New Canadians Start For Canada

A Busy Scene at the Liverpool Dock.

THE facilities for handling outward bound passengers at the Canadian Pacific dock at Liverpool, England, are as perfect and speedy as any in the world. As will be seen from the picture above of future Canadian citizens boarding the "Montcalm", the travellers pass from the street and railway station levels to waiting rooms on the dock side, and crossing the bridged wharf, board the ship by the saloon deck where they are received and assigned to quarters. Their baggage is handled from below and with despatch. A travelling belt carrier operated by an electric dynamo eliminates the necessity of many noisy and slow moving winch hoists which, when used and not so carefully operated, are the cause

of many trunks and boxes being damaged, so that the baggage is carefully loaded and distributed almost as quickly as the passengers are received. It is usually planned to have all the passengers aboard at least half an hour before sailing time, and the gangway is down for their reception about three hours before that time unless special trains are scheduled to arrive earlier.

As for other dock-side facilities, the Montcalm commenced to take on coal and discharge cargo, mostly package freight, at six o'clock of the morning of a recent arrival. By 2.46 in the afternoon she had taken 1,000 tons of coal into her side bunkers, and at the same time she was unloading 1,700 tons of freight, this being discharged by 7.16 the same evening.

TRIBUTE OF RESPECT TO LATE MRS. T. A. CLARKE

The Methodist Church was filled to overflowing on Sunday night July 29th to pay a last tribute of respect to Mrs. Annie J. Clarke, wife of Mr. Thomas Clarke, who died on Tuesday July 24th. Mrs. Clarke was a most active worker in the Methodist Church and the evening service was given over as a memorial service of recognition of her untiring efforts on behalf of the church. The Pastor Rev. A. W. Brown, occupied the pulpit, and the Church was very prettily draped with white flowers and greens and on the altar rested a beautiful bouquet of carnations sent in remembrance by the N.B. and P. E.I. Conference of the Women's Missionary Society.

Rev. Mr. Brown spoke very feelingly of the loss sustained by the church in the passing of Mrs. Clarke and her place in the community will be hard to fill. The choir sang several favorite hymns of deceased and Miss Elith McLean and Mr. Guyon Mercereau rendered solos, after which a resolution of regret and condolence was moved by H. D. Atkinson and John R. Allison and passed by a standing vote.

NEWCASTLE TRIMMED BY DOUGLASTOWN

"Somebody is always taking the joy out of life" and usually "it is the unexpected that happens." Such was the case last Tuesday evening when the Douglastown team defeated the locals in the Farrell Field by a score of 5 to 1. It was a sad spectacle for the local fans to see their team go down to defeat at such a critical time in the standing of the league. Just another case, where it is not well to be too confident. Neither local players or fans thought for a moment that they were going to lose, but the Douglastown team played a game full of pep from start to finish. The locals played hard to overtake their opponent's lead, but were unable to do so. They were handicapped however, by several of their regular players not being able to take part in the game. A great deal of enthusiasm was displayed on the part of the fans and when the game was called at the end of the sixth inning, many with sorrowful faces could be seen slowly wending their way out of the field. Such is the way of the baseball game and the bitter must be taken with the sweet. If the locals defeat Chatham in their postponed game and win all their remaining scheduled games they would then be tied with Chatham for league honors. If such happens it would be worth while, as a game to decide the winners between Chatham and Newcastle on neutral ground would be a big drawing card and a fitting close for this year's season.

SAY DEATH DUE TO A NATURAL CAUSE

That the death of Frank Kennedy of Nelson was due to natural causes was the finding of the jury empanelled by Coroner B. M. Marven, M.D. at the inquest held Saturday afternoon. There was nothing in the evidence given or in the finding of Dr. Abramson, provincial pathologist to warrant a different verdict. Witnesses heard were Mrs. Jane Kennedy, wife of the deceased; Thomas Galley, Hazel Kennedy and Dr. Delaney and Dr. J. E. Park, who made the post mortem examination. Both Mrs. Kennedy and Galley who were present at the time of death, told practically the same story. Kennedy had complained of a chill and a sore throat early in the evening. Galley tried at intervals during the night to obtain a doctor but was unsuccessful. Hazel Kennedy, eleven year old daughter of Mrs. Kennedy was sent to Newcastle and returned with pills and a gargle prescribed by Dr. Park. The taking of this pill, a purgative, was followed by severe spasms and evident choking. The pill was given to Kennedy about 11:40 o'clock and he died on the floor of his bedroom about midnight.

Dr. Delaney of Chatham, who made the post mortem examination, found the heart, liver brain and lungs of the deceased in a normal, healthy condition. No evidence of swelling of the throat, either externally or internally could be discerned. This examination was made on July 26. Dr. Park, of Newcastle, who assisted at the post-mortem examination and who arrived at the Kennedy home about 12:45 a.m., July 15, could not find any inflammation of the throat. The finding of Dr. Abramson was read by the coroner. The cause of death was diagnosed as acute inflammation of the larynx. No evi-

NEWCASTLE DEFEATS LOGGIEVILLE 12-3

In probably one of the most one-sided games of this year's fixtures Newcastle defeated Loggieville in the Farrell Field last evening by a score of 12 to 3. In the first inning the locals blanked the provincial pathologist to warrant a different verdict. Witnesses heard were Mrs. Jane Kennedy, wife of the deceased; Thomas Galley, Hazel Kennedy and Dr. Delaney and Dr. J. E. Park, who made the post mortem examination. Both Mrs. Kennedy and Galley who were present at the time of death, told practically the same story. Kennedy had complained of a chill and a sore throat early in the evening. Galley tried at intervals during the night to obtain a doctor but was unsuccessful. Hazel Kennedy, eleven year old daughter of Mrs. Kennedy was sent to Newcastle and returned with pills and a gargle prescribed by Dr. Park. The taking of this pill, a purgative, was followed by severe spasms and evident choking. The pill was given to Kennedy about 11:40 o'clock and he died on the floor of his bedroom about midnight.

dence of strychnine poisoning was found in the stomach. The jury was made up of William Johnston, foreman; Robert McCombs, G.P. Vye, Michael Lynch, William Braken, John Sullivan and Frank Loren.

