## THE COURIER

MONDAY, MAY 19, 1851.

We have great pleasure in transferring to our columns an account of the proceedings of a Public Dinner recently tendered to the Hon. Mr. Morris by the inhabitants of the United

associated for the purpose of paying a just and becoming tribute to the moral worth and the public services of one whom they had known "from his youth up," one whose honorable character and public usefulness was the common property of the country in which he lived.

It was a manifestation of respect, free from the unmeaning and ambiguous

Principal of the Brackville Grammer School. On Col. Shaw's right and D. Robertson, Eag., of the firm of Matthie, Robertson & Co., and on the left, A. Ward, Eag., of Smith's Falls.

Dinner being over, which consisted of many delicacies in assence of the season, the chairman called for a bumper, either in water or wine, (there were inventy-four tectotalers present.) to "the Queen," which was responded to in the most enthusiastic manner. Hunt's Band being in attendance, "God save the Queen" was struck up, and notwithstanding that Mr. Hunt and the members of this excellent company are critzens of "the great Republic," we almost thought the instruments obeyed the call of their masters more readily, and emitted sweeter notes than if they had been discoursing "Hail Columbia" or "Yankee Doodle." We may state here that the pleasure of the evening was very much added to by the appropriate airs played by the band after the respective toasts, for which arrangement, we believe, the gentlemen present are indebted to Mr. Willson.

The next toast from the chair was "Prince Albert and the Royal Family;" followed by that of the "Army and Navy," to the latter of which Dr. Smythe resurned thanks.

The Chairman then gave "The R-presentative of our Soversiers in Canado."

the "Army and Navy," to the latter of which Dr. Smythe returned thinks.

The Chairman then gave "The R-presentative of our Sovereign in Canada," which was loudly ris, sponded to, and W. B. Richards, Esq., being call d on to reply, did so by remarking that he returned thanks for the Governor General with much pleasure. He believed Lord Eigin to have the best interests of Canada at heart; he also believed thin to be a man of great ability, and he, Mr. Rich-rds, as a Canadian, would always feel proud of having the opportunity of replying to such a toast.

The chairman then naked for another humper.

Morris by the inhabitants of the United Counties of Leeds and Grenville. The publication of our London Correspondence in this day's issue denies us the further gratification of giving the Address of the mechanics of the town of Btockville to that gentleman, and his very able and courteous Reply. Public Dinners and public Addresses are among those appendages inseparable from political honors and distinctions. They are generally considered (as they really are in most cases) mere propitatory banquets given to the triumphs of party influence, and as introductory pasports to office and emolument. They are verytable exermilifications of the company are very table exermilifications of the company are very table exermilifications of the company are very table and courteous Reply. The company are very table and courteous Reply are very table and courteou party influence, and as introductory passports to office and emolument. They are veritable exemplifications of the common proverb—"If you want a man's influence, minister first to his appetite."

The occasion which we have above alluded to, forms an exception to such political demonstrations, as gratifying as it is honorable to both the guest and those who farnished the feast. It was an assemblage of the personal friends and neighbors of Mr. Morris, composed of individuals of all political parties, associated for the purpose of paying a just and becoming tribute to the moral worth and the public services of one whom they had known "from his youth up," one whose honorable charac-

Mr. Morris said, he rose with a heart swelling Mr. Mortis said, he rose with a heart swelling with gratitude for the enthusiastic manner in which they had drank his health, and in the outset he would disavow arrogating to himself any claim to such a distinguished mark of their consideration. On the contrary, he was underserving of it; coming as it did from so large a body of intelligent and influental men, he felt himself placed in a position to which he had never aspired—a position in fact which, when he lo shed at those who surrounded the table he may be well new would be envised. om the unmeaning and ambiguous etails of political strife between concading againstant for official distinct each superior of the turned compliments paid by condidates for office-a most interest and the string unction" applied to obtain those after the string unction" applied to obtain those after the string unction applied to obtain these after the string unction applied to obtain these after the string unction applied to obtain these afters and the string unction applied to obtain these afters are string unction. There seemed, on this occasion, to be but one sentiment in the large comparing the string uncertainty of Mr. Morris, friends and personal associates. That sentiment consisted in the large comparing triumph of the private worth, apart from the public virtues, of their honored green. It was a high moral tribute to the excellence of the manus, rendered more honorable by the sunited and the sunited and the string in the single properties, is at the waited at the united of the private worth, apart from the public of the private worth, apart from the public

