

PARLIAMENT IS DISSOLVED; ELECTION DAY OCTOBER 26TH

DATE WAS DECIDED BY CABINET YESTERDAY

Ministers Serenely Confident — Even Betting on Forty Majority.

Hon. Thomas Greenway, Prof. S. J. McLean and Mayor Scott of Ottawa, Appointed Members of Railway Commission.

OTTAWA, Sept. 15.—The tenth parliament of Canada has been dissolved and the election day fixed for October 26th, whether or not the present government has deserved the reward of another tenure of power.

Writs will be sent out for the election of the members of the House of Commons on Monday, October 26th.

ED.—Reliable men in throughout Canada to goods, tack up show-places, also distribute matter; commission per month and expenses employment to good.

FRANCE FIGHTING THE SLAVE TRADE IN CONGO. PARIS, Sept. 17.—Despatches to the Government from the Governor General of the French Congo state that a force of 600 French troops under Captain Jullien, have routed the Ouandji tribe, which territory is the centre of the slave trade, and captured arms.

DR. PUGSLEY DISCUSSES CONSERVATIVE MEETING

Hazen's Failure to Provide for Valley Railway, a Shame and a Disgrace.

Borden's Tariff Policy Threatens Welfare of St. John by Reducing Revenue Available for Public Works.

Interviewed by The Sun last evening in reference to the speeches delivered by Mr. Borden and others at the Conservative meeting on Tuesday evening, Hon. Dr. Pugsley said he could not help being impressed by the fact that Mr. Borden claimed that the Provincial elections in New Brunswick held last winter resulted in success to the Conservative party.

Conservatives and Protection. "Mr. Borden's implied declaration that if the Conservative party were elected they would return to the protective policy as it existed prior to 1887 is important," continued the Minister.

CHURCH NOTES

FOR BUSY MEN.

ROMAN CATHOLIC.

Catholic Sees
According to the New Freeman, besides the thousands of inferior clergy, there are altogether over 1,400 Catholic bishops in the world at the present time.

One of the Fathers

The Rev. Louis G. Gagner, seventy-eight years old, pastor of the Joseph parish, Springfield, died at Mercy Hospital, August twentieth. He was one of the oldest priests in New Brunswick, one of the first to be ordained with the French Canadian movement in the United States, and had a record of over fifty years in the priesthood. He was the brother of the late Rev. Joseph Gagner, for many years pastor of St. Joseph's church. He was born in St. Martin, province of Quebec, Canada, in 1830.

A Lady This Time

Miss Ida Hitchcock, the accomplished, nineteen-year-old daughter of Rev. Dr. Hitchcock, for ten years principal of the Hitchcock Military Academy at San Rafael, Cal., and a candidate for the copeland's minister, was received into the church recently at St. Joseph's church, San Francisco. Rev. Father Keane, officiating at the ceremony, took her into the church with the consent of her parents, who, though staunch Episcopalian, were desirous to follow the dictates of her convictions.

The Pope Ill

ROME, Sept. 17.—His Holiness the Pope, Bishop Burke of Albany, N. Y., that he was dependent concerning his health. He told the American press that he could not hope to live much longer and that he planned for his old home in Venice, where he lived so many years in peace and content at the villa called the throne of St. Peter. He told the bishop, however, that he could not expect to fulfil this wish, and must die as he has his immediate predecessor, in the Vatican.

THE ANGLICAN.

Very Small

Probably few people know that England contains a number of parishes so small that the population can be housed under one or two roofs. For instance, Upper Eldon, near Stockbridge, consists of two houses, which with an eleventh century church and a tiny "rod's acre" in the middle of a farmyard adjoining one of the dwellings comprise the whole parish. Not much larger is the population of Leighton, five miles from Exeter, which with its church is the interior dimensions are only sixteen square feet—it is quite large enough for the inhabitants. In Devon, near Exeter, there are two parishes, one of which contains only three adult inhabitants, the village contains five cottages and one shop. Still smaller there was two houses, one of which was a tiny cottage.

on Far Away

The deliverance of the Laramie, which we find the following:—It is possible to make a man's speech to reunion between Anglican and Presbyterian or other non-Episcopal Church on the basis of commonality to the Episcopate on the one hand, and by such precedents as those of 1850. The members of the Anglican Communion about thirty doctrines of those separated from it, and in the meetings of ministers and laymen of different bodies should be frequently held, and the authorities should arrange conferences with other churches for the common acknowledgment of the sin of division and for intercession for the growth of unity. Commenting on this the Presbyterian, "It is somewhat disappointing that the bishops and archbishops were not able to go further. The Australian proposal came to nothing, as we fully expected; but it seemed not improbable that the odious barriers erected three hundred years ago against the amenities and courtesies of desecration, which life might have been quietly lifted out of the way, it can never be as well as could wish until she is able to speak with one loud clear voice the truth which Christ died for our sins; and that He will never again be put to death at the hands of sinful men. The claims of missions to the heathen were stated with wholesome emphasis.

