**'The Remedy You Breathe'**

Peps are so like the lung-healing Alpine air in effect that a box of Peps may be said to bring 'a pine forest into every home.'

The healing, germicidal Peps medicine is breathed from pleasant dissolving tablets straight to the lungs. In this way, Peps carry comfort and disease-resisting power to all parts of the breathing system.

Germ-trouble in the throat or bronchial tubes is promptly ended, and soreness or inflammation caused by a sudden cold or chill readily soothed and cured.

Peps are the safest, speediest remedy for the throat and chest complaints of young and old; for night cough, grippe, bronchial asthma, laryngitis, tonsillitis, and all other ailments of the throat and chest.

**for COUGHS, COLDS & BRONCHITIS**

PEPS are obtainable at all medicine dealers. Price, 5 for \$1.25 or from The Peps Co., Toronto. TRIAL SAMPLE, for 10 cents (return postage).

**5 Cuts Building Costs**

## 5 ways the Caloric saves you money

The Caloric saves on first cost. Caloric simplicity and quantity production make possible a quality product at a low price.

The Caloric saves on installation cost. No expensive heat pipes, no radiators, no plumbing and only one register. The Caloric is usually installed in new or old buildings by two men in one day.

The Caloric saves on maintenance cost. Caloric parts are few and massive and built for lifetime service. Caloric saves money on fuel. Records in more than 135,000 buildings prove that the Caloric reduced fuel consumption 1/2 to 3/4.

If building a new home, you can reduce construction costs by specifying Caloric heating. With the Caloric, you need but one chimney in the building and very small cellar space.

In addition to these unmatchable economy features, the Caloric is sold under a written Moneyback Guarantee to heat your home to 70 degrees in coldest weather.

## REPORTED GOLD FIND IN GLOU.

J. H. Corbett of Petit Rocher Has Valuable Specimens—Area Staked Out.

Traces of gold have been reported to the Department of Lands and Mines as having been found near Shippegan Village in the eastern extremity of Gloucester county. The find was made by James H. Corbett, a general merchant of the village of Petit Rocher, on the C. N. R., twelve miles northwest of the Town of Bathurst, while at Shippegan.

News of the find was first communicated to Col. T. G. Loggie, Deputy Minister of Lands and Mines, by long distance telephone following the discovery by the excited prospector, who was anxious to secure searching licenses for thirty adjoining areas. These areas are 150x250 feet each and contain approximately seven-eighths of an acre each.

Mr. Corbett had samples of his find with him which were declared to contain gold without a doubt, but Crown Land officials are skeptical of the supposition that gold can be located in the rock formations of Gloucester county in paying quantities.

However, the prospector was not dismayed at the cold reception of his find and will continue his search in hopes of locating further quantities of the precious metal.

Mr. Corbett was formerly a resident of Campbellton a number of years ago.—Gleaner.

## WANTS N. B. REPRESENTATIVE

Provincial Government Presses for New Brunswick Man on R. R. Board.

St. John, N. B. Oct. 14.—The New Brunswick Government at yesterday afternoon's session here, gave favorable consideration to a resolution presented by the St. John Board of Trade declaring for a New Brunswick representative on the new Canadian National Railways Board.

Premier Foster said that the government was ready to throw its whole weight and influence back of the demand.

The matter of car shortage in the province was brought to the attention of the government and action will be taken. It was shown that a considerable shortage prevails at an important time when the lumber movement is marked and it was felt that this portion of the system should not be starved to the advantage of the other parts, particularly the western sections.

In addition to enlisting the support of the provincial government the board of trade is now in touch with the various branches of the board throughout the province and when all replies are received a definite move toward securing a hearing from the Federal Government in the matter will be made.

## LIKELY TO EXCEED \$300,000 MARK

Returns From Automobile License Fees in N. B. Still Growing.

Fredericton, Sept. 29.—Information that a new high record had been made in returns from automobile license fees has been given. The actual receipts to date are about \$250,000, and it is expected that the \$300,000 mark will be reached and probably exceeded when all returns are in.

There are about 16,000 motor vehicles being operated in the province, which would be in excess of 2,000 more than last year.

## TURN TO RIGHT AFTER DECEMBER 1ST

Large Signs to be Erected in Province Notifying Drivers of Vehicle Change.

Fredericton, Oct. 16.—Hon. P. J. Venio, New Brunswick Minister of Public Works, who was here recently on departmental business, is making preparations for the putting into effect of the change in the rule of the road in this province. Large signs are to be erected notifying drivers of vehicles to "turn to the right" after Dec. 1.

## WOMAN TOO WEAK TO WALK

New Works Nine Hours a Day—Lydia E. Pinkham's Vegetable Compound Restored Her Strength

Union Village, Vt.—"I was weak and nervous and all run-down. I could not walk across the floor without resting and had been, for several weeks, taking one bottle of Lydia E. Pinkham's Vegetable Compound. I felt the good effects of it in a few days and I took seven more in all. Before I finished I was able to walk nine hours a day in a steam laundry. I cannot say too much in favor of your medicine. I trust all sick and suffering women will take it. It has been two years since I took it and I am strong and well."

—Mrs. L. A. GUINN, Union Village, Vermont.

This is only one of such letters we are continually publishing showing what Lydia E. Pinkham has done for women, and whether you work or not, Mrs. Guinn's letter should interest you. Many women get into a weak, nervous run down condition because of ailments they often have. Such women should take Lydia E. Pinkham's Vegetable Compound at the first sign of trouble. Good health is necessary and this splendid medicine will help you to keep it.

## LUMBERJACKS IN DEMAND

Two Thousand Recruited From Quebec City—Ontario Taking Many.

(Quebec Telegraph). Estimates made by Mr. Alfred Crowe, Superintendent of the Provincial Employment Bureau, are to the effect that between 1800 to 2,000 lumberjacks from the city and immediate vicinity of Quebec will be employed in lumber camps this winter. This is an unusually large number. The men are said to be leaving at the rate of 75 per week. The Ontario mills, however, seem to be less active than the Province of Quebec firms. The Spanish River Pulp and Paper Company has advised that they have the requirement of men for the present.

The demand by the other companies started early last August and will go on yet for several weeks. This unusual demand for men means employment for a period of six months, with food and board provided. The Ontario Pulp and Paper is in need of a large number of men in its north shore camps. In addition to the large number of men who have found employment in camps through the government bureau, recruiting is going on in the rural districts by a number of agents so that for the present it is difficult to ascertain the exact number of men who will be employed in the forests of the province in the course of the winter.

## POPE SAYS WOMEN'S PLACE IN THE HOME

Message Read at Annual Convention of the Catholic Women's League.

"I wish you to devote yourselves to the family; the family is the centre of all good, and through the family will come the restoration of the world," stated Pope Pius XII, in a message which was read at the opening session of the second annual convention of the Catholic Women's League at Winnipeg recently.

Discussing the aims and work of the league, Miss Guerin, Dominion president, of Montreal, said the organization urged the members to use their influence in public and private relations for restraining immorality in dress and ultra modern dances and all forms of social extravagance and for banning all immoral theatrical productions and encouraging the censorship of films.

"We feel," she said, "that we must be the guardians of Christian morality and must adopt an unwavering attitude on questions bearing upon the sanctity of the home."

Formally opening the convention, Most Rev. Alfred R. Sinnett, D. D., Archbishop of Winnipeg, urged the delegates, who are from all parts of Canada, not to fritter away their time on petty projects, as a good deal was going to depend upon what was done at the convention.

## A NEW USE FOR POPLAR

A method has been discovered by the Forest Products Laboratories of Canada, whereby Canadian poplar can be used in the manufacture of cigar boxes instead of the cigar box from Cuba, which generally cover up imported havanas, and has been regarded as the sign manual of a good cigar. Several Canadian cigar manufacturers have already started making boxes from poplar.

## NEW USE FOR SAWDUST

May Be Converted Into Fodder Says Forestry College.

There is considerable justification for the prediction that the by-products of the sawmill outvalue finished lumber when the large number of uses and the increasing discoveries in utilization of wood are considered, says a statement recently issued by the New York State College of Forestry.

Only forty per cent of our cut timber is utilized. The unused sixty per cent is in such shape that generally it does not pay to use it. The problem of utilizing waste wood consists in turning it into waste products. Alcohol, tanning extracts, turpentine, pine oil, fibre for rugs, carpets, bags and all sorts of fabrics; imitation leather, linoleum, insulating materials are a few of the products obtained from sawmill "waste," which was formerly actually waste, as it was thrown away.

It has been predicted that the by-products of wood, such as wood and "grain" alcohol, may sometimes equal alcohol, which is identical from wood alcohol, may be produced from wood waste in a process that yields other products of value as well, says the State College. This might become a substitute for gasoline in the operation of automotive machinery. Formally derived from wood alcohol (methanol, as it is now called), is used in medicine.

Sawdust as a waste product is a thing of the past. It serves many purposes and has an ever-increasing commercial value. Mixed with clay, it makes good tiles and bricks, and, combined with concrete, a good flooring material is obtained. It also finds a place in industry in the production of certain dye-stuffs. A gas excellent both for lighting and heating can be made from sawdust. Chemically treated sawdust has been used successfully for cattle fodder.

Tanning extracts are made from the bark of oak and hemlock. Turpentine comes from woods possessing necessary resinous content. In fact, virtually every wood possesses important by-product possibilities that may be greatly increased by research work of the utilization experts.

## JOHN PARIS GETS HIS LIBERTY

Allowed His Freedom Upon His Promise to Appear For Trial If Needed.

St. John, N. B., Oct. 18.—John Paris, who was held in custody for more than a year and who was tried five times in connection with the murder of little Sadie McAuley, on August 2, 1921, in Riverview Park here, was this morning given his liberty upon entering on his own recognizance of \$1,000. His case was brought before Chief Justice McKewen in the Circuit Court and application of G. H. Vernon, K. C., counsel for the defendant, for discharge, was heard and granted.

