1870.

1. SERIES of Resolutions proposed, setting forth, that by the Land Act, 1853 (16 Vic., c. 159) a reserve was made out of the proceeds of sales of Crown Lands and School Lands in each County in the Province of Canada, for public improvements within the County,—that by several subsequent Orders in Council, payments were authorized to be made out of the Improvement Fund thus created, but were not made,—that the lands were settled in faith that the amount reserved would be expended in local improvements, and as the Government of the late Province failed to fulfil this obligation, the obligation to carry out the compact with the settlers devolves upon the Government of the Dominion; Objection taken to the motion; Mr. Speaker decides that it ought to have originated in Committee of the Whole, and, as it involves a charge upon the public purse, that it should have received the recommendation of the Crown before it could be entertained, 143.

Nova Scotia :

1867-68.

1. **MOTION** for the House to go into Committee to consider certain Resolutions declaring that it appears from a petition addressed to the Imperial Parliament by 40,000 inhabitants of Nova Scotia,—from the reports of numerous public meetings, and from an Address unanimously passed by the House of Assembly at Halifax, that that Province is hostile to the Act of Confederation, and desires to be freed from its operation; and that to compel Nova Scotia to remain in a political connection thrust upon her without her consent would aggravate the existing discontent, and imperil the peace of the Dominion; Amendment moved, that the interests of the Empire, and of the Dominion, will be best promoted by the maintenance of the existing Union, and the House trusts that a due attention to the interests of the people of the whole Dominion, will result in the general acceptance of the Union by the inhabitants of the Dominion; Amendment proposed, that in view of the discontent prevailing in Nova Scotia in consequence of the Union, it is desirable to go into Committee to consider the alleged grievances of the people of that Province; Last amendment negatived; First amendment agreed to, 247.

Motion that Mr. Speaker do now leave the chair; Amendment moved, that the British North America Act has fixed the amount payable by Canada to each Province, and the proportion of the public Debt of each, and does not empower the Parliament of Canada to change the basis of union thereby settled, and it is therefore inexpedient to go into Committee on the proposed Resolutions, 229. Motion to adjourn debate; Motion withdrawn; Amendment negatived; House goes into Committee; Report several Resolutions, 231. Motion for concurrence; Amendment moved, that it is inexpedient to disturb, in favor of Nova Scotia, the financial arrangements settled by the B. N. A. Amendment proposed, that this House adheres to the decision of Parliament last Session, as embodied in "An Act respecting Nova Scotia;" Objection taken, that the amendment is not relevant to the main motion, 122. Resumed; Last amendment withdrawn, 37. Order for further consideration discharged, 43.
5. **MOTION** that the division, between Ontario and Quebec, of the surplus debt, presents great difficulties, for the avoidance of which, the same should be assigned to the Dominion, with corresponding compensation to New Brunswick and Nova Scotia; and that an Address be presented to Her Majesty, praying Her to recommend an amendment of the British North America Act in accordance therewith; Objection taken to the motion, that it tends to an appropriation not recommended by the Crown; Mr. Speaker sustains the objection, 49.
6. **MOTION** for an Address to Her Majesty, representing the difficulty of effecting a satisfactory adjustment of the debt, which has been aggravated by the recent award, and praying Her to recommend to the Imperial Parliament to amend the British North America Act, so as to empower the Parliament of Canada to deal with all questions connected with the said debt; Amendment moved, that the validity of the award being contested, and the Government having decided not to act upon it until its validity shall have been determined, the House refrains from expressing an opinion on the award; Amendment moved thereto, that it is highly desirable that the difficulty between the two Provinces should be speedily set at rest, and the House will give its most favorable consideration to any measure introduced by the Government for that object, involving any aid from the Dominion commensurate with its resources, etc.; Mr. Speaker decides that the amendment is not in order, as it would involve an expenditure of public money, 62. (Mr. Speaker revises his decision, and decides that the motion is not in order because it involves an increase of the Public Debt, and should therefore have originated in Committee of the whole, 72.) Another amendment moved,—That the House regrets that His Excellency has not been advised to recommend an Address to Her Majesty in favor of such an amendment of the British North America Act as to transfer the debt to the Dominion, with due compensation to the other Provinces, 63. Last amendment negatived; Another amendment, that the matter having been referred to Arbitrators, and a majority of the Arbitrators having made an award, an adjustment of the accounts should be made, upon the basis of the award, negatived; Another amendment, to add an expression of regret that the Government did not suspend the proceedings of the two remaining Arbitrators before their award was rendered, negatived; First amendment carried; Main motion as amended, agreed to, 73.

