THE ELECTION DAY PASSES QUIETLY OVER

**Small Vote Polled in Ward III
Where Chas. Goss and Thos.
Ellsworth Are Elected**

For the office of Councillors, there
was only one election held this year,
that being in Ward Three, where three
gentlemen offered for the two seats.
Councillors White and Ellsworth
sought re-election, and Mr. Chas. Goss,
came out as the third candidate.

The polling was very easy all dur-
ing the day, only about 30 per cent.
of the electorate recording their votes.
At the close of the poll, the officers, Mr.
Thos. J. McDevitt, made the following
return to the Town Clerk:—
Charles Goss, 85,
Thos. Ellsworth, 77,
John White, 55.
Messrs. Chas. Goss and Thos.
Ellsworth were then declared duly
elected. The following is the personal
of the new Council.

Mayor, Albert A. Andrew.
Councillors for town, Chas. A. Alex-
ander, W. H. Miller.
Ward I, John M. McLean, James
Evans.
Ward II, John Quinn, James W. Pat-
erson.
Ward III, Charles Goss, Thos.
Ellsworth.

The first meeting of the Council is
to be held tonight, when the council-
lors will be sworn in, and the standing
committees appointed.

U. S. FLAG HOISTED OVER VERA CRUZ

**Admiral Fletcher Demanded Sur-
render But Mexican General
Decides to Fight**

Vera Cruz, Mexico, April 22.—De-
sultory firing continued throughout
the night from the roofs of houses in
the city of Vera Cruz, which yester-
day was partially occupied by blue
jackets and marines from the Amer-
ican fleet, commanded by Rear Admi-
ral Fletcher.

The shots fired during the darkness,
however, averaged only about "four
every" hour from the further casualties
were recorded on the American side.

The street lighting system had failed
and the only illumination came from
the interiors of the houses.

The losses of the Mexicans in yester-
day's fighting could not be even
roughly calculated this morning, as
much of the firing by the American
marines and blue jackets was so long
range, and no attempt was made dur-
ing the night to approach the centre
of the city, in which some determined
Mexicans still occupied positions. In
the distance bodies could be seen ly-
ing about the streets, but whether
they were those of dead or wounded
could not be ascertained.

The efforts of Rear Admiral Fletch-
er late last night to find some one who
exercised command over the Mexicans
and to suggest that he call off his men
in the interests of humanity were un-
successful. The Rear Admiral hesitated
to open fire with shells on the city,
but the presence of riflemen hidden be-
hind the corners of the flat-roofed
buildings, which formed a capital
shelter for the defending sharpshoot-
ers made the use of artillery almost
imperative, unless he decided to run
the risk of sacrificing the lives of more
Americans.

The city is quiet at present. The
sharp "pop" of a rifle was heard occa-
sionally during the night and early
morning, but there was no sharp fight-
ing.

General Gustavo Maas, commander
of the port, and most of his soldiers
have disappeared. It is reported that
they have fled to Soledad, the town
northwest of Vera Cruz where the
Mexican and inter-oceanic railways ef-
fect their junction. The American
marines who landed yesterday and
seized the customs house, with a loss
of four killed and twenty wounded, are
maintaining their position without
taking any further offensive action.
"Fire only when you are fired upon,"
is the order that has been issued to
the United States marines and sailors.
Here is a revised list of the Amer-
ican marines and sailors killed and
wounded in the capture of Vera Cruz:

THE DEAD:
DANIEL A. HAGGERTY, coxswain
from battleship, Florida; Cambridge,
Mass.

S. MARTIN, private of marines.
J. J. POINSETT, sailor from battle-
ship, Florida; Philadelphia.
JOHN F. SCHUMAKER, coxswain
from battleship Florida; Brooklyn, N.
Y.

SERIOUSLY INJURED
S. Charburger, sailor.
G. Goss, marine private.
E. A. Guborn, marine private, also

E. F. Peterson, marine private.
P. N. Nicholson, boatswain.

HELP SUFFERERS IN NEWFOUNDLAND

**Collections to be Taken in
Churches on Sunday and Con-
cert in Opera House Tuesday**

Recent copies received of Newfound-
land papers, are full of distressing
stories of the loss of life in the seal
fisheries, and of the efforts being made
to relieve the hundreds of widows and
orphans, who have been left without
means of support.

General sympathy has been expressed,
and a good deal of money has been
contributed for the very laudable pur-
pose of aiding the sufferers. A large
amount of money will be required to
meet the needs of the dreadful situa-
tion, and in common with other towns,
Campbellton will do her share.

On Sunday first, special collections
will be taken in all the churches, while
a subscription list will be opened in
the Opera House, Miss Jean McLatchey
has kindly consented to give her as-
sistance in readings, and Miss Irene
Currie will also assist. This will be
Miss Currie's final appearance in
Campbellton for some time. The Male
voice Quartette will also render se-
lections. Rev. C. W. Squires, who is a
native of Newfoundland, will speak on
conditions there, and it is hoped there
will be a large audience. Admission
will be 25 cents.

36,000.
—Weston Chisholm, New Carlisle, P. Q.,
146,000.
—Mrs. Wm. Copeland, Dawsonville,

ence to this contest, as it is of great
importance to all interested.

To new subscribers of the Graphic,
entered during the past three weeks,
we would request that they examine
the address slip on their papers, and
notify us of any error in name, as in
some cases contestants have not been
particular enough in spelling proper
names, and in other cases, names may
have been changed. If two copies of
the Graphic should be going to the
same home, we would suggest that one
copy be changed to some other address
where it will benefit some one.

Subscribers in remitting direct, are
asked to direct that votes be given to
some candidate. Any friend of a con-
testant can send in subscriptions direct
and have votes go to any contest-

CIVIC ELECTIONS ON NORTH SHORE

**Results of Contests for Aldermen
in Towns of Chatham and
Newcastle**

Chatham, N. B., April 21.—The town
elections passed off quietly today with
about five hundred out of eight hun-
dred qualified voters casting their
ballots. There was no majority con-
test, as Mayor Tweedie was returned
by acclamation, and this lessened in-
terest somewhat. The storm also pre-
vented numbers of voters from turn-
ing out. The result was as follows:

Chas. Reinsborough	271
H. H. Carvell	257
Chas. Dickson	244
J. J. Flanagan	237
W. B. Groat	233
J. C. Godfrey	199
C. P. Hickey	303
J. Y. Mesereau	157
A. McLennan	204
G. T. O'Brien	205
J. L. Stewart	245

The eight highest were declared el-
ected. The unsuccessful ones being
Ald. Mesereau, Ald. McLennan and
J. C. Godfrey.

Newcastle, April 21.—Charles J.
Morrissey was re-elected mayor over
Alderman James Falconer by vote of
216 to 119 in a sharply contested civic
election today. Of eight hundred vot-
ers on the list only about four hundred
and forty qualified by having their
taxes paid, and of those three hundred
and forty seven voted. The vote for
aldermen follows:

G. Gilmour Stothart	278
Charles Sargeant	244
Stanley W. Miller	235
Alex. H. McKay	230
Dennis P. Doyle	220
Andrew McCabe	208
Dr. F. C. McGrath	204
John G. Kethro	183
John R. Allison	163
H. H. Stuart	160

The first eight were elected. A
heavy fall of snow last night and cold
stormy weather today prevented a
heavier vote. Of the aldermen elected,
Stothart and McCabe are new men.
All the rest have served before. Mc-
Grath, Miller, McGrath and Sargeant
last year. Doyle and Kethro in pre-
vious years.

