ENQUIRER Self Test: Match You And Yours

by SIGMEUND WATSON

How well do you and your date match?

Here is a quick questionnaire that measures and matches your physical attributes against those of your love mate's, according to Dr. Leonid Scott-Tyler. His quiz has been developed over months of intensive research of surveys.

Just answer the multiple-choice questions below by circling the appropriate answer, then grade yourself using the key following the

quiz.
1) How well do you and your mate's noses fit together when you kiss? a) like two Lego blocks, b) like an

oversized ice cube in a container, or c) like a square peg in a round hole.

2) How do your shoe sizes compare? a) just right, b) snugly tight, c) like a square peg in a round hole.

3) When you look into your loved one's eyes, do you see her a) looking straight ahead, b) at a slight incline, or c) you don't stoop that low?

4) How do you have to

adjust your love mate's vehicle's driver's seat when you drive? a) no need to adjust, b) an adjustment of only two to four inches, c) take a bus.

5) For those early morning toiletry duties, can you and your mate a) share the Bic razor, b) alternate deoderant bars, or c) fog the mirror so you won't have to encounter two horrifying visions a morning?

6) If you had adjustable toilet seats, how much would you have to change the size after your date uses the facility? a) within a few notches, b) time to buy two to save time, or c) take a bus.

7) If you were to visit a unisex hairstylist with your mate, how much time would there be between the end of each other's appointment, assuming you start at the same time? a) 0-5 minutes, b) 5-15 minutes, or c) take a

bus downtown, do the shopping and return with time to drink a cup of coffee.

8) When you and your date are arm in arm, do your fingertips a) brush, b) extend to either wrist, or c) get lost in a dense forest?

9) How well would you be able to wear your loved one's sun glasses? a) 20-20 vision, b) 15-30, or c) mouth watering.

Give yourself 2 points for each a) answer, 1 point for each b), and 0 for each c). Now tally your points then find your score below.

15-18: Yours is a match made in heaven.

10-14: Though your pairing lacks a completeness, you still have what it takes to make a meaning relationship.

5-9: Yours is a relationship chock full of differences and will take much work on both parts to work. My advice is to start looking for some one else.

0-4: Take a bus. This is a pairing that should never have gotten within two transfers of each other.

Gullible Parents Escape Terrible Horrrifying Fate

by MARK ROCKFIELD

The hellish nightmare is over now for George and Edna Forbes of Palooma, Colorado. They are no w free from the grasp of a quasi-religious cult, the Moral Majority.

"The past eight months have been rough for me and George," says Edna Forbes.

"We weren't sure we could make it. I can't believe I could be so gullible."

Late last August, the ENQUIRER has learned, the Forbes were selling books and trinkets for the Moral Majority, a quasi-religious cult led by Jerry Falwell, in the streets of Atlantic City, N.J. when they were rescued by their son, Dennis.

"We are grateful to our son, Denny (Dennis's nickname), for saving us from those wretched mind-bending beasts," says Edna's husband George, a chartered account-

MM Agent number 99

tant in Palooma.

"We would still be their mindless pawns if it weren't for him."

Their friends agree that the last eight months have been tough for George and Edna.

"George and Edna have experienced deep emotional traumas — no doubt about it," says a close family friend.

"They program you to think that if you give up their way of life or if you stop believing the garbage that the Moral Majority stands for, you will be betraying God and you will be struck by lightning or you will burn in hell or something like that," says Edna.

The Forbes son, Dennis, a graduate of the University of Alberta who now lives in Bula Bula, Illinois, had a difficult time finding the whereabouts of his parents.

"I hired two private eyes to track them down, but that devious Moral Majority kept them moving from one location to another," says Dennis.

"We virtually had to kidnap them to get them to come with us, they were so indoctrinated," says Mickey Anastasio, one of the two private eyes hired by Dennis Forbes.

"When they saw me and Dennis get out of the cab, they took off down the street with their Faith Partner bibles and 4000 dollars cash. They weren't very fast, I guess the money and books were too heavy for them, so Dennis and I caught up to them right away," says Anastasio.