Graduation Exercises Of The Miramichi Hospital Training School

A very representative audience gathered in the Assembly Hall, Harkins' Academy, Monday evening, July 30th to do honor to the Graduating class of the Training School of Miramichi Hospital.

The graduates were the Misses Ma Walls, Saidie Walls, Annie McNaughton and Blanche Cameron, who most successfully completed the course which now includes three months training in the Montreal General Hospital.

The flowers used in the decoration of the stage were given by the choir of the Methodist and Baptist churches and the whole setting was most attractive.

The program was very pleasing and was as follows:

Piano Duet—Misses McEvoy and Richards.

Address of Welcome—The President, Mr. Burchill.

Solo—Miss McLean.

Address—Mayor Creaghan.

Solo—Mr. Gulliver.

Address and presentation of Diplomas—Mr. G.P. Burchill.

Presentation of bouquets to Miss Kaye and Graduates—Miss Rosamond Crocker and Master Roland Crocker.

Solo—Miss E. Nicholson.

Address—By special request of the nurses, Dr. Nicholson.

God Save the King.

The accompanists were Miss Crocker and Mr. Liscombe.

The addresses were appreciative of the good work accomplished by the graduates and nursing staff, and of the untiring devotion and regret that our Superintendent is compelled to resign to take a much needed rest.

The musical numbers were delightful and received encores to which each one graciously responded.

The student body and their friends were afterwards entertained at the Hospital where a pleasant social hour was spent.

The presentation of bouquets deserves special mention so well did our young friends Miss Rosamond and Master Roland Crocker do their part.

In the afternoon the nurses enjoyed a car ride, after which Mrs. B.F. Malby and Mrs. O. Nicholson served tea at Mrs. Nicholson's.

**New Beauty for Dainty Fabrics
and much longer wear**

The two worries you have in washing fine fabrics, dainty garments, are removed. You can launder them now with full confidence that fabric will not be harmed, or delicate colorings dulled.

Silks, satins, crepes, and dainty, expensive cottons come from the wash with new brilliance and beauty. In thousands of homes women are using PALMOLIVE PRINCESS SOAP FLAKES.

These pure white, crinkly flakes give a wonderful, "whipped cream" lather that dissolves dirt magically.

And save money in two ways: By giving longer wear from fine fabrics; and, being nothing but pure soap, they last longer—cutting soap cost.

You can't find anything better for use in the washing machine—nor, in fact, for all laundry or household use.

In handy one-pound packages or bags. Order some today and begin saving next time you wash.

Neptune Holds Court on a Famous Canadian Ship

A REMARKABLE photograph of the ceremonies that took place when the Canadian Pacific steamer "Empress of France" crossed the line on her recent "round-the-world" tour. Neptune accompanied by his royal barber, and other officials came aboard in the early morning, and duly initiated those who were crossing the line for the first time. His Majesty's stay on board was short, but the same cannot be said of the little god Cupid. He came on board early and stayed until the end of the trip, as may be gathered from the fact that out of a total of 800 passengers on that famous 20,000 mile cruise, no less than forty came to the end of the trip as engaged couples. This fine photograph of Neptune's court was made by Miss Margaret Miller of Waterbury, Conn., who was one of the ship's passengers.

THE DEATH OF THE PRESIDENT

"The flower that smiles today, To-morrow dies; Death reaps the harvest, Death is here, And death is there;

It is known throughout the wide world, that President Harding the chosen executive head; of the sister nation to the south of us, was suddenly called away a few days ago by the Reaper, Death.

Viewing him in the position he held as President, his people are justified in viewing him as one of their greatest. He was the chosen head of the Republican party and they placed him in power, and we feel satisfied that now "he is no more" the Democratic party as well as his own will mourn his death.

The story of his recent trip to Alaska, away up in the Arctic, to the northwest of our Dominion, and his return trip, down through our territory, cannot fail to be known to readers of the news. Vancouver opened her arms to him in an enthusiastic welcome which deeply impressed him, and his whole party.

The story of his recent trip to Alaska, away up in the Arctic, to the northwest of our Dominion, and his return trip, down through our territory, cannot fail to be known to readers of the news.

Canada and the States, and the bonds which common sentiment, lofty fitness, uniform aims, and the same language, spoken in the same way in both countries, have cast around us in the ties of honor, peace and confidence.

Soon the remains of the departed President will rest in Mother Earth. Honor is being paid to his memory and his worth. Amid a nation's grief and emblems of mourning "the last post will be sounded."

To his people, his many friends, his nation and especially to his bereaved widow and family, Canadian sympathy goes out and joins with the United States in heartfelt regret over his death.

EDITORS MAIL

We are not responsible for opinions expressed by writers under this heading. Correspondents would oblige by writing legibly, and on one side of the paper only, name and address (not necessarily for publication) must always be sent. Correspondence should be as concise as possible.

Editor of Union Advocate, Dear Sir,

I am sure every one who heard the splendid open air concert given in the Park, last Wednesday evening must be very much pleased with "Our Town Band" and more than pleased, with the numbers given, and the excellence of the performance.

The great throng assembled to listen to the music and singing rendered, testified to the fact that there are very many lovers of good music in Newcastle. The many expressions of delight heard on all sides, was sure evidence of the deep appreciation of our people.

Certainly the Band should be treated well in our midst. There would be no "kick" even from our tax papers, if the Town Fathers, acted generously toward the men who give their time and talent, in making the Newcastle Band worthy of the high name which it has won in musical circles. The public too, will no doubt show their appreciation, by contributing to the Band as they did last Wednesday evening. At the same time the Town should honor itself by official recognition of some cash value, through the Council, and not by a paltry, stingy amount either. If that thing was put to a public vote, it would soon be settled.

