at first. Five gunmen were put ashore at West 122nd street, where some additional picnickers were also taken aboard. There was fighting all the way up the river, fighting on shore at Forest View Greys and fighting on the way back.

Passing Yonkers, Captain Raynor steered close to one of the piers and three ashore a chunk of wood to which was attached a note asking that the New York harbor police be notified that a big cargo of trouble was headed downstream.

Near 122nd street Acting Sergeant Ward and five men in a police boat drew alongside and boarded the Smithfield. They quelled the half a dozen fights then in progress and herded the offenders to one side of the boat. More fights broke out. The herded group grew till it threatened to outnumber the unherded. Flasks of "jackass brandy" were confiscated. The sergeant gave orders to protect the peaceful ones, but a few minutes later a member of his squad saluted and said: "Sergeant, where are the peaceful ones?"

Finally Sergeant Ward told Captain Raynor that it was apparently a question of arresting all on board, and that he could not put them in a police boat. He therefore released his prisoners and drew off with his men. They went downstream to call out reserves to make peace when the boat landed.

In the meantime the shooting attracted the attention of the battleship Maryland, anchored in mid-stream, and a shipload of marines was sent over to give the young marines experience. But they

were notified that it was useless to stop two or three sections of what was one big general fight. The ship went on its way until it landed at Seventy-seventh street. Here the reserves from two police stations were drawn up in line and the passengers were landed one at a time.

Aggressor and victim were so intermingled, the offence was apparently so general and the punishment so equitably distributed that the police contented themselves with arresting one man for a sample. This was William Jones, who was generally accused of using a razor out of his turn.

BIG LIQUOR HAULS BY AUTHORITIES

The Toronto "Ward" Yields Over 9,000 Bottles.

Toronto, Ont., Aug. 21.—Nine thousand bottles of liquor seized in police raids in the "Ward" returned to the government vendors from No. 2 police station within the past year, and this was only the "cream" of the lot, so to speak. Some of the stuff was so unspicably bad that it was dumped down the sewer, just as is done in all other police divisions.

Thereby hangs a tale, which Inspector Bond tells with great gusto. One of his men got a prescription and went to the vendors for a bottle of gin. When he got back to the police station he undid the wrappings, looked at the bottle—and found his own initials on the bottom of it, together with a notation, "Fined \$200 and costs or three months." It was a bottle he had seized in a raid.

The government vendors made periodical calls at all police stations in the city for this confiscated liquor, examine it as to its purity, and, if it is pure, place it on the shelves and sell it to customers. Pure alcohol or impure "moonshine" are taken, too, but devoted to other uses.

COUGHS UP BULLET HE FIRED INTO HEAD IN SUICIDE ATTEMPT

New York, Aug. 21.—Seized with a coughing spell while he was in bathing at Coney Island, Tuesday, Benedict Friedman, sixty-six years old, of 82 Market street, Newark, got rid of a bullet which he had fired into his head more than a month ago in an attempt to end his life.

On June 19 Friedman, who keeps a candy store, shot himself four times in the head. Three of the bullets were extracted by City Hospital physicians and the fourth could not be located.

Friedman's explanation of his attempt at suicide is that he became temporarily insane as a result of continually bumping his head on the rafters in his cellar as he bailed out water from an icebox drain.

TWO ON TRIAL AS \$2,100,000 ROBBERS

Chapman and Anderson Face Court For Big Mail Theft Last October—Third Man Pleads Guilty

New York, Aug. 21.—Two of the men indicted on a charge of having robbed an automobile mail truck of \$2,400,000 in securities, cash and jewels, at Leonard street and Broadway on October 24 last, were placed on trial before Federal Judge Holmes. They were Gerald Chapman, alias "Bryce," "Count," and George Anderson, alias "Heines."

A third defendant, Charles Loerber, alias "Lambert," who had joined with the other defendants in a plea of not guilty, was re-arraigned by Prosecutor David W. Cahill to change his plea to guilty. The plea was accepted by the court. It is understood that Loerber will testify for the government in the event of his help being needed to convict the other two.