## Vernon Asks Release

When Paris arrived in court he appeared confident and calmly took his seat in the dock. He wore a dark brown suit, sport vest and green tie. After his arrival Mr. Vernon addressed the court as follows:

"John Paris has been indicted for murder and there have been five trials the jury each to a disagreement and their decision was nine for acquittal and three for conviction and I make application now as it appears that the majority of the jurors were favorable to the counsel. I am asking for his discharge from custody as I submit no good purpose can be served by any further trial. There were five trials in one of which there was a conviction, but this was not asked. It would appear by the result of the last trial that the majority were for acquittal."

## Attorney General's Statement

Attorney General Byrne then addressed the court. He said that it was not necessary for him to recapitulate the circumstances of the different trials which has taken place in the case of the King, vs. John Paris. He explained that in the first trial the jury stood seven for guilty and five for acquittal; in the second there was a unanimous verdict for guilty; in the third, seven were for guilty and five for acquittal; in the fourth ten were for guilty and two for acquittal. The last he said, was the first trial that the jury by a majority pronounced in favor of the innocence of the accused. Under the circumstances, he said, the Crown felt that it had adduced all the evidence that it was possible to adduce before the jury and, coupled with the fact that at the last trial new evidence was adduced that was not adduced on previous trials, and the sentiment of the jury having expressed itself against the guilt of the accused, the Crown felt that under the circumstances it was useless to proceed again to trial of the accused. The Crown, however, would not consent to an absolute discharge of the prisoner, which was not in accordance with the practice in the province. If the prisoner was allowed his liberty, he said, he felt he should enter on his own recognizance to appear when called upon to further answer the charges which hangs over him.

Mr. Vernon said he conceded that, and that was really what he intended to ask.

## Recognizance for \$1,000

Paris, upon entering upon his own recognizance for \$1,000 to appear when called, Chief Justice McKewen said: "You may go Paris, on that condition."

## Sir Lomer Gouin Rapid Grow

Predicts Dominion Will Gain Population of 13,000,000 Liberals in Power

Montreal, Oct. 16.—"We are going to remain in power for ten years at Ottawa; at the end of that period there will be a census and if we cannot show a population of from 12,000,000 to 13,000,000 in Canada you will have ample reason to change the government, and we shall deserve to leave."

was able to commit an indiscretion that Sir Lomer Gouin made the above statement today in an address before the Montreal Women's Liberal Club. Speaking of the role of women in politics, Sir Lomer declared, women's role was to be the soothing element in the strife among men. "She should be the mediator and should watch out for wisdom and justice in everything."

Under the circumstances, he said, the Crown felt that it had adduced all the evidence that it was possible to adduce before the jury and coupled with the fact that at the last trial new evidence was adduced that was not adduced on previous trials, and the sentiment of the jury having expressed itself against the guilt of the accused, the Crown felt that under the circumstances it was useless to proceed again to trial of the accused. The Crown, however, would not consent to an absolute discharge of the prisoner, which was not in accordance with the practice in the provinces. If the prisoner was allowed his liberty, he said, he felt he should enter on his own recognizance to appear when called upon to further answer the charge which hangs over him.

Mr. Vernon said he concurred, that and that was really what he intended to ask.

Recognizance for \$1,000.

Paris, upon entering upon his own recognizance for \$1,000 to appear when called, Chief Justice McKinnon said: "You may go Paris, on that condition."

## Sir Lomer Gouin Sees Rapid Growth of Canada

Predicts Dominion Will Have a Population of 13,000,000 in Decade—Liberals in Power 10 years.

Montreal, Oct. 16.—"We are going to remain in power for ten years at Ottawa," at the end of that period there will be a census and if we cannot show a population of from 12,000,000 to 13,000,000 in Canada you will have ample reason to change the government and you shall deserve to leave."

was able to commit an indiscretion that Sir Lomer Gouin made the above statement today in an address before the Montreal Women's Liberal Club. Speaking of the role of women in politics, Sir Lomer declared women's role was to be the soothing element in the strife among men. "She should be the mediator and should watch out for wisdom and justice in everything."

## BOOTLEGGING ON PACIFIC COAST

Lay Speaker Denounces Government Control of Liquor Traffic.

Toronto, Oct. 16.—The closing session of the Methodist general conference on Saturday night was marked by an attack by a lay delegate, George Bell, of Victoria, on government control of the liquor traffic as they have it in his province. He declared that the amount of drinking under the present system was practically equal to the days of open bar. The amount of bootlegging in British Columbia was appalling and the evils spread thereby have already broken the heart of one Attorney-General and was disheartening another.

The profits accruing to the province from the sale under government control had been enormous. More than \$7,000 a day was going into the Treasury of British Columbia. The speaker therefore warned the conference not to allow the spread of government control into the other provinces, as once it secured a foothold the enormous profits it yielded provincial treasuries was such a temptation as to make the return of prohibitory laws very difficult of attainment.

In the concluding address of the conference, Rev. Dr. Chown, the general superintendent, declared it to have been the keenest and yet the sweetest general conference he had ever attended, and that went back a good many years. He said the delegates must go forth convinced more than ever of the necessity of increased zeal in the work of strengthening the church and increasing its powers during the next four years in spreading the glory of God.

The tobacco supporters among the Methodists seem to be dying a lingering death, and what was doubtless the last word on the subject, so far as this conference is concerned, was heard in the afternoon when a telegram was received by the general secretary, Rev. T. Albert Moore from J. H. Burnham, of Peterboro. The telegram was: "Now that you have condemned the use of tobacco, what are you going to do with Almighty God who gave it to the world?"

The conference declined to answer the question.

LOT OF AMERICAN MONEY

Canadian money is now quoted at a premium of 3-32nds of one percent in New York and in consequence the local banks are now discounting American currency. There is a lot of American money in circulation here at the present time and the opinion prevails that people who hoarded it while it was at a premium are now seeking to unload. It is said that some local merchants on checking up their day sales often find that as high as fifty percent of the total is represented by American funds.—Frederick Mail.

Subscribe to the Graphic, \$2.00 per year.

Asked as to his plans for the immediate future, Paris said he was going home to Truro, but aside from that had nothing to say.

When he left the court he was met by some colored friends, who congratulated him on his release from custody.

Accompanied by a friend and a member of the Salvation Army, he proceeded along Germain street.

## AMERICAN PEOPLE DEMAND THEIR POUND OF FLESH

Will Not Recognize that Great Britain Has Been fighting on side of Americans for years—If Germany Had Won Then What?

(By a truth Toney in the London Times)

After four years of talk about treaties that are unworkable and universal peace which hasn't arrived, the Prime Minister and his government have come to the conclusion that something must be done about international indifference, and that quickly. From the debate of last Friday and from various articles in the press, I gather that, speaking broadly, Great Britain is to write off the eleven hundred millions owed to her by France, Belgium, and Italy, whilst the nine hundred odd millions which Great Britain owes to the United States (more than two-thirds of which, Sir Robert Horne tells us, were borrowed for the purpose of lending to the Allies) are to be funded; that is to say, their repayment is to be spread over a fixed number of years, during which interest and capital are to be repaid. England's debt to America is now what bankers call "at call"; that is payment of the whole may be asked at any moment; and the usual compliments and flattery are being showered for their kindness in allowing the debt to be funded. I am sorry that I am unable to see the reason for all this flattery of Americans, or in what the generosity and kindness of the American Government consists. The money is "at call," it is true; but if the Americans were so minded, how could they enforce their call? They might annex Canada, and seize the West India Islands; but that, of course, would mean war, which is at present unthinkable. The whole thing is muddled, and the point of view wrong, because we will not lay aside our customary cant and realize the motives of the belligerents in the Great War.

Germany went to war, not because she was being encircled out because, knowing that she was ready whilst the rest of the world was unready, she thought she could match the league followed in due course by the membership of the Western Hemisphere, money of Europe, like Napoleon, to be France, Belgium and England went to war to save their skins; all the talk about making the world safe for democracy, about the sanctity of treaties, the violation of Belgium, etc., may be brushed aside, as the "common form" of politicians and diplomats. We were all fighting for our lives; but the point which seems to have escaped observation is that the Western Hemisphere was just as much threatened as the Eastern and that the life of the United States as a nation was just as much in peril as that of the European Entente. For what would have happened to America if Germany had won the war, as she very

nearly did in the spring of 1918. After making the whole of Europe her tributary vassals, and demanding her fleet from Great Britain, Germany would then, in possession of the European seas, have made an alliance with Japan. The Pacific would have become a German-Japanese lake; America would have lost her islands Hawaii and Manila; and the author of the "Valour of Ignorance" has shown us how easy it would be with Honolulu as a naval base, to occupy and hold the Western States of America and Canada. In short, the war was from the beginning just as much an American as a European war.

The United States were as vitally interested in the defeat of Germany as England, France, Italy or Belgium; added to all this there is the fact that during the last century, England by her fleet and by her diplomacy has protected the United States during its growing up from any hostile interference. When, about twenty years ago Spain and the United States were at war about Cuba, the German Kaiser wanted to intervene on the side of Spain. Lord Salisbury told him quite plainly that any European Power which meddled with the United States would have to reckon with England, and needlessly to say, the Kaiser dropped his project.

If seems incomprehensible that the American Government should not have perceived that the European Entente was fighting the battle of America as well as its own; but for the first two years of the war they did not see it, or perhaps the German vote was so strong in the East and Middle-West that Mr. Wilson and his Democrats chose to shut their eyes. At that time Wilson invented the unhappy phrase "too proud to fight." But after the war had swayed to and fro two years, certainly without advantage to England and France, and after the sinking of the Lusitania, it was no longer possible for the most provincial or pro-German American to ignore the fact that America as well as Europe was in danger, with the result that the Americans came into a war which they should have joined from the beginning. I suppose that no educated American, as distinguished from newspaper, politician and German or Irish wirepullers, will deny any of the foregoing statements. If he agreed, therefore, that the great war was, from the beginning, just as much an American as a European struggle for freedom of life and property, then I fail altogether to see why there should be this distinction between the debt owed to England by France, Italy, and Belgium and the

debt owed to the United States by England. If we had borrowed this money from America for our own amusement, or for policies of social reform, or to assist in increasing our naval strength, I could understand America pressing for the funding of the loan; but seeing that every penny was borrowed for the great common cause, and that more than two-thirds was immediately re-lent to the Allies, for the life of me I cannot see why Great Britain should be placed as a debtor upon a more disadvantageous footing than France, or Italy, or Belgium.