The writer might enquire right here, why is it—for instance as last Wednesday evening—that some autos, were parked right in the middle of the street? There was much careless driving in evidence too, especially at the corners near the Stohart's and Lounsbury and Post office buildings. Two or three very near accidents almost occurred, owing to the cars not being driven slowly enough, and the fact that horns were not sounded in warning. This thing should be looked after. With thanks,

Yours truly, A MUSIC LOVER

DOMINION ORGANIZER FOR CONTINUATION OF PRESBYTERIAN CHURCH

Toronto, Aug. 5—Rev. W.F. McConnell, B.A., minister of Leamington Presbyterian Church; Chatham Presbytery, has been appointed to the post of Dominion Organizer of the Presbyterian Church Association for the continuation of that church.

NARROW ESCAPE FROM DROWNING AT CHATHAM HEAD

Little Albert Malley, youngest child of Patrick Malley of Chatham Head, had a narrow escape from drowning at noon Saturday in the Miramichi. The lad was playing with a number of boys and jumped from a boat in deep water and was carried some distance out by the strong current. The cries attracted the attention of the men in the Fraser lumber yard and they went to the rescue in a boat. The boy was going down for the third time when he was seized by Joseph Rundle. He was unconscious when he was pulled out of the river. After being brought ashore first aid was rendered and he was revived. Today the little fellow is none the worse of his adventure.

MIRAMICHI HOSPITAL

The following letter has been received from the American College of Surgeons, Chicago:

July 27, 1923

My dear Miss Keys, Dr. MacEachern has written me concerning his recent visit to the Miramichi Hospital, and I wish to thank you for the courtesies extended to him.

Dr. MacEachern commented favorably upon your staff meetings, case records, and laboratory facilities. It is pleasing to note that you are maintaining your usual high standard of efficiency.

Assuring you of our hearty cooperation at all times. I am with every good wish,

Faithfully yours, (sgd.) FREDERICK W. SLOBE, M.D. Miss E. Keys, Superintendent Miramichi Hospital, Newcastle, N.B., Canada.

A RE-UNION

On Sunday, August 5th; the children; grand-children and great grand children of the late E.R. Whitney met in re-union at the E.R. Whitney homestead in Whitneyville. There were thirty-four present viz:—

Neville P. Whitney and family, Scrathadam; Harris Whitney and family, Benton Harbor; Mich. Fannie Betts and family, Doaktown; Lottie, Mrs. George Whitney Hubbard, Cassilis; N.B. and the Collin family, which still resides in the old homestead, also Mr. and Mrs. Clarence Lingham of Newbury, Mass. Mrs. Lingham was formerly Margaret Whitney of Strathadam.

MUSIC IN THE PARK

"Slowly but majestically," says the Montreal Gazette, "music is conquering the world". And it goes on to say that not the least pleasing form of music is that purveyed in the public parks. There is no doubt that the band concerts are a great source of entertainment to a large number of people, who can listen to the melodies provided and at the same time enjoy all the healthful benefits of the fresh air. It is pleasing to note that Newcastle has a musical organization, the members of which are very much interested and willing to give their time and services in providing music for the public. Nevertheless, it should work both ways and the public should be willing to support the band as well as to expect them to entertain. There is always two sides to every question.

Yours truly, A MUSIC LOVER

DOMINION ORGANIZER FOR CONTINUATION OF PRESBYTERIAN CHURCH

DEATH WARRANT OF JESUS

Document of Wonderful Importance, if Genuine, is Hidden Somewhere in City of Rome.

Somewhere secreted in Rome is a document that if genuine, is to Christian people the most interesting and impressive legal document in the world.

It is the death warrant, served on Jesus Christ, and rendered by Pontius Pilate, acting governor of Lower Galilee, stating that Jesus of Nazareth shall suffer death on the cross.

In 1810 workmen, while excavating in the ancient city of Amiterum (now Oculia) in the kingdom of Naples, found an antique vase in which lay concealed a copper plate, bearing on one side a long inscription in the Hebrew tongue—this, when translated, was said to be the death warrant of Jesus.

On the reverse side were these words, "A similar plate be sent to each tribe."

Faithfully transcribed it read as follows: "In the year seventeen of the Emperor Tiberius Caesar, and the twenty-seventh day of March in the city of the Holy Jerusalem—Annas and Calphas, being priests sacrificators of the people of God, Pontius Pilate, governor of Lower Galilee, sitting in the presidential chair of the praetory, condemn Jesus of Nazareth to die on the cross between two thieves, the great and notorious evidence of the people saying: "Jesus is a seducer. "He is seditious. "He is the enemy of the law. "He calls himself falsely the Son of God. "He calls himself falsely the king of Israel. "He entered into the temple followed by a multitude bearing palm branches in their hands. "Ordered the first centurion Quillus Cornelius to lead Him to the place of execution. Forbids any person whomsoever, either rich or poor, to oppose the death of Jesus Christ."

The witnesses who signed the condemnation were: Daniel Robania, a Pharisee; Raphael Robania, Joannus Robania, Capet, a citizen. It was also stated that Jesus should go out of the city of Jerusalem by the gate of Struenus.—Los Angeles Times.

He and She. "There are three stages in a man's infatuation for a woman: Making his way, having his way and going his way."

"The reason that a love affair so seldom ends happily is that one of the lovers is generally unwilling for it to end at all."

"It is probable that if a woman cannot see the point of her husband's jokes she will see very little indeed of him."

"A woman cares most for a man when their love affair is over; a man cares most for a woman before their love affair has begun."

"It is the man who has no right who generally comforts the woman who has wrongs."

"It is more or less true that an attractive woman has no friends. The men are more and the women less."

"Oddly enough, the woman who looks most self-possessed generally belongs to some man."

"Men always say that they loathe being flattered, but don't take any notice—no man has ever known that he was flattered."—From "Tattlings," by Sidney Trenayne.

Cards by the Thousands. More Christmas cards, probably, were posted by Dr. Theodore Maxwell of Woolwich, than by any one individual, says London Answers.