THE PRESBYTERIAN

Church Union in Korea

There have been in Korea four sections of the Presbyterian family—the Presbyterian church in the United States North, the Australian Presbyterian church and the Presbyterian church in Canada. They have recently joined hands and now form one strong church.

A Nova Scotian Robert Ralces

The first Sunday school in Nova Scotia, says the S. Times, was established at Lyons Brook, Pictou County, by James Davidson, some seven years earlier than the similar movement in England. Mr. Davidson came from Edinburgh in the year 1772. Soon after his arrival he commenced a day school at Lyons Brook, about three miles from the place where the town of Pictou now stands (then a wilderness). In order to meet the religious wants of the people he collected the children on Sunday for religious instruction.

A newspaper publisher in Pictou fifty years later paid a following tribute to the work of James Davidson: "Here this worthy man taught school seven days of the week, and to our shame be it spoken, the subject was more identified than when there was place of worship except the school-house where James Davidson taught and prayed. Then it is now when churches are in abundance even at our doors."

THE M. T. FODISTS

Worth Considering

Discussing the question—"Lord to whom shall we go," John 6, 68, the Rev. James Benninger, pastor of the Plymouth, Pa., Methodist church, closed with these words:—"We hear much carping and criticism these days about the different methods to attract men to the church. The Protestant world has gone almost to the limit in adopting means to secure this desired end. We have seen the magic lantern exhibition and listened to addresses on the subject, we have heard classical discourses and eloquent orations, but the men were no nearer the kingdom than before. We have fumed and raged and worked ourselves into a frenzy while the Catholic Church, without any effort on her part, has gone on in the even tenor of her way solving the problem to the satisfaction of her hierarchy.

"How does she do it? How does she get men out of bed on Sunday morning at an early hour—men who work late on Saturday night? How does she fill the streets on Sunday morning with worshippers when the Protestant world is fast asleep? I know some of the explanations that are offered, but they do not explain.

"The reason the Catholic Church succeeds, in spite of our misgivings, is because she is true to the central fact of revelation. She makes the death of Jesus the centre of her devotion, and around that point she organizes all her activities. When you see a company of Catholic people Sunday morning on the way to church, you can be assured that they are not going to hear an eloquent dissertation on Dr. Jekyll or Mr. Hyde. They are going to that place of worship to attend the Mass. What is the celebration of the Mass? It is what we call the celebration of the Lord's Supper. That fact is kept prominently before the minds of every Catholic. He comes into the church in childhood imbued with the death of Jesus; he goes out of this world thinking of the death of Jesus.

"Whatever may be our opinions about certain details of the Mass, there is one thing at least from which we ought to draw a lesson, if that church has succeeded by magnifying the Cross, why not every church?"

Going to China

There will sail from Vancouver on October 15, for West China, fifteen missionaries, three of whom are ladies; of the men ten are married, of whom one is Rev. E. R. Broeken, son of the late Rev. Ralph Broeken, D. D. This contingent raises the number of missionaries to 44.

DEACONESS HEARD IN PORTLAND ST. CHURCH

Miss Bessie M. Scott Tells of the Work of the Order

Miss Bessie M. Scott, deaconess from the Methodist Home, Portland, School, was heard in the Portland street Methodist church last evening. She gave an interesting discourse on the history of the order. It first originated in apostolic times and was afterwards dropped. The work was reorganized in the nineteenth century in Germany and spread to the United States, where it has been established for the past fifteen years. At present there are seventy deaconesses in the Toronto Home. These come from all over the Dominion. They work among the poor and sick and aim to make women and children lead a higher life. The training school is also an excellent branch of the home.

TRINITY CHURCH OF AMHERST CELEBRATES

Eloquent Sermons and Large Congregations Mark Anniversary Celebration

AMHERST, N. S., Sept. 14.—With large congregations and a splendid service the first anniversary of the opening of Trinity Methodist church was celebrated here yesterday. St. John's, of Centenary church, St. John, occupied the pulpit at both services with great acceptance. Rev. W. F. Gaetz, who was pastor of the church when the present structure was erected, was also a visitor. Dr. Borden and Prof. Andrews of Mt. Allison; Dr. W. H. Harris the present pastor, and Rev. H. B. Clark, associate pastor, also assisted in the services. The handsome church was tastefully decorated with flowers. A large choir under the leadership of Mrs. J. Aubrey Carter, rendered beautiful and appropriate music. Collections in aid of the church funds were taken during the day and a large sum was realized.

