produced so valuable a remedy, nor one so potent to cure all diseases resulting from impure blood. It cures Scrofula and all serofulous diseases, Erysipelas, Rose, or St. Anthony's Fire, Pimples and Face-grubs, Pustules, Blotches, Boils, Tumors, Tetter, Humors, Salt Rheum, Scald-head, Ring-worm, Ulcers, Sores, Rheumatism, Mercurial Disease, Neuralgia, Female Weaknesses and Irregularities, Jaundice, Affections of the Liver, Dyspepsia, Emaciation, and General Debility.

By its searching and cleansing qualities it purges out the foul corruptions which contaminate the blood and cause derangement and decay. It stimulates and enlivens the vital functions, promotes energy and strength, restores and preserves health, and infuses new life and vigor throughout the whole system. No sufferer from any disease which arises from impurity of the blood need despair who will give AYER's

whole system. No sunerer from any disease which arises from impurity of the blood need despair who will give AYER'S SARSAPARILLA a fair trial.

For Sale, Of

SARSAPARILLA a fair trial.

It is folly to experiment with the numerous low-priced mixtures, of cheap materials, and without medicinal virtues, offered as blood-purifiers, while disease becomes more firmly seated. Ayen's Sarsaparilla is a

rise above the surface only ten inches to munded thousand dollers cannot be raised in a week, or a much particularly in poor times. We understand that about \$25,000, or 250 shares have been taken up. We do taink, however, that the wealthy men in Annapolis town and at Granville Ferry, are not putting as much money in it, in proportion to their mean as others. There are eight or ten much there who could take up all the stock. They seem to think that it is the duty of the farmers to encourage the enter prise, and so it is; and they will do so in finding freights for the ship. Depend upon it, if the company obtain a suitable vessel and conduct the busistics.

The Municipal Council.—The fears are the surface only ten inches to an understand. The toundeds that were fully expected to be present, led there by the morbid curiosity that is hard to understand. The fence proved of no avail whatever, as for the surface only ten inches to allow of small windows for ventilation and light. There is a double floor above the fence proved of no above the much of sweaths that were fully expected to be present, led there by the morbid curiosity that is hard to understand. The fence proved of no avail whatever, as during Monday evening the structure was partly torn down by some parties. The deputy sheriff succeeded in driving them away for the time, but they after wards returned and completely demolished the remainder of the fence of the public view. They seem to think that it is the duty of the farmers to encourage the enter prise, and so it is; and they will do so in finding freights for the ship. Depend upon it, if the company obtain a suitable vessel and conduct the busistic state.

The Municipal conduct the busistance of the public view of the farmers to encourage the enter prise, and so it is; and they will do so in finding freights for the ship. Depend upon it, if the company obtain a suitable vessel and conduct the busistic state.

Soldering Cast Iron

To the Editor of the Scientific American :

the pump was in use.

As no one could determine where such the season, a proof that he was a perprocure a new wheel. To make a new pattern for another wheel like the broken one, pay for casting and fitting up, would cost several dollars; so I concluded to solder the parts together. Several machinists laughed me in the face for suggesting such a manner of repairing that wheel. But I took all the parts, and went wheel could have the parts, and went wheel could have the parts of an emery wheel, and the surface of the iron on both sides of the to multiply instances. They occur concracks or breaks was neatly polished tinually, in the middle of the day, and for at least half an inch to an inch from in the most fashionable quarters of the break. Some of the arms were Paris, and not merely to girls of queseight arms. Some of the arms tore and forward demeanor, but to reserved away a piece of the rim. In some pieces it was not practicable to touch the surface with an emery wheel or modest young ladies, who go on their ways without any thought but that of completing their business as speedily as file. The only way of removing the possible. If this be civilization, better hard scale and rust from such places the roughest village in the backwoods was with a sharp cold chisel. All the hard scale and rust from such places was with a sharp cold chisel. All the polished surfaces were first tinned in a thorough manner, after which the arms were put in their respective places, and the parts neatly and thoroughly solder.

ed all over the breaks. The job cost end of the United States than all the polish size of the ordinary 25c bottle.

I bottle best Mucilage, three times the size of the ordinary 25c bottle.