It may be said that America has lent sums of money outside the nine hundred millions to help the other European nations. So has England; we have lent five hundred millions to Russia, for instance, and heaven knows that we have lent to Czechoslovakia, Jugoslavia, Greece, Serbia, Mesopotamia, and Palestine. I should say that, taking it all round the amount of money lent by England and the United States for the common cause of the Great War was about equal. Unfortunately, England has lent to the nations which are now hopelessly bankrupt—self-determination will liquidate no balances—whilst America has lent by far the greater amount to Great Britain, whose credit is still irreproachable. That, no doubt, was very prudent of the Americans; but does it entitle them to the praise of more than prudence? Why should our debt to the United States be treated by Mr. Asquith and Sir Robert Horne as "a solemn obligation," whilst the debts to us of France, Italy, and Belgium are to be treated as the excesses of financial need, in payment of which worthless German bonds will gladly be taken?

Making every allowance for the polyglot American vote, chiefly German and Irish, it is a pity that the American Government does not feel itself strong enough to do the obvious thing, to treat all war debts alike. There really is no reason why Great Britain should go about for the next century with this millions of nine hundred millions round her neck, whilst the other belligerents go scot free; and there is danger in such a policy, for three never can be real good will from the British people towards the United States so long as we have to go on paying fifty millions a year under a sense of injustice. Prime Minister and President may fall upon each other's neck; ambassadors may bandy fulsome compliments; newspapers may call upon newspapers across the Atlantic in gushing journalism about the friendship of the two

## FIRES THIS YEAR NOT SO BAD

Resume Shows Conditions Better and Financial Loss Much Less.

Fredericton, N. B. Oct. 16.—The department of lands and mines reports a small acreage covered by forest fires during the season and also low monetary damage.

The period in which one has to secure a permit to set a fire, ended yesterday. Although the act provides the fire may be extended, it is not expected that this will be necessary this season, as the conditions are fairly safe since the rains of the last week, which were fairly general.

Considerable burning of slash has been done during wet periods, and the wardens are everywhere urging fall danger of spring burning. A torch burner supplied the wardens in Restigouche, 1922, to 1921, and 1920, and 1919, helping the settlers to burn their slash.

A tabulation of the statistics on fire during the last season shows 104 reported burning over 6,801 acres, 2,10 of which was crown land and 4,700 private land. This is low compared to the average for the acreage burned in 1921, which was 84,000 acres, or the average for the last four years, which was 2,000 acres. The total damage to private and crown lands from forest fires was \$17,280, of which \$2,564, was damage to crown lands. The total damage during the last four years has been \$550,000. The total cost of extinguishing fires amounts to about \$2,200, as compared to around \$80,000 last year.

Many fires have been extinguished without cost by the county, councillors and owners of private land while the fire fighting on the forest lands of Westmorland county is paid by the county.

Of the 104 fire reported thirty-five were railway fires, but caused little damage, due to prompt action by the railway authorities. Thirty-four were caused by fishermen, smokers, hunters and others in the forest. This shows an improvement over last year. It is the intention of the government to enforce the travel permit clause next year and thus eliminate the fires from this cause. The total number fires reported last year was 495.

Mr. Peck—"Do you know that you talk in your sleep, Henry?" Mr. Peck—"Do you begrudge me those few words?"

nations; but so long as that ugly debt remains there will always be danger. What, for instance, do the Americans think a Labor Government would say to these nine hundred millions? If, however, the American Government persist in funding our debt to them, whilst we forgive all our debtors; if they are too proud to follow our example in dealing with a common debt for a common cause, so be it. There is nothing to be done. But for God's sake let us all stop this slobbering of the Americans with fatuous flattery; let us keep them at arm's length, and deal with them in all things on strictly business terms. I doubt whether, in the long run, this will turn out to the advantage of the United States in dealing with Britain and Europe; nor have I space to deal with the effect upon American trade of this large annual inflow of British payments in the shape of goods.

## Will Lift Ban on Postal Notes to U. S.

Will be able to send Notes to United States in about Three Months—New Forms being Printed.

Ottawa, Oct. 16.—Within three months the ban placed by the post office department upon the sending of postal notes to the United States will be removed. That could be done now but for the fact that all the postal notes for use now in the use in the various offices in Canada have printed across

## WERE IN AIR OVER THIRTY-FOUR HOURS

French Aviators, Did Not Attain Record Made by Two Americans.

Lebouget, France, Oct. 16.—The French aviators Lieut. Bossoutrot and M. Drouin who ascended in a Goliath bi-plane at 6.13 Saturday morning in an attempt to beat the duration flight record recently made at San Diego, Cal., by Lieut. John A. MacReady and Oakley Kelly, landed in the air here at 4.27 yesterday afternoon having remained in the air 34 hours 14 minutes and 32 seconds. They thus failed to equal the record of MacReady and Kelly, which was 35 hours, 16 minutes and 39 seconds.

The French Aerial Federation, however, considers the mark set by Bossoutrot and Drouin an official world's record, contending that the United States flight was conducted under such conditions as will not be accepted by the International Federation, of which the United States is a member.

"I have been to America and half way back again," Lieut. Bossoutrot said to the Associated Press correspondent as the latter greeted him on alighting from the plane wrapped in heavy furs. The aviators were forced to land through lack of gasoline, of which they had taken 4,300 litres when they started. When informed that his performance did not break MacReady's flight, Bossoutrot remarked: "I don't see how he could do it with the gas, he is reported to have run aboard."

The Goliath travelled 3,200 miles, according to instruments; which were sealed before the departure, and remained within 600 to 1,000 feet altitude for the first twelve hours. When the gasoline load lightened it ascended to 5,000 feet, and remained there throughout Sunday.

FOR TEMPERANCE IN GREAT BRITAIN

Churches Are United in Campaign for Betterment of Conditions in the Old Land.

London, Oct. 17.—The English churches, embracing practically every denomination, are setting out upon a temperance campaign on the large scale this autumn. "Pussyfoot" tendencies, however, are rigidly eschewed by the promoters, which number the entire bench of Anglican bishops nearly all the prominent non-conformists, the Cardinal Archbishop of Westminster, and General Booth. A central fund of £30,000 pounds is being sought for.

BOY KILLED IN QUEBEC WOODS

Three Rivers, Que., 16.—While hunting with some other boys on Sunday afternoon in a wood near St. Anne de La Perade, Bernard Du Tremblay, aged 15, was accidentally shot and instantly killed, so it is reported by Antonio Ricard.

It is said that there had been an altercation in which the entire party was involved. Considerable mystery surrounds the case. Du Tremblay was a nephew of Pamphile Real Du Tremblay, former ex-M. P. for Outremont.

From a story—"he glared icily at him and his words froze upon his lips."

## High Cost of Living Has Nothing on Hicosta Russian Passports

"Prepaid" Russian immigrant family. Let to right, Chono, 77; "Ted," 13; Sonia, 10; Esther, 16; Mrs. Taperov, 51 and her husband, Yankel, 56.

The Taperov family, Russian immigrants, recently arrived "prepaid" in New York on their way to Boston. They arrived at the Reliance after their passage had been prepaid by a special arrangement with the soviet government.

## LOCAL ITEMS OF INTEREST

News Notes of Town and Country Happenings—  
Gathered by Graphic Reporters.

### MARRIAGE ANNOUNCED.

The marriage of Florence Rousie and William P. Anz both of Campbellton is announced, having taken place on July 18th 1922, the Rev. J. S. Harrington officiating.

### NEW GRAMMAR NEXT YEAR.

The Board of Education of N. B. has prescribed Jones, Horning and Morrow's High School English grammar for use in the public schools after July 1st, 1923, superseding McKie-John's English grammar.

### WOMEN DEBARRED.

Once again women have lost out in their effort to gain admittance to the Methodist ministry. By a vote of 17 to 16, the discipline committee of the General Conference has decided against recommending their admission to the pulpits of the Methodist Church.

### CHANGE IN SHIPPING.

After December 31, 1924, the railway companies of Canada will not handle molasses shipped in puncheons. This decision is contained in an announcement from the Canadian Freight Association.

### PLEASANT HUNTING TRIP.

Messrs. F. E. Dennison, Moncton; A. R. Brown, Chatham; John T. Reid, I. W. Steeven, H. G. Milligan and H. B. Anslow of Campbellton, spent two weeks vacation at Pope Logan and Indian Lake Camps of the Royal Hunting and Fishing Club, returning last Saturday. Among other games they shot a very large black bear. The honor for this capture fell to Messrs. Brown and Dennison.

### CARD OF THANKS

We wish to thank our friends and neighbors who kindly assisted us during the illness and death of our dear mother also those who sent flowers—Flora Chatterton, Joshua Chatterton and Mrs. Henry Jacobson.

### HAD GOOD LUCK.

Mr. W. P. Anslow, a member of the Boston Post staff, and a brother of the editor of the Graphic spent a week in the woods in the vicinity of Loch Lomond with Henry Benson and succeeded in getting a moose, deer and a red fox. Mr. Anslow accompanied by his daughter, Miss Dorothy, returned to Boston by boat Saturday.

### HERE EARLY IN NEW YEAR.

J. Bruce Stewart, secretary of the Canadian branch of the Royal Canadian Curling Club, Montreal, has received a cablegram announcing that Scottish curlers who will visit Canada will leave on the steamer Victorian in December for Halifax. He says the curlers ought to be in Halifax early in the New Year.

### DRIVE TO THE RIGHT.

Communications have been sent by Hon. P. J. Vendor, minister of public works, to all of the teachers in the schools of the province, requesting them to inform the pupils that the change in the rule of the road from "drive to the left" to "drive to the right" becomes effective on Dec. 1, 1922. In this way notice of the change will be given to the great majority of the people in the province.

## Fall and Winter

Coatings, Suitings  
and Kimona Cloth

We have just received a full line of the above, which are marked very low. In fact they are EXCEPTIONAL VALUES!