CINCINNATI, Sept. 13.—Barney Oldfield was the victor over Walter Christie in the final today of the \$2,000 automobile sweepstakes in which Oldfield, Christie and Chas. Soules competed at the Latonia race track. No record was broken. Oldfield winning the last race of the match on Christie in 1:04.2-5. Before this Christie defeated Oldfield in 1:01. As Oldfield had the day before honors were even. An additional race was necessary.

POPE'S LEGATE HEADS PARADE OF CLERGYMEN

Imposing Spectacle in London

GUARD OF PEERS Greatest Throng on Streets Since Queen Victoria's Funeral

LONDON, Sept. 13.—A great procession of the clergy, which brought the Buccharets, Catholics, to St. Paul's was held this afternoon, amid scenes such as the English church had never planned it had never anticipated. Cardinal Yvonne's body was borne, walked at the head of the procession, wearing his scarlet robes and hat, not carrying the Host. He was accompanied by a body of cardinals, archbishops, bishops, and other high dignitaries, of whom the Duke of Norfolk was the most prominent, and a concourse of cardinals, archbishops and bishops, who also were attired in ceremonial robes.

ONE OF ST. JOHN'S BEST KNOWN CITIZENS DEAD

Richard J. Coughlan Passes Away at His Home Yesterday

The death of Richard J. Coughlan, one of St. John's best known residents, took place yesterday morning at his residence, 3 Exmouth street. The deceased, who had acted in the capacity of city marshal for twenty years, is survived by a wife, three sons and two daughters. The sons are Rev. J. J. Coughlan, a priest, and Rev. J. J. Coughlan and Rev. J. J. Coughlan, both of whom are city marshals and as such of admirably high repute.

LAST BIG PICNIC HELD ON SATURDAY

All of Col. McLean's Outings Have Been Unqualified Successes
On Saturday at Hamstead the last of the series of fifteen political picnics which have been held throughout the county of Queens and Sunbury was held and like all others of the series it was a grand success. The picnic was held at Hamstead, a Conservative tract, and the picnic was held at Hamstead, a Conservative tract, and the picnic was held at Hamstead, a Conservative tract.

HAY AND FEED PLAGE DESTROYED BY FIRE

Building Occupied by DeWitt Bros., Fairville, Completely Gutted
A serious fire took place early Sunday morning in Fairville, when a large building owned by DeWitt Bros. feed and hay merchants, was completely gutted and thousands of dollars' worth of hay destroyed. The origin of the fire is unknown. It was discovered about 3:30 a. m., when burning very brisk and after much damage had been done. The Fairville fire department responded quite promptly and with the engine at work they were soon attacking the flames in earnest. It was well on to 7 o'clock when the blaze was under control. The building was completely destroyed, while the stock will be a total loss.

Richard J. Coughlan Passes Away at His Home Yesterday

"D" WANTS A SOLID NEW BRUNSWICK

Liberal Party Never So Strong in the Province as at Present

St. John, N. B., Sept. 11, 1908. Dear Sir.—Looking over the political field at this writing and aising the question, it looks like victory complete all along the line for Sir Wilfrid Laurier and good government. The Liberal party never was in better shape from one end of the province to the other, and organized in such fighting trim as they are today. Our distinguished leader in this province, Hon. Wm. Pugsley, Minister of Public Works, is marshalling his forces and making good in no mistakable way, and will without a doubt go back to Ottawa much stronger than before. There is no reason in this world why the people of New Brunswick should not emulate the example of Nova Scotia in 1904 by having a solid New Brunswick. Nova Scotia will do it this time again beyond a doubt. (Colchester and choice tomatoes to the contrary, etc.) We have as much reason, I think, to stand by the Hon. Wm. Pugsley, Minister of Public Works, as we have to stand by the Hon. W. S. Fielding, Minister of Finance. What has Fielding done for his province that Pugsley has not done and is doing for New Brunswick? His whole interests are bound up with the city of St. John and his native province and we have every reason to feel proud of him and give him that unstinted aid that Nova Scotia gives to her equally gifted son. Make the attempt this time and let us go hand in hand with Nova Scotia in the good work, for in unity there is strength, and in this way we will be able to impress upon the government our importance and to counteract the growing political strength of the great Northwest. The people of these lower provinces have got to be united more so today than at any other time since Confederation. As a noted, the great West is growing by leaps and bounds and of course increased representation necessary it is for us who our dormant strength, so to speak, to show a bold, united front to this condition of things political. There is food for great thought in this connection and it should make us think and ponder over the responsibility of such action. Let the battle cry be Pugsley and a solid New Brunswick, and when we have such a leader with a solid following behind him we will be in a much better position to demand our rights than ever before.

