The Opposition Platform

Presented by Mr. John A. Mathieson, Provincial Conservative Leader, and ratified at a great Public meeting at Georgetown on Sep. 29th 1908.

PROVINCIAL RIGHTS.

The preparation and presentation of this Island's claims against Canada, including amongst others, the following:

1. The cost of the Prince Edward Island Railway, amounting to \$3,144,000, with interest since 1873
2. Damages for non-fulfilment of the terms of Union respecting continuous communication between this Island and the Mainland.
3. Fair transportation rates.
4. The Tunnel.
5. Compensation in respect of the Public Lands of Canada which have been transferred to the larger Provinces without any consideration for the interest of this province therein.
6. An equivalent for the increased subsidies granted the larger provinces to meet the increased cost of education, public works and agriculture.
7. The payment of the subsidies upon an assumed population of at least 150,000, as was done in the case of British Columbia, Manitoba, Saskatchewan and Alberta, inasmuch as the failure of this Province to attain that population is owing to the default of the Dominion.
8. Restoration of original representation in the Federal Parliament.
9. Our share of the Fishery Award.

PUBLIC ACCOUNTS.

1. The appointment of a Provincial Auditor, who in provincial affairs shall be given like powers to those possessed by the Auditor-General of Canada in his department.
2. A thorough investigation of the public accounts by competent independent accountants and the funding of the debt when ascertained so far as to secure the lowest rate of interest.
3. The era of deficits shall be closed, and upon a successful prosecution of our claims against Canada, the debt of the Province will be discharged.

A Dangerous Plea.

We are surprised to see that Sir Wilfrid Laurier has attempted to dispose of Mr. Borden's arguments with a sneer, and the Liberal newspapers and speakers, following this lead, have set up the cry of a 'Slander Campaign'. This cry has been heard before. It was used with great vigor by the defenders of the Ross Government in Ontario as their unflinching answer to the arraignment which swept them from office with an overwhelming defeat.

AGRICULTURE.

Agriculture being the principal business of this Island should occupy the chief place on the course of studies in the Public Schools.

2. The establishment by the Government of Canada of an experimental farm system within this Province should be urgently pressed to a successful issue.
3. The department should be charged with the duty of negotiating and arranging for better transportation facilities and fair freight rates for this Island's exports and imports and with the collection of its trade statistics.
4. A complete re-organization of this department under a practical head is essential.

EDUCATION.

1. Remedy the existing grievance arising from the excessive prices and inferior quality of text books and school supplies. Let the Government purchase school books and supplies at wholesale prices and furnish the same to the schools at cost.
2. Provide adequate salaries for teachers, and by scale of increase based upon experience and competence, give sufficient encouragement to them to remain in the profession.
3. Provide a thorough Normal School training for all candidates for teacher license.
4. Adapt the system generally to the special needs of this Province.

PUBLIC WORKS.

1. That the Province, except the incorporated towns, be divided into Road Districts and the road taxes collected within each district be expended therein under the supervision of the road officer of each district, and that the deficiency if any be made up out of the general revenue.
2. That such expenditure be made by public competition, so that all taxpayers may have an opportunity of performing work in lieu of taxes.
3. That all amounts in addition to such taxes required by the several districts for their public works be apportioned to the respective districts by resolution of the Legislature.
4. That proper provision be made for the locating, breaking, repairing and marking out of the course of winter roads.
5. That road officers receiving yearly salaries be not allowed any further sums for commission or wages in connection with public works.
6. A complete investigation of the department, a reorganization and improvement of the whole system, and capable administration of the same.

REFORM OF ELECTION LAWS.

