[Vol. 15]

SUMMARY OF NEWS,

FROM MEXICO.

NEW ORLEANS, Friday, June 23.
The steership Palmetto arrived yesterday from Vera Cruz. Our advices from that city are to the 15th, her day of sailing.
A formidable conspiracy had broken out in the City of Mexico, having for its object the overthrow of the Government, and the extermination of the Peace party—or the party in favor of the late Treaty. The work of assassination had already commenced, five of the prominent advocates of peace, friends of the United States, having been murdered.
The conspiracy is headed by Gen Paredes, Ex-President and Padre Jarauta, the guerrilla leader.
All the United States troops were expected to leave the Capital on the 21st June.

The Palmetto brought four companies of Michigan Volunteers.

Mr. Sevier left the Capital on the 12th, and was expected to arrive at Vera Cruz on the 19th.

On his arrival at Vera Cruz the Custom house at that place would be given up to the Mexican authorities.

A telegraphic dispatch to the Boston papers, from New York, on Wednesday last, says—

Herrera has been installed President of the Republic of Mexico.

Two thousand troops are at Cerro Gordo waiting for the transport ships.

The Yucatecos have sent in numerous petitions to Commodore Perry not to withdraw the troops until the Mexicans provide for the safety of the whites.

The Indians had been repulsed in an attack on Campechy, with a loss of 900 men. Several small towns have been captured and destroyed.

INTERCOLONIAL TRADE.

CUSTOM HOUSE, QUEBEC, 29th June, 1848.

Sir,—I have the honor to acquaint you, for the information of the Trade, that by an order, dated 28th instant, from the Customs department, I. G. O. Montreal, the following articles, being the growth, produce or manufacture of the Province of Nova Scotia or New-Bruswick, are to be admitted to entry free of duty, on satisfactory proof, by affidavit or otherwise, that the same are the bona fide growth, produce, or manufacture of Nova Scotia, or New-Bruswick—viz. :—

Fish, pickled or salted.—Fish Oil.—Coals.—Gypsum.—and Chocolate.

I have the honor to be,
Sir,
Your Obedient Servant,
H. JESSOP?

JAS. DEAN, Esq., Chairman, Board of Trade.
The tickets of 266 seamen who have deserted within the last fortnight from vessels in port, were sent home by the English mail, which left yesterday.—*Quebec Morning Chronicle.*

The Effect of the Disturbed State of Matters in Europe on Commerce.—A correspondent of the Plymouth (Eng.) Journal states the following as an instance of the effect which the present disturbed state of Europe has on trade:—He had a ship at one of the ports of Porto Rico, waiting to take cargo under regular charter, and in consequence of the news arriving of the general disturbed state of Europe, and of the intended chartist meeting on Kennington-common, the merchants refused to load the ship, and in this case the owners of the vessel sustain a very considerable loss. Several other ships were in port at the same time, and also lost their cargoes.

The Montreal papers mention a serious affray on the Canal Bridge, and alleged misconduct of the Lachine Police. An assault, it seems, was committed on a man named Anselme Labranche, for which three of the police have been bound over to appear and answer at the next Quarter Sessions.

Montreal and Quebec Railroad.—The progress of this important undertaking are vigorously, exciting themselves for the completion of the work, which will be another great link in the chain of Railways in North America. The *Portland Argus* says, that the cars would run for passengers between that city and North Yarmouth on the 4th of July, and that at the grading, masonry, and bridging will be completed and ready to receive the superstructure and rails up to the junction at Danville by the first of August, and the Moctonic Falls at Minot early in the fall.

We also learn from the *Montreal Transcript*, that it was intended to commence laying some of the rails on that portion of the Portland line nearest Montreal in the course of the present week. Two or three of the cars intended to run on the line are in a state of forwardness at O'Meara's factory.

The publication of the *Loyalist* has been discontinued for a short time. It is the intention of the editor to remove his establishment to Fredericton, and resume the publication of his paper in that city.—*New Brunswick.*

SERIOUS ACCIDENT.—As Constable George Stockford was driving furiously through the Market Square yesterday, his vehicle came in contact with a cart, throwing him out with great violence, and breaking one of his legs above the knee. We learn that he now lies in a very precarious state.—*Ib.*