We cannot make our position too strong. Strike the iron while it is hot. We have everything in our favor, a good strong government led by a capable and honest leader, Sir Wilfrid Laurier, and it remains for us to speak as one man in no uncertain way. By doing so we will be studying our own best interests and at the same time making of this end of Canada a country worth living in and fighting for. Yours, etc.

CARTER'S LIVER PILLS

CURE SICK HEAD

TENDER HEARTY WELCOME TO RETURNING PRELATE

BISHOP RICHARDSON

FREDERICTON, N. B., Sept. 10.—At the Church of England hall this evening Bishop and Mrs. Richardson were tendered a hearty reception on their return from England by the parishioners of Fredericton. The hall was completely filled and prettily decorated. Dean Schofield presided and seated on the platform with him were, besides the Bishop and Mrs. Richardson, Canon Cowie, Canon Montgomery, Chancellor Allen, Church Warden Freeman and George, Sheriff Sterling, several ladies and leading church people of this city.

Dean Schofield, in a brief but appropriate address, called the meeting to order and explained its object, expressing at the same time the great joy it was to all to have his lordship back in the town with him. He called upon Sheriff Sterling, who read the following address: To the Right Reverend John Andrew Richardson, D. D., Lord Bishop of Fredericton: Right Reverend Father in God.—We have gathered tonight, church people of Fredericton and the neighboring parishes, with representatives from other points of the diocese, in the first place to bid you and Mrs. Richardson welcome home. We were glad to wish you God-speed when going forth in April last, for change of occupation, new sources of inspiration and rest are essential for all leaders of men, and now we bid you a still warmer welcome back to home and diocese.

We have all been reading or hearing with the keenest interest of the unique and epoch-making gathering of the pan-Anglican Congress and of the Lambeth conference. We have had the pleasure of your own active participation. We know you offer our hearty congratulations upon the experiences and responsibilities which fell to your lordship's lot in connection with the gathering at Lambeth. While we fully recognize that such gatherings must entail severe temporary loss to the diocese in the enforced absence and must place a great personal strain upon yourself, yet we also realize that assemblies of such character and power are fraught with tremendous issues in the work which our own branch of the Christian church has been called upon to undertake. We trust that the experiences of the past months will prove an unfailing source of strength to your lordship and that you will have the courage to hope that, notwithstanding the many calls upon your lordship's time and energies, you have been able to find opportunity for the rest and the care of your own health. We know your eagerness for work; yet the most untiring zeal can least afford to neglect the call to relaxation and refreshment. In concluding we remember, also, that the present gathering provides the first fitting occasion of offering to your lordship our congratulations since your enthronement as Bishop of the diocese. We would assure you of our whole-hearted confidence; and we pray that God will grant to you and Mrs. Richardson, with your family, great happiness, that He will long spare you to the care of His church in this diocese, and that under your guidance our own branch of the Church of Christ may more and more reflect the character of our Lord and Master, doing well the work which He gives. H. T. B.

R. E. BATES TO GET CHAIR OF ENGLISH Acadia

WOLFVILLE, Sept. 12.—The governors of Acadia University are making a special effort to fill vacancies on the teaching staff with specially well equipped men. A few weeks ago the announcement was made that Prof. W. Colt of University of Vermont had accepted the appointment to the chair of mathematics. It now seems probable that the chair of English will be filled by the appointment of R. E. Bates, Acadia's first Rhodes scholar at Oxford. Prof. Bates is now in Paris engaged in special study. The governors of the college have been in touch with him by cable for a few days, and negotiations look favorable to his appointment. A special meeting of the governors of the college is called for Sept. 15, after which a definite announcement will be made.

DOBBS' KIDNEY PILLS
BRIGHT'S DISINTEGRATOR
KIDNEY DISEASE
"Why did he buy that second-hand fire escape? He paid a good price for it and it's nothing but junk." "Not to him. He thinks maybe it can induce somebody to build a theatre or an office building to fit it."

ST. JOHN'S BANNER EXHIBITION FORMALLY OPENED SATURDAY EVENING

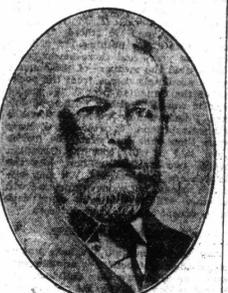

AGRICULTURAL PROGRESS KEYNOTE OF SPEAKERS' REMARKS AT OPENING

Hazen, Pugsley, Bullock, Fisher and Daniel the Speakers

Expo. Will be Most Successful in the City's History

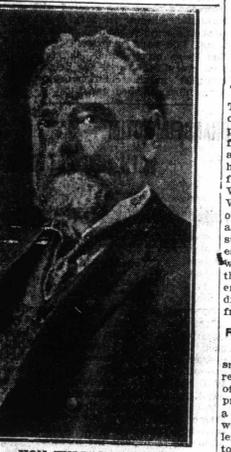

Splendid Exhibits in All Departments of the Big Fair

All the Attractions Will be in Full Running Order Today

HON. SYDNEY FISHER.