He had been engaged for a long time in medical missionary work in India, and for some years before his death, which took place in 1914, he made a hobby of printing these cards in various languages, and sending them all over the world to people who he thought would appreciate them.

Altogether he sent out, during the last ten years of his life, some 80,000 cards, inscribed with seasonal greetings in more than 30 different languages and dialects, and mostly printed by his own hand.

For several years past a charitable lady residing in New York has posted 5,000 Christmas cards to as many poor children; and there is a philanthropic society, whose headquarters are in South London, which annually dispatches between 30,000 and 40,000 Christmas cards to prisoners all over the world.

Breeds New White Carnation. Crossing the American carnation known as "Mrs. T. W. Lawson" with English plants has produced, after twenty-four years of selective breeding, a dazzling white variety, the first of a new race of disease-resisting flowers, which is described as a triumph of horticulture.

Its breeder, Stuart Low, who is showing his novelty, named White Pearl, at the Royal Horticultural hall, London, has succeeded in retaining the old carnation fragrance, which in many modern varieties has almost vanished. It is stated that the new pedigree carnation has gone through all disease tests and has come out unscathed.

Not in Three Days. "I am not in three days," said a young man, "I am in two days and a half."

Mr. Naylor: "I'll attend to the young man. Not that we care anything about your cat, but in case of mice, it is going to state what the manager."

Smoking compartments are to be provided in the new wooden winged monoplanes for use on the London-Amsterdam-Berlin air route.

801,980,268 feet of lumber were produced from mills in the Ottawa Valley last season as against 238,116,764 feet in the 1921-1922 season.

Last season's grain shipments through the port of Montreal exceeded 153,000,000 bushels. Revenues reached \$3,469,810 providing a surplus of \$266,362.

Forest rangers of the Quebec and New Brunswick forestry departments will co-operate to the extent of covering fires on either side of the provincial border.

Two thousand maples and one thousand green ash trees, natives of Saskatchewan, were shipped to the Canadian War Memorial Park at Poperinghe, Belgium, recently.

Vancouver is to have direct consular trade relations with Spain. A vice-consulate has been established there which embraces the prairie provinces and is the only one west of Montreal.

During the year 1922 boring operations for the discovery of oil and gas in Alberta were continued, to the extent of 230,000 feet, resulting in the discovery and development of a field with an output of 180,000,000 feet per day.

Despite reports of adverse conditions in the prairie provinces, Saskatchewan officials estimate that after paying all expenses the farmers of that province last year had \$100,000,000 in net proceeds to apply on debts.

In 1906, in Iowa, a single head of oats was selected as being a desirable variety. In thirteen years this single head had multiplied to the extent that 1,500,000 acres were sown to it and showed an increased production of 6,500,000 bushels.

One of the largest timber sales that the Canadian Pacific Railway has made in several months has just been made on Vancouver Island. A group of Seattle lumbermen have acquired 12,000 acres of timber land at Horne Hill. The timber on this stand exceeds 200,000,000 feet.

Part of the plans for keeping the St. Lawrence open all winter submitted by Dimitry Jonavici, Roumanian engineer, to the Federal and Provincial Governments would call for the erection of a nine mile dam at the east end of Belle Isle strait, which would prevent the cold currents from the north entering the river.

The Bungalow Camps to be opened this year by the Canadian Pacific Railway in the French River, Nipigon and Lake of the Woods districts of Ontario will consist of a community house, containing a dining room with stone fireplace, surrounded by several double and single bungalows comfortably furnished for the accommodation of from one to four persons. A number of canvas houses will also be used.

The official opening of the Banff-Windermere Highway will take place on June 30th at Kootenay crossing, B.C. Motorists from all over Alberta, British Columbia and the Western States will be present in large numbers. A lunch will be provided for several thousand people at Kootenay Crossing. Prominent representatives will represent from the Canadian and United States Governments and from provincial and state governments on both sides of the line. The official opening will be marked by the cutting of red white and blue ribbons stretched across the roadway.

The Canadian Pacific steamship "Empress of Russia," upon her last sailing, carried a shipment of Canadian frogs for Japan. Cool space was reserved in the hold of the liner and the travellers were well packed in ice. On being taken ashore at Yokohama these frogs will be gradually warmed until they are ready to be let loose, when they will be liberated on the lawns of Japanese importers, with the idea of giving the Japanese a new industry in the production of frogs legs.

The Canadian Pacific Telegraphs have announced the following reduced rates per word for cable messages to the following countries, effective to-day:—Austria, 30 cents, Belgium 23 cents, France 22 cents, Germany 25 cents, Great Britain and Ireland 20 cents, Greece 35 cents, Hungary 33 cents, Italy 26 cents, Spain 33 cents, Switzerland 27 cents. The 25 cent per word rate to Great Britain and Ireland is still in effect for special rush cables. Corresponding reductions have been made in the rates to other countries in Europe and beyond via Atlantic cables, and the new deferred rates will be one-half of the full rates quoted above, except to Great Britain and Ireland, where the existing deferred rates of 8 cents per word is unaltered.

Here and There

Seeding in Alberta was two weeks later this year than last.

A second party of Swiss immigrants recently arrived at St. John aboard the Melita and are en route for the West, where they will engage in agriculture.

Twenty-two thousand immigrants to Canada from the United States were inspected on trains and highway crossings at the 33 points from Port Arthur to Kingsgate, B.C., during March of this year.

To date the port of Vancouver has shipped or booked 17,000,000 bushels of wheat to the Orient and South America. The railroads expect at least 2,500,000 additional bushels to be shipped this way in the near future.

The memory of the early missionaries of the Oblate Order will be perpetuated by the Canadian Pacific Railway, and several stations on the extensions of their lines between Kipawa and Quinze will bear names of early members of that organization which did so much for the colonization of the country.

There are thirteen new paper making machines being installed in Canadian paper mills this year. When erected and running full these machines will consume more than 25,000,000 additional cords of wood a year. Canada is already annually consuming and exporting more than 5,000,000 cords of pulpwood, representing the growth of a century or more on 1,250,000 acres of land.