### KIMONA CLOTH

A nice range of attractive designs and colors, Prices, 72 inches wide, \$2.50 per yard.

**MARQUIS & CO., LIMITED**

CAMPBELLTON, N. B.

## GILLET'S LYE

Comparatively few people realize to what extent Gillett's Lye can be used to advantage in every home. For instance, with one can of Gillett's Lye and five and a half pounds of lard or grease, ten pounds of good hard soap can be made. Use one tablespoon Gillett's Lye in gallon of water for cleaning and disinfecting refrigerators, sinks, garbage cans, tiled floors, baths and toilets.

Useful for over 500 purposes.

### INCREASE IN APPLE CROP.

Official estimates place the apple crop in Quebec this year at 75 per cent in excess of a year ago. The potato crop is placed at 36,089,000 bushels, which is much the highest of any province in Canada being almost double that of Ontario, the nearest competitor, with 18,480,000 bushels. New Brunswick comes third with 9,715,200 bushels.

### FIRST RADIUM FOR N. B.

What is believed to be the first radium to be introduced into the Maritime provinces will be brought to St. John's next week by the steamer Victorian. Hon. Dr. W. F. Roberts, minister of health, left on Saturday night for Pittsburgh to take a course in the physics of radium and later will study in the hospital in New York and Boston where radium is applied. He will secure a sufficient amount for St. John to treat superficial and deep pathologic cases. He said he meant to make radium treatment available to as many as possible.

### EXPLOSION ON SUBURBAN.

While waiting at Dalhousie Junction to meet the south bound Ocean Limited on Friday of last week an explosion occurred on the new steam car which recently replaced the electric one as a suburban between here and Bathurst. Mr. Van was temporarily operating the new car was seriously scaled and Edward Doyle of Moncton who happened to be in the engine compartment at the time was also injured though not seriously. First aid was rendered the injured men without delay and Mr. Van was taken to the Soldiers' Memorial Hospital here. For a time he was in a critical condition but is now reported as resting comfortably and improving as well as can be expected.

### TRAVEL PERMITS NEXT YEAR.

The Advisory Board of the New Brunswick Department of Lands and Mines at its last meeting decided to adopt the system of travel permits for all persons entering the main forest area of the province, similar to the system in effect in the Province of Quebec. This permit-system is a precaution against fire and conditions have been such during the past year in this province and elsewhere that many forest-fires have been assigned to carelessness on the part of casual travellers. Official notice is given that after May 15th, 1923, travel-permits will be required of all persons entering main forest lands. Official notice also is given that the New Brunswick Sealers' Act 1922 will be put in effect October 1st, 1923.

### EMINENT LECTURER HERE.

Dr. C. W. Saleeby, F. R. C. S. of London, England is in Campbellton today and will lecture on some of the worlds present problems at 8 o'clock this evening in the Presbyterian church. Dr. Saleeby has a world-wide reputation as an orator and evangelist and is associated with the leading men throughout the world in different departments of international affairs. He is recognized as being one of the cleverest speakers on a platform in the old country. It happens that the famous doctor has one day to spend between Bathurst and Campbellton and has been induced to address an audience here tonight.

Dr. Saleeby was associated in medical work with the late Sir Victor Horsley, the great English physician who was sent by the British Government to Mesopotamia during the world war. He has also been associated with other leading men of our day and has an intimate knowledge of world affairs. The lecture this evening by this eminent speaker promises to be an oratorical treat.

BORN—October 19th, to Mr. and Mrs. R. P. Dunphy, New Glasgow, N. S., a son, Aloysius Boyce Hogen.

### JAM SHOWER.

The ladies of the S. M. H. Aid have decided to hold a Jam Shower on Friday, November 3rd. All persons wishing to donate jam, preserves, canned fruit or jelly will kindly leave at the following homes on that date: Mrs. Alex. McLennan, Mrs. Wm. Richards, Mrs. W. H. Miller.

### CHANGE IN BUSINESS.

S. W. Dimock is adding to his coal business by handling flour, feeds of all kind, hay and oats. He has already received a car of reedman western oats, which he is now selling at the lowest price in town. Mr. Dimock's intention is to do business on a cash basis, and sell at a small profit. He expects a car of hay to arrive in a few days and in the near future will have one of the best grades of flour that is on the market, as well as a full line of feed of all kind. Always a good stock of coal on hand at the lowest prices in town.

### WANTED.

One young lady in each town in the Maritime Provinces with population of 400 to 2,000. Each will be established an sole owner of a general merchandise agency with a local office and sales rooms. Capital required at start \$100.00. Must be willing to canvass at times and able to instruct and supervise other workers. Best of references required. For such a person we have a wonderful proposition to present. If you want profitable, healthy, pleasant work and feel you can qualify—then write us at once. Tell us about yourself and your town in first letter.

FREEMAN SALES SYSTEM,  
Dept. "G",  
Oct. 19-1-pd. Weymouth, N. S.

## NO COMMUNION WITH DEAD

Magician Houdini Declares His Disbelief in Claims of Spiritualists.

Boston, Oct. 18.—Morbidity and melancholia induced by interest in psychic phenomena threatens the health and sanity of many persons in the opinion of Harry Houdini, president of the Society of American Magicians, expressed at the annual dinner of the society here. He spoke of his 25 year's investigation of the subject and said he had never seen anything to convince him that there had been a single communication from the dead.

"I have never seen any of the mediums or spiritualists do anything or produce a single effect which I could not, through my knowledge of magic, account for or duplicate," he asserted.

"I have had nine pacts with the dead, who while alive agreed with me to try to communicate with me from beyond, but each has been fruitless."

He said he had worked with Sir Oliver Lodge and other scientists engaged in the study of psychic phenomena and respected them.

"But," he added, "when I demonstrate to them the secrets and reveal the methods used by mediums and they tell me that I too am a medium, in spite of myself, I am forced to conclude that they merely do not know."

"I have seen people who previous to the war never concerned themselves with things psychic now delving into it to the point of hysteria. It is conducive of morbidness, brooding and melancholia. It becomes an obsession very quickly and I would warn against it. It is threatening the health and sanity of those who indulge in it."

## CANADA CAN HAVE CHEAP IRON

Reports of Iron Strike. North of Hope, British Columbia, Received.

Hudson's Hope, B. C., Oct. 17.—Western Canada can have the cheapest supply of iron and steel products on the continent, in the belief of W. A. Rae, of Grande Prairie, who has forwarded reports of an iron strike north of here by three prospectors.

Original discovery was made by Bill Carter, Bill Jones and Fred Blanchard, all well known prospectors, well acquainted with the district.

According to Rae, upon arrival at Hope the prospectors recorded many claims. The showing lies 30 miles northwest of town and covers about 60 miles of territory, and up to the present time nine foot pits have failed to reach bottom or to show a decline in the value of the ore.

Analysis indicates the ore is 60 per cent. pure iron, self-fluxing and free from impurities.

## CANADA'S TRADE SHOWS INCREASE

While General Trade Expands and Exports Increase Imports Lessen.

Ottawa, Oct. 16.—The tendency of Canada's trade to expand, her exports to increase and her imports to remain about stationary, or decrease, at present, is shown in the summary of the Canadian trade covering the first half of the fiscal year, issued by the Department of Customs and Excise, today. The first six months of the fiscal year closed on September 30, last.

On that day the grand total of Canadian trade stood at \$759,874,880 or \$57,954,156 more than in the six month period which ended September 30, 1921, when it totalled \$721,710,724. When the figures for the month of September of the present year are compared with those for the same month in 1921, an increase of \$13,857,005 is shown. In the month of September alone this year Canada's trade totalled \$133,252,691, as against \$119,395,686 in 1921.

## Papal Nuncio to Poland Meets Star of German Passion Play

Anton Lang with the Polish papal nuncio.

During the visit of the Polish papal nuncio to Oberammergau he received in audience Anton Lang, the famous Christus of the Passion Play which he had witnessed.

## TRIBUTE TO MEMORY OF LATE MRS. BOVARD

A very impressive memorial service was held in the S. A. Citadel last night in memory of the late Mrs. W. S. Bovard, who had been a valuable worker in the local corps. The service was opened with the singing of "Hiding in Thee" after which Lieut. Stevens read the Scripture.

After the singing of "There is a Better World" Commandant Hargrove paid a glowing tribute to the late Mrs. Bovard. He was followed by Mrs. Duffield, Mrs. Howe, Mrs. Watts, Junior Sergeant Major Smith and Mr. C. Lates, all of whom spoke highly of the deceased and of her sterling worth and Christian character.

Mr. and Mrs. Watts rendered a vocal duet; Mrs. Archibald sang a very impressive solo; and the Band was present and rendered, very impressively, "Abide With Me," under the direction of Bandman Knapper. One soul came forward at the close—Moncton Times.

## THE EDITORSHIP OF THE WESLEYAN.

In a report of the Methodist conference, in session at Toronto, the following paragraph occurs:

"Dr. W. Johnson editor of the Wesleyan, the Maritime publication, came under the regulation adopted earlier in the day which provided that no one who has reached his 70th birthday shall be appointed a general conference officer. He was seventy years of age yesterday. The only ballot to be taken will be on the appointment of the Wesleyan editorship for which the names of E. J. Thomas and R. O. Armstrong have been presented."

**SNOW STORM IN MONTREAL.**  
Montreal, Oct. 18.—Shortly after noon today Montreal experienced a severe snow storm, and its severity made up for the fact that it was six days later in coming than last year when the snow fell on October 12. The blizzard resulted in one casualty. A man, blinded by a sudden gust which swept the flakes into his eyes, fell into the hold of a vessel moored in the harbor and suffered several minor injuries.

## OBITUARY.

Mrs. Wm. J. Bovard.  
The death occurred at the home of her parents in Montreal, on October 10th, of Maude Duncan, beloved wife of William J. Bovard, of Moncton after a lingering illness.

The funeral service was held in Montreal on Thursday afternoon at 2:30, Rev. Mr. Morris, Anglican, officiating at Mount Royal Cemetery.