EUROPEAN AFFAIRS. (FROM OUR OWN CORRESPONDENT.) London, 2nd May, 1851. The Great Exhibition absorbs the attention of very man, woman, and child here. It is of no see writing upon other matters, and it may console not a few of your readers who are unable to visit the World's Fair, if I just give them a rapid sketch of the scene presented to the view yesterday in Hyde Park. The day was lovely, nd the excitement at the inauguration intense. The mobbing was terrific, and I can assure you that I have scarcely recovered from the fatigue standing in the dense crowd for three hours refore the arrival of the Queen. What, with the excitement of the Royal presence, the trumpets and organs, the roar of artillery, " the Public Works, or 1849 was £5.244 11s. 2d. ; standing up uncovered? ceremonies observed, a 1850 £6,768 16s. 10d.; in 1851 £8,516 8s. and the commotion of the vast populace outside, standing up uncovered" ceremonies observed, as well as the three-pounders inside, I wished myself well through it. I did, however, reach ome safely, and now proceed to jot down at random the objects such as at first sight must strike a stranger. In future letters, I may perhaps be able to give an analytical account of the Lag, 493; in 1849 £26,200; in 1850 £65,772.

In connection with this he might state, that he was not without hope of the desired Reciprocity with the United States being yet obtained, and that they on the other hand would enjoy the free navigation of the St. Lawrence. When that state of things should exist, our noble river would present an enlivening seeme, for on its bosom, he believed, not only their own productions, but three fourths of the surplus produce of the vast region west of them, would be borne to the ocean. He believed confidently, that sooner or later that would as assuredly take place, as it was certain, that the St. Lawrence was designed by the Creator of the universe to be the great highway to the Atlantic, for the rapidly increasing thousands residing on its abores and on the shores of those mighty near the shores of those mighty near the shores of those mighty near the shores of the near the shores of those mighty near the shores of the near the shores of which contained the great Koh-i-noor diamond, which, by a contrivance of Mr. Chubb, rests on a small pedestal during the day, and at night From the smallest cance up to the largest man-of- whole affair is regarded as one entire's descends out of harm's way in the frame work beneath, where it will be safe and secure. The main avenue of the building is filled with staimplements connected with railway engineering, tuary, a great portion of which is of a colossal character. Besides the exquisite specimens are very numerous and beautiful, and some imof statuary and casts in bronze, iron, and zincthe latter very beautiful-there are fountains. telescopes vieing with Rosse's in magnitude, field, Halifax, Nottingham, Derby, Leicester models of bridges and towns, &cc; -those of a bridge across the Druper, and a model of Liverpool, being particularly prominent. There are canoes, little chapels of painted glass guarded by knights in full armour; the Acie and Galatea fountain is very beautiful; also, an arbour of bronze with an archer of classical beauty within its circle: the American contributions of the

Stroud, Kidderminster, Leeds and Macclesfield, and in fact all those places which furnish articles up to an enormous piece of artillery for the largest man-of-war, there you see articles of every Greek Slave and the wounded Indian are creditable to art in the "model Republic," whilst, description, with all the acditions of church bells. among the Pianofortes, one from Canada takes a high position in tone and construction, and that, too, in a department in which there are many of English, French, German, Spanish, and Belcompetitors-English and Foreign. The British gian manufactures, is complete. Standing at the East end of the building in the gallery, and casting your eye along the whole length of the building, embracing within your glance huge cloaks, gigantic specimens of ore, horses ready saddled all the heterogeneous articles which I have enumerated, of which the beautiful carpets form the most continually recurring feature, and then you can have but a very imperfect notion of the value of the Exhibition, the chief merit of which consists not so much in the vast aggregation of the various productions collected together, as the minute and rare excellence of each individual object or class of objects. LECTURES, CONCERTS, BALLS, AND MEETINGS OF THE CITIZENS.
Had we a handsome Theatre, we might favored some day with a visit from the incomparable Songstress, Jenny Lind, and we would have some additional attraction for our American friends during the travelling season. We have so Concert Room, no property constructed Lecture Room, nothing in the shape of a decent Ball Room—and last, not least, (there are stirring time ahead.), we require a comfortable place to result to where we can sit down and calmy listen to the story to be told to us by the future Representation of our improving City. Had we a Theatre, we would be prepared for all such emergencies. At a moderate cost, a temporary floor could be laid, in a very about time, connecting the hase of the lower Boxes with the Stage, thereby giving ample spaces for "the merry dance," or a behind "our neighbors."