A new service for motor tourists desiring to pass between the mainland and Vancouver Island has been inaugurated between Bellingham and Victoria. The Motor Princess, with a capacity for fifty automobiles and 250 passengers, plies twice daily between the ports. This boat is motor driven and the first of its kind to be operated on the Pacific side of the continent.

In 1922 Canada produced 2,418 tons of salt cake, valued at \$54,804, and 1,329 tons of Glauber salts valued at \$42,719, according to government figures. There are a number of immense deposits of Glauber salts in the province of Saskatchewan, which are at the present time only in the initial stages of development, but it is anticipated that the next few years will see a considerable increase in production.

The Canadian exhibit at the British Empire Exhibition, to be held in London from April 20th to October 31st, 1924, is to be financed, controlled and directed by the Federal Government. The estimated cost is \$1,000,000. The two Canadian railroads are planning exhibits on adjoining sites, each with a floor space of 10,000 feet. The cost of the Canadian Pacific exhibit is estimated at \$300,000.

No season of the year is so dangerous to the life of the little ones as is the summer. The excessive heat throws the little stomach out of order so quickly that unless prompt aid is at hand the baby may be beyond all human help before the mother realizes he is ill. Summer is the season when diarrhoea, cholera infantum, dysentery and colic are most prevalent. Any of these troubles may prove deadly if not promptly treated. During the summer mother's best friend is Baby's Own Tablets. They regulate the bowels, sweeten the stomach and keep baby healthy.

They are sold by medicine dealers or by mail at 25c a box from the Dr. Williams' Medicine Co., Brockville, Ont.

HOOR OF TERROR IN RUSSIA

When Women Wait for the Call of Death From the Drearly Cells in Petrograd.

The dingy interior of the headquarters of the extraordinary commission in Petrograd, with its bare stairs and passages, is an eerie place at all times of the year, but never is its somber, sorrow-laden gloom so intense as on a December afternoon when dusk is sinking into darkness.

While we made our preparations, there sat in one of the inner chambers at No. 2 Gorohovaya, on wooden planks which took the place of beds, a group of women, from thirty to forty in number, their faces undistinguishable in the growing darkness. The room was overheated and nauseatingly stuffy, but the patient figures paid no heed, nor appeared to care whether it were hot or cold, dark or light. A few chatted in undertones, but most of them sat motionless and silent, waiting, endlessly waiting.

The terror hour was not yet—it came only at 7 each evening. Then each victim knew that if the heavy door was opened and her name called, she would pass out into eternity, for executions were carried out in the evening and the bodies removed at night.

At 7 o'clock, all talk, all action ceased. The white-faced women sat still, eyes fixed on the heavy folding door. When it creaked every figure became rigid. A moment of ghastly, intolerable suspense, a silence that could be felt, and in the silence—a name. And when the name was spoken, every figure—but one—would imperceptibly relax. Here and there a lip would twitch, here and there a smile would flicker. But no one would break the dread silence. One of their number was doomed.

The figure that bore the name would rise, move slowly, with unnatural gait, tottering along the narrow aisle between the plank couches. Some would look up, and some would look down, and some would pray, or mutter, "Tomorrow, maybe!" Or there would be a frantic shriek, a brutal struggle, and worse than death would fill the chamber.—St. Paul Oukes (British Secret Intelligence Service), in Harper's Magazine.

Making a Fire.

Some months ago the press reported a man who, while hunting in the wilds of Canada, lost his way, and having nothing to eat but raw meat, and no fire, starved almost to death before he was rescued. And only recently a freshman from Syracuse university was hunting in the Adirondacks and losing his way and having no fire, froze nearly to death.

Had he been brought up in the South before the Civil war and been accustomed, as I was, to hunting with a muzzle-loading shotgun, with paper for wadding, and had been accustomed to setting the paper on fire after firing the gun, they would have had no trouble in starting a fire, writes a Mississippi correspondent of the New York Times. During the Civil war, when a boy of about seventeen, a lieutenant and I were sent into north Mississippi, and on reaching Tallahatchie river in the night and finding the river nearly level with its banks, no way to cross and no one in calling distance, the weather being cool, we had to have a fire. I discharged one chamber of my pistol, cut a piece out of my shirt tail, put a blank cartridge in my pistol, rammed the cloth down on it, fired it, and in a short while had a good fire.

It would seem that the men referred to never thought of such a recourse. Whether they did or not, this may remind some weary, hungry sportsman how he may start a fire.

From Artist to Foreign Minister.

On her return to Chicago, Miss Jane Addams told how she recently met, in the lobby of her hotel at Budapest, a Hungarian whose acquaintance she had made at Zurich in 1919. At that time he was a struggling artist—an amateur who was a refugee from his native country and was earning a living by painting Swiss mountains and lakes and selling them to tourists. He was also studying commercial engraving. When she came across him again at Budapest Miss Addams discussed the political situation with him, and was surprised at the knowledge he showed of public questions, especially in the field of foreign affairs. Finally she remarked to him: "For an artist, you are singularly well informed on politics." He replied, with a smile: "Well, I ought to be, I suppose. You see, I am the minister for foreign affairs."

Illinois Holds First Place.

Illinois greenhouse men have more square feet of space under glass than has any other single state. Illinois ranks first, with 19,626,091 square feet of space under glass, according to a recent census report. In fact, more than half of the total area under glass in the greenhouses of the United States on January 1, 1920, was reported in five states. The other four states are: Ohio, 19,397,183 square feet; New York, 18,289,628; Pennsylvania, 16,923,355; and Massachusetts, 12,98,023. Illinois sold \$9,578,600 worth of flowers and plants in 1919, taking rank at the top of the list.

Abraham Martin Honored

Monument to First Scottish Settler, First King's Pilot On the St. Lawrence, and First Farmer On the Plains of Abraham Unveiled.