In some parts of this county the vines of the Potato are beginning to be affected with a new but probably not very important disorder; it is a small worm which pierces the stalk of the potato an inch or two above the ground, eating its way in, consumes the heart or central portion, when the vine droops and withers as if severed by the cut worm or grub. There are other vines where the grub is not found, and in those it appears that the worm is hatched in the very stalk itself. Its ravages are not extensive as yet. A red rust is affecting the leaves of the beech tree in a manner similar to the rust on some few other trees last season; it does not as a general thing affect the whole leaf but a large part of it; and in many instances one third of the leaves on the trees will be so affected. Some of the ash and balm of gilead trees which were struck with rust last summer have died this season.—*Woodstock Sentinel.*

We are informed that Mr. Drake, the owner of the Boat which plies above the Grand Falls, intends to take the Engines out of that Boat and make an attempt to haul her below, and put her on the route between Woodstock and Fredericton; if he succeeds, he expects to have her ready some time in the Fall, but if the Boat cannot be got over, he intends to build a new one to receive the engine, in which case she will not be ready before next Spring.—*Ib.*

MELANCHOLY ACCIDENT.—A most distressing accident happened at the mill of Messrs. Gilmour, Rankin & Co. in the Parish of Newcastle, on Saturday last, by which a young man of the name of *Langhlon McKay*, who arrived here a few weeks since from Cape Breton, lost his life. A plank was thrown from one of the piles, which struck him on the crown of the head. He was brought over to Chatham immediately for medical assistance, but he expired a short time after, without showing any signs of consciousness. An inquest was held on the body, at the residence of Peter Mead, before Martin, Cranney Esq., Coroner, when a verdict of accidental death was returned. He was interred on Sunday afternoon.—*Gleaner.*

CANADA.

AFFAIRS AT MONTREAL.—The Montreal correspondent of the *Quebec Morning Chronicle* gives the following account of business matters in that City:—

Montreal, June 28th, 1848.
Our town is now assuming a more lively

appearance, and Notre Dame street begins to look cheerful. The travelling season has now begun, to which our hotel-keepers' registers bear witness.

I notice that the new wing to the Montreal General Hospital, built at the sole expense of the Chief Justice Reid, has been begun and is progressing rapidly. The mason work will be completed in about a month.

Produce continues to arrive but slowly. A great decrease has taken place in our exports. Considering all things, the decrease in our receipts is not so great as might be expected from the depressed state of trade, be looked for. In Ashes, we have an increase over last year of nearly 4000 lbs. In Pease, Butter and Beef, we have also an increase. The falling off in Flour is about 107,000 lbs., and in Wheat, 150,000 bushels. Transactions in produce very limited—sales for home consumption only taking place. A splendid class of steamers now ply between here, Toronto and Hamilton, some of which approach, if they do not surpass, our Montreal and Quebec steamers.

GOVERNMENT APPOINTMENT IN NOVA SCOTIA.—John S. Thomson, Esq., to be Queen's printer, in place of J. H. Crosskill, Esq.

The editor of the *Charlottetown N. H. Engle* was recently married to a fortune of \$300,000, as the papers have it. When we were in China men married women, but we suppose that the customs of this country are somewhat different. Well this editor has been off on a tour, as it is fashionably called, (this is another innovation on the Chinese language,) and returned home last week, just in time to indite the following:

HOPE AGAIN.—The editor is happy to take his old seat again, just long enough, this week, to give in his adhesion to "Old Zack"—to promise to resume his labors next week, though from the manner in which his place has been filled he doubts whether he should be missed had he made a complete resignation, and to give some account of his travels.—Where he's been and the things he's seen, sir.

In China people who go on bridal tours are not permitted to tell where they have been, or what they have seen, but we suppose things are different in this country. The very next article in the paper is "Keep Cool." In our ignorance of men and things here, we must suppose that the man's excitement, for he is evidently excited, arises from his having married \$300,000. Such a wife as that is enough to excite the gravest man in Christendom. Judged the bare thought of such an one, is a most exhilarating effect on our nervous system.—What! marry \$300,000. Wonder if such wives can be common in this country.—*Bee.*

Cultivation among Corn.—In many of our exchange papers we see recommendation to be cautious about hurting the roots of corn. Little harrows are recommended instead of ploughs to go between the rows, and farmers are actually told to plough and hoe but twice for fear of doing mischief among the rows late in June.

All this sage counsel originates with men of no experience—with writers who know nothing practically about the business of farming. It is quite an easy matter for some to write, while they draw from their own imaginations all their facts and all their arguments. Young farmers should be on their guard lest they be led astray, and go by moonshine.