The robbery of the mail wagon was accomplished at 10:30 at night. The chauffeur was forced to drive the truck some distance west to Leonard street, and then the handiis selected from seven centen pouches in the truck four containing the valuables. The robbery followed only four days after the theft of a pouch containing \$100,000 from the General Post Office and stirred the authorities to unusual activity. After a long search Post Office Inspector Joseph Vlek and Gordon T. McCarthy, a detective employed in Buffalo by the American Railway Express Company, caught the accused men.

All three, according to the Federal authorities, are ex-convicts. Chapman, who is believed to have been the leader of the enterprise, has a long jail record, it is said; Anderson's record embraces a career as a confidence operator in Chicago and a term of ten years in the Blackwell's Island penitentiary for burglary.

Consent for Chapman and Anderson made an effort to get a postponement of the trial after Loerber's plea of guilty had been entered. In this they were unsuccessful.

After the men were arrested the postal authorities recovered securities valued at over \$800,000. It was suggested that the postponement was needed if about \$1,700,000 more of the stolen property was to be recovered. It would take time, it was suggested, to enable the defendants to communicate with those having possession of it. But the court refused to grant a postponement, and the filling of the jury box was proceeded with. The trial will be continued.

### WHISKEY AS A FUEL.

(Buffalo Express.)

With a certain degree of complacency we over here can sit on the sidelines and listen to the assertion that in England they have discovered that whiskey, mixed with certain vegetables, can be made into a fine motor fuel. It is asserted that a certain big distilling company has been regularly supplying this new motor fuel to a limited number of customers.

It is stated that the fuel has been tested with most satisfactory results. An Edinburgh correspondent says that it has been known for two years that the company has been pursuing elaborate experiments with whiskey and vegetables, and that success means the new fuel at a price probably fifty per cent below the current petrol prices. The vegetable from which the extract is se-

curd for combining with whiskey is of Indian and Ceylon growth.

About this time we have a suspicion: Is the vegetable referred to hushaboo or something of that kind? Is the whole thing a dream, the product of a distorted and perverted mind? Can it be that there is so much whiskey anywhere in the world that they would even think of using it for such purposes? And if it were so used, would it have the same effect on the motor-driven machine as it sometimes has on the driver?

If so, clear the way!

#### FIRE DAMAGES THE SORE JAIL

Five Prisoners Kept Under Guard as Firemen Subdue Flames.

Montreal, Aug. 21.—Five prisoners, inmates of the cells at the Sorel jail and court house building had to be led out into the prison yard yesterday when fire of undetermined origin broke out in the building. The guards, heavily armed, watched their charges carefully while the firemen were at work. The fire did considerable damage to the roof of a part of the building, and that part will be out of commission for a time. The cells were flooded, but some being untouched, the prisoners were lodged in these.

#### FRENCH MISSION ON THE WAY HERE

Paris, Aug. 21.—(Canadian Press.)—A French mission of three members is leaving today for Canada to open the new French art museum in Montreal. They are taking gifts to the museum from the French government, the ministry of education and the city of Paris authorities. The mission will tour the Canadian provinces, going as far as the Pacific coast, with the object of drawing closer the ties of Canada and France.

#### BUFFALO STRIKE

Buffalo, Aug. 21.—The strike of the hushaboo men on the Buffalo docks was declared off Saturday by O. J. Cavanaugh, acting for the International Union. The men have been idle three months, demanding ten cents an hour increase of pay.

#### PETITIONS BEING LARGELY SIGNED

Organization in Connection With Recall of Mayor McLellan Complete and Making Good Headway.

The organization in connection with the recall of Mayor McLellan is now complete and returns already are coming in that speak significantly of the feeling of the people concerning the upholding of their just claims to cheap power and the full benefit from the Musquash development.

"There can be no mistake as to the temper of the people in this matter," said a prominent worker, "and the only trouble we find is in reaching all those who are anxious to sign."

Several sheets, each bearing nearly one hundred names, have been turned in, and with from thirty-five to forty workers on the job daily, it is expected that the work will be completed by the latter part of this week. There will be no let-up from now on, according to those in charge.

An announcement regarding the majority candidate is expected soon.

There is a very strong feeling among all classes of citizens that this fight must be carried to a finish, and there is gratification over the manner in which opposition to the Bodell offer developed. Nowhere is there doubt as to the wisdom of the city standing solidly for all its rights and privileges with respect to the Musquash current, and practically all who are approached declare that as the company has made its offer, which has been fully turned down, the city must get on with its business of contracting for the Musquash power and distributing over its own system at cost.