Mr. Speaker decides that the Motion is not irregular by reason of containing three propositions on each of which a separate question might be put ; but that as the Rules admit of but one amendment to the question for going into Committee of Supply, it must therefore stand or fall as a whole ; Motion negatived, 270.

1869.

9. Objection taken to an amendment proposed to certain Resolutions in relation to the admission of Newfoundland into the Dominion ; Inasmuch as it alters the manner in which the amount recommended by His Excellency's Message is to be applied ; To another amendment, on the ground that the question involved in it was already decided by the vote on a prior amendment ; Mr. Speaker decides that both amendments are out of order, 219.

V. DECISIONS OF MR. SPEAKER, ETC.—Continued.

AMENDMENTS—Continued.

1869—Continued.

10. Objection taken to an amendment proposed to certain Resolutions concerning certain financial arrangements with Nova Scotia (which proposed to extend a like advantage to Ontario and Quebec) that it was not in order, as it proposed an expenditure in excess of that recommended by His Excellency; Mr. Speaker decides that the Motion is a mere assertion of an abstract principle, and is therefore not out of order, 236. Objection taken, on similar grounds, to a Motion to re-commit the 3rd Resolution for the purpose of altering the mode of payment; Mr. Speaker decides that the Motion is not in order, 237.

1870.

11. Objection taken to an amendment to a Motion relating to the financial arrangement (of last Session) with Nova Scotia; That it is not relevant to the main Motion; Objection overruled, 122.
12. Objection taken to an amendment, that the words "and that such steps should be taken as to render impossible any such grant or provision," be added to a certain Motion; That the same is irregular and vague; Mr. Speaker admits that the Motion is vague, but cannot say that the House cannot express a vague opinion, 127.

1871.

13. A Motion having been offered, in amendment to a Motion connected with certain proceedings on the subject of the North West Territory; Objection having been made to it, on the ground that it is substantially the same as the main Motion (though omitting certain matters of recital both of fact and of law); Mr. Speaker decides that the amendment is in Order, 137, 146.

1873—March Session.

14. That no amendment can be moved to a Motion that the Orders of the Day be now called, 300.
15. Mr. Baby having moved to insert certain words in a Motion respecting the New Brunswick School Act, Mr. Speaker decided; The House having just passed the amendment to the amendment, proposed by Mr. Cauchon, the words of that amendment must now stand part of the question. It is not in order to move that those words, or any of them, be struck out. The amendment now proposed by Mr. Baby cannot properly form another part of the same question, inasmuch as it is in part a repetition of the Motion just passed, and in part inconsistent with it, 200. Mr. Costigan having subsequently moved to add certain words to an Address passed by the House on the same question, Mr. Speaker decided: The House has ordered an Address within a certain scope, and I do not think it is competent now to make a Motion asking the House to depart from the Resolution which it has just affirmed, 203.

1876.

16. On motion for the appointment of a Select Committee, Mr. De Cosmos proposed that all the words after "That" be struck out, and following inserted instead: "The early revision of the tariff is very desirable; and a revised tariff, discriminating to a greater degree than the existing tariff in favor of home productions and manufactures, but not unduly stimulating one section of the country or one industry to the injury of other sections and other industries, would be productive of great benefit to the whole Dominion." Mr. Speaker decided that as the said amendment was an abstract proposition and barren of results, it was in order, 69.

V. DECISIONS OF MR. SPEAKER, ETC.—Continued.

BILLS :

1867-68.

17. Objection taken (at the Second reading) to the Bill empowering all Banks to use Notes of the Dominion ; That it relates to Trade, and involves the public credit, and ought therefore to have originated in Committee of the Whole ; Mr. Speaker decides that it involves a pledge of the public credit, and ought strictly to have originated in Committee, but as no objection was taken at the first reading, and the House subsequently went into Committee, and agreed to a Resolution, it is now too late to raise the objection, 161.
18. Objection taken (at the Second reading) to the Bill respecting Insurance Companies ; That it relates to Trade, and ought to have originated in Committee of the Whole, and that if it do not relate to trade, it is (from the terms of the British North America Act) beyond the jurisdiction of this House ; Mr. Speaker decides that the term "Trade" does not, in its general and popular sense, apply to Insurance, 161.
19. Objection taken to a Motion to re-commit the Militia Bill for the purpose of re-adjusting the Militia expenditure so as to provide more adequate pay to Battalion and Company officers ; Mr. Speaker decides that it is not in order, as it would involve a larger expenditure than had been recommended by the Crown, 390.
20. Notice taken, that the Bill relating to Quarantine (from the Senate) contains provisions involving expenses to be defrayed out of moneys to be provided by Parliament, and ought therefore to have originated in this House ; Resolution that the House will not, at this late period of the Session, insist on its privileges ; but that the waiver of the said privileges is not to be drawn into precedent, 418 —The like with regard to a Bill respecting Police, 420.