There is not the least danger of stirring the ground too much or too late up to the fourth of July. We have seen deep furrows ploughed among corn as late as the tenth of July without any injury to the blades, and only retarding the ripening of the ears for about two days. Still there is no need of ploughing deep among corn thus late, but the surface may be stirred as often as you please till the middle of July; and the soil will suffer less from drought in proportion as the surface is frequently stirred.—*Mass Ploughman.*

THE STANDARD.
ST. ANDREWS, WEDNESDAY, JULY 12, 1848.

Arrival of the

Steamship Caledonia.

The English mail by the steamship Caledonia, arrived here on Monday evening.

We have copied a synopsis of the news from the European Times of the 21st June.

Speaking of Commercial affairs, the European Times says—

"There has been a lull in commercial affairs during the past week owing to the uncertainty which prevails respecting the fate of the measure proposed by the Government, for the future relief of the West India colonies."

The Lumber Market shows no improvement in prices, and but slight demand.

The Cotton market had been steady.

Breadstuffs of all kinds were dull and prices declining. Barrel Flour from the United States remains at 22s to 27s per bushel. Canadian 22s to 26s.

Money is still plentiful, the rate of interest continuing to recede.

The accounts from the manufacturing districts state that business is dull. In Manchester on the whole things look encouraging.

The reports from the agricultural districts are encouraging, the crops were promising an abundant yield—potatoes were plentiful.

IRELAND.—Several of the Bishops have given in their adhesion to the new Irish League. Clubs are increasing to a great extent. The Confederate journals use as bold and daring language as ever, the new paper the "Irish Echo," has not yet appeared. Mr. Holmes has resigned his benchership, in consequence of the benchers refusing to admit Dr. Gray and Mr. J. H. Dunne on account of their Repeal opinions.

The secret committee of the House of Commons appointed to inquire into the commercial distress, and how far it was affected by the Bank Act of 1844, are of opinion that it is not expedient to make any alteration in that act.

FRANCE is still convulsed with internal broils.—Louis Bonaparte has written a letter to the Government, resigning his seat in the Assembly. The Government is daily losing ground,—and the finances of the country are in a most deplorable condition.

The state of the Continent has become more disorganised than ever.

The war in Denmark continues.—In Germany matters are in a very unsatisfactory state.—At Berlin frightful scenes have occurred.—In Italy affairs are not so favourable for the Piedmontese.

The Carlists still infest Aragon.—In Portugal affairs are quiet.

STONE BRIDGES.—During our tour to the upper section of this County last week, we witnessed the operation of the circular from the Executive, ordering Commissioners of Roads in future to construct Stone Bridges instead of wooden ones. At Oak Bay two new bridges have just been built by Messrs. H. Thompson and Wm. Young, the contractors, in accordance with these directions, under the supervision of our friend, Wm. H. Mowat Esq. Road Commissioner; as specimens of art they are well worth inspection, being strongly constructed thoroughly and well finished, and reflect much credit upon the contractors, who have faithfully performed the work, we fear, at such a low rate as

will not compensate them. The road also, has been repaired, to the full extent of the grant.

CUSTOMS CHANGES.—We are informed that by the last English mail orders have been received by the Officers of the Customs at this Port, to repair to the Stations appointed them. Alex. Grant Esq. and Wm. Ellman Esq. will consequently leave for St. John. Mr. Griffith, has been discharged with a gratuity of £50 stg. the office he held having been abolished. W. Whiteside Esq. from St. John and a Mr. J. Garby from Halifax, are appointed to fill the place of Mr. Grant and Mr. Ellman, who will carry with them the best wishes of this community.

European Intelligence

IRELAND.
The County Down anti-Repeal declaration, forwarded for presentation to his Excellency the Lord-Lieutenant, has attached thereto 33,000 signatures.

A Protestant Repeal Association has been established in Belfast, and it is in contemplation to ask Sharman Crawford to become its president.

The Orange Institution has begun to weed its lodges of Repealers. Some two or three members in the north have been expelled for ever for advocating Repeal doctrines.

Day by day the accounts of the harvest are still more gratifying, and we have the fairest prospects of very abundant crops. New potatoes, excellent in quality, are coming into market, although their consumption at present is confined to the wealthier classes.

Dr. Blake, the Roman catholic bishop of Dromore, has given his adhesion to the "Irish League," as well as a large number of the inferior clergy. On the other side, the catholic dean of Ardagh, with the clergy of his deanery, are strongly opposed to the new body.