H. H. Stewart who is among the
plain, is a former resident of Frederic-
ton, and is a strong advocate of the
single tax.

THE BUY AT HOME CONTEST GOES STRONG

**Result of the First
That Inter-
est is Being
Maintained**

The first count of the coupons in
this contest, on Wednesday, showed
that all the contestants are working
hard, the result of the count sur-
prising some of the merchants interested
themselves. There was quite a rush
to get in all the coupons by Tuesday
evening, in order to take advantage of
the fifty per cent increase.

The vote coupons are being asked
for by every purchaser, and the ones
interested in the contest for the Ford
Auto, are working hard. Not only are
they asking their town friends to buy
at home, but they are encouraging
their country friends to come to Camp-
bellton to make their purchases, in-
stead of sending their orders to dis-
tant mail order houses.

The merchants interested in the
Automobile Contest, are making every
effort to build up a permanent trade,
and are all striving to give exception-
al values and prompt service.

The stores where Automobile Con-
test coupons can be procured, are as
follows:

Thos. Wran, Druggist.
Leon Cantin, Jeweler.

ies' Wear.

sions.

leaders in their respective lines, and
we assure our readers that they will
be well treated by dealing at these
stores.

new subscription counts 2000 votes,
and renewals, 1000. Many new sub-
scriptions have already been received,
and all the candidates are soliciting
subscriptions. If you are already a

LANTERN LECTURE AT ST. ANDREW'S

**Good Attendance Last Night
When Rev. L. L. Young Spoke
on Korea**

Last evening in St. Andrew's church,
a most interesting lantern lecture on
Korea, was given by Rev. L. L. Young.
The occasion was the annual Thank-
offering meeting of the W. H. & F. M.
Society, and the open collection
amounted to \$116.61. The views, near-
ly seventy in number, dealing mostly
with Korean life and customs, were
greatly enjoyed by a goodly number.
Rev. T. F. Drumm presided, and at the
close of the meeting, tendered most
heartily thanks to Mr. Young for his
lecture, and to Mr. P. H. Blyth for
handling the lantern.

"My little son had a very severe
cold. I was recommended to try Cham-
berlain's Cough Remedy, and before a
small bottle was finished he was as
well as ever," writes Mrs. H. Silks, 29
Dawling Street, Sydney, Australia.
This remedy is for sale by all dealers.

FIEND IN HUMAN FORM WANTONLY MURDERS TWO YOUNG CHILDREN; ASSAULTS THEIR FATHER AND FINALLY KILLS HIMSELF

Park Sobe, Crazed by Drink and in Insane Fit, Commits
Deed—Neil Mullin of Protectionville the Sufferer.

Newcastle, April 20.—One of the most horrible crimes in the history of Northumberland County, occurred in Protectionville, at a point about eleven miles out of Newcastle, Saturday afternoon, shortly after five o'clock, when Park Sobe, twenty-three years of age, while suffering from a temporary fit of insanity, brought on by indulgence in strong liquor, ordered two young sons of Mr. and Mrs. Neil Mullin of that place, severely injuring the father, and escaping, completed his dreadful course a few hours later by blowing off the top of his own head with a rifle as he lay in bed in his shack in the woods, a mile above the scene of his first atrocious crime.

The young man had been in Newcastle in the afternoon drinking heavily, and set out for home where he lives with his brother, Fred Sobe. He went part of the way with a brother of Neil Mullin, and at a cross road nearer home, joined Neil Mullin, who took him as far as his own farm about a mile this side of Sobe's place. Mr. Mullin had bought his children, a treat of maple candy, and while they were enjoying this, and two of the boys were playing in the yard, he went into the barn to fix up his horse. Sobe had not exhibited any signs of violence previously, but when the father had disappeared, the dreadful frenzy seized him.

Crashed An Axe Into Their Skulls
Catching up an axe that lay in the yard, he sprang at the unconscious and unsuspecting children, he split the skulls in fragments with repeated blows ere they could utter a cry.

He seized upon their bodies and carried them to an outhouse in which he threw them, and fastened the door. The dreadful work had been done almost in an instant, and so swiftly, and with such maniacal cunning, that though the mother and several other children were in the house within a few yards distance, not an eye had seen the deed, nor a sound alarmed the rest of the family.

Mrs. Mullin's Life in Danger
Rushing into the house with his bloody stained axe, the literally incarnate fiend, for his clothes were spattered with the blood of his childish victims, seized Mrs. Mullin, and seemed about to despatch the mother, but her cries and pleadings diverted his purpose, and leaving her almost unconscious from fright, he rushed out into the yard.

Had Her Other Children
The mother summoning all of her faculties, thought first of the children, and after locking those in the house with her, in a room, rushed out after her assailant into the yard, from whence came sounds of a life and death struggle, and a fearful sight met her eyes.

Mr. Mullin Saved as if by Providence
Sobe, leaving the door, went straight to the barn, where the father of the family was still at work, and beyond sound of the previous struggle. He looked up as Sobe came rushing at him with his axe poised for the fatal blow, but the man was on him before he could lay hold of any means of defence, or even spring out of his way. Had the axe, with the superhuman energy of the mad man driving it, descended in its straight course, it would have cleft through the skull to the trunk; but its descent was changed by a beam against which it struck, and the pole of the axe hit Mullin on the shoulder, the blade cutting a deep gash in his neck. Mullin is a powerful man, and recovered himself before Sobe could do no more than half swing the axe, the flat of it striking him in the back, but not inflicting any severe injury. He then grappled with his assailant, and the two struggled desperately for possession of the fatal axe, the fight for which carried them out of the barn into the open, just as Mrs. Mullin emerged from the house. Her husband, injured as he was, might not have come off victor, but with her assistance, the man was downed and Mr. Mullin held possession of the axe.

Escapes to His Own Home
The neighbors had now been alarmed, and help was coming. One reply stated Sobe pleaded to be allowed to go, and that the Mullins let him up, not knowing of the slaughter of two of their children.

Another report is that he escaped and fled up the road towards his own

place. He picked up a rifle which he had taken from Mullin's house on his first assault on Mrs. Mullin, and proceeded to the post office kept by Lemuel Fletcher, which he broke into, as Mr. Fletcher was away, secured ammunition, and then went on to his own shack in the woods above Mullin's home. As he was armed, and probably still in his frenzy, no one dared follow him, even after his terrible crime became known.

Immediately after his departure, Mrs. Mullin sought out her children, and for a while the two murdered ones could not be found. Then splashes of blood led the seekers to the outhouse, where the two boys were found with their skulls crushed and cleft with the terrible axe wounds. The grief of the parents and family, as their worst fears were confirmed, is better imagined than described.

Word had been sent to Newcastle for medical aid and for constables, and all minds were focussed on the lonely hut in the woods, where the armed and desperate murderer lay concealed. About seven o'clock, a shot was heard, but it was near dusk when Fred Sobe, a brother, crept up to the cabin and looked in through the window. His brother lay on his bunk with the rifle by his side. Fred crept in and snatched the rifle, taking it outside. He then returned to his brother and tried to awaken him. He was dead. A bullet hole on the right of the temple showed that the shot which had been fired earlier in the evening, had been fired for the purpose of self destruction, and had been fatal. The fury of frenzy had evidently passed, and with realization of his terrible and unpardonable crime, came remorse and determination to end all.

When Deputy Sheriff Irving and Constable Dickson arrived, the body was raised. The side of skull next the bed had been blown away by the shot, and the man's brains were flowing over the bed. It was a terrible sight, and even men steeped in familiarity with crime in its various and brutal ramifications, could not repress a shudder as they gazed at the termination of the murderer's short and awful career.

Mr. Mullin is a thriving and industrious farmer and lumberman, and the sympathy of the whole community, goes out to him and his family. His wife is also pressed for the relatives of the man who committed the crime. His will had been taken away from him by the demon of drink, and in a sense he was not responsible.