To provide for:

1. Vote by ballot.
2. Repeal of all laws enacted by the present Government which favor persons guilty of corrupt practices.
3. Stringent laws to punish bribery and fraud at elections including attempts to commit corrupt practices.
4. Amendments to further secure the independence of members of the Legislature and the exclusion therefrom of persons in the employ of the Dominion Government, whether paid by salary or by fees in lieu of salary.
5. And generally a thorough reform of the Election Laws, with the simplest and most expeditious mode of enforcement of the same.

and to ask his friend, who is ordinarily a Liberal voter, the following questions:—

1. Would you continue to entrust your business to an agent or company who habitually paid two and three prices to special friends for articles easily obtainable at normal prices in the open market?
2. How do you defend the employment by the Laurier Government of W. T. R. Preston and J. B. Jackson as highly paid Government officials?
3. Can you approve of an administration which raises the expenditures of the country by 165 per cent, while the population increases only 35 per cent?
4. What do you think of the giving away of part of your land, worth at the very least \$6.00 an acre, to party friends at \$1.00 per acre?
5. Why should the census of 1901 have cost more than double that of 1891?
6. Why should not the government be condemned for absolute lack of business capacity when you realize that the G. T. P. is going to cost more than three times the estimates brought before Parliament?
7. Why should you and I, as taxpayers, and the country at large, have to foot the whole loss in connection with the Quebec bridge disaster when it was ostensibly being built for the benefit of a private company, who would have reaped the profit if it had been successful?
8. Why should not the country own the G. T. P. for which it is paying?

Just see what answer any intelligent Liberal can give you to plain questions like these? Yes; the most serious question before the electors to-day is this: Do you want the business of this country to be managed on an honest and economic basis or are you willing that reckless extravagance for the benefit of a favored few should continue?

Empty Laurier Pledges.

Possibly the independent voter is at this time endeavoring to decide in which direction to cast his ballot. If so, there should not be much difficulty in arriving at a decision.

Let us look at a few of the many failures to redeem pledges, which can be truthfully laid at the door of the present government.

In 1893 the Hon. W. S. Fielding at a Liberal convention moved a resolution expressing "alarm . . . at the increase of the public debt and of the uncontrollable annual expenditure of the Dominion and the consequent undue taxation of the people" under the then Conservative administration.

In 1896 Sir Wilfrid Laurier, speaking at Brampton, said: "I promise you that if you put our party into power, we will reduce that annual expenditure by \$2,000,000 or \$3,000,000, per annum."

How has he fulfilled this pledge? Note the following:—

Expenditure 1895-6	\$41,792,358.
" 1907-8	111,906,330.
Expenditure per head, 1894-6	8.14
Expenditure per head, 1907-8	18.00
Increase per cent	165 per cent.

Truly an appalling record.

Now what have we to show for this enormous increase in the burden of the taxpayer? The money has gone, and what takes its place? Of course, in reply there are the worn-out generalities, "expenditure on public works", "administration of Justice", "cost of government", etc. But are these explanations satisfactory to a man possessed of ordinary intelligence and powers of observation? Has the population of Canada in the last twelve years increased in the same ratio in which the public expenditure has mounted up, namely, 165 per cent?

Remember this pledge of retrenchment and mark how it has been fulfilled.

Has the population of Canada in the last twelve years increased in the same ratio in which the public expenditure has mounted up, namely, 165 per cent?

Remember this pledge of retrenchment and mark how it has been fulfilled.

We Canadian people must have a care that the National conscience be not degraded. A generation ago the hint of public scandal would have overwhelmed the ablest Ministry of the day. Like Caesar's wife the nation's trustees must have been above suspicion. Any one of our many disclosures of corrupt administration would drive a British cabinet from office and debar the minister responsible from public life forever.

In the strenuous campaign of the Presidential election in the United States no word of the like is heard, and we are given, on occasion, to draw comparisons between American and Canadian politics to our advantage. The American people make short work of a scandalous government. The possibility of a Slander Campaign is sufficient.

If the statement of these facts makes a "Slander Campaign," we fear we are guilty. But it is a very poor argument to call names.

There never was a campaign where so little definite answer was, or could be made by those in power to definite accusations of mismanagement, extravagance, and graft. The Liberal party seems to assume that the very magnitude and multiplicity of these accusations will prevent the average voter from either realizing or believing them. Surely it is time then for every intelligent man to inform himself on these definite allegations made against the Liberal administration

and to ask his friend, who is ordinarily a Liberal voter, the following questions:—

1. Would you continue to entrust your business to an agent or company who habitually paid two and three prices to special friends for articles easily obtainable at normal prices in the open market?
2. How do you defend the employment by the Laurier Government of W. T. R. Preston and J. B. Jackson as highly paid Government officials?