The Irish Confederation, held a meeting on Wednesday night, in the Music-hall, Abbey-street, to consider the question of amalgamating with the Repeal Association. Mr. Meagher, of the "Sword," was not present, but sent a letter, declaring his despair of attaining national independence, "unless the people are armed, and, being armed, be able and determined to put an end to foreign rule." Denny Lane, Esq. of Cork, took the chair, and Mr. Charles Gavin Duffy, in anticipation of the formation of the Irish League, moved the adjournment of the Confederation *sine die*, giving power to a council of twenty-one to conduct the affairs of the Confederation until the League be formed which motion was adopted unanimously. From a copy of the accounts it appears that the total amount received has been £916 18 1. Out of the balance in hand the sum of £150 was voted to the Mitchell fund. In the course of the proceedings Mr. Dillon made some hard knocks at the shuffling policy of Mr. John O'Connell, which were warmly applauded.

Mr. J. O'Connell has addressed a letter to the editor of the Freeman's Journal, in which he all but renounces having any thing to do with the Irish League. He shrinks from giving in his adhesion to the cause, as he now thinks the coalition cannot be accomplished, or the club movement proceed, with safety to the people.

The Rev. Dr. Maginn, Bishop of Derry, has given in his adhesion to the League; so also has Mr. Henry Grahan, M. P. Lord French has come out as a thorough advocate of the proposed union of young and old Ireland.

The Dublin Confederate clubs are to hold an open air meeting on Sunday next, at Donybrook-green. Of course the police will prohibit the clubs from marching to or from the place of meeting.

Early Hay Crop.—On Thursday last, a field of hay grass, belonging to the Rev. Wm. Knox, minister of Tarves, was being cut down, and is a surprisingly excellent crop. It is strange, that while all the crops are most luxuriant, the hay crop in this quarter should be comparatively a spare one, but so is the fact, and an anomaly that none of our agriculturalists seem able to account for.—Aberdeen Herald.

Hay Making.—Hay-making commenced

on Saturday at Kinnaird Park, in this neighbourhood. The crop was most abundant, and evinced the superiority of artificial manures. A field belonging to Mrs. Boswell of Garrahan was also mowed on the same day.—Ayr Observer.

Intelligence has reached us of the death of Lady Mary Montgomerie Lamb, mother of the Earl of Eglinton and Winton, who was very generally and much respected in private life. She was the daughter of Archibald 11th Earl of Eglinton, brother of Alexander the 10th Earl (the celebrated agricultural improver who was unfortunately shot). She married 29th March 1803, her near relative, the late Archibald, Lord Montgomerie, eldest son of Hugh, 12th Earl of Eglinton, who succeeded to the Eglinton honours and estates destined to heirs-male, and had Issue Hugh, who died young, and the present Earl of Eglinton.

On Thursday the take of salmon was so great in the Tyne, that large fish were sold in the market at sixpence per lb.—A large supply of fine new potatoes, from Lisbon, were on Saturday last, landed at Newcastle quay by Mr. R. Bell, fruiterer, who has been retailing them at 1s. the beam.—Newcastle Courant.

TURKEY.

The Minister of Foreign Affairs at the Porte has addressed a strong note to the Greek Cabinet, demanding that the individual who attempted to assassinate M. Musurus, and who was a Turkish subject, should be delivered up, and threatening measures of retaliation if this were not done. The Greek Government has peremptorily refused to accede to this demand.

NAPLES.

Despatches have been received from Naples to the 11th inst., at which date tranquillity prevailed in that capital. A royal decree was published on the 8th, reestablishing the national guard, which was to consist of twelve companies of 200 men each, to be formed in the twelve quarters of Naples.

ITALY.

The Epoca, of the 6th inst. contains an account of the Roman Parliament on the preceding day. The two councils, under the presidency of Monsignor Mazzarelli, assisted by the vice-presidents, Prince Odescalchi and Count Pasoli, assembled at eight a.m. and went in procession to the palace of the chancellors, where the sittings are to be held. A session was opened by a speech read by Cardinal Alipani, in the name of the Pope, stating that his holiness rejoiced at having succeeded in introducing into the states the political reforms demanded by the times; that the attention of the legislative assemblies would be directed to the state of the laws and administration of the papal territory, and the difficulties of the exchequer; and that the laws promised by the fundamental statute would likewise be presented.

CHINA.

Intelligence from China, dated May 24, has been received. It states that Mr. Consul Alcock had succeeded in the coercive measures he had adopted, and obtained satisfaction from the Chinese authorities at Shanghai, for the outrage on the English missionaries. The culprits, ten in number, are to wear the cangue for one month, at the spot where the offence occurred, as a warning to the multitude; and when the time expires they will be beheaded, and be thus disposed of. Perfect tranquillity prevailed throughout China.