The late Mrs. Bovard was the daughter of Mr. and Mrs. William Duncan, of Montreal, formerly of Campbellton, N. B., both of whom survive her. She was twenty-eight years of age and had been ill nearly a year. Besides her husband and parents, she leaves three brothers, James and William, of Montreal, and George of Campbellton; also four sisters, Lida (Mrs. W. R. Middleton) Montreal, and the Misses Mary, Jean and Dorine, of the same place. Being a woman of sterling character, she had many friends. The sympathy of the community goes out to the bereaved husband and other relatives.

Mrs. William Hobert.  
The death of Mrs. Wm. Hobert of Ferguson Manor took place on Sunday last. The deceased lady who was in her 32nd year, was a daughter of Mr. Alex. LeFurgey of Tide Head, and was esteemed by all who knew her. She leaves to mourn the loss of a kind and devoted wife and mother a bereaved husband and infant child. The funeral services which were held on Monday afternoon, Rev. Mr. Salter officiating were largely attended.

A pretty wedding took place at the  
Baptist parsonage, October 18th, when  
Rev. W. Camp united in marriage  
Robert Hiram Guy McLean, of Nash  
Creek, N. B., to Miss Bessie Louise,  
daughter of John Albert Taylor of  
Richardsville.VARIETY SHOWER.  
On Thursday evening a large num-  
ber from Loggieville and Chatham  
motored to the home of Mrs. John B.  
Murdoch and tendered a variety show-  
er to Mr. and Mrs. Jas. R. Murdoch  
who were married recently at Nelson.  
The evening was spent in music and  
dancing and a dainty lunch was serv-  
ed. Mr. and Mrs. Murdoch received  
many beautiful gifts.—Leader.A TREAT IN STORE  
Readers of James Oliver Curwood's  
great story "The Valley of the Silent  
Men" will no doubt be glad to hear  
that the screen version with Alma  
Robbins and Lew Cody heading the  
cast will be shown here at the Opera  
House next Wednesday and Thursday.AUXILIARY WATER SUPPLY.  
A substantial concrete dam is being  
erected across the Walker Brook as  
the entrance to the racing park. By  
means of this construction the town  
will be provided with any auxiliary  
water supply in times of drought or  
in the event of any emergency for an  
electric pump of adequate horse-pow-  
er is also to be installed. This is ap-  
parently a wise move as there have  
been times when the town's water  
supply has been alarmingly low.WHO WAS HE.  
We have received a letter from Out-  
arke enquiring about S. H. Allen, who,  
writing from Matapedia, Que., offered  
paper stock from a receiver's sale of  
a paper mill supposed to be located at  
Matapedia. One party sent a check  
for \$70.00 for goods but has heard  
nothing further in reference to the  
goods. Does any reader of the Gra-  
phic know this party as Ontario pub-  
lishers would like to get in touch with  
him.ELECTED PRESIDENT.  
At a meeting of the Moncton Board  
of Trade held Tuesday evening Mr. F.  
E. Dennison, well known here, was  
elected president of the Board. Speak-  
ing of Mr. Dennison the Transcript  
says: "Mr. F. E. Dennison, the new  
President of the Moncton Board, is an  
enterprising business man, and with  
him at the head the Moncton board  
should be a real strength to the Mar-  
itime organization."PRESENTATION.  
The young ladies of the local and  
Dalhousie branches of the N. B. Tele-  
phone Company on Tuesday last pre-  
sented the manager, Mr. B. O. Bates,  
with a beautiful brown leather club  
bag. The presentation took place in  
the office here and Mr. Bates in a few  
well chosen words thanked the young  
ladies for their kindness. Mr. Bates  
leaves shortly for Sussex, N. B., where  
he has been transferred.ASSAULT CASE.  
Gagetown, Oct. 17.—Arnold Lyons,  
of Hibernia, Queens Co., who invaded  
the N. B. Telephone office at Gage-  
town last week, was up before Magis-  
trate Peters at that place on Monday.  
He was tried on two counts. The  
first was for assault on Mr. A. Ash-  
burne, who had come to the opera-  
tor's rescue at the time of the trouble,  
and the second count was for inter-  
fering with the operator in performance  
of her duties. He was found guilty  
and fined \$25.00 and costs for assault  
and given a severe warning in regard  
to interfering with the company's ser-  
vices.FAREWELL BANQUET  
Mr. and Mrs. B. O. Bates were ten-  
dered a farewell banquet on Tuesday  
evening at a social meeting of the  
Baptist congregation. The large num-  
ber present testified to the popularity  
of the honored guests who will leave  
shortly to make their home in Sussex.  
Rev. Mr. Camp read a fitting address  
of appreciation to Mr. Bates for his  
faithful services in Sunday School and  
other religious work. Mr. Bates who  
had been manager of the N. B. Tele-  
phone Co. here since the Campbellton  
fire was recently promoted to the re-  
sponsible position of manager of the  
Sussex district. He will take up the  
duties at his new post about the end  
of the month.HAD NARROW ESCAPE.  
Miss Laura Payne had a narrow es-  
cape from serious injury about noon  
on Monday when, while on her way to  
school, she was struck by an auto  
driven by Mr. LeRoy Saunders near  
the corner of Roseberry and Sugarloaf  
Streets. As it was she sustained  
painful injuries to hip and foot. Hav-  
ing turned aside to avoid running into  
two children who were crossing the  
street, Mr. Saunders failed to notice  
the child coming in the opposite di-  
rection. The motorist, however, im-  
mediately rushed the girl to a doctor  
where it was found that no bones had  
been broken. The child is reported  
as improving favorably.Friday 20th have your pound ready  
for Hotel Dieu Hospital.AUTO ACCIDENT.  
A serious accident was narrowly  
averted on Saturday last about 1  
o'clock when an auto driven by A.  
Champon, Jr., collided with another  
car driven by Albert Stevens, as it  
rounded the corner at Roseberry and  
Minto Streets. Miss Jeanette Dur-  
can who was in the latter car was  
thrown against the windshield by the  
sudden impact and sustained a deep  
wound. The car was damaged.rushed to the Soldiers' Memorial Hos-  
pital for medical attention, three  
stitches being necessary to close the  
wound. Stevens escaped injury but  
the car was somewhat battered in the  
collision. It is believed that the  
cause of the accident was Mr. Cham-  
pon's mistake in turning to the right  
as he had just returned from Montreal  
and was used to the rule of the road.  
Much of the danger of accidents of  
this nature will be eliminated when  
the change is made on December 1st.

## BEAUSÉ JOUR

Fort Beauséjour, originally the Fort Beauséjour of the French Acadians, where the militant missionary Le Loutre, made his famous stand in defence of northern Acadia against the British forces, it is said to be preserved and cared for by the Canadian National Parks Branch.

Among the historic sites of Canada judged by the Historic Sites and Monuments Board to be worthy of preservation is Fort Cumberland, situated at the head of the Cumberland basin on the Bay of Fundy in the county of Westmorland, New Brunswick, near the town of Sackville on the Missaguash river, which forms the boundary line of the two provinces of New

Brunswick and Nova Scotia.

The Canadian National Parks Branch of the Department of the Interior on the recommendation of the Historic Sites and Monuments Board, is taking steps to preserve this famous fort from further disintegration and in the near future intends to erect on the site a suitable monument and tablet, to fence the property and arrange for its protection from irresponsible visitors and the destructive forces of the elements.

The ruins of Fort Cumberland are memoranda of one of the saddest stories in Canadian history. The building of the fort was commenced in 1750 under the direction of the French governor at Quebec and was named

Beauséjour. Never was a beautiful place-name more unhappily discredited by its subsequent history. It was intended to be an Acadian stronghold against the undefined claims of the English to the possession of Acadia. It was built on the north side of the Missaguash river which the French claimed to be their territory.

Across the river Fort Lawrence had been erected by Colonel Lawrence, Governor of Nova Scotia. Fort Beauséjour was the French counter citadel. It was a strongly built front of five bastions capable of accommodating eight hundred men, provided with two guns and mortars. On the isthmus which divides the two provinces of New Brunswick and Nova Scotia the French had erected other forts intended to form a complete system of defence for the northern portion of Acadia. Around the fort the Acadians had their homes and their farms and little expected that within a few years those homes would be committed to the flames and their settlement become the battlefield of contending nations.

Beauséjour was the centre of the activities of Le Loutre, the notorious militant missionary of the Mi'kmaq who held the office of vicar-general to Acadia under the Bishop of Quebec and who became the real power behind the opposition of the Acadians to accept the conditions imposed upon them by the British Government. In 1755 the fort was attacked by the British and captured. The fall of Beauséjour was the prelude to the dispersal of the Acadians. After its capture the fort was renamed Fort Cumberland in honour of the Duke of Cumberland, son of George II, at that time at the height of his military fame as Commander-in-chief of the British Forces in England.

Between the town of Sackville and Amherst the railway traveller of today, gazing, it may be, listlessly on the landscape to the north of Cumberland basin will notice a knoll rising from the marsh and running back in an arrow ridge towards the northeast.

Here will be seen the waiting battalions of Beauséjour with their crumbling powder magazine as the most conspicuous of the ruins. With this exception the remains of other buildings and earthworks are now only a few feet above the level of the ground. After the fall of the fort and during the remainder of the 18th century it was occupied by a British garrison but with the American war of 1812-14 it was practically abandoned as a place of defence. Thereafter until 1831 it was occupied by a caretaker. Up to about 1860 the soldiers' and officers' quarters were in tolerable condition but since then they have fallen into disrepair and decay. In 1874 the guns were sold by public auction and removed. Four of them are said to be still in existence and it is hoped they will be recovered and placed on the site.

The Fort Cumberland estate covers an area of about sixty acres but the actual site of the fort is enclosed in an area of five and a half acres.

At present a fence is being built around this latter area and the Canadian National Parks Branch will shortly erect thereon suitable memorials of the stirring events which took place on this famous site.

Unexpected Charity. A minister recently told this story on himself. One of his first sermons, which he thought an excellent one was preached in his home church, and seeking a compliment from a prominent member, to draw him out, spoke disparagingly of it to him. "Oh, well," was the response, "we all know that you were not feeling well this morning."

Playing it on Wifey. "If your husband's a floorwalker, why don't you have him get up and walk the floor with the baby?"