No Disease is so Quiet and Stealthy in its Approach as Kidney Disease

That is why it is so dangerous. It may become deep-seated before you realize the danger.

It is therefore of great importance to recognize the early warning symptoms: pain or dull ache in the back, bladder pain, smarting sensation when urinating, frequent or suppressed urination, sediment in the urine, etc., because in its early stage kidney disease is easily cured by Doan's Kidney Pills.

Mr. Elgin Brisebois, Vernon, Ont., writes:—I was troubled a great deal with kidney trouble. I had to get up four or five times every night, my urine contained a thick brick-dust sediment, I had a pain in the small of my back, and could not sleep at night.

I commenced using Doan's Kidney Pills and in a very short time I was all right again. I am very thankful to have found a cure so speedily in its action.

Doan's Kidney Pills are 50c. per box or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The Doan Kidney Pill Co., Toronto, Ont.

The Opposition Platform.

In this issue will be found the platform presented by Mr. Mathieson, Leader of the Provincial Opposition; upon which he will appeal to the electors of this Province, in a few weeks. This platform is so comprehensive, so reasonable and so well calculated to bring the claims of our Province into proper light before the electorate, that it cannot fail to appeal to the reason and judgment of all fair-minded men. It has been framed with the view of placing our claims on the Federal Government in their true light before the people of Canada, and of properly bringing to the notice of all reasonable and patriotic citizens of this Province the wrongs which we suffer. All who sincerely wish to see these wrongs righted and these claims allowed, should stand by this platform, and rally to the support of the Leader and the party that make it their battle cry in the approaching Local elections.

The very first plank in the platform, the claim for a refund of the cost of our railway, is one that has too long been overlooked and neglected. We built our Island rail way and paid for it, and then had the cost charged up to us at the time we entered the confederation. Surely, then, we should have the price handed back to us. No reasonable man can dispute that this is a valid claim. The restoration of our Federal representation to six members, would only be the implementing of the intention of those who negotiated the terms on which we entered the union. Our share of the Halifax fishery award should be paid to us, and our claim thereto no man can dispute.

The plank in the platform relating to agriculture should meet with the hearty approval of all Islanders. This is a purely agricultural Province and our educational training should prepare the minds of our youth for grappling with this question in the most practical and scientific manner. One plank that all will surely heartily endorse, is that relating to our school books. The high price and frequent changes in the text books in our public schools, constitute an outrage that is felt by all parents, who have children attending school. This monopoly and robbery have been dealt with in the Provinces of Ontario and New Brunswick, and the change of Government, from Liberal to Conservative, in these Provinces has resulted in disrupting the combination, and giving the people their school books at less than one half what they formerly had to pay for them.

Other planks in the platform deal with Public Works, reform of election laws, finances and so on. These questions are of such importance that they cannot be treated in the course of one article; but they shall be referred to from time to time, later on. In the mean time, our friends should read and study the platform, and learn for themselves the magnitude and importance of the issues therein set forth. These matters are of vital importance to this Province, and no elector, who has the welfare of the Island at heart, should fail to familiarize himself with them.

We observe that the Patriot, while attempting a milk and water criticism of the platform,

does not, as is its wont, put forth any claims for the Liberals to the reforms foreshadowed therein. It would be rather awkward for our Liberal friends to claim that the matters of importance to our Island Province, set forth in the platform, had been advocated by them. They and their organ know that the Liberal members of the Legislature are on record against everyone of these reforms. The records of the House will show the divisions, where every member of the Government and every Government supporter in the Legislature stood up and voted against these very reforms. We shall return to this subject later.

The Lowering of our Public Life.

There are so many good reasons for the defeat of the Laurier Government at the coming elections that the supreme issue before the Canadian people is often obscured or overlooked. It is our national life—our character as a people.

The charges against the Laurier Government do not end, unfortunately, with the faults of their administration, their reckless extravagance, their "graft" and corrupt disposal of our national wealth to political parasites. There is a greater peril in the debasement of our public life and the consequent menace to our national character in the political methods of the Ottawa regime. The standards and ideals of its public life are of the very first importance to any community. For not only is the nation's business, and its status among the nations of the world determined accordingly; but, by a relentless law, they are reflected in the social, commercial, and private lives of its people.

