 - Opposing pages with varying colouration or discolourations are filmed twice to ensure the best possible image / Les pages s'opposant ayant des colorations variables ou des décolorations sont filmées deux fois afin d'obtenir la meilleure image possible.

This item is filmed at the reduction ratio checked below /
Ce document est filmé au taux de réduction indiqué ci-dessous.

A horizontal ruler scale from 10x to 32x. The scale has major tick marks every 2 units. Below the scale, labels are placed at 12x, 16x, 20x, 24x, 28x, and 32x. The 26x label is crossed out with a diagonal line.

The copy filmed here has been reproduced thanks to the generosity of:

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▽ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

BULLETIN No. 324

MAPLE SUGAR

OTTAWA, October 14, 1915.

J. U. VINCENT, Esq.,
Deputy Minister of Inland Revenue.

SIR.—I beg to hand you a report upon Maple Sugar as obtained by our inspectors in April, May and June of this year.

Standards for Maple Sugar have been in force since November 27, 1911; the Order in Council defining them is published by this department in Circular G. 994.

An amendment to the Adulteration Act was assented to on April of this year, and introduces the following change in the Act, as regards maple products:—

" 1. Section 29a of the Adulteration Act, chapter 133 of the Revised Statutes, 1906, as enacted by chapter 19 of the statutes of 1914, is repealed and the following is substituted therefor:

" 29a. No person shall manufacture for sale, keep for sale, offer or expose for sale, or sell, any article of food resembling or being an imitation of maple sugar or maple syrup, or which is composed partly of maple sugar or maple syrup, and which is not pure maple sugar or pure maple syrup.

" 2. Any maple sugar or maple syrup which is not up to the standard prescribed by the sixth schedule to this Act, or, if such standard is changed by the Governor in Council, to such standard as the Governor in Council may from time to time prescribe, shall be deemed to be adulterated within the meaning of this Act.

" 3. The word "maple" shall not be used, either alone or in combination with any other word or words, or letter or letters, on the label or other mark illustration or device on a package containing any article of food, or on any article of

food itself, which is not pure maple sugar or pure maple syrup, and any article of food labelled or marked in violation of this subsection shall be deemed to be adulterated within the meaning of this Act."

The following synopsis presents the results of analysis of the above mentioned samples:—

	Samples.
Found genuine,	204
" to meet legal requirements,	5
" adulterated,	25
Total,	<hr/> 234

Five samples so nearly meet legal minimum requirements, that adulteration cannot be established in their regard; but they are not, on this account, above suspicion.

I would respectfully recommend publication of this report as Bulletin No. 324.

I have the honour to be, Sir,

Your obedient servant,

A. MCGILL,
Chief Analyst.

- Note: 1.—Vendor claims to have sold this as a compound maple sugar.
 " 2.—Vendor claims to have sold sample without giving a guarantee of purity.
 " 3.—Vendor claims that the sugar was sold to him as pure by the manufacturer.
 " 4.—Vendor or furnisher states that the article was manufactured by Maples Ltd.,
 Toronto.
 " 5.—Manufacturer claims that the article was sold by him not as maple sugar,
 but as maple flavoured sugar.