#### RAIN ASSISTS FIRE FIGHTERS

Duluth, Minn., Aug. 21.—Reports from Fairbanks, Rollins, Markham and Wales, on the east side of the Kelsey fire zone, say that a heavy shower visited that region early Saturday and gave the guards needed assistance in holding back the flames. The shower on the east side of the Kelsey fire is said to have been at least temporarily. Guards from the east side of the burning area will be shifted to the west and south sectors, where there was little or no rainfall.

#### ANXIOUS ABOUT FATE OF AVIATORS

Round-the-World Fliers Thirty Hours Overdue on Five-Hour Flight.

Calcutta, Aug. 21.—No news has been received of Capt. Norman MacMillan and Captain Mallin, who left here Saturday for Akah, Burma, in continuation of the round the world flight which Major Blake was obliged to abandon on account of illness.

London, Aug. 21.—A Calcutta message to the Times says considerable anxiety is felt for the aviators, Captain Norman MacMillan and Captain Mallin, who are thirty hours overdue at Akah, for which place they left early yesterday, continuing the attempt to fly around the world. The flight should have been made in about five hours.

**Fifth Game.**  
The fifth game of the amateur championship series will be played on the Queen square diamond this evening at 7 o'clock sharp between the Commercial and St. George's. Both teams are keen with two won and lost and tonight's game will decide matters for a while. The best four games out of seven will settle matters. Kerr may be sent back again tonight and will find himself opposed by Stirling for St. George's. It is possible that a game will be staged on the East End grounds.

**Boston Travellers Will Play Tonight.**  
The Boston Travellers baseball team will play St. Peter's tonight on the latter's grounds. The Travellers on last Friday night defeated St. Peter's in one of the best games of the season and are confident of getting another win this evening. The same infield which played such sensational ball behind "Lefty" Casey in the first game will be in action for the Travellers tonight.

**East End Intermediates.**  
The East End Clippers defeated the Imperials on Saturday afternoon in a league game by a score of 7 to 3 on the East End grounds. Both teams played good ball, Rogers pitching a steady game for the losers until the fifth inning when the Clippers scored several runs. He retired in favor of Thompson, who held the Clippers to one lone run. Ramsey hurled a strong game for the Clippers, and scored two of the winning runs by driving the ball into right field

PRACTICALLY an all star cast was chosen by George Loane Tucker for "Ladies Must Live," a superb production. Besides Miss Compson, the cast includes such well known screen favorites as Leatrice Joy, Lucille Hutton, Marcia Manon, Lule Warrenton, Cleo Madison, Robert Ellis, Mahlon Hamilton, Jack Gilbert, Snitz Edwards, Arnold Gregg, Jack McDonald, William Mong and Gibson Gowland.

"Ladies Must Live" is presented by Mayflower as a Paramount special. The story is adapted from Alice Duer Miller's novel, which appeared originally in serial form in the Saturday Evening Post. The theme centers around one of the most widely discussed problems of the day and vitally concerns every woman.

Betty Compson has a part in "Ladies Must Live" equally prominent with that played by her in "The Miracle Man." Robert Ellis is leading man.

Health Centre Game.  
St. Peter's and the Boston Travellers will clash tomorrow night in what is expected to be one of the greatest games of the season, the proceeds to go towards St. John's new Health Centre. The Boston boys defeated the locals last Friday night, 3-1, and are out to take another, while the Saints are bound to even up the count. It is likely that Hansen will twirl for St. Peter's, while Lefty Geary is the probable choice of the visitors. The Carleton Cornet Band will parade from the head of King street to the park, and will also play before and after the game. Cadets in uniforms will sell tickets along the line of march. These tickets admit to the grandstand without further charge. Four nurses from the General Public Hospital, the Misses Dorothy Fraser, Gertrude Bickerstaffe, Edna Lingley and Leona Wood, were present in uniforms at Saturday's game, and met with much success in selling tickets among the fans.

Henry F. LeBlanc, who had his leg severed in the C. N. R. yard on Saturday morning when he slipped his arm in a pile of hot water, was reported to be much easier this afternoon. The little fellow spent a painful time, both Saturday and last night. Dr. Baxter attended the youngster.