"When we caught up to them, they said they were on a mission from God and started to kick us in the shins and beat us with the Faith Partner bibles, but finally Mickey got them both in a headlock and held them until I could rent a car nearby," says Dennis.

When they were still zealots, George and Edna did a great deal of work for the Moral Majority, sending the money to the Thomas Rhoades Baptist Church in Lynchburg, Virginia, The Old Time Gospel Hour Show and Liberty Baptist College.

**EXCLUSIVE
INTERVIEW**

One of the many unsuspecting victims of the Moral Majority. "You will be struck by lightning or your will burn in hell or something like that."

The work they did was not unlike the work done in other cult organizations, like the Moonies.

"We worked in New York and New Jersey," says George.

"We sold over five thousand copies of Faith Partner bibles at \$25.95 each to acrophobics who were going to the top of the World Trade Center or the Empire State Building."

"Our best sellers were pins that said things like 'In God We Trust', 'Save freedom — stop abortions and the E.R.A.', and 'Love your brother — but nuke those Commies', says George."

Butti was apparently set off by the satirical "Olivia Butti's Diary" regularly printed in the *Gateway*.

Butti held off the police with her purse for another hour until reinforcements arrived with a tranquilizer gun.

Student Union President Robert Greenhill surveyed the bloodstained *Gateway* office afterwards and recoiled in horror at the carnage.

"My God, this is awful!" he sobbed, "We don't have enough money in the building maintenance budget to even begin to clean this up."

President Resigns Because He Had "To Do What A Man Has To Do," In The Islands

Former SU President Rob Greenhill will soon rush to defend the land where men are men, and sheep are nervous.

The tragedy of the Falkland Island's is even now affecting the everyday operations of the University of Alberta Students' Union:

SU President Robert Greenhill resigned from his executive position today as news arrived about Britain's declaration of war against Argentina and his immediate conscription into Her Majesty's Royal Navy.

Greenhill, himself a British citizen, "could not watch his beloved homeland go to battle without strong leadership," said a source close to the former president.

An SU support staff worker said, "Robert broke down as soon as he received the news of Britain's declaration."

Greenhill's exit places the SU presidency into the constitutional second-in-command, vice-president external. Teresa Gonzales occupies the position at pre-

sent. When our *Enquirer* special reporter tracked her down, Gonzales admitted surprise to Greenhill's sudden departure.

Friends close to Gonzales said she felt "Robert's sudden conscription appears convenient considering the SU's financial situation."

Teresa is not one to begrudge a person's loyalties.

"This is not the time to judge Robert or Britain. His country went to war, and Robert did what a man has got to do. We should be wishing him luck and a safe return." Gonzales commented.

University administrators were surprised by the British declaration but not Greenhill's action.

An unidentified administrator reported that "Robert is that kind of guy." "He's a man of principles

and knows where his priorities lay. If he weren't conscripted, I'm sure he would have signed up on his own. We just saved the paper work."

Confided another friend, "Myer had great expectations for the boy. Robert demonstrated a willingness and an ability to work with the business community, University administration, and government hierarchy. Myer found these traits rare in the SU executive over the years."

Gonzales indicated that a memorial may be erected to commemorate Greenhill's "brave resolution and determination to defend his homeland and fundamental beliefs."

Student activist Oscar Ammar relaxes and smiles thinly in spite of his patented Che Guevera get-up.

He looks past the bold red Soviet banner hanging from the ceiling and complains of "Red Baiting" in the recent student election.

But an *Enquirer* in-depth probe shows the "Red" infiltration is everywhere on the second floor of SUB, even after the disastrous Walker Executive defeat.

Don Millar, the new sexy strongman of the Federation of Alberta Students (FAS) ring-leads the circus of deceit and illusion out of the office of el-presidente of the Federation.

Mike Walker, props up the national component as treasurer of the Canadian Federation of Students (CFS).

On the radical fringe are several suspected card-carrying Communists and sometime FASists — Anne McGrath, Lorraine Mitchell, Chris Frazer, and Calgary operative Jim Stanford.

Subversive student
Mikey Walker,
will try anything.

But the driving force behind the quiet conspiracy is Oscar Ammar, revealed as a Soviet-sponsored Cuban guerrilla posing as an estranged Lebanese-Arab nationalist.