ESCAPE.—John Cunningham, a prisoner confined in the gaol at Dalhousie, County of Restigouche, on a charge of abstracting money from the mails while acting as Postmaster, made his escape from confinement on the 5th ult. The Royal Gazette of the 5th inst. contains a proclamation offering a reward of Thirty Pounds for his apprehension and imprisonment in the said gaol, and describes him as about five feet nine inches in height; sandy complexion; visage sharp and thin; nose long and sharp; hair thin and generally long; since his escape has shaved his whiskers off, and passes himself as second mate of a ship; is very fluent in conversation, and ready with voluntary information.—Courier.

DEDICATION OF NEW MASONIC TEMPLE AT CARLETON.—The Ceremony of Dedicating a new Building as a Masonic Temple, took

place in Carleton on the 21st inst. The members of the lodge, and Members of the lodge, on this side the harbour joined, and assisted at the ceremony after attending Divine service at the Church.—The building for their own purposes, by the Lodge, after but two years, is now nearly finished, and is a very creditable monument to the Masonic Fraternity, that they may long be the object of brotherly interest, and of a commendable regard, and their own pride and glory.

PROVINCIAL APPOINTMENT.—The Lieutenant Governor has appointed William H. Street, Esq., M. P., to the office of Secretary of the Province and Registrar of the Courts and Clerk of the Peace.

By His Excellency JOHN S. B. Secretary's Office, 5th July.

THE SAINT ANDREWS STAR to be published on Wednesday next, our contemporary has prospered, and in expressing our well assured that if industry and endeavor to give satisfaction to a commensurate reward, is clearly open before him.

MARRIAGE.

At the Parish Church, Tuesday the 4th inst., Cozier, Rector, John J. to Isabella Lee, daughter of Peter, all of that place.

DEATHS.

At Fredericton, on the 1st inst., Berton, Esq. youngest son of Berton, Esq. J. C. P. in his age. Mr. B. was born in New York, and was married with the rest of his family to the American revolution, he has since resided and is one of the best merchants in Fredericton.

BANKERS—Bank of New Brunswick
Secretaries & Treasurers—Mr. C. I. Street,
George W. Street, Esq. Agent, St. Andrews.
Alexander Campbell, Esq., Agent, St. Stephens.

THE SOCIETY is established on a mutual and improved system—the most approved in England, and founded on a basis so sound as to give the most effectual security to its members.

THE OBJECTS OF THIS SOCIETY IS—
1st.—To enable persons to become their own Landlords, and purchase Freehold or Leasehold Property, by accumulations made by the Society.
2d.—To provide a safe and profitable Fund for SAVINGS, or INVESTMENTS, for small or large sums of money. (This Society offers opportunities in this respect which no other Institution in this Province can do.)—Savings Banks only pay 5 per cent. whereas this Society pays 6 per cent. Compound Interest.

THE OTHER IMPORTANT ADVANTAGES ARE—
1st.—No money is lent but on security of Real Property.
2d.—New Members are admitted up to the time the Society will end, with equal proportionate advantages.
3d.—Any Member may withdraw the amount of his Shares at any time after the first year, with the compound interest thereon. Shares may be transferred at any time.
4th.—Members may invest their Money in PAID UP SHARES which will necessarily be doubled £100 at the commencement being worth £120 at the expiration.
5th.—Mortgages can be repaid at any time with proper notice.
6th.—The Accounts and Bank Book are open for the inspection of members at every monthly meeting.
7th.—Securities given by all Officers of Trust.

The Board of Directors in St. John have the GENERAL MANAGEMENT of the Society—but for the purpose of accommodating persons residing in other parts of the Province, BRANCH OFFICES, or AGENCIES, are formed—where Shares can be sold immediately and all the payments made, in the various districts; and Local Boards of Management will be established so soon as the number of Shares taken in any district render it advisable.

THE FUNDS are procured from the Monthly Subscription of the Members, and also from Monies invested in Paid up Shares, which will always ensure ample means for meeting the advances required.

THE PROFITS are certain, because the amount paid by the borrower, for an advance, must necessarily form the fund for paying the lender.

THE EXPENSES of the Society are small, as the Officers act gratuitously, with the exception of the Secretaries and Treasurers.

THE FUNDS and EXPENSES form a Contingent Fund out of which the expenses are paid, and the balance which will be very considerably, will go into the general Fund, which will lessen the duration of the Society.

EVERY INFORMATION, with copies of Prospectus, Rules, &c. can be obtained on application at the Office of the Society or at the Offices of the Agents.
By order of the Board,
CHARLES J. STREET,
Secretary & Treasurer.