At Quebec recently the Hon. Athanasie David, Provincial Secretary in the Quebec Cabinet, officiated at the unveiling of a monument erected by the Canadian Pacific Railway Company in memory of Abraham Martin, who was the first known Canadian of Scottish descent and the first King's pilot on the St. Lawrence River. The Plains of Abraham received their name from him, he receiving a grant of the land from Champlain in 1617. The unveiling of the monument, a handsome granite shaft seven feet high, surmounted by a globe supported by thistles, was an important event and was attended by a large number of prominent citizens and political representatives. The sturdy member is further acclaimed by Andrew Patterson, who says:—

ABRAHAM MARTIN. Auld Scotland many a hero boasts From John o' Groats to Wigtown's coasts, Both Lowland lads and Highland hosts That wear the tartan; But now another seeks your toasts, Old Abrah'm Martin. But what pretence has he to fame, That we should celebrate his name, And thus in stone and bronze proclaim His style and story? A threefold plea can Martin claim— To all this glory. The first of Scotia's sons was he To cross Atlantic's stormy sea— True pioneers of liberty, Giving their best That this Dominion fair might be Blessing and blest. See in his wake the glorious band, MacKenzies, Frasers, foremost stand, MacDonalds, too, in high command, And James McGill, Mountstephen and Strathcona grand— 'Twould pages fill. The first was he to till this plain, Now sacred to that fierce campaign When heroes fell, but not in vain In glorious strife. O Canada, thine was the gain, Renewed thy life! He was the first to mark the tides, The rocks, the shoals St. Lawrence hides— The mariner in his confides And bans his fears; "The ship," he cries, "in safety rides When Martin steers." Though fate 'mong strangers cast his lot He ne'er forgot he was a Scot, Thrifty and shrewd he was, I wot, Canty and gaudy, Proud of the nickname that he got, "Abrah'm l'Ecosais." Let us whate'er our race or creed, This ancient Scot's example heed, And give the best that's in our breed To him. That o'er us may be shed A Canada in word and deed, High-souled and free. A. Patterson

PALE FACES AND WORN OUT NERVES

Due Solely To Weak Watery Blood—A Tonic Is Needed

Anaemia—literally impoverished blood—comes on so stealthily that it is often well advanced before its presence is recognized. Feelings of fatigue and discomfort are the earliest manifestations of the trouble and these are seldom taken seriously. Gradually small tasks become an effort and exertion causes the heart to palpitate violently. The complexion becomes sallow or pale and there is loss of weight. The nerves grow weak and the victim displays irritability under slight provocation and is extremely sensitive to noise. The appetite is fickle and indigestion often follows.

A condition of anaemia calls for a tonic, one that will enrich the blood and strengthen the nerves; for this purpose there is nothing can equal Dr. Williams Pink Pills. These pills give the blood all those missing elements necessary to give strength to the nerves, color to the cheeks and nourishment to starved organs and tissues. Miss Margaret J. Fraser, R.R. 2, Thessalon, Ont. has proved the value of this treatment. She says: "I was very pale and weak. My blood was poor and I was very nervous. I lost my appetite, my feet and ankles were swollen and I was in a very miserable condition. A friend advised me to try Dr. Williams Pink Pills and I got two boxes, and found before they were finished that they were helping me. I continued the pills until I had taken a half dozen boxes, with the result that I am now enjoying the best of health, all symptoms having disappeared. I feel confident that what Dr. Williams Pink Pills did for me they will do for others, if given a fair trial."

You can get these pills from any dealer in medicine or by mail postpaid, at 50c a box, from the Dr. Williams Medicine Co., Brockville, Ont.

THINGS TO FORGET

If you see a tall fellow ahead of a crowd.

A leader of men, marching fearless and proud.

And you know of a tale whose mere telling aloud

Would cause his proud head to in anguish be bowed,

Its a pretty good plan to forget it.

If you know of a skeleton hidden away

In a closet, and guarded and kept from the day,

In the dark, and whose showing, whose sudden display

Would rouse grief and sorrow, and lifelong dismay,

Its a pretty good plan to forget it.

If you know of a thing that will darken the joy

Of a man or a woman, a girl or a boy;

It will wipe out a smile or the least way annoy

fellow, or cause any gladness to cloy—

Its a pretty good plan to forget it.

FIRST FINE FOR GIVING RECEIPT WITHOUT STAMP

St. John Woman Pays \$10 For Neglect Of Excise Law.

The importance of persons placing a stamp on a receipt, was shown at the St. John Custom House a few days ago, when a woman who had neglected to carry out the law was fined \$10 by the Collector of Customs. Any receipt for the amount of \$10 or more, must have a two cent stamp on it, and this means a receipt for anything where a payment is made. On and after October 1, the ordinary postage stamp will not be accepted, and an excise stamp must be used. The case mentioned is the first in which a fine has been imposed in New Brunswick for the disregarding of the stamp law.

LUMBERMEN MAKE YEARLY PAYMENTS

More than a quarter of a million dollars has been received at the Department of Lands and Mines during the last week in payments from lumber operators of New Brunswick due August 1st.

August 1 is the date upon which annual payments of stumpage are due from the licenses operating upon the Crown Lands of the province, and upon this date also license fees as well as the provincial fire tax are payable. These make the present the busiest period in the year for the receiving branch of the Department, and it was stated that the returns so far were "highly satisfactory." This year in addition to the usual amounts due on August 1st, payments were also due in connection with the bonus fixed in 1913 which leases also expired and were renewed for twenty years. The arrangement at that time called for fifty per cent of the bonus sums to be paid down and the remaining fifty per cent, about \$300,000 was to be paid on August 31st, 1923. but as a result of representations which were made some time ago the government extended the period for payment and only fifty per cent of balance which would be twenty five per cent of the original gross amount was ordered paid, the balance being carried over for a year.

PRESIDENT HARDING DIED THURSDAY

President Harding died from apoplexy at 7:30 Thursday evening as Mrs. Harding was reading to him from a magazine, doctors were summoned and pronounced the President dead. He died from apoplexy or rupture of a blood vessel in the brain. Death came with remarkable suddenness, the President being reported as vastly improved after several examinations during the day by five physicians attending him. The body was sent by special train from San Francisco at 7 p.m. Friday to Washington and later to Marion, Ohio, Harding's home city for burial.