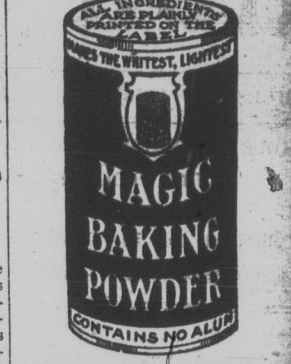

The Inquest
Newcastle, N. B., April 21.—An inquest into the Protectionville triple tragedy, was held Monday by Coroner Desmond.

Neil Mullin, sworn, said that on his wife's home Saturday, he had hired Park Sobe to work with him on the lumber landing. Sobe had asked him how he paid his men, with an order on Burchill or with cash. He replied he always paid his men himself, as he had money enough in the house. Sobe then he had been to Burchill's that day and in the hand Sobe had him to put the horses in the stable and was in the house a few minutes. He went out a minute or two after the children died. Mullin stayed in the house ten minutes, then went to the barn, and next was attacked by Sobe, whom he disarmed. Sobe begged for mercy, saying he was crazy. He told Sobe to go and never return. He started to get Fletcher to go for the doctor, when his wife screamed. She had found the children dead. Sobe turned back and told Mullin he saw a dark stranger kill the children. Witness seized Sobe, but his wife begged him not to murder him. Sobe afterwards twice attacked the family with a gun, but each time the gun was taken from him. Then witness faints.

Other witnesses told a similar story. John Mullin said he handed Sobe over to his brothers, who saw him to his camp. On the way he told of the stranger, but threatened to kill him self.

Charles and Fred Sobe testified to finding Park Sobe dead in his camp with a small rifle in his arms, and a bullet through his head. The verdict in the case of Park Sobe was deliberate suicide, and in the case of the children, wilful murder by blows of an axe in the hands of Park Sobe.

NO ALUM

SAY UNITED STATES
FLAG NOT INSULTED

Mexican Government Could Not
Agree to an Unconditional
Salute

Mexico City, April 19.—The Mexican Foreign Minister, Senor Portillo Rojas, announced to-night that it would be impossible to agree to the demand of the United States that the flag of that country be unconditionally saluted, because that flag was not insulted, because it was not flying from the launch, and because the marines were set free even before an investigation, and the officer responsible for the arrests was himself arrested and held for trial.

The Foreign Minister further announced that the Mexican Government would agree that both flags be saluted, the American flag first, and then the Mexican flag, this arrangement to be made by a protocol signed by the American Charge d'Affaires, Nelson O'Shaughnessy, and the Mexican Foreign Minister.

The United States Governor, Senor Portillo declared, had refused permission to Charge O'Shaughnessy to sign such a protocol, and demanded an unconditional salute by Mexico, which Mexico felt was impossible and incompatible with her dignity.

In conclusion the Foreign Minister said: "Mexico has yielded as much as her dignity will permit. Mexico trusts to the fairness and spirit of justice of the American people."

HORSE NOTES

(From the Gloucester Northern Light)

Dr. Ross of Campbellton, the well known veterinary, was in town Saturday attending a valuable horse of McKeen Bros. and performed an operation on its injured eye.

Local horsemen are beginning to think that it would be a good idea to have a good man take charge of the track here, and a large number of fast animals that will need working out this summer. A good trainer and driver could probably secure a good place for the summer, if he would get in touch with any of the Bathurst horsemen.

John A. Payne's team of well matched grays is receiving the admiring attention of all the boys these days.

On Saturday the 18th inst., Lady Shandon, "Triside", the Mullins' fast green pacing mare, foaled at the Rogers' farm, a beautiful bay colt, by Achilles, 30589 b. h. foaled 1899; by "Jagen", 28667, dam starlight, 215 1/4, by 31 etienne 125, grandam Sally Benton, 217 1/2 (dam of Surpol 210), by Gen. Benton, 1755 etc. (xv) bred by J. Malcolm Forbes, Boston, Mass., Dover N. H., Sept 22, 1905. Record 2:15 1/4.

This much admired and talked of horse was imported last year by the Nova Scotia Government, at a cost of \$10,000, and stands at the Experimental Farm, Truro, N. S.

Why He Was Late.
"What made you so late?"
"I met Smithson."

"Well, that is no reason why you should be an hour late getting home to supper."

"I know, but I asked him how he was feeling, and he insisted on telling me about his stomach trouble."

"Did you tell him to take Chamberlain's Tablets?"

"Sure, that is what he needs." Sold by all dealers.

FARMER IS CAUGHT

IN OWN SPRING TRAP

In Order to Trap Marauder Rigged up Spring Gun and Received Charge Himself

A well-to-do farmer by the name of Belanger, of St. Cyrille, L'Islet County, was brought to Lewis by I.C.R. and taken to the Hotel Dieu Hospital there Saturday afternoon, with his head and face badly shattered as the result of receiving a charge from a spring-gun which he had rigged up to catch a midnight marauder who had been paying frequent visits to his farm.

Belanger had loaded a shotgun with gas, and installed it in the doorway of his barn. He had later forgotten all about the trap, and wishing to get something out of the barn, had opened the door and received the reception intended for the unwelcome visitor.

His face and head were painfully wounded, and his condition is reported to be far from satisfactory, as it is feared that complications may set in.

ENOUGH FOR FINE

Quebecer Arrested in Montreal and Court Allows Him Enough to Buy Dinner

Montreal, April 18.—On a charge of refusing to pay his carter, carrying an unlawful weapon and being drunk and disorderly, Leonard Roland, 24 years of age, of Quebec, appeared before Mr. Recorder Semple yesterday and was found guilty on all counts.

Roland pleaded that all the cash he had with him was \$6.50. Under the circumstances, Mr. Recorder Semple said he would condemn him to pay a fine of \$3 for carrying a revolver, and had Roland would have to pay the carter \$3 for his "joy ride". For being drunk, sentence would be suspended. "You must leave for Quebec at once," said His Honor, "and you will have enough money left to buy your dinner on the train after you have settled up here."

The use of good paint around the town or country home is a great economy. The cost of paint to protect your buildings against the ravages of the weather, is small compared with the expense of repairs, soon necessary on unpainted houses, barns, or other buildings.

For your buildings use Sherwin-Williams Paint (Prepared) SWP. SWP is made of pure lead, pure zinc, pure linseed oil and the necessary coloring pigments and driers. These are put together in correct proportions according to a tested scientific formula, proven best by forty years experience, and are mixed and ground by special machinery. The result is a smooth, far spreading paint, even in color and giving a painted finish of great durability which protects your buildings for the longest possible time.

For buggies, automobiles, porch furniture, boats, canoes and other surfaces subject to severe usage, S-W Bugger Paint gives longest wear and looks best.

For shingle roofs and siding use S-W Crocote Stain which protects and beautifies these surfaces.

For buildings of rough lumber, fences, work sheds, etc., use S-W Crocote Paint, a satisfactory paint of an economical price, for much work.

For wagons, farm implements, garden tools, etc., use S-W Wagon Paint. It keeps the wood from checking and cracking and the metal parts from rusting.

News to most women!

Oven-baked flour is for sale. Instead of buying ordinary flour you can buy flour whose baking ability has been proven in an oven.

A ten pound sample is taken from each shipment of wheat at the mill. This is ground into flour. The flour is baked into bread.

If this flour bakes into bread high in quality and large in quantity we keep the whole shipment of wheat and grind it. Otherwise we sell it.

More bread and better bread from this flour is a certainty!

THE PEOPLE'S RIGHTS.