**MRS. JOSEPH CORVEE**

The death is announced today of Mrs. Joseph Corvee of Millford. She is survived by her husband, three sons, Frank, John and Albert, and two daughters, Mrs. Harold Earle and Miss Josephine Corvee, of Chatham, Cape Breton, where her mother still lives. There are also some brothers and sisters. Mrs. Corvee was 72 years of age.

**WILLIAM MCKINNEY**, year-old son of W. H. McKinney, 286 Carmarthen street, who was badly scalded on Saturday morning when he slipped his arm in a pile of hot water, was reported to be much easier this afternoon. The little fellow spent a painful time, both Saturday and last night. Dr. Baxter attended the youngster.

**GEORGE J. FLETCHER**, brought here from Halifax yesterday by Detective Biddiscombe in connection with a charge of fraudulently converting to his own use funds to the amount of approximately \$300 while in the employ of the International Business Machine Company, appeared before the magistrate this morning. He was represented by G. Earl Logan, and L. McArthur Ritchie appeared for the company. Mr. Logan asked for a day's adjournment, and the case was put over until tomorrow morning at 10.30. It is possible that the case may not be tried here.

The sons are John S. of Bar Harbor, George, James and Wallace, of Salisbury; Elmer, of St. John; and Albert, of Moncton. The daughters are Mrs. Dodge, of Moncton; Mrs. Caruthers, of Alberta, and Mrs. Bleakney, of Salisbury, and another, Mrs. C. A. Irons, of Moncton. Funeral service was held at his late home on Thursday. The body was conveyed to West Branch, Kent county, where interment took place.

**WEDDED SIXTY YEARS**

Mr. and Mrs. Leander Cox of Habitant, Kings county, N. S. celebrated the sixtieth anniversary of their wedding on Aug. 19. The Halifax Chronicle says:—"Mr. Cox was married in 1862 to Miss Hannah Spicer, of Parrabrook, by Rev. Mr. Murray, of Canada, there being no Baptist minister in Canning at that time. They were blessed with seven sons, of whom only two are living, Leslie B., of the old homestead, and Iro L., of Canning. They have seven grand children and two great grand children. There are only two persons living who attended their marriage. Henry A. Coffin, of Medicine Hat, and Samuel Kerr, of St. John. Mr. Cox has been a very successful farmer and has made great improvements on his farm in the last sixty years. Both Mr. and Mrs. Cox, who are 85 years of age are in excellent health, they are still keeping house by themselves and Mr. Cox is vigorous enough to help in the hayfield several days this summer."

**FOUR CRIMINAL CASES FOR THE COUNTY COURT**

The County Court August sitting will open tomorrow morning. Four criminal cases are to be dealt with: The King vs Sewell, a charge arising through the alleged misappropriation of funds by a city employee; the King vs Fitzpatrick, a charge of arson; the King vs Delaney, a charge of theft; and the King vs Tonge, a charge of threatening to shoot. W. M. Ryan will conduct the prosecution. There are six or more civil cases.

OFFERED DEED TO TWO STREETS

Acceptance Not Decided On By Council Today.

The acceptance of a deed for two streets running through the Gilbert estate from Westmorland road to Marsh road, and the proposal of the Nashvank Pulp & Paper Company to install a sixteen inch main to their plant were two of the chief topics under discussion at a committee meeting of the common council this morning.

Commissioner Frink submitted a plan of the property of the Gilbert estate, showing the proposed new streets, with deed attached. He moved that the deed of land accepted. This evoked a lengthy discussion.

The commissioner pointed out that the matter had been previously dealt with by the council, but the acceptance of the deed did not necessarily mean that the city would be compelled to open up the streets.

Commissioner Wigmore said that as soon as the city took over the streets petitions would be coming in for the installation of water and sewerage. He felt that Bryden, Metcalf and other streets in the North End, where the city had already spent considerable money, should be taken over first.

Mayor McLellan said that the first efforts should be made to acquire titles to streets where values have been established and where work has already been started.

Commissioner Thornton said that he would not support the taking over of two streets in the Gilbert estate. He felt that one was sufficient.

Commissioner Frink promised to frame a resolution and submit it at the council meeting Tuesday afternoon.