PREMIER HAZEN.

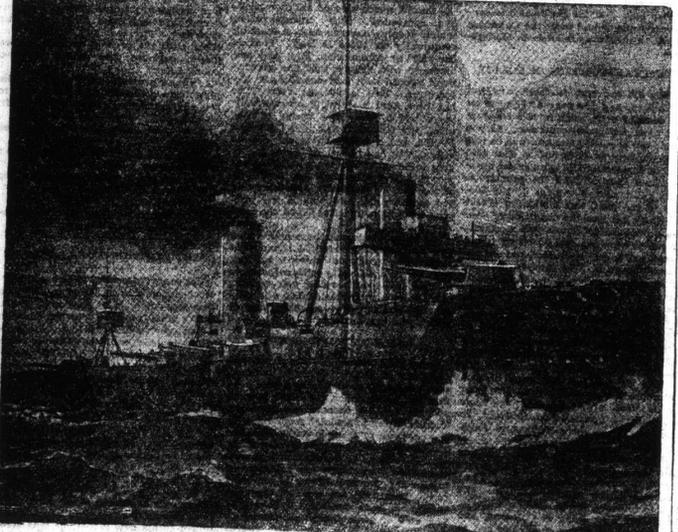

HON. WILLIAM PUGSLEY.

With speeches from some of Canada's most prominent and talented public men, who were escorted to the flag-bed, the exhibition was formally opened and followed him, Mayor Bullock, Hon. Wm. Pugsley, Minister of Public Works, Hon. Sydney Fisher, Minister of Agriculture, and Dr. Daniel M. P., all expressed their confidence in the success of the big fair and their fond hope that the citizens of St. John would leave no stone unturned to swell the attendance each day by being present themselves, seeing that their children were present and urging their friends to attend.

The attendance was unusually large, over four thousand people having passed through the entrance gates before eight o'clock. Premier Hazen in an optimistic address declared the exhibition open and the speakers who followed him, Mayor Bullock, Hon. Wm. Pugsley, Minister of Public Works, Hon. Sydney Fisher, Minister of Agriculture, and Dr. Daniel M. P., all expressed their confidence in the success of the big fair and their fond hope that the citizens of St. John would leave no stone unturned to swell the attendance each day by being present themselves, seeing that their children were present and urging their friends to attend.

The audience which assembled in the small hall to hear the speakers was a representative one, composed, as it was, of men and women from all over the province of New Brunswick, while not a few visitors from outside provinces were present. Four vacant seats were left when President A. O. Skinner arose to introduce the premier and hundreds were waiting about the grounds outside or inspecting the exhibits in the main buildings.

BRITAIN'S LARGEST WARSHIP BEING FITTED FOR SERVICE

THE NEW DREADNAUGHT

PORTSMOUTH, Sept. 16.—The St. Vincent, the largest and heaviest battleship ever built for the British navy, which was launched successfully here yesterday, is being rapidly fitted for service. Counting the three cruising battleships of the Invincible class, the St. Vincent is the eighth vessel of the dreadnaught type to be launched in this country. The admiralty has observed its usual reticence with regard to the details of the design and construction of the St. Vincent, but from certain figures that were given out, it is manifest that the experience gained from the construction of the Dreadnaught has been utilized in this vessel. It is believed that some of the additional weight of the St. Vincent is to be accounted for by her heavier armament for protection against torpedoes and by improvements giving greater security to those controlling the movements of the ship while in action.

LAWYERS WORKING ON DEFENSE PLAN

Pathologists Brought Into Jordan Case

MAKE A TRIP

Touring Car Kept Busy Visiting Different Sections for Evidence

BOSTON, Sept. 13.—Attorney Jeremiah S. Sullivan of 30 Court street, who with William B. S. Sear, the New York friend and counsel of Jesse L. Livermore, is engaged with several noted pathologists in building up a defense for Chester Jordan, now held on a charge of murder, continued their investigation yesterday afternoon at the Jordan home.

Among the pathologists were Dr. Councilman of the Harvard Medical School, Dr. James Ewing, professor of pathology in Cornell University; Dr. Harry Green of Tufts Medical School and Dr. Edwin W. Dwight of Boston. The party left Mr. Sullivan's office on Court street about 11:30 and proceeded to the Jordan home, 592A Medford street, Somerville, where they spent one hour investigating the premises.