With all that fire-power, the Walker Executive Orchestration failed to seize power in the last Students' Union election.

Sources report that the U of A "politburo" plans a massive counter-intelligence co-option scheme taken right out of Moscow's derivative revolutionary handbook *How to Subvert Friends and Influence Proletarians*.

Already SU President Robert Greenhill, who is not usually a boob, has been coerced to represent "student interests" prescribed by the FAS-Kremlin connection at the University's Board of Governors.

With Greenhill now out fighting for imperialist causes in the Falkland Islands, the Red Menace will move on vice president Teresa Gonzales, affectionately nicknamed "Gonzo".

"Gonzo" has been targetted as the stalwart of "superficial student interests," according to a confidential memo.

Meanwhile, special Alberta government envoy Rollie Cook is poised to strike back at the anti-establishmentarian mood raging on campus.

Sources say Cook will plant an "agent provocateur" in the Red midst to flush out the menace.

Recent patronage appointee Keith Krause, who will become a Legislative Intern next fall, could well be Cook's lackey.

Cook asked the *Enquirer* not to publish Krause's name.

CIA Document Reveals Commie Aliens

by **JOHNNIE ROTTENBEAN**

An in-depth six-month-long investigation by an undercover ENQUIRER reporter has revealed that aliens from another galaxy may have infiltrated the University of Alberta campus.

The aliens are indistinguishable from the regular population.

The aliens apparently came to earth over two years ago, landing in the far-north of Canada, near Inuvik. Before landing, they apparently made radio contact with Soviet cosmonauts as they orbited the earth. The Soviets convinced the aliens to sign a pact of alliance in overthrowing the United States, so claims a secret C.I.A. document.

The arrival of the aliens corresponds to an observed increase in sightings of U.F.O.'s by the Canadian Armed Forces, previously believed to have been due to faulty radar and tracking equipment.

Reported sightings of

cube-shaped objects that darted across the sky in ways that no airplane could be common. The ships seemed to be luminous, almost mystical, according to one observer. A prominent church leader in Edmonton believes that the end of the world is being heralded by these mysterious aliens.

R.C.M.P. have sent special agents to the U of A campus to determine if the C.I.A.'s claims are valid. According to one R.C.M.P. spokesperson, the Mounties have found no evidence of any aliens. This is not unusual says another R.C.M.P. official, indicating that it doesn't mean that the aliens aren't there.

A document leaked to the ENQUIRER states that the C.I.A. will do its utmost to prevent Communists from other galaxies from being able to take over the U.S.

Maggie Molests Martians

A shocking disclosure by sources close to Margaret Trudeau has revealed that the estranged wife of Canadian Prime Minister Pierre Trudeau has repeatedly had sex with UFO's and the ghosts of John Belushi and Mackenzie King.

"It's true," laughed the confessed nymphomaniac and slut to the stars, when questioned by an ENQUIRER reporter.

"In my new book that will soon be published, I describe all the naughty details of my *super*

supernatural sex experiences which have been many and quite fulfilling," she confides.

Three chapters of the third of her steamy memoirs entitled *Royalties* graphically describe how she was often "forcefully violated by cigar-shaped

flying objects" while walking from Studio 54 to her Manhattan penthouse during the summer of 1980.

"It was the strangest thing," she says in chapter 9, "and I hope it happens to me again sometime soon. I can't help but wonder if this very special experience means something about me."

Albert Einstein confirmed Peterchuk's theory in recent studies.

Hare-Raising Scheme Generates Kilowatts

Beat the energy crisis with SEX!

This is the message brought forward by noted scientist Jord Peterchuk in an exclusive interview with the *Enquirer*.

"Es ist mein firm confliction," stated Peterchuk "that giffen der mas of der sonne in reabbits, we could produce more kilowatt hours of energy per gram weight than der sonne produces right now. Jetzt."

Peterchuk demonstrated evidence indicating the consummate energy of many mammals rivals that produced by the fusion of hydrogen, that process in the sun which now causes heat and light.