We have fallen from the best traditions of Anglo Saxon statesmanship and high-minded unselfish devotion to the public service our fathers, without distinction of party or creed, have handed down to us. Statesmanship has given place to political jugglery, and it is the party's, and not the country's good, that determines the policy of the Liberal majority; merit and qualifications are no longer of any weight against political "pull" and political expediency in public appointments. But it is worse still and humiliating to us as a people that the air is foul with charges of "graft" and "rake off," and of the corrupt enriching of Liberal henchmen at the country's cost, until good citizens are ashamed of the disgraceful disclosures which each session of Parliament spreads broadcast through the land; and that rumors of coarse, vulgar immorality which would exclude those concerned from the company of clean and decent people are of common circulation and have necessarily been made the subject of discussion on the floors of Parliament.

These things are of incalculable evil to the country; and no good citizen can afford to be indifferent to them. To the nation, as to the individual, character is all in all. We charge that the tone of our public life has been sensibly lowered during the twelve years of the Liberal Government and that they are not entitled to support from the better elements of the Canadian people.

Squeezing the Sponge.

As a very important source of national strength and security, it is essential that we should cherish our public credit. Our method of preserving it is to use it as sparingly as possible, to avoid occasions of useless expense and the accumulation of debt. It is essential that we should make vigorous efforts

in time of prosperity to discharge the debts which have accumulated during a lean period, so as not ungenerously to throw on posterity the burdens which we should bear.

To pay debts there must be a revenue, and to have revenue there must be taxes.

Sir Wilfrid Laurier says that during the past twelve years his government has had enormous surpluses, amounting in all to \$113,000,000. He omits to say that this \$113,000,000 has been spent by his government, and further that the public debt has increased by \$20,000,000.

In 1896 the expenditure amounted to \$42,000,000, and in 1908 it amounts to over \$100,000,000.

In 1896 Sir Wilfrid Laurier said "I promise you that if you put our party into power, we will reduce the annual expenditure by \$2,000,000 or \$3,000,000 per annum"; while Sir Richard Cartwright said that "It is a disgrace and a shame to the government that they should ask for an expenditure of \$38,300,000 for federal purposes; the thing is unjustifiable."

In 1908 the Laurier government spent \$68,000,000 more than the Conservative government did in 1896.

To meet the enormous increase in expenditure under the Laurier government, the taxes during the past twelve years have doubled per head. In 1896 the tax per head was \$5.46, in 1908 it is \$11.70.

In 1896 Sir Wilfrid Laurier said, "We are the party of low taxation." Let us not forget that every dollar taken by the Government in the form of taxation each year, is taken from you. As every pound of nails, every axe, every yard of cloth you buy from your merchant is the medium through which you pay taxes to the Dominion Government."

In the above record of expenditures the cost of the country's share of the construction of the Grand Trunk Pacific has not been included. What has the country to show for these enormous expenditures? What will the outcome be if the present administration is retained in power, to preserve its present policy of ruinous expenditures?

The depths of degradation to which the Patriot's notion of journalistic ethics has sunk, is shown by its scandalous conduct in permitting to nondescript writers the free use of its columns. Any sneaking coward, who may desire to stab his neighbor in dark and to lie and slander to his hearts content, without assuming any responsibility for his sordid, readily taken under the aegis of our contemporary. Whether the villain call himself "Onlooker" or any other fictitious name the Patriot takes him under protection and allows the real or imaginary outside prevaricator to fire away under cover. The words of Goldsmith, slightly changed are quite applicable: "Every lying sneak and coward claims kindred here, and has his claim allowed."

The Liberals of Ottawa have, of late, had a heap of trouble about their candidates for the House of Commons. Some weeks ago, they held a convention and nominated A. W. Fraser and Dr. Chevrier as their standard bearers. These nominations caused some surprise and disappointment in the ranks of the stalwarts, inasmuch as the chosen were both new men, instead of the sitting members, Messrs. Stewart and Garon. Garon had been returned last year to fill the unexpired term of A. N. Belcourt, who had received his reward by elevation to the Senate. But in the convention just mentioned he was turned down. Mr. Stewart had been an old and faithful stand-by and had represented the city in the commons for many years; but he was side-tracked to make room for Mr. A. W. Fraser, who had acquired no small amount of notoriety by his connection with western timber deals. His nomination created some consternation in the party ranks, and Mr.