There are no two opinions with reference to the necessity of the whole story of the Crown Land transactions being told. The Crown Lands of New Brunswick are the heritage of the people of New Brunswick. If there was juggling of any kind in connection with their sale or lease, the people are the ones who suffered. They, therefore, are right in demanding and in insisting on there being made an explanation of what is insinuated in the Dugal charges. The explanation must be so complete that it will leave nothing untold. If a Crown Land official or any other person, on his own account, or with the approval of the Premier, or any member of the Government, made a secret bargain of any kind or sort with lumbermen as a body, or with any of the lumbermen of this Province with reference to the sale or use of the Crown Lands, the people must be told what was said; what was done; who did it, and what the result was. If all or any of the lumbermen benefited in any way by reason of what Mr. Dugal says was done, then they benefited at the expense of the whole people of New Brunswick. If the payment of the hundred thousand dollars Mr. Dugal says they paid, and the Telegraph says many men know they paid, secured them advantage of any kind or sort in connection with the Crown Lands, they are, to that extent at least, the holders of rights that were wrongfully taken from the people. If there was a bargain and it was, as Mr. Dugal's charges suggest, a forerunner of the new lease arrangement which does not come into force for some years yet, the affair would assume an aspect so disgraceful that the only course open to the Legislature would be to cancel all the leases, abandon or amend the law and make some new provisions for the sale of the Crown Lands. If there is truth in the Dugal charges, the Crown Land officers who are alleged to have accepted pay for doing something they should not have done, and the men who paid them, must stand together before the bar of public opinion and every incident of what it will be impossible to regard in any other light than a crime against the people of the Province, must be disclosed. When all is told, and all must be told by every man who had any part in the affair, either directly or indirectly, the people will make clear the future course and there need be no anxiety as to the attitude

of the people. They are aroused as seldom, if ever, before and want to know the whole truth.—Globe.

There seems to be a general disposition on the part of the public to suspend judgment (on the Crown Lands charges) pending the report of the commission. But there is also throughout the Province a demand for a complete and thorough investigation by an independent, non-partisan tribunal. The charges are most serious, reflecting not only upon the Premier of the Province and members of the Government associated with him, but upon every license holder as well. The lumbermen, indirectly involved by the Dugal charges, are among the first citizens of New Brunswick and they will be under a cloud till affairs are cleared up. The probe should go to the root of the matter, no matter who is hurt. The honor of the Province is at stake and that is the important consideration.—Maritime Baptist.

Some interesting sidelights on Valley Railway organization and financial methods are being disclosed in evidence given in the suit now pending before Mr. Justice McKeown, and the hope may be expressed that the inquiry will bring out all the facts. The true stories, if anyone could tell them, of railroad finance in Canada, would make a chapter in the history of high finance that would astonish and startle, if it did not shock, the cleverest manipulators of other countries.

A Fredericton despatch to the St. John Globe a few days before the Legislature closed, suggested the possibility of some agreement between the two parties that might result in the dropping of charges being withdrawn or Dugal charges being withdrawn or something of this kind was contemplated, and on the street it is whispered that one side made proposals which the other rejected. Are these stories true? Those who know should tell.

EDITOR'S MAIL

Dalhousie, N. B., April 21st, 1914.
Editor Campbellton Graphic,
Campbellton, N. B.

Dear Sir:—
In your issue of April 16th, I notice a letter dated Dalhousie, April 14th, signed "Ratepayer", which from its language and falsehoods, sounds very much like Dr. A. G. Ferguson's annual letter to you on the eve of our civic election.

He does not mention our first issue of bonds for \$5,500, wasted by himself

while he was Chairman of the Board of Commissioners, prior to our incorporation, boring useless wells that have not yielded one dollar to the Town Treasury.

His statements regarding the dam and water main are absolutely false. There is no leak in the dam or main, and the only leaks since last August, have been some minor ones in the distribution system.

His statement that the Engineer advised building the power house near his useless wells, is also false.

The same may be said of his statement regarding my offer of a well to the town for \$1,500. I made no such offer.

He states that people ask why not pump the present town wells? but that there is no logical answer. Mr. Chipman, our Engineer, answered that question in his report on June 23rd, 1906, and Dr. Ferguson and his friends were furnished with a copy of that report, at that time. Mr. Chipman's answer in that report, after testing the wells, was as follows:—

"During a twelve hours run, the fuel consumed cost about ten dollars, and only sixty thousand gallons were pumped to an elevation of 140 feet above the harbour. With a compound team pump, this work could have been done for one dollar, pumping from a surface well or reservoir."

Later in the same report he states,—"If, however, the cost were reduced to \$5.00 per sixty thousand gallons, it would be an extravagant system." The report of Dr. J. T. Donald, Official Analyst to the Dominion Government, on the water from the Montgomery wells, (which report all ratepayers can see at the Town Clerk's office) is sufficient answer as to the purity of that water.

In reference to the balance of his letter, as all his citizen friends that care to read such filthy matter, and were leaders in his reform ticket, have left town or are in jail for various violations of the law, his efforts to keep a man out of jail by Doctors Certificate and arranging bail, guilty of several assaults, several violations of the Liquor License Act, and even trafficking in White Slavery, are strongly condemned by all right thinking citizens, and require no answer.

Yours very truly,
W. S. MONTGOMERY.

To the Editor:

Dear Sir:—
Surely, "Ratepayer", writing in your issue of 16th inst., does not mean to charge out intelligent councillors, with the suicidal and murderous folly of drawing a part of the town's water supply, from the stinking swamp, encircled with backhous, that lies south of the southern sidewalk of Main Street, almost opposite the Shing's mill!

If he is well informed, and his statement trustworthy, then we shall have an epidemic of scarlet fever, typhoid and diphtheria, this coming summer and fall; and the sickness and the deaths, will be chargeable to the Councilors.

Don't be satisfied with anything less than an Edison Phonograph

Throughout the history of sound reproduction Mr. Edison has blazed the trail. Every important step has been conceived first in his mind. He is the acknowledged master of acoustics throughout the world. His recent triumph is the Blue Amberol Record.

It came, after countless experiments, with all its strength of volume, sweetness of quality and lasting endurance. To bring out the remarkable tone of this new record demanded a new reproducer. He invented the Diamond-Point Reproducer. With it there is none of the annoyance of changing the needle after each record. The diamond is as much a part of the phonograph as its beautiful cabinet.

Here a Blue Amberol—just what you want. Your Edison dealer will play over as many as you like. We are content to leave the verdict with your ear.

GAGNIER SENT UP

ON TWO MORE CHARGES

(From the Gloucester Northern Light)

Police Magistrate O'Brien held a preliminary examination of the respectable Wm. Gagnier, on the charges of breaking into Kent's store a second time, and of breaking jail, last Monday, and found sufficient evidence to send him up for trial on both charges.

The evidence on the charge of breaking jail, is of course conclusive, and that on the burglary charge is so strong, as to be certain to cause conviction.

Messrs. W. J. Kent, Harville White and Allie McIntosh, identified revolvers, a knife and several articles of jewelry, as part of the goods that were stolen from W. J. Kent & Co's store, on the night of April 11th. The trousers, which the prisoner was wearing at the time of his arrest, were identified as one pair of a special lot, handed only by the Company, which had arrived at the store only a few days before the burglary. A gold ring, taken off the prisoners' hand, and an Oddfellows watch chain, found among other jewelry in the possession of the prisoner, were identified as the identical ones missing from the store. What has become of the watches missed from the store at the same time, is as yet unexplained.

Gagnier's cases will come before the Grand Jury today, and if a true bill is found, his case will be tried before His Honor Judge McLachley on Wednesday morning, provided the charges before the Court are finished by that time.