Plans, "pecifications, de., may be seen, and further particulars made Enown, on application to JOHN G. Dinking.

B.A. HALSEVS POREST WINE.

Who a first becoming the favorite medicine among every class of people. Known as the must efficient remedy for genetal Debility, Nervous Affections. Consequity Decline, Completure of the Ridneys, Heart Lange, and above all, for diseases arising from impure Blood and habit of the System, emiseant members of the Mulicul Faculty have seastloned and adopted the une of L.

Dr. L. A. STANIX, a celebrated Physician, in a long of 'm Princeton, New Jersey, dated November 16, 1848, depletes that in all his experience he had never seen anything to compare with the Forest Wine, and Pille, at the same time relating several cases of mentitudinal Debility and Scrotinous of fections which it cured in an incredible chort time. Among the members of the Medical Faculty of New York, who have witnessed the great results of the Forest Wine, and recommended it in spectous emplaints, will be found the names of the celebrated Dr. M. T. Gordenen, Dr. S. L. Mott, Dr. L. Checaman, Dr. Chilton, Dr. William Brown, Dr. Marvin, Dr. J. M. Moreau, and others.

TESTIMONY of Johnson Burke, a highly respectable citizen of Waverly Piace, New York:—Dr. G. W. Halaky:—Dran Sin,—I esteem the Forest Wine as the King of Medicines. It has done for me in five weeks what three Physicians falled to do in an many years. In 1845, I became a rictim of the Heart Disease and Naryous Affections, which have been growing on me ever since, until I procured your Forest Wine and Pille, although I had wasted averal hundred dollars for medical attendance. During the last two years I was abliged in keep my house nearly all the time, and gave up business in consequence of my ill-health. I had nearly lost all hope of recovery, my complaint was of that class under which "nature sinks and life bee mes a burthen." Seeing your Forest Wine are at liberty to publish this, Your, &c.

Dr. Hatary A. bottle of your Forest Wine

I now enjoy better health than I ever did before, having increased twenty five pounds in seven weeks. Your Forest Wine and Pills are highly valued in this vicinity, and I owe my recovery entirely to their virtues. Yours, respectfully, MARTIN CALDWELL.

The following Certificate, voluntarily given by Mr. E. G. Mussey, a respectable and well-known tititien of Cohose, New York, is an evidence which must remove all doubts of the great efficacy of the Forest Wine in GENERAL DEBILITY, NEU-RALGIA, AFFECTIONS OF THE SPINE AND KIDNEYS:—

This is to certally, that I have used Dr. Halsey's Forest Wine in my family with the most entire success. My wife was badly afflicted with Neural-gas, affections of the Spine and Kidneys, and general Debility. She found speedy relief, and regained her health, by the use of the Forest Wine.

From my own knowledge of this excellent medicine, I confidently resonmend it for the good of others who may be suffering with similar complaints. It is the best medicine with which I am acquainted, and those who are afflicted with the above, or any similar diseases, may safely rely on its virtues. Cohues, March 6, 1850. E. G. MUSSEY.

More Testimony from Cohoes.

Dr. G. W. HALSEY:—DEAR SIR,—My wife last autumn was reduced to a low state of Debility.

My family Physician advised her to take your Forest Wine. Accordingly I went to Mr. Terry's, your Agent for this town, and procured a bottle of it, which restored her in a very short time to perfect

HENRY DONALDSON. Cohoes, April 13, 1850.

The testimony of upwards of three hundred indidisorders, and considered incurable, may be seen at Dr. Halsey's principal Office. The following are some of them residing in this city:

Mr. Agr.a S. Smith, 167, Prince Street, Office

Mr. Aar.n S. Smith, 167, Frince Street, Omco in Wall Street, was long severely afflicted with a disease of the kidneys and bladder. The best medical skill answered no purpose. He tried the Forest Wine, and it met his case, and he was completely cured by the use of four bottles and a box of the Forest Pills.

Mr. Jacob Bell, Merchant, in Pearl Street, was four more mental to the Porest Pills.

