The copy filmed here has been reproduced thanks to the generosity of:

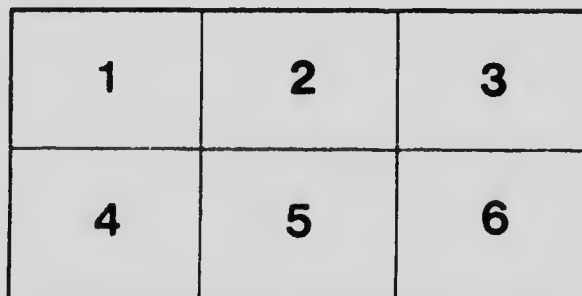

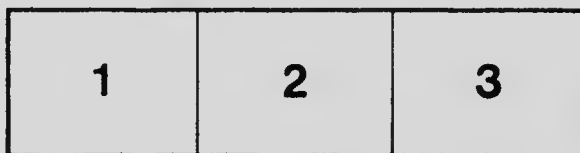

Thomas Fisher Rare Book Library,  
University of Toronto Library

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

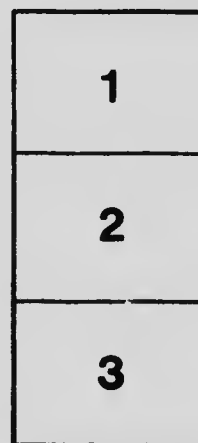

Thomas Fisher Rare Book Library,  
University of Toronto Library

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

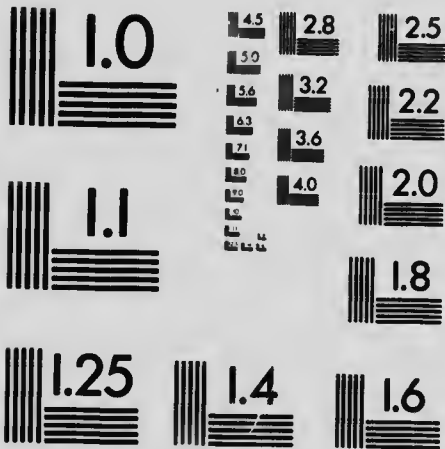

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

IN THE LIBRARY OF :

The

Royal College of

Dental Surgeons

TORONTO

The Library has subscribed to the Dental Index Bureau, which will be of great assistance to Students and others using the Library.

This index will be published in two parts, one being an author index, the other a subject index. The author index will contain all the writings, biographical sketches and important personal notices, arranged alphabetically according to the authors' names; all of the writings of each author together. The subject index will contain all original articles, papers read before societies, editorials, book reviews, important selected articles and abstracts, arranged according to subjects, and the subjects themselves will be so classified and arranged that related subjects will be grouped. All of the writings on each subject will be together.

Until this system is in good working order, the Students are urged to avail themselves of the present card index system, which classifies the journals in two classes, viz., under the subject name and the author's name.