FAILURE OF HEWSON'S

LIMITED, AMHERST

Committee Have Filed Report—

Old Common Shares Are Said to Be Valueless

The special committee, consisting of Mayor F. P. Bligh, of Halifax, G. P. Smith, K. C., Gavin L. Stairs, and W. H. Covert, K. C., appointed by the Hewson Pure Wool Textiles, Limited, Amherst, have filed their report upon the operations and the business of the company.

The committee feels that the business is one that should be successfully carried out, with good management and sufficient working capital.

The committee reports that the business was further increased by the arrival of a couple of uninvited guests, who added greatly to the success of the evening. The little ones all agreed that they had a good time, and were glad to see that their little friend, Barbara, who has been confined to the house with a sore knee, the result of an accident received while coasting, is able to be about again.

MONTREAL GUNMAN IN NEW BRUNSWICK?

Suspected Fugitive is Supposed to Have Been Seen in Caraque, N. B.

(Montreal Herald.) From far Caraque, New Brunswick, comes word from a citizen who declares that he has seen Ismael Bourret, one of the gunmen implicated in the murder of Constable Bourdon on St. Catherine road over a month ago. The telegram which has been received by Chief McCaskill, of the provincial detective department, is signed "A. Slocum merchant citizen," and says "Ismael Bourret passed through here on the morning of Sunday, April 12. He is 5 feet 6 inches in height, weighing about 180 pounds, and has grey hair and a mustache. He is stout, but heavily armed."

The detectives feel that the man might be the fugitive Bourret, as the man's hair is known to be grey and the height and weight compare favourably with their figures. Word has been sent to the chief of police at Caraque to get in touch with Mr. Slocum, and follow up the clue.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

NEWCASTLE WIRE-LESS OPEN IN MAY

Public Service Between Great Britain and Canada Eight Cents a Word

London, England, April 20.—It is expected that early next month the Poulsen system of wireless will be in operation between Great Britain and Canada. Two stations, one at Burlington, County Kerry, Ireland, and the other at Newcastle, N. B., are now being fitted with powerful apparatus.

The new company proposes to give the public a service at a cent a word, and the press at four cents. The company under contract with the Canadian government is the Universal Radio Syndicate, and under the arrangement All-British Empire Telegraphic Route will be complete.

Heavy losses were also caused by the general depression in the West and the cancellation of orders incident thereto. The falling off in trade, in Canada, has been very serious. Very handsome orders, probably the best in the history of the company, which had been handed in in the fall of 1912, were cancelled in the summer of 1913, and during the rest of that year it was impossible to sell any large quantity of the company's output. The buildings and plant of the company are in splendid condition and were never better equipped with the expenditure of \$5,000 for additional machinery, there should be no difficulty in running the mills to the fullest capacity, and under normal conditions the business should be carried on at a good profit.

At the present time the bond interest is due. Judgments have been entered against the company. Failing some satisfactory suggestion from the directors, or others interested, the property must be sold for the benefit of the bondholders and creditors. Any surplus, after paying the bondholders, and creditors, would be divided among the preferred shareholders.

The committee suggests that the bondholders and preferred share holders appoint a committee, or select some reliable trust company, to act as trustee, and arrange to deposit with that trustee all the bonds and preferred shares, with instructions to bid in the property. If the property were purchased by this trustee, a new company would have to be formed. From \$100,000 to \$150,000 additional working capital would have to be provided. This money might be raised by an issue of short term notes, say, ten years, or debenture stocks. An arrangement then could be made to give common shares in the new company, at par, to holders of the present preferred shares, upon terms which could, no doubt, be made satisfactory. So far as the old common shares are concerned, the committee has no suggestion to make, as every one is aware that they are valueless.

A special general meeting of the shareholders of the company has been called for to-day, in Amherst, for the purpose of recording and dealing with the report of the committee, and deciding upon the best means of obtaining the most out of the mill and plant by co-operation of all the bondholders, stockholders and creditors.

GRAND JURY MAKE

RECOMMENDATIONS

Upon Examining Prison Find That it is Not Securely Constructed

(From the Gloucester Northern Light)

True bills were found by the Grand Jury in both of the criminal cases put before them last Tuesday. They were also instructed by His Honor Judge McLachley to examine the jail premises and make what recommendations they thought proper in view of the escape of one of the prisoners, whose case came before them. The following is a copy of their recommendations as submitted to the Court:—

To His Honor Judge McLachley:—
The Grand Jury of the County of Gloucester, respectfully beg to submit that we have examined the cells in the County goal, and have found that conditions are not such as to properly safeguard prisoners confined therein.

The construction of the walls between the cells is such that a prisoner with a small instrument can easily effect a passage from one cell to another, as has been proven by the recent escape of one of the inmates.

To prevent further occurrences of the kind, we would recommend that the sides of the cells be strapped with steel plates, and that the latest modern locks be furnished for all goal doors.

The windows of the cells are located close to the ground, and are easily accessible to persons desirous of passing articles of almost any description to prisoners.

We would strongly recommend that the Gaol Committee proceed without delay to remedy this state of affairs, by placing steel screens or some netting of small mesh upon all of the cell windows.

We find the sanitary condition of the cells not at all as they should be, and would strongly recommend that the plumbing be renewed with modern prison equipment, and that stringent instructions be given caretaker by the Gaol Committee, to pay strict attention to ordinary cleanliness.

Respectfully submitted on behalf of the Grand Jury,
B. C. MULLINS, Foreman.

In the case of the King vs. Arthur J. Hickey, accused of stealing a sum of money from Wm. Watson, while the latter was intoxicated, the jury brought in a verdict of not guilty. The main evidence against the prisoner was that of two boys who swore they saw him take the money, but their evidence was nullified by the fact that one of them had taken a small amount of money out of Watson's pocket also, and as the prisoner had previously borne a good reputation, the benefit of the doubt was evidently given to him.

The civil case of Massey Harris Co. vs. George Ward was taken up next, and a verdict rendered for the Massey Harris Co.

Massey Harris Co. vs. Robichaud was being tried when Court adjourned Saturday afternoon, to resume Tuesday afternoon.

Notice is hereby given that for the purpose of satisfying the said principal money and interest due on and secured and made payable by said Indenture of Mortgage and by law, and unpaid there will, in pursuance and by virtue of a power of sale contained in said Indenture of Mortgage be sold at Public Auction in front of the Post Office in the Town of Campbellton on Friday the Twenty-fourth day of July next at Two O'clock in the afternoon, the above mentioned Indenture of Lease and the lands and premises therein mentioned and described, that is to say the said leasehold interest hereto and the improvements thereon being and the said term of years yet to come and unexpired and all other the rights and appurtenances to the same belonging and appertaining, which under the said Indenture of Mortgage the undersigned, Executrix and Executor can and may legally sell and assign.

Dated this Eleventh day of April, 1914.

WOMAN WEAK AND NERVOUS

Find Health in Lydia E. Pinkham's Vegetable Compound

Charles Jones—"I suffered with female troubles from the time I came into womanhood until I had taken Lydia E. Pinkham's Vegetable Compound. I would have given anything to get over my troubles, and I would have been so weak and nervous and in an awful misery that I would have given anything to get over my troubles. A friend told me what your medicine had done for her and I tried it. It made me strong and healthy and my blood is now happy with a healthy flow. I am very glad that I took Lydia E. Pinkham's Vegetable Compound and do all I can to recommend it."—Mrs. A. B. Jones, 224 E. Howard Street, Quebec, P. Q.

Thousands of women and men use Lydia E. Pinkham's Vegetable Compound, which is known from coast to coast as the standard remedy for female ailments. For forty years this famous root and herb medicine has been successfully used in controlling the diseases of women. Many cases could have stood this test of time.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham, Medford, N. H., for a free trial. Your letter will be opened, read and answered by a woman, and held in strict confidence.