1870.

21. Objection made to certain amendments of the Railway Committee to the Great Western Railway Bill, that they were not contemplated in the petition or the Notice ; Mr. Speaker decides that the Bill should be referred to the Standing Committee on Standing Orders to report whether the powers to be conferred are in excess of the Notice given, or whether they are substantially included in it, 116.
22. Attention called to certain clauses of the Bill respecting Light-houses, from the Senate, which will necessitate the expenditure of public money ; Mr. Speaker points out a provision in the Bill, that no such expenditure shall be made without the previous sanction of Parliament : Objection overruled, 155.
23. Notice taken, that the Bill respecting certificates to Masters and Mates of ships, contains provisions leading to the expenditure of public money, and ought therefore to have originated in this House ; Resolution, that the House does not insist on its privileges, but the case must not be brought into precedent, 181.
24. Objection taken to a Motion to re-commit a bill with an instruction to add a clause ; That no Notice had been given ; M. Speaker decides that as the Motion had been debated at two previous sittings, it was too late to raise the objection, 238.
25. A motion to re-commit the Superannuation Bill with an instruction to make other arrangements, including a provision for widows and orphans, decided to be out of order, as it went beyond the scope of the measure recommended by the Crown, 303.

V. DECISIONS OF MR. SPEAKER, ETC.—*Continued.*BILLS—*Continued.*1870—*Continued.*

26. Objection raised (at the Second reading) to the Bill to limit the rate of interest, that it related to Trade, and ought to have originated in Committee of the Whole ; Mr. Speaker decides that the Rule does not apply to the subject of Interest, 313. A further objection, that a Bill relating to Interest having already been disposed of, the subject cannot be brought forward again at this time ; Decided to be valid, 314.

1871.

27. Objection made to a Bill to remove doubts as to the liability to stamp duties of Premium Notes held by Mutual Fire Insurance Companies ; That under the terms of the 54th section of the British North America Act, it should first have been recommended by message from the Crown, and that it should have originated in Committee of the Whole ; Mr. Speaker reserves his decision, 96. Decides that as the Bill is merely declaratory, and proposes no appropriation of money or charge on the people, the objection is void, 112.
28. Mr. Speaker (in connection with the last preceding decision) calls attention as to the principle carried out in the Imperial Parliament, "that no private Member is permitted to propose an Imperial Tax upon the people," and intimates his intention to enforce the observance of this Rule hereafter, 112.
29. A Motion to re-commit the Customs Bill, to repeal the duties on coal and certain other articles, having been amended by adding salt, grain, and meal, a Motion was then offered, that it is inexpedient this Session, to alter the duties on those articles, and objection being made to such Motion, Mr. Speaker rules, that as the House has decided that those articles shall form part of the question, the last motion mentioned is not in order, 132.
30. Mr. Speaker decides (upon an objection raised) that the Bill to repeal the Insolvency Laws is not in order, as it is at variance with a Bill to amend the Insolvency Laws already passed by the House, and now before the Senate, 210.

1872.

31. A Motion to refer the Insolvency Bill to a Select Committee, after the House had referred the same to a Committee of the Whole, decided to be out of order, 78.
32. A Motion for an Instruction to the Committee of the Whole on the Insolvency Bill to except the Province of Ontario from its operation, decided to be out of order, because, as the Bill affected the whole Dominion, the Committee had already the power asked for in the Motion, 79.
33. Objection taken to the Bill to repeal the Insolvency Laws, that it affects Trade, and should have originated in Committee of the Whole, overruled, 120.
34. Objection raised to the Bill to compel Members of the Local Legislature, in any Province where dual Representation is not allowed, to resign their seats before becoming candidates for seats in the Dominion Parliament, on the ground that the principle involved in it is precisely the same as one already voted upon this Session (See *Members*, 11) ; Mr. Speaker overrules the objection, as he considers it a technical argument, and that substantially the questions are different, 213.

V. DECISIONS OF MR. SPEAKER, ETC.—Continued.

BILLS—Continued.

1873—March Session.

35. Objection taken to Grand Trunk Arrangements Bill, at the second reading, that it virtually compounded a debt due to the Government, and should therefore have originated in Committee of the Whole; Objection overruled, 164.