**Pulp Co. Water.**

With regard to the proposed installation of a sixteen inch water main from the Nashvank Pulp & Paper Company's plant to tap the city water main running to West St. John, Commissioner Wigmore reported that he could see no objection to their doing so, providing the company did the work at their own expense and that they enter into an agreement not to draw more than 100 gallons a minute. He moved that the company be given permission with the proviso regarding the maximum of water to be drawn.

Commissioner Thornton said the matter should be given careful consideration. He said it was strange that the company could not get a required quantity with the ten inch main now in use.

Commissioner Wigmore then read a report made by City Engineer G. G. Hare. Mayor McLellan said that he could not consider his report, as he is a civil and not a hydraulic engineer.

Commissioner Wigmore informed him that the proposed extension of the sixteen inch main would cost approximately \$10,000.

Commissioners Frink and Bullock also spoke on the question, after which it was decided to let the matter rest for a few days until it can be decided regarding securing expert opinion.

**Other Matters.**

Commissioner Thornton then read a communication from Dr. J. Roy Campbell, K. C., in which he said he had been instructed by the trustees of the estate of Elizabeth Campbell to offer to the city the freehold of the leasehold property, situated in King street, West St. John, and now occupied by one of the city's engine houses for the sum of \$400. On motion the matter was referred to Commissioner Thornton.

Commissioner Thornton read a communication from citizens residing in West St. John saying that an electric light was badly needed near a fire alarm box at the corner of St. James and Lancaster streets. This was referred to the Commissioner of Public Safety.

Commissioner Frink read a petition signed by forty-two residents of Cranston avenue asking that the street be put in proper condition and asking that a day be named when a delegation could wait on the council. The commissioner explained that this matter had been considered before and that he had visited the district and if the road was made as suggested it would take a further two years to handle rock from some of the hills.

Mayor McLellan asked if the city intended to go on forever developing the owners of real estate develop the property, put in conveniences, make the streets and then turn them over to the city to maintain. The question of how much Cranston avenue the city had taken over was asked, and Commissioner Frink promised to get that information received and that the citizens interested be notified that the matter would be given a hearing on August 28.

**Musquash Cordwood.**

Commissioner Wigmore asked Mayor McLellan regarding the cordwood owned by the city. He felt that it might prove valuable especially now that the coal strike has created such a fuel problem.

Mayor McLellan explained that the city has a large quantity of cordwood cut at Musquash, but the majority of it is from three to four miles from a railway. He said he had tried to insure it but had failed. From enquiries, he said, he learned that it would be impossible to get it out at present. He said seventy per cent of it was in the round and was thus less valuable than if it had been quartered. He said they expect to face a deficit because of the manner in which it was cut and left in the woods scattered about. He said he felt it would be for the best interests of the city to sell the wood and thus avoid any further risk from fire, etc.

Commissioner Frink said he heard that people were stealing it right and left. The mayor said he would bring down a memorandum at Tuesday's meeting giving details regarding quantity, etc.

Commissioner Bullock presented two tax bills from the county for \$2,177 and for \$846.50 and moved that they be paid. He said that although the city had disposed of some land since last year the taxes had increased considerably. He put in his motion a proviso that the county secretary be instructed to furnish the city with a detailed account of the lands assessed, etc.

**The Foundation of Style IS THE CORSET**

The most beautiful gowns will appear but poorly over a corset that is not just so, while the most simple gingham frock becomes attractive and graceful over a corset that shapes correctly. Here you will find corsets that are correctly designed for the new season's styles in dress; corsets that will shape the figure comfortably to the graceful lines of fashion; and furthermore we offer you the services of a corsetiere trained to her profession. Make an appointment with our corsetiere.

**Big Reductions On Wilton Rugs**

Although rug prices have long since reached bottom and our latest quotations plainly indicate an upward trend, we are reducing the prices of patterns of which we have only one or two sizes left, in order to make room for fall stock now arriving. And so we are offering Wilton Squares of best quality at prices which will not be equalled for many a day, if ever. While these particular patterns last, you can have a first class English Wilton in 9x12 size as low as \$75.00. Other sizes in proportion. If you have had any thought of purchasing a new rug, it will pay you to anticipate your requirements, for the same qualities cannot be duplicated at anywhere near these special prices.

Our immense stock is always at your disposal for information or price comparisons.