I targe, so far as true courtesy is concerned. — Lucy H. right about with a few sharp words and A few weeks ago, being in a manu, a threat of the police. In another factory where hardware of all sorts is instance more flagrant still, a young prade for harness, I was told that pieces American girl had left the hotel at of cast iron could not be soldered to which she was staying on the Rue gether; and that if any inventor could Neuve St. Augustin, and went, accomdevise a process by which cast iron panied by her maid, to the Rue de la could be soldered, he could not fail to Paix to take a carriage. It must be disclose a process that would be of premised that the young lady in ques untold value, especially to manufactur. tion is a singularly modest, refined ers of harness hardware. As I have looking girl, remarkably beautiful, it is been accustomed, for many years past, true, but in a pale and tranquil style of to solder together pieces of cast iron, always with most satisfactory results, morning for a near relative, so that it occurred to me that perhaps the nothing in her dress any more than in little experience which I have had may her demeanor or aspect would attract help some mechanics out of a little attention. Nor was the hour late, being about three o'clock in the after. Many years ago the cistern pump of noon. She was standing on the side Many years ago the cistern pump of a neighbor was allowed to freeze up when partially filled with water, the result of which was the cylinder was bursted for about six inches in length
The part of the cylinder at the crack was placed on the grindstone, and saw to her harror that her aggressor ground away until the iron was clean bad gone round to the other side of and bright for an inch or more on the cab, and was in the act of opening both sides of the crack. Then the cylinder was put in a vice and screwed up tightly and held in the vice while to drive off at once, holding the door with all her strength. The cab drove solder was applied along the crack.

The first process was to tin the sur face of the cast iron, so that the solder maid, and seizing her by the arm, would take a strong hold of the iron, demanded from her the name and ad-Muriatic acid was applied with a swab to the bright iron, after which a little sorely frightened, broke from him and of the best kind of solder was laid on rushed back to the hotel, which fortuand rubbed rapidly over the surface, nately was not far off. Then I know a with the soldering iron as hot as it case in which two young sisters, who could be without burning the tin off had gone out together for a short walk, the copper soldering iron. After the were followed up stairs to the vary door cast iron had been well tinned solder of their apartment by an elderly man was applied, and piled on over the with the dress and bearing of a gentle-

crack until it was at least one eighth man, and wearing the red ribbon of the ler. Truro of an inch thick all over the crack. legion of honor in his buttonhole. That solvering never failed so long as He desisted from his pursuit, however. Last year a cast iron wheel on our and coming forth of an American Gene portable forge was broken, by an accident, into so many pieces that it was of the young ladies. They saw him Favorite Literature. judged to be impracticable to mend it. afterwards at one of the official balls of forges were manufactured we could not procure a new wheel. To make a new Then I know of an instance where a broken in two pieces. There were tignable dress, make up complexions A FURTHER DEVELOPMENT

The latest Yankee notion ten cents for the solder. The wheel runs as true as it did before it was broken, and to all appearance every part is as strong as ever. Indeed, we gular that a self-levelling floor for the all indee that the parts would broke in prevention of the effect of the tossing.

How to FEED BRAN .-- Bran or ground No better remedy in the whole materia medica has yet been compounded for the re-No better remedy in the whole materia medica has yet been compounded for the relief and oure of Female Complaints, of the erdinary kind, that VEGETINE. It seems to act in these cases with unwonted certainty, and never fails to give a new and beautifut tone to the famale organs, to remove relaxed debility and unhealthy secretions, and restore a healthy vigor and elasticity. One of the most common of these complaints is Lucorthage or Whites, which are brought on either by the presence of Serotulas in the system or by some affection of the womb, or eyen by gameral debility. For all these complaints, and when danger begins to threaten women at the turn of life, Vegetine can be commended without qualification. The great prevaled with saliva, and the saliva assists and when danger begins to threaten women at the turn of life, Vegetine can be commended without qualification. The great prevaled with saliva, and the saliva assists in digestion. When food is masticated, the act of rumination causes the saliva to flow and mix with food. We have experimented, and find that when fed alone rite with American ladigs. Too long has it been the custom to prescribe nauseating and

H. R. STEVENS, Boston—Dear Sir: I was afflicted with Heart and Kidney Diseases, and other Female Weaknesses, and doctored with other Female Weaknesses, and doctored with several physicians and received no benefit, until I tried your Vegetine, and after taking two bottles I was completely cured, and have been a healthy woman ever since, although I am in my sixty-sixty year. I do heartly yreconamend it as a splendid medicine to all afflicted as I have been, and I bless the day that it fell into my hands.

The turkeys are fed as usual the night before butchering, and in the barn floor, as soon as the ducks arose a few hundred as soon as the ducks arose a few hundred as soon as the seven and commenced to a separate a little, ducks began to drop, and whether you believe it or not, I hey can be caught as they are wanted. that it fell into my hands.