DRAINING SMALL

Local Storekeepers Not Altogether Blameless for Growth of Mail Order Business.

Seeing the error of others, a wise man corrects his own. Men are apt to prefer a prosperous error to an afflicted truth. It is only an error of judgment to make all mistakes, but it argues an infirmity of character to adhere to it when discovered. The Chinese say: "The glory is not in never falling, but in rising every time you fall."

Error's Influence Upon Man
In its influence upon man error has been compared to a magnet concealed near the ship's compass.

As in the latter case, the more favorable the winds and the greater the diligence and skill in working the ship the more rapidly will it be speeded on in a wrong course. And so in the former—the greater the struggle for safety the more speedy the progress of ruin.

This is the position in which a farmer with whom the writer recently talked found himself.

This farmer, who lives but a short distance from town, has prospered and accumulated a considerable quantity of worldly goods and has always scribbled many errors on the white pages of life.

Takes Pride in Town.

When asked his opinion of his town as a market place he replied, "It's the best in this section of the country." "Do you sell all your products here?" he was asked.

"Oh, yes," he answered. "And you buy all your necessities and supplies here, too, don't you?" "Oh, no; I'm too wise for that," replied the farmer. "Those fellows here are too high. I can buy cheaper from the mail order houses."

There he stood, a big, awkward, intelligent countryman, who for years had been committing the unpardonable error of robbing the treasury of his own town and aiding the unbuilding of the mightiest trust on earth—in some distant center of population.

As the injustice of his practice was explained to him his honest eyes lighted with intelligence as into his weather beaten face there appeared a look of determination, and as his lips parted these words came firm and clear:

"From this day on I will be a true citizen of the territory in which I live. The money that I earn here and receive for my produce I will spend here. I will retrace my steps and correct as many of my past errors as lies within my power."

And the honest farmer will make good his promise.

Drains Town of Dollars.
How many farmers and consumers are doing the same identical thing as was this farmer—draining the town of its dollars, receiving, but not giving, aiding the large cities and crippling their own little town, which is striving and struggling to maintain a commanding position on board the good Ship Earth?

There was never a better illustration than the retail mail order house itself of what may be expected of consumers who fail to see the "signs" and neglect to fit themselves to the "times." The price of existence is measured both by demand and accomplishment.

Do Not Demolish, but Build.

The man who wishes to exert a useful influence must practice what he preaches. He must not demolish, but build. He must raise temples in which mankind will come to worship.

There are hundreds of thousands of farmers—yes, millions—who thoroughly realize the necessity of expansion of trade, the protection of their home markets, which is naturally brought about through the development and prosperity of their town.

Storekeepers Are to Blame.

The entire responsibility and blame for the present growing conditions cannot be laid at the door of the farmer. Unconsciously the hundreds of thousands of storekeepers that have the gall or nerve to call themselves merchants are equally responsible with the farmer.

As the merchant's pocketbook is the first to be hit he should be the first to reform and set a good example to his customers and those that should be his customers. Petty hickering and quarrels with competitors and local tradesmen should be the first reform made.

The next reform should be to encourage trading with one another more generally than is now being done.

The best way to show your appreciation of your home town is by patronizing the industries in the home town.

Chatham World Makes Interesting Statement in Reference to Affair At Fredericton

The Chatham World, whose editor is a member of the legislative assembly, says in an editorial column:—"It is charged that Hon. H. F. McLeod was given \$4,000 by the Valley Railway Company for searching titles at \$5 a search and that he farmed the work out at a fraction of his fee. A Fredericton subcontractor says publicly that he had to give Mr. McLeod \$1,500 before he could get his contract. He lost money on the job and feels sore at having to pay for an unprofitable contract. These charges, and others of the same kind, should be investigated before giving the Valley Railway Company \$2,000,000 more.

TAKES OFF DANDRUFF, HAIR STOPS FALLING

Save your Hair! Get a 25 cent bottle of Dandruff right now—Also stops itching scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp, of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair. Get a 25 cent bottle of Knowlton's Danderine from any drug store. You surely can have beautiful hair and lots of it if you will just try a little Danderine. Save your hair! Try it!

BRITISH BILL AIMS TO PREVENT TORTURE OF DOGS

London, Eng., April 18.—The second reading of a bill, the object of which is to prohibit all experiments on dogs either with or without anaesthetics passed the House of Commons yesterday by 122 votes to 80.

Sir Frederick Banbury argued that a dog is one of the best friends man has had in the world for thousands of years.

"We have taken the dog into our lives," he said, "and we have altered his nature and made him a sensitive being, and quite different from ordinary animals."

"This friend of man should be exempt from being put to torture, resulting from these experiments."

Success in Retailing.

An essential factor in achieving success in a retail business is ADVERTISING—telling the buyers of your community what you have for them.

One doesn't need to be exceptionally clever or a genius to be a success, but one must have an aim, and pursue it resolutely and intelligently.

The businesses that are prospering and expanding are those that purposefully seek out new customers and place before both old and new customers the news of their service, in the form of newspaper advertising.

GAGNIER RECAPTURED

AFTER RUNNING FIGHT

Deputy Sheriff Doucet Fired Twice at Retreating Jail Breaker

(From the Gloucester Northern Light)

The people of Bathurst and vicinity will now sleep in greater security, when they know that Wm. Gagnier, after burglarizing Kent's store and breaking out of jail twice, is again under the eye of the authorities, who will see that hereafter he is given no possible chance to escape.

The details of the would-be desperado's arrest, read like a chapter from a dime novel, and the people of Gloucester County should congratulate themselves that their officers are lacking neither nerve nor courage under the most trying circumstances.

Friday night about half past ten o'clock, Gagnier appeared at the I. C. R. Ticket Office and asked for a ticket to Campbellton. Mr. Ham Chalmers, the night agent, told him that there was lots of time as his train did not leave until half past one. He asked again, saying that he would take the train then at the station, but was told he could not travel on that train. At that he went out on the platform, where he was seen by Mr. Ben Glasier, the assistant night agent, and recognized Chalmers and Glasier came out of the station soon afterwards with the intention of capturing him, but when they saw the well defined shapes of two revolvers, which he was holding in his pockets, they considered the job too risky for two unarmed men. Glasier then went to Doucet's bakery across the street from the station, and telephoned Deputy Sheriff Doucet. Gagnier eyed Glasier suspiciously as he returned to the station, but did not interfere with him. In a very short time, the Deputy Sheriff arrived, but by that time Gagnier was not in sight, so he started in search of him. Above the tank, was a string of open cars, and the Sheriff proceeded to examine each of them. He had passed four or five, when as he passed between them, he saw Gagnier running, turn towards him as if to shoot, so he again fired. Gagnier still kept on with the Sheriff after him, and running across the track, ran full force into a wire fence. This knocked him down, and as the Sheriff came up to him, Gagnier held

The Sable Lorcha

By Horace Hazelton.

"What steamer?" I cried, suddenly realizing that the one really vital piece of information we should have obtained, had all this while been delayed. "What steamer?" Did he give you the name of it?"

"In just a moment, Mr. Clyde," she said, with a smile that I confess exasperated me.

"Harden me," I returned, insistently, "but you do not realize, I fear, what minutes even may mean in this matter."

"No," still very calm, "I really don't. The steamer has been at sea now twenty-five days. It is bound for Hong Kong. If there was a chance of overtaking it, I—"

"There's every chance of overtaking it," I interrupted once again. "Tomorrow, or next day, or even today, it may put into Rio. We must telegraph the United States Consulate at every possible port."