"Der ting ist," continued the Juno award winning

doctor, "to be fully effective, ve neet a load of rabbits at least as equal in volume as big as that of the sonne. Only this will gravitate and compress well enough to begin producing the correct magnitude of reinforcing electromagnetic vibration. Den ve vill get a surface temperature far above that of a normal star."

A mass acclerator, Peterchuk developed is a revolutionary device. Using only water and sand, it will instantaneously multiply any living thing many times. In

fact, before our *Enquirer* reporter's awe filled eyes, the doctor multiplied a chick 42½ times.

"Ach, vell" said Peterchuk in reference to the unwhole chick, "Practice makes perfect."

Peterchuk resists the dictatorial attitude of the establishment and the scientific community, and is scoring points for humanity. His success will silence the skeptics and scientific authoritarians and allow the meek to inherit the earth (and to hell with its mineral rights)!

Drunk Clark Retires

A weary, discouraged and considerably besotted Joe Clark has given up his leadership of the Progressive Conservatives and his seat in Parliament in order to return to the simple life of a campus journalist at the *Gateway*, the University of Alberta paper he wrote for in his nonage.

"I just couldn't stand all the little back-stabbing backbenchers conniving to get my job," Clark confessed drunkenly to the *ENQUIRER*, "and all the petty party politicking between the Liberals and Conservatives, and all the smart-ass press types with their smart-ass questions, and all the goddamn cartoonists that always draw me like some snot-nosed little kid, and all the spies Trudeau infiltrated into the PCs, and all the running around and cheating that tramp Maureen does (I know she's been sleeping with Erik Nielsen), and all the spiders and snakes that won't stay under my bed, but keep coming out and crawling all over my skin, and the UFOs..."

Conservative Party Headquarters would only say "Thank God" on the subject of Clark's resignation. *Gateway* editor-elect Andrew Watts says, "Sure, we'll take him back, but he's got to start at the bottom changing typewriter ribbons. Providing he can keep his hands steady enough, that is. At any rate he's no weirder than some of the other people we have working around here."

Thus spake Gonzathustra

by B.S. COOKE

Rejected SUTV star, Gord Stamp has decided to open a new campus nightclub after being inspired by a recent *Enquirer* feature. He has some great talents lined up for the grand opening. "Yeah, like we've got lots of beer and some women and some more beer and more women," he said. Sources close to Stamp say he's asked his long-time companion, Suzanne Bizon to be the feature attraction. Bizon, a staunch feminist, when questioned about this seemingly contradictory action, said "Hey, I've been oppressed for years, so take it off, eh?"

Don Millar, confessed Trotskyite and pseudo-student, has recently purchased a palatial mansion overlooking Peter Loughheed's bedroom window. He showed it off at an elegant affair last week, at which stargazers could have spotted such notables as Elise Gaudet, a self-confessed fashion victim, and Keith Krause, the star of "The Incredible Receding Hairline," which was a box office flop.

Robert Greenhill, star of the new hit SUTV show, says his career has soared ever since he read the book *Dress For Suckess*. "I owe everything to John Molloy; where would I be without the knowledge that it's OK to pair a pinstriped suit with a pink and purple polka-dot tie and red punk shoes?"

Teresa Gonzales, star of *Let's Make A Censorship Board*, asked yesterday, "Is there life after Cottle?" When asked about the tuition fee hike, she replied, "It's all relevant when it happens, right?"

Teresa Gonzales

Confessed heterosexual, Wayne Gretzky, has been admitted to hospital with what doctors term "self-professed perfectionitis," characterized by an inflammation of the head. An anonymous doctor said "It's certainly terminal." Hordes of the athlete's fans jammed the hospital looking for ways to help their idol. Several people offered to insult him for hours on end, or as long as it took in order to cure him of his affliction. L.A. King fans were prominent in this field. Doctor assured the *Enquirer* that Wayne's disease wouldn't affect the whiteness of his teeth, and he would be back on the ice in no time.

James Horsman, Minister of Advanced Ignorance and his latest fling, Lisa Walter, have had a lovers' spat. She was seen storming from their abode screaming "After six months of futile attempts, I'll never go to bed with the Minister, if he offers again."