Mr. Jacob Bell, Merchant, in Pearl Street, was for four years a martyr to severe Rheumatic Pains, and could find no relief until he used the Forest Wine and Pills, and recovered by taking six buttles and less than a box of the Pills.

The remarkable efficacy of the Forest Wine is very striking in the case of the Han. S. I. Brown, of Virginia, who was cured in a few hours' time of a severe attack of Belious Diarrhous and general prostration of bodily energy. On the arrival of this gentleman in New York in Marth, he was so weak and nervous, from the effects of his liness, that he could not write, and required assistance to enable him to walk to his apartment. The Wine was cent for, and he recovered by the use of less than a bottle of the Wine and a single dose of the Pills.

The Forest Wine and Pills are recommeded as an efficient and certain care in all the following complaints and the following complaints.

HUMAN HAIR.—HYPRION FLUID.—This is a composition admirably adapted to the discusses of the hair, and has the particular merit of being prepared purely from excetable ingredients, so that its application is perfectly and, How often do we purely young persons with hair nearly grey, or afflicted with baldness, all arising from inflammation of the skin of the head, caused by severe study, violent grief, and other mental afflictions. By a liberal use of the Hyperion, in a short time they will find, to their delight, a complete change will have taken piace in the action of the skin, and a rich and luxuriant growth of hair, of its original color, will shortly follow. Its effects in clemaing the hair from seurf and dandruf are also truly wonderful. The Hyperion should be one of the principal appendages to every lady's and gentleman's toict.—See Advertisement.

In all these distressing and prevalent cases, there is no question regarding the efficacy of this Medicine, as a minent Physician of this city, writes as follows:

Dr. Sherwood's Galvanie Embrocution, I regard as the most efficacious of all remedies in Scrotilious affections. One of my children, a daughter of 5 years old, was afflicted with a very inveterate and protracted Scrotilious affection, which had continued its ravages nearly two years, various remedies were tried but without effect.

The disease exhibited itself in several deep-scated uncers the discharge from which was acrimosious and very flexic. At this crisis, I commenced the treatment with Dr. Sherwood's Galvanie Embrocation—the only remedy used in connection, was a decoction of Sarsaparilis, which soon conquered the disease, and a complete cure was effected. THOMAS PROCTOR,

Pluid which has cost the inventor of this remedy years of study and labor.

There is not an intelligent Physician, who has kept pace with the progress of science, that does not readily approve of the use of the Magnetic power in various diseases, and there is scarcely a Medical Journal, either in this country or Europe, which makes its appearance, without the statement of various cases, showing some new effects of these wonderful agents, or corroborating previous experience of their beneficial use. The inventor of the Galousic Europeaution has great pleasure in being able to state, that a majority of the most distinguished Physicians of New York constantly recommend this Embreestion in their practice, and from many of them he has received the kindest testimonials of approval and commendation.

Bidder, New Jersey July 12 1445

Da. A. H. Christeria—Dear Sir: You wish to know of me what has been the result in my own case of the application of THE GALYANIC BELT AND MECKLACE. My reply is as follows:

For about tisershy sears I had been suffering from Ayapepsis. Every year the symptoms become worse, nor could I obtain permanent relief from any come of medical treatment whatever. About fouries year since, in consequence of frequent exposure to the any openia. Inverty year the symptome record of the consequence of frequent expourer by the since, in consequence of frequent expourer by the weather, in the discharge of my pastoral dute, i became subject to a severe Chronic Rhematina, which for year after year, caused me indescribble anguish. Farther: in the winter of '44 and it are of various other churches in this region, I was thicked by the Brounchitia, which soon became so sever the requires an immediate suspension of my patient is required and as my Brounchitis became wors, so used did my Dyspepsia and Rheumstic affection—the evincing that these disorders were connected with each other through the medium of the Nervous Friem. In the whole pharmacopomis there seemed when connected with each other through the medium of the Nervous Friem. In the whole pharmacopomis there seemed to be no remedial agent which could reach and recaperate my Nervous System; every thing that I had tried for the paragone had completely failed. At last I was let by my friends to examine your invention, and though with no very annualize hope of their efficiency, I determined to try the effect of the application of the GALVANIC BELT AND NECKLACK, with the MACINETIC FLUID. This was in June, 1964.