It is evident from the manner in which they went about the investigation that they had no set purpose in mind, but were simply looking for material evidence that would enable them to build up a case on the plans already outlined.

While Lawyer Sullivan's medical board is composed exclusively of noted pathologists, the absence of alienists would give the impression that the defense was endeavoring to secure evidence to show that the crime had been committed in a burst of passion, rather than being a premeditated act.

When seen at his office late yesterday afternoon, Lawyers Sullivan and Teeling confirmed the fact that the doctors had spent the afternoon investigating the case, but said it would be impossible with good business to make known, at this time, any discoveries they might have made.

The pathologists have also examined the body of Mrs. Jordan, now held at the morgue, and have gone completely over the ground covered by Medical Examiners Magrath and Leary prior to the former's departure for Europe.

Mr. Livermore's big red touring car, which was placed at the service of the pathologists and Attorney Sullivan, was kept humming during the day, visiting the various sections where evidence could be secured to strengthen their case.

TOURIST SEASON IS PRACTICALLY OVER

So Far as North of Province is Concerned WAS A SUCCESS

The Beautiful Town of Dalhousie—Likely Conservative Candidate

DALHOUSIE, Sept. 8.—The tourist season is about over and a very successful one it has been in Restigouche county. In addition to the large number of guests who spent the summer months at the Inch Arran House, at Murphy's Hotel and at private residences in Dalhousie, a great many tourists spent the summer at the Hotel, Hotel, Hotel, and at ex-Councillor Mawhinney's at Upper Charlo, and the visitors speak highly of the different locations for summer visitors and the kindness of the people. Charlo, which is only six miles from Dalhousie, is becoming a popular summer resort. Campbellton citizens have started cottages there. The place faces the famous Bay Chaleur waters. The Charlo and Bel Rivers are noted trout fishing rivers and this section is well settled with neat and comfortable homes.

To give the readers of The Sun an idea what outsiders think of this section of New Brunswick it will be necessary to publish the views expressed about Dalhousie by the Boston Post in its issue of July 31st last, after one of its staff had spent a few days in the shiretown of Restigouche county.

One of the finest spots in northern New Brunswick is the town of Dalhousie. It is situated at the mouth of the Restigouche River, where the glorious Bay Chaleur begins, a site of unusual beauty; then its hills and heights command a wonderful view of sea and land as far as the eye can reach.

The town is on the line of the Intercolonial Railroad and is very accessible, but even before the railroad went through it, it was a famous resort. All variety of scenery may here be found, from splendid groves to the rugged rocks of most fantastic form, which in places skirt the shore. The harbor, and in places more than ten fathoms, is an excellent one for all purposes. Protected by a natural breakwater, it is perfectly safe for all kinds of boats, and is large enough to afford an abundance of room for recreation.

Refering to the question of system, Engineer Buschack said that the problem he solved was how to proceed against the wind, and it is difficult to institute a comparison between flexible, semi-rigid and rigid systems.

Another record flight was made by the military semi-rigid dirigible balloon under command of Major Gross, which returned here shortly before noon today, after having been in the air for sixteen hours and ten minutes. This surpasses the record made by Count Zeppelin, when on July 1 he traversed the greater part of northern Switzerland, occupying 12 hours in the journey. The new record, which was entirely unexpected, is ascribed to the greater part of the exact figures identified with aerology.

Refering to the question of system, Engineer Buschack said that the problem he solved was how to proceed against the wind, and it is difficult to institute a comparison between flexible, semi-rigid and rigid systems.

BIG LINERS IN COLLISION AT CRANE ISLAND

MONTREAL, Sept. 12.—A collision occurred at Crane Island, thirty miles below Quebec, this morning between the steamship Corinthian, of Montreal, line, outward bound from Montreal to Havre and London, with passengers and general cargo, and the Mailin Head, of the Head line, inward from Cardiff, for Montreal with cargo. At the time the collision occurred the river was covered with dense smoke from forest fires. The Corinthian was struck amidships, and had to be beached at the St. Laurent. Her engine room is flooded and she was struck fair amidships by the passenger boat. After the accident the Corinthian lost her bearings and put back to Quebec, reaching there at four o'clock. Most of the one hundred passengers on board were in their berths at the time the crash came, but no accidents are reported.

G. P. R. FREIGHT WAS DERAILED

HARTLAND, N. B., Sept. 13.—Today, while a north bound freight was passing Lincolnton siding, six miles north of Aroostook Junction, the engine and five cars were derailed. The locomotive was badly injured, but will likely recover. The other cars were unhurt, although the track is completely blocked with wreckage. The McAdam auxiliary train is at the scene and it is hoped that the wreckage can be removed by this afternoon.