I shake him and tell him what the matter is, he mumbles something about soothing syrup in the drug department three aisles down and then he's off to sleep again."

Noisy Neighborhood. Mrs. Flynn—"The neighborhood seems a bit noisy, Mrs. O'Brien." Mrs. O'Brien—"Yes. The only time it's quiet here is when the trucks go by and drown the noise."

## What Is an English Wedding To This Greece Prince?

Prince Phillip of Greece.

Prince Phillip, the one-year-old son of Princess Andrew of Greece, seems to think this wedding stuff a huge joke. He recently arrived in London with his two sisters who were bridesmaids to Miss Edwina Ashley. Little Prince Phillip is the only son and a great favorite with his sisters, but just between him and the photographers he thinks it is a good joke that they had to bring him all the way from Greece for the big wedding.

## PICKED UP AFTER

### NEARLY 5 YEARS

Message in Bottle From the Sinking Steamer Simcoe.

Pictou, N. S., Oct. 13.—"Help. Sinking on S. S. Simcoe, off Magdalen; all hands on board. Good-bye." (Sgd.) C. H. Macdonald, Scotland. The above message was picked up between Pictou Island and Pictou in Northumberland Strait by Woodbury Joudry, a fisherman of that place, and is apparently one more glimpse behind the veil of mystery which shrouds the loss with upwards of forty men of the Canadian government steamer Simcoe on the night of December 6, 1917.

The Simcoe was on a lighthouse supply and buoy trip from Sydney to the Magdalen Islands and other places. At 8 o'clock of the evening of Dec. 6 she sent out an S.O.S. call and reported herself in the vicinity of Magdalen Islands, and followed this ten minutes later with the advice that the ship was abandoned. A tremor of our sea was running that night, and the wireless operator at Grindstone, Magdalen Islands, said that it would have been impossible for small boats to live.

The cause of the foundering of the Simcoe, remained a mystery and no trace of her crew was found. The steamer had come down the St. Lawrence a few weeks previous and was to be attached to the St. John (N.B.) marine and fisheries agency.

The Simcoe took down with her veteran officers of the Canadian marine department, including four deep sea captains. These were Captain W. A. Sencabaugh, Georgetown (P. E. I.), pilot; Captain Michael Brickley, St. John, chief officer, and Captain William Ring, St. John, second officer.

The government steamer Arammore searched for two days and nights for the Simcoe but without result. The spring two Magdalen Islands fishermen reported seeing what looked to them to be a submerged steamer about the place where the Simcoe was thought to have gone down.

The Simcoe was a twin-screw vessel built at Newcastle-on-Tyne in 1909. She was 185 feet long.

## WILL REPRESENT THE DOMINION

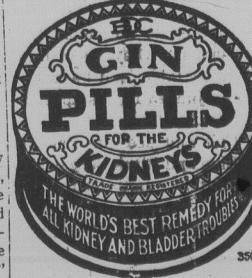

Messrs. Fielding and Lapointe Will Attend Discussion Re Cattle Embargo.

London, Oct. 14.—A conference to discuss the drafting of legislation necessary in both Great Britain and Canada to remove the embargo against Canadian store cattle was held in the colonial office yesterday. Those present included the colonial secretary, Winston Churchill, Sir Griffith-Boscawen, minister of agriculture; P. C. Larkin, Canadian high commissioner in London, and two members of the Canadian cabinet, Hon. W. S. Fielding and Hon. Ernest Lapointe.

A Cry for Help. A woman's voice, high, pitched and shrilly, a cry for help. I crept down through the garden toward the road, glancing apprehensively at the dimly lighted house.

Again the cry came through the darkness in it was a poignant sorrow. A despairing woman's last cry for help.

I gained the road and walked rapidly away. Now for an evening at without me.

## DODGE BROTHERS BUSINESS SEDAN

With this car, Dodge Brothers have literally created a new type of sedan.

They have combined open car ruggedness with closed car protection and smartness.

They have demonstrated, once for all, that a sedan can be as practical and almost as inexpensive as an open touring car.

The body is built of hand-welded steel because steel is sturdy, and will take a permanent, oven-baked finish, eliminating forever the cost of repainting.

The seats are upholstered in attractive, genuine Spanish blue leather, because leather will wash and wear.

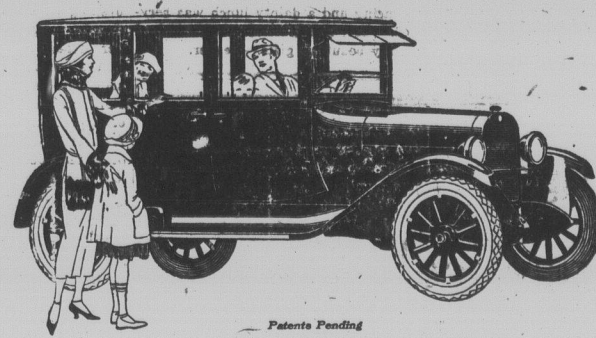

To further enlarge the car's usefulness, the rear seat, back and side cushions, seat frame and foot rest are quickly removable, giving sixty-four cubic feet of flat loading space in the rear compartment. The manifold uses made possible by this unique feature are readily imagined.

The top and rear quarters are of non-rumble, fabric construction, conforming with the present attractive vogue. From cord tires to curtain cords, the fittings, inside and out, are distinctive and complete.

In fact, every detail of the car emphasizes its striking adaptability to business as well as social use.

The Price is \$1965 Delivered.

Old No. 9 had to stay on time on the Vicksburg line. The locomotive literally had to swim through the dunes were maintained even though passenger by reaching out of windows.

## FALL PREPARATION FOR THE VEGETABLE GARDEN

(Experimental Farms Note).

Probably no effect is so well repaid as that given to the development of a good vegetable garden. It is wise to make preparation for this in the fall, in order to realize the benefits accruing from the early sowing of many vegetable crops. There is really no good reason why the vegetable garden should not be prepared in the fall, except that the time necessary to do so is usually not given to it. It is assumed that a certain area is set aside for the vegetable garden. If this is not the case, by all means set aside a certain plot now, leaving it reasonably near the house so that vegetables may be conveniently gathered with a minimum loss of time to the housewife.

Apply twenty to twenty-five tons of stable manure per acre. Ten pounds to the square yard is equal to twenty-four tons per acre. Plow this into the soil deep. If it cannot be plowed, dig it in. The amount of manure to apply will vary according to the way the soil has been previously manured. It is not wise to over-fertilize, and if annual applications are made, probably five pounds per square yard will be quite sufficient.

It is desirable that certain areas should be ridged or mounded, to permit of ready drainage and early drying out of the soil. In these, carrots, beets and lettuce for very early use are seeded. Here also cabbage, cauliflower and celery are started for planting out later. There is very often difficulty in getting such plants in the spring. This may be overcome by giving a little thought now to the development of a spot where seed may be sown just as soon as the surface soil is dry to the depth of one or two inches. It is quite often possible to sow seeds outside on such a plot about the middle of April. The only reason why onions are so seldom a success in this country is that the seed is put in the soil the middle of May when they should have been planted a month earlier. For this early spring seeding surface working of the soil is all that is required, if the land has been fall prepared, and this can be done early if good drainage is provided by mounding up strips three to four feet wide as already indicated with a slight surface slope to give drainage.

It will be understood that, for spring growth, in addition to heat and readily available food supply is necessary.

FALL PREPARATION FOR  
THE VEGETABLE GARDEN

(Experimental Farms Note).

Probably no effect is so well repeated as that given to the development of a good vegetable garden. It is wise to make preparation for this in the fall in order to realize the benefits accruing from the early sowing of many vegetable crops. There is really no good reason why the vegetable garden should not be prepared in the fall, except that the time necessary to do so is usually not given to it. It is assumed that a certain area is set aside for the vegetable garden. If this is not the case, by all means set aside a certain plot now, leaving it reasonably near the house so that vegetables may be conveniently gathered with a minimum loss of time to the housewife.

Apply twenty to twenty-five tons of stable manure per acre. Ten pounds to the square yard is equal to twenty-four tons per acre. Plow this six to eight inches deep. If it cannot be plowed, dig it in. The amount of manure to apply will vary according to the way the soil has been previously manured. It is not wise to over-fertilize, and if annual applications are made, probably five pounds per square yard will be quite sufficient.

It is desirable that certain areas should be ridged or mounded, to permit of ready drainage and early drying out of the soil. In these, carrots, beets and lettuce for very early use are needed. Here also cabbage, cauliflower and celery are started for planting out later. There is very often difficulty in getting such plants in the spring. This may be overcome by giving a little thought now to the development of a spot where seed may be sown just as soon as the surface soil is dry to the depth of one or two inches. It is quite often possible to sow seeds outside on such a plot about the middle of April. The only reason why onions are so seldom a success in this country is that the seed is put in the soil the middle of May when they should have been planted a month earlier. For this early spring seeding surface working of the soil is all that is required, if the land has been fall prepared, and this can be done early if good drainage is provided by mounding up strips three to four feet wide as already indicated with a slight surface slope to give drainage.

It will be understood that, for spring growth, in addition to heat a readily available food supply is necessary.

In old garden areas this is usually present, but if the garden plot is new, it may be necessary to use a little quick acting fertilizer to give the crops a start. One ounce per square yard of nitrate of soda or other active fertilizer is equal to three hundred pounds per acre; this amount is sufficient for any vegetable crop. If fertilizers are applied, it is wise not to make the mistake, so often made, of applying too large an amount without thoroughly mixing it with soil. Surface applications of fertilizers like nitrate of soda very often kill the young plant just as it germinates; and for that reason it is much better to depend upon an application of stable manure well worked into the soil the previous fall. Many good prospects have been blighted by not using good judgment in the application of commercial fertilizers to small areas, either through applying too much, or through not thoroughly mixing into the soil, before seeding, that which has been applied.

FRIDAY THE 13TH  
UNLUCKY FOR HENRY

New York, Oct. 13—Friday, the thirteenth, hit Henry Rodinsky hard today. There are thirteen letters in his name, anyhow, but that may mean nothing. He was the thirteenth prisoner assigned today before Judge Thomas C. T. Crain, in General Sessions, and was sentenced to thirteen months' imprisonment.