1874.

36. Objection taken to an amendment proposed to the Bill respecting Duties of Customs and Excise by substituting *ad valorem* for Specific Duties; Objection sustained, 243.

1874.

37. Objection taken to the introduction of a Bill to amend an Act relating to Banks and Banking, on the ground that it affected trade, and should have been based on Resolutions passed in Committee of the Whole; Objection sustained, 142.

1875.

38. A Chairman of a Committee on a Bill respecting Railways having asked for instructions whether it was allowable for a Member to add a certain section to the Bill; Mr. Speaker decided that there is no doubt that it is perfectly legitimate to make, in Committee, any amendment to a clause, provided that it is relevant to the subject matter of a Bill, or pursuant to instructions; and as respects a second objection that was raised, he was of opinion that the clause, if added, would not tend in any way to increase the public burthens, 328.

1876.

39. Motion having been made for second reading of a Bill to provide for examination and licensing of persons employed as Engineers elsewhere than on Steamboats, Mr. Speaker ruled that the Bill ought to have originated by Resolutions in Committee of the Whole; that it imposed fines and penalties and exacted a fee, and was consequently out of Order, 119.

COMMITTEES :

1867-68.

40. A motion being made, to adopt the Report of a sub-committee, attached to the thirteenth Report of the Committee on Printing, and objection being taken that the said Report clashes with the Third Report of the Committee on Contingencies (as regards the proposed remuneration of the Clerk to the Committee); Mr. Speaker decides that the Motion is in Order, as questions affecting the domestic economy of the House should be under its daily supervision, and the House may, in this instance, reconsider its previous decision; Motion negatived, 312.

1870.

41. Objection made to a proposed instruction to the Committee of the Whole on the Election Bill, to provide concerning the qualification of voters; Mr. Speaker decides that the House cannot instruct the Committee to do that which it already has power to do, 121.

V. DECISIONS OF MR. SPEAKER, ETC.—*Continued.*COMMITTEES—*Continued.*1870—*Continued.*

42. Objection taken to a Motion for concurring in the Report of the Select Committee on Hops and Salt, which recommended the adoption of "such measures as shall tend to relieve this important industry from depressing influences"; That its adoption would lead to the imposition of duties; Objection overruled by Mr. Speaker; A further Objection, that the subject matter of the Report related to Trade, and should therefore originate in Committee of the Whole, also overruled, 147.

1871.

43. The House being in Committee of Supply, the Chairman left the Chair to submit a point of Order to Mr. Speaker, who thereupon declared that under the Rules the Chairman should himself decide points of Order in Committee, 142.

1873—*March Session.*

44. A Member proposing to read certain documents bearing upon the charges connected with the Pacific Railway contract, which had been referred to a Committee for investigation; Objection raised, that they could not be read to the House, but must be referred to the Committee; Objection sustained, 349.

1874.

45. Mr. Speaker decided that the Report of the Select Committee appointed to enquire into the Tariff in the interest of British Columbia was out of Order, inasmuch as it recommended the enactment of a Special Tariff, 216.
46. A Motion having been made for concurrence in the Second Report of the Select Committee on Agriculture. the point of Order was raised; That it is not competent for a Special Committee to embody in its Report the opinions of a similar Committee appointed in a previous Session; Mr. Speaker ruled the Motion out of Order, 282.
47. DEBATE (1873, *October Session*):—Exception taken to a remark, in debate to the effect that certain despatches transmitted by His Excellency had been "sent down for a purpose;" Mr. Speaker decides that it is not in Order, 137.

ELECTIONS :

48. On certain objections raised as to the validity of Election Petitions, (1867–68) 28, 35, 37, 40.—(1873, *March Session*) 20, 44, 48. See *Elections*, 40, 56, 71, 72, 110, 113.
49. Objection raised to the reception of an Election Petition; That it should have been presented within the first fourteen days of the Session; and that counting the day on which the House met for the election of a Speaker as the first day, it was presented too late, 52. Mr. Speaker decides that as no business can be done after election of Speaker, it was not until the next day that Parliament was formally opened; he thinks therefore that the petition ought to be received; Question for its reception negatived on a division, (1873, *March Session*) 58.

V. DECISIONS OF MR. SPEAKER, ETC.—Continued.

MOTIONS :

1869.

50. Mr. Speaker decides that a motion for the imposition of a duty on wheat and other grain imported from the United States is out of Order, as the imposition of such duties should emanate from the Government, 242.

1870.