And then, for the first time, apparently, Miss Clement seemed to appreciate there was a real urgency. "The steamer is the Glamorgan-shire," she said, quickly. "A freighter; a tramp, I suppose; bound for Hong Kong. She sailed on Wednesday, the twenty-eighth of last month, and Mr. Cameron was put aboard, half-dressed, as one of the crew."

CHAPTER XXVII.

The Tortoise and the Hare.

Although Miss Clement's interesting chapter of disclosures was by no means ended with the name of the steamer and its date of sailing, it there came, so far as I was concerned, at least, to an abrupt intermission. For, as though the delay and inaction of the past month but served to swell the food of my eager energy, the tide, so long checked but now set free, overrode all barriers. With scant apology, I sprang to the telephone, and Mr. Clement, who had been in conversation with Dr. Addison, I was deaf to what she said.

What I sought, first of all, was corroboration. Did a steamship, named the Glamorgan-shire, sail for Hong Kong on October 28th? In less than five minutes, the facts were mine. Such a steamer had sailed for the east on that date. Her agents were Bartlett Brothers. Their offices were in the Produce Exchange Building. Another minute, and Bartlett Brothers were on the wire. No, the Glamorgan-shire did not take the South American route. Her course was through the Mediterranean and the Suez Canal. She carried no passengers. She was British. She was very slow. She had called at the Azores and then at Gibraltar, where she had been delayed in coal. Yes, she would make several Mediterranean ports. If all went well, she would reach Port Said about December 6th. Certainly not before that. Probably a day or so later.

I dare say it was excellent that I secured all this information with so little trouble, and without giving any hint as to why I desired it, but merely on the statement that I was Mr. Clyde, of the Week.

So far as I could judge, the Glamorgan-shire would call at Algiers in a few days; and for a while I considered the advisability of communicating with the United States Consulate at that port, through the State Department at Washington. But a knowledge of the tortuous involutions of official red tape deterred me. After all, I believed that if Cameron was to be rescued from the grueling slavery of servitude on this British freighter, the work must not be entrusted to the personally distasteful.

Thereupon I consulted calendars, steamer schedules, and Continental time-tables. By the fast transatlantic liner sailing on the morrow, I could reach Paris in six days. Forty-eight hours later I could be in Brindisi. If good fortune followed, less than four days more would land me at Port Said. It was now Monday, November 23. Twelve days hence would be December 6th, and the Glamorgan-shire, her agents had told me, could not possibly reach there before December 6th. The margin was not wide, but it seemed to me sufficient, and the thought of further inaction, now that the trail lay

is revolver to shoot, but fainting before he could pull the trigger, and toppled over into the Sheriff's arms. He was soon disarmed, but was so weak that for a few minutes he could not stand up, so had to be dragged along the platform. His left hand was bleeding profusely from the wound inflicted by the Sheriff's first shot, so he was hurried to town in the White House cab, and a doctor sent for. The wound was found to be slight, the bullet having passed right through the fleshy part of the hand, breaking no bones. He was soon lodged in one of the jail cells, where a guard was placed over him.

It is no small matter to attempt the arrest of a man armed as Gagnier was, particularly when it is known that the ill balanced youth might get desperate enough to use his arms, so the greatest credit is due Deputy Sheriff Doucet for his display of pluck, in fearlessly discharging his perilous duty.

fare, was nothing less than unendurable torment.

Wisdom, I suppose, would have dictated the advisability of securing some badge of authority from my own government before setting forth on a mission involving so delicate a point of international maritime law as that which was here embraced; but the saving of time was with me, just then, the paramount consideration. The loss of a day meant the possible missing not only of connections, but of the main object of my journey; and so, armed with nothing more potent than good health, strong determination, and a well-filled purse I boarded the Kronprinz Wilhelm and started on my diagonal race to head off a quarry which already had twenty-five days' start of me.

Speed being all-important, my wish was to travel alone and unencumbered, but at the last moment I was persuaded to consent to the company of both Evelyn Grayson and Dr. Addison. Realizing the brave, unfaltering assistance which the young woman and afforded me from the first, I could hardly refuse to gratify her wish to be present at what we both hoped would be the victorious end. Moreover, the thought of absence from her for a month at least, and probably much longer, was far from the most pleasant contemplation; my yielding, therefore, was not altogether unselfish.

Dr. Addison's case was different. At the last moment he decided to go aboard by the same ship; and, on the way over, touched by his cordiality and his almost pathetic desire to make amends to his quondam friend at the earliest possible minute, I myself invited him to go with us the rest of the way.

Evelyn had proposed that Mrs. LeMaster should also be included in the party, but this I would not hear of. If, for propriety's sake, another presence was necessary, her maid, and, ultimately, Dr. Addison, afforded all the security the conventions could demand.

The fever of haste was upon all of us from the start. The time on shipboard, in spite of our common subject of converse dragged eternally.

Should we reach Cherbourg in time to connect with the P. & O. Express at Paris? That was the one construction recurring question, to be speculated upon with varying degrees of hope and despair.

As good fortune would have it, we made the train with fifteen minutes to spare, and the run to Brindisi was completed without accident or untoward delay.

Here, however, we were compelled to wait six hours. The steamer was late, owing to some seismic disturbance off the coast of Spain, and the uncharted volcanic islands, which he demanded slow and cautious sailing.

However sinister had been the prime fate played with us in the early stages of our quest, the over of the present mood could not be gaining. That we were now reasonably sure of reaching Port Said in advance of the Glamorgan-shire was in itself a welcome relief from trying anxiety; but that was only a small part of the banquet of good things provided for us.

I was still exercised in a measure over the steps which must be taken to secure Cameron's release. Without proper introduction to the authorities, it was becoming more and more a question in my mind whether, after all, I should be able to accomplish my end in the brief time to which I was restricted.

With this felt possibility of failure dinging in my reflections, I was striding the white deck of the P. and O. steamer, in the early morning following the night of our departure from Brindisi, when a hand, dropped heavily on my shoulder, spun me round to face a laughing, sun-browned, young Englishman in white flannels.

For just a moment I was literally, as well as figuratively, taken aback, for the tone of the ringing voice which greeted me carried me five years at least into the past, when Lionel Hartley and I had ridden to hounds together at Melton Mowbray, while fellow guests at a house-party in the neighborhood.

To be Continued.

Information is said to have reached Berlin, that a fresh plot is brewing for the seizure of the throne of Persia. Once upon a time, over a hundred years ago, the Shah of Persia went down into India, and stole the Peacock throne from Agra, which was worth over thirty millions of dollars. On the Shah's return, the richness of the theft enabled him to run his country for three years without taxes. We do not suppose that there is anything left of this throne at the present day, but if there is, it would be worth seizing.

There was a travesty of justice in the case of Harry Thaw, who murdered Sanford White in cold blood, but the four gunmen, hired for a thousand dollars to slay a gambler who was about to give evidence against the evil police system have paid the death penalty. COL. McLEOD DENIES

THE ALLEGATION

Says Any Money Received Was For Lawyer's Fee For Work Done to Corporations

Ottawa, April 19.—In a statement to your correspondent today, Harry F. McLeod, the present M.P. for York, N. B., and formerly a member of the Flemming government in New Brunswick, gave a denial to the charges recently made in the legislature at Fredericton by L. A. Dugal, M.P.P., that Mr. McLeod has been one of the provincial ministers to whom contractors were compelled to pay large sums before they could obtain contracts on the construction of the St. John Valley railway.

"I have nothing to fear from any charges made against me," said Mr. McLeod today. "As a lawyer I rendered professional service to some contractors and all the money I ever received from these contractors, was for such services."

Asking concerning the ethics of his rendering legal services in this connection while a provincial minister of the crown, Mr. McLeod replied: "In these days you cannot live by politics alone. I made no bones of practicing my profession while a member of the government."