Calvin Coolidge, Vice President of the United States took the Presidential oath in the early hours of Friday morning and left Plymouth, Vermont, for Washington to take up his duties as Chief Executive of the country.

King George has commanded that his court shall wear mourning for President Harding for a week beginning Friday. Premier Baldwin sent a message of sympathy to Mrs. Harding. The sight of the American flag flown at half mast over the embassy was the first intimation many Americans had of the death of President Harding.

BRITISH FORESTRY MEMBERS ENJOY SAIL ON RIVER

The members of the British Forestry Association, came through from Bathurst Tuesday morning to Depot Camp and were there the guests of the J. B. Snowball Co. at a woods dinner which was served in style by expert chefs, after which in a neat speech Mr. W. B. Snowball proposed the health of the Association and Lord Lovat responded for the members.

After inspecting the woods nearby the party was conveyed by auto to Newcastle and then to Chatham via the Morrissy bridge. They were guests at lawn tea at the residence of J. W. Brankley and were welcomed to Chatham by Mayor Hickey. In the evening the party had a sail on the river, going on board the S.S. Alexandra and running down river. At Loggieville the band was taken on board and its playing greatly enlivened the evening's proceedings.

The return to Chatham was made at 10 o'clock and the distinguished party entrained at the Chatham station where their special train had been placed on siding after it came through from Bathurst. The train left at 11 o'clock for St. John.

HARVESTERS NEEDED IN WESTERN CANADA

Excursions by Canadian National Railways Will Be On August 3rd and 17th by Special Trains

To harvest the bumper crop of golden grain in the west 50,000 able bodied men are badly needed.

The call from the west is for help and more help. The wheat and it must be successfully harvested and stored for transport.

Low fares will prevail from all points in the Maritime Provinces to Winnipeg, and all points further west. The going dates for these special fares are on August 3rd and 17th when special trains will leave Newcastle at 6:30 p.m. The fare from Newcastle to Winnipeg will be \$22.00 plus half a cent per mile to points beyond in Manitoba, Saskatchewan and Alberta, Edmonton, Calgary, McLeod and east. Special fares apply also for the return trip.

The harvest trains this year will be of very fine equipment. There will be convertible berth colonist cars of latest design and special car service for women and children so that all may travel in comfort. A specially constructed Lunch Counter Car will provide the best facilities for food and refreshments at very reasonable prices. Trains will be especially conducted and every precaution taken to ensure safe and quick transport to the west.

Via the Canadian National is the shortest and best route to the west. Intending excursionists should enquire quickly as to rates, conditions of travel, etc. All ticket agents of the Canadian National Railways will give the required information.

SCHOONER ON NELSON BEACH FOR REPAIRS

The Russian Schooner Sinams, which sprung a leak on her voyage over here was towed to Burchill's Boom, Nelson, on Monday by the tug "J. W. Brankley". She will be beached there and a crew of ship carpenters put to work at it.

At first the captain intended docking his ship at the Snowball Co's dock, but later decided upon the alternative course.

Here and There

The total elevator capacity of Port Arthur and Port William will reach 65,000,000 bushels by September of this year. By the end of 1924 the elevator capacity is expected to reach seventy millions.

Immigration returns of the Canadian Government for the first five months of the present year show a one hundred per cent increase in immigration from the British Isles over the figures for the same period of last year.

The 1923 apple crop of the Okanagan Valley will amount to 4,620 cars according to the estimate of W. T. Hunter, district horticulturist. This is an increase of 20 per cent over last year and a record for the district. The apple crop for Kootenay and boundary districts will approximate 380,000 boxes.

A new high record of production was established by Canadian newsprint mills during May with 110,252 tons, an increase of nearly 10,000 tons over the month of April and 15,750 over May of last year. The daily production in May was 4,084 tons, the highest in the history of the Canadian industry.

Following the opening of the Banff-Windermere Motor Highway, Lieutenant Governor Nichol of British Columbia and Randolph Bruce were honored by the Kootenay Indians who made them an honorary chief and full chieftain of their tribe respectively. The Indian celebrations were held at Invermere in the beautiful Windermere Valley.

Several new air stations are to be opened in Ontario and Quebec in the near future for the purpose of extending the forest area to be patrolled by airplanes. A base is to be established at Ramsay Lake near Sudbury, and from this point all Ontario work will radiate; operations being carried on at Orient Bay, Remi Lake and at least two other substations not yet announced.

If the Canadian pre-war exports of flour are considered as 100, the Dominion's average export total between 1921 and 1923 can be considered as 207. Comparatively, pre-war exports of the United States being rated at 100, its present export is at the rate of 147. This indicates that Canada has more than doubled her export trade in flour while the United States has increased its trade by 47 per cent. Before the war Canada exported 3,522,000 barrels, while at present her exports average 7,885,000 barrels a year.—"Journal of Commerce."

Mr. Georges Delrue, one of the most important personages of France arrived in Montreal by the S.S. "Minnedosa" to take up residence at St. Johns, Que. Georges is two and a half years old and has spent most of his life with his grand parents in Tourcoing, a smart town on the border line of Belgium and France. The journey from the old homestead, via Antwerp, Georges made alone but never out of sight of the watchful eyes of the officials and servants of the company.

Major General Lord Lovett, a passenger on the Canadian Pacific liner "Montcalm," and delegate to the British Empire Forestry Conference, Ottawa, said in connection with his investigations into Canadian forestry methods and applied science, "England has but a small forest area in comparison to Canada, nevertheless, her forests were depleted two-thirds to meet the emergencies of the War, and now we are determined to recover this loss by practical reforestation. We have been working at this for the last three years and expect to make a complete recovery of our work in any other year."