Rodinsky, whose age is three times thirteen years, lives at number 438 East 13th street. He is charged with having entered another house in 13th street, September 13th, and having stolen therefrom \$13 worth of lace handkerchiefs.

As It Appeared to Her.  
"And did you see the Statue of Liberty when you were in New York, dear?"

"The Statue of Liberty," answered the child. "Oh! you mean the big lady holding up the ice cream cone."

Knew Her Extravagance.  
Jack—I told your father that I would give you every luxury you craved.

Helen—And what did he say?

Jack—Said he'd withdraw his money from the bank where I work.

## A PUBLIC MENACE.

A Nova Scotia exchange says:—

"The time has come for the adoption of drastic measures to protect the public from automobile fools or fiends."

Last week a man was killed at Shubenacadie whilst riding in a car furiously driven by a drunken comrade. At Amherst a number of drunken motorists made night hideous, and destroyed property and endangered life by their reckless dashing about town.

"In Halifax, an automobile in which three drunken men rampaged about the western part of the city, damaging property and placing all other travellers in jeopardy, was reported. These are but three of many such cases being reported from different points of the Maritimes. The jury in the Shubenacadie case recommended that the license of the driver would be taken from him for life. Something more than this should be done to protect the public."

"It might be drastic treatment for one or two such people to be sent to penitentiary, but such treatment may be necessary as a warning to all drivers who endanger the lives of other people."

## THE SAME OLD SPIRIT.

Great Britain, as usual, will pay her debts. Public sentiment, which has a way of making itself keenly felt in the British Isles, is opposed to seeking cancellation of the British war debt to the United States. Tradition in the old land has always been for meeting national obligations bravely, no matter how great they are, and in this matter the new Britain is maintaining historic characteristics in response to popular opinion.

Throughout New Brunswick September proved to be a dry month. The rainfall in all districts was greatly below the average and in many places it was the driest on record. From the monthly report received at the Dominion meteorological observatory at St. John, the following rainfall table has been compiled:

County and Station	Rainfall in inches
York, Fredericton	0.68
York, McAdam	1.52
York, Harvey Station	1.06
Carleton, Woodstock	1.21
Victoria, Grand Falls	0.58
Gloucester, Bathurst	1.02
Northumberland, Chatham	1.22
Restigouche, Upsalquitch	0.68
Charlotte, St. George	0.36
Sunbury, Hardwood Ridge	0.35
St. John	1.56
Kings, Sussex	2.90

The rainfall recorded at Sussex was the highest reported in the province but almost the entire amount fell on September 17.

## NEW BASILICA

## NEXT SUMMER

Ste. Anne Basilica Destroyed

By Fire To Be

Restored.

Quebec, Oct. 17.—The reconstruction of the Ste. Anne Basilica, which was destroyed last spring, when losses estimated at over \$1,000,000 were caused, will start next summer. This was learned yesterday from one of the Redemptorists Fathers, who are in charge of the famous shrine. The intention of the Father is not to build a temple worth several million dollars but one which will cost about a million and a half. At present the ruins of the old church have practically been all removed and the masonry, which was also destroyed by the fire will soon be ready to receive all the members of the Order.

## Railway News

Mr. Edward Everett Beck, who since the death of Mr. Jackson has been acting manager of the Vancouver Hotel for the Canadian Pacific Railway, has been appointed manager. Mr. Beck has been connected with this hotel ever since he entered the service in 1907, first as clerk, then as rooming clerk, and since June 16th, 1920, as assistant manager.

Calgary.—For the first time in two years the car department at the Canadian Pacific Hotel Shops worked full time. This was the official announcement made at the offices of the general superintendent of the Alberta Division. The department mentioned is one of the largest at the shops and will effect repairs, car repairs and help-ers. It is stated that the heavy movement of grain is the cause of the increased work. The announcement has been received with much satisfaction by the men concerned.

Sherbrooke.—Three years in the St. Vincent de Paul penitentiary was the sentence on Joseph Chown, of the township of Lingwick, for placing a bolt and a spike on the Canadian Pacific Railway track. The case was heard before Judge J. H. Lemay, in the District Magistrate's Court, when the accused was charged with placing obstacles on the railway track with intention to destroy valuable property and endanger human life. The accused immediately pleaded guilty and, after receiving the usual warning from the court, was committed for trial. He asked for a speedy trial before Judge Lemay. Counsel for the plaintiff advised the court that the accused had a rather bad record and claimed that he had previously served one term of two years and two separate terms of four years in jail.

The court commented upon the seriousness of the offence insofar as valuable property and scores of lives were threatened, and pointed out that he was liable for a term of five years, or even a term for life if it were proven that the obstacles had been placed there intentionally.

Regina.—There is so much wheat in some parts of Southern Saskatchewan that it will take until next summer to get it shipped out of the country," said J. H. Chown, superintendent of the C.P.R. at Regina, last night.

Mr. Chown made this statement upon his return from a trip over the southern lines of the Regina district, the trip including the Arco line as far south as Stoughton, through to Weyburn as far west as Assiniboia and thence up the Soo line to Moose Jaw.

"The wheat crop in some of the districts in this area is as good or better than 1915," said Mr. Chown, "and now that threshing is well under way some remarkable yields are being demonstrated. Where people expected to get 15 bushels to the acre the threshing machine is registering 35 bushels, where 25 bushels were anticipated they are getting 35 bushels and where 30 bushels were estimated the yields are running close up to 50 bushels to the acre."

"At Vantage," continued Mr. Chown, "I walked up to a threshing outfit operating not far from the station and thence up the thresherman in operation. He told me the field he was threshing was running 48 bushels to the acre. The grain was uniform, well ripened, a good color and an excellent sample of wheat in every respect."

Edmonton.—A good harvest and the existence of a plentiful supply of foodstuffs in all parts of Canada is the basis upon which C. E. E. Usher, general passenger traffic manager of the Canadian Pacific railway, with headquarters in Montreal, makes the encouraging prediction that business is bound to show considerable improvement during the next few months and soon to reach the level of the best of pre-war times.

Mr. Usher was a visitor in Edmonton in the course of a tour which took him as far west as Vancouver. Passenger traffic business is a worthy barometer in the testing of general business conditions, and Mr. Usher announced that the year, from a passenger traffic standpoint, has been an excellent one, while it is felt certain that the coming winter and spring will see still further increases. Tourist travel during the past season has been almost as good as it ever was, while reservations for winter traffic, including ocean cruises, are exceptionally numerous at this time.

Then, again, traffic to and from months has taxed accommodation to capacity, while steamers plying between the west coast and the Orient have also been doing good business.

Mr. Usher is a strong enthusiast for an open door policy of immigration into Canada, and in speaking upon the topical subject he declared that there would come a time before many months had passed when Canada would be setting up a cry for labor.

## An Honest Deal to All

WE CALLED upon one of our friends recently soliciting an order for office stationery. He immediately proceeded to give us a lecture for charging him too much for the last letter paper and envelopes we had sent him. He claimed that a Toronto house had given him as good stock and workmanship as we had, at a saving of several dollars.

The stock was good, and the printing fair. We could not understand how a firm such as this one mentioned could supply printed stationery at the figure mentioned.

Our friend produced the invoice which told the whole story. He had with the stationery purchased blank letterheads, typewriter paper and follow sheets, and in every case he had been charged from 50 cents to \$1.25 per ream more than the market price for the unprinted goods. He more than made up the difference by this dishonest practice.

### DALHOUSIE

Mrs. J. Jamieson has closed her home for the winter months and at present is visiting relatives in Bathurst.

Sylvester Boudreau and Ellen Blanchard were married Wednesday morning in the Roman Catholic Church by Rev. Father Hart.

Dan. Cook has had the roof of his residence re-shingled.

The Rev. E. J. Shaw has returned from a month's enjoyable vacation spent in visiting Halifax, Boston, New York and other cities. He occupied his pulpit in the Presbyterian Church here on Sunday morning. The Rev. G. S. Gardiner, of Amherst, preached in the evening.

Charles Stewart is the guest of his daughter, Mrs. H. H. Woodworth, at Amherst.

Mr. and Mrs. Joseph are receiving congratulations on the marriage of their daughter Alma May, to Frank Raymond, of Richibucto. The marriage, which took place on Oct. 9th,

was performed by the Rev. Canon St. Am, rector of St. George's Church, Moncton.

The chancel roof of St. Mary's church is being re-shingled.

Miss Annabella Stewart, of Philadelphia, is visiting her sister, Miss Elizabeth Stewart, at Glen Cottage.

On Tuesday morning, in the chapel of the Convent of the Sacred Heart, George Albert Elaliger and Annie Elizabeth Gallie were married by the Rev. Father Hart.

The play "Uncle Tom's Cabin," rendered in the Opera House on Saturday night was much enjoyed by the patrons.

On Monday evening, three cars driven respectively by S. Blanchard, F. Barberie and A. H. LeCoffre, met at the Queen Hotel for the purpose of taking the following gentlemen to Campbellton to spring a surprise party upon E. R. Gaudet, the former proprietor of the hotel and to celebrate his birthday. A. J. LeBlanc, C. Gaudet, Dr. L. A. Gaudet, J. H. LeCoffre and

son, L. J. LeBlanc, N. Michaud, F. Barberie, S. Blanchard, L. J. Sanson and wife, J. M. Barthe, G. P. Comeau, and H. Michaud. A most pleasant time was spent and pleasant memories were carried away.

A jolly party gathered at the Queen Hotel on Friday evening to do honors to Dr. L. A. Gaudet on the occasion of his birthday. The dining room was beautifully decorated with flowers and flags. Following the long list of toasts an address of felicitation was read by Camille Gaudet, manager of the Provincial Bank. Ex-mayor W. S. Montgomery acted as toast-master. Besides those just mentioned, the following among the gentlemen present: Dr. N. Doucet, L. J. LeBlanc, Armand LeCoffre, Vincent Harquail, James Barthe, H. Trudelle, George C. Scott, G. P. Comeau, P. Dugas, W. Sheehan, W. Gallop and Leo Sanson the genial proprietor of the hotel.