You Can't Save Money When You're Laid up

There are a lot of people in this town who cannot afford to be sick. Perhaps none of you feel that you can, but certainly some of you can't, for as soon as you are sick, your wages stop and worry and debts begin to pile up. The sensible thing for you to do, as soon as you feel run-down and worn out, no matter what the cause, is to take something just as quick as you can to build up strength and health. Make yourself more comfortable and provide against serious sickness.

We don't believe there is any other medicine made that will do as much towards saving your health and thus helping you save your money as Rexall Olive Oil Emulsion. It is a medicine that gets right at the trouble and relieves it by toning the nerves, enriching the blood, and giving new strength and health to the whole body. It doesn't do this by means of alcohol or habit-forming drugs, because it contains none. Its strength and health-giving power is due to pure Olive Oil and the Hypophosphites, long endorsed by successful physicians, the one for its food value, the other for its tonic value. Here, for the first time, they are combined, and the result is a real nerve, blood, and body-building medicine—a real strengthener that we are proud to tell you about. You don't need to hesitate in using it, because it doesn't do all we say it will and satisfy you in every way, it will cost you nothing. If it doesn't make you strong and well again, come back and get your money. It will be given to you without word or question. Sold only at more than 7,000 Rexall Stores, and in this town only by us, \$1.00. Thos. Wm. Druggist, Water Street, Campbellton, N. B.

Alberta Lumber Company's Premises Get Badly Damaged

By Fire

Vancouver, B. C., April 18.—Damage to the extent of half a million dollars was done by fire which broke out this morning on the premises of the Alberta Lumber Company.

The fire started in the boiler house, and a fierce wind was blowing at the time, though fortunately towards the water. Efforts of the firemen were considerably hampered by bad pressure of water, and danger of a boiler explosion was very great and electric light wires were strewn all over the ground.

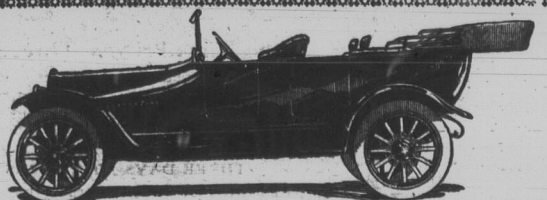

The yards contained millions of feet of lumber.

OBITUARY

MRS. AIME LeBLANC.

An aged and greatly respected lady, in the person of Mrs. Aime LeBlanc, passed away on Sunday, at Carleton, P. Q., in her 79th year. She was the last surviving daughter of the late Doctor Charles M. LaBille, and was a sister of the late Joseph H. LaBille, who for many years was postmaster at Dalhousie. Her late husband, who preceded her many years ago, was one of the most trusted captains of vessels then plying between Bay Chaleur ports and Canadian harbours, as well as Boston and St. John's, Newfoundland. She is survived by four daughters, Mrs. John Mill, Maria, P. Q.; Mrs. Harquill, Athol, N. B.; Mrs. Joseph Cauchon, United States; Mrs. Theo. Landry, Carleton, P. Q.; and by three sons, Jolus and Charles A. of Carleton, and Aime of Cobalt, Ont. She is survived by one brother, Alex. LaBille of Miquasha, P. Q.

The deceased lady, who resided in Carleton nearly all her life, was of a most hospitable and charitable disposition. The remains of a cherished mother, a noble and generous giver, and a Christian woman, were buried on Tuesday, in the R. C. Cemetery at Carleton, Bonaventure Co., P. Q., near the church in which she often knelt to offer her homage to God. Her memory is left behind for her friends to cherish and mourn, but with a prayerful grief, that we may meet her in

that land where there is no disunion, no sorrow and no death.

MICHAEL COOKE

Death visited the home of Mr. and Mrs. Wm. Cooke on April 17th, and took away their son Michael Cooke, at the early age of twenty-six years. The deceased had been in failing health for the past year. The funeral took place at two o'clock Sunday afternoon, and was very largely attended. Rev. Father Daigle conducted the service, interment being made in the Roman Catholic Cemetery. Besides his father and mother, two sisters and three brothers are left to mourn. The sisters are Mrs. H. Doyle and Miss Katie Cooke of Campbellton, the brothers are John, Timothy and George at Jacquet River. The family have the sympathy of the entire community.

FLATLANDS

Just a few notes from our quiet little village. Quite a number of our young men are making preparations for the drives.

We are pleased to have Mr. Fred Ferguson among us again, after a sojourn in British Columbia for the past two years. He intends spending the summer at his home here.

Miss May Ferguson has resumed her studies at Wolfville.

We notice Robert Thompson wearing a pleasant smile. It is a boy.

Mr. D. Hipwell is in our midst, attending to the business of the firm.

We regret the departure of Charles Firth for Kedgewick. May fate prove kind and bring him back safe.

Our village was awakened from its slumber Friday morning, when the church and school came in contact with each other. Many who overheard, thought by the loud words that the church would triumph, but sad to relate, the school came out more than conquer.

Mr. Thos. Montgomery was on a business trip to Campbellton, Monday.

Mr. Charlie Archibald is looking very pleasant these times. Wonder what is the reason?

The Baptist congregation are holding a series of Evangelistic meetings this week, in their Mission House. We trust many will be benefited by these meetings.

Mr. Walter Gillis, our popular J. E. is slowly recovering from injuries received recently.

Mr. John Pollock of Campbellton was in our midst for a few days.

Mr. and Mrs. Arthur Firth are moving into their new home.

COUNCIL DISCUSS POLICE MATTERS

New Arrangement With Policeman so That Town is Protected at Night

(From the Gloucester Northern Light) Another special meeting of the Town Council was convened last Wednesday evening, for the purpose of considering the immediate establishment of a look up for the town, and the appointment of another, or other policemen, and defining their duties, etc.

All the members of the Council were present, except Ald. Power, who was absent from the town.

A lengthy discussion regarding the present condition of police matters in the town took place, and was taken part in by every member of the Board.

Every one recognized the importance of taking immediate steps to make provision for police protection of the town, other than what was existing at the present time, as the people were feeling very unsafe through the night.

When the town was not receiving the attention of any officer. This feeling of almost alarm had been very much increased since it became known that Wm. Gagnier had escaped from the jail, and the members of the Council all recognized the necessity of at once taking steps to allay the general feeling of insecurity. It was then moved by Ald. Shirley, seconded by Ald. Hachey, that the Police Committee be empowered to arrange with Policeman Ramsay, to go on duty at three p. m. and to continue until 4 a. m., for which an increase of \$5.00 per month salary would be allowed. He would also be ready for calls at any hour between 4 a. m. and 8 p. m., for each of which he would receive a fee of \$1.00. This was carried, and Officer Ramsay has accepted the arrangement.

It was moved by Ald. Hachey, seconded by Ald. Poirier, that James Boudreau, the special officer appointed a few days ago, be released, and his wages paid for the time he has been on duty. Carried.

Canada Wire and Iron Goods Co., in reply to the Town Clerk's inquiry in regard to steel cages for the lock up, were read. Ald. Kent moved, seconded by Ald. Hachey, that one single steel cell with steel floor at \$135.00 and one double steel cell with steel floor at \$255.00, be ordered. Carried.

Clerk of the Peace Gilbert, was heard in reference to the Grand Jury's recommendations concerning the jail, which he read to the Council.

Mr. Gilbert also requested that the Council listen to the remarks of Mr. Angus McLean of the Bathurst Lumber Co., and to Mr. A. G. McIntyre of the Pulp Co., who wished to make statements in regard to the difficulties in the way of the establishment of the pulp plant here. Mr. McLean's remarks were practically the same as those published in this paper last week in the form of an interview, and received a very attentive hearing from the Council.