51. Objection taken to a motion concerning the management of the Improvement Fund derived from School and Crown Lands ; That it should have originated in Committee of the Whole ; Mr. Speaker decides that the objection is valid, and that it should have been recommended by the Crown before consideration, 145.

52. Mr. Speaker decides that a Motion for an instruction (in reference to the Beauharnois Canal) to the Commission about to be appointed on the subject of Canals for the whole Dominion, is not in Order, as it purports to give an instruction to a Commission that is not appointed ; Motion withdrawn, 149.

53. A Motion having been made to refer a certain Return, and objection being taken that no Notice had been given of the Motion ; Mr. Speaker being appealed to whether it is not too late to take the objection, as the debate had continued at some length, he decides, that his attention being drawn to the want of Notice, he must declare the Motion out of Order, 233.

1871.

54. Objection made to a motion that the settlement of the surplus debt between Ontario and Quebec presents great difficulties, for the avoidance of which it is desirable that the British North America Act should be amended, so as to assign the same to the Dominion, with corresponding compensation to New Brunswick and Nova Scotia ; That it tends to an appropriation not recommended by the Crown ; Objection sustained, 50.

55. The like objection made to a Motion declaring that the House will give its most favorable consideration to any measure introduced by the Government for the adjustment of the difficulty concerning the said debt, and involving any aid on the part of the Dominion ; Objection sustained, 63. Mr. Speaker revises his decision so far as regards the necessity for a recommendation by the Crown, but sustains the objection on the ground that the Motion involves an increase of the Public Debt, and ought therefore to have originated in Committee of the Whole, 72.

56. Objection being taken to a motion, on the ground of want of Notice ; Mr. Speaker decides that it rests with the House whether the notice shall be dispensed with or not, 249.

57. A Motion to refer to a select committee a Return concerning a claim of George Sterling ; Mr. Speaker decides that the Motion is in Order, as the House can reject the report, if it should propose a payment of money not recommended by the Crown, 254.

1872.

58. A Motion having been offered in reference to a proposed amendment of the Superannuation Fund Act, and an amendment proposed, that it is not expedient to alter the provisions of the said Act during this Session, but that the subject should engage the attention of a new Parliament ; Objection being taken to the amendment, on the ground that it bore no relation to the main motion ; Objection overruled, 166.

V. DECISIONS OF MR. SPEAKER, ETC—Continued.

Fraser & Co., on the ground that no notice thereof had been given, Mr. Speaker ruled it out of Order, 152. 63. Mr. Masson having moved for concurrence in the Second Report of the Select Committee on the reporting of the Debates of the House; Objection was taken to the Motion on the ground that it required notice; Mr. Speaker decided that the question could not be regarded a matter of privilege, demanding immediate consideration, 86. A similar Motion having been made on a subsequent day, objection was made that it was on the Notice paper, and could not be taken out of its course; Mr. Speaker decided, that the question might have precedence when Notices of Motions were reached, inasmuch as it partook of the character of privilege, 93.
64. **ORDERS OF THE DAY** (1873—*March Session*):—That no amendment can be moved to a motion that the Orders of the Day be now called, 300.

PETITIONS :

1869.

65. Objection taken to the reception of a Petition for the removal of obstructions to the navigation of the River Ottawa, on the ground that it implies a grant of public money; Mr. Speaker decides, that as it does not ask for a grant, its rejection would act as an undue limitation of the right of petition; Petition received, 22.
66. Objection taken to a Motion to refer a petition of the Town Council of Sorel concerning their indebtedness to the Municipal Loan Fund, on the ground that its adoption would involve an expenditure of money; Mr. Speaker decides that it is not in Order, 307.

72. A Motion having been made to re-commit a Resolution of Supply for re-voting the sum required in connection with the acquisition of the North West Territory, to be considered in connection with the last Supplementary Estimates submitted; an objection was raised, that as the Committee of Supply had already before it several Messages recommending a re-vote in another form, one or other of them must be withdrawn; Objection overruled, 339.

1872.

73. A Motion to re-commit a Resolution of Supply concerning Canals, for the purpose of considering the propriety of aiding in the construction of the Georgian Bay Canal, Mr. (acting) Speaker, decided Motion out of Order, as it would involve a charge not recommended by the Crown, 311.

1876.

76. A Motion having been made for the Speaker to leave the Chair, in order that the House might go into Committee of Supply, Mr. Irving moved an amendment in reference to the Tariff, and Mr. Workman subsequently proposed an amendment to the amendment; Mr. Speaker ruled that it is irregular to propose an amendment to an amendment under such circumstances, 89.