### ATHOLVILLE

Mr. Charles Clarke, who has been in the West for the past two months, returned home on Wednesday last.

Mr. and Mrs. Wm. Miller who motored here from Fall River, Mass., were the guests of Mrs. Mary LeFursey on Monday last.

Mr. Stephen Campbell who has been in Grand Falls for the past three months, returned to his home on Saturday last.

Miss Helen Mosher was the weekend guest of Miss Maude Warran.

Miss Carmel Jolicoeur who had been the guest of her grand mother, Mrs. F. X. Russel, returned to her home on Monday last.

Mr. and Mrs. Sherman LeFursey and Mrs. James LeMurphy were in Tide Head on Monday last attending the funeral of the late, Mrs. Wm. Corbett.

Miss Blanche Boucher spent the week-end in town, the guest of friends.

Mr. Robert Harris of Whitneyville, N. B., is the guest of his brother, Mr. Wm. Harris and Mrs. Harris.

### ZION PRESBYTERIAN CHURCH

NEW CARLISLE, QUE.

Rev. Jas. F. McCurdy, B. A., Minister Services next Sabbath are:

Port Daniel at 10:30.

Shigawake at 2:30.

New Carlisle at 7 p.m.

We are beginning a course on The Mind and Ministry of Jesus on subject Sabbath: "The Temptation."

Prayer meeting in the lecture room Wednesday at 7:30 p.m.

### PREDESTINATION

At a public luncheon in England, a middle-aged lady, with strong political convictions, seemed to be addressing all who could hear her. At last she attacked the present government beginning with the Prime Minister. "I have the worst opinion of him," she said. "I had before I knew anything

## HENRY FORD TO MEET BLUENOSE

Takes Saturday's Trial Race at Gloucester—Mayflower Challenges Winner.

The fishing schooner Henry Ford won the right to meet the Bluenose, Canadian champion, in the international series for the fishermen's trophy as a result of his victory in the trial events held off Gloucester, Mass. On Saturday he romped home a winner over the Elizabeth Howard by more than five minutes. The Yankee finished third.

The official elapsed times of the boats follow:

Henry Ford, Gloucester, Captain Clayton Morrissey, 4:56.38.

Elizabeth Howard, New York, Captain Ben Pine, 5:01.59.

Yankee, Boston, Captain Felix Hogan, 5:35.07.

The beginning of the race was a thriller. In an effort to gain an advantage Captain Ben Pine of the Elizabeth Howard started through a gap between the Yankee and the destroyer J. Fred Talbot, which was acting as stake boat, and only skilful handling saved a bad collision. The Henry Ford took the lead at the first turn, thirty seconds ahead of his rivals.

Should the Bluenose win the international event this year a special race will be held with the Mayflower, the Boston entry, which was refused admittance into the race. An agreement was reached Saturday whereby the winning boat will receive \$5,000 and the losing craft \$2,000. This offer will also hold good for the Henry Ford if she wins the championship.

### BATHURST CO. SELLS BONDS IN MONTREAL

\$1,500,000 Sinking Fund Gold 6 1/2 P. C. Bonds Bought by Royal Securities.

To finance construction of a new print mill of fifteen thousand tons annual capacity to be completed by May of next year and to increase productive capacity of sulphate pulp to 15,000 tons, the Bathurst Company of Bathurst, N. B., has sold to Royal Securities Corporation \$1,500,000 of 6 1/2 p.c. first mortgage convertible sinking fund gold bonds, series "B," due June 1st, 1941.

The Bathurst Company in 1921 took over the Bathurst Lumber Company,

which had been in successful operation for fourteen years. The Company, manufactures some 30,000 tons of sulphate and sulphite pulp and approximately 30,000,000 feet of spruce lumber per annum. Its leasehold New Brunswick and Quebec timber limits total 2,563 square miles, which are estimated to contain 2,000,000,000 of spruce sawlogs and 10,000,000 cords of pulpwood. Timber areas are situated on rivers tributary to Bathurst Harbour, N. B., and the Baie des Chaleurs, Que. The Company is one of the largest manufacturing enterprises in Canada. Its plants and hydro-electric development of 9,000 h.p. are of recent construction. At Bathurst the Company has its own deep-water docks, from which shipments are made direct to the United States, South America, British West Indies, England and Europe.

Average sales for the last four years totalled over \$2,900,000 per annum. Net earnings 1917 to 1920 inclusive averaged \$577,778. Last year, in common with other pulp and lumber manufacturers, the Company showed a loss after all charges of about \$300,000, due to exceptionally adverse market conditions. Due to present improved business conditions the Company's plants are now running full and its current operations are showing a substantial profit.

The new issue of \$1,500,000 of Bonds is the balance of a closed first mortgage of \$3,000,000, the first \$1,500,000 of which having been distributed a year ago in the United States market by Cullway, Fish & Company,

which had been in successful operation for fourteen years. The Company, manufactures some 30,000 tons of sulphate and sulphite pulp and approximately 30,000,000 feet of spruce lumber per annum. At Bathurst the Company has its own deep-water docks, from which shipments are made direct to the United States, South America, British West Indies, England and Europe.

Average sales for the last four years totalled over \$2,900,000 per annum. Net earnings 1917 to 1920 inclusive averaged \$577,778. Last year, in common with other pulp and lumber manufacturers, the Company showed a loss after all charges of about \$300,000, due to exceptionally adverse market conditions. Due to present improved business conditions the Company's plants are now running full and its current operations are showing a substantial profit.

The new issue of \$1,500,000 of Bonds is the balance of a closed first mortgage of \$3,000,000, the first \$1,500,000 of which having been distributed a year ago in the United States market by Cullway, Fish & Company,

which had been in successful operation for fourteen years. The Company, manufactures some 30,000 tons of sulphate and sulphite pulp and approximately 30,000,000 feet of spruce lumber per annum. Its leasehold New Brunswick and Quebec timber limits total 2,563 square miles, which are estimated to contain 2,000,000,000 of spruce sawlogs and 10,000,000 cords of pulpwood. Timber areas are situated on rivers tributary to Bathurst Harbour, N. B., and the Baie des Chaleurs, Que. The Company is one of the largest manufacturing enterprises in Canada. Its plants and hydro-electric development of 9,000 h.p. are of recent construction. REPORT SCARCITY OF EXPERIENCED WOODSMEN.  
Fredericton, N. B., Oct. 18.—Employment agents report a scarcity of experienced woodsmen and say they are having difficulty in supplying the companies with men required for carrying on the enlarged operations. Wages as stated in advertisements range from \$35 to \$50 per month with board, while last year at this time the wages offered were \$25 to \$35 per month.

BENEFICIAL RAINS.  
The rains of last week and the first of this week were greatly needed. The forest fires which were threatening several sections of the country have been extinguished. In many sections the brooks and wells were dry and farmers had to haul water. This has all been remedied.

### MEMORIAL SERVICE AT DALHOUSIE

Local Boys Who Laid Down Lives in Great War Are Honored.

A whole hearted and sincere tribute of respect was paid, on Sunday evening, by the congregation and friends of St. Mary's Church, when a memorial service in honor of their services to the empire and of the great sacrifice which they made, was held for George Bateman, Chester Dean, Ernest McKay, Frederick Pallen and John Sweet, men who formerly worshipped in St. Mary's Church and who have their lives in the Great War.

The ceremony of unveiling the tablet was performed by Major Grimmer, church warden, who made a few remarks appropriate to the occasion, and by Captain Dr. Disbrow. Mrs. R. J. Sandover-Sly of Campbellton, presided at the organ, and Mrs. S. L. T. Clifford rendered a solo in keeping with the occasion very effectively. A suitable sermon was preached by the rector, Rev. R. J. Coleman, from the words: "They loved not their lives unto death." The service opened with the singing of "Oh Canada," and was closed with the National Anthem, immediately after which the organist played "The Dead March in Saul." The whole of the proceedings, from beginning to end, was marked by impressive dignity and solemnity.

The tablet was the gift of Colonel McMillan of St. John, obtained through the kind offices of John E. Desch.

The chancel screen, pulpit, reading desk and prayer book were beautifully draped with the Union Jack and the Canadian Ensign. The church was well filled, such a large congregation not having assembled since the "Peace" Service was held in November, 1918.

ONE WAY TO GET AN EDUCATION

Some time ago, writes a subscriber to The Youth's Companion, I was travelling in Europe with a young lady who lived in a small town west of Down East in Maine, and who was more generally informed in the history, literature, art and music of the countries we visited than those who had lived in and had the advantages of a large city. "Where were you educated?" I asked. "I was brought up in my home town and on The Youth's Companion," was her reply. And this same liberal education is in The Companion for anyone who will seek it. Try it for a year and see.

The 52 issues of 1923 will be crowded with serial stories, short stories, editorials, poetry, facts and fun. Subscribe now and receive:

1. The Youth's Companion—52 issues in 1923.

2. All the remaining issues of 1922.

3. The Companion Home Calendar for 1923. All for \$2.50.

4. Or include McCall's Magazine, the monthly authority on fashions, only \$3.00.

### VOCATIONAL EVENING SCHOOL

The Vocational Evening School is under the direction and financed largely by the Vocational Education Board of the Province. These Night Schools have now been organized in a number of the towns and cities of the province.

The classes of the Evening School are open to any person of 14 years of age or over, not attending day school, who is desirous of improving his or her education along some of the lines of study offered.

The local Vocational Committee purpose starting such classes at once in the Grammar School if sufficient number enroll in any one class to warrant undertaking the work. The classes will be held two nights per week from 7.30 to 9.30 and will cover a course of twenty lessons each term. A fee of two dollars will be charged on registration and the same will be refunded at the close of the course if the student has attended 90% of the classes.

The subjects of instruction will depend on what is asked for by the community and on the equipment and teachers available. The following are the most usual subjects taught: English, Arithmetic, Penmanship, Typewriting, Bookkeeping, Motor Mechanics, Mechanical and Architectural Drawing, French, Dressmaking and Millinery.

Registration will be received this week at the Grammar School by Mr. John R. Vallis during the day and also Thursday, Friday and Saturday evenings from 7.30 to 8.30.