Minard's Liniment cures Distemper.

Stewart's friends were especially hostile. Things went on for a while, and hopes were entertained that peace would be restored. But matters were going from bad to worse till at last the climax was reached when Mr. Fraser was brought before the court at Hull and required to render an accounting to one of his partners in the timber limit graft. What had long been suspected was now substantiated on oath. Mr. Fraser admitted that he had bought the timber limit from the Government for \$1,650 and had immediately sold it to some Americans for \$100,000, making \$98,350 profit on the deal. After these revelations it became quite evident that Mr. Fraser could not by any possibility be elected; consequently it dawned upon Sir Wilfrid Laurier and his friends that Fraser was "an undesirable candidate." The upshot was that both he and his running mate Dr. Chevrier were set aside and Sir Wilfrid Laurier has been selected to fill the gap, in the hope of preventing disaster, with A. H. McEgovern as running mate. Doubtless there are many other "undesirable candidates" running in the Laurier interest; but their guilt has not been so clearly proven as that of Mr. Fraser and as long as there is any hope of their election they are considered admirable.

Weighed in the Balance.

Government is a trust, and the officers of the government are trustees, and both the trust and the trustees are created for the benefit of the people. Let us examine carefully the record of the Laurier Government, and judge for ourselves, whether the trust imposed on them has been administered with the same conscientious care for the responsibility involved, as are required in the execution of public trusts.

If as the Premier states we have had a surplus during the past twelve years of \$13,000,000, where has the money gone? Our public debt during the same period has increased \$20,000,000. What have we to show for it? Sir Wilfrid would say that it has been expended in public works. But what is the character of these works? A million dollar ditch in North York, between Newmarket and Holland Landing, some wonderful harbor on Lake Huron, which was washed away the following year; sections of the Grand Trunk Pacific, which a private corporation would have built for half the money; the Quebec bridge; and other public works of like character, mostly in the province of Quebec, and some others elsewhere. If a farmer or a business man, whose income was increasing each year, started in to spend not only his increased income, but to plunge deeply into debt, what would his friends say?

Would the Premier, contrary to all principles of party government, attempt to disclaim responsibility for the acts, individually and collectively, of his colleagues? It would seem so, but our system of party government is based on the principle that the Premier and his advisers are one, and are jointly responsible to the people for their every action. Responsibility cannot be shirked.

Sir Wilfrid Laurier and the present members of his cabinet are directly responsible to the people for the acts of every member of his Cabinets, present and past. He is therefore responsible for the acts of that former Minister who grew rich in the public service, and who allowed public lands to be sold to relatives and friends at merely nominal prices; He is directly responsible for the acts of the Minister whose department is now the subject of investigation; he is also responsible for the calling to his assistance and keeping as his advisers, the several Ministers now driven from office whose private life was so notorious as to become the subject of public scandal and parliamentary discussion; he must also accept the responsibility for the insult which he and his colleagues have paid to the intelligence of the people of the Province of Ontario, in appointing to high office under the Federal Government, or in accepting as his leading lieutenants in the present campaign in that province, members of the late discredited and corrupt Ross government, and in showing confidence in those men, in whom the people of Ontario, by an overwhelming majority, decided that they had no confidence. Briefly, he has appointed Mr. Ross to a Senatorship, Mr. Gibson to a Lieutenant-Governorship, Mr. Latchford to a Judgeship, Mr. Graham to a portfolio, while Messrs Stratton and Harcourt are Liberal nominees for the Federal House.

If one would seek for further evidence of the weakness of the present administration, let him compare the feeble cabinet aggregation of today even with the Laurier Cabinet of twelve years ago. Is it because there are not still Liberals with as much ability and force of character as the members of the first cabinet, or is it because the high type of Liberal, the man of principle and high ideals, has lost faith in his Premier and party? and is convinced that the public trust is not being properly administered?

Minard's Liniment cures Distemper.

LOCAL & OTHER ITEMS

Sir Wilfrid Laurier says no man in politics can be as honest as some of his critics talk. The Prime Minister means no man of his own stamp. The clean man in politics is not the unknown quantity his words would indicate, and it is only dishonest men who pretend that he is. It is time to have a change.