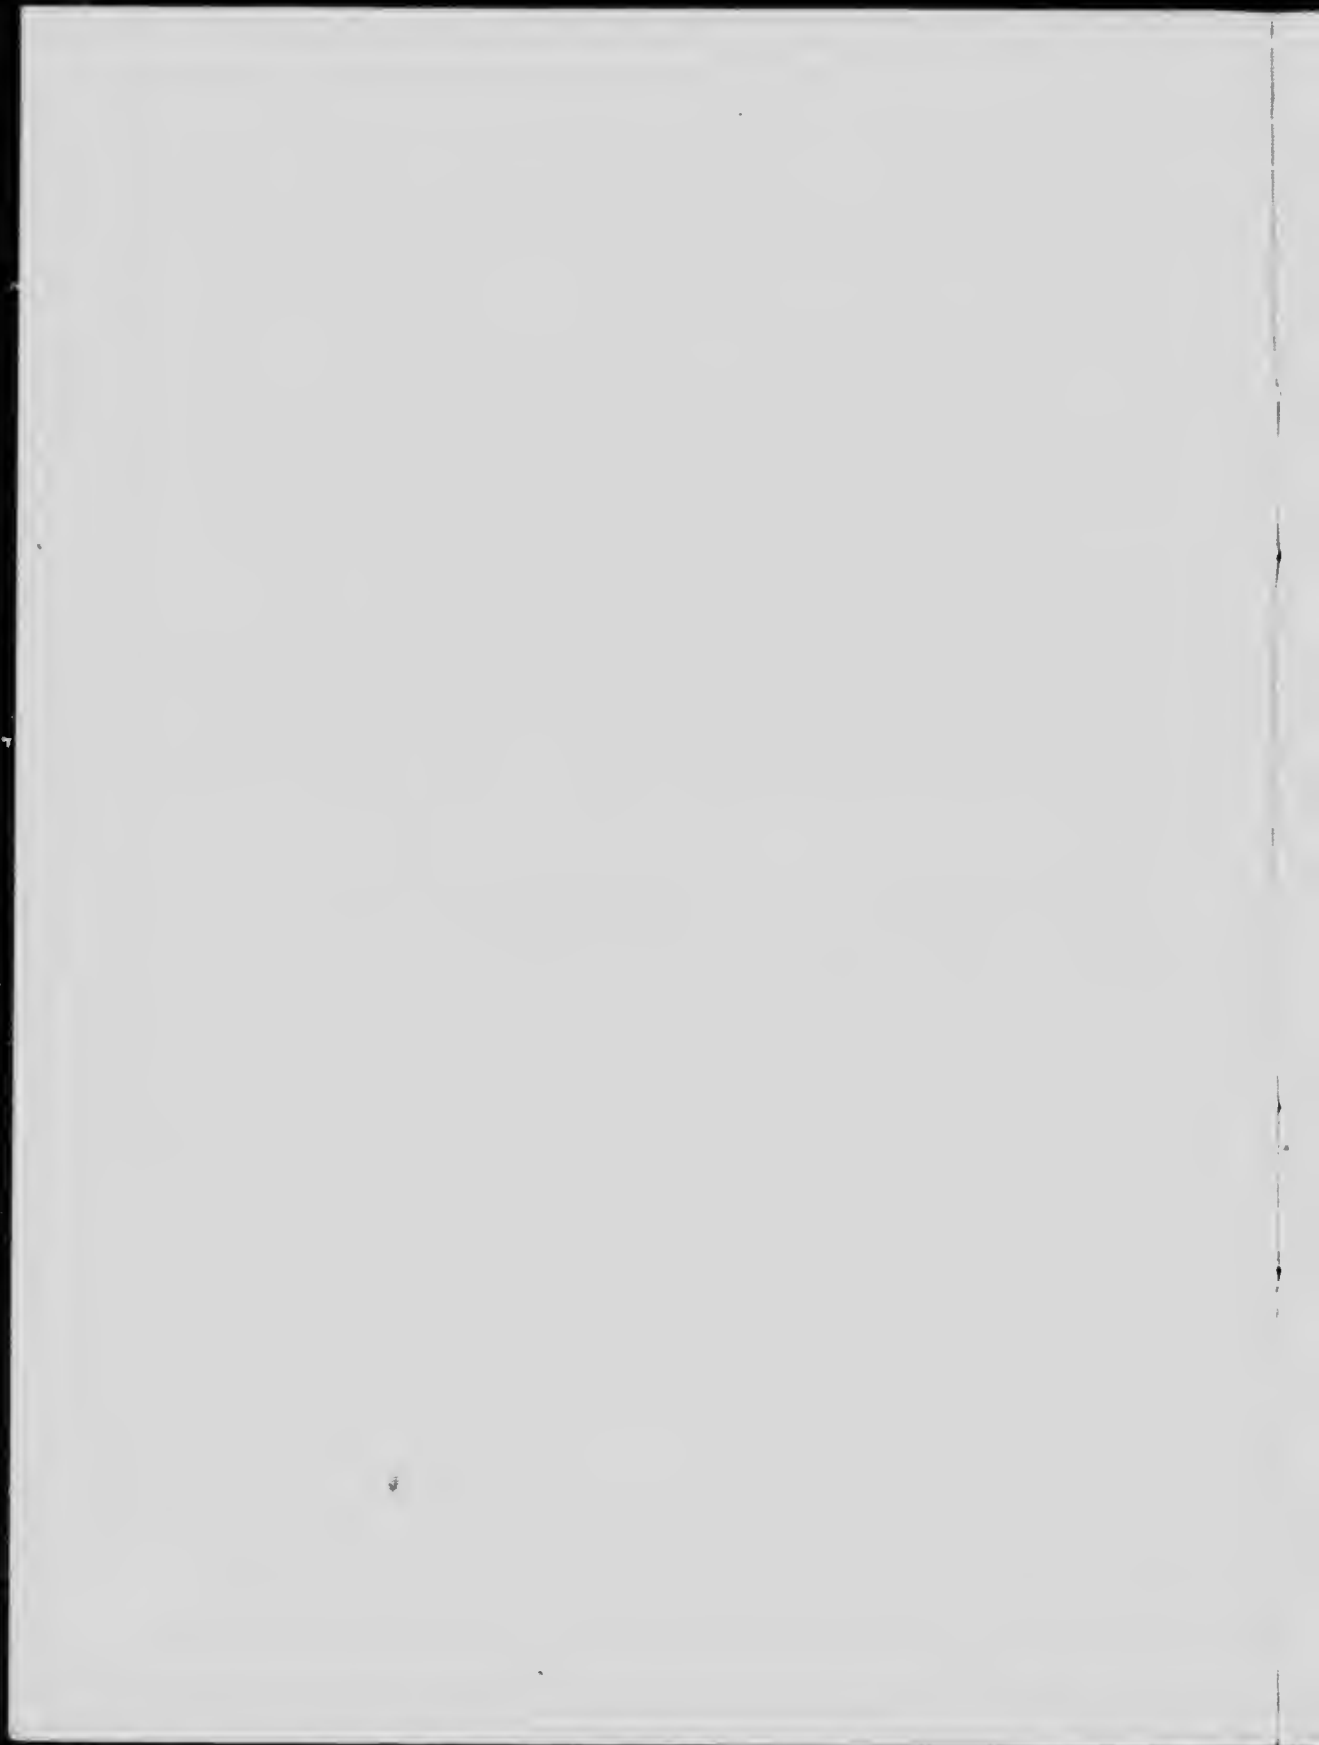

It is anticipated that with the increased attention the College Library is receiving, it will be found more interesting and instructive than formerly, and that the Student body will be greatly profited thereby.