PUTS HEALTH AND VIM INTO WOMEN

So Says Mrs. MacPherson of Lydia E. Pinkham's Vegetable Compound

Brantford, Ontario.—"I was always tired and the least exertion would put me out for a day or two. I had a pressing pain on the top of my head, pain in the nape of my neck, and when I stooped over I could not get up without help, because of pain in my back. I did not sleep well and was nervous at the least noise. I kept house, but I was such a wreck that I could not sweep the floor nor wash the dishes without lying down afterwards. A friend living near me told me what Lydia E. Pinkham's Vegetable Compound had done for her so I began to take it. With the first bottle I felt brighter and got so I could wash dishes and sweep without having to lie down. Later I became regular again in my monthly terms. I have taken ten bottles all told and am now all better. I can truly say that your wonderful medicine cannot be beaten for putting health and vim into a woman."—Mrs. JAMES H. MACPHERSON, 320 Greenwich St., Brantford, Ont.

If you are suffering from a displacement, irregularities, backache, or any other form of female weakness write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women."

"I Now Feel Fine"
Mrs. P. G. Murdoch, Box 433, Fort-Go la Prairie, Man., writes:
"I was troubled for years with biliousness, constipation, kidney and liver troubles. I tried many different kinds of medicine, but nothing did me much good until I tried Dr. Chase's Kidney-Liver Pills. I now feel fine, but am never without these pills in the house. Dr. Chase's Ointment has relieved my husband of piles, from which he used to suffer badly."

It is hoped that a large attendance will be present.

STUCK ON BAR
The pulpwood steamer "Phillip Dodge" went aground last week at the mouth of the river. The vessel was drawing 22 feet of water when she struck on the bar. It went over but took a sheer into shallow water and stuck there. A crew of men from Douglastown went down and threw a large quantity of blocks overboard to lighten her up.

TRAVEL PERMIT REGULATION
The regulation governing permits to travel in New Brunswick forests by notice of July 31, is made to allow permits for but one trip only. The form of permit names certain officials and others who may travel without permit. To those are added clergymen, teachers, pupils accompanied by teachers, Boy Scouts and Scoutmasters.

SALMON PLENTIFUL
Fresh salmon appears to be more plentiful this season than for some years and retail at a lower price. Competition from far off British Columbia is said to be the reason for this. A Halifax concern is handling British Columbia dressed salmon and it is said has made heavy shipments to St. John during the last month. B.C. dressed salmon retail at twenty five cents a pound and the price for Miramichi dressed salmon has been brought down to twenty cents in order to meet the competition from the west.

GOOD SIDE LINE

Lucky Junk Dealer Tumbled into Small Fortune.

Negligence of Authorities of Great Copper Mine Gave Him His Opportunity, and He Took It.

The letters you have been printing about gold seekers in the Far West recall the following incident of copper mining in Montana, writes a correspondent of the New York Herald. Day after day about 20 years ago a rickety old open wagon, drawn by a us-been horse, used to venture out from Anaconda and garner rags, bottles, sacks and old iron. One day, on its return to town, a hind wheel wobbled off as the vehicle was crossing a culvert, and wheel and load slid down into a greenish-looking little rivulet that passed under the culvert. The junk dealer recovered the wheel and drove on sadly into Anaconda. But, being thrifty, he went back one day to salvage the old iron, perhaps a whole dollar's worth. This he fished out of the little stream. He found that every horseshoe, every stove lid, every old broken tool that he clawed out of the shallow water was thickly coated with copper. He kept his mouth shut and in town he melted off that pure copper, for the greenish stream was an outflow of waste water from the great Anaconda smelter, where copper was melted out of the rocky ore of that region. Regularly, long after nightfall, the junk dealer used to go out on that road with a load of old iron and dump it into the greenish stream on this or that side of the culvert and fish out a load earlier deposited. The copper company detectives began reporting mysterious high-grade shipments of pure copper from Anaconda, but no direct thefts could be discovered. Not an employee could be caught red-handed. Finally the junk dealer's nocturnal trips came under suspicion and he was watched and his secret discovered, but not before he had realized a total of about \$34,000 in melting off pure copper from the deposits on his loads of junk iron. The company sought to enjoin him, sought to recover the values he had secured, but the court held that it was waste water in a public highway, and the lucky junk dealer was well within his rights. And the lesson was worth more than the lost value to the copper company, for it resulted in a catchment dam being built inside the company's fence, where scrap iron was used to recover copper values that long before had been running to waste. Accidents sometimes happen!

War on Insects.
The indications are that a great battle is to be waged soon between mankind and the insect army. There is nothing which has a greater potentiality for destruction than insects. There are 5,000,000 different kinds of insects and nearly all of them are bent in the line of destroying food and other materials of value to man. They cause ten times more damage than fire, and according to the Department of Agriculture, the annual tax imposed by insects is greater than pre-war expenditures of the United States. The Hessian fly destroys from 10 to 50 per cent of the grain sowings amounting to \$75,000,000. The Mexican chinch bug eats up \$3,000,000 worth of corn in this country and some worms are responsible for damage to corn amounting to three times that sum. The annual cotton loss is \$35,000,000 and the damage to live stock is considerable. The peculiar feature of this is that although man has for years been studying the insects with the thought of preventing their ravages, their inroads are constantly increasing.

The Clever Saleswoman.
A Cleveland woman went shopping in Paris—they all do—and finally reached a saleswoman who had a working knowledge of English and an engaging air. The customer had a serious question to ask. "Am I to wear my skirts longer than I have been wearing them?" The saleswoman spread out her fat hands. "It largely depends, madame." "Depends upon what?" The saleswoman smiled. "The length of madame's skirts largely depends upon madame's means of locomotion." Which the Cleveland woman considered a very neat way of putting it.

A Little Louder, Doc.
A doctor in the Hume-Mansur building was treating one of his patients, who is slightly deaf. He thought he would be a little sociable and remarked: "Don't those bells of Christ church sound beautiful today?" The patient replied: "I don't get you." The physician repeated and the patient answered a little louder with more emphasis: "You'll have to speak a little louder, Doc, I can't hear you for those church bells."—Indianapolis News.