In commemoration of the first Legislative Assembly ever granted any portion of the British Empire, a corner stone was laid at Halifax on Friday last for a memorial tower on the North West Arm on the property presented to the city by Sir Sanford Fleming. Dr. Sutherland had practiced his profession at Beauce for the past 35 years, and was most popular and highly esteemed by all who knew him.

From all parts of the Province comes the prognostications of Conservative victory at the polls in the Federal election of the 29th inst. In each of the three counties the battle wages warm, and largely attended meetings are addressed by the opposing candidates, night after night. The heat of the argument and the greatest enthusiasm is on the Conservative side. Wherever they go the Opposition candidates are enthusiastically received, while the reception to the Government candidates in money cases is extremely cold. The order of meetings in King's County from now to nomination day is as follows: Cardigan Bridge, Thursday Oct 8 7 p. m. St. Georges, Oct 9 at 7 p. m. Bad House, Saturday Oct 10 at 7 p. m. The announcements as to the p.p.s of the mission were made at the high Mass and the opening sermon was preached on Sunday evening by Rev. Father Campbell. The mission continues this week and next. The first week is for the women and next week will be for the men's mission. In his opening remarks Father Devlin pathetically referred to the death of Fathers Doherty and O'Bryan, who had both participated in a mission given here some years ago, and who both died somewhat suddenly at Montreal within the last two years. He also alluded to the death of Father Hazelton, who had also labored here in missions. He was slated as one of the Fathers to engage in this present mission, and had, for some weeks, been looking forward to it. But he died after three days illness, on Sept. 2nd, while in retreat at the novitiate, Sault au Recollet, near Montreal.

It is supposed that the little fellow had been playing on the edge of the mill pond, had lost his balance and fallen in. Mr. and Mrs. Sheehan have the sincere sympathy of the community in their bereavement.

Andrew Doocy, a well known farmer of East Hill, near Ottawa, is under arrest on a charge of poisoning the well of Robert Brown, merchant in Canby. A few days ago Brown discovered that Paris Green had been placed in the well. He made the discovery before any of the water had been drunk, and reported to the police. Doocy was suspected because his wife left him on account of domestic troubles and had gone to live with Brown. He made threats against Brown, and the police traced his movements on the night the poison was placed in the well.

An Account of Stewardship

Sir Wilfrid Laurier's government has been twelve years in power. It might reasonably be expected that when the premier opened the campaign in Ontario in what is evidently his star speech, it would mainly consist of an account of his stewardship...

The speech of Sir Wilfrid Laurier at Niagara Falls fills several newspaper columns but from one end of it to the other there is no attempt made to give an account of the stewardship of his administration during the last four years or the last twelve years...

When finances were touched upon by the premier his hearers must immediately have pricked up their ears to receive some account of where that \$500,000,000 had gone to, but they were disappointed. He merely dealt with a comparison of the annual expenditure in 1896 and 1908.

The Middleman. The thinking elector will wonder how the Laurier government managed to spend legitimately over \$500,000,000 in twelve years with so little apparent result. The answer...

BLOOD. We live by our blood, and on it we thrive or starve, as our blood is rich or poor. There is nothing else to live on or by. When strength is full and spirits high we are being refreshed—bone, muscle and brain, in body and mind—with continual flow of rich blood. This is health.

SCOTT'S EMULSION. It sets the whole body going again—man, woman and child. Send this advertisement, together with name of newspaper in which it appears, your address and four cents for postage, and we will send you a "Complete Handy Atlas of the World."

Aching Joints

In the fingers, toes, arms, and other parts of the body, are joints that are inflamed and swollen by rheumatism—that acid condition of the blood which affects the muscles also.

Sufferers dread to move, especially after sitting or lying long, and their condition is commonly worse in wet weather.

Hood's Sarsaparilla

Removes the cause of rheumatism—no outward application can. Take it.

not. All he had to say was that as the Conservatives had condemned the platform of '93 they should be glad that he had not carried it out. Could anything be much weaker than that? The Conservatives, like all patriotic Canadians of both parties, have reason to be glad that the platform of 1893, especially its fiscal features, was not put in force.