HARVESTER KILLED

OAK LAKE, Man., Sept. 13.—Herbert Laird, a harvester from P. E. I., was working with a threshing crew on the farm of George MacKay, near Kenton, fell into the separator and was killed.

ORVILLE WRIGHT BREAKS RECORD

Three More Smashed Saturday

Wright Also Maintains a Higher Speed Than in Previous Flights

WASHINGTON, Sept. 13.—In two flights at Fort Myer this afternoon Orville Wright set a "Wright" speed record of three minutes. Staying up nine minutes and six and one-third seconds in the first flight, in which Major Geo. M. Myer, acting chief signal officer, accompanied him. Mr. Wright broke the record for a two-man flight, which he established on Tuesday. The first flight was at 4:30 o'clock. It started at 5:37, broke the record for time and clearance of a heavier-than-air flying machine which he established yesterday by remaining in the air for one hour, 14 minutes and 24 seconds. In this flight he also went higher than any airplane has ever gone, rising to an altitude of 870 feet.

Mr. Wright also maintained a higher speed than in his other flights at Fort Myer, travelling around the drill ground at the rate of 88 miles per hour on the first flight, when Major Squire accompanied him. The distance of this flight was 5.88 miles.

Another record flight was made by the military semi-rigid dirigible balloon under command of Major Gross, which returned here shortly before noon today, after having been in the air for sixteen hours and ten minutes. This surpasses the record made by Count Zeppelin, when on July 1 he traversed the greater part of northern Switzerland, occupying 12 hours in the journey. The new record, which was entirely unexpected, is ascribed to the greater part of the exact figures identified with aerology.

OTTAWA HEARS THAT SCOTT IS TO RETIRE SOON

OTTAWA, Sept. 13.—Announcement of dissolution of parliament will be made this week by Sir Wilfrid Laurier. No official information as to the exact date of the election is yet available, but it is practically certain that the day selected for polling will be as announced some time ago by your correspondent, either Wednesday, 28th, or Thursday, 29th of October.

Good progress has been made with the printing of the voters' lists and the secretary of the state department is now sending them out to various constituencies as rapidly as possible. It is stated on good authority that a cabinet change will probably be announced shortly. Hon. R. W. Scott, the venerable secretary of state, after over fifty years of useful and unblemished public service, is ready to be relieved of the constant stress of statecraft and Mr. Charles Murphy, one of the foremost members of the eastern Ontario bar, and a prominent Irish Roman Catholic, is said to be slated as his successor. Mr. Murphy will probably be the government candidate in Russell county.

Master Alje LeBlanc has returned to Carleton Place. Miss Etta Burrell of Halifax and the Misses LeBlond of Dalhousie, old students of Mount St. Vincent Academy, Rockingham, N. S., have come to St. John. P. Q., to take special courses of domestic science and French at "The College Messengers," established under the patronage of the Quebec government. Mayor Montgomery is away to Richmond on business.

LA Governor and delivered referred to the c and said that was to show share would as Wright fever broke three records. Staying up nine minutes and six and one-third seconds in the first flight, in which Major Geo. M. Myer, acting chief signal officer, accompanied him. Mr. Wright broke the record for a two-man flight, which he established on Tuesday. The first flight was at 4:30 o'clock. It started at 5:37, broke the record for time and clearance of a heavier-than-air flying machine which he established yesterday by remaining in the air for one hour, 14 minutes and 24 seconds. In this flight he also went higher than any airplane has ever gone, rising to an altitude of 870 feet.

Mr. Wright also maintained a higher speed than in his other flights at Fort Myer, travelling around the drill ground at the rate of 88 miles per hour on the first flight, when Major Squire accompanied him. The distance of this flight was 5.88 miles.

Another record flight was made by the military semi-rigid dirigible balloon under command of Major Gross, which returned here shortly before noon today, after having been in the air for sixteen hours and ten minutes. This surpasses the record made by Count Zeppelin, when on July 1 he traversed the greater part of northern Switzerland, occupying 12 hours in the journey. The new record, which was entirely unexpected, is ascribed to the greater part of the exact figures identified with aerology.

Refering to the question of system, Engineer Buschack said that the problem he solved was how to proceed against the wind, and it is difficult to institute a comparison between flexible, semi-rigid and rigid systems.

Another record flight was made by the military semi-rigid dirigible balloon under command of Major Gross, which returned here shortly before noon today, after having been in the air for sixteen hours and ten minutes. This surpasses the record made by Count Zeppelin, when on July 1 he traversed the greater part of northern Switzerland, occupying 12 hours in the journey. The new record, which was entirely unexpected, is ascribed to the greater part of the exact figures identified with aerology.