To celebrate the pre, pre, pre pre-opening party for the new liquor licence for Dewey's, Myer Horowitz and Phil "Dewey" Soper went for "a" beer. Of course, they couldn't stop at one, and had to be forcefully removed from the premises, three semesters later.

Teresa Gonzales and Olivia Butti, coauthors of *Liberation From the Girdle* are holding a seminar next week on "How To Make Over-size Pant Suits A Part of Your Wardrobe."

Former, ex, almost, close-but-no-cigar SU President, Mikey Walker has decided to accept the offer as an associate professor in political science. Some of his future lectures include "How to Lose 23 Friends in 6 Weeks," and "How to Have a Green Thumb on a Red Fist."

The Russians are coming, the Russians are...

"It's the Russians," says separatist Gordon Kesler fool a top expert.

What else could explain the fabulous Oilers giving away a five-goal lead to L.A.?

How else could

enough Albertans to win public office?

Why else would the Queen not come to Canada

except on the Moscow-inspired pretense of the silly Argentinian crisis?

But top Soviet experts have a different explanation. "It's Reagan."

ENQUIRER stops slaughter

The PHILLIPINE ENQUIRER, a high-circulation gossip-and-sensation

magazine in that country, has rallied 236,000 signatures in a petition protesting the barbaric western custom of slaughtering helpless cattle to

be turned into food for the shameless populace.

The magazine says, "The brutal practice of clubbing, stabbing and strangling cattle to death is enough to make a civilized Filipino sick to his stomach. Certain animals like

fish and dogs were meant to be eaten, but cattle and horses are clearly meant to be draft animals for plowing and drawing wagons. The cruel "gourmets" of the west are perpetrating a totally unacceptable outrage."

4 Heads are better than one

The world's first four-headed university student will enroll at the U of A this fall.

In an exclusive interview the *Enquirer* spoke with (from left to right) Boris, Christine, Arnold Dionne and Ms. Dionne about their unusual condition. As you're probably aware, the Dionne family became famous when they had the first four-headed child to survive, some twenty years ago. Since that time, life has not been easy for the four-headed youngster(s?).

"How would you like being called eight eyes?" quipped Arnold who plans to enter the Faculty of Engineering.

Arnold is entering engineering because he feels the future of Canada depends on continued growth in secondary and tertiary in-

dustry. "I'm also in it for the money, eh?"

To the left, both physically and politically, is Boris, who recently changed his name from Adam because the name Boris identifies him more "with the workers." He is a member of the Com-

munist party and will study political science.

He attributes his superior intelligence as the main factor in his politics. "We can't all be stupid," says Boris.

In between Boris and Arnold is Christine, a born-again Christian of charismatic persuasion.

"I'm so glad the Lord gave me the opportunity to suffer this way," says Christine. "I just know there is some purpose in my never being able to lead a normal life."

Christine is taking bible college courses by cor-

respondence and will enter nursing.

Ms. Dionne, the fourth head, would not tell the *Enquirer* her first name because she felt it might put her in an inferior position. Sources close to the heads speculate her first name may be Rapunzel.

Ms. Dionne plans to enter the Faculty of Arts and will study herstory (as opposed to history) and will take courses from female instructors only.

"Why should I let some male professor sexually harass me," she asks. Ms. Dionne will minor in misogamy.

The Dionne foursome will have a special time-table developed by the computing department which will allow them to finish their studies in just over twelve years. They will also have special permission to sleep while in each others' classes.

Taking twelve years to go through university does not seem to bother the foursome. As Arnold puts it, "Hell, it takes some regular students that long."

The Surgeon General has determined that **EXTRA BILLING** is beneficial to your health.

This message was paid for by extra billing by your Alberta Doctors' Association

We'd like to talk to you about **extra billing** before we ever have to operate on you, just to be safe. With the cost of malpractice suits getting higher than most anesthesiologists, we feel justified in asking for just a bit more of the green stuff. After all, if you were in our \$200 shoes, wouldn't you do the same? It's not like

we're asking for a pound of flesh, or anything of the sort, just your cooperation in paying your bills, **all** of them. And when you come to think about it, isn't it worth the extra cash to feel secure in knowing that you're no damn good to your doctor *dead*? **Extra billing** - for your health and ours.