YOUNG MEN IN POLITICS

The proposal for the organization of young men of St. John into an effective working party...

And from a party standpoint it is obvious that the side which can win the interest and support of the young men is the party which has the strongest hold on power...

But there must be some definite practical way not only to place the Liberal party before the youth of the constituency...

"LEGITIMATE TRANSACTIONS"
Defending himself from the charges arising from his western land deals with Foresters funds...

Mr. Fowler's statement is, of course, entitled to consideration; and so is the statement of Mr. Borden...

And this is only one of the smaller transactions which Mr. Fowler describes as "perfectly legitimate..."

"Dear Lefurgy"—We have succeeded beyond our wildest hopes. We wired D. and he met us at the train at Toronto and took us to the hotel...

the party returns to Montreal. Tell Borden and Borden about the meeting. It will be necessary for at least two of us to go this fall and locate...

And after getting, as members of parliament do in "strictest secrecy" from one railway corporation and the most generous treatment as to terms and price...

GUARDED OPTIMISM
A Halifax correspondent of The Montreal Gazette conveys the cheerful intelligence to that journal that "the outlook for a Conservative victory in at least nine of the divisions into which this province is divided is considered promising..."

HORRIBLE EXAMPLES
Mr. R. L. Borden tonight will condemn the extravagant expenditures of the Liberal government and will promise more economical administration under Conservative rule...

ONE OF THE OLD GUARD
The retirement of Hon. R. W. Scott from the position of Secretary of State in Sir Wilfrid Laurier's ministry brings to an honorable end an active career of nearly half a century...

PREACHING AND PRACTICE
It was only short six months ago that Mr. J. D. Hasz was pouring seven vitals—and then some—into the unholty practice of mixing federal and provincial politics...

And the Liberal party is not to be tolerated in any community which claims to be civilized and the Canadian electorate must rebuke the Liberal party in the most emphatic manner...

ferce criticism of Dr. Pugsley for venturing, as a federal Minister, to fight for his friends and former colleagues in the provincial legislatures...

And, oh, what a change is here, my countrymen. Today these same Conservatives who shouted themselves red in the face against federal collaboration in provincial contests are boasting exuberantly of the open alliance of four provincial premiers with Mr. Borden in the federal fight now in full swing...

And, aside from St. John's special needs, there is urgent need for these days for business men—men who bring to the task of government a practical business sense...

DISGRACEFUL POLITICS
A comparison, not at all flattering to the country's political methods, is drawn by the Manitoba Free Press between the good nature and courtesy of the Liberal government and the conduct of the opposition party in the province...

And what a splendid ticket these two Pugsley and Pender—will make, not only in the eyes of the people but in the support of the electorate but in their power to work for the good of the community...

THE MONTREAL HERALD finds something refreshing about the appearance of Mr. Pugsley as an apostle of the gospel of superior virtue, preached by "Mr. Borden the Chief," as Mr. (Zar-tray) Graham designates him...

A year ago Mr. R. L. Borden put forward as a prominent feature of Conservative policy a system of free rural mail delivery, "after a proper inquiry as to the cost..."

A STRONG TICKET

One must go back to '87 and '78, the days of 77 and 82 and 88 and 94, to find men in the political arena in this constituency comparable in strength and capacity to the ticket placed in the field by the Liberals in the convention last night...

"I think it a very poor policy and bad business to swap horses while crossing the stream. I mean by that, that the electors of Canada should keep Sir Wilfrid Laurier and his colleagues in power until the Grand Trunk Pacific and other great national works begun under his administration are completed..."

And, aside from St. John's special needs, there is urgent need for these days for business men—men who bring to the task of government a practical business sense...

And what a splendid ticket these two Pugsley and Pender—will make, not only in the eyes of the people but in the support of the electorate but in their power to work for the good of the community...

THE MONTREAL HERALD finds something refreshing about the appearance of Mr. Pugsley as an apostle of the gospel of superior virtue, preached by "Mr. Borden the Chief," as Mr. (Zar-tray) Graham designates him...

A year ago Mr. R. L. Borden put forward as a prominent feature of Conservative policy a system of free rural mail delivery, "after a proper inquiry as to the cost..."

NO TIME FOR A CHANGE

"I think it a very poor policy and bad business to swap horses while crossing the stream. I mean by that, that the electors of Canada should keep Sir Wilfrid Laurier and his colleagues in power until the Grand Trunk Pacific and other great national works begun under his administration are completed..."

And, aside from St. John's special needs, there is urgent need for these days for business men—men who bring to the task of government a practical business sense...
